GUARANTY BANCSHARES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2003
(DOLLARS IN THOUSANDS, EXCEPT PER SHARE DATA)
(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of Guaranty Bancshares, Inc. (the Company) and its wholly-owned subsidiaries Guaranty (TX) Capital Trust I, Guaranty (TX) Capital Trust II, and Guaranty Financial Corp., Inc., which wholly owns Guaranty Bond Bank (the Bank). Guaranty Bond Bank has three wholly owned non-bank subsidiaries, Guaranty Leasing Company, Guaranty Company and GB Com, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for a complete presentation of financial position. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis, and all such adjustments are of a normal recurring nature. These financial statements and the notes thereto should be read in conjunction with the Company s Annual Report on Form 10-K for the year ended December 31, 2002, filed with the Securities and Exchange Commission on March 14, 2003. The Company has consistently followed the accounting policies described in the Annual Report in preparing this Form 10-Q. Operating results for the three months ended March 31, 2003, are not necessarily indicative of the results that may be expected for the year ending December 31, 2003.

In preparation of the accompanying unaudited consolidated financial statements, management is required to make estimates and assumptions, which are based on information available at the time such estimates and assumptions are made. These estimates and assumptions affect the amounts reported in the accompanying unaudited consolidated financial statements. Accordingly, future results may differ if the actual amounts and events are not the same as the estimates and assumptions of management. The collectability of loans, fair value of financial instruments, other real estate values and status of contingencies are particularly subject to change.

NOTE 2. EARNINGS PER SHARE

Earnings per share is computed in accordance with Statement of Financial Accounting Standards No. 128, which requires dual presentation of basic and diluted earnings per share (EPS) for entities with complex capital structures. Basic EPS is based on net earnings divided by the weighted-average number of shares outstanding during the period. Diluted EPS includes the dilutive effect of stock options granted using the treasury stock method.

	Three Months Ended March 31,	
	2003	2002
	(Unaudited)	
Weighted-average common shares used in basic EPS	2,922,484	3,003,872
Potential dilutive common shares	28,098	14,501
Weighted-average common and potential dilutive common shares used in dilutive EPS	2,950,582	3,018,373

NOTE 3. STOCK OPTIONS

In 2000, the Company granted nonqualified stock options to certain executive officers of the Company and the Bank under the Company s 1998 Stock Incentive Plan. The grants consisted of eight-year options to purchase 89,500 shares at an exercise price of \$9.30 per share, which was the market price of the Company s stock on the date the options were granted. In February

2002, the Company granted eight-year options to purchase 20,000 shares at an exercise price of \$12.50 per share, which was the market price of the Company's stock on the date the options were granted. The options fully vest and become exercisable in five equal installments commencing on the first anniversary of the date of grant and annually thereafter. At March 31, 2003, options for 2000 shares have been exercised and 893,500 options remain available for future grant under the 1998 Stock Incentive Plan.

In accordance with a new accounting standard, *SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, an Amendment of FASB Statement No. 123*, the Company transitioned to the fair value method of accounting for stock-based compensation during 2002 using the modified prospective method prescribed by the standard. Under the modified prospective method, the Company began recognizing stock-based employee compensation expense from the beginning of 2002 as if the fair value method had been used to account for all employee awards granted, modified, or settled in fiscal years beginning after December 15, 1994. The fair value of options granted is determined using the Black-Scholes option valuation model. Stock-based employee compensation expense totaled approximately \$13,000 and \$6,000 for the three months ended March 31, 2003 and 2002, respectively. Under the modified prospective method, no stock-based employee compensation expense is recognized for periods prior to adoption.

The weighted-average fair value per share of options granted during 2002 was \$4.09. The fair value of options granted was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: dividend yield of 2.24%; expected volatility of 28.7%; risk-free interest rate of 5.0%, and an expected life of 8.00 years. There were no options granted or exercised in the three months ended March 31, 2003.

NOTE 4. COMMITMENT AND CONTINGENCIES

In the normal course of business, the Company enters into various transactions, which, in accordance with accounting principles generally accepted in the United States of America, are not included in the consolidated balance sheets. These transactions are referred to as off-balance sheet commitments. The Company enters into these transactions to meet the financing needs of its customers. These transactions include commitments to extend credit and letters of credit, which involve elements of credit risk in excess of the amounts recognized in the consolidated balance sheets. The Company minimizes its exposure to loss under these commitments by subjecting them to credit approval and monitoring procedures.

The Company enters into contractual commitments to extend credit, normally with fixed expiration dates or termination clauses, at specified rates and for specific purposes. Customers use credit commitments to ensure that funds will be available for working capital purposes, for capital expenditures and to ensure access to funds at specified terms and conditions. Substantially all of the Company's commitments to extend credit are contingent upon customers maintaining specific credit standards at the time of loan funding. Management assesses the credit risk associated with certain commitments to extend credit in determining the level of the allowance for credit losses.

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The Company's policies generally require that letters of credit arrangements contain security and debt covenants similar to those contained in loan agreements.

Outstanding commitments and letters of credit are approximately as follows (dollars in thousands):

	Contract or Notional Amount	
	March 31, 2003	December 31, 2002
	(Unaudited)	
Commitments to extend credit	\$ 24,583	\$ 27,838
Letters of credit	1,161	1,140

The Company is subject to various claims and legal actions occurring in the normal course of business. The Company accrues for estimated losses in the accompanying financial statements for those matters where management believes the likelihood of an adverse outcome is probable and the amount of the loss is reasonably estimable. After consultation with legal counsel, management currently believes the outcome of outstanding legal proceedings, claims and litigation involving the Company will not have a material adverse effect on the Company's business, financial condition or results of operation.

In November 1998, Guaranty Leasing was informed by the Internal Revenue Service (the Service) that it has taken the position that certain losses taken by one of the three Partnerships during 1994, 1995 and 1996 of \$302,000, \$410,000 and \$447,000, respectively, would be disallowed. In October 2001, Guaranty Leasing was informed by the Service that it has taken the position that certain losses taken by the Partnership during 1997 of \$487,000 would also be disallowed. In September 2002, the Company received from the Service a Notice of Final Partnership Administrative Adjustment (FPAA) disallowing these deductions. Based upon the advice of counsel, the Company believes that it has correctly reported these transactions for tax purposes and that it has obtained appropriate legal, accounting and appraisal opinions and authority to support its positions. However, as of December 31, 2002, the Company had recorded and expensed the tax affect of the disallowed deductions. On February 3, 2003, the Company filed a petition to begin the process to litigate the matter in the United States District Court for the Eastern District of Texas. Any final determination with respect to the Partnership will be binding on the Company. Should the Service pursue an investigation of and ultimately disallow the related tax deductions taken during the remaining years of the above partnership as well as the other two partnerships, the Company would be required to recognize an additional maximum tax liability of approximately \$3.9 million plus possible penalty and interest. The Company is actively contesting the position of the Service in connection with this matter, and will take appropriate steps necessary to protect its legal position. During 2002, the Company sold its ownership in one of the partnerships and dissolved the other two, therefore no additional deductions have been taken in 2003.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in this Quarterly Report on Form 10-Q include forward-looking information within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the Safe Harbor created by those sections. These forward-looking statements involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, but are not limited to, the following factors: competitive pressure in the banking industry significantly increasing; changes in the interest rate environment reducing margins; general economic conditions, either nationally or regionally, are less favorable than expected, resulting in, among other things, a deterioration in credit quality and an increase in the provision for possible loan losses; changes in the regulatory environment; changes in business conditions; volatility of rate sensitive deposits; operational risks including data processing system failures or fraud; asset/liability, matching risks and liquidity risks; and changes in the securities markets and the factors contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 as filed with the Securities and Exchange Commission.

10

These risks and uncertainties are beyond the Company's control and, in many cases, the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated by the forward-looking statements. When used in this document, the words believes, plans, expects, anticipates, intends, continue, may, will, should or the negative of such terms and similar expressions as they relate to the Company, its customers or its management are intended to identify forward-looking statements.

GENERAL OVERVIEW

Guaranty Bancshares, Inc. (the Company) is a registered bank holding company that derives substantially all of its revenues and income from the operation of its subsidiary, Guaranty Bond Bank (the Bank). The Bank is a full service bank that provides a broad line of financial products and services to small and medium-sized businesses and consumers through ten

banking locations in the Texas communities of Mount Pleasant (two offices), Bogata, Commerce, Deport, Paris, Pittsburg, Sulphur Springs, Talco and Texarkana. The Company also maintains an office in Fort Stockton, Texas that limits its product offerings to loans and time deposits.

FINANCIAL OVERVIEW

Net earnings available to common shareholders for the three months ended March 31, 2003 were \$1.0 million or \$0.35 per share compared with \$982,000 or \$0.33 per share for the three months ended March 31, 2002, an increase of \$53,000 or 5.4%. The increase is due primarily to an increase in net interest income of \$273,000 or 6.9%, an increase in other operating income of \$209,000 or 59.1% and an increase of realized gain on sale of securities of \$104,000 or 281%, which increases were offset by an increase in noninterest expenses of \$462,000 or 11.7%.

Gross loans decreased to \$364.9 million at March 31, 2003, from \$365.6 million at December 31, 2002, a decrease of \$675,000 or 0.2%. Total assets increased to \$528.2 million at March 31, 2003, compared with \$518.0 million at December 31, 2002. The increase of \$10.3 million in total assets is primarily in cash and securities available for sale which increased \$928,000 and \$11.1 million, respectively offset by decreases in federal funds sold and gross loans of \$1.4 million and \$675,000 respectively. The net increase in assets resulted from an increase in deposits of \$1.0 million and an increase in Federal Home Loan Bank (FHLB) advances of \$9.9 million. Total deposits increased to \$426.0 million at March 31, 2003 compared with \$425.0 million at December 31, 2002. This increase comes primarily from an increase in certificate of deposits of \$2.6 million or 1.1%, partially offset by a net decrease in NOW, savings, and money market accounts of \$1.9 million or 1.6%.

Total shareholders equity was \$35.1 million at March 31, 2003, representing an increase of \$437,000 or 1.3% from December 31, 2002. This increase is due to the earnings for the period of \$1.0 million partially offset by a decrease in accumulated other comprehensive income of \$437,000 and the purchase of 10,000 shares of treasury stock at a cost of \$161,000.

RESULTS OF OPERATIONS

Interest Income

Interest income for the three months ended March 31, 2003 was \$7.0 million, a decrease of \$38,000 or 0.5% compared with the three months ended March 31, 2002. The decrease in interest income is due primarily to lower yields on earning assets partially offset by an increase in the average volume of earning assets. Average loans were \$361.5 million for the three months ended March 31, 2003, compared with \$330.9 million for the three months ended March 31, 2002, an increase of \$30.6 million or 9.3%. Average securities were \$108.9 million for the three months ended March 31, 2003, compared with \$79.5 million for the three months ended March 31, 2002, an increase of \$29.4 million or 36.9%. Average federal funds sold were \$4.5 million for the three months ended March 31, 2003, compared with \$12.7 million for the three months ended March 31, 2002, a decrease of \$8.2 million or 64.6%. Growth in the average volume of interest-earning assets was primarily funded by the growth in deposits for the period and an increase in FHLB advances. The decrease in interest income are primarily due to a decrease in the average yield earned on interest-earning assets from 6.79% during the three months ended March 31, 2002 to 6.01% during the three months ended March 31, 2003.

Interest Expense

Interest expense on deposits and other interest-bearing liabilities was \$2.8 million for the three months ended March 31, 2003, compared with \$3.1 million for the three months ended March 31, 2002, a decrease of \$311,000 or 9.9%. The decrease in interest expense is due primarily to a lower yield in average interest-bearing liabilities from 3.48% for the three months ended March 31, 2002, to 2.75% for the three months ended March 31, 2003. The decrease was partially offset by growth in the average volume of interest-bearing liabilities and FHLB advances. Average interest-bearing deposits were \$360.0 million for the three months ended March 31, 2003, compared with \$326.1 million for the three months ended March 31, 2002, an increase of \$33.9 million or 10.4%. Average FHLB advances were \$47.1 million for the three months ended March 31, 2003 compared with \$33.0 million for the three months ended March 31, 2002, an increase of \$14.0 million or 42.5%. Average long-term debt

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

increased from \$7.0 million for the three months ended March 31, 2002 to \$10.0 million for the three months ended March 31, 2003 due to the issuance of \$3.0 million in trust preferred securities by the Company in October 2002.

Net Interest Income

Net interest income was \$4.2 million for the three months ended March 31, 2003 compared with \$3.9 million for the three months ended March 31, 2002, an increase of \$273,000 or 6.9%. The increase in net interest income resulted primarily from growth in average interest-earning assets to \$474.9 million for the three months ended March 31, 2003, from \$423.1 million for the three months ended March 31, 2002, an increase of \$51.8 million or 12.2%, partially offset by an increase in total interest-bearing liabilities to \$417.1 million for the three months ended March 31, 2003, from \$366.2 million for the three months ended March 31, 2002, an increase of \$51.0 million or 13.9%. The net interest margin decreased from 3.78% to 3.60% for the three months ended March 31, 2003 compared with the same three months period ended March 31, 2002. This decrease can be attributed to the fact that the percentage growth in average interest-earning liabilities exceeded the percentage growth in average interest-bearing assets, thereby causing the ratio of average interest-earning assets to average interest-bearing liabilities to decrease. Additionally, the average rate paid on interest-bearing assets decreased at a faster rate than the average rate earned on interest-earning liabilities due to the Bank's positive gap position in a falling interest rate environment.

The Company's net interest income is affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as a volume change. It is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing deposits and other borrowed funds, referred to as a rate change. The following tables set forth, for each category of interest-earning assets and interest-bearing liabilities, the average amounts outstanding, the interest earned or paid on such amounts, and the average rate earned or paid for the three months ended March 31, 2003 and 2002, respectively. The tables also set forth the average rate earned on total interest-earning assets, the average rate paid on total interest-bearing liabilities, the net interest spread and the net interest margin for the same periods. The net interest spread is the difference between the average rate earned on total interest-earning assets less the average rate paid on total interest-bearing liabilities. The net interest margin is net interest income as a percentage of average interest-earning assets.

Provision for Loan Losses

Provisions for loan losses are charged to income to bring the total allowance for loan losses to a level deemed appropriate by management of the Company based on such factors as the industry diversification of the Company's commercial loan portfolio, the effect of changes in the local real estate market on collateral values, the results of recent regulatory examinations, the effects on the loan portfolio of current economic indicators and their probable impact on borrowers, the amount of charge-offs for the period, the amount of nonperforming loans and related collateral security, and the evaluation of the Company's loan portfolio by an external loan review firm. The provision for loan losses for the three months ended March 31, 2003, is \$375,000, compared with \$250,000 for the three months ended March 31, 2002, an increase of \$125,000 or 50.0%. The increase is due to the increase in average loans of 9.3% over the comparable three months period. Management believes increasing the allowance for loan losses is prudent as total loans, particularly higher-risk commercial, construction, and consumer loans, increase. The increase is also due to the unstable economic conditions.

Noninterest Income

The following table presents, for the periods indicated, the major categories of noninterest income (dollars in thousands):

	Three Months Ended March 31,	
	2003	2002
	(Unaudited)	
Service charges on deposit accounts	\$ 683	\$ 644
Fee income	256	173
Fiduciary income	41	39
Other noninterest income	265	141
Realized gain on securities	141	37
	<hr/>	<hr/>
Total noninterest income	\$ 1,386	\$ 1,034
	<hr/>	<hr/>

As the table above indicates, the Company's primary sources of recurring noninterest income are service charges on deposit accounts and fee income. Noninterest income for the three months ended March 31, 2003 increased \$352,000 or 34.0% over the same period ended March 31, 2002. The increase in noninterest income for the three months ending March 31, 2003 is primarily due to the increase in gain on sale of securities realized in 2003 over 2002, an increase in service charges on deposit accounts created by an increase in the number of deposit accounts, and an increase in the sale of mortgage loans into the secondary market. In the three months ended March 31, 2003, the Company realized a gain on sale of mortgage-backed securities of \$141,000 from the sale of \$24.5 million of securities compared with a gain on the sale of mortgage-backed securities of \$37,000 from the sale of \$4.2 million of securities during the three months ended March 31, 2002. Disregarding the gain on sale of securities, the Company's increase in noninterest income was \$248,000 or 24.9%. Fee income and other noninterest income increases were primarily the result of an increase in the volume of mortgage loans sold into the secondary market. This activity generated noninterest income of \$229,000 for the three months ended March 31, 2003 compared with \$44,000 for the three months ended March 31, 2002, an increase of \$185,000 or 420.5%.

Noninterest Expenses

The following table presents, for the periods indicated, the major categories of noninterest expenses (dollars in thousands):

	Three Months Ended March 31,	
	2003	2002
	(Unaudited)	
Employee compensation and benefits	\$ 2,339	\$ 2,107
Non-staff expenses:

Other	743	608

	Three Months Ended March 31,	
Total non-staff expenses	1,613	1,383
Total noninterest expenses	\$ 3,952	\$ 3,490

The increase in employee compensation and benefits for the three months ended March 31, 2003 is due primarily to normal salary increases and additional staff placement in the Mt. Pleasant, Texarkana and Paris locations to handle customer growth. The number of full-time equivalent employees was 220 and 193 at March 31, 2003 and March 31, 2002 respectively.

Other non-staff expenses increased \$135,000 or 22.2% over the comparable three months period in 2002. Increases in other non-staff expenses were partially the result of increases in software support fees and ATM and debit card expenses.

Income Taxes

Income tax expense decreased \$15,000 to \$237,000 for the three months ended March 31, 2003 from \$252,000 for the same period in 2002. The income stated on the consolidated statement of earnings differs from the taxable income due to tax-exempt income, the amount of non-deductible interest expense and the amount of other non-deductible expense.

FINANCIAL CONDITION

Loan Portfolio

Gross loans were \$364.9 million at March 31, 2003, a decrease of \$675,000 or 0.2% from \$365.6 million at December 31, 2002. Loan growth occurred primarily in the commercial real estate and in construction and land development loans, offset by decreases in consumer, commercial and industrial loans. Average loans comprised 76.1% of total average interest-earning assets at March 31, 2003 compared with 78.2% at March 31, 2002.

The following table summarizes the loan portfolio of the Company by type of loan as of March 31, 2003 and December 31, 2002 (dollars in thousands):

Allowance for Loan Losses

In originating loans, the Company recognizes that it will experience credit losses and that the risk of loss will vary with, among other things, general economic conditions, the type of loan being made, the creditworthiness of the borrower over the term of the loan and, in the case of a collateralized loan, the quality of the collateral for such loan. The Company maintains an allowance for loan losses in an amount that it believes is adequate for estimated losses in its loan portfolio. Management determines the adequacy of the allowance through its evaluation of the loan portfolio. In addition to unallocated allowances, specific allowances are provided for individual loans when ultimate collection is considered questionable by management after reviewing the current status of loans which are contractually past due and considering the net realizable value of the collateral for the loan. Loans are charged off against the allowance for loan losses when appropriate. Although management believes it uses the best information available to make determinations with respect to the allowance for loan losses, future adjustments may be necessary if economic conditions differ from the assumptions used in making the initial determinations. Loan charge-offs, net of recoveries, during the three months ended March 31, 2003 increased \$170,000 or 146.6% over the same period ended March 31, 2002. This increase is due primarily to additional charge-offs recognized during the period caused by the Company's aggressive position on identifying problem assets. At March 31, 2003 and March 31, 2002, the allowance for loan losses totaled \$3.8 million or 1.04% of gross loans and \$3.5 million or 1.04% of gross loans, respectively. The allowance for loan losses as a percentage of nonperforming loans was 88.42% at March 31, 2003.

Nonperforming Assets

Nonperforming assets were \$6.0 million at March 31, 2003 compared with \$4.3 million at December 31, 2002. Nonaccrual loans increased \$156,000 from \$2.8 million at December 31, 2002 to \$3.0 million at March 31, 2003. This increase is due primarily to a number of small lines added totaling \$731,000 partially offset by two lines of credit totaling \$575,000 taken off nonaccrual status. The new lines have collateral value which exceeds the total debts and no loss is anticipated. Accruing loans 90 or more days past due increased \$906,000, from \$404,000 at December 31, 2002 to \$1.3 million at March 31, 2003. This increase is due primarily to two lines of credit totaling \$1.7 million becoming past due, partially offset by smaller lines of credit totaling \$794,000 and becoming current. Management believes that these lines of credits are well collateralized and no loss is anticipated. Other real estate increased \$605,000 during the same period. This increase is primarily the result of loans that were foreclosed on during the period totaling \$767,000, net of sales of properties with a carrying value of \$162,000. Management anticipates minimal losses on the total of these new nonperforming assets.

The ratio of nonperforming assets to total loans and other real estate was 1.63% and 1.18% at March 31, 2003, and December 31, 2002, respectively.

The following table presents information regarding nonperforming assets as of the dates indicated (dollars in thousands):

	March 31, 2003	December 31, 2002
	(Unaudited)	
Nonaccrual loans	\$ 2,966	\$ 2,810
Accruing loans 90 or more days past due	1,310	404
Total nonperforming loans	4,276	3,214
Other real estate	1,716	1,111
Total nonperforming assets	\$ 5,992	\$ 4,325

Securities

Securities totaled \$118.0 million at March 31, 2003, an increase of \$11.0 million from \$107.0 million at December 31, 2002. At March 31, 2003, securities represented 22.3% of total assets compared with 20.7% of total assets at December 31, 2002. The yield on average securities for the three months ended March 31, 2003, is 4.00% compared with 5.55% for the same period in 2002. At March 31, 2003 securities included \$6.6 million in U.S. Government securities, \$90.9 million in

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

mortgage-backed securities, \$16.1 million in collateralized mortgage obligations, \$3.1 million in equity securities, and \$1.3 million in municipal securities. The average life of the securities portfolio at March 31, 2003 is approximately 3.81 years, however, all of the Company's securities are classified as available-for-sale.

Other Assets

Other assets totaled \$9.4 million at March 31, 2003 compared with \$9.3 million at December 31, 2002, an increase of \$113,000 or 1.2%. This increase resulted primarily from the recording of additional cash value of key-man life insurance that the Company owns.

Deposits

At March 31, 2003, demand, money market and savings deposits account for approximately 42.7% of total deposits, while certificates of deposit make up 57.3% of total deposits. Total deposits increased \$1.0 million or 0.2% from December 31, 2002 to March 31, 2003. This increase comes primarily from an increase in certificates of deposits of \$2.6 million or 1.1% due to the offering of competitive yields on these deposits, partially offset by a decrease in NOW accounts of \$1.3 million or 3.2%. Noninterest-bearing demand deposits totaled \$68.8 million or 16.1% of total deposits at March 31, 2003, compared with \$68.5 million or 16.1% of total deposits at December 31, 2002. The average cost of deposits, including noninterest-bearing demand deposits, is 2.38% for the three months ended March 31, 2003 compared with 2.98% for the same period in 2002.

Liquidity

The Company's asset/liability management policy is intended to maintain adequate liquidity for the Company. Liquidity involves the Company's ability to raise funds to support asset growth or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate the Company on a continuing basis. The Company's liquidity needs are primarily met by growth in core deposits. Although access to purchased funds from correspondent banks is available and has been utilized on occasion to take advantage of investment opportunities, the Company does not continually rely on these external-funding sources. The cash and federal funds sold position, supplemented by amortizing investments along with payments and maturities within the loan portfolio, has historically created an adequate liquidity position.

The Company's cash flows are composed of three classifications: cash flows from operating activities, cash flows from investing activities, and cash flows from financing activities. As summarized in the unaudited condensed consolidated statements of cash flows, the most significant transactions which affected the Company's level of cash and cash equivalents, cash flows, and liquidity during the first three months of 2003 are the purchases of securities available for sale of \$52.4 million, the sales of securities available for sale of \$24.5 million, maturities, calls, and principal repayments of securities totaling \$15.8 million, the net change in short-term FHLB advances of \$10.0 million, and the net decrease in loans of \$3.7 million.

Capital Resources

Both the Board of Governors of the Federal Reserve System (Federal Reserve), with respect to the Company, and the Federal Deposit Insurance Corporation (FDIC), with respect to the Bank, have established certain minimum risk-based capital standards that apply to bank holding companies and federally insured banks, respectively. As of March 31, 2003, the Company's Tier 1 risk-based capital, total risk-based capital and leverage capital ratios are 11.41%, 12.45%, and 8.07%, respectively. As of March 31, 2003, the Bank's risk-based capital ratios remain above the levels required for the Bank to be designated as well capitalized by the FDIC with Tier 1 risk-based capital, total risk-based capital and leverage capital ratios of 10.68%, 11.71%, and 7.59%, respectively.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in the market risk information disclosed in the Company's Form 10-K for the year ended December 31, 2002. See Form 10-K, Item 7A, Quantitative and Qualitative Disclosures about Market Risk.

ITEM 4. CONTROLS AND PROCEDURES

- (a) Evaluation of Disclosure Controls and Procedures.

The Company's chief executive officer and chief financial officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c)) as of a date (the Evaluation Date) within 90 days before the filing date of this quarterly report on Form 10-Q, have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and designed to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities.

- (b) Changes in internal controls

There were no significant changes in the Company's internal controls or, to the knowledge of the Company's chief executive officer and chief financial officer, in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the Evaluation Date.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various claims and legal actions occurring in the normal course of business. The Company accrues for estimated losses in the accompanying financial statements for those matters where management believes the likelihood of an adverse outcome is probable and the amount of the loss is reasonably estimable. After consultation with legal counsel, management currently believes the outcome of outstanding legal proceedings, claims and litigation involving the Company will not have a material adverse effect on the Company's business, financial condition or results of operation.
