**Item 1.01. Entry into a Material Definitive Agreement**

On January 29, 2008, the Company entered into a distribution and sale agreement with Sun Pharmaceutical Industries Limited (“Sun”), its majority shareholder. Under the agreement, the Company has the exclusive right to market and distribute Pantoprazole Sodium Delayed Release Tablets 40 mg (the “Product”) and such other Paragraph IV filing products as may be mutually agreed to between the Company and Sun. Under the Agreement, Sun is required to manufacture, produce and supply each product to the Company for sale by the Company in the U.S. and Puerto Rico. The Company is responsible for all marketing, selling and distribution expenses for the sale of the products. Unless earlier terminated, the Agreement expires on January 29, 2011. The license granted with respect to a product terminates upon the end of 180 day exclusivity or a non-appealable positive court decision or until a third generic manufacturer launches the product in the U.S. and Puerto Rico, whichever is later, or at the time that a settlement is completed, at which time the product will become part of the standard Caraco-Sun marketing agreement. The distribution and sale agreement was approved by the Company’s Independent Committee comprised of the Company’s four independent directors.

Sun is currently involved in patent litigation concerning the Product with Wyeth and Altana (recently acquired by Nycomed) in the U.S. District Court for the District of New Jersey. Although no trial date has yet been set, in September 2007, the District Court denied a motion filed by Wyeth and Altana for a preliminary injunction related to the Product. Wyeth and Altana have appealed the District Court’s decision.

The foregoing summary of the distribution and sale agreement is qualified in its entirety by reference to the agreement which is filed as Exhibit 10.22 to this Form 8-K.
