Edgar Filing: GREENMAN TECHNOLOGIES INC - Form NT 10-K

Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or (2) Section 30 of the Investment Company Act of 1940 during the preceeding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s). Yes No

Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal (3) year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Registrant's business changed in August 2011, when it sold substantially all of the assets of its Green Tech Products, Inc. molded rubber products operations. The consideration for the purchase of the assets was (i) the assumption by the buyer of substantially all of Green Tech Products' liabilities, which were approximately \$1.2 million; (ii) a \$50,000 stock inventory credit toward the purchase of products and services from the buyer, which credit may be applied during the first nine months after completion of the sale; and (iii) a promissory note in the principal amount of \$100,000 which is payable in increasing monthly installments over a period of 60 months. Because the molded rubber products business was operated during only a portion of fiscal 2011, Green Tech Products' assets, liabilities and results of operations will be classified as discontinued operations for all periods to be presented in the Form 10-K for the fiscal year ended September 30, 2011. The Registrant recognized a loss on sale of approximately \$59,000 which is included in loss on sale of discontinued operations. The Registrant's current operations are comprised of its dual fuel conversion operations (American Power Group, Inc.).

The Registrant anticipates reporting revenues from continuing operations of approximately \$1.77 million for the fiscal year ended September 30, 2011, an increase of \$1.44 million as compared to approximately \$.33 million for the fiscal year ended September 30, 2010. The increase is attributable to stronger domestic stationary and international stationary and vehicular dual fuel revenues.

The Registrant anticipates reporting a net loss from continuing operations of approximately \$5.6 million and loss from discontinued operations of approximately \$1.2 million for the fiscal year ended September 30, 2011. This net loss is in comparison to a net loss from continuing operations of approximately \$4.9 million for the fiscal year ended September 30, 2010 and a loss from discontinued operations of approximately \$.71 million. The increase in the annual net loss from continuing operations for the fiscal year ended September 30, 2011 is primarily attributable to a \$.62 million increase in research and development costs and an increase in interest and financing costs of approximately \$.73 million.

In addition, as a result of the operating losses incurred during fiscal 2011, the Registrant anticipates reporting a working capital deficiency of approximately \$2.67 million at September 30, 2011 as compared to working capital of approximately \$1.0 million at September 30, 2010.
