RESULTS OF OPERATION

COMPARISON OF NINE MONTHS ENDED SEPTEMBER 30, 2004 AND SEPTEMBER 30, 2003

Revenues for the nine months ended September 30, 2004 were \$4,043 thousands compared to \$4,202 thousands recorded for the nine months ended September 30, 2003.

Gross profit for the nine months ended September 30, 2004 was \$2,116 thousands, or 52.3% of revenues, compared to \$3,141 thousands or 74.7% of revenues for the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

nine months ended September 30, 2003 (or \$2,802 thousands and 66.7% of revenues, when excluding income of \$339 thousands in the nine months ended September 30, 2003 due to a reversal of a non-recurring royalty for the Office of the Israeli Chief Scientist). The major reason for the decrease in gross profit was an increase in revenues from new products with lower gross margins such as Thin Clients, which were introduced in 2004.

Research and development expenses for the nine months ended September 30, 2004 were \$1,559 thousands compared to \$1,686 thousands for the nine months ended September 30, 2003. This decrease was mainly due to a reduction of 16% of our research and development workforce. Income from grants and participation in research and development cost represent funding that we received from the Office of the Chief Scientist. The approved grant by the Office of the Chief Scientist for the year 2004 was \$511 thousands compared to \$283 thousands for the year 2003. As a result, the income from grants for the nine months ended September 30, 2004 was \$370 thousands compared to \$202 thousands in the nine months ended September 30, 2003.

Selling and marketing expenses for the nine months ended September 30, 2004 were \$933 thousands compared to \$1,934 thousands for the nine months ended September 30, 2003, a 51.7% decrease. The decrease in selling and marketing expenses for the nine months ended September 30, 2004 resulted from a reorganization of our sales and marketing organization. In Europe, up until the second quarter of 2003, we marketed our BOScom products through subsidiaries in the U.K. and France. Currently, we market our products through local distributors that provide pre and post-sales support. Products sold in the rest of the world are serviced from our headquarters in Israel. In addition, as a result of the reorganization, in the nine months ended September 30, 2003, we recorded a restructuring cost of \$592 thousands.

General and administrative expenses for the nine months ended September 30, 2004 increased to \$1,152 thousands compared to \$1,020 thousands for the nine months ended September 30, 2003, mainly due to the increase in management human resources.

Equity losses of an affiliated company, Surf Communications Solutions Ltd. for the nine months ended September 30, 2004 amounted to \$215 thousands compared to \$341 thousands for the nine months ended September 30, 2003.

Net loss from continuing operations for the nine months ended September 30, 2004 was reduced by 32% to \$1,424 thousands from \$2,093 thousands for the nine months ended September 30, 2003.

The net loss related to the discontinuing operations for the nine months ended September 30, 2004 was \$18 thousands compared to an income of \$2,114 thousands in the nine months ended September 30, 2003. The income in the nine months ended September 30, 2003 resulted from debt settlement with the external creditors of Pacific Information Systems Inc., for an amount that was significantly lower than the face value of the debt.

The total net loss for the nine months ended September 30, 2004 was \$1,442 thousands, compared to net income of \$21 thousands in the nine months ended September 30, 2003. On a per share basis, the net loss for the nine months ended September 30, 2004 was \$0.35 per share compared to a \$0.01 net earning per share in the nine months ended September 30, 2003.

LIQUIDITY AND CAPITAL RESOURCES

We finance our activities by different means, including equity financings,

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

long-term loans, grants from the Office of the Chief Scientist in Israel and income from operating activities.

In December 2003, we received net proceeds of \$928 thousands from a private placement with two European investors. We issued these investors 357,143 ordinary shares at a price per share of \$2.80. We also granted these investors certain incidental registration rights with respect to the ordinary shares they purchased.

On June 10, 2004, we entered into a Securities Purchase Agreement with Laurus Master Fund Ltd., under which we issued and sold to Laurus in a private placement a Secured Convertible Term Note of a \$2 million principal amount, due June 10, 2007 and a warrant to purchase 130,000 ordinary shares at an exercise price of \$4.04 per share. The Warrant is exercisable, in whole or in part, until June 10, 2011. The Note bears interest at a fluctuating interest rate equal at all times to the prime rate plus 3%, subject to reduction if the average closing price of the our ordinary shares exceeds certain benchmarks. The proceeds from the private placement are being used for general working capital purposes and/or mergers and acquisitions.

The Note is convertible into our ordinary shares at a price of \$3.08 per share (subject to adjustment). The principal amount of the Note is repayable in monthly installments, commencing as of October 1, 2004, in the initial amount of \$20,000 eventually increasing to \$73,600, and may be paid in cash or, subject to certain conditions, in ordinary shares. Interest on the Note is payable monthly and may be paid in cash or, subject to certain conditions, in ordinary shares. The Note is secured by a security interest on certain of our assets.

We also entered into a Registration Rights Agreement with Laurus pursuant to which we agreed to prepare and file with the Securities and Exchange Commission within 45 days a registration statement covering the resale of the ordinary shares that are issuable upon conversion of the Note (including interest) and/or exercise of the Warrants. A delay in the effectiveness of the registration of our ordinary shares beyond a certain date subjects us to payment to Laurus of liquidated damages equal to 2.0% of the outstanding principal amount of the note for each thirty (30) day period of delay (prorated for partial periods).

As of September 30, 2004, we had \$5,098 thousands in cash and cash equivalents, \$2,490 thousands in marketable securities, and positive working capital of \$6,299 thousands. Net cash used in operating activities of continuing operations in the nine months ended September 30, 2004 was decreased to \$688 thousands compared to \$2,535 thousands in the nine months ended September 30, 2003. The major reason for this decrease was a decrease in the net loss from continuing segments to \$1,424 thousands in the nine months ended September 30, 2004 compared to \$2,093 thousands in the nine months ended September 30, 2003. Net cash provided by financing activities in the nine months ended September 30, 2004 was \$1,785 thousands compared to net cash used in financing activities in the amount of \$159 thousands in the nine months ended September 30, 2004. The net cash provided by financing activities in the nine months ended September 30, 2004 was related to proceeds from long term convertible note in the amount of \$1,805 thousands, net of issuance expenses.

Working capital and working capital requirements will vary from time-to-time and will depend on numerous factors, including but not limited to, operating results, the level of resources devoted to research and development, new product introductions, grants from the Office of the Chief Scientist in Israel and marketing and acquisition activities.

We have in-balance sheet financial instruments and off-balance sheet contingent

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

commitments. Our in-balance sheet financial instruments consist of our assets and liabilities. Our cash is invested in short-term (less than 3 months) U.S. dollars and NIS interest bearing deposits with banks. Our receivables' aging is between 60 to 70 days and our current liabilities' aging is approximately 60 days. The fair value of our financial instruments is similar to their book value. Our off-balance sheet contingent commitments consist of: (a) royalty commitments to the Israeli Office of the Chief Scientist that are directly related to our future revenues, (b) lease commitments of our premises and vehicles, (c) directors and officers' indemnities, in excess of the proceeds received from liability insurance which we obtain, and (d) legal proceedings.

We believe that cash resources are sufficient to meet our needs for at least 12 months following the date of this submission. However, it is our intention to engage in equity and loan financing to advance our feature-rich products and establish distribution channels in new markets. There is, however, no assurance that we shall be able to obtain such financing.

B.O.S. BETTER ONLINE SOLUTIONS LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. DOLLARS IN THOUSANDS

NOTE 1:- BASIS OF PRESENTATION

B.O.S. Better Online Solutions Ltd. is an Israeli corporation together with its subsidiaries (hereinafter "the Company" or "BOS"):

These unaudited interim condensed consolidated financial statements reflect the Company's financial position as of September 30, 2004 and for the year ended December 31, 2003. The statements also present the Company's statements of operations for the nine and three months ended September 30, 2004 and 2003 and for the year ended December 31, 2003, and the statements of cash flow for the nine and three months ended September 30, 2004 and 2003 and for the year ended December 31, 2003. The December 31, 2003 consolidated balance sheet, statement of operations and statements of cash flow data was derived from the Company's audited financial statements and does not include all of the disclosures required by accounting principles generally accepted in the United States. These interim statements include all normal recurring adjustments, which the Company believes are necessary to fairly present the Company's financial position. All material intercompany balances have been eliminated. Because all the disclosures required by accounting principles generally accepted in the United States are not included, these interim statements should be read in conjunction with the restated audited consolidated financial statements for the year ended December 31, 2003, included in the Company's annual report on Form 20-FA filed with the Securities and Exchange Commission on January 6, 2005. The statements of operations for the periods presented are not necessarily indicative of results for any future period, or for the entire year.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Company to base its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

NOTE 2:- SHARE-BASED COMPENSATION

The Company has elected to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB-25"), and Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation" ("FIN 44"), in accounting for its employee stock option plan. Under APB-25, when the exercise price of the Company's employee stock options equals or is above than the market price of the underlying shares on the date of grant, no compensation expense is recognized.

The Company applies SFAS No. 123 and EITF 96-18, "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction With, Selling, Goods or Services", with respect to warrants issued to non-employees. SFAS No. 123 requires the use of option valuation models to measure the fair value of the warrants at the date of grant.

In September 2004, the Company entered into an agreement with Quasar Communication Systems Ltd. ("Quasar"), to purchase the assets and liabilities of Quasar, for an aggregate purchase price of \$ 539 by issuance of shares. The value of the ordinary shares issued was determined based on the average market price of the Company's ordinary shares over the period including two days before and after the terms of the transaction were agreed to and announced. The results of Quasar's operations have been included in the consolidated financial statements since September 28, 2004 ("the closing date").

Quasar is an Israeli company engaged in the business of developing, manufacturing and selling of cellular communication gateways.

The acquisition will enable the Company to continue developing the communication division, while offering to the Company's clients an extended product line that will enable savings in telecommunication expenses for enterprise.

NOTE 3:- ACQUISITION OF QUASAR (CONT.)

The acquisition has been treated using the purchase method of accounting in accordance with FASB 141 "Business Combination". The purchase price has been allocated to the assets acquired based on their estimate fair value at the date of acquisition. The excess of the purchase price over the estimated fair value of the tangible and intangible assets acquired has been recorded as goodwill.

The financial statements reflect the purchase price of \$ 596, determined as follows:

NOTE 4:- DISCONTINUED OPERATIONS

On June 1, 1998, the Company acquired 100% of the share capital of Pacific Information Systems Inc. ("Pacinfo"), a U.S. corporation. Pacinfo was a reseller of computer networking products. In April 2001, Pacinfo acquired Dean Technologies Associated LLC. ("DT"), a Texas limited liability company, which also operated in the computer-networking segment. In May 2002, the Board of Directors of the Company decided to sell all of Pacinfo's activities. During the fourth quarter of 2002, the Company initiated a plan to cease operations of Pacinfo and to proceed with a voluntary liquidation of Pacinfo.

The results of operations including revenues, operating expenses and other income and expenses of Pacinfo for the nine months ended September 30, 2004 and 2003 and the year ended December 31, 2003 have been presented in the accompanying statements of operations as discontinued operations.

The carrying amounts of the major classes of assets and liabilities included as part of the discontinued operations are:

NOTE 6:- LONG-TERM CONVERTIBLE NOTE

On June 10, 2004, the Company entered into a Securities Purchase Agreement ("the Purchase Agreement"), with Laurus Master Fund Ltd. ("the Investor"), under which the Company issued to the Investor in a private placement (i) a Secured Convertible Term Note of a \$ 2,000 principal amount, due June 10, 2007 ("the Note"). According to the agreement, several fees in the amount of \$ 115 were paid to the Investor. Those fees are presented as discount of the principal convertible loan. The Note is convertible into Ordinary shares at a price of \$ 3.08 per share. The principal amount of the Note is repayable in monthly installments, commencing as of September, 2004, in the initial amount of \$ 20 eventually increasing to \$ 74. The Note bears prime interest rate plus 3% which subject to reduction in certain conditions(ii) a warrant to purchase 130,000 Ordinary shares at an exercise price of \$ 4.04 per share ("the Warrant"). The Warrant is exercisable, in whole or in part, until June 10, 2011. Any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages, equal to 2.0% for each thirty (30) day period of the original principal amount of the note.

The note conversion price is subject to proportional adjustment in the event of stock splits, combinations, subdivisions of the ordinary shares or if dividend is paid on the ordinary shares in ordinary shares. In addition, if BOS issues stock in certain types of transactions at a price lower than the initial conversion price, then the conversion price will be adjusted to a lower price based on a weighted average formula.

NOTE 7:- CONTINGENT LIABILITIES

- a. In July 2002, the Company received a claim letter from Operate Lease Ltd., ("Operate Lease") under which it claims that the Company's termination notice of the leasing agreement in March 2002 constitutes a breach of the agreement and Operate Lease is demanding compensation in which the nominal claim amount is \$ 292. No legal proceeding has yet been filed. At this stage, according to the Company's counsel assessment, the prospects of Operate Lease to prevail and recover a significant amount, seem remote. The financial statements do not include any provision in that regard.

- b. In 1998, as part of Pacinfo Share Purchase Agreement between the Company and Mr. Jacob Lee (the seller of Pacinfo who became a shareholder of the Company), certain actions involving Pacinfo, if occurred before the end of 2003, may trigger a tax event for Mr. Jacob Lee. The Company may be obligated, under certain assumptions and according to the purchase agreement, to grant Mr. Lee a loan on a full recourse basis for certain tax payments Mr. Lee may be liable for and reimburse Mr. Lee for certain interest on taxes that he may owe, estimated at approximately \$ 1,500. The Company will receive a security interest in shares of the Company that Mr. Lee holds at the time of the loan with a fair market value as of the date of the loan of at least 125% of the amount of the loan as security for the repayment of the loan.

Acquisition of Odem:

On November 3, 2004, the Company entered into definitive share purchase agreements for the purchase of 63.8% of the issued and outstanding shares of Odem Electronic Technologies 1992 Ltd. ("Odem"), from Odem's existing shareholders. Odem, an Israeli private company, is a major solution provider and distributor of electronics components and advance technologies in the Israeli market. The closing of the transaction is subject to certain closing conditions.

In consideration of Odem's shares, the Company will issue (i) 290,532 of the Company's Ordinary shares; and (ii) will pay an amount of \$ 1,971 in cash.

In addition, Odem's selling shareholders and the Company have certain put and call options with respect to all of the remaining Odem shares

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL STATEMENTS

The following unaudited pro forma condensed combined financial statements have been prepared to give effect to the acquisitions by BOS Better Online Solutions Ltd. ("BOS") of Odem Electronic Technologies 1992 Ltd. ("Odem") and the assets purchase of Quasar Communication Systems Ltd. ("Quasar") under the purchase method of accounting after giving effect to the pro forma adjustments described in the accompanying notes.

The following unaudited pro forma condensed combined balance sheet as of September 30, 2004 gives effect to the acquisitions of substantially all the assets of Quasar and the share purchase of Odem, as if it had occurred on such date, and reflects the allocation of the purchase price to the Quasar and Odem, assets acquired based on their estimated fair values at the date of acquisitions. The excess of the consideration paid by BOS in the acquisitions over the fair value of Quasar and Odem, identifiable assets and liabilities has been recorded as goodwill.

The following unaudited pro forma condensed combined statements of operations combine the historical statements of operations of BOS, Quasar and Odem. The unaudited pro forma condensed combined statements of operations for the year ended December 31, 2003 and nine months ended September 30, 2004, give effect to the Quasar's and Odem's acquisitions as if it had occurred on January 1, 2003 and combine the historical unaudited statements of operations of BOS, Quasar and Odem, for such period. Integration costs are not included in the accompanying unaudited pro forma condensed combined financial statements. This pro forma information should be read in conjunction with the respective consolidated historical financial statements (including notes thereto) of BOS, Quasar and Odem, for the year ended December 31, 2003, and for the nine months ended September 30, 2004, appearing elsewhere herein.

Unaudited pro forma condensed combined financial information is presented for illustrative purposes only and is not necessarily indicative of the financial position or results of operations that would have actually been reported had the acquisitions occurred at the beginning of the periods presented, nor is it necessarily indicative of future financial position or results of operations. These unaudited pro forma condensed combined financial statements are based upon the respective historical financial statements of BOS, Quasar and Odem, and do not incorporate, nor do they assume, any benefits from cost savings or synergies of the combined company. The pro forma adjustments are based on available financial information and certain estimates and assumptions that BOS believes are reasonable and that are set forth in the notes to the unaudited pro forma condensed combined financial statements. In addition, the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

pro forma balance sheet includes allocations of the purchase price based upon preliminary estimates of the fair value of the assets and liabilities acquired. These allocations may be adjusted in the future upon finalization of these preliminary estimates.

In the end of September, 2004, we acquired all of the assets of Quasar which reflected in the historical balance sheet of BOS as of September 30, 2004.

The unaudited pro forma condensed combined financial statements reflect the following:

- a. The purchase of assets of Quasar Communication Systems Ltd. ("Quasar"). BOS purchased the majority of Quasar's assets relating to Quasar's business, including its property and equipment, technology, trade name and existing distribution channels. In consideration for the acquired assets, the Company has issued Quasar 285,000 Ordinary Shares, which are subject to a "lock-up" period of one year.

The Company also committed to purchase Quasar's inventory in the ordinary course of business, for cash consideration equal to the book value of Quasar's inventory amounting to \$ 517.

The purchase consideration was estimated as follows:

Issuance of shares (1)	\$ 539
Transaction cost	57

Total consideration	\$ 596
	=====

- (1) The value of the ordinary shares issued was determined based on the average market price of the Company's ordinary shares over the period including two days before and after the terms of the transaction were agreed to and announced.

Based on an analysis report prepared by management, the purchase price is allocated as follows:

	SEPTEMBER 28, 2004
ALLOCATION OF PURCHASE CONSIDERATION	-----
Tangible assets acquired	\$ 76
Inventory purchase commitment liability	(147)
Intangible assets	
Trade name	180
Current technology	125
Distribution network	200
Goodwill	162

Total consideration	\$ 596
	=====

- b. The share purchase of Odem Electronic Technologies 1992 Ltd. ("Odem"), from Odem's existing shareholders. In consideration for 63.8% of Odem's shares the Company (i) will issue 290,532 of the Company's

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

ordinary shares and (ii) will pay an amount of \$ 1,971 in cash.

In addition, the Odem's selling shareholders and the Company has certain put and call options with respect to all of the remaining Odem shares held by such sellers, exercisable against consideration comprised of additional cash and issuance of additional ordinary shares of the Company. The Company's ordinary shares issued are subject to "lock-up" periods of 2 to 4 years.

BOS BETTER ONLINE SOLUTIONS LTD. AND ITS SUBSIDIARY

NOTE 1:- GENERAL (CONT.)

The purchase consideration was estimated as follows:

Cash consideration	\$ 1,971
Estimated transaction costs	120
Issuance of shares (1)	770

Total consideration	\$ 2,861
	=====

(1) The value of the ordinary shares issued was determined based on the average market price of the Company's ordinary shares over the period including two days before and after the terms of the transaction were agreed to and announced.

Based upon a preliminary valuation of tangible and intangible assets acquired, BOS has allocated the total cost of the acquisition to Odem's assets as follows. (This allocation is for pro forma purposes only. Actual fair values will be based on the fair value of the net assets purchased as of November 17, 2004):

ALLOCATION OF PURCHASE CONSIDERATION	SEPTEMBER 30, 2004

Tangible assets acquired	\$ 1,487
Options	
Put option to minority shareholders	(359)
Call option to minority shareholders	230
Intangible assets	
Customer base	1,406
Deferred tax liability	(430)
Goodwill	527

Total consideration	\$ 2,861

=====

In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," goodwill arising from acquisitions will not be amortized. In lieu of amortization, BOS is required to perform an annual and interim impairment review. If BOS determines, through the impairment review process, that goodwill has been impaired, it will record the impairment charge in its statement of operations. BOS will also assess the impairment of goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

NOTE 2: - PRO-FORMA

The pro forma condensed combined balance sheet includes the adjustments necessary to give effect to the acquisitions as if it had occurred on January 1, 2003 and to reflect the allocation of the acquisitions cost to the fair value of tangible and intangible assets acquired as noted above, including the elimination of Quasar's equity account and Odem's equity account.

Adjustments included in the pro forma condensed combined balance sheet are summarized as follows:

- a) Cash consideration paid for Odem Incorporated was estimated as follows:

Cash consideration		\$ 1,971
Estimated transaction costs		120

Total consideration		\$ 2,091
		=====

- b) Valuation of Odem's intangible assets allocated to customers base, and goodwill at the amount of \$ 1,406 and \$ 527 respectively.
- c) Valuation of Call options to Odem's sellers at the amount of \$ 230 presented in other intangible assets.
- d) Valuation of deferred tax liabilities amounted to \$ 430.
- e) Valuation of Put options to Odem's sellers at the amount of \$ 359.
- f) Elimination of the Odem Equity at the amount of \$ 2,331.
- g) Issuance of 290,532 Ordinary shares valued at \$770.
- h) The minority rights in a subsidiary of 36.2% amounted to \$ 844.
- i) Amortization of Odem's intangible assets of \$ 141 and \$ 105 for the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

year ended December 31, 2003 and for the nine-month period ended September 30, 2004.

- j) Deferred tax benefit on account of amortization of intangible assets of \$ 51 and \$ 37 for the year ended December 31, 2003 and for the nine-month period ended September 30, 2004.
- k) Amortization of Quasar's intangible assets of \$ 91 and \$ 68 for the year ended December 31, 2003 and for the nine-month period ended September 30, 2004 respectively.
- l) Minority interest in earnings in Odem of 36.2% amounted to \$ 27 and \$ 111 for the year ended December 31, 2003 and for the nine-month period ended September 30, 2004 respectively.

CERTIFIED PUBLIC ACCOUNTANTS (ISR.)

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

TO THE SHAREHOLDERS OF
QUASAR COMMUNICATION SYSTEMS LTD.

We have audited the Quasar Communication Systems Ltd., ("the Company") balance sheets as of December 31, 2003 and 2002 and the related statements of operations, changes in shareholders' equity and cash flows for each of the two years in the period ended December 31, 2003. These financial statements are the responsibility of the Company's Board of Directors and management. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Israel, including those prescribed by the Israeli Auditors (Mode of Performance) Regulations, 1973 and with the standards of the Public Company Oversight Board (United State). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our examination, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2003 and 2002 and the results of its operations, changes in shareholders equity and its cash flows for each of the two years in the period ended December 31, 2003, in conformity with accounting principles generally accepted in the Israel Furthermore, in our opinion, the financial statements referred to above are prepared in accordance with the Israeli Securities (Preparation of Annual Financial Statements) Regulations, 1993.

Accounting principles generally accepted in Israel vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in note 19 to the financial statements.

As explained in note 2, the above mentioned financial statements are presented in values adjusted to changes in the general purchasing power of the Israeli currency, in accordance with pronouncements of the Institute of Certified Public

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

Accountants in Israel.

Without qualifying our opinion, we wish to draw your attention to note 1C in the financial statements. The Company had suffered a loss of approximately NIS 6.5 millions in the year ended December 31, 2003. The Company's capital and working capital deficiencies as of December 31, 2003 amounted to approximately NIS 1.4 million and NIS 1.1 millions respectively.

The ability of the Company to continue to operate as a going concern is dependent upon increasing profitability and/or raising additional financial support.

The financial statements do not include any adjustments relating to recoverability and classification of the assets and liabilities that might be necessary should the company be unable to continue as a going concern.

This opinion is based on our opinion to the financial statements for the above mentioned years, the last one of which, for the year ended December 31, 2003 was at March 28, 2004.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

IN THOUSANDS IN NEW ISRAELI SHEKELS

NOTE 1 - GENERAL

A. Quasar Communication Systems Ltd. (the Company) was founded and commenced its operation on August 1993. The Company engaged in developing, manufacturing and selling of cellular communication gateways.

B. DISCONTINUED OPERATION

On September 29, 2004, the company entered into an assets purchase agreement with B.O.S Better On-Line Solutions Ltd. ("BOS). Under the agreement BOS will purchase the majority of the company's assets relating to the company's business, including its fixed assets, product lines, intellectual property rights and industrial rights. BOS also committed to purchase the company's inventory.

These financial statements have been prepared as of September 28, 2004, immediately before the above-mentioned transaction, and do not reflect the impact of the agreement on the financial statements.

C. GOING CONCERN ASSUMPTION

The company had suffered a loss of approximately NIS 6.5 millions and NIS 1.7 millions for the year ended December 31, 2003 and for the period of nine months ended September 28, 2004, respectively. The company had also suffered from negative cash flows from operations amounting to approximately NIS 3.5 millions and NIS 2.2 millions as for these periods, respectively. The company's capital deficiencies as of December 31, 2003 and September 28, 2004 amounted to approximately NIS 1.4 millions and NIS 3 millions, respectively. The company's working capital deficiencies as for these days, amounted to approximately NIS 1.1 millions and NIS 3.6 millions, respectively. The ability of the Company to continue to operate as a going concern is dependent upon increasing its profitability and/or raising additional financial support.

D. THE USE OF ESTIMATES IN THE PREPARATION OF THE FINANCIAL STATEMENTS

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

E. UNAUDITED INTERIM FINANCIAL STATEMENTS

1) The accompanying balance sheet as of September 28, 2004, the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

statements of operations and of cash flows for the nine months ended September 28, 2004 and September 30, 2003, and the statements of changes in shareholders' equity for the nine months ended September 28, 2004 are unaudited.

- 2) The interim financial statements have been prepared in accordance with generally accepted accounting principles for the preparation of financial statements for interim periods, as prescribed in Accounting Standard No. 14 of the Israeli Accounting Standards Board.

The significant accounting policies applied in the preparation of the interim financial statements are identical to those followed in the preparation of the latest annual financial statements, except as described below.

- 3) The results for the nine months ended September 30, 2004 are not necessarily indicative of the results to be expected for the whole year ending December 31, 2004.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies which have been applied consistently with those of prior year, are as follows:

A. ADJUSTED FINANCIAL STATEMENTS

- 1) The financial statements have been prepared on the basis of historical cost adjusted for the changes in the general purchasing power of Israeli currency, in accordance with pronouncements of the Institute of Certified Public Accountants in Israel (hereafter - the Israeli Institute). All figures in the financial statements are presented in adjusted new Israeli shekels (NIS), which have a uniform purchasing power (December 2003 adjusted NIS) - based upon the changes in the consumer price index (hereafter - the CPI). As to the discontinuance of adjusting financial statements for the effects of inflation, with effects from January 1, 2004, see note below.

The adjustment of the financial statements is based on the accounts of the Company maintained in nominal NIS.

The income statement items were, for the most part, adjusted as follows: the components relating to transactions carried out during the year - sales, purchases, labor costs, etc. - were adjusted on the basis of the index for the month in which the transaction was carried out, while those relating to non-monetary balance sheet items (mainly -depreciation and changes in inventories) were adjusted on the same basis as the related balance sheet item. The financing component represents financial income and expenses in real terms including the effect of the erosion of balances of monetary items due to inflation.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

2) The adjusted amounts of non-monetary assets do not necessarily represent realization value or current economic value, but only the original historical values, adjusted for the changes in the general purchasing power of Israeli currency. In these financial statements, the term "cost" signifies cost in adjusted Israeli currency.

B. DISCONTINUANCE OF THE ADJUSTMENT OF FINANCIAL STATEMENTS FOR THE EFFECTS OF INFLATION AND FINANCIAL REPORTING IN REPORTED AMOUNTS:

In 2001, the Israel Accounting Standards Board published Accounting Standard No. 12 with respect to the discontinuance of the adjustment of financial statements ("Standard No. 12"). According to this Standard (as amended by Accounting Standard No. 17), the adjustment of financial statements for the effects of inflation should be discontinued beginning January 1, 2004. The Company applied the provisions of the Standard, and accordingly, the adjustment for the effects of inflation was discontinued as from January 1, 2004.

1. STARTING POINT FOR THE PREPARATION OF FINANCIAL STATEMENTS:

- a) In the past, the Company prepared its financial statements on the basis of the historical cost convention, adjusted for the changes in the general purchasing power of the Israeli currency based on the changes in the Israeli Consumer Price Index ("Israeli CPI"). These adjusted amounts, as included in the financial statements as of December 31, 2003 (the transition date), served as a starting point for nominal financial reporting beginning January 1, 2004. Additions made after the transition date are included at nominal values.

B. DISCONTINUANCE OF THE ADJUSTMENT OF FINANCIAL STATEMENTS FOR THE EFFECTS OF INFLATION AND FINANCIAL REPORTING IN REPORTED AMOUNTS

1. STARTING POINT FOR THE PREPARATION OF FINANCIAL STATEMENTS: (cont.)

- b) The amounts for non-monetary assets do not necessarily represent realizable value or current economic value, but only the reported amounts for those assets.
- c) In the financial statements "cost" represents cost in the reported amount (see 2 below).
- d) All comparative data for previous periods are presented after adjustment for the Israeli CPI as of the transition date (the Israeli CPI for December 2003).

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

2. FINANCIAL STATEMENTS IN REPORTED AMOUNTS:

a) Definitions:

ADJUSTED AMOUNT - historical nominal amount adjusted for the Israeli CPI as of December 2003, according to the provisions of Opinions No. 23 and No. 36 of the Institute of Certified Public Accountants in Israel.

REPORTED AMOUNT - adjusted amount as of the transition date, plus additions in nominal values after the transition date and less amounts deducted after the transition date. The amounts deducted after the transition date are in historical nominal values, adjusted amounts as of the transition date or in a combination of historical nominal values and adjusted amounts as of the transition date, according to the relevant situation.

b) Balance sheet:

- 1) Non-monetary items are presented in reported amounts.
- 2) Monetary items are presented in nominal values as of the balance sheet date.

c) Statement of operations:

- 1) Income and expenses relating to non-monetary items are derived from the change in the reported amount between the opening balance and the closing balance.
- 2) Other items in the statement of operations are presented in nominal values.

C. EXCHANGE RATES AND BASIS OF LINKAGE

Balances in, or linked to, foreign currency are stated in the financial statements at the representative rates of exchange in effect at balance sheet date, as published by The Bank of Israel. Balances linked to the CPI are included in the balance sheets according to the latest index published prior to balance sheet date. Changes in monetary balances caused by changes in foreign currency exchange rate or from changes in the CPI are changed to the statement of operation as incurred. Hereunder are details of the CPI and dollar exchange rates:

D. CASH AND CASH EQUIVALENTS

The company considers all highly liquid investments, which include short-term bank deposits (up to 3 months from date of deposit), that are not restricted as to withdrawal or use to be cash equivalents.

E. ALLOWANCE FOR DOUBTFUL ACCOUNTS

The allowance for doubtful accounts is determined with respect to specific debts of doubtful collectibility.

F. INVENTORIES

Inventories are valued at the lower of cost or market value. Cost is determined on "first-in first-out" basis. Labor and production overheads component - on the basis of actual manufacturing costs.

G. FIXED ASSETS

Fixed assets are stated at cost.

Depreciation is calculated according to the straight-line method at the following rates, which are considered to be adequate to the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

depreciation of the assets over the course of their estimated useful lives. Leasehold improvements are amortized over the related lease period.

	%

Machinery and equipment	7-20
Furniture and office equipment	20
Computers and computerized equipment	25-33
Vehicles	15
Leasehold improvements	6-20

H. DEFERRED TAXES

- 1) Deferred taxes are computed in respect of differences between the amounts presented in the financial statements and those taken into account for tax purposes.

Deferred taxes are measured at the tax rates, which will be in effect at time of release to income from the deferred tax accounts. Changes in deferred taxes during the reported year are reflected in the statement of income.

- 2) The Company recognizes tax benefits receivable where the expectation of realization according to management estimate, is more likely than not.
- 3) The Company may incur additional tax liability in the event of a dividend distribution by the company. No account was taken of the additional tax, since it is the Company's policy not to cause distribution of dividend, which would involve additional tax liability to the Company in the foreseeable future.

I. REVENUE RECOGNITION

Revenues from sale of products are generally recognized upon delivery to the customer, provided that payment is fixed or determinable, collectibility is probable and there is no significant obligation remaining.

Revenues from services are recognized ratably over the contractual period.

J. IMPAIRMENT OF ASSETS

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

In February 2003, Accounting Standard No. 15 of the Israeli Accounting Standards Board ("the IASB") - "Impairment of Assets", became effective. Requires a periodic assessment - at each balance sheet date - to evaluate the need for a provision for the impairment of the company's non-monetary assets - fixed assets and identifiable intangibles, including goodwill, as well as investments in associated companies. As promulgated by the standard, its provisions are applied as of January 1, 2003. Pursuant to the provisions of the standard if any events have occurred or changed in circumstances have taken place, which might indicate that there has been an impairment of one or more of the above assets, the company is required to evaluate whether the carrying value of the investment in the asset is recoverable from the cash flows anticipated from that asset, and, if necessary, to record an impairment provision up to the amount needed to adjust its carrying amount to its recoverable amount. The impairment loss is carried directly to income.

The adoption of this standard has not had any effect on the company's financial statements.

K. DISCLOSURE OF EFFECT OF NEW ACCOUNTING STANDARDS IN THE PERIOD PRIOR TO THEIR APPLICATION

On July 2004, the Israeli Accounting Standards Board published Accounting Standard No. 19, "Taxes on Income". The Standard provides that a liability for deferred taxes is to be recorded for all temporary differences subject to tax, except for a limited number of exceptions. In addition, a deferred tax asset is to be recorded for all temporary differences that may be deducted, losses for tax purposes and tax benefits not yet utilized, if it is anticipated that there will be taxable income against which they can be offset, except for a limited number of exceptions. The new Standard applies to financial statements for periods beginning on January 1, 2005. The Standard provides that it is to be implemented by means of a cumulative effect of a change in accounting method. The Company estimates that the implementation of the Standard will not have a significant effect on the Company's statements

NOTE 11 - LIABILITY FOR EMPLOYEE RIGHTS UPON RETIREMENT

- a. Labor laws and agreements require the company to pay severance pay to employees dismissed or reliving from their employ in certain other circumstances. The Company's liability for the payment of severance pay to its employees is covered mainly by purchase of insurance policies. The amounts so funded are not included in the balance sheets since they are not under the control or management of the Company.
- b. Monthly employees (for whom the company makes regular deposits in severance pay funds) dismissed before attaining retirement age are entitled to severance pay computed on the basis of the latest pay rate. In respect of' these employees, the company has undertaken to supplement the difference between severance pay computed as above and the amounts accumulated in the above-mentioned funds. An appropriate provision has been made for this liability.
- c. The liability to employees whose salary is partly based on commissions is computed on the basis of the average salary for the preceding 12 months.
- d. The amount of the liability for severance pay presented in the balance sheets reflects that portion of the liability which is not funded as described above. Part of this liability is covered by deposits, in the Company name, with recognized severance pay funds.

The liability for employee rights upon retirement, and the amount funded are composed as follows: DECEMBER 31,

	DECEMBER 31,

f. TAXES ON INCOME

On June 29, 2004 the Israeli parliament adopted an income tax ordinance amendment. The amendment determines a gradual reduction in the rate of corporate tax commencing from January 1, 2004. In accordance with the amendment the Company's nominal tax rate from 2004 has been reduced from 36% to 35%. In addition future reduction will come into effect at the beginning of 2005 (34%), 2006 (32%) and 2007 until a final tax rate of 30% is achieved.

The adoption of the amendment did not have significant effect on the Company's statements.

g. BENEFITS UNDER THE LAW FOR THE ENCOURAGEMENT OF CAPITAL INVESTMENTS

The Company's plan for investment of NIS 630,000 in fixed assets have been granted on December 6, 2000, an "approved enterprise" status subject to the law for Encouragement of Capital Investments, 5709-1959.

The Company chose the alternative income course, accordingly income from the "approved enterprise" will be exempt from taxes for two years after which a reduced tax rate of 25% will be enacted for the remaining benefit period. The benefit period is a 7 years period beginning the year in which the company first generates taxable income and contingent to a time period limitation as stated in the law. According to management opinion the benefit period commenced on 2000. Dividends distributed from the "approved enterprise" income will be liable to a 15% tax rate.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

If the Company distributes a cash dividend to its shareholders out of income attributable to revenues from approved enterprises which received a tax exemption, the Company would be liable for taxes at the rate of the corporate tax (up to 25%) saved from the amount of the earnings distributed.

The above mentioned benefits are contingent on the company meeting the terms of the law and its regulations and an authorization letter according to which the company invested in an "approved enterprise". Non-fulfillment of these terms may lead to the cancellation of some or all of the above mentioned benefits and a demand for the repayment of certain amounts including interest.

The Company applied the "Investment Center" for confirmation of the year 2000 as the year of commencing the benefit period.

On December 2, 2001 the Company applied for additional approved plan under the said law. This application was not approved, yet.

h. FINAL TAX ASSESSMENTS

The company has final tax assessments under the law up to and including the tax year ended at December 31, 1998.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

 IN THOUSANDS IN NEW ISRAELI SHEKELS

NOTE 19 - EFFECT OF MATERIAL DIFFERENCES BETWEEN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN ISRAEL AND IN THE U.S.A.

The company prepares its financial statements in accordance with Israeli GAAP. As applicable to these financial statements, Israeli GAAP and U.S. of America GAAP vary in certain significant respects, as described below:

1) EFFECT OF INFLATION

In accordance with Israeli GAAP, through December 31, 2003, the company comprehensively includes the effect of the changes in the

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

general purchasing power of Israeli currency in these financial statements, as described in note 2a above. In view of the inflation in Israel, this is considered a more meaningful presentation than financial reporting based on historical cost.

2) LIABILITIES FOR EMPLOYEE RIGHTS UPON RETIREMENT

Under Israeli GAAP, amounts funded in respect of severance pay liability by purchase of insurance policies are deducted from the related liability. Under U.S. GAAP, the amounts funded should be presented as a long-term investment among the Company's assets. Correspondingly, the entire change in the liability will be classified as part of wages expenses and the income from the funding arrangements will be classified as financing income.

3) IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with Israeli GAAP, the review of an asset for impairment is performed in relation to its recoverable value. The recoverable value of an asset is determined according to the higher of the net selling price of the asset or its value in use to the company. The value in use is determined according to the present value of anticipated cash flow from the continued use of the asset, including those expected at the time of its future retirement and disposal.

For U.S. GAAP purposes the company adopted in 2002 FAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("FAS 144"). Under FAS 144, if the sum of the expected future cash flows (undiscounted and without interest charges) of the long-lived assets is less than the carrying amount of such assets, an impairment loss would be recognized, and the assets are written down to their estimated fair values.

Since the company did not record an impairment loss in any of the reported periods, this GAAP difference results with no effect of the Company's financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders of

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD.

We have audited the consolidated balance sheet of Odem Electronic Technologies 1992 Ltd (hereafter - the Company) and its subsidiaries as of December 31, 2002 and 2003 and the related statements of income (loss), changes in shareholders' equity and cash flows for each of the years ended on those dates. These financial statements are the responsibility of the Company's Board of Directors and management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

in Israel and the standards of the Public Company Accounting Oversight Board (United States), including those prescribed by the Israeli Auditors (Mode of Performance) Regulations, 1973. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Company's Board of Directors and management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position as of December 31, 2002 and 2003 and the consolidated results of operations, changes in shareholders' equity and cash flows for each of the years ended on those dates in conformity with accounting principles generally accepted in Israel.

As explained in note 1b, the financial statements referred to above are presented in values adjusted for the changes in the general purchasing power of the Israeli currency, in accordance with pronouncements of the Institute of Certified Public Accountants in Israel.

Accounting principles generally accepted in Israel vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in note 13 to the consolidated financial statements.

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, applied on a consistent basis (see also b. below), are as follows:

A. GENERAL:

- 1) Data on the operations of the parent Company and its subsidiaries:

Odem Electronic Technologies 1992 Ltd. (hereafter - The Company) and its subsidiaries (hereafter - the group) are engaged in the marketing of electronic components and image processing products, provision of solutions for data communication networks and until May 2004 marketing of anti-static products to the electronics industry (see note 2).

- 2) Unaudited interim results

The accompanying consolidated balance sheet as of September 30, 2004, the consolidated statements of income and of cash flows for the nine month periods ended September 30, 2003 and 2004, and the consolidated statement of changes in shareholders' equity for the nine month period ended September 30, 2004 are unaudited. The unaudited interim financial statements have been prepared on the same basis as the annual consolidated financial statements and,

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

in the opinion of the Company's management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Group's financial position as of September 30, 2004 and results of operations and cash flows for the nine months ended September 30, 2003 and 2004. The financial data and other information disclosed in these notes to the financial statements relating to these nine-month periods are unaudited. The results for the nine months ended September 30, 2004 are not necessarily indicative of the results to be expected for the year ending December 31, 2004 or for any other interim period or for any future year.

3) Definitions:

Subsidiaries - Ruby-Tech Inc. is a company registered in the United States - wholly owned and controlled by the company.

Motinit Technologies Ltd. is registered in Israel and was wholly owned and controlled by the company through May 2004, see also note 2.

Related parties - as defined in Opinion No. 29 of the Institute of Certified Public Accountants in Israel.

B. ADJUSTED FINANCIAL STATEMENTS:

- 1) As from January 1, 2004, the Company applies the provisions of Accounting Standard No. 12 of the Israel Accounting Standards Board ("IASB") - "Discontinuance of Adjusting Financial Statements for Inflation". Accordingly, as of said date, the Company no longer adjusts its financial statements for the effects of inflation.

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued):

Until December 31, 2003, the Company prepared its financial statements on the basis of historical cost adjusted for the changes in the general purchasing power of Israeli currency (NIS), in accordance with the changes in the Israeli consumer price index (hereafter - the CPI), see also note 8a, this in conformity with the principles prescribed by Opinions of the Institute of Certified Public Accountants in Israel. The amounts adjusted as above, which were included in the financial statements as of December 31, 2003 (hereafter - transition date) served as the basis for the nominal financial reporting in the following periods. Additions made after the transition date are presented in the financial statements at their nominal amounts.

The comparative figures included in these financial statements are based on the adjusted financial statements for the prior reporting periods, as previously presented, after adjustment to

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

the CPI for December 2003 (the CPI in effect at the transition date). As to the principles of adjustment applied in the preparation of financial statements until the transition date, see (2) below.

The amounts reported for periods after the transition date are composed as follows: all the amounts originating from the period prior to the transition date are composed of their adjusted amount at the transition date, with the addition of amounts in nominal values that were added after the transition date and net of amounts that were deducted after the transition date (the retirement of such sums is effected at their adjusted values as of transition date, their nominal values, or a combination of the two, according to the circumstances). All the amounts originating from the period after the transition date are included in the financial statements at their nominal values.

- 2) Until the transition date, the adjustment of the financial statements was based on the accounts of the Company and its former Israeli subsidiary, which were maintained in nominal NIS.

The components of the income statements were, for the most part, adjusted as follows: the components relating to transactions carried out during the period - sales, purchases, labor costs, etc. - were adjusted on the basis of the index for the month in which the transaction was carried out, while those relating to non-monetary balance sheet items (mainly - changes in inventories and depreciation) were adjusted on the same basis as the related balance sheet item. The financing component represents financial income and expenses in real terms and the erosion of balances of monetary items during the period.

- 3) The adjusted amounts of non-monetary assets did not necessarily represent realization value or current economic value, but only the reported amounts of such assets, as described in (1) above.

In these financial statements, the term "cost" signifies cost in reported amounts, as described in (1) above.

O - 10

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued):

- 4) For purposes of consolidation, the financial statements of the company's foreign subsidiary, the activities of which are an integral part of the activities of the Company, were remeasured (in terms of foreign currency). The remeasurement was effected by way of translation of the amounts (in terms of foreign currency) on the basis of the historical exchange rates in relation to Israeli currency. Until December 31, 2003, the resulting nominal NIS amounts were then adjusted on the basis of the changes in the CPI by the same method as the financial statements of the Company were adjusted.

Differences resulting from the above treatment are included in the statements of income under financial income or expenses.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

C. PRINCIPLES OF CONSOLIDATION:

- 1) The consolidated financial statements include the accounts of the Company and its subsidiaries, see also note note 2 as to disposal of subsidiary.
- 2) Inter-company balances and transactions have been eliminated in consolidation. Profits from inter-company sales, not yet realized outside the group, have also been eliminated.

D. INVENTORIES

Inventories are valued at the lower of cost or market value. Cost is determined on "first-in first-out" basis.

E. FIXED ASSETS:

- 1) These assets are stated at cost.
- 2) The assets are depreciated by the straight-line method, on basis of their estimated useful life.

Annual rates of depreciation are as follows:

	%

Buildings	4
Vehicles	15
Office furniture, equipment and computers	6-15; 33

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued):

F. IMPAIRMENT OF ASSETS

AS of January 1, 2003, Accounting Standard No. 15 of the IASB - "Impairment of Assets", became effective. This standard requires a periodic assessment - at each balance sheet date - to evaluate the need for a provision for the impairment of the group's non-monetary assets - mainly fixed assets.

Pursuant to the provisions of the standard in each balance sheet date the company is required to check, if any events have occurred or changes in circumstances have taken place, which might indicate that there has been an impairment of the above assets, the company is required to evaluate whether the carrying value of the asset is recoverable from the cash flows anticipated from that asset, and, if necessary, to record an impairment provision up to the amount needed to adjust its carrying amount to its recoverable amount. The impairment loss is carried directly to income.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

The adoption of this standard has not had any effect on the company's financial statements.

G. DEFERRED TAXES:

- 1) Deferred taxes are computed in respect of differences between the amounts presented in the financial statements and those taken into account for tax purposes. As to the main factors in respect of which deferred taxes have been included- see note 7c.

Deferred taxes are computed at the tax rates, which will be in effect at time of release to income from the deferred tax accounts. Changes in deferred taxes during the reported year are reflected in the statement of income (loss).

- 2) Taxes, which would apply in the event of disposal of the investment in the foreign subsidiary, have not been taken into account in computing the deferred taxes, as it is the company's policy to hold this investment, not to realize it.
- 3) The Company may incur additional tax liability in the event of a dividend distribution by its foreign subsidiary. No account was taken of the additional tax, since it is the Company's policy not to cause distribution of dividend, which would involve additional tax liability to the Company in the foreseeable future.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued):

H. CONCENTRATION OF CREDIT RISKS - ALLOWANCE FOR DOUBTFUL ACCOUNTS

Most of the sales of the Company and its subsidiaries are made in Israel, mainly to Israeli defense industries and to large companies.

The Company and its subsidiaries regularly check the credit worthiness of their customers and determine the extent to which they should do business with them on that basis.

When a specific account is determined to be doubtful of collection, it is fully provided for.

I. REVENUE RECOGNITION:

- 1) Selling income

Revenue from sale of products is recognized upon shipment to the customer (which represents the point at which the title transfers).

- 2) Commission income

Income from commissions is carried to the income statement upon its actual receipt, since under agreements with suppliers

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

consideration is received on the basis of collection from customers.

J. CASH EQUIVALENTS

The group considers all highly liquid investments, which include short-term bank deposits (up to 3 months from date of deposit), that are not restricted as to withdrawal or use to be cash equivalents.

K. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENT

In July 2004, the IASB issued Accounting Standard No. 19 - "Taxes on Income", which is based on International Accounting Standard No. 12, that prescribes the accounting treatment (recognition criteria, measurement, presentation and disclosure) required for taxes on income.

This accounting standard is to be applied to financial statements covering periods commencing on, or after, January 1, 2005; earlier adoption is encouraged.

The Company is currently evaluating the effect on its financial statements of applying the provisions of this standard.

NOTE 2 - DISCONTINUED OPERATION

On May 10, 2004, the Company signed a contract for the sale of its investment in its Israeli subsidiary, Motinit Technologies Ltd. (hereafter - "Motinit"). Pursuant to this contract, the Company sold its holding of Motinit shares, for no consideration, and the loan that it had granted to Motinit, for a consideration of NIS 1.35 million.

In accordance with the provisions of Accounting Standard No.8 - "Discontinued Operations" of the IASB, the sale of Motinit was presented as a discontinued operation. Accordingly, the assets and liabilities of the subsidiary, its operating results (including the gain from the sale of said operations) and its cash flows were presented as separate items derived from the discontinued operation. The comparative figures included in the financial statements have been reclassified to conform to this presentation.

The assets and liabilities and the operating results of the discontinued operation included in the financial statements are as follows:

B. LAND AND BUILDINGS

Although the Company has ownership rights in real estate property, the property has not yet been registered in the Company's name in the Land Registry, since real estate rights in the area where that real estate is located have not yet been settled. As of December 31, 2002 and 2003, the item includes land in the amount of NIS 505,000, on which the company's offices in Rishon Lezion are located.

- C. All fixed assets have been pledged to secure the Company's bank liabilities, see note 5c.

NOTE 4 - LIABILITY FOR EMPLOYEE RIGHTS UPON RETIREMENT:

- A. Labor laws and agreements require the company to pay severance pay to employees dismissed or retiring from their employ in certain other circumstances. The Company liability for the payment of severance pay to its employees is covered mainly by purchase of insurance policies. The amounts so funded are not included in the balance sheets since they are not under the control or management of the Company.
- B. Monthly employees (for whom the company makes regular deposits in severance pay funds) dismissed before attaining retirement age are entitled to severance pay computed on the basis of the latest pay rate. In respect of these employees, the company has undertaken to supplement the difference between severance pay computed as above and the amounts accumulated in the abovementioned funds. An appropriate provision has been made for this liability.
- C. The liability to employees whose salary is partly based on commissions is computed on the basis of average salary for the preceding 12 months.

Upon the sale of the majority of the Company's shares subsequent to balance sheet date (see note 12), the employee waived its right to shares as described above. The purchaser's issued to the employee 73,000 ordinary shares of the purchaser and options to receive 73,000 ordinary shares of the purchaser. The purchaser options shall be issued under the purchaser's Stock Option Plan and at no exercise price.

NOTE 7 - TAXES ON INCOME:

A. TAXES RATES APPLICABLE TO INCOME

- 1) The company and its former Israeli subsidiary

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

B. CONCENTRATION OF CREDIT RISKS:

- 1) The group's cash and cash equivalents at December 31, 2002 and 2003 were deposited with well-established banks. The Company is of the opinion that the credit risk in respect of these balances is remote.
- 2) As to the credit risk in respect of trade receivables - see note 1h.

C. FAIR VALUE OF FINANCIAL INSTRUMENTS

The financial instruments of the company and its subsidiaries consist of non-derivative assets: cash and cash equivalents, accounts receivable and non-derivative liabilities: short-term and long term bank loans payable and accounts payable.

Due to their nature, the fair value of the financial instruments included in working capital of the group is usually identical or close to their carrying value. The fair value of long-term bank loans also approximates the carrying value, since they bear interest at rates close to the prevailing market rates.

NOTE 11 - CONTINGENT LIABILITY

In September 2003, a supplier filed a legal claim in the amount of NIS 460,000 against the Company. The claim alleges the breach of an agreement for the purchase of products.

The Company's legal counsel is unable to provide an opinion on this claim. Accordingly, no provision has been included in the financial statements in respect of this claim. Moreover the company management believes that the chances of the claim are slight.

NOTE 12 - SUBSEQUENT EVENT

On November 2, 2004, the Company's shareholders signed an agreement for the sale of 63.8% of the Company's shares to an Israeli company.

NOTE 13 - EFFECT OF MATERIAL DIFFERENCES BETWEEN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN ISRAEL AND IN THE U.S.A

The group prepares its financial statements in accordance with Israeli GAAP. As applicable to these financial statements, Israeli GAAP and U.S. GAAP vary in certain significant respects, as described below:

1) Effect of inflation

In accordance with Israeli GAAP, through December 31 2003, the group comprehensively included the effect of the changes in the general purchasing power of Israeli currency in these financial statements, as described in note 1b. In view of the past inflation in Israel, this is considered a more meaningful presentation than financial reporting based on historical cost.

Under US GAAP Israel is not considered to be an highly inflationary country, thus the measurement currency should be the nominal NIS.

The adjustments to reflect the changes in the general purchasing power of Israeli currency have been reversed in the reconciliation of Israeli GAAP to U.S. GAAP.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 6-K

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 13- EFFECT OF MATERIAL DIFFERENCES BETWEEN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN ISRAEL AND IN THE U.S.A (continued):

2) Liability for employee rights upon retirement

Under Israeli GAAP, amounts funded in respect of severance pay liability by purchase of insurance policies are deducted from the related liability. Under U.S. GAAP, the amounts funded in insurance policies do not qualify as plan assets and thus should be presented as a long-term investment among the Company's assets. Correspondingly, the entire change in the liability will be classified as part of salary expenses and the income from the funding arrangements will be classified as financing income.

The amounts of severance pay expense were as follows:

	YEAR ENDED DECEMBER 31		NINE MONTHS ENDED SEPTEMBER 30	
	2002	2003	2003	2004
	NIS IN THOUSANDS		NIS IN THOUSANDS	
Gross expense	141	204	169	363
Less - income (loss) from funding arrangements	(11)	53	41	23
	152	151	128	340
	=====	=====	=====	=====

3) Accounting for stock-based compensation (see note 6b)

According to Israeli GAAP, the benefit component of stock or options issued to employees is not recognized in the financial statements.

According to U.S. GAAP, the Company has elected to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25") and FASB Interpretation No. 44 "Accounting for Certain Transactions Involving Stock Compensation" ("FIN No. 44") in accounting for its employee stock option plans. Under APB No. 25, when the exercise price of the Company's stock option is less than the market price of the underlying shares on the date of grant, compensation expense is recognized over the vesting period.

The amounts of compensation expense determined using the fair value method as required by FAS 123 is not materially different from the amounts determined under APB 25. Consequently, the disclosures required by FAS 123 have been omitted.

As of the grant date of the employee shares, the excess of the fair value of the shares over their par value resulted in deferred compensation in amount of NIS 867,000. This compensation is to be amortized over the vesting period (3.75 years).

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 13 - EFFECT OF MATERIAL DIFFERENCES BETWEEN GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN ISRAEL AND IN THE U.S.A (continued):

4) Discontinued operations

As more fully described in note 2, the company disposed of its investment in a consolidated subsidiary, the operations of which are classified as discontinued operations.

Under Israeli GAAP assets and liabilities of the discontinued operations are aggregated and presented as separate line items on the balance sheet for all the reporting periods (including reclassification of prior periods figures).

Under U.S. GAAP the assets and liabilities for prior periods are not reclassified.

5) Income statement presentation

Under Israeli GAAP, the Company includes capital gains and losses on sale of fixed assets, under "other income (expenses) - net", in the consolidated income statements. Also the Company includes income (expenses) from severance pay funds net of severance pay expenses. Under U.S. GAAP, capital gains and losses from sales of fixed assets are included in the determination of "operating income" and income (expenses) from severance pay funds are included under "financial expenses" (see also 2 above).
