Reporting Person Date

Explanation of Responses:

- * If the form is filed by more than one reporting person, *see* Instruction 5(b)(v).
- ** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. *See* 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).
- (1) Shares held by the spouse of the reporting person. The reporting person disclaims beneficial beneficiary ownership of the shares except to the extent of his pecuniary interest therein.
- (2) Fully exercisable.
- (3) The option is exercisable as it vests: 25% of the total number of option shares vests and becomes exercisable on the first anniversary of the vesting commencement date. Thereafter, 1/48th of the total number of option shares becomes exercisable cumulatively on each monthly anniversary for 36 months so that the entire number of option shares becomes fully vested.
- (4) Vesting of the RSU award is performance-based.
- (5) Each RSU represents a contingent right to receive one share of MAP common stock.
- (6) 25% of the total number of RSUs vests and becomes payable on each anniversary of January 26, 2011, such that all RSUs subject to this award shall be fully vested on January 26, 2015.
- (7) 25% of the total number of RSUs vests and becomes payable on each anniversary of June 07, 2011, such that all RSUs subject to this award shall be fully vested on June 07, 2015.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *See* Instruction 6 for procedure. Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. **SIZE="1">**

reference checks.

Throughout the due diligence process, a deal team is in constant dialogue with the management team of the company in which we are considering to invest to ensure that any concerns are addressed as early as possible through the process and that unsuitable investments are filtered out before considerable time has been invested.

Upon the completion of due diligence and a decision to proceed with an investment in a company, the investment professionals leading the investment present the investment opportunity to Solar Capital Partners

Table of Contents

investment committee, which then determine whether to pursue the potential investment. Additional due diligence with respect to any investment may be conducted on our behalf by attorneys and independent accountants prior to the closing of the investment, as well as other outside advisers, as appropriate.

The Investment Committee

All new investments are required to be approved by a consensus of the investment committee of Solar Capital Partners, which is led by Messrs. Gross and Spohler. The members of Solar Capital Partners' investment committee receive no compensation from us. Such members may be employees or partners of Solar Capital Partners and may receive compensation or profit distributions from Solar Capital Partners.

Investment Structure

Once we determine that a prospective portfolio company is suitable for investment, we will work with the management of that company and its other capital providers, including senior, junior and equity capital providers, to structure an investment. We negotiate among these parties to agree on how our investment is expected to perform relative to the other capital in the portfolio company's capital structure.

We seek to invest in portfolio companies primarily in the form of senior loans. These senior loans typically have current cash pay interest with some amortization of principal. Interest is typically paid on a floating rate basis, often with a floor on the LIBOR rate. We generally seek to obtain security interests in the assets of our portfolio companies that serve as collateral in support of the repayment of these loans. This collateral may take the form of first or second priority liens on the assets of a portfolio company.

Typically, we expect that our senior loans will have final maturities of four to seven years. However, we also expect that our portfolio companies often may repay these loans early, generally within three years from the date of initial investment.

We seek to tailor the terms of the investment to the facts and circumstances of the transaction and the prospective portfolio company, negotiating a structure that protects our rights and manages our risk while creating incentives for the portfolio company to achieve its business plan and improve its profitability. We seek to limit the downside potential of our investments by negotiating covenants in connection with our investments that afford our portfolio companies as much flexibility in managing their businesses as possible, consistent with preservation of our capital. Such restrictions may include affirmative and negative covenants, default penalties, lien protection, change of control provisions and board rights, including either observation or participation rights.

We typically seek to hold most of our investments to maturity or repayment, but believe we have the ability to sell our investments earlier.

Managerial assistance

Edgar Filing: Borland Scott - Form 3

As a business development company, we offer, and must provide upon request, managerial assistance to our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. We may receive fees for these services.

Ongoing Relationships with Portfolio Companies

Solar Capital Partners monitors our portfolio companies on an ongoing basis. Solar Capital Partners monitors the financial trends of each portfolio company to determine if it is meeting its business plan and to assess the appropriate course of action for each company.

Table of Contents

Solar Capital Partners has several methods of evaluating and monitoring the performance and fair value of our investments, which include the following:

Assessment of success in adhering to each portfolio company's business plan and compliance with covenants;

Periodic and regular contact with portfolio company management and, if appropriate, the financial or strategic sponsor, to discuss financial position, requirements and accomplishments;

Comparisons to other Solar Capital and Solar Senior Capital portfolio companies in the industry, if any; and

Review of monthly and quarterly financial statements, asset valuations, and financial projections for portfolio companies.

In addition to various risk management and monitoring tools, Solar Capital Partners also uses an investment rating system to characterize and monitor our expected level of returns on each investment in our portfolio.

We use an investment rating scale of 1 to 4. The following is a description of the conditions associated with each investment rating:

Investment

Rating	Summary Description
1	Involves the least amount of risk in our portfolio, the portfolio company is performing above expectations, and the trends and risk factors are generally favorable (including a potential exit)
2	Risk that is similar to the risk at the time of origination, the portfolio company is performing as expected, and the risk factors are neutral to favorable; all new investments are initially assessed a grade of 2
3	The portfolio company is performing below expectations, may be out of compliance with debt covenants, and requires procedures for closer monitoring
4	The investment is performing well below expectations and is not anticipated to be repaid in full

Solar Capital Partners monitors and, when appropriate, changes the investment ratings assigned to each investment in our portfolio. As of December 31, 2014, the weighted average investment rating on the fair market value of our portfolio was 2. In connection with our valuation process, Solar Capital Partners reviews these investment ratings on a quarterly basis.

Valuation Procedures

We conduct the valuation of our assets, pursuant to which our net asset value shall be determined, at all times consistent with U.S. generally accepted accounting principles (GAAP) and the 1940 Act and generally value our assets on a quarterly basis, or more frequently if required. Our valuation procedures are set forth in more detail below:

Edgar Filing: Borland Scott - Form 3

Securities for which market quotations are readily available on an exchange shall be valued at the closing price on the day of valuation. We may also obtain quotes with respect to certain of our investments from pricing services or brokers or dealers in order to value assets. When doing so, we determine whether the quote obtained is sufficient according to GAAP to determine the fair value of the security. If determined adequate, we use the quote obtained. Debt investments with remaining maturities of 60 days or less shall each be valued at cost plus accreted discount, or minus amortized premium, which is expected to approximate fair market value, unless such valuation, in the judgment of the investment adviser, does not represent fair value, in which case such investments shall be valued at fair value as determined in good faith by or under the direction of our board.

Table of Contents

Securities for which reliable market quotations are not readily available or for which the pricing source does not provide a valuation or methodology or provides a valuation or methodology that, in the judgment of our investment adviser or board of directors, does not represent fair value, shall each be valued as follows: (i) each portfolio company or investment is initially valued by the investment professionals responsible for the portfolio investment; (ii) preliminary valuation conclusions are documented and discussed with our senior management; (iii) independent third-party valuation firms engaged by, or on behalf of, the board of directors will conduct independent appraisals and review management's preliminary valuations and make their own assessment for (a) each portfolio investment that, when taken together with all other investments in the same portfolio company, exceeds 10% of our total assets, plus available borrowings, as of the end of the most recently completed fiscal quarter, and (b) each portfolio investment that is presently in default; (iv) the board of directors will discuss valuations and determine the fair value of each investment in our portfolio in good faith based on the input of the investment adviser and, where appropriate, the respective third-party valuation firms.

The recommendation of fair value will generally consider the following factors among others, as relevant:

the nature and realizable value of any collateral;

the portfolio company's ability to make payments;

the portfolio company's earnings and discounted cash flow;

the markets in which the issuer does business; and

comparisons to publicly traded securities.

Securities for which market quotations are not readily available or for which a pricing source is not sufficient may include, but are not limited to, the following:

private placements and restricted securities that do not have an active trading market;

securities whose trading has been suspended or for which market quotes are no longer available;

debt securities that have recently gone into default and for which there is no current market;

securities whose prices are stale;

securities affected by significant events; and

securities that the investment adviser believes were priced incorrectly.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our consolidated financial statements.

Competition

Our primary competitors provide financing to middle-market companies and include other business development companies, commercial and investment banks, commercial financing companies and, to the extent they provide an alternative form of financing, private equity funds. Additionally, alternative investment vehicles, such as hedge funds, frequently invest in middle-market companies. As a result, competition for investment opportunities at middle-market companies can be intense. However, we continue to believe that there has been a reduction in the amount of debt capital available since the downturn in the credit markets, which began in mid-2007, and that this has resulted in a less competitive environment for making new investments. While many middle-market companies were previously able to raise senior debt financing through traditional large financial institutions, we believe this approach to financing will become more difficult as implementation of U.S. and international financial reforms, such as Basel 3, limits the capacity of large financial institutions to hold non-investment grade leveraged loans on their balance sheets. We believe that many of these financial institutions have de-emphasized their service and product offerings to middle-market companies in particular.

Table of Contents

Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. For example, some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a business development company. We use the industry information available to Messrs. Gross and Spohler and the other investment professionals of Solar Capital Partners to assess investment risks and determine appropriate pricing for our investments in portfolio companies. In addition, we believe that the relationships of Messrs. Gross and Spohler and the other investment professionals of our investment adviser enable us to learn about, and compete effectively for, financing opportunities with attractive leveraged companies in the industries in which we seek to invest.

Staffing

We do not currently have any employees. Mr. Gross, our chairman and chief executive officer, and Mr. Spohler, our chief operating officer, currently serve as the managing member and a partner, respectively, of our investment adviser, Solar Capital Partners. Richard Peteka, our chief financial officer and corporate secretary, is an employee of Solar Capital Management, and performs his functions as chief financial officer under the terms of our Administration Agreement. Guy Talarico, our chief compliance officer, is the chief executive officer of Alaric Compliance Services, LLC, and performs his functions as our chief compliance officer under the terms of an agreement between Solar Capital Management and Alaric Compliance Services, LLC. Solar Capital Management has retained Mr. Talarico and Alaric Compliance Services, LLC pursuant to its obligations under our Administration Agreement.

Our day-to-day investment operations are managed by Solar Capital Partners. Based upon its needs, Solar Capital Partners may hire additional investment professionals. In addition, we will reimburse Solar Capital Management for the allocable portion of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and the compensation of our chief financial officer and any administrative support staff.

Properties

Our executive offices are located at 500 Park Avenue, New York, New York 10022, and are provided by Solar Capital Management in accordance with the terms of the Administration Agreement. We believe that our office facilities are suitable and adequate for our business as it is contemplated to be conducted.

Legal Proceedings

None of us, our investment adviser or administrator, is currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us, or against our investment adviser or administrator. From time to time, we, our investment adviser or administrator, may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations.

Table of Contents**PORTFOLIO COMPANIES**

The following table sets forth certain information as of December 31, 2014 for each portfolio company in which we had a debt or equity investment. The general terms of our debt and equity investments are described in Business Investments. Other than these investments, our only formal relationships with our portfolio companies are the managerial assistance we may provide upon request and the board observer or participation rights we may receive in connection with our investment. For further detail on our portfolio investments, please refer to the schedule of investments included in our consolidated financial statements for the year ended December 31, 2014, which are included in this prospectus.

To maintain our status as a BDC, we must invest a sufficient portion of our assets in qualifying assets. Specifically, qualifying assets must represent at least 70% of our total assets at the time of acquisition of any additional non-qualifying assets. In addition, if we fail to invest a sufficient portion of our assets in qualifying assets, we could be prevented from making follow-on investments in existing portfolio companies or could be required to dispose of investments at inappropriate times in order to comply with the 1940 Act. As of December 31, 2014, 11.8% of our total assets constituted non-qualifying assets, on a fair value basis.

Edgar Filing: Borland Scott - Form 3

Set forth below is a brief description of each portfolio company in which we have made an investment that represents greater than 5% of our total assets as of December 31, 2014.

Gemino Healthcare Finance, LLC

Gemino Healthcare Finance, LLC (Gemino) is a commercial finance business focused on originating, underwriting, and managing financing solutions for small to mid-size companies operating in the healthcare industry. Gemino s primary financing products today include revolving lines of credit secured by the borrower s accounts receivable, including receivables from Medicare, Medicaid, and private health insurance companies as well as senior cash flow term loans secured by all other assets, often with a pledge of equity or personal guarantee. The company has processes in place to source, underwrite and monitor portfolio companies. Gemino competes against an assortment of regional and local banks as well as specialized commercial finance companies. The company s performance is susceptible to changes in healthcare regulation and interest rates. The company is headquartered in Philadelphia, Pennsylvania and has a satellite office in Atlanta, Georgia.

Table of Contents**MANAGEMENT**

Our board of directors oversees our management. The board of directors currently consists of five members, three of whom are not interested persons of Solar Senior Capital Ltd. as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our board of directors elects our officers, who serve at the discretion of the board of directors. The responsibilities of each director will include, among other things, the oversight of our investment activity, the quarterly valuation of our assets, and oversight of our financing arrangements. The board of directors has also established an audit committee and a nominating and corporate governance committee and may establish additional committees in the future.

Board of Directors and Executive Officers*Directors*

Information regarding the board of directors is as follows:

Name	Age	Position	Director Since	Expiration of Term
Interested Director				
Michael S. Gross	53	Chief Executive Officer, President and Chairman of the Board of Directors	2010	2017
Bruce Spohler	54	Chief Operating Officer and Director	2010	2016
Independent Directors				
Steven Hochberg	54	Director	2011	2016
David S. Wachter	51	Director	2011	2015
Leonard A. Potter	53	Director	2011	2017

The address for each of our directors is 500 Park Avenue, New York, New York 10022.

Executive Officers Who Are Not Directors

Name	Age	Position
Richard L. Peteka	53	Chief Financial Officer, Treasurer and Secretary
Guy Talarico	59	Chief Compliance Officer

The address for each of our executive officers is 500 Park Avenue, New York, New York 10022.

Biographical Information

Directors

Our directors have been divided into two groups – interested directors and independent directors. An interested director is an interested person as defined in Section 2(a)(19) of the 1940 Act. As described below under Committees of the Board of Directors – Nominating and Corporate Governance Committee, the board of directors has identified certain desired attributes for director nominees. We believe each of our directors has demonstrated high character and integrity, superior credentials and recognition in his respective field and the relevant expertise and experience upon which to be able to offer advice and guidance to our management. We believe each of our directors also has sufficient time available to devote to the affairs of Solar Senior Capital, is able to work with the other members of the board of directors and contribute to the success of Solar Senior Capital and can represent the long-term interests of Solar Senior Capital’s stockholders as a whole. Our directors have been selected such that the board of directors represents a range of backgrounds and experience. Set forth below is biographical information of each director, including a discussion of such director’s particular

Table of Contents

experience, qualifications, attributes or skills that lead us to conclude, as of the date of this prospectus, that such individual should serve as a director of Solar Senior Capital, in light of Solar Senior Capital's business and structure.

Interested Directors

Michael S. Gross has been the chairman of the board of directors, chief executive officer and president of Solar Senior Capital since December 2010. In addition, Mr. Gross served as the managing member, the chairman of the board of directors and the chief executive officer of Solar Capital LLC since its inception in February 2007, and has been the chairman of the board of directors since December 2007, and chief executive officer and president since November 2007, of Solar Capital, its successor fund. Mr. Gross also currently serves as a managing member of our investment adviser, Solar Capital Partners. From July 2006 through approximately the first quarter of 2009, Mr. Gross was a partner in Magnetar Capital Partners, LP. Between February 2004 and February 2006, Mr. Gross was the president and chief executive officer of Apollo Investment Corporation, a publicly traded business development company that he founded and on whose board of directors and investment committee he served as chairman from February 2004 to July 2006, and was the managing partner of Apollo Investment Management, L.P., the investment adviser to Apollo Investment Corporation. Apollo Investment Corporation invests primarily in middle-market companies in the form of senior secured and mezzanine loans as well as by making direct equity investments in such companies. Under his management, Apollo Investment Corporation raised approximately \$930 million in gross proceeds in an initial public offering in April 2004 and invested approximately \$2.3 billion in over 65 companies in conjunction with 50 different private equity sponsors. From 1990 to February 2006, Mr. Gross was a senior partner at Apollo Management, L.P., a leading private equity firm which he founded in 1990 with five other persons. Since its inception, Apollo Management, L.P. has invested more than \$13 billion in over 150 companies in the United States and Western Europe. During his tenure at Apollo Management, L.P., Mr. Gross was a member of an investment committee that was responsible for overseeing such investments. In addition, from 2003 to February 2006, Mr. Gross was the managing partner of Apollo Distressed Investment Fund, an investment fund he founded to invest principally in non-control oriented distressed debt and other investment securities of leveraged companies. Prior to his time at Apollo Management, L.P., Mr. Gross was employed by Drexel Burnham Lambert Incorporated. From June 2006 to August 2008, Mr. Gross served as the chief executive officer, chairman of the board of directors and secretary of Marathon Acquisition Corp., a publicly traded special purpose acquisition company. Mr. Gross currently serves on the boards of directors of Saks, Inc., Global Ship Lease Inc. and Jarden Corporation. From January 1999 to June 2008 Mr. Gross served on the board of directors of United Rentals, Inc., and in the past has served on the boards of directors, including in certain cases, in the capacity as a lead director, of more than 20 public and private companies. He is a founding member, and serves on the executive committee, of the Youth Renewal Fund, is the chairman of the board of Mt. Sinai Children's Center Foundation, and serves on the Board of Trustees of The Trinity School and the Board of Directors of New York Road Runners. Mr. Gross holds a B.B.A. in accounting from the University of Michigan and an M.M. from the J.L. Kellogg Graduate School of Management at Northwestern University. Mr. Gross' intimate knowledge of the business and operations of Solar Senior Capital, extensive familiarity with the financial industry and the investment management process in particular, and experience as a director of other public and private companies not only gives the board of directors valuable insight but also positions him well to continue to serve as the chairman of our board of directors.

Bruce Spohler has been the chief operating officer and a director of Solar Senior Capital since December 2010. In addition, Mr. Spohler served as a senior vice president of Solar Capital LLC from its inception in February 2007, has been a director since September 2009, and the chief operating officer since December 2007, of Solar Capital, its successor fund. Mr. Spohler also currently serves as a managing partner of our investment adviser, Solar Capital Partners. Previously, Mr. Spohler was a managing director and a former co-head of U.S. Leveraged Finance for CIBC World Markets. He held numerous senior roles at CIBC World Markets, including serving on the U.S. Management Committee, Global Executive Committee and the Deals Committee, which approves all of CIBC World Markets' U.S. corporate finance debt capital decisions. During his tenure, he was responsible for senior loan, high yield and mezzanine origination and execution, as well as CIBC World Markets' below investment grade loan portfolio in the U.S. As a co-head of U.S. Leveraged Finance, he oversaw over 300

Table of Contents

capital raising and merger and acquisition transactions, comprising over \$40 billion in market capitalization. He joined CIBC World Markets in 1995 when it acquired The Argosy Group, of which Mr. Spohler was a founding member and managing director. Founded in 1990, The Argosy Group was a middle-market financing business, in which Mr. Spohler and other principals of The Argosy Group raised third party capital as well as invested alongside their financial sponsor clients. Prior to The Argosy Group, Mr. Spohler was employed by Drexel Burnham Lambert Incorporated. Mr. Spohler earned a B.S. from Syracuse University and an M.M. from the J.L. Kellogg Graduate School of Management at Northwestern University. Mr. Spohler's depth of experience in managerial positions in investment management, leveraged finance and financial services, as well as his intimate knowledge of Solar Senior Capital's business and operations, gives the board of directors valuable industry-specific knowledge and expertise on these and other matters.

Independent Directors

Steven Hochberg has been a director of Solar Senior Capital since January 2011. Mr. Hochberg has been a director of Solar Capital LLC from its inception in February 2007, and has been a director of Solar Capital since November 2007, its successor entity. Mr. Hochberg has been a partner at Deerfield Management, a healthcare investment firm, since 2013. Mr. Hochberg is the founder of Ascent Biomedical Ventures, a New York based venture investor in biomedical technology companies including medical devices and drugs. Since 1992, Mr. Hochberg has also been an active founder of early-stage medical technology companies, including Biomerix Corporation, Eminent Research Systems Inc., Clinsights, Inc., Med-E-Systems/AHT Corporation, and Physicians Online. Mr. Hochberg is the chairman of the board of directors of Biomerix Corporation, Crosstrees Medical, Inc. and Ouroboros, Inc., and serves on the board of directors of Synecor, LLC and SpineView, Inc. Previously, Mr. Hochberg was an investment banker with Alex. Brown & Sons and a strategy consultant with Bain & Company in the technology and healthcare areas. Mr. Hochberg was Chairman of the Board of Trustees of Continuum Health Partners, one of the largest non-profit hospital systems in New York City until its merger with Mount Sinai in 2013 and he is now the Senior Vice Chairman of Mount Sinai Health System. Mr. Hochberg is also a member of the Board of Governors of the New York Academy of Sciences. Mr. Hochberg holds a B.B.A. from the University of Michigan and an M.B.A. from Harvard Business School. Mr. Hochberg's varied experience in investing in medical technology companies provides the board of directors with particular knowledge of this field, and his role as chairman of other companies' board of directors brings the perspective of a knowledgeable corporate leader.

Leonard A. Potter has been a director of Solar Senior Capital since January 2011. Mr. Potter has been a director of Solar Capital since September 2009. Mr. Potter is currently the President and Chief Investment Officer of Wildcat Capital Management, LLC, a registered investment advisor and the Chief Executive Officer of Infinity Q Capital Management, LLC, also a registered investment advisor. From August 2009 through August 2011, Mr. Potter served as the Chief Investment Officer of Salt Creek Hospitality, a private acquirer and owner of hospitality related assets. From December 2002 through July 2009, Mr. Potter was a Managing Director - Soros Private Equity at Soros Fund Management LLC (SFM) where, from May 2005 through July 2009, Mr. Potter served as co-head of the Private Equity group and a member of the Private Equity Investment Committee. From September 1998 until joining SFM in 2002, Mr. Potter was a Managing Director of Alpine Consolidated LLC, a private merchant bank, and from April 1996 through September 1998, Mr. Potter founded and served as a Managing Director of Capstone Partners LLC, a private merchant bank. Prior to founding Capstone Partners, Mr. Potter was an attorney specializing in mergers, acquisitions and corporate finance at Morgan, Lewis & Bockius and Willkie Farr & Gallagher. Mr. Potter is currently a member of the board of directors of GSV Capital Corp. a publicly-traded BDC, and has previously served as a board member of several other public companies. He also serves on the boards of three private companies. Mr. Potter has a B.A. from Brandeis University and a J.D. from the Fordham University School of Law. Mr. Potter's experience practicing as a corporate lawyer provides valuable insight to the board of directors on regulatory and risk management issues. In addition, his tenure in private equity investing and service as a director of both public and private companies provide industry-specific knowledge and expertise to the board of directors.

Table of Contents

David S. Wachter has been a director of Solar Senior Capital since January 2011. Mr. Wachter has been a director of Solar Capital LLC from its inception in February 2007, and has been a director of Solar Capital since November 2007, its successor entity. Mr. Wachter has been a founding partner, managing director and president of W Capital Partners since 2001. W Capital Partners is a private equity fund manager that acquires direct private equity portfolios in the secondary market. W Capital Partners manages over \$1 billion of capital and is a leading participant in providing private equity firms, financial institutions and corporations with a liquidity alternative for their private equity investments. Prior to founding W Capital Partners, Mr. Wachter was a managing director at Jefferies & Co. from 1999 to 2001, a founding partner and managing director at C.E. Unterberg, Towbin from 1990 to 1999 and an investment banker at Lehman Brothers from 1986 to 1990. Mr. Wachter has a B.S. in Engineering, with a major in Computer Science and Applied Mathematics, from Tufts University and an M.B.A. from New York University Graduate School of Business. Mr. Wachter's extensive knowledge of private equity and investment banking provides the board of directors with the valuable insight of an experienced financial manager.

Executive Officers Who Are Not Directors

Richard L. Peteka has been the chief financial officer, treasurer and secretary of Solar Senior Capital Ltd. since May 2012. In addition, Mr. Peteka has served as chief financial officer, treasurer and secretary of Solar Capital Ltd., a BDC managed by Solar Capital Partners, since May 2012. Mr. Peteka joined Solar Senior Capital from Apollo Investment Corporation, a publicly-traded BDC, where he served from 2004 to 2012 as the Chief Financial Officer and Treasurer. Prior to that, Mr. Peteka was Chief Financial Officer and Treasurer of various closed-end and open-end registered investment companies for Citigroup Asset Management. He joined Citigroup Asset Management as a Director in July 1999. Mr. Peteka holds a B.S. in Finance from The College at Old Westbury and an MBA in International Finance from St. John's University.

Guy Talarico has been the chief compliance officer of Solar Senior Capital since December 2010. In addition, Mr. Talarico has been the chief compliance officer of Solar Capital since July 2008. Mr. Talarico founded and has served as chief executive officer of Alaric Compliance Services, LLC, (successor to EOS Compliance Services LLC) since June 2004. Mr. Talarico currently serves as chief compliance officer for a number of funds and investment advisers, including Keeley Funds Inc., The FBR Funds and PennantPark Investment Corporation. Prior to founding EOS Compliance Services LLC, Mr. Talarico served as the Senior Director of the Institutional Custody Division at Investors Bank & Trust Company from 2001 to 2004. Immediately prior to that, Mr. Talarico worked at JPMorgan Chase Bank where he was a Division Executive for Commercial Investment and Retirement Services in its Investment Services Group from 1995 to 2001. Mr. Talarico holds a B.S. ChE from Lehigh University, an M.B.A. from Fairleigh Dickinson University and a J.D. from New York Law School.

Director Independence

In accordance with rules of the NASDAQ Stock Market, our board of directors annually determines each director's independence. We do not consider a director independent unless the board of directors has determined that he has no material relationship with us. We monitor the relationships of our directors and officers through a questionnaire each director completes no less frequently than annually and updates periodically as information provided in the most recent questionnaire changes.

Our governance guidelines require any director who has previously been determined to be independent to inform the chairman of the board of directors, the chairman of the Nominating and Corporate Governance committee and our corporate secretary of any change in circumstance that may cause his or her status as an independent director to change. The board of directors limits membership on the audit committee, the nominating and corporate governance committee, and the compensation committee to independent directors.

Edgar Filing: Borland Scott - Form 3

In order to evaluate the materiality of any such relationship, the board of directors uses the definition of director independence set forth in the rules promulgated by the NASDAQ Stock Market. Rule 5605(a)(2) provides that a director of a BDC shall be considered to be independent if he or she is not an interested person of such BDC, as defined in Section 2(a)(19) of the 1940 Act.

Table of Contents

The board of directors has determined that each of the directors is independent and has no relationship with us, except as a director and stockholder, with the exception of Michael S. Gross, as a result of his positions as the chief executive officer and president of Solar Senior Capital and the managing member of Solar Capital Partners, Solar Senior Capital's investment adviser, and Bruce Spohler, as a result of his position as chief operating officer of Solar Senior Capital and a partner of Solar Capital Partners.

Board Leadership Structure

Our board of directors monitors and performs an oversight role with respect to the business and affairs of Solar Senior Capital, including with respect to investment practices and performance, compliance with regulatory requirements and the services, expenses and performance of service providers to Solar Senior Capital. Among other things, our board of directors approves the appointment of our investment adviser and officers, reviews and monitors the services and activities performed by our investment adviser and executive officers and approves the engagement, and reviews the performance of, our independent public accounting firm.

Under Solar Senior Capital's by laws, our board of directors may designate a chairman to preside over the meetings of the board of directors and meetings of the stockholders and to perform such other duties as may be assigned to him by the board. We do not have a fixed policy as to whether the chairman of the board should be an independent director and believe that we should maintain the flexibility to select the chairman and reorganize the leadership structure, from time to time, based on the criteria that is in the best interests of Solar Senior Capital and its stockholders at such times.

Presently, Mr. Gross serves as the chairman of our board of directors. Mr. Gross is an interested person of Solar Senior Capital as defined in Section 2(a)(19) of the 1940 Act because he is the president and chief executive officer of Solar Senior Capital, serves on the investment committee of our investment adviser and is the managing member of our investment adviser. We believe that Mr. Gross' history with Solar Senior Capital, familiarity with its investment platform, and extensive knowledge of the financial services industry and the investment valuation process in particular qualify him to serve as the chairman of our board of directors. We believe that Solar Senior Capital is best served through this existing leadership structure, as Mr. Gross' relationship with Solar Senior Capital's investment adviser provides an effective bridge and encourages an open dialogue between management and the board of directors, ensuring that both groups act with a common purpose.

Our board of directors does not currently have a designated lead independent director. We are aware of the potential conflicts that may arise when a non-independent director is chairman of the board, but believe these potential conflicts are offset by our strong corporate governance policies. Our corporate governance policies include regular meetings of the independent directors in executive session without the presence of interested directors and management, the establishment of audit, nominating and corporate governance, and compensation committees comprised solely of independent directors and the appointment of a chief compliance officer, with whom the independent directors meet regularly without the presence of interested directors and other members of management, for administering our compliance policies and procedures.

We recognize that different board leadership structures are appropriate for companies in different situations. We re-examine our corporate governance policies on an ongoing basis to ensure that they continue to meet Solar Senior Capital's needs.

Board's Role In Risk Oversight

Edgar Filing: Borland Scott - Form 3

Our board of directors performs its risk oversight function primarily through (a) its three standing committees, which report to the entire board of directors and are comprised solely of independent directors, and (b) active monitoring of our chief compliance officer and our compliance policies and procedures.

As described below in more detail under Committees of the Board of Directors, the audit committee, the nominating and corporate governance committee, and compensation committee assist the board of directors in

Table of Contents

fulfilling its risk oversight responsibilities. The audit committee's risk oversight responsibilities include overseeing Solar Senior Capital's accounting and financial reporting processes, Solar Senior Capital's systems of internal controls regarding finance and accounting, and audits of Solar Senior Capital's financial statements. The nominating and corporate governance committee's risk oversight responsibilities include selecting, researching and nominating directors for election by our stockholders, developing and recommending to the board a set of corporate governance principles and overseeing the evaluation of the board and our management. The compensation committee's risk oversight responsibilities include, to the extent that we compensate our executive officers directly in the future, reviewing and evaluating the compensation of our executive officers and making recommendations to the board of directors regarding such compensation.

Our board of directors also performs its risk oversight responsibilities with the assistance of the chief compliance officer. The board of directors annually reviews a written report from the chief compliance officer discussing the adequacy and effectiveness of the compliance policies and procedures of Solar Senior Capital and its service providers. The chief compliance officer's annual report addresses at a minimum (a) the operation of the compliance policies and procedures of Solar Senior Capital and its service providers since the last report; (b) any material changes to such policies and procedures since the last report; (c) any recommendations for material changes to such policies and procedures as a result of the chief compliance officer's annual review; and (d) any compliance matter that has occurred since the date of the last report about which the board of directors would reasonably need to know to oversee our compliance activities and risks. In addition, the chief compliance officer meets separately in executive session with the independent directors at least once each year.

We believe that our board's role in risk oversight is effective, and appropriate given the extensive regulation to which we are already subject as a BDC. As a BDC, we are required to comply with certain regulatory requirements that control the levels of risk in our business and operations. For example, our ability to incur indebtedness is limited such that our asset coverage must equal at least 200% immediately after each time we incur indebtedness, we generally have to invest at least 70% of our total assets in qualifying assets and we are not generally permitted to invest in any portfolio company in which one of our affiliates currently has an investment. See Regulation as a Business Development Company.

We recognize that different board roles in risk oversight are appropriate for companies in different situations. We re-examine the manners in which the board administers its oversight function on an ongoing basis to ensure that they continue to meet Solar Senior Capital's needs.

Committees of the Board of Directors

An Audit Committee, a Nominating and Corporate Governance Committee and a Compensation Committee have been established by our board of directors. During 2014, our board of directors held five Board of Directors meetings, four Audit Committee meetings and one Nominating and Corporate Governance Committee meeting. The Compensation Committee was formed in 2014. All directors attended at least 75% of the aggregate number of meetings of the board of directors and of the respective committees on which they serve. We require each director to make a diligent effort to attend all board and committee meetings as well as each annual meeting of our stockholders.

Audit Committee

The audit committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.solarseniorcap.com>. The charter sets forth the responsibilities of the audit committee. The audit committee's responsibilities include selecting the independent registered public accounting firm for Solar Senior Capital, reviewing with such independent registered public accounting firm the planning, scope and results of their audit of Solar Senior Capital's financial statements, pre-approving the fees for services performed, reviewing with the independent registered public accounting firm the adequacy of internal control systems, reviewing Solar Senior Capital's annual financial statements and periodic filings and receiving Solar

Table of Contents

Senior Capital's audit reports and financial statements. The audit committee also establishes guidelines and makes recommendations to our board of directors regarding the valuation of our investments. The audit committee is responsible for aiding our board of directors in determining the fair value of debt and equity securities that are not publicly traded or for which current market values are not readily available. The board of directors and audit committee may utilize the services of nationally recognized third-party valuation firms to help determine the fair value of these securities. The audit committee is currently composed of Messrs. Hochberg, Wachter and Potter, all of whom are considered independent under the rules of the NASDAQ Stock Market and are not interested persons of Solar Senior Capital as that term is defined in Section 2(a)(19) of the 1940 Act. Mr. Hochberg serves as chairman of the audit committee. Our board of directors has determined that Mr. Hochberg is an audit committee financial expert as that term is defined under Item 407 of Regulation S-K, as promulgated under the Exchange Act. Mr. Hochberg meets the current independence and experience requirements of Rule 10A-3 of the Exchange Act.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.solarseniorcap.com>. The members of the nominating and corporate governance committee are Messrs. Hochberg, Wachter and Potter, all of whom are considered independent under the rules of the NASDAQ Stock Market and are not interested persons of Solar Senior Capital as that term is defined in Section 2(a)(19) of the 1940 Act. Mr. Wachter serves as chairman of the nominating and corporate governance committee. The nominating and corporate governance committee is responsible for selecting, researching and nominating directors for election by our stockholders, selecting nominees to fill vacancies on the board of directors or a committee thereof, developing and recommending to the board of directors a set of corporate governance principles and overseeing the evaluation of the board of directors and our management. The nominating and corporate governance committee currently does not consider nominees recommended by our stockholders.

The nominating and corporate governance committee seeks candidates who possess the background, skills and expertise to make a significant contribution to the board of directors, Solar Senior Capital and its stockholders. In considering possible candidates for election as a director, the nominating and corporate governance committee takes into account, in addition to such other factors as it deems relevant, the desirability of selecting directors who:

are of high character and integrity;

are accomplished in their respective fields, with superior credentials and recognition;

have relevant expertise and experience upon which to be able to offer advice and guidance to management;

have sufficient time available to devote to the affairs of Solar Senior Capital;

are able to work with the other members of the board of directors and contribute to the success of Solar Senior Capital;

can represent the long-term interests of Solar Senior Capital's stockholders as a whole; and

are selected such that the board of directors represents a range of backgrounds and experience.

Edgar Filing: Borland Scott - Form 3

The nominating and corporate governance committee has not adopted a formal policy with regard to the consideration of diversity in identifying director nominees. In determining whether to recommend a director nominee, the nominating and corporate governance committee considers and discusses diversity, among other factors, with a view toward the needs of the board of directors as a whole. The nominating and corporate governance committee generally conceptualizes diversity expansively to include, without limitation, concepts such as race, gender, national origin, differences of viewpoint, professional experience, education, skill and other

Table of Contents

qualities that contribute to the board of directors, when identifying and recommending director nominees. The nominating and corporate governance committee believes that the inclusion of diversity as one of many factors considered in selecting director nominees is consistent with the nominating and corporate governance committee's goal of creating a board of directors that best serves the needs of Solar Senior Capital and the interest of its shareholders.

Compensation Committee

The Compensation Committee operates pursuant to a charter approved by our board of directors, a copy of which is available on our website at <http://www.solarseniorcap.com>. The charter sets forth the responsibilities of the Compensation Committee. The Compensation Committee is responsible for reviewing and evaluating compensation and making recommendations to the board of directors regarding executive officer direct compensation. In addition, the Compensation Committee is responsible for assisting the our board of directors with matters related to compensation generally. The Compensation Committee has the authority to engage compensation consultants and to delegate their duties and responsibilities to a member or to a subcommittee of the Compensation Committee. The members of the Compensation Committee are Messrs. Hochberg, Wachter and Potter, all of whom are considered independent under the rules of the NASDAQ Stock Market and are not interested persons of the Company as that term is defined in Section 2(a)(19) of the 1940 Act. Mr. Potter serves as Chairman of the Compensation Committee.

Compensation of Directors

The following table sets forth compensation of Solar Senior Capital's directors, for the period ended December 31, 2014.

Name	Fees Earned or Paid in Cash(1)	Stock Awards(2)	All Other Compensation	Total
Interested Directors				
Michael S. Gross				
Bruce Spohler				
Independent Directors				
Steven Hochberg	\$ 62,500			\$ 62,500
David S. Wachter	\$ 60,000			\$ 60,000
Leonard A. Potter	\$ 58,250			\$ 58,250

- (1) For a discussion of the independent directors' compensation, see below.
- (2) We do not maintain a stock or option plan, non-equity incentive plan or pension plan for our directors. However, our independent directors have the option to receive all or a portion of the directors' fees to which they would otherwise be entitled in the form of shares of our common stock issued at a price per share equal to the greater of our then-current net asset value per share or the market price at the time of payment. No shares were issued to any of our independent directors in lieu of cash during 2014.

Our independent directors' annual fee is \$50,000. The independent directors also receive \$1,250 (\$500 if participate telephonically) plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each board meeting and \$500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with each committee meeting attended. In addition, the chairman of the audit committee receives an annual fee of \$3,750 and the chairman of the nominating and corporate governance committee receives an annual fee of \$1,250 and the chairman of the compensation committee receives an annual fee of \$1,250. Further, we purchase directors' and officers' liability insurance on behalf of our directors and officers. In addition, no compensation was paid to directors who are interested persons of the company

as defined in the 1940 Act.

Table of Contents

Compensation of Executive Officers

None of our officers receives direct compensation from Solar Senior Capital. As a result, we do not engage any compensation consultants. Mr. Gross, our chief executive officer and president, and Mr. Spohler, our chief operating officer, through their ownership interest in Solar Senior Capital Partners, our investment adviser, are entitled to a portion of any profits earned by Solar Capital Partners, which includes any fees payable to Solar Capital Partners under the terms of our Investment Advisory and Management Agreement, less expenses incurred by Solar Capital Partners in performing its services under the Investment Advisory and Management Agreement. Messrs. Gross and Spohler do not receive any additional compensation from Solar Capital Partners in connection with the management of our portfolio.

Mr. Peteka, our chief financial officer, treasurer and secretary and, through Alaric Compliance Services, LLC, Guy Talarico, our chief compliance officer, are paid by Solar Capital Management, our administrator, subject to reimbursement by us of an allocable portion of such compensation for services rendered by such persons to Solar Senior Capital. To the extent that Solar Capital Management outsources any of its functions we will pay the fees associated with such functions on a direct basis without profit to Solar Capital Management.

Indemnification Agreements

We have entered into indemnification agreements with our directors. The indemnification agreements are intended to provide our directors the maximum indemnification permitted under Maryland law and the 1940 Act. Each indemnification agreement provides that Solar Senior Capital shall indemnify the director who is a party to the agreement, or an Indemnitee, including the advancement of legal expenses, if, by reason of his or her corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding, to the maximum extent permitted by Maryland law and the 1940 Act.

Table of Contents**PORTFOLIO MANAGEMENT**

The management of our investment portfolio is the responsibility of our investment adviser, Solar Capital Partners, and its investment committee, which is led by Messrs. Gross and Spohler. For more information regarding the business experience of Messrs. Gross and Spohler, see Management Board of Directors and Executive Officers Interested Directors. Solar Capital Partners investment committee must approve each new investment that we make. The members of Solar Capital Partners investment committee are not employed by us, and receive no compensation from us in connection with their portfolio management activities. However, Messrs. Gross and Spohler, through their financial interests in Solar Capital Partners, will be entitled to a portion of any investment advisory fees paid by Solar Senior Capital to Solar Capital Partners.

Investment Personnel

We consider Messrs. Gross and Spohler, who lead Solar Capital Partners investment committee, to be our portfolio managers.

In addition to managing our investments, our portfolio managers also currently manage the following entity:

Name	Entity	Investment Focus	Gross Assets(1)
Solar Capital Ltd.	BDC	Primarily mezzanine debt and equity investments in middle-market leveraged companies	\$ 1.7 billion(1)

(1) Gross assets are calculated as of December 31, 2014.

The table below shows the dollar range of shares of our common stock to be beneficially owned by each of our portfolio managers.

Name of Portfolio Manager	Dollar Range of Equity Securities in Solar Capital(1)(2)
Michael S. Gross	Over \$1 million
Bruce Spohler	Over \$1 million

(1) Dollar ranges are as follows: None, \$1 \$10,000, \$10,001 \$50,000, \$50,001 \$100,000, \$100,001 \$500,000; \$500,001 \$1,000,000 or Over \$1,000,000.

(2) The dollar range of equity securities beneficially owned in us is based on the closing price for our common stock of \$16.13 on March 3, 2015 on the NASDAQ Global Select Market.

Compensation

Edgar Filing: Borland Scott - Form 3

None of Solar Capital Partners' investment professionals receive any direct compensation from us in connection with the management of our portfolio. Messrs. Gross and Spohler, through their financial interests in Solar Capital Partners, are entitled to a portion of any profits earned by Solar Capital Partners, which includes any fees payable to Solar Capital Partners under the terms of our Investment Advisory and Management Agreement, less expenses incurred by Solar Capital Partners in performing its services under our Investment Advisory and Management Agreement.

Table of Contents

INVESTMENT ADVISORY AND MANAGEMENT AGREEMENT

Management Services

Solar Capital Partners serves as our investment adviser. Solar Capital Partners is an investment adviser that is registered as an investment adviser under the Advisers Act. Subject to the overall supervision of our board of directors, our investment adviser manages the day-to-day operations of, and provides investment advisory and management services to, Solar Senior Capital. Under the terms of our Investment Advisory and Management Agreement, Solar Capital Partners:

determines the composition of our portfolio, the nature and timing of the changes to our portfolio and the manner of implementing such changes;

identifies, evaluates and negotiates the structure of the investments we make (including performing due diligence on our prospective portfolio companies);

closes and monitors the investments we make; and

provides us with other investment advisory, research and related services as we may from time to time require.

Solar Capital Partners' services under the Investment Advisory and Management Agreement are not exclusive, and it is free to furnish similar services to other entities so long as its services to us are not impaired. For example, Solar Capital Partners presently serves as investment adviser to Solar Capital Ltd., a publicly-traded BDC which focuses on investing primarily in mezzanine debt and equity investments in middle-market leveraged companies.

Management Fee

Pursuant to the Investment Advisory and Management Agreement, we have agreed to pay Solar Capital Partners a fee for investment advisory and management services consisting of two components – a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.00% of our gross assets. For services rendered under the Investment Advisory and Management Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee has two parts, as follows: one is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment,

Edgar Filing: Borland Scott - Form 3

origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to Solar Capital Management, and any interest expense and distributions paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with pay in kind interest and zero coupon securities), accrued income that we have not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). Our

Table of Contents

net investment income used to calculate this part of the incentive fee is also included in the amount of our gross assets used to calculate the 1.00% base management fee. We pay Solar Capital Partners an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

50% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.9167% in any calendar quarter (11.67% annualized). We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.9167%) as the catch-up. The catch-up is meant to provide our investment adviser with 20% of our pre-incentive fee net investment income as if a hurdle did not apply if this net investment income exceeds 2.9167% in any calendar quarter; and

20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.9167% in any calendar quarter (11.67% annualized) is payable to Solar Capital Partners (once the hurdle is reached and the catch-up is achieved, 20% of all pre-incentive fee investment income thereafter is allocated to Solar Capital Partners).

The following is a graphical representation of the calculation of the income-related portion of the incentive fee:

Pre-incentive fee net investment income

(expressed as a percentage of the value of net assets)

Percentage of pre-incentive fee net investment income

allocated to Solar Capital Partners

These calculations are appropriately pro-rated for any period of less than three months and adjusted for any share issuances or repurchases during the relevant quarter. You should be aware that a rise in the general level of interest rates can be expected to lead to higher interest rates applicable to our debt investments. Accordingly, an increase in interest rates would make it easier for us to meet or exceed the incentive fee hurdle rate and may result in a substantial increase of the amount of incentive fees payable to our investment adviser with respect to pre-incentive fee net investment income.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory and Management Agreement, as of the termination date), and equals 20% of our realized capital gains, if any, on a cumulative basis from inception through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees with respect to each of the investments in our portfolio.

Table of Contents

Examples of Quarterly Incentive Fee Calculation

Example 1: Income Related Portion of Incentive Fee (*):

Alternative 1:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 1.25%

Hurdle rate (1) = 1.75%

Management fee (2) = 0.25%

Other expenses (legal, accounting, custodian, transfer agent, etc.) (3) = 0.20%

Pre-incentive fee net investment income

(investment income - (management fee + other expenses)) = 0.80%

Pre-incentive net investment income does not exceed hurdle rate, therefore there is no incentive fee.

Alternative 2:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 2.70%

Hurdle rate (1) = 1.75%

Management fee (2) = 0.50%

Other expenses (legal, accounting, custodian, transfer agent, etc.) (3) = 0.20%

Pre-incentive fee net investment income

(investment income - (management fee + other expenses)) = 2.25%

Incentive fee = 50% × pre-incentive fee net investment income, subject to the catch-up (4)

$$= 50\% \times (2.25\% - 1.75\%)$$

$$= 0.25\%$$

Alternative 3:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 4.00%

Hurdle rate (1) = 1.75%

Management fee (2) = 0.25%

Other expenses (legal, accounting, custodian, transfer agent, etc.) (3) = 0.20%

Pre-incentive fee net investment income

(investment income - (management fee + other expenses)) = 3.55%

Incentive fee = 20% × pre-incentive fee net investment income, subject to catch-up (4)

Incentive fee = 50% × catch-up + (20% × (pre-incentive fee net investment income - 2.9167%))

Catch-up = 2.9167% - 1.75%

= 1.1667%

Incentive fee = (50% × 1.1667%) + (20% × (3.55% - 2.9167%))

= 0.58334% + (20% × 0.6333%)

= 0.58334% + 0.12667%

= 0.71001%

(*) The hypothetical amount of pre-incentive fee net investment income shown is based on a percentage of total net assets.

(1) Represents 7% annualized hurdle rate.

(2) Represents 1% annualized management fee.

(3) Excludes organizational and offering expenses.

(4) The catch-up provision is intended to provide our investment adviser with an incentive fee of approximately 20% on all of our pre-incentive fee net investment income as if a hurdle rate did not apply when our net investment income exceeds 2.9167% in any calendar quarter.

Table of Contents

Example 2: Capital Gains Portion of Incentive Fee:

Alternative 1:

Assumptions

Year 1: \$20 million investment made in Company A (Investment A), and \$30 million investment made in Company B (Investment B)

Year 2: Investment A sold for \$50 million and fair market value (FMV) of Investment B determined to be \$32 million

Year 3: FMV of Investment B determined to be \$25 million

Year 4: Investment B sold for \$31 million

The capital gains portion of the incentive fee would be:

Year 1: None

Year 2: Capital gains incentive fee of \$6 million (\$30 million realized capital gains on sale of Investment A multiplied by 20%)

Year 3: None

\$5 million cumulative fee (20% multiplied by \$25 million (\$30 million cumulative capital gains less \$5 million cumulative capital depreciation)) less \$6 million (previous capital gains fee paid in Year 2)

Year 4: Capital gains incentive fee of \$200,000

\$6.2 million cumulative fee (\$31 million cumulative realized capital gains multiplied by 20%) less \$6 million (previous capital gains fee paid in Year 2)

Alternative 2:

Edgar Filing: Borland Scott - Form 3

Assumptions

Year 1: \$20 million investment made in Company A (Investment A), \$30 million investment made in Company B (Investment B) and \$25 million investment made in Company C (Investment C)

Year 2: Investment A sold for \$50 million, FMV of Investment B determined to be \$25 million and FMV of Investment C determined to be \$25 million

Year 3: FMV of Investment B determined to be \$27 million and Investment C sold for \$30 million

Year 4: FMV of Investment B determined to be \$24 million

Year 5: Investment B sold for \$20 million

The capital gains incentive fee, if any, would be:

Year 1: None

Year 2: \$5 million capital gains incentive fee

20% multiplied by \$25 million (\$30 million realized capital gains on sale of Investment A less \$5 million unrealized capital depreciation on Investment B)

Year 3: \$1.4 million capital gains incentive fee⁽¹⁾

\$6.4 million cumulative fee (20% multiplied by \$32 million (\$35 million cumulative realized capital gains less \$3 million unrealized capital depreciation)) less \$5 million (previous capital gains fee paid in Year 2)

Table of Contents

Year 4: None

Year 5: None

\$5 million cumulative fee (20% multiplied by \$25 million (cumulative realized capital gains of \$35 million less realized capital losses of \$10 million)) less \$6.4 million (previous cumulative capital gains fee paid in Year 2 and Year 3)

- (1) As illustrated in Year 3 of Alternative 1 above, if Solar Senior Capital were to be wound up on a date other than December 31 of any year, Solar Senior Capital may have paid aggregate capital gain incentive fees that are more than the amount of such fees that would be payable if Solar Senior Capital had been wound up on December 31 of such year.

Payment of Our Expenses

All investment professionals of the investment adviser and their respective staffs, when and to the extent engaged in providing investment advisory and management services, and the compensation and routine overhead expenses of such personnel allocable to such services, are provided and paid for by Solar Capital Partners. We bear all other costs and expenses of our operations and transactions, including (without limitation):

the cost of our organization and this offering;

the cost of calculating our net asset value, including the cost of any third-party valuation services;

the cost of effecting sales and repurchases of our shares and other securities;

interest payable on debt, if any, to finance our investments;

fees payable to third parties relating to, or associated with, making investments, including fees and expenses associated with performing due diligence reviews of prospective investments and advisory fees;

transfer agent and custodial fees;

fees and expenses associated with marketing efforts;

federal and state registration fees, any stock exchange listing fees;

federal, state and local taxes;

Edgar Filing: Borland Scott - Form 3

independent directors' fees and expenses;

brokerage commissions;

fidelity bond, directors and officers errors and omissions liability insurance and other insurance premiums;

direct costs and expenses of administration, including printing, mailing, long distance telephone and staff;

fees and expenses associated with independent audits and outside legal costs;

costs associated with our reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws; and

all other expenses incurred by either Solar Capital Management or us in connection with administering our business, including payments under the Administration Agreement that will be based upon our allocable portion of overhead and other expenses incurred by Solar Capital Management in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and our allocable portion of the costs of compensation and related expenses of our chief compliance officer and our chief financial officer and any administrative support staff.

Table of Contents

Duration and Termination

The Investment Advisory and Management Agreement was initially approved by the board of directors of Solar Senior Capital on February 7, 2011. Unless earlier terminated as described below, the Investment Advisory and Management Agreement will remain in effect from year to year if approved annually by our board of directors or by the affirmative vote of the holders of a majority of our outstanding voting securities, including, in either case, approval by a majority of our directors who are not parties to such agreement or who are not interested persons of Solar Senior Capital, as such term is defined in Section 2(a)(19) of the 1940 Act. The Investment Advisory and Management Agreement will automatically terminate in the event of its assignment. The Investment Advisory and Management Agreement may also be terminated by either party without penalty on 60 days written notice to the other. See Risk Factors Risks Relating to Our Business and Structure Our investment adviser can resign on 60 days notice, and we may not be able to find a suitable replacement within that time, resulting in a disruption in our operations that could adversely affect our financial condition, business and results of operations.

Indemnification

The Investment Advisory and Management Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Solar Capital Partners and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Solar Senior Capital for any damages, liabilities, costs and expenses (including reasonable attorneys fees and amounts reasonably paid in settlement) arising from the rendering of Solar Capital Partners services under the Investment Advisory and Management Agreement or otherwise as an investment adviser of Solar Senior Capital.

Organization of the Investment Adviser

Solar Capital Partners is a Delaware limited liability company. The principal executive offices of Solar Capital Partners are located at 500 Park Avenue, New York, New York 10022.

Board Approval of the Investment Advisory and Management Agreement

A discussion regarding the basis for our board of director s approval of our Investment Advisory and Management Agreement will be included in our first annual report on Form 10-K filed subsequent to any such board approval, or incorporated by reference therein.

Table of Contents

ADMINISTRATION AGREEMENT

Solar Capital Management, LLC, a Delaware limited liability company, serves as our administrator. The principal executive offices of Solar Capital Management are located at 500 Park Avenue, New York, New York 10022. Pursuant to an Administration Agreement, Solar Capital Management furnishes us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities. Under the Administration Agreement, Solar Capital Management also performs, or oversees the performance of, our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders. In addition, Solar Capital Management assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholder, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of Solar Capital Management's overhead in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and our allocable portion of the compensation of our chief financial officer and any administrative support staff. Under the Administration Agreement, Solar Capital Management will also provide on our behalf managerial assistance to those portfolio companies that request such assistance. The Administration Agreement may be terminated by either party without penalty on 60 days' written notice to the other party.

The Administration Agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Solar Capital Management and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Solar Capital for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Solar Capital Management's services under the Administration Agreement or otherwise as administrator for Solar Senior Capital.

LICENSE AGREEMENT

We have entered into a license agreement with Solar Capital Partners pursuant to which Solar Capital Partners has agreed to grant us a non-exclusive, royalty-free license to use the name Solar Senior Capital. Under this agreement, we have a right to use the Solar Senior Capital name for so long as the Investment Advisory and Management Agreement with our investment adviser is in effect. Other than with respect to this limited license, we will have no legal right to the Solar Senior Capital name.

Table of Contents

CERTAIN RELATIONSHIPS AND TRANSACTIONS

We have entered into the Investment Advisory and Management Agreement with Solar Capital Partners. Mr. Gross, our chairman and chief executive officer, is the managing member and a senior investment professional of, and has financial and controlling interests in, Solar Capital Partners. In addition, Mr. Spohler, our chief operating officer and board member and Mr. Peteka, our chief financial officer, treasurer and secretary, serve as a partner and chief financial officer, respectively, for Solar Capital Partners. Mr. Spohler also has financial interests in Solar Capital Partners.

Solar Capital Partners and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole and in part, with ours. For example, Solar Capital Partners presently serves as investment adviser to Solar Capital, a publicly-traded BDC with approximately \$1.7 billion of investable capital that investments primarily in the mezzanine debt and equity securities of middle-market leveraged companies similar to those we intend to target for investment. In addition, Michael S. Gross, our chairman and chief executive officer, Bruce Spohler, our chief operating officer, and Richard Peteka, our chief financial officer, treasurer and secretary serve in similar capacities for Solar Capital.

Solar Capital Partners and its affiliates may determine that an investment is appropriate for us and for Solar Capital or one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, Solar Capital Partners or its affiliates may determine that we should invest side-by-side with one or more other funds. Any such investments will be made only to the extent permitted by applicable law and interpretive positions of the SEC and its staff, and consistent with Solar Capital Partners' allocation procedures. In addition, we have adopted a formal code of ethics that governs the conduct of our officers and directors. Our officers and directors also remain subject to the duties imposed by both the 1940 Act and the Maryland General Corporation Law.

We have entered into a license agreement with Solar Capital Partners, pursuant to which Solar Capital Partners has agreed to grant us a non-exclusive, royalty-free license to use the name Solar Senior Capital. In addition, pursuant to the terms of the Administration Agreement, Solar Capital Management provides us with the office facilities and administrative services necessary to conduct our day-to-day operations. Solar Capital Partners is the sole member of and controls Solar Capital Management.

Table of Contents**CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS**

The following table sets forth certain ownership information as of March 3, 2015 with respect to Solar Senior Capital Ltd.'s common stock for those persons who, directly or indirectly, own, control or hold with the power to vote, 5% or more of Solar Senior Capital Ltd.'s common stock, and all officers and directors as a group.

Name	Type of Ownership	Shares Owned(1)	Percentage(2)
Michael S. Gross(3)	Direct and Indirect	786,867	6.8%
All officers and directors as a group (7 persons)(4)	Direct and Indirect	813,209	7.1%
Jack Silver(5)	Direct and Indirect	1,008,582	8.7%

- (1) Beneficial ownership is determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934. Assumes no other purchases or sales of our common stock since the most recently available SEC filings. This assumption has been made under the rules and regulations of the SEC and does not reflect any knowledge that we have with respect to the present intent of the beneficial owners of our common stock listed in this table.
- (2) Percentages are based on 11,533,315 shares of common stock outstanding as of March 3, 2015.
- (3) Includes (i) 455,500 shares held by Solar Senior Capital Investors LLC and (ii) 100 shares held by Solar Capital Management, LLC, each of which may be deemed to be beneficially owned by Michael S. Gross and by Bruce Spohler by virtue of their collective ownership interests in, and control of, Solar Senior Capital Investors LLC and Solar Capital Management, LLC. Also includes 35,009 shares held by Solar Capital Partners Employee Stock Plan LLC, which is controlled by Solar Capital Partners, LLC. Mr. Gross and Mr. Spohler may be deemed to beneficially own the shares held by Solar Capital Partners Employee Stock Plan LLC by virtue of their collective ownership interest in Solar Capital Partners, LLC. The address for each of Solar Capital Management, LLC and Solar Senior Capital Investors LLC is 500 Park Avenue, New York, NY 10022.
- (4) The address for all officers and directors is 500 Park Avenue, New York, NY 10022.
- (5) Based upon information contained in Schedule 13G/A filed February 6, 2015 by Jack Silver. Such securities are held by certain investment vehicles controlled and/or managed by Jack Silver or his affiliates. The address for Jack Silver is 80 Columbus Circle PH 76A, New York, New York 10023.

The following table sets forth the dollar range of our equity securities beneficially owned by each of our directors as of March 3, 2015.

Name of Director	Dollar Range of Equity Securities in Solar Senior Capital(1)(2)
Interested Directors	
Michael S. Gross	Over \$100,000
Bruce Spohler	Over \$100,000
Independent Directors	
Steven Hochberg	Over \$100,000
David S. Wachter	Over \$100,000
Leonard A. Potter	Over \$100,000

- (1) The dollar ranges are: None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, or Over \$100,000.

Edgar Filing: Borland Scott - Form 3

- (2) The dollar range of equity securities beneficially owned in us is based on the closing price for our common stock of \$16.13 on March 3, 2015 on the NASDAQ Global Select Market. Beneficial ownership has been determined in accordance with Rule 16a-1(a)(2) of the Securities Exchange Act of 1934.

Table of Contents

REGULATION AS A BUSINESS DEVELOPMENT COMPANY

General

A BDC is regulated by the 1940 Act. A BDC must be organized in the United States for the purpose of investing in or lending to primarily private companies and making significant managerial assistance available to them. A BDC may use capital provided by public stockholders and from other sources to make long-term, private investments in businesses. A BDC provides stockholders the ability to retain the liquidity of a publicly traded stock while sharing in the possible benefits, if any, of investing in primarily privately owned companies.

We may not change the nature of our business so as to cease to be, or withdraw our election as, a BDC unless authorized by vote of a majority of our outstanding voting securities, as required by the 1940 Act. A majority of the outstanding voting securities of a company is defined under the 1940 Act as the lesser of: (a) 67% or more of such company's voting securities present at a meeting if more than 50% of the outstanding voting securities of such company are present or represented by proxy, or (b) more than 50% of the outstanding voting securities of such company. We do not anticipate any substantial change in the nature of our business.

As with other companies regulated by the 1940 Act, a BDC must adhere to certain substantive regulatory requirements. A majority of our directors must be persons who are not interested persons, as that term is defined in the 1940 Act. Additionally, we are required to provide and maintain a bond issued by a reputable fidelity insurance company to protect the BDC. Furthermore, as a BDC, we are prohibited from protecting any director or officer against any liability to us or our stockholders arising from willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of such person's office.

As a BDC, we are required to meet a coverage ratio, reflecting the value of our total assets to our total senior securities, which include all of our borrowings and any preferred stock we may issue in the future, of at least 200%. We may also be prohibited under the 1940 Act from knowingly participating in certain transactions with our affiliates without the prior approval of our directors who are not interested persons and, in some cases, prior approval by the SEC.

We are generally not able to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the then-current net asset value of our common stock if our board of directors determines that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. In addition, we may generally issue new shares of our common stock at a price below net asset value in rights offerings to existing stockholders, in payment of distributions and in certain other limited circumstances.

As a BDC, we are generally limited in our ability to invest in any portfolio company in which our investment adviser or any of its affiliates currently have an investment or to make any co-investments with our investment adviser or its affiliates without an exemptive order from the SEC, subject to certain exceptions.

We will be periodically examined by the SEC for compliance with the 1940 Act.

Qualifying Assets

Under the 1940 Act, a BDC may not acquire any asset other than assets of the type listed in Section 55(a) of the 1940 Act, which are referred to as qualifying assets, unless, at the time the acquisition is made, qualifying assets represent at least 70% of the BDC's total assets. The principal categories of qualifying assets we believe are relevant to our business are the following:

(1) Securities purchased in transactions not involving any public offering from the issuer of such securities, which issuer (subject to certain limited exceptions) is an eligible portfolio company, or from any

Table of Contents

person who is, or has been during the preceding 13 months, an affiliated person of an eligible portfolio company, or from any other person, subject to such rules as may be prescribed by the SEC. An eligible portfolio company is defined in the 1940 Act as any issuer which:

(a) is organized under the laws of, and has its principal place of business in, the United States;

(b) is not an investment company (other than a small business investment company wholly owned by the BDC) or a company that would be an investment company but for certain exclusions under the 1940 Act; and

(c) satisfies any of the following:

i.) does not have any class of securities that is traded on a national securities exchange;

ii.) has a class of securities listed on a national securities exchange, but has an aggregate market value of outstanding voting and non-voting common equity of less than \$250 million;

iii.) is controlled by a BDC or a group of companies including a BDC and the BDC has an affiliated person who is a director of the eligible portfolio company; or

iv.) is a small and solvent company having total assets of not more than \$4.0 million and capital and surplus of not less than \$2.0 million.

(2) Securities of any eligible portfolio company which we control.

(3) Securities purchased in a private transaction from a U.S. issuer that is not an investment company or from an affiliated person of the issuer, or in transactions incident thereto, if the issuer is in bankruptcy and subject to reorganization or if the issuer, immediately prior to the purchase of its securities, was unable to meet its obligations as they came due without material assistance other than conventional lending or financing arrangements.

(4) Securities of an eligible portfolio company purchased from any person in a private transaction if there is no ready market for such securities and we already own 60% of the outstanding equity of the eligible portfolio company.

(5) Securities received in exchange for or distributed on or with respect to securities described in (1) through (4) above, or pursuant to the exercise of warrants or rights relating to such securities.

(6) Cash, cash equivalents, U.S. government securities or high-quality debt securities maturing in one year or less from the time of investment.

Managerial Assistance to Portfolio Companies

As a BDC, we offer, and must provide upon request, managerial assistance to our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. We may also receive fees for these services. Solar Capital Management provides such managerial assistance on our behalf to portfolio companies that request this assistance.

Temporary Investments

Pending investment in other types of qualifying assets, as described above, our investments may consist of cash, cash equivalents, U.S. government securities or high-quality investment grade debt securities maturing in one year or less from the time of investment, which we refer to, collectively, as temporary investments, so that 70% of our assets are qualifying assets. Typically, we will invest in U.S. Treasury bills or in repurchase agreements, provided that such agreements are fully collateralized by cash or securities issued by the U.S. government or its agencies. A repurchase agreement involves the purchase by an investor, such as us, of a

Table of Contents

specified security and the simultaneous agreement by the seller to repurchase it at an agreed-upon future date and at a price which is greater than the purchase price by an amount that reflects an agreed-upon interest rate. There is no percentage restriction on the proportion of our assets that may be invested in such repurchase agreements. However, if more than 25% of our total assets constitute repurchase agreements from a single counterparty, we would not meet the diversification tests in order to qualify as a RIC for U.S. federal income tax purposes. Thus, we do not intend to enter into repurchase agreements with a single counterparty in excess of this limit. Our investment adviser will monitor the creditworthiness of the counterparties with which we enter into repurchase agreement transactions.

Senior Securities

We are permitted, under specified conditions, to issue multiple classes of indebtedness and one class of stock senior to our common stock if our asset coverage, as defined in the 1940 Act, is at least equal to 200% immediately after each such issuance. In addition, while any senior securities remain outstanding, we must make provisions to prohibit any distribution to our stockholders or the repurchase of such securities or shares unless we meet the applicable asset coverage ratios at the time of the distribution or repurchase. We may also borrow amounts up to 5% of the value of our total assets for temporary or emergency purposes without regard to asset coverage. We may borrow money, which would magnify the potential for loss on amounts invested and may increase the risk of investing in us.

Code of Ethics

We and Solar Capital Partners have each adopted a code of ethics pursuant to Rule 17j-1 under the 1940 Act and Rule 204A-1 under the Advisers Act, respectively, that establishes procedures for personal investments and restricts certain transactions by our personnel. Our codes of ethics generally do not permit investments by our employees in securities that may be purchased or held by us. You may read and copy these codes of ethics at the SEC's Public Reference Room in Washington, D.C. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1 (800) SEC-0330. In addition, each code of ethics is available on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>. You may also obtain copies of the codes of ethics, after paying a duplicating fee, by electronic request at the following Email address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, 100 F Street, N.E., Washington, D.C. 20549.

Compliance Policies and Procedures

We and our investment adviser have adopted and implemented written policies and procedures reasonably designed to detect and prevent violation of the federal securities laws. We are required to review these compliance policies and procedures annually for their adequacy and the effectiveness of their implementation and to designate a chief compliance officer to be responsible for their administration. Guy Talarico currently serves as our chief compliance officer.

Sarbanes-Oxley Act of 2002

The Sarbanes-Oxley Act of 2002 imposes a wide variety of new regulatory requirements on publicly-held companies and their insiders. Many of these requirements affect us. For example:

Edgar Filing: Borland Scott - Form 3

pursuant to Rule 13a-14 of the Exchange Act, our chief executive officer and chief financial officer must certify the accuracy of the financial statements contained in our periodic reports;

pursuant to Item 307 of Regulation S-K, our periodic reports must disclose our conclusions about the effectiveness of our disclosure controls and procedures;

pursuant to Rule 13a-15 of the Exchange Act, our management is required to prepare an annual report regarding its assessment of our internal control over financial reporting and to obtain an audit of the effectiveness of internal control over financial reporting performed by our independent registered public accounting firm; and

Table of Contents

pursuant to Item 308 of Regulation S-K and Rule 13a-15 of the 1934 Act, our periodic reports must disclose whether there were significant changes in our internal controls over financial reporting or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

The Sarbanes-Oxley Act requires us to review our current policies and procedures to determine whether we comply with the Sarbanes-Oxley Act and the regulations promulgated thereunder. We will continue to monitor our compliance with all regulations that are adopted under the Sarbanes-Oxley Act and will take actions necessary to ensure that we are in compliance therewith.

Proxy Voting Policies and Procedures

We have delegated our proxy voting responsibility to our investment adviser. A summary of the Proxy Voting Policies and Procedures of our adviser are set forth below. The guidelines are reviewed periodically by the adviser and our non-interested directors, and, accordingly, are subject to change.

As an investment adviser registered under the Investment Advisers Act of 1940, Solar Capital Partners has a fiduciary duty to act solely in the best interests of its clients. As part of this duty, it recognizes that it must vote securities held by its clients in a timely manner free of conflicts of interest. These policies and procedures for voting proxies for investment advisory clients are intended to comply with Section 206 of, and Rule 206(4)-6 under, the Advisers Act.

Our investment adviser votes proxies relating to our portfolio securities in the best interest of our stockholders. Solar Capital Partners reviews on a case-by-case basis each proposal submitted for a proxy vote to determine its impact on our investments. Although it generally votes against proposals that may have a negative impact on our investments, it may vote for such a proposal if there exists compelling long-term reasons to do so. The proxy voting decisions of our investment adviser are made by the senior officers who are responsible for monitoring each of our investments. To ensure that our vote is not the product of a conflict of interest, it requires that: (i) anyone involved in the decision making process disclose to the managing member any potential conflict that he or she is aware of and any contact that he or she has had with any interested party regarding a proxy vote; and (ii) employees involved in the decision making process or vote administration are prohibited from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties.

You may obtain information about how we voted proxies by making a written request for proxy voting information to: Solar Capital Partners, LLC, 500 Park Avenue, New York, NY 10022.

Privacy Principles

We are committed to maintaining the privacy of our stockholders and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information we collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Edgar Filing: Borland Scott - Form 3

Generally, we do not receive any non-public personal information relating to our stockholders, although certain non-public personal information of our stockholders may become available to us. We do not disclose any non-public personal information about our stockholders (or former stockholders) to anyone, except as permitted by law or as is necessary in order to service stockholder accounts (for example, to a transfer agent or third party administrator).

We restrict access to non-public personal information about our stockholders to employees of our investment adviser and its affiliates with a legitimate business need for the information. We maintain physical, electronic and procedural safeguards designed to protect the non-public personal information of our stockholders.

Table of Contents

DETERMINATION OF NET ASSET VALUE

We determine the net asset value of our investment portfolio each quarter by subtracting our total liabilities from the fair value of our total assets.

We conduct the valuation of our assets, pursuant to which our net asset value shall be determined, at all times consistent with GAAP and the 1940 Act. We generally value our assets on a quarterly basis, or more frequently if required under the 1940 Act. Our valuation procedures are set forth in more detail below:

Securities for which market quotations are readily available on an exchange shall be valued at such price as of the closing price on the day of valuation. We may also obtain quotes with respect to certain of our investments from pricing services or brokers or dealers in order to value assets. When doing so, we determine whether the quote obtained is sufficient according to GAAP to determine the fair value of the security. If determined adequate, we use the quote obtained.

Securities for which reliable market quotations are not readily available or for which the pricing source does not provide a valuation or methodology or provides a valuation or methodology that, in the judgment of our investment adviser or board of directors, does not represent fair value, shall each be valued as follows: (i) each portfolio company or investment is initially valued by the investment professionals responsible for the portfolio investment; (ii) preliminary valuation conclusions are documented and discussed with our senior management; (iii) independent third-party valuation firms engaged by, or on behalf of, the board of directors will conduct independent appraisals and review management's preliminary valuations and make their own assessment for (a) each portfolio investment that, when taken together with all other investments in the same portfolio company, exceeds 10% of our total assets, plus available borrowings, as of the end of the most recently completed fiscal quarter, and (b) each portfolio asset that is presently in default; and (iv) the board of directors will discuss valuations and determine the fair value of each investment in our portfolio in good faith based on the input of the investment adviser and, where appropriate, the respective third-party valuation firms.

The recommendation of fair value will generally be based on the following factors, as relevant:

the nature and realizable value of any collateral;

the portfolio company's ability to make payments;

the portfolio company's earnings and discounted cash flow;

the markets in which the issuer does business; and

comparisons to publicly traded securities.

Edgar Filing: Borland Scott - Form 3

Securities for which market quotations are not readily available or for which a pricing source is not sufficient may include, but are not limited to, the following:

private placements and restricted securities that do not have an active trading market;

securities whose trading has been suspended or for which market quotes are no longer available;

debt securities that have recently gone into default and for which there is no current market;

securities whose prices are stale;

securities affected by significant events; and

securities that the investment adviser believes were priced incorrectly.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our financial statements.

Table of Contents

Determinations in Connection with Offerings

In connection with future offering of shares of our common stock, to the extent we do not have stockholder approval to sell below NAV, our board of directors or an authorized committee thereof will be required to make a good faith determination that we are not selling shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made. Our board of directors or an authorized committee thereof will consider the following factors, among others, in making such determination:

the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC;

our management's assessment of whether any material change in the net asset value of our common stock has occurred (including through the realization of gains on the sale of our portfolio securities) during the period beginning on the date of the most recently disclosed net asset value of our common stock and ending as of a time within 48 hours (excluding Sundays and holidays) of the sale of our common stock; and

the magnitude of the difference between (i) a value that our board of directors or an authorized committee thereof has determined reflects the current (as of a time within 48 hours excluding Sundays and holidays) net asset value of our common stock, which is based upon the net asset value of our common stock disclosed in the most recent periodic report we filed with the SEC, as adjusted to reflect our management's assessment of any material change in the net asset value of our common stock since the date of the most recently disclosed net asset value of our common stock, and (ii) the offering price of the shares of our common stock in the proposed offering.

Moreover, to the extent that there is even a remote possibility that we may (i) issue shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made or (ii) trigger the undertaking (which we provide in certain registration statements we file with the SEC) to suspend the offering of shares of our common stock pursuant to this prospectus if the net asset value of our common stock fluctuates by certain amounts in certain circumstances until the prospectus is amended, our board of directors or an authorized committee thereof will elect, in the case of clause (i) above, either to postpone the offering until such time that there is no longer the possibility of the occurrence of such event or to undertake to determine the net asset value of our common stock within two days prior to any such sale to ensure that such sale will not be below our then current net asset value, and, in the case of clause (ii) above, to comply with such undertaking or to undertake to determine the net asset value of our common stock to ensure that such undertaking has not been triggered.

These processes and procedures are part of our compliance policies and procedures. Records will be made contemporaneously with all determinations described in this section and these records will be maintained with other records that we are required to maintain under the 1940 Act.

Table of Contents

DIVIDEND REINVESTMENT PLAN

We have adopted a dividend reinvestment plan that provides for reinvestment of our dividends and other distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our board of directors authorizes, and we declare, a cash distribution, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have his cash distribution reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying American Stock Transfer & Trust Company, the plan administrator and our transfer agent and registrar, in writing so that such notice is received by the plan administrator no later than the record date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received in writing not less than 10 days prior to the record date, the plan administrator will, instead of crediting shares to the participant's account, issue a certificate registered in the participant's name for the number of whole shares of our common stock and a check for any fractional share.

Those stockholders whose shares are held by a broker or other financial intermediary may receive distributions in cash by notifying their broker or other financial intermediary of their election.

We intend to use primarily newly issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. However, we reserve the right to purchase shares in the open market in connection with our implementation of the plan. If we declare a distribution to stockholders, the plan administrator may be instructed not to credit accounts with newly-issued shares and instead to buy shares in the market if (i) the price at which newly-issued shares are to be credited does not exceed 110% of the last determined net asset value of the shares; or (ii) we have advised the plan administrator that since such net asset value was last determined, we have become aware of events that indicate the possibility of a material change in per share net asset value as a result of which the net asset value of the shares on the payment date might be higher than the price at which the plan administrator would credit newly-issued shares to stockholders. The number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by the market price per share of our common stock at the close of regular trading on the valuation date for such distribution. Market price per share on that date will be the closing price for such shares on the national securities exchange on which our shares are then listed or, if no sale is reported for such day, at the average of their reported bid and asked prices. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There will be no brokerage charges or other charges to stockholders who participate in the plan. The plan administrator's fees under the plan will be paid by us. If a participant elects by written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant's account and remit the proceeds to the participant, the plan administrator is authorized to deduct a transaction fee of \$15 plus a per share brokerage commissions from the proceeds.

Stockholders who receive distributions in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. A stockholder's basis for determining gain or loss upon the sale of stock received in a distribution from us will be equal to the amount of cash they would have received if they had elected to receive the distribution in cash, or the fair market value of the distributed shares if such shares have a fair market value equal to or greater than net asset value. Any stock received in a distribution will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the U.S. stockholder's account.

Table of Contents

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any distribution by us. All correspondence concerning the plan should be directed to the plan administrator by mail at 6201 15th Avenue, Brooklyn, NY 11219 or by phone at (800) 937-5449.

Table of Contents

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a general summary of certain U.S. federal income tax considerations applicable to us and to an investment in our common stock. This summary does not purport to be a complete description of the income tax considerations applicable to such an investment. For example, we have not described tax consequences that we assume to be generally known by investors or certain considerations that may be relevant to certain types of holders subject to special treatment under U.S. federal income tax laws, including stockholders subject to the alternative minimum tax, tax-exempt organizations, insurance companies, dealers in securities, pension plans and trusts, and financial institutions. This summary assumes that investors hold our common stock as capital assets (within the meaning of the Code). The discussion is based upon the Code, Treasury regulations, and administrative and judicial interpretations, each as in effect as of the date of this registration statement and all of which are subject to change, possibly retroactively, which could affect the continuing validity of this discussion. We have not sought and will not seek any ruling from the Internal Revenue Service regarding this offering. This summary does not discuss any aspects of U.S. estate or gift tax or foreign, state or local tax. It does not discuss the special treatment under U.S. federal income tax laws that could result if we invested in tax-exempt securities or certain other investment assets in which we do not currently intend to invest.

This summary does not discuss the consequences of an investment in shares of our preferred stock, debt securities or warrants representing rights to purchase shares of our common stock, preferred stock or debt securities. The U.S. federal income tax consequences of such an investment will be discussed in a relevant prospectus supplement.

A U.S. stockholder generally is a beneficial owner of shares of our common stock who is for U.S. federal income tax purposes:

a citizen or individual resident of the United States including an alien individual who is a lawful permanent resident of the United States or meets the substantial presence test under Section 7701(b) of the Code;

a corporation or other entity taxable as a corporation, for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

a trust, if a court in the United States has primary supervision over its administration and one or more U.S. persons have the authority to control all decisions of the trust, or the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person; or

an estate, the income of which is subject to U.S. federal income taxation regardless of its source.

A non-U.S. stockholder is a beneficial owner of shares of our common stock that is an individual, corporation, trust or estate and is not a U.S. stockholder.

If a partnership (including an entity treated as a partnership for U.S. federal income tax purposes) holds shares of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A prospective stockholder who is a partner of a partnership holding shares of our common stock should consult its tax advisors with respect to the purchase, ownership and disposition of shares of our common stock.

Edgar Filing: Borland Scott - Form 3

Tax matters are very complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of its particular situation. We encourage investors to consult their own tax advisors regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

Table of Contents

As a BDC, we elected to be treated, and intend to qualify annually, as a RIC under Subchapter M of the Code, beginning with our 2011 taxable year. As a RIC, we generally will not have to pay corporate-level U.S. federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as distributions. To continue to qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements (as described below). In addition, to qualify for RIC tax treatment we must distribute to our stockholders, for each taxable year, at least 90% of our investment company taxable income, which is generally our ordinary income plus the excess of our realized net short-term capital gains over our realized net long-term capital losses (the Annual Distribution Requirement).

Taxation as a Regulated Investment Company

If we:

qualify as a RIC; and

satisfy the Annual Distribution Requirement;

then we will not be subject to U.S. federal income tax on the portion of our investment company taxable income and net capital gain (i.e., realized net long-term capital gains in excess of realized net short-term capital losses) we distribute to stockholders. We will be subject to U.S. federal income tax at the regular corporate rates on any income or capital gain not distributed (or deemed distributed) to our stockholders.

We will be subject to a 4% nondeductible U.S. federal excise tax on certain undistributed income unless we distribute in a timely manner an amount at least equal to the sum of (1) 98% of our ordinary income for each calendar year, (2) 98.2% of our capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income realized, but not distributed, and on which we paid no U.S. federal income tax, in preceding years (the Excise Tax Avoidance Requirement). We currently intend to make sufficient distributions each taxable year to satisfy the Excise Tax Avoidance Requirement.

In order to maintain our qualification as a RIC for U.S. federal income tax purposes, we must, among other things:

at all times during each taxable year, have in effect an election to be treated as a BDC under the 1940 Act;

derive in each taxable year at least 90% of our gross income from (a) distributions, interest, payments with respect to certain securities loans, gains from the sale of stock or other securities or currencies, or other income derived with respect to our business of investing in such stock, securities or currencies and (b) net income derived from an interest in a qualified publicly traded partnership; and

diversify our holdings so that at the end of each quarter of the taxable year:

at least 50% of the value of our assets consists of cash, cash equivalents, U.S. government securities, securities of other RICs, and other securities if such other securities of any one issuer do not represent more than 5% of the value of our assets or more than 10% of the outstanding voting securities of the issuer; and

Edgar Filing: Borland Scott - Form 3

no more than 25% of the value of our assets is invested in (i) the securities, other than U.S. government securities or securities of other RICs, of one issuer, (ii) the securities of two or more issuers that are controlled, as determined under applicable tax rules, by us and that are engaged in the same or similar or related trades or businesses or (iii) the securities of one or more qualified publicly traded partnerships.

We may be required to recognize taxable income in circumstances in which we do not receive cash. For example, if we hold debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with PIK interest or, in certain cases, increasing interest rates or debt instruments issued with warrants), we must include in income each year a portion of the original issue discount that accrues over the life of the obligation, regardless of whether cash representing such income is received by us in the same

Table of Contents

taxable year. Because any original issue discount accrued will be included in our investment company taxable income for the year of accrual, we may be required to make a distribution to our stockholders in order to satisfy the Annual Distribution Requirement, even though we will not have received any corresponding cash amount.

Because we may use debt financing, we will be subject to certain asset coverage ratio requirements under the 1940 Act and financial covenants under loan and credit agreements that could, under certain circumstances, restrict us from making distributions necessary to satisfy the Annual Distribution Requirement. If we are unable to obtain cash from other sources or are otherwise limited in our ability to make distributions, we could fail to qualify for RIC tax treatment and thus become subject to corporate-level U.S. federal income tax.

Certain of our investment practices may be subject to special and complex U.S. federal income tax provisions that may, among other things: (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions; (ii) convert lower taxed long-term capital gain into higher taxed short-term capital gain or ordinary income; (iii) convert an ordinary loss or a deduction into a capital loss (the deductibility of which is more limited); (iv) cause us to recognize income or gain without a corresponding receipt of cash; (v) adversely affect the time as to when a purchase or sale of securities is deemed to occur; (vi) adversely alter the characterization of certain complex financial transactions; and (vii) produce income that will not be qualifying income for purposes of the 90% gross income test described above. We will monitor our transactions and may make certain tax elections in order to mitigate the potential adverse effect of these provisions.

Gain or loss realized by us from the sale or exchange of warrants acquired by us as well as any loss attributable to the lapse of such warrants generally will be treated as capital gain or loss. The treatment of such gain or loss as long-term or short-term will depend on how long we held a particular warrant. Upon the exercise of a warrant acquired by us, our tax basis in the stock purchased under the warrant will equal the sum of the amount paid for the warrant plus the strike price paid on the exercise of the warrant. Except as set forth below in **Failure to Qualify as a Regulated Investment Company**, the remainder of this discussion assumes we will qualify as a RIC for each taxable year.

Taxation of U.S. Stockholders

Distributions by us generally will be taxable to U.S. stockholders as ordinary income or capital gains. Distributions of our investment company taxable income will be taxable as ordinary income to U.S. stockholders to the extent of our current or accumulated earnings and profits, whether paid in cash or reinvested in additional common stock. Distributions of our net capital gains (that is, the excess of our realized net long-term capital gains in excess of realized net short-term capital losses) properly reported by us as capital gain dividends will be taxable to a U.S. stockholder as long-term capital gains, regardless of the U.S. stockholder's holding period for its common stock and regardless of whether paid in cash or reinvested in additional common stock. Distributions of investment company taxable income that are reported by us as being derived from qualified dividend income will be taxed in the hands of non-corporate stockholders at the rates applicable to long-term capital gain, provided that holding period and other requirements are met by both the stockholders and us. Dividends distributed by us will generally not be attributable to qualified dividend income. Distributions in excess of our current and accumulated earnings and profits first will reduce a U.S. stockholder's adjusted tax basis in such U.S. stockholder's common stock and, after the adjusted basis is reduced to zero, will constitute capital gains to such U.S. stockholder. For a summary of the tax rates applicable to capital gains, including capital gain dividends, see the discussion below.

Under the dividend reinvestment plan, if a U.S. stockholder owns shares of common stock registered in its own name, the U.S. stockholder will have all cash distributions automatically reinvested in additional shares of common stock unless the U.S. stockholder opts out of our dividend reinvestment plan by delivering a written notice to our dividend paying agent prior to the record date of the next dividend or distribution. See

Dividend Reinvestment Plan. Any distributions reinvested under the plan will nevertheless remain taxable to the U.S. stockholder. The U.S. stockholder will have an adjusted basis in the additional common shares purchased

Table of Contents

through the plan equal to the amount of cash they would have received if they had elected to receive the distribution in cash, or the fair market value of the distributed shares if such shares have a fair market value equal to or greater than net asset value. The additional shares will have a new holding period commencing on the day following the day on which the shares are credited to the U.S. stockholder's account.

Although we currently intend to distribute realized net capital gains (i.e., net realized long-term capital gains in excess of net realized short-term capital losses), if any, at least annually, we may in the future decide to retain some or all of our net capital gains, but to designate the retained amount as a deemed distribution. In that case, among other consequences, we will pay corporate-level U.S. federal income tax on the retained amount, each U.S. stockholder will be required to include its share of the deemed distribution in income as if it had been actually distributed to the U.S. stockholder, and the U.S. stockholder will be entitled to claim a credit or refund equal to its allocable share of the corporate-level U.S. federal income tax we pay on the retained capital gain. The amount of the deemed distribution net of such tax will be added to the U.S. stockholder's cost basis for its common stock. Since we expect to pay tax on any retained capital gains at our regular corporate capital gain tax rate, and since that rate is in excess of the maximum rate currently payable by non-corporate U.S. stockholders on long-term capital gains, the amount of tax that non-corporate U.S. stockholders will be treated as having paid will exceed the tax they owe on the capital gain distribution. Such excess generally may be claimed as a credit or refund against the U.S. stockholder's other U.S. federal income tax obligations. A U.S. stockholder that is not subject to U.S. federal income tax or otherwise required to file a U.S. federal income tax return would be required to file a U.S. federal income tax return on the appropriate form in order to claim a refund for the taxes we paid. In order to utilize the deemed distribution approach, we must provide written notice to our stockholders.

As a RIC, we will be subject to the alternative minimum tax (AMT), but any items that are treated differently for AMT purposes must be apportioned between us and our stockholders and this may affect the stockholders' AMT liabilities. Although regulations explaining the precise method of apportionment have not yet been issued by the Internal Revenue Service, we intend in general to apportion these items in the same proportion that distributions paid to each stockholder bear to our taxable income (determined without regard to the dividends paid deduction), unless we determine that a different method for a particular item is warranted under the circumstances.

For purposes of determining (i) whether the Annual Distribution Requirement is satisfied for any year and (ii) the amount of distributions paid for that year, we may, under certain circumstances, elect to treat a distribution that is paid during the following taxable year as if it had been paid during the taxable year in question. If we make such an election, the U.S. stockholder generally will still be treated as receiving the distribution in the taxable year in which the distribution is made. However, any distribution declared by us in October, November, or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by our U.S. stockholders on December 31 of the year in which the distribution was declared.

You should consider the tax implications of buying common stock just prior to a distribution. Even if the price of the common stock includes the amount of the forthcoming distribution, and the distribution economically represents a return of your investment, you will be taxed upon receipt of the distribution and will not be entitled to offset the distribution against the tax basis in your common stock.

You may recognize taxable gain or loss if you sell or exchange your common stock. The amount of the gain or loss will be measured by the difference between your adjusted tax basis in your common stock and the amount of the proceeds you receive in exchange for such stock. Any gain or loss arising from the sale or exchange of our common stock (or, in the case of distributions in excess of the sum of our current and accumulated earnings and profits and your tax basis in the stock, treated as arising from the sale or exchange of our common stock) generally will be a capital gain or loss if the common stock is held as a capital asset. This capital gain or loss normally will be treated as a long-term capital gain or loss if you have held your common stock for more than

Table of Contents

one year. Otherwise, it will be classified as short-term capital gain or loss. However, any capital loss arising from the sale or exchange of common stock held for six months or less generally will be treated as a long-term capital loss to the extent of the amount of capital gain dividends received, or treated as deemed distributed, with respect to such stock. For this purpose, certain special rules, including rules relating to periods when your risk of loss with respect to your common stock has been diminished, generally apply in determining the holding period of such stock. The ability to deduct capital losses may be subject to other limitations under the Code.

In addition, all or a portion of any loss recognized upon a disposition of shares of our common stock may be disallowed if other shares of our common stock are purchased (whether through reinvestment of distributions or otherwise) within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

In general, individual U.S. stockholders currently are subject to a maximum U.S. federal income tax rate of 20% on their net capital gain, i.e., the excess of net long-term capital gain over net short-term capital loss for a taxable year, including a long-term capital gain derived from an investment in our common stock. In addition, individuals with income in excess of \$200,000 (\$250,000 in the case of married individuals filing jointly or \$125,000 in the case of married individuals filing separately) and certain estates and trusts are subject to an additional 3.8% tax on their net investment income, which generally includes net income from interest, dividends, annuities, royalties, and rents, and net capital gains (other than certain amounts earned from trades or businesses). Corporate U.S. stockholders currently are subject to U.S. federal income tax on net capital gain at the maximum 35% rate also applied to ordinary income. Dividends distributed by us to corporate stockholders generally will not be eligible for the dividends-received deduction. Tax rates imposed by states and local jurisdictions on capital gain and ordinary income may differ.

We (or the applicable withholding agent) will send to each of our U.S. stockholders, as promptly as possible after the end of each calendar year, a report detailing the amounts includible in such U.S. stockholder's taxable income for such year as ordinary income, long-term capital gain and qualified dividend income, if any. In addition, the U.S. federal tax status of each year's distributions generally will be reported to the Internal Revenue Service. Distributions may also be subject to additional state, local, and foreign taxes depending on a U.S. stockholder's particular situation.

Backup withholding may apply to distributions on the common stock with respect to certain non-exempt U.S. stockholders. Such U.S. stockholders generally will be subject to backup withholding unless the U.S. stockholder provides its correct taxpayer identification number and certain other information, certified under penalties of perjury, to the dividend paying agent, or otherwise establishes an exemption from backup withholding. Any amount withheld under backup withholding is allowed as a credit against the U.S. stockholder's U.S. federal income tax liability, provided the proper information is provided to the Internal Revenue Service.

Taxation of Non-U.S. Stockholders

Whether an investment in our common stock is appropriate for a non-U.S. stockholder will depend upon that stockholder's particular circumstances. Non-U.S. stockholders should consult their tax advisors before investing in our common stock.

Distributions of our investment company taxable income to stockholders that are non-U.S. stockholders will currently be subject to withholding of U.S. federal income tax at a 30% rate (or lower rate provided by an applicable treaty) to the extent of our current and accumulated earnings and profits unless the distributions are effectively connected with a U.S. trade or business of the non-U.S. stockholders, and, if an income tax treaty applies, attributable to a permanent establishment in the United States. In that case, the distributions will be subject to U.S. federal income tax at the ordinary income rates applicable to U.S. stockholders and we will not

Table of Contents

have to withhold U.S. federal withholding tax if the non-U.S. stockholder complies with applicable certification and disclosure requirements. Special certification requirements apply to a non-U.S. stockholder that is a foreign partnership or a foreign trust and such entities are urged to consult their own tax advisors.

In addition, for taxable years beginning prior to January 1, 2015, U.S. source withholding taxes were not imposed on distributions paid by us to the extent the distributions were reported as interest-related dividends or short-term capital gain dividends. Under this exemption, interest-related dividends and short-term capital gain dividends generally represented distributions of interest or short-term capital gains that would not have been subject to U.S. withholding tax at the source if they had been received directly by a foreign person, and that satisfied certain other requirements. No assurance can be given, however, as to whether this exemption will be extended for tax years beginning on or after January 1, 2015 or whether any of our distributions will be reported as eligible for this exemption (if extended) from withholding tax.

Actual or deemed distributions of our net capital gains to a stockholder that is a non-U.S. stockholder, and gains realized by a non-U.S. stockholder upon the sale or redemption of our common stock, will not be subject to U.S. federal income tax unless the distributions or gains, as the case may be, are effectively connected with a U.S. trade or business of the non-U.S. stockholder and, if an income tax treaty applies, are attributable to a permanent establishment maintained by the non-U.S. stockholder in the United States, or, in the case of an individual, the non-U.S. stockholder was present in the United States for 183 days or more during the taxable year and certain other conditions are met.

If we distribute our net capital gains in the form of deemed rather than actual distributions, a non-U.S. stockholder will be entitled to a U.S. federal income tax credit or tax refund equal to the stockholder's allocable share of the corporate-level U.S. federal income tax we pay on the capital gains deemed to have been distributed; however, in order to obtain the refund, the non-U.S. stockholder must obtain a U.S. taxpayer identification number and file a U.S. federal income tax return even if the non-U.S. stockholder would not otherwise be required to obtain a U.S. taxpayer identification number or file a U.S. federal income tax return.

For a corporate non-U.S. stockholder, distributions (both actual and deemed), and gains realized upon the sale or redemption of our common stock that are effectively connected to a U.S. trade or business may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate (or at a lower rate if provided for by an applicable treaty). Accordingly, investment in our stock may not be appropriate for a non-U.S. stockholder.

Under our dividend reinvestment plan, if a non-U.S. stockholder owns shares of common stock registered in its own name, the non-U.S. stockholder will have all cash distributions automatically reinvested in additional shares of common stock unless it opts out of our dividend reinvestment plan by delivering a written notice to our dividend paying agent prior to the record date of the next distribution. See Dividend Reinvestment Plan. If the distribution is a distribution of our investment company taxable income, is not reported by us as a short-term capital gains dividend or interest-related dividend and it is not effectively connected with a U.S. trade or business of the non-U.S. stockholder (or, if a treaty applies, is not attributable to a permanent establishment), the amount distributed (to the extent of our current and accumulated earnings and profits) will be subject to withholding of U.S. federal income tax at a 30% rate (or lower rate provided by an applicable treaty) and only the net after-tax amount will be reinvested in common shares. If the distribution is effectively connected with a U.S. trade or business of the non-U.S. stockholder, generally the full amount of the distribution will be reinvested in the plan and will nevertheless be subject to U.S. federal income tax at the ordinary income rates applicable to U.S. persons. The non-U.S. stockholder will have an adjusted basis in the additional common shares purchased through the plan equal to the amount of cash that they would have received if they had elected to receive the distribution in cash, or the fair market value of the distributed shares if such shares have a fair market value equal to or greater than net asset value. The additional shares will have a new holding period commencing on the day following the day on which the shares are credited to the non-U.S. stockholder's account.

Table of Contents

Legislation commonly referred to as the Foreign Account Tax Compliance Act, or FATCA, generally imposes a 30% withholding tax on payments of certain types of income to foreign financial institutions that fail to enter into an agreement with the United States Treasury to report certain required information with respect to accounts held by U.S. persons (or held by foreign entities that have U.S. persons as substantial owners). The types of income subject to the tax include U.S. source interest and dividends, and the gross proceeds from the sale of any property that could produce U.S. source interest or dividends received after December 31, 2016. The information required to be reported includes the identity and taxpayer identification number of each account holder that is a U.S. person and transaction activity within the holder's account. In addition, subject to certain exceptions, this legislation also imposes a 30% withholding on payments to foreign entities that are not financial institutions unless the foreign entity certifies that it does not have a greater than 10% U.S. owner or provides the withholding agent with identifying information on each greater than 10% U.S. owner. Depending on the status of a Non-U.S. stockholder and the status of the intermediaries through which it holds its units, a Non-U.S. stockholder could be subject to this 30% withholding tax with respect to distributions on our common stock and proceeds from the sale of our common stock. Under certain circumstances, a Non-U.S. stockholder might be eligible for refunds or credits of such taxes.

A non-U.S. stockholder who is a nonresident alien individual, and who is otherwise subject to withholding of U.S. federal income tax, may be subject to information reporting and backup withholding of U.S. federal income tax on dividends unless the non-U.S. stockholder provides us or the dividend paying agent with an Internal Revenue Service Form W-8BEN or W-8BEN-E (or an acceptable substitute form) or otherwise meets documentary evidence requirements for establishing that it is a non-U.S. stockholder or the non-U.S. stockholder otherwise establishes an exemption from backup withholding.

You are urged to consult your own tax advisor regarding the specific tax consequences of the purchase, ownership and sale of our common stock.

Failure to Qualify as a Regulated Investment Company

If we were unable to qualify for treatment as a RIC, we would be subject to tax on all of our taxable income at regular corporate rates. We would not be able to deduct distributions to stockholders, nor would they be required to be made. Such distributions would be taxable to our stockholders as dividends and, provided certain holding period and other requirements were met, could qualify for treatment as qualified dividend income in the hands of non-corporate stockholders (and thus eligible for the current 20% maximum rate) to the extent of our current and accumulated earnings and profits. Subject to certain limitations under the Code, corporate distributees would be eligible for the dividends received deduction. Distributions in excess of our current and accumulated earnings and profits would be treated first as a return of capital to the extent of the stockholder's tax basis, and any remaining distributions would be treated as a capital gain. To requalify as a RIC in a subsequent taxable year, we would be required to satisfy the RIC qualification requirements for that year and dispose of any earnings and profits from any year in which we failed to qualify as a RIC. Subject to a limited exception applicable to RICs that qualified as such under Subchapter M of the Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the non-qualifying year, we could be subject to tax on any unrealized net built-in gains in the assets held by us during the period in which we failed to qualify as a RIC that are recognized within the subsequent 10 years, unless we made a special election to pay corporate-level U.S. federal income tax on such built-in gain at the time of our requalification as a RIC.

Table of Contents

SALES OF COMMON STOCK BELOW NET ASSET VALUE

At our 2014 Annual Stockholders Meeting, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock immediately prior to each such offering, at a price or prices below the then current net asset value per share, in each case subject to the approval of our board of directors and compliance with the conditions set forth in the proxy statement pertaining thereto, during a period beginning on May 6, 2014 and expiring on the earlier of the one-year anniversary of the date of the 2014 Annual Stockholders Meeting and the date of our 2015 Annual Stockholders Meeting, which is expected to be held in June 2015 (the Stockholder Approval). However, notwithstanding the Stockholder Approval, since our initial public offering on February 24, 2011, we have not sold any shares of our common stock at a price below our then current net asset value per share. Any offering of our common stock that requires stockholder approval must occur, if at all, within one year after receiving such stockholder approval.

In order to sell shares of common stock pursuant to this authorization, no further authorization from our stockholders will need to be solicited, but a majority of our directors who have no financial interest in the sale and a majority of our independent directors will have to (a) find that the sale is in our best interests and in the best interests of our stockholders and (b) in consultation with any underwriter or underwriters of the offering, make a good faith determination as of a time either immediately prior to the first solicitation by us or on our behalf of firm commitments to purchase such shares of common stock, or immediately prior to the issuance of such common stock, that the price at which such shares of common stock are to be sold is not less than a price which closely approximates the market value of those shares of common stock, less any distributing commission or discount.

Any offering of common stock below its net asset value per share will be designed to raise capital for investment in accordance with our investment objective.

In making a determination that an offering of common stock below its net asset value per share is in our and our stockholders' best interests, our board of directors will consider a variety of factors including:

the effect that an offering below net asset value per share would have on our stockholders, including the potential dilution to the net asset value per share of our common stock our stockholders would experience as a result of the offering;

the amount per share by which the offering price per share and the net proceeds per share are less than our most recently determined net asset value per share;

the relationship of recent market prices of par common stock to net asset value per share and the potential impact of the offering on the market price per share of our common stock;

whether the estimated offering price would closely approximate the market value of shares of our common stock;

the potential market impact of being able to raise capital during the current financial market difficulties;

the nature of any new investors anticipated to acquire shares of our common stock in the offering;

Edgar Filing: Borland Scott - Form 3

the anticipated rate of return on and quality, type and availability of investments; and

the leverage available to us.

Our board of directors will also consider the fact that sales of shares of common stock at a discount will benefit our investment adviser as the investment adviser will earn additional investment management fees on the proceeds of such offerings, as it would from the offering of any other of our securities or from the offering of common stock at a premium to net asset value per share.

We will not sell shares of our common stock under this prospectus or an accompanying prospectus supplement pursuant to the Stockholder Approval without first filing a new post-effective amendment to the

Table of Contents

registration statement if the cumulative dilution to our net asset value per share from offerings under the registration statement, as amended by any post-effective amendments, exceeds 15%. This would be measured separately for each offering pursuant to the registration statement, as amended by any post-effective amendments, by calculating the percentage dilution or accretion to aggregate net asset value from that offering and then summing the percentage from each offering. For example, if our most recently determined NAV per share at the time of the first offering is \$18.00 and we have 10,000,000 million shares outstanding, the sale of 2.5 million shares at net proceeds to us of \$9.00 per share (a 50% discount) would produce dilution of 10%. If we subsequently determined that our NAV per share increased to \$20.00 on the then 12.5 million shares outstanding and then made an additional offering, we could, for example, sell approximately an additional 1.39 million shares at net proceeds to us of \$10.00 per share, which would produce dilution of 5%, before we would reach the aggregate 15% limit. If we file a new post-effective amendment, the threshold would reset.

In addition, the maximum number of shares issuable below NAV per share that could result in such dilution is limited to 25% of our then outstanding common stock immediately prior to each such offering. As a result, the maximum amount of dilution to existing stockholders to the extent we receive the Stockholder Approval will be limited to no more than 20% of our then current NAV per share immediately prior to each such offering, assuming we were to issue the maximum number of shares at no more than par value, or \$0.01 per share.

Sales by us of our common stock at a discount from net asset value per share pose potential risks for our existing stockholders whether or not they participate in the offering, as well as for new investors who participate in the offering. Any sale of common stock at a price below net asset value per share would result in an immediate dilution to existing common stockholders who do not participate in such sale on at least a pro-rata basis. See Risk Factors Risks Relating to an Investment in Our Securities The net asset value per share of our common stock may be diluted if we sell shares of our common stock in one or more offerings at prices below the then current net asset value per share of our common stock.

The following three headings and accompanying tables explain and provide hypothetical examples on the impact of an offering of our common stock at a price less than net asset value per share on three different types of investors:

existing stockholders who do not purchase any shares in the offering;

existing stockholders who purchase a relatively small amount of shares in the offering or a relatively large amount of shares in the offering; and

new investors who become stockholders by purchasing shares in the offering.

Impact On Existing Stockholders Who Do Not Participate in the Offering

Our current stockholders who do not participate in an offering below net asset value per share or who do not buy additional shares in the secondary market at the same or lower price as we obtain in the offering (after expenses and commissions) face the greatest potential risks. These stockholders will experience an immediate dilution in the net asset value of the shares of common stock they hold and their net asset value per share. These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we will experience in our assets, potential earning power and voting interests due to such offering. These stockholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in net asset value per share. This decrease could be more pronounced as the size of the offering and level of discounts increases. Further, if current stockholders do not purchase any shares to maintain their percentage interest, regardless of whether such offering is above or below the then current net asset value, their voting power will be diluted.

Edgar Filing: Borland Scott - Form 3

The following chart illustrates the level of net asset value dilution that would be experienced by a nonparticipating stockholder in three different hypothetical offerings of different sizes and levels of discount from net asset value per share. It is not possible to predict the level of market price decline that may occur.

117

Table of Contents

The hypothetical examples below assume that company XYZ has 9,500,100 shares outstanding, \$218.7 million in total assets and \$43.4 million in total liabilities. The current net asset value and net asset value per share are thus \$175.3 million and \$18.45. The chart illustrates the dilutive effect on Stockholder A of (a) an offering of 475,005 shares of common stock (5% of the outstanding shares) at \$17.53 per share after offering expenses and commissions (a 5% discount from net asset value), (b) an offering of 950,100 shares of common stock (10% of the outstanding shares) at \$16.61 per share after offering expenses and commissions (a 10% discount from net asset value), (c) an offering of 1,900,020 shares of common stock (20% of the outstanding shares) at \$14.76 per share after offering expenses and commissions (a 20% discount from net asset value), and (d) an offering of 2,375,025 shares of common stock (25% of the outstanding shares) at \$0.01 per share, the par value of our common stock (a 100% discount from net asset value). The prospectus supplement pursuant to which any discounted offering is made will include a chart based on the actual number of shares of common stock in such offering and the actual discount to the most recently determined net asset value. For example, if we issue 2,375,025 shares of our common stock (25% of the outstanding shares) at \$0.01 per share, the par value of our common stock (a 100% discount from net asset value), then our net asset value per share following such offering will be \$14.76, which will reflect a 20.00% decrease in net asset value per share to those stockholders who do not participate in this offering. It is not possible to predict the level of market price decline that may occur.

Impact On Existing Stockholders Who Do Participate in the Offering

Our existing stockholders who participate in an offering below net asset value per share or who buy additional shares in the secondary market at the same or lower price as we obtain in the offering (after expenses and commissions) will experience the same types of net asset value dilution as the nonparticipating stockholders, although at a lower level, to the extent they purchase less than the same percentage of the discounted offering as their interest in shares of our common stock immediately prior to the offering. The level of net asset value dilution will decrease as the number of shares such stockholders purchase increases. Existing stockholders who buy more than such percentage will experience net asset value dilution but will, in contrast to existing stockholders who purchase less than their proportionate share of the offering, experience accretion in net asset value per share over their investment per share and will also experience a disproportionately greater increase in their participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests due to such offering. The level of accretion will increase as the excess number of shares such stockholder purchases increases. Even a stockholder who over-participates will, however, be subject to the risk that we may make additional discounted offerings in which such stockholder does not participate, in which case such a stockholder will experience net asset value dilution as described above in such subsequent offerings. These stockholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in net asset value per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of dilution and accretion in the hypothetical 20% discount offering from the prior chart (Example 3) for a stockholder that acquires shares equal to (a) 50% of its proportionate share of the offering (*i.e.*, 3,000 shares, which is 0.05% of an offering of 6 million shares) rather than its 0.10% proportionate share and (b) 150% of such percentage (*i.e.* 9,000 shares, which is 0.15% of an offering of 6 million shares rather than its 0.10% proportionate share). The prospectus supplement pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of shares in such offering and the actual discount from the most recently determined net asset value per share. It is not possible to predict the level of market price decline that may occur.

Impact On New Investors

Investors who are not currently stockholders and who participate in an offering of shares of our common stock below net asset value, but whose investment per share is greater than the resulting net asset value per share due to selling compensation and expenses paid by the Company, will experience an immediate decrease, although small, in the net asset value of their shares and their net asset value per share compared to the price they pay for their shares. Investors who are not currently stockholders and who participate in an offering of shares of our common stock below net asset value per share and whose investment per share is also less than the resulting net asset value per share due to selling compensation and expenses paid by the Company being significantly less than the discount per share, will experience an immediate increase in the net asset value of their shares and their net asset value per share compared to the price they pay for their shares. These investors will experience a disproportionately greater participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests due to such offering. These investors will, however, be subject to the risk that we may make additional discounted offerings in which such new stockholder does not participate, in which case such new stockholder will experience dilution as described above in such subsequent offerings. These investors may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in net asset value per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

Table of Contents

The following chart illustrates the level of dilution or accretion for new investors that would be experienced by a new investor in the same hypothetical 5%, 10%, 20% and 25% discounted offerings as described in the first chart above. The illustration is for a new investor who purchases the same percentage (0.10%) of the shares in the offering as Stockholder A in the prior examples held immediately prior to the offering. The prospectus supplement pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of shares in such offering and the actual discount from the most recently determined net asset value per share. It is not possible to predict the level of market price decline that may occur.

Table of Contents**DESCRIPTION OF OUR CAPITAL STOCK**

The following description is based on relevant portions of the Maryland General Corporation Law and on our charter and bylaws. This summary is not necessarily complete, and we refer you to the Maryland General Corporation Law and our charter and bylaws for a more detailed description of the provisions summarized below.

Stock

The authorized stock of Solar Senior Capital Ltd. consists of 200,000,000 shares of stock, par value \$0.01 per share, all of which are initially designated as common stock. Our common stock is listed on the NASDAQ Global Select Market under the ticker symbol SUNS . There are no outstanding options or warrants to purchase our stock. No stock has been authorized for issuance under any equity compensation plans. Under Maryland law, our stockholders generally are not personally liable for our debts or obligations.

The following are our outstanding classes of securities as of March 3, 2015:

(1)	(2)	(3)	(4)
Title of Class	Amount Authorized	Amount Held by Us or for Our Account	Amount Outstanding Exclusive of Amounts Shown Under(3)
Common stock	200,000,000		11,533,315

Under our charter our board of directors is authorized to classify and reclassify any unissued shares of stock into other classes or series of stock without obtaining stockholder approval. As permitted by the Maryland General Corporation Law, our charter provides that the board of directors, without any action by our stockholders, may amend the charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue.

Common Stock

All shares of our common stock have equal rights as to earnings, assets, voting, and distributions and, when they are issued, will be duly authorized, validly issued, fully paid and nonassessable. Distributions may be paid to the holders of our common stock if, as and when authorized by our board of directors and declared by us out of assets legally available therefor. Shares of our common stock have no preemptive, conversion or redemption rights and are freely transferable, except where their transfer is restricted by federal and state securities laws or by contract. In the event of our liquidation, dissolution or winding up, each share of our common stock would be entitled to share ratably in all of our assets that are legally available for distribution after we pay all debts and other liabilities and subject to any preferential rights of holders of our preferred stock, if any preferred stock is outstanding at such time. Each share of our common stock is entitled to one vote on all matters submitted to a vote of stockholders, including the election of directors. Except as provided with respect to any other class or series of stock, the holders of our common stock will possess exclusive voting power. There is no cumulative voting in the election of directors, which means that holders of a majority of the outstanding shares of common stock can elect all of our directors, and holders of less than a majority of such shares

will be unable to elect any director.

Preferred Stock

Our charter authorizes our board of directors to classify and reclassify any unissued shares of stock into other classes or series of stock, including preferred stock. The cost of any such reclassification would be borne by our existing common stockholders. Prior to issuance of shares of each class or series, the board of directors is required by Maryland law and by our charter to set the preferences, conversion or other rights, voting powers, restrictions, limitations as to other distributions, qualifications and terms or conditions of redemption for each

Table of Contents

class or series. Thus, the board of directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. You should note, however, that any issuance of preferred stock must comply with the requirements of the 1940 Act. The 1940 Act requires, among other things, that (1) immediately after issuance and before any other distribution is made with respect to our common stock and before any purchase of common stock is made, such preferred stock together with all other senior securities must not exceed an amount equal to 50% of our total assets after deducting the amount of such distribution or purchase price, as the case may be, and (2) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if distributions on such preferred stock are in arrears by two full years or more. Certain matters under the 1940 Act require the separate vote of the holders of any issued and outstanding preferred stock. For example, holders of preferred stock would vote separately from the holders of common stock on a proposal to cease operations as a business development company. We believe that the availability for issuance of preferred stock will provide us with increased flexibility in structuring future financings and acquisitions. However, we do not currently have any plans to issue preferred stock.

Limitation on Liability of Directors and Officers; Indemnification and Advance of Expenses

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (a) actual receipt of an improper benefit or profit in money, property or services or (b) active and deliberate dishonesty established by a final judgment as being material to the cause of action. Our charter contains such a provision which eliminates directors and officers liability to the maximum extent permitted by Maryland law, subject to the requirements of the 1940 Act.

Our charter authorizes us, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer of the corporation or any individual who, while serving as our director or officer and at our request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse their reasonable expenses in advance of final disposition of a proceeding. Our bylaws obligate us, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer or any individual who, while serving as our director or officer and at our request, serves or has served another corporation, real estate investment trust, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner, trustee, member or manager and who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse his or her reasonable expenses in advance of final disposition of a proceeding without requiring a preliminary determination of his or her ultimate entitlement to indemnification. The charter and bylaws also permit us to indemnify and advance expenses to any person who served a predecessor of us in any of the capacities described above and any of our employees or agents or any employees or agents of our predecessor. In accordance with the 1940 Act, we will not indemnify any person for any liability to which such person would be subject by reason of such person's willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office.

Maryland law requires a corporation (unless its charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service in that capacity. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any

Table of Contents

proceeding to which they may be made, or threatened to be made, a party by reason of their service in those or other capacities unless it is established that (a) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty, (b) the director or officer actually received an improper personal benefit in money, property or services or (c) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. However, under Maryland law, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that a personal benefit was improperly received unless, in either case, a court orders indemnification, and then only for expenses. In addition, Maryland law permits a corporation to advance reasonable expenses to a director or officer in advance of final disposition of a proceeding upon the corporation's receipt of (a) a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation and (b) a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

We have entered into indemnification agreements with our directors. The indemnification agreements provide our directors the maximum indemnification permitted under Maryland law and the 1940 Act.

Our insurance policy does not currently provide coverage for claims, liabilities and expenses that may arise out of activities that our present or former directors or officers have performed for another entity at our request. There is no assurance that such entities will in fact carry such insurance. However, we note that we do not expect to request our present or former directors or officers to serve another entity as a director, officer, partner or trustee unless we can obtain insurance providing coverage for such persons for any claims, liabilities or expenses that may arise out of their activities while serving in such capacities.

Certain Provisions of the Maryland General Corporation Law and Our Charter and Bylaws

The Maryland General Corporation Law and our charter and bylaws contain provisions that could make it more difficult for a potential acquiror to acquire us by means of a tender offer, proxy contest or otherwise. These provisions are expected to discourage certain coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of these provisions outweigh the potential disadvantages of discouraging any such acquisition proposals because, among other things, the negotiation of such proposals may improve their terms.

Classified Board of Directors

Our board of directors will be divided into three classes of directors serving staggered three-year terms. The initial terms of the first, second and third classes expire in 2015, 2016 and 2017, respectively, and in each case, those directors will serve until their successors are duly elected and qualify. Upon expiration of their current terms, directors of each class will be elected to serve for three-year terms and until their successors are duly elected and qualify and each year one class of directors will be elected by the stockholders. A classified board may render a change in control of us or removal of our incumbent management more difficult. We believe, however, that the longer time required to elect a majority of a classified board of directors will help to ensure the continuity and stability of our management and policies.

Election of Directors

Edgar Filing: Borland Scott - Form 3

Under our charter and bylaws, the affirmative vote of the holders of a plurality of all the votes cast in the election of directors cast at a meeting of stockholders duly called and at which a quorum is present will be required to elect a director. Pursuant to our charter and bylaws our board of directors may amend the bylaws to alter the vote required to elect directors.

Table of Contents

Number of Directors; Vacancies; Removal

Our charter provides that the number of directors will be set only by the board of directors in accordance with our bylaws. Our bylaws provide that a majority of our entire board of directors may at any time increase or decrease the number of directors. However, the number of directors may never be less than one nor more than twelve unless our bylaws are amended in which case we may have more than twelve directors but never less than one. Our charter provides that, at such time as we have at least three independent directors and our common stock is registered under the Securities Exchange Act of 1934, as amended, we elect to be subject to the provision of Subtitle 8 of Title 3 of the Maryland General Corporation Law regarding the filling of vacancies on the board of directors. Accordingly, except as may be provided by the board of directors in setting the terms of any class or series of preferred stock, any and all vacancies on the board of directors may be filled only by the affirmative vote of a majority of the remaining directors in office, even if the remaining directors do not constitute a quorum, and any director elected to fill a vacancy will serve for the remainder of the full term of the directorship in which the vacancy occurred and until a successor is duly elected and qualifies, subject to any applicable requirements of the 1940 Act.

Our charter provides that, subject to the rights of holders of one or more classes or series of preferred stock to elect or remove one or more directors, a director may be removed only for cause, as defined in our charter, and then only by the affirmative vote of at least two-thirds of the votes entitled to be cast in the election of directors.

Action by Stockholders

Under the Maryland General Corporation Law, stockholder action can be taken only at an annual or special meeting of stockholders or (with respect to the holders of common stock, unless the charter provides for stockholder action by less than unanimous written consent, which our charter does not) by unanimous written consent in lieu of a meeting. These provisions, combined with the requirements of our bylaws regarding the calling of a stockholder-requested special meeting of stockholders discussed below, may have the effect of delaying consideration of a stockholder proposal until the next annual meeting.

Advance Notice Provisions for Stockholder Nominations and Stockholder Proposals

Our bylaws provide that with respect to an annual meeting of stockholders, nominations of persons for election to the board of directors and the proposal of business to be considered by stockholders may be made only (1) pursuant to our notice of the meeting, (2) by the board of directors or (3) by a stockholder who was a stockholder of record both at the time of giving notice and at the time of the meeting who is entitled to vote at the meeting and who has complied with the advance notice procedures of our bylaws. With respect to special meetings of stockholders, only the business specified in our notice of the meeting may be brought before the meeting. Nominations of persons for election to the board of directors at a special meeting may be made only (1) pursuant to our notice of the meeting, (2) by the board of directors or (3) provided that the board of directors has determined that directors will be elected at the meeting, by a stockholder who was a stockholder of record both at the time of giving notice and at the time of the meeting who is entitled to vote at the meeting and who has complied with the advance notice provisions of the bylaws.

The purpose of requiring stockholders to give us advance notice of nominations and other business is to afford our board of directors a meaningful opportunity to consider the qualifications of the proposed nominees and the advisability of any other proposed business and, to the extent deemed necessary or desirable by our board of directors, to inform stockholders and make recommendations about such qualifications or business, as well as to provide a more orderly procedure for conducting meetings of stockholders. Although our bylaws do not give our board of directors any power to disapprove stockholder nominations for the election of directors or proposals recommending certain action, they may

Edgar Filing: Borland Scott - Form 3

have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if proper procedures are not followed and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its own proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to us and our stockholders.

Table of Contents

Calling of Special Meetings of Stockholders

Our bylaws provide that special meetings of stockholders may be called by our board of directors and certain of our officers. Additionally, our bylaws provide that, subject to the satisfaction of certain procedural and informational requirements by the stockholders requesting the meeting, a special meeting of stockholders will be called by the secretary of the corporation upon the written request of stockholders entitled to cast not less than a majority of all the votes entitled to be cast at such meeting.

Approval of Extraordinary Corporate Action; Amendment of Charter and Bylaws

Under Maryland law, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a share exchange or engage in similar transactions outside the ordinary course of business, unless approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter. However, a Maryland corporation may provide in its charter for approval of these matters by a lesser percentage, but not less than a majority of all of the votes entitled to be cast on the matter. Our charter generally provides for approval of charter amendments and extraordinary transactions by the stockholders entitled to cast at least a majority of the votes entitled to be cast on the matter. Our charter also provides that the following matters require the approval of stockholders entitled to cast at least 80% of the votes entitled to be cast: (i) certain charter amendments; (ii) any proposal for our conversion, whether by merger or otherwise, from a closed-end company to an open-end company; (iii) any proposal for our liquidation or dissolution; (iv) any proposal regarding a merger, consolidation, share exchange or sale or exchange of all or substantially all of our assets that the Maryland General Corporation Law requires to be approved by our stockholders; or (v) any transaction between us and a person, or group of persons acting together (including, without limitation, a group for purposes of Section 13(d) of the Exchange Act), and any person controlling, controlled by or under common control with any such person or member of such group, that is entitled to exercise or direct the exercise, or acquire the right to exercise or direct the exercise, directly or indirectly, other than solely by virtue of a revocable proxy, of one-tenth or more of the voting power in the election of directors generally. However, if such amendment or proposal is approved by a majority of our continuing directors (in addition to approval by our board of directors), such amendment or proposal may be approved by a majority of the votes entitled to be cast on such a matter, provided that with respect to any transaction referred to in (v) above, if such transaction is approved by the continuing directors, by a vote of at least two-thirds of such continuing directors, no stockholder approval of such transaction is required unless the Maryland General Corporation Law or another provision of our charter or bylaws otherwise requires such approval. The continuing directors are defined in our charter as (1) our current directors, (2) those directors whose nomination for election by the stockholders or whose election by the directors to fill vacancies is approved by a majority of our current directors then on the board of directors or (3) any successor directors whose nomination for election by the stockholders or whose election by the directors to fill vacancies is approved by a majority of continuing directors or the successor continuing directors then in office.

Our charter and bylaws provide that the board of directors will have the exclusive power to make, alter, amend or repeal any provision of our bylaws.

No Appraisal Rights

Except with respect to appraisal rights arising in connection with the Control Share Act discussed below, as permitted by the Maryland General Corporation Law, our charter provides that stockholders will not be entitled to exercise appraisal rights unless a majority of the board of directors shall determine such rights apply.

Control Share Acquisitions

Edgar Filing: Borland Scott - Form 3

The Maryland General Corporation Law provides that a holder of control shares of a Maryland corporation acquired in a control share acquisition has no voting rights with respect to those shares except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter, or the Control Shares Act. Shares

Table of Contents

owned by the acquiror, by officers or by directors who are employees of the corporation are excluded from shares entitled to vote on the matter. Control shares are voting shares of stock which, if aggregated with all other shares of stock owned by the acquiror or in respect of which the acquiror is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting power:

one-tenth or more but less than one-third;

one-third or more but less than a majority; or

a majority or more of all voting power.

The requisite stockholder approval must be obtained each time an acquiror crosses one of the thresholds of voting power set forth above. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of issued and outstanding control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition may compel the board of directors of the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. The right to compel the calling of a special meeting is subject to the satisfaction of certain conditions, including an undertaking to pay the expenses of the meeting. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then the corporation may redeem for fair value any or all of the control shares, except those for which voting rights have previously been approved. The right of the corporation to redeem control shares is subject to certain conditions and limitations, including, as provided in our bylaws, compliance with the 1940 Act. Fair value is determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquiror or of any meeting of stockholders at which the voting rights of the shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition.

The Control Share Act does not apply (a) to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (b) to acquisitions approved or exempted by the charter or bylaws of the corporation. Our bylaws contain a provision exempting from the Control Share Act any and all acquisitions by any person of our shares of stock. There can be no assurance that such provision will not be amended or eliminated at any time in the future. However, we will amend our bylaws to be subject to the Control Share Act only if the board of directors determines that it would be in our best interests and if the SEC staff does not object to our determination that our being subject to the Control Share Act does not conflict with the 1940 Act. The SEC staff has issued informal guidance setting forth its position that certain provisions of the Control Share Act would, if implemented, violate Section 18(i) of the 1940 Act.

Business Combinations

Edgar Filing: Borland Scott - Form 3

Under Maryland law, business combinations between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder (the Business Combination Act). These business combinations include a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

any person who beneficially owns 10% or more of the voting power of the corporation's outstanding voting stock; or

Table of Contents

an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under this statute if the board of directors approved in advance the transaction by which the stockholder otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and

two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation's common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder. Our board of directors has adopted a resolution that any business combination between us and any other person is exempted from the provisions of the Business Combination Act, provided that the business combination is first approved by the board of directors, including a majority of the directors who are not interested persons as defined in the 1940 Act. This resolution may be altered or repealed in whole or in part at any time; however, our board of directors will adopt resolutions so as to make us subject to the provisions of the Business Combination Act only if the board of directors determines that it would be in our best interests and if the SEC staff does not object to our determination that our being subject to the Business Combination Act does not conflict with the 1940 Act. If this resolution is repealed, or the board of directors does not otherwise approve a business combination, the statute may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer.

Conflict with 1940 Act

Our bylaws provide that, if and to the extent that any provision of the Maryland General Corporation Law, including the Control Share Act (if we amend our bylaws to be subject to such Act) and the Business Combination Act, or any provision of our charter or bylaws conflicts with any provision of the 1940 Act, the applicable provision of the 1940 Act will control.

Table of Contents

DESCRIPTION OF OUR DEBT SECURITIES

We may issue debt securities in one or more series. The specific terms of each series of debt securities will be described in the particular prospectus supplement relating to that series. The prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. For a complete description of the terms of a particular series of debt securities, you should read both this prospectus and the prospectus supplement relating to that particular series.

As required by federal law for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document called an indenture. An indenture is a contract between us and a financial institution acting as trustee on your behalf, and is subject to and governed by the Trust Indenture Act of 1939, as amended. The trustee has two main roles. First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described in the second paragraph under Events of Default Remedies if an Event of Default Occurs. Second, the trustee performs certain administrative duties for us with respect to the debt securities.

Because this section is a summary, it does not describe every aspect of the debt securities and the indenture. We urge you to read the indenture because it, and not this description, defines your rights as a holder of debt securities. A copy of the form of indenture is attached as an exhibit to the registration statement of which this prospectus is a part. We will file a supplemental indenture with the SEC in connection with any debt offering, at which time the supplemental indenture would be publicly available. See Available Information for information on how to obtain a copy of the indenture.

The prospectus supplement, which will accompany this prospectus, will describe the particular series of debt securities being offered by including:

the designation or title of the series of debt securities;

the total principal amount of the series of debt securities;

the percentage of the principal amount at which the series of debt securities will be offered;

the date or dates on which principal will be payable;

the rate or rates (which may be either fixed or variable) and/or the method of determining such rate or rates of interest, if any;

the date or dates from which any interest will accrue, or the method of determining such date or dates, and the date or dates on which any interest will be payable;

whether any interest may be paid by issuing additional securities of the same series in lieu of cash (and the terms upon which any such interest may be paid by issuing additional securities);

Edgar Filing: Borland Scott - Form 3

the terms for redemption, extension or early repayment, if any;

the currencies in which the series of debt securities are issued and payable;

whether the amount of payments of principal, premium or interest, if any, on a series of debt securities will be determined with reference to an index, formula or other method (which could be based on one or more currencies, commodities, equity indices or other indices) and how these amounts will be determined;

the place or places, if any, other than or in addition to the Borough of Manhattan in the City of New York, of payment, transfer, conversion and/or exchange of the debt securities;

the denominations in which the offered debt securities will be issued (if other than \$1,000 and any integral multiple thereof for registered securities or \$5,000 for bearer securities);

the provision for any sinking fund;

Table of Contents

any restrictive covenants;

any Events of Default;

whether the series of debt securities are issuable in certificated form;

any provisions for defeasance or covenant defeasance;

any special U.S. federal income tax implications, including, if applicable, U.S. federal income tax considerations relating to original issue discount;

whether and under what circumstances we will pay additional amounts in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay the additional amounts (and the terms of this option);

any provisions for convertibility or exchangeability of the debt securities into or for any other securities;

whether the debt securities are subject to subordination and the terms of such subordination;

whether the debt securities are secured and the terms of any security interests;

the listing, if any, on a securities exchange; and

any other terms.

The debt securities may be secured or unsecured obligations. Under the provisions of the 1940 Act, we are permitted, as a BDC, to issue debt only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after each issuance of debt. Unless the prospectus supplement states otherwise, principal (and premium, if any) and interest, if any, will be paid by us in immediately available funds.

General

The indenture provides that any debt securities proposed to be sold under this prospectus and the accompanying prospectus supplement (offered debt securities) may be issued under the indenture in one or more series.

For purposes of this prospectus, any reference to the payment of principal of or premium or interest, if any, on debt securities will include additional amounts if required by the terms of the debt securities.

Edgar Filing: Borland Scott - Form 3

The indenture does not limit the amount of debt securities that may be issued thereunder from time to time. Debt securities issued under the indenture, when a single trustee is acting for all debt securities issued under the indenture, are called the "indenture securities". The indenture also provides that there may be more than one trustee thereunder, each with respect to one or more different series of indenture securities. See

"Resignation of Trustee" below. At a time when two or more trustees are acting under the indenture, each with respect to only certain series, the term "indenture securities" means the one or more series of debt securities with respect to which each respective trustee is acting. In the event that there is more than one trustee under the indenture, the powers and trust obligations of each trustee described in this prospectus will extend only to the one or more series of indenture securities for which it is trustee. If two or more trustees are acting under the indenture, then the indenture securities for which each trustee is acting would be treated as if issued under separate indentures.

The indenture does not contain any provisions that give you protection in the event we issue a large amount of debt or we are acquired by another entity.

We refer you to the prospectus supplement for information with respect to any deletions from, modifications of or additions to the Events of Default or our covenants that are described below, including any addition of a covenant or other provision providing event risk protection or similar protection.

Table of Contents

We have the ability to issue indenture securities with terms different from those of indenture securities previously issued and, without the consent of the holders thereof, to reopen a previous issue of a series of indenture securities and issue additional indenture securities of that series unless the reopening was restricted when that series was created.

Conversion and Exchange

If any debt securities are convertible into or exchangeable for other securities, the prospectus supplement will explain the terms and conditions of the conversion or exchange, including the conversion price or exchange ratio (or the calculation method), the conversion or exchange period (or how the period will be determined), if conversion or exchange will be mandatory or at the option of the holder or us, provisions for adjusting the conversion price or the exchange ratio and provisions affecting conversion or exchange in the event of the redemption of the underlying debt securities. These terms may also include provisions under which the number or amount of other securities to be received by the holders of the debt securities upon conversion or exchange would be calculated according to the market price of the other securities as of a time stated in the prospectus supplement.

Issuance of Securities in Registered Form

We may issue the debt securities in registered form, in which case we may issue them either in book-entry form only or in certificated form. Debt securities issued in book-entry form will be represented by global securities. We expect that we will usually issue debt securities in book-entry only form represented by global securities.

We also will have the option of issuing debt securities in non-registered form as bearer securities if we issue the securities outside the United States to non-U.S. persons. In that case, the prospectus supplement will set forth the mechanics for holding the bearer securities, including the procedures for receiving payments, for exchanging the bearer securities, including the procedures for receiving payments, for exchanging the bearer securities for registered securities of the same series, and for receiving notices. The prospectus supplement will also describe the requirements with respect to our maintenance of offices or agencies outside the United States and the applicable U.S. federal tax law requirements.

Book-Entry Holders

We will issue registered debt securities in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means debt securities will be represented by one or more global securities registered in the name of a depositary that will hold them on behalf of financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities held by the depositary or its nominee. These institutions may hold these interests on behalf of themselves or customers.

Under the indenture, only the person in whose name a debt security is registered is recognized as the holder of that debt security. Consequently, for debt securities issued in book-entry form, we will recognize only the depositary as the holder of the debt securities and we will make all payments on the debt securities to the depositary. The depositary will then pass along the payments it receives to its participants, which in turn will pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the debt securities.

Edgar Filing: Borland Scott - Form 3

As a result, investors will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depository's book-entry system or holds an interest through a participant. As long as the debt securities are represented by one or more global securities, investors will be indirect holders, and not holders, of the debt securities.

Table of Contents

Street Name Holders

In the future, we may issue debt securities in certificated form or terminate a global security. In these cases, investors may choose to hold their debt securities in their own names or in street name. Debt securities held in street name are registered in the name of a bank, broker or other financial institution chosen by the investor, and the investor would hold a beneficial interest in those debt securities through the account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities and we will make all payments on those debt securities to them. These institutions will pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, and not holders, of the debt securities.

Legal Holders

Our obligations, as well as the obligations of the applicable trustee and those of any third parties employed by us or the applicable trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in book-entry form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose (for example, to amend an indenture or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture), we would seek the approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer to you, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, we urge you to check with that institution to find out:

how it handles securities payments and notices,

Edgar Filing: Borland Scott - Form 3

whether it imposes fees or charges,

how it would handle a request for the holders' consent, if ever required,

whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future for a particular series of debt securities,

how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests, and

if the debt securities are in book-entry form, how the depository's rules and procedures will affect these matters.

Table of Contents

Global Securities

As noted above, we usually will issue debt securities as registered securities in book-entry form only. A global security represents one or any other number of individual debt securities. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depository. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depository for all debt securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under *Special Situations when a Global Security Will Be Terminated*. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that has an account with the depository. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

Special Considerations for Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to securities transfers. The depository that holds the global security will be considered the holder of the debt securities represented by the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

An investor cannot cause the debt securities to be registered in his or her name, and cannot obtain certificates for his or her interest in the debt securities, except in the special situations we describe below.

An investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt securities and protection of his or her legal rights relating to the debt securities, as we describe under *Issuance of Securities in Registered Form* above.

An investor may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form.

An investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the debt securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective.

Edgar Filing: Borland Scott - Form 3

The depositary's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in a global security. We and the trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in a global security. We and the trustee also do not supervise the depositary in any way.

If we redeem less than all the debt securities of a particular series being redeemed, DTC's practice is to determine by lot the amount to be redeemed from each of its participants holding that series.

An investor is required to give notice of exercise of any option to elect repayment of its debt securities, through its participant, to the applicable trustee and to deliver the related debt securities by causing its participant to transfer its interest in those debt securities, on DTC's records, to the applicable trustee.

Table of Contents

DTC requires that those who purchase and sell interests in a global security deposited in its book-entry system use immediately available funds. Your broker or bank may also require you to use immediately available funds when purchasing or selling interests in a global security.

Financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations when a Global Security will be Terminated

In a global security is terminated, interests in it will be exchanged for certificates in non-book-entry form (certificated securities). After that exchange, the choice of whether to hold the certificated debt securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of legal holders and street name investors under Issuance of Securities in Registered Form above.

The prospectus supplement may list situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. If a global security is terminated, only the depositary, and not we or the applicable trustee, is responsible for deciding the names of the institutions in whose names the debt securities represented by the global security will be registered and, therefore, who will be the holders of those debt securities.

Payment and Paying Agents

We will pay interest (either in cash or by delivery of additional indenture securities, as applicable) to the person listed in the applicable trustee's records as the owner of the debt security at the close of business on a particular day in advance of each due date for interest, even if that person no longer owns the debt security on the interest due date. That day, usually about two weeks in advance of the interest due date, is called the record date. Because we will pay all the interest for an interest period to the holders on the record date, holders buying and selling debt securities must work out between themselves the appropriate purchase price. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller based on their respective ownership periods within the particular interest period. This prorated interest amount is called accrued interest.

Payments on Global Securities

We will make payments on a global security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will make payments directly to the depositary, or its nominee, and not to any indirect holders who own beneficial interests in the global security. An indirect holder's right to those payments will be governed by the rules and practices of the depositary and its participants, as described under Special Considerations for Global Securities.

Payments on Certificated Securities

Edgar Filing: Borland Scott - Form 3

We will make payments on a certificated debt security as follows. We will pay interest that is due on an interest payment date to the holder of debt securities as shown on the trustee's records as of the close of business on the regular record date at our office in New York, NY and/or at other offices that may be specified in the prospectus supplement. We will make all payments of principal and premium, if any, by check at the office of the applicable trustee in New York, NY and/or at other offices that may be specified in the prospectus supplement or in a notice to holders against surrender of the debt security.

Table of Contents

Alternatively, at our option, we may pay any cash interest that becomes due on the debt security by mailing a check to the holder at his or her address shown on the trustee's records as of the close of business on the regular record date or by transfer to an account at a bank in the United States, in either case, on the due date.

Payment When Offices Are Closed

If any payment is due on a debt security on a day that is not a business day, we will make the payment on the next day that is a business day. Payments made on the next business day in this situation will be treated under the indenture as if they were made on the original due date, except as otherwise indicated in the attached prospectus supplement. Such payment will not result in a default under any debt security or the indenture, and no interest will accrue on the payment amount from the original due date to the next day that is a business day.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive payments on their debt securities.

Events of Default

You will have rights if an Event of Default occurs in respect of the debt securities of your series and is not cured, as described later in this subsection.

The term "Event of Default" in respect of the debt securities of your series means any of the following:

We do not pay the principal of, or any premium on, a debt security of the series on its due date.

We do not pay interest on a debt security of the series within 30 days of its due date.

We do not deposit any sinking fund payment in respect of debt securities of the series within 2 business days of its due date.

We remain in breach of a covenant in respect of debt securities of the series for 60 days after we receive a written notice of default stating we are in breach. The notice must be sent by either the trustee or holders of at least 25% of the principal amount of debt securities of the series.

We file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur.

Any class of debt securities has an asset coverage of less than 100 per centum on the last business day of each of twenty-four consecutive calendar months.

Edgar Filing: Borland Scott - Form 3

Any other Event of Default in respect of debt securities of the series described in the prospectus supplement occurs.

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the same or any other indenture. The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal, premium or interest, if it in good faith considers the withholding of notice to be in the best interests of the holders.

Remedies if an Event of Default Occurs

If an Event of Default has occurred and has not been cured, the trustee or the holders of at least 25% in principal amount of the debt securities of the affected series may declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. A declaration of acceleration of maturity may be canceled by the holders of a majority in principal amount of the debt securities of the affected series if (1) we have deposited with the trustee all amounts due and owing with respect to the securities (other than principal that has become due solely by reason of such acceleration) and certain other amounts, and (2) no other Events of Default are continuing.

Table of Contents

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability (called an indemnity). If reasonable indemnity is provided, the holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of that right, remedy or Event of Default.

Before you are allowed to bypass your trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

You must give your trustee written notice that an Event of Default with respect to the relevant series of debt securities has occurred and remains uncured.

The holders of at least 25% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action.

The trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity.

The holders of a majority in principal amount of the debt securities of that series must not have given the trustee a direction inconsistent with the above notice during that 60-day period.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your debt securities on or after the due date.

Holders of a majority in principal amount of the debt securities of the affected series may waive any past defaults other than

the payment of principal, any premium or interest or

in respect of a covenant that cannot be modified or amended without the consent of each holder.

Book-entry and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of maturity.

Each year, we will furnish to each trustee a written statement of certain of our officers certifying that to their knowledge we are in compliance with the indenture and the debt securities or else specifying any default.

Merger or Consolidation

Under the terms of the indenture, we are generally permitted to consolidate or merge with another entity. We are also permitted to sell all or substantially all of our assets to another entity. However, we may not take any of these actions unless all the following conditions are met:

Where we merge out of existence or sell our assets, the resulting entity must agree to be legally responsible for our obligations under the debt securities.

The merger or sale of assets must not cause a default on the debt securities and we must not already be in default (unless the merger or sale would cure the default). For purposes of this no-default test, a default would include an Event of Default that has occurred and has not been cured, as described under "Events of Default" above. A default for this purpose would also include any event that would be an Event of Default if the requirements for giving us a notice of default or our default having to exist for a specific period of time were disregarded.

Table of Contents

We must deliver certain certificates and documents to the trustee.

We must satisfy any other requirements specified in the prospectus supplement relating to a particular series of debt securities.

Modification or Waiver

There are three types of changes we can make to the indenture and the debt securities issued thereunder.

Changes Requiring Your Approval

First, there are changes that we cannot make to your debt securities without your specific approval. The following is a list of those types of changes:

change the stated maturity of the principal of, or interest on, a debt security;

reduce any amounts due on a debt security;

reduce the amount of principal payable upon acceleration of the maturity of a security following a default;

adversely affect any right of repayment at the holder's option;

change the place (except as otherwise described in the prospectus or prospectus supplement) or currency of payment on a debt security;

impair your right to sue for payment;

adversely affect any right to convert or exchange a debt security in accordance with its terms;

modify the subordination provisions in the indenture in a manner that is adverse to holders of the debt securities;

reduce the percentage of holders of debt securities whose consent is needed to modify or amend the indenture;

reduce the percentage of holders of debt securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;

Edgar Filing: Borland Scott - Form 3

modify any other aspect of the provisions of the indenture dealing with supplemental indentures, modification and waiver of past defaults, changes to the quorum or voting requirements or the waiver of certain covenants; and

change any obligation we have to pay additional amounts.

Changes Not Requiring Approval

The second type of change does not require any vote by the holders of the debt securities. This type is limited to clarifications and certain other changes that would not adversely affect holders of the outstanding debt securities in any material respect. We also do not need any approval to make any change that affects only debt securities to be issued under the indenture after the change takes effect.

Changes Requiring Majority Approval

Any other change to the indenture and the debt securities would require the following approval:

If the change affects only one series of debt securities, it must be approved by the holders of a majority in principal amount of that series.

If the change affects more than one series of debt securities issued under the same indenture, it must be approved by the holders of a majority in principal amount of all of the series affected by the change, with all affected series voting together as one class for this purpose.

Table of Contents

In each case, the required approval must be given by written consent.

The holders of a majority in principal amount of a series of debt securities issued under the indenture, voting together as one class for this purpose, may waive our compliance with some of our covenants applicable to that series of debt securities. However, we cannot obtain a waiver of a payment default or of any of the matters covered by the bullet points included above under **Changes Requiring Your Approval**.

Further Details Concerning Voting

When taking a vote, we will use the following rules to decide how much principal to attribute to a debt security:

For original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of these debt securities were accelerated to that date because of a default.

For debt securities whose principal amount is not known (for example, because it is based on an index), we will use the principal face amount at original issuance or a special rule for that debt security described in the prospectus supplement.

For debt securities denominated in one or more foreign currencies, we will use the U.S. dollar equivalent.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust money for their payment or redemption or if we, any other obligor, or any affiliate of us or any obligor own such debt securities. Debt securities will also not be eligible to vote if they have been fully defeased as described later under **Defeasance** **Full Defeasance**.

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding indenture securities that are entitled to vote or take other action under the indenture. However, the record date may not be more than 30 days before the date of the first solicitation of holders to vote on or take such action. If we set a record date for a vote or other action to be taken by holders of one or more series, that vote or action may be taken only by persons who are holders of outstanding indenture securities of those series on the record date and must be taken within eleven months following the record date.

Book-entry and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

Defeasance

The following provisions will be applicable to each series of debt securities unless we state in the applicable prospectus supplement that the provisions of covenant defeasance and full defeasance will not be applicable to that series.

Covenant Defeasance

Under current United States federal tax law and the indenture, we can make the deposit described below and be released from some of the restrictive covenants in the indenture under which the particular series was issued. This is called "covenant defeasance". In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and government securities set aside in trust to repay your debt securities. If applicable, you also would be released from the subordination provisions described under "Indenture Provisions Subordination" below. In order to achieve covenant defeasance, we must do the following:

We must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities and any coupons appertaining thereto are then specified as

Table of Contents

payable at stated maturity) or government obligations applicable to such securities and coupons appertaining thereto (determined on the basis of the currency in which such securities and coupons appertaining thereto are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments.

We must deliver to the trustee a legal opinion of our counsel confirming that, under current U.S. federal income tax law, we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves at maturity.

We must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act, as amended, and a legal opinion and officers' certificate stating that all conditions precedent to covenant defeasance have been complied with.

Defeasance must not result in a breach or violation of, or result in a default under, of the indenture or any of our other material agreements or instruments.

No default or event of default with respect to such debt securities and any coupons appertaining thereto shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days.

Satisfy the conditions for covenant defeasance contained in any supplemental indentures.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit or the trustee is prevented from making payment. In fact, if one of the remaining Events of Default occurred (such as our bankruptcy) and the debt securities became immediately due and payable, there might be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Full Defeasance

If there is a change in United States federal tax law, as described below, we can legally release ourselves from all payment and other obligations on the debt securities of a particular series (called "full defeasance") if we put in place the following other arrangements for you to be repaid:

We must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities and any coupons appertaining thereto are then specified as payable at stated maturity) or government obligations applicable to such securities and coupons appertaining thereto (determined on the basis of the currency in which such securities and coupons appertaining thereto are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments.

We must deliver to the trustee a legal opinion confirming that there has been a change in current United States federal tax law or an IRS ruling that allows us to make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves at maturity. Under current United States federal tax law, the deposit and our legal release from the debt securities would be treated as though we paid you your share of the cash and notes or bonds at the time the cash and notes or bonds were deposited in trust in exchange for your debt securities and you would recognize gain or loss on the

Edgar Filing: Borland Scott - Form 3

debt securities at the time of the deposit.

We must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act, as amended, and a legal opinion and officers certificate stating that all conditions precedent to defeasance have been complied with.

Table of Contents

Defeasance must not result in a breach or violation of, or constitute a default under, of the indenture or any of our other material agreements or instruments.

No default or event of default with respect to such debt securities and any coupons appertaining thereto shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days.

Satisfy the conditions for covenant defeasance contained in any supplemental indentures.

If we ever did accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment of the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever became bankrupt or insolvent. If applicable, you would also be released from the subordination provisions described later under **Indenture Provisions** **Subordination** .

Form, Exchange and Transfer of Certificated Registered Securities

If registered debt securities cease to be issued in book-entry form, they will be issued:

only in fully registered certificated form,

without interest coupons, and

unless we indicate otherwise in the prospectus supplement, in denominations of \$1,000 and amounts that are multiples of \$1,000.

Holders may exchange their certificated securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed and as long as the denomination is greater than the minimum denomination for such securities.

Holders may exchange or transfer their certificated securities at the office of the trustee. We have appointed the trustee to act as our agent for registering debt securities in the names of holders transferring debt securities. We may appoint another entity to perform these functions or perform them ourselves.

Holders will not be required to pay a service charge to transfer or exchange their certificated securities, but they may be required to pay any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange will be made only if our transfer agent is satisfied with the holder's proof of legal ownership.

If we have designated additional transfer agents for your debt security, they will be named in your prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which

any transfer agent acts.

If any certificated securities of a particular series are redeemable and we redeem less than all the debt securities of that series, we may block the transfer or exchange of those debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of any certificated securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security that will be partially redeemed.

If a registered debt security is issued in book-entry form, only the depository will be entitled to transfer and exchange the debt security as described in this subsection, since it will be the sole holder of the debt security.

Table of Contents

Resignation of Trustee

Each trustee may resign or be removed with respect to one or more series of indenture securities provided that a successor trustee is appointed to act with respect to these series and has accepted such appointment. In the event that two or more persons are acting as trustee with respect to different series of indenture securities under the indenture, each of the trustees will be a trustee of a trust separate and apart from the trust administered by any other trustee.

Indenture Provisions Subordination

Upon any distribution of our assets upon our dissolution, winding up, liquidation or reorganization, the payment of the principal of (and premium, if any) and interest, if any, on any indenture securities denominated as subordinated debt securities is to be subordinated to the extent provided in the indenture in right of payment to the prior payment in full of all Designated Senior Indebtedness (as defined below), but our obligation to you to make payment of the principal of (and premium, if any) and interest, if any, on such subordinated debt securities will not otherwise be affected. In addition, no payment on account of principal (or premium, if any), sinking fund or interest, if any, may be made on such subordinated debt securities at any time unless full payment of all amounts due in respect of the principal (and premium, if any), sinking fund and interest on Designated Senior Indebtedness has been made or duly provided for in money or money's worth.

In the event that, notwithstanding the foregoing, any payment by us is received by the trustee in respect of subordinated debt securities or by the holders of any of such subordinated debt securities, upon our dissolution, winding up, liquidation or reorganization before all Designated Senior Indebtedness is paid in full, the payment or distribution must be paid over to the holders of the Designated Senior Indebtedness or on their behalf for application to the payment of all the Designated Senior Indebtedness remaining unpaid until all the Designated Senior Indebtedness has been paid in full, after giving effect to any concurrent payment or distribution to the holders of the Designated Senior Indebtedness. Subject to the payment in full of all Designated Senior Indebtedness upon this distribution by us, the holders of such subordinated debt securities will be subrogated to the rights of the holders of the Designated Senior Indebtedness to the extent of payments made to the holders of the Designated Senior Indebtedness out of the distributive share of such subordinated debt securities.

By reason of this subordination, in the event of a distribution of our assets upon our insolvency, certain of our senior creditors may recover more, ratably, than holders of any subordinated debt securities or the holders of any indenture securities that are not Designated Senior Indebtedness or subordinated debt securities. The indenture provides that these subordination provisions will not apply to money and securities held in trust under the defeasance provisions of the indenture.

Designated Senior Indebtedness is defined in the indenture as the principal of (and premium, if any) and unpaid interest on:

our indebtedness (including indebtedness of others guaranteed by us), whenever created, incurred, assumed or guaranteed, for money borrowed, that we have designated as Designated Senior Indebtedness for purposes of the indenture and in accordance with the terms of the indenture (including any indenture securities designated as Designated Senior Indebtedness), and

renewals, extensions, modifications and refinancings of any of this indebtedness.

Edgar Filing: Borland Scott - Form 3

If this prospectus is being delivered in connection with the offering of a series of indenture securities denominated as subordinated debt securities, the accompanying prospectus supplement will set forth the approximate amount of our Designated Senior Indebtedness and of our other indebtedness outstanding as of a recent date.

Table of Contents

Secured Indebtedness

Certain of our indebtedness, including certain series of indenture securities, may be secured. The prospectus supplement for each series of indenture securities will describe the terms of any security interest for such series and will indicate the approximate amount of our secured indebtedness as of a recent date. In the event of a distribution of our assets upon our insolvency, the holders of unsecured indenture securities may recover less, ratably, than holders of any of our secured indebtedness.

The Trustee under the Indenture

U.S. Bank National Association will serve as the trustee under the indenture.

Certain Considerations Relating to Foreign Currencies

Debt securities denominated or payable in foreign currencies may entail significant risks. These risks include the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential illiquidity in the secondary market. These risks will vary depending upon the currency or currencies involved and will be more fully described in the applicable prospectus supplement.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

The 500,000 shares issued to Solar Senior Capital Investors LLC in the Concurrent Private Placement are restricted securities under the meaning of Rule 144 promulgated under the Securities Act and may not be sold in the absence of registration under the Securities Act unless an exemption from registration is available, including exemptions contained in Rule 144.

We have committed to file a registration statement to register the resale of the shares of common stock issued in the Concurrent Private Placement to Solar Senior Capital Investors LLC within 60 days of receiving a request from Solar Senior Capital Investors LLC to do so. We have committed to use our commercially reasonable efforts to obtain effectiveness of such registration statement as soon as reasonably practicable after the filing of such registration statement. Assuming effectiveness of such registration statement, Solar Senior Capital Investors LLC will generally be able to resell its shares of common stock without restriction.

In general, under Rule 144, if six months has elapsed since the date of acquisition of restricted securities from us or any of our affiliates, and we have made certain information about us available publicly, the holder of such restricted securities can sell such securities. However, in the case of a holder that has been our affiliate at any time during the three months preceding the proposed sale, the number of securities sold by such affiliate holder within any three-month period cannot exceed the greater of:

1% of the total number of securities then outstanding; or

the average weekly trading volume of our securities during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Sales under Rule 144 by holders that have been our affiliates at any time during the three months preceding the proposed sale also are subject to certain manner of sale provisions and notice requirements. If one year has elapsed since the date of acquisition of restricted securities from us or any of our affiliates, and the holder is not one of our affiliates at any time during the three months preceding the proposed sale, such person can sell such securities in the public market under Rule 144 without regard to the public information requirements, manner of sale provisions and notice requirements.

No assurance can be given as to (1) the likelihood that an active market for our shares will continue to develop; (2) the liquidity of any such market; (3) the ability of our stockholders to sell our securities; or (4) the prices that stockholders may obtain for any of our securities. No prediction can be made as to the effect, if any, that future sales of securities, or the availability of securities for future sale, will have on the market price prevailing from time to time. Sales of substantial amounts of our securities, or the perception that such sales could occur, may adversely affect prevailing market prices for our shares.

Table of Contents

PLAN OF DISTRIBUTION

We may offer, from time to time, in one or more offerings or series, up to \$250,000,000 of our common stock or debt securities, in one or more underwritten public offerings, at-the-market offerings, negotiated transactions, block trades, best efforts or a combination of these methods. The holders of our common stock will indirectly bear any fees and expenses in connection with any such offerings. We may sell the securities through underwriters or dealers, directly to one or more purchasers through agents or through a combination of any such methods of sale. Any underwriter or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement. A prospectus supplement or supplements will also describe the terms of the offering of the securities, including: the purchase price of the securities and the proceeds we will receive from the sale; any over-allotment options under which underwriters may purchase additional securities from us; any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation; the public offering price; any discounts or concessions allowed or re-allowed or paid to dealers; and any securities exchange or market on which the securities may be listed. Only underwriters named in the prospectus supplement will be underwriters of the securities offered by the prospectus supplement.

The distribution of the securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at prevailing market prices at the time of sale, at prices related to such prevailing market prices, or at negotiated prices. The price at which securities may be distributed may represent a discount from prevailing market prices.

In connection with the sale of the securities, underwriters or agents may receive compensation from us or from purchasers of the securities, for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities may be deemed to be underwriters under the Securities Act, and any discounts and commissions they receive from us and any profit realized by them on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Any such underwriter or agent will be identified and any such compensation received from us will be described in the applicable prospectus supplement. The maximum aggregate commission or discount to be received by any member of Financial Industry Regulatory Authority or independent broker-dealer, including any reimbursements to underwriters or agents for certain fees and legal expenses incurred by them, will not be greater than 10% of the gross proceeds of the sale of securities offered pursuant to this prospectus and any applicable prospectus supplement.

Any underwriter may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum price. Syndicate-covering or other short-covering transactions involve purchases of the securities, either through exercise of the over-allotment option or in the open market after the distribution is completed, to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a stabilizing or covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

Any underwriters that are qualified market makers on the NASDAQ Global Select Market may engage in passive market making transactions in our common stock on the NASDAQ Global Select Market in accordance with Regulation M under the Exchange Act, during the business day prior to the pricing of the offering, before the commencement of offers or sales of our common stock. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all

Table of Contents

independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded. Passive market making may stabilize the market price of the securities at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no trading market, other than our common stock, which is traded on the NASDAQ Global Select Market. We may elect to list any other class or series of securities on any exchanges, but we are not obligated to do so. We cannot guarantee the liquidity of the trading markets for any securities.

Under agreements that we may enter, underwriters, dealers and agents who participate in the distribution of shares of our securities may be entitled to indemnification by us against certain liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Underwriters, dealers and agents may engage in transactions with, or perform services for, us in the ordinary course of business.

If so indicated in the applicable prospectus supplement, we will authorize underwriters or other persons acting as our agents to solicit offers by certain institutions to purchase our securities from us pursuant to contracts providing for payment and delivery on a future date. Institutions with which such contracts may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others, but in all cases such institutions must be approved by us. The obligations of any purchaser under any such contract will be subject to the condition that the purchase of our securities shall not at the time of delivery be prohibited under the laws of the jurisdiction to which such purchaser is subject. The underwriters and such other agents will not have any responsibility in respect of the validity or performance of such contracts. Such contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth the commission payable for solicitation of such contracts.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be underwriters and, if not identified in this prospectus, will be identified in the applicable prospectus supplement.

In order to comply with the securities laws of certain states, if applicable, our securities offered hereby will be sold in such jurisdictions only through registered or licensed brokers or dealers.

Table of Contents

CUSTODIAN, TRANSFER AND DISTRIBUTION PAYING AGENT AND REGISTRAR

Our securities are held under a custody agreement by The Bank of New York Mellon Corporation. The address of the custodian is One Wall Street, New York, New York 10286. American Stock Transfer & Trust Company will act as our transfer agent, distribution paying agent and registrar. The principal business address of our transfer agent is 6201 15th Avenue, Brooklyn, NY 11219, telephone number: (800) 937-5449.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Since we will generally acquire and dispose of our investments in privately negotiated transactions, we will infrequently use brokers in the normal course of our business. Subject to policies established by our board of directors, our investment adviser will be primarily responsible for the execution of the publicly traded securities portion of our portfolio transactions and the allocation of brokerage commissions. Our investment adviser does not expect to execute transactions through any particular broker or dealer, but will seek to obtain the best net results for Solar Senior Capital, taking into account such factors as price (including the applicable brokerage commission or dealer spread), size of order, difficulty of execution, and operational facilities of the firm and the firm's risk and skill in positioning blocks of securities. While our investment adviser generally will seek reasonably competitive trade execution costs, Solar Senior Capital will not necessarily pay the lowest spread or commission available. Subject to applicable legal requirements, our investment adviser may select a broker based partly upon brokerage or research services provided to the investment adviser and Solar Senior Capital and any other clients. In return for such services, we may pay a higher commission than other brokers would charge if the investment adviser determines in good faith that such commission is reasonable in relation to the services provided.

LEGAL MATTERS

Certain legal matters in connection with the securities offered hereby will be passed upon for us by Sutherland Asbill & Brennan LLP, Washington, DC, and Venable LLP, Baltimore Maryland. Certain legal matters in connection with the offering will be passed upon for the underwriters, if any, by the counsel named in the applicable prospectus supplement.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG LLP is an independent registered public accounting firm and is located at 345 Park Avenue, New York, New York 10154. The consolidated financial statements as of December 31, 2014 and 2013, and for each of the years in the three-year period ended December 31, 2014 have been included herein and in the registration statement in reliance upon the reports of KPMG LLP appearing elsewhere herein, and upon the authority of said firm as experts in accounting and auditing.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting, and for performing an assessment of the effectiveness of internal control over financial reporting as of December 31, 2014. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Management performed an assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2014 based upon criteria in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, management determined that the Company's internal control over financial reporting was effective as of December 31, 2014 based on the criteria on Internal Control – Integrated Framework issued by COSO.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2014 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Solar Senior Capital Ltd.:

We have audited the accompanying consolidated statements of assets and liabilities, including the consolidated schedule of investments, of Solar Senior Capital Ltd. (and subsidiaries) (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of operations, changes in net assets, and cash flows for each of the years in the three-year period ended December 31, 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodian, portfolio companies or agents. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Solar Senior Capital Ltd. (and subsidiaries) as of December 31, 2014 and 2013, and the results of their operations, the changes in their net assets and cash flows for each of the years in the three-year period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Solar Senior Capital Ltd.'s internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 25, 2015 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

On Internal Control Over Financial Reporting

The Board of Directors and Shareholders

Solar Senior Capital Ltd.:

We have audited Solar Senior Capital Ltd.'s (the Company) internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control – Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Solar Senior Capital Ltd.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying management's annual report on internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Solar Senior Capital Ltd. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control – Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of assets and liabilities, including the consolidated schedule of investments of Solar Senior Capital Ltd. (and subsidiaries) as of December 31, 2014 and 2013, and the related consolidated statements of operations, changes in net assets and cash flows for each of the years in

Edgar Filing: Borland Scott - Form 3

the three-year period ended December 31, 2014, and our report dated February 25, 2015 expressed an unqualified opinion on those consolidated financial statements.

Table of Contents**SOLAR SENIOR CAPITAL LTD.****CONSOLIDATED SCHEDULE OF INVESTMENTS (continued)****December 31, 2014****(in thousands)**

- (1) Floating rate debt investments typically bear interest at a rate determined by reference to either the London Interbank Offered Rate (LIBOR or L) index rate or the prime index rate (PRIME or P), and which typically reset monthly, quarterly or semi-annually. For each debt investment we have provided the current interest rate in effect as of December 31, 2014.
- (2) Indicates an investment that is wholly or partially held by Solar Senior Capital Ltd. through its wholly-owned financing subsidiary SUNS SPV LLC. Such investments are pledged as collateral under the Senior Secured Revolving Credit Facility (see Note 7 to the consolidated financial statements) and are not generally available to the creditors, if any, of Solar Senior Capital Ltd. The respective par amounts for investments that are partially held through SUNS SPV LLC are: AmeriQual Group, LLC \$4,722; Athletico Management, LLC and Accelerated Holdings, LLC \$10,000; Capstone Logistics Acquisition, Inc. \$8,479; Castle Management Borrower LLC \$7,980; Kellermeyer Bergensons Services, LLC \$5,000; and Metamorph US 3, LLC \$10,000. Par balances in excess of these stated amounts are held directly by Solar Senior Capital Ltd. All other investments not listed above are wholly held through SUNS SPV LLC.
- (3) Floating rate instruments accrue interest at a predetermined spread relative to an index, typically the LIBOR or PRIME rate. These instruments are typically subject to a LIBOR or PRIME rate floor.
- (4) Indicates assets that the Company believes may not represent qualifying assets under Section 55(a) of the Investment Company Act of 1940 (1940 Act), as amended.
- (5) Denotes investments in which we are deemed to exercise a controlling influence over the management or policies of a company, as defined in the 1940 Act, due to beneficially owning, either directly or through one or more controlled companies, more than 25% of the outstanding voting securities of the investment. Transactions during the year ended December 31, 2014 in these controlled investments are as follows:

Name of Issuer	Fair Value at December 31, 2013	Gross Additions	Gross Reductions	Realized Gain (Loss)	Dividend Income	Fair Value at December 31, 2014
Gemino Healthcare Finance, LLC	\$ 34,500	\$	\$	\$	\$ 3,277	\$ 34,421

- (6) Denotes investments in which we are an Affiliated Person but not exercising a controlling influence, as defined in the 1940 Act, due to beneficially owning, either directly or through one or more controlled companies, more than 5% but less than 25% of the outstanding voting securities of the investment. Transactions during the year ended December 31, 2014 in these affiliated investments are as follows:

Name of Issuer	Fair Value at December 31, 2013	Gross Additions	Gross Reductions	Realized Gain (Loss)	Interest Income	Fair Value at December 31, 2014
Engineering Solutions & Products, LLC (revolving loan)	\$	\$ 231	\$ 231	\$	\$ 2	\$
Engineering Solutions & Products, LLC (1 st lien)	405		81		27	324
Engineering Solutions & Products, LLC (2 nd lien)	2,637		294		192	2,343
Engineering Solutions & Products, LLC (common equity)	1,367					956
	\$ 4,409	\$ 231	\$ 606	\$	\$ 221	\$ 3,623

- (7) Our equity investment in Engineering Solutions & Products, LLC is held through ESP SSC Corporation, a taxable subsidiary.
- (8) Investment represents the operating company after consolidation of the holding company Gemino Senior Secured Healthcare LLC.
- (9) Aggregate net unrealized depreciation for U.S. federal income tax purposes is \$1,496; aggregate gross unrealized appreciation and depreciation for federal tax purposes is \$1,822 and \$3,318, respectively, based on a tax cost of \$341,962.

Non-income producing security.

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2014

(in thousands, except share amounts)

Note 1. Organization

Solar Senior Capital Ltd. (Solar Senior , the Company , SUNS , we , us , or our), a Maryland corporation formed on December 16, 2010, is a closed-end, externally managed, non-diversified management investment company that has elected to be treated as a business development company (BDC) under the Investment Company Act of 1940 (the 1940 Act). Furthermore, as the Company is an investment company, it continues to apply the guidance in FASB Accounting Standards Codification (ASC) Topic 946. In addition, for tax purposes, we have elected to be treated as a regulated investment company (RIC), under the Internal Revenue Code of 1986, as amended (the Code).

On January 28, 2011, Solar Senior was capitalized with initial equity of \$2 and commenced operations. On February 24, 2011, Solar Senior priced its initial public offering, selling 9.0 million shares, including the underwriters over-allotment, at a price of \$20.00 per share. Concurrent with this offering, management purchased an additional 500,000 shares through a private placement, also at \$20.00 per share.

The Company s investment objective is to seek to maximize current income consistent with the preservation of capital. We seek to achieve our investment objective by directly or indirectly investing primarily in senior secured loans, including first lien and second lien debt instruments, made primarily to leveraged private middle-market companies whose debt is rated below investment grade, which the Company refers to collectively as senior loans. From time to time, we may also invest in public companies that are thinly traded. Under normal market conditions, at least 80% of the value of the Company s net assets (including the amount of any borrowings for investment purposes) will be invested in senior loans.

Note 2. Significant Accounting Policies

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP), and include the accounts of the Company and its wholly-owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications which, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition for the periods presented. All significant intercompany balances and transactions have been eliminated. Certain prior period amounts may have been reclassified to conform to current period presentation.

The preparation of consolidated financial statements in conformity with GAAP and pursuant to the requirements for reporting on Form 10-K and Regulation S-X, as appropriate, also requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported periods. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially.

Edgar Filing: Borland Scott - Form 3

In the opinion of management, all adjustments which are of a normal recurring nature considered necessary for the fair presentation of financial statements, have been included.

The significant accounting policies consistently followed by the Company are:

- (a) Investment transactions are accounted for on the trade date;
- (b) The Company conducts the valuation of its assets in accordance with GAAP and the 1940 Act. The Company generally values its assets on a quarterly basis, or more frequently if required. Investments for which market quotations are readily available on an exchange are valued at the closing price on the

F-15

Table of Contents

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

date of valuation. The Company may also obtain quotes with respect to certain of its investments from pricing services or brokers or dealers in order to value assets. When doing so, management determines whether the quote obtained is sufficient according to GAAP to determine the fair value of the investment. If determined adequate, the Company uses the quote obtained. Debt investments with maturities of 60 days or less shall each be valued at cost plus accreted discount, or minus amortized premium, which is expected to approximate fair value, unless such valuation, in the judgment of Solar Capital Partners, LLC (the Investment Adviser), does not represent fair value, in which case such investments shall be valued at fair value as determined in good faith by or under the direction of the Company's board of directors (the Board).

Investments for which reliable market quotations are not readily available or for which the pricing sources do not provide a valuation or methodology or provide a valuation or methodology that, in the judgment of the Investment Adviser or the Board does not represent fair value, shall be valued as follows: (i) each portfolio company or investment is initially valued by the investment professionals responsible for the portfolio investment; (ii) preliminary valuations are discussed with senior management of the Investment Adviser; (iii) independent valuation firms engaged by, or on behalf of, the Board will conduct independent appraisals and review the Investment Adviser's preliminary valuations and make their own independent assessment for (a) each portfolio investment that, when taken together with all other investments in the same portfolio company, exceeds 10% of estimated total assets, plus available borrowings, as of the end of the most recently completed fiscal quarter, and (b) each portfolio investment that is presently in payment default; (iv) the Board will discuss the valuations and determine the fair value of each investment in our portfolio in good faith based on the input of the Investment Adviser and, where appropriate, the respective independent valuation firm.

The recommendation of fair value generally considers the following factors among others, as relevant: applicable market yields; the nature and realizable value of any collateral; the portfolio company's ability to make payments; the portfolio company's earnings and discounted cash flow; the markets in which the issuer does business; and comparisons to publicly traded securities, among others.

When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the Company will consider the pricing indicated by the external event to corroborate the valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

Investments are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in fair value pricing our investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of

Table of Contents

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

financial ratios of peer companies that are public, M&A comparables, and enterprise values, among other factors. When available, broker quotations and/or quotations provided by pricing services are considered as an input in the valuation process. For the fiscal year ended December 31, 2014, there has been no change to the Company's valuation techniques and the nature of the related inputs considered in the valuation process.

ASC Topic 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by the Company at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment. The exercise of judgment is based in part on our knowledge of the asset class and our prior experience.

- (c) Gains or losses on investments are calculated by using the specific identification method.
- (d) The Company records interest, adjusted for amortization of premium and accretion of discount, on an accrual basis. Loan origination fees, original issue discount, and market discounts are capitalized and we amortize such amounts into income using the interest method or on a straight-line basis, as applicable. Upon the prepayment of a loan, any unamortized loan origination fees are recorded as interest income. We typically record prepayment premiums on loans and other investments as interest income when we receive such amounts. Capital structuring and certain other fees for services rendered are recorded as income when earned.
- (e) The Company intends to comply with the applicable provisions of the Internal Revenue Code pertaining to regulated investment companies to make distributions of taxable income sufficient to relieve it of substantially all U.S. federal income taxes. The Company, at its discretion, may carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. The Company will accrue excise tax on such estimated excess taxable income as appropriate. As of December 31, 2014 the

Edgar Filing: Borland Scott - Form 3

accrual for excise tax was \$0.

- (f) Book and tax basis differences relating to stockholder dividends and distributions and other permanent book and tax differences are typically reclassified among the Company's capital accounts. In addition, the character of income and gains to be distributed is determined in accordance with income tax regulations that may differ from GAAP; accordingly at December 31, 2014, \$1,287 was reclassified on our balance sheet between distributions in excess of net investment income and paid-in capital in excess of par; and \$381 was reclassified on our balance sheet between accumulated net realized loss and distributions in excess of net investment income. Total earnings and net asset value are not affected.

F-17

Table of Contents

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

- (g) Distributions to common stockholders are recorded as of the record date. The amount to be paid out as a distribution is determined by the Board. Net realized capital gains, if any, are generally distributed or deemed distributed at least annually.
- (h) In accordance with Regulation S-X and ASC Topic 810 *Consolidation*, the Company consolidates its interest in investment company subsidiaries, financing subsidiaries and certain wholly-owned holding companies that serve to facilitate investment in portfolio companies. In addition, the Company may also consolidate any controlled operating companies substantially all of whose business consists of providing services to the Company.
- (i) The accounting records of the Company are maintained in U.S. dollars. Any assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies against the U.S. dollar on the date of valuation. The Company will not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations would be included with the net unrealized gain or loss from investments. The Company's investments in foreign securities, if any, may involve certain risks, including without limitation: foreign exchange restrictions, expropriation, taxation or other political, social or economic risks, all of which could affect the market and/or credit risk of the investment. In addition, changes in the relationship of foreign currencies to the U.S. dollar can significantly affect the value of these investments in terms of U.S. dollars and therefore the earnings of the Company.
- (j) The Company has made an irrevocable election to apply the fair value option of accounting to its senior secured revolving credit facility (the Credit Facility), in accordance with ASC 825-10 and uses an independent third-party valuation firm to assist in measuring its fair value.
- (k) The Company may record origination and other expenses related to certain debt issuances as prepaid assets. These expenses are deferred and amortized using either the effective interest method or the straight-line method over the stated life. The straight-line method may be used on revolving facilities and when it approximates the effective yield method.
- (l) The Company records expenses related to shelf filings and applicable equity offering costs as prepaid assets. These expenses are charged as a reduction of capital upon utilization, in accordance with ASC 946-20-25.
- (m) Investments that are expected to pay regularly scheduled interest in cash are generally placed on non-accrual status when principal or interest cash payments are past due 30 days or more and/or when it is no longer probable that principal or interest cash payments will be collected. Such non-accrual investments are restored to accrual status if past due principal and interest are paid in cash, and in management's judgment, are likely to continue timely payment of their remaining principal and interest obligations. Cash interest payments received on such investments may be recognized as income or applied to principal depending on management's judgment.
- (n) The Company defines cash equivalents as securities that are readily convertible into known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only securities with a maturity of three months or less from the date of issue would qualify, with limited exceptions. The Company believes that certain U.S. Treasury bills, repurchase agreements and other high-quality, short-term debt securities would qualify as cash equivalents.

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

Note 3. Agreements

Solar Senior has an Investment Advisory and Management Agreement with the Investment Adviser, under which the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, Solar Senior. For providing these services, the Investment Adviser receives a fee from Solar Senior, consisting of two components – a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 1.00% of gross assets. For services rendered under the Investment Advisory and Management Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our gross assets at the end of the two most recently completed calendar quarters. Base management fees for any partial month or quarter will be appropriately pro-rated. The amount of these transactions or such drawn cash for this purpose is excluded from total assets for purposes of computing the asset base upon which the management fee is determined. From time-to-time we may purchase U.S. Treasury bills or other high-quality, short-term debt securities at or near the end of the quarter and typically close out the position on a net cash basis subsequent to quarter end. We may also utilize repurchase agreements or other balance sheet transactions, including drawing down on our credit facilities, as deemed appropriate. The amount of these transactions or such drawn cash for this purpose is excluded from total assets for purposes of computing the asset base upon which the management fee is determined.

The incentive fee has two parts, as follows: one is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (other than fees for providing managerial assistance) accrued during the calendar quarter, minus our operating expenses for the quarter (excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments, if any, with a deferred interest feature (such as original issue discount, debt instruments with pay-in-kind interest and zero-coupon securities), accrued income that we have not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). The Company pays the Investment Adviser an incentive fee with respect to pre-incentive fee net investment income for each calendar quarter as follows:

no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

50% of pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.9167% in any calendar quarter (11.67% annualized);

and

20% of the amount of pre-incentive fee net investment income, if any, that exceeds 2.9167% in any calendar quarter (11.67% annualized) will be payable to the Investment Adviser.

Edgar Filing: Borland Scott - Form 3

For the fiscal years ended December 31, 2014, 2013 and 2012, the Company recognized \$2,875, \$2,575 and \$2,216, respectively, in management fees and \$440, \$113 and \$580, respectively, in performance-based incentive fees. For the fiscal years ended December 31, 2014, 2013 and 2012, \$227, \$0 and \$0, respectively, of such performance-based incentive fees were waived.

The second part of the incentive fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date) and will equal 20% of the Company's cumulative realized capital gains less cumulative realized capital losses, unrealized capital

F-19

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)**

depreciation (unrealized depreciation on a gross investment-by-investment basis at the end of each calendar year) and all net capital gains upon which prior performance-based capital gains incentive fee payments were previously made to the Investment Adviser. For financial statement purposes, the second part of the incentive fee is accrued based upon 20% of cumulative net realized gains and net unrealized capital appreciation. No accrual was required for the years ended December 31, 2014, 2013 and 2012.

Solar Senior has also entered into an Administration Agreement with Solar Capital Management, LLC (the Administrator) under which the Administrator provides administrative services for Solar Senior. For providing these services, facilities and personnel, Solar Senior reimburses the Administrator for Solar Senior's allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the Administration Agreement, including rent. The Administrator will also provide, on Solar Senior's behalf, managerial assistance to those portfolio companies to which Solar Senior is required to provide such assistance.

For the fiscal years ended December 31, 2014, 2013 and 2012, the Company recognized expenses under the Administration Agreement of \$1,069, \$1,174 and \$983, respectively. No managerial assistance fees were accrued or collected for the fiscal years ended December 31, 2014, 2013 and 2012.

Note 4. Net Asset Value Per Share

At December 31, 2014, the Company's total net assets and net asset value per share were \$203,519 and \$17.65, respectively. This compares to total net assets and net asset value per share at December 31, 2013 of \$208,017 and \$18.04, respectively.

Note 5. Earnings Per Share

The following table sets forth the computation of basic and diluted net increase in net assets per share resulting from operations, pursuant to ASC 260-10, for the years ended December 31, 2014, 2013 and 2012:

	Year ended December 31, 2014	Year ended December 31, 2013	Year ended December 31, 2012
<u>Earnings per share (basic & diluted)</u>			
Numerator net increase in net assets resulting from operations:	\$ 11,690	\$ 12,618	\$ 13,912
Denominator weighted average shares:	11,532,985	11,423,958	9,500,100

Edgar Filing: Borland Scott - Form 3

Earnings per share:	\$	1.01	\$	1.10	\$	1.46
---------------------	----	------	----	------	----	------

Note 6. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1. Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Company has the ability to access.

Table of Contents

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

Level 2. Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in non-active markets;
- c) Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
- d) Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level 3. Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's and, if applicable, an independent third-party valuation firm's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement in its entirety. For example, a Level 3 fair value measurement may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3).

Gains and losses for assets and liabilities categorized within the Level 3 table below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable inputs (Level 3).

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification for certain financial assets or liabilities. Such reclassifications are reported as transfers in/out of the appropriate category as of the end of the quarter in which the reclassifications occur.

The following tables present the balances of assets and liabilities measured at fair value as of December 31, 2014 and 2013:

Edgar Filing: Borland Scott - Form 3

Fair Value Measurements

As of December 31, 2014

	Level 1	Level 2	Level 3	Total
Assets:				
Bank Debt/Senior Secured Loans	\$	\$ 49,527	\$ 251,823	\$ 301,350
Unsecured Notes		3,739		3,739
Common Equity			35,377	35,377
Total Investments	\$	\$ 53,266	\$ 287,200	\$ 340,466
Liabilities:				
Credit Facility	\$	\$	\$ 143,200	\$ 143,200

F-21

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)****Fair Value Measurements****As of December 31, 2013**

	Level 1	Level 2	Level 3	Total
Assets:				
Bank Debt/Senior Secured Loans	\$	\$ 39,674	\$ 185,330	\$ 225,004
Unsecured Notes		6,981		6,981
Common Equity			35,867	35,867
Total Investments	\$	\$ 46,655	\$ 221,197	\$ 267,852
Liabilities:				
Credit Facility	\$	\$	\$ 61,400	\$ 61,400

The following table provides a summary of the changes in fair value of Level 3 assets and liabilities for the year ended December 31, 2014, as well as the portion of gains or losses included in income attributable to unrealized gains or losses related to those assets and liabilities still held at December 31, 2014:

Fair Value Measurements Using Level 3 Inputs

	Bank Debt/Senior Secured Loans	Common Equity
Fair value, December 31, 2013	\$ 185,330	\$ 35,867
Total gains or losses included in earnings:		
Net realized gain (loss)	(644)	
Net change in unrealized gain (loss)	146	(490)
Purchase of investment securities	184,392	
Proceeds from dispositions of investment securities	(121,941)	
Transfers in/out of Level 3	4,540	
Fair value, December 31, 2014	\$ 251,823	\$ 35,377
Unrealized gains (losses) for the period relating to those Level 3 assets that were still held by the Company at the end of the period:		
Net change in unrealized gain (loss):	\$ (465)	\$ (490)

Edgar Filing: Borland Scott - Form 3

During the fiscal year ended December 31, 2014, investments with a fair value of \$4,540 were transferred from Level 2 to Level 3. These transfers were a result of changes in the quantity and quality of information used as valuation inputs by the Investment Adviser. There were no other transfers between levels.

The following table shows a reconciliation of the beginning and ending balances for fair valued liabilities measured using significant unobservable inputs (Level 3) for the year ended December 31, 2014:

Beginning fair value at December 31, 2013	\$ 61,400
Borrowings	206,100
Repayments	(124,300)
Transfers in/out of Level 3	
Ending fair value at December 31, 2014	\$ 143,200

F-22

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)**

The Company has made an irrevocable election to apply the fair value option of accounting to the Credit Facility, in accordance with ASC 825-10. On December 31, 2014, there were borrowings of \$143,200 on the Credit Facility. For the year ended December 31, 2014, the Credit Facility had no net change in unrealized (appreciation) depreciation. The Company uses an independent third-party valuation firm to assist in measuring the fair value of our Credit Facility.

The following table provides a summary of the changes in fair value of Level 3 assets and liabilities for the year ended December 31, 2013, as well as the portion of gains or losses included in income attributable to unrealized gains or losses related to those assets and liabilities still held at December 31, 2013:

Fair Value Measurements Using Level 3 Inputs

	Bank Debt/Senior Secured Loans	Common Equity
Fair value, December 31, 2012	\$ 183,850	\$
Total gains or losses included in earnings:		
Net realized gain (loss)	(5,034)	
Net change in unrealized gain	2,615	1,661
Purchase of investment securities	134,865	34,206
Proceeds from dispositions of investment securities	(121,066)	
Transfers in/out of Level 3	(9,900)	
Fair value, December 31, 2013	\$ 185,330	\$ 35,867
Unrealized gains (losses) for the period relating to those Level 3 assets that were still held by the Company at the end of the period:		
Net change in unrealized gain (loss):	\$ (814)	\$ 1,661

During the fiscal year ended December 31, 2013, our investment in Securus Technologies, Inc. was transferred from Level 3 to Level 2 as a quoted price deemed representative of fair value became available.

The following table shows a reconciliation of the beginning and ending balances for fair valued liabilities measured using significant unobservable inputs (Level 3) for the year ended December 31, 2013:

Edgar Filing: Borland Scott - Form 3

Beginning fair value at December 31, 2012	\$ 39,100
Borrowings	194,000
Repayments	(171,700)
Transfers in/out of Level 3	
Ending fair value at December 31, 2013	\$ 61,400

The Company has made an irrevocable election to apply the fair value option of accounting to the Credit Facility, in accordance with ASC 825-10. On December 31, 2013, there were borrowings of \$61,400 on the Credit Facility. For the year ended December 31, 2013, the Credit Facility had no net change in unrealized (appreciation) depreciation. The Company uses an independent third-party valuation firm to assist in measuring the fair value of our Credit Facility.

F-23

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)****Quantitative Information about Level 3 Fair Value Measurements**

The Company typically determines the fair value of its performing debt investments utilizing a yield analysis. In a yield analysis, a price is ascribed for each investment based upon an assessment of current and expected market yields for similar investments and risk profiles. Additional consideration is given to current contractual interest rates, relative maturities and other key terms and risks associated with an investment. Among other factors, a significant determinant of risk is the amount of leverage used by the portfolio company relative to the total enterprise value of the company, and the rights and remedies of our investment within each portfolio company.

Significant unobservable quantitative inputs typically used in the fair value measurement of the Company's Level 3 assets and liabilities primarily reflect current market yields, including indices, and readily available quotes from brokers, dealers, and pricing services as indicated by comparable assets and liabilities, as well as enterprise values and earnings before income taxes, depreciation and amortization (EBITDA) multiples of similar companies, and comparable market transactions for equity securities.

Quantitative information about the Company's Level 3 asset and liability fair value measurements as of December 31, 2014 is summarized in the table below:

	Asset or Liability	Fair Value at December 31, 2014	Principal Valuation Technique/Methodology	Unobservable Input	Range (Weighted Average)
Bank Debt / Senior Secured Loans	Asset	\$ 251,823	Yield Analysis	Market Yield	5.3% - 10.7% (6.7%)
Common Equity		\$ 956	Enterprise Value	EBITDA Multiple	7.9x - 10.3x (6.9x)
	Asset	\$ 34,421	Enterprise Value	Return on Equity	7.1% - 20.9% (11.3%)
Credit Facility					L+0.5% - L+4.75%
	Liability	\$ 143,200	Yield Analysis	Market Yield	(L+2.0%)

Significant increases or decreases in any of the above unobservable inputs in isolation, including unobservable inputs used in deriving bid-ask spreads, if applicable, would result in a significantly lower or higher fair value measurement for such assets and liabilities.

Edgar Filing: Borland Scott - Form 3

Quantitative information about the Company's Level 3 asset and liability fair value measurements as of December 31, 2013 is summarized in the table below:

	Asset or Liability	Fair Value at December 31, 2013	Principal Valuation		Range (Weighted Average)
			Technique/Methodology	Unobservable Input	
Bank Debt / Senior Secured Loans		\$ 181,918	Yield Analysis	Market Yield	5.3% 10.5%
	Asset	\$ 3,412	Enterprise value	EBITDA Multiple	(7.2%) 6.3x 21.5x (10.7x)
Common Equity		\$ 1,367	Enterprise Value	EBITDA Multiple	6.8x 10.1x (8.8x) 5.1% 15.4%
	Asset	\$ 34,500	Enterprise Value	Return on Equity	(11.6%)
Credit Facility					L+0.5% L+5.5%
	Liability	\$ 61,400	Yield Analysis	Market Yield	(L+2.6%)

SOLAR SENIOR CAPITAL LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

December 31, 2014

(in thousands, except share amounts)

Significant increases or decreases in any of the above unobservable inputs in isolation, including unobservable inputs used in deriving bid-ask spreads, if applicable, would result in significantly lower or higher fair value measurements for such assets and liabilities.

Note 7. Debt

Senior Secured Revolving Credit Facility On August 26, 2011, the Company established SUNS SPV, LLC (SUNS SPV) which entered into the \$200 million Credit Facility with Citigroup Global Markets Inc. acting as administrative agent. The Credit Facility was scheduled to mature on August 26, 2016 and generally bore interest at a rate of LIBOR plus 2.25%. The Credit Facility can also be expanded up to \$600,000 and is secured by all of the assets held by the SUNS SPV. Under the terms of the Credit Facility, Solar Senior and the SUNS SPV, as applicable, have made certain customary representations and warranties, and are required to comply with various covenants, including leverage restrictions, reporting requirements and other customary requirements for similar credit facilities. The Credit Facility also includes usual and customary events of default for credit facilities of this nature.

On November 7, 2012, the Company amended the Credit Facility. As a result of the amendment, the stated interest rate on the Credit Facility was reduced to LIBOR plus 2.00% from LIBOR plus 2.25%, and the Credit Facility continues to have no LIBOR floor requirement. The amendment also provided us greater investment flexibility and extended the final maturity date to November 6, 2017. On February 26, 2014, the Company utilized the Credit Facility's delayed draw feature, expanding immediately available capital from \$150,000 to \$200,000, subject to borrowing base limitations.

On June 30, 2014, the Company again amended the Credit Facility. As a result of this amendment, commitments under the Credit Facility were reduced by \$25,000 to \$175,000 and may be expanded up to \$600,000 under its accordion feature. This amendment to the Credit Facility also added greater investment flexibility and extends the final maturity date to June 28, 2019. The stated interest rate remains LIBOR plus 2.00% with no LIBOR floor requirement.

The Company has made an irrevocable election to apply the fair value option of accounting to the Credit Facility, in accordance with ASC 825-10. Accounting for the Credit Facility at fair value better aligns the measurement methodologies of assets and liabilities, which may mitigate certain earnings volatility. ASC 825-10 requires entities to display the fair value of the selected assets and liabilities on the face of the Consolidated Statement of Assets and Liabilities and changes in fair value of the Credit Facility are reported in the Consolidated Statement of Operations.

The average annualized interest cost for all borrowings for the year ended December 31, 2014 and the year ended December 31, 2013 was 2.18% and 2.20%, respectively. These costs are exclusive of other credit facility expenses such as unused fees and fees paid to the back-up servicer, if any. During the year ended December 31, 2014, the Company expensed \$972 in conjunction with the June 30, 2014 amendment of

Edgar Filing: Borland Scott - Form 3

the Credit Facility. The maximum amount borrowed on the Credit Facility during the year ended December 31, 2014 and the year ended December 31, 2013, was \$143,200 and \$84,600, respectively.

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)**

Information about our senior securities is shown in the following table as of each year ended December 31 since the Company commenced operations, unless otherwise noted. The indicates information which the SEC expressly does not require to be disclosed for certain types of senior securities.

Class and Year	Total Amount Outstanding(1)	Asset Coverage Per Unit(2)	Involuntary Liquidating Preference Per Unit(3)	Average Market Value Per Unit(4)
Revolving Credit Facility				
Fiscal 2014	\$ 143,200	\$ 2,421	\$	N/A
Fiscal 2013	61,400	4,388		N/A
Fiscal 2012	39,100	5,453		N/A
Fiscal 2011	8,600	21,051		N/A

- (1) Total amount of each class of senior securities outstanding at the end of the period presented.
- (2) The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness. This asset coverage ratio is multiplied by one thousand to determine the Asset Coverage Per Unit. In order to determine the specific Asset Coverage Per Unit for each class of debt, the total Asset Coverage Per Unit was divided based on the amount outstanding at the end of the period for each.
- (3) The amount to which such class of senior security would be entitled upon the involuntary liquidation of the issuer in preference to any security junior to it.
- (4) Not applicable, we do not have senior securities that are registered for public trading.

Note 9(a). Income Tax Information and Distributions to Stockholders

The tax character of distributions for the fiscal years ended December 31, 2014, 2013 and 2012 were as follows:

	2014		2013		2012	
Ordinary income	\$ 14,842	91.3%	\$ 13,674	84.2%	\$ 11,830	96.5%
Capital gains		0.0%		0.0%	425	3.5%
Return of capital	1,419	8.7%	2,565	15.8%		0.0%
Total distributions	\$ 16,261	100.0%	\$ 16,239	100.0%	\$ 12,255	100.0%

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)**

As of December 31, 2014, 2013 and 2012 the components of accumulated gain and losses on a tax basis were as follows (1):

	2014	2013	2012
Undistributed ordinary income	\$	\$	\$ 1,014
Undistributed long-term net capital gains			
Total undistributed net earnings			1,014
Other book/tax temporary differences	(781)	(406)	867
Post-October capital losses(2)		(4,747)	
Capital loss carryforward	(5,766)		
Net unrealized appreciation (depreciation) investments	(1,497)	826	(3,918)
Total taxable income (loss)	\$ (8,044)	\$ (4,327)	\$ (2,037)

- (1) Tax information for the fiscal years ended December 31, 2014, 2013 and 2012 are/were estimates and are not final until the Company files its tax returns, typically in September each year.
- (2) As of December 31, 2013 we had a post-October capital loss deferral of \$4,747.

The Company recognizes in its consolidated financial statements the tax effect of a tax position when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. To the best of our knowledge, we did not have any uncertain tax positions that met the recognition or measurement criteria of ASC 740-10-25 nor did we have any unrecognized tax benefits as of the periods presented herein. Although we file federal and state tax returns, our major tax jurisdiction is federal. Our tax returns for each of our federal tax years since 2011 remain subject to examination by the Internal Revenue Service and the state department of revenue.

Note 9(b). Other Tax Information (unaudited)

No distributions paid during the fiscal years ended December 31, 2014, 2013 or 2012 were eligible for qualified dividend income treatment or were eligible for the 70% dividends received deduction for corporate stockholders.

Note 10. Gemino Healthcare Finance, LLC

Edgar Filing: Borland Scott - Form 3

Pursuant to a definitive agreement, dated September 30, 2013, we acquired Gemino Healthcare Finance, LLC (d/b/a Gemino Senior Secured Healthcare Finance) (Gemino) from affiliates of EDG Partners, D. E. Shaw AQ-SP Series 5-01, L.L.C. and other members of Gemino. Gemino is a commercial finance company that originates, underwrites, and manages primarily secured, asset-based loans for small and mid-sized companies operating in the healthcare industry. Our initial investment in Gemino of \$32,839 was funded from our existing Credit Facility. We have an additional \$5,000 commitment to Gemino (which may be structured as debt or equity), conditional upon approval of the Gemino board of managers, among other conditions. The management team of Gemino committed to lead Gemino and co-invested in the transaction.

Concurrent with the closing of the transaction, Gemino entered into a new, four-year, non-recourse, \$100,000 credit facility with non-affiliates, which is expandable to \$150,000 under its accordion feature. Effective March 31, 2014, the credit facility was expanded to \$105,000 and again on June 27, 2014 to \$110,000.

F-28

Table of Contents**SOLAR SENIOR CAPITAL LTD.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)****December 31, 2014****(in thousands, except share amounts)**

On December 31, 2013, we contributed our 32,839 units in Gemino to Gemino Senior Secured Healthcare LLC (Gemino Senior Secured Healthcare). In exchange for this contribution, we received 19,839 units of common equity and \$13,000 in floating rate secured notes of Gemino Senior Secured Healthcare bearing interest at LIBOR plus 7.50%, maturing on December 31, 2018. However, our financial statements, including our schedule of investments, reflect our investments in Gemino Senior Secured Healthcare on a consolidated basis. Gemino's management team currently owns approximately 5% of the equity in Gemino. Gemino Senior Secured Healthcare owns approximately 95% of the equity in Gemino and Solar Senior owns 100% of the equity in Gemino Senior Secured Healthcare. Gemino and Gemino Senior Secured Healthcare are treated as pass-through entities for tax purposes.

Gemino currently manages a highly diverse portfolio of directly-originated and underwritten senior-secured commitments. As of December 31, 2014, the portfolio totaled approximately \$204,926 of commitments, of which \$122,909 were funded, on total assets of \$129,024. As of December 31, 2013, the portfolio totaled approximately \$170,559 of commitments, of which \$108,559 were funded, on total assets of \$117,083. At December 31, 2014, the portfolio consisted of 38 issuers with an average balance of approximately \$3,234 versus 34 issuers with an average balance of approximately \$3,193 at December 31, 2013. All of the commitments in Gemino's portfolio are floating-rate, senior-secured, cash-pay loans. Gemino's credit facility, which is non-recourse to us, had approximately \$95,000 and \$83,000 of borrowings outstanding at December 31, 2014 and December 31, 2013, respectively. For the years ended December 31, 2014 and December 31, 2013, Gemino had net income of \$2,990 and \$202, respectively, on gross income of \$10,906 and \$12,232, respectively. The results for the year ended December 31, 2013 include non-recurring costs of \$3,222 related to the acquisition. Due to timing and non-cash items, there may be material differences between GAAP net income and cash available for distributions.

Note 13. First Lien Loan Program LLC

On September 10, 2014, the Company entered into a joint venture agreement to create a First Lien Loan Program (FLLP) with Voya Investment Management (Voya). Voya acts as the investment advisor for several wholly-owned insurance subsidiaries of Voya Financial, Inc. (NYSE: VOYA). The joint venture vehicle, structured as an unconsolidated Delaware limited liability company, is expected to invest primarily in senior secured term loans to middle market companies predominantly owned by private equity sponsors or entrepreneurs. Solar Senior and Voya have committed to provide \$50,000 and \$7,250, respectively, of capital to the joint venture. All portfolio decisions and generally all other decisions in respect of the FLLP must be approved by an investment committee of the FLLP consisting of representatives of the Company and Voya (with approval from a representative of each required). As of December 31, 2014, FLLP had not commenced operations. On February 13, 2015, FLLP commenced operations. On February 13, 2015 FFLP as transferor and FLLP 2015-1, LLC, a newly formed wholly owned subsidiary of FLLP, as borrower entered into a \$75,000 senior secured revolving credit facility (the FLLP Facility) with Wells Fargo Securities, LLC acting as administrative agent. Solar Senior Capital Ltd. acts as servicer under the FLLP Facility. The FLLP Facility reinvestment period is scheduled to end on February 13, 2018 and the FLLP Facility is scheduled to mature on February 13, 2020. The FLLP Facility generally bears interest at a rate of LIBOR plus 2.25-2.50%. FLLP and FLLP 2015-1, LLC, as applicable, have made certain customary representations and warranties, and are required to comply with various covenants, including leverage restrictions, reporting requirements and other customary requirements for similar credit facilities. The FLLP Facility also includes usual and customary events of default for credit facilities of this nature.

Note 14. Subsequent Events

The Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the consolidated financial statements were issued.

On January 8, 2015, our board of directors declared a monthly dividend of \$0.1175 per share payable on January 30, 2015 to holders of record as of January 22, 2015.

On February 3, 2015, our board of directors declared a monthly dividend of \$0.1175 per share payable on February 27, 2015 to holders of record as of February 19, 2015.

On February 25, 2015, our board of directors declared a monthly dividend of \$0.1175 per share payable on April 2, 2015 to holders of record as of March 19, 2015.

Accounting fees and expenses	105,000
Miscellaneous	10,000
 Total	 \$ 565,200

Note: All listed amounts, except the SEC registration fee and the FINRA filing fee, are estimates.

ITEM 28. PERSONS CONTROLLED BY OR UNDER COMMON CONTROL

We may be deemed to control certain portfolio companies. See "Portfolio Companies" in the prospectus.

Consolidated Subsidiaries

The following list sets forth each of our consolidated subsidiaries, the state or country under whose laws the subsidiary is organized, and the percentage of voting securities or membership interests owned by us in such subsidiary:

Gemino Senior Secured Healthcare LLC (Delaware)	100%
ESP SSC Corporation (Delaware)	100%
SUNS SPV LLC (Delaware)	100%

The subsidiary listed above is consolidated for financial reporting purposes.

ITEM 29. NUMBER OF HOLDERS OF SECURITIES

The following table sets forth the number of record holders of the Registrant's common stock at March 3, 2015:

Title of Class	Number of Record Holders
Common Stock, par value \$0.01 per share	5

ITEM 30. INDEMNIFICATION

Directors and Officers

Reference is made to Section 2-418 of the Maryland General Corporation Law, Article VII of the Registrant's charter and Article XI of the Registrant's Amended and Restated Bylaws.

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (a) actual receipt of an improper benefit or profit in money, property or services or (b) active and deliberate

C-4

Table of Contents

dishonesty established by a final judgment as being material to the cause of action. The Registrant's charter contains such a provision which eliminates directors' and officers' liability to the maximum extent permitted by Maryland law, subject to the requirements of the Investment Company Act of 1940, as amended, or the 1940 Act.

The Registrant's charter authorizes the Registrant, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer of the Registrant or any individual who, while serving as the Registrant's director or officer and at the Registrant's request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse their reasonable expenses in advance of final disposition of a proceeding. The Registrant's bylaws obligate the Registrant, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer or any individual who, while serving as the Registrant's director or officer and at the Registrant's request, serves or has served another corporation, real estate investment trust, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner, trustee, manager or member and who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse his or her reasonable expenses in advance of final disposition of a proceeding without requiring a preliminary determination of his or her ultimate entitlement to indemnification. The charter and bylaws also permit the Registrant to indemnify and advance expenses to any person who served a predecessor of the Registrant in any of the capacities described above and any of the Registrant's employees or agents or any employees or agents of the Registrant's predecessor. In accordance with the 1940 Act, the Registrant will not indemnify any person for any liability to which such person would be subject by reason of such person's willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office.

Maryland law requires a corporation (unless its charter provides otherwise, which the Registrant's charter does not) to indemnify a director or officer who has been successful in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service in that capacity. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made, or threatened to be made, a party by reason of their service in those or other capacities unless it is established that (a) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty, (b) the director or officer actually received an improper personal benefit in money, property or services or (c) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. However, under Maryland law, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that a personal benefit was improperly received unless, in either case, a court orders indemnification, and then only for expenses. In addition, Maryland law permits a corporation to advance reasonable expenses to a director or officer in advance of final disposition of a proceeding upon the corporation's receipt of (a) a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation and (b) a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

Adviser and Administrator

Edgar Filing: Borland Scott - Form 3

The Investment Advisory and Management Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Solar Capital Partners, LLC, or the Adviser, and its officers, managers, agents, employees,

C-5

Table of Contents

controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Registrant for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of the Adviser's services under the Investment Advisory and Management Agreement or otherwise as an investment adviser of the Registrant.

The Administration Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Solar Capital Management, LLC and its officers, managers, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Registrant for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Solar Capital Management, LLC's services under the Administration Agreement or otherwise as administrator for the Registrant.

The law also provides for comparable indemnification for corporate officers and agents. Insofar as indemnification for liability arising under the Securities Act of 1933, as amended (the "Securities Act") may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The Registrant has entered into indemnification agreements with its directors. The indemnification agreements are intended to provide the Registrant's directors the maximum indemnification permitted under Maryland law and the 1940 Act. Each indemnification agreement provides that the Registrant shall indemnify the director who is a party to the agreement (an "Indemnitee"), including the advancement of legal expenses, if, by reason of his or her corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding, other than a proceeding by or in the right of the Registrant.

ITEM 31. BUSINESS AND OTHER CONNECTIONS OF INVESTMENT ADVISER

A description of any other business, profession, vocation, or employment of a substantial nature in which Solar Capital Partners, LLC, and each managing director, director or executive officer of Solar Capital Partners, LLC, is or has been during the past two fiscal years, engaged in for his or her own account or in the capacity of director, officer, employee, partner or trustee, is set forth in Part A of this Registration Statement in the sections entitled "Management Board of Directors," "Investment Advisory and Management Agreement" and "Portfolio Management Investment Personnel." Additional information regarding Solar Capital Partners, LLC and its officers and directors will be set forth in its Form ADV, as filed with the Securities and Exchange Commission (SEC File No. 801-68710), under the Investment Advisers Act of 1940, as amended, and is incorporated herein by reference.

ITEM 32. LOCATION OF ACCOUNTS AND RECORDS

All accounts, books, and other documents required to be maintained by Section 31(a) of the 1940 Act, and the rules thereunder are maintained at the offices of:

- (1) the Registrant, Solar Senior Capital Ltd., 500 Park Avenue, New York, NY 10022;
- (2) the Transfer Agent, American Stock Transfer & Trust Company, 6201 15th Avenue, Brooklyn, NY 11219;

(3) the Custodian, The Bank of New York Mellon Corporation, One Wall Street, New York, NY 10286; and

(4) the Adviser, Solar Capital Partners, LLC, 500 Park Avenue, New York, NY 10022.

ITEM 33. MANAGEMENT SERVICES

Not applicable.

ITEM 34. UNDERTAKINGS

(1) Registrant undertakes to suspend the offering of the shares of common stock covered hereby until it amends its prospectus contained herein if (a) subsequent to the effective date of this Registration Statement, its net asset value per share of common stock declines more than 10% from its net asset value per share of common stock as of the effective date of this Registration Statement, or (b) its net asset value per share of common stock increases to an amount greater than its net proceeds as stated in the prospectus contained herein.

(2) Not applicable.

(3) Not applicable.

(4) The Registrant hereby undertakes:

(a) To file, during any period in which offers or sales are being made, a post-effective amendment to the registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the 1933 Act;

(ii) to reflect in the prospectus any facts or events after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(b) That, for the purpose of determining any liability under the 1933 Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of those securities at that time shall be deemed to be the initial bona fide offering thereof; and

(c) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering; and

(d) That, for the purpose of determining liability under the 1933 Act to any purchaser, if the Registrant is subject to Rule 430C: Each prospectus filed pursuant to Rule 497(b), (c), (d) or (e) under the 1933 Act as part of a registration statement relating to an offering, other than prospectuses filed in reliance on Rule 430A under the 1933 Act, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness; *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such

Edgar Filing: Borland Scott - Form 3

first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(e) That, for the purpose of determining liability of the Registrant under the 1933 Act to any purchaser in the initial distribution of securities, the undersigned Registrant undertakes that in a primary offering of

C-7

Table of Contents

securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to the purchaser:

(i) any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 497 under the 1933 Act;

(ii) the portion of any advertisement pursuant to Rule 482 under the 1933 Act relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and

(iii) any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

(f) To file a post-effective amendment to the registration statement, and to suspend any offers or sales pursuant the registration statement until such post-effective amendment has been declared effective under the 1933 Act, in the event the shares of Registrant are trading below its net asset value and either (i) Registrant receives, or has been advised by its independent registered accounting firm that it will receive, an audit report reflecting substantial doubt regarding the Registrant's ability to continue as a going concern or (ii) Registrant has concluded that a material adverse change has occurred in its financial position or results of operations that has caused the financial statements and other disclosures on the basis of which the offering would be made to be materially misleading.

(5) (a) For the purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of a registration statement in reliance upon Rule 430A and contained in the form of prospectus filed by the Registrant under Rule 497 (h) under the Securities Act of 1933 shall be deemed to be part of the Registration Statement as of the time it was declared effective.

(b) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of the securities at that time shall be deemed to be the initial bona fide offering thereof.

(6) The Registrant undertakes to send by first class mail or other means designed to ensure equally prompt delivery within two business days of receipt of a written or oral request, any Statement of Additional Information.

Table of Contents**SIGNATURES**

Pursuant to the requirements of the Securities Act of 1933, as amended, the Registrant has duly caused this Pre-Effective Amendment No. 2 to the Registration Statement on Form N-2 to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of New York, in the State of New York, on the 5th day of March, 2015.
