Smith & Nephew plc recall of 185 implants

16 August 2007

Smith & Nephew plc (LSE: SN, NYSE: SNN), the global medical technology business, announces that following a packaging error at a subcontractor it has voluntarily withdrawn 185 of its BIRMINGHAM HIP* Resurfacing System implants which were manufactured in a small number of production batches.

Smith & Nephew have voluntarily withdrawn these implants and has notified the UK Medicines & Healthcare Products Regulatory Agency and the US Food & Drug Administration that it has done so.

These implants were incorrectly packaged by a subcontractor and as a result, different sizes of acetabular cup were mixed together. All hospitals and surgeons who have received these implants have either been notified or are in the process of being notified.

Smith & Nephew's investigation confirms that this problem is confined to a small number of batches. A number of implants have already been recovered in their packaging. The devices have been distributed to a number of countries, including the UK and the US.

Smith & Nephew are working closely with patients and surgeons to ensure that appropriate and immediate follow up takes place. Quality standards are an integral part of the way Smith & Nephew does business and we continue to vigorously pursue and enforce these standards.

Edgar Filing: SMITH & NEPHEW PLC - Form 6-K

Distribution of the BIRMINGHAM HIP Resurfacing product continues as normal and is meeting demand.
