THE COMPANY

We are a leading provider of television-based entertainment services enabled by digital video recorders, or DVRs, a rapidly emerging consumer electronics category. We offer the TiVo Service, which gives customers greater control over their television viewing, enabling them to watch what they want, when they want. The TiVo Service, through its menu-driven interface and easy-to-use navigation system, offers viewers enhanced control over live television, greater ease in locating and recording shows, and personalization through user-defined viewing preferences.

We operate in an emerging industry and face significant competition. Our success is dependent upon the market's acceptance of the TiVo Service and the DVRs which enable the TiVo Service. To date, we have recognized very limited revenue, have incurred significant losses and have had substantial negative cash flow. During the fiscal year ended January 31, 2003 and the three months ended April 30, 2003, we had a net loss of \$80.6 million and \$7.9 million, respectively. As of April 30, 2003, we had an accumulated deficit of \$553.1 million.

Recent Developments

We are considering entering into a \$6 million line of credit agreement with a commercial bank. If we enter into such a transaction, the line of credit may be secured by a first priority lien on our assets, excluding our intellectual property. We would use the line of credit in connection with the management of our hardware inventory. We cannot predict when or if we will enter into such an agreement.

On June 26, 2003, the plaintiffs in the consolidated IPO class action lawsuits currently pending against us and over 300 other issuers who went public between 1998 and 2000, announced a proposed settlement with us and the other issuer defendants. The proposed settlement provides that the insurers of all settling issuers will guarantee that the plaintiffs recover \$1 billion from non-settling defendants, including the investment banks who acted as underwriters in those offerings. In the event that the plaintiffs do not recover \$1 billion, the insurers for the settling issuers will make up the difference. Under the proposed settlement, the maximum amount that could be charged to our insurance policy in the event that the plaintiffs recovered nothing from the investment banks would be approximately \$3.9 million. We believe that we have sufficient insurance coverage to cover the maximum amount that we may be responsible for under the proposed settlement. It is possible that the parties may not reach agreement on the final settlement documents or that the Federal District Court may not approve the settlement in whole or part.

RISK FACTORS

You should carefully consider the following risk factors and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus before you decide to buy our common stock.

Before you decide whether to purchase any of our common stock offered by this prospectus supplement and the accompanying prospectus, in addition to the other information included and incorporated by reference in this prospectus supplement and the accompanying prospectus, you should carefully consider the following risk factor and the risk factors set forth under the heading "Factors that May Affect Future Operating Results" in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent Annual Report on Form 10-K, as amended, and Quarterly Report on Form 10-Q, which are incorporated by reference into this prospectus supplement and the accompanying prospectus, as the same may be updated from time to time by our future filings under the Securities Exchange Act of 1934, as amended. For more information, see the section entitled "Incorporation by Reference" in this prospectus supplement.

Additional Risks Related to this Offering

Our former independent public accountant, Arthur Andersen LLP, has been found guilty of federal obstruction of justice charges and you are unlikely to be able to exercise effective remedies against them in any legal action.

Although we have dismissed Arthur Andersen as our independent public accountants and engaged KPMG LLP, our consolidated financial statements as of and for the one-month transition period ended January 31, 2001 and the fiscal year ended December 31, 2000 have only been audited by Arthur Andersen. On March 14, 2002, Arthur Andersen was indicted on federal obstruction of justice charges arising from the government's investigation of Enron Corporation. On June 15, 2002, a jury in Houston, Texas found Arthur Andersen guilty of these federal obstruction of justice charges. On October 16, 2002, Arthur Andersen was sentenced to five years probation and fined \$500,000 as a result. In light of the jury verdict and the underlying events, Arthur Andersen informed the Securities and Exchange Commission that it would cease practicing before the Securities and Exchange Commission by August 31, 2002, unless the Securities and Exchange Commission determined another date was appropriate. A spokesperson for Arthur Andersen announced that, as of August 31, 2002, Arthur Andersen voluntarily relinquished, or consented to revocation of, its firm permits in all states where it was licensed to practice public accountancy with state regulators. A substantial number of Arthur Andersen's personnel have left the firm, including the individuals responsible for auditing our audited financial statements incorporated by reference in this prospectus. Accordingly, you are unlikely to be able to exercise effective remedies or collect judgments against them.

In addition, Arthur Andersen has not consented to the incorporation by reference of their audit report in this prospectus supplement or the accompanying prospectus, and we have dispensed with the requirement to file their consent in reliance on Rule 437a under the Securities Act of 1933, as amended. Because Arthur Andersen has not consented to the incorporation by reference of their audit report in this prospectus supplement or the accompanying prospectus, you may not be able to recover against Arthur Andersen under Section 11(a) of the Securities Act for any untrue statement of a material fact contained in the financial statements audited by Arthur Andersen or any omissions to state a material fact required to be stated in those financial statements.

Table of Contents

Moreover, as a public company, we are required to file with the Securities and Exchange Commission periodic financial statements audited or reviewed by an independent public accountant. The Securities and Exchange Commission has said that it will continue accepting financial statements audited by Arthur Andersen on an interim basis so long as a reasonable effort is made to have Arthur Andersen reissue its audit reports and to obtain a manually signed audit report from Arthur Andersen. Arthur Andersen has informed us that it is no longer able to reissue its audit reports because both the partner and the audit manager who were assigned to our account have left the firm. In addition, Arthur Andersen is unable to perform procedures to assure the continued accuracy of its audit report on our audited financial statements incorporated by reference in this prospectus supplement and the accompanying prospectus. Arthur Andersen will also be unable to perform such procedures or to provide other information or documents that would customarily be received by us or underwriters in connection with financings or other transactions, including consents and comfort letters.

As a result, we may encounter delays, additional expense and other difficulties in future financings. Any resulting delay in accessing or inability to access the public capital markets could have a material adverse effect on us.

FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus include or incorporate by reference forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act. These forward-looking statements include, without limitation, statements regarding our anticipated financial results, revenues, subscribers, use of funds and business plan. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, plans, anticipates, believes, estimates, predicts, potential, or continue or the negative of those terms and other comparable terminology. You can also identify forward-looking statements by discussions of strategy, plans or intentions. Such forward-looking statements have known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any results, performance or achievements expressed or implied by such forward-looking statements.

These statements reflect only management's current expectations. Important factors that could cause actual results to differ materially from the forward-looking statements we make or incorporate by reference in this prospectus supplement and the accompanying prospectus are set forth under the heading "Risk Factors" in this prospectus supplement and the accompanying prospectus, and under the heading "Factors that May Affect Future Operating Results" in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent Annual Report on Form 10-K, as amended, and Quarterly Report on Form 10-Q, as the same may be updated from time to time by our future filings under the Securities Exchange Act, and elsewhere in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. If one or more of these risks or uncertainties materialize, or if any underlying assumptions prove incorrect, our actual results, performance or achievements may vary materially from any future results, performance or achievements expressed or implied by these forward-looking statements.

USE OF PROCEEDS

Our net proceeds from the sale of the shares of common stock offered by this prospectus supplement are estimated to be approximately \$26,122,500, after deducting our estimated offering expenses of approximately \$500,000 and underwriting discounts and commissions of \$690,000.

We intend to use the net proceeds from the sale of our common stock primarily to create additional cash reserves and supplement working capital. We may from time to time also use a portion of the proceeds for funding research and development, sales and marketing, reducing indebtedness, and capital expenditures. However, we do not currently intend to use the proceeds to increase expenses or capital expenditures. Pending the application of the net proceeds, we expect to invest the net proceeds primarily in U.S. government securities and money market funds, as well as in investment-grade, interest-bearing securities.

DESCRIPTION OF CAPITAL STOCK

The following description of some of the material terms of our capital stock is qualified by reference to our certificate of incorporation, the certificate of designations of our series B junior participating preferred stock, the rights agreement governing our stockholder rights plan and the warrants described below and supersedes the description contained and incorporated by reference in the accompanying prospectus.

General

Our authorized capital stock consists of 150,000,000 shares of common stock, par value \$0.001 per share, and 10,000,000 shares of preferred stock, par value \$0.001 per share, of which 5,000,000 shares have been designated series A convertible preferred stock and 1,500,000 shares have been designated series B junior participating preferred stock. As of the date of this prospectus supplement, there were 64,932,914 shares of common stock outstanding, and no shares of series A convertible preferred stock or series B junior participating preferred stock outstanding.

Description of Common Stock

The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Stockholders are not entitled to cumulative voting rights, and, accordingly, the holders of a majority of the shares voting for the election of directors can elect our entire board of directors if they choose to do so and, in that event, the holders of the remaining shares will not be able to elect any person to our board of directors.

Subject to preferences that may be applicable to any outstanding shares of preferred stock, the holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our board of directors, in its discretion, from funds legally available therefor. Bank credit agreements that we may enter into from time to time and debt securities that we may issue from time to time may restrict our ability to declare or pay dividends on our common stock. We expect to continue our current policy of paying no cash dividends to holders of our common stock for the foreseeable future. In the event of a liquidation, dissolution or winding up, subject to prior liquidation rights of the holders of preferred stock, the holders of common stock are entitled to receive, on a pro rata basis, our remaining assets available for distribution. Holders of common stock have no preemptive or other subscription rights, and there are no conversion rights or redemption or sinking fund provisions with respect to such shares. All outstanding shares of common stock are, and all shares being offered by this prospectus supplement will be, fully paid and not liable to further calls or assessment by us.

Pursuant to our rights agreement governing our stockholder rights plan, each share of TiVo common stock currently trades with a right to purchase, under certain circumstances, 1/100th of a share of our series B junior participating preferred stock. For a description of these rights, see [Certain Anti-Takeover, Limited Liability and Indemnification Provisions](#) Stockholder Rights Plan below.

Description of Preferred Stock

Edgar Filing: TIVO INC - Form 424B5

Under our certificate of incorporation, our board of directors is authorized without further stockholder action to provide for the issuance of our preferred stock, in one or more series, with such voting powers, full or limited, and with such designations, preferences and relative

participating, optional or other special rights, and qualifications, limitations or restrictions thereof, as shall be stated in the resolution or resolutions providing for the issue of a series of such stock adopted, at any time or from time to time, by our board of directors. As used herein, the term board of directors includes any duly authorized committee of our board of directors. The issuance of the preferred stock could adversely affect the voting power of holders of our common stock and the likelihood that such holders will receive dividend payments, if any, and payments upon liquidation and could have the effect of delaying, deferring or preventing a change in control.

Series A Convertible Preferred Stock

In September 2000, we issued 2,711,861 shares of our series A convertible preferred stock for \$30.00 per share to America Online Inc. in exchange for \$81.4 million in cash, before issuance costs of \$2.4 million. On April 30, 2003, we repurchased 1.6 million shares of the series A convertible preferred stock from AOL and on September 13, 2002, AOL converted the remaining 1,111,861 outstanding shares of series A convertible preferred stock into 1,111,861 shares of our common stock. As of the date of this prospectus supplement, there were no shares of series A convertible preferred stock outstanding.

Each share of series A convertible preferred stock was initially convertible into one share of common stock, subject to adjustment for stock splits, dividends, combinations, reclassifications or similar transactions, as provided in our certificate of incorporation. The series A convertible preferred stock was convertible upon the holder's option or was mandatorily convertible if the price of our common stock exceeded \$30.00 per share for 18 trading days in any 20 consecutive trading day period. Upon our liquidation, dissolution or winding up, the holders of the series A convertible preferred stock would have been entitled to receive, in preference to any holders of common stock or any other series of preferred stock, an amount per share in cash equal to the greater of:

the original purchase price of the series A convertible preferred stock of \$30.00 per share (as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to such shares) plus the amount of all accrued and unpaid dividends; or

an amount equal to the amount the holders of the series A convertible preferred stock would have received upon liquidation, dissolution or winding up had such holders converted their shares of series A convertible preferred stock.

Except as otherwise required by law, the series A convertible preferred stock was entitled to vote together with the shares of the common stock and not as a separate class, at any annual or special meeting of stockholders upon the following basis: each holder of shares of series A convertible preferred stock was entitled to such number of votes as was equal to the whole number of shares of common stock into which such holder's shares of series A convertible preferred stock were convertible immediately after the close of business on the record date fixed for such meeting. The vote of the holders of at least a majority of the outstanding shares of series A convertible preferred stock, voting separately as a class, was necessary to effect: amendments or alterations of our charter, if such amendments or alterations adversely affected the series A convertible preferred stock in a discriminatory manner; any adverse alteration or change in the voting powers, preferences, dividend rights, or other special rights or privileges, qualifications, limitations or restrictions of the series A convertible preferred stock; any increase or decrease in the number of authorized or issued shares of our series A convertible preferred stock; any authorization or creation of any new class or series of stock or any other securities convertible into our equity securities ranking on a parity with or senior to the series A convertible preferred stock; any redemption, repurchase, payment of dividends or other

Table of Contents

distributions with respect to common stock or other series of preferred stock, unless the series A convertible preferred stock was permitted to participate in the redemption; and certain asset transfers, acquisitions, mergers or consolidations or combinations with or into any other corporation.

Series B Junior Participating Preferred Stock

In connection with the adoption of our stockholder rights plan, our board has designated 1,500,000 shares of preferred stock as series B junior participating preferred stock. As of the date of this prospectus supplement, no shares of the series B junior participating preferred stock are outstanding. Each share of series B junior participating preferred stock purchasable upon exercise of the rights will be entitled, when, as and if declared, to a minimum preferential quarterly dividend payment of \$1.00 per share but will be entitled to an aggregate dividend of 100 times the dividend, if any, declared per share of common stock. In the event of our liquidation, dissolution or winding up, the holders of the series B junior participating preferred stock will be entitled to a minimum preferential liquidation payment of \$100.00 per share, plus any accrued but unpaid dividends, but will be entitled to an aggregate payment of 100 times the payment made per share of common stock. Each share of series B preferred stock will have 100 votes and will vote together with the common stock. Finally, in the event of any merger, consolidation or other transaction in which common stock is exchanged, each share of series B junior participating preferred stock will be entitled to receive 100 times the amount received per share of common stock. Shares of series B preferred stock will not be redeemable. These rights are protected by customary antidilution provisions. Because of the nature of the dividend, liquidation and voting rights of the series B preferred stock, the value of 1/100th of a share of series B preferred stock purchasable upon exercise of each right should approximate the value of one share of common stock.

Outstanding Warrants

As of the date of this prospectus supplement, the following warrants to purchase an aggregate of 5,800,209 shares of our common stock were outstanding:

Initial common stock warrant B to purchase 295,428 shares of our common stock at an exercise price of \$7.29 with an expiration date of December 31, 2003 issued on September 13, 2000 to America Online, Inc.;

Five year warrants to purchase 2,536,766 shares of our common stock at an exercise price of \$7.85 with an expiration date of August 23, 2006, issued on August 23, 2001 to the purchasers of our convertible senior notes;

Five year warrants to purchase 145,834 shares of our common stock at an exercise price of \$7.85 with an expiration date of August 23, 2006, issued on August 23, 2001 to investment bankers in conjunction with the sale and issuance of our convertible senior notes;

Ten year warrants to purchase an aggregate of 155,941 shares of our common stock at exercise prices ranging from \$4.57 to \$12.88, issued to DIRECTV from September 2000 through June 2001 and presently held by Hughes Electronics Corporation;

Three year warrants to purchase 1,323,120 shares of our common stock at an exercise price of \$5.00 with an expiration date of October 8, 2005, issued to certain institutional investors on October 8, 2002. Additionally, four year warrants to

Edgar Filing: TIVO INC - Form 424B5

purchase 1,323,120 shares of our common stock at an exercise price of \$5.00 with an expiration date of October 8, 2006 were issued to the same institutional investors on October 8, 2002; and

Certain Anti-Takeover, Limited Liability and Indemnification Provisions

Section 203 of the Delaware General Corporation Law

We are subject to the provisions of section 203 of the Delaware General Corporation Law, an anti-takeover law. In general, the statute prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. For purposes of section 203, a business combination includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder, and an interested stockholder is a person who, together with affiliates and employees, owns or, within three years prior, did own 15% or more of the corporation's voting stock.

Stockholder Action; Special Meetings of Stockholders

Our certificate of incorporation and bylaws require that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of the stockholders and may not be effected by a consent in writing. In addition, special meetings of our stockholders may be called only by a majority of the total number of authorized directors, the chairman of the board of directors, our chief executive officer or the holders of 50% of our common stock.

Our Board of Directors

Our certificate of incorporation and bylaws also provide that directors may be removed only for cause by a vote of a majority of the stockholders and that vacancies on the board of directors created either by resignation, death, disqualification, removal or by an increase in the size of the board of directors may be filled by a majority of the directors in office, although less than a quorum. Our certificate of incorporation and bylaws also provide for a classified board of directors and specify that the authorized number of directors may be changed only by resolution of the board of directors. These provisions may have the effect of deterring hostile takeovers or delaying changes in control or management.

Stockholder Rights Plan

Our board of directors has adopted a stockholder rights plan pursuant to a rights agreement dated as of January 16, 2001, between us and Wells Fargo Shareowner Services. One right currently trades with each share of our common stock. The stockholder rights plan provides for the distribution of one right on each share of common stock upon any person becoming an acquiring person as described below. Each right entitles the holder to buy 1/100th of a share of our series B junior participating preferred stock at an exercise price of \$60.00. Subject to limited exceptions, the rights will become exercisable following the tenth day after a person or group announces the acquisition of 15% or more (or 30.01% or more in the case of America Online, Inc. and its affiliates and associates until such time as AOL and its affiliates and associates cease to beneficially own any common shares) of our common stock, and thereby becomes an acquiring person, or announces commencement of a tender offer or exchange offer, the consummation of which would result in the ownership by the person or group of 15% or more of our common stock. The rights are not exercisable as of the date of this prospectus supplement. We will be entitled to redeem the rights at \$0.01 per right at any time prior to the time that a person or group becomes an acquiring person.

The operation of the stockholder rights plan could make it more difficult for us to be acquired by another company, even if our acquisition is in the best interests of our stockholders.

S-9

Table of Contents

The rights will cause substantial dilution to a person or group that acquires 15% or more (or 30.01% or more in the case of AOL and its affiliates and associates until such time as AOL and its affiliates and associates cease to beneficially own any common shares) of our stock on terms not approved by our board of directors.

The rights will expire in January 2011 unless earlier redeemed, exchanged or terminated. Wells Fargo Shareowner Services is the rights agent.

Transfer Agent and Registrar

Wells Fargo Shareowner Services is the transfer agent and registrar for our common stock.

Table of Contents**UNDERWRITING**

We have entered into an underwriting agreement with Deutsche Bank Securities Inc. with respect to the shares being offered by this prospectus supplement. Subject to certain conditions, we have agreed to sell to Deutsche Bank Securities Inc., and Deutsche Bank Securities Inc. has agreed to purchase from us, the 2,875,000 shares of common stock offered hereby.

The underwriting agreement provides that the obligation of the underwriter to purchase the shares offered hereby is subject to certain conditions and that the underwriter is obligated to purchase all of the shares of common stock offered hereby if any of the shares are purchased.

The underwriter proposes to offer the shares of common stock at the public offering price on the cover page of this prospectus supplement. In connection with the sale of the shares of common stock offered hereby, the underwriter will be deemed to have received compensation in the form of underwriting discounts.

We will bear the expenses of the offering which are estimated to be \$500,000.

The following table summarizes the underwriting discounts and commissions and estimated expenses we will pay:

	Per Share	Total
Underwriting discounts and commissions	\$ 0.24	\$ 690,000
Expenses	\$ 0.17	\$ 500,000

We have agreed to indemnify the underwriter against liabilities under the Securities Act or to contribute to payments the underwriter may be required to make in that respect.

We have agreed not to, without the prior written consent of Deutsche Bank Securities Inc., directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or other capital stock or any securities convertible into or exercisable or exchangeable for our common stock or other capital stock or enter into any swap or other agreement or transaction that transfers, in whole or in part, directly or indirectly, the economic consequences of ownership of any of our common stock or other capital stock, whether any such swap or transaction described above is to be settled by delivery of our common stock or other capital stock or other securities, in cash or otherwise, for a period of 45 days after the date of this prospectus supplement. The foregoing will not prohibit us from issuing shares of common stock upon the exercise of any option or warrant or the conversion of a security outstanding on the date of this prospectus supplement or from issuing shares of common stock or options to purchase common stock granted pursuant to employee benefit plans existing on the date of this prospectus supplement.

Edgar Filing: TIVO INC - Form 424B5

Deutsche Bank Securities Inc. has advised us that it may make short sales of our common stock in connection with this offering. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in the offer. The underwriter must close out any such short position by purchasing shares in the open market. A short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the offering.

Deutsche Bank Securities Inc. has advised us that, pursuant to Regulation M under the Securities Act, it may engage in transactions, including stabilizing bids, that may have the effect

S-11

of stabilizing or maintaining the market price of the shares of our common stock at a level above that which might otherwise prevail in the open market. A stabilizing bid is a bid for or the purchase of shares of common stock on behalf of Deutsche Bank Securities Inc. for the purpose of fixing or maintaining the price of common stock. Purchases to cover short positions and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. Deutsche Bank Securities Inc. has advised us that stabilizing bids and open market purchases may be effected on the Nasdaq National Market or otherwise and, if commenced, may be discontinued at any time.

RISK FACTORS

Before you decide whether to purchase any of our securities, in addition to the other information in this prospectus, you should carefully consider the risk factors set forth under the heading "Factors that May Affect Future Operating Results" in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent Transition Report on Form 10-K, Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are incorporated by reference into this prospectus, as the same may be updated from time to time by our future filings under the Securities Exchange Act. For more information, see the section entitled "Incorporation by Reference."

If shares of common stock are purchased in a transaction under the February 2002 purchase agreement described below under the heading "Plan of Distribution December 2001 and February 2002 Common Stock Purchase Agreements," existing common stockholders will experience immediate dilution and, as a result, our stock price may go down.

We have entered into a common stock purchase agreement with Acqua Wellington North American Equities Fund, Ltd. pursuant to which Acqua Wellington may purchase shares of our common stock at a discount between 3.0% and 5.4%, unless otherwise agreed to by us and Acqua Wellington, to be determined as described in "Plan of Distribution." As a result, our existing common stockholders will experience immediate dilution upon the purchase of any shares of our common stock by Acqua Wellington. The purchase agreement with Acqua Wellington provides that, at our request, Acqua Wellington will purchase a certain dollar amount of shares, with the exact number of shares to be determined based on the daily volume weighted average price of our common stock over the draw down period for such purchase. As a result, if the per share market price of our common stock declines over the draw down period, Acqua Wellington will receive a greater number of shares for its purchase price, thereby resulting in further dilution to our stockholders and potential downward pressure on the price of our stock.

The TiVo Service provides viewers with the ability to pause, rewind and play back live or recorded television broadcasts, as well as to search for, watch and record programs. All other service marks and all brand names or trademarks appearing in this prospectus are the property of their respective holders.

LIQUIDITY AND CAPITAL RESOURCES

We continually evaluate our business model and strategy, as well as our capital requirements necessary to fund our operations. We may need to raise additional capital in order to fund future opportunities. We currently anticipate that we will seek to raise additional capital through equity or debt financings in the near term. However, we cannot assure you that we will be able to raise this additional capital.

USE OF PROCEEDS

Except as otherwise provided in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities for general corporate purposes, which may include funding research, development, sales and marketing, increasing our working capital, reducing indebtedness, and capital expenditures. Pending the application of the net proceeds, we expect to invest the proceeds in investment-grade, interest-bearing securities.

This prospectus describes certain general terms and provisions of the debt securities we may offer pursuant to this prospectus. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. The following description of debt securities will apply to the debt securities offered by this prospectus unless we provide otherwise in the applicable prospectus supplement and in a supplement to the indenture, a board resolution, or an officers' certificate delivered pursuant to the indenture. The applicable prospectus supplement for a particular series of debt securities may specify different or additional terms.

The debt securities offered hereby will be issued under an indenture between us and a trustee, as trustee. We have filed a copy of the form indenture as an exhibit to the registration statement and you should read the indenture for provisions that may be important to you. We have summarized select portions of the indenture below. The summary is not complete. (Section 2.2)

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon declaration of acceleration of their maturity pursuant to the terms of the indenture. We will provide you with information on the federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal of and any premium and interest on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will provide you with information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of debt securities and such foreign currency or currencies or foreign currency unit or units in the applicable prospectus supplement.

Payment of Interest and Exchange

Each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, as Depository, or a nominee of the Depository (we will refer to any debt security represented by a global debt security as a book-entry debt security), or a certificate issued in definitive registered form (we will refer to any debt security represented by a certificated security as a certificated debt security), as described in the applicable prospectus supplement. Except as described under "Global Debt Securities and Book-Entry System" below, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at the trustee's office or paying agencies in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may transfer certificated debt securities and the right to receive the principal of, premium and interest on certificated debt securities only by surrendering the old certificate representing those certificated debt securities and either we or the trustee will reissue the old certificate to the new holder or we or the trustee will issue a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the Depository, and registered in the name of the Depository or a nominee of the Depository.

The Depository has indicated it intends to follow the following procedures with respect to book-entry debt securities.

Edgar Filing: TIVO INC - Form 424B5

Ownership of beneficial interests in book-entry debt securities will be limited to persons that have accounts with the Depository for the related global debt security (we shall refer to these persons as participants) or persons that may hold interests through participants. Upon the issuance of a global debt security, the Depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the book-entry debt securities represented by the global debt security beneficially owned by such participants. The accounts to be credited will be designated by any dealers, underwriters or agents participating in the distribution of the book-entry debt securities. Ownership of book-entry debt securities will be shown on, and the transfer of the ownership interests will be effected only through, records maintained by the Depository for the related global debt security (with respect to interests of participants) and on the records of participants (with

Table of Contents

respect to interests of persons holding through participants). The laws of some states may require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to own, transfer or pledge beneficial interests in book-entry debt securities.

So long as the Depositary for a global debt security, or its nominee, is the registered owner of that global debt security, the Depositary or its nominee, as the case may be, will be considered the sole owner or holder of the book-entry debt securities represented by such global debt security for all purposes under the indenture. Except as described herein, beneficial owners of book-entry debt securities will not be entitled to have securities registered in their names, will not receive or be entitled to receive physical delivery of a certificate in definitive form representing securities and will not be considered the owners or holders of those securities under the indenture. Accordingly, to exercise any rights of a holder under the indenture, each person beneficially owning book-entry debt securities must rely on the procedures of the Depositary for the related global debt security and, if that person is not a participant, on the procedures of the participant through which that person owns its interest.

We understand, however, that under existing industry practice, the Depositary will authorize the persons on whose behalf it holds a global debt security to exercise certain rights of holders of debt securities, and the indenture provides that we, the trustee and our respective agents will treat as the holder of a debt security the persons specified in a written statement of the Depositary with respect to that global debt security for purposes of obtaining any consents or directions required to be given by holders of the debt securities pursuant to the indenture. (Section 2.14.6)

We will make payments of principal of, and premium and interest on book-entry debt securities to the Depositary or its nominee, as the case may be, as the registered holder of the related global debt security. (Section 2.14.5) We, the trustee and any other agent of ours or agent of the trustee will not have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global debt security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the Depositary, upon receipt of any payment of principal of, premium or interest on a global debt security, will immediately credit participants' accounts with payments in amounts proportionate to the respective amounts of book-entry debt securities held by each participant as shown on the records of the Depositary. We also expect that payments by participants to owners of beneficial interests in book-entry debt securities held through those participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of those participants.

We will issue certificated debt securities in exchange for each global debt security if the Depositary is at any time unwilling or unable to continue as Depositary or ceases to be a clearing agency registered under the Securities Exchange Act, and a successor Depositary registered as a clearing agency under the Securities Exchange Act is not appointed by us within 90 days. In addition, we may at any time and in our sole discretion determine not to have any of the book-entry debt securities of any series represented by one or more global debt securities and, in that event, we will issue certificated debt securities in exchange for the global debt securities of that series. Global debt securities will also be exchangeable by the holders for certificated debt securities if an event of default with respect to the book-entry debt securities represented by those global debt securities has occurred and is continuing. Any certificated debt securities issued in exchange for a global debt security will be registered in such name or names as the Depositary shall instruct the trustee. We expect that such instructions will be based upon directions received by the Depositary from participants with respect to ownership of book-entry debt securities relating to such global debt security.

We have obtained the foregoing information in this section concerning the Depositary and the Depositary's book-entry system from sources we believe to be reliable, but we take no responsibility for the accuracy of this information.

Table of Contents

No Protection in the Event of a Change of Control

the successor person is a corporation, partnership, trust or other entity organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture;

immediately after giving effect to the transaction, no event of default, and no event which, after notice or lapse of time, or both, would become an event of default, shall have occurred and be continuing under the indenture; and

default in the payment of principal of or premium on any debt security of that series when due and payable;

default in the deposit of any sinking fund payment, when and as due in respect of any debt security of that series;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or we and the trustee receive written notice from the holders of at least 51% in principal amount of the outstanding debt securities of that series as provided in the indenture;

certain events of our bankruptcy, insolvency or reorganization; and

any other event of default provided with respect to debt securities of that series that is described in the applicable prospectus supplement accompanying this prospectus.

Table of Contents

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. (Section 6.1) An event of default may also be an event of default under our bank credit agreements or other debt securities in existence from time to time and under certain guaranties by us of any subsidiary indebtedness. In addition, certain Events of Default or an acceleration under the indenture may also be an event of default under some of our other indebtedness outstanding from time to time.

Unless we provide otherwise in the applicable prospectus supplement, if an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing (other than certain events of our bankruptcy, insolvency or reorganization), then the trustee or the holders of not less than 51% in principal amount of the outstanding debt securities of that series may, by written notice to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and premium of all debt securities of that series. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) and premium of all outstanding debt securities will become and be immediately due and payable without any declaration or other act by the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before the trustee has obtained a judgment or decree for payment of the money due, the holders of a majority in principal amount of the outstanding debt securities of that series may, subject to our having paid or deposited with the trustee a sum sufficient to pay overdue interest and principal which has become due other than by acceleration and certain other conditions, rescind and annul such acceleration if all Events of Default, other than the non-payment of accelerated principal and premium with respect to debt securities of that series, have been cured or waived as provided in the indenture. (Section 6.2) For information as to waiver of defaults see the discussion under Modification and Waiver below. We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of the discount securities upon the occurrence of an event of default and the continuation of an event of default.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of outstanding debt securities, unless the trustee receives indemnity satisfactory to it against any loss, liability or expense. (Section 7.1(e)) Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series. (Section 6.12)

Unless we provide otherwise in the applicable prospectus supplement, no holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series; and

the holders of at least 51% in principal amount of the outstanding debt securities of that series have made written request, and offered reasonable indemnity, to the trustee to institute such proceeding as trustee, and the trustee shall not have received from the holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days. (Section 6.7)

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment. (Section 6.8)

Table of Contents

The indenture requires us, within 90 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. (Section 4.3) The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any default or event of default (except in payment on any debt securities of that series) with respect to debt securities of that series if it in good faith determines that withholding notice is in the interest of the holders of those debt securities. (Section 7.5)

Modification and Waiver

Unless we provide otherwise in the applicable prospectus supplement, we and the trustee may modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We and the trustee may not make any modification or amendment without the consent of the holder of each affected debt security then outstanding if that amendment will:

change the amount of debt securities whose holders must consent to an amendment or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;

reduce the principal of or premium on or change the fixed maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default in the payment of the principal of, premium or interest on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from that acceleration);

make the principal of or premium or interest on any debt security payable in currency other than that stated in the debt security; make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, premium and interest on those debt securities, the right of the holders to institute suit for the enforcement of the payment, the right of holders to waive past defaults or amendments to the limitations described in this bullet point; or

waive a redemption payment with respect to any debt security or change any of the provisions with respect to the redemption of any debt securities. (Section 9.3)

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all debt securities of that series, waive our compliance with provisions of the indenture. (Section 9.2) The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all the debt securities of that series, waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, premium or any interest on any debt security of that series; *provided, however*, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration. (Section 6.13)

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless the terms of the applicable series of debt securities provide otherwise, we may be discharged from any and all obligations in respect of the debt securities of any series (except for certain obligations to register the transfer or exchange of debt securities of the series, to replace stolen, lost or mutilated debt securities of the series, and to maintain paying agencies and certain provisions

Table of Contents

relating to the treatment of funds held by paying agents). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations (as described at the end of this section), that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of such payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an officers' certificate and an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that holders of the debt securities of such series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amount and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred. (Section 8.3)

Defeasance of Certain Covenants. The indenture provides that, unless the terms of the applicable series of debt securities provide otherwise, upon compliance with certain conditions, we may omit to comply with the restrictive covenants contained in Sections 4.2 (SEC Reports), 4.3 through 4.6 (Compliance Certificate; Stay, Extension and Usury Laws; Corporate Existence; Taxes) and Section 5.1 (When We May Merge, Etc.) of the indenture, as well as any additional covenants contained in a supplement to the indenture, a board resolution or an officers' certificate delivered pursuant to the indenture.

The conditions include:

depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay principal, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and

delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax in the same amount and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred. (Section 8.4)

Covenant Defeasance and Events of Default. In the event we exercise our option not to comply with certain covenants of the indenture with respect to any series of debt securities and the debt securities of that series are declared due and payable because of the occurrence of any event of default, the amount of money and/or U.S. government obligations or foreign government obligations on deposit with the trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from the event of default. However, we will remain liable for those payments.

Table of Contents

Foreign government obligations means, with respect to debt securities of any series that are denominated in a currency other than U.S. dollars:

direct obligations of the government that issued or caused to be issued such currency for the payment of which obligations its full faith and credit is pledged, which are not callable or redeemable at the option of the issuer thereof; or

obligations of a person controlled or supervised by or acting as an agency or instrumentality of that government the timely payment of which is unconditionally guaranteed as a full faith and credit obligation by that government, which are not callable or redeemable at the option of the issuer thereof.

Conversion and Exchange Rights

The debt securities may be exchanged for or converted into shares of common stock, shares of preferred stock or other securities. The terms, if any, on which the debt securities may be exchanged for or converted will be set forth in the applicable prospectus supplement. Such terms may include provisions for conversion, either mandatory, at the option of the holder or at our option, in which case the number of shares of common stock, preferred stock or other securities to be received by the holders of the debt securities would be calculated as of a time and in the manner stated in the prospectus supplement.

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York. (Section 10.10)

DESCRIPTION OF PREFERRED STOCK

The following description of the terms of the preferred stock sets forth certain general terms and provisions of the preferred stock to which any prospectus supplement may relate and will apply to the preferred stock offered by this prospectus unless we provide otherwise in the applicable prospectus supplement. The applicable prospectus supplement for a particular series of preferred stock may specify different or additional terms. The description of certain provisions of the preferred stock set forth below and in any prospectus supplement does not purport to be complete and is subject to and qualified in its entirety by reference to our certificate of incorporation and the certificate of designations relating to each series of the preferred stock, which will be filed with the Securities and Exchange Commission and incorporated by reference in the registration statement of which this prospectus is a part at or prior to the time of the issuance of such series of the preferred stock.

General

We have authority to issue 10,000,000 shares of preferred stock, 5,000,000 shares of which are designated Series A Convertible Preferred Stock and 1,500,000 shares of which are designated Series B Junior Participating Preferred Stock and reserved for issuance pursuant to our Rights Agreement dated as of January 16, 2001 between Wells Fargo Shareowner Services, as Rights Agent, and us. As of the date of this prospectus, 2,711,861 shares of our Series A Convertible Preferred Stock and none of our Series B Junior Participating Preferred Stock were issued and outstanding.

Under our certificate of incorporation, our board of directors is authorized without further stockholder action to provide for the issuance of up to the remaining authorized but unissued shares of our preferred stock, in one or more series, with such voting powers, full or limited, and with such designations, preferences and relative participating, optional or other special rights, and qualifications, limitations or restrictions thereof, as shall be stated in the resolution or resolutions providing for the issue of a series of such stock adopted, at any time or from time to time, by our board of directors. As used herein, the term "board of directors" includes any duly authorized committee thereof. The issuance of the preferred stock could adversely affect the voting power of holders of our common stock and the likelihood that such holders will receive dividend payments and payments upon liquidation and could have the effect of delaying, deferring or preventing a change in control.

The preferred stock shall have the dividend, liquidation, redemption and voting rights set forth below unless we provide otherwise in a prospectus supplement relating to a particular series of the preferred stock. Reference is made to the prospectus supplement relating to the particular series of the preferred stock offered thereby for specific terms, including:

the designation and stated value per share of such preferred stock and the number of shares offered;

the amount of liquidation preference per share;

the initial public offering price at which such preferred stock will be issued;

the dividend rate (or method of calculation), the dates on which dividends shall be payable and the dates from which dividends shall commence to cumulate, if any;

any redemption or sinking fund provisions;

any conversion or exchange rights; and

any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions.

The preferred stock will, when issued, be fully paid and nonassessable and will have no preemptive rights. The rights of the holders of each series of the preferred stock will be subordinate to those of our general creditors.

Table of Contents

Dividend Rights

Holders of the preferred stock of each series will be entitled to receive, when, as and if declared by our board of directors, out of our funds legally available therefor, cash dividends on such dates and at such rates as set forth in, or as are determined by the method described in, the prospectus supplement relating to such series of the preferred stock. Such rate may be fixed or variable or both. Each such dividend will be payable to the holders of record as they appear on our stock books on such record dates, fixed by our board of directors, as specified in the prospectus supplement relating to such series of preferred stock.

Such dividends may be cumulative or noncumulative, as provided in the prospectus supplement relating to such series of preferred stock. If our board of directors fails to declare a dividend payable on a dividend payment date on any series of preferred stock for which dividends are noncumulative, then the right to receive a dividend in respect of the dividend period ending on such dividend payment date will be lost, and we will have no obligation to pay any dividend for such period, whether or not dividends on such series are declared payable on any future dividend payment dates. Dividends on the shares of each series of preferred stock for which dividends are cumulative will accrue from the date on which we initially issue shares of such series.

Bank credit agreements that we may enter into from time to time and debt securities that we may issue from time to time may restrict our ability to declare or pay dividends on our capital stock.

Unless otherwise specified in the applicable prospectus supplement, so long as the shares of any series of the preferred stock are outstanding, unless:

full dividends (including if such preferred stock is cumulative, dividends for prior dividend periods) have been declared and paid in full or declared and consideration sufficient for payment set apart for payment on all outstanding shares of the preferred stock of such series and all other classes and series of our preferred stock, other than junior stock, as defined below, and

we are not in default or in arrears with respect to the mandatory or optional redemption or mandatory repurchase or other mandatory retirement of, or with respect to any sinking or other analogous funds for, any shares of preferred stock of such series or any shares of any of our other preferred stock of any class or series, other than junior stock, as defined below,

we may not declare any dividends on any shares of our common stock or any of our other stock ranking as to dividends or distributions of assets junior to such series of preferred stock (we refer to this common stock and any such other stock as junior stock), or make any payment on account of, or set apart money for, the purchase, redemption or other retirement of, or for a sinking or other analogous fund for, any shares of junior stock or make any distribution in respect of any shares of junior stock, whether in cash or property or in obligations of our stock, other than in junior stock which is neither convertible into, nor exchangeable or exercisable for, any of our securities other than junior stock.

Liquidation Preferences

Unless otherwise specified in the applicable prospectus supplement, in the event of our liquidation, dissolution or winding up, whether voluntary or involuntary, the holders of each series of the preferred stock will be entitled to receive out of our assets available for distribution to stockholders, before any distribution of assets is made to the holders of common stock or any other shares of our stock ranking junior as to such

Edgar Filing: TIVO INC - Form 424B5

distribution to such series of the preferred stock, but after any required distributions to holders of any shares of our stock ranking senior as to such distribution to such series of preferred stock, the amount set forth in the prospectus supplement relating to such series of the preferred stock. If, upon our voluntary or involuntary liquidation, dissolution or winding up and after required distribution of our assets to holders of any shares of our stock ranking senior as to such distribution to the preferred stock of a particular series, the amounts payable with respect to the preferred stock of such series and any other shares of our preferred stock, including any other series of the preferred stock, ranking as to any such distribution on a parity with such series of the preferred stock are

Table of Contents

not paid in full, the holders of the preferred stock of such series and of such other shares of our preferred stock will share ratably in any such distribution of our assets in proportion to the full respective preferential amounts to which they are entitled. After payment to the holders of the preferred stock of each series of the full preferential amounts of the liquidating distribution to which they are entitled, unless we provide otherwise in the applicable prospectus supplement, the holders of each such series of the preferred stock will be entitled to no further participation in any distribution of our assets.

Redemption

A series of the preferred stock may be redeemable, in whole or from time to time in part, at our option, and may be subject to mandatory redemption pursuant to a sinking fund or otherwise, in each case upon terms, at the times and at the redemption prices set forth in the prospectus supplement relating to such series. Shares of the preferred stock redeemed by us will be restored to the status of authorized but unissued shares of our preferred stock.

In the event that fewer than all of the outstanding shares of a series of the preferred stock are to be redeemed, whether by mandatory or optional redemption, the number of shares to be redeemed will be determined by lot or pro rata, subject to rounding to avoid fractional shares, as may be determined by us or by any other method as may be determined by us in our sole discretion to be equitable. From and after the redemption date, unless default is made by us in providing for the payment of the redemption price plus accumulated and unpaid dividends, if any, dividends will cease to accumulate on the shares of the preferred stock called for redemption and all rights of the holders thereof, except the right to receive the redemption price plus accumulated and unpaid dividends, if any, will cease.

Unless otherwise specified in the applicable prospectus supplement, so long as any dividends on shares of any series of the preferred stock or any other series of our preferred stock ranking on a parity as to dividends and distribution of assets with such series of the preferred stock are in arrears, no shares of any such series of the preferred stock or such other series of our preferred stock will be redeemed, whether by mandatory or optional redemption, unless all such shares are simultaneously redeemed, and we will not purchase or otherwise acquire any such shares; *provided, however*, that the foregoing will not prevent the purchase or acquisition of such shares pursuant to a purchase or exchange offer made on the same terms to holders of all such shares outstanding.

Conversion and Exchange Rights

The terms, if any, on which shares of the preferred stock of any series may be exchanged for or converted into shares of common stock, another series of the preferred stock or any other security will be set forth in the applicable prospectus supplement. Such terms may include provisions for conversion, either mandatory, at the option of the holder or at our option, in which case the number of shares of common stock, the shares of another series of the preferred stock or the amount of any other securities to be received by the holders of the preferred stock would be calculated as of a time and in the manner stated in the prospectus supplement.

Voting Rights

Except as indicated in a prospectus supplement relating to a particular series of the preferred stock, or except as required by applicable law, the holders of the preferred stock will not be entitled to vote for any purpose.

Table of Contents

DESCRIPTION OF COMMON STOCK

We have authority to issue 150,000,000 shares of common stock. As of January 31, 2002, 47,411,355 shares of our common stock were outstanding.

The holders of common stock are entitled to one vote per share on all matters to be voted on by stockholders, including the election of directors. Stockholders are not entitled to cumulative voting rights, and, accordingly, the holders of a majority of the shares voting for the election of directors can elect our entire board of directors if they choose to do so and, in that event, the holders of the remaining shares will not be able to elect any person to our board of directors.

The holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our board of directors, in its discretion, from funds legally available therefor and subject to prior dividend rights of holders of any shares of preferred stock which may be outstanding. Bank credit agreements that we may enter into from time to time and debt securities that we may issue from time to time may restrict our ability to declare or pay dividends on our common stock. Upon our liquidation, dissolution or winding up, subject to prior liquidation rights of the holders of preferred stock, the holders of common stock are entitled to receive on a pro rata basis our remaining assets available for distribution. Holders of common stock have no preemptive or other subscription rights, and there are no conversion rights or redemption or sinking fund provisions with respect to such shares. All outstanding shares of common stock are, and all shares being offered by this prospectus will be, fully paid and not liable to further calls or assessment by us.

DESCRIPTION OF WARRANTS

We may issue debt warrants to purchase debt securities, as well as equity warrants to purchase preferred stock or common stock. The warrants may be issued independently or together with any securities and may be attached to or separate from the securities. If the warrants are issued pursuant to warrant agreements, we will so specify in the prospectus supplement relating to the warrants being offered pursuant to the prospectus supplement. The following description of warrants will apply to the warrants offered by this prospectus unless we provide otherwise in the applicable prospectus supplement. The applicable prospectus supplement for a particular series of warrants may specify different or additional terms.

Debt Warrants

The applicable prospectus supplement will describe the terms of debt warrants offered, the warrant agreement relating to the debt warrants and the debt warrant certificates representing the debt warrants, including the following:

the title of the debt warrants;

the aggregate number of the debt warrants;

Edgar Filing: TIVO INC - Form 424B5

the price or prices at which the debt warrants will be issued;

the designation, aggregate principal amount and terms of the debt securities purchasable upon exercise of the debt warrants, and the procedures and conditions relating to the exercise of the debt warrants;

the designation and terms of any related debt securities with which the debt warrants are issued, and the number of the debt warrants issued with each debt security;

the principal amount of debt securities purchasable upon exercise of each debt warrant;

the date on which the right to exercise the debt warrants will commence, and the date on which this right will expire;

Table of Contents

the maximum or minimum number of debt warrants which may be exercised at any time;

a discussion of any material federal income tax considerations; and

any other terms of the debt warrants and terms, procedures and limitations relating to the exercise of debt warrants.

Debt warrant certificates will be exchangeable for new debt warrant certificates of different denominations, and debt warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement. Prior to the exercise of their debt warrants, holders of debt warrants will not have any of the rights of holders of the debt securities purchasable upon exercise and will not be entitled to payment of principal of or any premium, if any, or interest on the debt securities purchasable upon exercise.

Equity Warrants

The applicable prospectus supplement will describe the following terms of equity warrants offered:

the title of the equity warrants;

the securities (i.e., preferred stock or common stock) for which the equity warrants are exercisable;

the price or prices at which the equity warrants will be issued;

if applicable, the designation and terms of the preferred stock or common stock with which the equity warrants are issued, and the number of equity warrants issued with each share of preferred stock or common stock; and

any other terms of the equity warrants, including terms, procedures and limitations relating to the exchange and exercise of equity warrants.

Holders of equity warrants will not be entitled, by virtue of being such holders, to vote, consent, receive dividends, receive notice as stockholders with respect to any meeting of stockholders for the election of our directors or any other matter, or to exercise any rights whatsoever as our stockholders.

The exercise price payable and the number of shares of common stock or preferred stock purchasable upon the exercise of each equity warrant will be subject to adjustment in certain events, including the issuance of a stock dividend to holders of common stock or preferred stock or a stock split, reverse stock split, combination, subdivision or reclassification of common stock or preferred stock. In lieu of adjusting the number of shares of common stock or preferred stock purchasable upon exercise of each equity warrant, we may elect to adjust the number of equity warrants. No adjustments in the number of shares purchasable upon exercise of the equity warrants will be required until cumulative adjustments require an adjustment of at least 1% thereof. We may, at our option, reduce the exercise price at any time. No fractional shares will be issued upon exercise of equity warrants, but we will pay the cash value of any fractional shares otherwise issuable. Notwithstanding the foregoing, in case of any consolidation, merger, or sale or conveyance of our property as an entirety or substantially as an entirety, the holder of each outstanding equity warrant shall have the right to the kind and amount of shares of stock and other securities and property, including cash,

receivable by a holder of the number of shares of common stock or preferred stock into which the equity warrant was exercisable immediately prior to the transaction.

Exercise of Warrants

Each warrant will entitle the holder to purchase for cash such principal amount of securities or shares of stock at such exercise price as shall in each case be set forth in, or be determinable as set forth in, the prospectus supplement relating to the warrants offered thereby. Warrants may be exercised at any time up to the close of business on the expiration date set forth in the prospectus supplement relating to the warrants offered thereby. After the close of business on the expiration date, unexercised warrants will become void.

Table of Contents

The warrants may be exercised as set forth in the prospectus supplement relating to the warrants offered. Upon receipt of payment and the taking of other action specified in the applicable prospectus supplement, we will, as soon as practicable, forward the securities purchasable upon exercise. If less than all of the warrants represented by such warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

PLAN OF DISTRIBUTION

General

We may sell the securities from time to time pursuant to underwritten public offerings, negotiated transactions, block trades or a combination of these methods. The securities also may be sold pursuant to the purchase agreement described below under the heading December 2001 and February 2002 Common Stock Purchase Agreements. We may sell the securities (1) through underwriters or dealers, (2) through agents, and/or (3) directly to one or more purchasers. We may distribute the securities from time to time in one or more transactions at:

a fixed price or prices, which may be changed;

market prices prevailing at the time of sale;

prices related to the prevailing market prices; or

negotiated prices.

We may solicit direct offers to purchase the securities being offered by this prospectus. We may also designate agents to solicit offers to purchase the securities from time to time. We will name in a prospectus supplement any agent involved in the offer or sale of our securities.

If we utilize a dealer in the sale of the securities being offered by this prospectus, we will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If we utilize an underwriter in the sale of the securities being offered by this prospectus, we will execute an underwriting agreement with the underwriter at the time of sale and we will provide the name of any underwriter in the prospectus supplement which the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, we, or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and the underwriter may compensate those dealers in the form of discounts, concessions or commissions.

With respect to underwritten public offerings, negotiated transactions and block trades, we will provide in the applicable prospectus supplement any compensation we pay to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933, as amended, and any discounts and commissions received

Edgar Filing: TIVO INC - Form 424B5

by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof.

Shares of common stock sold pursuant to the registration statement of which this prospectus is a part will be authorized for quotation and trading on the Nasdaq National Market. Other securities may or may not be listed on the Nasdaq National Market or a national securities exchange. To facilitate the offering of securities, other than

Table of Contents

securities offered through an equity line of credit, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The underwriters, dealers and agents may engage in other transactions with us, or perform other services for us, in the ordinary course of their business.

December 2001 and February 2002 Common Stock Purchase Agreements

On December 21, 2001, we entered into an arrangement with Acqua Wellington North American Equities Fund, Ltd. which is a type of financing vehicle within a category of structures which are sometimes termed equity lines of credit. Specifically, we entered into a common stock purchase agreement with Acqua Wellington, which provided that Acqua Wellington was committed to purchase up to \$14,000,000 of our common stock over the 14-month term of the purchase agreement. On January 10, 2002, we sold the \$14,000,000 of our common stock, constituting 2,147,239 shares, to Acqua Wellington pursuant to the December 2001 common stock purchase agreement and the registration statement of which this prospectus is a part. This sale exhausted the amount agreed to under the purchase agreement and terminated the purchase agreement pursuant to its terms.

On February 13, 2002, we entered into a new equity line of credit arrangement with Acqua Wellington. Specifically, we entered into a common stock purchase agreement with Acqua Wellington which provides that Acqua Wellington is committed to purchase up to \$19,000,000 of our common stock over the 14-month term of the purchase agreement. We have filed the February 2002 purchase agreement as an exhibit to this registration statement, and you should read the actual terms of the purchase agreement for the definitive terms and conditions. The total amount of securities available under the purchase agreement does not exceed 10% of the aggregate market value of our outstanding common stock that was held by our non-affiliates on a day within sixty days prior to February 13, 2002. From time to time beginning on the date of this prospectus and ending on or before April 12, 2003 and at our sole discretion, we may present Acqua Wellington with draw down notices constituting offers to purchase our common stock over a draw down period consisting of two periods, or such other number of periods as agreed upon between us and Acqua Wellington, of ten consecutive trading days each, or such other number of trading days as agreed upon by us and Acqua Wellington. Under the purchase agreement, we are able to present Acqua Wellington with up to 12 draw down notices during the term of the agreement, unless we agree with Acqua Wellington to a different number of notices, with a minimum of five trading days required between each draw down period, unless we agree with Acqua Wellington to a different number of minimum days.

Table of Contents

Each draw down notice sets forth a threshold price and the dollar value of the shares Acqua Wellington is obligated to purchase during the draw down period. The threshold price we choose, which cannot be less than \$3.00 without the consent of Acqua Wellington, generally establishes the maximum value of the stock we can obligate Acqua Wellington to buy during the period and the discount that Acqua Wellington will receive as set forth in the following table. However, we may agree with Acqua Wellington to modify the maximum purchase value and discount applicable to a particular draw down. In no event will the dollar value of securities we sell to Acqua Wellington pursuant to the February 2002 purchase agreement exceed \$19,000,000 in the aggregate.

<u>Threshold Price</u>	<u>Maximum Purchase Value</u>
\$6.00-6.99	\$3,500,000
Each \$1.00 decrease below \$6.00, down to a minimum of \$3.00	A decrease of \$500,000 down to a minimum of \$2,000,000
Each \$1.00 increase above \$4.00, up to a maximum of \$10.00	An increase of \$500,000 up to a maximum of \$5,500,000
<u>Threshold Price</u>	<u>Discount</u>
\$6.00-6.99	4.95%
Each \$1.00 decrease below \$6.00, down to a minimum of \$3.00	An increase of 0.15% up to a maximum discount of 5.40%
Each \$1.00 increase above \$4.00	A decrease of 0.15% down to a minimum discount of 3.00%

Once presented with a draw down notice, Acqua Wellington is required to purchase a pro rata portion of the shares on each trading day during the draw down period on which the daily volume weighted average price for our common stock exceeds a threshold price for such draw down determined by us and set forth in the draw down notice. The per share purchase price for these shares equals the daily volume weighted average price of our common stock on each date during the draw down period on which shares are purchased, less a discount ranging from 3.00% to 5.40%, based on the threshold price set forth in the draw down notice as set forth in the tables above, unless we agree otherwise with Acqua Wellington. If the daily volume weighted average price of our common stock falls below the threshold price on any trading day during a draw down period, the purchase agreement provides that Acqua Wellington will not be obligated but still may purchase the pro-rata portion of shares of common stock allocated to that day at the threshold price for the draw down period, less Acqua Wellington's discount. The number of shares Acqua Wellington would be obligated to buy on any trading day during a draw down period is arrived at by dividing that day's pro rata part of the total purchase amount by that day's volume weighted average price, less Acqua Wellington's discount. The total number of shares Acqua Wellington would be required to purchase during a draw down period is the aggregate of the daily amounts.

As an example of how the draw down mechanism set forth in the table above works, assume that we had sent Acqua Wellington a draw down notice choosing a threshold price of \$6.00 and a corresponding draw amount of \$3,500,000. On each of the following twenty trading days in the two periods of ten consecutive trading days which comprise the draw down period, Acqua Wellington would be obligated to purchase approximately \$175,000 worth of our stock at that day's volume weighted average price less a 4.95% discount. On a trading day during the draw down period when the volume weighted average price was \$6.50, Acqua Wellington would be obligated to buy approximately 28,325 shares at a price of \$6.18 per share. If the volume weighted average price remained at \$6.50 for each trading day during the draw down period, Acqua Wellington would be obligated to purchase a total of approximately 566,503 shares for \$3,500,000. The number of shares purchased will increase or decrease inversely to increases or decreases in the volume weighted average price.

The purchase agreement also provides that from time to time and at our sole discretion we may grant Acqua Wellington the right to exercise one or more call options to purchase additional shares of our common stock during each draw down period for the amount that we specify; provided, however, that the aggregate of all such call option amounts and draw down amounts may not exceed \$19,000,000 for the term of the purchase agreement. Upon Acqua Wellington's exercise of the call option, we will issue and sell the shares of our common stock subject to the call option at a price equal to the greater of the daily volume weighted average price of our common stock on the day Acqua Wellington notifies us of its election to exercise its call option or the threshold price for the call option determined by us and set forth in the draw down notice, less a discount ranging from 3.00% to 5.40%, based on the threshold price set forth in the draw down notice, unless we agree otherwise with Acqua Wellington.
