 - .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

ITEM 1.01. Entry into Material Definitive Agreement

On May 10, 2005, i2 Technologies, Inc. (the Company) announced that the Company and certain of its subsidiaries had entered into certain agreements with Dassault Systèmes S.A. (DS), a French Societe Anonyme, and/or its subsidiaries regarding the parties' intention to jointly develop sourcing solutions based on DS's V5 platform for the Product Lifecycle Management applications (the Sourcing Solutions).

The agreements regarding this transaction (the Transaction) consist of (i) an LLC Interest Purchase Agreement (the Purchase Agreement), dated May 9, 2005, among the Company, Enovia Corp., a subsidiary of DS (Enovia), i2 Technologies US, Inc., a subsidiary of the Company (i2 US), and SoftSRM LLC, a newly formed subsidiary of the Company (SoftSRM); (ii) a Perpetual Source Code License Agreement (the License Agreement), dated May 9, 2005, among DS, the Company and i2 US; and (iii) a Support Services and Maintenance Agreement (the Maintenance Agreement), dated May 9, 2005, among DS, i2 US and SoftSRM.

The Purchase Agreement provides that upon the satisfaction of certain closing conditions, Enovia will pay i2 US an amount equal to US \$10 million in cash (the Purchase Price) to acquire all the equity interests in SoftSRM owned by i2 US (the Acquisition). The Purchase Price is subject to certain post-closing adjustments. After the closing of the Acquisition, SoftSRM and SoftSRM Development India Private Limited, a newly formed Indian subsidiary of SoftSRM (SoftSRM Development) will be wholly owned by Enovia. The conditions to closing include, but are not limited to, certain employees of SoftSRM and SoftSRM Development being employed by SoftSRM and SoftSRM Development at the time of the closing, and the source code of the software licensed to DS pursuant to the License Agreement meeting certain acceptance tests. If the Acquisition does not close, the License Agreement and the Maintenance Agreement will terminate.

The License Agreement provides for the grant by i2 US of a perpetual, irrevocable, worldwide, non-exclusive, fully paid license to use, execute, reproduce, display, modify and sub-license certain supplier relationship management software products owned or licensed by i2 US (the i2 Components). The License Agreement also contains certain restrictions on the Company and its subsidiaries' rights to enter into similar agreements to license, distribute or transfer the i2 Components to third parties which are competitors of DS; provided that the Company and its subsidiaries shall not be restricted in further developing the i2 Components and marketing and licensing the i2 Components to third parties that are not competitors of DS. The software which is developed pursuant to the Transaction shall be owned by DS.

The Maintenance Agreement provides that i2 US shall provide certain support and maintenance services to DS in consideration of DS paying i2 US certain royalty fees upon the licensing by DS and its resellers of the Sourcing Solutions to third parties. The fees to be paid to i2 US are based on a percentage of the fees received by DS. The Maintenance Agreement contains the same restrictions on the Company's and its subsidiaries' right to enter into similar agreements with competitors of DS as is set forth in the License Agreement.

A copy of the Company's press release announcing the Transaction described in this report is attached to this report as Exhibit 99.1.

ITEM 9.01. Financial Statements and Exhibits.

(c) Exhibits.

99.1 Press release dated May 10, 2005
