By: /s/ Bertil Raihle

Bertil Raihle
Vice President Corporate Control

Interim Report

January – September 2005

- prepared in accordance with IFRS

Third quarter net sales were 3,461 MSEK (3,419), and nine month sales were 9,811 MSEK (9,797)

Operating income amounted to 953 MSEK (454) for the third quarter and 2,118 MSEK (3,061) for the first nine months

Operating income, excluding major one time items, for the third quarter amounted to 747 MSEK compared with 694 MSEK previous year and 1,912 MSEK (1,779) for the first nine months

Net profit for the third quarter amounted to 562 MSEK (219), and nine month net profit was 1,301 MSEK (1,770)

Third quarter EPS was 1.79 SEK (0.63), and nine month EPS was 4.08 SEK (5.26)

Sales and results for the third quarter

Swedish Match sales for the third quarter increased by 1 percent to 3,461 MSEK (3,419). In local currency terms sales decreased by 1 percent. Excluding divested companies, sales increased by 3 percent. All product areas except matches demonstrated sales growth. Match sales declined primarily as a result of the divestiture of Wimco Indian operations on July 1, 2005.

For snuff, sales grew by 2 percent during the third quarter, to 809 MSEK (791) while operating income increased by 8 percent to 401 MSEK (371). Swedish Match volumes increased in both the US and Scandinavian markets. In Scandinavia, operating income improved as a result of volume growth for pouched snuff. For the product group snuff, operating margin was 49.5 percent (46.9).

Sales of cigars in the third quarter amounted to 874 MSEK (848) and operating income grew by 8 percent, to 188 MSEK (174). Sales and operating income for cigars grew in Europe, while machine made cigars in the US showed a weaker development. Operating income for premium cigars in the US grew somewhat. Operating margin for cigars amounted to 21.5 percent (20.6).

Group operating income for the third quarter reached 953 MSEK (454). During the third quarter 2005, the sale of the General Cigar building in New York resulted in pre-tax income of 206 MSEK. Last year's third quarter Group operating income included match impairment charges and provisions amounting to 240 MSEK. Excluding these items, Group operating income exceeded year ago levels by 8 percent, reaching 747 MSEK (694).

Operating margin for the third quarter amounted to 21.6 percent excluding the income for the building in New York. For the third quarter 2004, operating margin amounted to 20.3 percent excluding match impairment charges and provisions.

During the third quarter EPS, both basic and diluted, amounted to 1.79 SEK, compared to 0.63 SEK last year.

Sales and results for the first nine months

Sales for the first nine months amounted to 9,811 MSEK (9,797). Excluding divested companies, sales increased by 1 percent. Operating income amounted to 2,118 MSEK (3,061). Last year's operating income for the first nine months included some larger one time items, the income of 1,521 MSEK from the settlement with UST and match impairment charges and provisions of 240 MSEK. Excluding the third quarter gain from the sale of the New York real estate and larger one time items the year before, operating income during the first nine months increased by 7 percent to 1,912 MSEK (1,779).

EPS (basic) for the first nine months was 4.08 SEK (5.26). Excluding larger one time items earnings per share was 3.79 SEK compared to 3.30 SEK during last year's first nine months. Diluted EPS amounted to 4.06 SEK (5.24).

Group operating margin during the first nine months was 19.5 percent excluding the gain from the sale of the New York real estate. Excluding larger one time items, operating margin during last year's first nine months was 18.2 percent.

Smokeless Tobacco

Swedish Match has an international presence in smokeless tobacco, and sells products on most major smokeless markets. Swedish Match is a market leader in snuff in Sweden and Norway. On the largest snuff market in the world, the US, as well as in South Africa, Swedish Match has a significant position. In the US, Swedish Match is the largest manufacturer on the market for chewing tobacco. Smokeless tobacco products are increasingly recognized as having significantly lower health consequences than cigarettes. This knowledge, together with increased restrictions for cigarette smoking creates good conditions for organic growth, especially for snuff.

Snuff

Sweden is the world's largest snuff market when it comes to per capita consumption. In Sweden, a substantially larger proportion of the male population uses snuff

compared to cigarettes. The number of women using snuff is steadily increasing. The Norwegian market, which is substantially smaller than the Swedish market, is at present showing strong growth. The US is the world's largest snuff market measured in number of cans and is approximately five times larger than the Swedish market. In Sweden and Norway, Swedish Match has the leading position. In the US, the Company is well positioned in the faster growing value price segment. Some of the best known brands include General, Ettan, and Grov in Sweden, Timberwolf in the US and Taxi in South Africa.

During the third quarter, sales increased by 2 percent versus the previous year, to 809 MSEK (791), and operating income grew by 8 percent, to 401 MSEK (371). Volumes increased in Scandinavia (2.5 percent) as well as in the US (3.0 percent), measured in number of cans. Operating margin reached 49.5 percent (46.9).

Sales for the first nine months amounted to 2,312 MSEK (2,356), a decrease of 2 percent. In Scandinavia sales volumes increased by 1.4 percent. In Sweden the decrease was 1 percent, while volumes in Norway as well as tax free sales increased. Loose snuff declined on the Swedish market, while sales of pouched snuff increased. The proportion of pouched snuff is currently 58 percent of the market, compared to 55 percent in September 2004. Competition on the Swedish market has increased. Swedish Match's market share amounted to 94 percent according to the latest Nielsen estimates.

In the US, year to date sales volumes were up by 1.3 percent versus previous year measured in number of cans. Sales of Longhorn were considerably higher than the year before, while sales for Timberwolf were lower. At the end of 2004 the Timberwolf brand was repositioned with a lower price. Swedish Match's total market share in the US market amounted to 9.4 percent (8.9) for the September year-to-date period, according to Nielsen estimates.

Operating income year to date amounted to 1,112 MSEK (1,089), up 2 percent. On the Nordic market operating income increased mainly due to higher volumes, improved average prices and lower costs as a result of the accomplished reorganization. In the US, operating income declined due the repositioning of the Timberwolf brand with a lower list price. Operating margin for snuff for the year to date was 48.1 percent (46.2).

Chewing Tobacco

Chewing tobacco is sold primarily in the North American market, with concentration in the southern US. Well known brands include Red Man and Southern Pride. Swedish Match is the leading producer of chewing tobacco in the US, and the market share is 44 percent, according to Nielsen estimates. The chewing tobacco segment declines each year due to relatively few new consumers. Some consumers choose to use snuff instead.

During the third quarter, sales increased by 2 percent, to 290 MSEK (285), and operating income grew by 15 percent, to 94 MSEK (82). Operating margin reached 32.5 percent (28.8).

Sales for the first nine months declined by 3 percent to 800 MSEK (821), while operating income increased by 4 percent to 247 MSEK (237). The sales decrease is mainly attributable to a weaker average rate during the first nine months for the US dollar. Higher average prices partially compensated for volume loss and lower costs contributed to the improved operating income. Operating margin amounted to 30.9 percent (28.8).

Cigars and Pipe Tobacco

Swedish Match is one of the world's largest operators within cigars and pipe tobacco. Organic growth opportunities are mainly within cigars, while the consumption of pipe tobacco decreases.

Cigars

Swedish Match is the second largest producer of cigars and cigarillos in sales value. Swedish Match offers a full range of different cigars and brands. Well known brands include Macanudo, La Gloria Cubana, White Owl, Garcia y Vega, La Paz, Justus van Maurik, and Wings. The US is the largest cigar market in the world and Swedish Match has a leading position in the premium segment, and is well established in the segment for machine made cigars. After the US, the most important cigar markets are in Europe, where Swedish Match is well represented in most countries, with an especially good market position in The Netherlands and Scandinavia. In Europe, machine made cigars dominate.

During the third quarter, sales increased by 3 percent, to 874 MSEK (848), and operating income increased by 8 percent, to 188 MSEK (174). Operating margins reached 21.5 percent (20.6). Unit volumes improved in Europe and for US premium cigars, while volumes were lower in the US mass market.

Sales for the first nine months amounted to 2,449 MSEK (2,381), an increase of 3 percent. Sales were up in Europe and for premium cigars in the US, while sales were down for machine made cigars in the US as a result of increased market activities from competitors.

Operating income for the first nine months declined by 5 percent to 436 MSEK (460). Operating margin amounted to 17.8 percent (19.3). Excluding charges of 75 MSEK related to the integration of General Cigar in 2005, and 11 MSEK regarding restructuring programs in Europe in 2004, operating income grew by 9 percent. The increase in operating income is primarily due to lower costs as a result of previous restructuring measures.

Pipe Tobacco and Accessories

Swedish Match is one of the largest pipe tobacco companies in the world and its products are marketed worldwide. The Borkum Riff brand is sold in over 60 countries. The Company has its most significant presence in South Africa, where local production takes place. Best Blend and Boxer are major brands in South Africa. Pipe tobacco consumption declines on most established markets, as the segment attracts relatively few new consumers. However, the demand is increasing in certain smaller export markets.

During the third quarter, sales grew by 3 percent, to 241 MSEK (234), and operating income declined by 11 percent, to 62 MSEK (69). Operating margin was 25.7 percent (29.7).

Sales for the first nine months amounted to 674 MSEK (659). Improved price levels and a strong South African Rand helped to compensate for lower volumes. Operating income was 177 MSEK (182). Operating margin amounted to 26.3 percent (27.6).

Lights

Swedish Match markets matches and lighters globally.

Matches

Swedish Match is a market leader in many markets for matches. The brands are mostly local, and have leading positions in their home countries. Major brands include Swan, Solstickan, Three Stars, and Redheads.

During the third quarter, sales declined by 15 percent, to 298 MSEK (348), and operating income was 31 MSEK (28). On July 1 the Indian match company Wimco Ltd. was divested. Excluding Wimco sales for the third quarter last year, sales were unchanged, but volumes declined. During the third quarter a writedown in the match operations was made and the factory and property in Valencia, Spain was divested with a gain. The match factory in Valencia was closed down during the first quarter this year.

Sales for the first nine months amounted to 961 MSEK (1,012). In local currency terms, and excluding the effect of the Wimco divestiture, sales declined by 4 percent.

Operating income during the first nine months was 45 MSEK (negative 28). These figures include costs of 31 MSEK for the closure of the Valencia, Spain factory during the first quarter 2005 and charges of 105 MSEK relating to the restructuring of match operations in Europe during the first half of 2004. Excluding these items, the operating income was in line with last year. Operating margin amounted to 4.7 percent (negative 2.7).

Lighters

Swedish Match produces and distributes disposable lighters and the main brand is Cricket. Swedish Match's largest market is Russia. Several markets are faced with an intensely competitive situation from, among others, Chinese producers.

During the third quarter, sales grew by 6 percent, to 156 MSEK (147), and operating income grew to 16 MSEK (6). Increased volumes, lower costs and productivity improvements are behind the better results. Operating margin was 10.4 percent (4.4).

Sales for the first nine months were 454 MSEK (439), an increase of 3 percent. Volumes increased but the average price for lighters decreased. Operating income increased to 44 MSEK (23). Operating margin improved to 9.6 percent (5.3).

Other Operations

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

Other operations include the distribution of tobacco products on the Swedish market, an Irish distribution business, sales of advertising products, as well as corporate overheads.

During the third quarter, operating income amounted to a negative 47 MSEK (negative 38). Corporate overheads have increased due to work in fulfilling requirements under the Sarbanes Oxley Act.

For the first nine months, operating income for other operations was a negative 149 MSEK (negative: 184). Last year's expense included charges of 44 MSEK related to both the closure of a distribution center in Sweden and severance payments and other expenses with regard to the former CEO.

Financing and net financial expense

At the close of the period the Group's net debt amounted to 1,213 MSEK, as compared to 527 MSEK on December 31, 2004, an increase of 686 MSEK. The increase is primarily due to the acquisition of the minority shares in General Cigar for 1,099 MSEK, share repurchase of 895 MSEK and paid dividend of 612 MSEK. Cash flow from operations was 1,672 MSEK compared with 2,901 MSEK a year ago, which included the settlement with UST. During the period 10,367,514 shares were repurchased, amounting to 895 MSEK, and sales of treasury shares related to options programs amounted to 23 MSEK.

During the period new bond loans of 911 MSEK have been issued. The bonds have been issued within the Group's outstanding bond programs. Amortization for the period amounted to 499 MSEK.

Liquid funds, including short term investments, amounted to 2,747 MSEK at the end of the period, compared with 3,002 MSEK at the beginning of the year.

Net interest expense for the first nine months amounted to a negative 109 MSEK (negative 113). Other financial items, net, amounted to an expense of 9 MSEK (16).

Taxes

Total tax for the first nine months amounted to 700 MSEK (1,194), corresponding to an average tax rate of 35 percent. The tax rate for the gain from the sales of the real estate in New York is estimated to be 55 percent.

Earnings per share

Earnings per share for the first nine months amounted to 4.08 SEK (5.26). The gain from the sale of the real estate has affected EPS positively by 29 öre. Last year's earnings per share, for the first nine months, was positively affected by larger one time items by 1.96 SEK.

Capital expenditure, depreciation and amortization

The Group's direct investments in tangible fixed assets amounted to 271 MSEK (349). The investments include increased capacity for pouched snuff and rationalizations in the cigar operations. Total depreciation and amortization amounted to 346 MSEK (369), of which depreciation on

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

tangible assets amounted to 257 MSEK (258) and amortization of intangible assets amounted to 89 MSEK (111).

Tobacco tax

During the past 12 months, total tobacco tax and value-added tax on tobacco tax paid by Swedish Match in Sweden amounted to 9,668 MSEK (9,974).

Average number of Group employees

The average number of employees in the Group during the first nine months was 14,625 compared with 15,039 for the full year 2004. The number of employees decreased as a result of the divestment of Wimco Ltd. and rationalizations within several product areas.

Share structure

During the first nine months of 2005 10.4 million shares were repurchased at an average price of 86.36 SEK. As at September 30, 2005 Swedish Match held 24.8 million shares in its treasury, corresponding to 7.4 percent of the total amount of shares. Total shares bought back by Swedish Match since the buyback programs started have been repurchased at an average price of 53.29 SEK. The number of shares outstanding, net after repurchase and after the sale of treasury shares, as per September 30, 2005 amounted to 311.8 million. In addition, the Company has call options issued and outstanding on its treasury shares corresponding to 4.9 million shares exercisable in gradual stages from 2005-2010.

The Annual General Meeting on April 27, 2005 renewed the mandate to repurchase shares up to 10 percent of the shares of the Company. In addition, a decision was made to cancel 12.0 million shares held in treasury. Furthermore, the Annual General Meeting decided to reduce the share capital by reducing the shares' nominal value from 2.40 SEK to 1.20 SEK and reduce the statutory reserve of the parent company by 114 MSEK. These reductions became effective on October 5 and consequently 532 MSEK was transferred from restricted equity to unrestricted equity. After the transfer to unrestricted equity, the total amount of registered shares in the Company is 324,596,181 of which the Company holds 12,832,900 shares in its treasury corresponding to 4.0 percent of the total amount of shares.

Other events and events after the period

During the second quarter, Swedish Match has acquired all outstanding shares of General Cigar and now owns 100 percent of the company. The second quarter was impacted by integration costs of 75 MSEK. Cost saving effects due to the integration is expected to impact results from 2006. During September the sale of General Cigar's real estate in New York was concluded.

In February 2005, The Second Circuit Court of Appeals in New York ruled in favour of General Cigar in a lawsuit filed by Cubatabaco over trademark ownership of the Cohiba brand in the US. Cubatabaco has filed a petition to the US Supreme Court seeking review. This case has been ongoing since 1997.

As previously announced, Swedish Match on July 1 sold its 74 percent holding of the Indian match company, Wimco to a subsidiary of Indian Tobacco Company (ITC). Wimco is therefore not included in Swedish Match's consolidated numbers as per July 1. On September 29, 2005 Swedish Match acquired 16.8 percent of the total amount of outstanding shares in Wimco in an open offer as per an earlier ruling from the Securities and Exchange Board of India (SEBI). It is the intention of Swedish Match to sell these shares in connection with ITC's offer to buy all outstanding shares of Wimco, which the company estimates to be completed before the end of the current year.

Distribution of surplus funds

Dividend

Swedish Match's dividend policy is that the dividend should largely follow the trend of the Group's net income. When establishing a dividend, the size of planned repurchases of shares is also taken into account. It is estimated that the dividend amount will be between 30-50 percent of net income for the year.

Repurchase

A repurchase of shares is, in principle, a reverse new share issue and makes it possible to work continuously to optimize the capital structure of the balance sheet. In view of Swedish Match's stable and positive cash flow, the position of the Board of Directors with regard to repurchase of shares is positive.

The size and scope of share buybacks depend, in exactly the same way as the size of the dividend, on Swedish Match's financial position, net income, anticipated future profitability, cash flow, investments and expansion plans. Other factors that affect repurchases are the price of the shares, the Group's interest and tax expenses, and the earnings available for distribution.

Financial restrictions

When considering the size of the surplus funds to be transferred to shareholders, it has been decided that the following restrictions should apply:

The Company shall over time strive for a capital structure with an interest cover based on EBITA (profit before financial items, interest and amortization on intangible assets/net interest) that exceeds nine times.

The Company shall over time strive for a net debt divided by EBITA below two.

Accounting principles

This interim report is prepared in accordance with the Accounting Standard IAS 34 Interim Financial Reporting from the International Accounting Standards Board.

New accounting principles 2005

As of January 1, 2005 Swedish Match changed its accounting principles for the preparation of financial statements to comply with International Financial Reporting Standards (IFRS). Previously the financial statements were prepared in accordance with Swedish Generally Accepted Accounting Principles (Swedish GAAP).

The financial statements for periods beginning on or after January 1, 2005 are therefore prepared in accordance with IFRS. IFRS has also been retrospectively applied to year 2004 comparable data but with the exception of the reporting of financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The financial instruments and share-based payments have not been restated as Swedish Match does not fall under the retrospective reporting requirements for these standards.

Edgar Filing: SWEDISH MATCH CORP - Form 6-K

The financial statements are from January 1, 2005, set up as specified in IAS 1. The main implication of applying IAS 1, is that net income, on the face of the income statement, and equity, on the face of balance sheet, are presented including the minority's interest.

For Swedish Match, the transition to IFRS has changed the reporting of biological assets (IAS 41), goodwill (IFRS 3 and IAS 38), financial instruments (IAS 32 and IAS 39) and share-based payments (IFRS 2). The accounting principles for employee benefits (IAS 19) were already adopted on January 1, 2004 under Swedish GAAP and therefore Swedish Match's financial statements already complied with IAS 19 in 2004.

Goodwill and biological assets

Information on changes in accounting principles for biological assets (IAS 41) and goodwill (IFRS 3 and IAS 38), due to the transition to IFRS, is included in the report of operations for 2004 and the annual report for 2004.

Financial instruments

The rules for reporting of financial instruments, IAS 39, imply that financial assets and liabilities, including all derivatives, shall be measured at fair value or amortized cost depending on classification of the asset and liability. The gain or loss from a change in the value of a financial asset or liability shall be recognized, depending on classification, in profit or loss or directly in equity until realized.

According to IAS 39, companies can apply hedge accounting. Under hedge accounting, a company shall link a balance sheet item to a designated hedging instrument. To qualify for hedge accounting under IAS 39, the hedging relationship has to satisfy strict requirements.

The major portion of the Group's borrowing was originally assumed at a fixed interest rate but subsequently converted to a floating rate by means of interest rate swaps. Swedish Match has decided to apply hedge accounting on interest rate swaps that can be linked to the original borrowing.

All other financial instruments within Swedish Match will be subject to fair value accounting and the gain or loss from change in value will be recognized in the profit and loss.

At transition to IFRS, the difference between the fair values or amortized costs of the financial assets and liabilities and the values reported according to Swedish GAAP was recognized directly in equity. Any initial recognition of derivatives not previously recognized was also reported directly in equity. At January 1, 2005, an increase in equity of 31 MSEK was thereby reported. The reporting in accordance with IAS 39 has resulted in a negative effect in net income by 3 MSEK during the first nine months of 2005.

Share-based payments

The rules for reporting of share-based payments (such as Swedish Match's option program), IFRS2, imply that an assessed fair value of the options shall be expensed during a vesting period or at a vesting date. During the first nine months 2005, net income has been negatively affected by 3 MSEK due to reporting in accordance with IFRS 2.

Additional information

This report has not been reviewed by the Company's auditors. The full year 2005 report will be released February 15, 2006. The Annual General Meeting will be held in Stockholm on April 20, 2006.
