Notice on revised financial forecasts for the six months ended September 30, 2005 (non-consolidated)

Please be advised that Kubota Corporation (hereinafter the Company) has revised the non-consolidated (parent company only) financial forecasts for the six months ended September 30, 2005. Details are as follows:

1. Revised consolidated financial forecasts for the six months ended September 30, 2005

(April 1, 2005 - September 30, 2005)

(¥million)

	<u>Net Sales</u>	<u>Ordinary Income</u>	<u>Net Income</u>
Original Forecasts	293,000	23,000	14,500
Revised Forecasts	313,500	31,500	21,000
Change	20,500	8,500	6,500
(%)	7%	37%	45%
Prior Corresponding Period (Six months ended September 30, 2004)	284,033	24,614	20,279

2. Reasons for revision

Net sales are expected to increase by ¥20.5 billion because the exports of tractors and construction machinery to North America and Europe were much more than expected and domestic sales in all of three business segments were favorable compared with the original forecast.

Edgar Filing: KUBOTA CORP - Form 6-K

Ordinary income is forecast to increase by ¥8.5 billion resulted from the increased sales, the reduction of costs, and the depreciation of the yen. (An actual exchange rate for the six months ended September 30, 2006 was ¥109=US\$1, while an initial assumption was ¥105=US\$1.) Net income is expected to increase by ¥6.5 billion as a result of the increase of ordinary income and ¥2.7 billion of extraordinary gain on sale of unused land.

3. Other revisions

The consolidated financial forecast for the six months ended September 30, 2005, non-consolidated financial forecast and consolidated financial forecast for the year ending March 31, 2006 are not revised because significant changes^(*) from the original forecasts are not expected. The non-consolidated and consolidated financial forecasts for the year ending March 31, 2006 are being under review and new forecasts will be released on November 4, 2005.

(*)Significant changes mean more than 10% changes in net sales or more than 30% changes in net income compared with the latest forecasts.
