Item 1.01. Entry into a Material Definitive Agreement.

On May 16, 2006, BioDelivery Sciences International, Inc. (the Company) consummated a transaction with CDC IV, LLC (CDC) pursuant to which \$7 million in funds previously committed by CDC in July 2005 to fund the clinical development of the Company's BEMATM Fentanyl product have been converted into shares of common stock, par value \$.001, of the Company (Common Stock) at \$3.50 per share.

As a result of this transaction, CDC was issued 2 million shares of Common Stock in return for accelerating the funding of the \$4.2 million balance of \$7 million of aggregate commitment under the Company's July 2005 agreements with CDC and for eliminating the \$7 million milestone payable to CDC upon the approval by the FDA of BEMATM Fentanyl. As of the closing of this transaction, the Company has a cash position of approximately \$7.4 million and stockholders' equity of approximately \$7.88 million.

The 2 million shares of Common Stock granted to CDC in the transaction are equivalent to a price of \$3.50 per share based on the total \$7 million funded. In addition, CDC was issued a warrant (the Warrant) to purchase an additional 904,000 shares of Common Stock at \$3.00 per share. Until such time as the shares of Common Stock underlying the Warrant are registered with the Securities and Exchange Commission, CDC shall have the right to exercise the Warrant on a cashless basis. In addition, until the date that is ninety (90) days subsequent to regulatory approval of BEMATM Fentanyl, the exercise price of the Warrant will be reduced to a price equal to the per share price of issuances of securities by the Company at less than the Warrant exercise price.

The Company has agreed to register the shares of Common Stock issued to CDC in this transaction plus the shares of Common Stock underlying the Warrant with the Securities and Exchange Commission. The shares of Common Stock and Warrant were sold and issued to CDC pursuant to Section 4(2) of the Securities Act of 1933, as amended, in a transaction not involving any public offering.

On July 15, 2005, the Company entered into a clinical development and license agreement with CDC pursuant to which CDC was to provide up to \$7 million in funding for the clinical development of BEMA Fentanyl. Following an up front payment of \$2 million made in February 2006, the Company was receiving equal monthly payments in accordance with the expected timeline for the BEMA Fentanyl Phase III development program. Under the prior agreement, the Company was to repay the \$7 million to CDC within 60 days of approval by the Food and Drug Administration (FDA) of BEMA Fentanyl. As such, the funding was accounted for on the Company's balance sheet as a refundable deposit. Under the amended CDC transaction, the full \$7 million commitment is immediately converted into shares of Common Stock and the Company received an immediate cash infusion of \$4.2 million, the balance of the CDC committed funds. As under the original arrangement, CDC will receive royalties based on net sales of BEMA Fentanyl.

Pursuant to the CDC development agreement, and concurrently with the timing of CDC's initial \$2.0 million payment to the Company in February 2006, the Company entered into a security agreement granting CDC a security interest in assets related to BEMA Fentanyl. Such security agreement remains in place, and, as in the original agreement, the security interest granted to CDC will terminate on FDA approval of BEMA Fentanyl. However, the clinical development and license agreement and security agreement were amended in the present transaction to eliminate the obligation of the Company to reimburse CDC \$7 million prior to the release of CDC's security interest in BEMA Fentanyl.
