HERITAGE FINANCIAL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and Six Months Ended June 30, 2006 and 2005

(Unaudited)

NOTE 1. Description of Business and Basis of Presentation

(a.) Description of Business

Heritage Financial Corporation (Company) is a bank holding company that was incorporated in the State of Washington in August 1997. We were organized for the purpose of acquiring all of the capital stock of Heritage Savings Bank upon our reorganization from a mutual holding company form of organization to a stock holding company form of organization. Effective September 1, 2004, Heritage Savings Bank switched its charter from a State Chartered Savings Bank to a State Chartered Commercial Bank and changed its legal name from Heritage Savings Bank to Heritage Bank. Effective September 1, 2005, Central Valley Bank changed its charter from a Nationally Chartered Commercial Bank to a State Chartered Commercial Bank.

We are primarily engaged in the business of planning, directing, and coordinating the business activities of our wholly owned subsidiaries: Heritage Bank and Central Valley Bank. Heritage Bank is a Washington state-chartered commercial bank whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC) under the Deposit Insurance Fund (DIF). Heritage Bank conducts business from its main office in Olympia, Washington and its thirteen branch offices located in Thurston, Pierce, Mason and south King Counties of Washington State. Central Valley Bank is also a Washington state-chartered commercial bank whose deposits are insured by the FDIC under the DIF. Central Valley Bank conducts business from its main office in Toppenish, Washington and its five branch offices located in Yakima and Kittitas Counties of Washington State.

Our business consists primarily of lending and deposit relationships with small businesses including agribusiness and their owners in our market area, attracting deposits from the general public and originating for sale or investment purposes first mortgage loans on residential properties located in western and central Washington. We also make residential construction loans, income property loans, and consumer loans.

(b.) Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These condensed consolidated financial statements should be read with our December 31, 2005 audited consolidated financial statements and its accompanying notes included in our Annual Report on Form 10-K. In our opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006. In preparing the consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

Certain amounts in the consolidated financial statements for the prior year have been reclassified to conform to the current consolidated financial statement presentation.

All prior year share and per share amounts have been properly restated to the 5% stock dividend declared by the Board of Directors on September 15, 2005, payable to shareholders of record on September 30, 2005 and distributed on October 14, 2005.

Table of Contents**NOTE 2. Stockholders Equity***(a.) Earnings per Share*

The following table illustrates the reconciliation of weighted average shares used for earnings per share for the noted periods.

	Three months ended		Six months ended	
	June 30, 2006	2005	June 30, 2006	2005
Basic:				
Weighted average shares outstanding	6,395,867	6,256,607	6,332,027	6,259,714
Less: Weighted average unvested restricted stock awards	(75,981)	(64,367)	(70,265)	(64,210)
Basic weighted average shares outstanding	6,319,886	6,192,240	6,261,762	6,195,504
Diluted:				
Basic weighted average shares outstanding	6,319,886	6,192,240	6,261,762	6,195,504
Incremental shares from unexercised stock options and unvested restricted stock awards	217,348	159,750	221,845	161,005
Weighted average shares outstanding	6,537,234	6,351,990	6,483,607	6,356,509

As of June 30, 2006 and 2005, there were 41,408 and 6,300 anti-dilutive shares outstanding options to acquire common stock, respectively.

(b.) Cash Dividend Declared

On June 20, 2006, we announced a quarterly cash dividend of 20.0 cents per share payable on July 31, 2006 to stockholders of record on July 17, 2006.

NOTE 3. Share Based Payment

The Company maintains a number of stock-based incentive programs, which are discussed in more detail in Note 4. Prior to 2006, the Company applied the intrinsic value-based method, as outlined in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, (APB No. 25) and related interpretations, in accounting for stock options granted under these programs. Under the intrinsic value-based method, no compensation expense was recognized if the exercise price of the Company's employee stock options equaled the market price of the underlying stock on the date of the grant. Accordingly, prior to 2006, no compensation cost was recognized in the accompanying consolidated statements of income on stock options granted to employees, since all options granted under the Company's share incentive programs had an exercise price equal to the market value of the underlying common stock on the date of the grant.

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R (SFAS No. 123R) Share-based Payment. This statement replaces SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes APB No. 25. SFAS No. 123R requires that all stock-based compensation be recognized as an expense in the financial statements and that such cost be measured at the fair value of the award on the grant date. This statement was adopted using the modified prospective method of application, which requires the Company to recognize compensation expense on a prospective basis. Therefore, prior period financial statements have not been restated. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining service period of awards that had been included in pro forma disclosures in prior periods.

Total stock-based compensation expense (excluding ESOP expense) for the six months ended June 30, 2006 was \$299,000 (\$246,000 after tax), or \$0.04 for basic and diluted earnings per share. Included in this expense is \$171,000 (\$163,000 after tax), or \$0.03 for basic and diluted earnings per share attributable to the Company's adoption of SFAS 123R. As of June 30, 2006, the total unrecognized compensation expense related to non-vested stock awards was \$833,000 and the related weighted average period over which it is expected to be recognized is approximately 2.3 years.

Table of Contents

The following table illustrates the effect on net income and earnings per share as if SFAS 123R had been applied to all outstanding awards for the three and six months ended June 30, 2005 (dollars in thousands, except per share amounts):

	Pro forma	Pro forma
	Three months	Six months
	Ended June 30, 2005	Ended June 30, 2005
Net Income:		
As Reported	\$ 2,497	\$ 5,060
Add: Total stock-based compensation expense included in reported net income, net of tax effect	33	69
Deduct: Total stock-based compensation expense, determined under fair value method for all awards, net of tax effect	(97)	(195)
Pro Forma	\$ 2,433	\$ 4,934
Basic earnings per share:		
As Reported	\$ 0.40	\$ 0.82
Pro Forma	0.39	0.80
Diluted earnings per share:		
As Reported	\$ 0.39	\$ 0.80
Pro Forma	0.38	0.78

The fair value of options granted during the six months ended June 30, 2006 and 2005 is estimated on the date of grant using the Black-Scholes option pricing model based on the assumptions noted in the following table. The expected term of share options is derived from historical data and represents the period of time that share options granted are expected to be outstanding. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant. Expected volatility is based on historical volatility of Company shares. Expected dividend yield is based on dividends expected to be paid during the expected term of the share options.

Grant period ended	Weighted Average Risk Free Interest Rate	Expected Term in years	Expected Volatility	Expected Dividend Yield	Weighted Average Fair Value
June 30, 2006	4.94%	4.50	20%	3.70%	\$ 4.16
June 30, 2005	3.91%	6.00	20%	4.32%	\$ 2.99

NOTE 4. Stock Option and Award Plans

In September 1994, Heritage Bank's stockholders approved the adoption of the 1994 stock option plan, providing for the award of a restricted stock award to a key officer, incentive stock options to employees and nonqualified stock options to directors of the Bank at the discretion of the Board of Directors. On September 24, 1996, Heritage Bank's stockholders approved the adoption of the 1997 stock option plan, which is generally similar to the 1994 plan. On October 15, 1998, the Company's stockholders approved the adoption of the 1998 stock option plan, which is similar to the 1994 and 1997 plans. The 1998 plan does not affect any options granted under the 1994 or 1997 plans. On April 25, 2002, the Company's stockholders approved the adoption of the 2002 Incentive Stock Option Plan, the 2002 Director Nonqualified Stock Option Plan and the 2002 Restricted Stock Plan, which are generally similar to the 1994, 1997 and

Table of Contents

1998 stock plans. On April 27, 2006, the Company's stockholders approved the adoption of the 2006 Incentive Stock Option Plan, the 2006 Director Nonqualified Stock Option Plan and the 2006 Restricted Stock Plan, which are generally similar to the 1994, 1997, 1998 and 2002 stock plans.

Under these stock option plans, on the date of grant, the exercise price of the option must at least equal the market value per share of the Company's common stock. The 1994 plan provides for the grant of options and stock awards up to 362,246 shares. The 1997 plan provides for the granting of options and stock awards up to 270,333 common shares. The 1998 plan provides for the grant of stock options for up to 414,750 and stock awards for up to 69,431 shares. The 2002 and 2006 Incentive Stock Option plans provide for the grant of stock options for up to 451,500 and 400,000 shares, respectively. The 2002 and 2006 Director Nonqualified Stock Option Plans provide for the grant of stock options for up to 73,500 and 75,000 shares, respectively. The 2002 and 2006 Restricted Stock Plans provide for the grant of stock awards for up to 52,500 and 25,000 shares, respectively.

Stock options generally vest ratably over three years and expire five years after they become exercisable which amounts to an average term of seven years. Restricted Stock awards issued have a five-year cliff vesting. The Company issues new shares to satisfy share option exercises.

The following table summarizes stock option and award activity for the six months ended June 30, 2006.

	Outstanding Options		Outstanding Awards of Restricted Stock	
	Shares	Avg. Price	Shares	Avg. Price
Balance at December 31, 2005	610,348	\$ 16.88	64,475	\$ 16.15
Options and awards granted	104,100	26.01	16,000	26.05

Table of Contents

At June 30, 2006, the aggregate intrinsic value of stock options outstanding and stock options exercisable was \$5.0 million and \$4.2 million, respectively. The total intrinsic value of options exercised during the six months ended June 30, 2006 and 2005, was \$769,000 and \$398,000, respectively. The weighted average remaining contractual life of exercisable option shares as of June 30, 2006 was 4.3 years. The total fair value of shares vested during the six months ended June 30, 2006 and 2005 was \$396,000 and \$339,000, respectively.

NOTE 5. Business Combination

On June 1, 2006 the Company acquired Western Washington Bancorp, Inc. (WWB) and its wholly-owned subsidiary, Washington State Bank, N.A., in an acquisition accounted for under the purchase method of accounting. The results of WWB have been included in the consolidated financial statements since the date of acquisition. This merger was consistent with the Company's growth strategy and provides the opportunity to expand into the south King County market in Washington State.

The aggregate purchase price was \$10.1 million and included cash of \$3.8 million, 231,225 shares of common stock valued at \$5.7 million and \$0.7 million in direct merger costs. The value of the 231,235 shares issued was determined based on the \$24.49 average closing market price of the Company's common stock for the two trading days before and after the measurement date of January 24, 2006 when the number of shares to be issued was determined. Total transaction expenses of \$1.2 million included \$700,000 of direct expenses noted above and \$464,000 of merger expenses that were paid by WWB prior to the close of the transaction.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition.

(Dollars in thousands)

Assets acquired:	
Cash and cash equivalents	\$ 2,455
Securities	4,887
Loans, net of allowance for loan losses	40,739
Goodwill	5,874
Core deposit intangible	1,382
Premises and equipment, net	95
Other assets	1,455
Total assets	\$ 56,887
Liabilities assumed:	
Deposits	44,282
FHLB advances and other borrowings	1,953
Other liabilities	525
Total liabilities	\$ 46,760
Net assets acquired	\$ 10,127

The core deposit intangible of \$1.4 million is being amortized on a straight-line basis over 8 years. Goodwill of \$5.9 million is not amortized but will be reviewed for potential impairment on an annual basis, or more often if events or circumstances indicate a potential impairment.

Additional adjustments to the purchase price allocation may occur as certain items are based on estimates at the time of acquisition, including income taxes, direct costs and compensation adjustments.

The following table presents unaudited pro forma results of operations for the six months ended June 30, 2006 and 2005 assuming the acquisition occurred on January 1, 2005. The Company expects to realize cost savings as a result of the WWB merger that are not reflected in the pro forma consolidated condensed statements of income. No assurance can be

Table of Contents

given with respect to the ultimate level of such cost savings. The pro forma results do not necessarily indicate the results that would have been obtained had the acquisition actually occurred on January 1, 2005.

For the six months ended June 30, 2006

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to assist in understanding the financial condition and results of the Company. The information contained in this section should be read with the unaudited condensed consolidated financial statements and its accompanying notes, and the December 31, 2005 audited consolidated financial statements and its accompanying notes included in our recent Annual Report on Form 10-K.

Statements concerning future performance, developments or events, expectations for growth and market forecasts, and any other guidance on future periods, constitute forward-looking statements and are subject to a number of risks and uncertainties, which might cause actual results to differ materially from stated expectations. Specific factors include, but are not limited to, the effect of interest rate changes, risks associated with acquisition of other banks and opening new branches, the ability to control costs and expenses, and general economic conditions. Additional information on these and other factors, which could affect our financial results, are included in our filings with the Securities and Exchange Commission.

Overview

Heritage Financial Corporation is a bank holding company, which primarily engages in the business activities of our wholly owned subsidiaries: Heritage Bank and Central Valley Bank. We provide financial services to our local communities with an ongoing strategic focus in expanding our commercial lending relationships, market expansion and a continual focus on asset quality. Effective January 8, 1998, our common stock began to trade on the NASDAQ National Market under the symbol HFWA .

Table of Contents

The following table provides relevant net interest income information for selected time periods. The average loan balances presented in the table are net of allowances for loan losses. Nonaccrual loans have been included in the tables as loans carrying a zero yield.

	For the Six Months Ended June 30,

Financial Condition Data

Total assets increased \$77.1 million (10.3%) to \$828.3 million as of June 30, 2006 from the December 31, 2005 balance of \$751.2 million. Of this increase in total assets, \$56.9 million was due to the WWB acquisition. Deposits increased \$72.2 million (11.3%) to \$708.7 million as of June 30, 2006 from the December 31, 2005 balance of \$636.5 million. Of this increase in deposits, \$44.3 million was due to the WWB acquisition. For the same period, net loans, which include loans held for sale but are net of the allowance for loan losses, increased \$69.0 million (10.7%) to \$712.8 million as of June 30, 2006 from the December 31, 2005 balance of \$643.8 million. Of this increase in net loans, \$40.7 million was due to the WWB acquisition. Commercial loans increased by \$62.9 million to \$421.7 million as of June 30, 2006 from the December 31, 2005 balance of \$359.8 million. Commercial loans continue to be the largest segment of loans at 58.4% and 55.2% as a percentage of total loans as of June 30, 2006 and December 31, 2005, respectively.

Earnings Summary

Net income was \$0.39 per diluted share for the three months ended June 30, 2006 and June 30, 2005. Actual earnings for the three months ended June 30, 2006 were \$2,535,000 compared to \$2,497,000 for the same period in 2005, an increase of 1.5%. Net income for the six months ended June 30, 2006 was \$0.79 per diluted share compared to \$0.80 per diluted share for the same period last year, a decrease of 1.3%. Actual earnings for the six months ended June 30, 2006 were \$5,100,000 compared to \$5,060,000 for the same period in 2005, an increase of 0.8%.

Return on average equity for the quarter ended June 30, 2006 was 14.13% compared to 15.60% for the same period last year. Average equity increased by \$7.8 million to \$72.0 million for the three months ended June 30, 2006 versus \$64.2 million for the same period last year. For the six months ended June 30, 2006, the Company's return on average equity was 14.39% compared to 16.04% for the six months ended June 30, 2005. Average equity for the six months ended June 30, 2006 increased to \$70.2 million from \$63.6 million for the six months ended June 30, 2005. The Company's capital position remains strong at 9.09% of total assets as of June 30, 2006, up from 8.79% at June 30, 2005.

Table of Contents**Net Interest Income**

Net interest income before provision for loan losses for the three months ended June 30, 2006 increased 4.8% to \$8,784,000 from \$8,383,000 for the same quarter in 2005. Net interest income before provision for loan losses for the six months ended June 30, 2006 increased 3.4% to \$17,269,000 from \$16,706,000 for the same period in 2005. The net interest margin (net interest income divided by average interest earning assets) decreased to 4.83% for the current quarter from 5.09% for the same quarter last year. The net interest margin decreased to 4.89% for the six months ended June 30, 2006 from 5.13% for the same period in 2005. One of the methods in which we have been able to maintain our net interest margin near 5.0% is our continued focus on increasing noninterest bearing deposits. Noninterest bearing deposits averaged \$95.3 million for the quarter ended June 30, 2006 versus \$83.6 million for the quarter ended June 30, 2005, an increase of 14.0%. Maintaining a margin near 5.0% will be a challenge this year. Short-term interest rates have increased at a much faster pace than longer-term interest rates over the last several months and this has had the effect of narrowing our net interest margin. While we continue to focus on increasing our asset sensitivity, a continuation of a flat yield curve and a very competitive business environment may have the effect of reducing our net interest margin further.

Interest income increased \$2.3 million, or 20.8%, for the three months ended June 30, 2006 as compared to the second quarter last year and interest expense increased \$1.9 million, or 70.3%, during this same period. Interest income for the six months ended June 30, 2006 increased \$4.1 million, or 18.7%, as compared to the same period last year and interest expense increased \$3.5 million, or 69.5%, during this same period. Loans averaged \$680.5 million with an average yield of 7.62% for the three months ended June 30, 2006 compared to average loans of \$608.1 million with an average yield of 7.03% for the same period in 2005. Loans averaged \$662.4 million with an average yield of 7.56% for the six months ended June 30, 2006 compared to average loans of \$603.0 million with an average yield of 6.97% for the same period in 2005. Certificates of deposit averaged \$297.9 million with an average cost of 4.00% for the three months ended June 30, 2006 compared to \$255.0 million with an average cost of 2.78% for the same period in 2005. Certificates of deposit averaged \$291.7 million with an average cost of 3.83% for the six months ended June 30, 2006 compared to \$249.3 million with an average cost of 2.62% for the same period in 2005.

Provision for Loan Losses

The provision for loan losses was \$100,000 for the three months ended June 30, 2006, a decrease of \$110,000 over the provision for loan losses during the second quarter of 2005. The provision for loan losses was \$240,000 for the six months ended June 30, 2006 down from \$375,000 for the same period in 2005. The decrease were primarily due to net recoveries of \$138,000 and \$257,000 for the three and six months ended June 30, 2006, respectively.

Noninterest Income

Noninterest income increased 17.7% to \$1,917,000 for the three months ended June 30, 2006 compared with \$1,629,000 for the same quarter in 2005. Noninterest income increased 18.7% to \$3,688,000 for the six months ended June 30, 2006 from \$3,106,000 for same period in 2005. The increases for the three and six months ended June 30, 2006 were primarily due to increases in service charges of \$109,000 and \$256,000, respectively, and in merchant visa income of \$58,000 and \$143,000, respectively.

Noninterest Expense

Noninterest expense increased 11.7% to \$6,816,000 during the three months ended June 30, 2006 compared to \$6,100,000 for the same period during 2005. Noninterest expense increased 9.8% to \$13,100,000 for the six months ended June 30, 2006 from \$11,927,000 for the same period last year. These increases were due primarily to increases in salaries and benefits expense which increased by \$545,000 and \$905,000 for the three and six months ended June 30, 2006, respectively, compared to the same periods last year. These increases were due to new loan officer hires in last half of 2005 and first half of 2006, additional personnel associated with the new branch in Sumner and the acquisition of Western Washington Bancorp and adoption of the new accounting pronouncement related to stock option compensation. Merchant visa expense increased \$54,000 and \$120,000 for the three and six months ended June 30, 2006, respectively, compared to the same periods last year.

Table of Contents

The efficiency ratio for the quarter ended June 30, 2006 was 63.7% compared to 60.9% for the comparable quarter in 2005. The efficiency ratio for the six months ended June 30, 2006 was 62.5% compared to 60.2% for the same period last year. The efficiency ratio increases are primarily a result of increased noninterest expense due to the factors listed above. The efficiency ratio consists of noninterest expense divided by the sum of net interest income before provision for loan losses plus noninterest income.

Lending Activities

As indicated in the table below, total loans (including loans held for sale) increased to \$722.6 million at June 30, 2006 from \$652.3 million at December 31, 2005. Of this increase, \$41.5 million was due to the WWB acquisition.

	At June 30, 2006	% of Total (Dollars in thousands)	At December 31, 2005	% of Total
Commercial	\$ 421,662	58.3%	\$ 358,808	55.2%

Less: deferred loan fees	(2,252)	(0.3)	(1,852)	(0.3)
Total loans	\$ 722,603	100.0%	\$ 652,297	100.0%

Nonperforming Assets

The following table describes our nonperforming assets for the dates indicated.

	At June 30, 2006	At December 31, 2005
Nonaccrual loans	\$ 2,603	\$ 836
Other real estate owned	225	371
Total nonperforming assets	\$ 2,828	\$ 1,207
Accruing loans past due 90 days or more	\$	\$
Potential problem loans	10,881	9,882
Allowance for loan losses	9,742	8,496

Edgar Filing: HERITAGE FINANCIAL CORP /WA/ - Form 10-Q

Nonperforming loans to loans	0.36%	0.13%
Allowance for loan losses to loans	1.35%	1.30%
Allowance for loan losses to nonperforming loans	374.28%	1,016.27%
Nonperforming assets to total assets	0.34%	0.16%

Page 17

Table of Contents

Nonperforming assets increased to \$2,828,000, or 0.34% of total assets at June 30, 2006 from \$1,207,000, or 0.16% of total assets at December 31, 2005. We believe that we are adequately reserved for losses in the portfolio as of June 30, 2006. Potential problem loans are those loans that are currently accruing interest, but which are considered possible credit problems because financial information of the borrowers causes us concerns as to their ability to comply with the present repayment program and could result in placing the loan on nonaccrual.

Analysis of Allowance for Loan Losses

Management maintains an allowance for loan losses to absorb estimated credit losses associated with the loan portfolio, including all binding commitments to lend. We determine an adequate allowance through our ongoing quarterly loan quality assessments.

We assess the estimated credit losses inherent in our non-classified loan portfolio by considering a number of elements including:

Risk rating of the credit portfolio;

Levels and trends in delinquencies and nonaccruals;

Trends in loan demand and structure including terms and interest rates;

National and local economic trends;

Specific industry conditions such as commercial and residential construction;

Concentrations of credits in specific industries;

Bank regulatory examination results and our own credit examinations; and

Recent loss experience in the portfolio.

We calculate an adequate allowance for the non-classified portion of our loan portfolio based on an appropriate percentage risk factor that is calculated based on the above-noted elements and trends. For each classified loan, we may have a specific provisions based on careful analysis of that loan's credit and collateral factors. Our analysis of an adequate allowance combines the provisions made for both our non-classified loans and the specific provisions made for each classified loan.

While we believe we use the best information available to determine the allowance for loan losses, net income could be significantly affected if circumstances differ substantially from the assumptions used in determining the allowance, unforeseen market conditions arise or if we are directed to make adjustments to the allowance for loan losses by our regulators.

The following table summarizes the changes in our allowance for loan losses:

	Six Months Ended June 30,	
	2006	2005
	(Dollars in thousands)

(1) Includes loans held for sale

Table of Contents

While pursuing our growth strategy, we continue to employ prudent underwriting and sound monitoring procedures to maintain asset quality. The allowance for loan losses during the six months ended June 30, 2006 increased by \$1,246,000 to \$9.7 million from \$8.5 million at December 31, 2005. Based on management's assessment of loan quality, the Company believes that its reserve for loan losses is at an appropriate level under current economic conditions.

Liquidity and Sources of Funds

Our primary sources of funds are customer and local government deposits, loan repayments, loan sales, interest earned on and proceeds from investment securities, and advances from the Federal Home Loan Bank (FHLB) of Seattle. These funds, together with retained earnings, equity, and other borrowed funds, are used to make loans, acquire investment securities and other assets, and fund continuing operations. While maturities and scheduled amortization of loans are a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by the level of interest rates, economic conditions, and competition.

We must maintain an adequate level of liquidity to ensure the availability of sufficient funds to fund loan originations and deposit withdrawals, satisfy other financial commitments, and fund operations. We generally maintain sufficient cash and short-term investments to meet short-term liquidity needs. At June 30, 2006, cash and cash equivalents totaled \$28.3 million, and investment securities classified as either available for sale or held to maturity with maturities of one year or less amounted to \$14.6 million, or 2.0% of total assets. At June 30, 2006, our banks maintained a credit facility with the FHLB of Seattle for \$139.2 million, with \$32.1 million in FHLB borrowings as of June 30, 2006.

Capital

Stockholders' equity at June 30, 2006 was \$75.3 million compared with \$66.1 million at December 31, 2005. During the six months ended June 30, 2006, we declared dividends of \$2.5 million, realized income of \$5.1 million, recorded \$214,000 in unrealized losses on securities available for sale, net of tax, and realized the effects of exercising stock options, stock option compensation and earned ESOP and restricted stock shares totaling \$1.2 million. In addition, common stock was issued in the amount of \$5.7 million relating to the acquisition of Western Washington Bancorp.

Banking regulations require bank holding companies and banks to maintain a minimum leverage ratio of core capital to adjusted quarterly average total assets of at least 3%. At June 30, 2006 our leverage ratio was 8.1% compared with 8.2% at December 31, 2005. In addition, banking regulators have adopted risk-based capital guidelines, under which risk percentages are assigned to various categories of assets and off-balance sheet items to calculate a risk-adjusted capital ratio. Tier I capital generally consists of common shareholders' equity, while Tier II capital includes the allowance for loan losses, subject to certain limitations. Regulatory minimum risk-based capital guidelines require Tier I capital of 4% of risk-adjusted assets and total capital (combined Tier I and Tier II) of 8%. Our Tier I and total risk based capital ratios were 9.2% and 10.4%, respectively, at June 30, 2006 compared with 9.5% and 10.8%, respectively, at December 31, 2005.

During 1992, the FDIC published the qualifications necessary to be classified as a well-capitalized bank, primarily for assignment of FDIC insurance premium rates beginning in 1993. To qualify as well-capitalized, banks must have a Tier

Table of Contents

I risk based capital ratio of at least 6%, a total risk based capital ratio of at least 10%, and a leverage ratio of at least 5%. Heritage Bank and Central Valley Bank qualified as well-capitalized at June 30, 2006.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our results of operations are highly dependent upon our ability to manage interest rate risk. We consider interest rate risk to be a significant market risk that could have a material effect on our financial condition and results of operations. In our opinion, there has not been a material change in our interest rate risk exposure since our most recent year-end at December 31, 2005.

We do not maintain a trading account for any class of financial instrument nor do we engage in hedging activities or purchase high-risk derivative instruments. Moreover, we have no material risk with foreign currency exchange rate risk or commodity price risk.

ITEM 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. We maintain controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 are recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon their evaluation of those controls and procedures, the Chief Executive and Chief Financial officers of the Company concluded that the Company's disclosure controls and procedures were adequate as of June 30, 2006.

(b) Changes in internal control over financial reporting. We made no changes in our internal controls over financial reporting that occurred during the Company's quarter ended June 30, 2006, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 1A. Risk Factors

There have been no material changes from the risk factors as previously disclosed in Item 1A to Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company has had various stock repurchase programs since March 1999. In August 2005, the Board of Directors approved a new stock repurchase plan, allowing the Company to repurchase up to 5% of the then outstanding shares, or approximately 295,000 shares over a period of eighteen months. This marked the Company's eighth stock repurchase plan. On January 25, 2006, the Board of Directors authorized an eighteen month extension to this program. During the quarter ended June 30, 2006, the Company repurchased 367 shares at an average price of \$24.50. In total, the Company has repurchased 87,539 shares at an average price of \$20.79 under this plan.

The following table sets forth information about the Company's purchases of its outstanding common stock during the quarter ended June 30, 2006.

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
April 1, 2006 - April 30, 2006		\$	5,935,138	222,578
May 1, 2006 - May 31, 2006	327	\$ 24.50	5,935,465	222,251
June 1, 2006 - June 30, 2006	40	\$ 24.50	5,935,505	222,211
Total	367	\$ 24.50	5,935,505	222,211
