EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the Committee), composed entirely of independent Directors, is responsible to our Board, and indirectly to our shareholders, for monitoring and implementing our executive compensation program. The Committee reviews and recommends executive compensation levels, stock awards and non-equity incentives for executive officers. The Committee ensures that the total compensation paid to executive officer is fair, reasonable and competitive.

Throughout this proxy statement the individuals who served as the company's Chief Executive Officer and Chief Financial Officer during fiscal year 2006, as well as the other individuals included in the Summary Compensation Table on page 19, are referred to as the named executive officers.

Compensation Philosophy and Objectives

The Committee believes that our executive compensation program should be designed and administered to provide a competitive compensation program that will enable us to attract, motivate, reward and retain executives who have the skills, education, experience and capabilities required to discharge their duties in a competent, efficient and professional manner. The Committee believes that the most effective compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns executive's interests with those of the shareholder by rewarding performance above established goals, with the ultimate objective of improving shareholder value. To that end, the Committee believes executive compensation packages provided by the Company to its executives should include both cash and stock-based compensation that reward performance as measured against established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the Chief Executive Officer, the Chief Financial Officer and all named executive officers and approves recommendations regarding equity awards to all elected officers of the Company. Decisions regarding the non-equity incentive plan compensation of other executive officers are reviewed and approved by the Committee and Chief Executive Officer.

The Committee and the Chief Executive Officer annually review the performance of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured the Company's annual and long-term incentive executive compensation to motivate executives to achieve business goals set by the Company and reward the executives for achieving such goals.

The Committee's policy is to determine the compensation components of executive compensation principally upon the basis of corporate performance, although the elements of corporate performance may vary from year to year. Among the performance factors which the Committee considers are corporate profitability, asset quality, growth and corporate performance relative to industry standards such as problem asset levels, past due loan levels, loan production, net interest rate margin and net overhead. The Committee does not use a formula to calculate the relative weight of these performance factors in establishing base salary, but does give significant subjective weight to the overall value of Colony Bankcorp from year to year.

The Committee takes into account how the overall level of Colony Bankcorp's executive compensation compares to similar-sized bank holding companies in the Southeastern United States. It was determined that the salary, non-equity incentive plans and stock awards of executive compensation was generally within competitive market limits of similar-sized bank holding companies. All other employment benefits of the named executive officers were found to be generally within competitive limits.

The Committee also considers the potential impact of Section 162(m) of the Internal Revenue Code of 1986, as amended (Section 162(m)). Section 162 (m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the Chief Executive Officer and the other named executive officers, other than compensation that is performance-based under a plan that is approved by the shareholders of the corporation and that meets certain other technical requirements. Based on these requirements, the Committee has determined that Section 162(m) will not prevent the Company from receiving a tax deduction for any of the compensation paid to executive officers.

2006 Executive Compensation Components

For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were:

base salary;

performance-based cash incentive compensation;

long-term equity stock award;

profit sharing benefits; and

perquisites and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his position and responsibility.

During its review of base salaries for executives, the Committee primarily considers:

market data provided by industry publications and surveys;

internal review of the executive's compensation, both individually and relative to other executive officers; and

individual performance of the executive.

Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility.

Performance-Based Cash Incentive Compensation

The Company provides a performance-based cash incentive plan (PBCIP) for named executive officers and other employees that is tied to a weighting factor, of which 50 percent of the cash award is based on the Company's return on equity for the Chief Executive Officer and the Chief Financial Officer and 20 percent of the cash award is based on the Company's return on equity for the named executive officers, along with other weighting factors of loan growth, problem asset reduction, net interest margin, net overhead, past due loan levels and charge-off loan levels with the reward potential within a range of 10 percent to 50 percent of base salary. The Committee can exercise its discretion to adjust the reward based on special circumstances or events occurring during the fiscal year in question.

In December of each year, the Committee sets the potential minimum, target and maximum levels for each component of the PBCIP for the next fiscal year. Payment of awards under the cash incentive plan are based upon the achievement of such objectives for the current year.

Each of the named executive officers for the fiscal year ended December 31, 2005 received the following payments in January 2006 under the PBCIP for fiscal 2005 performance.

Name	2005 PBCIP Bonus Award

Long-Term Equity Stock Award

In 2004, the Board of Directors adopted and the shareholders approved the Colony Bankcorp, Inc. 2004 Restricted Stock Grant Plan. The plan enables our Board of Directors, or a committee thereof, to grant up to 143,500 shares of Colony Bankcorp, Inc. common stock to key officers and employees of Colony Bankcorp, Inc. and our subsidiaries. The purpose of this plan is to attract, retain and develop strong management as the Company continues to expand, and to induce key individuals who render services that contribute materially to our success to remain with us for the long-term. Shares granted vest over a three year period. During the three year vesting period and under conditions set forth in Colony Bankcorp Inc. 2004 Stock Grant Plan, the shares are subject to forfeiture. In the event of a change in control of the Company, as defined in the Plan, all unvested stock grants immediately become fully vested.

The Stock Grant Plan assists the Company to:

enhance the link between the creation of stockholder value and long-term executive incentive compensation;

provide an opportunity for increased equity ownership by executives; and

maintain competitive levels of total compensation.

The Committee recommended for the Board of Directors' approval stock grant awards to be awarded for fiscal year 2006.

The contribution by the Company is allocated among the participants based on participant's total eligible compensation. The employee's interest vests over a period of seven years (effective January 1, 2007 the vesting changes to a period of six years).
