MORTON S RESTAURANT GROUP, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

July 1, 2007 and July 2, 2006

**1) Basis of Presentation**

The accompanying unaudited consolidated financial statements of Morton s Restaurant Group, Inc. and its subsidiaries (the Company, we, us and our ) have been prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

The accompanying consolidated financial statements are unaudited and include all adjustments (consisting of normal recurring adjustments and accruals) that management considers necessary for a fair presentation of its financial position and results of operations for the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the full year.

The preparation of financial statements in accordance with GAAP requires management of the Company to make estimates and assumptions relating to the amount of assets, liabilities, revenues and expenses reported during the period. Actual results could differ from those estimates.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

The Company uses a 52/53 week fiscal year which ends on the Sunday closest to January 1. Approximately every six or seven years, a 53rd week is added.

Morton s Restaurant Group, Inc. ( MRG ) was incorporated as a Delaware corporation on October 3, 1988 and until February 14, 2006 was a wholly-owned subsidiary of Morton s Holding Company, Inc. ( MHCI ), which was incorporated as a Delaware corporation on March 10, 2004 and became the direct parent of the Company on June 4, 2004. MHCI was a wholly-owned subsidiary of Morton s Holdings, LLC ( MHLLC ), a Delaware limited liability company which was formed on April 4, 2002. On February 14, 2006, MHCI was merged with and into MRG, with MRG as the surviving corporation. In accordance with Financial Accounting Standards Board s ( FASB ) Statement of Financial Accounting Standard ( SFAS ) No. 141, *Business Combinations*, this transaction represented a merger of entities under common control and accordingly MRG recognized the assets and liabilities transferred at their carrying amounts. Additionally, in accordance with SFAS No. 141, these financial statements are presented as if MHCI was merged with and into MRG at the beginning of fiscal 2006. MHCI was a holding company with no independent operations. MHCI s only significant assets, other than its investment in MRG, were a deferred tax asset and deferred financing fees associated with its 14.0% senior secured notes, which were MHCI s only significant liability. In February 2006, the Company and certain selling stockholders completed an initial public offering ( IPO ) of 6,000,000 and 3,465,000 shares of common stock, respectively, at \$17.00 per share. In March 2006, the underwriters exercised the over-allotment option to purchase 801,950 additional shares of common stock from the Company at \$17.00 per share.

## **Table of Contents**

### **2) Statements of Cash Flows**

For the purposes of the consolidated statements of cash flows, the Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Company paid interest of approximately \$1,709,000 (which includes capitalized interest of approximately \$150,000) and \$2,163,000 (which includes capitalized interest of approximately \$33,000), and income taxes, net of refunds, of approximately \$1,299,000 and \$828,000, for the six month periods ended July 1, 2007 and July 2, 2006, respectively.

### **3) Income Taxes**

The Company's effective income tax rate was 29.4% for the six month period ended July 1, 2007 compared with 27.6% for the six month period ended July 2, 2006. The tax rate for the six month period ended July 1, 2007 reflects the Company's estimated annual effective tax rate for fiscal 2007. This rate differs from the statutory rate due to the establishment of deferred tax assets relating to FICA and other tax credits, state and local taxes and the status of foreign subsidiaries.

Income taxes are accounted for in accordance with SFAS No. 109, *Accounting for Income Taxes*, which requires that deferred tax assets and liabilities be recorded based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax laws and rates. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the asset will not be realized. In July 2006, the FASB issued FASB Interpretation No. (FIN) 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*, which clarifies the accounting and disclosure for uncertain tax positions. This interpretation is effective for fiscal years beginning after December 15, 2006 and the Company has implemented this interpretation as of January 1, 2007. Previously, the Company had accounted for uncertain tax positions in accordance with SFAS No. 5, *Accounting for Contingencies*. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2003.

When the tax law requires interest and penalties to be paid on an underpayment of income taxes, the Company has recognized this expense, which is classified as tax expense in the consolidated statements of operations, in the first period the interest would begin accruing according to the provisions of the relevant tax law. This classification has been consistent in the Company's previous annual and quarterly filings. The amount of interest expense to be recognized is computed by applying the applicable statutory rate of interest to the difference between the tax position recognized in accordance with this interpretation and the amount previously taken or expected to be taken in a tax return.

Prior to the implementation of FIN 48, the Company had recorded reserves for uncertain tax positions that may become payable in future years as a result of examinations by tax authorities. At the adoption date, the Company applied FIN 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of FIN 48, the Company has determined that its accounting for uncertain tax positions is consistent with its previously recorded contingencies. The amount of unrecognized tax benefits and the related interest and penalties as of July 1, 2007 is not material to the Company's consolidated financial statements. The Company's tax contingency reserves are reviewed periodically and are adjusted as events occur that affect the estimated liability for additional taxes, such as the lapsing of applicable statutes of limitations, the conclusion of tax audits, the measurement of additional estimated liabilities based on current calculations, the identification of new tax contingencies, the release of administrative tax guidance affecting the Company's estimates of tax liabilities, or the rendering of court decisions affecting its estimates of tax liabilities.

**Table of Contents****4) Net Income (Loss) per Share**

In connection with the IPO, the Company effected a 10,098.5 for one stock split on February 6, 2006. Accordingly, all references to number of shares in the consolidated financial statements and accompanying notes for periods prior to February 6, 2006 have been adjusted to reflect the 10,098.5 for one stock split.

The shares outstanding prior to the IPO, 10,098,500 shares as adjusted for the stock split, include all shares issuable for no consideration to employees who were granted MHLLC common units pursuant to employee subscription agreements. (See Note 6).

The Company computes net income (loss) per common share in accordance with SFAS No. 128, *Earnings per Share*. Basic and diluted net income (loss) per share have been computed by dividing net income (loss) by the shares outstanding as adjusted for the 10,098.5 for one stock split. In accordance with SFAS No. 128, diluted net income per common share reflects the potential dilution from unvested restricted stock awards. In periods where losses are recorded, potentially dilutive securities would decrease the loss per common share and therefore are not added to the weighted average number of common shares outstanding. The following table sets forth the computation of basic and diluted net income (loss) per share (amounts in thousands, except share and per share amounts):

	Three month periods ended		Six month periods ended	
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006

Diluted net income (loss) per share	\$ 0.14	\$ 0.15	\$ 0.43	\$ (1.25)

**5) Comprehensive Income (Loss)**

The components of comprehensive income (loss) for the six month periods ended July 1, 2007 and July 2, 2006 are as follows (amounts in thousands):

	Six month periods ended	
	July 1, 2007	July 2, 2006
Net income (loss)	\$ 7,296	\$ (19,121)
Other comprehensive income (loss):

Total comprehensive income (loss)	\$ 7,289	\$ (19,414)

**Table of Contents****6) Stock Based Compensation***Equity Incentive Plan*

Prior to the IPO, the Company adopted the 2006 Morton's Restaurant Group, Inc. Stock Incentive Plan (the equity incentive plan). The equity incentive plan provides for the grant of stock options and stock appreciation rights and for awards of shares, restricted shares, restricted stock units and other equity-based awards to employees, officers, directors or consultants. As of July 1, 2007, the aggregate number of shares of the Company's common stock that was approved under the equity incentive plan was 1,789,000 shares. If an award granted under the equity incentive plan terminates, lapses or is forfeited before the vesting of the related shares, those shares will again be available to be granted. On February 9, 2006, prior to and in connection with the IPO, the Company granted and issued 241,500 shares of restricted stock to certain of its employees and directors pursuant to the equity incentive plan. On July 25, 2006, October 17, 2006, January 31, 2007 and May 10, 2007, the Company granted and issued 2,100 shares, 8,350 shares, 245,300 shares and 2,900 shares, respectively, of restricted stock to certain of its employees pursuant to the equity incentive plan. The weighted average grant date price for fiscal 2006 and fiscal 2007 grants were \$16.96 and \$18.68, respectively.

Activity relating to the equity incentive plan was as follows:

Unvested restricted stock outstanding as of January 1, 2006	
Granted	251,950
Vested	
Forfeited	(8,750)
Unvested restricted stock outstanding as of December 31, 2006	243,200
Granted	248,200
Vested	(46,310)
Forfeited	(2,880)
Unvested restricted stock outstanding as of July 1, 2007	442,210

As of July 1, 2007, there were 1,300,480 shares available for grant. In connection with the vesting of shares on February 9, 2007, 10,109 shares of the 46,310 shares vested were forfeited at the election of certain employees in lieu of paying employee minimum income taxes in cash. Such forfeited shares were cancelled by the Company.

Effective January 2, 2006, the Company adopted the provisions of SFAS No. 123(R), *Share-Based Payments*, which establishes the accounting for employee stock-based awards. Under the provisions of SFAS No. 123(R), stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant).

The Company recognized stock-based compensation for awards issued under the equity incentive plan in the following line items in the consolidated statements of operations (amounts in thousands):

	Three month periods ended		Six month periods ended	
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006
Restaurant operating expenses	\$ 80	\$ 39	\$ 154	\$ 61
General and administrative expenses	307	144	587	226
Marketing and promotional expenses	12	6	24	10
Stock-based compensation expense before income tax benefit	399	189	765	297
Income tax benefit	(148)	(72)	(283)	(113)
Net compensation expense	\$ 251	\$ 117	\$ 482	\$ 184

**Table of Contents**

Stock-based compensation expense, net of related income taxes, resulted in a decrease of \$0.01 and \$0.01 in basic and diluted net income per share, respectively, for the three month period ended July 1, 2007. Stock-based compensation expense, net of related income taxes, resulted in a decrease of \$0.03 and \$0.03 in basic and diluted net income per share, respectively, for the six month period ended July 1, 2007. Stock-based compensation expense, net of related income taxes, resulted in a decrease of \$0.01 and \$0.01 in basic and diluted net income per share, respectively, for the three month period ended July 2, 2006. Stock-based compensation expense, net of related income taxes, resulted in an increase of \$0.01 and \$0.01 in basic and diluted net loss per share, respectively, for the six month period ended July 2, 2006.

As of July 1, 2007, total remaining unrecognized compensation expense related to unvested stock-based payment awards, net of estimated forfeitures, was \$6,657,000. This cost will be recognized over a five year vesting period from the applicable grant date.

*Employee Subscription Agreements*

In prior years, certain of the Company's executives and other employees were granted common units of MHLIC, which represented an ownership interest in MHLIC, pursuant to employee subscription agreements. Common units granted to an employee pursuant to employee subscription agreements were granted at no cost to the employee. These common units were subject to vesting. Fifty percent of the granted common units were time-vesting common units and vested upon certain dates if the employee was employed as of such date. However, if the employee had been continuously employed by the Company from the date of grant to the date of a change of control, any unvested time vesting units immediately vested simultaneously with the consummation of the change of control.

In addition, fifty percent of the granted common units vested upon certain change of control or liquidation events if the employee was employed as of such date. In February 2006, the unvested 994,733 MHLIC common units vested prior to the IPO. In connection with the vesting of the 994,733 MHLIC common units, the Company recorded compensation expense of approximately \$488,000 during February 2006. The MHLIC common units entitled the holder thereof to receive shares of the Company's common stock in a distribution by MHLIC that was effected prior to the IPO. The distribution of shares of the Company's common stock to the holders of the MHLIC common units was made using outstanding shares of the Company's common stock that were owned by MHLIC and therefore did not involve the issuance of new shares of the Company's common stock. Employees received one share of the Company's common stock for approximately 2.7 MHLIC common units held by them.

**7) Financial Information about Geographic Areas**

Income (loss) before income taxes for the Company's domestic and foreign operations are as follows (amounts in thousands):

	Three month periods ended		Six month periods ended	
	July 1, 2007	July 2, 2006	July 1, 2007	July 2, 2006

<b>Total</b>	<b>\$ 3,224</b>	<b>\$ 4,009</b>	<b>\$ 10,339</b>	<b>\$ (26,423)</b>

**8) Restaurant Activity**

During February 2007, a new Morton's steakhouse was opened in San Jose, California. With the exception of the Morton's steakhouse in New Orleans, which was temporarily closed from August 28, 2005 until January 12, 2006 due to the effects of Hurricane Katrina, no Morton's steakhouses were closed during the six month periods ended July 1, 2007 and July 2, 2006.

## **Table of Contents**

The Company has entered into leases to open new Morton's steakhouses in Annapolis, MD; Boston (Seaport District), MA; Cincinnati, OH; Coral Gables, FL; Kansas City (Overland Park/Leawood), KS; Naperville, IL; Woodland Hills, CA and Macau, China.

During January 2006, the Company signed a new long-term lease with respect to its then-existing Bertolini's restaurant located at the Fountain of Gods at the Forum Shops at Caesars Palace in Las Vegas, Nevada. In conjunction with the new lease, the Bertolini's restaurant was closed on September 15, 2006 for renovations and replaced by Trevi, a new Italian restaurant that opened at this location on February 2, 2007. During the construction period, the Company incurred rent expense, utility expense and other fixed costs and construction costs with respect to the lease of this restaurant and it also lost the revenues that would have been generated had the existing restaurant remained open, all of which adversely affected its results of operations. During the six month period ended July 1, 2007, the Company incurred pre-opening expenses and other fixed costs of approximately \$421,000 relating to this new lease. There were no comparable costs recorded during the six month period ended July 2, 2006.

### **9) Legal Matters and Contingencies**

Since August 2002, a number of the Company's current and former employees in New York, Massachusetts and Florida have initiated arbitrations with the American Arbitration Association in their respective states alleging that the Company has violated state (Massachusetts arbitration), state and federal (New York arbitrations) and federal (Florida arbitrations) wage and hour laws regarding the sharing of tips with other employees. The Florida case is proceeding as a collective action with approximately 25 claimants. There are two group arbitrations pending in New York. In the first, the arbitrator has permitted the approximately 88 claimants to consolidate their arbitrations into one action and proceed as a collective action. The arbitrator has rendered a decision that the wage and hour laws have been willfully violated, but there has been no determination as to damages or attorneys' fees. The Company has moved to vacate that decision. At this time, it is not possible to predict the outcome of the motion to vacate. The claimants in New York are seeking an aggregate of approximately \$1,700,000 in damages, exclusive of liquidated damages and interest, and \$1,000,000 in attorneys' fees. The second New York arbitration was filed in October 2006 and contains similar allegations. There are four named claimants in this arbitration proceeding. The claimants seek to represent a class of current and former employees from the Morton's steakhouses in New York, Midtown Manhattan, Great Neck and White Plains, for a six year time period. In Massachusetts, the arbitrator has ruled that the claimants may proceed as a class, but to date, there are only three people in the class and the arbitrator has ruled that there would be no automatic certification. The parties are briefing the certification issue. In general, the claimants are seeking restitution of tips, the difference between the tip credit wage and the minimum wage, liquidated damages and attorneys' fees and costs. The Company is contesting these matters vigorously. The claimants in Florida and Massachusetts have not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the claimants.

In November 2004, current and former employees of the Sacramento, California Morton's steakhouse commenced a state lawsuit in the Superior Court of the State of California, County of Sacramento, asserting individual, representative and class claims against the Sacramento Morton's steakhouse and several other Morton's steakhouses. The plaintiffs asserted claims based on the Company's alleged failure to provide them with meal and rest periods, and for unlawful tip sharing and unfair competition. The plaintiffs seek restitution of tips, meal period compensation and attorneys' fees. The plaintiffs have not stated the amount of damages they seek and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the plaintiffs. Dismissals with prejudice for all defendants, except the Sacramento Morton's steakhouse, were granted. The claims against the Sacramento Morton's steakhouse have been moved to arbitration.

**Table of Contents**

In May 2005, a former employee of the Boston, Massachusetts Morton's steakhouse filed a nationwide class action complaint in federal court in the United States District Court, District of Massachusetts, alleging that the sharing of tips with other restaurant employees violates the Fair Labor Standards Act. The Company moved to dismiss the complaint and compel arbitration. While the motion was pending, the plaintiff filed a nationwide collective action demand for arbitration with the American Arbitration Association. The demand for arbitration alleges the same facts as the lawsuit filed in federal court. The Company's motion to dismiss was granted and the matter is moving forward as an arbitration. On January 13, 2006, the original claimant sought to add a second claimant, a former employee of the Portland and Phoenix restaurants. The arbitrator has ruled that a nationwide class, except for New York, Minnesota, Kentucky, California and Florida, could be certified and an additional class representative could be added. The Company intends to file a motion to vacate this decision. The plaintiff has not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the plaintiff.

In March 2006, a former employee of the Burbank, California Morton's steakhouse filed a class and collective action in Superior Court in Los Angeles, California alleging that the sharing of tips with other restaurant employees violates federal and state laws. The case was brought on behalf of all current and former California servers for a four-year period. The Company moved to dismiss the action and its motion was granted. The plaintiff has appealed. The plaintiff has not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to estimate the damages sought by the plaintiff, or what the ultimate outcome of the appeal will be.

The Company is involved in various other claims and legal actions arising in the ordinary course of business. The Company does not believe that the ultimate resolution of these actions will have a material adverse effect on the Company's financial condition. However, an adverse judgment by a court or arbitrator or a settlement could adversely impact the Company's results of operations in any given period.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations*****Three Month Period Ended July 1, 2007 (13 weeks) compared to Three Month Period Ended July 2, 2006 (13 weeks) and Six Month Period Ended July 1, 2007 (26 weeks) compared to Six Month Period Ended July 2, 2006 (26 weeks)***

Our net income decreased \$0.2 million, or 8.3%, to \$2.3 million for the three month period ended July 1, 2007 from \$2.5 million for the three month period ended July 2, 2006. Our net income for the six month period ended July 1, 2007 was \$7.3 million compared to our net loss of \$19.1 million for the six month period ended July 2, 2006. The change is due in part to the impact of new restaurants, net of the related food and beverage costs, as discussed below. In addition, during the six month period ended July 2, 2006, in connection with our IPO, we incurred costs associated with the repayment of certain debt and costs associated with the termination of our management agreement aggregating approximately \$36.4 million. For purposes of this discussion, comparable restaurants refer to restaurants open for all of the six month periods ended July 1, 2007 and July 2, 2006.

We believe we may incur a net loss in the third quarter of fiscal 2007 due to the seasonality of our business, with revenues generally being less in the third quarter primarily due to our reduced summer volume. Additionally, due to the timing and the concentration of anticipated new restaurant development, we expect to incur higher pre-opening costs in the third quarter and less in the fourth quarter of fiscal 2007 versus the comparable fiscal quarters of 2006.

Revenues increased \$7.6 million, or 9.8%, to \$85.6 million for the three month period ended July 1, 2007 from \$78.0 million for the three month period ended July 2, 2006. Revenues increased \$4.5 million due to the opening of five new restaurants (one in the three month period ended April 1, 2007 and four in fiscal 2006). Revenues increased \$3.1 million due to an increase in revenues from comparable restaurants. Revenues increased due to gift card breakage income of \$0.2 million. There was no gift card breakage income recorded during the three month period ended July 2, 2006. Revenues relating to our Italian restaurant in Las Vegas, Nevada, which was temporarily closed for renovation of our Bertolini's restaurant and reopened as Trevi on February 2, 2007, decreased \$0.2 million. Average revenue per restaurant open all of either period being compared increased 3.9%. Revenues for the three month period ended July 1, 2007 also reflect the impact of aggregate menu price increases of approximately 0.5% in June 2006, 2.0% in December 2006 and 2.0% in June 2007 and the impact of a menu price increase at our Bertolini's restaurants of approximately 2.0% in April 2007.

Revenues increased \$13.4 million, or 8.3%, to \$174.5 million for the six month period ended July 1, 2007 from \$161.1 million for the six month period ended July 2, 2006. Revenues increased \$9.7 million due to the opening of five new restaurants (one in the six month period ended July 1, 2007 and four in fiscal 2006). Revenues increased \$3.4 million due to an increase in revenues from comparable restaurants. Revenues increased due to gift card breakage income of \$1.1 million, including \$0.7 million related to expired gift certificates, recorded during the three month period ended April 1, 2007. There was no gift card breakage income recorded during the six month period ended July 2, 2006. Revenues relating to the Morton's steakhouse in New Orleans, Louisiana, which was closed from August 28, 2005 to January 12, 2006, increased \$0.5 million. Revenues relating to our Italian restaurant in Las Vegas, Nevada decreased \$1.5 million primarily due to the temporary closing for renovation of our Bertolini's restaurant which reopened as Trevi on February 2, 2007. Average revenue per restaurant open all of either period being compared increased 0.2%. Revenues for the six month period ended July 1, 2007 also reflect the impact of aggregate menu price increases of approximately 0.5% in February 2006, 0.5% in June 2006, 2.0% in December 2006 and 2.0% in June 2007 and the impact of a menu price increase at our Bertolini's restaurants of approximately 8.0% in February 2006 and 2.0% in April 2007.

**Table of Contents**

Percentage changes in restaurant revenues for the three and six month periods ended July 1, 2007 versus the three and six month periods ended July 2, 2006 for comparable restaurants were as follows:

	<b>Percentage Change</b>	<b>Percentage Change</b>
	<b>Three month period ended July 1, 2007 (13 weeks) vs. Three month period ended July 2, 2006 (13 weeks)</b>	<b>Six month period ended July 1, 2007 (26 weeks) vs. Six month period ended July 2, 2006 (26 weeks)</b>
Morton s	4.4%	2.4%
Bertolini s	(1.2)%	(2.3)%
Total	4.3%	2.3%

Food and beverage costs increased \$3.0 million, or 11.9%, to \$28.4 million for the three month period ended July 1, 2007 from \$25.4 million for the three month period ended July 2, 2006. These costs increased \$5.5 million, or 10.3%, to \$58.5 million for the six month period ended July 1, 2007 from \$53.0 million for the six month period ended July 2, 2006. These increases were primarily due to the opening of five additional restaurants (one in the three month period ended April 1, 2007 and four in fiscal 2006). These costs as a percentage of revenues increased by 0.6% to 33.2% for the three month period ended July 1, 2007 from 32.6% for the three month period ended July 2, 2006 and increased by 0.6% to 33.5% for the six month period ended July 1, 2007 from 32.9% for the six month period ended July 2, 2006. These increases were due to higher food costs.

Restaurant operating expenses, which include labor, occupancy and other operating expenses, increased \$3.7 million, or 9.9%, to \$41.2 million for the three month period ended July 1, 2007 from \$37.5 million for the three month period ended July 2, 2006. These costs increased \$6.6 million, or 8.8%, to \$81.9 million for the six month period ended July 1, 2007 from \$75.3 million for the six month period ended July 2, 2006. These increases were primarily due to increased wages and benefits as well as increased utility costs and rent expense. Included in the three month periods ended July 1, 2007 and July 2, 2006 is non-cash rent recorded in accordance with SFAS No. 13 of \$0.1 million and \$0.3 million, respectively. Included in the six month periods ended July 1, 2007 and July 2, 2006 is non-cash rent recorded in accordance with SFAS No. 13 of \$0.2 million and \$0.6 million, respectively. Restaurant operating expenses as a percentage of revenues increased 0.1% to 48.1% for the three month period ended July 1, 2007 from 48.0% for the three month period ended July 2, 2006 and increased 0.2% to 46.9% for the six month period ended July 1, 2007 from 46.7% for the six month period ended July 2, 2006.

Pre-opening costs increased \$0.5 million to \$0.8 million for the three month period ended July 1, 2007 from \$0.3 million for the three month period ended July 2, 2006. These costs increased \$0.9 million to \$1.8 million for the six month period ended July 1, 2007 from \$0.9 million for the six month period ended July 2, 2006. We expense all costs incurred during restaurant start-up activities, including pre-opening costs, as incurred. The number of restaurants opened, the timing of restaurant openings and the costs per restaurant opened affected the amount of these costs.

Depreciation and amortization increased \$0.7 million, or 35.8%, to \$2.6 million for the three month period ended July 1, 2007 from \$1.9 million for the three month period ended July 2, 2006. Depreciation and amortization increased \$1.3 million, or 35.8%, to \$4.9 million for the six month period ended July 1, 2007 from \$3.6 million for the six month period ended July 2, 2006. The increases in depreciation and amortization relate to new restaurants and capital expenditures related to renovations to existing restaurants.

**Table of Contents**

General and administrative expenses decreased \$0.1 million, or 1.0%, to \$6.1 million for the three month period ended July 1, 2007 from \$6.2 million for the three month period ended July 2, 2006. These costs as a percentage of revenues decreased 0.8% to 7.1% for the three month period ended July 1, 2007 from 7.9% for the three month period ended July 2, 2006. These decreases were primarily due to a decrease in travel expenses and legal and professional costs partially offset by increased salary, bonus, stock-based compensation and benefit costs. General and administrative expenses increased \$0.1 million, or 1.3%, to \$11.4 million for the six month period ended July 1, 2007 from \$11.2 million for the six month period ended July 2, 2006. These costs as a percentage of revenues decreased 0.5% to 6.5% for the six month period ended July 1, 2007 from 7.0% for the six month period ended July 2, 2006.

Marketing and promotional expenses increased \$0.5 million, or 28.6%, to \$2.4 million for the three month period ended July 1, 2007 from \$1.8 million for the three month period ended July 2, 2006. These costs increased \$0.8 million, or 26.8%, to \$3.8 million for the six month period ended July 1, 2007 from \$3.0 million for the six month period ended July 2, 2006. These costs as a percentage of revenues increased 0.4% to 2.8% for the three month period ended July 1, 2007 from 2.4% for the three month period ended July 2, 2006 and increased 0.3% to 2.2% for the six month period ended July 1, 2007 from 1.9% for the six month period ended July 2, 2006. These increases were primarily due to an increase in public relations costs.

Stock compensation expense associated with the IPO was \$0.5 million for the six month period ended July 2, 2006. This represents a one-time charge relating to the vesting of MHLLC common units granted to certain employees prior to the IPO.

Management fee paid to related party was \$0.4 million for the six month period ended July 2, 2006. We paid this fee pursuant to MHLLC's management agreement with Castle Harlan, Inc. The management agreement was terminated in conjunction with our IPO in February 2006.

Costs associated with the repayment of certain debt of \$28.0 million for the six month period ended July 2, 2006 represents (1) a prepayment penalty of approximately \$11.5 million in connection with the repayment of all of our then-outstanding 7.5% senior secured notes, (2) a prepayment penalty of approximately \$9.4 million in connection with the repayment of all of MHCI's then-outstanding 14.0% senior secured notes, (3) approximately \$0.9 million of investment banking and legal fees in connection with the tender offer for our 7.5% senior secured notes and the repurchase of MHCI's 14.0% senior secured notes, (4) the write-off of deferred financing and other costs relating to our 7.5% senior secured notes, MHCI's 14.0% senior secured notes and our prior working capital facility of approximately \$6.0 million and (5) approximately \$0.2 million of fees related to the termination of our prior working capital facility in connection with the IPO.

Costs associated with the termination of the management agreement of \$8.4 million for the six month period ended July 2, 2006 represent a fee relating to the termination of MHLLC's management agreement with Castle Harlan, Inc. in conjunction with the IPO.

Interest expense, net remained consistent at \$0.9 million for the three month periods ended July 1, 2007 and July 2, 2006. Interest expense, net decreased \$1.3 million, or 41.0%, to \$1.8 million for the six month period ended July 1, 2007 from \$3.1 million for the six month period ended July 2, 2006. This decrease is due to the repayment of the 7.5% senior secured notes and MHCI's 14.0% senior secured notes in connection with the IPO, partially offset by the interest relating to borrowings under our senior revolving credit facility. There was no interest income for the three and six month periods ended July 1, 2007. Interest income was not significant for the three and six month periods ended July 2, 2006.

## Table of Contents

Provision for income taxes consisted of an income tax expense of \$3.0 million for the six month period ended July 1, 2007 and an income tax benefit of \$7.3 million for the six month period ended July 2, 2006. Our effective tax rate of 29.4% for the six month period ended July 1, 2007 differs from the statutory rate due to the establishment of additional deferred tax assets relating to FICA and other tax credits, state and local taxes and the status of foreign subsidiaries. Our effective tax rate of 27.6% for the six month period ended July 2, 2006, differs from the statutory rate due to the establishment of additional deferred tax assets relating to FICA and other tax credits, state and local taxes, non-deductible interest and the status of foreign subsidiaries.

## Liquidity and Capital Resources

Our principal liquidity requirements are to meet our lease obligations and working capital and capital expenditure needs and to pay principal and interest on our debt. Subject to our operating performance, which, if significantly adversely affected, would adversely affect the availability of funds, we expect to finance our operations, including costs of opening currently planned new restaurants, for at least the next several years through cash provided by operations and through borrowings available under our senior revolving credit facility. We cannot be sure, however, that this will be the case and we may seek additional financing in the future. In addition, we rely to a significant degree on landlord contributions as a means of financing the costs of opening new restaurants, and any substantial reduction in the amount of those contributions could adversely affect our liquidity. As of July 1, 2007, we had cash and cash equivalents of \$3.2 million compared to \$6.3 million as of December 31, 2006.

### *Working Capital and Cash Flows*

As of July 1, 2007, we had and in the future we may have, a negative working capital balance. We do not have significant receivables and we receive trade credit based upon negotiated terms in purchasing food and supplies. Funds available from cash sales not needed immediately to pay for current expenses, which consist primarily of food and supplies, rent and payroll, historically have been used for noncurrent capital expenditures and or to repay debt.

### *Operating Activities*

Cash flows provided by operating activities for the six month period ended July 1, 2007 were \$10.5 million, consisting primarily of net income before depreciation and amortization of \$13.7 million partially offset by a decrease in accounts payable, accrued expenses and other liabilities of \$4.0 million.

### *Investing Activities*

Cash flows used in investing activities for the six month period ended July 1, 2007 were \$19.8 million due to purchases of property and equipment.

### *Financing Activities*

Cash flows provided by financing activities for the six month period ended July 1, 2007 were \$6.3 million, primarily consisting of borrowings under our senior revolving credit facility of \$6.5 million.

### *Debt and Other Obligations*

#### *Senior Revolving Credit Facility*

On February 14, 2006, we entered into a \$115.0 million senior revolving credit facility with Wachovia Bank, N.A. Our senior revolving credit facility matures on February 14, 2011. As of July 1, 2007,

## **Table of Contents**

we had outstanding borrowings of approximately \$50.3 million under our senior revolving credit facility at a weighted average interest rate of 6.13% and approximately \$0.1 million was restricted for letters of credit. As of July 1, 2007, we were in compliance with all of our financial covenants.

### *Previously Outstanding 7.5% Senior Secured Notes*

On July 7, 2003, we completed a private offering of \$105.0 million in aggregate principal amount at maturity of 7.5% senior secured notes due July 1, 2010. The notes were issued at a discount of 15% and a yield to maturity of 12.005%. On February 14, 2006, in connection with the IPO, we repaid these notes.

### *Prior Working Capital Facility*

On July 7, 2003, we entered into a \$15.0 million senior secured working capital facility with Wells Fargo Foothill, Inc. On February 14, 2006, in connection with the IPO, we terminated this facility.

### *MHCI's Previously Outstanding 14.0% Senior Secured Notes*

On June 4, 2004, MHCI completed an offering of \$40.0 million of its 14.0% senior secured notes due December 30, 2010. On February 14, 2006, in connection with the IPO, we repaid these notes.

### *Mortgages*

During 1998 and 1999, certain of our subsidiaries entered into a total of six mortgage loans with GE Capital Franchise Finance aggregating \$18.9 million with interest rates ranging from 7.68% to 9.26% per annum, the proceeds of which were used to fund the purchases of land and construction of restaurants. We repaid five of these mortgage loans during fiscal 2003, fiscal 2004 and fiscal 2005. On July 1, 2007 and December 31, 2006, the aggregate outstanding principal balance due on the remaining mortgage loan was approximately \$3.4 million and \$3.5 million, respectively, of which approximately \$0.1 million and \$0.1 million, respectively, of principal is included in Current portion of obligation to financial institution in the accompanying consolidated balance sheets. The remaining mortgage loan outstanding as of July 1, 2007 bears interest at 8.98% and is scheduled to mature in March 2021. As of July 1, 2007, we were in compliance with all of our financial covenants.

### *Restaurant Operating Leases*

Our obligations for restaurant operating leases include certain restaurant operating leases for which we, or one of our subsidiaries, guarantees, for a portion of the lease term, the performance of the lease by the operating company that is a party thereto.

**Table of Contents***Contractual Commitments*

The following table represents our contractual commitments associated with our debt and other obligations disclosed above as of July 1, 2007:

	Remainder of 2007	2008	2009	2010	2011	Thereafter	Total
(amounts in thousands)							
Senior revolving credit facility, including interest (a)	\$ 1,543	\$ 3,086	\$ 3,086	\$ 3,086	\$ 50,686	\$	\$ 61,487

Operating leases	12,493	25,907	25,758	26,215	24,832	174,109	289,314
Purchase commitments	23,686						23,686
Letters of credit (b)	112						112
<b>Total</b>	<b>\$ 38,051</b>	<b>\$ 29,428</b>	<b>\$ 29,279</b>	<b>\$ 29,736</b>	<b>\$ 75,953</b>	<b>\$ 178,135</b>	<b>\$ 380,582</b>

(a) Interest is based on borrowings as of July 1, 2007 and current interest rates.

(b) Letter of credit was cancelled as of July 3, 2007.

During the first six months of fiscal 2007, our net investment in fixed assets and related investment costs, including pre-opening costs, approximated \$21.6 million. We estimate that we will spend up to approximately \$32.5 million in fiscal 2007, including the \$21.6 million recorded in the first six months of fiscal 2007, to finance ordinary refurbishment of existing restaurants, remodel the bar area in selected restaurants to include our Bar 12:21 concept, add additional Boardrooms in selected restaurants and make capital expenditures for new restaurants. Capital expenditures are expected to be reduced by landlord development allowances of approximately \$6.8 million. We anticipate that funds generated through operations and through borrowings under our senior revolving credit facility, together with landlord contributions, will be sufficient to fund these currently planned expenditures through the end of fiscal 2007. We cannot be sure, however, that this will be the case.

**New Accounting Standards**

In September 2006, the Securities and Exchange Commission ( SEC ) released Staff Accounting Bulletin ( SAB ) 108, providing interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. Based on this guidance, the SEC staff believes that registrants should quantify errors using both a balance sheet and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material.

In July 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation No. ( FIN ) 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*, which clarifies the accounting and disclosure for uncertain tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company has implemented this interpretation as of January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company's consolidated financial statements.

### **Forward-Looking Statements**

This quarterly report contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements, written, oral or otherwise made, represent the Company's expectation or belief concerning future events. Without limiting the foregoing, the words believes, thinks, anticipates, plans, expects, and similar expressions are intended to identify forward-looking statements. The Company cautions that these statements are further qualified by important economic and competitive factors that could cause actual results to differ materially, or otherwise, from those in the forward-looking statements, including, without limitation, risks of the restaurant industry, including a highly competitive environment and industry with many well-established competitors with greater financial and other resources than the Company, the impact of changes in consumer tastes, local, regional and national economic and market conditions, restaurant profitability levels, expansion plans, timely construction and opening of new restaurants, the Company's liquidity and capital resources, prevailing interest rates, legal and regulatory matters, demographic trends, traffic patterns, employee availability, benefits and cost increases, product safety and availability, government regulation, the Company's ability to maintain adequate financing facilities and other risks detailed in the Company's most recent Form 10-K and in this and the Company's other reports filed from time to time with the SEC. In addition, the Company's ability to expand is dependent upon various factors, such as the availability of attractive sites for new restaurants, the ability to negotiate suitable lease terms, the ability to generate or borrow funds to develop new restaurants and obtain various government permits and licenses and the recruitment and training of skilled management and restaurant employees. Other unknown unpredictable factors also could harm the Company's results. Consequently, there can be no assurance that actual results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are subject to market risk relating primarily to interest rates and changes in foreign currency exchange rates.

We are subject to market risk from exposure to changes in interest rates based on our financing activities. This exposure relates to borrowings under our senior revolving credit facility that are payable at floating rates of interest. Our other indebtedness, our mortgage, is payable at a fixed rate of interest. As of July 1, 2007, there were borrowings outstanding under our floating rate senior revolving credit facility of approximately \$50.3 million. As a result, a hypothetical 10% fluctuation in interest rates would have a \$0.1 million impact on earnings for the six month period ended July 1, 2007.

As of July 1, 2007, we owned and operated four international restaurants, one in Hong Kong, one in Singapore, one in Toronto, Canada and one in Vancouver, Canada, and have signed a lease for a new Morton's steakhouse in Macau, China. As a result, we are subject to risk from changes in foreign exchange rates. These changes result in cumulative translation adjustments, which are included in accumulated other comprehensive income (loss). We do not consider the potential loss resulting from a hypothetical 10% adverse change in quoted foreign currency exchange rates, as of July 1, 2007, to be material.

**Item 4. Controls and Procedures**

As of the end of the period covered by this report, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined under the SEC rules) was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer. The Company's disclosure controls and procedures are designed to ensure that information that the Company must disclose in its reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based upon their evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of July 1, 2007. No changes were made in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

**Part II - Other Information**

**Item 1. Legal Proceedings**

Since August 2002, a number of the Company's current and former employees in New York, Massachusetts and Florida have initiated arbitrations with the American Arbitration Association in their respective states alleging that the Company has violated state (Massachusetts arbitration), state and federal (New York arbitrations) and federal (Florida arbitrations) wage and hour laws regarding the sharing of tips with other employees. The Florida case is proceeding as a collective action with approximately 25 claimants. There are two group arbitrations pending in New York. In the first, the arbitrator has permitted the approximately 88 claimants to consolidate their arbitrations into one action and proceed as a collective action. The arbitrator has rendered a decision that the wage and hour laws have been willfully violated, but there has been no determination as to damages or attorneys' fees. The Company has moved to vacate that decision. At this time, it is not possible to predict the outcome of the motion to vacate. The claimants in New York are seeking an aggregate of approximately \$1.7 million in damages, exclusive of liquidated damages and interest, and \$1.0 million in attorneys' fees. The second New York arbitration was filed in October 2006 and contains similar allegations. There are four named claimants in this arbitration proceeding. The claimants seek to represent a class of current and former employees from the Morton's steakhouses in New York, Midtown Manhattan, Great Neck and White Plains, for a six year time period. In Massachusetts, the arbitrator has ruled that the claimants may proceed as a class, but to date, there are only three people in the class and the arbitrator has ruled that there would be no automatic certification. The parties are briefing the certification issue. In general, the claimants are seeking restitution of tips, the difference between the tip credit wage and the minimum wage, liquidated damages and attorneys' fees and costs. The Company is contesting these matters vigorously. The claimants in Florida and Massachusetts have not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the claimants.

In November 2004, current and former employees of the Sacramento, California Morton's steakhouse commenced a state lawsuit in the Superior Court of the State of California, County of Sacramento, asserting individual, representative and class claims against the Sacramento Morton's steakhouse and several other Morton's steakhouses. The plaintiffs asserted claims based on the Company's alleged failure to provide them with meal and rest periods, and for unlawful tip sharing and unfair competition. The plaintiffs seek restitution of tips, meal period compensation and attorneys' fees. The plaintiffs have not stated the amount of damages they seek and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the plaintiffs. Dismissals with prejudice for all defendants, except the Sacramento Morton's steakhouse, were granted. The claims against the Sacramento Morton's steakhouse have been moved to arbitration.

In May 2005, a former employee of the Boston, Massachusetts Morton's steakhouse filed a nationwide class action complaint in federal court in the United States District Court, District of Massachusetts, alleging that the sharing of tips with other restaurant employees violates the Fair Labor Standards Act. The Company moved to dismiss the complaint and compel arbitration. While the motion was pending, the plaintiff filed a nationwide collective action demand for arbitration with the American Arbitration Association. The demand for arbitration alleges the same facts as the lawsuit filed in federal court. The Company's motion to dismiss was granted and the matter is moving forward as an arbitration. On January 13, 2006, the original claimant sought to add a second claimant, a former employee of the Portland and Phoenix restaurants. The arbitrator has ruled that a nationwide class, except for New York, Minnesota, Kentucky, California and Florida, could be certified and an additional class representative could be added. The Company intends to file a motion to vacate this decision. The plaintiff has not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to state the estimated damages sought by the plaintiff.

In March 2006, a former employee of the Burbank, California Morton's steakhouse filed a class and collective action in Superior Court in Los Angeles, California alleging that the sharing of tips with other restaurant employees violates federal and state laws. The case was brought on behalf of all current and former California servers for a four-year period. The Company moved to dismiss the action and its motion was granted. The plaintiff has appealed. The plaintiff has not stated the amount of damages sought and, at this stage of the proceedings, it is not possible to estimate the damages sought by the plaintiff, or what the ultimate outcome of the appeal will be.

The Company is involved in various other claims and legal actions arising in the ordinary course of business. The Company does not believe that the ultimate resolution of these actions will have a material adverse effect on the Company's financial condition. However, an adverse judgment by a court or arbitrator or a settlement could adversely impact the Company's results of operations in any given period.

**Item 1A. Risk Factors**

There are no material changes to the risk factors disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

**Item 4. Submission of Matters to a Vote of Security Holders**

On May 10, 2007, the Company held its Annual Meeting of Stockholders.

Four directors were elected at the Annual Meeting to serve until the 2010 Annual Meeting of Stockholders and until their successors have been elected and qualified. The names of these directors and votes cast in favor of their election and shares withheld are as follows:

Name	Votes For	Votes Withheld
Dr. John J. Connolly	14,263,532	493,313
Mr. Robert A. Goldschmidt	11,085,792	3,671,053
Mr. Alan A. Teran	11,087,080	3,669,765
Mr. Justin B. Wender	13,882,243	874,602

In addition, the appointment of KPMG LLP as independent auditors of the Company was ratified as follows: 10,049,494 shares were voted for the ratification, 4,705,987 shares were voted against and 1,363 shares were withheld.
