PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

The accompanying proxy is solicited by the Board of Directors of Jamba, Inc., a Delaware corporation (Jamba, Company, we, us, and our), use at its 2008 Annual Meeting of Stockholders to be held on May 28, 2008, or any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. This proxy statement and the enclosed proxy are being mailed to stockholders on or about April 25, 2008.

SOLICITATION AND VOTING

Voting Securities. Only stockholders of record as of the close of business on April 11, 2008 will be entitled to vote at the meeting and any postponement or adjournment thereof. As of that time, we had 52,740,256 shares of Common Stock outstanding, all of which are entitled to vote with respect to all matters to be acted upon at the Annual Meeting. Each stockholder of record as of that date is entitled to one vote for each share of Common Stock held by him or her. Our Bylaws provide that the holders of a majority of the capital stock issued and outstanding and entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum at all meetings of the stockholders for the transaction of business except as otherwise provided by statute or by our Certificate of Incorporation. Our current Certificate of Incorporation does not have any other requirements for a quorum of the stockholders. Votes for and against, abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum.

Broker Non-Votes. A broker non-vote occurs when a broker submits a proxy card with respect to shares held in a fiduciary capacity (typically referred to as being held in street name) but declines to vote on a particular matter because the broker has not received voting instructions from the beneficial owner. Under the rules that govern brokers who are voting with respect to shares held in street name, brokers have the discretion to vote such shares on routine matters, but not on non-routine matters. Routine matters include the election of directors, increases in authorized common stock for general corporate purposes and ratification of selection of auditors. Non-routine matters include amendments to stock plans.

Solicitation of Proxies. We will bear the cost of soliciting proxies. In addition to soliciting stockholders by mail through our employees, we will request banks, brokers and other custodians, nominees and fiduciaries to solicit customers for whom they hold our stock and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our employees, officers, directors and others to solicit proxies, personally or by telephone, without additional compensation.

Voting of Proxies. Stockholders whose shares are registered in their own names may vote (1) by returning a proxy card, (2) via the Internet at www.proxyvote.com, or (3) by telephone at 1-800-690-6903. Specific instructions to be followed by any registered stockholder interested in voting via the Internet or by telephone are set forth on the enclosed proxy card. The Internet and telephone voting procedures are designed to authenticate the stockholder s identity and to allow the stockholders to vote his or her shares and confirm that his or her voting instructions have been properly recorded. If you do not wish to vote via the Internet or telephone, please complete, sign and return the proxy card in the self-addressed, postage paid envelope provided.

All valid proxies received before the meeting will be exercised. All shares represented by a proxy will be voted, and where a proxy specifies a stockholder s choice with respect to any matter to be acted upon, the shares will be voted in accordance with that specification. If no choice is indicated on the proxy, the shares will be voted in favor of the proposal. A stockholder whose shares are registered in their own name has the power to revoke his or her proxy at any time before it is exercised by delivering to the Secretary of the Company a written instrument revoking the proxy or a duly executed proxy with a later date, or by attending the meeting and voting in person. If you hold shares in street name, through a bank, broker or other nominee, please contact the bank, broker or other nominee to revoke your proxy.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

In accordance with our bylaws, our Board of Directors has set its size at 9 members; there are currently 9 members. The terms of the current directors expire upon the election and qualification of the directors to be elected at the 2008 Annual Meeting. Craig J. Foley, a current director, has notified the board that he has decided not to stand for re-election. The board has nominated each of the other eight directors for re-election at the Annual Meeting to serve until the 2009 Annual Meeting of Stockholders and until their successors are elected and qualified. Set forth below is information regarding the nominees to the Board of Directors for election as a director.

Each nominee has agreed to be named in this proxy statement and to serve if elected. If any of the nominees declines to serve or becomes unavailable for any reason, or if a vacancy occurs before the election (although we know of no reason to anticipate that this will occur), the proxies may be voted for such substitute nominee(s) as we may designate.

If a quorum is present and voting, each of the eight nominees receiving a higher number of votes cast for such nominee than against such nominee will be elected. Proxies cannot be voted for more than eight nominees. Abstentions, broker non-votes and withheld votes will have no effect on the outcome of the vote. Under our Bylaws, if an incumbent director is not elected, the director shall tender his or her resignation to the Board of Directors. The Nominating and Corporate Governance Committee will make a recommendation to the Board of Directors on whether to accept or reject such director's resignation. The Board of Directors will act on the Nominating and Corporate Governance Committee's recommendation and publicly disclose its decision and the rationale behind it within 90 days from the date of the certification of the election results. The Nominating and Corporate Governance Committee in making its recommendation and the Board of Directors in making its decision may each consider any factors or other information that they consider appropriate and relevant. The director who tenders his or her resignation will not participate in the recommendation of the Nominating and Corporate Governance Committee or the Board of Directors' decision with respect to his or her resignation.

If a director's resignation is accepted by the Board of Directors, then the Board of Directors may fill the resulting vacancy or may decrease the size of the Board of Directors as permitted by our Bylaws.

Recommendations of the Board of Directors

The Board of Directors recommends a vote FOR the nominees named above.

CORPORATE GOVERNANCE

Director Independence

The Board of Directors has determined that each of the director nominees standing for election, except for Paul E. Clayton, has no relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and is an independent director as defined by the applicable NASDAQ rules and the rules and regulations of the Securities and Exchange Commission (the "SEC"). In determining the independence of our directors, the Board of Directors has adopted the independence standards that mirror exactly the criteria specified by applicable law and regulations of the SEC and the NASDAQ. In making the determination of independence of our non-management directors, the Board of Directors evaluated the independence of Messrs. Byrne and Kagle in connection with past equity transactions with the Company and/or Jamba Juice Company. In addition, as previously disclosed, Steven R. Berrard served as President, Chief Executive Officer and Chairman of the Board of the Company prior to its acquisition of Jamba Juice Company in 2006. However, he did not collect a salary as an officer or receive a retainer as a director for his service. The Board of Directors also considered certain management fees Mr. Berrard's affiliated companies received and his past debt and equity transactions with the Company.

Certain Relationships and Related Transactions

There were no relationships or related party transactions in the fiscal year ended January 1, 2008 ("Fiscal 2007") requiring disclosure in this Proxy Statement.

Procedures for Approval of Related Person Transactions

Any request for us to enter into a transaction with an executive officer, director or employee, or any of such persons' immediate family members or affiliates, must first be presented to our Audit Committee for review, consideration and approval. In approving or rejecting the proposed agreement, our Audit Committee will review each such transaction for potential conflicts of interest or improprieties.

Executive Sessions

Non-management directors regularly meet in executive session without management present each time the Board of Directors holds its regularly scheduled meetings.

Committees and Meeting Attendance

The Board of Directors has an Audit Committee, a Compensation and Executive Development Committee and a Nominating and Corporate Governance Committee. Each of these committees operates under a written charter adopted by the Board of Directors. Copies of these charters are available on our website at <http://ir.jambajuice.com/governance.cfm>. The Board of Directors held eight meetings during Fiscal 2007. Each of the standing committees of the Board of Directors held the number of meetings indicated in the table below. During Fiscal 2007, each of our directors attended at least 75% of the total number of meetings of the Board of Directors and all of the committees of the Board of Directors held during the period on which such director served. Mr. Howe was appointed to the Board of Directors and the Audit Committee effective December 1, 2007 and attended the one meeting of the Board of Directors held in Fiscal 2007 after the effective date of his appointment. Directors are expected to make every effort to attend our annual meetings of stockholders; six of the eight directors attended the Company's last Annual Meeting of Stockholders held on June 6, 2007.

The following table sets forth the three standing committees of the Board of Directors, the current and former members of each committee during Fiscal 2007 and the number of meetings held by each committee during Fiscal 2007:

Name of Director	Audit	Compensation	Nominating
		and Executive Development	and Corporate Governance
Steven R. Berrard	Member		
Thomas C. Byrne	Member	Member	
Richard L. Federico			Chair
Craig J. Foley	Chair		
Robert C. Kagle		Member	
Ramon Martin-Busutil			Member
Brian Swette		Chair	Member
Lesley H. Howe	Member(1)		
Number of Meetings:	11	6	4

(1) Appointed to the Audit Committee effective December 1, 2007. No Audit Committee meetings were held in Fiscal 2007 subsequent to his appointment.

Audit Committee

The current members of the Audit Committee are Craig J. Foley (Chair), Steven R. Berrard, Thomas C. Byrne and Lesley H. Howe. Mr. Howe will replace Mr. Foley as chair of the Audit Committee upon his election and qualification as a director at the Annual Meeting.

Each of the members of the Audit Committee is independent for purposes of the applicable NASDAQ rules and the rules and regulations of the SEC as they apply to Audit Committee members.

With the assistance of the Company's legal counsel, the Nominating and Corporate Governance Committee reviewed the applicable legal standards and criteria to determine audit committee financial expert status, as well as the answers to annual questionnaires completed by the Board members. On the basis of this review, the Nominating and Corporate Governance Committee delivered a report to the full board. The board made a determination that all current members of the Audit Committee were audit committee financial experts based upon the Nominating and Corporate Governance Committee's report and each Board member's review of the information made available to the committee.

The Audit Committee operates under a written charter approved by the Board of Directors, a copy of which is available on our website at <http://ir.jambajuice.com/governance.cfm>. The functions of the Audit Committee include retaining our independent registered public accounting firm, reviewing their independence, reviewing and approving the planned scope of our annual audit, reviewing and approving any fee arrangements with our independent registered public accounting firm, overseeing their audit work, reviewing and pre-approving any non-audit services that may be performed by them, reviewing the adequacy of accounting and financial controls, reviewing our critical accounting policies and reviewing and approving any related party transactions.

Additional information regarding the Audit Committee is set forth in the Report of the Audit Committee immediately following Proposal No. 2.

Compensation and Executive Development Committee

The current members of the Compensation and Executive Development Committee are Brian Swette (Chair), Thomas C. Byrne and Robert C. Kagle. Each of the members of the Compensation and Executive Development Committee is independent for purposes of the applicable NASDAQ rules. The Compensation and Executive Development Committee operates under a written charter approved by the Board of Directors, a copy of which is available on our website at <http://ir.jambajuice.com/governance.cfm>.

The primary function of the Compensation and Executive Development Committee is to assist the Board of Directors in managing compensation and development for directors and executives. The Compensation and Executive Development Committee's primary duties and responsibilities are to (i) set compensation philosophy and determine executive compensation; (ii) ensure that all components of executive compensation are consistent with the Company's compensation philosophy as in effect from time to time; (iii) evaluate and make recommendations to the Board of Directors on an annual basis concerning compensation of the members of the Board of Directors; and (iv) work with management to devise and execute on an executive development plan and succession planning and practices for the Company. The Compensation and Executive Development Committee's Charter does not provide for any delegation of these duties. In addition, the Compensation and Executive Development Committee has the authority under its charter to hire outside consultants and conduct such compensation reviews, investigations and/or surveys as the Compensation and Executive Development Committee may reasonably deem will provide such information as could reasonably and properly be required by the Compensation and Executive Development Committee in the exercise of its duties and responsibilities. In Fiscal 2007, the Company engaged a consultant related to executive compensation matters.

In setting compensation for our members of the Board of Directors, our executive officers provide suggestions on the administration of compensation for our directors to the Compensation and Executive Development Committee. For a description of the role our executive officers play in determining or recommending the amount or form of executive compensation, please see the section below entitled EXECUTIVE COMPENSATION Compensation Discussion and Analysis.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation and Executive Development Committee is or has been an officer or employee of the Company during Fiscal 2007. During Fiscal 2007, no member of the Compensation and Executive Development Committee had any relationship with the Company requiring disclosure under Item 404

of Regulation S-K. During Fiscal 2007, none of the Company's executive officers served on the Compensation and Executive Development Committee or Board of Directors of another entity any of whose executive officers served on the Company's Compensation and Executive Development Committee or Board of Directors.

Nominating and Corporate Governance Committee

The current members of the Nominating and Corporate Governance Committee are Richard L. Federico (Chair), Ramon Martin-Busutil and Brian Swette.

Each of the members of the Nominating and Corporate Governance Committee is independent for purposes of the applicable NASDAQ rules. The Nominating and Corporate Governance Committee operates under a written charter approved by the Board of Directors, a copy of which is available on our website at <http://ir.jambajuice.com/governance.cfm>. The Nominating and Corporate Governance Committee considers qualified candidates for appointment and nomination for election to the Board of Directors and makes recommendations concerning such candidates, develops corporate governance principles for recommendation to the Board of Directors and oversees the regular evaluation of our directors and management.

Director Nominations

The Board of Directors has adopted a Director Qualifications and Nominations Policy, the purpose of which is to describe the process by which candidates for possible inclusion in the Company's slate of director nominees are selected. The Director Qualifications and Nominations Policy is administered by the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee annually evaluates the current members of the Board of Directors whose terms are expiring and who are willing to continue in service against the criteria set forth below in determining whether to recommend these directors for election. The Nominating and Corporate Governance Committee regularly assesses the optimum size of the Board of Directors and its committees and the needs of the Board of Directors for various skills, background and business experience in determining if the Board of Directors requires additional candidates for nomination.

In fulfilling its responsibilities, the Nominating and Corporate Governance Committee considers the following factors in reviewing possible candidates for nomination as director:

the appropriate size of the Company's Board of Directors and its Committees;

the perceived needs of the Board of Directors for particular skills, background and business experience;

the skills, background, reputation, and business experience of nominees compared to the skills, background, reputation, and business experience already possessed by other members of the Board of Directors;

nominees' independence from management;

applicable regulatory and listing requirements, including independence requirements and legal considerations, such as antitrust compliance;

the benefits of a constructive working relationship among directors; and

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members.

Edgar Filing: JAMBA, INC. - Form DEF 14A

Candidates for nomination as director come to the attention of the Nominating and Corporate Governance Committee from time to time through incumbent directors, management, stockholders or third parties. These candidates may be considered at meetings of the Nominating and Corporate Governance Committee at any point during the year. Such candidates are evaluated against the criteria set forth above. If the Nominating and

Corporate Governance Committee believes at any time that it is desirable that the Board of Directors consider additional candidates for nomination, the Nominating and Corporate Governance Committee may poll directors and management for suggestions or conduct research to identify possible candidates and may engage, if the Nominating and Corporate Governance Committee believes it is appropriate, a third party search firm to assist in identifying qualified candidates.

The Nominating and Corporate Governance Committee will evaluate any recommendation for director nominee proposed by a stockholder. In order to be so evaluated, any recommendation for director nominee submitted by a stockholder must be sent in writing to the Corporate Secretary, Jamba, Inc., 6475 Christie Avenue, Suite 150, Emeryville, CA 94608, 120 days prior to the anniversary of the date proxy statements were mailed to stockholders in connection with the prior year's annual meeting of stockholders and must contain the following information:

the candidate's name, age, contact information and present principal occupation or employment; and

a description of the candidate's qualifications, skills, background, and business experience during, at a minimum, the last five years, including his/her principal occupation and employment and the name and principal business of any corporation or other organization in which the candidate was employed or served as a director.

All directors and director nominees must submit a completed form of directors' and officers' questionnaire as part of the nominating process. The evaluation process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee will evaluate incumbent directors, as well as candidates for director nominee submitted by directors, management and stockholders consistently using the criteria stated in its policy and will select the nominees that in the Nominating and Corporate Governance Committee's judgment best suit the needs of the Board of Directors at that time.

In addition, our Bylaws permit stockholders to nominate directors for consideration at annual meetings, provided the advance notice requirements set forth in our Bylaws have been properly met.

PROPOSAL NO. 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC

ACCOUNTING FIRM

The Audit Committee of the Board of Directors requests that stockholders ratify the selection of Deloitte & Touche LLP as its independent public auditors to audit the consolidated financial statements of the Company for the fiscal year ending December 30, 2008 (Fiscal 2008). Deloitte & Touche LLP audited the consolidated financial statements of the Company and management's report for Fiscal 2007 and for the fiscal year ended January 9, 2007 (Fiscal 2006).

Prior to hiring Deloitte & Touche LLP, the Company's independent auditors were Rothstein, Kass & Company, P.C. On November 29, 2006, the Company approved the engagement of Deloitte & Touche LLP as its independent registered public accounting firm at the completion of its merger with Jamba Juice Company.

A representative of Deloitte & Touche LLP is expected to be present at the Annual Meeting with the opportunity to make a statement if the representative desires to do so, and is expected to be available to respond to appropriate questions. At the Annual Meeting, the stockholders are being asked to ratify the selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for Fiscal 2008. If the selection of Deloitte & Touche LLP as auditors for 2008 is not approved by stockholders, the adverse vote will be considered by the Audit Committee in its decision to retain Deloitte & Touche as auditors for 2008. Even if this selection is ratified, the Audit Committee in its discretion, may direct the engagement of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its stockholders.

Prior to November 29, 2006, Rothstein, Kass & Company, P.C. acted as our independent registered public accounting firm since its appointment in the fiscal year ended December 31, 2005 (Fiscal 2005). The report of Rothstein, Kass & Company, P.C. on the Company's financial statements for Fiscal 2005 contained no adverse

opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principles. Rothstein, Kass & Company, P.C. audited the balance sheet of the Company as of December 31, 2005 and the related statements of operations, stockholders' equity, and cash flows for the period from January 6, 2005 (inception) to December 31, 2005. Rothstein, Kass & Company, P.C.'s audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, Rothstein, Kass & Company, P.C. expressed no such opinion. The Company's Board of Directors recommended and approved the decision to change independent registered public accounting firms.

In connection with the audit of the Company's financial statements for Fiscal 2005 and through November 29, 2006, there were no disagreements with Rothstein, Kass & Company, P.C. on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Rothstein, Kass & Company, P.C., would have caused it to make reference to the subject matter of such disagreements in connection with its audit report. There were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

The Company gave permission to Rothstein, Kass & Company, P.C. to respond fully to the inquiries of the successor auditor, including concerning the subject matter of this reportable event. The Company requested that Rothstein, Kass & Company, P.C. furnish the Company with a letter addressed to the Securities and Exchange Commission stating whether it agrees with the above statements. A copy of such letter, dated November 29, 2006, is filed as Exhibit 16.1 to the current report on Form 8-K filed with the Securities and Exchange Commission on December 5, 2006.

Fees for Professional Services

The following table sets forth the aggregate fees billed to the Company for the fiscal years ended January 1, 2008 and January 9, 2007 by its independent auditors, Deloitte & Touche LLP and for the fiscal year ended January 9, 2007 by its former independent auditor, Rothstein, Kass & Company P.C.:

	January 1, 2008 (51 weeks)	January 9, 2007 (53 weeks)
Audit Fees (1)	\$ 1,235,100	\$ 908,550
Audit Related Fees (2)	101,570	120,735
Tax Fees	58,300	-0-
All Other Fees	-0-	-0-
Total Fees	\$ 1,394,970	\$ 1,029,285

- (1) Audit Fees consist of fees billed for professional services rendered for the audit of the Company's consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by our independent registered public accountants in connection with statutory and regulatory filings or engagements. For the fiscal years ended January 1, 2008 and January 9, 2007, professional services provided by Deloitte & Touche LLP were \$1,235,100 and \$816,050, respectively. For the fiscal year ended January 9, 2007, professional services provided by Rothstein, Kass & Company, P.C. were \$92,500.
- (2) Audit Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. For Fiscal 2007 Audit Related Fees includes fees related to the Company's adoption of FIN No. 48, the Company's acquisition of stores from three of its franchisees and review of the Company's Uniform Franchise Offering Circular. Audit-Related Fees in Fiscal 2006 includes fees related to Sarbanes-Oxley compliance and work in connection with the acquisition of Jamba Juice Company.

The Audit Committee has considered whether the provisions of services described in the table above are compatible with maintaining auditor independence. Each of the permitted non-auditing services described above has been pre-approved by the Audit Committee. Unless a type of service has received general pre-approval, it will require separate pre-approval by the Audit Committee. Each pre-approval term lasts for at least 12 months until the first regularly scheduled Audit Committee meeting. The Audit Committee has delegated its pre-approval authority to its Chairman, provided the Chairman reports any pre-approval decisions to the full Audit Committee at its next regularly scheduled meeting.

Vote Required and Board of Directors Recommendation

Approval of this proposal requires a number of votes **FOR** the proposal that represents a majority of the shares present or represented and entitled to vote on this matter at the Annual Meeting. Abstentions and broker non-votes will each be counted for purposes of determining the presence of a quorum, but will not have any effect on the outcome of this proposal.

The Board of Directors recommends a vote FOR the selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 30, 2008.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Company's Board of Directors is composed of four members and acts under a written charter adopted and approved by the Board of Directors in 2006. The members of the Audit Committee are independent as defined by its charter, the NASDAQ Global Market listing standards and the Securities Exchange Act.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in the Annual Report on Form 10-K for the fiscal year ended January 1, 2008 with management, which review included a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Audit Committee reviewed and discussed with Deloitte & Touche, LLP, the Company's independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States of America, its judgment as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards, including Statement on Auditing Standards No. 61 (Communication with Audit Committees). The independent registered public accounting firm also provided the Audit Committee with the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Audit Committee discussed with the independent registered public accounting firm the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of non-audit related services provided to the Company by Deloitte & Touche LLP with the auditors' independence.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audit. The Audit Committee met with the independent registered public accounting firm, with and without management present, to discuss the results of their examination, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors, and the Board approved, that the Company's audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended January 1, 2008 for filing with the SEC.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The following discussion and analysis is intended to provide an explanation of our compensation program relating to Fiscal 2007, with particular regard to our Chief Executive Officer and the other Named Executive Officers. The discussion includes our compensation philosophy and the program's objectives, the elements of compensation used to pay our executives, and historical information regarding how our program has developed and how that relates to how our executive officers were compensated for Fiscal 2007 and are currently compensated.

The Company was incorporated and completed its initial public offering in 2005. We were formed as a blank check company to serve as a vehicle for the acquisition of a then unidentified operating business. In Fiscal 2005 and until our acquisition of Jamba Juice Company on November 29, 2006, members of our management were not compensated for their services.

Commencing November 29, 2006, the Compensation and Executive Development Committee approved several compensation programs for our executives, including those named in the 2007 Summary Compensation Table that follows this discussion (herein referred to as the Named Executive Officers).

Compensation and Executive Development Committee

Our Compensation and Executive Development Committee has the responsibility for establishing, implementing and monitoring our compensation philosophy and determining compensation for executives, including annual base salary compensation, cash bonus plan payment, equity awards and all other compensation and compensation procedures applicable to our executives. All of our executive officers receive compensation according to the same programs and we do not give our Named Executive Officers compensation according to different programs than that received by our other executive officers.

Role of Senior Management and Consultant in Compensation Decisions

Several members of senior management participate in the Compensation and Executive Development Committee's executive compensation process; however, the Compensation and Executive Development Committee does not delegate any of its functions to others in setting compensation.

In Fiscal 2007, we retained the Hay Group, an independent consultant, to conduct a market analysis to determine the Company's overall competitive position. The Hay Group reviewed various compensation elements as compared to two groups of companies. The first group of companies was San Francisco Bay Area companies in the Hay Group's Retail & General industry database. This group of approximately 100 companies was selected because positions could be hired or lost to other companies in close proximity to the location of the Company's headquarters and because of the high cost of living in this geographic region. All of the Named Executive Officers live in the San Francisco Bay Area except for Ms. Kelley, who lives in Southern California. The second group of companies was a select peer group of restaurant companies with high growth and comparable revenues who compete with the Company for talent and customers. The following companies were included in this second group: Buffalo Wild Wings; Chipotle; In-N-Out Burger; P.F. Chang's China Bistro; Panera Bread; Potbelly Sandwich Works; Ruth Chris Steakhouse; and Sonic Restaurants.

The committee used the report of the analysis prepared by the Hay Group to help ensure that management's compensation recommendations were in line with our stated objectives and reasonable when compared to the market for executive talent. In addition, the committee believes that the engagement of an independent consultant such as the Hay Group enhances the overall independence of the committee's decision-making.

Objectives of Our Executive Compensation Program

The primary objective of our executive compensation program is to attract and retain qualified executives who are engaged and passionate about our brand and who embrace our mission and culture. A further objective of our compensation program is to reinforce a pay-for-performance framework that provides incentives and rewards each executive for their contribution to the Company and which aligns executives' interests with our annual and long-term financial and strategic goals, with the ultimate objective of improving stockholder value. In addition, we work to ensure that our compensation program is perceived as fundamentally fair to all stockholders.

What Our Compensation Program is Designed to Reward

Our compensation program is designed to reward each executive's contribution to the Company, including their results and behaviors that are consistent with our values and culture. In measuring the executive officers' contribution to the Company, the Compensation and Executive Development Committee considers numerous factors, including the Company's growth and financial performance as well as performance against personal goals and objectives set annually.

Elements of Our Compensation Plans, Why We Chose Each Element and How We Chose the Amount for Each Element

The total compensation program for our executives consists of the following elements:

Base Salary

Non-Equity Incentive Compensation

Long-Term Share Based Compensation

General Team Member Benefits

These compensation components are clearly similar to the elements used by many companies. The exact base pay, cash incentive bonus targets and stock option grant amounts are chosen in an attempt to attract and retain the best people that possess the skills and cultural fit necessary to achieve our business, brand and cultural objectives. We also believe that achieving our goals for each of these objectives will best build stockholder value. The committee does not adhere to a prescribed mix or allocation of compensation elements, but rather uses its judgment to establish a compensation program that rewards executives in a manner consistent with our objectives. The committee does, however, generally seek to target total compensation in the 50th to 75th percentile relative to the two groups of companies described above.

Base Salary

Annual executive officer compensation consists of a base salary component. It is the committee's intention to set total executive base salary compensation sufficiently high to attract and retain a strong motivated leadership team, but not so high that it creates a negative perception to our stockholders. Base salary is the fixed portion of executive pay and is set to reward individuals' current contributions to the Company and compensate them for their expected day-to-day performance. The committee determines annual base salary levels for executives in the fourth quarter of each fiscal year, effective at the beginning of the fourth quarter. Increases in salaries are based on both individual performance and the Company's merit increase budget for the year. Salary increases can also occur upon promotion.

In Fiscal 2007, the base salaries paid to executives other than the CEO and CFO were in approximately the 25th percentile relative to the two comparative groups described above. The CEO's base salary was approximately in the 50th percentile range in the two comparative groups described above and the CFO's salary was in approximately the 25th and 50th percentile ranges for the San Francisco Bay Area companies and restaurant peer group companies, respectively.

In terms of the compensation mix, in Fiscal 2007, the Company allocated a smaller portion of total compensation for base salary and more heavily weighted each executive's compensation on performance-based elements more at risk as described below. The desire to emphasize incentives for short-term and long-term performance was the primary factor that impacted the committee's compensation mix decisions for Fiscal 2007.

Non-Equity and Equity Incentive Compensation

All of our executive officers participate in a non-equity incentive compensation plan. This plan is a cash incentive bonus plan, with each executive officer assigned a target bonus amount expressed as a percentage of his or her base salary. For Fiscal 2007, the target bonus percentage for each of our Named Executive Officers is set forth in the table below.

Name	Title	Target Bonus Percentage
Paul E. Clayton	President & Chief Executive Officer	100%
Donald D. Breen	Sr. Vice President & Chief Financial Officer	50%
Karen A. Kelley	Sr. Vice President, Operations	50%
Paul Coletta	Sr. Vice President, Marketing and Brand Development	50%
Thibault de Chatellus	Sr. Vice President, International	50%

The committee determines the non-equity incentive compensation plan for executives in the fourth quarter of each fiscal year. The plan is then effective for the next fiscal year, with the determination of the achievement of the actual cash incentive bonuses, if any, approved by the committee and paid in March of the following year. The non-equity incentive compensation plan for Fiscal 2007 was determined by the committee on November 29, 2006 and cash amounts payable under the plan for Fiscal 2007 would have been made in March 2008. For the reasons described below, no non-equity incentive compensation was paid to any of the Named Executive Officers for Fiscal 2007.

The committee allocated each of these target bonus percentages based on the impact each position has on the Company's financial performance and such other factors that the committee deems relevant for the particular fiscal year, including desired competitive positioning and market data. In Fiscal 2007, the target bonus amounts under the non-equity incentive compensation plan for the Named Executive Officers other than the CEO and CFO were in approximately the 25th percentile relative to the two comparative groups described above. The CEO's target bonus amount was approximately in the 50th percentile range in the two comparative groups described above and the CFO's target bonus amount was in approximately the 25th and 50th percentile ranges for the San Francisco Bay Area companies and restaurant peer group companies, respectively.

In terms of the compensation mix, in Fiscal 2007, the Company allocated less of total compensation for cash compensation (base salary and target incentive cash bonus) and more heavily weighted the long-term share based compensation awards. The desire to deliver stockholder returns was the primary factor that impacted the committee's allocation of performance-based compensation awards for Fiscal 2007.

Whether the targeted bonus is actually earned under the non-equity incentive compensation plan is based on performance against our financial plan metrics and assigned individual objectives. The two metrics in our financial plan that we compare Company performance against are (1) our Net Income Before Taxes (NIBT) and (2) comparable sales percent increase. NIBT is our measure of profit equivalent to net income before income taxes. Comparable sales performance increase is the same store sales increase as compared to the previous year, excluding any new or closed stores. NIBT and comparable sales performance are used as the metrics for cash incentive bonus plan because we believe that these are the best measures of our achievement of our objectives of customer frequency, presence and profit and best reward desired performance. The assigned individual objectives are customized for each executive based on their particular position and role with the Company. The committee determined and assigned individual objectives for our CEO, Mr. Clayton. Mr. Clayton determined and

recommended the individual objectives for all other Named Executive Officers, which individual objectives were then approved by the committee.

The cash incentive bonus payments under the non-equity incentive compensation plan are weighted at 25% for achieving targeted levels of NIBT, 50% for achieving targeted levels of comparable sales performance and 25% for achieving targeted levels of personal objectives for the Fiscal year. Payout of the cash bonus for each of these targets is 75% of target, 100% of target or 125% of target, depending on the level of achievement for each metric. If an individual does not achieve the minimum threshold amount for achievement of his or her individually assigned objectives, then no cash incentive bonus is paid, regardless of the Company's financial performance according to NIBT or comparable sales percent increase.

For Fiscal 2007, the NIBT and comparable sales percent increase metrics did not reach the 75% target and therefore 75% of the incentive bonus payment attributable to achievement of such metrics was not paid. In addition, the remaining 25% of the incentive bonus payment attributable to personal objectives was not paid to the Named Executive Officers given the financial performance of the Company in Fiscal 2007.

For Fiscal 2008, the committee and management suspended the non-equity incentive plan for executive officers. Instead, in December 2007, executive officers were granted stock options under our 2006 Employee, Director and Consultant Stock Plan (the 2006 Stock Plan) that vest only in the event that certain short-term business metrics are achieved (i.e., a cliff vesting schedule). The stock option grants reflect an effort to (i) motivate and reward executive officers on short-term goal achievement, and (ii) better align executive officers with the long-term interests of stockholders. The Grants of Plan Based Awards in Fiscal 2007 table below shows details of these stock option grants.

Vesting of these stock options is based on performance against our Fiscal 2008 financial plan metrics. The two metrics in our Fiscal 2008 financial plan that we compare Company performance against are (1) EBITDA (NIBT as described above, but also before depreciation and amortization and before taking into account team member bonus payouts) and (2) comparable sales percent increase. Executives can vest on March 15, 2009 at the 70% level or the 100% level depending on the extent to which these metrics are achieved. Failure to achieve the metrics will result in the stock options not vesting and therefore being effectively terminated.

The methodology used to determine the number of shares subject to these stock option grants was based on a target economic value equivalent to what the executive's Fiscal 2008 targeted cash bonus would have been had the Company not suspended the non-equity incentive plan. The determination of target economic value was made by the committee and required the committee to assume a certain common stock share price is reached by the end of Fiscal 2008. The committee evaluated several factors, including the 2008 financial plan, the then-current stock share price, and historical annual stockholder return of the restaurant peer group companies in its methodology to determine target economic value. The target economic value is a different value than the full grant-date value calculated under Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment (SFAS 123R).

Long-Term Share Based Compensation

Our 2006 Employee, Director and Consultant Stock Plan

Each of our executive officers is also eligible to receive stock option grants under the 2006 Stock Plan based on his or her performance and contributions to the Company. We believe that through our 2006 Stock Plan, the economic interests of our team members, including our executives, are more closely aligned to those of the stockholders.

According to our 2006 Stock Plan, all grants of our stock options under the plan are generally made effective three trading days after each of our quarterly public earnings releases. This applies to all of our employees, including our executive officers. The exercise price is the closing or last price on the date of actual

stock option grant, which we believe reflects fair market value after all public disclosures. If the Board of Directors or the committee determines that special circumstances exist, including the existence of material information not yet publicly-disclosed, a different grant date for a particular stock option grant may be selected.

The committee individually approves all stock option grants to all of our vice presidents or more senior officers. The Equity Award Committee has been delegated the authority by the Board of Directors to approve options grants below the vice president level. The Board of Directors or committee has the right to suspend the ability of the Equity Award Committee to award stock option grants for any reason at any time. Executive officers are not treated differently from other team members receiving stock option grants.

The committee seeks to determine annual stock option grants for executives in the fourth quarter of each fiscal year. Interim or off cycle stock option awards are made to new eligible team members as initial grants or to other team members when circumstances warrant it and are made effective on a fixed quarterly schedule as described above. Grants made in Fiscal 2007 had a 4-year vesting schedule with vesting occurring equally on an annual basis assuming continued employment. When establishing stock option grant levels, the committee considers our stock option overhang and targeted stock option burn rates and vesting schedules of previously granted options.

Equity Award Historical and Current Practices

The Company first issued stock options under the 2006 Stock Plan upon our acquisition of Jamba Juice Company on November 29, 2006. The initial grants of stock options made to each executive officer at that time was made on a discretionary basis using a multiple of base salary and taking into consideration the experience, skills, knowledge and responsibilities required of each executive officer, as well as competitive market conditions. The multiple used for the Named Executive Officers at that time ranged from 1.25 to 6. The methodology used to determine the number of shares subject to these initial stock option grants was based on a value per share calculated under SFAS 123R. Stock option awards granted at that time had an exercise price of \$11.36 per share and were valued under SFAS 123R at \$4.33. Thus, the number of shares subject to these initial option grants was determined as follows:

$$\text{Base Salary} \times \text{Multiple} \div \text{SFAS 123R Value} = \text{Number of Stock Option Shares}$$

Other initial stock option grants made to executive officers during Fiscal 2007 followed this methodology. The Hay Group also valued the stock options in generally the same manner for purposes of its report (i.e., based on the SFAS 123R value). Under this valuation methodology, in Fiscal 2007, the initial stock option grants under the 2006 Stock Plan for the Named Executive Officers were in approximately the 75th percentile relative to long-term share based compensation for the two comparative groups described above.

As a result, the Hay Group reported that even though the Named Executive salaries and non-equity incentive compensation was generally below the targeted 50th to 75th percentile relative to the two groups of companies described above, taking into account the long-term share based compensation awards and their previous value, the total compensation was within the targeted range.

At the committee meetings held in the fourth quarter of Fiscal 2007 to determine annual stock option grants to executives, the Company's share price was in the \$3.00 to \$5.00 range, a significant decrease in share price from the time of the Jamba Juice Company acquisition. The committee reviewed the then current methodology of granting stock options and determined that it did not meet the Company's objectives in two important respects.

In the first respect, using the then-current methodology would have resulted in granting the Named Executive Officers more option shares because of a lower SFAS 123R value, a result inconsistent with the negative one-year shareholder return and the Company's financial performance in Fiscal 2007. In the second respect, the committee recognized retention concerns relating to the Named Executive Officers given that the

Named Executive Officers' stock options were significantly underwater in that their exercise prices were dramatically higher than recent trading prices of the Company's common stock.

After a review and discussion of these matters, the committee decided upon a different methodology for the annual stock option grants at the end of Fiscal 2007. The methodology used to determine the number of shares subject to these stock option grants was based on a target economic value equivalent to a multiple of the executive's Fiscal 2008 base salary and targeted cash bonus (assuming the non-equity incentive plan had not been suspended). The multiple used for the Named Executive Officers at that time was in the range of 0.65 to 0.75. The determination of target economic value was made by the committee and required the committee to assume a certain common stock share price would be reached at the time five years from the grant date. The committee evaluated several factors, including the Company's strategic plan, the then-current stock share price, and historical annual stockholder return of the restaurant peer group companies in its methodology to determine target economic value. The Grants of Plan Based Awards in Fiscal 2007 table below shows details of these stock option grants. The target economic value is a different value than the full grant-date value calculated under SFAS 123R.

During the course of Fiscal 2008, the committee intends to continue to evaluate executive compensation to ensure that it is consistent with our compensation objectives and otherwise in the interests of the Company's stockholders.

Other General Team Member Benefits

Our executive officers are eligible to participate in all of our employee benefit plans, such as our medical, dental, vision, group life, disability, and accidental death and dismemberment insurance and our 401(k) plan, in each case on the same basis as other employees. Except in limited circumstances, it is our practice not to provide any special perquisites or benefits to executive officers unless it is necessary to retain their employment.

Tax Considerations

Our Compensation and Executive Development Committee considers the impact of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Tax Code), in determining the mix of elements of executive compensation. This section limits the deductibility of non-performance based compensation paid to each of our executive officers to \$1 million annually. The stock options granted to our executive officers under our 2006 Stock Plan are intended to be treated under current federal tax law as performance-based compensation exempt from the limitation on deductibility. Salaries and bonuses paid under our non-equity incentive plan do not qualify as performance-based compensation for purposes of Section 162(m). The committee intends to consider the impact of Section 162(m) on the deductibility of future executive compensation, but reserves the right to provide for compensation to executive officers that may not be fully deductible.

Philosophy on Severance and Change In Control Arrangements

As more fully described below in the section entitled Potential Payments upon Termination or Change in Control, we entered into several agreements providing for severance payments to certain of our executive officers upon their termination of employment without cause or upon a constructive termination. The decision to grant these benefits was based on offering what we believed was needed to obtain executive talent. To obtain top executive talent, we target to hire experienced people who have significant careers with other companies. As with any career change, there is a risk individuals take when starting a new position at a different company. Therefore, with respect to certain hires, it may be in our best interest to minimize this risk by offering payments upon termination without cause or upon a constructive termination. Additionally, benefits paid upon termination without cause or upon a constructive termination allow our executives to focus on their objectives without concern for their employment security in the event of a termination.

Compensation and Executive Development Committee Report

We, the Compensation and Executive Development Committee of the Board of Directors of the Company, have reviewed and discussed the Compensation Discussion and Analysis contained in this proxy statement with management. Based on such review and discussion, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Company's Annual Report on Form 10-K for the Fiscal year ended January 1, 2008.

- (1) The Compensation and Executive Development Committee approved equity awards for the Named Executive Officers at their committee meeting on December 6, 2007. Pursuant to the 2006 Stock Plan, grants are generally made effective three trading days after each of our quarterly public earnings releases. The exercise price is the closing or last price on the date of actual stock option grant, which we believe reflects fair market value after all public disclosures. If the Board of Directors or the committee determines that special circumstances exist, including the existence of material information not yet publicly-disclosed, a different grant date for a particular stock option grant may be selected. For the foregoing reason, in this case, the committee selected a grant date three trading days after the December 4, 2007 public announcement of the Jamba Ready-to-Drink product.
- (2) The estimates set out in columns labeled *Threshold*, *Target* and *Maximum* reflect possible future vesting of performance stock option awards made pursuant to the 2006 Stock Plan. We have calculated the *Threshold* amount based on the 70% vesting level and the *Target* and *Maximum* values based on the 100% vesting level as set out and more fully described in the section entitled *Compensation Discussion and Analysis Non-Equity and Equity Incentive Compensation*.
- (3) These options represent annual option awards granted made under the 2006 Stock Plan, except for the initial 110,000 option shares granted to Mr. de Chatellus. The vesting of stock option grants is described in the section entitled *Compensation Discussion and Analysis Long-Term Incentive Compensation- Our 2006 Employee, Director and Consultant Stock Plan*.
- (4) This amount shows the full grant date fair value of options granted in 2007. Generally, the full grant date fair value is the amount the Company would expense in its financial statements in accordance with SFAS 123(R) over the vesting schedule of shares underlying the options. The assumptions used in the calculation of these amounts are set forth in Note 11 of the Company's Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended January 1, 2008.

Potential Payments upon Termination or Change in Control

In May 2006, each of Mr. Clayton, Mr. Breen and Ms. Kelley entered into substantially identical employment agreements with the Company, which were later amended to provide for Jamba Juice Company, our wholly owned subsidiary, to be the employer of record. Each agreement is for a three-year term commencing on November 29, 2006 and provides that if the employee is terminated without cause, the employee would be entitled to receive, as severance, base salary for a period of 12 months following the date of termination, payable on our ordinary payroll dates and subject to compliance with Section 409A of the Tax Code. In addition, if at any time during the severance period the employee was entitled to receive a bonus as set forth in the agreement, the Company shall also pay to the employee the bonus to which the employee would have been entitled (under the respective bonus plan) had the employee remained employed with the Company. In addition, all options and restricted stock granted pursuant to the respective employment agreements shall be 100% vested upon a termination without cause.

On November 29, 2006, and May 14, 2007, Jamba Juice Company entered into severance agreements with Mr. Coletta and Mr. de Chatellus, respectively, which provide that if the employee's respective employment is subject to a constructive termination or termination without cause, he would be entitled to receive a severance

payment in the form of continuation of his base salary for 12 months following such termination, payable on our ordinary payroll dates and subject to compliance with Section 409A of the Tax Code. Pursuant to the severance agreements, the employee may also be required to deliver a signed release of claims in a form satisfactory to the Company and agree to non-solicitation of our employees to receive any benefits upon a termination with cause or upon a constructive termination. Neither Mr. Coletta nor Mr. de Chatellus have change of control agreements.

The exact definitions of "cause" and "constructive termination" are defined in each respective and applicable agreement.

Using each Named Executive Officer's current base salary, the maximum total payments by the Company to each Named Executive Officer under the termination circumstances described above, as of January 1, 2008, the last day of Fiscal 2007, would be as follows:

	Cash Severance (1)	Equity Acceleration (2)
Paul E. Clayton	\$ 525,000	\$ 194,250
Donald D. Breen	\$ 300,000	\$ 111,000
Karen A. Kelley	\$ 265,000	\$ 76,313
Paul Coletta	\$ 285,000	n/a
Thibault de Chatellus	\$ 275,000	n/a

- (1) Reflects 12 months continued salary.
- (2) Reflects 100% acceleration of vesting of equity awards in the cases of Mr. Clayton, Mr. Breen and Ms. Kelley pursuant to their employment agreements. Calculated based on the termination without "cause" taking place as of December 31, 2007, the last trading day of Fiscal 2007, and assumes exercise of outstanding options and accelerated vesting of restricted stock based on the fair market value of \$ 3.70 as of that date. Acceleration of options outstanding with an exercise price above \$ 3.70 per share are not reflected.

Change in Control Arrangements in our Equity Compensation Plans

Pursuant to the terms of our 2006 Stock Plan, holders of stock rights granted thereunder may be entitled to accelerated vesting upon the occurrence of a "Corporate Transaction," which is defined as a merger or a sale of all or substantially all of the Company's assets.

Should a Corporate Transaction occur, the Board of Directors, or the board of directors of any entity assuming the obligations of the Company thereunder, may generally:

make appropriate provision for the continuation of such stock rights by substituting, on an equitable basis, either the consideration payable with respect to the number of outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity;

upon written notice to the holders, provide that all stock rights must be exercised (either (a) to the extent then exercisable or (b) at the discretion of the Board of Directors, all options or stock rights being made fully exercisable for purposes of the 2006 Stock Plan), within a specified number of days of the date of such notice, at the end of which period the options or stock rights shall be terminated; or

terminate all options or stock rights in exchange for a cash payment equal to the excess of the fair market value, less the relevant exercise price, if any, of the shares subject to such stock rights (either (a) to the extent then exercisable or (b) at the discretion of the Board of Directors, all options or stock rights being made fully exercisable for purposes of the 2006 Stock Plan).

In addition, options or stock awards granted under the 1994 Plan and the 2001 Plan which were assumed by the Company pursuant to and in accordance with our merger with Jamba Juice Company may also be entitled to accelerated vesting in certain circumstances.

Pursuant to the 1994 Plan, the Board of Directors has the full authority, but not the obligation, to specify any rules, procedures, adjustments or matters with respect to the 1994 Plan or any options issued under the 1994 Plan in connection with any reorganization, merger, reverse merger, recapitalization, reclassification, stock split, reverse split, combination of shares, sale of all or substantially all of the assets of the Company, sale of the Company or other corporate event or transaction, including, without limitation, modifying any applicable vesting provisions, adjusting the amount of outstanding options, and/or terminating the 1994 Plan.

Pursuant to the 2001 Plan, the Board of Directors, in the event of a Change in Control, shall have the right, but not the obligation, to accelerate the vesting or termination of restriction, limitation or repurchase rights applicable to such stock awards. As defined in the 2001 Plan, Change in Control means:

a sale of substantially all of the assets of the Company;

a merger or consolidation in which the Company is not the surviving corporation;

a reverse merger in which the Company is the surviving corporation but the shares of Common Stock outstanding immediately preceding the merger are converted by virtue of the merger into other property; or

the acquisition by any person, entity or group of securities of the Company representing at least 50% of the combined voting power entitled to vote in the election of Directors.
