ON THE COVER

The Beijing 2008 Olympics were the most widely watched Games in Olympic history, according to Jacques Rogge, President of the International Olympic Committee. AsiaSat is the region's leading satellite company and owns and operates the satellites that distributed its customers' live coverage of the Games and other sport events to the highly populated markets of the Asia Pacific.

## WHAT IS INFOTAINMENT?

Infotainment is an emerging Neoterm that combines the words "information" and "entertainment". It also blends their meanings. AsiaSat is at the very heart of the "infotainment" explosion in the Asia Pacific as we provide the satellite communication platforms and services that enable our customers to deliver the seamlessly converged data, television programmes, telephony, websites and multimedia experiences that their customers take for granted. We enable the delivery of "infotainment" anywhere in the Asia-Pacific region at any time. From secure business communications to quality television channel distribution, from outside sports coverage to remote telephone services, our customers rely on AsiaSat's leadership as the region's premier satellite services provider.

ASIASAT

Asia Satellite Telecommunications Holdings Limited (the Company ) indirectly owns Asia Satellite Telecommunications Company Limited ( AsiaSat ) and other subsidiaries (collectively the Group ) and is listed on the Hong Kong Stock Exchange ( Stock Exchange ) (Stock Code 1135). The Company has delisted its American Depository Shares ( ADSs ) from the New York Stock Exchange from January 2008.

AsiaSat is Asia s premier provider of high quality satellite services to the broadcasting and telecommunications markets. The Group owns and operates three satellites, which are located in prime geo-stationary positions over the Asian landmass and provide access to two-thirds of the world s population.

The Company s strategy is to maximise the return from its core business of satellite transmission services while exploring convergence opportunities in satellite related new growth industries.

ASIASAT INTERIM 2008 1

## CHAIRMAN'S STATEMENT

### SOLID PERFORMANCE

### IMPROVED MARKET CONTINUES

I am pleased to report that the improved market conditions recorded at the time of the 2007 Annual Report have continued through the first half of 2008, our 20th year of operation, and that we are optimistic about the future.

During the period under review, AsiaSat added new customers and achieved increases both in overall utilisation and in the number of transponders provided to customers. This strong performance enabled us to maintain the core turnover at a level only marginally less than that of the corresponding period last year despite the migration of broadcast customers in China to the new Chinese satellites.

During the period, our satellite fleet performed well and our new satellite, AsiaSat 5, which is currently under construction in the United States, is progressing well. I am also pleased to report that we have now embarked on another new satellite, AsiaSat 6. In April, we moved into new office premises in Hong Kong.

### THE CHINA EARTHQUAKE

In May, the devastating earthquake in China left many thousands dead and millions homeless in Sichuan province and its surrounding regions.

The magnitude of this disaster was overwhelming but I can report to Shareholders that AsiaSat volunteered to work with the Chinese government and commercial organisations to make a modest but important contribution to the relief effort. The Company donated satellite capacity, time, knowledge and expertise to help establish vital communication links, and provided equipment and emergency support to various Government departments and emergency services in the affected areas.

In Hong Kong, AsiaSat has also sponsored a fund raising event that was broadcast across Asia on 1 June 2008 via one of our satellites. We are grateful to all who supported this initiative and our deepest sympathy goes out to all the people whose lives have been affected by the disaster.

## CHAIRMAN'S STATEMENT

### INTERIM RESULTS

#### TURNOVER

Turnover for the first half of 2008 was HK\$487 million (2007: HK\$461 million), an increase of some 6%. The uplift came principally as a result of the inclusion of SpeedCast's revenue since SpeedCast became a wholly-owned subsidiary of AsiaSat in the second half of 2007. SpeedCast generated a gross revenue of HK\$55 million and made a net contribution of HK\$33 million to the Group's consolidated turnover after the elimination of inter-company sales during the period.

As noted above, revenue was impacted by the migration of broadcast customers in China to new Chinese satellites. Growth was also held back by a reduction in one-off receipts that totalled HK\$1 million compared with HK\$8 million in the same period in 2007.

Despite these negative influences upon the revenue in the first half of 2008, it is rewarding to note that our core business improved and that we continued to secure new contracts during the first six months. This new business helped to mitigate the effect of the lost revenue mentioned above. In fact, the income from new customers in the first half of 2008 almost compensated for the loss of revenue from the Chinese broadcast customers.

#### OPERATING EXPENSES

Operating expenses in the first half of 2008 amounted to HK\$136 million (2007: HK\$90 million). The increase arose from the inclusion of SpeedCast's expenses and a provision for impairment of trade receivables of HK\$14 million.

#### PROFIT

The profit attributable to equity holders during the period was HK\$223 million (2007: HK\$247 million), a decline of some 10%. The decrease resulted primarily from the inclusion of a loss of HK\$2 million recorded by SpeedCast in first half of the year, the impairment provision of HK\$14 million, and a reduction in interest income of approximately HK\$18 million owing to the continued fall in bank deposits interest rates. The negative impact of this was lessened somewhat by a reduction in the Hong Kong tax rate.

The Group's EBITDA (earnings before interest, tax, depreciation and amortisation) margin decreased to 72% (2007: 81%) following the consolidation of SpeedCast, a company that operates businesses with relatively thin margins.

## CHAIRMAN'S STATEMENT

### INTERIM RESULTS (CONTINUED)

#### CASHFLOW

During the period, the Group generated a net cash outflow of HK\$44 million (2007: inflow of HK\$105 million) after paying capital expenditure of HK\$239 million (2007: HK\$162 million) and dividends of HK\$121 million (2007: HK\$106 million). As at 30 June 2008, the Group reported a cash balance of HK\$2,245 million (31 December 2007: HK\$2,288 million). The Group continues to be debt free.

#### DIVIDEND

The Board has resolved to pay an interim dividend of HK\$0.08 per share (2007: HK\$0.08), the same as last year. The interim dividend is payable on or about 6 November 2008 to equity holders on the share register as of 10 October 2008. The share register will be closed from 3 to 10 October 2008, both days inclusive.

#### CORPORATE DEVELOPMENTS

As set out in the 2007 Annual Report, we announced in January 2008 our intention to voluntarily de-list our American Depositary Shares (ADSs) from the New York Stock Exchange (NYSE) as the benefits did not justify the costs. The delisting became effective on 28 January 2008. Despite this, the Company remains registered under Section 12(g) of the Exchange Act with the U.S. Securities and Exchange Commission (SEC) and is still subject to the periodic disclosure requirements of the Exchange Act. This will continue to be the case until the Company is deregistered from the SEC. Once the Company meets the requirements for deregistration, we intend to file an application for such deregistration.

#### OPERATIONS REVIEW

##### TWO NEW SATELLITES

##### ASIASAT 5

Our new satellite, AsiaSat 5, is currently under construction in the United States. In addition, I am pleased to advise Shareholders that the Board has authorised management to proceed with the planning for another new satellite, AsiaSat 6.

CHAIRMAN'S STATEMENT

OPERATIONS REVIEW (CONTINUED)

TWO NEW SATELLITES (CONTINUED)

ASIASAT 5 (CONTINUED)

AsiaSat 5 will replace AsiaSat 2 at the orbital location of 100.5°E while AsiaSat 6 is planned for the replacement of AsiaSat 3S in due course. The commencement of AsiaSat 6 serves another purpose. It is the Company's practice to build into each satellite replacement programme sufficient time to re-build and re-launch a second satellite in the event of a launch failure before the one it is to replace needs to be retired. The commencement of AsiaSat 6 at this stage will provide customers with that added security and certainty of uninterrupted service in the event of an AsiaSat 5 launch failure.

Shareholders will recall that the Group was advised in the second half of 2007 of a delay in the launch vehicle availability and that by March this year that date had reverted to one closer to the original schedule. This timing is still subject to change as the delivery of the launch vehicle hardware remains unconfirmed. Taking these variables into consideration, the current estimate for the launch of AsiaSat 5 from the Baikonur Space Centre in Kazakhstan, is June 2009.

ASIASAT 6

As noted above, we have resolved to proceed with the planning for a second new satellite that will replace AsiaSat 3S. As we have only recently embarked upon this plan, it is too early to provide a meaningful report at this stage. However, this is an exciting step for the Company and we shall keep the Shareholders apprised of progress.

IN-ORBIT SATELLITES

During the first six months of 2008, AsiaSat's three in-orbit satellites operated well and continued to deliver excellent service to our customers.

The Group's fleet comprises AsiaSat 2, AsiaSat 3S, and AsiaSat 4, which are located in geo-stationary positions over the Asian landmass and provide a platform for one of the largest television audiences in the world. This presents AsiaSat customers with unparalleled coverage across two-thirds of the world's population.

AsiaSat 2 was launched in November 1995 and is positioned at 100.5°E. This satellite carries a payload of 24 C-band and 9 Ku-band transponders and its overall utilisation rate as at 30 June 2008 was 50% (31 December 2007: 44%).

## CHAIRMAN'S STATEMENT

### OPERATIONS REVIEW (CONTINUED)

#### IN-ORBIT SATELLITES (CONTINUED)

AsiaSat 3S was launched in March 1999 and is positioned at 105.5°E. This satellite carries a payload of 28 C-band and 16 Ku-band transponders and its overall utilisation rate as at 30 June 2008 was 62% (31 December 2007: 62%).

AsiaSat 4 was launched in April 2003 and is positioned at 122°E. This satellite carries 28 C-band and 20 Ku-band transponders including four Hong Kong BSS (broadcast satellite service) transponders. Its overall utilisation rate as at 30 June 2008 was 49% (31 December 2007: 40%).

The total number of transponders on the Company's satellites leased and sold as at 30 June 2008 was 67 (31 December 2007: 61) with an overall utilisation rate of 53% (31 December 2007: 49%). This figure includes the four BSS transponders provided for our DTH (direct-to-home) service.

#### CONTRACTS WITH CUSTOMERS

In the first six months of 2008, a number of new contracts were secured to the total value of HK\$319 million (2007: HK\$117 million) and renewed contracts were valued at HK\$355 million (2007: HK\$153 million). Together, these amounted to HK\$674 million (2007: HK\$270 million). The substantial increase came primarily from a new contract with an Indian customer and renewals of a number of existing major contracts. During the current period, there was also a very significant growth in business from occasional users. This growth was driven largely by bookings from broadcasters of the Beijing Olympic Games.

#### MARKET REVIEW

There continues to be an excess of transponder capacity in the region despite the improvement in market conditions, but we are currently seeing a gradual recovery of the market. Demand is particularly strong from the broadcast sector as a result of the increased use of satellites to distribute content to the growing number of pay-TV platforms in Asia. These new platforms need additional contents and better viewing quality by using digital or High Definition Television (HDTV) to differentiate themselves in highly competitive markets. This is encouraging for AsiaSat.

The development of HDTV in Asia is the most exciting new technology with the greatest potential for the Group. While the region lags behind the United States and Europe, progress has been advanced somewhat by the demands of broadcasters covering the Olympics.

It is also encouraging that the industry has made a universal decision on the Blu-ray standard system for High Definition DVDs and this will enable consumers to commit to buying HDTV equipment without the fear of investing in a redundant system.

CHAIRMAN'S STATEMENT

OPERATIONS REVIEW (CONTINUED)

MARKET REVIEW (CONTINUED)

New television channels continue to be launched in Asia and this is also driving market growth in this region. We believe that in many countries, the introduction of new distribution methods, including DTH satellite television and Internet Protocol Television (IPTV) delivered by the terrestrial broadband network, is triggering this expansion.

As noted above, activity is particularly strong in India and this is evidenced by the new contracts we have secured and by the significant growth in the number of customers from that country. Today, AsiaSat serves over 100 broadcasters, delivering some 300 television channels across the Asia-Pacific region.

As we have seen at the time of the Asian tsunami and the more recent earthquake in China, satellites have inherent communication advantages over land-based systems. In addition, AsiaSat is well positioned to broadcast to Asia's wide-spread and remote areas at a time when governments in the region's developing countries seek to improve the quality of life for their people, including those in the most inaccessible parts. Mobile phone and internet backbone connections are leading this march.

BUSINESS DEVELOPMENT

SUBSIDIARIES

SPEEDCAST

SpeedCast Holdings Limited ( SpeedCast ), a wholly-owned subsidiary of the Company, provides two-way very small aperture terminal (VSAT) services and broadband backbone access to customers in countries across Asia and beyond.

For the first six months of 2008, the turnover of SpeedCast was HK\$55 million (2007: HK\$48 million), an increase of 15%. The company incurred a loss of HK\$2 million (2007: HK\$1.5 million loss).

CHAIRMAN'S STATEMENT

BUSINESS DEVELOPMENT (CONTINUED)

SUBSIDIARIES (CONTINUED)

SKYWAVE

Our subsidiary, Skywave TV Company Limited ( Skywave ), is 80% held by the Company and is engaged with its partners in developing a low-cost DTH platform to serve the markets of Hong Kong, Macau, Taiwan and Southern China.

Launched in 2005, Skywave currently offers 35 programmes branded under family favourites , premium movies and premium sports . As the company is operating in a highly restricted market, its business is static and is expected to remain so for the foreseeable future. In the first half of this year, Skywave incurred a loss of HK\$2.4 million (2007: HK\$2.4 million), of which our share was approximately HK\$1.9 million.

AUSPICIOUS COLOUR LIMITED

Auspicious Colour Limited ( Auspicious Colour ); a wholly-owned subsidiary of the Company, holds a Non-domestic Television Programme Service Licence in Hong Kong. In order to expand our service offering, we have installed a MCPC (Multiple Channels per carrier) platform on both AsiaSat 2 and AsiaSat 3S. These platforms offer our customers access to our satellites in a more efficient and cost effective manner by obviating the need for them to set up their own platform or contract separate uplink services. Through this licence, held by Auspicious Colour, the company offers a one-stop solution that combines the provision of satellite capacity and uplink services to broadcasters.

ASSOCIATES COMPANIES

BEIJING ASIA

Beijing AsiaSky Telecommunications Technology Company Limited ( Beijing Asia ), in which the Company holds a 49% interest, is a joint venture operating in China. Beijing Asia provides satellite-based telecommunications network consultancy and technical support to customers in China. The investment was fully provided for in the second half of 2007 because of unsatisfactory performance and an uncertain long-term outlook for the business. The company continued to incur a loss in the first six months this year.

CHAIRMAN'S STATEMENT

OUTLOOK

The market improvement and the Group's continued stronger performance in the early months of 2008 have been encouraging. They were in contrast to the inactive markets of the prior few years, and our commitment to customer services and relationships through that difficult period is now paying off.

As we progress through 2008, we shall remain vigilant as the world economies face a period of uncertainty, and we may not be sheltered from it. These conditions, however, may also present acquisition opportunities in the region and we shall be watchful for any such initiatives that could add value to AsiaSat.

The year so far is encouraging; we are the market leader in Asia, are financially robust and are debt-free, and business is positive. We remain totally committed to the future of satellite communication in the Asia-Pacific region and as markets strengthen, we are well prepared for the future.

DIRECTORS AND SENIOR MANAGEMENT

In March this year we announced the appointment of Mr. Roger Tong, as General Manager Engineering. He succeeds Mr. Barry Turner, who retired from AsiaSat at the end of 2007. Mr. Tong will lead the engineering team's expanded efforts in spacecraft and ground network development, spectrum management and planning. We thank Mr. Turner for his contribution and welcome Mr. Tong to the Company.

The interim dividend will be paid on or about 6 November 2008.

## MANAGEMENT DISCUSSION AND ANALYSIS

### FINANCIAL REVIEW

#### TURNOVER

Turnover for the period were HK\$487 million (2007: HK\$461 million), an increase of HK\$26 million over last year. The increase was mainly due to the consolidation of revenue of HK\$55 million generated from SpeedCast Holdings Limited ( SpeedCast ), which became a wholly-owned subsidiary during the second half of 2007. However, the net contribution from SpeedCast to the Group, compared to same period last year, represented around HK\$33 million resulting from elimination of inter-company sales. The increase was partially offset by the decrease in one-time receipts of approximately HK\$7 million.

#### COST OF SERVICES

Cost of services was HK\$211 million (2007: HK\$198 million), an increase of HK\$13 million, or 7%. The increase was largely due to the inclusion of SpeedCast s expenses.

#### OTHER GAINS

The gain of HK\$35 million (2007: HK\$53 million) was mainly due to interest income generated on short-term deposits. The decrease as compared to prior period was due largely to the continued drop in the interest rate on bank deposits.

#### ADMINISTRATIVE EXPENSES

Administrative expenses increased to HK\$77 million (2007: HK\$40 million). The increase was mainly due to the inclusion of the operating expenses of HK\$19 million from SpeedCast and the provision of impairment of receivables of HK\$14 million from certain customers.

#### SHARE OF LOSS OF ASSOCIATES

The share of loss from associates was nil balance (2007: HK\$0.85 million) resulting from the investment in an associate being fully provided in year 2007.

#### INCOME TAX EXPENSE

A significant portion of the Group s profit is treated as earned outside Hong Kong and is not subject to Hong Kong Profits Tax. Hong Kong Profits Tax is calculated at 16.5% (2007: 17.5%) of the estimated assessable profit for the period. The Group s effective tax rate for the period was approximately 10% (2007: 11%) excluding the effect of one-off deferred tax adjustment.

Overseas tax is calculated at approximately 5% to 20% of the gross revenue earned in certain overseas jurisdictions. The Group currently has a tax case with the Indian tax authorities. Further details are set out in note 13 to the condensed consolidated interim financial statements.

## MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW (CONTINUED)

## PROFIT FOR THE PERIOD

Profit attributable to shareholders amounted to HK\$223 million (2007: HK\$247 million), a decrease of HK\$24 million. Excluding the effect of early termination payments in both periods, the profit attributable to shareholders has decreased by less than HK\$17 million over the same period in 2007.

The decrease in profit was mainly due to lower interest income from bank deposits and a provision for impairment of receivables. The tax rate cut has resulted in a smaller income tax provision which helped the profit of the Company.

## FINANCIAL RESULTS ANALYSIS

The financial results are highlighted below:

## MANAGEMENT DISCUSSION AND ANALYSIS

### SIGNIFICANT INVESTMENTS, THEIR PERFORMANCE AND FUTURE PROSPECTS

#### SPEEDCAST

SpeedCast Holdings Limited ( SpeedCast ), a wholly-owned subsidiary of the Company, provides broadband, multimedia and corporate broadcast services to customers in countries across Asia and beyond.

For the first six months of 2008, the turnover of SpeedCast was HK\$55 million (2007: HK\$48 million), an increase of 15%. The company also had a loss of HK\$2 million (2007: HK\$1.5 million loss).

#### SKYWAVE

Skywave TV Company Limited ( Skywave ), in which the Company holds an 80% interest, operates a low cost direct-to-home (DTH) platform to serve the markets of Hong Kong, Taiwan, Macau and Southern China.

Operating under a Hong Kong non-domestic television programme service licence, Skywave offers a variety of some 35 full time TV channels to authorised subscribers in the AsiaSat 4 BSS (broadcast satellite service) coverage area. Skywave is a niche service offering quality content throughout the region to customers not readily served by cable. Working through its joint venture partners, the Skywave platform provides a comprehensive offering from hardware distribution and product promotion, to customer service and subscriber management.

For the six months under review, Skywave incurred a loss of approximately HK\$2.4 million (2007: HK\$2.4 million), of which the Company's share was about HK\$1.9 million (2007: HK\$1.9 million).

#### BEIJING ASIA

Beijing Asia Sky Telecommunications Technology Company Limited ( Beijing Asia ), a joint venture of the Company in Beijing in which AsiaSat holds a 49% shareholding, provides satellite-based telecommunication networks, consultancy and technical support services to customers in China. Beijing Asia provides government institutions and major corporations with corporate data networks, data broadcasting services, and a trial telephony network connecting remotest sites in China using very small aperture terminal (VSAT) technology.

Beijing Asia commenced operation in October 2004. For the first six months of 2008, Beijing Asia continued to incur a loss of approximately HK\$2.5 million (2007: HK\$1.7 million), of which AsiaSat did not share any of its loss (2007: HK\$0.85 million) as the Company had already fully provided for its investment in this venture in 2007.

At 30 June 2008, the book value of the investment in Beijing Asia stood at a nil balance.

## MANAGEMENT DISCUSSION AND ANALYSIS

### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND ASSOCIATED COMPANIES

During the period, there were neither material acquisitions nor disposals of subsidiaries or associated companies.

### SEGMENT INFORMATION

The turnover of the Group, analysed by both location of customers and business segment, is disclosed in note 4 to the condensed consolidated interim financial statements.

### EMPLOYEES AND REMUNERATION POLICIES

As at 30 June 2008, the Group had 153 (31 December 2007: 142) permanent employees.

The Group considers its human resources as one of its most valuable assets. The talent pool that the Group draws from overlaps with the telecommunications, information technology and some high-tech equipment vendor industries.

The Group has established a performance-based appraisal system. The present remuneration package consists of salaries, housing benefits (applicable to certain grades of employees), discretionary bonuses, restricted shares award and fringe benefits that are comparable with the market.

The Group does not operate an in-house regular training programme. However, the Group does provide ad hoc training on new developments or facilities and sponsors employees to attend external vocational training that is relevant to the discharge of their duties and their career progression.

### CHARGES ON GROUP ASSETS

The Group did not have any charge on assets as at 30 June 2008 and 31 December 2007.

### CAPITAL COMMITMENTS

Details of the capital commitments of the Group are set out in note 14 to the condensed consolidated interim financial statements.

As at 30 June 2008, the Group had total capital commitments of HK\$586 million (31 December 2007: HK\$795 million), of which HK\$295 million (31 December 2007: HK\$503 million) was contracted but not provided for in the financial statements, and the remaining HK\$291 million (31 December 2007: HK\$293 million) was authorised by the Board but not yet contracted.

## MANAGEMENT DISCUSSION AND ANALYSIS

### GEARING RATIO

At 30 June 2008, the Company remained debt free. Therefore, a gearing ratio was not applicable.

### EXCHANGE RATES AND ANY RELATED HEDGES

During the period, almost all of the Group's revenues, premiums for satellite insurance coverage and substantially all capital expenditure were denominated in U.S. Dollars. The Group's remaining expenses were primarily denominated in Hong Kong Dollars. As at 30 June 2008, almost all the Group's transponder utilisation agreements, transponder purchase agreements, and obligations to purchase equipment were denominated in U.S. Dollars. Thus, the Group does not have any significant currency exposure and does not need to hedge against currency fluctuation.

### CONTINGENT LIABILITIES

Particulars of the Group's contingent liabilities are set out in note 13 to the condensed consolidated interim financial statements.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. GENERAL INFORMATION

Asia Satellite Telecommunications Holdings Limited (the Company) and its subsidiaries (together The Group) is engaged in the provision of transponder capacity and the broadband access services.

The Company is a limited liability company incorporated in Bermuda as an exempted company under the Companies Act 1981 of Bermuda (as amended). The address of its registered office is Canon's Court, 22 Victoria Street, Hamilton HM12, Bermuda.

On 28 January 2008, the Company terminated its American Depositary Receipts (ADR) program and delisted from the New York Stock Exchange. The Bank of New York (BoNY), as depository of the ADR program, ceased to issue new American Depositary Shares (ADSs). The deposit agreement between BoNY and the Company also terminated on 28 February 2008. As a result of the termination of the deposit agreement, all ADR holders who wish to retain an interest in the Company's shares had surrendered their ADSs and received the Company's shares by 28 May 2008. On 29 May 2008, BoNY started to sell the underlying shares with the remaining ADR holders and returned the net proceeds to them.

The Company's shares continued to maintain its listing on The Stock Exchange of Hong Kong Limited.

The condensed consolidated interim financial statements were approved for issue on 15 August 2008.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements for the half-year ended 30 June 2008 have been prepared in accordance with HKAS 34, Interim financial reporting. The interim condensed financial report should be read in conjunction with the annual financial statements for the year ended 31 December 2007.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

## 13. CONTINGENT LIABILITIES

Under Indian tax regulations, the Group may be subject to Indian tax assessments on revenues received by the Group in respect of revenue from provision of satellite transponder capacity to the Group's customers for purposes of those customers carrying on business in India or earning revenue from any source in India.

The Indian tax authorities have assessed the Group for tax as follows:

Assessment year	Amount HK\$ (approximate)	Amount INR (approximate)
1997-98	20 million	115 million
1998-99	23 million	141 million
1999-00	22 million	127 million
2000-01	14 million	84 million
2001-02	29 million	171 million
2002-03	38 million	210 million
2003-04	50 million	316 million
2004-05	58 million	330 million
2005-06	55 million	295 million
Total	309 million	1,789 million

The Group has filed appeals for each of the assessment years 1997-98 to 2005-06.

No assessment has yet been made for the 2006-07 or 2007-08 assessment years.

The Income Tax Appellate Tribunal (the Tribunal) in an earlier appeal filed against the original assessment for the assessment year 1997-98 held that the Group is liable for Indian tax under certain circumstances. The Group does not believe that it is liable for the Indian tax as held by the Tribunal and has filed an appeal against the Tribunal's decision. The tax authorities have also filed an appeal against the Tribunal's decision. Both the appeals have been admitted by the High Court.

## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

## 13. CONTINGENT LIABILITIES (CONTINUED)

In order to obtain a stay of recovery proceedings, the Group has made payments as follows and has recorded these payments as an asset on the assumption that the amounts are recoverable:

Assessment year	Amount HK\$ (approximate)	Amount INR (approximate)
1997-98	13 million	78 million
1998-99	14 million	88 million
1999-00	11 million	62 million
2000-01	9 million	50 million
2001-02	20 million	119 million
2002-03	27 million	148 million
2003-04	39 million	226 million
2004-05	34 million	195 million
2005-06	24 million	120 million
Total	191 million	1,086 million

In addition, based on the general principles set forth by the Tribunal, the amount of revenue taxable in India depends on the payments made by the Group's customers to the Group for the purpose of those customers carrying on business in India or earning revenue from any source in India. As such information is proprietary in nature and has not been provided by the Group's customers, the Group cannot reasonably estimate the revenue subject to tax and therefore also cannot estimate the amount of tax to which the Group may be assessed. Furthermore, as stated above, the Group has filed an appeal against the Tribunal's decision. The appeal has been admitted by the High Court and is pending before the Court. Accordingly, no provision has been recognised for Indian tax in the Group's financial statements.

INTRODUCTION

We have reviewed the interim financial information set out on pages 20 to 47, which comprises the condensed consolidated balance sheet of Asia Satellite Telecommunications Holdings Limited (the Company) and its subsidiaries (together, the Group) as at 30 June 2008 and the related condensed consolidated statements of income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 Interim Financial Reporting. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 Interim Financial Reporting.
