

LG Display Co., Ltd.
Form 6-K
February 20, 2009

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 6-K

**REPORT OF FOREIGN PRIVATE ISSUER
PURSUANT TO RULE 13a-16 OR 15d-16 UNDER
THE SECURITIES EXCHANGE ACT OF 1934**

For the month of February 2009

LG Display Co., Ltd.

(Translation of Registrant's name into English)

20 Yoido-dong, Youngdungpo-gu, Seoul 150-721, The Republic of Korea

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submission to furnish a report or other document that the registration foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Outside Director	5		300	60	

* Remuneration limit for the total 9 directors, including standing directors.

II. Accumulated Transaction Amount of LG Display Co., Ltd with each of Major Shareholders or Their Affiliates, which was equivalent to 5% or more of 2007 Total Assets or Sales Revenue in 2008.

(KRW Billion)

Transaction Type	Counterpart (Relationship)	Transaction Period	Transaction Amount	Ratio*
Sales, etc.	LG Display America Inc. (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	2,207	15.58%
Sales, etc.	LG Display Germany GmbH (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	2,789	19.69%
Sales, etc.	LG Display Japan Co., Ltd. (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	1,563	11.04%
Sales, etc.	LG Display Taiwan Co., Ltd. (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	3,507	24.76%
Sales, etc.	LG Display Shanghai Co., Ltd. (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	1,789	12.63%
Sales, etc.	LG Display Shenzhen Co., Ltd. (Subsidiary)	Jan. 1, 2008 ~ Dec. 31, 2008	1,150	8.12%
Sales/Purchase	LG Electronics Inc. (Largest Shareholder)	Jan. 1, 2008 ~ Dec. 31, 2008	797	5.63%
Purchase, etc.	LG International Japan Co., Ltd. (Affiliate)	Jan. 1, 2008 ~ Dec. 31, 2008	1,288	9.09%
Purchase, etc.	LG Chem. Ltd. (Affiliate)	Jan. 1, 2008 ~ Dec. 31, 2008	719	5.08%

* % of the 2007 non-consolidated Sales Revenue (KRW 14,163 Billion)

** The above transaction amount is to be reported in the audit report of FY 2008 and subject to change.

III. Reference Relating to the Business**1. Overview****A. Industry**

(1) Industry characteristics and growth potential

TFT-LCD technology is one of the most widely used technologies in the manufacture of flat panel displays and the demand for flat panel displays is growing. The flat panel display industry is characterized by entry barriers due to rapidly evolving technology, capital-intensive characteristics, and the significant investments required to achieve economies of scale, among other factors. There is strong competition between a relatively small number of players within the industry and production capacity in the industry, including ours, is being continually increased.

The demand for LCD panels for notebook computers & monitors has been closely related to the IT industry cycle. The demand for LCD panels for TVs has been growing as HDTV broadcasting is becoming more common and as LCD TV has come to play an important role in the digital display market. There is competition between TFT-LCD and PDP technologies in the area of large flat TV products. In addition, markets for small- to medium-sized LCD panels, such as mobile phones, P-A/V, medical applications and automobile navigation systems, among others, are growing steadily.

The average selling prices of LCD panels may continue to decline with time irrespective of general business cycles as a result of, among other factors, technology advances and cost reductions.

(2) Cyclicity of LCD industry

The TFT-LCD business is highly cyclical as well as being capital-intensive. In spite of the increase in demand for products, this industry has experienced periodic volatility caused by imbalances between demand and supply due to capacity expansion within the industry.

Intense competition and expectations of demand growth may lead panel manufacturers to invest in manufacturing capacity on similar schedules, resulting in a surge in capacity when production is ramped up at new fabrication facilities.

During such surges in capacity growth, our customers can exert and have exerted strong downward pricing pressure, resulting in sharp declines in average selling prices and significant fluctuations in our gross margins. Conversely, demand surges and fluctuations in the supply chain can lead to price increases.

(3) Competitiveness

Our ability to compete successfully depends on factors both within and outside our control, including product pricing, our relationship with our customers, performance and reliability, successful and timely investment and product development, success of our end-brand customers in marketing their brands and products, component and raw material supply costs, foreign exchange rate and general economic and industry conditions.

Core competitiveness includes technology leadership, capability to design new products and premium products, timely investment in advanced fabs, cost leadership through application of large production lines, innovation of process and productivity, and collaborative customer relationships.

Most importantly, cost leadership and stable and long-term relationships with customers are critical to secure profit even in a buyer's market.

A substantial portion of our sales is attributable to a limited number of end-brand customers and their designated system integrators. The loss of these end-brand customers, as a result of customers entering into strategic supplier arrangements with our competitors or otherwise, would thus result in reduced sales.

Developing new products and technologies that can be differentiated from those of our competitors is critical to the success of our business. We take active measures to protect our intellectual property internationally by obtaining patents and undertaking monitoring activities in our major markets. It is also necessary to recruit and retain experienced key managerial personnel and highly skilled line operators.

(4) Sourcing material

Key materials (including color filters) are sourced in-house as well as from domestic and overseas vendors.

A shortage of raw materials may arise temporarily due to an increase in demand for raw materials resulting from capacity expansion in the TFT-LCD industry.

A substantial portion of our equipment is sourced from a limited number of qualified foreign and local suppliers. From time to time, increased demand for new equipment may cause lead times to extend beyond those normally required by the equipment vendors.

(5) Others

Most TFT-LCD panel makers are located in Asia.

- a. Korea: LG Display, Samsung Electronics (including a joint venture between Samsung Electronics and Sony Corporation), BOE-Hydis
- b. Taiwan: AU Optronics, Chi Mei Optoelectronics, CPT, etc.
- c. Japan: Sharp, IPS-Alpha, etc.
- d. China: SVA-NEC, BOE-OT, etc.

B. Company

(1) Company overview

Commercial production for our TFT-LCD business began in September 1995 at P1, which was then the first fabrication facility of LG Electronics. At the end of 1998, LG Electronics and LG Semicon transferred their respective TFT-LCD related businesses to LG Soft Co., Ltd (currently LG Display). It became a joint venture between LG Electronics and Philips Electronics in August 1999. In July 2004, we completed our initial public offering and listed our common stock on the Korea Exchange and our ADSs on the New York Stock Exchange. As of December 31, 2008, we operate seven fabrication facilities located in Gumi and Paju, Korea, and a total of seven module facilities located in Gumi and Paju, Korea, Nanjing (3 factories) and Guangzhou, China, and Wroclaw, Poland.

We became the first LCD maker in the world to commence commercial production at a 4th generation fab (P3) in July 2000 and at a 5th generation fab (P4) in March 2002, and we started mass production at our 6th generation fab (P6) in August 2004, which allows us to produce LCD panels for large TVs and monitors. With the commencement of mass production at our 7th generation fab (P7) in January 2006 and with our decision to invest in an 8th generation fab (P8) in October 2007 and in an expansion of P6 in July 2008, we are expanding our production capacity in line with the growing large-sized LCD TV market.

Despite the difficult business environment contributed by factors such as global economic meltdown and the LCD oversupply, our non-consolidated sales revenue in 2008 increased by 12% year-on-year to KRW 15,865 billion, backed by our consistent efforts to expand our sales. We recorded a non-consolidated operating income of KRW 1,536 billion and a non-consolidated net income of KRW 1,087 billion in 2008 from development of cost innovation models, reduction of purchasing unit cost, maximization of equipment effectiveness through Max Capa & Min Loss activities and reduction of overhead cost and other active cost reduction measures as well as increased sales revenue. Our consolidated sales revenue in 2008 increased by 13% year-on-year to KRW 16,264 billion. Our consolidated operating income was KRW 1,735 billion and our consolidated net income was KRW 1,087 billion in 2008.

We reinforced our position as a leader in LCD technology by developing public displays such as the world's largest 52-inch multi-touch screen panel and a 47-inch triple-view panel as well as the world's largest 6-inch oval LCD panel, a 17.1-inch switchable 3D display which function allows for a 2D/3D conversion with ease, a 15-inch TFT LCD panel with a C/F board that applies the role printing method and a 15-inch AM OLED that uses the a-Si method.

Moreover, we formed strategic alliances or entered into long-term sales contracts with major global firms such as Dell, Hewlett Packard and Kodak of the United States and Japan's Toshiba, among others, to secure customers and expand partnerships for technology development.

Total Shareholders' Equity	9,276,022	8,289,373
Total Liabilities and Total Shareholders' Equity	16,501,987	13,394,435

(3) Market shares

World wide market share of large-size TFT-LCD panels (≥10") based on revenue

	From Q1 to Q3 in 2008	2007
Panels for Notebook PC	29.3%	28.5%
Panels for Monitor	16.9%	15.6%
Panels for TV	18.1%	22.0%
Total	19.7%	20.4%

(Source: DisplaySearch Q4 2008)

(4) Market characteristics

The LCD panel has become the core component of the display industry and the demand for LCD panels has been growing steadily.

Due to the recent high growth in the display appliance market for the flat display format, the scale of the LCD market is growing, resulting in expansion of the market centered mainly in America, Japan, Europe and China.

The growth of the LCD market has mainly been driven by the demand for IT-related products. However, it is anticipated that the LCD TV display market, which has grown rapidly in recent years, will provide the main source of steady growth of the LCD market.

(5) New business etc.

As of the end of the third quarter of 2008, P7 in our Paju Display Cluster reached an expanded production capacity of over 150 thousand sheets of glass substrates per month and we have commenced the construction of P8 (8th generation fab) and the expansion of 6th generation fab in anticipation of growth in the large-sized TFT-LCD market.

In May 2006, we entered into an investment agreement with the Guangzhou Development District Administrative Committee to construct a module production plant in Guangzhou, China, and in June 2006, we established LG Display Guangzhou Co., Ltd. We commenced mass production at the new module production plant in December 2007 and we held an opening ceremony for the module production plant in April 2008.

In June 2008, we launched the OLED Business Unit in anticipation of future growth in the OLED business. In addition, we also plan to strengthen our market position in the future display technologies by accelerating the development of flexible display technologies and leading the LED back-light LCD market.

In order to facilitate a cooperative purchasing relationship with HannStar Display Corporation (HannStar), a company that manufactures TFT-LCD panels in Taiwan, we decided to purchase 180 million shares of preferred stock of HannStar at a purchase price of NT\$3,170,250,000. We acquired the preferred shares in February 2008. The preferred shares mature in three years and are convertible into shares of common stock of HannStar.

We are making an effort to increase our competitiveness by forming cooperative relationships with our suppliers and purchasers of our products. As part of this effort, in June 2008 we purchased 2,037,204 shares of AVACO Co., Ltd, which produces sputters, a core equipment for LCD production, and we purchased 1,008,875 shares of TLI Inc., which produces core LCD panel components such as Timing Controllers and Driver ICs. By promoting strategic relationships with equipments and parts suppliers, which enables us to obtain a stable source of supply of equipments and parts at competitive prices, we have strengthened our competitive position in the LCD business.

In July 2008, we and Skyworth RGB Electronics founded a R&D joint venture corporation with a registered capital of CNY 50 million in China.

We entered into a joint venture company agreement with AmTRAN Technology Co., Ltd. (AmTRAN) in August 2008, a Taiwan corporation, in order to produce (i) LCD modules and (ii) LCD TV sets manufactured using the EMS (Electronic Manufacturing System) method and established a joint venture (Suzhou Raken Technology Co., Ltd) in September 2008. Through the establishment of this joint venture with AmTRAN, we are able to further expand our customer base by securing a long term stable panel dealer. It also allows us to produce LCD modules and LCD TV sets in a single factory, which enables us to provide our customers with products that are competitive both in terms of technology and price.

In July 2008, we purchased 6,850,000 shares of the common stock of New Optics, which is approximately 36.7% of its outstanding shares, as part of our strategy to increase our competitiveness by forming cooperative relationships with our suppliers.

2. Reference Relating to AGM

A. Matters Relating to the Annual General Meeting

(1) Date and Time: 10:00 A.M., March 13, 2009 (Friday)

(2) Venue : Guest House, LG Display Paju Display Cluster
1007, Deogeun-ri, Wollong-myeon, Paju-si, Gyeonggi-do, Korea

B. Agenda for Meeting

- (1) For reporting:
 - a. Audit Committee's Audit Report
 - b. Business Report
- (2) For approval:
 - a. Non-consolidated Balance Sheet, Non-consolidated Income Statement & Non-consolidated Statement of Appropriations of Retained Earnings of Fiscal Year 2008 (Cash dividend per share : KRW 500)
 - b. Amendment to the Articles of Incorporation
 - c. Remuneration Limit for Directors in 2009
 - d. Amendment to the Regulation of Severance Payment to Directors and Executive Officers

C. Details of Agenda for Approval

Agenda 1: Non-consolidated Balance Sheets, Non-consolidated Income Statements & Non-consolidated Statements of Appropriations of Retained Earnings of Fiscal Year 2008

KRW 500 is proposed as cash dividend per share.

(1) Business Performance in FY 2008

Despite the difficult business environment contributed by factors such as global economic meltdown and the LCD oversupply, our non-consolidated sales revenue in 2008 increased by 12% year-on-year to KRW 15,865 billion, backed by our consistent efforts to expand our sales. We recorded operating income of KRW 1,536 billion and net income of KRW 1,087 billion in 2008 from development of cost innovation models, reduction of purchasing unit cost, maximization of equipment effectiveness through Max Capa & Min Loss activities and reduction of overhead cost and other active cost reduction measures as well as increased sales revenue.

Agenda 2 : Amendment to the Articles of Incorporation

With the broaden objectives of the Company, the Company can reserve the potential and flexibility to expand its business areas to the field other than LCD and OLED business, especially the solar energy field among others.

As the Capital Market Act in Korea has taken effect, the related law and regulation is propose to be amended accordingly.

With the increased maximum number of Board membership, the Company can bring in more professionals from various areas.

Article	Current Provision	Proposed Provision
