NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2009

(unaudited)

Note 1 Organization and Summary of Significant Accounting Policies:

Organization and Nature of Business National Retail Properties, Inc., a Maryland corporation, is a fully integrated real estate investment trust (REIT) formed in 1984. The term NNN or the Company refers to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable REIT subsidiaries. These subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the TRS.

NNN's operations are divided into two primary business segments: (i) investment assets, including real estate assets, mortgages and notes receivable and commercial mortgage residual interests (collectively, Investment Assets), and (ii) inventory real estate assets (Inventory Assets). NNN acquires, owns, invests in, manages and develops properties that are leased primarily to retail tenants under long-term net leases (Investment Properties or Investment Portfolio). As of March 31, 2009, NNN owned 1,002 Investment Properties, with an aggregate gross leasable area of 11,295,000 square feet, located in 44 states. In addition, as of March 31, 2009, NNN's Investment Assets included \$60,887,000 in mortgages, notes and interest receivable and \$22,617,000 in commercial mortgage residual interests. The Inventory Assets are operated through the TRS. The TRS, directly and indirectly, through investment interests, acquires and/or develops real estate primarily for the purpose of selling the real estate (Inventory Properties or Inventory Portfolio). As of March 31, 2009, the TRS owned 31 Inventory Properties.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America. The unaudited condensed consolidated financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. Operating results for the quarter ended March 31, 2009 may not be indicative of the results that may be expected for the year ending December 31, 2009. Amounts as of December 31, 2008, included in the condensed consolidated financial statements, have been derived from the audited consolidated financial statements as of that date, restated as required in connection with the adoption of Financial Accounting Standards Board (FASB) Staff Position No. APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP APB 14-1). The unaudited condensed consolidated financial statements, included herein, should be read in conjunction with the consolidated financial statements and notes thereto as well as Management's Discussion and Analysis of Financial Condition and Results of Operations in NNN's Form 10-K for the year ended December 31, 2008.

Principles of Consolidation NNN's condensed consolidated financial statements include the accounts of each of the respective majority owned and controlled affiliates, including transactions whereby NNN has been determined to be the primary beneficiary in accordance with the provisions of FASB Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities (FIN 46R). All significant intercompany account balances and transactions have been eliminated.

Table of Contents

Investment in Unconsolidated Affiliate NNN accounts for its investment in an unconsolidated affiliate under the equity method of accounting.

Cash and Cash Equivalents NNN considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents consist of cash and money market accounts. Cash equivalents are stated at cost plus accrued interest, which approximates fair value.

Cash accounts maintained on behalf of NNN in demand deposits at commercial banks and money market funds may exceed federally insured levels; however, NNN has not experienced any losses in such accounts.

Other Comprehensive Income The components for the change in other comprehensive income during the quarter ended March 31, 2009, consisted of the following (dollars in thousands):

Balance at beginning of period	\$ 2,414
Amortization of interest rate hedges	(40)
Unrealized gain commercial mortgage residual interests	947
Balance at end of period	\$ 3,321

NNN's total comprehensive income (dollars in thousands):

	Quarter Ended March 31,	
	2009	2008
Net earnings	\$ 26,804	\$ 32,239
Other comprehensive income	1,076	1,221
Comprehensive income including noncontrolling interests	27,880	33,460
Comprehensive income attributable to noncontrolling interests	(169)	(28)
Comprehensive income	\$ 27,711	\$ 33,432

Earnings Per Share Basic net earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding during each period. Diluted net earnings per common share is computed by dividing net earnings available to common stockholders for the period by the number of common shares that would have been outstanding assuming the issuance of common shares for all potentially dilutive common shares outstanding during each period.

Table of Contents

The following is a reconciliation of the denominator of the basic net earnings per common share computation to the denominator of the diluted net earnings per common share computation:

	Quarter Ended March 31,	
	2009	2008
Weighted average number of common shares outstanding	78,720,099	72,739,681
Unvested restricted stock	(554,240)	(424,894)
Weighted average number of common shares outstanding used in basic earnings per share	78,165,859	72,314,787
Weighted average number of common shares outstanding used in basic earnings per share	78,165,859	72,314,787
Effect of dilutive securities:		
Restricted stock		37,533
Common stock options	5,281	44,621
Directors' deferred fee plan	82,606	50,454
Weighted average number of common shares outstanding used in diluted earnings per share	78,253,746	72,447,395

For the quarter ended March 31, 2009, options on 40,476 shares of common stock and the effect of 554,240 unvested restricted shares of common stock were not included in computing diluted earnings per share because their effects were antidilutive.

In addition, for the quarters ended March 31, 2009 and 2008, NNN's convertible notes payable, which are convertible into common shares, were not included in computing diluted earnings per share because NNN's stock price did not exceed the strike prices of the conversion feature of the respective notes.

New Accounting Standards In January 2009, FASB issued FSP EITF 99-20-1, Amendments to the Impairment Guidance of EITF Issue No. 99-20 (FSP EITF 99-20-1). FSP EITF 99-20-1 is effective for interim and annual periods ending after December 15, 2008. Retroactive application is not permitted. The adoption of FSP EITF 99-20-1 did not have a significant impact on NNN's financial position or results of operations.

Effective January 1, 2009, NNN implemented Statement of Financial Accounting Standards (SFAS) No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51 (SFAS 160), which requires noncontrolling interests, previously called minority interest, to be presented as a component of equity. In addition, SFAS 160 requires disclosure on the face of the consolidated statement of earnings of the amounts of consolidated net income attributable to the parent and to the noncontrolling interests. SFAS 160 was applied prospectively with the exception of presentation and disclosure requirements, which were applied retrospectively for all periods presented. The adoption of SFAS 160 did not have a material impact on NNN's financial position or results of operations.

Table of Contents

The following table presents a reconciliation of the changes in equity during the quarter ended March 31, 2009 (dollars in thousands):

	NNN's Interest	Noncontrolling Interest	Total
Balance at beginning of period	\$ 1,566,860	\$ 2,086	\$ 1,568,946
Earnings from continuing operations	24,320	175	24,495
Earnings (loss) from discontinued operations	2,484	(205)	2,279
Other comprehensive income	907	169	1,076
Issuance of common shares, net of costs	13,445		13,445
Dividends to shareholders	(31,009)		(31,009)
Contributions from noncontrolling interests		152	152
Distributions to noncontrolling interests		(277)	(277)

Balance at end of period	\$ 1,573,655	\$ 2,100	\$ 1,575,755

Adoption of New Accounting Standard with change in Accounting Principle Effective January 1, 2009, NNN adopted FSP APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement). The standard requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer's non-convertible debt borrowing rate. FSP APB 14-1 requires the debt component to be recorded based upon the estimated fair value of similar non-convertible debt. The resulting debt discount is to be amortized over the period during which the debt is expected to be outstanding as additional non-cash interest expense.

FSP APB 14-1 requires application of the standard on a retrospective basis. The adoption of FSP APB 14-1 resulted in the following non-cash adjustments:

	December 31, 2008
Notes payable, as reported	\$ 381,535
Adjustments resulting from the retrospective restatement	(25,413)
Notes payable, restated	356,122
Retained earnings, as reported	\$ 143,789

Use of Estimates Management of NNN has made a number of estimates and assumptions relating to the reporting of assets and liabilities, revenues and expenses and the disclosure of

Table of Contents

contingent assets and liabilities to prepare these condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Significant estimates include provision for impairment and allowances for certain assets, accruals, useful lives of assets and capitalization of costs. Actual results could differ from those estimates.

Reclassification Certain items in the prior year's consolidated financial statements and notes to consolidated financial statements have been reclassified to conform to the 2009 presentation. These reclassifications had no effect on stockholders' equity or net earnings.

Note 2 Real Estate Investment Portfolio:

Leases As of March 31, 2009, of the 1,009 Investment Property leases, 989 leases have been classified as operating leases, and 20 leases have been classified as direct financing leases. For the Investment Property leases classified as direct financing leases, the building portions of the property leases are accounted for as direct financing leases while the land portions of six of these leases are accounted for as operating leases. Substantially all leases have initial terms of 10 to 20 years (expiring between 2009 and 2029) and provide for minimum rentals. In addition, the leases generally provide for limited increases in rent as a result of fixed increases, increases in the consumer price index, and/or increases in the tenant's sales volume. Generally, the tenant is also required to pay all property taxes and assessments, substantially maintain the interior and exterior of the building and carry property and liability insurance coverage. Certain of NNN's Investment Properties are subject to leases under which NNN retains responsibility for certain costs and expenses of the property. As of March 31, 2009, the weighted average remaining lease term was approximately 13 years. Generally, the leases of the Investment Properties provide the tenant with one or more multi-year renewal options subject to generally the same terms and conditions as in the initial lease term.

Investment Portfolio Accounted for Using the Operating Method Real estate subject to operating leases consisted of the following (dollars in thousands):

	March 31, 2009	December 31, 2008
Land and improvements	\$ 1,056,147	\$ 1,057,757
Buildings and improvements	1,417,951	1,406,121
Leasehold interests	1,290	2,532

Note 4 Impairments Real Estate:

Management periodically assesses its real estate for possible impairment whenever events or changes in circumstances indicate that the carrying amount of the asset, including accrued rental income, may not be recoverable through operations. Events or circumstances that may occur include changes in real estate market conditions, the ability of NNN to re-lease properties that are vacant, and the ability to sell properties at an attractive return. Impairments are measured as the amount by which the current book value of the asset exceeds the estimated fair value of the

Edgar Filing: NATIONAL RETAIL PROPERTIES, INC. - Form 10-Q

asset. As a result of the Company's review of long lived assets, including identifiable intangible assets, NNN recognized a \$14,000 impairment in discontinued operations during the quarter ended March 31, 2008. No impairment amount was recognized in continuing or discontinued operations during the quarter ended March 31, 2009.

Note 6 Commercial Mortgage Residual Interests:

NNN owns a 78.9 percent equity interest in Orange Avenue Mortgage Investments, Inc. (OAMI). OAMI holds the commercial mortgage residual interests (Residuals) from seven securitizations. Each of the Residuals is recorded at fair value based upon an independent valuation. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity and other than temporary losses as a result of a change in the timing or amount of estimated cash flows are recorded as an other than temporary valuation impairment.

The following table summarizes the recognition of unrealized gains and/or losses recorded as other comprehensive income as well as other than temporary valuation impairment (dollars in thousands):

Note 7 Line of Credit Payable:

NNN's \$400,000,000 revolving credit facility (the Credit Facility) had a weighted average outstanding balance of \$25,213,000 and a weighted average interest rate of 1.21% during the quarter ended March 31, 2009. The interest rate on the Credit Facility is based on a tiered rate structure which is determined by the debt rating of the Company. In June 2008, NNN's interest rate on the Credit Facility decreased to 65 basis points above LIBOR as a result of an upgrade in its debt rating. As of March 31, 2009, \$22,900,000 was outstanding, and approximately \$377,100,000 was available for future borrowings under the Credit Facility, excluding undrawn letters of credit totaling \$1,265,000.

- (2) Debt issuance costs include underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. These costs have been deferred and are being amortized over the period to the earliest put option date of the holders using the effective interest method.
- (3) Includes \$114 and \$349 of note costs which were written off in connection with the repurchase of \$8,800 and \$25,000 of the 2026 Notes, respectively.
- (4) The conversion rate per \$1,000 principal amount was 41.2951 shares of NNN's common stock, which is equivalent to a conversion price of \$24.2159 per share of common stock.
- (5) The conversion rate per \$1,000 principal amount was 39.3459 shares of NNN's common stock, which is equivalent to a conversion price of approximately \$25.42 per share of common stock.
- (6) NNN repurchased \$8,500 during the quarter ended March 31, 2009, for a purchase price of \$6,539, resulting in a gain of \$1,132.
- (7) Includes \$171 of note costs which were written off in connection with the repurchase of \$8,500 of the 2028 Notes.
- (8) With the adoption of FSP APB 14-1, the effective interest rate for the 2026 and the 2028 Notes are 5.840% and 7.192%, respectively.

Each series of convertible notes represents senior, unsecured obligations of NNN and are subordinated to all secured indebtedness of the Company. Each note is redeemable at the option of NNN, in whole or in part, at a redemption price equal to the sum of (i) the principal amount of the notes being redeemed plus accrued and unpaid interest thereon through but not including the redemption date and (ii) the make whole amount, if any, as defined in the applicable supplemental indenture relating to the notes.

Note 9 Preferred Stock:

NNN declared and paid dividends to its Series C Preferred stockholders of \$1,696,000 or \$0.4609 per share during each of the quarters ended March 31, 2009 and 2008, respectively. The Series C Preferred Stock has no maturity date and will remain outstanding unless redeemed.

Note 10 Common Stock:

In February 2009, NNN filed a shelf registration statement with the Securities and Exchange Commission which permits the issuance by NNN of an indeterminate amount of debt and equity securities.

Table of Contents

During the quarters ended March 31, 2009 and 2008, NNN declared and paid dividends to its common shareholders of \$29,313,000 and \$25,698,000, respectively, or \$0.375 and \$0.355 per share, respectively, of common stock.

In April 2009, NNN declared a dividend of \$0.375 per share, which is payable in May 2009 to its common stockholders of record as of April 30, 2009.

Dividend Reinvestment and Stock Purchase Plan In February 2006, NNN filed a shelf registration statement with the Securities and Exchange Commission for its Dividend Reinvestment and Stock Purchase Plan (DRIP) which permits the issuance by NNN of 12,191,394 shares of common stock. The following outlines the common stock issuances pursuant to the DRIP for each of the quarters ended March 31 (dollars in thousands):

	2009	2008
Shares of common stock	602,112	269,678
Net proceeds	\$ 8,852	\$ 5,862

Note 11 Restructuring Costs:

During the quarter ended March 31, 2009, NNN recorded restructuring costs of \$731,000 related to the reduction of its workforce.

Note 12 Income Taxes:

NNN elected to be taxed as a REIT under the Internal Revenue Code (Code), commencing with its taxable year ended December 31, 1984. To qualify as a REIT, NNN must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income to its stockholders. Also, at least 95% of gross income in any year must be derived from qualifying sources. NNN intends to adhere to these requirements and maintain its REIT status. As a REIT, NNN generally will not be subject to corporate level federal income tax on taxable income that it distributes currently to its stockholders. NNN may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income, if any. The provision for federal income taxes in NNN's consolidated financial statements relates to its TRS operations and any potential taxable built-in gain. NNN did not have significant tax provisions or deferred income tax items during the periods reported hereunder.

In June 2006, the FASB issued SFAS Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). In summary, FIN 48 requires that all tax positions subject to FASB issued SFAS No. 109, Accounting for Income Taxes (SFAS 109), be analyzed using a two-step approach. The first step requires an entity to determine if a tax position would more likely than not be sustained upon examination. In the second step, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis that is more likely than not to be realized upon ultimate settlement. FIN 48 is effective for fiscal years beginning after December 15, 2006. The periods that remain open under federal statute are 2005 through 2009. NNN believes that its tax filing positions and deductions are well documented and supported, and that it is more likely than not that its tax positions would be sustained upon an examination. Therefore, NNN has not recorded a reserve pursuant to FIN 48 for uncertain income tax positions nor has it recorded a cumulative effect adjustment relating to the adoption of FIN 48. Further, no interest or penalties have been included since no reserves were recorded, and no significant increases or decreases are expected to occur within the next 12 months. When applicable, such interest and penalties will be recorded in non-operating expenses.

Note 14 Derivatives:

FASB issued Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. As required by SFAS 133, NNN records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

NNN's objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, NNN primarily uses treasury locks and interest rate swaps as part of its cash flow hedging

Edgar Filing: NATIONAL RETAIL PROPERTIES, INC. - Form 10-Q

strategy. Treasury locks designated as cash flow hedges lock in the yield or price of a treasury security. Interest rate swaps designated as cash flow hedges involve the receipt of variable rate amounts in exchange for fixed-rate payments over the life of the agreements without exchange of the underlying principal amount. To date, such derivatives have been used to hedge the variable cash

Table of Contents

flows associated with floating rate debt and forecasted interest payments of a forecasted issuance of debt.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized directly in earnings.

NNN discontinues hedge accounting prospectively when it is determined that the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative expires or is sold, terminated, or exercised, the derivative is re-designated as a hedging instrument or management determines that designation of the derivative as a hedging instrument is no longer appropriate.

When hedge accounting is discontinued, NNN continues to carry the derivative at its fair value on the balance sheet, and recognizes any changes in its fair value in earnings or may choose to cash settle the derivative at that time.

In February 2008, NNN terminated its interest rate hedge with a notional amount of \$100,000,000 that was hedging the risk of changes in forecasted interest payments on a forecasted issuance of long-term debt. The fair value of the interest rate hedge when terminated was a liability of \$804,000, which NNN recorded as a loss on interest rate hedge.

Additionally, NNN recorded an immaterial amount of hedge ineffectiveness on the cash flow hedge as other interest expense.

NNN does not use derivatives for trading or speculative purposes or currently have any derivatives that are not designated as hedges. NNN had no derivative financial instruments outstanding at March 31, 2009.

Note 15 Segment Information:

NNN has identified two primary financial segments: (i) Investment Assets, and (ii) Inventory Assets. The following tables represent the segment data and reconciliation to NNN's consolidated totals for the quarters ended March 31 (dollars in thousands):

	Investment Assets	Inventory Assets	Eliminations (Intercompany)	Condensed Consolidated Totals

Table of Contents**Note 16 Fair Value Measurements:**

The Company adopted the provisions of SFAS No. 157, Fair Value Measurements (SFAS 157) relating to financial assets and liabilities on January 1, 2008. The provisions of SFAS 157 relating to non-financial assets and liabilities were adopted effective January 1, 2009. SFAS 157 specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The standard describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

NNN currently values its Residuals based upon an independent valuation which provides a discounted cash flow analysis based upon prepayment speeds, expected loan losses and yield curves. These valuation inputs are generally considered unobservable; therefore, the Residuals are considered Level 3 financial assets. The table below presents a reconciliation of the Residuals during the quarter ended March 31, 2009 (dollars in thousands):

Balance at beginning of period	\$ 22,000
Total gains (losses) realized/unrealized:	
Included in earnings	
Included in other comprehensive income	1,116
Interest income on Residuals	1,054
Cash received from Residuals	(1,553)
Transfers in and/or out of Level 3	
Balance at end of period	\$ 22,617
Changes in gains (losses) included in earnings attributable to a change in unrealized gains (losses) relating to assets still held at the end of period	\$

However, the adoption of the fair value measurement provisions of SFAS 157 for NNN's non-financial assets and non-financial liabilities had no material impact on NNN's financial position or results of operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in the Annual Report on Form 10-K of National Retail Properties, Inc. for the year ended December 31, 2008. The information herein contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934. These statements generally are characterized by the use of terms such as "believe," "expect" and "may."

The term "NNN" or the "Company" refers to National Retail Properties, Inc. and all of its consolidated subsidiaries. NNN has elected to treat certain subsidiaries as taxable real estate investment trust ("REIT") subsidiaries. These subsidiaries and their majority owned and controlled subsidiaries are collectively referred to as the "TRS."

Overview

NNN's operations are divided into two primary business segments: (i) investment assets, including real estate assets, mortgages and notes receivable and commercial mortgage residual interests (collectively, "Investment Assets"), and (ii) inventory real estate assets ("Inventory Assets"). NNN acquires, owns, invests in, manages and develops properties that are leased primarily to retail tenants under long-term net leases ("Investment Properties" or "Investment Portfolio"). As of March 31, 2009, NNN owned 1,002 Investment Properties, with an aggregate gross leasable area of approximately 11,295,000 square feet, located in 44 states. Approximately 97 percent of total properties in NNN's Investment Portfolio were leased as of March 31, 2009. In addition, as of March 31, 2009, NNN had \$60,887,000 in mortgages and notes receivables and \$22,617,000 commercial mortgage residuals interests.

The TRS primarily owns, directly and indirectly, through investment interests, real estate for the purpose of selling the real estate ("Inventory Properties" or "Inventory Portfolio"). The TRS typically owns two types of properties, property for development ("Development Properties" or "Development Portfolio") and improved properties ("Exchange Properties" or "Exchange Portfolio"). As of March 31, 2009, the TRS held 31 Inventory Properties, of which 18 were Development Properties (10 completed inventory, two under construction and six land parcels) and 13 were Exchange Properties.

NNN's management team focuses on certain key indicators to evaluate the financial condition and operating performance of NNN. The key indicators for NNN include items such as: the composition of NNN's Investment Portfolio (such as tenant, geographic and line of trade diversification), the occupancy rate of NNN's Investment Portfolio, certain financial performance ratios and profitability measures, and industry trends and performance compared to that of NNN.

NNN continues to maintain its diversification by tenant, geography and line of trade. NNN's highest lines of trade concentrations are the convenience store and restaurant (including full and limited service) sectors. These sectors represent a large part of the free standing retail property marketplace which NNN believes represent an area of attractive investment opportunity. However, any financial hardship within these sectors could have an adverse effect on the financial condition and operating performance of NNN. NNN has some geographic concentration in the south and southeast which NNN believes are areas of above-average population growth.

Revenue from Continuing Operations Analysis

General. During the quarter ended March 31, 2009, NNN's revenue increased primarily due to rental income from properties acquired subsequent to March 31, 2008, as well as rent settlement fees received during the quarter ended March 31, 2009.

The following summarizes NNN's revenues from continuing operations (dollars in thousands):

	Quarter Ended March 31,				Percent Increase (Decrease)
	2009	2008	2009 Percent of Total	2008 Percent of Total	
Rental income ⁽¹⁾	\$ 53,722	\$ 49,858	92.7%	92.3%	7.8%
Real estate expense reimbursement from tenants	2,353	1,560	4.1%	2.9%	50.8%
Interest and other income from real estate transactions	834	1,235	1.4%	2.3%	(32.5)%
Interest income on commercial mortgage residual interests	1,054	1,356	1.8%	2.5%	(22.3)%
Total revenues from continuing operations	\$ 57,963	\$ 54,009	100.0%	100.0%	7.3%

(1) Includes rental income from operating leases, earned income from direct financing leases and percentage rent from continuing operations (Rental Income).

Revenue from Operations by Source of Income. NNN has identified two primary business segments, and thus, sources of revenue: (i) earnings from Investment Assets, and (ii) earnings from Inventory Assets. NNN's revenues from continuing operations come primarily from its Investment Assets. The revenues generated from NNN's Inventory Assets are typically classified as discontinued operations in accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144).

Rental Income. Rental income increased for the quarter ended March 31, 2009, as compared to the same period last year, but remained relatively stable as a percent of the total revenues from continuing operations. The increase is due to the acquisition of 109 Investment Properties with aggregate gross leasable area of 868,000 square feet during the year ended December 31, 2008. Additionally, NNN recorded \$2,785,000 and \$404,000 in lease termination fees during the quarters ended March 31, 2009 and 2008, respectively. The increase in rental income was partially offset by an increase in the allowance for receivables.

Table of Contents

Real Estate Expense Reimbursements from Tenants. Real estate expense reimbursements from tenants increased for the quarter ended March 31, 2009, as compared to the same period last year and remained fairly consistent as a percentage of total revenues from continuing operations. The increase is largely attributable to a full year of reimbursements from certain properties acquired in 2008.

Interest and Other Income from Real Estate Transactions. Interest and other income from real estate transactions decreased for the quarter ended March 31, 2009, as compared to the quarter ended March 31, 2008, primarily due to a lower weighted average principal balance on NNN's mortgages receivable and structured finance investments during the quarter ended March 31, 2009. For the quarters ended March 31, 2009 and 2008, the weighted average outstanding principal balance on NNN's mortgages receivable and structured finance investments was \$26,099,000 and \$50,966,000, respectively.

Interest Income on Commercial Mortgage Residual Interests. Interest income on commercial mortgage residual interests (Residuals) decreased for the quarter ended March 31, 2009, as compared to the same period last year, but remained relatively stable as a percent of total revenues from continuing operations. The decrease in interest income on Residuals is primarily the result of the amortization of the underlying notes.

Analysis of Expenses from Continuing Operations

General. Operating expenses from continuing operations increased for the quarter ended March 31, 2009, primarily due to the increase in depreciation related to the 2008 real estate acquisitions. The following summarizes NNN's expenses from continuing operations for the quarters ended March 31 (dollars in thousands):

	2009	2008	Percent Increase (Decrease)	Percentage of Total		Percent of Revenues from Continuing Operations	
				2009	2008	2009	2008

General and Administrative Expenses. General and administrative expenses decreased for quarter ended March 31, 2009, as compared to the same period in 2008, both as a percentage of total operating expenses and as a percentage of revenues from continuing operations. The decrease in general and administrative expenses for the quarter ended March 31, 2009, is primarily attributable to a decrease in expenses related to personnel compensation and a decrease in lost pursuit costs.

Real Estate. Real estate expenses increased for the quarter ended March 31, 2009, as compared to the same period in 2008, primarily due to an increase in tenant reimbursable real estate expenses from 2008 acquisitions, as well as an increase in expenses related to vacant properties.

Table of Contents

Depreciation and Amortization. For the quarter ended March 31, 2009, depreciation and amortization expenses increased both as a percentage of revenues from continuing operations and as a percentage of total operating expense. The increase is primarily a result of the depreciation recognized on the 109 Investment Properties with aggregate gross leasable area of 868,000 square feet which were acquired in 2008.

Impairment Commercial Mortgage Residual Interests Valuation Adjustment. In connection with the independent valuations of the Residuals fair value, during the quarter ended March 31, 2009, NNN did not record an other than temporary valuation adjustment.

Restructuring Costs. During the quarter ended March 31, 2009, NNN recorded restructuring costs of \$731,000 in connection with a workforce reduction. No such costs were incurred during 2008.

Interest Expense. Interest expense decreased for the quarter ended March 31, 2009, as compared to the quarter ended March 31, 2008.

The following represents the primary changes in debt that have impacted interest expense:

- (i) repurchase of \$8,500,000 of convertible notes payable with an effective interest rate of 7.192% in February 2009,
- (ii) repurchase of \$3,800,000, \$5,000,000 and \$25,000,000 of convertible notes payable with an effective interest rate of 5.840% in March 2009, January 2009 and November 2008, respectively,
- (iii) issuance of \$234,035,000 of convertible notes payable in March 2008, with an effective interest rate of 5.125%, due June 2028,
- (iv) payoff of the \$100,000,000 7.125% notes payable in March 2008,
- (v) payoff of the \$12,000,000 secured note payable with stated interest rate of 10.00% in February 2008,
- (vi) the decrease of \$118,285,000 in the weighted average debt outstanding on the revolving credit facility for the quarter ended March 31, 2009, as compared to the same period in 2008, and
- (vii) the decrease in weighted average interest rate on the revolving credit facility from 4.51% for the quarter ended March 31, 2008, to 1.21% for the quarter ended March 31, 2009.

Earnings from Discontinued Operations

In accordance with SFAS 144, NNN classified as discontinued operations the revenues and expenses related to its Investment Properties that were sold, its leasehold interests that were terminated and any Investment Properties that were held for sale at March 31, 2009. NNN also classified as discontinued operations the revenues and expenses of its Inventory Properties that generated revenues. NNN records discontinued operations by its identified segments: (i) Investment Assets, and (ii) Inventory Assets. The following table summarizes the earnings from discontinued operations for each of the quarters ended March 31 (dollars in thousands):

	# of Sold Properties	2009		# of Sold Properties	2008	
		Gain	Earnings		Gain	Earnings
Investment Assets	3	\$ 1,032	\$ 2,040	4	\$ 3,877	\$ 5,963

Table of Contents

NNN periodically sells Investment Properties and may reinvest the sale proceeds to purchase additional properties. NNN evaluates its ability to pay dividends to stockholders by considering the combined effect of income from continuing and discontinued operations.

Liquidity

General. NNN's demand for funds has been and will continue to be primarily for (i) payment of operating expenses and cash dividends; (ii) property acquisitions and development; (iii) origination of mortgages and notes receivable; (iv) capital expenditures; (v) payment of principal and interest on its outstanding indebtedness; and (vi) other investments.

Cash and Cash Equivalents. Below is a summary of NNN's cash flows for the quarters ended March 31 (dollars in thousands):

	2009	2008
Cash and cash equivalents:		
Provided by operating activities	\$ 48,784	\$ 70,961
Provided by (used in) investing activities	(10,009)	(174,210)
Provided by financing activities	(39,543)	87,588
Increase (decrease)	(768)	(15,661)
Net cash at beginning of period	2,626	27,499
Net cash at end of period	\$ 1,858	\$ 11,838

Cash provided by operating activities represents cash received primarily from rental income from tenants, proceeds from the disposition of Inventory Properties and interest income less cash used for general and administrative expenses, interest expense and the acquisition of Inventory Properties. NNN's cash flow from operating activities, net of the cash used in and provided by the acquisition and disposition of its Inventory Properties, has been sufficient to pay the dividends in each of the periods presented. NNN uses proceeds from its credit facility to fund the acquisition of its Inventory Properties. The change in cash provided by operations for the quarters ended March 31, 2009 and 2008 is primarily the result of changes in revenues and expenses as discussed in Results of Operations.

Changes in cash for investing activities are primarily attributable to the acquisitions and dispositions of Investment Properties.

NNN's financing activities for the quarter ended March 31, 2009, include the following significant transactions:

\$6,539,000 in net payments on the repurchase of \$8,500,000 of 5.125% of convertible notes payable June 2028,

\$6,994,000 in net payments on the repurchase of \$8,800,000 of 3.95% of convertible notes payable September 2026,

\$29,313,000 in dividends paid to common stockholders,

\$1,696,000 in dividends paid to holders of the depositary shares of NNN's Series C Preferred Stock,

\$8,852,000 in net proceeds from the issuance of 602,112 shares of common stock in connection with the Dividend Reinvestment and Stock Purchase Plan (DRIP), and

\$3,600,000 in net payments on NNN's revolving credit facility.

Contractual Obligations and Commercial Commitments. As of March 31, 2009, NNN has agreed to fund construction commitments in connection with the development of additional properties as outlined below (dollars in thousands):

	# of Properties	Total Commitment ⁽¹⁾	Amount Funded	Remaining Commitment
Investment Portfolio	15	\$ 74,231	\$ 58,382	\$ 15,849
Inventory Portfolio	2	5,869	4,409	1,460
	17	\$ 80,100	\$ 62,791	\$ 17,309

⁽¹⁾ Including construction and land costs.

As of March 31, 2009, NNN had outstanding letters of credit totaling \$1,265,000 under its revolving credit facility.

As of March 31, 2009, NNN did not have any other material contractual cash obligations, such as purchase obligations, financing lease obligations or other long-term liabilities other than those reflected in the table. In addition to items reflected in the table, NNN has issued preferred stock with cumulative preferential cash distributions, as described below under *Dividends*.

Management anticipates satisfying these obligations with a combination of NNN's current capital resources on hand, its revolving credit facility (the *Credit Facility*), debt or equity financings and asset dispositions.

The lost revenues and increased property expenses resulting from vacant properties or uncollectibility of lease revenues could have a material adverse effect on the liquidity and results of operations if NNN is unable to release the Investment Properties at comparable rental rates and in a timely manner. As of March 31, 2009, NNN owned 33 vacant, unleased Investment Properties (including vacant land parcels) which accounted for approximately three percent of the total Investment Properties held in NNN's Investment Portfolio. Additionally, as of April 30, 2009, approximately two percent of the total gross leasable area of NNN's Investment Portfolio is leased to tenants that have filed a voluntary petition for bankruptcy under Chapter 11 of the U. S. Bankruptcy Code. As a result, these tenants have the right to reject or affirm their leases with NNN.

In May 2008, one of NNN's tenants, Uni-Mart, Inc. (*Uni-Mart*), which leased 69 Investment Properties and eight Inventory Properties, filed a petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. In July 2008, Uni-Mart elected to reject the leases of 13 properties owned by NNN. Additionally, in December 2008, Uni-Mart elected to reject an additional three properties. NNN has re-leased 15 of the 16 properties as of March 31, 2009, and continues to market for re-lease or sale the remaining property. On April 1, 2009, Uni-Mart rejected the leases of 36 properties. All of the 36 properties are subject to subleases with convenience store operators and all of the subleases with the operators were assigned from Uni-Mart to NNN effective April 1, 2009. The rent under the assigned subleases on the 36 properties is roughly equivalent to the rent NNN was receiving from the Uni-Mart on these properties. On April 30, 2009, Uni-Mart assumed all of the remaining leases between Uni-Mart and NNN. For the quarter ended March 31, 2009, NNN recorded \$1,232,000 of income in connection with the Uni-Mart bankruptcy damage claim. During the year ended December 31, 2008, NNN recorded \$2,421,000 of income in connection with the Uni-Mart bankruptcy damage claim. NNN does not believe Uni-Mart's Chapter 11 filing will have a material adverse effect on its operations and financial position.

On April 20, 2009, one of NNN's tenants, Titlemax Holdings, LLC and its affiliated companies (*Titlemax*), which leased 30 Investment Properties from NNN, filed a petition of reorganization under Chapter 11 of the U.S. Bankruptcy Code. NNN does not believe Titlemax's Chapter 11 filing will have a material adverse effect on its operations or financial position.

Dividends. NNN has made an election to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, and related regulations and intends to continue to operate so as to remain qualified as a REIT for federal income tax purposes. NNN generally will not be subject to federal income tax on income that it distributes to its stockholders, provided that it distributes 100 percent of its REIT taxable income and meets certain other requirements for qualifying as a REIT. If NNN fails to qualify as a REIT in any taxable year, it will be subject to federal income tax on its taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost. Such an event could materially affect NNN's income and its ability to pay dividends. NNN believes it has been structured as, and its past and present operations qualify NNN as, a REIT.

One of NNN's primary objectives, consistent with its policy of retaining sufficient cash for reserves and working capital purposes and maintaining its status as a REIT, is to distribute a substantial portion of its funds available from operations to its stockholders in the form of dividends. During the quarters ended March 31, 2009 and 2008, NNN declared and paid dividends to its common stockholders of \$29,313,000 and \$25,698,000, respectively, or \$0.375 and \$0.355 per share, respectively, of common stock.

In April 2009, NNN declared a dividend of \$0.375 per share which is payable in May 2009 to its common stockholders of record as of April 30, 2009.

NNN declared and paid dividends to its Series C Preferred stockholders of \$1,696,000 or \$0.4609 per share during each of the quarters ended March 31, 2009 and 2008, respectively. The Series C Preferred Stock has no maturity date and will remain outstanding unless redeemed.

Capital Resources

Generally, cash needs for property acquisitions, mortgages and notes receivable, debt payments, dividends, capital expenditures, development and other investments have been funded by equity and debt offerings, bank borrowings, the sale of properties and, to a lesser extent, by internally generated funds. Cash needs for other items have been met from operations. If available, future sources of capital include proceeds from the public or private offering of NNN's debt or equity securities, secured or unsecured borrowings from banks or other lenders, proceeds from the sale of properties, as well as undistributed funds from operations.

Debt

The following is a summary of NNN's total outstanding debt (dollars in thousands):

	March 31, 2009	Percentage of Total	December 31, 2008	Percentage of Total
Line of credit payable	\$ 22,900	2.3%	\$ 26,500	2.6%

Total outstanding debt	\$ 1,008,805	100.0%	\$ 1,027,391	100.0%

Indebtedness. NNN expects to use indebtedness primarily for property acquisitions and development of single-tenant retail properties, either directly or through investment interests, and mortgages and notes receivable.

Line of Credit Payable. NNN's \$400,000,000 Credit Facility had a weighted average outstanding balance of \$25,213,000 and a weighted average interest rate of 1.21% during the quarter ended March 31, 2009. The interest rate on the Credit Facility is based on a tiered rate structure which is determined by the debt rating of the Company. In June 2008, as a result of an upgrade in its debt rating, NNN's interest rate on

Table of Contents

the Credit Facility decreased to 65 basis points above LIBOR. In October 2008, NNN exercised its option to extend the maturity date of the Credit Facility from May 2009 to May 2010.

Notes Payable - Convertible. Each of NNN's outstanding series of convertible notes are summarized in the table below (dollars in thousands):

- (1) NNN repurchased \$3,800, \$5,000 and \$25,000 in March 2009, January 2009 and November 2008, respectively, for a purchase price of \$3,100, \$3,894 and \$19,188, respectively, resulting in a gain of \$483, \$803 and \$4,194, respectively.
- (2) Debt issuance costs include underwriting discounts and commissions, legal and accounting fees, rating agency fees and printing expenses. These costs have been deferred and are being amortized over the period to the earliest put option date of the holders using the effective interest method.
- (3) Includes \$114 and \$349 of note costs which were written off in connection with the repurchase of \$8,800 and \$25,000 of the 2026 Notes, respectively.
- (4) The conversion rate per \$1,000 principal amount was 41.2951 shares of NNN's common stock, which is equivalent to a conversion price of \$24.2159 per share of common stock.
- (5) The conversion rate per \$1,000 principal amount was 39.3459 shares of NNN's common stock, which is equivalent to a conversion price of approximately \$25.42 per share of common stock.
- (6) NNN repurchased \$8,500 during the quarter ended March 31, 2009, for a purchase price of \$6,539, resulting in a gain of \$1,132.
- (7) Includes \$171 of note costs which were written off in connection with the repurchase of \$8,500 of the 2028 Notes.
- (8) With the adoption of FSP APB 14-1, the effective interest rate for the 2026 and the 2028 Notes are 5.840% and 7.192%, respectively.

Each series of convertible notes represents senior, unsecured obligations of NNN and are subordinated to all secured indebtedness of the Company. Each note is redeemable at the option of NNN, in whole or in part, at a redemption price equal to the sum of (i) the principal amount of the notes being redeemed plus accrued and unpaid interest thereon through but not including the redemption date, and (ii) the make whole amount, if any, as defined in the applicable supplemental indenture relating to the notes.

Debt and Equity Securities

NNN has used, and expects to use in the future, issuances of debt and equity securities primarily to pay down its outstanding indebtedness and to finance investment acquisitions. NNN has maintained investment grade debt ratings from Standard and Poor's, Moody's Investor Service and Fitch Ratings on its senior, unsecured debt since 1998. In June 2008, NNN's debt rating was upgraded by Moody's Investor Service.

Securities Offering. In February 2009, NNN filed a shelf registration statement with the Securities and Exchange Commission which permits the issuance by NNN of an indeterminate amount of debt and equity securities.

Table of Contents

Dividend Reinvestment and Stock Purchase Plan. In February 2006, NNN filed a shelf registration statement with the Securities and Exchange Commission for the DRIP which permits the issuance by NNN of 12,191,394 shares of common stock. NNN's DRIP provides an economical and convenient way for current stockholders and other interested new investors to invest in NNN's common stock. The following outlines the common stock issuances pursuant to the DRIP for the quarters ended March 31 (dollars in thousands):

Commercial Mortgage Residual Interests

In connection with the independent valuations of the Residuals' fair value, NNN adjusted the carrying value of the Residuals to reflect such fair value at March 31, 2009.

The following table summarizes the recognition of unrealized gains and/or losses recorded as other comprehensive income as well as other than temporary valuation impairment (dollars in thousands):

	Quarter Ended March 31, 2009	2008
Unrealized gains	\$ 1,116	\$ 1,354
Other than temporary valuation impairment		758

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

NNN is exposed to interest rate risk primarily as a result of its variable rate Credit Facility and its long-term, fixed rate debt which is used to finance its development and acquisition activities, as well as for general corporate purposes. NNN's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, NNN borrows at both fixed and variable rates on its long-term debt. NNN had no outstanding derivatives as of March 31, 2009.

The information in the table below summarizes NNN's market risks associated with its debt obligations outstanding as of March 31, 2009, and December 31, 2008. The table presents principal payments and related interest rates by year for debt obligations outstanding as of March 31, 2009. The variable interest rates shown represent the weighted average rate for the Credit Facility during the quarter ended March 31, 2009. The table incorporates only those debt obligations that exist as of March 31, 2009; it does not consider those debt obligations or positions which could arise after this date. Moreover, because firm commitments are not presented in the table below, the information presented therein has limited predictive value. As a result, NNN's ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during the period, NNN's hedging strategies at that time and interest rates. If interest rates on NNN's variable rate debt increased by one percent, NNN's interest expense would have increased by less than one percent for the quarter ended March 31, 2009.

(1) The Credit Facility interest rate varies based upon a tiered rate structure ranging from 55 to 112.5 basis points above LIBOR based upon the debt rating of NNN.

(2) Includes NNN's notes payable and convertible notes payable, each net of unamortized note discount. NNN uses Bloomberg software to determine the fair value.

NNN is also exposed to market risks related to the Residuals. Factors that may impact the market value of the Residuals include delinquencies, loan losses, prepayment speeds and interest rates. The Residuals, which are reported at market value based upon an independent valuation, had a carrying value of \$22,617,000 and \$22,000,000 as of March 31, 2009, and December 31, 2008, respectively. Unrealized gains and losses are reported as other comprehensive income in stockholders' equity. Losses are considered other than temporary and reported as a valuation impairment in earnings from operations if and when there has been a change in the timing or amount of estimated cash flows that leads to a loss in value.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of NNN's management, including NNN's Chief Executive Officer and Chief Financial Officer, of the effectiveness as of March 31, 2009, of the design and operation of NNN's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting. There has been no change in NNN's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, NNN's internal control over financial reporting.
