SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly report pursuant to section 13 or 15 (d) of the Securities Exchange Act of 1934
For the quarterly period ended March 31, 2009 or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission File Number: 000-50245

NARA BANCORP, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: NARA BANCORP INC - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

95-4849715
(IRS Employer
Identification Number)

3731 Wilshire Boulevard, Suite 1000, Los Angeles, California
(Address of Principal executive offices)

90010
(ZIP Code)

(213) 639-1700

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 30, 2009, there were 26,256,960 outstanding shares of the issuer's Common Stock, \$0.001 par value.

Forward-Looking Information

Certain matters discussed in this report may constitute forward-looking statements under Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. There can be no assurance that the results described or implied in such forward-looking statements will, in fact, be achieved and actual results, performance, and achievements could differ materially because our business involves inherent risks and uncertainties. Risks and uncertainties include deterioration in economic conditions in our areas of operation; interest rate risk associated with volatile interest rates and related asset-liability matching risk; liquidity risks; risk of significant non-earning assets, and net credit losses that could occur, particularly in times of weak economic conditions or times of rising interest rates; risks of available for sale securities declining significantly in value as interest rates rise; and regulatory risks associated with the current and future regulations as well as the possibility of regulatory enforcement actions to which we are subject. For additional information concerning these factors, see Item 1A. Risk Factors contained in our Annual Report on Form 10-K for the year ended December 31, 2008.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Nara Bancorp, Inc.

Nara Bancorp, Inc. (Nara Bancorp , on a parent-only basis, and Company, we or our on a consolidated basis), incorporated under the laws of the State of Delaware in 2000, is a bank holding company, headquartered in Los Angeles, California, offering a full range of commercial banking and certain consumer financial services through its wholly owned subsidiary, Nara Bank (Nara Bank or the Bank). The Bank was organized in 1989 as a national bank and converted to a California state-chartered bank on January 3, 2005. It has branches in California, New York and New Jersey as well as Loan Production Offices in California, Georgia, New Jersey and Texas.

2. Basis of Presentation

Our condensed consolidated financial statements included herein have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures, normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such SEC rules and regulations.

The condensed consolidated financial statements include the accounts of Nara Bancorp and its wholly owned subsidiaries, principally Nara Bank. All intercompany transactions and balances have been eliminated in consolidation.

We believe that we have made all adjustments, consisting solely of normal recurring accruals, necessary to fairly present our financial position at March 31, 2009 and the results of our operations for the three months then ended. Certain reclassifications have been made to prior period amounts to conform to the current year presentation. The results of operations for the interim periods are not necessarily indicative of results for the full year.

These unaudited condensed consolidated financial statements should be read along with the audited consolidated financial statements and accompanying notes included in our 2008 Annual Report on Form 10-K.

3. Stock-Based Compensation

The Company has a stock based incentive plan, the 2007 Nara Bancorp, Inc. Equity Incentive Plan (2007 Plan). The 2007 Plan, which was approved by our stockholders on May 31, 2007, provides for grants of stock options, stock appreciation rights (SARs), restricted stock, performance shares and performance units (sometimes referred to individually or collectively as awards) to non-employee directors, officers, employees and consultants of the Company. Stock options may be either incentive stock options (ISOs), as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or nonqualified stock options (NQSOs).

The 2007 Plan gives the Company flexibility to (i) attract and retain qualified non-employee directors, executives and other key employees and consultants with appropriate equity-based awards, (ii) motivate high levels of performance, (iii) recognize employee contributions to the Company's success, and (iv) align the interests of Plan participants with those of the Company's stockholders. The exercise price for the shares underlying each award is the fair market value (FMV) on the date the award is granted. The exercise price for shares under an ISO may not be less than 100% of fair market value on the date the award is granted under Code Section 422. Similarly, under the terms of the 2007 Plan the exercise price for SARs and NQSOs may not be less than 100% of FMV on the date of grant. Performance units are awarded to a participant at the market price of the Company's common stock on the date of award (after the lapse of the restriction period and the attainment of the performance criteria). There is no minimum exercise price prescribed for performance shares and restricted stock awarded under the 2007 Plan.

ISOs, SARs and NQSOs have vesting periods of three to five years and have 10-year contractual terms. Restricted stock, performance shares, and performance units will be granted with a restriction period not less than one year from the grant date for performance-based awards and not less than three years from the grant date for time-based vesting of grants. Compensation expense for awards is recorded over the vesting period.

Table of Contents

The 2007 Plan reserves 1,300,000 shares for issuance. The total shares reserved for issuance will serve as the underlying value for all equity awards under the 2007 Plan. With the exception of the shares underlying stock options and restricted stock awards, the board of directors may choose to settle the awards by paying the equivalent cash value or by delivering the appropriate number of shares.

The Company authorized 1,300,000 shares under the 2007 Plan; 1,217,800 shares were available for future grants as of March 31, 2009.

Stock option plans adopted in 1989 and 2000, under which options and restricted units were previously granted to employees, officers, and directors of the Company are no longer active and no additional equity may be granted under either plan. Options under the 1989 and 2000 Plan were granted with an exercise price equal to the fair market value on the date of grant with vesting periods from three to five years and have 10-year contractual terms. Restricted units were awarded to a participant at the fair market value of the Company's common stock on the date of award and all units will vest on the third anniversary of the grant. Compensation expense for the awards is recorded over the vesting period.

The fair value of each option granted for the three months ended March 31, 2009 is estimated on the date of grant using a Black-Scholes valuation model that uses the assumptions noted in the following table. Expected stock price volatility is based on the historical volatility of our stock. We use historical data to estimate the option exercise and employee terminations within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

	2009
Risk-free interest rate	2.3%
Expected option life (years)	6.2
Expected stock price volatility	51.2%
Dividend yield	3.4%
Weighted average fair value of options granted during the period	\$ 0.44

For the three months ended March 31, 2008, no stock options were granted or exercised.

Table of Contents

The following is a summary of stock option activity under the Plan for the three months ended March 31, 2009:

	Number of Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding - January 1, 2009	1,053,250	\$ 11.74		
Granted	40,000	8.64		
Exercised				
Forfeited	(60,000)	8.64		
Outstanding - March 31, 2009	1,033,250	\$ 11.80	5.35	\$
Options exercisable - March 31, 2009	883,250	\$ 11.28	4.95	\$
Unvested options expected to vest after March 31, 2009	113,342	\$ 15.00	7.69	\$

The following is a summary of restricted and performance unit activity under the Plan for the three months ended March 31, 2009:

	Number of Shares	Weighted-Average Grant Date Fair Value	Weighted-Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Outstanding - January 1, 2009	128,120	\$ 16.34		
Granted				
Vested	(10,400)	11.97		
Forfeited	(680)	18.38		
Outstanding - March 31, 2009	117,040	\$ 16.71	7.80	\$ 344,098

The aggregate intrinsic value of performance units vested for the three months ended March 31, 2009 and 2008 was \$28 thousand and \$0, respectively. The tax benefit realized for restricted units vested for the three months ending March 31, 2009 and 2008 was \$14 thousand and \$0, respectively.

The amount charged against income, before income tax benefit of \$238 thousand and \$133 thousand, in relation to the stock-based payment arrangements was \$578 thousand and \$593 thousand for the three months ending March 31, 2009 and 2008, respectively. At March 31, 2009, unrecognized compensation expense related to non-vested stock option grants and restricted and performance units aggregated \$814 thousand, and is expected to be recognized over a remaining weighted average vesting period of 1.1 years. The estimated annual stock-based compensation as of March 31, 2009 for each of the succeeding years is indicated in the table below:

	Stock Based Compensation Expense (In thousands)
Remainder of 2009	\$ 548
For the year ended December 31:	
2010	234
2011	25
2012	7
Total	\$ 814

Table of Contents**4. Dividends**

On March 18, 2009, the Company announced that it has suspended its quarterly common stock dividend to preserve capital and provide the Company with increased flexibility to continue investing in its business in ways that will create value for its shareholders. As economic conditions improve, the Company will consider reinstating a common stock dividend.

5. Earnings Per Share (EPS)

Basic EPS excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Allocated ESOP shares are considered outstanding for this calculation. Diluted EPS reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted to common stock that would then share in our earnings. For the three months ended March 31, 2009 and 2008, stock options for approximately 1,150,000 shares and 620,000 shares of common stock were excluded in computing diluted earnings per common share because they were antidilutive.

The following table shows how we computed basic and diluted EPS for the three and three months ended March 31, 2009 and 2008.

	For the three months ended March 31,					
	2009			2008		
	Net loss available to common stockholders (Numerator)	Shares (Denominator)	Per Share (Amount)	Net income available to common stockholders (Numerator)	Shares (Denominator)	Per Share (Amount)
	(Dollars in thousands, except share and per share data)					
Net (loss) income as reported	\$ (3,180)			\$ 5,773		
Less: preferred stock dividends and accretion of preferred stock discount	(1,068)					
Basic EPS - common stock	\$ (4,248)	26,250,258	\$ (0.16)	\$ 5,773	26,193,560	\$ 0.22
Effect of Dilutive Securities:						
Stock Options					207,130	
Diluted EPS - common stock	\$ (4,248)	26,250,258	\$ (0.16)	\$ 5,773	26,400,690	\$ 0.22

Table of Contents**6. Recent Accounting Pronouncements**

In June 2008, the FASB issued FSP No. EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities*. This FASB staff position concluded that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders and therefore are considered participating securities for purposes of computing earnings per share. Entities that have participating securities that are not convertible into common stock are required to use the two-class method of computing earnings per share. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. This FASB staff position is effective for fiscal years beginning after December 15, 2008 and interim periods within those fiscal years. This FASB staff position became effective for the Company on January 1, 2009. The adoption of this standard has no impact on the Company's consolidated financial statements.

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)), which establishes principles and requirements for how an acquirer recognizes and measures in its financial statements, the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. SFAS No. 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company did not participate in a business combination during the reporting period and therefore adoption of this standard had no impact on the Company's consolidated financial statements.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS No. 160), which changes the accounting and reporting for minority interests, which are recharacterized as noncontrolling interests and classified as a component of stockholders' equity within the consolidated statement of financial condition. SFAS No. 160 is effective as of the beginning of the first fiscal year beginning on or after December 15, 2008. The adoption of SFAS No. 160 did not have a significant impact on the Company's consolidated results of operations or financial condition.

In March 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of SFAS No. 133*. SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 for derivative instruments and hedging activities. SFAS No. 161 requires qualitative disclosure about objectives and strategies for using derivative and hedging instruments, quantitative disclosures about fair value amounts of the instruments and gains and losses on such instruments, as well as disclosures about credit-risk features in derivative agreements. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The adoption of this standard did not have a material effect on the Company's consolidated results of operations or financial condition.

In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (FSP FAS 157-2), which delays the effective date of FASB Statement No. 157, *Fair Value Measurements*, for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The delay was intended to allow the Board and constituents additional time to consider the effect of various implementation issues that arose from the application of Statement 157. The delay expired on January 1, 2009 and the adoption of FAS No. 157-2 did not have a significant impact on the Company's consolidated results of operations or financial condition.

In December 2008, the FASB issued FASB Staff Position No. FAS 132(R)-1, *Employers' Disclosures about Postretirement Benefit Plan Assets* (FSP FAS 132(R)-1), which amends FASB Statement No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*, to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. This FSP also includes a technical amendment to Statement 132(R) that requires a nonpublic entity to disclose net periodic benefit cost for each annual period for which a statement of income is presented. The disclosures about plan assets required by this FSP shall be provided for fiscal years ending after December 15, 2009. Upon initial application, the provisions of this FSP are not required for earlier periods that are presented for comparative purposes. Earlier application of the

Table of Contents

provisions of this FSP is permitted. The technical amendment to Statement 132(R) is effective upon issuance of this FSP. The Company does not have postretirement benefit plan assets as of the reporting date and therefore adoption of this standard had no impact on its consolidated financial statements.

Newly Issued Not Yet Effective Accounting Pronouncements

FSP No. FAS 107-1 and APB 28-1 In April 2009, the FASB issued FASB Staff Position No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FASB staff position amends FASB Statement No. 107 to require disclosures about fair values of financial instruments for interim reporting periods as well as in annual financial statements. The staff position also amends APB Opinion No. 28 to require those disclosures in summarized financial information at interim reporting periods. This FASB staff position becomes effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. Adoption of this FASB staff position during second quarter 2009 is not expected to have a significant impact on the Company's financial position or results of operations.

FSP No. FAS 115-2 and FAS 124-2 In April 2009, the FASB issued FASB Staff Position No. FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*. This FASB staff position amends the other-than-temporary impairment guidance in U.S. generally accepted accounting principles for debt securities. If an entity determines that it has an other-than-temporary impairment on a security, it must recognize the credit loss on the security in the income statement. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. The staff position expands disclosures about other-than-temporary impairment and requires that the annual disclosures in FASB Statement No. 115 and FSP FAS 115-1 and FAS 124-1 be made for interim reporting periods. This FASB staff position becomes effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. Adoption of this FASB staff position during second quarter 2009 is not expected to have a significant impact on the Company's financial position or results of operations.

FSP No. FAS 157-4 In April 2009, the FASB issued FASB Staff Position No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FASB staff position provides additional guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased when compared with normal market activity for the asset or liability. A significant decrease in the volume or level of activity for the asset or liability is an indication that transactions or quoted prices may not be determinative of fair value because transactions may not be orderly. In that circumstance, further analysis of transactions or quoted prices is needed, and an adjustment to the transactions or quoted prices may be necessary to estimate fair value. This FASB staff position becomes effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. Adoption of this FASB staff position during second quarter 2009 is not expected to have a significant impact on the Company's financial position or results of operations.

Table of Contents**7. Loans Receivable and Allowance for Loan Losses**

The following is a summary of loans receivable by major category:

	March 31, 2009	December 31, 2008
	(In thousands)	
Commercial loans	\$ 573,615	\$ 598,556
Real estate loans	1,491,480	1,472,872
Consumer and other loans	24,633	28,520
	2,089,728	2,099,948
Unamortized deferred loan fees, net of cost	(1,500)	(1,505)
Allowance for loan losses	(50,504)	(43,419)
Loans receivables, net	\$ 2,037,724	\$ 2,055,024

Activity in the allowance for loan losses is as follows for the periods indicated:

	Three months ended March 31, 2009	March 31, 2008
	(In thousands)	
Balance, beginning of period	\$ 43,419	\$ 20,035
Provision for loan losses	15,670	4,993
Loan charge-offs	(8,668)	(1,959)
Loan recoveries	83	47
Balance, end of period	\$ 50,504	\$ 23,116

The allowance for loan losses is comprised of specific loss allowances for impaired loans and general loan loss allowances based on quantitative and qualitative analysis.

A loan is impaired when based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. Impaired loans totaled \$82.9 million and \$50.3 million as of March 31, 2009 and December 31, 2008, respectively, with specific loss allowances of \$20.9 million and \$15.0 million, respectively.

A general loan loss allowance is provided on loans not specifically identified as impaired loans. The allowance is determined based first on a quantitative analysis using a loss migration methodology. The loans are classified by type and loan grade, and the historical loss migration is tracked for the various stratifications. Loss experience is quantified for the most recent 12 quarters, and that loss experience is applied to the stratified portfolio at each quarter end. In the current environment, the loss experience of the most recent four quarters is given more weight in determination of the loss experience factor to be applied to the non-impaired portfolio.

In addition to the quantitative analysis, a qualitative analysis is performed each quarter to provide additional loss allowances on the non-impaired loans for the following factors that have a bearing on the loss content in the portfolio.

Changes in lending policies and procedures, including underwriting standards and collection, charge-off, and recovery practices.

Table of Contents

Changes in national and local economic and business conditions and developments, including the condition of various market segments.

Changes in the nature and volume of the loan portfolio.

Changes in the experience, ability, and depth of lending management and staff.

Changes in the trends of the volume and severity of past due and classified loans; and changes in trends in the volume of non-accrual loans and troubled debt restructurings, and other loan modifications.

Changes in the quality of our loan review system and the degree of oversight by the Board of Directors.

The existence and effect of any concentrations of credit, and changes in the level of such concentrations.

Transfer risk on cross-border lending activities.

The effect of external factors such as competition and legal and regulatory requirements on the level of estimated losses in our loan portfolio.

The allowance for loan losses for impaired and non-impaired commercial real estate and other loans was as follows for the periods indicated:

	03/31/2009			12/31/2008		
	(Dollars in thousands)					
	Commercial Real Estate Loans	Other Loans	Total	Commercial Real Estate Loans	Other Loans	Total
Impaired loans	\$ 61,823	\$ 21,037	\$ 82,860	\$ 27,693	\$ 22,620	\$ 50,313
Specific allowance allocations	\$ (12,565)	\$ (8,328)	\$ (20,893)	\$ (5,411)	\$ (9,546)	\$ (14,957)
Loss coverage ratio	20.32%	39.59%	25.21%	19.54%	42.20%	29.73%
Non-impaired loans	\$ 1,421,592	\$ 583,776	\$ 2,005,368	\$ 1,436,919	\$ 611,211	\$ 2,048,130
General allowance allocations	\$ (18,318)	\$ (11,293)	\$ (29,611)	\$ (18,808)	\$ (9,654)	\$ (28,462)
Loss coverage ratio	1.29%	1.93%	1.48%	1.31%	1.58%	1.39%
Total loans	\$ 1,483,415	\$ 604,813	\$ 2,088,228	\$ 1,464,612	\$ 633,831	\$ 2,098,443
Total allowance for loan losses	\$ (30,883)	\$ (19,621)	\$ (50,504)	\$ (24,219)	\$ (19,200)	\$ (43,419)
Loss coverage ratio	2.08%	3.24%	2.42%	1.65%	3.03%	2.07%

At March 31, 2009, non-accrual loans totaled \$41.3 million, compared to \$37.6 million at December 31, 2008. At March 31, 2009 and December 31, 2008, loans past due more than 90 days and still accruing interest was \$7 thousand and \$0, respectively.

At March 31, 2009, loans classified as Trouble Debt Restructurings (TDR) totaled \$43.3 million, of which \$12.2 million was on non-accrual status and \$31.1 million was on accrual status. At December 31, 2008, loans classified as TDR totaled \$9.4 million, of which \$6.1 million was on non-accrual status and \$3.3 million was on accrual status. As of March 31, 2009 and December 31, 2008, the Company did not have any outstanding commitments to extend additional funds to these borrowers.

Table of Contents

Under certain circumstances, the Company will provide borrowers temporary relief through a loan modification. The modifications generally consist of interest only payments for a three to six month period, whereby principal payments are deferred. At the end of the deferment period, the remaining principal balance is re-amortized based on the original maturity date. Modified loans are generally downgraded to substandard or special mention, accounting for the significant increase in loans classified as substandard to \$98.4 million at March 31, 2009 from \$55.6 million at December 31, 2008. At March 31, 2009 total modified loans outstanding were \$58.3 million. At the end of the modification period, the loan 1) returns to the original contractual terms; 2) is further modified and accounted for as a troubled debt restructuring in accordance with SFAS 114; or 3) is disposed of through foreclosure or liquidation.

See also discussion under Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations – Financial Condition Non-Performing Assets and Allowance for Loan Losses.

8. FHLB Borrowings

The Company maintains a secured credit facility with the Federal Home Loan Bank of San Francisco (FHLB SF) against which the Company may take advances. The borrowing capacity is limited to the lower of 30% of the Bank’s total assets or the Bank’s collateral capacity, which was \$542.4 million at March 31, 2009. The terms of this credit facility require the Company to pledge with the FHLB, eligible collateral with the FHLB equal to at least 100% of outstanding advances.

At March 31, 2009 and December 31, 2008, real estate secured loans with a carrying amount of approximately \$1.1 billion, were pledged as collateral for borrowings from the FHLB. At March 31, 2009 and December 31, 2008, other than FHLB stock, no securities were pledged as collateral for borrowings from the FHLB.

At March 31, 2009 and December 31, 2008, FHLB borrowings were \$350 million, had a weighted average interest rate of 3.70%, and had various maturities through September 2016. At March 31, 2009 and December 31, 2008, \$215 million of the advances were putable advances with various putable dates and strike prices. The cost of FHLB borrowings as of March 31, 2009 ranged between 0.70% and 4.63%. At March 31, 2009, the Company had a remaining borrowing capacity of \$192.4 million.

The Company also has an unsecured line of credit with FHLB-SF with overnight terms. The maximum borrowing line cannot exceed 18% of the Bank’s Tier1 capital. The line is subject to market conditions and the Bank’s financial condition, and is provided at the sole discretion of the FHLB-SF.

At March 31, 2009, the contractual maturities for FHLB borrowings were as follows:

	Contractual Maturities	Maturity/ Put Date
	(In thousands)	
Due within one year	\$ 60,000	\$ 215,000
Due after one year through five years	218,000	135,000
Due after five years through ten years	72,000	
	\$ 350,000	\$ 350,000

9. Subordinated Debentures

At March 31, 2009, five wholly-owned subsidiary grantor trusts established by Nara Bancorp had issued \$38 million of pooled trust preferred securities (trust preferred securities). Trust preferred securities accrue and pay distributions periodically at specified annual rates as provided in the indentures. The trusts used the net proceeds from the offering to purchase a like amount of subordinated debentures (the debentures) of Nara Bancorp. The debentures are the sole assets of the trusts. The Bancorp’s

Table of Contents

obligations under the subordinated debentures and related documents, taken together, constitute a full and unconditional guarantee by Nara Bancorp of the obligations of the trusts. The trust preferred securities are mandatorily redeemable upon the maturity of the debentures, or upon earlier redemption as provided in the indentures. Nara Bancorp has the right to redeem the debentures in whole (but not in part) on or after specific dates, at a redemption price specified in the indentures plus any accrued but unpaid interest to the redemption date.

The debentures are not redeemable prior to June 8, 2011 with respect to Nara Bancorp Capital Trust I, June 15, 2009 with respect to Nara Capital Trust III, April 7, 2009 with respect to Nara Statutory Trust IV, June 17, 2009 with respect to Nara Statutory Trust V, and March 15, 2012 with respect to Nara Statutory Trust VI.

The following table is a summary of trust preferred securities and debentures at March 31, 2009:

Issuance Trust	Issuance Date	(Dollars in Thousands)		Rate Type	Initial Rate	Rate at 03/31/09	Maturity Date
		Trust Preferred Security Amount	Subordinated Debentures Amount				
Nara Bancorp Capital Trust I	3/28/2001	\$ 10,000	\$ 10,400	Fixed	10.18%	10.18%	6/8/2031
Nara Capital Trust III	6/5/2003	5,000	5,155	Variable	4.44%	4.47%	6/15/2033
Nara Statutory Trust IV	12/22/2003	5,000	5,155	Variable	4.02%	3.94%	1/7/2034
Nara Statutory Trust V	12/17/2003	10,000	10,310	Variable	4.12%	4.27%	12/17/2033
Nara Statutory Trust VI	3/22/2007	8,000	8,248	Variable	7.00%	2.97%	6/15/2037
TOTAL ISSUANCE		\$ 38,000	\$ 39,268				

10. Derivative Financial Instruments and Hedging Activities

As part of our asset and liability management strategy, we may enter into derivative financial instruments, such as interest rate swaps, caps and floors, with the overall goal of minimizing the impact of interest rate fluctuations on our net interest margin. Interest rate swaps and caps involve the exchange of fixed-rate and variable-rate interest payment obligations without the exchange of the underlying notional amounts.

In January of 2008, the Company entered into five interest swap agreements with an aggregate notional amount of \$50 million. Under these swap agreements, the Company receives a floating rate, resetting semi-annually based on the 6 Month London-Interbank Offered Rate (6 Mo. LIBOR), and pays a fixed rate of 3.57%, until January of 2010. These interest rate swap agreements are considered free-standing due to non-designation of a hedge relationship to any of its financial assets or liabilities. Under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended, valuation gains or losses on interest rate swaps not designated as hedging instruments are recognized in earnings. At March 31, 2009, the fair value of the outstanding interest rate swaps was \$(906 thousand) compared to \$(857 thousand) at December 31, 2008.

The aggregate fair value of all derivative instruments that were in a liability position at March 31, 2009, was \$906 thousand, for which the Company had posted \$1.6 million in investment securities as collateral. The contract arrangement of these derivative instruments does not contain any credit-risk related contingent features, which would require the Company to post additional collateral as a result of any adverse change in the Company's creditworthiness in the future.

Table of Contents

Interest rate swap information at March 31, 2009 is summarized as follows:

Current Notional Amount	Floating Rate	Fixed Rate (Dollars in thousands)	Maturity Date	Fair Value
\$ 10,000	6 Mo. LIBOR	3.57%	01/14/2010	\$ (181.1)
10,000	6 Mo. LIBOR	3.57%	01/14/2010	(181.1)
10,000	6 Mo. LIBOR	3.57%	01/14/2010	(181.1)
10,000	6 Mo. LIBOR	3.57%	01/14/2010	(181.1)
10,000	6 Mo. LIBOR	3.57%	01/14/2010	(181.1)
\$ 50,000				\$ (906)

The following tables summarize the fair value of derivative financial instruments utilized by the Company:

	Liability Derivatives at			
	March 31, 2009		December 31, 2008	
	(Dollars in Thousands)			
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives not designated as hedging instruments under Statement 133:				
Interest rate contracts	Other Liabilities	\$ (906)	Other Liabilities	\$ (857)
Total derivatives not designated as hedging instruments under Statement 133:				
Total derivatives		\$ (906)		\$ (857)

The effect of derivative instruments on the Consolidated Statement of Income for the three months ended March 31, 2009 and 2008 are as follows:

	Location of Gain or (Loss) Recognized in Income on Derivatives	Three Months Ended	
		March 31, 2009	March 31, 2008
Amount of Gain or (Loss) Recognized in Income on Derivatives			
Derivatives not designated as hedging instruments under Statement 133:			
Interest rate contracts (1)	Other income	\$ (151)	\$ (718)
Total		\$ (151)	\$ (718)

- (1) Includes amounts representing the net interest payments as stated in the contractual agreements and the valuation gains or (losses) on interest swaps not designated as hedging instruments.

11. Business Segments

Our management utilizes an internal reporting system to measure the performance of our various operating segments. We have identified three principal operating segments for the purposes of management reporting: banking operations, trade finance services (TFS) and small business administration (SBA) lending services. Information related to our remaining centralized functions and eliminations of inter-segment amounts has been aggregated and included in banking operations. Although all three operating segments offer financial products and services, they are

Edgar Filing: NARA BANCORP INC - Form 10-Q

managed separately based on each segment's strategic focus. The banking operations segment focuses primarily on commercial and consumer lending and deposit operations throughout our branch network.

Table of Contents

The TFS segment focuses primarily on allowing our import/export customers to handle their international transactions. Trade finance products include the issuance and collection of letters of credit, international collection and import/export financing. The SBA segment primarily provides our customers with access to the U.S. SBA guaranteed lending program through our loan production offices located in major metropolitan cities across the country. The SBA segment also makes commercial real estate and commercial business loans, which are not under the SBA guarantee program.

Operating segment results are based on our internal management reporting process, which reflects assignments and allocations of capital, certain operating and administrative costs and the provision for loan losses. Non-interest income and non-interest expense, including depreciation and amortization, directly attributable to a segment are assigned to that business. We allocate indirect costs, including overhead expense, to the various segments based on several factors, including, but not limited to, full-time equivalent employees, loan volume and deposit volume. We allocate the provision for loan losses based on the origination of new loans for the period. We evaluate the overall performance based on profit or loss from operations before income taxes, excluding gains and losses that are not expected to reoccur. Future changes in our management structure or reporting methodologies may result in changes to the measurement of our operating segment results.

The following tables present the operating results and other key financial measures for the individual operating segments for the three and three months ended March 31, 2009 and 2008.

Three Months Ended March 31,**(Dollars in thousands)**

	Business Segment			
	Banking Operations	TFS	SBA	Company
2009				
Net interest income, before provision for loan losses*	\$ 16,918	\$ 794	\$ 2,709	\$ 20,421
Less provision for loan losses**	8,030		7,640	15,670
Non-interest income	3,499	442	442	4,383
Net revenue	12,387	1,236	(4,489)	9,134
Non-interest expense	12,063	802	2,383	15,248
Income (loss) before income taxes	\$ 324	\$ 434	\$ (6,872)	\$ (6,114)
Goodwill	\$ 2,509	\$	\$	\$ 2,509
Total assets	\$ 2,315,394	\$ 169,064	\$ 341,079	\$ 2,825,537
2008				
Net interest income, before provision for loan losses	\$ 19,502	\$ 1,282	\$ 3,826	\$ 24,610
Less provision for loan losses	1,098	35	3,860	4,993
Non-interest income	2,781	474	1,344	4,599
Net revenue	21,185	1,721	1,310	24,216
Non-interest expense	11,568	844	2,019	14,431
Income (loss) before income taxes	\$ 9,617	\$ 877	\$ (709)	\$ 9,785
Goodwill	\$ 2,509	\$	\$	\$ 2,509
Total assets	\$ 2,013,732	\$ 170,022	\$ 362,359	\$ 2,546,113

- * The decreases in net interest income before provision for loan losses for all segments during the period are due to a decrease in net interest margin.
- ** The increase in the provision for loan losses for SBA segment and bank-wide during the period is due to the increase in delinquency in the loan portfolio originated in the segment.

Table of Contents

The SBA business segment primarily originates for sale and services SBA loans generated from our loan production offices and from branch referrals. It also originates commercial real estate loans and commercial business loans, not covered by the SBA guarantee program. Total SBA business segment assets at March 31, 2009 and 2008 included SBA loans (principally, the unguaranteed portion) of \$96.2 million and \$110.0 million; commercial real estate loans of \$197.7 million and \$219.0 million; and commercial business loans of \$14.9 million and \$16.2 million, respectively.

12. Income Taxes

Our Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of the state of California and various other state income taxes. The total amount of unrecognized tax benefits was \$276 thousand at March 31, 2009 and \$352 thousand at December 31, 2008 and is primarily for uncertainties related to income taxes for the California Enterprise Zone loan interest deductions taken in prior years. The total amount of tax benefits that, if recognized, would favorably impact the effective tax rate was \$276 thousand and \$352 thousand at March 31, 2009 and December 31, 2008, respectively. The amount of unrecognized tax benefits decreased by \$76 thousand this quarter primarily due to the California Franchise Tax Board audit adjustments on the Company's 2005 and 2006 state income tax returns. The Company is currently under audit by the California Franchise Tax Board for the 2005 and 2006 tax years. The outstanding issue with the Franchise Tax Board is related to the California Enterprise Zone loan interest deductions mentioned above.

We recognize interest and penalties related to income tax matters in income tax expense. We accrued approximately \$48 thousand and \$47 thousand for interest and penalties at March 31, 2009 and December 31, 2008, respectively.

13. Fair Value Measurements

Statement No. 157, *Fair Value Measurements*, establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Securities Available for Sale

The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities relationship to other benchmark quoted securities (Level 2 inputs).

Impaired Loans

The fair values of impaired loans are generally measured for impairment using the practical expedients permitted by SFAS No. 114, *Accounting by Creditors for Impairment of a Loan*, including impaired loans measured at an observable market price (if available), or at the fair value of the loan's collateral (if the loan is collateral dependent). Fair value of the loan's collateral, when the loan is dependent on collateral, is determined by appraisals or independent valuation, which is then adjusted for the cost related to liquidation of the collateral. These are considered Level 2 inputs. For the loan's collateral for which observable market prices are not available, fair value is estimated using discount cash flow models. These are considered Level 3 inputs.

Table of ContentsDerivatives

The fair value of our derivative financial instruments, including interest rate swaps, is based on derivative valuation models using market data inputs as of the valuation date that can generally be verified and do not typically involve significant management judgments. (Level 2 inputs).

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at March 31, 2009 Using			
	March 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(In thousands)			
Assets:				
Securities available for sale	\$ 430,219	\$	\$ 430,219	\$
Liabilities:				
Derivatives - Interest rate swaps	(906)		(906)	

	Fair Value Measurements at December 31, 2008 Using			
	December 31, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(In thousands)			
Assets:				
Securities available for sale	\$ 406,586	\$	\$ 406,586	\$
Liabilities:				
Derivatives - Interest rate swaps	(857)		(857)	

Fair value adjustments for interest rate swaps resulted in a net expense of \$116 thousand for the three months ended March 31, 2009 and \$549 thousand for the year ended December 31, 2008.

Assets and liabilities measured at fair value on a non-recurring basis are summarized below:

	Fair Value Measurements at March 31, 2009 Using			
	March 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(In thousands)			
Assets:				

Edgar Filing: NARA BANCORP INC - Form 10-Q

Impaired loans with specific loss allocations	\$ 50,914	\$	\$ 37,295	\$ 13,619
Other real estate owned	4,822		4,822

	(In thousands)			

Assets:

Impaired loans with specific loss allocations	\$ 18,177	\$	\$ 2,667	\$ 15,510
Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans and using discounted cash flow models for other loans, had a carrying amount of \$71.8 million and \$33.1 million, with a valuation allowance of \$20.9 million and \$15.0 million as of March 31, 2009 and December 31, 2008, respectively. Additional provision for loan losses of \$5.9 million for the three months ended March 31, 2009 and \$11.9 million for the year ended December 31, 2008 was recorded associated with these loans. \$11.1 million of impaired loans had no valuation allowance at March 31, 2009.				

At March 31, 2009, other real estate owned, which are carried at the lower of cost or fair value, were written down to fair value of \$4.8 million, resulting in a valuation allowance of \$576 thousand. A charge of \$503 thousand was included in earnings for the quarter ended March 31, 2009.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following is management's discussion and analysis of the major factors that caused changes in our consolidated results of operations and financial condition as of and for the three months ended March 31, 2009. This analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2008 and the unaudited consolidated financial statements and notes set forth elsewhere in this report.

GENERAL**Selected Financial Data**

The following table sets forth certain selected financial data concerning the periods indicated:

	At or for the Three Months Ended March 31,	
	2009	2008
	(Dollars in thousands, except share and per share data)	
Income Statement Data:		
Interest income	\$ 36,041	\$ 44,360
Interest expense	15,620	19,750
Net interest income	20,421	24,610
Provision for loan losses	15,670	4,993
Net interest income after provision for loan losses	4,751	19,617
Non-interest income	4,383	4,599
Non-interest expense	15,248	14,431
Income (loss) before income tax provision (benefit)	(6,114)	9,785
Income tax provision (benefit)	(2,934)	4,012
Net income (loss)	\$ (3,180)	\$ 5,773
Dividends and discount accretion on preferred stock	\$ (1,068)	\$
Net income (loss) available to common stockholders	\$ (4,248)	\$ 5,773
Per Share Data:		
Earnings (loss) per common share - basic	\$ (0.16)	\$ 0.22
Earnings (loss) per common share - diluted	\$ (0.16)	\$ 0.22
Book value (period end, excluding preferred stock and warrants)	\$ 8.47	\$ 8.68
Common shares outstanding	26,256,960	26,193,560
Weighted average shares - basic	26,250,258	26,193,560
Weighted average shares - diluted	26,250,258	26,400,690
Statement of Financial Condition Data - at Period End:		
Assets	\$ 2,825,537	\$ 2,546,113
Securities available for sale	430,219	273,779
Gross loans, net of deferred loan fees and costs (excludes loans held for sale)	2,088,228	2,073,851
Deposits	2,098,312	1,854,349
Federal Home Loan Bank borrowings	350,000	393,000
Subordinated debentures	39,268	39,268
Stockholders' equity	289,685	227,394

Average Balance Sheet Data:		
Assets	\$ 2,696,951	\$ 2,479,042
Securities available for sale and held to maturity	423,907	292,283
Gross loans, including loans held for sale	2,107,685	2,055,535
Deposits	1,960,272	1,771,075
Stockholders' equity	291,908	227,598
Selected Performance Ratios:		
Return on average assets (1)	-0.47%	0.93%
Return on average stockholders' equity (1)	-4.36%	10.15%
Non-interest expense to average assets (1)	2.26%	2.33%
Efficiency ratio (2)	61.47%	49.41%
Net interest margin (3)	3.19%	4.15%
Regulatory Capital Ratios (4)		
Leverage capital ratio (5)	11.95%	10.56%
Tier 1 risk-based capital ratio	14.03%	11.56%
Total risk-based capital ratio	15.30%	12.59%
Tangible common equity ratio	7.74%	8.76%
Asset Quality Ratios:		
Allowance for loan losses to gross loans, excluding loans held for sale	2.42%	1.11%
Allowance for loan losses to non-performing loans	122.18%	121.15%
Total non-performing loans to gross loans	1.98%	1.79%
Total non-performing assets to total assets (6)	2.74%	0.79%

- (1) Annualized.
- (2) Efficiency ratio is defined as non-interest expense divided by the sum of net interest income and non-interest income.
- (3) Net interest margin is calculated by dividing annualized net interest income by average total interest-earning assets.
- (4) The required ratios for a well-capitalized institution are 5% leverage capital, 6% tier I risk-based capital and 10% total risk-based capital.
- (5) Calculations are based on average quarterly asset balances.
- (6) Non-performing assets include non-accrual loans, loans past due 90 or more and still accruing interest, other real estate owned, and restructured loans.

Table of Contents

Results of Operations

Overview

During the three months ended March 31, 2009, we experienced strong growth in our total assets supported by growth in deposits. Our total assets grew by 5.7%, or \$153.5 million, to \$2.8 billion at March 31, 2009 from \$2.7 billion at December 31, 2008. The increase in total assets for the period was primarily due to growth in liquid assets and investment securities. Deposit growth was primarily from non-jumbo time deposits and interest bearing demand deposits.

Net income

Net income (loss) available to common stockholders for the three months ended March 31, 2009 was \$(4.2 million), or \$(0.16) per diluted share, compared to \$5.8 million, or \$0.22 per diluted share, for the same period of 2008, representing a decrease of \$10.0 million, or 174%. The decrease is primarily due to an increase in the provision for loan losses and a decrease in net interest income, partially offset by an income tax benefit.

The annualized return (loss) on average assets was (0.47)% for the first quarter of 2009, compared to 0.93% for the same period of 2008. The annualized return (loss) on average equity was (4.36)% for the three months ended March 31, 2009, compared to 10.15% for the same period of 2008. The efficiency ratio was 61.47% for the three months ended March 31, 2009, compared to 49.41% for the same period of 2008.

Net Interest Income and Net Interest Margin

Net Interest Income and Expense

The principal component of our earnings is net interest income, which is the difference between the interest and fees earned on loans and investments and the interest paid on deposits and borrowed funds. Net interest income expressed as a percentage of average interest-earning assets is defined as net interest margin. The net interest spread is the yield on average interest-earning assets less the cost of average interest-bearing liabilities (interest-bearing deposits and borrowed funds). Net interest income is affected by changes in the volume of interest-earning assets and funding liabilities as well as by changes in the yield earned on interest-earning assets and the rates paid on interest-bearing liabilities.

Net interest income before provision for loan losses was \$20.4 million for the quarter ended March 31, 2009, a decrease of \$4.2 million, or 17.0%, compared to \$24.6 million for the same period of 2008. The decrease is primarily due to a decrease in net interest margin.

Interest income for the first quarter of 2009 was \$36.0 million, which represented a decrease of \$8.3 million, or 18.8%, over interest income of \$44.4 million for the same quarter of 2008. The decrease was the result of a \$10.8 million decrease in interest income due to a decrease in the average yield earned on average interest-earning assets (rate change), partially offset by a \$2.4 million increase in interest income due to an increase in the volume of those average interest-earning assets (volume change).

Interest expense for the first quarter of 2009 was \$15.6 million, a decrease of \$4.1 million, or 20.9%, compared to interest expense of \$19.8 million for the same quarter of 2008. The decrease was primarily the result of a \$6.0 million decrease in interest expense due to a decrease in the average rates paid on interest-bearing liabilities (rate change), partially offset by \$1.9 million increase in interest expense due to an increase in the volume of average interest-bearing liabilities (volume change).

Table of Contents*Net Interest Margin*

During the first quarter 2009, the net interest margin decreased 96 basis points to 3.19% from 4.15% for the same quarter of last year. The weighted average yield on the loan portfolio for the first quarter 2009 decreased 184 basis points to 6.01% from 7.85% for the same quarter of last year. The decrease was the result of the prime rate-based portion of the loan portfolio repricing downward as market interest rates continued to decline due to further reductions in interest rates by the Federal Reserve throughout 2008. The prime rate declined 200 basis points since the first quarter 2008. The decrease in net interest margin was also attributable to a shift in asset allocation from loans into lower yielding investment securities and other short-term investments, such as overnight federal funds sold. The change in asset mix was part of a plan to improve our liquidity and strengthen the balance sheet. The weighted average yield on investment securities for the first quarter 2009 decreased 94 basis points to 4.08% from 5.02% for the same quarter 2008. The decrease was attributable to variable rate agency CMO investment securities repricing downward as one month LIBOR rates declined.

The weighted average cost of deposits for first quarter 2009 decreased 102 basis points to 2.41% from 3.43% for the same quarter last year. The cost of time deposits decreased 175 basis points to 2.81% from 4.56%, accounting for a substantial portion of the decrease.

Following are selected weighted average data at March 31, 2009 and 2008:

	March 31, 2009	March 31, 2008
Weighted average loan portfolio yield (excluding discounts)	6.06%	7.21%
Weighted average securities available-for-sale portfolio yield	4.25%	4.89%
Weighted average cost of time deposits	2.80%	4.04%
Weighted average cost of deposits	2.41%	3.09%
Weighted average cost of total interest-bearing deposits	2.83%	3.82%

Prepayment penalty income for first quarter 2009 and 2008 was \$147 thousand and \$221 thousand, respectively. Non-accrual interest income recognized (reversed) was \$(394 thousand) and \$159 thousand for the first quarter ended March 31, 2009 and 2008, respectively. Excluding the effects of both non-accrual loan interest income and prepayment penalty income, the net interest margin for first quarter 2009 and 2008 was 3.23% and 4.09%, respectively.

Prepayment penalty income will vary with the level of loans paid off. Generally as interest rates decline, the level of pay-offs increase as fixed rate borrowers refinance their loans, which generate higher levels of prepayment penalty income. However, the deteriorating economic environment in recent years has slowed sales of properties and business, and has the effect of reducing loan pay-offs. It is difficult to determine the trend in prepayment penalty income given these two competing factors.

Table of Contents

The following table presents our condensed consolidated average balance sheet information, together with interest rates earned and paid on the various sources and uses of funds for the periods indicated:

	Three months ended March 31, 2009			Three months ended March 31, 2008		
	Average Balance	Interest Income/ Expense	Average Yield/ Rate *	Average Balance	Interest Income/ Expense	Average Yield/ Rate *
