Explanatory Note

Comstock Homebuilding Companies, Inc is filing this Amendment No. 1 on Form 10-K/A to our Annual Report on Form 10-K for the year ended December 31, 2008, initially filed with the Securities and Exchange Commission on March 31, 2009. Except as specifically indicated herein, no other information included in the Annual Report on Form 10-K is amended by this Amendment No. 1 of Form 10-K/A.

The following sections of this Form 10-K/A have been amended:

Item 9A Controls and Procedures This abbreviated Form 10-K/A amends the annual report of Comstock Homebuilding Companies, Inc. on Form 10-K for the year ended December 31, 2008, originally filed on March 31, 2009. This Form 10-K/A includes only the signature page and Item 9A which had been incomplete as originally filed and, as included herein, is revised to modify the disclosure regarding the evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Items 308(T)(a)(4) and 308(T)(b) of Regulation S-K.

Item 9A. Controls and Procedures
Evaluation of Disclosure Controls and Procedures

We have evaluated, with the participation of our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of December 31, 2008. Based on this evaluation, our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer have each concluded that our disclosure controls and procedures as of December 31, 2008 are functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Controls

We do not expect that our disclosure controls and internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over our financial reporting.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2008, based on criteria set forth in the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). This evaluation included review of the documentation of controls, evaluation of the design effectiveness of controls, testing of the operating effectiveness of controls and a conclusion on this evaluation. Our management determined that, as of December 31, 2008, our internal control over financial reporting is effective.

This annual report on Form 10-K does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

No change has occurred in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the year ended December 31, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
