### **RISK FACTORS**

*Investing in the debt securities offered by this prospectus involves risk. We have set forth risk factors relating to our business in our most recent annual report on Form 20-F, which is incorporated by reference in this prospectus. We also set forth below certain additional risk factors that relate specifically to the securities we may offer using this prospectus. We may include further risk factors in more recent reports on Form 6-K incorporated in this prospectus by reference or in a prospectus supplement.*

*You should carefully consider all of these risks, as well as the other information in, or incorporated by reference in, the prospectus and any prospectus supplement before you decide whether to buy the debt securities. If any of the situations described in these risks actually occurs, our business, financial condition and results of operations would likely suffer. In this case, any trading price of the debt securities could decline and you could lose all or part of your investment.*

#### **Risks relating to the Debt Securities**

***Since BHP Billiton Plc and BHP Billiton Limited are holding companies and conduct their operations through subsidiaries, your right to receive payments on the guarantees is subordinated to the other liabilities of their subsidiaries other than BHP Billiton Finance (USA).***

BHP Billiton Plc and BHP Billiton Limited are organized as holding companies and substantially all of their operations are carried on through subsidiaries. Their principal source of income is the dividends and distributions they receive from their subsidiaries. The ability of BHP Billiton Plc and BHP Billiton Limited to meet their financial obligations is dependent upon the availability of cash flows from their subsidiaries and affiliated companies through dividends, intercompany advances, management fees and other payments. These subsidiaries and affiliated companies are not required and may not be able to pay dividends to BHP Billiton Plc and BHP Billiton Limited.

Claims of the creditors of the subsidiaries of BHP Billiton Plc and of the subsidiaries of BHP Billiton Limited have priority as to the assets of such subsidiaries over the claims of BHP Billiton Plc or BHP Billiton Limited. Consequently, on the insolvency of BHP Billiton Plc and BHP Billiton Limited and their respective subsidiaries, holders of debt securities issued by the issuer and guaranteed by BHP Billiton Plc and BHP Billiton Limited are structurally subordinated to the prior claims of the creditors of subsidiaries of BHP Billiton Plc and BHP Billiton Limited other than the issuer.

In addition, some of these subsidiaries are subject to laws restricting the amount of dividends they may pay. For example, these laws may prohibit dividend payments when net assets would fall below subscribed share capital, when the subsidiary lacks available profits or when the subsidiary fails to meet certain capital and reserve requirements. English and Australian law prohibits those subsidiaries incorporated in the United Kingdom or Australia from paying dividends unless these payments are made out of distributable profits. Other statutory and general law obligations also affect the ability of directors of these subsidiaries to declare dividends and the ability of these subsidiaries to make payments to BHP Billiton Plc or BHP Billiton Limited on account of intercompany loans.

***Since the debt securities are unsecured, your right to receive payments may be adversely affected.***

The debt securities will be unsecured. At June 30, 2009, the BHP Billiton Group had US\$618 million aggregate principal amount of secured indebtedness outstanding. If BHP Billiton Finance (USA) defaults on the debt securities or BHP Billiton Limited or BHP Billiton Plc defaults on the guarantees, or after the bankruptcy, liquidation or reorganization of any of them, then, to the extent that the issuer or the guarantors have granted security over their assets, the assets that secure those debts will be used to satisfy the obligations under that secured debt before any payment on the debt securities or the guarantees can be made. There may only be limited assets available to make payments on the debt securities or the guarantees in the event of an acceleration of the

## **Table of Contents**

debt securities. If there is not enough collateral to satisfy the obligations of the secured debt, then the remaining amounts on the secured debt would share equally with all unsubordinated unsecured indebtedness.

***If the issuer defaults on the debt securities, or the guarantors default on the guarantees, your right to receive payments on the guarantees may be adversely affected by English or Australian insolvency laws.***

BHP Billiton Plc is incorporated under the laws of England and Wales. Accordingly, insolvency proceedings with respect to BHP Billiton Plc would be likely to proceed under, and be governed by, English insolvency law. The procedural and substantive provisions of English insolvency laws generally are more favorable to secured creditors than comparable provisions of United States law. These provisions afford debtors and unsecured creditors only limited protection from the claims of secured creditors and it will generally not be possible for the guarantors, the issuer or other unsecured creditors to prevent or delay the secured creditors from enforcing their security to repay the debts due to them.

BHP Billiton Limited and BHP Billiton Finance (USA) are incorporated under the laws of the Commonwealth of Australia and, therefore, insolvency proceedings with respect to them would be likely to proceed under, and be governed by, Australian insolvency law. The procedural and substantive provisions of Australian insolvency laws are also generally more favorable to secured creditors than comparable provisions of United States law. These provisions afford debtors and unsecured creditors only limited protection from the claims of secured creditors and it will generally not be possible for the guarantors, the issuer or other unsecured creditors to prevent or delay the secured creditors from enforcing their security to repay the debts due to them.

***There is no established trading market for the debt securities that BHP Billiton Finance (USA) is offering and one may not develop.***

The debt securities will be new securities for which there currently is no established trading market. There is a risk regarding the future development of a market for the debt securities or the ability of holders of the debt securities to sell their debt securities or the price at which such holders may be able to sell their debt securities. If such a market were to develop, the debt securities could trade at prices that may be lower than the initial public offering price depending on many factors, including prevailing interest rates, BHP Billiton Group's operating results and the market for similar securities. Therefore, there is a risk as to the liquidity of any trading market for the debt securities or that an active public market for the debt securities will not develop.

***Since the issuer and the guarantors reside outside the United States and a substantial portion of their respective assets is located outside the United States, there is a risk that service of process, enforcement of judgments and bringing of original actions will be more difficult.***

The issuer and BHP Billiton Limited are corporations organized under the laws of the Commonwealth of Australia. BHP Billiton Plc is a public limited company incorporated under the laws of England and Wales.

Substantially all the directors and officers of these companies, and some of the experts named in this document, reside outside the United States, principally in Australia and the United Kingdom. A substantial portion of the assets of these companies, and the assets of the directors, officers and experts, is located outside the United States. Therefore, you may not be able to effect service of process within the United States upon these companies or persons so that you may enforce judgments of United States courts against them based on the civil liability provisions of the United States federal securities laws. In addition, you may have difficulty bringing an original action in an Australian or United Kingdom court to enforce liabilities against any of these companies or any person described above based on U.S. federal securities laws.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

Some of the information contained or incorporated by reference in this prospectus and any prospectus supplement may constitute forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934), which are subject to various risks and uncertainties. These statements can be identified by the use of forward-looking terminology such as intend, aim, project, anticipate, estimate, plan, believe expect, may, should, will, continue, or other similar words, which discuss future expectations concerning the results of operations or financial condition, or provide other forward looking statements. Our actual results, performance or achievements could be significantly different from the results expressed in, or implied by, those forward-looking statements. You should not place undue reliance on any forward looking statement, which speaks only as of the date made.

These statements include, but are not limited to, the information regarding:

trends in commodity prices;

demand for commodities;

plans, strategies and objectives of management;

closure or divestment of certain operations or facilities (including associated costs);

These forward looking statements are not guarantees or predictions of future performance, and involve known and unknown risks, uncertainties and other factors, many of which are beyond our control, and which may cause actual results to differ materially from those expressed in the statements contained in this prospectus. When considering these forward-looking statements, you should keep in mind the cautionary statements contained or incorporated by reference in this prospectus. These statements describe circumstances that could cause actual results to differ materially from those contained in any forward looking statement.

For example, our future revenues from our operations, projects or mines described in this prospectus and the attached prospectus supplement (including the documents incorporated by reference herein or therein) will be based, in part, upon the market price of the minerals, metals or petroleum produced, which may vary significantly from current levels. These variations, if materially adverse, may affect the timing or the feasibility of the development of a particular project or the expansion of certain facilities or mines. Other factors that may affect the actual construction or production commencement dates, costs or production output and anticipated lives of operations, mines or facilities include our ability to profitably produce and transport the minerals, petroleum and/or metals extracted to applicable markets; the impact of foreign currency exchange rates on the market prices of the minerals, petroleum or metals we produce; activities of government authorities in some of the countries where we are exploring or developing these projects, facilities or mines, including increases in taxes, changes in environmental and other regulations and political uncertainty; and other factors identified in the description of the risk factors described elsewhere in this prospectus

We pursue this objective through our unchanged strategy of investing in tier one assets that are large, low-cost and long-life to provide a balanced portfolio of export-oriented commodities:

steelmaking products iron ore, metallurgical coal, manganese

non-ferrous products copper, aluminium, nickel, diamonds

energy products petroleum, liquefied natural gas (LNG), energy coal, uranium.

BHP Billiton Limited and BHP Billiton Plc have each retained their separate corporate identities and maintained their separate stock exchange listings, but they are operated and managed as if they are a single unified economic entity, with their boards and senior executive management comprising the same people.

BHP Billiton Limited has a primary listing on the Australian Securities Exchange (ASX) in Australia. It has secondary listings on the Frankfurt Stock Exchange in Germany and the Swiss Stock Exchange in Switzerland and has notified its intention to delist from both these exchanges. These delistings are expected to be completed in 2010. BHP Billiton Plc has a primary listing on the London Stock Exchange (LSE) in the UK and a secondary listing on the Johannesburg Stock Exchange in South Africa. In addition, BHP Billiton Limited American Depositary Receipts (ADRs) and BHP Billiton Plc ADRs trade on the New York Stock Exchange (NYSE) in the US.

BHP Billiton Finance (USA) Limited, a corporation organized under the laws of the Commonwealth of Australia, is a wholly-owned finance subsidiary of BHP Billiton Limited. BHP Billiton Finance (USA) Limited was formed for the purpose of borrowing on behalf of the BHP Billiton Group and advancing the net proceeds of such borrowings to members of the BHP Billiton Group. The principal executive offices of BHP Billiton Finance (USA) Limited are located at 180 Lonsdale Street, Melbourne, Victoria 3000, Australia. The issuer's telephone number is 011 61 3 9609 3333.

**Table of Contents****RATIO OF EARNINGS TO FIXED CHARGES**

Shown below is the ratio of earnings to fixed charges for the BHP Billiton Group for the periods indicated.

	Year ended June 30,				
	2009	2008	2007	2006	2005
Ratio of earnings to fixed charges	16.8	27.3	23.3	21.2	19.5

We computed the ratio of earnings to fixed charges by dividing the amount of earnings by the amount of fixed charges. For the purposes of calculating this ratio, we have calculated earnings by adding pre-tax income before adjustment for minority interests in consolidated subsidiaries or income or loss from equity investees, fixed charges and distributed income of equity investees. Interest capitalized and the minority interest in pre-tax income of subsidiaries that have not incurred fixed charges were subtracted from the total of the added items. Fixed charges consist of interest costs, both expensed and capitalized, a reasonable approximation of the interest component of rental expense and pre-tax earnings required to cover any preferred stock dividend requirements.

**USE OF PROCEEDS**

Unless otherwise indicated in an accompanying prospectus supplement, BHP Billiton Finance (USA) intends to lend the net proceeds from the sale of any debt securities sold under this prospectus to BHP Billiton Limited, which will use such proceeds for general corporate purposes, including retirement of existing debt and working capital.

**ENFORCEMENT OF CIVIL LIABILITIES**

The issuer is a corporation organized under the laws of the Commonwealth of Australia. BHP Billiton Plc is a public limited company incorporated under the laws of England and Wales. BHP Billiton Limited is a corporation organized under the laws of the Commonwealth of Australia. A substantial portion of the assets of these companies, and the assets of the directors, officers and experts, is located outside the United States. Therefore, you may not be able to effect service of process within the United States upon these companies or persons so that you may enforce judgments of United States courts against them based on the civil liability provisions of the United States federal securities laws. In addition, there are doubts as to the ability of an investor to bring an original action in an Australian or United Kingdom court to enforce liabilities against us or any person based on U.S. federal securities laws.

*The following is a summary of the general terms of the debt securities. any addition to or change in the covenants contained in the indenture;

if Additional Amounts, as described under Special Situations Payment of Additional Amounts, will not be payable by either Guarantor;

whether we may from time to time without the consent of the Holders of a series of debt securities create and issue further debt securities having the same terms and conditions as the outstanding debt securities so that such further issue is consolidated and forms a single series with the series of the outstanding debt securities;

the stock exchange, if any, on which the series of debt securities will be listed; and

any other special features of the series of debt securities.

As required by U.S. federal law for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document referred to in this prospectus as an indenture. The indenture is a contract between us and the trustee under the indenture.

The Bank of New York Mellon, whose offices are located at 101 Barclay Street, New York, New York 10286, acts as the trustee under the indenture (as successor to Citibank N.A.). The trustee has two principal functions:

First, it can and, at the direction of a majority of the holders, shall enforce your rights against the issuer or the guarantors if the issuer defaults on the debt securities or either guarantor defaults on a guarantee. However, there are some limitations on the extent to which the trustee may act on your behalf, described under Default and Related Matters Events of Default Remedies If an Event of Default Occurs below; and

Second, the trustee performs administrative functions on behalf of the issuer, such as sending you interest payments, transferring your debt securities to a new buyer if you sell and sending you notices.

Both BHP Billiton Plc and BHP Billiton Limited act as the guarantors of the debt securities issued under the indenture. The guarantees are described under Guarantees below.

The indenture and its associated documents contain the full legal text of the matters described in this section. The indenture, the debt securities and the guarantees are governed by New York law. A copy of the form of indenture is filed with the SEC as an exhibit to the registration

Because this section is a summary, it does not describe every aspect of the debt securities or the guarantees. This summary is subject to and qualified in its entirety by reference to all the provisions of the indenture, including some of the terms used in the indenture. We describe the meaning for only the more important terms.

We also include references in parentheses to some sections of the indenture. Whenever we refer to particular sections or defined terms of the indenture in this prospectus, those sections or defined terms are incorporated by reference here.

### ***Stated Maturity and Maturity***

The day on which the principal amount of the debt securities is scheduled to become due is called the stated maturity of the principal. The principal may become due sooner, by reason of redemption or acceleration after a default. The day on which the principal actually becomes due, whether at the stated maturity or earlier, is called the maturity of the principal. The terms *stated maturity* and *maturity* refer to the dates when interest payments become due. For example, reference to a regular interest payment date when an installment of interest is scheduled to become due is the *stated maturity* of that installment. When reference is made to the *stated maturity* or the *maturity* of the debt securities without specifying a particular payment, it refers to the stated maturity or maturity, as the case may be, of the principal. The debt securities are subject to defeasance as described below under *Defeasance and Covenant Defeasance*.

The issuer will pay interest on the debt securities on the interest payment dates specified in the related prospectus supplement, and at maturity. Each payment of interest due on an interest payment date or at maturity will include interest accrued from and including the last date to which interest has been paid or made available for payment, or from the issue date, if none has been paid or made available for payment, to but excluding the relevant payment date on the debt securities on the basis of a 360-day year of twelve 30-day months.

### ***How the Debt Securities Rank Against Other Debt***

The debt securities will not be secured by any of the issuer's or the guarantors' property or assets. Thus, by owning these debt securities, holders are one of the issuer's unsecured creditors. These debt securities will not be subordinated or senior to any of the issuer's other unsecured unsubordinated debt obligations. The guarantees will be unsecured obligations of each of BHP Billiton Limited and BHP Billiton Plc and will rank equally as to payment with all their other unsecured and unsubordinated debt, except debt given preference by law. These guarantees will not be subordinated or senior to any of the guarantors' other unsecured unsubordinated debt obligations. This means that, in a bankruptcy or liquidation proceeding against the issuer or the guarantors, the issuer's obligations under these debt securities and the guarantors' obligation under the guarantees would rank equally in right of payment with all of the issuer's and the guarantors' other unsecured and unsubordinated debt, respectively, except debt given preference by law.

Since most of the guarantors' operations are conducted by their subsidiaries, they are largely dependent on cash from their subsidiaries for the payment of principal and interest, and additional amounts, if any, pursuant to the guarantees. You should note that there are no limitations on subsidiary companies taking on additional debt other than any limitations that may exist in each subsidiary's own financing arrangements.

### **Guarantees**

BHP Billiton Limited and BHP Billiton Plc will fully and unconditionally guarantee the payment of the principal of, premium, if any, and interest on the debt securities, including any additional amounts which may be payable in respect of the debt securities, as described under *Optional Tax Redemption Payment of Additional Amounts*. BHP Billiton Limited and BHP Billiton Plc guarantee the payment of such amounts when such amounts become due and payable, whether on an interest payment date, at the stated maturity of the debt securities, by declaration or acceleration, call for redemption or otherwise. Each of BHP Billiton Plc and BHP Billiton Limited is individually obligated to pay such amounts.

### **Legal Ownership**

#### ***Street Name and Other Indirect Holders***

Investors who hold debt securities in accounts at banks or brokers will generally not be recognized by the issuer or the guarantors as legal holders of debt securities. This is called holding in street name. Instead, the issuer and the guarantors will recognize only the bank or broker holding, or the financial institution the bank or broker uses to hold, its debt securities. These intermediary banks, brokers and other financial institutions pass along principal, interest and other payments on the debt securities, either because they agree to do so in their customer agreements or because they are legally required. If you are considering holding debt securities in street name, you should check with your own institution to find out:

how it will handle debt security payments and notices;

whether it will impose fees or charges;

how it will handle voting if it were ever required;

whether and how you can instruct it to send your debt securities, registered in your own name so you can be a direct holder as described below; and

how it will pursue rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests.

#### ***Direct Holders***

The issuer's obligations, the guarantors' obligations, as well as the obligations of the trustee and those of any third parties employed by the issuer, the guarantors or the trustee, run only to persons who are registered as holders of debt securities. As noted above, the issuer and the guarantors do not have obligations to you if you hold in street name or other indirect means, either because you choose to hold debt securities in that manner or because the debt securities are issued in the form of global securities as described below. For example, once the issuer or the guarantors make payment to the registered holder, it has or they have, as the case may be, no further responsibility for the payment even if that holder is legally required to pass the payment along to you as a street name holder but does not do so.

#### ***Global Securities***

**What are Global Securities?** Global securities are a special type of indirectly held securities, as described above under **Legal Ownership** **Street Name and Other Indirect Holders** . The ultimate beneficial owners of global securities can only be indirect holders.

The issuer and the guarantors require that the global securities be registered in the name of a financial institution they select. In addition, the issuer and the guarantors require that the debt securities included in the global securities not be transferred to the name of any other direct holder unless the special circumstances described below occur. The financial institution that acts as the sole direct holder of the global securities is called the depository. Any person wishing to own a debt security must do so indirectly by virtue of an account with a broker, bank or other financial institution that in turn has an account with the depository.

**Special Investor Considerations for Global Securities.** As an indirect holder, an investor's rights relating to global securities will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to securities transfers. Neither the issuer nor the guarantors recognize this type of investor as a holder of debt securities and instead deal only with the depository that holds the global securities. The debt securities offered by this prospectus will only be issued in the form of global securities except in special circumstances described below.

## **Table of Contents**

If you are an investor in global securities, you should be aware that:

You cannot get debt securities registered in your own name.

You cannot receive physical certificates for your interest in the debt securities.

You will be a street name holder and must look to your own bank or broker for payments on the debt securities and protection of your legal rights relating to the debt securities, as explained earlier under [Legal Ownership Street Name and Other Indirect Holders](#).

You may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their debt securities in the form of physical certificates.

The depositary's policies will govern payments, transfers, exchanges and other matters relating to your interest in the global securities. The issuer, guarantors and the trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in global securities. The issuer, guarantors and the trustee also do not supervise the depositary in any way.

The depositary will require that interests in global securities be purchased or sold within its system using same-day funds.

**Special Situations When Global Securities Will Be Terminated.** In a few special situations described later, global securities will terminate and interests in them will be exchanged for physical certificates representing debt securities. After that exchange, the choice of whether to hold debt securities directly or in street name will be up to the investor. Investors must consult their own bank or broker to find out how to have their interests in debt securities transferred to their own name so that they will be direct holders. The rights of street name investors and direct holders in the debt securities have been previously described in the subsections entitled [Legal Ownership Street Name and Other Indirect Holders](#) and [Legal Ownership Direct Holders](#).

The special situations for termination of global securities are:

When the depositary notifies the issuer or the guarantors that it is unwilling, unable or no longer qualified to continue as depositary.

When an event of default on the debt securities has occurred and has not been cured. Defaults are discussed below under [Default and Related Matters Events of Default](#).

When global securities terminate, the depositary (and not the issuer, the guarantors or the trustee) is responsible for deciding the names of the institutions that will be the initial direct holders. (Section 305)

*In the remainder of this description you means direct holders and not street name or other indirect holders of debt securities. Indirect holders should read the subsection entitled [Legal Ownership Street Name and Other Indirect Holders](#).*
