4. Reciprocal shareholding ratios: N/A
5. Cause of occurrence: Chunghwa Telecom signs MOU with HTC Corporation to integrate terminal products with HSPA+(High Speed Packet Access Plus) network services for enhancing customers daily life with full-dimension mobile services.
6. Countermeasures: None
7. Any other matters that need to be specified: None

The Company announces its unaudited revenue for January 2011

Date of events: 2011/02/10

Contents:

1. Date of occurrence of the event: 2011/02/10
2. Company name: Chunghwa Telecom Co., Ltd.
3. Relationship to the Company (please enter head office or affiliate company): Head office
4. Reciprocal shareholding ratios: N/A
5. Cause of occurrence: Chunghwa Telecom today announced its revenue for January 2011. Total revenue increased by 3.9% year-over-year to NT\$16.21 billion. Operating income decreased by 16.2% year-over-year to NT\$4.51 billion, net income decreased by 12.5% year-over-year to NT\$3.88 billion and EPS increased by 4.3% to NT\$0.48.

The revenue increase was primarily attributable to growth in mobile value added services, broadband access and smartphone handset sales as well as the growth in HiNet service and internet value added services. In addition, the company brought its billing period for monthly fees in line with that for communication charges starting from January 2011, resulting in a one-off revenue recognition increase. Operating income decreased year-over-year, mainly as a result of a one-off increase in interconnection costs due to the shift in the right to determine the price of a fixed-to-mobile phone call from mobile operators to fixed network operators, resulting in an accounts payable adjustment. Excluding the abovementioned one-off revenue increase and the accounts payable adjustment, operating income for January 2011 decreased 6.8% compared with the same period of 2010.

The main reasons for the decrease in operating income were an increase in cost of goods sold and marketing expenses due to the popularity of the smartphone. Due to the capital reduction in January 2011, the number of total outstanding shares was lower than last year, resulting in a year-over-year rise in EPS.

Chunghwa calculates its monthly communication revenue using the previous month's traffic. Although the regulation relating to the shift in the right to determine the price of fixed-to-mobile calls was implemented from January 2011, the impact on Chunghwa's revenue and costs will be reflected in operational results starting from February.

6. Countermeasures: None

7. Any other matters that need to be specified: None
