This proxy statement also relates to any adjournment or postponement of our Annual Meeting. On April 4, 2012, we commenced the distribution of our proxy statement and the accompanying proxy card to our shareholders of record as of March 14, 2012. We will bear all costs of preparing and distributing our proxy material to our shareholders. We will, upon request, reimburse brokers, nominees, fiduciaries, custodians and other record holders for their reasonable expenses in forwarding our proxy materials to beneficial owners.

We use the following terms in this proxy statement:

We, us, our, F.N.B., Company, or Corporation mean F.N.B. Corporation;

Board means the F.N.B. Corporation Board of Directors;

FNBPA means First National Bank of Pennsylvania;

ABOUT OUR ANNUAL MEETING

What will our shareholders vote on at our Annual Meeting?

Our shareholders will act upon the following proposals at our Annual Meeting:

Election of the fifteen nominees for directors named in this proxy statement to serve for a term of one year and until the election of their successors (Proposal 1);

Adoption of an advisory (non-binding) resolution to approve the 2011 compensation of our named executive officers (Proposal 2);

Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2012 (Proposal 3); and

Any other business that comes before our Annual Meeting in compliance with the advance notice and other applicable provisions of our bylaws (described in Shareholder Proposals discussion in this Proxy Statement).

Table of Contents

VOTING

Who is entitled to vote at our meeting?

Our Board has set March 14, 2012, as the record date for our Annual Meeting. Only holders of our common stock of record at the close of business on the record date are entitled to receive notice of and to vote at our Annual Meeting and any adjournment or postponement of our Annual Meeting. F.N.B. shareholders who plan to attend our Annual Meeting may obtain driving directions to the meeting location by contacting our shareholder relations representative, Jennifer Atkins, at (888) 981-6000.

What are the Board's voting recommendations?

The Board recommends that you vote your shares:

For the election of each of the fifteen nominees for election as directors named in this proxy statement for a term of one year and until the election of their successors (Proposal 1);

For adoption of the advisory (non-binding) resolution to approve the 2011 compensation of our named executive officers (Proposal 2); and

For ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for 2012 (Proposal 3).

What vote is required to approve each matter?

Action by the shareholders on each of the proposals presented at our Annual Meeting requires the presence of a quorum at our Annual Meeting, in person or by proxy. Refer to the discussion in our proxy statement under the question, "What is a quorum?"

Under Proposal 1, our directors are elected by a plurality of the votes cast in person or by proxy at our Annual Meeting. The fifteen persons nominated for election as a director in accordance with our bylaws who receive the highest number of "For" votes cast by our shareholders at the Annual Meeting will be elected as directors for one year terms. If you properly submit your proxy card and mark "Withhold" authority for any individual nominee or all of the nominees, the proxies will not vote your shares for the nominee or nominees as to which you so indicate, but we will count your shares as present in determining whether a quorum exists. Similarly, broker non-votes will not be counted as votes cast, but we will count those shares as present for purposes of determining whether a quorum exists. Our Articles of Incorporation do not authorize cumulative voting for the election of directors.

For Proposals 2 and 3, the affirmative vote of a majority of the votes cast for each Proposal at the Annual Meeting is required for approval of these Proposals. For Proposal 2, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the result of this vote. For Proposal 3, abstentions will not be counted as votes cast and will have no effect on the result of this vote.

Since the broker non-votes will not be counted as votes cast for purposes of Proposals 1 and 2, this means that the broker or bank which holds your shares of F.N.B. stock may not vote your shares regarding these proposals unless you instruct your broker or bank how you want your shares to be voted.

Table of Contents

What are the voting rights of our shareholders?

The only class of our securities that is outstanding and entitled to vote at our Annual Meeting is our common stock. As of the March 14, 2012, record date, we had 138,961,537 shares of our common stock outstanding, each entitled to one vote per share with respect to each matter to be voted on at our Annual Meeting.

How do I vote?

You can vote either in person at our Annual Meeting or by proxy whether or not you attend our Annual Meeting. When you or your authorized attorney-in-fact grants us your proxy, you authorize us to vote your shares of our common stock in the manner you specify on your proxy card. Giving a proxy allows your shares to be voted at our Annual Meeting even if you do not attend the Annual Meeting in person. If your shares are in an account at a bank or brokerage firm (that is, in street name), you will receive a separate instruction card from your bank or brokerage firm with information about how to give voting instructions.

If you hold your shares directly, to vote by proxy you must do one of the following:

Vote by mail. Complete, sign, date and return the enclosed proxy card in the envelope provided (the envelope requires no postage if mailed in the United States).

Vote via the Internet. Instructions are provided on your proxy card. Our Internet voting system is designed to provide security for the voting process and to confirm that your vote has been recorded accurately.

Vote by telephone. Instructions are provided on your proxy card.

Vote at the Annual Meeting. If you are a registered shareholder and attend our Annual Meeting, you may deliver your completed proxy card in person or request a voting ballot to vote in person at the meeting. Even if you returned a proxy to us before our Annual Meeting, you may withdraw it and vote in person.

If you hold your F.N.B. shares in an account at a bank or brokerage firm, and you want to vote in person at our Annual Meeting, you will need to obtain a signed proxy card from the brokerage firm or the bank that holds your F.N.B. stock. If your F.N.B. stock is registered in the name of a bank or brokerage firm, you also may be eligible to vote your shares electronically via the Internet or by telephone. Many banks and brokerage firms participate in the Broadridge Financial Solutions, Inc. (Broadridge) online program. This program provides eligible shareholders who receive a paper copy of this proxy statement the opportunity to vote via the Internet or by telephone. If your bank or brokerage firm is participating in Broadridge's program, your proxy card will contain instructions for voting through Broadridge's online program. If your proxy card does not reference Internet or telephone information, please complete and return the proxy card in the enclosed self-addressed, postage-paid envelope.

Who can attend our Annual Meeting?

All shareholders as of the close of business on March 14, 2012 (the record date), or their duly appointed proxies may attend our Annual Meeting. Even if you currently plan to attend our Annual Meeting, we recommend that you vote by any of the applicable methods described above so that your vote will be counted at our Annual Meeting if you later decide not to attend.

Table of Contents

If your shares are held in street name by your bank or brokerage firm, you will need to bring a copy of a brokerage statement reflecting your ownership of F.N.B. stock as of March 14, 2012, and check in at the registration desk at our Annual Meeting.

What is a quorum?

The presence at our Annual Meeting, in person or by proxy, of the holders of a majority of our outstanding shares of common stock on the record date will constitute a quorum, permitting the conduct of business at our Annual Meeting. If you return a properly completed proxy card, vote via the Internet, vote by telephone or vote in person at our Annual Meeting, you will be considered present for purposes of establishing a quorum. Proxies received, but marked as abstentions, proxies that withhold authority and broker non-votes will be included in the calculation of the number of shares considered to be present for purposes of determining a quorum.

Can I change my vote after I have voted?

You may revoke your proxy and change your vote at any time before we count your vote at our Annual Meeting. You may change your vote by signing and returning a new proxy card, voting via the Internet or by telephone with a later date, or by attending the Annual Meeting and voting in person. Only your latest instruction will be counted. However, your attendance at our Annual Meeting will not automatically revoke your proxy unless you vote again at our Annual Meeting or specifically request that your prior proxy be revoked by delivering a written notice of revocation prior to our Annual Meeting to our Corporate Secretary at F.N.B. Corporation, One F.N.B. Boulevard, Hermitage, Pennsylvania 16148.

How do I vote if my shares are held in street name ?

If you hold your shares in street name in an account at a bank or brokerage firm, we generally cannot mail our proxy materials directly to you. Instead, your bank or brokerage firm will forward our proxy materials to you and tell you how to give them instructions for voting your F.N.B. shares.

How do I vote my 401(k) Plan shares or ESOP Plan shares?

If you participate in the F.N.B. Corporation Progress Savings 401(k) Plan (401(k) Plan) or the Parkvale Financial Corporation Employee Stock Ownership Plan (ESOP), which we assumed by virtue of our acquisition of Parkvale Financial Corporation on January 1, 2012, you may vote the number of shares of common stock credited to your account as of the record date. You may vote by instructing FNTC, the trustee of our 401(k) Plan and of the ESOP, pursuant to the proxy card being mailed with this proxy statement to plan participants. The trustee will vote your shares in accordance with your duly executed proxy card, provided that the trustee receives it by 3:00 a.m., Eastern Daylight Time, on Friday, May 18, 2012.

In the case of the 401(k) Plan, if you do not return your proxy card, your shares credited to your 401(k) Plan account will be voted by the trustee in the same proportion that it votes the shares for which it timely received proxy cards. With respect to the ESOP, if you do not return your proxy card, the trustee will not vote the shares of common stock credited to your ESOP account unless the trustee determines that the Employee Retirement Income Security Act of 1974, as amended, the trustee's fiduciary duties or the Employer ESOP Voting Policy requires the trustee to vote those shares.

You may also revoke a previously given proxy card until 3:00 a.m., Eastern Daylight Time, on Friday, May 18, 2012, by filing with the trustee either a written notice of revocation or a properly completed and signed proxy card or Internet or telephone vote having a later date.

How will we conduct the business of our Annual Meeting?

Our bylaws govern the organization and conduct of business at our shareholder meetings. Our bylaws specify that our Board Chairman shall preside at our shareholder meetings. Our Board Chairman, Mr. Stephen J. Gurgovits will serve as Chair of our Annual Meeting and call the meeting to order. How can I avoid receiving more than one set of proxy materials in future years?

If two or more registered shareholders live in your household or if a registered shareholder maintains two or more shareholder accounts, you may have received more than one set of our proxy materials. We have made a delivery method for proxy materials called householding available to our shareholders. If you consent to householding, only one annual report and one proxy statement will be delivered to your address; however, a separate proxy card will be delivered for each account. Please refer to the section titled, Other Matters Householding of Proxy Materials at the end of this proxy statement for more information regarding householding.

Is my vote confidential?

We process proxy instructions, ballots and voting tabulations that identify individual shareholders in a manner that protects your voting privacy. We will not disclose your vote either within the Company or to third parties, except:

As necessary to meet applicable legal requirements;

To allow for the tabulation and certification of votes; and

To facilitate a successful proxy solicitation.

Occasionally, shareholders provide written comments on their proxy cards. In our discretion, we may forward your comments to our management or the Board.

Where can I find the voting results of the Annual Meeting?

We will announce the preliminary voting results at our Annual Meeting. The judges of election will tally the final voting results and we will include the final voting results in a Form 8-K, which we will file with the Securities and Exchange Commission (SEC) by May 30, 2012.

Who is paying for the cost of this proxy solicitation?

The Company is paying the costs of the solicitation of proxies. The Company has retained Regan & Associates, Inc. to assist in obtaining proxies by mail, facsimile or email from registered holders, brokerage firms, bank nominees and other institutions for the Annual Meeting. The estimated cost of such service is \$20,000 including out-of-pocket expenses. Regan & Associates, Inc. may be contacted at (800) 737-3426.

The Company will also reimburse brokerage firms and other persons representing beneficial owners of shares held in street name for their reasonable costs associated with:

Proposal 1. Election of Directors

General Information Regarding Director Nominees

Our Board determines the number of directors to nominate for election each year. The F.N.B. bylaws provide that our Board shall consist of not fewer than five nor more than 25 persons, the exact number to be determined from time to time by the Board.

Acting on the recommendation of the Nominating and Corporate Governance Committee, our Board fixed the number of directors as of the Annual Meeting date at 15.

Directors

The Board, acting on the recommendation of the Nominating and Corporate Governance Committee, has nominated the persons identified on the table below titled, Nominees for Election at Our Annual Meeting, and each nominee is discussed in more detail in the Section titled Biographical Information Concerning Directors and Nominees of this proxy statement, for election as directors. Each of the Company's nominees will hold office for a one-year term until the next annual meeting of shareholders and the election and qualification of his or her successors. All of our nominees are currently directors.

Relevant biographical information concerning the nominees for election at F.N.B.'s Annual Meeting is described under Biographical Information Concerning Directors and Nominees in this proxy statement.

Our bylaws do not permit cumulative voting in the election of directors.

Identification and Evaluation of Director Candidates

Our Nominating Committee identifies potential directors primarily through any of the following processes: (i) recommendations made by current or former Company Directors; (ii) contacts in business, civic, academic and non-profit communities; (iii) our Company shareholders (see later discussions under Shareholder Proposals); and (iv) retention of a qualified search firm.

At least annually, in consultation with the Nominating and Corporate Governance Committee, our Board assesses the skills, qualifications and experience of our Board and decides whether to recommend an incumbent director for re-election. In evaluating existing directors or new candidates, our Nominating and Corporate Governance Committee and Board assess the needs of the Board and the qualifications of the director candidate. Moreover, in evaluating the suitability of prospective Board members, our Nominating and Corporate Governance Committee and Board take into account many factors, including general understanding of banking, finance and other disciplines relevant to the success of a publicly traded financial services company in today's

business and regulatory environment; compatibility with our culture; understanding of our business; educational and professional background; personal accomplishment and geographic, gender, age, racial, ethnic and other diversity considerations. Please see Section titled Biographical Information Concerning Directors and Nominees for more information on each of our current director nominees.

OUR BOARD OF DIRECTORS AND ITS COMMITTEES

Board Leadership Structure, Role in Risk Management and Corporate Governance

Based on an evaluation of its governance needs and the composition, skills and qualifications of the current directors, the Board believes that an appropriate leadership structure should include the following important characteristics: (i) the Board is comprised of a majority of independent directors; (ii) the Board includes a lead independent director with specific duties in the event the Board Chairman does not qualify as independent; and (iii) executive sessions consisting of independent directors are conducted regarding significant Board decisions.

The Board believes that its current leadership structure includes these three characteristics. The Board also believes that its leadership structure is flexible enough to accommodate different approaches based on an evaluation of relevant facts and circumstances. The Board annually evaluates its structure and this assessment includes an evaluation of the Board, Board committees and individual directors.

Following Mr. Gurgovits election as Chairman of the Corporation's Board in January 2012 the Board decided to designate an independent Lead Director since Mr. Gurgovits will not immediately qualify as independent under the applicable New York Stock Exchange rules by virtue of his prior service as the Corporation's CEO. As provided in the Corporate Governance Guidelines, the independent directors designate the Lead Director for a one-year term and such person cannot serve more than three consecutive terms as Lead Director. In January 2012, the independent directors designated Mr. Campbell to serve as the Board's Lead Director. The duties and responsibilities of the Lead Director include, but are not limited to, the following:

Assist the Board in fulfilling its responsibility for reviewing, evaluating and monitoring the Corporation's strategic plan by meeting with the Corporation's CEO to monitor and remain knowledgeable regarding the status of such plan;

When necessary, act as a liaison and to facilitate communications with the Corporation's Chairman, directors and CEO for the purpose of coordinating information flow among the parties with the goal of optimizing the effectiveness of the Corporation's Board and Board Committees;

Serve as a conduit of information and feedback among the Corporation's Chairman, directors and CEO between Board meetings;

Coordinate the review and resolution of conflict of interest issues with respect to members of the Corporation's Board as they may arise; and

Coordinate and develop the agenda for, and preside at, executive sessions of independent and non-management directors of the Corporation's Board.

The Board oversees the Company's CEO and other senior management in the competent and ethical operation of the Company on a day-to-day basis and ensures that our officers are serving the long-term interests of the shareholders. We expect each director to take a proactive and focused approach to his or her position, and to assist in setting standards to ensure that the Company is committed to business success through the maintenance of high standards of responsibility and ethics, as embodied in our Code of Conduct and our Corporate Governance Guidelines. Our Code of Conduct applies to all of the Company's directors and it may be accessed on our website at www.fnbcorporation.com under the tab Corporate Structure by clicking on the heading Corporate Governance. Our Corporate Governance Guidelines outline the key practices and procedures that our Board follows. Our Corporate Governance Guidelines are available on our website at www.fnbcorporation.com under the tab, Corporate Structure, and then clicking on the heading, Corporate Governance.

The Executive Committee, consistent with Florida law and our bylaws, assists the Board by offering an efficient means of considering significant matters and issues including in the intervals between regular meetings of our Board. The Executive Committee met 14 times in 2011.

The Audit Committee is responsible primarily for selecting and overseeing the services performed by our independent registered public accounting firm and internal audit department, evaluating our accounting policies and system of internal controls and reviewing significant financial transactions and compliance matters. In addition, the Audit Committee approves all audit services and permitted non-audit services, as well as, all engagement fees and terms related thereto. The Audit Committee met 11 times during 2011. The Board has determined that each member of the Audit Committee, Messrs. Malone, Martz, Radcliffe and Strimbu, qualifies as being financially literate and each of these Audit Committee members also qualifies as an audit committee financial expert as defined by the SEC. Each Audit Committee member also meets the additional criteria for independence of audit committee members set forth under the SEC rules, NYSE listing standards and the applicable federal bank regulatory requirements. We refer you to the Report of Audit Committee in this proxy statement.

Table of Contents

The Compensation Committee (also referred to as the Committee in the Executive Compensation and Other Proxy Disclosure discussion of this proxy statement) is responsible primarily for reviewing the compensation arrangements for our executive officers, including the CEO, administering our equity compensation plans and reviewing the compensation of the Board. For a description of the Compensation Committee's processes and procedures, including the roles of our executive officers and independent compensation consultants in the Compensation Committee's decision-making process, we refer you to Executive Compensation and Other Proxy Disclosure elsewhere in this proxy statement. The Compensation Committee met seven times in 2011. The F.N.B. Board has affirmatively determined that each of the following Compensation Committee members qualifies as an outside director for purposes of Section 162(m) of the United States Tax Code: Robert Goldstein, Dawne Hickton and David Malone.

The Nominating Committee assists in the development of standards concerning the qualifications and composition of our Board. In addition, the Nominating Committee recommends director candidates to stand for election to our Board and seeks to promote the best interests of the Company and its shareholders through implementation of prudent and sound corporate governance principles and practices. We refer you to the discussions under Corporate Governance and Evaluation of Director Candidates located elsewhere in this proxy statement. The Nominating Committee met six times in 2011.

The Risk Committee's principal responsibilities are to assist the Board in the review and oversight of the Company's management of its enterprise-wide risk program (See discussion under Risk Management later in this proxy statement), including establishing, in consultation with senior management, acceptable risk tolerance levels for the Company and reporting this information to the Board. The Risk Committee met five times in 2011.

The Succession Committee plans for the succession to the position of the Company's CEO in the event of an anticipated or unanticipated vacancy. In addition, the Succession Committee considers other succession planning matters concerning other significant positions within the organization. The Succession Committee met five times in 2011.

The Audit Committee, Compensation Committee and Nominating Committee responsibilities are described more fully in, and these Committees operate under, written charters adopted by the Board. You may review these charters on our website at www.fnbcorporation.com under the tab Corporate Structure by clicking on the heading, Corporate Governance.

Code of Conduct

The Company has a Code of Conduct that applies to all of the Company's Directors and employees, including its principal executive officer, principal financial officer and principal accounting officer. You may view a copy of our Code of Conduct on our website at www.fnbcorporation.com under the tab Corporate Structure, by clicking on the heading Corporate Governance. The Company will disclose any changes in or waivers from its Code of Conduct by posting such information on its website or by filing a Form 8-K.

Risk Management

The Board recognizes that, as a financial institution, the Corporation takes on a certain amount of risk in every business decision, transaction and activity. The Corporation's Board and management have identified six major categories of risk: credit risk, market risk, liquidity risk, reputational risk, operational risk and regulatory compliance risk. In its oversight role of the Corporation's risk management function, the Board is mindful that risk management is not about eliminating risk, but rather is about identifying, accepting and managing risks so as to optimize total shareholder value, while balancing prudent business considerations and safety and soundness.

Table of Contents

The Corporation supports its risk management process through a governance structure involving its Board and senior management. The Board's Risk Committee helps ensure that business decisions in the organization are executed within our desired risk profile. The Risk Committee has the following oversight responsibilities: (i) identification, assessment and monitoring of enterprise-wide risk across the Corporation and its subsidiaries and affiliates; (ii) development of appropriate risk metrics to use in connection with the oversight to the Corporation's businesses; and (iii) identification and implementation of risk management best practices.

In addition, the Corporation's principal subsidiary, FNBPA, has a Risk Management Committee comprised of senior management. The purpose of this committee is to provide day-to-day oversight to specific areas of risk with respect to the level of risk and risk management structure. The FNBPA Risk Management Committee reports on a regular basis to the Corporation's Risk Committee regarding the enterprise-wide risk profile of the Corporation and other significant risk management issues. Further, the Corporation's audit function performs an independent assessment of the Company's internal control environment and plays an integral role in testing the operation of internal control systems and reporting findings to management and the Corporation's Audit Committee. Both the Corporation's Risk Committee and Audit Committee regularly report on risk-related matters to the Corporation's Board. In addition, both the Corporation's Risk Committee and FNBPA's Risk Management Committee regularly assess the Corporation's enterprise-wide risk profile and provide guidance on actions needed to address key and emerging risk issues.

The Board believes that the Company's enterprise-wide risk management process is effective since it includes the following material components: (i) enables the Board to assess the quality of the information it receives; (ii) enables the Board to understand the businesses of F.N.B., its affiliates and its subsidiaries, and the risks that they face; (iii) enables the Board to oversee and assess how senior management evaluates risk; and (iv) enables the Board to assess appropriately the quality of the Company's enterprise-wide risk management process.

Corporate Governance

We have developed and operate under corporate governance principles and practices which are designed to optimize long-term shareholder value, align the interests of our Board and management with those of our shareholders and promote the highest ethical conduct among our directors, management and employees.

Highlights of portions of our Corporate Governance Guidelines, as well as some of our corporate governance policies, practices, procedures and related matters are as follows:

All of our directors are independent under the definition of "independence" established by our Corporate Governance Guidelines and the criteria of the NYSE, with the exception of F.N.B.'s former CEO, Mr. Gurgovits, F.N.B.'s CEO, Mr. Delie, and Mr. McCarthy who was CEO of the recently acquired Parkvale.

Shareholders may communicate directly with our Board or any Board Committee or any individual director.

Our Audit, Compensation and Nominating Committees are composed entirely of independent directors.

Each of our Audit, Compensation and Nominating Committees has a written charter posted on the Corporation's website, www.fnbcorporation.com that it reviews and reassesses annually.

Audit Committee members cannot serve on more than two other public company audit committees without the approval of our Board.

Our internal auditor, who oversees our internal audit function, reports directly to our Audit Committee.

Our Compensation Committee retains an independent compensation consultant to provide the Committee with advice and guidance on our executive compensation program.

Table of Contents

We conduct an annual self-evaluation process of our Board, our Audit, Nominating and Compensation Committees and our directors.

Our Nominating Committee will consider director candidates recommended by shareholders. For details regarding our policy with regard to the consideration of director candidates recommended by our shareholders, we refer to Shareholder Proposals and Identification and Evaluation of Director Candidates elsewhere in this proxy statement and our Corporate Governance Guidelines.

F.N.B. has implemented a director education policy which specifically details the Corporation's expectations concerning ongoing director training.

Our Corporate Governance Guidelines set forth the expectation that directors will attend all shareholder and Board meetings and those committee meetings of which they are a member, and at a minimum, at least 75% of Board and committee meetings in the aggregate.

Shareholder voting is confidential.

Our Corporate Governance Guidelines expressly state that we shall consider diversity, among other important factors, in connection with Board composition determinations.

We require our directors and officers to retain ownership of F.N.B. common stock in accordance with our policies which are designed to ensure that directors' interests are meaningfully aligned with shareholders' interests.

We have a recoupment policy that allows us to recover incentive compensation paid to any current or former officers based on financial results that we are required to restate.

Our directors, NEOs and all employees are not permitted to engage in hedging strategies using puts, calls or other derivative securities based on our Company's common stock.

The Board recognizes the importance of independent leadership on the Board, as evidenced by its designation of an independent Lead Director.

Our Board Chairman and CEO positions are held by different persons.

We encourage you to visit the Corporate Structure page of our corporate website at www.fnbcorporation.com for additional information about our Board, its committees, our Corporate Governance Guidelines, our Code of Ethics, our Code of Conduct and our Audit, Nominating and Compensation Committee Charters. We also include additional information on these topics in other sections of this proxy statement.

Director Independence

Background. As a company that has securities listed on the NYSE, a majority of members of our Board must be independent. Under the NYSE's corporate governance standards, no director qualifies as independent unless our Board affirmatively determines that the director has no material relationship with F.N.B. The fact that a director or member of a director's immediate family may have a material relationship with F.N.B. directly, or as a partner, owner, shareholder, or officer of an organization that has a relationship with F.N.B., will not necessarily preclude such director from being nominated for election to our Board.

The New York Stock Exchange's bright-line independence tests. The NYSE established director independence requirements in order to increase the quality of Board oversight at listed companies and to lessen the possibility that damaging conflicts of interests will influence Board decisions. The NYSE bright-line independence tests each describe a specific set of circumstances that would cause a director not to be independent from our management. The NYSE's corporate governance standards do not define every relationship that will be considered material for purposes of determining a director's independence from our management.

Table of Contents

F.N.B. categorical standards of director independence. In addition to the NYSE bright-line independence standards, F.N.B. has adopted categorical independence standards. The categorical independence standards define certain ordinary course of business transactions and other relationships that F.N.B.'s Board has concluded would not cause a director to cease to be independent. A summary of F.N.B.'s categorical standards is as follows:

Significant financial relationship whereby the service or product provider has made payments to, or received payments from us, or our affiliates, in an amount that, in any of the last five fiscal years does not exceed the greater of \$1,000,000 or 2% of such provider's consolidated gross revenue;

Business or financial transactions with an affiliate of F.N.B. provided that such transaction is entered into in the ordinary course of business and on terms substantially similar to those prevailing at the time for comparable transactions for non-affiliated persons of F.N.B. or its affiliates and such transaction conforms with applicable federal regulatory standards, and termination of the business or financial relationship in the ordinary course of business would not reasonably be expected to have a material and adverse effect on the financial condition, results of operations or business of F.N.B. or its affiliate;

A director or immediate family member is associated as a partner or associate of, or of counsel to, a law firm that provides services to F.N.B. or its affiliates and the payments relating to such services do not exceed \$1,000,000 or 2%, whichever is greater, of the law firm's revenues in each of the past five years;

Banking and financial transactions involving directors, their immediate family members or affiliated entities that are done in the ordinary course of business and comply with applicable federal bank regulatory standards unless such transaction is a loan that is disclosed in the most recent federal bank examination as non-accrual, past due, restructured or having significant potential problems; and

Participation by a director, the director's immediate family member or an affiliated entity in financing transactions sponsored by F.N.B. Capital which are made in the ordinary course of business and are made on substantially the same terms as those made available to F.N.B. Capital will not be deemed material for director independence determination purposes unless the director or immediate family member is an officer, director or owner of 10% or more of the business enterprise or the entity to which F.N.B. Capital is furnishing any such financing or equity capital.

Also, our Corporate Governance Guidelines require that our Board broadly consider all relevant facts and circumstances especially in situations not covered by the NYSE bright-line independence standards or our categorical independence standards.

As required by the NYSE's corporate governance rules, we will disclose any relationship that a director has with us that is not consistent with either the NYSE bright-line independence standards or our categorical independence standards in this proxy statement.

Director Independence Determinations

On March 21, 2012, our Board, with the assistance of the Nominating Committee, conducted an evaluation of F.N.B. director independence, based on the director independence standards set forth in the Company's Corporate Governance Guidelines, the NYSE corporate governance standards and applicable SEC rules and regulations. In connection with this review, our Board evaluated banking, commercial, business, investment, legal, charitable, consulting, familial or other relationships with each director, that director's immediate family members and their related business interests and us and our affiliates, including those relationships described under the caption Related Persons Transactions in this proxy statement.

As a result of this evaluation, our Board affirmatively determined that each of Ms. Hickton and Messrs. Campbell, Gingerich, Goldstein, Martz, Malone, Radcliffe, Rooney, Rose, Sheetz, Strimbu and Wahl is an independent director under our director independence standards, the NYSE independence standards and the applicable SEC rules and regulations. In addition, the Board also affirmatively determined that former

Table of Contents

Director Peter Mortensen, who retired May 18, 2011, and Director Henry M. Ekker, who passed away on September 17, 2011, were each independent directors under our director independence standards, the NYSE independence standards and the applicable SEC rules and regulations. To our knowledge, the aggregate grants, donations and contributions made by us or our affiliates to any non-profit organization for which one of our directors served as an officer or director did not exceed the greater of \$1,000,000 or 2% of such organization's consolidated gross revenues in 2011.

Our Board affirmatively determined that Messrs. Gurgovits (former CEO), Delie (CEO) and McCarthy (former CEO of recently acquired Parkvale) are not independent under the NYSE corporate governance standards and F.N.B.'s categorical director independence standards by virtue of their former or current employment with the Corporation.

None of our Audit Committee members serve on more than two other public company audit committees.

Family Relationships

There are no family relationships among the executive officers and directors of the Company.

Executive Sessions of our Board

Our policy is that our Board hold at least one executive session per year attended exclusively by independent members of the Board. In addition, as necessary, the Board may hold executive sessions attended exclusively by directors who are not members of our executive management. Our independent Lead Director or an independent Director designated by the Lead Director presides at each executive session meeting. Our Board conducted nine executive sessions in 2011, of which three were attended exclusively by independent and non-management directors.

COMMUNICATIONS WITH OUR BOARD

Shareholders or other interested parties may send communications to our Board, independent directors as a group, Board Chairman, any committee Chairmen, and/or any individual director by addressing such communications to the Board, c/o Corporate Secretary, F.N.B. Corporation, One F.N.B. Boulevard, Hermitage, Pennsylvania 16148. The Corporate Secretary, or his designee, will promptly forward all such communications submitted and addressed in this manner to the members of our Board or any designated individual director or directors, as the case may be. Our Corporate Secretary will forward all shareholder communications with the Board or individual directors without prior screening by the Corporate Secretary or any other employee.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (Exchange Act) requires our executive officers and directors, as well as certain persons who beneficially own 10% or more of our common stock, to file reports of their ownership of our securities, as well as statements of changes in such ownership, with the SEC. There were two inadvertent delinquent Form 4 filings by two of our Directors. These inadvertent delinquent filings were caused in one case by a Director's broker who was unfamiliar with our Corporation's stock trading reporting requirements and in the other instance when the Director's broker's stock trade notice was filtered by the Corporation's e-mail system. There were no other delinquent Form 4 filings by our executive officers and directors. Other than these two instances, to our knowledge, based solely on a review of copies of the reports filed on behalf of our directors and executive officers and written representations received from our executive officers and directors, no other reports were required, and based on our review of the statements of ownership changes filed by our executive officers and directors with the SEC during 2011, we believe that all other such filings required during 2011 were made on a timely basis. We do not have any shareholders who own 10% or more of our common stock that are required to file reports under Section 16(a) of the Exchange Act.

Table of Contents**Security Ownership of Certain Beneficial Owners**

We are not aware of any shareholder who was the beneficial owner of more than 5% of our outstanding common stock as of December 31, 2011, except for the entities identified in the table below:

Name and Address	Amount and Nature of Beneficial Ownership(1)	Percent of Outstanding Common Stock Beneficially Owned(2)
BlackRock, Inc. 40 East 52 nd Street New York, NY 10022	14,135,823(3)	11.12%
The Vanguard Group, Inc.(4) 100 Vanguard Boulevard Malvern, PA 19355	6,687,515(4)	5.26%

- (1) Under the regulations of the SEC, a person who has or shares voting or investment power with respect to a security is considered a beneficial owner of the security. Voting power is the power to vote or direct the voting of shares, and investment power is the power to dispose of or direct the disposition of shares.
- (2) Based on 127,220,759 shares of Corporation common stock outstanding as of December 31, 2011.
- (3) According to Schedule 13G filed under the Exchange Act on January 10, 2012, by BlackRock, Inc. The Schedule 13G states that BlackRock, Inc. has sole voting and dispositive power of all 14,135,823 shares.
- (4) According to Schedule 13G filed under the Exchange Act on February 10, 2012, by The Vanguard Group, Inc. The Schedule 13G states (i) that The Vanguard Group, Inc. has sole dispositive power of 6,492,515 shares and has sole voting power and shared dispositive power of 194,999 shares; and (ii) that its wholly-owned subsidiary, Vanguard Fiduciary Trust Company, as investment manager of collective trust accounts, is the beneficial owner of 194,999 shares and directs the voting of those shares.

RELATED PERSON TRANSACTIONS

We have adopted a written policy formalizing the manner in which we review a proposed transaction involving the Company and any of our directors, any director nominees, any executive officers, any 5% or greater shareholder or any immediate family member of the foregoing (related persons) because of the possibility of a conflict of interest. A copy of this Policy with Respect to Related Person Transactions is posted on our website at www.fnbcorporation.com under the tab Corporate Structure, and may be accessed by clicking on the heading Corporate Governance. Under our policy, all proposed related person transactions involving amounts in excess of \$120,000 must receive the prior approval of the Nominating Committee of our Board before we can take part in the transaction and if such transaction continues for more than one year the Nominating Committee and Board must annually approve the transaction.

In 2011, some of our directors and executive officers and their associates were customers of, and had transactions with, one or more of the Company's subsidiaries in the ordinary course of business on substantially the same terms as those prevailing at the time for comparable transactions with unaffiliated persons. We expect similar transactions to take place in the future. In 2011, each of the Company directors and NEOs had loans or loan commitments with our subsidiary bank, FNBPA, which were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with persons not affiliated with us, and these loans did not involve more than the normal risk of collectability nor did they present other unfavorable features. We determined that these loans and loan

commitments were performing in accordance with their contractual terms. In addition, our wealth management affiliate, FNTC, acts as fiduciary

Table of Contents

under various employee benefit plans of and acts as investment manager to certain customers whose officers and/or directors may also be directors of our Company. We entered into these fiduciary arrangements in the ordinary course on terms substantially similar to those entered into with customers who do not have any affiliation with us.

Mr. Rooney is a co-owner of, and an executive officer of PSSI, which is an affiliate of PSSI Stadium Corp., to whom FNBPA paid approximately \$127,085 in 2011 in connection with a Heinz Field Suite Licensing Agreement pursuant to which FNBPA entertains clients at sporting and entertainment events. FNBPA's Heinz Field Licensing Agreement arrangement was originally entered into prior to when Mr. Rooney joined our Board. Also, in 2011, F.N.B. affiliates paid approximately \$158,450 to Sheetz, Inc., in connection with fuel for fleet, courier, promotional and business related travel by the affiliates' employees. Employees of F.N.B. and its affiliates use Sheetz fuel cards in connection with business travel principally because of the prevalence of Sheetz stores in our market areas in Pennsylvania and Ohio and because the Sheetz fuel card also provides the benefit of a discount on fuel purchases. Mr. Sheetz is a co-owner and the CEO of Sheetz, Inc. FNBPA also leases the premises for a branch facility from an immediate family member of Mr. Sheetz and paid that family member approximately \$36,300 in 2011 in connection with this lease. We effected the transactions with Mr. Rooney's and Mr. Sheetz's related interests in the ordinary course of business on substantially the same market terms as those prevailing for comparable transactions with unaffiliated persons.

There are no family relationships as defined in the SEC and the NYSE rules between any of our executive officers or directors and any other of our executive officers or directors.

Director Rose's step-son is an employee of one of our affiliates and he received in 2011, compensation in accordance with F.N.B.'s policies and practices. Mr. Rose's step-son was paid less than \$120,000 in total compensation in 2011 and participated in our compensation and incentive plans or arrangements on the same basis as other similarly situated employees and health and welfare benefit plans generally available to all salaried employees of F.N.B. and its subsidiaries.

Stephen J. Gurgovits, Jr., President and CEO of our subsidiary, F.N.B. Capital, is the son of Stephen J. Gurgovits, the Chairman of our Board. In 2011, Mr. Gurgovits, Jr. received a base salary of \$192,480; car allowance of \$6,000; and performance incentive payments of \$355,546. Mr. Gurgovits, Jr.'s performance incentive payments were earned under the F.N.B. Capital Incentive Compensation Program and are principally attributed to the successful maturation over a number of years of several F.N.B. Capital portfolio investments which paid off during 2011 (as was the case for other F.N.B. Capital employees). Pursuant to the terms of the F.N.B. Capital Incentive Compensation Program, Mr. Gurgovits, Jr.'s award was contingent upon F.N.B. Capital's achievement of a pre-set cumulative preferred return on equity of 15%, and his 2011 performance incentive payment amount was based on the net proceeds of the investments, as determined under the incentive program. The F.N.B. Capital Incentive Compensation Program also requires 25% of his award to be deferred in payment and retained as part of a clawback pool to cover any shortfall, should future investments fail to meet the pre-set preferred return. Twenty percent of the clawback pool is released annually to the award recipients. Mr. Gurgovits, Jr. also participates in health and welfare plans generally available to all salaried employees of the Corporation and its subsidiaries. Mr. Gurgovits, Jr.'s compensation is paid in accordance with applicable policies and practices of F.N.B. Capital, which are designed to be competitive with the practices of similarly situated investment and merchant banking firms.

Robert J. McCarthy, Jr., the former president, CEO and vice chairman of Parkvale, joined our Board on January 1, 2012, effective with the closing of the merger of Parkvale with the Company. In connection with the completion of the merger, we entered into a Release Agreement with Mr. McCarthy, which provides that under the previously disclosed terms of his Employment Agreement with Parkvale, as adjusted to reflect actual bonus and salary amounts used to calculate the severance amount payable, and subject to the requirements and restrictions therein, Mr. McCarthy is entitled to receive certain severance payments totaling \$2,196,063 in 2012. In addition, the Company and Mr. McCarthy entered into a Tax Indemnification Agreement providing that, in the

event distributions resulting from termination and liquidation of the Parkvale Financial Corporation Amended and Restated Supplemental Executive Benefit Plan and the Parkvale Savings Bank Amended and Restated Executive Deferred Compensation Plan are subject to the 20% additional tax and/or interest or other penalties (Additional Tax) imposed by section 409A of the Internal Revenue code of 1986, as amended, the Company is to pay Mr. McCarthy a lump sum, so that after payment of all federal income and employment taxes imposed, Mr. McCarthy retains an amount equal to the Additional Tax.

Family members employed by F.N.B. or its affiliates may receive reimbursement for relocation expenses or referral or incentive fee payments and such payments are made in accordance with our standard policies. Lastly, Sandra Gurgovits, who is the wife of the F.N.B. Chairman, is a licensed realtor with Northwood Realty Services, which is not affiliated with our Company. From time to time, employees of the Company or its affiliates who are provided relocation allowances under the Company s relocation policy in connection with their move to or from our headquarters may engage Ms. Gurgovits. As compensation for her services as a real estate agent, Ms. Gurgovits receives commission payments for these services in the ordinary course of business in accordance with Northwood Realty Services standard commission schedules.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee (Committee) during 2011 were Mr. Goldstein as Chairman, Ms. Hickton and Messrs. Malone, and Rose. Neither we nor FNBPA has ever employed any member of the Committee other than Mr. Rose. No such member has, during our last fiscal year, any relationship with us requiring disclosure under Item 404 of Regulation S-K or under the Compensation Committee Interlocks disclosure requirements of Item 407(e)(4) of Regulation S-K. We have determined that each Committee member is independent under the NYSE corporate governance standards, and are non-employees under the meaning of Rule 16b-3 under the Exchange Act; however, since Mr. Rose is not an outside director for purposes of Section 162(m) of the Internal Revenue Code (Code) he does not vote on compensation related matters. Our Board has delegated to the Committee the responsibility of setting the compensation of our directors, CEO, Chief Financial Officer (CFO) and Section 16 officers. The Committee met seven times in 2011. A copy of The Committee Charter is available at our website www.fnbcorporation.com under the tab, Corporate Structure, and then clicking on the heading Corporate Governance.

Authority and Responsibilities

The Committee administers our executive compensation programs, including the oversight of executive compensation policies and decisions, administration of the annual cash incentive award plan applicable to Section 16 officers and our equity incentive plan. The Committee administers and interprets our qualified and non-qualified benefit plans, establishes guidelines, approves participants in the non-qualified plans, approves grants and awards, and exercises other power and authority required and permitted under the plans and its charter. The Committee also reviews and approves executive officer, including CEO, compensation, including, as applicable, salary, short-term incentive and long-term incentive compensation levels, perquisites and equity compensation. The Committee Charter reflects its responsibilities. The Committee reviews its Charter annually and recommends any proposed changes to the Board.

Delegation

From time to time, the Committee may delegate authority to fulfill various functions of administering the Company's plans to our employees. Currently, it delegates administration of our qualified plans to the Pension Committee, a committee of our senior officers that have the appropriate expertise, experience and background in handling defined benefit and defined contribution plans.

Independent Compensation Consultants

The Committee engaged Pearl Meyer & Partners (PMP) to assist it in evaluating our compensation practices and to provide advice and ongoing recommendations regarding CEO, NEO and director compensation that are consistent with our business goals and pay philosophy. PMP provided market information and analysis as background to decisions regarding total compensation, including base salary and short and long-term incentives, for the CEO, NEOs and other senior officers and directors. PMP is not affiliated with us nor did they, or their affiliates, provide any other services or perform other work for us in 2011.

Table of Contents

PMP reported directly to the Chairman of the Committee. In performance of its duties, PMP interacted with our CEO, CFO, Director of Human Resources, Corporate Counsel and other employees. In addition, PMP communicated with, took direction from, and regularly interacted with the Chairman of the Committee and other members of the Committee in addition to attending Committee meetings on an as needed basis.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Overview

We review our executive compensation philosophy annually; nonetheless, it has remained consistent for several years. We have designed our compensation programs to link strong corporate performance to increased total compensation. Each year we review our compensation programs to ensure that we are being competitive in attracting and retaining the appropriate executive talent, while maintaining good corporate governance practices. In determining executive compensation for 2011, the Committee considered the overwhelming support that the Say-on-Pay proposal received at our May 18, 2011, Annual Meeting of Shareholders (2011 Annual Meeting). Over 93% of the shareholders who voted on our proposal supported our compensation program. As a result, the Committee continued to apply the same effective principles and philosophy it has used in previous years in determining executive compensation and will continue to consider shareholder concerns and future advisory votes. Thus, we will continue to provide an advisory vote to shareholders on an annual basis consistent with the frequency vote supported by the shareholders at our 2011 Annual Meeting. Furthermore, our CEO and CFO will continue to frequently meet with shareholders and prospective investors while our Investor Relations Department will remain continually available to shareholders in order to ensure adequate methods of receipt of shareholder sentiment.

Corporate Performance

In order to stay competitive in the industry, in 2011, we continued to invest in the business to assist us in growing revenue. Despite continued challenges in the financial services industry, including a new regulatory framework, we exceeded our financial plan in 2011. The following is a highlight of our financial performance:

Total shareholder return of 21% in 2011 placed us in the 94th percentile of regional¹ and national² banks having assets between \$4 billion and \$20 billion and in the 96th percentile of the top 100 banks and thrifts by market capitalization as of January 3, 2012.

Total shareholder return for the two-year period 2010-2011 exceeded 85% and is in at least the 95th percentile of the above-three mentioned performance groups.

Total shareholder return for the periods between 2007-2011, 2008-2011 and 2009-2011 exceeded median performance for all of the above-three mentioned performance groups.

Credit quality remains strong.

We have grown loans for 10 consecutive quarters.

¹ Regional banks include those in the Mid-Atlantic and Midwest regions as more particularly detailed in the Benchmark Section under Elements of Compensation.

² Consists of national banks as of December 31, 2010.

We maintain a solid capital position. As of December 31, 2011, we had a total risk based capital ratio of 13.3%, a tier one risk-based capital ratio of 11.7% and a leverage ratio of 9.2% each exceeding well capitalized levels under Federal Bank Regulatory Capital Requirements.

We successfully integrated the acquisition of Comm Bancorp, Inc.

In 2012, we successfully completed the acquisition and integration of Parkvale.

Corporate Governance Highlights

We maintain important corporate governance policies:

Our directors and all recipients of our Long-Term Incentive Awards, including our NEOs, are currently in compliance with a robust stock ownership policy.

Our no-hedging policy prohibits our Directors, NEOs and all employees from engaging in hedging transactions with Company stock.

Our compensation recoupment or clawback policy allows our Board to recoup any excess compensation paid to our NEOs if the Company restates its financial results upon which an award is based due to fraud, intentional misconduct or gross negligence.

Our equity awards reward performance over a four-year time horizon.

We annually conduct a risk assessment of all of our compensation plans and the Committee annually reviews the assessment to ensure the compensation programs discourage inappropriate risk taking.

Summary of Executive Compensation Actions

In 2011, we changed our annual incentive plan such that awards are based on multiple measurements.

We granted Long-Term Incentive Awards at the same level as previous years.

In 2012, in recognition of our strong annual 2011 performance, we awarded annual bonuses between each NEO's target and maximum amount.

We adopted annual incentive and long-term incentive programs in 2012 that are materially the same as our 2011 compensation programs.

Objectives and Philosophy

We seek to link the interest of shareholders and management in creating long-term shareholder value through our compensation program. We believe we will accomplish this objective and attract and retain highly motivated and talented employees by linking compensation to individual performance, and short and long-term performance. We believe our compensation program must consider the knowledge, experience and expertise of our executives and competitive pressures in the industry. We designed the program to result in an increase in total compensation when we perform above our targets and a decrease in total compensation when our performance falls below our targets. We do not believe our compensation philosophy or program reward unnecessary risk taking.

Elements of Compensation

Overview

We have divided executive compensation into five broad categories: (i) base salary, (ii) short-term annual incentive compensation, (iii) long-term incentive compensation, (iv) retirement and post-employment benefits and (v) other benefits and perquisites. We use incentive programs to reward our NEOs based upon our performance. Overall, the awards under the plans are designed to vary with position and level of responsibility,

Table of Contents

reflecting the principle that the total compensation opportunity should increase with position and responsibility while, at the same time, putting a greater percentage of each NEO's compensation at risk based on our performance.

Benchmarks

We desire our compensation programs to be competitive in the marketplace. Thus, for purposes of 2011 compensation, we compared ourselves against commercial banks with assets approximately one-half to two times our asset size, in the \$4 billion to \$18 billion range located in the Mid-Atlantic and Midwest Regions (Peer Group³) that includes the following financial institutions:

Citizens Republic Bancorp, Inc.	Fulton Financial Corporation	Susquehanna Bancshares, Inc.
Community Bank System Inc.	MB Financial, Inc.	TCF Financial Corporation
1st Source Corporation	National Penn Bancshares Inc.	UMB Financial Corp.
First Commonwealth Financial Corp.	NBT Bancorp Inc.	United Bankshares, Inc.
First Financial Bancorp.	Old National Bancorp	Valley National Bancorp
First Merchants Corporation	Park National Corporation	WesBanco, Inc.
FirstMerit Corporation	PrivateBancorp, Inc.	Wilmington Trust Corporation ⁴
First Midwest Bancorp, Inc.	Signature Bank	Wintrust Financial Corp.

For purposes of comparing base salary, annual incentives, and long-term compensation, the Committee conducts a review of its benchmarks throughout the year, with assistance from its compensation consultant, using a variety of methods such as direct analysis of proxy statements of companies in the Peer Group, as well as a review of a compilation of survey data of companies of a similar size published by several independent consulting firms and customized compensation surveys performed by independent consulting firms. At the time of setting base salary and making short and long-term compensation awards, there were the 24 organizations noted above in the Peer Group. Since our asset size increased from 2010 to 2011, at the time we set the Peer Group we determined that it was appropriate to slightly increase the upper end of the Peer Group asset size such that we would be positioned in approximately the Peer Group median. The number of companies in the Peer Group slightly increased in 2011. We believe the group is diverse and provides the necessary depth to be meaningful in setting salary and incentive goals. We believe these companies are an appropriate group against which to benchmark our compensation given their asset size compared to where we have grown and seek to grow in the future. Overall, the Committee's intention is to have base compensation near the fiftieth percentile (50%) of compensation paid by similar sized competitors for comparable positions, with an annual bonus and long-term incentive opportunity such that, if an NEO realizes the incentives, at the maximum level, his or her total compensation will be above the median and in the third quartile.

³ The Mid-Atlantic region includes Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and West Virginia. The Midwest region includes Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota and Wisconsin.

⁴ M&T Bank Corporation acquired Wilmington Trust Corporation in May 2011.

The various components of the NEOs' total compensation are detailed below.

Base Salary

Why We Pay this Component

We provide base salary to all salaried employees, including the NEOs, in order to provide them with a degree of financial certainty. Competitive base salaries further our compensation program objectives by allowing us to attract and retain talented employees by providing a fixed portion of compensation upon which all employees can rely. Base salary is the only fixed portion of our NEOs' compensation.

How We Determine the Amount

Each year the Committee reviews salaries and determines adjustments to each NEO's base salary based upon an assessment of the NEO's performance versus job responsibilities, including the impact of such performance and contributions on our financial results. We target base salary for NEOs at the median of the Peer Group. We review base salary annually and adjust it as the Committee deems appropriate. In certain cases, the Committee increases base salary in order to raise the NEO's annual salary to reflect more closely the annual salaries of comparably performing Peer Group executives.

The Committee reviewed Mr. Gurgovits' base salary in March 2011, at the same time it considered the compensation of all of our Section 16 officers except Messrs. Delie and Lilly. The Committee considered our compensation philosophy, Mr. Gurgovits' 2010 compensation, retirement benefits, experience in the industry and service with us and the consulting agreement we entered into with Mr. Gurgovits in June 2008 and our positive corporate results. Based upon these factors, the Committee increased Mr. Gurgovits' annual base salary 4% from \$772,500 to \$803,400.

As noted in our 2011 Proxy Statement, we promoted Messrs. Delie and Lilly in January 2011, and increased their salaries at that time. During the remainder of the year, we did not further increase their salaries. Thus, each of their 2011 salaries increased from \$370,800 to \$450,504 for Mr. Delie and to \$410,520 for Mr. Lilly. The Committee recognized the performance of Messrs. Delie and Lilly and the compensation of other similarly positioned officers of similar performing institutions in the Peer Group and the long-term development of our leadership group. Also in January, 2011, we promoted Mr. Williams to President of FNBPA. As Mr. Williams was not previously an NEO, we did not disclose his compensation in a previous Proxy Statement. Based on market data, the Committee set Mr. Williams' salary at \$300,000 which is below the market median. The Committee believes this is appropriate in recognition of his promotion to the position. The Committee anticipates moving Mr. Williams' salary closer to the market median as he continues his leadership of FNBPA.

In January, 2012, we named Mr. Gurgovits Chairman of the Board and promoted Mr. Delie to CEO. In conjunction with his promotion, the Committee set Mr. Delie's 2012 salary at \$525,000. The Committee reviewed CEO compensation of the Peer Group and determined it appropriate to provide Mr. Delie a base salary between the 25th and 50th percentile of the Peer Group. The Committee set his base salary at such a level to provide it the necessary flexibility to increase his salary over time to more closely approximate the Peer Group median as he further drives our performance and creates shareholder value.

The Committee reviewed the annual salaries of our other Section 16 officers in March 2011 and provided merit increases effective April 2011. The Committee reviewed each Section 16 officer's salary to determine if it was consistent with our compensation philosophy. The Committee reviewed whether each of our Section 16 officers was above or below the market median for base salary. The Committee increased Mr. Calabrese's base salary approximately 5.5% from \$275,088 to \$290,520. The Committee recognized Mr. Calabrese's salary was approximately 17% below the market median; however, since Mr. Calabrese is relatively new to the CFO position, the Committee believes it will increase his base salary in phases to more closely align with the market median.

Relation of Base Salary to Other Components of Compensation

An NEO's base salary is a reference point for the executive's annual incentive opportunities. The Committee determines the level at which each NEO participates in the annual executive incentive compensation program (EIC Plan) under the 2007 Incentive Plan (2007 Plan). This level is typically expressed as a percentage amount. For example, if an NEO participates in the EIC Plan at the 40% level, it means that the NEO's target incentive opportunity is the NEO's base salary multiplied by 40%. In addition, prior to 2007, base salary was the only component of compensation in the formula used to calculate an NEO's pension benefit accrual under the Company's Pension Plan. An NEO may also defer a portion of his or her base salary and bonus into the Company's 401(k) Plan.

Annual Incentive Awards

We intend our EIC Plan to provide additional compensation to our NEOs in the form of performance-based awards that are based on our achievement of certain financial objectives. The EIC Plan is open to each NEO and all other salaried personnel selected by the Committee based on the recommendation of our CEO.

Why We Pay this Component

We believe that a significant amount of compensation should be contingent on our performance. Our annual incentive plan focuses on increasing our earnings per share and total shareholder return which we believe are important to our shareholders. By paying a portion of the NEOs' total compensation in variable, incentive pay, we expect to drive our annual performance while increasing long-term shareholder value. Our objective is to reward our NEOs for the creation and protection of shareholder value. Annual incentive compensation is one form of such reward.

How We Determine the Amount

Philosophy

We target short-term, annual incentive compensation of the CEO and the other NEOs such that their compensation is tied directly to our performance. We measure our annual performance against three weighted target goals set by the Board: net income, revenue and efficiency ratio. We believe these performance goals are financial measures that are critical to our growth and profitability, as well as contributors to the long-term creation and preservation of shareholder value. Additionally, the Committee has discretion to consider unusual factors and their resulting effect on our performance, *i.e.* significant merger and acquisition transactions, unusual investment gains or losses, corporate and balance sheet restructuring, significant asset sales and other items it deems appropriate in determining the extent of which we achieve our target goal. Additionally, the Committee also gives consideration to peer comparisons, the prevailing economic environment and activities that create and protect longer term shareholder value. The Committee has the sole discretion to determine all annual bonuses for the CEO and other NEOs.

Table of Contents**Calculation**

Our 2011 performance goals are reflected in the table below.

Key Performance Measurement	Weight	Threshold	Target	Maximum
Net Income	70%	\$77.6 million	\$86.2 million	\$94.8 million
		(90% Budget)	(Budget)	(110% Budget)
Revenue	20%	\$411.1 million	\$432.7 million	\$454.3 million
		(95% Budget)	(Budget)	(105% Budget)
Efficiency Ratio	10%	64.3%	61.3%	58.3%
		(105% Budget)	(Budget)	(95% Budget)
Total	100%			

We calculate performance for each specific key performance measurement independently to determine the payout for that key performance measurement. The sum of the awards for each key performance measurement determines the total incentive award.

The CEO and other NEOs have an incentive opportunity expressed as a percentage of his base salary, with the possibility of achieving an incentive payout as more particularly set forth in the table below. We interpolate for performance between levels.

The payout potential for each NEO in 2011 was as follows:

Position	Below Threshold	Threshold (50%)	Target (100%)	Maximum (200%)
Stephen J. Gurgovits	0%	30%	60%	120%
Vincent J. Calabrese, Jr.	0%	20%	40%	80%
Vincent J. Delie, Jr.	0%	25%	50%	100%
Brian F. Lilly	0%	25%	50%	100%
John C. Williams, Jr.	0%	20%	40%	80%

2011 Awards

In 2011, after adjustments for unusual items, we earned \$90.4 million⁵, 105% of the target net income goal, had corporate revenue of \$434.35 million and an efficiency ratio of 60.78%, both slightly exceeding our goals noted above. The Committee deemed it appropriate to adjust upward the net income results by approximately \$3.4 million. The adjustment was predominantly due to an exclusion of merger costs of \$3.2 million and a net increase for the remaining amount due to an unanticipated reduction in revenue due to regulatory changes less a net gain resulting from a repositioning of our balance sheet. Based on our results, the formula under our EIC Plan provided for each NEO to receive 137% of his target award amount. Based upon our strong results versus our corporate goals and strong results versus our Peer Group, the Committee determined it appropriate to apply the formula and provide each NEO, except Mr. Lilly, an annual incentive bonus of 137% of the NEO's target as more particularly reflected in the Summary Compensation Table.

⁵ A reconciliation of reported net income to adjusted net income amounts is as follows (the amount represents the after tax amount in millions of dollars):

Net Income	Adjustment	Amount
As reported		\$ 87.0
	Merger-related costs	3.2

Edgar Filing: FNB CORP/FL/ - Form DEF 14A

	FHLB penalty	2.2
	Foregone revenue	0.2
	Security gains	-2.2
As adjusted		\$ 90.4

Relation of Annual Incentives to Other Components of Compensation

As noted above under the Base Salary discussion, annual incentive compensation is directly related to base compensation. Previously, we used any cash bonus paid to any participant in the defined benefit plan, including NEOs, in calculating each participant's retirement benefit. However, commencing in 2011, we have not made any additional accruals for any participant in the defined benefit plan. An NEO may also defer a portion of his or her bonus into the Company's 401(k) Plan.

Long-Term Awards

We awarded service-based and performance-based restricted stock awards to our NEOs under our 2007 Plan as more particularly stated in the Grants of Plan-Based Awards table. The restricted stock awards reward NEOs based on the Company's achievement of certain financial objectives and assists us in the retention of our key executives. The 2007 Plan is open to each NEO and all other salaried personnel selected by our CEO and the Committee for participation.

Why We Pay this Component

The Committee believes providing performance and service-based restricted stock awards is an effective means to increase long-term stock ownership by NEOs, and rewards management for creating long-term shareholder value. At the same time, placing a significant portion of an executive's compensation in stock helps mitigate excessive risk taking by focusing executives on long-term performance that aligns with shareholder interest. Based upon various factors, including our commitment to our shareholders to be a value oriented, high-dividend paying company, we currently do not award stock options. We believe continuing our compensation practice of relying on granting equity-based awards as restricted stock and restricted stock units will best align our long-term financial performance goals and objectives with our shareholders interests, and thus will be mutually beneficial.

How We Determine the Amount

We establish a target award level for each NEO based upon the officer's level of responsibility, and set the levels such that the award amount increases as the officer's level of responsibility in the organization increases. At the time of granting the awards, the Committee sets the award amount for each participant level in a manner designed to provide competitive long-term compensation. We split the award into two components, one-third as a service-based award that vests in full at the end of three years (*Service-Based Awards*) and two-thirds as a performance-based award that vests in full at the end of four years, provided we meet certain performance requirements set forth in the awards (*Performance Awards*). We believe this allocation of equity awards is appropriate since the Service-Based Awards reward NEOs for loyalty to us, encourages stock ownership and helps us retain our key executives. The Performance Awards help drive our performance while creating shareholder value by linking the shareholders' interests and the NEOs' interests in long-term success. The Service-Based Awards were granted in restricted stock and the Performance Awards in restricted stock units. If the NEO terminates employment before the cliff vesting date, other than as a result of retirement, death or disability, the NEO will forfeit both types of awards. The Committee used survey data from PMP when positioning the target long-term incentive compensation such that an award when realized by the NEO at target, as a percent of salary, would approximate the market median.

Table of Contents

Our performance-based restricted stock unit awards are designed to align management's long-term incentive compensation with our annual total shareholder return objective. In order to qualify for vesting of the awards we granted in 2011, each NEO must meet two criteria. The NEO must remain continuously employed by us from the date of the award to the vesting date and our return on average tangible equity during the performance period must equal or exceed the 25th percentile performance of peer financial institutions. If the NEOs meet the criteria, the number of performance-based restricted stock units that may vest is then contingent upon our achievement of certain performance levels compared to a group of peer financial institutions. Our performance levels are based on our earnings per share growth (75% weighting) and dividend payout ratio (25% weighting) during a four-year performance period versus a group of financial institutions that at the time we granted the awards were in the Mid-Atlantic and Midwest region and had assets between \$4 billion and \$20 billion (LTIP Performance Group)⁶. By using a larger asset size range and thereby increasing the number of financial institutions within the LTIP Performance Group, as compared to the Peer Group we used in determining 2011 compensation (24 to 32), we seek to reduce potential volatility that may result when peer financial institutions are acquired during the four-year performance period and therefore, are unavailable for measurement comparison purposes. Furthermore, we expect the larger LTIP Performance Group will provide a more meaningful comparison due to anticipated growth in our asset size over the award performance period. We target earnings per share performance in the 50th percentile of the LTIP Performance Group, with threshold performance at the 35th percentile and a maximum payout for performance at or above the 75th percentile.

Relation of Long-Term Incentive to other Components of Compensation

Long-term incentive compensation earned by the NEOs is a component of total compensation and is benchmarked against survey data provided by our compensation consultant and our Company's Peer Group. It does not impact any other component of the NEOs' compensation or benefits. However, the program is designed to increase the NEOs' overall compensation such that achievement of the performance goals will result in increased compensation.

Management Stock Ownership Policy

We maintain a Management Stock Ownership Policy that requires the CEO, the NEOs and all other participants in the long-term incentive plan, the 2007 Plan, and any successor plan to have varying levels of stock ownership based upon the officer's participation level in the plan. The policy requires participants to hold, the lesser of, a specific share amount or a number of shares equal to a specific dollar threshold that is a multiple of the participant's salary. We believe that this policy aligns management and shareholder interests. Under our policy, acceptable forms of stock ownership include:

shares owned individually and by immediate family;

⁶ The financial institutions included the following: CapitalSource, Inc., Capitol Bancorp Limited, Central Bancompany, Inc., Chemical Financial Corporation, Citizens Republic Bancorp, Inc., Commerce Bancshares, Inc., Community Bank System, Inc., 1st Source Corporation, First Commonwealth Financial Corporation, First Financial Bancorp, First Merchants Corporation, FirstMerit Corporation, First Midwest Bancorp, Inc., First National of Nebraska, Inc., Fulton Financial Corporation, MB Financial, Inc., National Penn Bancshares, Inc., NBT Bancorp, Inc., Old National Bancorp, Park National Corporation, PrivateBancorp, Inc., S&T Bancorp, Signature Bank, Susquehanna Bancshares, Inc., Taylor Capital Group, Inc., TCF Financial Corporation, UMB Financial Corporation, United Bankshares, Inc., Valley National Bancorp, WesBanco, Inc., Wilmington Trust Corporation (acquired by M&T Bank Corporation) and Wintrust Financial Corporation.

long-term stock awards, including all restricted stock and unit awards;

shares held in the 401(k) Plan; and

vested stock options.

Specific ownership guidelines for the NEOs are as follows:

Named Executive Officer	Share Value	Number of Shares
Stephen J. Gurgovits	5 x salary	250,000
Vincent J. Calabrese, Jr.	3 x salary	60,000
Vincent J. Delie, Jr.	5 x salary	250,000
Brian F. Lilly	3 x salary	100,000
John C. Williams, Jr.	3 x salary	60,000

We annually review progress toward achieving the ownership guidelines. Our NEOs are required to reach the stock ownership guidelines within five years after the later of any of the following events: commencement of participation in the long-term incentive portion of the 2007 Plan; promotion to a higher participation level; or us increasing a participant's ownership requirement. If an NEO does not hold the required share amount, the NEO will receive any future incentive awards as stock, in lieu of cash, that the participant must hold until he or she reaches the required ownership level. All of our NEOs currently meet the required stock ownership levels based on prior policies and are within the time period allotted to achieve the level required under our current stock ownership guidelines.

Retirement and Other Post-Employment Benefits

All salaried employees hired before January 1, 2008, except employees of First National Insurance Agency, LLC (FNIA), participated in our defined benefit pension plan, the Retirement Income Plan (RIP), through December 31, 2010. Effective December 31, 2010, we froze each participant's accrued benefit amount and ceased future accruals. All employees are eligible to participate in a 401(k) retirement savings plan.

Why We Pay these Benefits to Executives

In general, we have designed our retirement plans to provide NEOs and other employees with financial security after retirement. The Company's defined benefit pension plan, the RIP, offers benefits to employees that are more particularly detailed in the narrative accompanying the Pension Benefits table. Additionally, we provide matching contributions and an automatic contribution under the 401(k) Plan, for all employees, including the NEOs. However, due to Code limits on the amount of compensation that may be recognized for tax-qualified retirement plans, certain NEOs were unable to make the full amount of contributions to the 401(k) Plan and the amount of their total pay that is included in the calculation of their pension benefit is limited. Therefore, we offered the F.N.B. Corporation ERISA Excess Retirement Plan and continue to offer the F.N.B. Corporation ERISA Excess Lost Match Plan to allow any affected employee to receive the full benefit intended by the qualified retirement plans. In 2010, we amended these plans consistent with the amendments to the RIP.

In addition to those plans, we previously provided to some senior executives, including Messrs. Gurgovits and Lilly, a supplemental executive retirement plan, called the Basic Retirement Plan (BRP), which is designed to supplement the benefits provided by the RIP and the ERISA Excess Retirement Plan. The purpose of the BRP was to insure a minimum level of retirement income for the NEOs and other senior officers who participated in the plan. We closed the BRP to new participants

Table of Contents

and ceased future accruals for all participants, effective December 31, 2008. We believe post-retirement compensation is necessary to attract and retain talented executives and that our post-retirement benefits are competitive in the industry and provide NEOs with appropriate retirement benefits.

We provide severance and change in control payments through employment contracts that provide additional security for our NEOs. We determined that the continued retention of the services of the NEOs on a long-term basis fosters stability of senior management through retention of well-qualified officers. The Potential Payments Upon Termination or Change in Control tables and accompanying narrative detail the NEOs employment contracts.

How We Determine the Amount to Pay

The RIP benefit is determined by a precise formula set forth in the plan document and explained in the narrative accompanying the Pension Benefits table. The ERISA Excess Lost Match Plan and ERISA Excess Retirement Plan benefit formulas are based upon the specific opportunity or amount lost by the participant due to Code limits, and are more fully detailed in the Pension Benefits table and narrative. The benefit under the BRP is a monthly benefit equal to a target benefit percentage based on years of service at retirement and a designated tier as determined by the Committee and detailed in the narrative accompanying the Pension Benefits table. We do not grant extra years of credited service under any of our qualified or non-qualified plans. The termination and change in control benefits for NEOs were set by contract and are described more fully in the Potential Payments Upon Termination or Change in Control tables and in the narrative accompanying the Summary Compensation Table.

Relation of these Benefits to Other Components of Compensation

Retirement benefits are directly linked to the amount of the NEO's total pay, which includes base salary and annual incentive compensation. Similarly, while the NEO's termination benefits are determined under their respective employment agreements, generally, termination benefits are a product of base compensation and in the case of Messrs. Delie and Lilly, their annual bonus, if any.

Other Benefits and Perquisites

The NEOs participate in a wide array of benefit plans that are generally available to all employees of the Company, including the RIP⁷ and the 401(k) Plan. Benefits primarily consist of participation in the Company's defined benefit, defined contribution and health and welfare benefit plans. In addition, some of the NEOs receive perquisites in the form of club membership dues, a company car and other perquisites more particularly detailed as part of the Summary Compensation Table and accompanying narrative. We provide club membership dues to certain NEOs in order to provide them with the ability to entertain customers, potential customers and various business contacts, which is an integral part of our industry. Similarly, we provide certain NEOs a company car for purposes of appropriate transportation for entertainment of customers, vendors and business contacts and traveling between our facilities. These perquisites are detailed in the Summary Compensation Table. It is the Committee's policy that it will not include tax gross-ups in any new or amended employment agreements.

As set forth in the narrative accompanying the Potential Payments Upon Termination or Change in Control table, Mr. Gurgovits has entered into a post-employment agreement with the Company. Mr. Gurgovits will also receive deferred compensation under the Non-Qualified Deferred Compensation Agreement as more particularly detailed in the narrative accompanying the Pension Benefits table.

⁷ As noted in the Retirement and Other Post-Employment Benefits section, the RIP is closed to employees hired after December 31, 2007, and, effective December 31, 2010, we froze benefits for all participants.

Tax and Accounting Treatment of Compensation

Section 162(m) of the Code limits the deductibility of compensation in excess of one million dollars paid to the CEO, CFO and the three most highly compensated executive officers other than the CEO and CFO, unless such compensation qualifies as performance-based compensation. We intend for Performance Awards of restricted stock and restricted stock units and annual incentive compensation granted under our 2007 Plan to meet the performance-based compensation exception to the annual one million dollar limitation. While we are cognizant of the tax deduction limitations applicable to our compensation program for NEOs, we may set compensation levels outside the deduction limitations if we deem the amount of compensation appropriate.

In addition, Section 409A of the Code provides for a punitive tax on executives with respect to various features of deferred compensation arrangements. We have made the appropriate changes to our non-qualified retirement plans and employment agreements to help ensure there are no adverse effects on us or our executive officers as a result of Section 409A. We do not expect these changes to have a material tax or financial effect on us.

As discussed above, we have calculated and discussed with the Committee the tax impact to us and the executives of each of its cash and equity compensation awards and agreements. We also calculate and monitor the accounting expense related to equity-based compensation using the guidance of ASC (Accounting Standards Codification) Topic 718, *Compensation - Stock Compensation*.

(1) Mr. Williams became an executive officer of the Company in 2011. Therefore, we have not reported his compensation for three full years.

(2)

Edgar Filing: FNB CORP/FL/ - Form DEF 14A

Payments under the Company's annual incentive plan for 2011 are reported in the Non-Equity Incentive Plan Compensation column instead of in the Bonus column, in accordance with SEC requirements.

- (3) The restricted stock award amounts shown in this table represent the dollar amount of awards granted during the fiscal year determined pursuant to ASC Topic 718. Assumptions used in the calculation of this amount are included in Note 15 to the Company's audited financial statements for the fiscal year ended December 31, 2011, included in the Company's Annual Report on Form 10-K filed with the SEC on February 28, 2012. The restricted stock awards granted under the 2007 Plan vest either after (i) the NEO's continued employment with the Company or one of its affiliates for three years or (ii) the Company's achievement of performance goals and the NEO's continued employment with the Company or one of its affiliates for four years. Beginning in 2008, we issued Performance Awards in restricted stock units. The

Table of Contents

units earn dividend equivalents and are subject to the same restrictions and vesting schedule as the underlying restricted stock units. The amounts reflected assume that each NEO will perform the requisite service and we will achieve the required performance goals at target levels. The following table provides additional information regarding the performance-based awards granted during 2011. The target amounts have been included in the above table and are reflected below for comparative purposes:

	At Target(\$)	At Maximum(\$)
Mr. Gurgovits	406,677	711,685
Mr. Calabrese	86,672	151,676
Mr. Delie	183,334	320,835
Mr. Lilly	153,336	268,338
Mr. Williams	86,672	151,676

All restricted stock earns cash dividends that are reinvested into additional shares of our common stock under the F.N.B. Corporation Dividend Reinvestment and Direct Stock Purchase Plan (DRP). These reinvested shares are subject to the same restrictions and vesting schedule as the underlying restricted stock. The amount for Mr. Gurgovits also includes stock awards valued at \$20,026 for service as a director in 2011 that vested immediately upon grant. (See narrative under Executive Directors in the section discussing Director Compensation.)

- (4) Amount earned by the NEO as an annual incentive bonus under our EIC Plan, based upon the Company's performance. The EIC Plan is discussed in further detail in the Compensation Discussion and Analysis under the heading Annual Incentive Awards.
- (5) The amounts in this column reflect the actuarial change in the present value of the NEOs' benefit under all our pension plans determined using interest rate and mortality rate assumptions consistent with those used in our financial statements and includes amounts that the NEO may not currently be entitled to receive because such amounts are not vested. Our pension plans are described in the narrative accompanying the Pension Benefits table. In addition, the change in the present value of the accumulated benefit under the Deferred Compensation Agreement between FNBPA and Mr. Gurgovits is calculated in accordance with ASC Topic 715, *Compensation Retirement Benefits*, assuming an interest rate of 6.2% and assuming that payments will commence on January 1, 2014, and continue for nine and one-half years. We do not pay or provide above-market interest under Non-Qualified Deferred Compensation Plans.
- (6) Amounts in this column are explained in the Other Compensation Table and the Perquisites Table that follow the Summary Compensation Table.

Other Compensation Table

The following table reflects the items included in the All Other Compensation column of the Summary Compensation Table shown above.

Table of Contents**Perquisites Table**

The NEOs receive various perquisites provided by or paid for by us pursuant to our policies or individual agreements with the executive. SEC rules require disclosure of the perquisites and other personal benefits, securities or property for an NEO unless the amount of that type of compensation is less than \$10,000 in the aggregate.

The following table reflects the perquisites included in the All Other Compensation column of the Summary Compensation Table shown above:

Name	Club Dues (\$)	Company Provided	Other(2) (\$)	Total Perquisites Included in All Other Compensation (\$)
		Automobiles(1) (\$)		
Stephen J. Gurgovits	16,760	20,989	5,595	43,344
Vincent J. Calabrese, Jr.	5,498	23,491	0	28,989
Vincent J. Delie, Jr.	15,055	25,665	3,157	43,877
Brian F. Lilly	5,452	32,728	1,526	39,706
John C. Williams, Jr.	0	0	0	0

(1) The valuation of the company provided automobiles was calculated as our current year depreciation expense for the automobile plus all costs incurred related to the automobile (including, but not limited to, the cost of insurance, gas, car washes, repairs, registration and inspection fees), less our mileage reimbursement allowance for business miles driven by employees who use their own automobile for business purposes.

(2) The amounts reported as Other include personal travel expenses and the cost of an executive physical for Mr. Gurgovits, personal travel expenses and company paid parking fees for Mr. Delie and personal travel expenses for Mr. Lilly.

The foregoing Summary Compensation Table and its sub-tables do not include certain fringe benefits generally made available on a non-discriminatory basis to all of our salaried employees such as group health insurance, dental insurance, vision insurance, life insurance, accidental death and dismemberment insurance and long-term disability insurance, which we consider to be ordinary and incidental business costs and expenses.

In 2010, the Committee made a policy decision that we will not provide tax gross-ups in any new or amended employment agreements.

Mr. Gurgovits entered into an Amended and Restated Employment Agreement dated June 18, 2008 that expired when Mr. Gurgovits retired on January 2, 2009. Effective February 11, 2009, Mr. Gurgovits re-commenced service as CEO; however, he did not have an employment agreement.

Mr. Calabrese serves as our CFO and entered into his employment agreement with FNBPA on March 21, 2007, when the Board appointed him as our Principal Accounting Officer. The initial term of the agreement was for two years, and automatically extends for a one-year period on each anniversary of its commencement date unless sooner terminated. We or Mr. Calabrese may terminate the automatic renewal of the agreement by providing the other with 60 days advance written notice of non-renewal. Mr. Calabrese's contract runs through March 2013. Under the terms of the agreement, Mr. Calabrese receives a base salary that may be increased from time to time as determined by the Board. Additionally, Mr. Calabrese is eligible to participate in our annual incentive compensation and bonus plans at the discretion of the Committee. The severance and change in control provisions of Mr. Calabrese's employment agreement are described in the narrative accompanying the Potential Payments Upon Termination or Change in Control tables.

Table of Contents

Mr. Delie was President of the Company during 2011, and as noted above, we promoted him to CEO in 2012. He entered into his employment agreement with us and FNBPA on December 15, 2010. Mr. Delie's contract has an initial term of three years and, unless sooner terminated, automatically extends for one year on the anniversary of the commencement date. Either party may terminate the automatic renewal provision by providing the other party with 30 days advance written notice of non-renewal prior to the anniversary of the commencement date. Currently, Mr. Delie's employment agreement runs through December 2014. Under the terms of the agreement, Mr. Delie is entitled to receive a base salary that may be increased from time to time as determined by the Board. Additionally, Mr. Delie is eligible to participate in our annual incentive compensation and bonus plans at the discretion of the Committee. Upon Mr. Delie being elected to CEO in 2012, we increased his target award level for annual incentive compensation to 60% of his base salary. The severance and change in control provisions of Mr. Delie's employment agreement are described under Potential Payments Upon Termination or Change in Control.

Mr. Lilly served as our Vice Chairman and Chief Operating Officer. Mr. Lilly's employment agreement is dated October 17, 2007, and had an initial term of two years that extended automatically for one year on each anniversary of the commencement date. The Company terminated Mr. Lilly's employment on January 12, 2012. The severance and change in control provisions of Mr. Lilly's employment agreement are described under Potential Payments Upon Termination or Change in Control.

Mr. Williams is the President of FNBPA and entered into an employment agreement on May 6, 2009. The initial term of the agreement was two years. The contract expired by its terms on December 31, 2011, since Mr. Williams turned 65 in December 2011. The contract provided that Mr. Williams receive a base salary that the Board may increase from time to time. Mr. Williams is also eligible to participate in our annual incentive compensation and bonus plans at the discretion of the Committee. The severance and change in control provisions of Mr. Williams employment agreement are described under Potential Payments Upon Termination or Change in Control.

- (1) The amounts shown represent the threshold, target and maximum amounts to be earned by the NEO under the annual incentive compensation program based upon our performance during 2011. The amounts actually earned for 2011 were above the target and are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.
- (2) The amounts shown represent the threshold, target and maximum amounts that could be earned by the NEO under performance-based restricted stock awards granted March 16, 2011, based upon the Company's performance during the four-year performance period commencing January 1, 2011, and ending December 31, 2014, provided the NEO remains continuously employed through the March 1, 2015, vesting date. As of December 31, 2011, we believe that it is probable that we will achieve the performance conditions at or above the target level. If we meet the performance conditions, and the NEO terminates service prior to the vesting date, the program may provide partial vesting depending on the reason for termination as more particularly detailed in the Potential Payments Upon Termination or Change in Control tables. In 2011, the awards were in restricted stock units as more particularly described in the Long-Term Awards Section above.
- (3) The amount shown represents the number of shares of service-based restricted stock granted March 16, 2011, which will vest if the NEO remains continuously employed until the January 16, 2014, vesting date.
- (4) The amount shown represents the grant date fair value as determined under ASC Topic 718 of all service-based restricted stock awards, and all performance-based restricted stock awards, assuming payout at target levels, granted in 2011.

Participants who terminate service prior to year end are not eligible for annual incentive compensation under the program. In the event of death, disability or retirement (i.e., age 55 with five years of service) during the year or before we make payment of the annual incentive award amount, the Committee may approve a discretionary pro-rata award. The program provides for payment in the case of a change in control as more particularly detailed in the Potential Payments Upon Termination or Change in Control tables.

The NEO has full voting rights with respect to the restricted shares. In addition, the NEO has full cash and stock dividend rights with respect to the restricted shares; provided that (i) all such dividends shall be credited to the NEO's account in the DRP and, in the case of cash dividends, used to purchase shares pursuant to the DRP; and (ii) all shares credited to the NEO's account as a result of such cash or stock dividends shall be subject to the same restrictions and risk of forfeiture as the underlying restricted shares. In 2011, we issued Performance Awards in the form of restricted stock units. The units earn dividend equivalents and are subject to the same

Table of Contents

restrictions and vesting schedule as the underlying restricted stock units. The program allows for accelerated or pro-rated vesting of the stock units in the case of death, disability, retirement, or change in control as more particularly detailed in the Potential Payments Upon Termination or Change in Control tables.

There are 3,310,668 shares remaining, available for awards under the 2007 Plan, which represent 2.6% of our outstanding shares of common stock.

- (1) All awards were made under the 2007 Plan, the 2001 Plan or the F.N.B. Corporation 1998 Director Stock Option Plan (collectively referred to as the Incentive Plans).
- (2) Options may be granted under the Incentive Plans with up to a ten-year expiration date and with a strike price of no less than 100% of the closing sales price of our common stock on the NYSE on the business day preceding the award date. Options cannot be transferred or assigned by a participant under the Incentive Plans, other than by will or pursuant to the laws of succession. We have not issued stock options for any year reported in the Summary Compensation Table.
- (3) Stock Awards are shares of common stock awarded under the Incentive Plans subject to a restriction period and/or satisfaction of one or more performance-based criteria, as determined by the Committee. Unless otherwise determined by the Committee, if a participant terminates employment with us or our subsidiaries for a reason other than retirement, disability, death or change in control, as detailed in the Potential Payments Upon Termination or Change in Control tables, before the expiration of the applicable restriction period, the participant will forfeit any restricted shares or units that are still subject to a restriction. When restricted stock or units vest, the participant recognizes ordinary income on the then market value of the shares, and we receive a tax deduction in that same amount.
- (4) All outstanding stock options are 100% vested.

- (5) Restricted stock shares in this column consist of all service-based restricted shares outstanding and performance-based restricted stock awards that will vest if the NEO remains employed on the vesting date because we already have met the performance thresholds. Except the shares for Mr. Lilly, which Mr. Lilly forfeited upon his termination of employment, these restricted stock shares vested or are scheduled to vest as follows:

Vesting Date	Mr. Gurgovits	Mr. Calabrese	Mr. Delie	Mr. Lilly	Mr. Williams
January 16, 2012	24,368	6,176	11,175	11,726	3,315
January 16, 2013	43,732	9,893	17,937	18,292	3,238
January 16, 2014	20,931	4,462	9,437	7,893	4,462

- (6) Restricted stock shares in this column are reported assuming that the Company will achieve its performance goals at maximum for the 2009 and 2011 performance-based awards and assuming that the Company will achieve its performance goals between target and maximum for the 2010 performance-based awards. Based on that assumption, these restricted stock shares are scheduled to vest as follows (except the shares for Mr. Lilly, which Mr. Lilly forfeited upon his termination of employment):

Vesting Date	Mr. Gurgovits	Mr. Calabrese	Mr. Delie	Mr. Lilly	Mr. Williams
March 1, 2013	91,378	21,338	39,609	41,039	11,599

- (1) Messrs. Calabrese and Delie do not participate in the BRP.
- (2) Mr. Williams does not participate in the RIP, BRP or F.N.B. Corporation ERISA Excess Retirement Plan (the Excess Plan) as we froze these plans to new participants before Mr. Williams commenced employment with us.
- (3) Our pension plans do not provide credit for additional years of service to any of the NEOs.
- (4) For the RIP, the Excess Plan and the BRP, the present value of accumulated benefits reflected above were determined using the same assumptions as used for the December 31, 2011, financial statement disclosures, except assuming retirement at the normal retirement age, 65. We have assumed a discount rate of 4.45% for the RIP and 4.00% for the BRP and the Excess Plan and the RP-2000 Projected to 2014 Mortality table (gender distinct) for post-retirement mortality. The present value of the accumulated benefit under the Deferred Compensation Agreement between FNBPA and Mr. Gurgovits is calculated in accordance with ASC Topic 715, *Compensation-Retirement Benefits* assuming an interest rate of 6.20% and assuming that payments will commence on January 1, 2014, and will continue for nine and one-half years. The present value reported above is reflected as an accrued liability in the financial statements of FNBPA as of December 31, 2011.

The following is a summary of our qualified and non-qualified plans mentioned in the Pension Benefits table:

Retirement Income Plan

Edgar Filing: FNB CORP/FL/ - Form DEF 14A

The RIP is a traditional defined benefit plan qualified under the Code and subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA). In 2010, we froze the plan such that the participants will not receive any future accruals after December 31, 2010. Until 2008, the RIP was available to all salaried employees, except FNIA employees. In 2007, we closed the RIP to employees who commenced employment with us or our affiliates on or after January 1, 2008. The RIP provides for benefit payments in the form of a lifetime annuity with five years guaranteed and provides the participant with the ability to select from several choices for the form of the annuity. The election that the participant chooses may affect the amount of the annual benefit as reflected in the Pension Benefits table. Effective January 1, 2007, we amended the plan such that the benefit is calculated in two pieces. First, for the period worked by a participant prior to January 1, 2007, (Pre-2007 Benefit) the annual annuity benefit is payable without reduction to participants with five years of service who retire after age 62 and is calculated by multiplying each participant's final average base salary by 1.2% plus, if appropriate, 0.5% of the participant's final average base salary that is in excess of covered

Table of Contents

compensation (as defined in Section 401(1)(5)(E) of the Code), with the sum being multiplied by the participant's years of credited service, not to exceed 25 years including service through December 31, 2006. A participant's final average base salary is calculated using the highest 60 consecutive months of base salary, not including incentive compensation, within the last 120 months of the participant's service with us or our affiliates prior to January 1, 2007. The Pre-2007 Benefit was frozen as of December 31, 2006. Beginning in 2007, we calculated each participant's benefit by adding the Pre-2007 Benefit to the benefit determined under the post-2007 formula detailed below. For 2007 through 2010 (Post-2007 Benefit), we calculated each participant's annual retirement benefit by taking the participant's total pay earned from January 1, 2007, through December 31, 2010, and multiplying it by 1%. The benefit earned after 2007 is payable without reduction to participants who retire on or after age 65. The RIP provides for cliff vesting after five years of employment. On December 31, 2011, Mr. Gurgovits was eligible to retire immediately and receive an unreduced benefit since he was over age 65. The RIP provides for an early commencement reduction factor that decreases as the participant's age approaches the normal retirement age of 62 for the Pre-2007 Benefit and 65 for the Post-2007 Benefit. The early reduction factor is multiplied by the participant's benefit as determined by the RIP to arrive at the reduced benefit.

ERISA Excess Retirement Plan

The Excess Plan is a non-qualified plan under ERISA and is available to all participants of the RIP. Because Mr. Gurgovits originally retired in 2009, he commenced receiving benefits in August 2009, and continues to receive a monthly payment under the plan. As noted earlier, Mr. Gurgovits re-commenced service as CEO later in 2009. In 2012, Mr. Gurgovits again retired; therefore, due to his additional service, we will re-calculate and adjust his benefit. The Excess Plan provides retirement benefits equal to the difference, if any, between the maximum benefit allowable under the Code and the amount that would be provided under the RIP formula if the Code did not impose limits on the amount of compensation included for purposes of calculating a qualified plan benefit. The Excess Plan provides the full amount of benefit that would have been paid under the formula of the RIP but for the Code limits, reduced by the amount of benefit that is actually provided by the RIP. The participant's rights to benefits under the Excess Plan cliff vest at 100% if the participant terminates service due to death, after a change in control (as defined in the Excess Plan), or upon retirement on or after reaching age 55 with five years of service. Benefits are payable either in an annuity or lump sum depending upon the reason for termination, with payments commencing the first day of the month following six months after the participant separates from service. In 2010, we amended the plan to cease all future accruals as of December 31, 2010.

Basic Retirement Plan

The BRP is a separate supplemental executive retirement benefit plan, applicable to some of our NEOs who were designated by the Committee. Effective December 31, 2008, we amended the BRP such that there will not be any new participants in the plan and no additional accruals for existing participants. Officers participating in the BRP receive a benefit based on a target benefit percentage that is based on the officer's years of service at retirement. The target percentages are based upon the tier assigned to the participant by the Committee. The tier percentages are as follows: Tier 1, 3.00% for each of the first ten years of employment, plus 1.50% for the next ten years of employment, plus 0.75% for the next ten years of employment; Tier 2, 3.50% for each of the first ten years of employment, plus 2.00% for the next ten years of employment, plus 0.75% for the next ten years of employment. Prior to 2005, there was also a CEO Tier that provided the following target percentages: 4.00% for each of the first ten years of employment, plus 2.50% for the next ten years of employment, plus 1.00% for the next five years of employment. Mr. Gurgovits participated in the BRP at this level.

When a participant retires, the benefit under the BRP is a monthly benefit equal to the participant's aggregate target benefit percentage multiplied by the participant's highest average monthly cash compensation including bonuses during five consecutive calendar years within the last ten calendar years of employment before 2009. This monthly benefit is reduced by the monthly benefit the participant receives from the Social Security

Administration, the RIP, the Excess Plan, and the annuity equivalent of the automatic contributions to the 401(k) and Lost Match Plans that are provided to all participants who remain employed on December 31st of the applicable year or retired during the year.

The participant's rights to benefits under the BRP vest at 100% if the participant terminates service due to death, disability, after a change in control (as defined in the BRP), or normal retirement (age 65). The BRP contains a provision for reducing the basic benefit if the participant retires prior to normal retirement but on or after early retirement (age 55 with five years of service). A participant forfeits benefits in the event the participant's employment is terminated for cause or a participant terminated employment prior to early retirement.

Similar to the Excess Plan, since Mr. Gurgovits had additional service after his retirement in 2009, we will re-calculate and adjust his benefit, if appropriate.

In addition to the above referenced plans, the Pension Benefits table shows an accumulated benefit for Mr. Gurgovits under a non-qualified deferred compensation agreement. Our Board and the board of directors of FNBPA entered into a Deferred Compensation Agreement with Mr. Gurgovits on January 1, 1986. The Deferred Compensation Agreement provides for payments of annual deferred benefits for a period of ten years commencing upon: (i) retirement from us or FNBPA upon reaching the age of 62; (ii) complete and total disability; or (iii) the death of Mr. Gurgovits in the event such death occurs prior to retirement. During 2005, Mr. Gurgovits, intending to delay his retirement until age 65, elected to defer payments for an additional three years. On December 31, 2008, we and Mr. Gurgovits signed an amendment to the deferred compensation agreement to provide that we will commence payments beginning January 1, 2014, and continuing such on a monthly basis over a nine and one-half year period.

Non-Qualified Deferred Compensation

The following table contains information concerning the non-qualified deferred compensation plan account balances for each NEO for 2011. All contributions are under the ERISA Excess Lost Match Plan or a predecessor plan, as described below.

- (1) Note that the amount of our contributions is also included in the All Other Compensation column of the Summary Compensation Table. These contributions are not in addition to the amount reported there.
- (2) This plan does not provide for above-market interest.
- (3) Our contributions during each fiscal year have historically been reported in the Summary Compensation Table for each year in which the NEO was considered such, and aggregate earnings during the fiscal year have been historically excluded from the Summary Compensation Table. Additionally, the amounts reflected represent the NEO's entire balance under this plan which is fully vested.

The amounts reflected in the Non-Qualified Deferred Compensation table were contributed to accounts for the NEOs under the ERISA Excess Lost Match Plan or a predecessor plan. The ERISA Excess Lost Match Plan provides for Company contributions, equal to the difference, if any, between the maximum benefit allowable under the Code and the amount that would be provided under the 401(k) Plan if the IRS did not impose contribution or pay limitations. Under the ERISA Excess Lost Match Plan, the amount credited to the participant's account accrues interest at the rate set by FNBPA as its highest interest rate on the first day of the year on the longest term IRA account that it offers. The benefit is then paid as a single lump sum on the first of the month following six months after the participant terminates employment.

Except for Mr. Gurgovits, the amounts contributed to each participant's account are solely based upon the ERISA Excess Lost Match Plan. The amounts noted for Mr. Gurgovits also include amounts for periods prior to January 1, 2003, when the ERISA Excess Lost Match Plan first became effective. Until 2003, the Company's BRP contained provisions similar to the ERISA Excess Lost Match Plan. Mr. Gurgovits' participant account reflects amounts accrued under the ERISA Excess Lost Match Plan and the BRP. Until October 17, 2002, the BRP provisions determined the cumulative value in a participant's account as though the amounts were invested in shares of our common stock based upon the price at the time we credited the participant's account plus an amount equal to dividends that would be payable on such shares. After October 17, 2002, additional accruals in a participant's account were based on the actual amount which the participant lost due to Code provisions plus the highest interest rate equal to the amount which FNBPA paid on the first business day of the year on its longest term IRA accounts. Notwithstanding the accrual methodology prior to October 17, 2002, all amounts distributed under the prior plan are in cash.

We also maintain a deferred compensation plan known as the F.N.B. Corporation Non-Qualified Deferred Compensation Plan (the Deferred Compensation Plan). The Committee may select a group of management employees to participate in the plan. The Deferred Compensation Plan provides participants the ability to defer into the plan a portion of his or her annual cash compensation, including 50% of base salary and 100% of any annual incentive compensation he or she would otherwise receive to help postpone and minimize taxes while accumulating capital on a pre-tax basis until termination of employment. A participant may elect to defer his or her compensation into a fixed interest rate option, with the interest rate determined by the Committee. Currently, there are no participants in the Deferred Compensation Plan.

Potential Payments Upon Termination or Change in Control

Our NEOs, except Mr. Gurgovits, are each a party to an employment agreement that provides for certain salary and benefits upon termination of employment under various scenarios. The agreements are all described more fully in the narrative and tables below. The tables below set forth the estimated current value of benefits that could be paid to each of our NEOs upon various termination events that will only be known at the time that the benefits become payable. The tables reflect the amounts that could be payable under the various arrangements if the event in question occurred as of December 31, 2011, including for Mr. Lilly, a gross-up for certain taxes in the event that any payments made in connection with a change in control would be subject to the excise tax imposed by Section 4999 of the Code. The NEOs' employment agreements do not provide for any additional payments or benefits in the event of a voluntary termination of employment by the executive without good reason or an involuntary termination by us for cause. Under those scenarios, the NEOs are only entitled to their accrued and unpaid obligations, such as salary, unused vacation, and vested benefits. The following tables contain common information about our qualified and non-qualified plans and policies, as well as assumptions used by us in arriving at the amounts contained in the tables. To the extent the information is common it is contained in the endnotes to the Potential Payments Upon Termination or Change in Control tables and is indicated by letters.
