## Key figures Q2 and first six months of fiscal 2012<sup>1,2</sup>

- 1 New orders; Adjusted or organic growth rates of revenue and new orders; Total Sectors profit; ROCE (adjusted); Free cash flow and cash conversion rate; Adjusted EBITDA; Net debt and adjusted industrial net debt are or may be non-GAAP financial measures. Definitions of these supplemental financial measures, a discussion of the most directly comparable IFRS financial measures, information regarding the usefulness of Siemens' supplemental financial measures, the limitations associated with these measures and reconciliations to the most comparable IFRS financial measures are available on our Investor Relations website under [www.siemens.com/nonGAAP](http://www.siemens.com/nonGAAP)
- 2 January 1 – March 31, 2012 and October 1, 2011 – March 31, 2012.
- 3 Adjusted for portfolio and currency translation effects.
- 4 Basic earnings per share – attributable to shareholders of Siemens AG. For fiscal 2012 and 2011 weighted average shares outstanding (basic) (in thousands) for the second quarter amounted to 877,749 and 873,161 and for the first six months to 876,585 and 872,177 shares, respectively.
- 5 Discontinued operations primarily consist of OSRAM, Siemens IT Solutions and Services, the former Communication activities and Siemens VDO Automotive.
- 6 Calculated by dividing adjusted industrial net debt as of March 31, 2012 and 2011 by annualized adjusted EBITDA.
- 7 Continuing and discontinued operations.

## Earnings Release Q2 2012

January 1 to March 31, 2012

Munich, Germany, April 25, 2012

### Broad-Based Revenue Growth Continues

NSN restructuring and Transmission charges burden income

**Peter Löscher, President and Chief Executive Officer of Siemens AG**

As expected, the second quarter was not easy. While we achieved clear growth in revenue, orders came in below the prior year due to lower volume from large orders. For fiscal 2012, we are on course to achieve our goals for revenue and orders. Profit for the quarter was below our expectation due to charges at power transmission projects in Germany. We are addressing the problems systematically.

### Financial Highlights:

Revenue for the second quarter rose 9% year-over-year, to 19.297 billion, including increases in all Sectors and reporting regions as well as 11% growth in emerging markets.

Orders came in at 17.880 billion, 13% below the prior-year period which included a significantly higher volume from large orders, particularly in emerging markets. The book-to-bill ratio for the quarter was 0.93, and the order backlog was 100 billion.

Total Sectors profit was 1.929 billion, a strong increase from the first quarter of fiscal 2012 but well below the prior-year period which benefited from a 1.520 billion gain from the divestment of Siemens stake in Areva NP (Areva). Total Sectors profit in the current period included charges of 278 million in the power transmission business.

Income from continuing operations was 1.053 billion, held back by an equity investment loss of 640 million resulting from restructuring at Nokia Siemens Networks B.V. (NSN). In contrast, the prior-year period benefited from the Areva gain mentioned above.

Free cash flow from continuing operations was up year-over-year, at 446 million, on higher cash flows in the Sectors.

## Orders and Revenue

### Strong backlog drives continued revenue growth

Revenue grew 9% in the second quarter, including increases in all Sectors and in all three regions supported by Siemens' strong order backlog. Orders came in 13% lower, due primarily to significantly lower volume from large orders compared to the prior-year period. On an organic basis, excluding currency translation and portfolio effects, revenue rose 7% and orders declined 16%. The backlog (defined as the sum of the order backlogs of the Sectors) was 100 billion at the end of the quarter.

### Revenue rises in all Sectors and regions

All Sectors delivered revenue growth in the second quarter. Energy led with double-digit growth, supported by its strong order backlog. Industry and Healthcare generated clear increases on broad-based growth across their businesses, and Infrastructure & Cities contributed a solid increase.

On a geographic basis, revenue rose in all three reporting regions led by the Americas. The region comprising Europe, the Commonwealth of Independent States, Africa and the Middle East (Europe/CAME) and Asia, Australia both posted solid increases. Emerging markets on a global basis grew faster than revenue overall, at 11% year-over-year, and accounted for 6.168 billion, or 32%, of total revenue for the quarter.

### Lower volume from large orders in Energy

At the Sector level, the decline in orders was due primarily to Energy, which had a significantly lower volume from large orders in Germany. Infrastructure & Cities also recorded lower orders, while orders rose in Healthcare and Industry.

On a geographic basis, lower order intake was most evident in Germany and emerging markets. Notable examples included a sharp drop in India and a less severe decline in China. Globally, orders in emerging markets accounted for 5.483 billion, or 31%, of total orders for the quarter.

## Income and Profit

### Sector profit burdened by charges

Total Sectors profit declined to 1.929 billion, from 3.695 billion a year earlier. The main factor was Energy, which took project charges of 278 million in its power transmission business related primarily to grid connections to offshore wind-farms in Germany. In contrast, the prior-year period benefited from a 1.520 billion pretax gain on the sale of Energy's stake in Areva. As a result, second-quarter profit at Energy came in at 573 million compared to 2.369 billion a year earlier.

Industry led all Sectors with profit of 662 million, up from 630 million a year earlier. Infrastructure & Cities also increased its profit year-over-year, to 270 million. Healthcare's contribution to Total Sectors profit was lower year-over-year, at 424 million, including a strong earnings performance in the imaging and therapy systems business. The decline was due mainly to charges related to Healthcare's Agenda 2013 initiative.

### NSN restructuring impacts income

Income from continuing operations was 1.053 billion, down from 3.174 billion a year earlier, and corresponding basic EPS declined to 1.16 compared to 3.58 a year earlier. The difference was due mainly to lower Total Sectors profit. Equity Investments recorded a loss of 594 million due primarily to a substantially larger equity investment loss from Siemens' share in NSN. This was only partly offset by positive results in Corporate items.

### Lower loss from discontinued operations

Net income was 1.015 billion compared to 2.836 billion a year earlier. Corresponding basic EPS declined to 1.12 compared to 3.20 a year earlier. The primary factor in the change is lower income from continuing operations as described above. Discontinued operations posted a loss of 38 million due mainly to the previously announced settlement related to Greece which burdened income by 142 million pretax. For comparison, the loss of 338 million within discontinued operations in the prior-year period included a loss of 345 million related to Siemens IT Solutions and Services (SIS). In the current period results from discontinued operations related to SIS was a positive 43 million. Income from discontinued operations attributable to OSRAM declined to 28 million compared to 87 million a year earlier, due primarily to previously announced measures to reduce its capacities for traditional lighting products and to lower operating results. These factors more than offset positive effects from cessation of depreciation. OSRAM reported an 8% revenue increase compared to the second quarter a year earlier, and a 2% growth on an organic basis.

## Cash, Return on Capital Employed (ROCE), Pension Funded Status

### Higher free cash flow at Sector level

Free cash flow from continuing operations rose to 446 million from 354 million in the second quarter a year earlier. The increase was due mainly to higher cash inflows at the Sector level driven by an increase in Infrastructure & Cities. For comparison, the prior-year period included higher cash outflows in connection with personnel-related expenses comprising the previously disclosed special remuneration for non-management employees.

Free cash flow from discontinued operations was a negative 8 million, up from a negative 416 million in the prior-year quarter. The change year-over-year was due primarily to two factors. Cash outflows related to SIS were lower compared to the prior-year period, which included higher payments in connection with the establishing of SIS as a separate legal group. In addition, the current period included cash inflows relating to OSRAM, compared to cash outflows in the prior-year period.

### Pension plan underfunding increases

The estimated underfunding of Siemens pension plans (continuing operations) as of March 31, 2012 amounted to approximately 6.5 billion, compared to an underfunding of approximately 5.7 billion at the end of the first quarter. A positive actual return on plan assets and employer contributions partly offset a significant increase in Siemens defined benefit obligation (DBO). The DBO rose due to a decrease in the discount rate assumption as of March 31, 2012 and accrued service and interest costs. As of September 30, 2011, pension plan underfunding amounted to 6.2 billion.

## Energy Sector

### Strong revenue growth, additional burdens on profit

**Energy** Sector profit was 573 million in the second quarter, including another strong earnings performance from Fossil Power Generation. Sector profit was held back by project charges totaling 278 million in the transmission business. In addition, Energy increased its expenses for R&D, marketing and selling associated with business expansion. For comparison, profit of 2.369 billion in the prior-year period benefited from the 1.520 billion Areva gain mentioned earlier.

Second-quarter revenue was up 13% year-over-year, as the Sector continued to convert its large order backlog into current business. Revenue rose in all three reporting regions, including a substantial increase in Asia, Australia. Orders came in 32% lower compared to the prior-year period, when the Sector recorded a much larger volume from major orders. This comparison effect was particularly notable in Europe/CAME, where the prior-year period included a particularly large contract for a combined-cycle power plant in Saudi Arabia and orders for three offshore wind-farms in Germany. Due to significantly lower volume from large orders in the current quarter, the book-to-bill ratio was 0.84 and the Sector's order backlog was 56 billion at the end of the quarter. While Energy expects its market environment to remain highly competitive, the Sector expects a book-to-bill ratio above one for the full fiscal year.

### Profit again on a high level supported by strong backlog

**Fossil Power Generation** delivered 501 million in profit, including increased R&D, marketing and selling expenses associated with growth. The service business maintained its strong contribution to profit development. For comparison, profit in the same period a year earlier benefited from the 1.520 billion Areva gain mentioned above and a more favorable project mix in the component business, only partly offset by charges of 87 million related to the Olkiluoto project in Finland. Revenue for the second quarter rose 13% year-over-year on conversion from a strong order backlog, especially in the solutions business. On a geographic basis, strong double-digit percentage increases in Asia, Australia and the Americas more than offset a modest decline in Europe/CAME. Orders declined 20% compared to the prior-year period, when a higher volume from large orders included the contract in Saudi Arabia mentioned above. This comparison effect led to a substantial decline in orders year-over-year for Europe/CAME, more than offsetting increases in other regions.

### Continued revenue growth, strong profit contribution

The **Renewable Energy** business, which includes Siemens Wind Power and Solar & Hydro Divisions, took its profit up sharply compared to the prior-year period, to 112 million.

Volume-driven earnings growth more than offset higher expenses for R&D, marketing and selling associated with expansion. The wind business also drove revenue and order development for Renewable Energy. Revenue rose sharply, due to conversion of large orders from prior periods into current business. The current quarter included a lower volume from large orders, while the prior-year period included the three large wind-farm orders mentioned above in Europe/CAME. As a result, second-quarter orders overall were down sharply year-over-year. Challenging

market conditions in renewable energy, including pricing pressure, are expected to continue in coming quarters.

#### Increased profit contribution

Second-quarter profit at **Oil & Gas** was up year-over-year, at 131 million, despite higher marketing and selling expenses associated with growth. Revenue rose 14% due primarily to increases in Asia, Australia. Orders declined 15%, with lower orders in Asia, Australia and the Americas offsetting growth in Europe/CAME.

#### Project charges and pricing pressure lead to loss

**Power Transmission** experienced continuing challenges in the second quarter and reported a loss of 169 million. The Division took additional charges of 278 million related primarily to grid connections to offshore wind-farms in Germany, resulting from revised estimates of required resources and personnel as well as delays associated with the projects' complex marine and regulatory environment. The revenue mix for the quarter was clearly less favorable year-over-year, due in part to low-margin orders booked during prior periods with significant pricing pressure. These factors were only partly offset by the release of a provision of 64 million related to a successful project completion. For comparison, second-quarter profit a year ago included charges of 41 million associated with optimizing the Division's global manufacturing footprint. Revenue for the current quarter was down 5% and orders came in 24% lower compared to the prior-year period, which included a higher volume from large orders. Power Transmission expects continuing challenges in coming quarters including the grid-connection projects mentioned above and structural issues in certain businesses.

## Healthcare Sector

### Broad-based growth, strong operational performance

Healthcare delivered 424 million in profit in the second quarter, led by a strong earnings performance in the imaging and therapy systems business. Profit came in lower compared to the same quarter a year earlier, primarily due to 38 million in charges the Sector took related to its Agenda 2013 initiative aimed at improving its competitive position and expanding its capacity for innovation. Healthcare expects additional charges related to Agenda 2013 in coming quarters.

Diagnostics took 20 million of the Agenda 2013 charges, related primarily to improving its cost position. As a result, its profit came in at 67 million compared to 86 million in the second quarter a year earlier. Purchase price allocation (PPA) effects related to past acquisitions at Diagnostics were 43 million in the second quarter. A year earlier, Diagnostics recorded 42 million in PPA effects.

Healthcare revenue rose 8% compared to the prior-year period, on broad-based growth across its businesses. Orders were up 4%, with most businesses contributing increases. Reported growth benefited from currency translation effects amounting to 3 percentage points for both revenue and orders. On a regional basis, Asia, Australia showed double-digit increases for

both revenue and orders, highlighted by substantial growth in China. The Americas region showed clear growth for revenue and a slight decline in orders. Both revenue and orders were stable in Europe/CAME. The book-to-bill ratio was 0.97, and Healthcare's order backlog was 7 billion at the end of the quarter.

The Diagnostics business contributed to revenue and order growth in the second quarter. Revenue rose to 976 million and orders increased to 979 million, from 924 million and 918 million, respectively, in the prior-year period. Diagnostics showed the same development as the Sector with regard to currency translations effects. On a geographic basis, Asia, Australia drove revenue and order growth including double-digit increases in China.

## Industry Sector

### Strong short-cycle businesses

#### deliver revenue and profit growth

In a robust business environment, **Industry** took its second-quarter profit up 5%, to 662 million. Strong performances in the Sector's short-cycle businesses more than offset higher expenses for R&D, marketing and selling for innovation and growth initiatives. The contribution from the Sector's renewable energy offerings was held back by ongoing market challenges. Industry revenue climbed 9%, including increases across the Sector's businesses. On a regional basis, Industry generated substantial revenue growth in the Americas and clear growth in Europe/CAME. Orders were up slightly year-over-year, with solid growth in Europe/CAME more than offsetting a decline in Asia, Australia. The Sector's book-to-bill ratio was 1.01 and its order backlog was 12 billion at the end of the quarter.

### Double-digit revenue

### and profit growth

**Industry Automation** took its second-quarter profit up to 335 million, even after higher expenses year-over-year for R&D, marketing and selling associated with growth. Strong, broad-based demand resulted in double-digit revenue growth and 8% order growth, including increases in all three reporting regions. PPA effects related to the fiscal 2007 acquisition of UGS Corp. were 36 million in the current period and 35 million in the same quarter a year earlier.

### Revenue climbs,

### takes profit up

Second-quarter profit at **Drive Technologies** rose slightly year-over-year, to 279 million. The Division increased its R&D, marketing and selling expenses associated with innovation and growth. The contribution from the Division's renewable energy offerings was held back by ongoing market challenges, particularly in the wind business. Revenue rose 9% for the quarter, with contributions from across the Division's businesses. Orders were level compared to the prior-year period. On a regional basis, revenue and orders increased in Europe/CAME and the Americas but declined in Asia, Australia.

## Infrastructure & Cities Sector

### Revenue growth

### drives higher profit

The **Infrastructure & Cities** Sector increased second-quarter profit by 10% year-over-year, driven by the Power Grid Solutions & Products business. Revenue rose 6% for the quarter, on strong growth at Power Grid Solutions & Products and Building Technologies. On a regional basis, revenue increases in the Americas and Europe/CAME more than offset a decline in Asia/Australia. Orders came in 6% below the prior-year period, which included a higher volume from large orders in the Transportation & Logistics business. This comparison effect was notable in regional results, with Asia/Australia posting substantially lower orders year-over-year. The Sector's book-to-bill ratio was 0.92 and its order backlog at the end of the quarter was \$24 billion.

### Profit declines on lower revenue

The **Transportation & Logistics** business, which includes Siemens Rail Systems Division and its Mobility and Logistics Division, posted profit for the second quarter of 75 million. The decline compared to the prior-year period was due in part to slightly lower revenue. In addition, earnings began to include the effect of lower margins

associated with large, long-term contracts from prior periods, which are now being converted to current business. As noted above, the current period included a lower volume from large orders, and as a result orders overall came in substantially below the prior-year level, particularly in Asia, Australia.

### Double-digit growth

#### takes profit higher

The **Power Grid Solutions & Products** business includes Siemens Low and Medium Voltage Division and its Smart Grid Division. Profit for the second quarter rose to 101 million, in part due to higher revenue. In addition, improved earnings in low and medium voltage activities more than offset higher expenses for smart grid growth initiatives. Second-quarter orders rose 10% year-over-year. On a regional basis, both revenue and orders grew in all three reporting regions compared to the same period a year earlier.

### Higher revenue and

#### orders, stable profit

Second-quarter profit increased slightly to 77 million at **Building Technologies**, held back by higher expenses partially associated with growth initiatives. Revenue rose 9% and orders increased 7% compared to the prior-year period, driven in part by demand for the Division's energy efficiency solutions. On a geographic basis, both revenue and orders grew in all three reporting regions compared to the same period a year earlier.

## Equity Investments and Financial Services

### NSN charges impact

#### Equity Investments

**Equity Investments** recorded a loss of 594 million in the second quarter, compared to a profit of 23 million a year earlier. That prior period benefited from a gain of 91 million from the sale of Siemens' 49% stake in Krauss-Maffei Wegmann GmbH & Co. KG. The loss in the current period was due mainly to the equity investment result related to Siemens' share in NSN,

which was a negative 640 million compared to a negative 107 million in the prior-year period. NSN previously announced a global restructuring program aimed at maintaining its long-term competitiveness and improving profitability. NSN reported to Siemens that it booked restructuring charges and associated items totaling 772 million in the current quarter,

compared to charges of 28 million in the same period a year earlier. Due to the nature of the restructuring program as well as prevailing uncertainty in macroeconomic conditions, the amount and timing of improvements in profitability is uncertain. Therefore, results from Equity Investments are expected to be volatile in coming quarters.

### Profit burdens hold back

#### results at Financial Services

**Financial Services (SFS)** continued to successfully execute its growth strategy, which has led to a substantial build-up in assets since the beginning of the fiscal year. The associated increase in operating expenses held back profit development in the second

quarter. The current period also included burdens on profit related to certain activities in the U.S. As a result, profit (defined as income before income taxes) came in at 74 million compared to 114 million in the prior-year period. Total assets increased

clearly from 14.602 billion at the end of the prior fiscal year to 16.031 billion at the end of the second quarter, including positive currency translation effects.

## Corporate Items, Corporate Activities and Eliminations

### Positive effects in Corporate items

**Corporate items and pensions** totaled a positive 105 million in the second quarter compared to a negative 62 million in the same period a year earlier. The difference was due primarily to Corporate items, which were a positive 106 million compared to a negative 81 million in the second quarter of fiscal 2011. The improvement is due mainly to positive effects totaling 95 million related to legal and regulatory matters, compared to net expenses related to legal and regulatory matters in the prior-year period. The current quarter includes expenses of 23 million related to previously announced reimbursements to Atos S.A. Both periods under review included positive effects related to a major asset retirement obligation, amounting to 28 million in the current period and 20 million in the prior-year period.

### Improved results from Corporate Treasury activities

Income before income taxes from **Eliminations, Corporate Treasury and other reconciling items** was a negative 22 million in the second quarter compared to a negative 43 million in the same period a year earlier. The primary factor in the improvement was higher income from Corporate Treasury activities due mainly to changes in the fair market value of interest rate derivatives not qualifying for hedge accounting used for interest rate management. For comparison, the prior-year period included positive effects related to the divestment of financial assets.

## Outlook

For fiscal 2012 we confirm our expectations of moderate organic revenue growth compared to fiscal 2011, and orders again exceeding revenues for a book-to-bill above 1. We continue to anticipate strong earnings performances in most of our businesses, including our industrial short-cycle businesses. Challenges, mostly in our power transmission business, impact the level of income from continuing operations we originally expected to achieve in fiscal 2012, 6.0 billion, by an estimated 0.6 to 0.8 billion.

This outlook excludes significant portfolio effects and impacts related to legal and regulatory matters in the second half of the fiscal year.

## Notes and Forward-Looking Statements

All figures are preliminary and unaudited. This Earnings Release should be read in conjunction with information Siemens published today regarding legal proceedings.

Financial Publications are available for download at:

[www.siemens.com/ir](http://www.siemens.com/ir) g Publications & Events.

This document includes supplemental financial measures that are or may be non-GAAP financial measures. New orders and order backlog; adjusted or organic growth rates of revenue and new orders; book-to-bill ratio; Total Sectors profit; return on equity (after tax), or ROE (after tax); return on capital employed (adjusted), or ROCE (adjusted); Free cash flow, or FCF; cash conversion rate, or CCR; adjusted EBITDA; adjusted EBIT; adjusted EBITDA margins, earnings effects from purchase price allocation, or PPA effects; net debt and adjusted industrial net debt are or may be such non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation as alternatives to measures of Siemens' financial condition, results of operations or cash flows as presented in accordance with IFRS in its Consolidated Financial Statements.

Other companies that report or describe similarly titled financial measures may calculate them differently. Definitions of these supplemental financial measures, a discussion of the most directly comparable IFRS financial measures, information regarding the usefulness of Siemens' supplemental financial measures, the limitations associated with these measures and reconciliations to the most comparable IFRS financial measures are available on Siemens' Investor Relations website at [www.siemens.com/nonGAAP](http://www.siemens.com/nonGAAP). For additional information, see supplemental financial measures and the related discussion in Siemens' most recent annual report on Form 20-F, which can be found on our Investor Relations website or via the EDGAR system on the website of the United States Securities and Exchange Commission.

Today beginning at 9:00 a.m. CEST, the telephone conference at which CEO Peter Löscher and CFO Joe Kaeser discuss the quarterly figures will be broadcast live on the Internet at

[www.siemens.com/conferencecall](http://www.siemens.com/conferencecall).

The accompanying slide presentation can also be viewed here, and a recording of the conference will subsequently be made available as well.

Starting at 4:00 p.m. CEST, Peter Löscher and Joe Kaeser will hold a telephone conference in English for analysts and investors, which can be followed live at

[www.siemens.com/analystconference](http://www.siemens.com/analystconference).

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as "expects," "looks forward to," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "will," "project" or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to stockholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens' management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens' control, affect Siemens' operations, performance, business strategy and results and could cause the actual results, performance or achievements of

## Edgar Filing: SIEMENS AKTIENGESELLSCHAFT - Form 6-K

Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends. These factors include in particular, but are not limited to, the matters described in Item 3: Risk factors of our most recent annual report on Form 20-F filed with the SEC, in the chapter "Risks" of our most recent annual report prepared in accordance with the German Commercial Code, and in the chapter "Report on risks and opportunities" of our most recent interim report.

Further information about risks and uncertainties affecting Siemens is included throughout our most recent annual, and interim reports as well as our most recent earnings release, which are available on the

Siemens website, [www.siemens.com](http://www.siemens.com), and throughout our most recent annual report on Form 20-F and in our other filings with the SEC, which are available on the Siemens website, [www.siemens.com](http://www.siemens.com), and on the SEC's website [www.sec.gov](http://www.sec.gov). Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements of Siemens may vary materially from those described in the relevant forward-looking statement as being expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

## Edgar Filing: SIEMENS AKTIENGESELLSCHAFT - Form 6-K

- (1) Profit of the Sectors as well as of Equity Investments and Centrally managed portfolio activities is earnings before financing interest, certain pension costs and income taxes. Certain other items not considered performance indicative by Management may be excluded. Profit of SFS and SRE is Income before income taxes. Profit of Siemens is Income from continuing operations before income taxes. For a reconciliation of Income from continuing operations before income taxes to Net income see Consolidated Statements of Income.
- (2) Includes impairments and reversals of impairments of investments accounted for using the equity method.
- (3) Includes impairment of non-current available-for-sale financial assets. For Siemens, Financial income (expense), net comprises Interest income, Interest expense and Other financial income (expense), net as reported in the Consolidated Statements of Income.
- (4) Adjusted EBIT is Income from continuing operations before income taxes less Financial income (expense), net and Income (loss) from investments accounted for using the equity method, net.
- (5) Amortization and impairments, net of reversals, of intangible assets other than goodwill.
- (6) Depreciation and impairments of property, plant and equipment, net of reversals. Includes impairments of goodwill of       million in the current period and       million in the prior-year period, respectively.  
Due to rounding, numbers presented may not add up precisely to totals provided.

**Legal proceedings**

Information regarding investigations and other legal proceedings, as well as the potential risks associated with such proceedings and their potential financial impact on Siemens, is included in the Company's Consolidated Financial Statements as of September 30, 2011 (Consolidated Financial Statements).

Significant developments regarding investigations and other legal proceedings that have occurred since the preparation of the Consolidated Financial Statements are described below.

**Public corruption proceedings**

*Governmental and related proceedings*

As previously reported, Siemens AG had filed a request for arbitration against the Republic of Argentina (Argentina) with the International Center for Settlement of Investment Disputes (ICSID) of the World Bank. Siemens AG claimed that Argentina had unlawfully terminated its contract with Siemens for the development and operation of a system for the production of identity cards, border control, collection of data and voters' registers (DNI project) and thereby violated the Bilateral Investment Protection Treaty between Argentina and Germany (BIT). A unanimous decision on the merits was rendered by the ICSID arbitration tribunal in February 2007, awarding Siemens AG, inter alia, compensation in the amount of US\$217.8 million, plus compound interest thereon at a rate of 2.66% since May 18, 2001. Argentina subsequently filed applications with the ICSID aiming at the annulment and reversal of the decision and a stay of enforcement of the arbitral award. In August 2009, Argentina and Siemens AG reached an agreement to mutually settle the case and discontinue any and all civil proceedings in connection with the case without acknowledging any legal obligations or claims. No payment was made by either party. As previously reported, the Argentinean Anti-Corruption Authority is conducting an investigation against individuals into corruption of government officials in connection with the award of the contract for the DNI project to Siemens in 1998. Searches were undertaken at the premises of Siemens Argentina and Siemens IT Services S.A. in Buenos Aires in August 2008 and in February 2009. The Company is cooperating with the Argentinean Authorities. The Argentinean investigative judge also repeatedly requested judicial assistance from the Munich public prosecutor and the federal court in New York. In December 2011, the U.S.

Siemens AG

Corporate Communications and Government Affairs

Wittelsbacherplatz 2, 80333 Munich

Germany

Securities and Exchange Commission (SEC) and U.S. Department of Justice filed an indictment against nine individuals based on the same facts as the investigation of the Argentinean Anti-Corruption Authority. Most of these individuals are former Siemens employees. The former member of the Managing Board of Siemens AG, Dr. Uriel Sharef, is also involved. Siemens AG is not party to the proceedings.

As previously reported, in February 2010 a Greek Parliamentary Investigation Committee (GPIC) was established to investigate whether any politicians or other state officials in Greece were involved in alleged wrong-doing of Siemens in Greece. The GPIC's investigation was focused on possible criminal liability of politicians and other state officials. Greek public prosecutors are separately investigating certain fraud and bribery allegations involving among others former board members and former executives of Siemens A.E. Greece (Siemens A.E.) and Siemens AG. In January 2011, the GPIC alleged in a letter to Siemens that the damage suffered by the Greek state amounted to at least 2 billion. Furthermore, the GPIC issued a report repeating these allegations. In addition, the Hellenic Republic Minister of State indicated in a letter to Siemens that the Greek state will seek compensation from Siemens for the alleged damage. On April 5, 2012, the Greek Parliament approved a settlement agreement between Siemens and the Greek State, the material provisions of which include the following: Siemens waives public sector receivables in the amount of 80 million. Furthermore Siemens agrees to spend a maximum of 90 million on various anti-corruption and transparency initiatives, as well as university and research programs and to provide 100 million of financial support to Siemens A.E. to ensure its continued presence in Greece. In exchange, the Greek State agrees to waive all civil claims and all administrative fines related to the corruption allegations and to utilize best efforts to resolve all pending disputes between Siemens and the Greek state-companies or its public authorities.

In February 2012, the Munich public prosecutor notified Siemens AG of a request for mutual assistance in criminal matters by a foreign authority. The investigation of the foreign authority involves a Siemens subsidiary located in North West Europe in connection with alleged payments to employees of a Russian company between 1999 and 2006. Siemens is cooperating with the authorities.

The Company remains subject to corruption-related investigations in several jurisdictions around the world. As a result, additional criminal or civil sanctions could be brought against the Company itself or against certain of its employees in connection with possible violations of law. In addition, the scope of

pending investigations may be expanded and new investigations commenced in connection with allegations of bribery or other illegal acts. The Company's operating activities, financial results and reputation may also be negatively affected, particularly as a result of penalties, fines, disgorgements, compensatory damages, third-party litigation, including with competitors, the formal or informal exclusion from public invitations to tender, or the loss of business licenses or permits. Additional expenses and provisions, which could be material, may need to be recorded in the future for penalties, fines, damages or other charges in connection with the investigations.

#### **Antitrust proceedings**

As previously reported, in October 2011, the local Antitrust Authority in Rovno, Ukraine, notified DP Siemens Ukraine of an investigation into anti-competitive practices in connection with a delivery of medical equipment to a public hospital in 2010. Siemens cooperated with the authority. The authority imposed a fine in an amount equivalent to \$4,000. DP Siemens Ukraine did not appeal the decision.

As previously reported, in September 2011, the Competition Commission of Pakistan requested Siemens Pakistan to present its legal position regarding an alleged anti-competitive arrangement since 2007 in the field of transformers and air-insulated switchgears. In December 2011, Siemens Pakistan filed a leniency application. In April 2012, the Competition Commission of Pakistan accepted the leniency application and granted Siemens Pakistan a 100 percent penalty reduction for the alleged behavior.

#### **Other proceedings**

As previously reported, Siemens AG is a member of a supplier consortium that has been contracted to construct the nuclear power plant Olkiluoto 3 in Finland for Teollisuuden Voima Oyj (TVO) on a turnkey basis. Siemens AG's share of the consideration to be paid to the supplier consortium under the contract is approximately 27%. The other member of the supplier consortium is a further consortium consisting of Areva NP S.A.S. and its wholly-owned subsidiary, Areva NP GmbH. The agreed completion date for the nuclear power plant was April 30, 2009. Completion of the power plant has been delayed for reasons which are in dispute. In December 2008, the supplier consortium filed a request for arbitration against TVO demanding an extension of the construction time, additional compensation, milestone payments, damages and interest. In April 2009, TVO rejected the claims and made counterclaims against the supplier consortium. These consist primarily of damages due to

the delay amounting to approximately 1.43 billion based on an estimated completion of the plant in June 2012 with a delay of 38 months. In June 2011, the supplier consortium increased its monetary claim; it now amounts to 1.94 billion. In December 2011, the supplier consortium informed TVO that the completion of the plant is expected in August 2014. The final phases of the plant completion require the full cooperation of all parties involved. The further delay as well as further schedule uncertainties in the completion of the plant could lead TVO to increase its counterclaims.

In July 2008, Hellenic Telecommunications Organization S.A. (OTE) filed a lawsuit against Siemens AG with the district court of Munich, Germany, seeking to compel Siemens AG to disclose the outcome of its internal investigations with respect to OTE. OTE seeks to obtain information with respect to allegations of undue influence and/or acts of bribery in connection with contracts concluded between Siemens AG and OTE from 1992 to 2006. In May 2009, OTE was granted access to the public prosecutor's files in Greece. At the end of July 2010, OTE expanded its claim and requested payment of damages by Siemens AG of at least 57.07 million to OTE for alleged bribery payments to OTE-employees. While Siemens AG continues to defend itself against the expanded claim, Siemens AG and OTE have engaged in discussions to resolve the matter.

In December 2011, the United States Attorney's Office for the Northern District of New York served a Grand Jury subpoena on the Company that seeks records of consulting payments for business conducted by the Building Technologies unit in New York State over the period from January 1, 2000 through September 30, 2011. Siemens is cooperating with the authority.

In February 2012, the United States Attorney's Office for the Eastern District of New York served a subpoena on Siemens Healthcare Diagnostics Inc. for information relating to a diagnostics process. Siemens is cooperating with the authority.

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as expects, looks forward to, anticipates, intends, plans, believes, estimates, will, project or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to stockholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens' management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens' control, affect Siemens' operations, performance, business strategy and results and could cause the actual results, performance or achievements of Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends. These factors include in particular, but are not limited to, the matters described in Item 3: Risk factors of our most recent annual report on Form 20-F filed with the SEC, in the chapter Risks of our most recent annual report prepared in accordance with the German Commercial Code, and in the chapter Report on risks and opportunities of our most recent interim report.

Further information about risks and uncertainties affecting Siemens is included throughout our most recent annual, and interim reports as well as our most recent earnings release, which are available on the Siemens website, [www.siemens.com](http://www.siemens.com), and throughout our most recent annual report on Form 20-F and in our other filings with the SEC, which are available on the Siemens website, [www.siemens.com](http://www.siemens.com), and on the SEC's website, [www.sec.gov](http://www.sec.gov). Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results, performance or achievements of Siemens may vary materially from those described in the relevant forward-looking statement as being expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
