SUNGARD CAPITAL CORP. II

SUNGARD DATA SYSTEMS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation:

SunGard Data Systems Inc. (SunGard) was acquired on August 11, 2005 (the LBO) in a leveraged buy-out by a consortium of private equity investment funds associated with Bain Capital Partners, The Blackstone Group, Goldman Sachs & Co., Kohlberg Kravis Roberts & Co., Providence Equity Partners, Silver Lake and TPG (collectively, the Sponsors).

SunGard is a wholly owned subsidiary of SunGard Holdco LLC, which is wholly owned by SunGard Holding Corp., which is wholly owned by SunGard Capital Corp. II (SCCII), which is a subsidiary of SunGard Capital Corp. (SCC). All four of these companies were formed for the purpose of facilitating the LBO and are collectively referred to as the Holding Companies. SCC, SCCII and SunGard are separate reporting companies and, together with their direct and indirect subsidiaries, are collectively referred to as the Company .

The Company has three reportable segments: Financial Systems (FS), Availability Services (AS) and Other, which is comprised of K-12 Education (K-12) and Public Sector (PS). The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. All significant intercompany transactions and accounts have been eliminated.

The accompanying interim consolidated financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), consistent in all material respects with those applied in the Company s Annual Report on Form 10-K for the year ended December 31, 2011. Interim financial reporting does not include all of the information and footnotes required by GAAP for annual financial statements. The interim financial information is unaudited, but, in the opinion of management, includes all adjustments, consisting only of normal recurring adjustments necessary to provide a fair statement of results for the interim periods presented. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

The presentation of certain prior year amounts has been revised to conform to the current year presentation.

Recent Accounting Pronouncements

In October 2011, the Financial Accounting Standards Board (FASB) announced that the specific requirement to present items that are reclassified from other comprehensive income to net income alongside their respective components of net income and other comprehensive income will be deferred. Therefore, those requirements related to the presentation of comprehensive income have not been adopted by the Company.

In September 2011, the FASB issued amended guidance that will simplify how entities test goodwill for impairment. After assessment of certain qualitative factors, if it is determined to be more likely than not that the fair value of a reporting unit is less than its carrying amount, entities must perform the quantitative analysis of the goodwill impairment test. Otherwise, the quantitative test(s) become optional. The guidance is effective January 1, 2012 with early adoption permitted. The Company expects to adopt this guidance for the annual goodwill impairment test performed as of July 1, 2012.

2. Acquisitions and Discontinued Operations:

Acquisitions

The Company seeks to acquire businesses that broaden its existing product lines and service offerings by adding complementary products and service offerings and by expanding its geographic reach. During the three months ended March 31, 2012, the Company completed one acquisition in its FS segment. Cash paid, net of cash acquired and subject to certain adjustments, was \$6 million. The impact of this acquisition was not material to the consolidated financial statements.

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

At March 31, 2012, contingent purchase price obligations that depend on the operating performance of certain acquired businesses were \$6 million, of which \$3 million is included in other accrued expenses.

Discontinued Operations

In January 2012, the Company sold its Higher Education (HE) business and used the net cash proceeds (as defined in its senior secured credit agreement (Credit Agreement)) of \$1.222 billion, which is the gross transaction value of \$1.775 billion less applicable taxes and fees, to repay a pro-rata portion of its outstanding term loans (see note 5). The results for the discontinued operations for the three months ended March 31, June 30, September 30, and December 31, 2011 and March 31, 2012 were as follows (in millions):

Payables to customers	\$ 16	\$ 10
Securities loaned	145	140
Payable to brokers and dealers	18	28
Clearing broker liabilities	\$ 179	\$ 178

Segregated customer cash is held by the Company on behalf of customers. Securities borrowed and loaned are collateralized financing transactions which are cash deposits made to or received from other broker/dealers. Receivables from and payables to customers represent amounts due or payable on cash and margin transactions.

5. Debt and Derivatives:

On January 20, 2012, the Company completed the sale of HE and used net cash proceeds (as defined in the Credit Agreement) of \$1.22 billion to repay, on a pro-rata basis, outstanding term loans.

On February 21, 2012, SunGard announced its intention to redeem all of its outstanding \$500 million 10.625% senior notes due 2015 (2015 Notes) under the Indenture dated as of September 29, 2008 among SunGard, the guarantors named therein, and The Bank of New York Mellon, as trustee (as amended or supplemented from time to time, the 2015 Indenture). On April 2, 2012, SunGard redeemed the 2015 Notes for \$527 million plus accrued and unpaid interest to the redemption date, pursuant to Section 3.07(d) of the 2015 Indenture. In connection with the redemption of the 2015 Notes, the Company will write off in the second quarter of 2012 approximately \$7 million of unamortized deferred financing costs and the \$3 million discount.

Table of Contents

On March 2, 2012, SunGard amended its Credit Agreement to, among other things, extend the maturity date of approximately \$908 million of tranche A and incremental term loans from February 28, 2014 to February 28, 2017, extend the maturity of \$880 million of revolving credit facility commitments from May 11, 2013 to November 29, 2016, and amend certain covenants and other provisions, in order to, among other things, permit the potential spin-off of AS. The tranche B, tranche C and revolving credit facility each have certain springing maturity provisions which are described in the Company's Credit Agreement as amended and filed with the Company's Form 8-K dated March 2, 2012.

Debt consisted of the following at December 31, 2011, March 31, 2012 and, on a pro forma basis at March 31, 2012 adjusting for the redemption on April 2, 2012 of the 2015 Notes (in millions):

The Company uses interest rate swap agreements to manage the amount of its floating rate debt in order to reduce its exposure to variable rate interest payments associated with the Credit Agreement. Each of these swap agreements is designated as a cash flow hedge. SunGard pays a stream of fixed interest payments for the term of the swap, and in turn, receives variable interest payments based on LIBOR. The net receipt or payment from the interest rate swap agreements is included in interest expense. The Company does not enter into interest rate swaps for speculative or trading purposes. A summary of the Company's interest rate swaps follows:

Inception	Maturity	Notional Amount (in millions)	Interest rate paid	Interest rate received (LIBOR)
February 2010	May 2013	\$ 500	1.99%	3-Month

The fair values of interest rate swaps designated as cash flow hedging instruments, included in other accrued expenses on the consolidated balance sheets, are \$11 million and \$8 million as of December 31, 2011 and March 31, 2012, respectively.

The Company has no ineffectiveness related to its swap agreements. The Company expects to reclassify in the next twelve months approximately \$7 million from other comprehensive income (loss) into earnings related to the Company's interest rate swaps based on the borrowing rates at March 31, 2012.

Table of Contents**6. Fair Value Measurements:**

The following table summarizes assets and liabilities measured at fair value on a recurring basis at March 31, 2012 (in millions):

	Fair Value Measures Using

Assets				
Cash and cash equivalents - money market funds	\$ 351	\$	\$	\$ 351
Liabilities				
Interest rate swap agreements and other	\$	\$ 15	\$	\$ 15

A Level 1 fair value measure is based upon quoted prices in active markets for identical assets or liabilities. A Level 2 fair value measure is based upon quoted prices for similar assets and liabilities in active markets or inputs that are observable. A Level 3 fair value measure is based upon inputs that are unobservable (for example, cash flow modeling inputs based on assumptions).

Cash and cash equivalents - money market funds is recognized and measured at fair value in the Company's financial statements. Fair values of the interest rate swap agreements are calculated using a discounted cash flow model using observable applicable market swap rates and assumptions and are compared to market valuations obtained from brokers.

The following table presents the carrying amount and estimated fair value of the Company's debt, including current portion and excluding the interest rate swaps, as of December 31, 2011 and March 31, 2012 (in millions):

	December 31, 2011		March 31, 2012

In the case of termination of employment resulting from disability or death, an employee or his/her estate may exercise a put option which would require the Company to repurchase vested shares at the current fair market value. These common or preferred shares must be classified as temporary equity (between liabilities and equity) on the balance sheet of SCC and SCCII. At vesting or exercise, grant-date intrinsic value or exercise value, respectively, is reclassified to temporary equity. On termination of employment, the value included in temporary equity is reclassified to permanent equity.

Guarantors is 100% owned, directly or indirectly, by SunGard. None of the other subsidiaries of SunGard, either direct or indirect, nor any of the Holding Companies, guarantee the senior notes and senior subordinated notes (Non-Guarantors). The Guarantors and SunGard Holdco LLC also unconditionally guarantee the senior secured credit facilities. The Guarantors are subject to release under certain circumstances as described below.

The indentures evidencing the guarantees provide for a Guarantor to be automatically and unconditionally released and discharged from its guarantee obligations in certain circumstances, including upon the earliest to occur of:

The sale, exchange or transfer of the subsidiary's capital stock or all or substantially all of its assets;

Designation of the Guarantor as an unrestricted subsidiary for purposes of the indenture covenants;

During the first quarter of 2012, the Company determined that it had incorrectly accounted for intercompany dividend income and the related eliminations presented in the Supplemental Condensed Consolidating Schedules of Operations in the Company's Form 10-K for the periods ended December 31, 2009, 2010 and 2011. The Company determined that the incorrect presentation resulted in an understatement of income (or overstatement of loss) from continuing operations and net income (loss) for both the Non-Guarantor subsidiaries and the Guarantor subsidiaries. It was further determined that cash flows from operations and cash flows from investment activities for Parent (SunGard), Guarantor subsidiaries and Non-Guarantor subsidiaries were each affected between operating and investing. The Company also identified a misclassification of expense between Guarantor subsidiaries and Non-Guarantor subsidiaries in 2010 totaling \$91 million. In addition, the Company also determined that it had incorrectly recorded intercompany transactions between certain Guarantor and Non-Guarantor subsidiaries as a component of net interest income (expense) resulting in an understatement of operating expenses for the Guarantor subsidiaries and an understatement of revenues for the Non-Guarantor subsidiaries. These errors had no impact on the consolidated financial statements of SunGard or any debt covenants and had no impact on the ability of SunGard's subsidiaries to dividend cash to SunGard for debt service requirements. The Company assessed the materiality

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

of these items on previously issued annual and interim financial statements in accordance with SEC Staff Accounting Bulletin No. 99, and concluded that the errors were not material to the consolidated financial statements.

Table of Contents

The Company will revise the June 30, 2011 and September 30, 2011 financial statements to reflect the revisions discussed above, the next time such financial statements are included in future reports for comparable purposes.

The following is a summary of the impacts of the errors on each of the statements that were included in the Quarterly Report on Form 10-Q for the periods indicated or the Annual Report on Form 10-K for the period ended December 31, 2011 (n/c = no change).

In addition to the change in the presentation of HE as a discontinued operation subsequent to the initial reporting, the changes outlined below have been made in the amounts presented As Revised .

- (a) Impact of the correction of intercompany dividends of \$40 million, \$51 million and \$(91) million for Parent, guarantor subsidiaries and non-guarantor subsidiaries, respectively.
- (b) Impact of the correction of intercompany dividends of \$2 million, \$54 million and \$(56) million for Parent, guarantor subsidiaries and non-guarantor subsidiaries, respectively.
- (c) Impact of the correction of intercompany dividends of \$42 million, \$105 million and \$(147) million for Parent, guarantor subsidiaries and non-guarantor subsidiaries, respectively.
- (d) Impact of the correction of intercompany dividends of \$32 million, \$117 million and \$(149) million for Parent, guarantor subsidiaries and non-guarantor subsidiaries, respectively.
- (e) Impact of the correction of intercompany dividends of \$74 million, \$222 million and \$(296) million for Parent, guarantor subsidiaries and non-guarantor subsidiaries, respectively.
- (f) The correction of the error related to intercompany transactions caused an increase in Non-Guarantor Revenue and an increase in Guarantor Costs of sales and administrative expenses. As the amounts are intercompany charges, the related eliminations also increased by an equal amount. These amounts had previously been reported in the caption Interest Income (Expense) and correction of the error decreases Interest income for the Non-Guarantor subsidiaries and decreases Interest expense for the Guarantor subsidiaries. The impacts to each of the periods presented in the table above for this error were as follows:

Three months ended March 31, 2011: \$84 million;

Three months ended June 30, 2011: \$132 million;

Six months ended June 30, 2011: \$216 million;

Three months ended September 30, 2011: \$106 million;

Nine months ended September 30, 2011: \$322 million.

The impact of the dividend elimination error is shown above as the difference between As Reported and As Revised Cash flow from (used in) operations and Cash provided by (used in) investment activities. Other captions presented above have been adjusted to reflect both the error and the presentation of HE as a discontinued operation.

* The Company has not yet provided financial information for the three and six months ended June 30, 2011 which reflects HE as a discontinued operation. When the Form 10-Q for the period ended June 30, 2012 is filed, in addition to the changes in presentation of HE as a discontinued operation subsequent to the initial reporting, the impact of the correction of intercompany dividends of \$42 million, \$105

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

million and \$(147) million for Parent, Guarantor subsidiaries and Non-guarantor subsidiaries, respectively, will be reflected.
n/a = not applicable as the Company did not report discontinued operations in the original filing.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following discussion and analysis supplement the management's discussion and analysis in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 and presumes that readers have read or have access to the discussion and analysis in this filing. The following discussion and analysis includes historical and certain forward-looking information that should be read together with the accompanying Consolidated Financial Statements, related footnotes, and the discussion below of certain risks and uncertainties that could cause future operating results to differ materially from historical results or from the expected results indicated by forward-looking statements. The following discussion reflects the results of operations and financial condition of SCC, which are materially the same as the results of operations and financial condition of SCCII and SunGard. Therefore, the discussions provided are applicable to each of SCC, SCCII and SunGard unless otherwise noted.

Except as otherwise noted, all explanations below refer to changes in results excluding the impacts from changes in currency translation, which we refer to as constant currency, a non-GAAP measure. We believe presenting our results on a constant currency basis is meaningful for assessing how our underlying businesses have performed due to the fact that we have international operations that are material to our overall operations. As a result, total revenues and expenses are affected by changes in the U.S. Dollar against international currencies. To present this information, current period results for entities reporting in currencies other than U.S. Dollars are converted to U.S. Dollars at the average exchange rate used in the prior year period rather than the actual exchange rates in effect during the current year period. In each of the tables below, we present the percent change based on actual, unrounded results in reported currency and in constant currency. Also, percentages may not add due to rounding.

Income from Operations:

Our total operating margin was 5% for the three months ended March 31, 2012, compared to 4% for the three months ended March 31, 2011. The more significant factors impacting the 40 basis point operating margin increase are a 130 basis point impact, or \$14 million, from the decrease in amortization of acquisition-related intangible assets; a 60 basis point impact, or \$6 million, from the decrease in AS equipment expense; a combined 60 basis point impact, or \$6 million, from the decrease in professional services expense and advertising expense; a 20 basis point impact, or \$2 million, from the decrease in shutdown costs for the professional trading business of the Broker/Dealer, defined below; a

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

(260) basis point impact, or \$28 million, from the decrease in software license fee revenue in 2012 and a (50) basis point impact, or \$5 million, from the increase in stock compensation expense.

Financial Systems:

The FS operating margin was 16% and 17% for the three months ended March 31, 2012 and 2011, respectively. The more significant factors impacting the operating margin decrease of (90) basis points are a \$29 million decrease in software license fee revenue, which had a (380) basis point impact on the operating margin; the combined 120 basis point impact, or \$8 million, from the decrease in employment-related and consultant expenses; the impact of the lower activity in the low margin Broker/Dealer, defined below, which had a 60 basis point impact on the operating margin; and the 30 basis point impact, or \$2 million, from the decrease in professional services expense.

Table of Contents

Availability Services:

The AS operating margin was 18% and 20% for the three months ended March 31, 2012 and 2011, respectively. In North America, recovery services, which typically uses shared resources, had a (350) basis point impact on AS operating margin in 2012 due primarily to a \$15 million decrease in higher margin recovery services revenue, partially offset by a \$4 million decrease in equipment expense due to lower equipment leases, lower hardware/software maintenance, and lower network costs. Also in North America, professional services decreased the operating margin in 2012 by (70) basis points due primarily to a combined \$2 million increase in severance and consultant expense on unchanged revenue. Managed services helped the margin in 2012 by 170 basis points due primarily to a \$6 million increase in typically lower margin managed services revenue, which uses dedicated resources, and decreases of \$2 million of facilities, primarily lower utilities and building-related maintenance expenses.

Other:

The operating margin from Other was 29% and 27% for the three months ended March 31, 2012 and 2011, respectively. The operating margin increased due primarily to the \$1 million improvement in revenue and \$1 million decrease in professional services expense, partially offset by a \$1 million increase in employment-related expense.

Revenue:

Total reported revenue decreased \$47 million or 4% for the three months ended March 31, 2012 compared to the first quarter of 2011. On a constant currency basis, revenue decreased \$41 million, or 4%. Software license revenue decreased \$28 million, primarily in FS. In addition, approximately \$23 million of the \$41 million decrease was due to a decrease in revenue from one of our capital markets businesses, a broker/dealer with an inherently lower margin than our other financial systems businesses, whose performance is a function of market volatility and customer mix (the Broker/Dealer.) This \$23 million decrease was due primarily to no longer providing correspondent clearing services for a large, former Broker/Dealer customer that has since begun to self-clear its broker/dealer operations.

Financial Systems:

FS reported revenue decreased \$40 million or 6% in the first quarter of 2012 from the prior year period, and decreased 5% on a constant currency basis. Three percentage points of the decrease in constant currency was related to lower revenues from the Broker/Dealer. Processing revenue increased \$10 million, or 5%, due mainly to the impact of new business signed in 2011, higher volumes in 2012 and annual rate increases, and increased \$3 million due to acquisitions. Reported revenue and constant currency revenue from license and resale fees included software license revenue of \$21 million, a decrease of \$29 million, or 58%, compared to the same quarter in 2011, due mainly to high-value, multi-year license renewal transactions with scope expansion recognized in 2011, including one deal worth \$14 million, for which there were no similar sized transactions in 2012.

Availability Services:

AS reported revenue decreased \$8 million in the first quarter of 2012 from the prior year period. On a constant currency basis, revenue decreased 2% in the quarter. In North America, which accounts for over 75% of our AS business, revenue decreased 3%, where decreases in recovery services revenue exceeded growth in managed services revenue. Revenue in Europe, primarily from our U.K. operations, increased 2%, where an increase in managed services revenue was partially offset by a decrease in recovery services revenue. Most of our recovery services revenue, which is derived from tape-based solutions, has been declining due primarily to attrition to other service providers and customer internal solutions, and demand for recovery services has been shifting from tape-based solutions to disk- and cloud-based advanced recovery solutions. Separately, in managed services, demand has been increasing for outsourced management of IT operations and applications. We expect these trends to continue in the future.

Other:

Reported revenue and constant currency revenue from Other increased \$1 million, or 1%, for the three months ended March 31, 2012, from the corresponding period in 2011. Reported revenue from license and resale fees included software license revenue of \$2 million in the three months ended March 31, 2012, unchanged from the prior year period.

Costs and Expenses:

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

Cost of sales and direct operating expenses as a percentage of total revenue was 45% in each of the three-month periods ended March 31, 2012 and 2011, and decreased \$22 million. Impacting the period was a \$16 million decrease in reimbursed expenses relating to the operations of the Broker/Dealer business due primarily to no longer providing

Table of Contents

correspondent clearing services for a large, former Broker/Dealer customer that has since begun to self-clear its broker/dealer operations; a \$6 million decrease in AS equipment costs associated with lower equipment leases, equipment and software maintenance and decreased network costs; and a \$3 million decrease in FS employment-related expenses due primarily to severance actions taken in 2011; partially offset by the increase from FS acquired businesses of \$3 million.

Sales, marketing and administration expenses as a percentage of total revenue was 25% and 24% in the three months ended March 31, 2012 and 2011, respectively, and decreased \$2 million. The increase in the percentage of revenue is due primarily to the decrease in revenue.

Because AS product development and maintenance costs are less significant, it is more meaningful to measure product development and maintenance expenses as a percentage of revenue excluding AS. For each of the three months ended March 31, 2012 and 2011, product development and maintenance costs were 13% of revenue excluding AS, respectively, and decreased \$5 million. The decrease is primarily related to a combined \$5 million decrease in FS employment-related and consultant expenses partially as a result of severance actions taken in 2011.

Amortization of acquisition-related intangible assets was 10% and 11% of total revenue in the three months ended March 31, 2012 and 2011, respectively, and decreased \$15 million. The decrease is due primarily to the \$10 million impact of software assets that were fully amortized in the prior year and \$7 million of impairment charges in the prior year period.

Interest expense was \$122 million and \$137 million for the three months ended March 31, 2012 and 2011, respectively. The decrease in interest expense was due primarily to the repayment in January 2012 of \$1.22 billion of our outstanding term loans as a result of the sale of HE and interest rate decreases resulting from the expiration of interest rate swaps in each of February 2011 and 2012.

Loss on extinguishment of debt was \$15 million and \$2 million for the three months ended March 31, 2012 and 2011, respectively. This increase was due primarily to the write-off of unamortized costs due to the partial repayment of term loans in January 2012 discussed above.

The effective income tax rates for the three months ended March 31, 2012 and 2011 were 8% and 12%, respectively. The rate in each period reflects the expected mix of taxable income in various jurisdictions. Given the small base of overall projected pretax income, changes in the mix of income or the total amount of income for 2012 may significantly impact the estimated effective income tax rate for the year.

Accreted dividends on SCCII's cumulative preferred stock were \$62 million and \$54 million for the three months ended March 31, 2012 and 2011, respectively. The increase in dividends is due to compounding. No dividends have been declared by SCCII.

Liquidity and Capital Resources:

At March 31, 2012, cash and equivalents were \$1.378 billion, an increase of \$510 million from December 31, 2011. The cash balance is higher compared to recent trends due to expected income tax payments related to the sale of HE and the early retirement of the 2015 Notes (defined below), each as discussed below. Cash flow from continuing operations was unchanged at \$67 million in the three months ended March 31, 2012. Impacting cash flow from continuing operations is an \$11 million increase in income tax payments, net of refunds, a \$7 million decrease in cash earned from operations, defined as operating income adjusted for certain noncash expenses and the cash portion of other income (expense), and \$3 million net cash used for working capital, offset by \$21 million less of interest payments made in the three months ended March 31, 2012 from the prior year period, due primarily to the repayment in January 2012 of \$1.222 billion of term loans resulting from the sale of HE and the expiration of certain of our interest rate swaps.

Net cash used by continuing operations in investing activities was \$63 million in the three months ended March 31, 2012, comprised of cash paid for property and equipment and other assets and one business acquired in our FS segment. Net cash used by continuing operations in investing activities was \$79 million in the three months ended March 31, 2011, comprised mainly of cash paid for property and equipment and other assets and two businesses acquired in our FS segment. In January 2012, we sold our HE business for gross proceeds of approximately \$1.775 billion less applicable taxes and fees. We expect to pay approximately \$450 million in income taxes in 2012 as a result of the HE sale, of which approximately 50% will be in the second quarter and 25% will be in each of the third and fourth quarters.

Net cash used by continuing operations in financing activities was \$1.25 billion for the three months ended March 31, 2012, primarily related to repayments of \$1.222 billion of term loans resulting from the sale of HE. Net cash provided by

Table of Contents

continuing operations in financing activities was \$11 million for the three months ended March 31, 2011, primarily related to borrowing under our accounts receivables facility. At March 31, 2012, no amount was outstanding under the revolving credit facility, and \$200 million was outstanding under the receivables facility.

On February 21, 2012, SunGard announced its intention to redeem all of its outstanding \$500 million 10.625% senior notes due 2015 (2015 Notes) under the Indenture dated as of September 29, 2008 among SunGard, the guarantors named therein, and The Bank of New York Mellon, as trustee (as amended or supplemented from time to time, the 2015 Indenture). On April 2, 2012, SunGard paid \$527 million to redeem the 2015 Notes plus accrued and unpaid interest to the redemption date, pursuant to Section 3.07(d) of the 2015 Indenture.

On March 2, 2012, SunGard amended its Credit Agreement to, among other things, extend the maturity date of approximately \$908 million of tranche A and incremental term loans from February 28, 2014 to February 28, 2017, extend the maturity of \$880 million of revolving credit facility commitments from May 11, 2013 to November 29, 2016, and amend certain covenants and other provisions, in order to, among other things, permit the potential spin-off of AS. The tranche B, tranche C and revolving credit facility each have certain springing maturity provisions which are described in the Company's Credit Agreement as amended and filed with the Company's Form 8-K dated March 2, 2012.

At March 31, 2012, we had outstanding \$6.61 billion in aggregate indebtedness, with additional borrowing capacity of \$858 million under the revolving credit facility (after giving effect to outstanding letters of credit). Under the receivables facility, there was an additional borrowing capacity of \$32 million at March 31, 2012. Also at March 31, 2012, we had outstanding letters of credit and bid bonds that total approximately \$39 million.

We expect our available cash balances and cash flows from operations, combined with availability under the revolving credit facility and receivables facility, to provide sufficient liquidity to fund our current obligations, projected working capital requirements and capital spending for a period that includes at least the next 12 months.

Covenant Compliance

Adjusted EBITDA is used to determine compliance with certain covenants contained in the indentures governing SunGard's senior notes due 2018 and 2020 and senior subordinated notes due 2015 and in SunGard's senior secured credit facilities. Adjusted EBITDA is defined as EBITDA, which we define as earnings before interest, taxes, depreciation and amortization, further adjusted to exclude certain adjustments permitted in calculating covenant compliance under the indentures and senior secured credit facilities. We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA are appropriate to provide additional information to investors to demonstrate compliance with the financing covenants.

The breach of covenants in SunGard's senior secured credit facilities that are tied to ratios based on Adjusted EBITDA could result in a default under that agreement and the lenders could elect to declare all amounts borrowed due and payable. Any such acceleration would also result in a default under the indentures. Additionally, under SunGard's debt agreements, our ability to engage in activities such as incurring additional indebtedness, making investments and paying dividends is also tied to ratios based on Adjusted EBITDA.

Table of Contents

Adjusted EBITDA is calculated as follows (in millions):

	Three Months Ended March 31,		Last Twelve Months March 31,
	2011	2012	2012
Income (loss) from continuing operations	\$ (78)	\$ (77)	\$ (72)
Interest expense, net	136	122	507
Taxes	(11)	(7)	(114)
Depreciation and amortization	186	173	697
EBITDA	233	211	1,018
Goodwill impairment charge			48
Purchase accounting adjustments (a)	3	2	10
Non-cash charges (b)	5	11	40
Restructuring and other (c)	11	3	92
Loss on extinguishment of debt (d)	2	15	16
Adjusted EBITDA - senior secured credit facilities, senior notes due 2018 and 2020 and senior subordinated notes due 2015	\$ 254	\$ 242	\$ 1,224

- (a) Purchase accounting adjustments include the adjustment of deferred revenue and lease reserves to fair value at the date of the LBO and subsequent acquisitions made by the Company and certain acquisition-related compensation expense.
- (b) Non-cash charges include stock-based compensation and loss on the sale of assets.
- (c) Restructuring and other charges include severance and related payroll taxes, reserves to consolidate certain facilities, strategic initiative expenses, certain other expenses associated with acquisitions made by the Company, management fees paid to the Sponsors (see Note 9 of Notes to Consolidated Financial Statements) and franchise and similar taxes reported in operating expenses, partially offset by certain charges relating to the receivables facility.
- (d) Loss on extinguishment of debt includes the write-off of deferred financing fees associated with the January 2012 repayment of \$1.22 billion of term loans.

The covenant requirements and actual ratios for the twelve months ended March 31, 2012 are as follows. All covenants are in compliance.

	Covenant Requirements	Actual Ratios
Senior secured credit facilities ⁽¹⁾		
Minimum Adjusted EBITDA to consolidated interest expense ratio	1.95x	2.92x
Maximum total debt to Adjusted EBITDA	5.75x	4.16x
Senior notes due 2018 and 2020 and senior subordinated notes due 2015 ⁽²⁾		
Minimum Adjusted EBITDA to fixed charges ratio required to incur additional debt pursuant to ratio provisions	2.00x	2.90x

- (1) The senior secured credit facilities require us to maintain an Adjusted EBITDA to consolidated interest expense ratio starting at a minimum of 1.95x for the four-quarter period ended December 31, 2011 and increasing over time to 2.10x by the end of 2012 and 2.20x by the end of 2013. Consolidated interest expense is defined in the senior secured credit agreement as consolidated cash interest expense less cash interest income further adjusted for certain non-cash or non-recurring interest expense and the elimination of interest expense and fees associated with SunGard's receivables facility. Beginning with the four-quarter period ending December 31, 2011, we are required to maintain a consolidated total debt to Adjusted EBITDA ratio of 5.75x and decreasing over time to 5.25x by the end of 2012 and to 4.75x by the end of 2013. Consolidated total debt is defined in the senior secured credit agreement as total debt less certain indebtedness and

Edgar Filing: SUNGARD DATA SYSTEMS INC - Form 10-Q

further adjusted for cash and cash equivalents on our balance sheet in excess of \$50 million. Failure to satisfy these ratio requirements would constitute a default under the senior secured credit facilities. If our lenders failed to waive any such default, our repayment obligations under the senior secured credit facilities could be accelerated, which would also constitute a default under our indentures.

Table of Contents

- (2) SunGard's ability to incur additional debt and make certain restricted payments under our indentures, subject to specified exceptions, is tied to an Adjusted EBITDA to fixed charges ratio of at least 2.0x, except that we may incur certain debt and make certain restricted payments and certain permitted investments without regard to the ratio, such as the ability to incur up to an aggregate principal amount of \$5.75 billion under credit facilities (inclusive of amounts outstanding under the senior credit facilities from time to time; as of March 31, 2012, we had \$3.05 billion outstanding under the term loan facilities and available commitments of \$858 million under the revolving credit facility), to acquire persons engaged in a similar business that become restricted subsidiaries and to make other investments equal to 6% of our consolidated assets. Fixed charges is defined in the indentures governing the Senior Notes due 2018 and 2020 and the Senior Subordinated Notes due 2015 as consolidated interest expense less interest income, adjusted for acquisitions, and further adjusted for non-cash interest and the elimination of interest expense and fees associated with the receivables facility.

Certain Risks and Uncertainties

Certain of the matters we discuss in this Report on Form 10-Q may constitute forward-looking statements. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, seeks, approximately, intends, plans, anticipates or similar expressions which concern our strategy, plans or intentions. All statements we make relating to estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. All of these forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those we expected. We derive most of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Some of the factors that we believe could affect our results include: general economic and market conditions; the overall condition of the financial services industry, including the effect of any further consolidation among financial services firms; our high degree of leverage; the effect of war, terrorism, natural disasters or other catastrophic events; the effect of disruptions to our systems and infrastructure; the timing and magnitude of software sales; the timing and scope of technological advances; customers taking their information availability solutions in-house; the trend in information availability toward solutions utilizing more dedicated resources; the market and credit risks associated with broker/dealer operations; the ability to retain and attract customers and key personnel; risks relating to the foreign countries where we transact business; the integration and performance of acquired businesses; the ability to obtain patent protection and avoid patent-related liabilities in the context of a rapidly developing legal framework for software and business-method patents; a material weakness in our internal controls; and unanticipated changes in our income tax provision or the adoption of new tax legislation. The factors described in this paragraph and other factors that may affect our business or future financial results are discussed in our filings with the U.S. Securities and Exchange Commission, including this Form 10-Q. We assume no obligation to update any written or oral forward-looking statement made by us or on our behalf as a result of new information, future events or other factors.

Item 3. Quantitative and Qualitative Disclosures about Market Risk:

We do not use derivative financial instruments for trading or speculative purposes. We have invested our available cash in short-term, highly liquid financial instruments, with a substantial portion having initial maturities of three months or less. When necessary, we have borrowed to fund acquisitions.

At March 31, 2012, we had total debt of \$6.61 billion, including \$3.25 billion of variable rate debt. We have entered into interest rate swap agreements which expire in May 2013 and effectively fix the interest rates for \$500 million of our variable rate debt at 1.99%. Our remaining variable rate debt of \$2.75 billion is subject to changes in underlying interest rates, and, accordingly, our interest payments will fluctuate. During the period when all of our interest rate swap agreements are effective, a 1% change in interest rates would result in a change in interest of approximately \$28 million per year. Upon the expiration of the interest rate swap agreements in May 2013, a 1% change in interest rates would result in a change in interest of approximately \$33 million per year.

Item 4. Controls and Procedures:

Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow for timely decisions regarding required disclosure.

The Company previously reported a material weakness in internal control over financial reporting related to accounting for deferred income taxes, which was described in Item 9A including Management's Annual Report on Internal Control Over Financial Reporting in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. As a result of this material weakness, which was not remediated as of March 31, 2012, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were not effective as of March 31, 2012.

Notwithstanding the material weakness in accounting for deferred income taxes, we concluded that the interim financial statements included in this Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows as of and for the periods presented in accordance with generally accepted accounting principles.

Remediation of Material Control Weakness

The Company is continuing to implement steps to remediate the material weakness discussed above and to improve its internal control over financial reporting related to accounting for deferred income taxes. Specifically, the Company is in the process of searching for additional qualified tax personnel and is: continuing to review all areas of the tax accounting process, including deferred income taxes; strengthening controls and improving the reporting tools and quality of data used in the analysis of deferred income tax accounts and related disclosures; and increasing the level of certain income tax review activities during the financial close process.

Management is committed to improving the Company's internal control processes and has developed and presented to the Audit Committee a plan and timetable for the implementation of the remediation measures described above and is meeting frequently with the Committee to monitor the status of remediation activities. Management believes that the measures described above should remediate the material weakness identified and strengthen the Company's internal control over financial reporting related to accounting for deferred income taxes. As the Company continues to evaluate and improve its internal control over financial reporting related to accounting for deferred income taxes, additional measures to remediate the material weakness or modifications to certain of the remediation procedures described above may be necessary. The Company expects to make progress each quarter and expects to achieve remediation of the material weakness when it completes its year end procedures in connection with filing the Company's Annual Report on Form 10-K for 2012.

Change in Internal Control Over Financial Reporting

Other than changes related to the ongoing remediation of the material weakness in accounting for deferred income taxes, no change in our internal control over financial reporting occurred during our most recent fiscal quarter ended March 31, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
