The Note Guarantors

The notes will be guaranteed on a joint and several basis by the following subsidiaries of Ally: Ally US LLC, IB Finance Holding Company, LLC, GMAC Latin America Holdings LLC, GMAC International Holdings B.V. and GMAC Continental Corporation. Debt of the note guarantors or of subsidiaries of the note guarantors that is owed to Ally or other subsidiaries of Ally will rank junior to the note guarantees or will be held by a note guarantor.

Each note guarantor is a first-tier wholly owned subsidiary of Ally. In order to simplify our note guarantor structure and to provide additional flexibility with respect to potential strategic transactions relating to our international operations, Ally is contemplating a series of transactions in which our note guarantors would be merged with and into or otherwise consolidated with IB Finance Holding Company, LLC.

A simplified structure chart of Ally and each of the note guarantors is set forth below:

Ally US LLC. Ally US LLC (US LLC), a Delaware limited liability company, was incorporated on May 30, 2007 and is a wholly owned subsidiary of Ally. All of our employees associated with the U.S. Automotive Finance business and our corporate functions are employed by US LLC, and in connection with this, US LLC acts as a pass-through entity with respect to certain of our payroll obligations and as of June 30, 2012, conducted no other business. The registered office of US LLC is at Corporation Trust Center, 1209 N. Orange Street, New Castle County, Wilmington, Delaware 19801-1120.

IB Finance Holding Company, LLC. IB Finance Holding Company, LLC (IB Finance), a Delaware limited liability company, was incorporated on October 10, 2006 and is wholly owned by Ally. The registered office of IB Finance is at Corporation Trust Center, 1209 N. Orange Street, New Castle County, Wilmington, Delaware 19801-1120. IB Finance is a holding company that conducts no business other than holding all of the equity interests in Ally Bank. Ally Bank is a Utah chartered commercial non-member bank that raises deposits directly from customers through the direct banking channel via the internet and over the telephone. Ally Bank provides our automotive finance and mortgage loan operations with a stable and low-cost funding source and facilitates prudent asset growth. Neither Ally Bank nor any other subsidiary of IB Finance is directly guaranteeing the notes.

GMAC Latin America Holdings LLC. GMAC Latin America Holdings LLC (Latin America LLC), a Delaware limited liability company, was incorporated on August 18, 2006 and is a wholly owned direct subsidiary of Ally. The registered office of Latin America LLC is at Corporation Trust Center, 1209 N. Orange Street, New Castle County, Wilmington, Delaware 19801-1120. As of

Table of Contents

June 30, 2012, Latin America LLC and its Mexican subsidiaries, excluding Ally Credit, had no material assets or liabilities. Ally Credit is a regulated Mexican entity and services all of the tangible assets associated with Ally's Mexican retail and wholesale Automotive Finance business. The majority of the loans made by Ally Credit (including approximately 74.3% of its retail originations and approximately 53.0% of its wholesale originations as of June 30, 2012) have been sold or securitized, in accordance with Ally Credit's funding strategy. All of Ally Credit's employees associated with the Mexican retail and wholesale Automotive Finance business are employed through a service contract with Servicios GMAC S.A. de C.V. (Servicios), a payroll company that employs substantially all of Ally Credit's employees and is 99.9% owned by Latin America LLC. Neither Ally Credit nor Servicios is directly guaranteeing the notes.

GMAC International Holdings B.V. GMAC International Holdings B.V. (GMAC International Holdings), a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*) was incorporated under the laws of The Netherlands on November 7, 2006, with its seat at The Hague, The Netherlands and is a wholly owned direct subsidiary of Ally. The registered office of GMAC International Holdings is Hogeweg 16, 2585 JD s- Gravenhage, The Netherlands. As of June 30, 2012, we conduct our retail and wholesale Automotive Finance business primarily in the following countries through GMAC International Holdings: Canada and France. GMAC International Holdings holds 100% of the equity interests in GMAC Pan European Auto Receivable Lending (PEARL) B.V. (Pearl). Pearl conducts no business other than investing in the subordinated tranches of certain securitization facilities. GMAC International Holdings also holds 100% of the equity interests in GMAC International Finance B.V. (GMACIF), a Dutch private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*), through which we conduct our international funding operations. GMACIF also provides intercompany lending to our international subsidiaries. As we continue to sell assets or cease asset originations in certain countries, we expect that consolidated assets at GMAC International Holdings will be reduced over time.

GMAC Continental Corporation. GMAC Continental Corporation (Continental Corporation), a Delaware corporation, was incorporated on November 3, 1930 and is a wholly owned direct subsidiary of Ally. The registered office of Continental Corporation is at Corporation Trust Center, 1209 N. Orange Street, New Castle County, Wilmington, Delaware 19801-1120. Certain of MasterLease Limited's business units were classified as discontinued operations under U.S. GAAP during the fourth quarter of 2009 and have been divested. Continental Corporation's subsidiaries are not directly guaranteeing the notes.

RISK FACTORS

Your decision whether to acquire the notes will involve risk. The risks described below are intended to highlight risks that are specific to the notes being offered and the related guarantees, but are not the only risks we face.

*You should be aware of, and carefully consider, the following risk factors, along with all of the risks and other information provided or referred to in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein, including the discussion in our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2012 and June 30, 2012, each as supplemented by the risk factor included in our Current Report on Form 8-K dated May 14, 2012, in each case including all of the risks discussed in the Risk Factors section thereof, before deciding whether to participate in the offering of the notes. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See *Cautionary Statement Regarding Forward-Looking Statements* in this prospectus supplement.*

Risks Relating to the Notes

Our substantial level of indebtedness could materially adversely affect our ability to generate sufficient cash to fulfill our obligations under the notes, our ability to react to changes in our business and our ability to incur additional indebtedness to fund future needs.

We have a substantial amount of indebtedness, which requires significant interest and principal payments. As of June 30, 2012, we had approximately \$98.0 billion in principal amount of indebtedness outstanding. Our existing and future secured indebtedness will rank effectively senior to the notes offered hereby to the extent of the value of the assets securing such indebtedness. We may incur additional indebtedness from time to time. If we do so, the risks related to our high level of indebtedness could be increased.

Our substantial level of indebtedness could have important consequences to holders of the notes, including the following:

making it more difficult for us to satisfy our obligations with respect to our indebtedness, including the notes;

requiring us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing funds available for other purposes;

increasing our vulnerability to adverse economic and industry conditions, which could place us at a competitive disadvantage compared to our competitors that have relatively less indebtedness;

limiting our flexibility in planning for, or reacting to, changes in our business and the industries in which we operate; and

limiting our ability to borrow additional funds, or to dispose of assets to raise funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other corporate purposes.

In addition, a breach of any of the restrictions or covenants in our debt agreements could cause a cross-default under other debt agreements. A significant portion of our indebtedness then may become immediately due and payable. We are not certain whether we would have, or be able to obtain, sufficient funds to make these accelerated payments. If any of our indebtedness is accelerated, our assets may not be sufficient to repay in full such indebtedness and our other indebtedness.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes.

Our ability to make scheduled payments of principal and interest or to satisfy our obligations in respect of our indebtedness, to refinance our indebtedness or to fund capital expenditures will depend on our future operating performance. Prevailing economic conditions (including interest rates), regulatory constraints, including, among other things, on distributions to us from our subsidiaries and required capital levels with respect to certain of our banking and insurance subsidiaries, and financial, business and other factors, many of which are beyond our control, will also affect our ability to meet these needs. We may not be able to generate sufficient cash flows from operations, or obtain future borrowings in an amount sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before maturity. We may not be able to refinance any of our indebtedness when needed on commercially reasonable terms or at all.

Our subsidiaries that are not note guarantors (including subsidiaries of the note guarantors that are not note guarantors) will not guarantee the notes and will not be restricted under the indenture for the notes. Your right to receive payments on the notes and the note guarantees are effectively subordinated to the indebtedness and other liabilities of our non-guarantor subsidiaries.

Our subsidiaries that are not note guarantors will not guarantee the notes and will not be restricted under the indenture for the notes. Accordingly, in the event of a bankruptcy or insolvency, the claims of creditors of those non-guarantor subsidiaries would also rank effectively senior to the notes, to the extent of the assets of those subsidiaries. None of the non-guarantor subsidiaries, or any of their respective subsidiaries, has any obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. In the event of a bankruptcy, liquidation or reorganization of any of our non-guarantor subsidiaries, holders of their liabilities, including trade creditors, will generally be entitled to payment of their claims from the assets of those non-guarantor subsidiaries before any assets are made available for distribution to us. The notes and the indenture and the guarantee agreement relating thereto will permit us to sell our interests in (through merger, consolidation or otherwise) the non-guarantor subsidiaries, or sell all or substantially all of the assets of any of the non-guarantor subsidiaries, in each case, without the consent of the holders of the notes in certain circumstances.

Our less than wholly owned subsidiaries may also be subject to restrictions on their ability to distribute cash to us in their financing or other agreements. As a result, we may not be able to access their cash flows to service our debt obligations, including obligations in respect of the notes.

The notes and the note guarantees will be effectively subordinated to our and the note guarantors' existing and future secured indebtedness which is secured by a lien on certain of our assets or certain assets of the note guarantors.

As of June 30, 2012, we had approximately \$49.6 billion in aggregate principal amount of secured indebtedness outstanding. The notes and the note guarantees will not be secured by any of our assets. As a result, our and the note guarantors' existing and future secured indebtedness will rank effectively senior to the indebtedness represented by the notes and the note guarantees, to the extent of the value of the assets securing such indebtedness. In the event of any distribution or payment of our or the note guarantors' assets in any foreclosure, dissolution, winding-up, liquidation or reorganization, or other bankruptcy proceeding, our or the note guarantors' secured creditors will have a superior claim to their collateral, as applicable. If any of the foregoing occurs, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. The existing and future liabilities of our subsidiaries, excluding those subsidiaries that do guarantee the notes, will be structurally senior to the indebtedness represented by the notes to the extent of the value of the assets of such subsidiaries.

In addition, if we default under any of our existing or future secured indebtedness, the holders of such indebtedness could declare all of the funds borrowed thereunder, together with accrued interest, immediately due

and payable. If we are unable to repay such indebtedness, the holders of such indebtedness could foreclose on the pledged assets to the exclusion of the holders of the notes, even if an event of default exists under the indenture governing the notes at such time. In any such event, because the notes will not be secured by any of our assets, it is possible that there would be no assets remaining from which your claims could be satisfied or, if any assets remained, they might be insufficient to satisfy your claims in full.

Your ability to transfer the notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the notes.

The notes are issues of securities for which there is no established public market. The underwriters have advised us that they intend to make a market in the notes, as permitted by applicable laws and regulations; however, the underwriters are not obligated to make a market in any of the notes and they may discontinue their market-making activities at any time without notice. Therefore, an active market for any of the notes may not develop or, if developed, it may not continue. The liquidity of any market for the notes will depend upon, among other things, the number of holders of the notes, our performance, the market for similar securities, the interest of securities dealers in making a market in the notes and other factors. A liquid trading market may not develop for the notes. If a market develops, the notes could trade at prices that may be lower than the initial offering price of the notes. If an active market does not develop or is not maintained, the price and liquidity of the notes may be adversely affected. Historically, the market for non-investment grade debt securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market, if any, for any of the notes may not be free from similar disruptions and any such disruptions may adversely affect the prices at which you may sell your notes.

A court could deem the issuance of the notes to be a fraudulent conveyance and void all or a portion of the obligations represented by the notes.

In a bankruptcy proceeding by Ally, a trustee, debtor in possession, or someone else acting on behalf of the bankruptcy estate may seek to recover transfers made or void obligations incurred prior to the bankruptcy proceeding on the basis that such transfers and obligations constituted fraudulent conveyances. Fraudulent conveyances are generally defined to include transfers made or obligations incurred for less than reasonably equivalent value or fair consideration when the debtor was insolvent, inadequately capitalized or in similar financial distress or that rendered the debtor insolvent, inadequately capitalized or unable to pay its debts as they become due, or transfers made or obligations incurred with the intent of hindering, delaying or defrauding current or future creditors. A trustee or such other parties may recover such transfers and avoid such obligations made within two years prior to the commencement of a bankruptcy proceeding. Furthermore, under certain circumstances, creditors may generally recover transfers or void obligations outside of bankruptcy under applicable fraudulent transfer laws, within the applicable limitation period, which are typically longer than two years. In bankruptcy, a representative of the estate may also assert such claims. If a court were to find that Ally issued the notes under circumstances constituting a fraudulent conveyance, the court could void all or a portion of the obligations under the notes. In addition, under such circumstances, the value of any consideration holders received with respect to the notes could also be subject to recovery from such holders and possibly from subsequent transferees.

Therefore, a note could be voided, or claims in respect of a note could be subordinated to all other debts of Ally, if Ally at the time it incurred the indebtedness evidenced by the notes received less than reasonably equivalent value or fair consideration for the issuance of the notes, and:

was insolvent or rendered insolvent by reason of such issuance or incurrence;

was engaged in a business or transaction for which Ally's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they mature.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a debtor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than all of its assets at fair valuation;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

We cannot assure you as to what standard a court would apply in determining whether Ally would be considered to be insolvent. If a court determined that Ally was insolvent after giving effect to the issuance of the new securities, it could void the notes, or potentially impose other forms of damages.

With respect to certain actions under the indenture governing the notes, holders of the notes will vote together as a single class with holders of all other debt securities issued under the indenture governing the notes that are adversely affected by such actions; therefore the voting interest of a holder of notes under the indenture with respect to such actions will be diluted.

For purposes of the indenture governing the notes, the notes offered hereby, the existing notes and all other debt securities issued thereunder will generally constitute a single class of debt securities. Therefore, any action under the indenture governing the notes other than those actions affecting only the notes will require the consent of the holders of not less than $66\frac{2}{3}\%$ in aggregate principal amount of the debt securities issued thereunder that are affected thereby. See Description of Notes Modification of the Indenture. Consequently, any action requiring the consent of holders of the notes under the indenture governing the notes may also require the consent of holders of a significant portion of the remaining debt securities issued thereunder, and the individual voting interest of each holder of the notes may be accordingly diluted with respect to such actions. In addition, holders of debt securities could vote in favor of certain actions under the indenture that holders of the notes vote against, and the requisite consent to such action could be received nonetheless. We also may, from time to time, issue additional debt secu
