CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The consolidated financial statements include Central Federal Corporation (the Holding Company) and its wholly owned subsidiaries, CFBank, Ghent Road, Inc., and Smith Ghent LLC, together with the Holding Company referred to as the Company. The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC) and in compliance with U.S. generally accepted accounting principles (GAAP). Because this report is based on an interim period, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted.

In the opinion of the management of the Company, the accompanying unaudited interim consolidated financial statements include all adjustments necessary for a fair presentation of the Company s financial condition and the results of operations for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed in this Form 10-Q. The financial performance reported for the Company for the six months ended June 30, 2012 is not necessarily indicative of the results that may be expected for the full year. This information should be read in conjunction with the Company s latest Annual Report to Stockholders and Form 10-K. Reference is made to the accounting policies of the Company described in Note 1 of the Notes to Consolidated Financial Statements contained in the Company s 2011 Annual Report that was filed as Exhibit 13.1 to the Company s Form 10-K for the year ended December 31, 2011. The Company has consistently followed those policies in preparing this Form 10-Q.

Reclassifications and Reverse Stock Split: Some items in the prior period financial statements were reclassified to conform to the current presentation. Reclassifications did not impact prior period net loss or total stockholders—equity. On May 4, 2012, the Company completed a 1-for-5 reverse stock split, whereby each 5 shares of the Company—s common stock were reclassified into one share of common stock. All share and per share amounts for all periods presented have been adjusted to reflect the reverse split as though it had occurred prior to the earliest period presented.

Earnings (Loss) Per Common Share: The two-class method is used in the calculation of basic and diluted earnings per share. Under the two-class method, earnings available to common stockholders for the period are allocated between common stockholders and participating securities (unvested share-based payment awards) according to dividends declared (or accumulated) and participation rights in undistributed earnings. The factors used in the earnings per share computation follow:

	Three months e	ended June 30, 2011	Six months en	ided June 30, 2011

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The following potential average common shares were anti-dilutive and not considered in computing diluted loss per common share because the Company reported a net loss for the periods presented.

	Three months er	ided June 30,	Six months ended June 30		
	2012	2011	2012	2011	
Stock options	42,116	44,756	42,116	44,756	
Stock warrant	67,314	67,314	67,314	67,314	

Adoption of New Accounting Standards:

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04 to Fair Value Measurement (ASC 820), *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.*This ASU amends existing guidance to achieve common fair value measurement and disclosure requirements between U.S. and international accounting principles. Overall, the guidance is consistent with existing U.S. accounting principles; however, there are some amendments that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The amendments in this guidance are effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of this ASU did not have a material impact on the Company s consolidated financial statements, but the additional disclosures are included in Note 6.

In June 2011, the FASB issued ASU No. 2011-05 to Comprehensive Income (ASC 220), *Presentation of Comprehensive Income*. This ASU amended existing guidance and eliminated the option to present the components of other comprehensive income as part of the statement of changes in stockholder s equity. The amendment requires that comprehensive income be presented in either a single continuous statement or in two separate consecutive statements. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and are to be applied retrospectively. The adoption of this amendment changed the presentation of the statement of comprehensive income for the Company to two consecutive statements instead of presented as part of the consolidated statement of stockholders equity.

In December 2011, the FASB issued ASU No. 2011-12 to Comprehensive Income (ASC 220), *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05.* This ASU amended the guidance in ASU 2011-05 related to the presentation of the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income. The amendments in this ASU are effective at the same time as the amendments in ASU 2011-05 so that entities will not be required to comply with the presentation requirements in ASU 2011-05 that this ASU is deferring. The amendments in this ASU are effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this ASU did not have a material impact on the Company s consolidated financial statements.

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 2 GOING CONCERN CONSIDERATIONS AND MANAGEMENT S PLANS

Going Concern Considerations:

The consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business for the foreseeable future. However, the events and circumstances described in this Note create substantial doubt about the Company s ability to continue as a going concern.

On May 25, 2011, the Holding Company and CFBank each consented to the issuance of an Order to Cease and Desist (the Holding Company Order and the CFBank Order, respectively, and collectively, the Orders) by the Office of Thrift Supervision (OTS), the primary regulator of the Holding Company and CFBank at the time the Orders were issued. In July 2011, in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), the Board of Governors of the Federal Reserve System (FED) replaced the OTS as the primary regulator of the Holding Company and the Office of the Comptroller of the Currency (OCC) replaced the OTS as the primary regulator of CFBank.

The Holding Company Order requires it, among other things, to: (i) submit by June 30, 2011 (and update by December 31, 2011 and every December 31 thereafter) a capital plan to regulators that establishes a minimum tangible capital ratio commensurate with the Holding Company s consolidated risk profile, reduces the risk from current debt levels and addresses the Holding Company s cash flow needs; (ii) not pay cash dividends, redeem stock or make any other capital distributions without prior regulatory approval; (iii) not pay interest or principal on any debt or increase any Holding Company debt or guarantee the debt of any entity without prior regulatory approval; (iv) obtain prior regulatory approval for changes in directors and senior executive officers; and (v) not enter into any new contractual arrangement related to compensation or benefits with any director or senior executive officer without prior notification to regulators.

The CFBank Order requires it, among other things, to: (i) have by September 30, 2011, and maintain thereafter, 8% core capital and 12% total risk-based capital, after establishing an adequate allowance for loan and lease losses; (ii) submit by June 30, 2011 (and update by December 31, 2011 and every December 31 thereafter) a capital and business plan to regulators that describes strategies to meet these required capital ratios and contains operating strategies to achieve realistic core earnings; (iii) submit a contingency plan providing for a merger or voluntary dissolution of CFBank if capital does not reach the required levels, which requirement was extended by the OCC until the earlier of 15 days after termination of the stock offering or January 31, 2012, and a further extension of this date has been requested of the OCC; (iv) not originate, participate in or acquire any nonresidential real estate loans or commercial loans without regulatory approval, which prohibition was waived by OCC on November 9, 2011 subject to certain Board approval conditions, loan policies and credit administration procedures; (v) adopt a revised credit administration policy, problem asset reduction plan, management succession plan and liquidity management policy; (vi) limit asset growth to net interest credited on deposit liabilities absent prior regulatory approval for additional growth; (vii) not pay cash dividends or make any other capital distributions without prior regulatory approval; (viii) obtain prior regulatory approval for changes in directors and senior executive officers; (ix) not enter into any new contractual arrangement related to compensation or benefits with any director or senior executive officer without prior notification to regulators; (x) not enter into any significant arrangement or contract with a third party service provider without prior regulatory approval; and (xi) comply with the Federal Deposit Insurance Corporation (FDIC) limits on brokered deposits. As a result of the CFBank Order, CFBank is consid

The Company has been unprofitable for over the past three years and, unless additional capital is infused into the Holding Company and CFBank, it is unlikely that we will be able to generate profits in the future. This would cause our capital levels to continue to erode. If that happens, the regulators could take additional enforcement action against us, including the imposition of further operating restrictions. The regulators could also direct us to seek a merger partner, liquidate CFBank or be placed into receivership.

The Holding Company is significantly dependent on dividends from CFBank to provide the liquidity necessary to meet its obligations. As of June 30, 2012, pursuant to the CFBank Order, CFBank may not declare or pay dividends or make any other capital distributions without receiving the prior written approval of the OCC. Future dividend payments by CFBank to the Holding Company would be based on future earnings and the approval of the OCC. The payment of dividends from CFBank to the Holding Company is not likely to be approved by the

Edgar Filing: CENTRAL FEDERAL CORP - Form 10-Q

OCC while CFBank is suffering significant losses.

11

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 2 GOING CONCERN CONSIDERATIONS AND MANAGEMENT S PLANS (continued)

The significant directives contained in the Orders, including higher capital requirements, requirements to reduce the level of our criticized and classified assets, growth and operating restrictions, restrictions on brokered deposits, restrictions on certain types of lending and restrictions on dividend payments have impeded and may further impede our ability to operate our business and to effectively compete in our markets. In addition, the regulators must approve any deviation from our business plan, which could limit our ability to make any changes to our business and could negatively impact the scope and flexibility of our business activities.

The requirements of the Orders will remain in effect until terminated, modified or suspended by regulators.

Management s Plans:

The Company announced the terms of a registered common stock offering of up to \$30,000 on August 9, 2011. The registered common stock offering consisted of a \$24,965 rights offering and a \$5,035 offering to a group of standby purchasers. Under the terms of the rights offering, all record holders of the Company s common stock as of February 8, 2012 received, at no charge, one subscription right for each share of common stock held as of the record date, which was prior to the 1 for 5 reverse stock split effective May 4, 2012. Each subscription right entitled the holder of the right to purchase 6.0474 shares of Company common stock (pre-split) at a subscription price of \$1.00 per share (pre-split). Shares were also available to the public at \$1.00 per share. In addition, for each three shares of company stock purchased, purchasers were to receive, at no charge, one warrant to purchase one additional share of common stock at a purchase price of \$1.00 per share. The warrants were to be exercisable for three years. The Company had separately entered into a series of standby purchase agreements with a group of investors led by Timothy T. O Dell, Thad R. Perry and Robert E. Hoeweler. Under the standby purchase agreements, the standby purchasers were to acquire 5.0 million shares of Company common stock at a price of \$1.00 per share and receive warrants with the same terms and conditions as all purchasers in the rights offering. The standby purchasers had conditioned their purchase of shares of common stock upon the receipt by the Company of at least \$16,500 in net proceeds from the rights offering. The registration statement related to the rights offering is on file with the SEC and became effective on February 8, 2012.

The Company suspended this offering and returned all subscriptions received. The Company modified the terms of the offering and filed post-effective amendments to its registration statement with the SEC, which was declared effective on June 14, 2012.

The terms of the restructured registered common stock offering were as follows: a rights offering of up to \$18,000 and a \$4,500 offering to a group of standby purchasers, as well as a public offering of any unsold shares. Under the terms of the rights offering, all holders of the Company's common stock as of the record date, June 14, 2012, received, at no charge, one subscription right for each share of common stock held as of the record date, which was after the 1 for 5 reverse stock split effective May 4, 2012. Each subscription right entitled the holder of the right to purchase 14.5329 shares of Company common stock (post-split) at a subscription price of \$1.50 per share (post-split). The rights offering period expired on July 16, 2012, and unsubscribed shares were made available to the public beginning on July 17, 2012 at \$1.50 per share. The public offering of unsubscribed shares of common stock will end on or before August 14, 2012. The Company separately entered into a series of standby purchase agreements with a group of investors led by Timothy T. O Dell, Thad R. Perry and Robert E. Hoeweler. Under the standby purchase agreements, the standby purchasers will acquire 3.0 million shares of Company common stock at a price of \$1.50 per share. The standby purchasers have conditioned their purchase of shares of common stock upon the receipt by the Company of at least \$13,500 in net proceeds from the rights offering and public offering.

A portion of the proceeds from the restructured registered common stock offering is expected to be retained by the Holding Company for general corporate purposes and is estimated to be sufficient to support the Holding Company s cash requirements. Given the uncertainty surrounding CFBank s future ability to pay dividends to the Holding Company, the current levels of problem assets, the continuing depressed economy and the longer periods of time necessary to work out problem assets in the current economy, the Board of Directors and management are relying on completion of the restructured registered common stock offering to provide additional funding to support the Holding Company s working capital

Edgar Filing: CENTRAL FEDERAL CORP - Form 10-Q

needs. Should the restructured registered common stock offering be unsuccessful, there can be no assurance that additional funding sources will be available, which would have a material adverse impact on our financial condition.

12

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 2 GOING CONCERN CONSIDERATIONS AND MANAGEMENT S PLANS (continued)

Without additional capital, it is unlikely that the Holding Company will have sufficient liquidity to continue to meet its operating expenses as they become due. This could result in the Holding Company being subject to additional regulatory restrictions which could ultimately result in the Holding Company being instructed to seek a merger partner, liquidate CFBank or be placed into receivership.

The Holding Company s available cash at June 30, 2012 is believed by management to be sufficient to cover operating expenses and expenses in connection with the restructured registered common stock offering, at their current projected levels, through approximately December 31, 2012. No assurance can be given that operating expenses, including expenses in connection with the registered common stock offering, will not increase from their current projected levels. As a result, there can be no assurance of the sufficiency of the Holding Company s cash through December 31, 2012. The Board of Directors elected to defer scheduled dividend payments related to the Preferred Stock, as defined in Note 11 to these consolidated financial statements, beginning with the November 15, 2010 payment, and the interest payments on the subordinated debentures beginning with the December 30, 2010 payment, in order to preserve cash at the Holding Company. The Company expects that the Board will also elect to defer future payments until the Company is recapitalized. Pursuant to the Holding Company Order, the Holding Company may not pay dividends on the Preferred Stock or interest on the subordinated debentures without the prior written notice to and written non-objection from the FED.

As of June 30, 2012, the Company had incurred and paid \$1.2 million in costs related to the registered common stock offering that are included in other assets in the consolidated balance sheet. Costs related to the registered common stock offering incurred and paid by the Holding Company totaled \$452,000 and those incurred and paid by CFBank totaled \$768,000 as of June 30, 2012. The Company expects to incur additional costs prior to completion of the restructured stock offering. In the event the restructured registered common stock offering is not successful, these costs will be charged against current operations and will have a negative impact on earnings.

Because CFBank is no longer considered to be well-capitalized for regulatory purposes, it is prohibited from accepting or renewing brokered deposits, including reciprocal deposits in the Certificate of Deposit Account Registry Service® (CDARS) program, without FDIC approval. CFBank received limited waivers from the prohibition on renewal of reciprocal CDARS deposits from the FDIC, each for 90 day periods which expired on September 20, 2011, December 19, 2011, March 18, 2012, June 16, 2012 and a current limited waiver which expires on September 14, 2012. The current limited waiver allows CFBank to roll over or renew core deposits in the reciprocal CDARS program that have yet to mature or have matured and remained with CFBank between June 17, 2012 and September 14, 2012. Management intends to submit additional requests for waivers in the future; however, there can be no assurance that the requests will be granted by the FDIC or that customers will roll over or renew their CDARS deposits even if CFBank is granted additional waivers.

The prohibition on brokered deposits significantly limits CFBank s ability to participate in the CDARS program and impacts CFBank s liquidity management. As a result of the losses in 2009, 2010 and the first quarter of 2011, management had been concerned that CFBank would be restricted from accepting or renewing brokered deposits, in addition to other regulatory restrictions, and moved aggressively in 2011, prior to receipt of the CFBank Order, to build on-balance-sheet liquidity to deal with scheduled brokered deposit maturities and the potential impact of other regulatory restrictions on liquidity. At June 30, 2012, CFBank had \$43,335 in brokered deposits with maturity dates from July 2012 through August 2016. At June 30, 2012, cash, unpledged securities and deposits in other financial institutions totaled \$56,194, which was sufficient to cover all brokered deposit maturities. Brokered deposit maturities over the next five years are as follows:

June 30, 2013	\$ 18,942

NOTE 3 SECURITIES

The following table summarizes the amortized cost and fair value of the available-for-sale securities portfolio at June 30, 2012 and December 31, 2011 and the corresponding amounts of unrealized gains and losses recognized in accumulated other comprehensive income (loss):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2012				
Issued by U.S. government-sponsored entities and agencies:				
Mortgage-backed securities residential	\$ 1,655	\$ 100	\$	\$ 1,755
Collateralized mortgage obligations	15,326	231		15,557
Total	\$ 16,981	\$ 331	\$	\$ 17,312
		Gross	Gross	
	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
December 31, 2011				
Issued by U.S. government-sponsored entities and agencies:				
Mortgage-backed securities residential	\$ 1,475	\$ 198	\$	\$ 1,673
Collateralized mortgage obligations	16,655	204	16	16,843
Total	\$ 18,130	\$ 402	\$ 16	\$ 18,516

There was no other-than-temporary impairment recognized in accumulated other comprehensive income (loss) for securities available for sale at June 30, 2012 or December 31, 2011.

The proceeds from the sales of securities for the three and six months ended June 30, 2012 are listed below. There were no proceeds from sales for the three and six months ended June 30, 2011.

	Three months ended June 30, 2012	Six months ended June 30, 2012
Proceeds	\$ 2,144	\$ 2,144
Gross gains	143	143
Gross losses		
Tax effect expense	\$	\$

At June 30, 2012 and December 31, 2011, there were no debt securities contractually due at a single maturity date. The amortized cost and fair value of mortgage-backed securities and collateralized mortgage obligations which are not due at a single maturity date, totaled \$16,981 and

Edgar Filing: CENTRAL FEDERAL CORP - Form 10-Q

\$17,312 at June 30, 2012, respectively, and \$18,130 and \$18,516 at December 31, 2011, respectively.

15

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 3 SECURITIES (continued)

Fair value of securities pledged was as follows:

	June 30, 2012	2012 201 \$ 5,994 \$ 1,917 5,330			
Pledged as collateral for:					
FHLB advances	\$ 5,994	\$	9,336		
Public deposits	1,917		2,820		
Customer repurchase agreements	5,330		3,557		
Interest-rate swaps	1,770		1,464		
Total	\$ 15,011	\$	17,177		

At June 30, 2012 and December 31, 2011, there were no holdings of securities of any one issuer, other than U.S. government-sponsored entities and agencies, in an amount greater than 10% of stockholders equity.

There were no securities with unrealized losses at June 30, 2012. The following table summarizes securities with unrealized losses at December 31, 2011 aggregated by major security type and length of time in a continuous unrealized loss position.

				12 N	Months or			
December 31, 2011	Less than	12 Mor	nths		More	T	otal	
	Fair	Unre	alized	Fair	Unrealized	Fair	Unre	alized
Description of Securities	Value	Lo	oss	Value	Loss	Value	L	oss
Issued by U.S. government-sponsored entities and agencies:								
Collateralized mortgage obligations	\$ 2,882	\$	16	\$	\$	\$ 2,882	\$	16
Total temporarily impaired	\$ 2,882	\$	16	\$	\$	\$ 2,882	\$	16

The unrealized loss at December 31, 2011 is related to two Ginnie Mae collateralized mortgage obligations. These securities carry the full faith and credit guarantee of the U.S. government. Because the decline in fair value is attributable to changes in market conditions, and not credit quality, and because the Company does not have the intent to sell these securities and it is likely that it will not be required to sell these securities before their anticipated recovery, the Company did not consider these securities to be other-than-temporarily impaired at December 31, 2011.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 4 LOANS (continued)

The ALLL is a valuation allowance for probable incurred credit losses in the loan portfolio based on management s evaluation of various factors including past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions and other factors. A provision for loan losses is charged to operations based on management s periodic evaluation of these and other pertinent factors described in Note 1 of the Notes to Consolidated Financial Statements contained in the Company s 2011 Annual Report that was filed as Exhibit 13.1 to the Company s Form 10-K for the year ended December 31, 2011.

The following tables present the activity in the ALLL by portfolio segment for the three and six months ended June 30, 2012:

CENTRAL FEDERAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

NOTE 4 LOANS (continued)

Troubled Debt Restructurings (TDRs):

The Company has allocated \$915 and \$897 of specific reserves to loans whose terms have been modified in TDRs as of June 30, 2012 and December 31, 2011. The Company has not committed to lend additional amounts as of June 30, 2012 or December 31, 2011 to customers with outstanding loans that are classified as nonaccrual TDRs.

During the quarter ended June 30, 2012, the terms of one loan were modified as a TDR, where concessions were granted to a borrower experiencing financial difficulties. The modification of the terms of this non-owner occupied commercial real estate loan included an extension of the maturity date from May 31, 2012 to September 30, 2012 and required a \$50 principal repayment at the date of modification.

During the six months ended June 30, 2012, the terms of 2 loans were modified as TDRs, where concessions were granted to borrowers experiencing financial difficulties. In addition to the loan described in the preceding paragraph, one single-family residential loan was modified as a TDR during the six months ended June 30, 2012 and included a reduction in the stated interest rate of the loan from 10% to 5%, a waiver of a portion of the accrued and unpaid interest, addition of the remaining accrued and unpaid interest to the principal balance and extension of the maturity date from 2034 to 2042. This modification involved a reduction in the stated interest rate of the loan for a period of 30 years.

The following table presents loans modified as TDRs by class of loans during the three and six months ended June 30, 2012:

		Three month	ns ended Ju	ne 30, 2012			Six mont	ths ended Jun	e 30, 2012	
		Pre-Modi	fication	Post-Mo	dification		Pre-Mo	dification	Post-Mo	odification
	Number of	Outstanding	Recorded	Outstandin	g Recorded	Number of	Outstandi	ng Recorded	Outstandi	ng Recorded
	Loans	Investr	nent	Inves	tment	Loans	Inve	stment	Inve	estment
Real estate:										
Single-family residential		\$		\$		1	\$	132	\$	138
Commercial:										
Non-owner occupied	1		478		428	1		478		428
Total	1	\$	478	\$	428	2	\$	610	\$	566

The TDRs described resulted in a \$46 increase in the ALLL during the three and six months ended June 30, 2012 and did not result in a charge-off during the three and six months ended June 30, 2012.

There were no TDRs in payment default or that became nonperforming during the period ended June 30, 2012, that had been modified within the twelve months ended June 30, 2012. A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms, at which time the loan is re-evaluated to determine whether an impairment loss should be recognized, either through a write-off or specific valuation allowance, so that the loan is reported, net, at the present value of estimated future cash flows, or at the fair value of collateral, less cost to sell, if repayment is expected solely from the collateral.

The terms of certain other loans were modified during the six months ended June 30, 2012 that did not meet the definition of a TDR. These loans had a total recorded investment as of June 30, 2012 of \$5,448. The modification of these loans involved either a modification of the terms of a loan to borrowers who were not experiencing financial difficulties, a delay in a payment that was considered to be insignificant or there were no concessions granted.

NOTE 4 LOANS (continued)

In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company s internal underwriting policy.

There were no loans which were modified during the three or six months ended June 30, 2012 that did not meet the definition of a TDR due to a delay in payment that was considered to be insignificant.

Nonaccrual loans include loans that were modified and identified as TDRs and the loans are not performing. At June 30, 2012 and December 31, 2011, nonaccrual TDRs were as follows:

	June 30, 201	12 Dece	ember 31, 2011
Commercial	\$	\$	47
Real estate:			
Single-family residential	130	0	
Multi-family residential			2,527
Commercial:			
Owner occupied	410	0	446
•			
Total	\$ 540	0 \$	3,020

Nonaccrual loans at June 30, 2012 and December 31, 2011 do not include \$6,198 and \$4,597, respectively, of TDRs where customers have established a sustained period of repayment performance, generally six months, loans are current according to their modified terms and repayment of the remaining contractual payments is expected. These loans are included in total impaired loans.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, such as current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors. Management analyzes loans individually by classifying the loans as to credit risk. This analysis includes commercial, commercial real estate and multi-family residential real estate loans. Internal loan reviews for these loan types are performed at least annually, and more often for loans with higher credit risk. Adjustments to loan risk ratings are made based on the reviews and at any time information is received that may affect risk ratings. The following definitions are used for risk ratings:

<u>Special Mention</u>. Loans classified as special mention have a potential weakness that deserves management s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of CFBank s credit position at some future date.

<u>Substandard</u>. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that there will be some loss if the deficiencies are not corrected.

Edgar Filing: CENTRAL FEDERAL CORP - Form 10-Q

<u>Doubtful</u>. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

NOTE 4 LOANS (continued)

Loans not meeting the criteria to be classified into one of the above categories are considered to be not rated or pass-rated loans. Loans listed as not rated are primarily groups of homogeneous loans. Past due information is the primary credit indicator for groups of homogeneous loans. Loans listed as pass-rated loans are loans that are subject to internal loan reviews and are determined not to meet the criteria required to be classified as special mention, substandard or doubtful. The recorded investment in loans by risk category and by class of loans as of June 30, 2012 and based on the most recent analysis performed follows. There were no loans rated doubtful at June 30, 2012.

NOTE 5 FORECLOSED ASSETS

Foreclosed assets were as follows:

	June	30, 2012	Decemb	per 31, 2011
Real Estate:				
Single-family residential	\$	48	\$	
Commercial		3,436		3,509
Subtotal		3,484		3,509
Valuation allowance		(1,139)		(1,139)
Total	\$	2,345	\$	2,370

Activity in the valuation allowance was as follows:

	Three months	Three months ended June 30,		nded June 30,
	2012	2011	2012	2011
Beginning valuation allowance	\$ 1,139	\$	\$ 1,139	\$
Additions charged to expense	182	1,139	182	1,139
Direct write-downs	(182)		(182)	
Ending valuation allowance	\$ 1,139	\$ 1,139	\$ 1,139	\$ 1,139

Expenses related to foreclosed assets include:

	Three month	s ended June 30,	Six months	ended June 30,
	2012	2011	2012	2011
Net loss (gain) on sales	\$	\$	\$	\$
Provision for unrealized losses	182	1,139	182	1,139
Operating expenses, net of rental income	6	13	24	46
	\$ 188	\$ 1,152	\$ 206	\$ 1,185

Foreclosed assets at June 30, 2012 included one single-family residential property and five commercial real estate properties. Foreclosed assets at December 31, 2011 included three commercial real estate properties. The valuation allowance was established in the second quarter of 2011 due to a decline in real estate values on one of the commercial real estate properties, which is undeveloped commercial real estate located in Columbus, Ohio.

NOTE 6 FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 Significant unobservable inputs that reflect a company s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value:

<u>Securities available for sale</u>: The fair value of securities available for sale is determined using pricing models that vary based on asset class and include available trade, bid and other market information or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities relationship to other benchmark quoted securities (Level 2).

Loans held for sale, at fair value: Loans held for sale are carried at fair value, as determined by outstanding commitments from third party investors (Level 2).

Derivatives: The fair value of derivatives is based on valuation models using observable market data as of the measurement date (Level 2).

<u>Loan servicing rights</u>: On a quarterly basis, loan servicing rights are evaluated for impairment based on the fair value of the rights as compared to carrying amount. If the carrying amount of an individual tranche exceeds fair value, impairment is recorded on that tranche so that the servicing asset is carried at fair value. Fair value is determined at a tranche level based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model utilizes assumptions that market participants would use in estimating future net servicing income and that can be validated against available market data (Level 2).

Impaired loans: At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value generally receive specific allocations of the ALLL. For collateral dependent loans, fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower s financial statements, or aging reports, adjusted or discounted based on management s historical knowledge, changes in market conditions from the time of the valuation, and management s expertise and knowledge of the client and client s business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

<u>Foreclosed assets</u>: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to

Edgar Filing: CENTRAL FEDERAL CORP - Form 10-Q

adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

NOTE 6 FAIR VALUE (continued)

The Company had no assets or liabilities measured at fair value on a non-recurring basis that were measured using Level 1 inputs at June 30, 2012 or December 31, 2011.

Impaired loan servicing rights, which are carried at fair value, were \$1, which was made up of the amortized cost of \$2, net of a valuation allowance of \$1 at June 30, 2012. At December 31, 2011, impaired loan servicing rights, which are carried at fair value, were \$9, which was made up of the amortized cost of \$11, net of a valuation allowance of \$2. There was a \$1 charge against earnings with respect to servicing rights for the three months ended June 30, 2012, and a \$1 increase in earnings for the six months ended June 30, 2012. There was a \$1 increase in earnings with respect to servicing rights for the three months ended June 30, 2011, and a \$3 increase in earnings for the six months ended June 30, 2011.

Impaired loans carried at the fair value of the collateral for collateral dependent loans, had an unpaid principal balance of \$8,836, and a fair value of \$6,528, with no valuation allowance at June 30, 2012. Impaired collateral dependent loans were written down to the fair value of collateral during the three and
