NOTICE OF THE ANNUAL MEETING OF SHAREHOLDERS

To Be Held May 7, 2013

Notice is hereby given that the Annual Meeting of Shareholders of Isabella Bank Corporation will be held on Tuesday, May 7, 2013 at 5:00 p.m. Eastern Daylight Time, at the Comfort Inn, 2424 S. Mission Street, Mt. Pleasant, Michigan. The meeting is for the purpose of considering and acting upon the following items of business:

1. The election of four directors.
2. To transact such other business as may properly come before the meeting, or any adjournment or adjournments thereof.

The Board of Directors has fixed March 26, 2013 as the record date for determination of shareholders entitled to notice of, and to vote at, the meeting or any adjournments thereof.

Your vote is important. Even if you plan to attend the meeting, please date and sign the enclosed proxy form, indicate your choice with respect to the matters to be voted upon, and return it promptly in the enclosed envelope. Note that if stock is held in more than one name, all parties should sign the proxy form.

By order of the Board of Directors

Debra Campbell, Secretary

Dated: April 11, 2013

Mt. Pleasant, Michigan 48858

PROXY STATEMENT

General Information

As used in this Proxy Statement, references to the Corporation, we, our, us, and similar terms refer solely to the parent holding company, Isabella Bank Corporation. References to the Consolidated Corporation refer to consolidated entity consisting of Isabella Bank Corporation and its subsidiaries, and references to Isabella Bank or the Bank refer to Isabella Bank Corporation's subsidiary, Isabella Bank.

This Proxy Statement is furnished in connection with the solicitation of proxies, to be voted at our Annual Meeting of Shareholders (the Annual Meeting) which is to be held on Tuesday, May 7, 2013 at 5:00 p.m. at the Comfort Inn, 2424 S. Mission Street, Mt. Pleasant, Michigan, or at any adjournment or adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders and in this Proxy Statement.

This Proxy Statement has been mailed on April 11, 2013 to all holders of record of common stock as of the record date. If a shareholder's shares are held in the name of a broker, bank or other nominee, then that party should give the shareholder instructions for voting the shareholder's shares.

Voting at the Meeting

We have fixed the close of business on March 26, 2013 as the record date for the determination of shareholders entitled to notice of, and to vote at, the Annual Meeting and any adjournment thereof. We have only one class of common stock and no preferred stock. As of March 26, 2013, there were 7,670,669 shares of stock outstanding. Each outstanding share entitles the holder thereof to one vote on each separate matter presented for vote at the meeting. You may vote on matters that are properly presented at the Annual Meeting by either attending the meeting and casting a vote, or by signing and returning the enclosed proxy. If the enclosed proxy is executed and returned, it may be revoked by you at any time before it is exercised at the Annual Meeting. You are encouraged to date and sign the enclosed proxy, indicate your choice, and return it to us.

We will hold the Annual Meeting if a majority of the shares of common stock entitled to vote are represented in person or by proxy. If you sign and return the proxy, those shares will be counted to determine if there is a quorum, even if you abstain or fail to vote on any of the proposals.

Your broker may not vote on the election of directors if you do not furnish instructions for such proposals. You should use the voting instruction card provided by us to instruct the broker to vote the shares, or else your shares will be considered broker non-votes. Broker non-votes are shares held by brokers or nominees as to which voting instructions have not been received from the shares' beneficial owner or the individual entitled to vote those shares and the broker or nominee does not have discretionary voting power under rules applicable to broker-dealers. Under these rules, Proposal 1 is not an item on which brokerage firms may vote in their discretion on your behalf unless you have furnished voting instructions.

At this year's Annual Meeting, you will elect four directors to serve for a term of three years. You may vote in favor, against, or withhold votes for any or all nominees. Directors are elected by a plurality of the votes cast at the annual meeting. Shares not voted, including broker non-votes, have no effect on the elections.

Proposal 1-Election of Directors

On December 19, 2012, James C. Fabiano and Dale D. Weburg retired from the Board of Directors (the Board) and the number of directors was reduced to 12. The Board is divided into three classes, with the directors in each class being elected for a term of three years. At the Annual Meeting, Thomas L. Kleinhardt, Joseph LaFramboise, Wilson C. Lauer, and Sarah R. Opperman, whose terms expire at the Annual Meeting, have been nominated for election through 2016 for the reasons described below.

Table of Contents

Except as otherwise specified, proxies will be voted for election of the four nominees. If a nominee becomes unable or unwilling to serve, proxies will be voted for such other person, if any, as shall be designated. However, we know of no reason to anticipate that this will occur. The four nominees who receive the greatest number of votes cast will be elected directors. Each of the nominees has agreed to serve as a director if elected.

Nominees and current directors, including their principal occupation for the last five or more years, age, and length of service as a director, are listed below.

We unanimously recommend that you vote FOR the election of each of the nominees.

Director Qualifications

Board members are highly qualified and represent your best interests. We select nominees who:

Have extensive business leadership

Bring a diverse perspective and experience

Are independent and collegial

Have high ethical standards and have demonstrated sound business judgment

Are willing and able to commit the significant time and effort to effectively fulfill their responsibilities

Are active in and knowledgeable of their respective communities

Each nominee and current director possess these qualities and provides a diverse complement of specific business skills, experience, and knowledge including extensive financial and accounting experience, knowledge of banking, small business operating experience, and specific knowledge of customer market segments including agriculture, oil and gas, health care, manufacturing, and retail.

The following describes the key qualifications each director brings to the Board, in addition to the general qualifications described above and the information included in the biographical summaries provided below.

Director	Professional Standing in Chosen Field	Expertise in financial or related field	Audit Committee Expertise	Civic involvement	Leadership and team building skills	Diversity by race, gender, cultural diversity	Geographical diversity	Finance	Tech-nology	Market-ing	Gov-ernance	Entre-preneurial skills	Human Resources	Bank business segment representation

C Chairperson

O Ex-Officio

Director Nominees for Terms Ending in 2016

Thomas L. Kleinhardt (age 58) has been a director of the Bank since 1998 and was appointed to the Board effective January 1, 2010.

Mr. Kleinhardt is President of McGuire Chevrolet, is active in the Clare Kiwanis Club, and coaches the girls Varsity Basketball team at Farwell High School.

Joseph LaFramboise (age 63) has been a director of the Bank since 2007, and was appointed to the Board effective January 1, 2010. He is a retired Sales and Marketing Executive of Ford Motor Company. Mr. LaFramboise is an Ambassador of Eagle Village in Evart, Michigan.

Wilson C. Lauer (age 63) was appointed to the Board on July 1, 2012. Mr. Lauer has served as a director for the Isabella Bank-Breckenridge Division Board since 1997 and owns Lauer Farms LLC, a 2,500 acre cash crop business. Mr. Lauer has served several different community organizations including the Ithaca School District Board, the Gratiot Economic Development Board, and Farm Bureau's County and State Policy Development Committees.

Sarah R. Opperman (age 53) was appointed to the Board on July 1, 2012. Ms. Opperman is the owner of Opperman Consulting, LLC, which provides public affairs counsel for corporate clients. She was previously employed for 28 years by The Dow Chemical Company, where she held leadership roles in public and government affairs. She was inducted into the CMU Journalism Hall of Fame and is a recipient of the Dow Genesis Award for Excellence in People Development. Ms. Opperman serves on the CMU Board of Trustees, the CMU Research Corporation Board of Directors, and the MidMichigan Health Corporate Board of Directors.

Current Directors with Terms Ending in 2014

Dennis P. Angner (age 57) has been a director of the Corporation and the Bank since 2000. Mr. Angner has been principally employed by the Consolidated Corporation since 1984 and has served as President of the Corporation since December 30, 2001 and CFO since January 1, 2010. Mr. Angner served as Chief Executive Officer of the Corporation from December 30, 2001 through December 31, 2009. He is a past Chair of the Michigan Bankers Association and is currently serving as vice chairman of its taxation committee, is a member of the American Bankers Association Government Relations Council, and served on the Central Michigan American Red Cross board for over 20 years.

Table of Contents

Dr. Jeffrey J. Barnes (age 50) has been a director of the Bank since 2007 and of the Corporation since 2010. Dr. Barnes is a physician and shareholder in Lansing Ophthalmology PC. He is a former member of the Central Michigan Community Hospital Board of Directors.

G. Charles Hubscher (age 59) has been a director of the Bank since 2004 and of the Corporation since 2010. Mr. Hubscher is President of Hubscher and Son, Inc., a sand and gravel producer. He is a director of the National Stone and Gravel Association, the Michigan Aggregates Association, serves on the Board of Trustees for the Mt. Pleasant Area Community Foundation, and is a member of the Zoning Board of Appeals for Deerfield Township.

David J. Maness (age 59) has been a director of the Bank since 2003 and of the Corporation since 2004. Mr. Maness has served as chairman of the board for the Corporation and the Bank since 2010. He is President of Maness Petroleum, a geological and geophysical consulting services company. Mr. Maness is currently serving as a director for the Michigan Oil & Gas Association, and he previously served on the Mt. Pleasant Public Schools Board of Education.

W. Joseph Manifold (age 61) has been a director of the Corporation since 2003 and of the Bank since January 1, 2010. Mr. Manifold is CFO of Federal Broach Holdings LLC, a holding company which operates several manufacturing companies. Previously, he was a senior manager with Ernst & Young Certified Public Accounting firm working principally on external bank audits and was CFO of the Delfield Company. Prior to joining the Board, Mr. Manifold served on the Isabella Community Credit Union Board and was Chairman of the Mt. Pleasant Public Schools Board of Education.

Current Directors with Terms Ending in 2015

Richard J. Barz (age 64) has been a director of the Bank since 2000 and of the Corporation since 2002. Mr. Barz has been employed by the Consolidated Corporation since 1972 and has been Chief Executive Officer of the Corporation since 2010 and President and CEO of the Bank from 2001 to July 2012. Mr. Barz has been very active in community organizations and events. He is a past chairman of the Central Michigan Community Hospital Board of Directors, is the current chairman of the Middle Michigan Development Corporation Board of Directors, and serves on several boards and committees for Central Michigan University and various volunteer organizations throughout mid-Michigan.

Sandra L. Caul (age 69) has been a director of the Bank since 1994 and of the Corporation since 2005. Ms. Caul is Vice Chairperson of the Central Michigan Community Hospital Board of Directors, Chairperson of the Mid Michigan Community College Advisory Board, a board member for Central Michigan Community Mental Health Facilities, a member of the Central Michigan Health Advisory Board for Central Michigan University and Chairperson for the Central Michigan University College of Medicine regional division fund raising effort. She also sits on the board of the Central Michigan American Red Cross. Ms. Caul retired in January 2005 as a state representative of the Michigan State House of Representatives. Ms. Caul is a registered nurse.

W. Michael McGuire (age 63) has been a director of the Corporation since 2007 and of the Bank since January 1, 2010. Mr. McGuire is currently an attorney and the Director of the Office of the Corporate Secretary and Assistant Secretary of The Dow Chemical Company, a manufacturer of chemicals, plastics and agricultural products, headquartered in Midland, Michigan.

Each of the directors has been engaged in their stated professions for more than five years.

Other Named Executive Officers

Steven D. Pung (age 63), President of the Bank and a member of the Board of Directors of Financial Group Information Services (a wholly owned subsidiary of the Corporation) has been employed by the Bank since 1978. Timothy M. Miller (age 61), President of the Breckenridge Division of the Bank and a member of its Board of Directors, has been an employee of the Bank since 1985. David J. Reetz (age 52), Senior Vice President and Chief Lending Officer of the Bank, has been employed by the Bank since 1987.

All officers serve at the pleasure of the Board.

Table of Contents

Corporate Governance

Director Independence

We have adopted the director independence standards as defined under of the NASDAQ Stock Market Rules. We have determined that Jeffrey J. Barnes, Sandra L. Caul, G. Charles Hubscher, Thomas L. Kleinhardt, Joseph LaFramboise, Wilson C Lauer, David J. Maness, W. Joseph Manifold, W. Michael McGuire, and Sarah R. Opperman are independent directors. Former directors James C. Fabiano and Dale D. Weburg, who retired from the Board on December 19, 2012, were also determined to be independent directors. Richard J. Barz is not independent as he is employed as CEO of the Corporation. Dennis P. Angner is not independent as he is employed as President and CFO of the Corporation.

Board Leadership Structure and Risk Oversight

Our Governance policy provides that only directors who are deemed to be independent as set forth by NASDAQ and SEC rules are eligible to hold the office of chairperson. Additionally, the chairpersons of Board established committees must also be independent directors. It is our belief that having a separate chairperson and CEO best serves the interest of the shareholders. The Board elects its chairperson at the first Board meeting following the annual meeting. Independent members of the Board meet without inside directors at least twice per year.

Management is responsible for our day-to-day risk management and the Board's role is to engage in informed oversight. The Board utilizes committees to oversee risks associated with compensation and governance. Financial Group Information Services, our information processing subsidiary, is responsible for overseeing risks associated with information technology. The Isabella Bank Board of Directors is responsible for overseeing credit, investment, interest rate, and trust risks. The chairpersons of the respective boards or committees report on their activities on a regular basis.

Our Audit Committee is responsible for overseeing the integrity of our consolidated financial statements, the independent auditors' qualifications and independence, the performance of our internal audit function and those of independent auditors, our system of internal controls, our financial reporting and system of disclosure controls, and our compliance with legal and regulatory requirements and with our Code of Business Conduct and Ethics.

Committees of the Board of Directors and Meeting Attendance

The Board met 12 times during 2012. All incumbent directors attended 75% or more of the meetings held in 2012. The Board has an Audit Committee, a Nominating and Corporate Governance Committee, and a Compensation and Human Resource Committee.

Audit Committee

The Audit Committee is composed of independent directors. Information regarding the functions performed by the Committee, its membership, and the number of meetings held during the year, is set forth in the Report of the Audit Committee included elsewhere in this proxy statement. The Audit Committee is governed by a written charter approved by the Board, which is available on the Bank's website: www.isbellabank.com.

In accordance with the provisions of the Sarbanes-Oxley Act of 2002, directors Manifold and McGuire meet the requirements of Audit Committee Financial Expert and have been so designated. The Committee also consists of directors Barnes, Hubscher, LaFramboise, and Maness (ex-officio).

Nominating and Corporate Governance Committee

We have a standing Nominating and Corporate Governance Committee consisting of independent directors. The Committee consists of directors LaFramboise, Maness (ex-officio), Manifold, and McGuire. The Nominating and Corporate Governance Committee held one meeting in 2012, with all directors attending the

Table of Contents

meeting. The Board has approved a Nominating and Corporate Governance Committee Charter which is available on the Bank's website www.isabellabank.com.

The Nominating and Corporate Governance Committee is responsible for evaluating and recommending individuals for nomination to the Board for approval. The Committee in evaluating nominees, including incumbent directors and any nominees put forth by shareholders, considers business experience, skills, character, judgment, leadership experience, and their knowledge of the geographical markets, business segments or other criteria the Committee deems relevant and appropriate based on the current composition of the Board. The Committee considers diversity in identifying members with respect to our geographical markets served and the business experience of the nominee.

The Nominating and Corporate Governance Committee will consider, as potential nominees persons recommended by shareholders. Recommendations should be submitted in writing to the Secretary of the Corporation, 401 N. Main St., Mt. Pleasant, Michigan 48858 and include the shareholder's name, address and number of shares of the Corporation owned by the shareholder. The recommendation should also include the name, age, address and qualifications of the candidate. Recommendations for the 2014 Annual Meeting of Shareholders should be delivered no later than December 12, 2013. The Nominating and Corporate Governance Committee evaluates all potential director nominees in the same manner, whether the nominations are received from a shareholder, or otherwise.

Compensation and Human Resource Committee

The Compensation and Human Resource Committee is responsible for reviewing and recommending to the our Board the compensation of the Chief Executive Officer and other executive officers, benefit plans and the overall percentage increase in salaries. The committee consists of independent directors Maness, Barnes, Caul, Hubscher, Kleinhardt, LaFramboise, Lauer, Manifold, McGuire, and Opperman. The committee held two meetings during 2012 with all directors in attendance. This Committee is governed by a written charter approved by the Board that is available on the Bank's website www.isabellabank.com.

Communications with the Board

Shareholders may communicate with the Board by sending written communications to the attention of the Corporation's Secretary, Isabella Bank Corporation, 401 N. Main St., Mt. Pleasant, Michigan 48858. Communications will be forwarded to the Board or the appropriate committee, as soon as practicable.

Code of Ethics

Our Code of Business Conduct and Ethics, which is applicable to the CEO and CFO, is available on the Bank's website www.isabellabank.com.

Table of Contents

Report of the Audit Committee

The Audit Committee oversees the financial reporting process on behalf of the Board. The 2012 Committee consisted of directors Barnes, Hubscher, LaFramboise, Maness, Manifold, and McGuire.

The Audit Committee is responsible for pre-approving all auditing services and permitted non-audit services by our independent auditors, or any other auditing or accounting firm, if those fees are reasonably expected to exceed 5.0% of the current year agreed upon fee for independent audit services, except as noted below. The Audit Committee has established general guidelines for the permissible scope and nature of any permitted non-audit services in connection with its annual review of the audit plan and reviews the guidelines with the Board of Directors.

Management has the primary responsibility for the consolidated financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited consolidated financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the consolidated financial statements. The Audit Committee also reviewed with management and the independent auditors, management's assertion on the design and effectiveness of the Corporation's internal control over financial reporting as of December 31, 2012.

The Audit Committee reviewed with our independent auditors, who are responsible for expressing an opinion on the conformity of those audited consolidated financial statements with accounting principles generally accepted in the United States of America, their judgments as to the quality, not just the acceptability, of our accounting principles and such other matters as are required to be discussed with the Audit Committee by the standards of the Public Company Accounting Oversight Board (United States), including those described in AU Section 380

Communication with Audit Committees, as may be modified or supplemented. In addition, the Audit Committee has received the written disclosures and the letter from the independent auditors required by PCAOB Rule 3526, Communication with Audit Committees Concerning Independence, as may be modified or supplemented, and has discussed with the independent auditor the independent auditors' independence.

The Audit Committee discussed with our internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee meets with the internal and external independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting process. The Audit Committee held five meetings during 2012, and all committee members attended 75% or more of the meetings.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited consolidated financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the Securities and Exchange Commission. The Audit Committee has appointed Rehmann Robson LLC as the independent auditors for the 2013 audit.

Respectfully submitted,

W. Joseph Manifold, Audit Committee Chairperson

Jeffrey J. Barnes

G. Charles Hubscher

Joseph LaFramboise

David J. Maness

W. Michael McGuire

Table of Contents

Compensation Discussion and Analysis

The Compensation and Human Resource Committee is responsible for reviewing and recommending the compensation and benefits for the CEO, President and CFO, and executive officers. The Committee evaluates and approves our executive officer and senior management compensation plans, policies, and programs. The CEO, Richard J. Barz, conducts annual performance reviews for Named Executive Officers, excluding himself. Mr. Barz recommends an appropriate salary to the Committee based on the performance review and the officer's years of service along with competitive market data.

Compensation Objectives

The Committee considers asset growth with the safety and soundness objectives and earnings per share to be the primary ratios in measuring financial performance. Our philosophy is to maximize long-term return to shareholders consistent with safe and sound banking practices, while maintaining the commitment to superior customer and community service. We believe that the performance of executive officers in managing the business should be the basis for determining overall compensation. Consideration is also given to overall economic conditions and current competitive forces in the market place. The objectives of the Committee are to effectively balance salaries and potential compensation to an officer's individual management responsibilities and encourage each of them to realize their potential for future contributions. The objectives are designed to attract and retain high performing executive officers who will provide leadership while attaining earnings and performance goals.

What the Compensation Programs are Designed to Reward

Our compensation programs are designed to reward dedicated and conscientious employment, loyalty in terms of continued employment, attainment of job related goals and overall profitability. In measuring an executive officer's contributions, the Committee considers numerous factors including, among other things, our growth in terms of asset size and increase in earnings per share. In rewarding loyalty and long-term service, we provide attractive retirement benefits.

Review of Risks Associated with Compensation Plans

Based on an analysis conducted by management and reviewed by the Committee, we do not believe that compensation programs for employees are reasonably likely to have a material short or long term adverse effect on our operating results.

Use of Consultants

In 2012, the Committee directly engaged the services of Blanchard Consulting Group, an independent compensation consulting firm, to assist with a total compensation review for the top three executive officers of the Consolidated Corporation (CEO, President and CFO, and Bank President). Blanchard Consulting Group does not perform any additional services for us or any members of senior management. In addition, Blanchard Consulting Group does not have any other personal or business relationships with any Board members or officers. During 2011, the Committee did not employ any services of outside compensation or benefit consultants to assist it in compensation-related initiatives.

Elements of Compensation

Our executive compensation program has consisted primarily of base salary and benefits, annual performance incentives, benefits and perquisites, and participation in our retirement plans.

How Elements Fit into Overall Compensation Objectives

Individual elements of our compensation objectives are structured to reward strong financial performance, continued service, and to incentivize our leaders to excel in the future. We continually review our compensation objectives to ensure that they are sufficient to attract and retain exceptional officers.

Table of Contents

Why Each of the Elements of Compensation is Chosen and How We Determine Amounts for Each Element

Base Salaries, which include director fees for certain executive officers, are set to provide competitive levels of compensation to attract and retain officers with strong leadership skills. Each officer's performance, current compensation, and responsibilities are considered by the Committee when establishing base salaries. We also believe it is best to pay sufficient base salary because we believe an over-reliance on equity incentive compensation could potentially skew incentives toward short-term maximization of shareholder value as opposed to building long-term shareholder value. Competitive base salary encourages management to operate in a safe and sound manner even when incentive goals may prove unattainable.

The Committee's approach to determining the annual base salary of executive officers is to offer competitive salaries in comparison with other comparable financial institutions. The Committee utilized both an independent compensation consultant, Blanchard Consulting Group, and a survey prepared by the Michigan Bankers Association of similar sized Michigan based financial institutions. The independent compensation consultant established a benchmark peer group of 15 mid-west financial institutions in non-urban areas with comparable average assets size (\$900 million - \$2 billion), number of branch locations, return on average assets (year-ended 2011 ROAA of .38% or greater), and nonperforming assets. The Michigan Bankers Association 2012 compensation survey was based on the compensation information provided by these organizations for 2011. Specific factors used to decide where an executive officer's salary should be within the established range include the historical financial performance, financial performance outlook, years of service, and job performance. The Committee targeted total compensation for the CEO, the President & CFO, and Bank President to approximate the median of the range obtained from the Michigan Bankers Association compensation survey as well as any ranges obtained from the independent compensation consultant. Compensation for other named executive officers was based on the ranges provided by the Michigan Bankers Association survey.

Annual Performance Incentives are used to reward executive officers based on our overall financial performance. This element of the compensation program is included in the overall compensation in order to reward employees above and beyond their base salaries when our performance and profitability exceed established annual targets. The inclusion of this modest incentive encourages management to be creative and diligent in managing to achieve specific financial goals without incurring inordinate risks. Annual performance incentives paid in 2012 were determined by reference to seven performance measures that related to services performed in 2011. The maximum award that may be granted to each eligible employee equals 10% of the employee's base salary (the *Maximum Award*).

The payment of 35% of the Maximum Award (*personal performance goals*) is based on the achievement of goals set for each individual. An analysis is conducted by the CEO. The CEO makes a recommendation to the Committee for the appropriate amount for each individual executive officer. The Committee reviews, modifies if necessary, and approves the recommendations of the CEO. The Committee reviews the performance of the CEO. The Committee uses the following factors as quantitative measures of corporate performance in determining annual cash bonus amounts to be paid:

Peer group financial performance compensation

1 and 5 year shareholder returns

Earnings per share and earnings per share growth

Budgeted as compared to actual annual operating performance

Community and industry involvement

Results of audit and regulatory exams

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

Other strategic goals as established by the Board

Each of the executive officers who were eligible to participate in 2011 accomplished their personal performance goals and were accordingly paid 35% of the 2011 Maximum Award in 2012.

Table of Contents

The payment of the remaining 65% of the Maximum Award (corporate performance goals) was conditioned on the achievement of targets in the following six categories:

- (1) Earnings per share (weighted 40%).
- (2) Net operating expenses to average assets (weighted 15%).
- (3) Fully Taxable Equivalent (FTE) net interest margin, excluding loan fees (weighted 10%).
- (4) In-market deposit growth (weighted 10%).
- (5) Loan growth (weighted 15%).
- (6) Exceeding peer group return on average assets (weighted 10%).

The following chart provides the 2011 target for each corporate performance goal, as well as the performance attained for each target.

Target	2011 Targets				2011 Performance	Target % Obtained
	25.00%	50.00%	75.00%	100.00%		
Earning per share	\$ 1.31	\$ 1.33	\$ 1.35	\$ 1.37	\$ 1.39	100%
Net operating expenses to average assets	1.69%	1.68%	1.67%	1.64%	1.61%	100%
FTE Net Interest Margin	3.72%	3.74%	3.76%	3.78%	3.68%	0%
In market deposit growth	4.50%	5.00%	5.50%	6.00%	7.12%	100%
Loan growth	3.00%	3.50%	4.00%	4.50%	0.78%	0%
Exceeding peer group return on average assets	1.01%	1.04%	1.06%	1.09%	0.98%	0%

Benefits and Perquisites. Executive officers are eligible for all of the benefits made available to full-time employees (such as health insurance, group term life insurance and disability insurance) on the same basis as other full-time employees and are subject to the same sick leave and other employee policies.

We also provide our executive officers with certain additional perquisites, which we believe are appropriate in order to attract and retain the proper quality of talent for these positions and to recognize that similar executive perquisites are commonly offered by comparable financial institutions. We maintain a plan for qualified officers to provide death benefits to each participant. Insurance policies, designed primarily to fund death benefits, have been purchased on the life of each participant with the Bank as the sole owner and beneficiary of the policies. We believe that perquisites provided to our executive officers in 2012 represented a reasonable percentage of each executive's total compensation package and are consistent, in the aggregate, with perquisites provided to executive officers of comparable financial institutions. A description and the cost of these perquisites are included in footnotes 2 and 3 in the Summary Compensation Table appearing on page 12.

Retirement Plans. Our retirement plans are designed to assist executives in providing themselves with a financially secure retirement. The retirement plans include a 401(k) plan, a frozen defined benefit pension plan, a frozen non-leveraged employee stock ownership plan (ESOP), and a retirement bonus plan.

We have a 401(k) plan, in which substantially all employees are eligible to participate. Employees may contribute up to 50% of their compensation subject to certain limits based on federal tax laws. We provide an annual 3.0% of compensation safe harbor contribution for all eligible employees and matching contributions equal to 50% of the first 4.0% of an employee's compensation contributed to the plan during the

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

year. Employees are 100% vested in the safe harbor contributions and are 0% vested through their first two years of employment and are 100% vested after 6 years through a laddered vesting schedule of service for matching contributions.

Our defined benefit pension plan was curtailed effective March 1, 2007 and the current participants' accrued benefits were frozen as of that date. Participation in the plan was limited to eligible employees as of December 31, 2006.

Table of Contents

Our non-leveraged ESOP was frozen effective December 31, 2006 to new participants. Contributions to the plan are discretionary and approved by the Board.

The retirement bonus plan is a nonqualified plan of deferred compensation benefits for eligible employees effective January 1, 2007. Benefit amounts are determined pursuant to the payment schedule adopted at the sole and exclusive discretion of the Board.

Compensation and Human Resource Committee Report

The Compensation and Human Resource Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Corporation filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Corporation specifically incorporates this Report by reference therein.

The Compensation and Human Resource Committee, which includes all of the independent directors of the Board, has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of SEC Regulation S-K with management, and based on such review and discussion, the Compensation and Human Resource Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement and the Annual Report on Form 10-K.

Submitted by the Compensation and Human Resource Committee of the Board:

David J. Maness, Chairperson

Jeffrey J. Barnes

Sr. Vice President and CLO	2011	125,640	8,612	61,944	15,077	211,273
Isabella Bank	2010	123,910	9,165	36,429	13,694	183,198

- (1) Includes compensation voluntarily deferred under our 401(k) plan. Directors fees are also included, for calendar years 2012, 2011 and 2010 respectively as follows: Richard J. Barz \$51,325, \$50,225, and \$52,600; Dennis P. Angner \$51,325, \$49,625, and \$52,600; Steven D. Pung \$900, \$900, and \$900; and Timothy M. Miller \$10,400, \$10,650, and \$11,300.
- (2) Represents the aggregate non-cash change in the actuarial present value of the noted executive's accumulated benefit under the Isabella Bank Corporation Pension Plan for calendar years 2012, 2011, and 2010 as follows: Richard J. Barz \$83,000, \$143,000, and \$81,000; Dennis P. Angner \$64,000, \$109,000, and \$53,000; Steven D. Pung \$44,000, \$77,000, and \$42,000; Timothy M. Miller \$10,000, \$17,000, and \$9,000; David J. Reetz \$25,000, \$43,000 and \$19,000; this also includes the non-cash change in the Isabella Bank Corporation Retirement Bonus Plan for calendar years 2012, 2011, and 2010 as follows: Richard J. Barz \$40,578, \$38,143, and \$35,364; Dennis P. Angner \$67,266, \$54,672, and \$50,340; Steven D. Pung \$23,361, \$21,915, and \$20,288; and David J. Reetz \$20,361, \$18,944 and \$17,429.
- (3) For all named executives all other compensation includes 401(k) matching contributions. For Richard J. Barz, Steven D. Pung, and David J. Reetz this also includes club dues and auto allowance. For Dennis P. Angner and Timothy M. Miller, this also includes auto allowance.

Table of Contents**2012 Pension Benefits**

The following table indicates the present value of accumulated benefits as of December 31, 2012 for each named executive in the summary compensation table.

Name	Plan name	Number of years of vesting service as of 01/01/12 (#)	Present value of accumulated benefit (\$)	Payments during last fiscal year
Richard J. Barz	Isabella Bank Corporation Pension Plan	41	\$ 988,000	\$
	Isabella Bank Corporation Retirement Bonus Plan	41	349,652	
Dennis P. Angner	Isabella Bank Corporation Pension Plan	29	555,000	
	Isabella Bank Corporation Retirement Bonus Plan	29	397,471	
Steven D. Pung	Isabella Bank Corporation Pension Plan	34	505,000	
	Isabella Bank Corporation Retirement Bonus Plan	34	190,906	
Timothy M. Miller	Isabella Bank Corporation Pension Plan	12	106,000	
David J. Reetz	Isabella Bank Corporation Pension Plan	26	187,000	
	Isabella Bank Corporation Retirement Bonus Plan	26	129,683	

Defined benefit pension plan. We sponsor the Isabella Bank Corporation Pension Plan, a frozen defined benefit pension plan. The curtailment, which was effective March 1, 2007, froze the current participant's accrued benefits as of that date and limited participation in the plan to eligible employees as of December 31, 2006. Due to the curtailment of the plan, the number of years of credited service was frozen. As such, the years of credited service for the plan may differ from the participant's actual years of service.

Annual contributions are made to the plan as required by accepted actuarial principles, applicable federal tax laws, and to pay expenses related to operating and maintaining the plan. The amount of contributions on behalf of any one participant cannot be separately or individually computed.

Pension plan benefits are based on years of service and the employee's five highest consecutive years of compensation out of the last ten years of service, through December 31, 2006.

A participant may earn a benefit for up to 35 years of accredited service. Earned benefits are 100% vested after five years of service. Benefit payments normally start when a participant reaches age 65. A participant with more than five years of service may elect to take early retirement benefits anytime after reaching age 55. Benefits payable under early retirement are reduced actuarially for each month prior to age 65 in which benefits begin.

Dennis P. Angner, Richard J. Barz, Steven D. Pung, and Timothy M. Miller are eligible for early retirement under the plan. Under the provisions of the plan, participants are eligible for early retirement after reaching the age of 55 with at least 5 years of service. The early retirement benefit amount is the accrued benefit payable at normal retirement date reduced by 5/9% for each of the first 60 months and 5/18% for each of the next 60 months that the benefit commencement date precedes the normal retirement date.

Retirement bonus plan. We sponsor the Isabella Bank Corporation Retirement Bonus Plan. This nonqualified plan is intended to provide eligible employees with additional retirement benefits. To be eligible, the employee needed to be an employee on January 1, 2007, and be a participant in our frozen Executive Supplemental Income Agreement. Participants must also be an officer with at least 10 years of service as of December 31, 2006. We have sole and exclusive discretion to add new participants to the plan by authorizing such participation pursuant to action of the Board.

An initial amount was credited for each eligible employee as of January 1, 2007. Subsequent amounts have been credited on each allocation date thereafter as defined in the plan. The amount of the initial allocation and the annual allocation shall be determined pursuant to the payment schedule adopted at our sole and exclusive discretion, as set forth in the plan.

Richard J. Barz, Dennis P. Angner, and Steven D. Pung are eligible for early retirement under the plan. Under the provisions of the plan, participants are eligible for early retirement upon attaining 55 years of age. There is no difference between the calculation of benefits payable upon early retirement and normal retirement.

Table of Contents**2012 Nonqualified Deferred Compensation**

Name	Executive contributions in last FY (\$)	Aggregate earnings in last FY (\$)	Aggregate balance at last FYE (\$)
Richard J. Barz	\$ 30,012	\$ 6,695	\$ 195,952
Dennis P. Angner	38,225	8,870	259,060
Steven D. Pung	900	292	8,431
Timothy M. Miller	3,275	1,289	36,904
David J. Reetz	N/A	N/A	N/A

Directors are required to defer at least 25% of their earned board fees into the Directors Plan and may defer up to 100% of their earned fees based on their annual election. These amounts are reflected in the above table. Under the plan, these deferred fees are converted on a quarterly basis into shares of our common stock based on the fair market value of shares at that time. Shares credited to a participant's account are eligible for stock and cash dividends as paid.

Distribution from the plan occurs when the participant retires from the Board, attains age 70, or upon the occurrence of certain other events. Distributions must take the form of shares of our common stock. Any common stock issued under the plan will be considered restricted stock under the Securities Act of 1933, as amended.

Potential Payments Upon Termination or Change in Control

The estimated amounts payable to each named executive officer upon severance from employment, retirement, termination upon death or disability or termination following a change in control are described below. For all termination scenarios, the amounts assume such termination took place as of December 31, 2012.

Any Severance of Employment

Regardless of the manner in which a named executive officer's employment terminates, he or she is entitled to receive amounts earned during his or her term of employment. Such amounts include:

Amounts accrued and vested through the Defined Benefit Pension Plan.

Amounts accrued and vested through the Retirement Bonus Plan.

Amounts deferred in the Directors Plan.

Unused vacation pay.

Retirement

In the event of the retirement of an executive officer, the officer would receive the benefits identified above. As of December 31, 2012, the named executive officers listed had no unused vacation days.

Death or Disability

In the event of death or disability of an executive officer, in addition to the benefits listed above, the executive officer will also receive payments under our life insurance plan or under our disability plan as appropriate.

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

In addition to potential payments upon termination available to all employees, the estates for the executive officers listed below would receive the following payments upon death:

Name	While an Active Employee	Subsequent to Retirement
Richard J. Barz	\$ 690,000	\$ 345,000
Dennis P. Angner	612,000	306,000
Steven D. Pung	388,400	194,200
Timothy M. Miller	314,000	157,000
David J. Reetz	258,800	129,400

Table of Contents**Change in Control**

We currently do not have a change in control agreement with any of the executive officers; provided, however, pursuant to the Retirement Bonus Plan each participant would become 100% vested in their benefit under the plan if, following a change in control, they voluntarily terminate employment or are terminated without just cause.

Director Compensation

The following table summarizes the Compensation of each non-employee director who served on the Board during 2012.

Name	Fees earned or paid in cash (\$)
Jeffrey J. Barnes	27,825
Sandra L. Caul	34,225
James C. Fabiano	35,525
G. Charles Hubscher	32,925
Thomas L. Kleinhardt	38,425
Joseph LaFramboise	34,425
Wilson C. Lauer	20,975
David J. Maness	57,925
W. Joseph Manifold	30,025
W. Michael McGuire	37,625
Sarah R. Opperman	14,325
Dale D. Weburg	37,325

We paid \$1,350 per board meeting plus a retainer of \$6,000 to each member during 2012. Members of the Audit Committee were paid \$500 per audit committee meeting attended. Members of the Nominating and Corporate Governance Committee were paid \$200 per meeting attended. The chairperson of the Board is paid a retainer of \$39,000 and the chairperson for the Audit Committee is paid a retainer of \$4,000.

Pursuant to the Directors' Plan, directors are required to defer at least 25% of board fees into the plan. Under the Directors' Plan, deferred directors' fees are converted on a quarterly basis into shares of our common stock, based on the fair market value of a share of our common stock at that time. Shares of stock credited to a participant's account are eligible for cash and stock dividends as paid. Directors deferred \$458,893 under the Directors' Plan in 2012.

Upon a participant's attainment of age 70, retirement from the Board, or the occurrence of certain other events, they are eligible to receive a lump-sum, in-kind distribution of all of the stock that is then credited to their account. The plan does not allow for cash settlement. Stock issued under the Directors' Plan is restricted stock under the Securities Act of 1933, as amended.

We established a Rabbi Trust (the Trust) to fund the Directors' Plan. The Trust is an irrevocable grantor trust to which we may contribute assets for the limited purpose of funding a nonqualified deferred compensation plan. Although we may not reach the assets of the Trust for any purpose other than meeting its obligations under the Directors' Plan, the assets of the Trust remain subject to the claims of our creditors. We may contribute cash or common stock to the Trust from time to time for the sole purpose of funding the Directors' Plan. The Trust will use any cash that we may contribute to purchase shares of our common stock on the open market through our brokerage services department.

Table of Contents

We transferred \$459,193 to the Trust in 2012, which held 5,130 shares of our common stock for settlement as of December 31, 2012. As of December 31, 2012, there were 165,436 shares of stock credited to participants' accounts, which credits are unfunded as of such date to the extent that they are in excess of the stock and cash that has been credited to the Trust. All amounts are unsecured claims against our general assets. The net cost of this benefit was \$170,688 in 2012.

The following table displays the cumulative number of equity shares credited to the accounts of active directors pursuant to the terms of the Directors' Plan as of December 31, 2012:

Name	# of shares of stock credited
Dennis P. Angner	11,911
Jeffrey J. Barnes	5,914
Richard J. Barz	9,009
Sandra L. Caul	18,783
G. Charles Hubscher	9,079
Thomas L. Kleinhardt	15,358
Joseph LaFramboise	6,476
Wilson C. Lauer	1,501
David J. Maness	18,897
W. Joseph Manifold	11,291
W. Michael McGuire	6,512
Sarah R. Opperman	619

Compensation and Human Resource Committee Interlocks and Insider Participation

The Compensation and Human Resource Committee is responsible for reviewing and recommending the compensation of the CEO and other executive officers, benefit plans and the overall percentage increase in salaries. The committee consists of directors Maness, Barnes, Caul, Hubscher, Kleinhardt, LaFramboise, Lauer, Manifold, McGuire, and Opperman.

Indebtedness of and Transactions with Management

Certain directors and officers and members of their families were loan customers of the Bank, or have been directors or officers of corporations, members or managers of limited liability companies, or partners of partnerships which have had transactions with the Bank. In our opinion, all such transactions were made in the ordinary course of business and were substantially on the same terms, including collateral and interest rates, as those prevailing at the same time for comparable transactions with customers not related to the Bank. These transactions do not involve more than normal risk of collectability or present other unfavorable features. Total loans to these customers were approximately \$6,598,000 as of December 31, 2012. We address transactions with related parties in our Code of Business Conduct and Ethics Policy. Conflicts of interest are prohibited, except under board approved guidelines.

Security Ownership of Certain Beneficial Owners and Management

As of March 26, 2013, we do not have any person who is known to be the beneficial owner of more than 5% of our common stock.

Table of Contents

The following table sets forth certain information as of March 26, 2013 as to our common stock owned beneficially by each director and director nominee, by each named executive officer, and by all directors, director nominees and executive officers as a group. The shares to be credited under the Directors' Plan are not included in the table below.

Name of Owner	Amount and Nature of Beneficial Ownership			Percentage of Common Stock Outstanding
	Sole Voting and Investment Powers	Shared Voting or Investment Powers	Total Beneficial Ownership	
Dennis P. Angner*	19,378		19,378	0.25%
Jeffrey J. Barnes		6,040	6,040	0.08%
Richard J. Barz*	19,579		19,579	0.26%
Sandra L. Caul		10,609	10,609	0.14%
G. Charles Hubscher	29,865	3,646	33,511	0.44%
Thomas L. Kleinhardt		31,991	31,991	0.42%
Joseph LaFramboise	200	969	1,169	0.02%
Wilson C. Lauer	187		187	0.00%
David J. Maness	497	1,100	1,597	0.02%
W. Joseph Manifold	4,827		4,827	0.06%
W. Michael McGuire	116,462		116,462	1.52%
Timothy M. Miller	287	3,723	4,010	0.05%
Sarah R. Opperman	449		449	0.01%
Steven D. Pung	10,092	9,115	19,207	0.25%
David J. Reetz	9,100	187	9,287	0.12%
All Directors, nominees and Executive Officers as a Group (15) persons	210,923	67,380	278,303	3.64%

* Trustees of the ESOP who vote ESOP stock.

Independent Registered Public Accounting Firm

The Audit Committee has appointed Rehmann Robson LLC as our independent auditors for the year ending December 31, 2013.

A representative of Rehmann Robson LLC is expected to be present at the Annual Meeting to respond to appropriate questions from shareholders and to make any comments Rehmann Robson LLC believes are appropriate.

Fees for Professional Services Provided by Rehmann Robson LLC

The following table shows the aggregate fees billed by Rehmann Robson LLC for the audit and other services provided for 2012 and 2011.

	2012	2011
Audit fees	\$ 263,180	\$ 253,920
Audit related fees	28,250	17,510
Tax fees	25,950	20,175
Total	\$ 317,380	\$ 291,605

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

The audit fees were for performing the integrated audit of our consolidated annual financial statements and the internal control attestation report related to the Federal Deposit Insurance Corporation Improvement Act, review of interim quarterly financial statements included in our Forms 10-Q, and services that are normally provided by Rehmann Robson LLC in connection with statutory and regulatory filings or engagements.

Table of Contents

The audit related fees are typically for various discussions related to the adoption and interpretation of new accounting pronouncements. During 2012, this includes fees for procedures related to nonrecurring regulatory filings. Also included are fees for auditing of our employee benefit plans.

The tax fees were for the preparation of our state and federal tax returns and for consultation on various tax matters.

The Audit Committee has considered whether the services provided by Rehmann Robson LLC, other than the audit fees, are compatible with maintaining Rehmann Robson LLC's independence and believes that the other services provided are compatible.

Pre-Approval Policies and Procedures

All audit and non-audit services over \$5,000 to be performed by Rehmann Robson LLC must be approved in advance by the Audit Committee if those fees are reasonably expected to exceed 5.0% of the current year agreed upon fee for independent audit services. As permitted by the SEC's rules, the Audit Committee has authorized its chairperson to pre-approve audit, audit-related, tax and non-audit services, provided that such approved service is reported to the full Audit Committee at its next meeting.

As early as practicable in each calendar year, the independent auditor provides to the Audit Committee a schedule of the audit and other services that the independent auditor expects to provide or may provide during the next twelve months. The schedule will be specific as to the nature of the proposed services, the proposed fees, timing, and other details that the Audit Committee may request. The Audit Committee will by resolution authorize or decline the proposed services. Upon approval, this schedule will serve as the budget for fees by specific activity or service for the next twelve months.

A schedule of additional services proposed to be provided by the independent auditor, or proposed revisions to services already approved, along with associated proposed fees, may be presented to the Audit Committee for their consideration and approval at any time. The schedule will be specific as to the nature of the proposed service, the proposed fee, and other details that the Audit Committee may request. The Audit Committee will by resolution authorize or decline authorization for each proposed new service.

Applicable SEC rules and regulations permit waiver of the pre-approval requirements for services other than audit, review or attest services if certain conditions are met. Out of the services characterized above as audit-related, tax and professional services, none were billed pursuant to these provisions in 2012 and 2011 without pre-approval.

Shareholder Proposals

Any proposals which you intend to present at the next annual meeting must be received before December 12, 2013 to be considered for inclusion in our proxy statement and proxy for that meeting. Proposals should be made in accordance with Securities and Exchange Commission Rule 14a-8.

Directors Attendance at the Annual Meeting of Shareholders

Our directors are encouraged to attend the annual meeting of shareholders. At the 2012 annual meeting, all directors were in attendance.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and certain officers and persons who own more than 10% of our common stock, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock. These officers, directors, and greater than 10% shareholders are required by SEC regulation to furnish us with copies of these reports.

Table of Contents

To our knowledge, based solely on review of the copies of such reports furnished, during the year ended December 31, 2012 all Section 16(a) filing requirements were satisfied, with respect to the applicable officers, directors, and greater than 10% beneficial owners with the exception of directors Lauer and Opperman. Directors Lauer and Opperman did not file their Form 3s, which were due on July 16, 2012, until July 19, 2012.

Other Matters

We will bear the cost of soliciting proxies. In addition to solicitation by mail, officers and other employees may solicit proxies by telephone or in person, without compensation other than their regular compensation.

As to Other Business Which May Come Before the Meeting

We do not intend to bring any other business before the meeting for action. However, if any other business should be presented for action, it is the intention of the persons named in the enclosed form of proxy to vote in accordance with their judgment on such business.

By order of the Board of Directors

Debra Campbell, Secretary

Report of Independent Registered Public Accounting Firm

Shareholders and Board of Directors

Isabella Bank Corporation

Mount Pleasant, Michigan

We have audited the accompanying consolidated balance sheets of *Isabella Bank Corporation* as of December 31, 2012 and 2011, and the related consolidated statements of changes in shareholders' equity, income, comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2012. We also have audited *Isabella Bank Corporation*'s internal control over financial reporting as of December 31, 2012, based on criteria established in the *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). *Isabella Bank Corporation*'s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on these consolidated financial statements and an opinion on the effectiveness of *Isabella Bank Corporation*'s internal control over financial reporting, based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material misstatement exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. We believe that our audits provide a reasonable basis for our opinion.

A corporation's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A corporation's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the corporation; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the corporation are being made only in accordance with authorizations of management and directors of the corporation; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the corporation's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of *Isabella Bank Corporation* as of December 31, 2012 and 2011, and the consolidated results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion *Isabella Bank Corporation* maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in the *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share amounts)

NOTE 1 NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION AND CONSOLIDATION: The consolidated financial statements include the accounts of Isabella Bank Corporation, a financial services holding company, and its wholly owned subsidiaries, Isabella Bank and Financial Group Information Services. All intercompany balances and accounts have been eliminated in consolidation.

NATURE OF OPERATIONS: Isabella Bank Corporation is a financial services holding company offering a wide array of financial products and services in several mid-Michigan counties. Our banking subsidiary, Isabella Bank, offers banking services through 26 locations, 24 hour banking services locally and nationally through shared automatic teller machines, 24 hour online banking, and direct deposits to businesses, institutions, and individuals. Lending services offered include commercial loans, agricultural loans, residential real estate loans, and consumer loans. Deposit services include interest and noninterest bearing checking accounts, savings accounts, money market accounts, and certificates of deposit. Other related financial products include trust and investment services, safe deposit box rentals, and credit life insurance. Active competition, principally from other commercial banks, savings banks and credit unions, exists in all of our principal markets. Our results of operations can be significantly affected by changes in interest rates or changes in the local economic environment.

Financial Group Information Services provides information technology services to Isabella Bank Corporation and our subsidiaries.

USE OF ESTIMATES: In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated balance sheet and reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates.

Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the ALLL, the fair value of certain AFS investment securities, the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans, valuation of goodwill and other intangible assets, and determinations of assumptions in accounting for the defined benefit pension plan.

FAIR VALUE MEASUREMENTS: Fair value refers to the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants in the market in which the reporting entity transacts such sales or transfers based on the assumptions market participants would use when pricing an asset or liability. Assumptions are developed based on prioritizing information within a fair value hierarchy that gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data, such as the reporting entity's own data. We may choose to measure eligible items at fair value at specified election dates. Unrealized gains and losses on items for which the fair value measurement option has been elected are reported in earnings at each subsequent reporting date. The fair value option (i) may be applied instrument by instrument, with certain exceptions, allowing us to record identical financial assets and liabilities at fair value or by another measurement basis permitted under generally accepted accounting principles, (ii) is irrevocable (unless a new election date occurs) and (iii) is applied only to entire instruments and not to portions of instruments.

For assets and liabilities recorded at fair value, it is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements for those financial instruments for which there is an active market. In cases where the market for a financial asset or liability is not active, we include appropriate risk adjustments that market participants would make for nonperformance and liquidity risks when developing fair value measurements. Fair value measurements for assets and liabilities for

Table of Contents

which limited or no observable market data exists are accordingly based primarily upon estimates, are often calculated based on the economic and competitive environment, the characteristics of the asset or liability and other factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results of current or future values.

We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Investment securities AFS, trading securities, and certain liabilities are recorded at fair value on a recurring basis. Additionally, from time to time, we may be required to record other assets at fair value on a nonrecurring basis, such as mortgage loans AFS, impaired loans, foreclosed assets, OMSR, goodwill, and certain other assets and liabilities. These nonrecurring fair value adjustments typically involve the application of lower of cost or market accounting or write downs of individual assets.

Fair Value Hierarchy

Under fair value measurement and disclosure authoritative guidance, we group assets and liabilities measured at fair value into three levels, based on the markets in which the assets and liabilities are traded, and the reliability of the assumptions used to determine fair value, based on the prioritization of inputs in the valuation techniques. These levels are:

Level 1: Valuation is based upon quoted prices for identical instruments traded in active markets.

Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Valuation is generated from model based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability.

The asset s or liability s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. Transfers between measurement levels are recognized at the end of reporting periods.

For further discussion of fair value considerations, refer to Note 20 Fair Value.

SIGNIFICANT GROUP CONCENTRATIONS OF CREDIT RISK: Most of our activities conducted are with customers located within the central Michigan area. A significant amount of our outstanding loans are secured by commercial and residential real estate. Other than these types of loans, there is no significant concentration to any other industry or any one customer.

CASH AND CASH EQUIVALENTS: For purposes of the consolidated statements of cash flows, cash and cash equivalents include cash and balances due from banks, federal funds sold, and other deposit accounts. Generally, federal funds sold are for a one day period. We maintain deposit accounts in various financial institutions which generally exceed federally insured limits or are not insured. We do not believe we are exposed to any significant interest, credit or other financial risk as a result of these deposits.

CERTIFICATES OF DEPOSIT HELD IN OTHER FINANCIAL INSTITUTIONS: Certificates of deposits held in other financial institutions consist of interest bearing certificates of deposit that mature within 3 years and are carried at cost.

TRADING SECURITIES: We engage in trading activities of our own accounts. Securities that are held principally for resale in the near term are recorded in the trading assets account at fair value with changes in fair value recorded in noninterest income. Interest income is included in net interest income.

Table of Contents

AFS SECURITIES: Purchases of investment securities are generally classified as AFS. However, we may elect to classify securities as either held to maturity or trading. Securities classified as AFS are recorded at fair value, with unrealized gains and losses, net of the effect of deferred income taxes, excluded from earnings and reported in other comprehensive income. Included in AFS securities are auction rate money market preferreds and preferred stocks. These investments are considered equity securities for federal income tax purposes, and as such, no estimated federal income tax impact is expected or recorded. Auction rate money market preferred securities and preferred stocks are recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income. Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the securities. Realized gains and losses on the sale of AFS securities are determined using the specific identification method.

AFS securities are reviewed quarterly for possible OTTI. In determining whether an OTTI exists for debt securities, we must assert that: (a) we do not have the intent to sell the security; and (b) it is more likely than not we will not have to sell the security before recovery of its cost basis. If these conditions are not met, we must recognize an OTTI charge through earnings for the difference between the debt security's amortized cost basis and its fair value, and such amount is included in noninterest income. For debt securities that do not meet the above criteria, and we do not expect to recover the security's amortized cost basis, the security is considered other-than-temporarily impaired. For these debt securities, we separate the total impairment into the credit risk loss component and the amount of the loss related to market and other risk factors. In order to determine the amount of the credit loss for a debt security, we calculate the recovery value by performing a discounted cash flow analysis based on the current cash flows and future cash flows we expect to recover. The amount of the total OTTI related to the credit risk is recognized in earnings and is included in noninterest income. The amount of the total OTTI related to other risk factors is recognized as a component of other comprehensive income. For debt securities that have recognized an OTTI through earnings, if through subsequent evaluation there is a significant increase in the cash flow expected, the difference between the amortized cost basis and the cash flows expected to be collected is accreted as interest income.

AFS equity securities are reviewed for OTTI at each reporting date. This evaluation considers a number of factors including, but not limited to, the length of time and extent to which the fair value has been less than cost, the financial condition and near term prospects of the issuer, and our ability and intent to hold the securities until fair value recovers. If it is determined that we do not have the ability and intent to hold the securities until recovery or that there are conditions that indicate that a security may not recover in value then the difference between the fair value and the cost of the security is recognized in earnings and is included in noninterest income.

LOANS: Loans that we have the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding principal balance adjusted for any charge-offs, the ALLL, and any deferred fees or costs on originated loans. Interest income on loans is accrued over the term of the loan based on the principal amount outstanding. Loan origination fees and certain direct loan origination costs are capitalized and recognized as a component of interest income over the term of the loan using the level yield method.

The accrual of interest on agricultural, commercial and mortgage loans is discontinued at the time the loan is 90 days or more past due unless the credit is well secured and in the process of collection. Consumer loans are typically charged off no later than 180 days past due. Past due status is based on contractual terms of the loan. In all cases, loans are placed on nonaccrual or charged-off at an earlier date if collection of principal or interest is considered doubtful.

For loans that are placed on nonaccrual status or charged-off, all interest accrued in the current calendar year, but not collected, is reversed against interest income while interest accrued in prior calendar years, but not collected is charged against the ALLL. The interest on these loans is accounted for on the cash-basis, until qualifying for return to accrual status. Loans are returned to accrual status when all principal and interest amounts contractually due are brought current and future payments are reasonably assured. For impaired loans not classified as nonaccrual, interest income continues to be accrued over the term of the loan based on the principal amount outstanding.

Table of Contents

ALLOWANCE FOR LOAN LOSSES: The ALLL is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when we believe the uncollectibility of the loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

We evaluate the ALLL on a regular basis and is based upon our periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The ALLL consists of specific, general, and unallocated components. The specific component relates to loans that are deemed to be impaired. For such loans that are also analyzed for specific allowance allocations, an allowance is established when the discounted cash flows or collateral value or observable market price of the impaired loan is lower than the carrying value of that loan. The general component covers non classified loans and is based on historical loss experience. An unallocated component is maintained to cover uncertainties that we believe affect our estimate of probable losses based on qualitative factors. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Loans may be classified as impaired if they meet one or more of the following criteria:

1. There has been a charge-off of its principal balance;
2. The loan has been classified as a TDR; or
3. The loan is in nonaccrual status.

Impairment is measured on a loan by loan basis for commercial and agricultural loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral, less cost to sell, if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment.

LOANS HELD FOR SALE: Mortgage loans held for sale in the secondary market are carried at the lower of cost or fair value as determined by aggregating outstanding commitments from investors or current investor yield requirements. Net unrealized losses, if any, would be recognized as a component of other noninterest expenses.

Mortgage loans held for sale are sold with the mortgage servicing rights retained by us. The carrying value of mortgage loans sold is reduced by the cost allocated to the associated mortgage servicing rights. Gains or losses on sales of mortgage loans are recognized based on the difference between the selling price and the carrying value of the related mortgage loans sold.

TRANSFERS OF FINANCIAL ASSETS: Transfers of financial assets, including mortgage loans and participation loans are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is determined to be surrendered when 1) the assets have been legally isolated from us, 2) the transferee obtains the right (free of conditions that constrain it from taking advantage of the right) to pledge or exchange the transferred assets, and 3) we do not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity. Other than servicing, we have no substantive continuing involvement related to these loans.

SERVICING: Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. We have no purchased servicing rights. For sales of mortgage loans, a portion of the cost of originating the loan is allocated to the servicing right based on relative fair value. Fair value is based on market prices for comparable mortgage servicing contracts, when available, or alternatively, is based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model incorporates assumptions that market participants would use in estimating future net servicing

Table of Contents

income, such as the cost to service, the discount rate, the custodial earnings rate, an inflation rate, ancillary income, prepayment speeds and default rates and losses.

Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights into tranches based on predominant risk characteristics, such as interest rate, loan type, and investor type. Impairment is recognized through a valuation allowance for an individual tranche, to the extent that fair value is less than the capitalized amount for the tranche. If we later determine that all or a portion of the impairment no longer exists for a particular tranche, a reduction of the valuation allowance may be recorded as an increase to income. Capitalized servicing rights are reported in other assets and are amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets. The unpaid principal balance of mortgages serviced for others was \$303,351 and \$304,626 with capitalized servicing rights of \$2,285 and \$2,374 at December 31, 2012 and 2011, respectively.

Servicing fee income is recorded for fees earned for servicing loans for others. The fees are based on a contractual percentage of the outstanding principal; or a fixed amount per loan and are recorded as income when earned. We recorded servicing fee revenue of \$757, \$732, and \$760 related to residential mortgage loans serviced for others during 2012, 2011, and 2010, respectively and is included in other noninterest income.

LOANS ACQUIRED THROUGH TRANSFER: Authoritative accounting guidance related to acquired loans requires that a valuation allowance for loans acquired in a transfer, including in a business combination, reflect only losses incurred after acquisition, and should not be recorded at acquisition. This standard applies to any loan acquired in a transfer that shows evidence of credit quality deterioration since it was originated.

FORECLOSED ASSETS: Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at the lower of our carrying amount or fair value less estimated selling costs at the date of transfer, establishing a new cost basis. Any write-downs based on the asset's fair value at the date of acquisition are charged to the ALLL. After foreclosure, property held for sale is carried at the lower of the new cost basis or fair value less costs to sell. Impairment losses on property to be held and used are measured at the amount by which the carrying amount of property exceeds its fair value. Costs relating to holding these assets are expensed as incurred. We periodically perform valuations and any subsequent write-downs are recorded as a charge to operations, if necessary, to reduce the carrying value of a property to the lower of our carrying amount or fair value less costs to sell. Foreclosed assets of \$2,018 and \$1,876 as of December 31, 2012 and 2011, respectively, are included in other assets.

PREMISES AND EQUIPMENT: Land is carried at cost. Buildings and equipment are carried at cost, less accumulated depreciation which is computed principally by the straight-line method based upon the estimated useful lives of the related assets, which range from 3 to 40 years. Major improvements are capitalized and appropriately amortized based upon the useful lives of the related assets or the expected terms of the leases, if shorter, using the straight-line method. Maintenance, repairs and minor alterations are charged to current operations as expenditures occur. We annually review these assets to determine whether carrying values have been impaired.

FDIC INSURANCE PREMIUM: Included in other assets were prepaid FDIC assessments of \$1,804 and \$2,588 as of December 31, 2012 and 2011, respectively.

EQUITY SECURITIES WITHOUT READILY DETERMINABLE FAIR VALUES: Included in equity securities without readily determinable fair values are FHLB Stock and FRB Stock as well as our ownership interests in Corporate Settlement Solutions and Valley Financial Corporation. The investment in Corporate Settlement Solutions, a title insurance company, was made in the 1st quarter 2007. The Corporation is not the managing entity of Corporate Settlement Solutions, LLC, and accounts for its investment in that entity under the equity method of accounting. Valley Financial Corporation is the parent company of 1st State Bank in Saginaw, Michigan, which is a de novo bank that opened in 2005. The Corporation made investments in Valley Financial Corporation in 2004 and in 2007.

Table of Contents

Equity securities without readily determinable fair values consist of the following as of December 31:

	2012	2011
Federal Home Loan Bank Stock	\$ 7,850	\$ 7,380
Investment in Corporate Settlement Solutions	7,040	6,611
Federal Reserve Bank Stock	1,879	1,879
Investment in Valley Financial Corporation	1,000	1,000
Other	349	319
Total	\$ 18,118	\$ 17,189

EQUITY COMPENSATION PLAN: At December 31, 2012, the Directors Plan had 170,566 shares eligible to be issued to participants, for which the Rabbi Trust held 5,130 shares. We had 218,023 shares to be issued in 2011, with 16,585 shares held in the Rabbi Trust. Compensation costs relating to share based payment transactions are recognized as the services are rendered, with the cost measured based on the fair value of the equity or liability instruments issued (see Note 17 Benefit Plans). We have no other equity-based compensation plans.

CORPORATE OWNED LIFE INSURANCE: We have purchased life insurance policies on key members of management. In the event of death of one of these individuals, we would receive a specified cash payment equal to the face value of the policy. Such policies are recorded at their cash surrender value, or the amount that can be realized on the balance sheet dates. Increases in cash surrender value in excess of single premiums paid are reported as other noninterest income.

As of December 31, 2012 and 2011, the present value of the post retirement benefits payable by us to the covered employees was estimated to be \$2,657 and \$2,633, respectively, and is included in accrued interest payable and other liabilities . The periodic policy maintenance costs were \$24, \$60, and \$68 for 2012, 2011, and 2010, respectively and is included in other noninterest expenses.

ACQUISITION INTANGIBLES AND GOODWILL: We previously acquired branch facilities and related deposits in business combinations accounted for as a purchase. The acquisitions included amounts related to the valuation of customer deposit relationships (core deposit intangibles). Core deposit intangibles arising from acquisitions are included in goodwill and other intangible assets are being amortized over their estimated lives and evaluated for potential impairment on at least an annual basis. Goodwill represents the excess of purchase price over identifiable assets, is not amortized but is evaluated for impairment on at least an annual basis. Acquisition intangibles and goodwill are typically qualitatively evaluated to determine if it is more likely than not that the carrying balance is impaired. If it is determined that the carrying balance is more likely than not to be impaired, we perform a cash flow valuation to determine the extent of the potential impairment. This valuation method requires a significant degree of our judgment. In the event the projected undiscounted net operating cash flows for these intangible assets are less than the carrying value, the asset is recorded at fair value as determined by the valuation model.

OFF BALANCE SHEET CREDIT RELATED FINANCIAL INSTRUMENTS: In the ordinary course of business, we have entered into commitments to extend credit, including commitments under credit card arrangements, home equity lines of credit, commercial letters of credit, and standby letters of credit. Such financial instruments are recorded only when funded.

FEDERAL INCOME TAXES: Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax assets or liability is determined based on the tax effects of the temporary differences between the book and tax bases on the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws. Valuation allowances are established, where necessary, to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the year plus or minus the change during the year in deferred tax assets and liabilities.

Table of Contents

We analyze our filing positions in the jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. We have also elected to retain our existing accounting policy with respect to the treatment of interest and penalties attributable to income taxes, and continue to reflect any charges for such, to the extent they arise, as a component of our noninterest expenses.

MARKETING COSTS: Marketing costs are expensed as incurred (see Note 11 Other Noninterest Expenses).

RECLASSIFICATIONS: Certain amounts reported in the 2011 and 2010 consolidated financial statements have been reclassified to conform with the 2012 presentation.

NOTE 2 COMPUTATION OF EARNINGS PER SHARE

Basic earnings per share represents income available to common shareholders divided by the weighted average number of common shares outstanding during the year. Diluted earnings per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustments to income that would result from the assumed issuance. Potential common shares that we may issue relate solely to outstanding shares in the Directors Plan, see Note 17 Benefit Plans.

Earnings per common share have been computed based on the following:

	2012	2011	2010
Average number of common shares outstanding for basic calculation	7,604,303	7,572,841	7,541,676
Average potential effect of shares in the Directors Plan(1)	195,063	194,634	187,744
Average number of common shares outstanding used to calculate diluted earnings per common share	7,799,366	7,767,475	7,729,420
Net income	\$ 12,206	\$ 10,210	\$ 9,045
Earnings per share			
Basic	\$ 1.61	\$ 1.35	\$ 1.20
Diluted	\$ 1.56	\$ 1.31	\$ 1.17

(1) Exclusive of shares held in the Rabbi Trust

NOTE 3 ACCOUNTING STANDARDS UPDATES**Recently Adopted Accounting Standards Updates**ASU No. 2011-03: *Reconsideration of Effective Control for Repurchase Agreements*

In April 2011, ASU No. 2011-03 amended ASC Topic 310, Transfers and Servicing to eliminate from the assessment of effective control, the criteria calling for the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed upon terms, even in the event of the transferee's default. The assessment of effective control should instead focus on the transferor's contractual rights and obligations. The new authoritative guidance was effective for interim and annual periods beginning on or after December 15, 2011 and did not impact our consolidated financial statements.

ASU No. 2011-04: *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

In May 2011, ASU No. 2011-04 amended ASC Topic 820, Fair Value Measurement to align fair value measurements and disclosures in GAAP and IFRS. The ASU changes the wording used to describe the requirements in GAAP for measuring fair value and disclosures about fair value.

Table of Contents

The ASU clarifies the application of existing fair value measurements and disclosure requirements related to:

The application of highest and best use and valuation premise concepts.

Measuring the fair value of an instrument classified in shareholders' equity.

Disclosure about fair value measurements within Level 3 of the fair value hierarchy.

The ASU also changes particular principles or requirements for measuring fair value and disclosing information measuring fair value and disclosures related to:

Measuring the fair value of financial instruments that are managed within a portfolio.

Application of premiums and discounts in a fair value measurement.

The new authoritative guidance was effective for interim and annual periods beginning on or after December 15, 2011 and did not have a financial impact but increased the level of disclosures related to fair value measurements in our consolidated financial statements in 2012.

ASU No. 2011-05: *Presentation of Comprehensive Income*

In June 2011, ASU No. 2011-05 amended ASC Topic 220, *Comprehensive Income* to improve the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. In addition, to increase the prominence of items reported in other comprehensive income, and to facilitate the convergence of GAAP and IFRS, the FASB eliminated the option to present components of other comprehensive income as part of the statement of changes in shareholders' equity.

The new authoritative guidance was effective for interim and annual periods beginning on or after December 15, 2011 and did not have an impact on our consolidated financial statements as we have historically elected to present a separate statement of comprehensive income.

ASU No. 2012-02: *Intangibles - Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment*

In August 2012, ASU No. 2012-02 amended ASC Topic 350, *Goodwill and Other* to simplify the testing of intangible assets with indefinite lives. This update will allow for a qualitative assessment of intangible assets with indefinite lives to determine whether or not it is necessary to perform the impairment test described in ASC Topic 350. While the new authoritative guidance was effective for fiscal years beginning after September 15, 2012, we elected to early adopt the guidance as of December 31, 2012. This standard did not have any impact on our consolidated financial statements.

Pending Accounting Standards Updates

ASU No. 2012-06: *Business Combinations (Topic 805): Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution*

In October 2012, ASU No. 2012-06 amended ASC Topic 805, *Business Combinations* to clarify the applicable guidance for subsequently measuring an indemnification asset recognized as part of a government assisted acquisition of a financial institution. The new authoritative guidance is effective for fiscal years beginning after December 15, 2012 and at this time is not expected to have any impact on our consolidated financial statements.

NOTE 4 TRADING SECURITIES

Trading securities, at fair value, consist of the following investments at December 31:

	2012	2011
States and political subdivisions	\$ 1,573	\$ 4,710

Table of Contents

Included in net trading losses of \$52 during 2012, were \$18 of net trading losses on securities that relate to our trading portfolio as of December 31, 2012. Included in net trading gains of \$78 during 2011, were \$60 of net trading gains on securities that relate to our trading portfolio as of December 31, 2011.

NOTE 5 AFS SECURITIES

The amortized cost and fair value of AFS securities, with gross unrealized gains and losses, are as follows as of December 31:

	Amortized Cost	2012		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
Government sponsored enterprises	\$ 25,668	\$ 108	\$	\$ 25,776
States and political subdivisions	174,118	9,190	565	182,743
Auction rate money market preferred	3,200		422	2,778
Preferred stocks	6,800		437	6,363
Mortgage-backed securities	152,256	3,199	110	155,345
Collateralized mortgage obligations	128,378	2,627		131,005
Total	\$ 490,420	\$ 15,124	\$ 1,534	\$ 504,010

	Amortized Cost	2011		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
Government sponsored enterprises	\$ 395	\$ 2	\$	\$ 397
States and political subdivisions	166,832	8,157	51	174,938
Auction rate money market preferred	3,200		1,151	2,049
Preferred stocks	6,800		1,767	5,033
Mortgage-backed securities	140,842	2,807	47	143,602
Collateralized mortgage obligations	96,545	2,556		99,101
Total	\$ 414,614	\$ 13,522	\$ 3,016	\$ 425,120

Table of Contents

The amortized cost and fair value of AFS securities by contractual maturity at December 31, 2012 are as follows:

	Maturing		Years But Within Ten Years	After Ten Years	Securities With Variable Monthly Payments or Noncontractual Maturities	Total
	After One Year or Less	After Five Years Within Five Years				
Government sponsored enterprises	\$	\$ 72	\$ 25,596	\$	\$	\$ 25,668
States and political subdivisions	11,670	36,157	86,062	40,229		174,118
Auction rate money market preferred					3,200	3,200
Preferred stocks					6,800	6,800
Mortgage-backed securities					152,256	152,256
Collateralized mortgage obligations					128,378	128,378
Total amortized cost	\$ 11,670	\$ 36,229	\$ 111,658	\$ 40,229	\$ 290,634	\$ 490,420
Fair value	\$ 11,746	\$ 37,759	\$ 117,884	\$ 41,130	\$ 295,491	\$ 504,010

Expected maturities for government sponsored enterprises and states and political subdivisions may differ from contractual maturities because issuers may have the right to call or prepay obligations.

As auction rate money market preferreds and preferred stocks have noncontractual maturities they are not reported by a specific maturity group. Because of their variable monthly payments, mortgage-backed securities and collateralized mortgage obligations are not reported by a specific maturity group.

A summary of the activity related to the sale of AFS securities is as follows during the years ended December 31:

	2012	2011	2010
Proceeds from sales AFS of securities	\$ 40,677	\$ 8,877	\$ 18,303
Gross realized gains	\$ 1,119	\$ 3	\$ 351
Gross realized losses			(3)
Net realized gains	\$ 1,119	\$ 3	\$ 348
Applicable income tax expense	\$ 380	\$ 1	\$ 118

The cost basis used to determine the realized gains or losses of securities sold was the amortized cost of the individual investment security as of the trade date.

Table of Contents

Information pertaining to AFS securities with gross unrealized losses at December 31 aggregated by investment category and length of time that individual securities have been in continuous loss position, follows:

	Less Than Twelve Months		2012 Over Twelve Months		Total Unrealized Losses
	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	
States and political subdivisions	\$ 80	\$ 5,019	\$ 485	\$ 2,352	\$ 565
Auction rate money market preferred			422	2,778	422
Preferred stocks			437	3,363	437
Mortgage-backed securities	110	25,499			110
Total	\$ 190	\$ 30,518	\$ 1,344	\$ 8,493	\$ 1,534

Number of securities in an unrealized loss position: 15 6 21

	Less Than Twelve Months		2011 Over Twelve Months		Total Unrealized Losses
	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	
States and political subdivisions	\$ 51	\$ 1,410	\$	\$	\$ 51
Auction rate money market preferred			1,151	2,049	1,151
Preferred stocks			1,767	5,033	1,767
Mortgage-backed securities	47	24,291			47
Total	\$ 98	\$ 25,701	\$ 2,918	\$ 7,082	\$ 3,016

Number of securities in an unrealized loss position: 6 6 12

As of December 31, 2012 and 2011, we conducted an analysis to determine whether any AFS securities currently in an unrealized loss position, should be considered OTTI. Such analyses considered, among other factors, the following criteria:

Has the value of the investment declined more than what is deemed to be reasonable based on a risk and maturity adjusted discount rate?

Is the investment credit rating below investment grade?

Is it probable the issuer will be unable to pay the amount when due?

Is it more likely than not that we will not have to sell the security before recovery of its cost basis?

Has the duration of the investment been extended?

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

During the three month period ended March 31, 2012, we had one state issued student loan auction rate AFS investment security (which is included in states and political subdivisions) that was downgraded by Moody's from A3 to Caa3. As a result of this downgrade, we engaged the services of an independent investment valuation firm to estimate the amount of credit losses (if any) related to this particular issue as of March 31, 2012. The evaluation calculated a range of estimated credit losses utilizing two different bifurcation methods: 1) Estimated Cash Flow Method and 2) Credit Yield Analysis Method. The two methods were then weighted, with a higher weighting applied to the Estimated Cash Flow Method, to determine the estimated credit related impairment. As a result of this analysis we recognized an OTTI of \$282 in earnings in the first quarter of 2012.

Table of Contents

A summary of key valuation assumptions used in the aforementioned analysis as of March 31, 2012, follows:

	Discounted Cash Flow Method
Ratings	
Fitch	Not Rated
Moody's	Caa3
S&P	A
Seniority	Senior
Discount rate	LIBOR + 5.64%

	Credit Yield Analysis Method
Credit discount rate	LIBOR + 4.00%
Average observed discounts based on closed transactions	17.06%

To test for additional impairment of this security as of December 31, 2012, we obtained another investment valuation (from the same independent firm engaged to perform the initial valuation as of March 31, 2012) as of December 31, 2012. Based on the results of this valuation, no additional OTTI was indicated.

A rollforward of credit related impairment recognized in earnings on AFS securities was as follows:

January 1, 2012	\$
Additions to credit losses for which no previous OTTI was recognized	282
December 31, 2012	\$ 282

There were no credit losses recognized in earnings on AFS securities during 2011.

Based on our analysis using the above criteria, the fact that we have asserted that we do not have the intent to sell these securities in an unrealized loss position, and our testing that it is unlikely that we will have to sell the securities before recovery of their cost basis, we do not believe that the values of any other securities are other-than-temporarily impaired as of December 31, 2012 or December 31, 2011.

NOTE 6 LOANS AND ALLOWANCE FOR LOAN LOSSES

We grant commercial, agricultural, residential real estate, and consumer loans to customers situated primarily in Clare, Gratiot, Isabella, Mecosta, Midland, Montcalm, and Saginaw counties in Michigan. The ability of borrowers to honor their repayment obligations is often dependent upon the real estate, agricultural, light manufacturing, retail, gaming and tourism, higher education, and general economic conditions of this region. Substantially all of the consumer and residential real estate loans are secured by various items of property, while commercial and agricultural loans are secured primarily by real estate, business assets, and personal guarantees; a portion of loans are unsecured. Commercial and agricultural loans include loans for commercial real estate, commercial operating loans, farmland and agricultural production, and states and political subdivisions. Repayment of these loans is often dependent upon the successful operation and management of a business; thus, these loans generally involve greater risk than other types of lending. We minimize our risk by limiting the amount of loans to any one borrower to \$12,500. Borrowers with credit needs of more than \$12,500 are serviced through the use of loan participations with other commercial banks. Commercial and agricultural real estate loans generally require loan-to-value limits of 80% or less. Depending upon the type of loan, past credit history, and current operating results, we may require borrowers to pledge accounts receivable, inventory, and property and equipment. Personal guarantees are generally required from the owners of closely held corporations, partnerships, and sole proprietorships. In addition, we require annual financial statements, prepare cash flow analyses, and review credit reports as deemed necessary.

Table of Contents

We offer adjustable rate mortgages, fixed rate balloon mortgages, construction loans, and fixed rate mortgage loans which typically have amortization periods up to a maximum of 30 years. Fixed rate loans with an amortization of greater than 15 years are generally sold upon origination to FHLMC. Fixed rate residential real estate loans with an amortization of 15 years or less may be held in our portfolio, held for future sale, or sold upon origination. We consider the direction of interest rates, the sensitivity of our balance sheet to changes in interest rates, and overall loan demand to determine whether or not to sell these loans to FHLMC.

Our lending policies generally limit the maximum loan-to-value ratio on residential real estate loans to 95% of the lower of the appraised value of the property or the purchase price, with the condition that private mortgage insurance is required on loans with loan to value ratios in excess of 80%. Substantially all loans upon origination have a loan to value ratio of less than 80%. Underwriting criteria for residential real estate loans include: evaluation of the borrower's ability to make monthly payments, the value of the property securing the loan, ensuring the payment of principal, interest, taxes, and hazard insurance does not exceed 28% of a borrower's gross income, all debt servicing does not exceed 36% of income, acceptable credit reports, verification of employment, income, and financial information. Appraisals are performed by independent appraisers and reviewed internally. All mortgage loan requests are reviewed by our mortgage loan committee or through a secondary market automated underwriting system; loans in excess of \$400 require the approval of our Internal Loan Committee, the Board of Directors' Loan Committee, or the Board of Directors.

Consumer loans include automobile loans, secured and unsecured personal loans, and overdraft protection related loans. Loans are amortized generally for a period of up to 6 years. The underwriting emphasis is on a borrower's perceived intent and ability to pay rather than collateral value. No consumer loans are sold to the secondary market.

The ALLL is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the ALLL when we believe the uncollectibility of the loan balance is confirmed. Subsequent recoveries, if any, are credited to the ALLL.

The ALLL is evaluated on a regular basis and is based upon a periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The primary factors behind the determination of the level of the ALLL are specific allocations for impaired loans, historical loss percentages, as well as unallocated components. Specific allocations for impaired loans are primarily determined based on the difference between the net realizable value of the loans underlying collateral or the net present value of the projected payment stream and our recorded investment. Historical loss allocations were calculated at the loan class and segment levels based on a migration analysis of the loan portfolio over the preceding four years. An unallocated component is maintained to cover uncertainties that we believe affect our estimate of probable losses based on qualitative factors. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Table of Contents

A summary of changes in the ALLL and the recorded investment in loans by segments follows:

**Allowance for Loan Losses
Year Ended December 31, 2012**

Table of Contents

Internally assigned risk ratings are reviewed, at a minimum, when loans are renewed or when management has knowledge of improvements or deterioration of the credit quality of individual credits. Descriptions of the internally assigned risk ratings for commercial and agricultural loans are as follows:

1. EXCELLENT Substantially Risk Free

Credit has strong financial condition and solid earnings history, characterized by:

High liquidity, strong cash flow, low leverage.

Unquestioned ability to meet all obligations when due.

Experienced management, with management succession in place.

Secured by cash.

2. HIGH QUALITY Limited Risk

Credit with sound financial condition and has a positive trend in earnings supplemented by:

Favorable liquidity and leverage ratios.

Ability to meet all obligations when due.

Management with successful track record.

Steady and satisfactory earnings history.

If loan is secured, collateral is of high quality and readily marketable.

Access to alternative financing.

Well defined primary and secondary source of repayment.

If supported by guaranty, the financial strength and liquidity of the guarantor(s) are clearly evident.

3. HIGH SATISFACTORY Reasonable Risk

Credit with satisfactory financial condition and further characterized by:

Working capital adequate to support operations.

Cash flow sufficient to pay debts as scheduled.

Management experience and depth appear favorable.

Loan performing according to terms.

If loan is secured, collateral is acceptable and loan is fully protected.

4. LOW SATISFACTORY Acceptable Risk

Credit with bankable risks, although some signs of weaknesses are shown:

Would include most start-up businesses.

Occasional instances of trade slowness or repayment delinquency may have been 10-30 days slow within the past year.

Management's abilities are apparent, yet unproven.

Weakness in primary source of repayment with adequate secondary source of repayment.

Loan structure generally in accordance with policy.

Table of Contents

If secured, loan collateral coverage is marginal.

Adequate cash flow to service debt, but coverage is low.

To be classified as less than satisfactory, only one of the following criteria must be met.

5. SPECIAL MENTION Criticized

Credit constitutes an undue and unwarranted credit risk but not to the point of justifying a classification of substandard. The credit risk may be relatively minor yet constitute an unwarranted risk in light of the circumstances surrounding a specific loan:

Downward trend in sales, profit levels, and margins.

Impaired working capital position.

Cash flow is strained in order to meet debt repayment.

Loan delinquency (30-60 days) and overdrafts may occur.

Shrinking equity cushion.

Diminishing primary source of repayment and questionable secondary source.

Management abilities are questionable.

Weak industry conditions.

Litigation pending against the borrower.

Collateral or guaranty offers limited protection.

Negative debt service coverage, however the credit is well collateralized and payments are current.

6. SUBSTANDARD Classified

Credit where the borrower's current net worth, paying capacity, and value of the collateral pledged is inadequate. There is a distinct possibility that we will implement collection procedures if the loan deficiencies are not corrected. In addition, the following characteristics may apply:

Sustained losses have severely eroded the equity and cash flow.

Deteriorating liquidity.

Serious management problems or internal fraud.

Original repayment terms liberalized.

Likelihood of bankruptcy.

Inability to access other funding sources.

Reliance on secondary source of repayment.

Litigation filed against borrower.

Collateral provides little or no value.

Requires excessive attention of the loan officer.

Borrower is uncooperative with loan officer.

Table of Contents

7. VULNERABLE Classified

Credit is considered Substandard and warrants placing on nonaccrual. Risk of loss is being evaluated and exit strategy options are under review. Other characteristics that may apply:

Insufficient cash flow to service debt.

Minimal or no payments being received.

Limited options available to avoid the collection process.

Transition status, expect action will take place to collect loan without immediate progress being made.

8. DOUBTFUL Workout

Credit has all the weaknesses inherent in a Substandard loan with the added characteristic that collection and/or liquidation is pending. The possibility of a loss is extremely high, but its classification as a loss is deferred until liquidation procedures are completed, or reasonably estimable. Other characteristics that may apply:

Normal operations are severely diminished or have ceased.

Seriously impaired cash flow.

Original repayment terms materially altered.

Secondary source of repayment is inadequate.

Survivability as a going concern is impossible.

Collection process has begun.

Bankruptcy petition has been filed.

Judgments have been filed.

Portion of the loan balance has been charged-off.

9. LOSS Charge off

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

Credits are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification is for charged off loans but does not mean that the asset has absolutely no recovery or salvage value. These loans are further characterized by:

Liquidation or reorganization under bankruptcy, with poor prospects of collection.

Fraudulently overstated assets and/or earnings.

Collateral has marginal or no value.

Debtor cannot be located.

Over 120 days delinquent.

Table of Contents

Our primary credit quality indicators for residential real estate and consumer loans is the individual loans past due aging. The following tables summarize our past due and current loans as of December 31:

Impaired Loans

Loans may be classified as impaired if they meet one or more of the following criteria:

1. There has been a charge-off of its principal balance (in whole or in part);
2. The loan has been classified as a TDR; or
3. The loan is in nonaccrual status.

Impairment is measured on a loan by loan basis for commercial, commercial real estate loans, agricultural, or agricultural mortgage loans by comparing the loan's outstanding balance to the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral, less cost to sell, if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment.

Interest income is recognized on impaired loans in nonaccrual status on the cash basis, but only after all principal has been collected. For impaired loans not in nonaccrual status, interest income is recognized daily as earned according to the terms of the loan agreement.

Table of Contents

The following is a summary of information pertaining to impaired loans as of and for the year ended December 31:

	Outstanding Balance	Unpaid Principal Balance	2012 Valuation Allowance	Average Outstanding Balance	Interest Income Recognized

As of December 31, 2012 and 2011, we had committed to advance \$9 and \$243, respectively, in connection with impaired loans, which include TDR s.

Troubled Debt Restructurings

Loan modifications are considered to be TDR s when the modification includes terms outside of normal lending practices to a borrower who is experiencing financial difficulties.

Typical concessions granted include, but are not limited to:

1. Agreeing to interest rates below prevailing market rates for debt with similar risk characteristics.
2. Extending the amortization period beyond typical lending guidelines for debt with similar risk characteristics.
3. Forbearance of principal.
4. Forbearance of accrued interest.

Table of Contents

To determine if a borrower is experiencing financial difficulties, we consider if:

1. The borrower is currently in default on any of their debt.
2. The borrower would likely default on any of their debt if the concession was not granted.
3. The borrower's cash flow was insufficient to service all of their debt if the concession was not granted.
4. The borrower has declared, or is in the process of declaring, bankruptcy.
5. The borrower is unlikely to continue as a going concern (if the entity is a business).

The following is a summary of information pertaining to TDR's granted in the years ended December 31:

	Number of Loans	2012		Number of Loans	2011

--------------	-----------	------------------	-----------	-----------	-----------------

We did not restructure any loans through the forbearance of principal or accrued interest during 2012 and 2011.

Table of Contents

Based on our historical loss experience, losses associated with TDR s are not significantly different than other impaired loans within the same loan segment. As such, TDR s, including TDR s that have been modified in the past 12 months that subsequently defaulted, are analyzed in the same manner as other impaired loans within their respective loan segment.

Following is a summary of loans that defaulted during 2012, which were modified within 12 months prior to the default date:

	Number of Loans	Pre- Default Recorded Investment	Charge-Off Recorded Upon Default	Post- Default Recorded Investment
Commercial other	5	\$ 342	\$ 143	\$ 199
Residential real estate senior liens	1	47	43	4
Consumer secured	1	8	8	
Total	7	\$ 397	\$ 194	\$ 203

We had no loans that defaulted during 2011, which were modified within 12 months prior to the default date.

The following is a summary of TDR loan balances as of December 31:

	2012	2011
Troubled debt restructurings	\$ 19,355	\$ 18,756

NOTE 7 PREMISES AND EQUIPMENT

A summary of premises and equipment at December 31 follows:

	2012	2011
Land	\$ 5,435	\$ 5,174
Buildings and improvements	22,705	22,397
Furniture and equipment	29,755	26,926
Total	57,895	54,497
Less: accumulated depreciation	32,108	29,871
Premises and equipment, net	\$ 25,787	\$ 24,626

Depreciation expense amounted to \$2,417, \$2,521 and \$2,522 in 2012, 2011, and 2010, respectively.

NOTE 8 GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill was \$45,618 at December 31, 2012 and 2011.

Identifiable intangible assets at year end were as follows:

2012

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

	Gross Intangible Assets	Accumulated Amortization	Net Intangible Assets
Core deposit premium resulting from acquisitions	\$ 5,373	\$ 4,459	\$ 914

	Gross Intangible Assets	2011 Accumulated Amortization	Net Intangible Assets
Core deposit premium resulting from acquisitions	\$ 5,373	\$ 4,199	\$ 1,174

Table of Contents

Amortization expense associated with identifiable intangible assets was \$260, \$299, and \$338 in 2012, 2011, and 2010, respectively.

Estimated amortization expense associated with identifiable intangibles for each of the next five years succeeding December 31, 2012, and thereafter is as follows:

Year	Amount
2013	\$ 221
2014	183
2015	145
2016	106
2017	74
Thereafter	185
	\$ 914

NOTE 9 DEPOSITS

Scheduled maturities of time deposits for the next five years, and thereafter, are as follows:

Year	Amount
2013	\$ 205,754
2014	76,742
2015	71,685
2016	51,232
2017	40,523
Thereafter	18,399
	\$ 464,335

Interest expense on time deposits greater than \$100 was \$3,854 in 2012, \$4,302 in 2011, and \$4,427 in 2010.

NOTE 10 BORROWED FUNDS

Borrowed funds consist of the following obligations at December 31:

	2012		2011	
	Amount	Rate	Amount	Rate
FHLB advances	\$ 152,000	2.05%	\$ 142,242	3.16%
Securities sold under agreements to repurchase without stated maturity dates	66,147	0.15%	57,198	0.25%
Securities sold under agreements to repurchase with stated maturity dates	16,284	3.57%	16,696	3.51%
Federal funds purchased	6,570	0.50%		
Total	\$ 241,001	1.59%	\$ 216,136	2.42%

The FHLB borrowings are collateralized by U.S. government and federal agency securities and a blanket lien on all qualified 1-to-4 family mortgage loans. Advances are also secured by FHLB stock that we own. As of December 31, 2012, we had total unused lines of credit of \$108,646.

Table of Contents

The maturity and weighted average interest rates of FHLB advances are as follows as of December 31:

	2012		2011	
	Amount	Rate	Amount	Rate
Fixed rate advances due 2012	\$		\$ 17,000	2.97%
One year putable fixed rate advances due 2012			15,000	4.10%
Fixed rate advances due 2013			5,242	4.14%
One year putable fixed rate advances due 2013			5,000	3.15%
Fixed rate advances due 2014	10,000	0.48%	25,000	3.16%
Fixed rate advances due 2015	42,000	1.12%	45,000	3.30%
Fixed rate advances due 2016	10,000	2.15%	10,000	2.15%
Fixed rate advances due 2017	40,000	2.15%	20,000	2.56%
Fixed rate advances due 2018	20,000	2.86%		
Fixed rate advances due 2019	20,000	3.73%		
Fixed rate advances due 2020	10,000	1.98%		
Total	\$ 152,000	2.05%	\$ 142,242	3.16%

Securities sold under agreements to repurchase are classified as secured borrowings. Securities sold under agreements to repurchase without stated maturity dates generally mature within one to four days from the transaction date. Securities sold under agreements to repurchase are reflected at the amount of cash received in connection with the transaction. The securities underlying the agreements had a fair value of \$143,322 and \$99,869 at December 31, 2012 and 2011, respectively. Such securities remain under our control. We may be required to provide additional collateral based on the fair value of underlying securities.

The maturity and weighted average interest rates of securities sold under agreements to repurchase with stated maturity dates are as follows at December 31:

	2012		2011	
	Amount	Rate	Amount	Rate
Repurchase agreements due 2012	\$		\$ 428	2.08%
Repurchase agreements due 2013	5,000	4.51%	5,000	4.51%
Repurchase agreements due 2014	10,872	3.15%	10,869	3.12%
Repurchase agreements due 2015	412	3.25%	399	3.25%
Total	\$ 16,284	3.57%	\$ 16,696	3.51%

Securities sold under repurchase agreements without stated maturity dates, federal funds purchased, and FRB discount window advances generally mature within one to four days from the transaction date. The following table provides a summary of short term borrowings for the years ended December 31:

	2012			2011		
	Maximum Month End Balance	YTD Average Balance	Weighted Average Interest Rate During the Period	Maximum Month End Balance	YTD Average Balance	Weighted Average Interest Rate During the Period
Securities sold under agreements to repurchase without stated maturity dates	\$ 66,147	\$ 57,466	0.20%	\$ 57,198	\$ 45,397	0.25%
Federal funds purchased	17,900	3,386	0.47%	18,300	3,467	0.51%

Table of Contents

We had pledged certificates of deposit held in other financial institutions, trading securities, AFS securities, and 1-4 family mortgage loans in the following amounts at December 31:

	2012	2011
Pledged to secure borrowed funds	\$ 308,628	\$ 292,092
Pledged to secure repurchase agreements	143,322	99,869
Pledged for public deposits and for other purposes necessary or required by law	22,955	26,761
Total	\$ 474,905	\$ 418,722

We had no investment securities that are restricted to be pledged for specific purposes.

NOTE 11 OTHER NONINTEREST EXPENSES

A summary of expenses included in other noninterest expenses is as follows for the years ended December 31:

	2012	2011	2010
Marketing and community relations	\$ 1,965	\$ 1,174	\$ 1,093
Directors fees	885	842	887
FDIC insurance premiums	864	1,086	1,254
Audit fees	711	714	710
Education and travel	588	526	499
Consulting fees	482	386	167
Printing and supplies	424	405	420
Postage and freight	389	388	395
Other losses	300	54	72
Legal fees	268	302	382
Amortization of deposit premium	260	299	338
Foreclosed asset and collection	202	576	916
State taxes	187	57	51
All other	1,526	1,462	1,376
Total other	\$ 9,051	\$ 8,271	\$ 8,560

NOTE 12 FEDERAL INCOME TAXES

Components of the consolidated provision for federal income taxes are as follows for the year ended December 31:

	2012	2011	2010
Currently payable	\$ 1,747	\$ 965	\$ 1,425
Deferred expense	616	389	179
Income tax expense	\$ 2,363	\$ 1,354	\$ 1,604

Table of Contents

The reconciliation of the provision for federal income taxes and the amount computed at the federal statutory tax rate of 34% of income before federal income taxes is as follows for the years ended December 31:

	2012	2011	2010
Income taxes at 34% statutory rate	\$ 4,953	\$ 3,932	\$ 3,621
Effect of nontaxable income			
Interest income on tax exempt municipal bonds	(1,675)	(1,687)	(1,565)
Earnings on corporate owned life insurance	(238)	(207)	(225)
Other	(147)	(65)	(132)
Total effect of nontaxable income	(2,060)	(1,959)	(1,922)
Effect of tax credits	(667)	(793)	(263)
Effect of nondeductible expenses	137	174	168
Income tax expense	\$ 2,363	\$ 1,354	\$ 1,604

Included in OCI are unrealized gains (losses) on auction rate money market preferred and preferred stocks. For federal income tax purposes, these securities are considered equity investments. As such, no deferred federal income taxes related to unrealized holding gains or losses are expected or recorded.

A summary of the components of unrealized holding gains on AFS securities included in OCI follows for the years ended December 31:

	2012			2011			2010		
	Auction Rate Money Market Preferred and Preferred Stocks	All Other AFS Securities	Total	Auction Rate Money Market Preferred and Preferred Stocks	All Other AFS Securities	Total	Auction Rate Money Market Preferred and Preferred Stocks	All Other AFS Securities	Total
Unrealized gains arising during the year	\$ 2,059	\$ 1,862	\$ 3,921	\$ (1,719)	\$ 10,939	\$ 9,220	\$ (226)	\$ 1,382	\$ 1,156
Reclassification adjustment for net realized gains included in net income		(1,119)	(1,119)		(3)	(3)		(348)	(348)
Reclassification adjustment for impairment loss included in net income		282	282						
Net unrealized gains	2,059	1,025	3,084	(1,719)	10,936	9,217	(226)	1,034	808
Tax effect		(348)	(348)		(3,719)	(3,719)		(351)	(351)
Unrealized gains, net of tax	\$ 2,059	\$ 677	\$ 2,736	\$ (1,719)	\$ 7,217	\$ 5,498	\$ (226)	\$ 683	\$ 457

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for federal income tax purposes.

Table of Contents

Significant components of our deferred tax assets and liabilities, included in other assets in the accompanying consolidated balance sheets, are as follows as of December 31:

	2012	2011
Deferred tax assets		
Allowance for loan losses	\$ 3,133	\$ 3,278
Deferred directors fees	2,100	2,384
Employee benefit plans	189	158
Core deposit premium and acquisition expenses	892	800
Net unrealized losses on trading securities	351	364
Net unrecognized actuarial loss on pension plan	1,891	1,780
Life insurance death benefit payable	804	804
Alternative minimum tax	729	729
Other	195	260
Total deferred tax assets	10,284	10,557
Deferred tax liabilities		
Prepaid pension cost	1,021	851
Premises and equipment	724	992
Accretion on securities	37	34
Core deposit premium and acquisition expenses	1,203	1,102
Net unrealized gains on available-for-sale securities	4,912	4,564
Other	1,163	937
Total deferred tax liabilities	9,060	8,480
Net deferred tax assets	\$ 1,224	\$ 2,077

We are subject to U.S. federal income tax; however, we are no longer subject to examination by taxing authorities for years before 2009. There are no material uncertain tax positions requiring recognition in our consolidated financial statements. We do not expect the total amount of unrecognized tax benefits to significantly increase in the next twelve months.

We recognize interest and/or penalties related to income tax matters in income tax expense. We do not have any amounts accrued for interest and penalties at December 31, 2012 and 2011 and we not aware of any claims for such amounts by federal income tax authorities.

NOTE 13 OFF-BALANCE-SHEET ACTIVITIES***Credit-Related Financial Instruments***

We are party to credit related financial instruments with off-balance-sheet risk. These financial instruments are entered into in the normal course of business to meet the financing needs of our customers. These financial instruments, which include commitments to extend credit and standby letters of credit, involve, to varying degrees, elements of credit and IRR in excess of the amounts recognized in the consolidated balance sheets. The contract or notional amounts of these instruments reflect the extent of involvement we have in a particular class of financial instrument.

	December 31	
	2012	2011
Unfunded commitments under lines of credit	\$ 115,233	\$ 102,822
Commercial and standby letters of credit	3,935	4,461
Commitments to grant loans	40,507	21,806

Table of Contents

Unfunded commitments under lines of credit are commitments for possible future extensions of credit to existing customers. These commitments may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements.

Commercial and standby letters of credit are conditional commitments we issued to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support private borrowing arrangements, including commercial paper, bond financing, and similar transactions. These commitments to extend credit and letters of credit mature within one year. The credit risk involved in these transactions is essentially the same as that involved in extending loans to customers. We evaluate each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if we deem necessary upon the extension of credit, is based on our credit evaluation of the borrower. While we consider standby letters of credit to be guarantees, the amount of the liability related to such guarantees on the commitment date is not significant and a liability related to such guarantees is not recorded on the consolidated balance sheets.

Commitments to grant loans are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The amount of collateral obtained, if we deem necessary, is based on our credit evaluation of the customer. Commitments to grant loans include loans committed to be sold to the secondary market.

Our exposure to credit-related loss in the event of nonperformance by the counter parties to the financial instruments for commitments to extend credit and standby letters of credit could be up to the contractual notional amount of those instruments. We use the same credit policies in deciding to make these commitments as we do for extending loans to customers. No significant losses are anticipated as a result of these commitments.

NOTE 14 ON-BALANCE SHEET ACTIVITIES***Derivative Loan Commitments***

Mortgage loan commitments are referred to as derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. We enter into commitments to fund residential mortgage loans at specific times in the future, with the intention that these loans will subsequently be sold in the secondary market. A mortgage loan commitment binds us to lend funds to a potential borrower at a specified interest rate within a specified period of time, generally up to 60 days after inception of the rate lock.

Outstanding derivative loan commitments expose us to the risk that the price of the loans arising from the exercise of the loan commitment might decline from the inception of the rate lock to funding of the loan due to increases in mortgage interest rates. If interest rates increase, the value of these loan commitments decreases. Conversely, if interest rates decrease, the value of these loan commitments increase. The notional amount of undesignated interest rate lock commitments was \$1,912 and \$875 at December 31, 2012 and 2011, respectively.

Forward Loan Sale Commitments

To protect against the price risk inherent in derivative loan commitments, we utilize both mandatory delivery and best efforts forward loan sale commitments to mitigate the risk of potential decreases in the values of loan that would result from the exercise of the derivative loan commitments.

With a mandatory delivery contract, we commit to deliver a certain principal amount of mortgage loans to an investor at a specified price on or before a specified date. If we fail to deliver the amount of mortgages necessary to fulfill the commitment by the specified date, we are obligated to pay a pair-off fee, based on then current market prices, to the investor to compensate the investor for the shortfall.

With a best efforts contract, we commit to deliver an individual mortgage loan of a specified principal amount and quality to an investor if the loan to the underlying borrower closes. Generally, the price the investor

will pay the seller for an individual loan is specified prior to the loan being funded (e.g. on the same day the lender commits to lend funds to a potential borrower).

Table of Contents

We expect that these forward loan sale commitments will experience changes in fair value opposite to the change in fair value of derivative loan commitments. The notional amount of undesignated forward loan sale commitments was \$5,545 and \$4,080 at December 31, 2012 and 2011, respectively.

The fair values of the rate lock loan commitments related to the origination of mortgage loans that will be held for sale and the forward loan sale commitments are deemed insignificant by management and, accordingly, are not recorded in our consolidated financial statements.

NOTE 15 COMMITMENTS AND OTHER MATTERS

Banking regulations require us to maintain cash reserve balances in currency or as deposits with the FRB. At December 31, 2012 and 2011, the reserve balances amounted to \$885 and \$821, respectively.

Banking regulations limit the transfer of assets in the form of dividends, loans, or advances from the Bank to the Corporation. At December 31, 2012, substantially all of the Bank's assets were restricted from transfer to the Corporation in the form of loans or advances. Consequently, Bank dividends are the principal source of funds for the Corporation. Payment of dividends without regulatory approval is limited to the current year's retained net income plus retained net income for the preceding two years, less any required transfers to common stock. At January 1, 2013, the amount available to the Corporation for dividends from the Bank, without regulatory approval, was approximately \$17,000.

NOTE 16 MINIMUM REGULATORY CAPITAL REQUIREMENTS

The Corporation (on a consolidated basis) and the Bank are subject to various regulatory capital requirements administered by the FRB and the FDIC. Failure to meet minimum capital requirements can initiate mandatory and possibly additional discretionary actions by the FRB and the FDIC that if undertaken, could have a material effect on our financial statements. Under regulatory capital adequacy guidelines and the regulatory framework for prompt corrective action, we must meet specific capital guidelines that include quantitative measures of assets, liabilities, capital, and certain off-balance-sheet items, as calculated under regulatory accounting standards. Our capital amounts and classifications are also subject to qualitative judgments by the FRB and the FDIC about components, risk weightings, and other factors. Prompt corrective action provisions are not applicable to bank holding companies.

Quantitative measures established by regulation to ensure capital adequacy require us to maintain minimum amounts and ratios (set forth in the following table) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined) and Tier 1 capital to average assets (as defined). We believe, as of December 31, 2012 and 2011, that we met all capital adequacy requirements.

As of December 31, 2012, the most recent notifications from the FRB and the FDIC categorized us as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, an institution must maintain total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the

Table of Contents

following tables. There are no conditions or events since the notifications that we believe has changed our categories. Our actual capital amounts and ratios are also presented in the table.

	Actual		Minimum Capital Requirement		Minimum To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
December 31, 2012

Consolidated	104,987	8.18	51,317	4.00	N/A	N/A

NOTE 17 BENEFIT PLANS**401(k) Plan**

We have a 401(k) plan in which substantially all employees are eligible to participate. Employees may contribute up to 50% of their compensation subject to certain limits based on federal tax laws. We made a 3.0% safe harbor contribution for all eligible employees and matching contributions equal to 50% of the first 4.0% of an employee's compensation contributed to the Plan during the year. Employees are 100% vested in the safe harbor contributions and are 0% vested through their first two years of employment and are 100% vested after 6 years of service for matching contributions. For 2012, 2011 and 2010, expenses attributable to the Plan were \$662, \$652, and \$625, respectively.

Defined Benefit Pension Plan

We have a non-contributory defined benefit pension plan which was curtailed in 2007. Due to the curtailment, future salary increases will not be considered and the benefits are based on years of service and the employees' five highest consecutive years of compensation out of the last ten years of service rendered through March 1, 2007.

Table of Contents

Changes in the projected benefit obligation and plan assets during each year, the funded status of the plan, and the net amount recognized on our consolidated balance sheets using an actuarial measurement date of December 31, are summarized as follows during the years ended December 31:

	2012	2011
Change in benefit obligation		
Benefit obligation, January 1	\$ 11,334	\$ 9,660
Interest cost	470	507
Actuarial loss	888	1,750
Benefits paid, including plan expenses	(483)	(583)
Benefit obligation, December 31	12,209	11,334
Change in plan assets		
Fair value of plan assets, January 1	8,603	8,900
Investment return	778	148
Contributions	752	138
Benefits paid, including plan expenses	(483)	(583)
Fair value of plan assets, December 31	9,650	8,603
Deficiency in funded status at December 31, included on the consolidated balance sheets in accrued interest payable and other liabilities	\$ (2,559)	\$ (2,731)

	2012	2011
Change in accrued pension benefit costs		
Accrued benefit cost at January 1	\$ (2,731)	\$ (760)
Contributions	752	138
Net periodic cost for the year	(251)	(138)
Net change in unrecognized actuarial loss and prior service cost	(329)	(1,971)
Accrued pension benefit cost at December 31	\$ (2,559)	\$ (2,731)

Amounts recognized as a component of other comprehensive income consist of the following amounts during the years ended December 31:

	2012	2011	2010
Change in unrecognized pension cost	\$ (329)	\$ (1,971)	\$ (72)
Tax effect	111	671	25
Net	\$ (218)	\$ (1,300)	\$ (47)

The accumulated benefit obligation was \$12,209 and \$11,334 at December 31, 2012 and 2011, respectively.

We have recorded the funded status of the Plan in our consolidated balance sheets. We adjust the underfunded status in a liability account to reflect the current funded status of the plan. Any gains or losses that arise during the period but are not recognized as components of net periodic benefit cost will be recognized as a component of other comprehensive income (loss). The components of net periodic benefit cost are as follows for the years ended December 31:

	2012	2011	2010
Interest cost on projected benefit obligation	\$ 470	\$ 507	\$ 531
Expected return on plan assets	(511)	(522)	(491)
Amortization of unrecognized actuarial net loss	292	153	153
Total	\$ 251	\$ 138	\$ 193

Table of Contents

Accumulated other comprehensive income at December 31, 2012 includes net unrecognized pension costs before income taxes of \$5,562, of which \$208 is expected to be amortized into benefit cost during 2013.

The actuarial assumptions used in determining the projected benefit obligation are as follows for the year ended December 31:

	2012	2011	2010
Discount rate	3.75%	4.22%	5.36%
Expected long-term rate of return	6.00%	6.00%	6.00%

The actuarial weighted average assumptions used in determining the net periodic pension costs are as follows for the year ended December 31:

	2012	2011	2010
Discount rate	4.22%	5.36%	6.10%
Expected long-term return on plan assets	6.00%	6.00%	6.00%

As a result of the curtailment of the Plan, there is no rate of compensation increase considered in the above assumptions.

The expected long term rate of return is an estimate of anticipated future long term rates of return on plan assets as measured on a market value basis. Factors considered in arriving at this assumption include:

Historical long term rates of return for broad asset classes.

Actual past rates of return achieved by the plan.

The general mix of assets held by the plan.

The stated investment policy for the plan.

The selected rate of return is net of anticipated investment related expenses.

Plan Assets

Our overall investment strategy is to moderately grow the portfolio by investing 50% of the portfolio in equity securities and 50% in fixed income securities. This strategy is designed to generate a long term rate of return of 6.0%. Equity securities primarily consist of the S&P 500 Index with a smaller allocation to the Small Cap and International Index. Fixed income securities are invested in the Bond Market Index. The Plan has appropriate assets invested in short term investments to meet near-term benefit payments.

The asset mix and the sector weighting of the investments are determined by our pension committee, which is comprised of members of our management. To manage the Plan, we retain a third party investment advisor to conduct consultations. We review the performance of the advisor no less than annually.

The fair values of our pension plan assets by asset category were as follows as of December 31:

Description	2012		2011	
	Total	(Level 2)	Total	(Level 2)

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

Asset Category				
Short-term investments	\$ 80	\$ 80	\$ 16	\$ 16
Common collective trusts				
Fixed income	4,832	4,832	4,357	4,357
Equity investments	4,738	4,738	4,230	4,230
	\$ 9,650	\$ 9,650	\$ 8,603	\$ 8,603

Table of Contents

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Short-term investments: Shares of a money market portfolio, which is valued using amortized cost, which approximates fair value.

Common collective trusts: These investments are public investment securities valued using the NAV provided by a third party investment advisor. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

We anticipate contributions of \$215 to the plan in 2013.

Estimated future benefit payments are as follows for the next ten years:

Year	Amount
2013	\$ 432
2014	526
2015	567
2016	567
2017	593
Years 2018 - 2022	3,281

The components of projected net periodic benefit cost are as follows for the year ending December 31:

	2013
Interest cost on projected benefit obligation	\$ 450
Expected return on plan assets	(572)
Amortization of unrecognized actuarial net loss	330
Net periodic benefit cost	\$ 208

Equity Compensation Plan

Pursuant to the terms of the Directors Plan, our directors are required to defer at least 25% of their earned board fees into the Directors Plan. The fees are converted on a quarterly basis into shares of our common stock based on the fair value of a share of common stock as of the relevant valuation date. Stock credited to a participant's account is eligible for stock and cash dividends as declared. Upon retirement from the board or the occurrence of certain other events, the participant is eligible to receive a lump-sum, in-kind, distribution of all of the stock that is then in his or her account, and any unconverted cash will be converted to and rounded up to whole shares of stock and distributed, as well. The Directors Plan does not allow for cash settlement, and therefore, such share-based payment awards qualify for classification as equity. All authorized but unissued shares of common stock are eligible for issuance under the Directors Plan. We may also purchase shares of common stock on the open market to meet our obligations under the Directors Plan.

We maintain the Rabbi Trust to fund the Directors Plan. The Rabbi Trust is an irrevocable grantor trust to which we may contribute assets for the limited purpose of funding a nonqualified deferred compensation plan. Although we may not reach the assets of the Rabbi Trust for any purpose other than meeting our obligations under the Directors Plan, the assets of the Rabbi Trust remain subject to the claims of our creditors and are included in the consolidated financial statements. We may contribute cash or common stock to the Rabbi Trust from time to time for the sole purpose of funding the Directors Plan. The Rabbi Trust will use any cash that we contributed to purchase shares of our common stock on the open market through our brokerage services department.

Table of Contents

The components of shares eligible to be issued under the Directors Plan were as follows as of December 31:

	2012		2011	
	Eligible Shares	Market Value	Eligible Shares	Market Value
Unissued	165,436	\$ 3,598	201,438	\$ 4,774
Shares held in Rabbi Trust	5,130	112	16,585	393
Total	170,566	\$ 3,710	218,023	\$ 5,167

Other Employee Benefit Plans

We maintain two nonqualified supplementary employee retirement plans to provide supplemental retirement benefits to specified participants. Expenses related to these programs for 2012, 2011, and 2010 were \$382, \$444, and \$363, respectively, and are being recognized over the participants' expected years of service.

We maintain a non-leveraged ESOP which was frozen to new participants on December 31, 2006. Contributions to the plan are discretionary and are approved by the Board of Directors and recorded as compensation expense. During 2012, the Board of Directors approved a contribution of \$75 to the ESOP. Prior to 2012, the most recent contribution was \$50 in 2009. We made no contributions in 2011 or 2010. Compensation cost related to the plan for 2012, 2011, and 2010 was \$102, \$20, and \$0, respectively. Total allocated shares outstanding related to the ESOP at December 31, 2012, 2011, and 2010 were 246,404, 246,404, and 246,419, respectively. Such shares are included in the computation of dividends and earnings per share in each of the respective years.

We maintain a self-funded medical plan under which we are responsible for the first \$75 per year of claims made by a covered family. Expenses are accrued based on estimates of the aggregate liability for claims incurred and our experience. Expenses were \$2,534 in 2012, \$2,045 in 2011 and \$2,101 in 2010.

NOTE 18 ACCUMULATED OTHER COMPREHENSIVE INCOME

Accumulated other comprehensive income includes net income as well as unrealized gains and losses, net of tax, on AFS investment securities owned and changes in the funded status of our defined benefit pension plan, which are excluded from net income. Unrealized AFS securities gains and losses and changes in the funded status of the pension plan, net of tax, are excluded from net income, and are reflected as a direct charge or credit to shareholders' equity. Comprehensive income (loss) and the related components are disclosed in the consolidated statements of comprehensive income.

The following is a summary of the components comprising the balance of accumulated other comprehensive income (loss) reported on the consolidated balance sheets as of December 31 (presented net of tax):

	2012	2011
Unrealized gains on available-for-sale investment securities	\$ 8,678	\$ 5,942
Unrecognized pension costs	(3,671)	(3,453)
Accumulated other comprehensive income	\$ 5,007	\$ 2,489

Table of Contents**NOTE 19 RELATED PARTY TRANSACTIONS**

In the ordinary course of business, we grant loans to principal officers and directors and their affiliates (including their families and companies in which they have 10% or more ownership). Annual activity during the years ended December 31 consisted of the following:

	2012	2011
Balance, January 1	\$ 3,728	\$ 4,347
New loans	8,435	1,800
Repayments	(5,565)	(2,419)
Balance, December 31	\$ 6,598	\$ 3,728

Total deposits of these principal officers and directors and their affiliates amounted to \$6,871 and \$7,664 at December 31, 2012 and 2011, respectively. In addition, the ESOP held deposits with the Bank aggregating \$517 and \$275, respectively, at December 31, 2012 and 2011.

From time to time, we make charitable donations to the Isabella Bank Foundation (the Foundation), which is an affiliated nonprofit entity formed for the purpose of distributing charitable donations to recipient organizations generally located in the communities we service. Donations are expensed when committed to the Foundation as they are non-refundable. The assets and transactions of the Foundation are not included in our consolidated financial statements.

The following table displays ending balances of, and our contributions to, the Foundation as of, and for the years ended, December 31:

	2012	2011	2010
Ending assets	\$ 1,766	\$ 1,150	\$ 1,108
Contributions	\$ 850	\$ 250	\$ 250

NOTE 20 FAIR VALUE

Following is a description of the valuation methodologies, key inputs, and an indication of the level of the fair value hierarchy in which the assets or liabilities are classified.

Cash and demand deposits due from banks:

The carrying amounts of cash and short term investments, including Federal funds sold, approximate fair values. As such, we classify cash and demand deposits due from banks as Level 1.

Certificates of deposit held in other financial institutions:

Interest bearing balances held in unaffiliated financial institutions include certificates of deposit and other short term interest bearing balances that mature within 3 years. Fair value is determined using prices for similar assets with similar characteristics. As such, we classify certificates of deposits held in other financial institutions as Level 2.

Investment securities:

Investment securities are recorded at fair value on a recurring basis. Level 1 fair value measurement is based upon quoted prices for identical instruments. Level 2 fair value measurement is based upon quoted prices for similar instruments. If quoted prices are not available, fair values are measured using independent pricing models or other model based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss and liquidity assumptions. The values for Level 1 and Level 2 investment securities are generally obtained from an independent third party. On a quarterly basis, we compare the values

provided to alternative pricing sources.

Table of Contents

Due to the limited trading activity of certain auction rate money market preferred securities and preferred stocks, we measured these securities using Level 3 inputs as of December 31, 2010. As the markets for these securities normalized and established regular trading patterns, we measured preferred stocks utilizing Level 1 inputs and the auction rate money market preferred security utilizing Level 2 inputs as of December 31, 2011 and continued to measure at these levels as of December 31, 2012.

The table below represents the activity in auction rate money market preferred and preferred stock AFS securities measured with Level 3 inputs on a recurring basis for the year ended December 31, 2011:

	Auction Rate Money Market Preferred	Preferred Stocks
Level 3 inputs January 1, 2011	\$ 2,865	\$ 6,936
Calls		(1,000)
Transfer to Level 1 inputs		(5,033)
Transfer to Level 2 inputs	(2,049)	
Net unrealized losses on AFS securities	(816)	(903)
Level 3 inputs December 31, 2011	\$	\$

We had no financial instruments measured with Level 3 inputs on a recurring basis during 2012.

Mortgage loans available-for-sale:

Mortgage loans available-for-sale are carried at the lower of cost or fair value. The fair value of mortgage loans available-for-sale are based on what price secondary markets are currently offering for portfolios with similar characteristics. As such, we classify loans subject to nonrecurring fair value adjustments as Level 2.

Loans:

For variable rate loans with no significant change in credit risk, fair values are based on carrying values. Fair values for fixed rate loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The resulting amounts are adjusted to estimate the effect of changes in the credit quality of borrowers since the loans were originated. Upon reviewing our assumptions related to the estimation of the fair value of loans, we transferred loans with an estimated fair value of \$751,009 as of December 31, 2012 from nonrecurring Level 2 assets to nonrecurring Level 3 assets. As such, we classify loans as level 3 assets.

We do not record loans at fair value on a recurring basis. However, from time to time, loans are classified as impaired and a specific allowance for loan losses may be established. Loans for which it is probable that payment of interest and principal will be significantly different than the contractual terms of the original loan agreement are considered impaired. Once a loan is identified as impaired, we measure the estimated impairment. The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value, or discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans.

We review the net realizable values of the underlying collateral for collateral dependent impaired loans on at least a quarterly basis for all loan types. To determine the collateral value, management utilizes independent appraisals, broker price opinions, or internal evaluations. These valuations are reviewed to determine whether an additional discount should be applied given the age of market information that may have been considered as well as other factors such as costs to carry and sell an asset if it is determined that the collateral will be liquidated in connection with the ultimate settlement of the loan. We use these valuations to determine if any charge offs or specific reserves are necessary. We may obtain new valuations in certain circumstances, including when there has been significant deterioration in the condition of the collateral, if the foreclosure process has begun, or if the existing valuation is deemed to be outdated.

Table of Contents

Impaired loans where an allowance is established based on the net realizable value of collateral require classification in the fair value hierarchy. Due to the inherent level of estimation in the valuation process, we record impaired loans as nonrecurring Level 3.

The table below lists the quantitative information about impaired loans measured utilizing Level 3 fair value measurements as of December 31, 2012:

Valuation Techniques	Fair Value	Unobservable Input	Range
Discounted cash flow	\$10,522	Duration of cash flows	14 120 Months
		Reduction in interest rate from original loan terms	5.00% 6.25%
		Discount applied to collateral appraisal:	
Discounted appraisal value	\$11,499	Real Estate	20% 30%
		Equipment	50%
		Livestock	50%
		Cash crop inventory	50%
		Other inventory	75%
		Accounts receivable	75%

Accrued interest:

The carrying amounts of accrued interest approximate fair value. As such, we classify accrued interest as Level 1.

Goodwill and other intangible assets:

Acquisition intangibles and goodwill are evaluated for potential impairment on at least an annual basis. Acquisition intangibles and goodwill are typically qualitatively evaluated to determine if it is more likely than not that the carrying balance is impaired. If it is determined that the carrying balance of acquisition intangibles or goodwill is more likely than not to be impaired, we perform a cash flow valuation to determine the extent of the potential impairment. If the testing resulted in impairment, we would classify goodwill and other acquisition intangibles subjected to nonrecurring fair value adjustments as Level 3. During 2012 and 2011 there were no impairments recorded on goodwill and other acquisition intangibles.

Equity securities without readily determinable fair values:

Included in equity securities without readily determinable fair values are FHLB Stock and FRB Stock as well as our ownership interests in Corporate Settlement Solutions and Valley Financial Corporation. The investment in Corporate Settlement Solutions, a title insurance company, was made in the 1st quarter 2007. The Corporation is not the managing entity of Corporate Settlement Solutions, LLC, and accounts for its investment in that entity under the equity method of accounting. Valley Financial Corporation is the parent company of 1st State Bank in Saginaw, Michigan, which is a de novo bank that opened in 2005. The Corporation made investments in Valley Financial Corporation in 2004 and in 2007.

The lack of an active market, or other independent sources to validate fair value estimates coupled with the impact of future capital calls and transfer restrictions, is an inherent limitation in the valuation process. As the fair values of these investments are not readily determinable, they are not disclosed under a specific fair value hierarchy; however, they are reviewed quarterly for impairment. If we were to record an impairment adjustment related to these securities, it would be classified as a nonrecurring Level 3 fair value adjustment. During 2012 and 2011, there were no impairments recorded on equity securities without readily determinable fair values.

Table of Contents***Foreclosed assets:***

Upon transfer from the loan portfolio, foreclosed assets are adjusted to and subsequently carried at the lower of carrying value or fair value less costs to sell. Net realizable value is based upon independent market prices, appraised values of the collateral, or management's estimation of the value of the collateral. Upon reviewing our assumptions related to the estimation of the fair value of loans, we transferred foreclosed assets with an estimated fair value of \$2,018 as of December 31, 2012 from nonrecurring Level 2 assets to nonrecurring Level 3 assets. Due to the inherent level of estimation in the valuation process, we record foreclosed assets as nonrecurring Level 3.

The table below lists the quantitative information related to foreclosed assets measured utilizing Level 3 fair value measurements as of December 31, 2012:

Valuation Technique	Fair Value	Unobservable Input	Range
Discounted appraisal value		Discount applied to collateral appraisal:	20%
	\$2,018	Real Estate	30%
		Equipment	50%

Originated mortgage servicing rights:

OMSR is subject to impairment testing. A valuation model, which utilizes a discounted cash flow analysis using interest rates and prepayment speed assumptions currently quoted for comparable instruments and a discount rate determined by management, is used for impairment testing. If the valuation model reflects a value less than the carrying value, originated mortgage servicing rights are adjusted to fair value through a valuation allowance as determined by the model. As such, we classify loan servicing rights subject to nonrecurring fair value adjustments as Level 2.

Deposits:

The fair value of demand, savings, and money market deposits are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts), and are classified as Level 1. Fair values for variable rate certificates of deposit approximate their recorded carrying value. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits. As such, certificates of deposit are classified as Level 2.

Borrowed funds:

The carrying amounts of federal funds purchased, borrowings under overnight repurchase agreements, and other short-term borrowings maturing within ninety days approximate their fair values. The fair values of other borrowed funds are estimated using discounted cash flow analyses based on current incremental borrowing arrangements.

We elected to measure a portion of borrowed funds at fair value as of December 31, 2011. These borrowings were recorded at fair value on a recurring basis, with the fair value measurement estimated using discounted cash flow analysis based on current incremental borrowing rates for similar types of borrowing arrangements. Changes in the fair value of these borrowings are included in noninterest income. As such, other borrowed funds are classified as Level 2.

Table of Contents

The activity in borrowings which we have elected to carry at fair value was as follows for the years ended December 31:

	2012	2011
Borrowings carried at fair value beginning of year	\$ 5,242	\$ 10,423
Paydowns and maturities	(5,209)	(5,000)
Net unrealized change in fair value	(33)	(181)
Borrowings carried at fair value December 31	\$	\$ 5,242
Unpaid principal balance December 31	\$	\$ 5,000

Commitments to extend credit, standby letters of credit and undisbursed loans:

Fair values for off balance sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into consideration the remaining terms of the agreements and the counterparties' credit standings. As we do not charge fees for lending commitments outstanding, it is not practicable to estimate the fair value of these instruments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although we believe our valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Estimated Fair Values of Financial Instruments Not Recorded at Fair Value in their Entirety on a Recurring Basis

Disclosure of the estimated fair values of financial instruments, which differ from carrying values, often requires the use of estimates. In cases where quoted market values in an active market are not available, we use present value techniques and other valuation methods to estimate the fair values of our financial instruments. These valuation methods require considerable judgment and the resulting estimates of fair value can be significantly affected by the assumptions made and methods used.

Table of Contents

The carrying amount and estimated fair value of financial instruments not recorded at fair value in their entirety on a recurring basis on our consolidated balance sheets are as follows as of December 31:

	Carrying Value	Estimated Fair Value	2012		
			(Level 1)	(Level 2)	(Level 3)
ASSETS					
Cash and demand deposits due from banks	\$ 24,920	\$ 24,920	\$ 24,920	\$	\$
Certificates of deposit held in other financial institutions	4,465	4,475		4,475	
Mortgage loans available-for-sale	3,633	3,680		3,680	
Total loans	772,753	784,964			784,964
Less allowance for loan losses	(11,936)	(11,936)			(311,936)
Net loans	760,817	773,028			773,028
Accrued interest receivable	5,227	5,227	5,227		
Equity securities without readily determinable fair values(1)	18,118	18,118			
Originated mortgage servicing rights	2,285	2,285		2,285	
LIABILITIES					
Deposits without stated maturities	553,332	553,332	553,332		
Deposits with stated maturities	464,335	472,630		472,630	
Borrowed funds	241,001	248,822		248,822	
Accrued interest payable	751	751	751		
2011					
	Carrying Value	Estimated Fair Value	(Level 1)	(Level 2)	(Level 3)
ASSETS					
Cash and demand deposits due from banks	\$ 28,590	\$ 28,590	\$ 28,590	\$	\$
Certificates of deposit held in other financial institutions	8,924	8,977		8,977	
Mortgage loans available-for-sale	3,205	3,252		3,252	
Total loans	750,291	769,177		743,927	25,250
Less allowance for loan losses	(12,375)	(12,375)		(8,255)	(4,120)
Net loans	737,916	756,802		735,672	21,130
Accrued interest receivable	5,848	5,848	5,848		
Equity securities without readily determinable fair values(1)	17,189	17,189			
Originated mortgage servicing rights	2,374	2,374		2,374	
LIABILITIES					
Deposits without stated maturities	476,627	476,627	476,627		
Deposits with stated maturities	481,537	499,644		499,644	
Borrowed funds	210,894	222,538		222,538	
Accrued interest payable	967	967	967		

- (1) Due to the characteristics of equity securities without readily determinable fair values, they are not disclosed under a specific fair value hierarchy. If we were to record an impairment adjustment related to these securities, such amount would be classified as a nonrecurring Level 3 fair value adjustment.

Table of Contents**Financial Instruments Recorded at Fair Value**

The table below presents the recorded amount of assets and liabilities measured at fair value on December 31:

NOTE 22 OPERATING SEGMENTS

Our reportable segments are based on legal entities that account for at least 10 percent of net operating results. Retail banking operations for 2012, 2011, and 2010 represent approximately 90% or greater of our total assets and operating results. As such, no additional segment information is presented.

Management's Discussion and Analysis of Financial Condition and Results of Operations

ISABELLA BANK CORPORATION FINANCIAL REVIEW

(Dollars in thousands except per share data)

The following is management's discussion and analysis of the financial condition and results of our operations. This discussion and analysis is intended to provide a better understanding of the consolidated financial statements and statistical data included elsewhere in the Annual Report.

Executive Summary

Despite the challenges and uncertainty of the current economic environment, we are pleased to report our strongest earnings ever. There continues to be slight improvements in the local, regional, and national economies, but a large degree of economic uncertainty remains. Our continued success throughout these challenging times is a direct result of our unwavering focus on community banking principles, prudent underwriting standards, and long term sustainable growth. This focus has enabled us to continue to meet the needs of the communities we serve. Carefully managed growth is an important part of our strategy to maintain shareholder value. We are excited about the prospects of our new Freeland, Michigan office which was opened in October 2012. The new location complements our existing office locations, increases our brand awareness in the Freeland area, and is expected to provide additional shareholder value for years to come.

Recent Legislation

The Health Care and Education Act of 2010, the Patient Protection and Affordable Care Act, the Dodd-Frank Act, and the JOBS Act, have had, and are expected to continue to have, a significant impact on our operating results in future periods. While the legislation has been passed for these acts, much of the regulations have yet to be written. As such, the extent of the potential impact on our operations has yet to be determined. Of these three acts, the Dodd-Frank Act has had, and is likely to have, the most significant impact. This particular Act made sweeping changes in the regulation of financial institutions aimed at strengthening the operation of the financial services sector. As a result of the implementation of some of the provisions, we have had increases in compensation costs and this trend is expected to continue.

In June 2012, the FFIEC proposed new capital requirements for all financial institutions. In general, the proposal adds a new capital standard of equity capital to assets and increases the minimum capital ratios to be considered well capitalized. While these proposals are not yet final, they could significantly impact our capital requirements, which could impact our ability to pay dividends.

Other

We have not received any notices of regulatory actions as of March 1, 2013.

CRITICAL ACCOUNTING POLICIES:

Our significant accounting policies are set forth in Note 1 Nature of Operations and Summary of Significant Accounting Policies of the Consolidated Financial Statements. Of these significant accounting policies, we consider our policies regarding the ALLL, acquisition intangibles and goodwill, and the determination of the fair value and assessment of OTTI of investment securities to be our most critical accounting policies.

The ALLL requires our most subjective and complex judgment. Changes in economic conditions can have a significant impact on the ALLL and, therefore, the provision for loan losses and results of operations. We have developed policies and procedures for assessing the appropriateness of the ALLL, recognizing that this process requires a number of assumptions and estimates with respect to our loan portfolio. Our assessments may be impacted in future periods by changes in economic conditions, and the discovery of information with respect to borrowers which is not known to us at the time of the issuance of the consolidated financial statements. For

Table of Contents

additional discussion concerning our ALLL and related matters, see the detailed discussion to follow under the heading Allowance for Loan Losses and Note 6 Loans and Allowance for Loan Losses of the Notes to Consolidated Financial Statements.

United States generally accepted accounting principles require that we determine the fair value of the assets and liabilities of an acquired entity, and record their fair value on the date of acquisition. We employ a variety of measures in the determination of the fair value, including the use of discounted cash flow analysis, market appraisals, and projected future revenue streams. For certain items that we believe we have the appropriate expertise to determine the fair value, we may choose to use our own calculations of the value. In other cases, where the value is not easily determined, we consult with outside parties to determine the fair value of the identified asset or liability. Once valuations have been adjusted, the net difference between the price paid for the acquired entity and the net value of assets acquired on our balance sheet, including identifiable intangibles, is recorded as goodwill. Acquisition intangibles and goodwill are qualitatively evaluated to determine if it is more likely than not that the carrying balance is impaired on a quarterly basis.

We currently have both AFS and trading investment securities that are carried at fair value. Changes in the fair value of AFS investment securities are included as a component of other comprehensive income, while declines in the fair value of these securities below their cost that are other-than-temporary are reflected as realized losses in the consolidated statements of income. The change in value of trading investment securities is included in current earnings. We evaluate AFS securities for indications of losses that are considered other-than-temporary, if any, on a regular basis. The market values for AFS and trading investment securities are typically obtained from outside sources and applied to individual securities within the portfolio.

Table of Contents**DISTRIBUTION OF ASSETS, LIABILITIES, AND SHAREHOLDERS EQUITY INTEREST RATE AND INTEREST DIFFERENTIAL**

The following schedules present the daily average amount outstanding for each major category of interest earning assets, nonearning assets, interest bearing liabilities, and noninterest bearing liabilities for the last three years. These schedules also present an analysis of interest income and interest expense for the years indicated. All interest income is reported on an FTE basis using a 34% federal income tax rate. Nonaccruing loans, for the purpose of the following computations, are included in the average loan amounts outstanding. FRB and FHLB stock holdings, which are restricted, are included in accrued income and other assets.

Net Interest Income

Our primary sources of revenues are interest earned on loans and investments, while our most significant expense is interest expense on deposits and borrowings. Net interest income is the amount by which interest income on earning assets exceeds the interest expenses on interest bearing

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

liabilities. Net interest income is influenced by changes in the balance and mix of assets and liabilities and market interest rates. We exert some control over these factors; however, FRB monetary policy and competition have a significant impact. Interest income includes loan fees of \$3,178 in 2012, \$2,385 in 2011, and \$2,196 in 2010. For analytical purposes, net

Table of Contents

interest income is adjusted to an FTE basis by adding the income tax savings from interest on tax exempt securities, thus making year to year comparisons more meaningful.

VOLUME AND RATE VARIANCE ANALYSIS

The following table details the dollar amount of changes in FTE net interest income for each major category of interest earning assets and interest bearing liabilities and the amount of change attributable to changes in average balances (volume) or average rates. The change in interest due to both volume and rate has been allocated to volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.

	2012 Compared to 2011			2011 Compared to 2010		
	Increase (Decrease) Due to			Increase (Decrease) Due to		
	Volume	Rate	Net	Volume	Rate	Net
CHANGES IN INTEREST INCOME:						
Loans	\$ 656	\$ (2,723)	\$ (2,067)	\$ 1,136	\$ (2,467)	\$ (1,331)
Taxable AFS securities	1,945	(1,331)	614	2,254	(584)	1,670
Nontaxable AFS securities	511	(417)	94	886	(134)	752
Trading securities	(134)	(10)	(144)	(168)	18	(150)
Other	(59)	39	(20)	(93)	120	27
Total changes in interest income	2,919	(4,442)	(1,523)	4,015	(3,047)	968
CHANGES IN INTEREST EXPENSE:						
Interest bearing demand deposits	22	(7)	15	18	20	38
Savings deposits	52	(89)	(37)	57	40	97
Time deposits	124	(1,906)	(1,782)	894	(1,624)	(730)
Borrowed funds	647	(1,623)	(976)	299	(705)	(406)
Total changes in interest expense	845	(3,625)	(2,780)	1,268	(2,269)	(1,001)
Net change in interest margin (FTE)	\$ 2,074	\$ (817)	\$ 1,257	\$ 2,747	\$ (778)	\$ 1,969

We, like all financial institutions, are experiencing downward pressure on our net yield on interest earning assets. This pressure is a direct result of FRB monetary policy which has reduced yields on interest earning assets more than rates on interest bearing liabilities. A key benchmark for lending is the 10 year US Treasury, which is currently trading below 2.0%. As a result of the persistent low interest rate environment, our net yield on interest earning assets is at historically low levels. However, as shown in the following table, our net yield on interest earning assets remained relatively flat throughout 2012. This is a direct result of our restructuring of \$60,000 of FHLB advances in the first quarter of 2012, which reduced 2012 interest expense by approximately \$450.

	Average Yield/Rate For The Three Month Periods Ended:				
	December 31 2012	September 30 2012	June 30 2012	March 31 2012	December 31 2011
Total earning assets	4.61%	4.76%	4.84%	4.91%	5.12%
Total interest bearing liabilities	1.12%	1.18%	1.27%	1.38%	1.53%
Net yield on interest earning assets (FTE)	3.65%	3.73%	3.73%	3.70%	3.78%

Given that the historically low interest rate environment is expected to continue for the foreseeable future, the net yield on interest earning assets is not likely to increase in future periods. We anticipate continued reduction in rates earned on loans without a proportionate decline in funding rates. Any additional interest income will most likely be contingent upon increases in volume and probably at interest margins lower than those earned in the fourth quarter of 2012.

Table of Contents**Allowance for Loan Losses**

The viability of any financial institution is ultimately determined by its management of credit risk. Loans outstanding represent our single largest concentration of risk. The ALLL is our estimation of probable losses inherent in the existing loan portfolio. We allocate the ALLL throughout the loan portfolio based on our assessment of the underlying risks associated with each loan segment. Our assessments include allocations based on specific impairment allocations, historical losses, internally assigned credit ratings, and past due and nonaccrual balances. A portion of the ALLL is not specifically allocated to any one loan segment, but is instead a reflection of other qualitative risks within the loan portfolio.

The following table summarizes our charge-off and recovery activity for the years ended December 31:

	2012	2011	2010	2009	2008
ALLL January 1	\$ 12,375	\$ 12,373	\$ 12,979	\$ 11,982	\$ 7,301

---	--------------	--------------	--------------	--------------	--------------

Table of Contents

In the fourth quarter of 2012, we experienced a significant increase in charge-offs. Of the \$1,469 of total loans charged-off during the quarter, \$356 had previously been identified through specific impairment valuation allowances. The remaining charge-offs were identified in the fourth quarter as part of our credit risk management process. Of those not previously identified as impaired, two charge-offs totaling \$357 individually exceeded \$100.

Despite the increase in loans charged-off in the fourth quarter of 2012, the level of net loans charged-off has continued to trend downward since 2008. This trend, coupled with declines in loans past due and in nonaccrual status, has allowed us to reduce our provision, and has led to a decline in the ALLL in both amount and as a percentage of loans. For further discussion of the allocation of the ALLL, see Note 6 Loans and Allowance for Loan Losses to the consolidated financial statements.

Loans Past Due in Nonaccrual Status

Increases in past due and nonaccrual loans can have a significant impact on the ALLL. To determine the potential impact, and corresponding estimated losses, we analyze our historical loss trends on loans past due 30-89 days, 90 days or more, and nonaccrual loans. We monitor all loans that are past due and in nonaccrual status for indicators of additional deterioration.

The following tables summarize our past due and nonaccrual loans as of December 31:

	Total Past Due and Nonaccrual				
	2012	2011	2010	2009	2008
Commercial and agricultural	\$ 7,271	\$ 7,420	\$ 9,606	\$ 8,839	\$ 13,958
Residential real estate	5,431	5,297	8,119	10,296	12,418
Consumer	199	186	309	460	956
Total	\$ 12,901	\$ 12,903	\$ 18,034	\$ 19,595	\$ 27,332

A summary of loans past due and in nonaccrual status, including the composition of the ending balance of nonaccrual loans by type, is included in Note 6 Loans and Allowance for Loan Losses of the Notes to Consolidated Financial Statements.

Troubled Debt Restructurings

We have taken a proactive approach to avoid foreclosures on borrowers who are willing to work with us in modifying their loans, thus making them more affordable. While this approach has allowed certain borrowers to develop a payment structure that will allow them to continue making payments in lieu of foreclosure, it has contributed to a significant increase in the level of loans classified as TDR. The implementation of ASU No. 2011-02 *A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring* has also contributed to the increased level of TDRs. The modifications have been extremely successful for us and our customers as very few of the modified loans have resulted in foreclosures. At the time of the TDR, the loan is reviewed to determine whether or not to classify the loan as accrual or nonaccrual. The majority of new modifications result in terms that satisfy our criteria for continued interest accrual. TDRs that have been placed in nonaccrual status may be placed back on accrual status after six months of continued performance.

We restructure debt with borrowers who due to temporary financial difficulties are unable to service their debt under the original terms. We may extend the amortization period, reduce interest rates, forgive principal, or a combination of these modifications. Typically, the modifications are for a period of five years or less. There are no TDRs that were Government sponsored as of December 31, 2012.

Losses associated with TDRs, if any, are included in the estimation of the ALLL in the quarter in which a loan is identified as a TDR, and we review the ALLL estimation each reporting period to ensure its continued appropriateness.

Table of Contents

The following tables provide a roll-forward of TDRs for the years ended December 31, 2011 and 2012:

	Accruing Interest		Nonaccrual		Total	
	Number of Loans	Balance	Number of Loans	Balance	Number of Loans	Balance
January 1, 2011	35	\$ 5,075	10	\$ 688	45	\$ 5,763

Total impaired loans	\$ 25,958	\$ 28,716	\$ 3,937	\$ 25,250	\$ 30,109	\$ 4,120

Additional disclosure related to impaired loans is included in Note 6 Loans and Allowance for Loan Losses of the Notes to Consolidated Financial Statements.

Nonperforming Assets

The following table summarizes our nonperforming assets as of December 31:

	2012	2011	2010	2009	2008
Nonaccrual loans	\$ 7,303	\$ 6,389	\$ 5,610	\$ 8,522	\$ 11,175
Accruing loans past due 90 days or more	428	760	486	768	1,251
Total nonperforming loans	7,731	7,149	6,096	9,290	12,426
OREO	2,008	1,867	2,039	1,141	2,770
Repossessed assets	10	9	28	16	153
Total nonperforming assets	\$ 9,749	\$ 9,025	\$ 8,163	\$ 10,447	\$ 15,349
Nonperforming loans as % of total loans	1.00%	0.95%	0.83%	1.28%	1.69%

Nonperforming assets as a % of total loans	0.68%	0.67%	0.67%	0.91%	1.35%
---	--------------	--------------	--------------	--------------	--------------

Table of Contents

Loans are placed in nonaccrual status when the foreclosure process has begun, generally after a loan is 90 days past due, unless they are well secured. Upon transferring the loans to nonaccrual status, we perform an evaluation to determine the net realizable value of the underlying collateral. This evaluation is used to help determine if any charge offs are necessary. Loans may be placed back on accrual status after six months of continued performance.

Included in the nonaccrual loan balances above were credits classified as TDR s as of December 31:

	2012	2011	2010	2009	2008
Commercial and agricultural	\$ 2,325	\$ 520	\$ 115	\$ 1,692	\$ 1,985
Residential mortgage	499	497	573	424	
	\$ 2,824	\$ 1,017	\$ 688	\$ 2,116	\$ 1,985

Nonaccrual TDR s increased in 2012 as a result of two large TDR s that were granted during 2012. These relationships had a balance of \$1,710 as of December 31, 2012.

The following table lists individually significant commercial and agricultural loan relationships in nonaccrual. To be classified as individually significant, the recorded investment in nonaccrual loans to each borrower must have exceeded \$1,000 as of the end of each period.

	2012		2011		2010		2009	
	Outstanding Balance	Specific Allocation	Outstanding Balance	Specific Allocation	Outstanding Balance	Specific Allocation	Outstanding Balance	Specific Allocation
Borrower 1	\$ (A)	\$	\$ 1,014	\$ (C)	\$	\$	\$	\$
Borrower 2	(B)		1,900	(D)	2,679	345		
Borrower 3	2,077	359						
Borrower 4					(B)		1,800	(D)
Other not individually significant	5,226		3,475		2,931		6,722	
Total	\$ 7,303		\$ 6,389		\$ 5,610		\$ 8,522	

A Transferred to accrual status.

B Loan was partially charged-off with the remaining outstanding balance paid off by the customer.

C No specific allocation as the net realizable value of the loan s underlying collateral value exceeded the loan s carrying balance.

D No specific allocation established for this loan as it was charged down to reflect the current fair value of the underlying real estate. There were no other individually significant credits included in nonaccrual loans as of December 31, 2012, 2011, 2010, 2009, or 2008.

We continue to devote considerable attention to identifying impaired loans and adjusting the net carrying value of these loans to their current net realizable values through the establishment of a specific reserve or the recording of a charge off. We believe that all loans deemed to be impaired have been identified.

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

We believe that the level of the ALLL is appropriate as of December 31, 2012 and we will continue to closely monitor overall credit quality and our policies and procedures related to the analysis of the ALLL to ensure that the ALLL remains appropriate.

Table of Contents**NONINTEREST INCOME AND EXPENSES****Noninterest Income**

The following table shows the changes in noninterest income between the years ended December 31:

	2012	2011	Change		2010	Change	
			\$	%		\$	%

Net gain on borrowings measured at fair value	33	181	(148)	81.8%	227	(46)	20.3%
All other	426	422	4	0.9%	470	(48)	10.2%
Total other	1,705	950	755	79.5%	1,199	(249)	20.8%
Total noninterest income	\$ 11,530	\$ 8,218	\$ 3,312	40.3%	\$ 9,300	\$ (1,082)	11.6%

Significant changes in noninterest income are detailed below:

We continuously analyze various fees related to deposit accounts including service charges and NSF and overdraft fees. Based on these analyses, we make any necessary adjustments to ensure that our fee structure is within the range of our competitors, while at the same time making sure that the fees remain fair to deposit customers. NSF and overdraft fees represent the largest single component of service charges and fees. While we have experienced significant increases in deposit accounts, NSF and overdraft fees have declined. This decline has been the result of reduced overdraft activity by our customers as well as changes in banking regulations. Despite increasing our per item NSF and overdraft fees in December 2012, we expect this downward trend to continue into the foreseeable future.

As customers continue to increase their dependence on ATM and debit cards, we have seen a corresponding increase in fees. We do not anticipate significant changes to our ATM and debit fee structure; however, we do expect that these fees will continue to increase as the usage of debit cards increases.

Table of Contents

In recent periods, we have invested considerable efforts to increase our market share in trust and brokerage and advisory services. These efforts have translated into increases in revenues and we expect this trend to continue in future periods.

Historically low offering rates on residential real estate loans have led to a significant increase in the level of refinancing activity. This increase in activity has resulted in substantial increases in the gain on sale of mortgage loans, while contributing to fluctuations in the value of our OMSR portfolio. We anticipate that mortgage refinancing activity will decline in 2013.

We are continually analyzing our AFS security portfolio for potential sale opportunities. During the first quarter of 2012, we identified several pools of mortgage-backed securities with significant unrealized gains. As the interest rates of the underlying mortgages were significantly higher than the current offering rates for similar mortgages, we elected to realize these gains through the sales of such securities as the investments would have likely been paid off in the near term through refinancing activity. In the third quarter of 2012, we elected to sell some additional mortgage-backed securities as their current prepayment characteristics had resulted in less than acceptable yields. We do not anticipate any significant investment sales during 2013.

Earnings on corporate owned life insurance policies have increased from 2011 as a result of the purchase of an additional \$4,000 in policies in the third quarter of 2011. Future earnings are expected to approximate current levels.

In 2011, Corporate Settlement Solutions invested significant resources to expand and enhance their services offered. While these efforts reduced earnings in 2011, they have led to the significant increase in earnings in 2012. We expect future earnings to approximate current levels.

As market conditions have improved, we have been able to sell some of our OREO properties at gains. As property values and the facts and circumstances surrounding each property vary, this amount will fluctuate. We do not anticipate any assets currently included in OREO to generate significant gains or losses in future periods.

Fluctuations in the gains and losses related to trading securities and borrowings measured at fair value are caused by interest rate variances. As we do not anticipate any significant changes to interest rates in the foreseeable future, we do not anticipate any large fluctuations in future periods.

The fluctuation in all other income is spread throughout various categories, none of which are individually significant. We do not anticipate any significant fluctuations from current levels in 2013.

Table of Contents**Noninterest Expenses**

The following table shows the changes in noninterest expenses between the years ended December 31:

	2012	2011	Change		2010	Change	
			\$	%		\$	%

Total noninterest expenses	\$ 37,639	\$ 34,530	\$ 3,109	9.0%	\$ 33,807	\$ 723	2.1%

Table of Contents

Significant changes in noninterest expenses are detailed below:

The increase in employee salaries is due to annual merit increases and our continued growth as well as additional staff additions to help comply with the Dodd Frank Act and other recently passed regulations. Employee benefits increased in 2012 primarily as a result of increases in health care and retirement benefit related expenses. We expect employee salaries and benefits to increase with the growth of the Corporation.

During the first quarter of 2012, we recorded a credit impairment on an AFS investment security through earnings due to a bond being downgraded by an independent rating agency below investment grade. We will continue to monitor the investment portfolio throughout 2013 for other potential other-than-temporary impairments. For further discussion, see Note 5 Available-For-Sale Securities of the Notes to Consolidated Financial Statements.

We have been a consistently strong supporter of the various communities, schools, and charities in the markets we serve. In the 1996, we established a foundation that is generally funded from non-recurring revenue sources. The foundation provides centralized oversight for donations to organizations that benefit our communities. Donation expenses related to the foundation were \$850, \$250, and \$250 for the years ended December 31, 2012, 2011, and 2010, respectively and is included in marketing and community relations.

FDIC insurance premiums have declined due to changes in the premium calculation. Premiums will increase in future periods as we continue to grow our balance sheet. There are no significant changes to the premium calculation expected in 2013.

The increase in consulting fees is primarily related to consulting services employed to review the FHLB advance restructure (see Volume and Rate Variance Analysis , above). Such expenses also increased due to the engagement of consultants to review our loan prepayment and deposit decay assumptions as well as to review various information technology projects. Consulting fees are expected to decline in 2013.

Other losses increased significantly in 2012 primarily as a result of losses incurred related to fraudulent activities as well as losses related to the repurchase of a loan that was previously sold to a third party. We do not anticipate any significant other losses in 2013.

As a result of decreases in foreclosure and repossession activity, we have seen significant declines in foreclosed asset and collection and legal expenses. These expenses have also declined as we have been able to recover expenses through our collection efforts. Foreclosed asset and collection expenses are expected to continue their decline in 2013.

State taxes increased in 2012 as a result of changes to Michigan s Corporate Income Tax structure. These expenses are expected to increase marginally in future periods.

The fluctuations in all other expenses are spread throughout various categories, none of which are individually significant.

Table of Contents**ANALYSIS OF CHANGES IN FINANCIAL CONDITION**

The following table shows the composition and changes in our balance sheet as of December 31:

	2012	2011	Change	
			\$	%
ASSETS				
Cash and cash equivalents	\$ 24,920	\$ 28,590	\$ (3,670)	12.84%
Certificates of deposit held in other financial institutions	4,465	8,924	(4,459)	49.97%
Trading securities	1,573	4,710	(3,137)	66.60%
Available-for-sale securities	504,010	425,120	78,890	18.56%
Mortgage loans available-for-sale	3,633	3,205	428	13.35%
Loans	772,753	750,291	22,462	2.99%
Allowance for loan losses	(11,936)	(12,375)	439	3.55%
Premises and equipment	25,787	24,626	1,161	4.71%
Corporate owned life insurance	22,773	22,075	698	3.16%
Accrued interest receivable	5,227	5,848	(621)	10.62%
Equity securities without readily determinable fair values	18,118	17,189	929	5.40%
Goodwill and other intangible assets	46,532	46,792	(260)	0.56%
Other assets	12,784	12,930	(146)	1.13%
TOTAL ASSETS	\$ 1,430,639	\$ 1,337,925	\$ 92,714	6.93%
LIABILITIES AND SHAREHOLDERS EQUITY				
Liabilities				
Deposits	\$ 1,017,667	\$ 958,164	\$ 59,503	6.21%
Borrowed funds	241,001	216,136	24,865	11.50%
Accrued interest payable and other liabilities	7,482	8,842	(1,360)	15.38%
Total liabilities	1,266,150	1,183,142	83,008	7.02%
Shareholders equity	164,489	154,783	9,706	6.27%
TOTAL LIABILITIES AND SHAREHOLDERS EQUITY	\$ 1,430,639	\$ 1,337,925	\$ 92,714	6.93%

As shown above, we were able to continue to grow our balance sheet in 2012. The growth in deposits was supplemented by an increase in borrowed funds. As loan growth continues to be relatively soft, the additional funding provided by the growth in borrowings and deposits were deployed into available-for-sale investment securities. For 2013, we anticipate that deposit growth will continue to be strong and that loan demand will improve.

A discussion of changes in balance sheet amounts by major categories follows:

Certificates of deposit held in other financial institutions

During 2012, we reinvested maturities of certificates of deposit held in other financial institutions into AFS investment securities to increase net interest margins (as the yields on AFS investment securities exceeded the potential reinvestment rates for certificates of deposits held in other financial institutions during the year). This trend is likely to continue in 2013.

Table of Contents**Trading securities**

Trading securities are carried at fair value. Our overall intent is to maintain a trading portfolio to enhance the ongoing restructuring of assets and liabilities as part of our IRR management objectives (see Note 4 Trading Securities of the Notes to Consolidated Financial Statements). Due to the current interest rate environment, we have allowed this balance to decline.

AFS investment securities

The primary objective of our investing activities is to provide for safety of the principal invested. Secondary considerations include the need for earnings, liquidity, and our overall exposure to changes in interest rates.

The following is a schedule of the carrying value of investment securities AFS as of December 31:

	2012	2011	2010
Government sponsored enterprises	\$ 25,776	\$ 397	\$ 5,404
States and political subdivisions	182,743	174,938	169,717
Auction rate money market preferred	2,778	2,049	2,865
Preferred stocks	6,363	5,033	6,936
Mortgage-backed securities	155,345	143,602	102,215
Collateralized mortgage obligations	131,005	99,101	43,587
Total	\$ 504,010	\$ 425,120	\$ 330,724

Excluding those holdings in government sponsored enterprises and municipalities within the state of Michigan, there were no investments in securities of any one issuer that exceeded 10% of shareholders' equity. We have a policy prohibiting investments in securities that we deem are unsuitable due to their inherent credit or market risks. Prohibited investments include stripped mortgage backed securities, zero coupon bonds, nongovernment agency asset backed securities, and structured notes. Our holdings in mortgage-backed securities and collateralized mortgage obligations include only government agencies and government sponsored agencies as we hold no investments in private label mortgage-backed securities or collateralized mortgage obligations.

The following is a schedule of maturities of AFS investment securities and their weighted average yield as of December 31, 2012. Weighted average yields have been computed on an FTE basis using a tax rate of 34%. Our auction rate money market preferred is a long term floating rate instrument for which the interest rate is set at periodic auctions. At each successful auction, we have the option to sell the security at par value. Additionally, the issuers of auction rate securities generally have the right to redeem or refinance the debt. Because of their lack of contractual maturities, auction rate money market preferred and preferred stocks are not reported by a specific maturity group. Mortgage-backed securities and collateralized mortgage obligations are not reported by a specific maturity group due to their variable monthly payments. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations.

	Maturing								Securities with	
	Within		After One		After Five		After		Variable Monthly	
	One Year		Year But		Years But		Ten Years		Payments or	
	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)	Amount	Yield (%)

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

Total	\$ 11,746	3.65	\$ 37,759	5.15	\$ 154,510	3.81	\$ 159,849	2.59	\$ 140,146	2.56
--------------	------------------	-------------	------------------	-------------	-------------------	-------------	-------------------	-------------	-------------------	-------------

Table of Contents**Loans**

Loans are the largest component of earning assets. The proper management of credit and market risk inherent in the loan portfolio is critical to our financial well-being. To control these risks, we have adopted strict underwriting standards. These standards include specific criteria against lending outside our defined market areas, lending limits to a single borrower, and strict loan to collateral value limits. We also monitor and limit loan concentrations to specific industries. We have no foreign loans and there were no concentrations greater than 10% of total loans that are not disclosed as a separate category in the following table.

The following table presents the composition of the loan portfolio for the years ended December 31:

	2012	2011	2010	2009	2008
Commercial	\$ 371,505	\$ 365,714	\$ 348,852	\$ 340,274	\$ 324,806
Agricultural	83,606	74,645	71,446	64,845	58,003
Residential real estate	284,148	278,360	284,029	285,838	319,397
Consumer	33,494	31,572	30,977	32,359	33,179
	\$ 772,753	\$ 750,291	\$ 735,304	\$ 723,316	\$ 735,385

The following table presents the change in the loan categories for the years ended December 31:

	2012		2011		2010	
	\$ Change	% Change	\$ Change	% Change	\$ Change	% Change
Commercial	\$ 5,791	1.6%	\$ 16,862	4.8%	\$ 8,578	2.5%
Agricultural	8,961	12.0%	3,199	4.5%	6,601	10.2%
Residential real estate	5,788	2.1%	(5,669)	2.0%	(1,809)	0.6%
Consumer	1,922	6.1%	595	1.9%	(1,382)	4.3%
	\$ 22,462	3.0%	\$ 14,987	2.0%	\$ 11,988	1.7%

We expect loans to increase moderately in 2013, with most of this growth coming in commercial loans.

Equity securities without readily determinable fair values

Included in equity securities without readily determinable fair values are restricted securities, which are carried at cost and investments in nonconsolidated entities accounted for under the equity method of accounting (see Note 1 Nature of Operations and Summary of Significant Accounting Policies and Note 20 Fair Value of the Notes to Consolidated Financial Statements).

Deposits

Deposits are our primary source of funding. The following table presents the composition of the deposit portfolio as of December 31:

	2012	2011	2010	2009	2008
Noninterest bearing deposits	\$ 143,735	\$ 119,072	\$ 104,902	\$ 96,875	\$ 97,546
NOW accounts	181,259	163,653	142,259	128,111	113,973
Savings deposits	228,338	193,902	177,817	157,020	182,523
Certificates of deposit	376,790	395,777	386,435	356,594	340,976
Brokered certificates of deposit	55,348	54,326	53,748	50,933	28,185
Internet certificates of deposit	32,197	31,434	12,178	13,119	12,427

Total	\$ 1,017,667	\$ 958,164	\$ 877,339	\$ 802,652	\$ 775,630
--------------	---------------------	-------------------	-------------------	-------------------	-------------------

Table of Contents

The following table presents the change in the deposit categories for the years ended December 31:

	2012		2011		2010	
	\$ Change	% Change	\$ Change	% Change	\$ Change	% Change
Noninterest bearing deposits	\$ 24,663	20.7%	\$ 14,170	13.5%	\$ 8,027	8.3%
NOW accounts	17,606	10.8%	21,394	15.0%	14,148	11.0%
Savings deposits	34,436	17.8%	16,085	9.0%	20,797	13.2%
Certificates of deposit	(18,987)	4.8%	9,342	2.4%	29,841	8.4%
Brokered certificates of deposit	1,022	1.9%	578	1.1%	2,815	5.5%
Internet certificates of deposit	763	2.4%	19,256	158.1%	(941)	7.2%
Total	\$ 59,503	6.2%	\$ 80,825	9.2%	\$ 74,687	9.3%

While we anticipate that deposits will continue to increase in 2013, it is expected to be at a lower rate than 2012. Growth in 2013 is anticipated to continue to come in the form on non-contractual deposits. Certificates of deposits are expected to approximate current levels.

The following table shows the average balances and corresponding interest rates paid on deposit accounts as of December 31:

	2012		2011		2010	
	Amount	Rate	Amount	Rate	Amount	Rate
Noninterest bearing demand deposits	\$ 125,443	N/A	\$ 113,726	N/A	\$ 102,812	N/A
Interest bearing demand deposits	170,851	0.12%	152,530	0.12%	137,109	0.11%
Savings deposits	214,958	0.21%	192,999	0.25%	169,579	0.23%
Time deposits	473,675	1.79%	467,931	2.19%	430,892	2.55%
Total	\$ 984,927		\$ 927,186		\$ 840,392	

The remaining maturity of time certificates and other time deposits of \$100 or more as of December 31, 2012 was as follows:

Maturity	
Within 3 months	\$ 31,319
Within 3 to 6 months	24,323
Within 6 to 12 months	52,684
Over 12 months	128,801
Total	\$ 237,127

Borrowed Funds

Borrowed funds include FHLB advances and securities sold under agreements to repurchase. The balance of borrowed funds fluctuates from period to period based on our funding needs including changes in loans, investments, and deposits. For additional disclosure related to borrowed funds see Note 10 Borrowed Funds of Notes to Consolidated Financial Statements.

Table of Contents**Contractual Obligations and Loan Commitments**

We have various financial obligations, including contractual obligations and commitments, which may require future cash payments. The following schedule summarizes our non-cancelable obligations and future minimum payments as of December 31, 2012:

	Minimum Payments Due by Period				Total
	Due in One Year or Less	After One Year But Within Three Years	After Three Years But Within Five Years	After Five Years	
Deposits					
Deposits with no stated maturity	\$ 553,332	\$	\$	\$	\$ 553,332
Certificates of deposit with stated maturities	205,754	148,427	91,755	18,399	464,335
Total deposits	759,086	148,427	91,755	18,399	1,017,667
Borrowed funds					
Short term borrowings	72,717				72,717
Long term borrowings	5,000	63,284	50,000	50,000	168,284
Total borrowed funds	77,717	63,284	50,000	50,000	241,001
Total contractual obligations	\$ 836,803	\$ 211,711	\$ 141,755	\$ 68,399	\$ 1,258,668

We also have loan commitments that may impact liquidity. The following schedule summarizes our loan commitments and expiration dates by period as of December 31, 2012. Commitments to grant loans include loans to be sold to the secondary market. Since many of these commitments historically have expired without being drawn upon, the total amount of these commitments does not necessarily represent our future cash requirements.

	Expiration Dates by Period				Total
	Due in One Year or Less	After One Year But Within Three Years	After Three Years But Within Five Years	After Five Years	
Unused commitments under lines of credit	\$ 69,385	\$ 34,744	\$ 7,934	\$ 3,170	\$ 115,233
Commitments to grant loans	40,507				40,507
Commercial and standby letters of credit	3,935				3,935
Total loan commitments	\$ 113,827	\$ 34,744	\$ 7,934	\$ 3,170	\$ 159,675

For additional disclosure related to Contractual Obligations and Loan Commitments, see Note 13 Off-Balance Sheet Activities of the Notes to Consolidated Financial Statements.

Capital

Capital consists solely of common stock, retained earnings, and accumulated other comprehensive income. We are currently authorized to raise capital through dividend reinvestment, employee and director stock purchases, and shareholder stock purchases. Pursuant to these authorizations, we issued 124,530 shares of common stock generating \$2,898 of capital during 2012, and 115,359 shares of common stock generating \$2,192 of capital in 2011. We also offer the Directors Plan which allows participants to purchase stock units, in lieu of cash payments (see Note 17 Benefit Plans of the Notes to Consolidated Financial Statements). Pursuant to this plan, we raised \$643 and \$615 of capital in 2012 and 2011, respectively.

Edgar Filing: ISABELLA BANK CORP - Form DEF 14A

We have approved a publicly announced common stock repurchase plan. During 2012 and 2011, pursuant to this plan, we repurchased 83,586 shares of common stock at an average price of \$23.69 and 120,441 shares of common stock at an average price of \$18.30, respectively. As of December 31, 2012, we were authorized to repurchase up to an additional 85,410 shares of common stock.

Table of Contents

There are no significant regulatory constraints placed on our capital. The FRB's current recommended minimum primary capital to assets requirement is 6.0%. Our primary capital to average assets ratio, which consists of shareholders' equity plus the ALL less goodwill and acquisition intangibles, was 8.29% at December 31, 2012.

The FRB has established a minimum risk based capital standard. Under this standard, a framework has been established that assigns risk weights to each category of on and off balance sheet items to arrive at risk adjusted total assets. Regulatory capital is divided by the risk adjusted assets with the resulting ratio compared to the minimum standard to determine whether a corporation has adequate capital. The minimum standard is 8%, of which at least 4% must consist of equity capital net of goodwill. The following table sets forth the percentages required under the Risk Based Capital guidelines and our values as of December 31:

	2012	2011	Required
Equity Capital	13.23%	12.92%	4.00%
Secondary Capital	1.25%	1.25%	4.00%
Total Capital	14.48%	14.17%	8.00%

Secondary capital includes only the allowance for loan losses. The percentage for the secondary capital under the required column is the maximum amount allowed from all sources.

The FRB and FDIC also prescribe minimum capital requirements for the Bank. At December 31, 2012, the Bank exceeded these minimum capital requirements. Proposed new capital standards, if enacted, will require us to meet higher capital standards. This increase in capital levels may have an adverse impact on our ability to grow and pay dividends. For further information regarding the Bank's capital requirements, see Note 16 Minimum Regulatory Capital Requirements of the Notes to Consolidated Financial Statements.

Fair Value

We utilize fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. AFS securities, trading securities, and certain liabilities are recorded at fair value on a recurring basis. Additionally, from time to time, we may be required to record at fair value other assets on a nonrecurring basis, such as loans held-for-sale, foreclosed assets, OMSR, and certain other assets and liabilities. These nonrecurring fair value adjustments typically involve the application of lower of cost or market accounting or write-downs of individual assets.

For further information regarding fair value measurements see Note 1 Nature of Operations and Summary of Significant Accounting Policies and Note 20 Fair Value of the Notes to Consolidated Financial Statements.

Interest Rate Sensitivity

Interest rate sensitivity is determined by the amount of earning assets and interest bearing liabilities repricing within a specific time period, and their relative sensitivity to a change in interest rates. We strive to achieve reasonable stability in the net interest margin through periods of changing interest rates. One tool we use to measure interest rate sensitivity is gap analysis. As shown in the following table, the gap analysis depicts our position for specific time periods and the cumulative gap as a percentage of total assets.

Trading securities are included in the 0 to 3 month time frame due to their repricing characteristics. Fixed interest rate AFS securities are scheduled according to their contractual maturity. Fixed rate loans are included in the appropriate time frame based on their scheduled amortization. Variable rate loans, which totaled \$162,635 as of December 31, 2012, are included in the time frame of their earliest repricing. Time deposit liabilities are scheduled based on their contractual maturity except for variable rate time deposits in the amount of \$1,151 that are included in the 0 to 3 month time frame.

Table of Contents

Savings and NOW accounts have no contractual maturity date and are believed by us to be predominantly noninterest rate sensitive. These accounts have been classified in the gap table according to their estimated withdrawal rates based upon our analysis of deposit decay over the past five years. We believe this decay experience is consistent with our expectation for the future. As of December 31, 2012, we had a positive cumulative gap within one year. A positive gap position results when more assets, within a specified time frame, have the potential to mature or reprice than liabilities.

The following table shows the time periods and the amount of assets and liabilities available for interest rate repricing as of December 31, 2012. The interest rate sensitivity information for investment securities is based on the expected prepayments and call dates versus stated maturities. For purposes of this analysis, nonaccrual loans and the allowance for loan losses are excluded.

	0 to 3 Months	4 to 12 Months	1 to 5 Years	Over 5 Years
Interest sensitive assets				
Trading securities	\$ 1,573	\$	\$	\$
AFS securities	37,663	86,789	211,184	168,374
Loans	194,062	101,725	380,469	89,194
Total	\$ 233,298	\$ 188,514	\$ 591,653	\$ 257,568
Interest sensitive liabilities				
Borrowed funds	\$ 72,754	\$ 5,111	\$ 113,136	\$ 50,000
Time deposits	62,287	143,836	239,813	18,399
Savings	6,242	20,903	82,438	118,755
NOW	2,163	6,488	30,237	142,371
Total	\$ 143,446	\$ 176,338	\$ 465,624	\$ 329,525
Cumulative gap	\$ 89,852	\$ 102,028	\$ 228,057	\$ 156,100
Cumulative gap as a % of assets	6.28%	7.13%	15.94%	10.91%

The following table shows the maturity of commercial and agricultural loans outstanding at December 31, 2012. Also provided are the amounts due after one year, classified according to the sensitivity to changes in interest rates.

	1 Year or Less	1 to 5 Years	Over 5 Years	Total
Commercial and agricultural	\$ 99,889	\$ 288,297	\$ 66,925	\$ 455,111
Interest sensitivity				
Loans maturing after one year that have:				
Fixed interest rates		\$ 231,656	\$ 59,368	
Variable interest rates		56,641	7,557	
Total		\$ 288,297	\$ 66,925	

Liquidity

Liquidity is monitored regularly by our Market Risk Committee, which consists of members of senior management. The committee reviews projected cash flows, key ratios, and liquidity available from both primary and secondary sources.

The primary sources of our liquidity are cash and cash equivalents, certificates of deposit held in other financial institutions, trading securities, and AFS securities. These categories totaled \$534,968 or 37.4% of assets

Table of Contents

as of December 31, 2012 as compared to \$467,344 or 34.9% in 2011. Liquidity is important for financial institutions because of their need to meet loan funding commitments, depositor withdrawal requests, and various other commitments discussed in the accompanying Notes to Consolidated Financial Statements. Liquidity varies significantly daily, based on customer activity.

Our primary source of funds is deposit accounts. We also have the ability to borrow from the FHLB, the FRB, and through various correspondent banks as federal funds purchased. These funding methods typically carry a higher interest rate than traditional market deposit accounts. Some borrowed funds, including FHLB Advances, FRB Discount Window Advances, and repurchase agreements, require us to pledge assets, typically in the form of certificates of deposits held in other financial institutions, investment securities, or loans as collateral. As of December 31, 2012, we had available lines of credit of \$108,646.

The following table summarizes our sources and uses of cash for the years ended December 31:

	2012	2011	\$ Variance
Net cash provided by operating activities	\$ 19,464	\$ 18,860	\$ 604
Net cash used in investing activities	(101,874)	(105,203)	3,329
Net cash provided by financing activities	78,740	96,824	(18,084)
(Decrease) increase in cash and cash equivalents	(3,670)	10,481	(14,151)
Cash and cash equivalents January 1	28,590	18,109	10,481
Cash and cash equivalents December 31	\$ 24,920	\$ 28,590	\$ (3,670)

Market Risk

Our primary market risks are interest rate risk and liquidity risk. We have no significant foreign exchange risk and do not utilize interest rate swaps or derivatives, except for interest rate locks and forward loan commitments, in the management of IRR. Any changes in foreign exchange rates or commodity prices would have an insignificant impact on our interest income and cash flows.

IRR is the exposure of our net interest income to changes in interest rates. IRR results from the difference in the maturity or repricing frequency of a financial institution's interest earning assets and its interest bearing liabilities. IRR is the fundamental method in which financial institutions earn income and create shareholder value. Excessive exposure to IRR could pose a significant risk to our earnings and capital.

The FRB has adopted a policy requiring us to effectively manage the various risks that can have a material impact on our safety and soundness. The risks include credit, interest rate, liquidity, operational, and reputational. We have policies, procedures and internal controls for measuring and managing these risks. Specifically, the IRR policy and procedures include defining acceptable types and terms of investments and funding sources, liquidity requirements, limits on investments in long term assets, limiting the mismatch in repricing opportunity of assets and liabilities, and the frequency of measuring and reporting to our Board.

The primary technique to measure interest rate risk is simulation analysis. Simulation analysis forecasts the effects on the balance sheet structure and net interest income under a variety of scenarios that incorporate changes in interest rates, the shape of yield curves, interest rate relationships, and loan prepayments. These forecasts are compared against net interest income projected in a stable interest rate environment. While many assets and liabilities reprice either at maturity or in accordance with their contractual terms, several balance sheet components demonstrate characteristics that require an evaluation to more accurately reflect their repricing behavior. Key assumptions in the simulation analysis include prepayments on loans, probable calls of investment securities, changes in market conditions, loan volumes and loan pricing, deposit sensitivity and customer preferences. These assumptions are inherently uncertain as they are subject to fluctuation and revision in a dynamic environment. As a result, the simulation analysis cannot precisely forecast the impact of rising and falling interest rates on net interest income. Actual results will differ from simulated results due to many other factors, including changes in balance sheet components, interest rate changes, changes in market conditions, and management strategies.

Table of Contents

Our interest rate sensitivity is estimated by first forecasting the next twelve months of net interest income under an assumed environment of a constant balance sheet and constant market interest rates (base case). We then compare the results of various simulation analyses to the base case. At December 31, 2012, we projected the change in net interest income during the next twelve months assuming market interest rates were to immediately decrease by 100 basis points and increase by 100, 200, 300, and 400 basis points in a parallel fashion over the entire yield curve during the same time period. We did not project scenarios showing decreases in interest rates beyond 100 basis points as this is considered extremely unlikely given prevailing interest rate levels. These projections were based on our assets and liabilities remaining static over the next twelve months, while factoring in probable calls and prepayments of certain investment securities and real estate residential and consumer loans. While it is extremely unlikely that interest rates would immediately increase to these levels, we feel that these extreme scenarios help us identify potential gaps and mismatches in the repricing characteristics of assets and liabilities. We regularly monitor our forecasted net interest income sensitivity to ensure that it remains within established limits.

The following table summarizes our interest rate sensitivity as of:

	December 31, 2012					
Immediate basis point change assumption (short-term rates)	100	0	100	200	300	400
Percent change in net income vs. constant rates	1.61%		0.49%	1.58%	1.74%	2.16%

	December 31, 2011					
Immediate basis point change assumption (short-term rates)	100	0	100	200	300	400
Percent change in net income vs. constant rates	1.50%		1.34%	0.84%	0.78%	N/A

A 400 basis point increase was not applicable as of December 31, 2011 as we were not utilizing this scenario as part of our interest rate sensitivity analysis at that time. We believe our risk associated with changes in interest rates are acceptable.

The secondary method to measure interest rate risk is gap analysis. Gap analysis measures the cash flows and/or the earliest repricing of our interest bearing assets and liabilities. This analysis is useful for measuring trends in the repricing characteristics of the balance sheet. Significant assumptions are required in this process because of the imbedded repricing options contained in assets and liabilities. Residential real estate and consumer loans allow the borrower to repay the balance prior to maturity without penalty, while commercial and agricultural loans have prepayment penalties. The amount of prepayments is dependent upon many factors, including the interest rate of a given loan in comparison to the current offering rates, the level of sales of used homes, and the overall availability of credit in the market place. Generally, a decrease in interest rates will result in an increase in cash flows from these assets. A significant portion of our securities are callable or have prepayment options. The call and prepayment options are more likely to be exercised in a period of decreasing interest rates. Savings and demand accounts may generally be withdrawn on request without prior notice. The timing of cash flows from these deposits is estimated based on historical experience. Time deposits have penalties that discourage early withdrawals.

The following tables provide information about assets and liabilities that are sensitive to changes in interest rates as of December 31, 2012 and December 31, 2011. The principal amounts of assets and time deposits maturing were calculated based on the contractual maturity dates. Savings and NOW accounts are based on management's estimate of their future cash flows. During the first quarter of 2012, we engaged the services of a third party to analyze our historical loan prepayment speeds and non-contractual deposit decay rates. These analyses were prompted by the Office of Thrift Supervision's discontinuation of publishing its various benchmarks for various loan prepayment speeds and deposit decay rates, which we had previously used for certain loan and deposit accounts (including as of December 31, 2011). As a result of implementing the results of these analyses, the estimated lives of our non-contractual deposit accounts significantly increased, which in turn significantly impacted the corresponding estimated cash flows for these accounts in the following table. We have

Table of Contents

reviewed the results of the analyses in detail and feel that it reasonably reflects the prepayment speeds and decay rates of our loan and deposit portfolios.

Table of Contents

We do not believe that there has been a material change in the nature or categories of our primary market risk exposure, or the particular markets that present the primary risk of loss. As of the date of this report, we do not know of or expect there to be any material change in the general nature of our primary market risk exposure in the near term. As of the date of this report, we do not expect to make material changes in those methods in the near term. We may change those methods in the future to adapt to changes in circumstances or to implement new techniques.

Common Stock and Dividend Information

Our common stock is traded in the over the counter market. The common stock is quoted on the OTCQB market tier of the OTC Markets Group, Inc.'s electronic quotation system (www.otcmarkets.com) under the symbol ISBA. Other trades in the common stock occur in privately negotiated transactions from time to time of which we may have little or no information.

Our authorized common stock consists of 15,000,000 shares, of which 7,671,846 shares are issued and outstanding as of December 31, 2012. As of that date, there were 3,049 shareholders of record.

We have reviewed the information available as to the range of reported high and low bid quotations, including high and low bid information as reported by OTC Markets and as reported by the parties to privately negotiated transactions. The following table sets forth our compilation of that information for the periods indicated. Price information obtained from OTC Markets reflects inter-dealer prices, without retail mark-up, mark-down, or commissions and may not necessarily represent actual transactions. Price information obtained from parties to privately negotiated transactions reflects actual closing prices that were disclosed to us, which we have not independently verified. The following compiled data is provided for information purposes only and should not be viewed as indicative of the actual or market value of our common stock.

	Number of Shares	Sale Price	
		Low	High
2012			
First Quarter	64,873	\$ 22.15	\$ 24.25
Second Quarter	63,656	23.45	24.98
Third Quarter	97,706	22.50	24.90
Fourth Quarter	87,966	21.60	23.45
	314,201		
2011			
First Quarter	48,909	\$ 17.00	\$ 19.75
Second Quarter	65,090	17.00	18.50
Third Quarter	92,953	17.41	18.95
Fourth Quarter	106,210	17.74	24.45
	313,162		

The following table sets forth the cash dividends paid for the following quarters:

	Per Share	
	2012	2011
First Quarter	\$ 0.20	\$ 0.19
Second Quarter	0.20	0.19
Third Quarter	0.20	0.19
Fourth Quarter	0.20	0.19
Total	\$ 0.80	\$ 0.76

Our Board has authorized a common stock repurchase plan, which was last amended in April 2012. These authorizations do not have expiration dates. As shares are repurchased under this plan, they revert back to the status of authorized, but unissued shares.

The following table provides information for the three month period ended December 31, 2012, with respect to this plan:

	Shares Repurchased		Total Number of	Maximum Number of
	Number	Average Price Per Share	Shares Purchased as Part of Publicly Announced Plan or Program	Shares That May Yet Be Purchased Under the Plans or Programs
Balance, September 30, 2012				105,893
October 1 - 31, 2012	9,014	\$ 22.52	9,014	96,879
November 1 - 30, 2012	5,457	22.91	5,457	91,422
December 1 - 31, 2012	6,012	22.79	6,012	85,410
Balance, December 31, 2012	20,483	\$ 22.70	20,483	85,410

Information concerning securities authorized for issuance under equity compensation plans appears under Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters included in our annual report on Form 10-K.

Table of Contents**Stock Performance**

The following graph compares the cumulative total shareholder return on our common stock for the last five years with the cumulative total return on (1) NASDAQ, which is comprised of all United States common shares traded on the NASDAQ and (2) the NASDAQ Banks, which is comprised of bank and bank holding company common shares traded on the NASDAQ over the same period. The graph assumes the value of an investment in ISBA and each index was \$100 at December 31, 2007 and all dividends are reinvested.

Stock Performance**Five-Year Total Return**

The dollar values for total shareholder return plotted in the graph above are shown in the table below:

Comparison of Five Year Cumulative

Among ISBA, NASDAQ Stock Market,

and NASDAQ Bank Stock

Year	ISBA	NASDAQ	NASDAQ Banks
12/31/2007	100.00	100.00	100.00
12/31/2008	65.10	60.20	78.80
12/31/2009	50.20	87.33	65.86
12/31/2010	47.80	103.05	75.08
12/31/2011	68.10	102.26	67.22
12/31/2012	64.70	120.36	79.73
