The following is a summary of the material features of the offering. It should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus supplement, the accompanying base prospectus, any free writing prospectus filed by us, if any, and the documents incorporated by reference herein and therein, including the information under *Risk Factors* beginning on page S-11 of this prospectus supplement and page 6 of the accompanying base prospectus.

Business of the Company

We are a United States based uranium company focused on achieving near-term commercial in-situ recovery (**ISR**) uranium production. ISR is a mining process that uses a leaching solution to extract uranium from underground sandstone-hosted uranium deposits; it is the generally accepted extraction technology used in the Powder River Basin area of Wyoming. We control a large strategic land position in the central Powder River Basin. Our management team has specialized expertise in the ISR uranium mining method, and a record of licensing, constructing, and operating ISR uranium projects.

Our Powder River Basin properties include:

- our 100% owned properties that totaled 20,121 acres as of August 27, 2013; and
- our 81% interest in Arkose Mining Venture properties that totaled 59,288 acres as of August 27, 2013.

Our 100% owned properties are comprised of unpatented mineral lode claims, state leases and fee (private) mineral leases, summarized as follows:

Property Composition	Ownership Interest ⁽¹⁾	Number of	
		Claims/Leases	Acreage
Unpatented Lode Mining Claims	100%	826	16,520
State Leases	100%	3	1,360
Fee (private) Mineral Leases	100%	41	2,241
Total			20,121

Through a combination of claim staking, purchasing and leasing, we have also acquired interests in projects that lie within the Powder River Basin but outside of the specific project areas discussed above. These additional properties include the Verna Ann, Niles Ranch and Reno Creek projects. However, due to our focus on other activities, we have not yet made any decisions on these projects.

Information regarding the location of and access to our Wyoming properties, together with the history of operations, present condition and geology of each of our significant properties, is presented in Item 2 of our Annual Report on Form 10-K/A for the year ended December 31, 2012, as amended and restated and filed with the SEC on April 29, 2013 and further amended on May 9, 2013, under the heading "Description of Properties." None of our properties have proven or probable reserves pursuant to the SEC's Industry Guide 7 and are exploratory in nature.

We control a large strategic land position in the central Powder River Basin and continually investigate other uranium opportunities as they arise. We are principally focused on the exploration and progression of our properties in the Powder River Basin area into ISR uranium mines. In anticipation of receiving all the approvals necessary to begin uranium extraction, we commenced a marketing program for conditional sales of uranium from our Nichols Ranch ISR Uranium Project. In 2009, we entered into a sales agreement with Exelon Generation Company, LLC for the sale of uranium over a five-year period at defined pricing. That agreement was subsequently amended to defer the delivery schedule by a year and adjust the pricing terms. On January 25, 2013 we entered into a second supply agreement with Exelon for the sale of uranium over an additional five-year period commencing in 2016, at defined pricing adjustable for inflation. In August of 2009, we entered into what was then our second contract for the sale of uranium to a U.S. utility, also over five years, with a pricing structure that contains references to both spot and term prices and includes floor and ceiling prices. That agreement was also subsequently amended to defer the original five-year delivery period by a year, reduce the annual volumes to be supplied, and adjust the pricing terms. These three long-term contracts for the sale of uranium are with two of the largest nuclear utilities in the U.S. These three agreements do not individually represent a substantial portion of our targeted uranium extraction and our business is not substantially dependent on these agreements.

The Nichols Ranch ISR Uranium Project originally comprised our Nichols Ranch Unit and our Hank Unit. Under the original plan, a central processing plant was to have been built at Nichols Ranch and a satellite processing facility built at Hank. In March 2010, we commenced preparation of the environmental permit and license applications for the Jane Dough Unit, which is adjacent to the area currently being developed at the Nichols Ranch Unit and will share its infrastructure. This will provide us with the option to revise our original plan of operations by bringing our Jane Dough Unit into production before the Hank Unit of our Nichols Ranch ISR Uranium Project. Due to the close proximity, Jane Dough fluids can be delivered directly to our Nichols Ranch processing facility by pipeline, thus eliminating the need for larger capital outlay to build a satellite processing facility at Hank. Our Jane Dough Unit includes the Doughstick, South Doughstick and North Jane properties. Additional units may be added as we assess our geological data. We plan to continue the exploration and strategic planning of our other Wyoming Powder River Basin properties through a number of strategies including acquisitions or exchanges with other ISR uranium mining companies in the area.

In December 2010, we received a Permit to Mine from the Wyoming Department of Environmental Quality Land Quality Division (**WDEQ-LQD**). In July 2011, we received our Source Material License from the United States Nuclear Regulatory Commission and immediately began construction of our Nichols Ranch ISR Uranium Project with an original start-up date of early 2013. As of August 27, 2013, the processing facility is over 90% complete and the initial wellfield is substantially complete. In July 2013, we commenced installation of two deep disposal wells which are required for start up. We intend to continue the permitting and licensing of the Jane Dough Unit so that it can be sequenced as described above while uranium extraction is ongoing at the Nichols Ranch Unit.

Table of Contents

In November 2011, we signed a processing agreement with Cameco Resources (**Cameco**), a wholly-owned U.S. subsidiary of Cameco Corporation, the world's largest publicly-traded uranium company. Under the agreement we will deliver uranium-loaded resin from our Nichols Ranch ISR Uranium Project to Cameco's Smith Ranch Highland uranium mine for final processing into dried uranium concentrate packaged for shipping to a converter. Cameco's Smith Ranch Highland mine is located in the Powder River Basin approximately 25 miles south of our Nichols Ranch property. Extraction at the Jane Dough Unit is compatible with this plan. The agreement is for a fixed term with a variable starting date dependent on the commencement of uranium extraction. Under the agreement, we and Cameco stipulate both a minimum quantity of pounds and a maximum quantity of pounds which will be delivered by us and processed by Cameco. It is our expectation that in its initial 4-5 years of extraction, all resins extracted at Nichols Ranch will be processed by Cameco under this agreement. In the event that we fail to deliver the minimum quantities stipulated by the agreement, we will be required to compensate Cameco a stipulated sum of liquidated damages.

Our first mining unit is expected to be recovering uranium later this year or in early 2014. Regulatory milestones are being pursued in order to meet start-up requirements following completion of the processing facility and wellfield construction activities and installation of the required deep disposal wells. Drilling for the first of two deep disposal wells commenced in early July. The two deep disposal wells must be drilled and completed before the start of recovery operations. The Nichols Ranch ISR Uranium Project is licensed for a recovery level of up to two million pounds of uranium per year with initial annual recovery dependent upon the extraction efficiency in our first wellfield and market factors. The project will also serve as a platform to advance our other Powder River Basin properties with potential enhanced economics for adjacent and satellite projects. Cameco and Uranium One, two of the largest ISR uranium mining companies in the world, are continuing to extract uranium near the Uranerz properties in the Powder River Basin.

In September 2012, we submitted an application to the Wyoming Business Council for a \$20,000,000 loan under the Wyoming Industrial Development Revenue Bond Program (the **Bond Financing**). If approved, the bond would have a seven-year term and an interest rate of 5.75% per annum. We would be required to make interest-only payments during the first year with the debt being amortized to include payments of principal and interest in the subsequent years. On March 15, 2013, we were advised by the Wyoming Business Council that our application received a favorable review by independent consultants engaged by the State of Wyoming and that as a result, the Wyoming Business Council formally recommended bond approval to the Attorney General, State Treasurer and Governor. We are working with the State administrators to complete the documentation for the closing of the Bond Financing. Closing is subject to customary closing conditions and final approval of the State Treasurer and the Campbell and Johnson County Commissioners.

On June 6, 2013, we entered into a Note Purchase Agreement, dated as of May 31, 2013, by and among us, Deans Knight Capital Management Ltd. (**Deans Knight**) and the investors in the Notes (the **Investors**), (the **Note Purchase Agreement**). Pursuant to the Note Purchase Agreement, the Investors agreed to lend to the Company \$6 million (the **Loan**) in exchange for senior notes of the Company equal to the outstanding principal balance of the loan (the **Notes**). Pursuant to the terms of the Note Purchase Agreement, the Notes will mature on the earlier of: (i) 30 days from the execution and delivery of documentation in connection with the Bond Financing, and (ii) December 31, 2013. The Notes bear interest from the date of issue at 6.0% per annum increasing to 10.0% per annum on August 16, 2013 if the Notes are not repaid prior to August 15, 2013. As additional consideration for the Loan, we agreed to issue to the Investors 1,600,000 non-transferable common stock purchase warrants, each warrant entitling the Investors to purchase from us a share of our common stock at an exercise price of \$1.60. The warrants expire 30 months from the date of issue, subject to acceleration. The Notes are secured by a mortgage and security interest in our primary uranium properties in the Powder River Basin, all our equipment and personal property and the Nichols Ranch ISR processing facility.

Overview of Uranium Market

The primary commercial use for uranium is to fuel nuclear power plants for the generation of electricity. All the uranium produced from our mines will be used to generate electricity.

Table of Contents

At present, nuclear power plants produce about 11% of the world's electricity and 21% of the electricity in Organization for Economic Co-operation countries. According to the World Nuclear Association, there are currently 432 reactors operating world-wide which will require approximately 146,000,000 pounds of uranium fuel in 2013. Worldwide there are currently 68 new reactors under construction with an additional 162 reactors on order or in the planned stage and another 316 in the proposed stage.

The world continues to consume more uranium than it produces and largely due to increasing energy demands in Asia, the World Nuclear Association expects world uranium consumption to grow so substantially that it could require mine production to double by 2030 to meet demand. Historically the gap between demand and supply has been filled by stock-piled inventories and secondary supplies; however these are finite and are being drawn down. Currently, one of the largest sources of secondary supply is the uranium derived from Russia's Highly Enriched Uranium (HEU) program with the United States. All the deliveries from this source are expected to be completed by the end of 2013. The United States has 100 operating reactors deriving less than 8% of their uranium needs from U.S. mine production.

Uranium is not traded on an open market or organized commodity exchange such as the London Metal Exchange (although the New York Mercantile Exchange provides trading of cash-settled uranium futures contracts). Buyers and sellers negotiate contracts privately and usually directly. Uranium prices, both spot prices and long-term prices, are however published by two independent market consulting firms, Tradetech and Ux Consulting, on a weekly basis.

The spot and long-term price of uranium is influenced by a number of factors, some of which are international. For example, both the spot and long-term price of uranium was impacted by the accident at the Fukushima Daiichi Nuclear Plant in Japan in March 2011. The events at Fukushima created heightened concerns regarding the safety of nuclear plants and led to closures of nuclear plants. These plant closures have created uncertainty in the market.

Most nuclear utilities seek to purchase a portion of their uranium needs through long-term supply contracts with another portion being bought on the spot market in the short term. Like sellers, buyers are seeking to balance the security of long-term supply with the opportunity to take advantage of price fluctuations. For this reason both buyers and sellers track current spot and long-term prices for uranium carefully, make considered projections as to future price changes, and then negotiate with one another to enter into a contract which each deems favorable to their respective interests.

The graph below shows the monthly spot uranium and long-term uranium price from 1969 until January 2013 as reported by Ux Consulting.

Recent Developments

Reconfirmation of Shareholders Rights Plan

On July 10, 2013, at our 2013 annual general meeting of shareholders (the **Annual Meeting**), our shareholders approved the reconfirmation of our Shareholders Rights Plan, which is described in greater detail under the Section entitled **Description of Securities Distributed Rights Plan** set forth below.

Nichols Ranch ISR Deep Disposal Well Update

On July 25, 2013, we announced the completed drilling of the first of two deep disposal wells which are required to be operational prior to the commencement of uranium recovery operations. Both wells have now been drilled to target depth of approximately 8,900 feet and the casing and cementing operations have been completed. The completion rig has finished with all the completion work on the first deep disposal well and is in the process of moving to the second deep disposal well to do the completion work on that well. Construction of supporting surface infrastructure is underway. It is expected that the second well will be completed in about two to three weeks, and that the associated surface infrastructure for both wells will be completed in about two months.

The deep disposal wells will be used to remove non-hazardous byproduct solutions from the ISR process. The Company expects to start operations at the Nichols Ranch facility and commence uranium production later this year or early 2014, after the two deep disposal wells are completed.

Indemnification Agreements

On June 24, 2013, we entered into individual indemnification agreements (the **Indemnification Agreements**) with our directors and officers. Our entry into the Indemnification Agreements was based on a determination by our board of directors that it was in the best interests of our Company and our shareholders that we facilitate our ability to attract and retain highly competent individuals to serve as directors and officers by contractually obligating ourselves to indemnify, and to advance expenses on behalf of, directors and officers to the fullest extent permitted by applicable law so that directors and executive officers will serve or continue to serve us free from undue concern that they will not be indemnified. The Indemnification Agreements provide for indemnification of the director or officer (the **Indemnitee**) against all expenses, judgments, fines and amounts paid in settlement incurred by the Indemnitee in connection with any proceeding in which the Indemnitee is involved because the Indemnitee is or was a director or officer of the Company, if he or she acted in good faith and in a manner he or she reasonably believed to be in the best interests of the Company. Subject to certain limitations, the Indemnification Agreements provide for the advancement of expenses incurred by the Indemnitee in connection with any proceeding not initiated by the Indemnitee, and the repayment to the Company of the amounts advanced (without interest) to the extent that it is ultimately determined that the Indemnitee is not entitled to be indemnified by the Company.

\$6.0 Million Note Financing

As noted above under the section heading **Prospectus Supplement Summary Business of the Company**, on June 6, 2013, we entered into a Note Purchase Agreement, dated as of May 31, 2013, by and among us, Deans Knight Capital and the Investors, pursuant to which, the Investors agreed to lend to the Company \$6 million in exchange for Notes equal to the outstanding principal balance of such loan. Pursuant to the terms of the Note Purchase Agreement, the Notes will mature on the earlier of: (i) 30 days from the execution and delivery of documentation in connection with the Bond Financing, and (ii) December 31, 2013. See our Current Report on Form 8-K as filed with the SEC on June 12, 2013, which report is incorporated herein by reference, for more details regarding the Notes and the related agreements, including a description of the mortgage and security agreements related thereto.

RISK FACTORS

Investing in our Units involves a high degree of risk. Prospective investors should carefully consider the following risks, as well as the other information contained in this prospectus supplement, the accompanying base prospectus, any free writing prospectus and the documents incorporated by reference herein and therein before investing in our Units. If any of the following risks actually occurs, our business could be harmed. The risks and uncertainties described below are not the only ones faced by our Company. Additional risks and uncertainties, including those of which we are currently unaware or that are currently deemed immaterial, may also adversely affect our business, financial condition, cash flows, prospects and the price of our shares of common stock.

The following is a short description of the risks and uncertainties which are more fully described under the section entitled "Risk Factors" in our annual report on Form 10-K/A for the fiscal year ended December 31, 2012, as amended and restated and filed with the SEC on April 29, 2013 and further amended on May 9, 2013, and in our quarterly report on Form 10-Q, for the period ended June 30, 2013, as filed with the SEC on August 9, 2013, both of which are incorporated herein by reference, see "Documents Incorporated by Reference" below:

Our future performance is difficult to evaluate because we have a limited operating history;

Because the probability of an individual prospect having reserves is remote, our properties may not contain any reserves, and any funds spent on exploration may be lost;

We have a limited operating history and have losses which we expect to continue into the future. As a result, we may have to suspend or cease exploration activities;

Because some of our officers and directors do not have technical training or experience in exploring for, starting, and operating a mine, we may have to hire qualified personnel. If we can't locate qualified personnel, we may have to suspend or cease exploration activity;

Our future profitability will be dependent on uranium prices;

Public acceptance of nuclear energy is uncertain;

Our operations are subject to environmental regulation and environmental risks;

We intend to extract uranium from our properties using the in-situ recovery mining process which may not be successful;

We face risks related to exploration and development, if warranted, on our properties;

Because we may be unable to meet property payment obligations or be able to acquire necessary mining licenses, we may lose interests in our exploration properties;

Our mineral properties may be subject to defects in title;

Edgar Filing: URANERZ ENERGY CORP. - Form 424B5

Because we may be unable to secure access rights, we may be unable to explore and/or develop our properties;

Because mineral exploration and development activities are inherently risky, we may be exposed to environmental liabilities;

Because we have not put a mineral deposit into production before, we may have to acquire outside expertise. If we are unable to acquire such expertise we may be unable to put our properties into production;

Acquisitions and integration issues may expose us to additional risks which could have a material adverse effect on our business;

The mining industry is highly competitive;

There could be problems with construction and delay in construction of the Nichols Ranch ISR Uranium Project which could result in cost overruns, production delays and require us to raise more capital to complete construction;

We are dependent on key management employees;

S-11

Table of Contents

Our growth will require new personnel, which we will be required to recruit, hire, train and retain;

Legislation, including the Sarbanes-Oxley Act of 2002, may make it difficult for us to retain or attract officers and directors;

Stock market price and volume volatility;

Granting of options may negatively impact the value of our common stock;

The issuance of additional shares of common stock may negatively impact the trading price of our shares of common stock;

The value of an investment in our shares of common stock could decline substantially;

We do not intend to pay dividends in the foreseeable future;

We depend on our ability to successfully access the capital and financial markets. Any inability to access the capital or financial markets may limit our ability to execute our business plan or pursue investments that we may rely on for future growth;

Market events and conditions, including disruptions in the U.S. and international credit markets and other financial systems and the deterioration of the U.S. and global economic conditions, could, among other things, impede access to capital or increase the cost of capital, which would have an adverse effect on our ability to fund our working capital and other capital requirements;

We may not be able to initiate production or achieve targeted production rates at our Nichols Ranch ISR Uranium Project;

Operating costs at the Nichols Ranch ISR Uranium Project could be higher than anticipated;

We may not be able to complete construction of our Nichols Ranch ISR Uranium Project if we do not receive the loan we have applied for from the WBC or another form of financing; and

We may be unable to timely pay our obligations under our outstanding notes, which may result in us losing some of our assets covered by the mortgage and security agreement related to the notes to the extent necessary to cover our obligations and may adversely affect our assets, results of operations and future prospects.

USE OF PROCEEDS

The net proceeds from the sale of the Units in this offering are estimated to be approximately \$9.1 million, after deducting the Underwriters commission and estimated offering expenses.

We intend to allocate the net proceeds from the offering as follows:

Edgar Filing: URANERZ ENERGY CORP. - Form 424B5

- i. approximately \$9 million to continue development of mining facilities at our Nichols Ranch ISR Project; and
- ii. to use any remaining net proceeds of the offering, if any, for working capital requirements and/or for other general corporate purposes.

We intend to use the net proceeds from the exercise of the Warrants, if any, for working capital requirements and/or other general corporate purposes.

The actual amount that we spend in connection with each of the intended uses of proceeds may vary significantly from the amounts specified above, and will depend on a number of factors, including those described in the **Risk Factors** section beginning on page S-11 of this prospectus supplement and page 6 of the accompanying base prospectus and, to the extent applicable, the **Risk Factors** sections in our annual report on Form 10-K/A and our quarterly reports on Form 10-Q as filed with the SEC and the Canadian securities authorities.

Until such time as the net proceeds of the offering are used as described above, we intend to invest the net proceeds primarily in short-term bank guaranteed deposits or other substantially similar secure deposits.

Depending on opportunities, economic conditions and the results of the activities described above we may use a portion of the use of proceeds allocated above to invest in property acquisitions or complete other corporate activities designed to achieve our corporate goals. Estimated costs and the scope of activities cannot be determined at this time.

Table of Contents**DIVIDEND POLICY**

We have never declared or paid any cash dividends on our shares of common stock. We intend to retain our earnings, if any, to finance the growth and development of our business and do not expect to pay cash dividends or to make any other distributions in the near future. Our board of directors will review this policy from time to time having regard to our financing requirements, financial condition and other factors considered to be relevant.

DILUTION

As of June 30, 2013, we had a net tangible book value of \$1,997,896, or approximately \$0.03 per share. Net tangible book value represents our total tangible assets, less all liabilities, divided by the number of shares of our outstanding common stock. Without taking into account any changes in such net tangible book value after June 30, 2013, other than to give effect to our sale of 8,550,000 shares of common stock offered hereby (based on the public offering price of \$1.16 per Share, allocating \$0.01 of the \$1.17 price per Unit to the one-half of one Warrant), the pro forma net tangible book value per share at June 30, 2013 would have been approximately \$0.13, based on net proceeds from this offering of approximately \$9.1 million, after deducting the Underwriters' commission and estimated offering expenses. This amount represents an immediate increase in net tangible book value of \$0.10 per share to our current stockholders and an immediate decrease in net tangible book value of \$1.03 per share to new investors purchasing Shares in this offering, as illustrated in the following table:

Public offering price per share		\$ 1.16
Net tangible book value per share as of June 30, 2013	\$ 0.03	
Increase per share attributable to this offering	\$ 0.10	
As adjusted net tangible book value per share after this offering		\$ 0.13
Net tangible book value dilution per share to new investors in this offering		\$ 1.03

In the discussion and table above, we assume no exercise of outstanding options. As of August 27, 2013, there were outstanding options exercisable to purchase a total of 10,180,380 shares of common stock at a weighted average exercise price of \$2.19 per share and 3,600,000 shares of common stock reserved for issuance pursuant to outstanding warrants exercisable at a weighted average price of \$2.38 per share.

DESCRIPTION OF SECURITIES DISTRIBUTED**Shares and Warrant Shares**

The Shares and the Warrant Shares will have all of the characteristics, rights and restrictions of our shares of common stock. We are authorized to issue 750,000,000 shares of common stock, of which 77,225,074 shares are issued and outstanding. Our shares of common stock are entitled to one vote per share on all matters submitted to a vote of the stockholders, including the election of directors. Except as otherwise required by law, the holders of our shares of common stock will possess all voting power. Generally, all matters to be voted on by stockholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by holders of our common stock that are present in person or represented by proxy. Holders of our shares of common stock representing 33 1/3% of our capital stock issued, outstanding and entitled to vote, represented in person or by proxy, are necessary to constitute a quorum at any meeting of our stockholders. A vote by the holders of a majority of our outstanding shares of common stock is required to effectuate certain fundamental corporate changes such as liquidation, merger or an amendment to our Articles of Incorporation. Our Articles of Incorporation do not provide for cumulative voting in the election of directors.

The holders of our shares of common stock will be entitled to such cash dividends as may be declared from time to time by our board of directors from funds available therefor.

Upon liquidation, dissolution or winding up, the holders of our shares of common stock will be entitled to receive pro rata all assets available for distribution to such holders.

Table of Contents

In the event of any merger or consolidation with or into another company in connection with which our shares of common stock are converted into or exchangeable for shares of stock, other securities or property (including cash), all holders of our shares of common stock will be entitled to receive the same kind and amount of shares of stock and other securities and property (including cash).

Holders of our shares of common stock have no pre-emptive rights or conversion rights and there are no redemption provisions applicable to our shares of common stock.

Rights Plan

Our board of directors previously declared a dividend distribution of one common stock purchase right (which we refer to as a **Right**) for each outstanding share of our common stock, which distribution was payable on August 25, 2010 (which we refer to as the **Record Time**) pursuant to a shareholders rights plan effective May 25, 2010 (the **Rights Plan**). Each Right entitles the registered holder to purchase one share of common stock from us at a price of \$8.75 per share (which we refer to as the **Exercise Price**), subject to adjustment.

Each Right will be evidenced by the share of common stock and will trade only with such share, until the Separation Time, as discussed and defined below. No physical distribution of separate certificates evidencing the Rights will be made until the Separation Time.

On July 10, 2013, our shareholders reconfirmed the Rights Plan at our annual meeting.

Issuance of Rights

Under the Rights Plan, we issued one Right in respect of each share of common stock outstanding on the Record Time and we will issue one Right in respect of each share of common stock which may be issued after the Record Time and prior to the earlier of the Separation Time (as defined below) and the Expiration Time (as defined below). We may, after the Separation Time but prior to the Expiration Time, issue one Right in respect of each share of common stock which is issued after the Record Time pursuant to the exercise of securities convertible into shares of our common stock (which we refer to as **Convertible Securities**) which are outstanding as of the date of the first public announcement that any person or entity has become an Acquiring Person (as defined below) (which we refer to as the **Stock Acquisition Date**).

Exercise Price and Adjustment of Exercise Price and Number of Rights

Each Right will entitle the holder thereof, from and after the Separation Time and prior to the Expiration Time, to purchase, for the Exercise Price, one share of our common stock. The Exercise Price and the number of Rights outstanding are subject to adjustment if, after the Record Time and prior to the Expiration Time, we perform certain actions that customarily trigger adjustments, including declaring or paying a dividend on our shares of common stock, subdividing or changing the number of outstanding shares of our common stock into a greater number of shares and combining or changing the number of outstanding shares of our common stock into a smaller number of shares.

Exercise of Rights and Transferability

Until the Separation Time, the Rights will not be exercisable and each Right will be evidenced by the certificate for the associated share of common stock and will be transferable only together with, and will be transferred by a transfer of, the associated share of common stock. From and after the Separation Time and prior to the Expiration Time, the Rights will be exercisable and the registration and transfer of the Rights will be separate from and independent of the shares of our common stock.

Promptly following the Separation Time, the Rights Agent will send to each holder of record of our common stock as of the Separation Time, or who subsequently becomes a holder of record of our common stock upon the exercise of rights attaching to Convertible Securities outstanding at the Stock Acquisition Date, a rights certificate (which we refer to as a **Rights Certificate**) representing one Right for each share of our common stock. The Rights may be exercised in whole or in part on any business day after the Separation Time and prior to the Expiration Time by submitting to the Rights Agent, a Rights Certificate together with an election to exercise the applicable Rights and payment of the Exercise Price for each Right being exercised. Upon receipt of the foregoing, the Rights Agent will direct our transfer agent to issue stock certificates to the holders exercising their Rights, representing one share of our common stock for each Right exercised.

Table of Contents

Flip-in Event

A flip-in event (which we refer to as a **Flip-in Event**) occurs when any person or entity becomes an Acquiring Person. If, prior to the Expiration Time, a Flip-in Event occurs, we will take such action as is necessary to ensure and provide, within ten business days of the Flip-in Event or such longer period as may be required, that each Right will thereafter constitute the right to purchase from us, upon payment of the Exercise Price and otherwise exercising the applicable Right in accordance with the terms of the Rights Plan, that number of shares of our common stock having an aggregate market price on the date of consummation or occurrence of the Flip-in Event equal to twice the Exercise Price for an amount in cash equal to the Exercise Price.

Upon the occurrence of any Flip-in Event, any Rights that are or were beneficially owned on or after the earlier of the Separation Time and the Stock Acquisition Date by an Acquiring Person or any person or entity acting jointly or in concert with an Acquiring Person or a transferee of Rights of an Acquiring Person or of any person or entity acting jointly or in concert with an Acquiring Person who becomes a transferee in a transfer that our board of directors has determined is part of a plan, arrangement or scheme of an Acquiring Person will become null and void without any further action, and any holder of those Rights will not have any right whatsoever to exercise those Rights under the Rights Plan and will not have thereafter any right whatsoever with respect to those Rights.

Permitted Bid and Competing Permitted Bid

A take-over bid will not trigger a Flip-in Event if it is a Permitted Bid or a Competing Permitted Bid.

A Permitted Bid is a take-over bid made by way of a take-over bid circular which also complies with the following additional provisions: (i) the take-over bid is made for any and all Voting Shares to all holders of record of Voting Shares wherever resident as registered on our books; (ii) the take-over bid contains, and the take up and payment for securities tendered or deposited thereunder will be subject to, irrevocable and unqualified conditions that (A) no Voting Shares will be taken up or paid for pursuant to the take-over bid prior to the close of business on a date which is not earlier than the 60th day following the date of the take-over bid and unless at such date more than 50% of the Voting Shares held by independent stockholders have been deposited pursuant to the take-over bid and not withdrawn, (B) unless the take-over bid is withdrawn, Voting Shares may be deposited pursuant to the take-over bid at any time prior to the close of business on the date of first take up or payment and that any Voting Shares deposited pursuant to the take-over bid may be withdrawn at any time prior to the close of business on that date and, (C) if as of a date not earlier than the 60th day following the date of the take-over bid more than 50% of the Voting Shares held by independent stockholders have been deposited pursuant to the take-over bid and not withdrawn, the offeror will make a public announcement of that fact and the take-over bid will remain open for deposits and tenders of Voting Shares for not less than 10 business days from the date of the public announcement.

Every holder of Rights, by accepting the same, consents and agrees with us and the Rights Agent and with every other holder of Rights (i) to be bound by and subject to the provisions of the Rights Plan in respect of all Rights held, (ii) that, prior to the Separation Time, each Right will be transferable only together with, and will be transferred by a transfer of, the associated share of common stock, (iii) that, after the Separation Time, the Rights Certificate will be transferable only upon registration of the transfer in the register for the Rights, (iv) that, prior to due presentment of a Rights Certificate for registration of transfer, we, the Rights Agent and any agent of ours or the Rights Agent may deem and treat the person in whose name the Rights Certificate is registered as the absolute owner thereof and of the Rights evidenced thereby for all purposes whatsoever, and neither we nor the Rights Agent will be affected by any notice to the contrary, (v) that the holders of the Rights have waived their right to receive any fractional Rights or any fractional shares upon exercise of Rights, (vi) that, without the approval of any holder of Rights and upon the sole authority of our board of directors acting in good faith, the Rights Plan may be supplemented or amended from time to time as provided for in the Rights Plan and (vii) that neither we nor our board of directors nor the Rights Agent will have any liability to any holder of a Right or any other person or entity as result of the inability of us, our board of directors or the Rights Agent to perform any of their obligations under the Rights Plan by reason of any preliminary or permanent injunction or other order, decree, notice of hearing or ruling issued by a court of competent jurisdiction or by a governmental, regulatory or administrative agency or commission, or any statute, rule, regulation, or executive order promulgated or enacted by any governmental authority, prohibiting or otherwise inhibiting or restraining performance of such obligation.

Rights Holders Not Stockholders

No holder of any Rights or Rights Certificate will be entitled to vote, receive dividends or be deemed for any purpose the holder of any shares of our common stock or any other share or security of ours which may at any time be issuable on the exercise of the Rights, nor will the Rights Agreement or any Rights Certificate be construed or deemed to confer upon the holder of any Right or Rights Certificate any of the rights, titles, benefits or privileges of a holder of shares of our common stock or any of our other shares or securities or any right to vote at any meeting of our stockholders or to receive notice of any meeting or other action affecting any holder of shares of our common stock or any of our other shares or securities.

If our board of directors elects or is deemed to have elected to redeem the Rights subsequent to a Flip-in Event and the redemption is approved by the holders of Voting Shares or the holders of Rights, as applicable, the right to exercise the Rights will, without further action and without notice, terminate and the only right thereafter of the holders of the Rights will be to receive the Redemption Price.

Our board of directors may also waive certain provisions of the Rights Plan. Amongst other provisions, our board of directors, acting in good faith, may, prior to the occurrence of a Flip-in Event, determine to waive the application of the Rights Plan to that particular Flip-in Event, provided that the Flip-in Event would occur by way of a takeover bid made by means of a takeover bid circular delivered to all holders of Voting Shares. Our board of directors may also waive the application of the Rights Plan in respect of the occurrence of any Flip-in Event if it has determined that a person or entity became an Acquiring Person by inadvertence and without any intention to become, or knowledge that it would become, an Acquiring Person under the Rights Plan, provided that within 10 days after any waiver by our board of directors, the person or entity reduces its beneficial ownership of Voting Shares such that the person or entity is no longer an Acquiring Person.

Supplements and Amendments

We may make changes to the Rights Plan prior to or after the Separation Time to correct any clerical or typographical error or to maintain the validity of the Rights Plan as a result of any change in any applicable legislation, rules or regulation without the approval of the holders of the Voting Shares or the Rights. We may, with the approval of the holders of Voting Shares, at any time prior to the Separation Time, make changes to or rescind any of the provisions of the Rights Plan and the Rights (whether or not the action would materially adversely affect the interests of the holders of the Rights generally). We may, with the approval of the holders of the Rights, at any time after the Separation Time, make changes to or rescind any of the provisions of the Rights Plan and the Rights (whether or not the action would materially adversely affect the interests of the holders of the Rights generally).

Warrants

The Warrants will be issued in registered form under, and will be governed by, an indenture to be dated as of the date of the closing of this offering (which we refer to as the **Warrant Indenture**) between us, and Corporate Stock Transfer, Inc. as warrant agent. Each whole Warrant will entitle the holder to purchase one share of our common stock at an exercise price of \$1.60, subject to adjustment and early termination, as described below. If not exercised, the Warrants will expire 30 months from the date of the closing of this offering. The shares of common stock underlying the Warrants, when issued upon exercise of the Warrants, will be fully paid and non-assessable, and we will pay any transfer tax incurred as a result of the issuance of the underlying shares of common stock except for any tax payable in respect of any transfer in a name other than the holders .

In the event that our shares of common stock trade on the NYSE MKT at a closing price of greater than \$2.75 per share for a period of 20 consecutive trading days at any time following the closing of this offering, we may accelerate the expiry date of the Warrants by giving notice via a press release to the holders thereof and in such case the Warrants will expire on the 30th day after the date on which such notice is given by us.

The Warrants contain provisions for cashless exercise in certain limited circumstances, as described below, and there is no minimum or maximum amount that may be exercised at any one time. The Warrants may be transferred or assigned. We may require payment of a sum sufficient to cover any taxes or governmental or other charges that may be imposed in connection with any registration of transfer or exchange of a Warrant certificate.

The Warrant Indenture will provide for adjustment in the number of shares of common stock issuable upon the exercise of the Warrants and/or the exercise price per share of common stock upon the occurrence of certain events, including:

- (a) the issuance of shares of common stock or securities exchangeable for or convertible into shares of common stock at no additional cost to all or substantially all of the holders of the shares of common stock by way of a stock dividend or other distribution;
- (b) the subdivision, redivision or change of the shares of common stock into a greater number of shares;
- (c) the reduction, combination or consolidation of the shares of common stock into a lesser number of shares;
- (d) the issuance to all or substantially all of the holders of the shares of common stock of rights, options or warrants under which such holders are entitled, during a period expiring not more than 45 days after the record date for such issuance, to subscribe for or purchase shares of common stock, or securities exchangeable for or convertible into shares of common stock, at a price per share of common stock to the holder (or at an exchange or conversion price per share of common stock) of less than 95% of the Current Market Price, as defined in the Warrant Indenture, for the shares of common stock on such record date; and
- (e) the issuance or distribution to all or substantially all of the holders of shares of common stock of securities of our Company (including securities exchangeable for or convertible into shares of common stock), or other property or assets of our Company.

Table of Contents

The Warrant Indenture will also provide for adjustment in the class and/or number of shares of common stock issuable upon the exercise of the Warrants and/or exercise price per share of common stock in the event of the following additional events:

- (a) re-classification of the shares of common stock (other than as described above);
- (b) consolidation, amalgamations, arrangements or mergers of our Company with or into any other corporation or other entity (other than consolidations, amalgamations, arrangements or mergers which do not result in any reclassification of the outstanding shares of common stock or a change of the shares of common stock into other shares); or
- (c) the transfer of the property or assets of our Company as an entirety or substantially as an entirety to another corporation or entity (other than transfers of the property or assets of our Company which do not result in any reclassification of the outstanding shares of common stock or a change of the shares of common stock into other shares).

No adjustment to the exercise price or the number of shares of common stock purchasable upon the exercise of the Warrants will be required to be made unless the cumulative effect of such adjustment or adjustments would result in a change of at least 1% in the prevailing exercise price or a change in the number of shares of common stock purchasable upon exercise by at least one one-hundredth of a share of common stock, as the case may be.

We will also covenant in the Warrant Indenture that, during the period in which the Warrants are exercisable, we will give notice to each registered holder of Warrants of certain stated events, including events that would result in an adjustment to the exercise price for the Warrants or the number of shares of common stock issuable upon exercise of the Warrants, at least 14 days prior to the record date or effective date, as the case may be, of such event.

We are not required to issue fractional shares upon the exercise of the Warrants (and are not required to pay cash in lieu of the issuance of fractional shares). The holders of the Warrants will not possess any rights as shareholders of our Company until such holders exercise the Warrants.

For the life of the Warrants, subject to their terms, the holders of the Warrants have the opportunity to profit from a rise in the market price of the shares of common stock without assuming the risk of ownership of the underlying shares of common stock. Furthermore, the terms on which we obtain additional capital during the life of the Warrants may be adversely affected by the existence of these Warrants.

From time to time, we and the warrant agent, without the consent of the holders of Warrants, may amend or supplement the Warrant Indenture for certain purposes, including curing defects or inconsistencies or making any change that, in the opinion of the warrant agent, does not prejudice the rights of the warrant agent or the holders of the Warrants. In accordance with and subject to the terms of the Warrant Indenture, amendments or supplements to the Warrant Indenture that so prejudice the interests of the holders of the Warrants may only be made by extraordinary resolution, which will be defined in the Warrant Indenture as a resolution either (i) passed at a meeting of the holders of Warrants at which there are holders of Warrants present in person or represented by proxy representing at least 25% of the aggregate number of shares of common stock which may be acquired pursuant to all the then outstanding Warrants, and passed by the affirmative vote of holders of Warrants representing not less than 66 2/3% of the votes cast upon such resolution; or (ii) adopted by an instrument in writing signed by the holders of Warrants entitled to acquire not less than 66 2/3% of the aggregate number of shares of common stock which may be acquired pursuant to all the then outstanding Warrants.

It is a condition of the closing of this offering that we file with the SEC prior to the closing of the offering a prospectus supplement relating to the offering of the Warrant Shares issuable from time to time upon exercise of the Warrants. We have agreed to use our reasonable best efforts to maintain the registration statement, as supplemented, or another registration statement relating to these shares of common stock effective until the earlier of the expiration date of the Warrants and the date on which no Warrants remain outstanding (provided, however, that nothing shall prevent our amalgamation, arrangement, merger or sale, including any take-over bid, and any associated delisting or deregistration or ceasing to be a reporting issuer, provided that, so long as the Warrants are still outstanding and represent a right to acquire securities of the acquiring company, the acquiring company shall assume our obligations under the Warrant Indenture). If no such registration statement is effective, no person holding Warrants will be permitted to exercise Warrants, unless an exemption from the registration requirements of the U.S. Securities Act of 1933, as amended (the **U.S. Securities Act**) is available. During any such period, any person holding Warrants may give notice to us of their desire to exercise the Warrants, at which time we will, at our sole discretion, either (i) redeem the Warrants held by them for a redemption price equal to the difference between the current market price (as applicable) per share of common stock and the exercise price, multiplied by the

number of shares of common stock otherwise issuable upon the exercise of the

Warrants or (ii) permit the cashless exercise of the Warrants and issue such number of shares of common stock calculated pursuant to the provisions of the Warrant Indenture, provided that such shares of common stock shall not be subject to any transfer restrictions in the United States or Canada (provided, however, that nothing shall prevent our amalgamation, arrangement, merger or sale, including any take-over bid, and any associated delisting or deregistration or ceasing to be a reporting issuer, provided that, so long as the Warrants are still outstanding and represent a right to acquire securities of the acquiring company, the acquiring company shall assume our obligations under the Warrant Indenture). If no such registration statement is effective, we will notify the warrant agent in accordance with the provisions of the Warrant Indenture.

There is no market through which the Warrants may be sold and purchasers may not be able to resell the Warrants purchased in this offering. This may affect the pricing of the Warrants in the secondary market, the transparency and availability of trading prices, the liquidity of such Warrants, and the extent of issuer regulation.

All of the foregoing statements are subject to the more detailed provisions of the Warrant Indenture. The Warrant Indenture will be included as an exhibit to our current report on Form 8-K that will be filed with the SEC in connection with the consummation of this offering.

UNDERWRITING

We, Haywood Securities Inc., Laurentian Bank Securities Inc., Cantor Fitzgerald Canada Corporation, Dundee Securities Ltd. and Global Hunter Securities LLC, whom we refer to collectively as the Underwriters, and each as an Underwriter, have entered into the Underwriting Agreement with respect to the Units being offered by us. Subject to the terms and conditions of the Underwriting Agreement, each Underwriter has agreed to severally (and not jointly or jointly and severally) purchase from us, the following number of Units on the closing of the offering at an offering price less the underwriting commission set forth on the cover page of this prospectus supplement.

Underwriter	Number of Units
Haywood Securities Inc.	65%
Laurentian Bank Securities Inc.	10%
Cantor Fitzgerald Canada Corporation	10%
Dundee Securities Ltd.	10%
Global Hunter Securities LLC	5%
Total	100%

The public offering price on the cover page of this prospectus supplement was determined based upon arm's length negotiations between us and the Lead Underwriter.

The Underwriters have severally agreed to purchase all of the Units sold under the Underwriting Agreement if any of the Units are purchased. The Underwriting Agreement provides that the Underwriters' obligation to purchase Units depends on the satisfaction of the conditions contained in the Underwriting Agreement including:

the representations and warranties made by us to the Underwriters are true;

there is no material change in our business; and

we deliver customary closing documents to the Underwriters.

Additionally, the obligations of the Underwriters under the Underwriting Agreement may be terminated at the discretion of the Underwriters upon the occurrence of certain stated events. We have agreed to indemnify the Underwriters, their directors and officers and certain persons controlling the Underwriters against certain liabilities and expenses, related to the offering, including liabilities under the U.S. Securities Act, the U.S. Exchange Act and Canadian securities laws. We have also agreed to contribute to payments the Underwriters may be required to make in respect of such liabilities.

Edgar Filing: URANERZ ENERGY CORP. - Form 424B5

The offering price for all investors in this offering will be payable in United States dollars, unless the Underwriters otherwise agree. All of the proceeds of this offering will be paid to us by the Underwriters in United States dollars.

The offering is being made in the United States and in each of the provinces of Canada, except Quebec, pursuant to a multi-jurisdictional disclosure system implemented by the United States and Canada. The Units will be offered in the United States and Canada through the Underwriters either directly or, if applicable, through their respective registered broker-dealer affiliates. No securities will be offered or sold in any jurisdiction except by or through brokers or dealers duly registered under the applicable securities laws of that jurisdiction, or in circumstances where an exemption from such registered dealer requirements is available.

The Underwriters are offering the Units, subject to prior sale, if, as and when issued to and accepted by them, subject to approval of certain legal matters, including the conditions contained in the Underwriting Agreement, such as receipt by the Underwriters of officers' certificates and legal opinions.

Subscriptions for the Units will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. We and the Underwriters expect the Shares and Warrants offered hereby to be available for delivery in book-entry form through the facilities of DTC at closing, which is anticipated to be on or

about September 6, 2013 or such other date as may be agreed upon between us and the Lead Underwriter. No certificate evidencing the Shares and Warrants will be issued to the purchaser, except in limited circumstances, and registration will be made in the depository services of DTC. The purchaser will receive only a customer confirmation from the Underwriter or other registered dealer who is a DTC participant and from or through whom a beneficial interest in the Shares and Warrants is purchased. Under Rule 15c6-1 under the U.S. Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties expressly agree otherwise. We anticipate a settlement cycle of T+7 business days. Accordingly, purchasers who wish to trade prior to the delivery date may be required to specify an alternate settlement cycle at the time of the trade to prevent a failed settlement. Investors who wish to trade prior to the delivery date should consult their own advisors.

The Underwriters propose to offer the Units initially at the price specified on the cover of this prospectus supplement and to dealers at a price less a concession not in excess of \$0.0351 per Unit. The Underwriters will not allow, and the dealers may not re-allow, any discount or commission to other dealers. After the Underwriters have made a reasonable effort to sell all of the Units at the price specified on the cover page, the price may be decreased and may be further changed from time to time to an amount not greater than that set out on the cover page, and the compensation realized by the Underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Units is less than the gross proceeds paid by the Underwriters to us. The Underwriters may receive normal brokerage commissions from purchasers of the Units in amounts agreed to with such purchasers.

Underwriters Compensation

We have agreed to pay a cash commission to the Underwriters in the amount equal to 6% (\$0.0702 per Unit sold) of the gross proceeds of the sale of the Units, if any, in consideration for services rendered. The aggregate commission payable to the Underwriters upon closing of the offering will be \$600,210.

The following table shows the Per Unit and Total Underwriters commissions to be paid to the Underwriters by us.

Fee Per Unit	\$ 0.0702
Total	\$ 600,210

We will also reimburse the Underwriters for their reasonable fees and expenses including the reasonable legal fees and disbursements of legal counsel to the Underwriters. We estimate that our share of the total expenses of the offering, excluding the Underwriters commission will be approximately \$275,000, which includes approximately \$200,000 in reimbursable expenses paid to the Underwriters.

No Sales of Similar Securities

We and our executive officers and directors have agreed that, other than the Units offered hereby and subject to certain exceptions, including the issuance by us of shares representing up to 10% of our outstanding common stock as of the date of the Underwriting Agreement in connection with the acquisition of any business, property or asset that is consistent with our business presently conducted and as described in this prospectus supplement, the base prospectus and the documents incorporated by reference herein and therein, for a period of 90 days from the date of this prospectus supplement, we and they will not, without the prior written consent of the Lead Underwriter, on behalf of the Underwriters, directly or indirectly, issue, offer, sell, agree to issue, offer or sell, solicit offers to purchase, grant any call option, warrant or other right to purchase or purchase any put option or other right to sell, pledge, borrow or otherwise dispose of any shares of common stock or any securities convertible into, or exercisable or exchangeable for, shares of common stock or any other security of ours, or make any public announcement of any of the foregoing, and will not establish or increase any put equivalent position or liquidate or decrease any call equivalent position (in each case within the meaning of Section 16 of the U.S. Exchange Act and the rules and regulations thereunder), with respect to any shares of common stock or any securities convertible into, or exercisable or exchangeable for, shares of common stock or any other security of ours or otherwise enter into any swap, derivative or other transaction or arrangement that transfers to another, in whole or in part, any economic consequence of ownership of any shares of common stock or any securities convertible into, or exercisable or exchangeable for, shares of common stock or any other such security, whether or not such transaction is to be settled by delivery of any shares of common stock or any securities convertible into, or exercisable or exchangeable for, shares of common stock or any other security of ours.

Price Stabilization and Short Positions

Until the distribution of the Units is completed, SEC rules may limit the Underwriters from bidding for and purchasing on our shares of common stock. However, the Underwriters may engage in transactions that stabilize, maintain or otherwise affect the market price of our shares of common stock, such as bids or purchases to peg, fix or maintain that price in accordance with Regulation M under the U.S. Exchange Act.

Edgar Filing: URANERZ ENERGY CORP. - Form 424B5

Pursuant to rules and policy statements of certain Canadian provincial and territorial securities regulatory authorities, the Underwriters may not, at any time during the period ending on the date the selling process for the Units ends and all stabilization arrangements relating to our shares of common stock are terminated, bid for or purchase of shares of our common stock for their own account or for accounts over which they exercise control or direction. The foregoing restrictions are subject to certain exceptions, on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, our shares of common stock. These exceptions include bids or purchases permitted under the Universal Market Integrity Rules for Canadian Marketplaces administered by the Investment Industry Regulatory Organization of Canada relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited

during the period of distribution. Subject to the foregoing, in connection with this offering, the Underwriters may effect transactions that stabilize or maintain the market price of our shares of common stock at levels which might not prevail on the open market. Such transactions, if commenced, may be discontinued at any time.

If the Underwriters create a short position in our shares of common stock in connection with this offering (i.e., if they sell more Units than are listed on the cover of this prospectus supplement), the Underwriters may reduce that short position by purchasing shares of common stock in the open market. Purchases of shares of common stock to stabilize the price or to reduce a short position may cause the price of the shares of common stock to be higher than it might otherwise be in the absence of such purchases. No representation is made as to the magnitude or effect of any such stabilization or other activities. The Underwriters are not required to engage in these activities.

Stock Exchange Listing

The outstanding shares of common stock are listed on the TSX and NYSE MKT. We intend to apply to have the Shares and Warrant Shares listed on the TSX and NYSE MKT. Listing will be subject to us fulfilling all of the listing requirements of the TSX and NYSE MKT.

This prospectus supplement and the accompanying base prospectus in electronic format may be made available on Internet sites or through other online services maintained by one or more of the Underwriters, or by their affiliates. Other than any prospectus supplement and the accompanying base prospectus made available in electronic format in this manner, the information on any website containing this prospectus supplement and the accompanying base prospectus is not part of this prospectus supplement, the accompanying base prospectus, the registration statement of which this prospectus supplement forms a part, or the Canadian Prospectus, and such information has not been approved or endorsed by us or any Underwriter in such capacity and should not be relied on by prospective investors.

The Underwriting Agreement will be included as an exhibit to a current report on Form 8-K that will be filed with the SEC in connection with the consummation of this offering.

Some of the Underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received, and may in the future receive, customary fees and commissions for these transactions.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general summary of material U.S. federal income tax consequences arising from and relating to the acquisition of Shares acquired as part of the Units, the exercise, disposition, and lapse of Warrants acquired as part of the Units, and the acquisition, ownership, and disposition of Warrant Shares received on the exercise of the Warrants.

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential United States federal income tax consequences related to the acquisition, ownership and disposition of Shares, Warrants and Warrant Shares. Except as specifically set forth below, this summary does not discuss applicable tax reporting requirements. In addition, this summary does not take into account the individual facts and circumstances of any particular holder that may affect the United States federal income tax consequences to such holder. Accordingly, this summary is not intended to be, and should not be construed as, legal or United States federal income tax advice with respect to any particular holder. Each holder should consult its own tax advisors regarding the United States federal, state and local, and non-U.S. tax consequences related to the acquisition, ownership and disposition of Shares, Warrants and Warrant Shares.

No legal opinion from United States legal counsel or ruling from the Internal Revenue Service (the **IRS**) has been requested, or will be obtained, regarding the United States federal income tax consequences related to the acquisition, ownership and disposition of Shares, Warrants and Warrant Shares. This summary is not binding on the IRS, and the IRS is not precluded from taking a position that is different from, and contrary to, the positions taken in this summary.

Scope of this Summary

Authorities

This summary is based on the Internal Revenue Code of 1986, as amended (the **Code**), Treasury Regulations (whether final, temporary, or proposed), published rulings of the IRS, published administrative positions of the IRS, and United States court decisions that are applicable and, in each case, as in effect and available, as of the date of this prospectus supplement. Any of the authorities on which this summary is based could be changed in a material and adverse manner at any time, and any such change could be applied on a retroactive basis. This summary does not

Edgar Filing: URANERZ ENERGY CORP. - Form 424B5

discuss the potential effects, whether adverse or beneficial, of any proposed legislation that, if enacted, could be applied on a retroactive basis.

U.S. Holders

As used in this summary, the term **U.S. Holder** means a beneficial owner of Shares, Warrants and Warrant Shares acquired pursuant to this prospectus supplement that is for U.S. federal income tax purposes: an individual who is a citizen or resident of the U.S.; a corporation (or other entity taxable as a corporation) organized under the laws of the U.S., any state thereof or the District of Columbia; an estate whose income is subject to U.S. federal income taxation regardless of its source; or a trust that (1) is subject to the primary supervision of a court within the U.S. and the control of one or more U.S. persons for all substantial decisions or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

Non-U.S. Holders

The term **Non-U.S. Holder** means any beneficial owner of Shares, Warrants and Warrant Shares acquired pursuant to this prospectus supplement that is neither a U.S. Holder nor a partnership nor other entity or arrangement treated as a partnership for U.S. federal income tax purposes. A Non-U.S. Holder should review the discussion under the heading **U.S. Federal Income Tax Consequences to Non-U.S. Holders of the Acquisition, Ownership and Disposition of Shares, Warrants and Warrant Shares** below for more information.

Table of Contents

Holders Subject to Special United States Federal Income Tax Rules

This summary deals only with persons or entities who hold Shares, Warrants and Warrant Shares as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment purposes). This summary does not address all aspects of U.S. federal income taxation that may be applicable to holders in light of their particular circumstances or to holders subject to special treatment under U.S. federal income tax law, such as (without limitation): banks, insurance companies, and other financial institutions; dealers or traders in securities, commodities or foreign currencies; regulated investment companies; U.S. expatriates or former long-term residents of the U.S.; persons holding Shares, Warrants or Warrant Shares as part of a straddle, appreciated financial position, synthetic security, hedge, conversion transaction or other integrated investment; persons holding Shares, Warrants or Warrant Shares as a result of a constructive sale; entities that acquire Shares, Warrants and Warrant Shares that are treated as partnerships for U.S. federal income tax purposes and investors (i.e., partners) in such partnerships; real estate investment trusts; U.S. Holders that have a functional currency other than the U.S. dollar; holders that acquired Shares, Warrants, or Warrant Shares in connection with the exercise of employee stock options or otherwise as consideration for services; or holders that are controlled foreign corporations or passive foreign investment companies. Holders that are subject to special provisions under the Code, including holders described immediately above, should consult their own tax advisors regarding the United States federal, state and local, and non-U.S. tax consequences arising from and relating to the acquisition, ownership and disposition of Shares, Warrants and Warrant Shares.

If an entity or arrangement that is classified as a partnership (or other pass-through entity) for U.S. federal income tax purposes holds Shares, Warrants or Warrant Shares, the U.S. federal income tax consequences to such entity and the partners (or other owners) of such entity generally will depend on the activities of the entity and the status of such partners (or owners). This summary does not address the tax consequences to any such owner or entity. Partners (or other owners) of entities or arrangements that are classified as partnerships or as pass-through entities for U.S. federal income tax purposes should consult their own tax advisors regarding the U.S. federal income tax consequences arising from and relating to the acquisition, ownership, and disposition of Shares, Warrants and Warrant Shares.

Tax Consequences Not Addressed

This summary does not address the United States state and local, United States federal estate and gift, United States federal alternative minimum tax, or non-U.S. tax consequences to holders of the acquisition, ownership, and disposition of Shares, Warrants and Warrant Shares. Each holder should consult its own tax advisors regarding the United States state and local, United States federal estate and gift, United States federal alternative minimum tax, and non-U.S. tax consequences of the acquisition, ownership, and disposition of Shares, Warrants and Warrant Shares.

Certain Material U.S. Federal Income Tax Consequences of the Purchase of Units to U.S. Holders and Non-U.S. Holders

For U.S. federal income tax purposes, the purchase of a Unit by U.S. Holders and Non-U.S. Holders will be treated as the purchase of two components: a component consisting of one Share and a component consisting of one-half of one Warrant. The purchase price for each Unit will be allocated between these two components in proportion to their relative fair market values at the time the Unit is purchased by the holder. This allocation of the purchase price for each Unit will establish a holder's initial tax basis for U.S. federal income tax purposes in the Share and one-half of one Warrant that comprise each Unit.

For purposes of determining tax basis, we will allocate \$1.16 of the purchase price for each Unit to the Share and \$0.01 of the purchase price for each Unit to the one-half of one Warrant. However, the IRS will not be bound by our allocation of the purchase price for the Units, and, therefore, the IRS or a U.S. court may not respect the allocation set forth above. Each holder should consult its own tax advisor regarding the allocation of the purchase price for the Units.

Table of Contents

U.S. Federal Income Tax Consequences to U.S. Holders of the Exercise and Disposition of Warrants

Exercise of Warrants

A U.S. Holder generally will not recognize gain or loss on the exercise of a Warrant and related receipt of a Warrant Share (unless cash is received in lieu of the issuance of a fractional Warrant Share). A U.S. Holder's initial tax basis in the Warrant Share received on the exercise of a Warrant should be equal to the sum of (a) such U.S. Holder's tax basis in such Warrant plus (b) the exercise price paid by such U.S. Holder on the exercise of such Warrant. A U.S. Holder's holding period for the Warrant Share received on the exercise of a Warrant should begin on the date that such Warrant is exercised by such U.S. Holder.

In certain limited circumstances (as described under "Description of Securities Distributed Warrants"), a U.S. Holder may be permitted to undertake a cashless exercise of Warrants into Warrant Shares. The U.S. federal income tax treatment of a cashless exercise of Warrants into Warrant Shares is unclear, and the tax consequences of a cashless exercise could differ from the consequences upon the exercise of a Warrant described in the preceding paragraph. U.S. Holders should consult their own tax advisors regarding the U.S. federal income tax consequences of a cashless exercise of Warrants.

Disposition of Warrants

A U.S. Holder will recognize gain or loss on the sale or other taxable disposition of a Warrant in an amount equal to the difference, if any, between (a) the amount of cash plus the fair market value of any property received and (b) such U.S. Holder's tax basis in the Warrant sold or otherwise disposed of. Any such gain or loss generally will be a capital gain or loss (provided that the Warrant Share to be issued on the exercise of such Warrant would have been a capital asset within the meaning of Section 1221 of the Code if acquired by the U.S. Holder), which will be long-term capital gain or loss if the Warrant is held for more than one year. Any such gain recognized by certain non-corporate U.S. Holders may be subject to the 3.8% Medicare surtax discussed below in addition to the normal U.S. federal income taxes applicable to such gain.

Expiration of Warrants without Exercise

Upon the lapse or expiration of a Warrant, a U.S. Holder will recognize a loss in an amount equal to such U.S. Holder's tax basis in the Warrant. Any such loss generally will be a capital loss and will be long-term capital loss if the Warrants are held for more than one year. Deductions for capital losses are subject to complex limitations under the Code.

Certain Adjustments to the Warrants

Under Section 305 of the Code, an adjustment to the number of Warrant Shares that will be issued on the exercise of the Warrants, or an adjustment to the exercise price of the Warrants, may be treated as a constructive distribution to a U.S. Holder of the Warrants if, and to the extent that, such adjustment has the effect of increasing such U.S. Holder's proportionate interest in our earnings and profits or assets, depending on the circumstances of such adjustment (for example, if such adjustment is to compensate for a distribution of cash or other property to our shareholders). (See the more detailed discussion of the rules applicable to distributions made by us at "U.S. Federal Income Tax Consequences to U.S. Holders of the Acquisition, Ownership and Disposition of Shares and Warrant Shares Distributions" below).

U.S. Federal Income Tax Consequences to U.S. Holders of the Acquisition, Ownership and Disposition of Shares and Warrant Shares

Distributions

Distributions made on Shares and Warrant Shares generally will be included in a U.S. Holder's income as ordinary dividend income to the extent of our current and accumulated earnings and profits (determined under U.S. federal income tax principles) as of the end of our taxable year in which the distribution occurs. However, with respect to dividends received by certain non-corporate U.S. Holders (including individuals), such dividends are generally taxed at the lower applicable long-term capital gains rates, provided certain holding period and other requirements are satisfied. Distributions in excess of our current and accumulated earnings and profits will be treated as a return of capital to the extent of a U.S. Holder's adjusted tax basis in the Shares or Warrant Shares and thereafter as capital gain from the sale or exchange of such Shares or Warrant Shares, which will be taxable according to rules discussed under the heading "Sale, Certain Redemptions or Other Taxable Dispositions of Shares and Warrant Shares," below. Dividends received by a corporate holder may be eligible for a dividends received deduction, subject to applicable limitations.

Sale, Certain Redemptions or Other Taxable Dispositions of Shares and Warrant Shares

Upon the sale, certain qualifying redemptions, or other taxable disposition of Shares or Warrant Shares, a U.S. Holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash and the fair market value of any property received upon such taxable disposition and (ii) the U.S. Holder's adjusted tax basis in the Shares or Warrant Shares. Such capital gain or loss will be long-term capital gain or loss if a U.S. Holder's holding period in the Shares or Warrant Shares is more than one year at the time of the taxable disposition. Long-term capital gains recognized by certain non-corporate U.S. Holders (including individuals) will generally be subject to a maximum U.S. federal income tax rate of 20%. Deductions for capital losses are subject to complex limitations under the Code.

Other U.S. Federal Income Tax Consequences Applicable to U.S. Holders

Additional Tax on Passive Income

Certain individuals, estates and trusts whose income exceeds certain thresholds will be required to pay a 3.8% Medicare surtax on net investment income including, among other things, dividends and net gain from disposition of property (other than property held in certain trades or businesses). U.S. Holders should consult their own tax advisors regarding the effect, if any, of this tax on their ownership and disposition of Shares, Warrants and Warrant Shares.

Information Reporting and Backup Withholding

Information reporting requirements generally will apply to payments of dividends on Shares and Warrant Shares and to the proceeds of a sale of Shares, Warrants or Warrant Shares paid to a U.S. Holder unless the U.S. Holder is an exempt recipient (such as a corporation). Backup withholding will apply to those payments if the U.S. Holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. Holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Backup withholding is not an additional tax, and any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability, if any, provided the required information is furnished in a timely manner to the IRS.

U.S. Federal Income Tax Consequences to Non-U.S. Holders of the Acquisition, Ownership and Disposition of Shares, Warrants and Warrant Shares

U.S. Federal Income Tax Consequences to Non-U.S. Holders of the Exercise and Disposition of Warrants

Exercise of Warrants

A Non-U.S. Holder generally will not recognize gain or loss on the exercise of a Warrant and related receipt of a Warrant Share (unless cash is received in lieu of the issuance of a fractional Warrant Share). A Non-U.S. Holder's initial tax basis in the Warrant Share received on the exercise of a Warrant should be equal to the sum of (a) such Non-U.S. Holder's tax basis in such Warrant plus (b) the exercise price paid by such Non-U.S. Holder on the exercise of such Warrant. A Non-U.S. Holder's holding period for the Warrant Share received on the exercise of a Warrant should begin on the date that such Warrant is exercised by such Non-U.S. Holder.

In certain limited circumstances (as described under "Description of Securities Distributed Warrants"), a Non-U.S. Holder may be permitted to undertake a cashless exercise of Warrants into Warrant Shares. The U.S. federal income tax treatment of a cashless exercise of Warrants into Warrant Shares is unclear, and the tax consequences of a cashless exercise could differ from the consequences upon the exercise of a Warrant described in the preceding paragraph. Non-U.S. Holders should consult their own tax advisors regarding the U.S. federal income tax consequences of a cashless exercise of Warrants.

Table of Contents

Disposition of Warrants

A Non-U.S. Holder will recognize gain or loss on the sale or other taxable disposition of a Warrant in an amount equal to the difference, if any, between (a) the amount of cash plus the fair market value of any property received and (b) such Non-U.S. Holder's tax basis in the Warrant sold or otherwise disposed of. Any such gain or loss generally will be a capital gain or loss (provided that the Warrant Share to be issued on the exercise of such Warrant would have been a capital asset within the meaning of Section 1221 of the Code if acquired by the Non-U.S. Holder), which will be long-term capital gain or loss if the Warrant is held for more than one year. Any such gain recognized by a Non-U.S. Holder will be taxable for U.S. federal income tax purposes according to rules discussed under the heading *Sale or Other Taxable Disposition of Shares, Warrants and Warrant Shares*, below.

Expiration of Warrants without Exercise

Upon the lapse or expiration of a Warrant, a Non-U.S. Holder will recognize a loss in an amount equal to such Non-U.S. Holder's tax basis in the Warrant. Any such loss generally will be a capital loss and will be long-term capital loss if the Warrants are held for more than one year. Deductions for capital losses are subject to complex limitations under the Code.

Certain Adjustments to the Warrants

Under Section 305 of the Code, an adjustment to the number of Warrant Shares that will be issued on the exercise of the Warrants, or an adjustment to the exercise price of the Warrants, may be treated as a constructive distribution to a Non-U.S. Holder of the Warrants if, and to the extent that, such adjustment has the effect of increasing such Non-U.S. Holder's proportionate interest in our earnings and profits or assets, depending on the circumstances of such adjustment (for example, if such adjustment is to compensate for a distribution of cash or other property to our shareholders). See the more detailed discussion of the rules applicable to distributions made by us under the heading *Dividends* below.

Dividends

Distributions on Shares or Warrant Shares will constitute dividends for U.S. federal income tax purposes to the extent paid from our current and accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, they will constitute a return of capital and will first reduce a Non-U.S. Holder's basis in Shares or Warrant Shares, but not below zero, and then will be treated as gain from the sale of stock, which will be taxable according to rules discussed under the heading *Sale or Other Taxable Disposition of Shares, Warrants and Warrant Shares*, below. Any dividends paid to a Non-U.S. Holder with respect to Shares or Warrant Shares generally will be subject to withholding tax at a 30% gross rate, subject to any exemption or lower rate under an applicable treaty if the Non-U.S. Holder provides us with a properly executed IRS Form W-8BEN, unless the Non-U.S. Holder provides us with a properly executed IRS Form W-8ECI (or other applicable form) relating to income effectively connected with the conduct of a trade or business within the U.S.

Dividends that are effectively connected with the conduct of a trade or business within the U.S. and includible in the Non-U.S. Holder's gross income are not subject to the withholding tax (assuming proper certification and disclosure), but instead are subject to U.S. federal income tax on a net income basis at applicable graduated individual or corporate rates. Any such effectively connected income received by a non-U.S. corporation may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, subject to any exemption or lower rate as may be specified by an applicable income tax treaty.

A Non-U.S. Holder of Shares or Warrant Shares who wishes to claim the benefit of an applicable treaty rate or exemption is required to satisfy certain certification and other requirements. If a Non-U.S. Holder is eligible for an exemption from or a reduced rate of U.S. withholding tax pursuant to an income tax treaty, it may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Sale or Other Taxable Disposition of Shares, Warrants and Warrant Shares

In general, a Non-U.S. Holder of Shares, Warrants or Warrant Shares will not be subject to U.S. federal income tax on gain recognized from a sale, exchange, or other taxable disposition of such Shares, Warrants or Warrant Shares, unless:

Table of Contents

the gain is effectively connected with a U.S. trade or business carried on by the Non-U.S. Holder (and, where an income tax treaty applies, is attributable to a U.S. permanent establishment of the Non-U.S. Holder), in which case the Non-U.S. Holder will be subject to tax on the net gain from the sale at regular graduated U.S. federal income tax rates, and if the Non-U.S. Holder is a corporation, may be subject to an additional U.S. branch profits tax at a gross rate equal to 30% of its effectively connected earnings and profits for that taxable year, subject to any exemption or lower rate as may be specified by an applicable income tax treaty;

the Non-U.S. Holder is an individual who is present in the U.S. for 183 days or more in the taxable year of disposition and certain other conditions are met, in which case the Non-U.S. Holder will be subject to a 30% tax on the gain from the sale, which may be offset by U.S. source capital losses; or

the Company is or has been a **United States real property holding corporation** (**USRPHC**) for U.S. federal income tax purposes at any time during the shorter of the Non-U.S. Holder's holding period or the 5-year period ending on the date of disposition of Shares, Warrants or Warrant Shares; provided, with respect to the Shares and Warrant Shares, that as long as our common stock is regularly traded on an established securities market as determined under the Treasury Regulations (the **Regularly Traded Exception**), a Non-U.S. Holder would not be subject to taxation on the gain on the sale of Shares or Warrant Shares under this rule unless the Non-U.S. Holder has owned more than 5% of our common stock at any time during such 5-year or shorter period (a **5% Shareholder**). In determining whether a Non-U.S. Holder is a 5% Shareholder, such holder's Warrants may be included in such determination. In addition, certain attribution rules apply in determining ownership for this purpose. While the Shares and Warrant Shares will be listed on the NYSE MKT and therefore are likely to satisfy the Regularly Traded Exception, since the Warrants are not expected to be listed on a securities market, the Warrants are unlikely to qualify for the Regularly Traded Exception. Although the Company has not undertaken a detailed analysis of its USRPHC status, the Company believes that it is currently, and may be in one or more future years, a USRPHC. The Company can provide no assurances that the Shares, Warrants or Warrant Shares will meet the Regularly Traded Exception at the time a Non-U.S. Holder purchases such securities or sells, exchanges or otherwise disposes of such securities. Non-U.S. Holders should consult with their own tax advisors regarding the consequences to them of investing in a USRPHC. As a USRPHC, a Non-U.S. Holder will be taxed as if any gain or loss were effectively connected with the conduct of a trade or business as described above in Dividends in the event that (i) such holder is a 5% Shareholder, or (ii) the Regularly Traded Exception is not satisfied during the relevant period.

Information Reporting and Backup Withholding

Generally, we must report annually to the IRS and to Non-U.S. Holders the amount of dividends paid on the Shares and Warrant Shares to Non-U.S. Holders and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

In general, a Non-U.S. Holder will not be subject to backup withholding with respect to payments of dividends that we make, provided we receive a statement meeting certain requirements to the effect that the Non-U.S. Holder is not a U.S. person and we do not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code, that is not an exempt recipient. The requirements for the statement will be met if (1) the Non-U.S. Holder provides its name, address and U.S. taxpayer identification number, if any, and certifies, under penalty of perjury, that it is not a U.S. person (which certification may be made on IRS Form W-8BEN) or (2) a financial institution holding the instrument on behalf of the Non-U.S. Holder certifies, under penalty of perjury, that such statement has been received by it and furnishes us or our paying agent with a copy of the statement. In addition, a Non-U.S. Holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of a sale of Shares, Warrants and Warrant Shares within the U.S. or conducted through certain U.S.-related financial intermediaries, unless the statement described above has been received, and we do not have actual knowledge or reason to know that a holder is a U.S. person, as defined under the Code, that is not an exempt recipient, or the Non-U.S. Holder otherwise establishes an exemption. Backup withholding is not an additional tax and any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, if any, provided the required information is furnished in a timely manner to the IRS.

Rules Relating to Foreign Accounts

Generally, we will be required to withhold tax at a rate of 30% on dividends in respect of, and gross proceeds from the sale of, Shares, Warrants and Warrant Shares held by or through certain foreign financial institutions (including investment funds) beginning after June 30, 2014, in the case of dividends, and beginning after December 31, 2016, in the case of such gross proceeds, unless such institution enters into an agreement with the Secretary of the Treasury to report, on an annual basis, information with respect to shares in the institution held by certain U.S. persons and by certain non-U.S. entities that are wholly- or partially-owned by U.S. persons. Accordingly, the entity through which Shares, Warrants and Warrant Shares are held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and gross proceeds from the sale of, Shares, Warrants and Warrant Shares held by certain investors that are non-financial non-U.S. entities will be subject to withholding at a rate of 30%, beginning after June 30, 2014, in the case of dividends, and beginning after December 31, 2016, in the case of such gross proceeds, unless such entity either (i) certifies that such entity does not have any substantial U.S. owners or (ii) provides certain information regarding the entity's substantial U.S. owners, which will in turn be provided to the Secretary of the Treasury. Non-U.S. Holders should consult with their own tax advisors regarding the possible implications of the foregoing rules on their holding of Shares, Warrants and Warrant Shares.

General

We are a U.S.-based uranium company focused on achieving near-term commercial in-situ recovery (ISR) uranium production. ISR is a mining process that uses a leaching solution to extract uranium from underground ore bodies; it is the generally accepted extraction technology used in the Powder River Basin area of Wyoming (ISR comprised 41% of world uranium production in 2010). We control a large strategic land position in the Pumpkin Buttes Uranium Mining District of the central Powder River Basin of Wyoming, U.S.A. Our management team has specialized expertise in the ISR uranium mining method, and a record of licensing, constructing, and operating ISR uranium projects.

We are principally focused on the development of certain of our properties in the Powder River Basin area into commercial ISR uranium mines. Our plan of operations is to bring two properties into production, the Nichols Ranch and Hank units, together referred to as the Nichols Ranch ISR Uranium Project, and continue the exploration and development of our other Wyoming Powder River Basin properties.

As at July 20, 2011 we have received the Permit to Mine from the Wyoming Department of Environmental Quality, Land Quality Division (WDEQ) and a Source Materials License from the United States Nuclear Regulatory Commission (NRC) for the Nichols Ranch ISR Uranium Project. The Permit to Mine and the Source Materials License were the final authorizations required to allow us to begin construction of our Nichols Ranch ISR Uranium Project. At this Project we expect to take our Nichols Ranch and Hank units into production of uranium concentrate, which can be sold directly to utilities for processing into fuel used in nuclear electrical generating facilities.

We have completed the detailed engineering and design of our processing facility and first production well field for the Nichols Ranch ISR Uranium Project. In July of 2011 we commenced construction of the facility and related infrastructure for our Nichols Ranch ISR Uranium Project.

A third project is in the license application preparation stage. In March 2010, we commenced preparation of the environmental permit and license applications for the Jane Dough unit, which is adjacent to the area currently being developed at the Nichols Ranch unit and will share its infrastructure. Jane Dough includes the Doughstick, South Doughstick and North Jane properties. Additional units may be added as we assess our geological data.

The mine plan for the Nichols Ranch ISR Uranium Project includes a central processing facility at our Nichols Ranch unit and a satellite ion exchange uranium concentrating facility at our Hank unit. The production level from these two units is planned to be in the range of 600,000 to 800,000 pounds per year (as U_3O_8). The central processing facility is licensed for a capacity of two million pounds per year of uranium (as U_3O_8) and it is intended that it will process uranium-bearing well field solutions from Nichols Ranch, as well as uranium-loaded resin transported from the Hank satellite facility, plus uranium-loaded resin from any additional satellite deposits that may be developed on our other Powder River Basin properties. The Jane Dough unit is compatible with this plan. We believe this centralized design enhances the economics of our potential additional satellite projects by maximizing production capacity while minimizing further capital expenditures on processing facilities.

We plan to use the ISR mining process whereby a leaching agent, which contains an oxidant such as oxygen with sodium bicarbonate (commonly known as baking soda) and carbon dioxide, is added to the native groundwater and injected through wells into the ore body in a sandstone aquifer to dissolve minerals containing uranium. This solution is then pumped via other wells to the surface for processing into finished yellowcake product ready for sale to utilities requiring nuclear fuel for operations resulting in a cost-efficient and, relative to other common mining methods, a more environmentally friendly mining process. The ISR mining process differs dramatically from

Table of Contents

conventional mining techniques in that ISR mining leaves the rock matrix in place. The ISR technique avoids the movement and milling of rock and ore as well as mill tailing waste associated with more traditional mining methods.

In anticipation of receiving all the approvals necessary to begin production, we commenced a marketing program for conditional sales of uranium from our Nichols Ranch ISR Uranium Project. In July of 2009 we announced that we entered into a sales agreement with Exelon Generation Company, LLC for the sale of uranium over a five year period for defined pricing. In August of 2009 we announced our second contract for the sale of uranium to a U.S. utility also over five years, with a pricing structure that contains references to both spot and long-term prices and includes a floor and ceiling price. These long-term contracts for the sale of uranium are with two of the largest nuclear utilities in the U.S. These two agreements do not individually represent a substantial portion of our targeted uranium production and our business is not substantially dependent on these agreements.

Through a combination of claim staking, purchasing and leasing, we have also acquired interests in projects that lie within the Powder River Basin but outside of the project areas discussed above. These properties include the Verna Ann and Niles Ranch projects. These projects are located in sandstone basins of Tertiary age with known uranium mineralization. However, due to our focus on other projects, we have not yet initiated exploration work on these projects.

Information regarding the location of and access to our Wyoming properties, together with the history of operations, present condition and geology of each of our properties, is presented in Item 2 of our Annual Report on Form 10-K for the year ended December 31, 2010 under the heading "Description of Properties", previously filed with the SEC on March 15, 2011.

RISK FACTORS

Investing in the Securities involves a high degree of risk. Prospective investors in a particular offering of Securities should carefully consider the following risks, as well as the other information contained in this Prospectus, any applicable Prospectus Supplement, and the documents incorporated by reference herein before investing in the Securities. If any of the following risks actually occurs, our business could be materially harmed. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties, including those of which we are currently unaware or that we deem immaterial, may also adversely affect the Company's business.

Risks Related to Our Business

Our future performance is difficult to evaluate because we have a limited operating history.

We were incorporated in 1999 and we began to implement our current business strategy in the uranium industry in the beginning of 2005. Our operating cash flow needs have been financed primarily through issuances of our common stock. As a result, we have little historical financial and operating information available to help you evaluate our performance or an investment in our securities.

Because the probability of an individual prospect ever having reserves is remote, our properties may not contain any reserves, and any funds spent on exploration may be lost.

We have no uranium producing properties and have never generated any revenue from our operations. Because the probability of an individual prospect ever having reserves is remote, our properties may not contain any reserves, and any funds spent on exploration may be lost. Notwithstanding our disclosures to Canadian authorities under National Instrument 43-101, we do not know with certainty that economically recoverable uranium exists on any of our properties. We may never discover uranium in commercially exploitable quantities and any identified deposit may never qualify as a commercially mineable (or viable) reserve. We will continue to attempt to acquire the surface and mineral rights on lands that we think are geologically favorable or where we have historical information in our possession that indicates uranium mineralization might be present.

The exploration and development of mineral deposits involves significant financial and other risks over an extended period of time, which even a combination of careful evaluation, experience and knowledge may not eliminate. While discovery of a uranium, precious or base metal deposit may result in substantial rewards, few properties which are explored are ultimately developed into producing mines. Major expenditures are required to establish reserves by drilling and to construct mining and processing facilities at a site. Our uranium properties are all at the exploration stage and do not contain any reserves at this time. It is impossible to ensure that the current or proposed exploration and development programs on properties in which the Company has an interest will result in the delineation of mineral deposits or in profitable commercial operations. Our operations are subject to the hazards and risks normally incident to exploration, development and production of uranium, precious and base metals, any of which could result in damage to life or property, environmental damage and possible legal liability for such damage. While we may obtain insurance against certain risks, the nature of these risks is such that liabilities could exceed policy limits or could be excluded from coverage. There are also risks against which we cannot insure or against which we may elect not to insure. The potential costs which could be associated with any liabilities not covered by insurance, or in excess of insurance coverage, or compliance with applicable laws and regulations may cause substantial delays and require significant capital outlays, adversely affecting our future earnings and competitive position and, potentially our financial viability.

We have a limited operating history and have losses which we expect to continue into the future. As a result, we may have to suspend or cease exploration activities.

We were incorporated in 1999 and are engaged in the business of mineral exploration. We have not realized any revenue from our operations. We have a relatively limited exploration history upon which an evaluation of our future success or failure can be made. We have incurred losses since inception. Our ability to achieve and maintain profitability and positive cash flow is dependent upon:

our ability to locate a profitable mineral property;

our ability to generate revenues;

our ability to control costs.

Table of Contents

Based upon current plans, we expect to incur operating losses in future periods. This will happen because there are expenses associated with the research and exploration of our mineral properties plus development costs to produce saleable product. We cannot guarantee we will be successful in generating revenues in the future. Failure to generate revenues may cause us to go out of business.

Because some of our officers and directors do not have technical training or experience in exploring for, starting, and operating a mine, we may have to hire qualified personnel. If we can't locate qualified personnel, we may have to suspend or cease exploration activity.

Some, but not all, of our officers and directors do have experience with exploring for, starting, and operating a mine. Because some of our officers and directors are inexperienced with exploring for, starting, and operating a mine, we may have to hire qualified persons to perform surveying, exploration, and water management of our properties. Some of our officers and directors have no direct training or experience in these areas and as a result may not be fully aware of many of the specific requirements related to working within the industry. Their decisions and choices would typically take into account standard engineering or managerial approaches mineral exploration companies commonly use. However, our exploration activities, earnings and ultimate financial success could suffer irreparable harm due to certain of management's decisions. As a result we may have to suspend or cease exploration activities, or any future warranted development activities, which would likely result in the loss of your investment.

Our future profitability will be dependent on uranium prices.

Because a significant portion of our anticipated revenues are expected to be derived from the sale of uranium, our net earnings, if any, can be affected by the long- and short-term market price of U_3O_8 . Uranium prices are subject to fluctuation. The price of uranium has been and will continue to be affected by numerous factors beyond our control. With respect to uranium, such factors include the demand for nuclear power, political and economic conditions in uranium producing and consuming countries, uranium supply from secondary sources, uranium production levels and costs of production. Spot prices for U_3O_8 were at \$20.00 per pound U_3O_8 in December 2004, and then, to \$35.25 per pound in December 2005 and \$72.00 per pound in December 2006. During 2007 the spot price reached a high of \$138.00 per pound. The spot price of U_3O_8 was approximately \$90.00 per pound in December 2007. The spot price declined during 2008, reaching a low of \$44.00 per pound in October. In 2009, the spot price of U_3O_8 had a high of \$51.50 and a low of \$42.00. In 2010 the spot price had a high of \$62.50 and a low of \$40.75. The spot price of U_3O_8 was approximately \$50.50 per pound and the long term price was approximately \$68.00 per pound as at August 15, 2011.

Our operations are subject to environmental regulation and environmental risks.

We are required to comply with applicable environmental protection laws and regulations and permitting requirements, and we anticipate that we will be required to continue to do so in the future. The material laws and regulations within the U.S. that the Company must comply with are the National Environmental Protection Act (NEPA), Atomic Energy Act, Uranium Mill Tailings Radiation Control Act of 1978 (UMTRCA), Clean Air Act, Clean Water Act, Safe Drinking Water Act, Federal Land Policy Management Act, National Park System Mining Regulations Act, and the State Mined Land Reclamation Acts or State Department of Environmental Quality regulations, as applicable. We are required to comply with the Atomic Energy Act, as amended by UMTRCA, by applying for and maintaining a Source Material license from the US Nuclear Regulatory Commission. Uranium operations must conform to the terms of such license, which include provisions for protection of human health and the environment from endangerment due to radioactive materials. The license encompasses protective measures consistent with the Clean Air Act and the Clean Water Act. We intend to utilize specific employees and consultants in order to comply with and maintain our compliance with the above laws and regulations.

The uranium industry is subject not only to the worker health and safety and environmental risks associated with all mining businesses, but also to additional risks uniquely associated with uranium mining and processing. The possibility of more stringent regulations exists in the areas of worker health and safety, the disposition of wastes, the decommissioning and reclamation of exploration and in-situ recovery mining sites, and other environmental matters, each of which could have a material adverse effect on the costs or the viability of a particular project. We cannot predict what environmental legislation, regulation or policy will be enacted or adopted in the future or how future laws and regulations will be administered or interpreted. The recent trend in environmental legislation and regulation, generally, is toward stricter standards and this trend is likely to continue in the future. This recent trend includes, without limitation, laws and regulations relating to air and water quality, mine reclamation, waste handling and disposal, the protection of certain species and the preservation of certain lands. These regulations may require

Table of Contents

the acquisition of permits or other authorizations for certain activities. These laws and regulations may also limit or prohibit activities on certain lands. Compliance with more stringent laws and regulations, as well as potentially more vigorous enforcement policies or stricter interpretation of existing laws, may necessitate significant capital outlays, may materially affect our results of operations and business, or may cause material changes or delays in our intended activities.

Our operations may require additional analysis in the future including environmental and social impact and other related studies. Certain activities require the submission and approval of environmental impact assessments. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers, and employees. There can be no assurance that we will be able to obtain or maintain all necessary permits that may be required to continue operations or exploration of properties or, if feasible, to commence development, construction or operation of mining facilities at such properties at economically justifiable costs.

We intend to extract uranium from our properties using the in-situ recovery mining process which may not be successful.

We intend to extract uranium from our properties using in-situ recovery mining, which is suitable for extraction of certain types of uranium deposits. This process requires in-situ recovery mining equipment and trained personnel. Competition and unforeseen limited sources of supplies in the industry could result in occasional spot shortages of supplies, and certain equipment such as drilling rigs and other equipment that we might need to conduct exploration and, if warranted, development. We will attempt to locate additional products, equipment and materials as needed. If we cannot find the products and equipment we need, we will have to suspend our exploration and, if warranted, development plans until we do find the products and equipment we need.

We face risks related to exploration and development, if warranted, on our properties.

Our level of profitability, if any, in future years will depend to a great degree on uranium prices and whether any of our exploration stage properties can be brought into production. The exploration for and development of mineral deposits involves significant risks. It is impossible to ensure that the current and future exploration programs and/or feasibility studies on our existing properties will establish reserves. Whether a uranium ore body will be commercially viable depends on a number of factors, including, but not limited to: the particular attributes of the deposit, such as size, grade and proximity to infrastructure; uranium prices, which cannot be predicted and which have been highly volatile in the past; mining, processing and transportation costs; perceived levels of political risk and the willingness of lenders and investors to provide project financing; labor costs and possible labor strikes; and governmental regulations, including, without limitation, regulations relating to prices, taxes, royalties, land tenure, land use, importing and exporting materials, foreign exchange, environmental protection, employment, worker safety, transportation, and reclamation and closure obligations.

We are subject to the risks normally encountered in the mining industry, such as:

the discovery of unusual or unexpected geological formations;

accidental fires, floods, earthquakes, volcanic eruptions, and other natural disasters;

unplanned power outages and water shortages;

controlling water and other similar mining hazards;

operating labor disruptions and labor disputes;

the ability to obtain suitable or adequate machinery, equipment, or labor;

our liability for pollution or other hazards; and

other known and unknown risks involved in the conduct of exploration, the operation of mines and the market for uranium.

The development of mineral properties is affected by many factors, including, but not limited to: the cost of operations, variations in the grade of ore, fluctuations in metal markets, costs of extraction and processing equipment, availability of equipment and labor, labor costs and possible labor strikes, and government regulations, including without limitation, regulations relating to taxes, royalties, allowable production, importing and exporting of minerals, foreign exchange, employment, worker safety, transportation, and environmental protection. Depending on the price of uranium, we may determine that it is impractical to commence, or, if commenced, continue, commercial production. Such a decision would negatively affect our profits and may affect the value of your investment.

Table of Contents

Because we may be unable to meet property payment obligations or be able to acquire or maintain necessary mining licenses, we may lose interests in our exploration properties.

The agreements pursuant to which we acquired our interests in some of our properties provide that we must make a series of cash payments over certain time periods, expend certain minimum amounts on the exploration of the properties or contribute our share of ongoing expenditures. If we fail to make such payments or expenditures in a timely fashion, we may lose our interest in those properties. Further, even if we do complete exploration activities, we may not be able to obtain the necessary licenses to conduct mining operations on the properties, and thus would realize no benefit from our exploration activities on the properties.

Our mineral properties may be subject to defects in title.

We own, lease, or have under option, unpatented and patented mining claims, mineral claims or concessions and fee mineral leases which constitute our property holdings. The ownership and validity or title of unpatented mining claims and concessions are often uncertain and may be contested. We also may not have, or may not be able to obtain, all necessary surface rights to develop a property. We have not conducted title research in relation to many of our mining claims and concessions to ensure clean title. We cannot guarantee that title to our properties will not be challenged. Title insurance is generally not available for mineral properties and our ability to ensure that we have obtained secure claim to individual mineral properties or mining concessions may be severely constrained. Our mineral properties may be subject to prior unregistered agreements, transfers or claims, and title may be affected by, among other things, undetected defects. We may incur significant costs related to defending the title to our properties. A successful claim contesting our title to a property may cause us to compensate other persons or perhaps reduce our interest in the affected property or lose our rights to explore and, if warranted, develop that property. This could result in us not being compensated for our prior expenditures relating to the property. Also, in any such case, the investigation and resolution of title issues would divert our management's time from ongoing exploration and development programs.

Because we may be unable to secure access rights, we may be unable to explore and/or develop our properties.

Our mineral rights do not always include rights of access or use of the surface of lands. We require agreements with land owners for these rights which may be difficult to obtain and which may require cash payments.

Because mineral exploration and development activities are inherently risky, we may be exposed to environmental liabilities.

The business of mineral exploration and extraction involves a high degree of risk. Few properties that are explored are ultimately developed into production. At present, none of our properties has a known body of commercial ore. Unusual or unexpected formations, formation pressures, fires, power outages, labor disruptions, flooding, explosions and the inability to obtain suitable or adequate machinery, equipment or labor are other risks involved in extraction operations and the conduct of exploration programs. Although we intend to carry liability insurance with respect to our mineral exploration operations, we may become subject to liability for damage to life and property, environmental damage or hazards against which we cannot insure or against which we may elect not to insure. Previous mining operations may have caused environmental damage at certain of our properties. It may be difficult or impossible to assess the extent to which such damage was caused by us or by the activities of previous operators, in which case, any indemnities and exemptions from liability may be ineffective. If any of our properties is found to have commercial quantities of ore, we would be subject to additional risks respecting any development and production activities. Most exploration projects do not result in the discovery of commercially mineable deposits of ore.

Because we have not put a mineral deposit into production before, we may have to acquire outside expertise. If we are unable to acquire such expertise we may be unable to put our properties into production.

Our Board of Directors includes six individuals, two of whom are in operational management, that have technical or financial experience in placing mining projects into production. However, we may also be dependent upon using the services of appropriately experienced personnel or entering into agreements with other companies that can provide such expertise.

Table of Contents

Acquisitions and integration issues may expose us to additional risks which could have a material adverse effect on our business.

Our business strategy includes making targeted acquisitions. Any acquisition that we make may be of a significant size, may change the scale of our business and operations, and may expose us to new geographic, political, operating, financial and geological risks. The success of our acquisition activities depends on our ability to identify suitable acquisition candidates, negotiate acceptable terms for any such acquisition and integrate the acquired operations successfully with our own. Any acquisitions would be accompanied by risks which could have a material adverse effect on our business. For example, there may be significant decreases in commodity prices after we have committed to complete the transaction and have established the purchase price or exchange ratio; a material ore body may prove to be below expectations; we may have difficulty integrating and assimilating the operations and personnel of any acquired companies, realizing anticipated synergies and maximizing the financial and strategic position of the combined enterprise and maintaining uniform standards, policies and controls across the organization; the integration of the acquired business or assets may disrupt our ongoing business and our relationships with employees, customers, suppliers and contractors; and the acquired business or assets may have unknown liabilities which may be significant. If we choose to use equity securities as consideration for such an acquisition, existing stockholders may suffer dilution. Alternatively, we may choose to finance any such acquisition with our existing resources. There can be no assurance that we would be successful in overcoming these risks or any other problems encountered in connection with such acquisitions.

The mining industry is highly competitive.

The business of the acquisition, exploration, and development of uranium properties is intensely competitive. We will be required to compete, in the future, directly with other corporations that may have better access to potential uranium resources, more developed infrastructure, more available capital, and better access to necessary financing, and more knowledgeable and available employees than us. We may encounter competition in acquiring uranium properties, hiring mining professionals, obtaining mining resources, such as manpower, drill rigs, and other mining equipment. Such competitors could outbid us for potential projects or produce minerals at lower costs. Increased competition could also affect our ability to attract necessary capital funding or acquire suitable producing properties or prospects for uranium exploration in the future.

Risks Related to Corporate and Financial Structure

We are dependent upon key management employees.

The success of our operations will depend upon numerous factors, many of which are beyond our control, including (i) our ability to enter into strategic alliances through a combination of one or more joint ventures, mergers or acquisition transactions; and (ii) our ability to attract and retain additional key personnel in sales, marketing, technical support and finance. We currently depend upon our management employees to seek out and form strategic alliances and find and retain additional employees. There can be no assurance of success with any or all of these factors on which our operations will depend. We have relied and may continue to rely, upon consultants and others for operating expertise.

Our growth will require new personnel, which we will be required to recruit, hire, train and retain.

We expect significant growth in the number of our employees if we determine that a mine at any of our properties is commercially feasible, we are able to raise sufficient funding and we elect to develop the property. This growth will place substantial demands on us and our management. Our ability to assimilate new personnel will be critical to our performance. We will be required to recruit additional personnel and to train, motivate and manage employees. We will also have to adopt and implement new systems in all aspects of our operations. This will be particularly critical in the event we decide not to use contract miners at any of our properties. We have no assurance that we will be able to recruit the personnel required to execute our programs or to manage these changes successfully.

Table of Contents

Legislation, including the Sarbanes-Oxley Act of 2002, may make it difficult for us to retain or attract officers and directors.

We may be unable to attract and retain qualified officers, directors and members of board committees required to provide for our effective management as a result of the recent and currently proposed changes in the rules and regulations which govern publicly-held companies. Sarbanes-Oxley Act of 2002 has resulted in a series of rules and regulations by the Securities and Exchange Commission that increased responsibilities and liabilities of directors and executive officers. The increased personal risk associated with these changes may deter qualified individuals from accepting these roles.

Stock market price and volume volatility.

The market for our common stock may be highly volatile for reasons both related to the performance of the Company or events pertaining to the industry (i.e. mineral price fluctuation/high production costs/accidents) as well as factors unrelated to the Company or its industry. In particular, market demand for uranium fluctuates from one business cycle to the next, resulting in change of demand for the mineral and an attendant change in the price for the mineral. Our common stock can be expected to be subject to volatility in both price and volume arising from market expectations, announcements and press releases regarding our business, and changes in estimates and evaluations by securities analysts or other events or factors. In recent years, the securities markets in the United States have experienced a high level of price and volume volatility, and the market price of securities of many companies, particularly small-capitalization companies, have experienced wide fluctuations that have not necessarily been related to the operations, performances, underlying asset values, or prospects of such companies. For these reasons, the price of our common stock can also be expected to be subject to volatility resulting from purely market forces over which we will have no control.

Granting of options may negatively impact the value of our common shares.

Because the success of the Company is highly dependent upon its respective employees, we may in the future grant to some or all of our key employees, directors and consultants, options to purchase shares of our common stock as non-cash incentives. Those options may be granted at exercise prices equal to market prices at times when the public market is depressed. To the extent that significant numbers of such options may be granted and exercised, the interests of the other stockholders of the Company may be diluted.

The issuance of additional shares of common stock may negatively impact the trading price of our shares of common stock.

We have issued equity securities in the past and may continue to issue equity securities to finance our activities in the future, including to finance future acquisitions, or as consideration for acquisitions of businesses or assets. In addition, outstanding options and warrants to purchase shares of common stock may be exercised, resulting in the issuance of additional shares of common stock. The issuance by us of additional shares of common stock would result in dilution to our stockholders, and even the perception that such an issuance may occur could have a negative impact on the trading price of our shares of common stock.

The value of an investment in our shares of common stock could decline substantially.

The market price for shares of our common stock has been and can be expected to remain highly volatile. As a result, shareholders might experience an extreme variation in the value of their holdings. Trading prices of many exploration stage companies, including us, have experienced price and volume fluctuations which have, at times, been seemingly unrelated to the performance of the companies whose securities were affected.

We do not intend to pay dividends in the foreseeable future.

We have never paid a dividend to our shareholders, and we intend to retain our cash for the continued development of our business. We do not intend to pay cash dividends on our common stock in the foreseeable future. As a result, your return on investment will be solely determined by your ability to sell your shares in a secondary market.

Table of Contents

We depend on our ability to successfully access the capital and financial markets. Any inability to access the capital or financial markets may limit our ability to execute our business plan or pursue investments that we may rely on for future growth.

We rely on access to capital markets as a source of liquidity for capital and operating requirements. If we are not able to access financial markets at competitive rates, our ability to implement our business plan and strategy may be affected. Certain market disruptions may increase our cost of borrowing or affect our ability to access one or more financial markets. Such market disruptions could result from:

adverse economic conditions;

adverse general capital market conditions;

poor performance and health of the uranium industry in general;

bankruptcy or financial distress of unrelated uranium companies or marketers;

significant decrease in the demand for uranium;

adverse regulatory actions that affect our exploration and development plans; and

terrorist attacks on our potential customers.

Recent market events and conditions, including disruptions in the U.S. and international credit markets and other financial systems and the deterioration of the U.S. and global economic conditions, could, among other things, impede access to capital or increase the cost of capital, which would have an adverse effect on our ability to fund our working capital and other capital requirements.

Beginning in late 2007, the U.S. credit markets began to experience serious disruption due to a deterioration in residential property values, defaults and delinquencies in the residential mortgage market (particularly, subprime and non-prime mortgages) and a decline in the credit quality of mortgage backed securities. These problems led to a slow-down in residential housing market transactions, declining housing prices, delinquencies in non-mortgage consumer credit and a general decline in consumer confidence. These negative conditions peaked in 2008, causing a loss of confidence in the broader U.S. and global credit and financial markets and resulting in the collapse of, and government intervention in, major banks, financial institutions and insurers and creating a climate of greater volatility, less liquidity, widening of credit spreads, a lack of price transparency, increased credit losses and tighter credit conditions. Various actions by the U.S. and foreign governments are targeting general conditions of the capital markets, financial instruments, banks, investment banks, insurers and other financial institutions to stabilize and improve the broader credit and stock markets. The general economic indicators, including low consumer sentiment, high unemployment and low economic growth indicate continued economic uncertainty.

These unprecedented disruptions in the current credit and financial markets have had a significant material adverse impact on a number of financial institutions and have limited access to capital and credit for many companies. These disruptions could, among other things, make it more difficult for us to obtain, or increase our cost of obtaining, capital and financing for our operations. Our access to additional capital may not be available on terms acceptable to us or at all.

RECENT DEVELOPMENTS

Filing of Canadian Prospectus

On August 25, 2011, we filed a prospectus pursuant to the multi-jurisdictional disclosure system between the United States and Canada with the securities regulatory authorities in the Provinces of British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, New Brunswick, Nova Scotia, Newfoundland and Prince Edward Island, which upon final receipt, will permit us to offer and sell the Securities for gross proceeds of up to \$100,000,000. The Securities that may be sold in the provinces and territories of Canada named above, together with the Securities to be sold in the United States pursuant to this Prospectus, will not exceed \$100,000,000.

USE OF PROCEEDS

Unless otherwise indicated in the applicable Prospectus Supplement, the net proceeds from the sale of Securities will be used by us for acquisitions, exploration and development of existing or acquired mineral properties, working capital requirements, to repay indebtedness outstanding from time to time or for other general corporate purposes. We may, from time to time, issue Common Shares or other securities otherwise than through the offering of Securities pursuant to this Prospectus.

RATIO OF EARNINGS TO FIXED CHARGES

We did not have any fixed charges during the five fiscal years ending December 31, 2010. Accordingly, we have no ratio of earnings to fixed charges to illustrate for such periods.

We have computed the ratio of earnings to fixed charges by dividing earnings by fixed charges. For this purpose, earnings consist of income/(loss) from operations before income tax, minority interest adjustments and changes in accounting principles and fixed charges, and fixed charges consist of the interest portion of rental expense and interest incurred.

DESCRIPTION OF COMMON SHARES

Common Shares

We are authorized to issue 750,000,000 shares of common stock of the Company of which, as of October 3, 2011, 76,993,074 are issued and outstanding. The shares of common stock are entitled to one vote per share on all matters submitted to a vote of the stockholders, including the election of directors. Except as otherwise required by law the holders of shares of common stock will possess all voting power. Generally, all matters to be voted on by stockholders must be approved by a majority (or, in the case of election of directors, by a plurality) of the votes entitled to be cast by all shares of common stock that are present in person or represented by proxy. Holders of shares of common stock representing 33 1/3% of our capital stock issued, outstanding and entitled to vote, represented in person or by proxy, are necessary to constitute a quorum at any meeting of our stockholders. A vote by the holders of a majority of the outstanding shares of common stock is required to effectuate certain fundamental corporate changes such as liquidation, merger or an amendment to our Articles of Incorporation. Our Articles of Incorporation do not provide for cumulative voting in the election of directors.

The holders of shares of common stock will be entitled to such cash dividends as may be declared from time to time by our board of directors from funds available therefor.

Upon liquidation, dissolution or winding up, the holders of shares of common stock will be entitled to receive pro rata all assets available for distribution to such holders.

In the event of any merger or consolidation with or into another company in connection with which shares of common stock are converted into or exchangeable for shares of stock, other securities or property (including cash), all holders of shares of common stock will be entitled to receive the same kind and amount of shares of stock and other securities and property (including cash).

Holders of shares of common stock have no pre-emptive rights or conversion rights and there are no redemption provisions applicable to our common stock.

Preferred Stock

We are authorized to issue up to 10,000,000 of preferred stock of which, as of October 3, 2011, none was issued and outstanding. The preferred stock may be divided into and issued in series. Our Board of Directors is authorized to divide the authorized shares of preferred stock into one or more series, each of which shall be so designated as to distinguish the shares thereof from the shares of all other series and classes. Our Board of Directors is authorized, within the limitations prescribed by law and its Articles of Incorporation, to fix and determine the designations, rights, qualifications, preferences, limitations and terms of the shares of any series of preferred stock.

We refer you to our Articles of Incorporation, Bylaws and the applicable statutes of the State of Nevada for a more complete description of the rights and liabilities of holders of our securities.

Cash dividends

As of the date of this Prospectus, we have not paid any cash dividends to stockholders. The declaration of any future cash dividend will be at the discretion of our board of directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions. It is our present intention not to pay any cash dividends in the foreseeable future, but rather to reinvest earnings, if any, in our exploration activities.

Warrants

As of October 3, 2011, we have issued and do have outstanding 2,000,000 warrants to purchase our shares of common stock exercisable at \$3.00 until June 30, 2014.

DESCRIPTION OF DEBT SECURITIES

We may issue Debt Securities in one or more series under an indenture (the "Indenture"), to be entered into among us, Computershare Trust Company of Canada as Canadian trustee, and Computershare Trust Company, N.A., as U.S. trustee. The Indenture will be subject to and governed by the United States Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"). A copy of the form of the Indenture will be filed with the SEC as an exhibit to the registration statement of which this Prospectus forms a part and will be filed on SEDAR. The following description sets forth certain general terms and provisions of the Debt Securities and is not intended to be complete. For a more complete description, prospective investors should refer to the Indenture and the terms of the Debt Securities. If Debt Securities are issued, we will describe in the applicable Prospectus Supplement the particular terms and provisions of any series of the Debt Securities and a description of how the general terms and provisions described below may apply to that series of the Debt Securities. Prospective investors should rely on information in the applicable Prospectus Supplement and not on the following information to the extent that the information in such Prospectus Supplement is different from the following information. We will file as exhibits to the registration statement of which this Prospectus is a part, or will incorporate by reference from a current report on Form 8-K that we file with the SEC, any supplemental indenture describing the terms and conditions of Debt Securities we are offering before the issuance of such Debt Securities.

We may issue debt securities and incur additional indebtedness other than through the offering of Debt Securities pursuant to this Prospectus.

General

The Indenture will not limit the aggregate principal amount of Debt Securities that the Company may issue under the Indenture and will not limit the amount of other indebtedness that we may incur. The Indenture will provide that we may issue Debt Securities from time to time in one or more series and may be denominated and payable in U.S. dollars, Canadian dollars or any foreign currency. Unless otherwise indicated in the applicable Prospectus Supplement, the Debt Securities will be unsecured obligations of the Company. The Indenture will also permit us to increase the principal amount of any series of the Debt Securities previously issued and to issue that increased principal amount.

The applicable Prospectus Supplement for any series of Debt Securities that we offer will describe the specific terms of the Debt Securities and may include, but is not limited to, any of the following:

the title of the Debt Securities;

Table of Contents

the aggregate principal amount of the Debt Securities;

the percentage of principal amount at which the Debt Securities will be issued;

the date or dates, or the methods by which such dates will be determined or extended, on which we may issue the Debt Securities and the date or dates, or the methods by which such dates will be determined or extended, on which we will pay the principal and any premium on the Debt Securities and the portion (if less than the principal amount) of Debt Securities to be payable upon a declaration of acceleration of maturity;

whether the Debt Securities will bear interest, the interest rate (whether fixed or variable) or the method of determining the interest rate, the date from which interest will accrue, the dates on which we will pay interest and the record dates for interest payments, or the methods by which such dates will be determined or extended;

the place or places we will pay principal, premium, if any, and interest and the place or places where Debt Securities can be presented for registration of transfer or exchange;

whether and under what circumstances we will be required to pay any additional amounts for withholding or deduction for Canadian taxes with respect to the Debt Securities, and whether and on what terms we will have the option to redeem the Debt Securities rather than pay the additional amounts;

whether we will be obligated to redeem or repurchase the Debt Securities pursuant to any sinking or purchase fund or other provisions, or at the option of a holder and the terms and conditions of such redemption;

whether we may redeem the Debt Securities prior to maturity and the terms and conditions of any such redemption;

the denominations in which we will issue any registered Debt Securities, if other than denominations of \$1,000 and any multiple of \$1,000 and, if other than denominations of \$5,000, the denominations in which any unregistered debt security shall be issuable;

provisions as to modification, amendment or variation of any rights or terms attaching to the Debt Securities; and

any other terms, conditions, rights and preferences (or limitations on such rights and preferences) including covenants and events of default which apply solely to a particular series of the Debt Securities being offered which do not apply generally to other Debt Securities, or any covenants or events of default generally applicable to the Debt Securities which do not apply to a particular series of the Debt Securities.

Unless stated otherwise in the applicable Prospectus Supplement, no holder of Debt Securities will have the right to require us to repurchase the Debt Securities and there will be no increase in the interest rate if we become involved in a highly leveraged transaction or we have a change of control.

We may issue Debt Securities bearing no interest or interest at a rate below the prevailing market rate at the time of issuance, and offer and sell the Debt Securities at a discount below their stated principal amount. We may also sell any of the Debt Securities for a foreign currency or currency unit, and payments on the Debt Securities may be payable in a foreign currency or currency unit. In any of these cases, we will describe certain Canadian federal and U.S. federal income tax consequences and other special considerations in the applicable Prospectus Supplement.

We may issue Debt Securities with terms different from those of Debt Securities previously issued and, without the consent of the holders thereof, we may reopen a previous issue of a series of Debt Securities and issue additional Debt Securities of such series (unless the reopening was restricted when such series was created).

Ranking and Other Indebtedness

Unless otherwise indicated in an applicable Prospectus Supplement, the Debt Securities will be unsecured obligations and will rank equally with all of our other unsecured and other subordinated debt from time to time outstanding and equally with other Debt Securities issued under the Indenture. The Indenture will provide that the Debt Securities will be subordinated to and junior in right of payment to all present and future Senior Indebtedness. Senior Indebtedness will be defined in the Indenture as: (a) all our indebtedness in respect of borrowed money, other than: (i) indebtedness evidenced by the Debt Securities; and (ii) indebtedness which, by the terms of the instrument creating or evidencing it, is expressed to rank in right of payment equally with or subordinate to the indebtedness evidenced by the Debt Securities; (b) all our obligations for the reimbursement of amounts paid pursuant to any letter of credit, banker's acceptance or similar credit transaction; and (c) all obligations of the type referred to in paragraphs (a) through (b) above of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise. For greater certainty, Senior Indebtedness will include all our indebtedness for borrowed money which is outstanding as at the date of the Indenture.

Our Board of Directors may establish the extent and manner, if any, to which payment on or in respect of a series of Debt Securities will be senior or will be subordinated to the prior payment of our other liabilities and obligations, other than Senior Indebtedness, and whether the payment of principal, premium, if any, and interest, if any, will be guaranteed by any other person and the nature and priority of any security.

Debt Securities in Global Form

The Depositary and Book-Entry

Unless otherwise specified in the applicable Prospectus Supplement, a series of the Debt Securities may be issued in whole or in part in global form as a global security and will be registered in the name of or issued in bearer form and be deposited with a depositary, or its nominee, each of which will be identified in the applicable Prospectus Supplement relating to that series. Unless and until exchanged, in whole or in part, for the Debt Securities in definitive registered form, a global security may not be transferred except as a whole by the depositary for such global security to a nominee of the depositary, by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any such nominee to a successor of the depositary or a nominee of the successor.

The specific terms of the depositary arrangement with respect to any portion of a particular series of the Debt Securities to be represented by a global security will be described in the applicable Prospectus Supplement relating to such series. We anticipate that the provisions described in this section will apply to all depositary arrangements.

Table of Contents

Upon the issuance of a global security, the depository therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of the Debt Securities represented by the global security to the accounts of such persons, designated as participants, having accounts with such depository or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of the Debt Securities or by us if such Debt Securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depository therefor or its nominee (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). The laws of some states in the United States may require that certain purchasers of securities take physical delivery of such securities in definitive form.

So long as the depository for a global security or its nominee is the registered owner of the global security or holder of a global security in bearer form, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by the global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have a series of the Debt Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of such series of the Debt Securities in definitive form and will not be considered the owners or holders thereof under the Indenture.

Any payments of principal, premium, if any, and interest, if any, on global securities registered in the name of a depository or securities registrar will be made to the depository or its nominee, as the case may be, as the registered owner of the global security representing such Debt Securities. None of the Company, any trustee or any paying agent for the Debt Securities represented by the global securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depository for a global security or its nominee, upon receipt of any payment of principal, premium, if any, or interest, if any, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depository or its nominee. We also expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in street name, and will be the responsibility of such participants.

Discontinuance of Depository's Services

If a depository for a global security representing a particular series of the Debt Securities is at any time unwilling or unable to continue as depository or, if at any time the depository for such series shall no longer be registered or in good standing under the Exchange Act, and a successor depository is not appointed by us within 90 days, we will issue such series of the Debt Securities in definitive form in exchange for a global security representing such series of the Debt Securities. If an event of default under the Indenture has occurred and is continuing, Debt Securities in definitive form will be printed and delivered upon written request by the holder to the appropriate trustee. In addition, we may at any time and in our sole discretion determine not to have a series of the Debt Securities represented by a global security and, in such event, will issue a series of the Debt Securities in definitive form in exchange for all of the global securities representing that series of Debt Securities.

Debt Securities in Definitive Form

A series of the Debt Securities may be issued in definitive form, solely as registered securities, solely as unregistered securities or as both registered securities and unregistered securities. Registered securities will be issuable in denominations of \$1,000 and integral multiples of \$1,000 and unregistered securities will be issuable in denominations of \$5,000 and integral multiples of \$5,000 or, in each case, in such other denominations as may be set out in the terms of the Debt Securities of any particular series. Unless otherwise indicated in the applicable Prospectus Supplement, unregistered securities will have interest coupons attached.

Unless otherwise indicated in the applicable Prospectus Supplement, payment of principal, premium, if any, and interest, if any, on the Debt Securities (other than global securities) will be made at the office or agency designated by us, or at our option we can pay principal, interest, if any, and premium, if any, by cheque mailed or delivered to the address of the person entitled at the address appearing in the security register of the trustee or electronic funds wire or other transmission to an account of persons who meet certain thresholds set out in the Indenture who are entitled to receive payments by wire transfer. Unless otherwise indicated in the applicable Prospectus Supplement, payment of interest, if any, will be made to the persons in whose name the Debt Securities are registered at the close of business on the day or days specified by us.

Table of Contents

At the option of the holder of Debt Securities, registered securities of any series will be exchangeable for other registered securities of the same series, of any authorized denomination and of a like aggregate principal amount. If, but only if, provided in an applicable Prospectus Supplement, unregistered securities (with all unmatured coupons, except as provided below, and all matured coupons in default) of any series may be exchanged for registered securities of the same series, of any authorized denominations and of a like aggregate principal amount and tenor. In such event, unregistered securities surrendered in a permitted exchange for registered securities between a regular record date or a special record date and the relevant date for payment of interest shall be surrendered without the coupon relating to such date for payment of interest, and interest will not be payable on such date for payment of interest in respect of the registered security issued in exchange for such unregistered security, but will be payable only to the holder of such coupon when due in accordance with the terms of the Indenture. Unless otherwise specified in an applicable Prospectus Supplement, unregistered securities will not be issued in exchange for registered securities.

The applicable Prospectus Supplement may indicate the places to register a transfer of the Debt Securities in definitive form. Service charges may be payable by the holder for any registration of transfer or exchange of the Debt Securities in definitive form, and the Company may, in certain instances, require a sum sufficient to cover any tax or other governmental charges payable in connection with these transactions.

We shall not be required to:

issue, register the transfer of or exchange any series of the Debt Securities in definitive form during a period beginning at the opening of 15 business days before any selection of securities of that series of the Debt Securities to be redeemed and ending on the relevant date of notice of such redemption, as provided in the Indenture;

register the transfer of or exchange any registered security in definitive form, or portion thereof, called for redemption, except the unredeemed portion of any registered security being redeemed in part;

exchange any unregistered security called for redemption except to the extent that such unregistered security may be exchanged for a registered security of that series and like tenor; provided that such registered security will be simultaneously surrendered for redemption with written instructions for payment consistent with the provisions of the Indenture; or

issue, register the transfer of or exchange any of the Debt Securities in definitive form which have been surrendered for repayment at the option of the holder, except the portion, if any, of such Debt Securities not to be so repaid.

Merger, Amalgamation or Consolidation

The Indenture will provide that we may not amalgamate or consolidate with, merge into or enter into any statutory arrangement with any other person or, directly or indirectly, convey, transfer or lease all or substantially all of our properties and assets to another person, unless among other items:

the resulting, surviving or transferee person is organized and existing under the laws of Canada, or any province or territory thereof, the United States, any state thereof or the District of Columbia, or, if the amalgamation, merger, consolidation, statutory arrangement or other transaction would not impair the rights of holders, in any other country;

the resulting, surviving or transferee person, if other than the Company, assumes all of our obligations under the Debt Securities and the Indenture; and

immediately after the transaction, no default or event of default under the Indenture shall have happened and be continuing.

When such a successor person assumes our obligations in such circumstances, subject to certain exceptions, we shall be discharged from all obligations and covenants under the Debt Securities and the Indenture.

Additional Amounts

Unless otherwise specified in the applicable Prospectus Supplement, all payments made by or on our behalf under or with respect to the Debt Securities issued in Canada of any series will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other government charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or of any province or territory thereof or by any authority or agency therein or thereof having power to tax (Canadian Taxes), unless we are required to withhold or deduct Canadian Taxes by law or by the interpretation or administration thereof by the relevant government authority or agency.

If we are so required to withhold or deduct any amount for or on account of Canadian Taxes from any payment made under or with respect to the Debt Securities issued in Canada, we will pay, unless otherwise specified, as additional interest such additional amounts, (the Additional Amounts), as may be necessary so that the net amount received by a holder of the Debt Securities issued in Canada after such withholding or deduction will not be less than the amount such holder of the Debt Securities issued in Canada would have received if such Canadian Taxes had not been withheld or deducted (a similar payment will also be made to holders of the Debt Securities issued in Canada, other than excluded holders (as defined herein), that are exempt from withholding but required to pay tax under Part XIII of the *Income Tax Act* (Canada) (the Tax Act), directly on amounts otherwise subject to withholding); provided, however, that no additional amounts will be payable with respect to a payment made to a holder (an excluded holder) if the Holder of the Debt Securities issued in Canada or the beneficial owner of some or all of the payment to the Holder:

does not deal at arm's length with the Company (for purposes of the Tax Act) at the time of the making of such payment;

is subject to such Canadian Taxes by reason of the Debt Securities holder's failure to comply with any certification, identification, information, documentation or other reporting requirement if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian Taxes;

is subject to such Canadian Taxes by reason of the Debt Securities holder being a resident, domicile or national of, or engaged in business or maintaining a permanent establishment or other physical presence in or otherwise having some connection with Canada or any province or territory thereof otherwise than by the mere holding of the Debt Securities or the receipt of payments thereunder; or

is subject to such Canadian Taxes because it is not entitled to the benefit of an otherwise applicable tax treaty by reason of the legal nature of such holder of the Debt Securities.

We will make such withholding or deduction and remit the full amount deducted or withheld to the relevant authority as and when required in accordance with applicable law. We will pay all taxes, interest and other liabilities which arise by virtue of any failure of the Company to withhold, deduct and remit to the relevant authority on a timely basis the full amounts required in accordance with applicable law. We will furnish to the holder of the Debt Securities issued in Canada, within 60 days after the date the payment of any Canadian Taxes is due pursuant to applicable law, certified copies of tax receipts evidencing such payment by us.

The foregoing obligations shall survive any termination, defeasance or discharge of the Indenture.

Tax Redemption

If and to the extent specified in the applicable Prospectus Supplement, the Debt Securities issued in Canada of a series will be subject to redemption at any time, in whole but not in part, at a redemption price equal to the principal amount thereof together with accrued and unpaid interest to the date fixed for redemption, upon the giving of a notice, if (1) we determine that (a) as a result of any change in or amendment to the laws (or any regulations or rulings promulgated thereunder) of Canada or of any political subdivision or taxing authority thereof or therein affecting taxation, or any change in position regarding application or interpretation of such laws, regulations or rulings (including a holding by a court of competent jurisdiction), which change or amendment is announced or becomes effective on or after a date specified in the applicable Prospectus Supplement if any date is so specified, we have or will become obligated to pay, on the next succeeding date on which interest is due,

court of competent jurisdiction in, Canada or any political subdivision or taxing authority thereof or therein, including any of those actions specified in (a) above, whether or not such action was taken or decision was rendered with respect to us, or any change, amendment, application or interpretation shall be proposed, which, in any such case, in the opinion of our counsel, will result in us becoming obligated to pay, on the next succeeding date on which interest is due, Additional Amounts with respect to any Debt Security issued in Canada of such series and (2) in any such case, we, in our business judgment, determine that such obligation cannot be avoided by the use of reasonable measures available to it; provided however, that (i) no such notice of redemption may be given earlier than 90 days prior to the earliest date on which we would be obligated to pay such Additional Amounts were a payment in respect of the Debt Securities issued in Canada then due, and (ii) at the time such notice of redemption is given, such obligation to pay such Additional Amounts remains in effect.

In the event that we elect to redeem the Debt Securities issued in Canada of such series pursuant to the provisions set forth in the preceding paragraph, we shall deliver to the trustees a certificate, signed by an authorized officer, stating that we are entitled to redeem the Debt Securities issued in Canada of such series pursuant to their terms.

Provision of Financial Information

We will file with the trustees, within 20 days after it files or furnishes them with the SEC, copies of our annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may by rules and regulations prescribe) which we are required to file or furnish with the SEC pursuant to Section 13 or 15(d) of the Exchange Act.

Notwithstanding that we may not remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, we will continue to provide the trustees:

within 20 days after the time periods required for the filing or furnishing of such forms by the SEC, annual reports on Form 10-K or any successor form, quarterly reports on Form 10-Q or any successor form and current reports of Form 8-K or any successor form.

Events of Default

Unless otherwise specified in the applicable Prospectus Supplement relating to a particular series of Debt Securities, the following is a summary of events which will, with respect to any series of the Debt Securities, constitute an event of default under the Indenture with respect to the Debt Securities of that series:

we fail to pay principal of, or any premium on, or any Additional Amounts in respect of, any Debt Security of that series when it is due and payable;

we fail to pay interest (including Additional Amounts) payable on any Debt Security of that series when it becomes due and payable, and such default continues for 30 days;

we fail to make any required sinking fund or analogous payment for that series of Debt Securities;

we fail to observe or perform any of its covenants or agreements in the Indenture that affect or are applicable to the Debt Securities of that series for 90 days after written notice to us by the trustees or to the Company and the trustees by holders of at least 25% in aggregate principal amount of the outstanding Debt Securities of that series;

a default (as defined in any indenture or instrument under which we or one of our subsidiaries has at the date of the Indenture or will thereafter have outstanding any indebtedness) has occurred and is continuing, or we or any of our subsidiaries has failed to pay principal amounts with respect to such indebtedness at maturity and such event of default or failure to pay has resulted in such

indebtedness under such indenture or instrument being declared due, payable or otherwise being accelerated, in either event so that an amount in excess of the greater of \$15,000,000 and 2% of our shareholders' equity will be or become due, payable and accelerated upon such declaration or prior to the date on which the same would otherwise have become due, payable and accelerated (the Accelerated Indebtedness), and such acceleration will not be rescinded or annulled, or such event of default or failure to pay under such indenture or instrument will not be remedied or cured, whether by payment or otherwise, or waived by the holders of such Accelerated Indebtedness, then (i) if the Accelerated Indebtedness will be as a result of an event of default which is not

related to the failure to pay principal or interest on the terms, at the times, and on the conditions set out in any such indenture or instrument, it will not be considered an event of default for the purposes of the indenture governing the Debt Securities until 30 days after such indebtedness has been accelerated, or (ii) if the Accelerated Indebtedness will occur as a result of such failure to pay principal or interest or as a result of an event of default which is related to the failure to pay principal or interest on the terms, at the times, and on the conditions set out in any such indenture or instrument, then (A) if such Accelerated Indebtedness is, by its terms, non-recourse to us or our subsidiaries, it will be considered an event of default for purposes of the Indenture governing the Debt Securities; or (B) if such Accelerated Indebtedness is recourse to us or our subsidiaries, any requirement in connection with such failure to pay or event of default for the giving of notice or the lapse of time or the happening of any further condition, event or act under such indenture or instrument in connection with such failure to pay or event of default will be applicable together with an additional seven days before being considered an event of default for the purposes of the Indenture;

certain events involving our bankruptcy, insolvency or reorganization; and

any other event of default provided for in that series of Debt Securities.

A default under one series of Debt Securities will not necessarily be a default under another series. A trustee may withhold notice to the holders of the Debt Securities of any default, except in the payment of principal or premium, if any, or interest, if any, if in good faith it considers it in the interests of the holders to do so and so advises us in writing.

If an event of default (except for events involving the Company's bankruptcy, insolvency or reorganization) for any series of Debt Securities occurs and continues, a trustee or the holders of at least 25% in aggregate principal amount of the Debt Securities of that series may require us to repay immediately:

the entire principal and interest of the Debt Securities of the series; or

if the Debt Securities are discounted securities, that portion of the principal as is described in the applicable Prospectus Supplement. If an event of default relates to events involving our bankruptcy, insolvency or reorganization, the principal of all Debt Securities will become immediately due and payable without any action by the trustee or any holder.

Subject to certain conditions, the holders of a majority of the aggregate principal amount of the Debt Securities of the affected series can rescind and annul an accelerated payment requirement. If Debt Securities are discounted securities, the applicable Prospectus Supplement will contain provisions relating to the acceleration of maturity of a portion of the principal amount of the discounted securities upon the occurrence or continuance of an event of default.

Other than its duties in case of a default, a trustee is not obligated to exercise any of the rights or powers that it will have under the Indenture at the request or direction of any holders, unless the holders offer the trustee reasonable security or indemnity. If they provide this reasonable security or indemnity, the holders of a majority in aggregate principal amount of any series of Debt Securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding for any remedy available to a trustee, or exercising any trust or power conferred upon a trustee, for any series of Debt Securities.

We will be required to furnish to the trustees a statement annually as to its compliance with all conditions and covenants under the Indenture and, if we are not in compliance, we must specify any defaults. We will also be required to notify the trustees as soon as practicable upon becoming aware of any event of default.

No holder of a Debt Security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a trustee, or for any other remedy, unless:

the holder has previously given to the trustees written notice of a continuing event of default with respect to the Debt Securities of the affected series;

Table of Contents

the holders of at least 25% in principal amount of the outstanding Debt Securities of the series affected by an event of default have made a written request, and the holders have offered reasonable indemnity, to the trustees to institute a proceeding as trustees; and

the trustees have failed to institute a proceeding, and have not received from the holders of a majority in aggregate principal amount of the outstanding Debt Securities of the series affected by an event of default a direction inconsistent with the request, within 60 days after receipt of the holders' notice, request and offer of indemnity.

However, such above-mentioned limitations do not apply to a suit instituted by the holder of a Debt Security for the enforcement of payment of the principal of or any premium, if any, or interest on such Debt Security on or after the applicable due date specified in such Debt Security.

Defeasance

When we use the term "defeasance", it means discharge from its obligations with respect to any Debt Securities of or within a series under the Indenture. Unless otherwise specified in the applicable Prospectus Supplement, if we deposit with a trustee cash, government securities or a combination thereof sufficient to pay the principal, interest, if any, premium, if any, and any other sums due to the stated maturity date or a redemption date of the Debt Securities of a series, then at our option:

we will be discharged from the obligations with respect to the Debt Securities of that series; or

we will no longer be under any obligation to comply with certain restrictive covenants under the Indenture and certain events of default will no longer apply to us.

If this happens, the holders of the Debt Securities of the affected series will not be entitled to the benefits of the Indenture except for registration of transfer and exchange of Debt Securities and the replacement of lost, stolen, destroyed or mutilated Debt Securities. These holders may look only to the deposited fund for payment on their Debt Securities.

To exercise the defeasance option, we must deliver to the trustees:

an opinion of counsel in the United States to the effect that the holders of the outstanding Debt Securities of the affected series will not recognize gain or loss for U.S. federal income tax purposes as a result of a defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred;

an opinion of counsel in Canada or a ruling from the Canada Revenue Agency to the effect that the holders of the outstanding Debt Securities of the affected series will not recognize income, gain or loss for Canadian federal, provincial or territorial income or other tax purposes as a result of a defeasance and will be subject to Canadian federal, provincial or territorial income tax and other tax on the same amounts, in the same manner and at the same times as would have been the case had the defeasance not occurred; and

a certificate of one of our officers and an opinion of counsel, each stating that all conditions precedent provided for relating to defeasance have been complied with.

If we are to be discharged from its obligations with respect to the Debt Securities, and not just from our covenants, the U.S. opinion must be based upon a ruling from or published by the United States Internal Revenue Service or a change in law to that effect.

In addition to the delivery of the opinions described above, the following conditions must be met before we may exercise its defeasance option:

no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred and be continuing for the Debt Securities of the affected series;

we are not an insolvent person within the meaning of applicable bankruptcy and insolvency legislation; and

other customary conditions precedent are satisfied.

Modification and Waiver

Modifications and amendments of the Indenture may be made by us and the trustees pursuant to one or more Supplemental Indentures (a Supplemental Indenture) with the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of each series affected by the modification. However, without the consent of each holder affected, no such modification may:

change the stated maturity of the principal of, premium, if any, or any installment of interest, if any, on any Debt Security;

reduce the principal, premium, if any, or rate of interest, if any, or change any obligation of the Company to pay any Additional Amounts;

reduce the amount of principal of a debt security payable upon acceleration of its maturity or the amount provable in bankruptcy;

change the place or currency of any payment;

affect the holder's right to require us to repurchase the Debt Securities at the holder's option;

impair the right of the holders to institute a suit to enforce their rights to payment;

adversely affect any conversion or exchange right related to a series of Debt Securities;

reduce the percentage of Debt Securities required to modify the Indenture or to waive compliance with certain provisions of the Indenture; or

reduce the percentage in principal amount of outstanding Debt Securities necessary to take certain actions.

The holders of a majority in principal amount of outstanding Debt Securities of any series may on behalf of the holders of all Debt Securities of that series waive, insofar as only that series is concerned, past defaults under the Indenture and compliance by us with certain restrictive provisions of the Indenture. However, these holders may not waive a default in any payment of principal, premium, if any, or interest on any Debt Security or compliance with a provision that cannot be modified without the consent of each holder affected.

We may modify the Indenture pursuant to a Supplemental Indenture without the consent of any holders to:

evidence its successor under the Indenture;

add covenants or surrender any right or power for the benefit of holders;

add events of default;

provide for unregistered securities to become registered securities under the Indenture and make other such changes to unregistered securities that in each case do not materially and adversely affect the interests of holders of outstanding Debt Securities;

establish the forms of the Debt Securities;

appoint a successor trustee under the Indenture;

add provisions to permit or facilitate the defeasance and discharge of the Debt Securities as long as there is no material adverse effect on the holders;

Table of Contents

cure any ambiguity, correct or supplement any defective or inconsistent provision or make any other provisions in each case that would not materially and adversely affect the interests of holders of outstanding Debt Securities, if any;

comply with any applicable laws of the United States and Canada in order to effect and maintain the qualification of the Indenture under such laws to the extent they do not conflict with the applicable laws of the United States; or

change or eliminate any provisions of the Indenture where such change takes effect when there are no Debt Securities outstanding under the Indenture.

Governing Law

The Indenture and the Debt Securities will be governed by and construed in accordance with the laws of the State of New York, except that discharge by the Canadian trustee of any of its rights, powers, duties or responsibilities hereunder shall be construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable thereto.

The Trustees

Any trustee under the Indenture or its affiliates may provide other services to us in the ordinary course of their business. If the trustee or any affiliate acquires any conflicting interest and a default occurs with respect to the Debt Securities, the trustee must eliminate the conflict or resign.

Resignation and Removal of Trustee

A trustee may resign or be removed with respect to one or more series of the Debt Securities and a successor trustee may be appointed to act with respect to such series.

Consent to Service

In connection with the Indenture, we will irrevocably designate and appoint CT Corporation System, 111 8th Avenue, 13th Floor, New York, New York 10011, as our authorized agent upon which process may be served in any suit or proceeding arising out of or relating to the Indenture or the Debt Securities that may be instituted in any U.S. federal or New York State court located in The Borough of Manhattan, in the City of New York, or brought by the trustees (whether in their individual capacity or in their capacity as trustees under the Indenture), and will irrevocably submit to the non-exclusive jurisdiction of such courts.

Enforceability of Judgments

Because all or substantially all of our assets, as well as the assets of certain of our directors, are within the United States, any judgment obtained in Canada against the Company or certain of its directors, including judgments with respect to the payment of principal on the Debt Securities, may not be collectible within Canada.

We have been advised that there is doubt as to the enforceability in the United States, by a court in original actions or actions to enforce judgments of Canadian courts, of civil liabilities predicated solely upon Canadian federal or provincial securities laws.

We will file as exhibits to the registration statement of which this Prospectus is a part, or will incorporate by reference from a current report on Form 8-K that we file with the SEC, any Warrant Indenture describing the terms and conditions of Warrants we are offering before the issuance of such Warrants.

Rights of Holders Prior to Exercise

Prior to the exercise of their Warrants, holders of Warrants will not have any of the rights of holders of the Common Shares or Debt Securities issuable upon exercise of the Warrants.

Exercise of Warrants

Each Warrant will entitle the holder to purchase the Securities that we specify in the applicable Prospectus Supplement at the exercise price that we describe therein. Unless we otherwise specify in the applicable Prospectus Supplement, holders of the Warrants may exercise the Warrants at any time up to the specified time on the expiration date that we set forth in the applicable Prospectus Supplement. After the close of business on the expiration date, unexercised Warrants will become void.

Holders of the Warrants may exercise the Warrants by delivering the Warrant Certificate representing the Warrants to be exercised together with specified information, and paying the required amount to the Warrant Trustee in immediately available funds, as provided in the applicable Prospectus Supplement. We will set forth on the Warrant Certificate and in the applicable Prospectus Supplement the information that the holder of the Warrant will be required to deliver to the Warrant Trustee.

Upon receipt of the required payment and the Warrant Certificate properly completed and duly executed at the corporate trust office of the Warrant Trustee or any other office indicated in the applicable Prospectus Supplement, we will issue and deliver the securities purchasable upon

such exercise. If fewer than all of the Warrants represented by the Warrant Certificate are exercised, then we will issue a new Warrant Certificate for the remaining amount of Warrants. If we so indicate in the applicable Prospectus Supplement, holders of the Warrants may surrender securities as all or part of the exercise price for Warrants.

Anti-Dilution

The Warrant Indenture will specify that upon the subdivision, consolidation, reclassification or other material change of the Common Shares or Debt Securities or any other reorganization, amalgamation, merger or sale of all or substantially all of our assets, the Warrants will thereafter evidence the right of the holder to receive the securities, property or cash deliverable in exchange for or on the conversion of or in respect of the Common Shares or Debt Securities to which the holder of a Common Share or Debt Security would have been entitled immediately after such event. Similarly, any distribution to all or substantially all of the holders of Common Shares of rights, options, warrants, evidences of indebtedness or assets will result in an adjustment in the number of Common Shares to be issued to holders of Equity Warrants.

Table of Contents

Global Securities

We may issue Warrants in whole or in part in the form of one or more global securities, which will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the applicable Prospectus Supplement. The global securities may be in temporary or permanent form. The applicable Prospectus Supplement will describe the terms of any depository arrangement and the rights and limitations of owners of beneficial interests in any global security. The applicable Prospectus Supplement will describe the exchange, registration and transfer rights relating to any global security.

Modifications

The Warrant Indenture, if any, will provide for modifications and alterations to the Warrants issued thereunder by way of a resolution of holders of Warrants at a meeting of such holders or a consent in writing from such holders. The number of holders of Warrants required to pass such a resolution or execute such a written consent will be specified in the Warrant Indenture.

We may amend any Warrant Indenture and the Warrants, without the consent of the holders of the Warrants, to cure any ambiguity, to cure, correct or supplement any defective or inconsistent provision, or in any other manner that will not materially and adversely affect the interests of holders of outstanding Warrants.

DESCRIPTION OF SUBSCRIPTION RECEIPTS

We may issue Subscription Receipts, which will entitle holders to receive upon satisfaction of certain release conditions and for no additional consideration, Common Shares, Debt Securities, Warrants or any combination thereof. Holders of Subscription Receipts are entitled only to receive Common Shares, Debt Securities, Warrants or a combination thereof on exchange of their Subscription Receipts, plus any cash payments provided for under the Subscription Receipt Agreement, if the Release Conditions are satisfied. Table of Contents

Escrow

The Escrowed Funds will be held in escrow by the Escrow Agent, and such Escrowed Funds will be released to us (and, if the Subscription Receipts are sold to or through underwriters or agents, a portion of the Escrowed Funds may be released to such underwriters or agents in payment of all or a portion of their fees in connection with the sale of the Subscription Receipts) at the time and under the terms specified by the Subscription Receipt Agreement. If the Release Conditions are not satisfied, holders of Subscription Receipts will receive a refund of all or a portion of the subscription price for their Subscription Receipts plus their *pro rata* entitlement to interest earned or income generated on such amount, in accordance with the terms of the Subscription Receipt Agreement. Common Shares, Debt Securities or Warrants may be held in escrow by the Escrow Agent, and will be released to the holders of Subscription Receipts following satisfaction of the Release Conditions at the time and under the terms specified in the Subscription Receipt Agreement.

Anti-Dilution

The Subscription Receipt Agreement will specify that upon the subdivision, consolidation, reclassification or other material change of the Common Shares, Debt Securities or Warrants or any other reorganization, amalgamation, merger or sale of all or substantially all of our assets, the Subscription Receipts will thereafter evidence the right of the holder to receive the securities, property or cash deliverable in exchange for or on the conversion of or in respect of the Common Shares, Debt Securities or Warrants to which the holder of a Common Share, Debt Security or Warrant would have been entitled immediately after such event. Similarly, any distribution to all or substantially all of the holders of Common Shares of rights, options, warrants, evidences of indebtedness or assets will result in an adjustment in the number of Common Shares to be issued to holders of Subscription Receipts whose Subscription Receipts entitle the holders thereof to receive Common Shares. Alternatively, such securities, evidences of indebtedness or assets may, at our option, be issued to the Escrow Agent and delivered to holders of Subscription Receipts on exercise thereof. The Subscription Receipt Agreement will also provide that if other actions of the Company affect the Common Shares, Debt Securities or Warrants, which, in the reasonable opinion of our directors, would materially affect the rights of the holders of Subscription Receipts and/or the rights attached to the Subscription Receipts, the number of Common Shares, Debt Securities or Warrants which are to be received pursuant to the Subscription Receipts shall be adjusted in such manner, if any, and at such time as our directors may in their discretion reasonably determine to be equitable to the holders of Subscription Receipts in such circumstances.

Rescission

The Subscription Receipt Agreement will also provide that any misrepresentation in this Prospectus, the Prospectus Supplement under which the Subscription Receipts are offered, or any amendment thereto, will entitle each initial purchaser of Subscription Receipts to a contractual right of rescission following the issuance of the Common Shares, Debt Securities or Warrants to such purchaser entitling such purchaser to receive the amount paid for the Subscription Receipts upon surrender of the Common Shares, Debt Securities or Warrants, provided that such remedy for rescission is exercised in the time stipulated in the Subscription Receipt Agreement. This right of rescission does not extend to holders of Subscription Receipts who acquire such Subscription Receipts from an initial purchaser, on the open market or otherwise, or to initial purchasers who acquire Subscription Receipts in the United States.

Global Securities

We may issue Subscription Receipts in whole or in part in the form of one or more global securities, which will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the applicable Prospectus Supplement. The global securities may be in temporary or permanent form. The applicable Prospectus Supplement will describe the terms of any depository arrangement and the rights and limitations of owners of beneficial interests in any global security. The applicable Prospectus Supplement also will describe the exchange, registration and transfer rights relating to any global security.

Modifications

The Subscription Receipt Agreement will provide for modifications and alterations to the Subscription Receipts issued thereunder by way of a resolution of holders of Subscription Receipts at a meeting of such holders or a consent in writing from such holders. The number of holders of Subscriptions Receipts required to pass such a resolution or execute such a written consent will be specified in the Subscription Receipt Agreement.

DESCRIPTION OF UNITS

The following description, together with the additional information we may include in any applicable Prospectus Supplements, summarizes the material terms and provisions of the Units that we may offer under this Prospectus. While the terms we have summarized below will apply generally to any Units that we may offer under this Prospectus, we will describe the particular terms of any series of Units in more detail in the applicable Prospectus Supplement. The terms of any Units offered under a Prospectus Supplement may differ from the terms described below.

The Company will file as exhibits to the registration statement of which this Prospectus is a part, or will incorporate by reference from a current report on Form 8-K that we file with the SEC, the form of any unit agreement (Unit Agreement) between us and a unit agent (Unit Agent) that describes the terms and conditions of the series of Units the Company is offering, and any supplemental agreements, before the issuance of the related series of Units. The following summaries of material terms and provisions of the Units are subject to, and qualified in their entirety by reference to, all the provisions of the Unit Agreement, if any, and any supplemental agreements applicable to a particular series of Units. We urge you to read the applicable Prospectus Supplements related to the particular series of Units that we sell under this Prospectus, as well as the complete Unit Agreement, if any, and any supplemental agreements that contain the terms of the Units.

General

We may issue units comprising one or more of Common Shares, Debt Securities, Warrants and Subscription Receipts in any combination. Each Unit will be issued so that the holder of the Unit is also the holder of each security included in the Unit. Thus, the holder of a Unit will have the rights and obligations of a holder of each included security. The Unit Agreement, if any, under which a Unit may be issued may provide that the securities included in the Unit may not be held or transferred separately, at any time or at any time before a specified date.

We will describe in the applicable Prospectus Supplement the terms of the series of Units, including:

the designation and terms of the Units and of the securities comprising the Units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions of the governing Unit Agreement, if any, that differ from those described below; and

any provisions for the issuance, payment, settlement, transfer or exchange of the Units or of the securities comprising the Units. The provisions described in this section, as well as those described under Description of Common Shares, Description of Debt Securities, Description of Warrants, and Description of Subscription Receipts will apply to each Unit and to any Common Share, Debt Security, Warrant or Subscription Receipt included in each Unit, respectively.

Issuance in Series

We may issue Units in such amounts and in numerous distinct series as we determine.

Enforceability of Rights by Holders of Units

Each Unit Agent, if any, will act solely as our agent under the applicable Unit Agreement, if any, and will not assume any obligation or relationship of agency or trust with any holder of any Unit. A single bank or trust company may act as Unit Agent for more than one series of Units. A Unit Agent will have no duty or responsibility in case of any default by us under the applicable Unit Agreement, if any, or Unit, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a Unit may, without the consent of the related Unit Agent or the holder of any other Unit, enforce by appropriate legal action its rights as holder under any security included in the Unit.

We, the Unit Agents, if any, and any of their agents may treat the registered holder of any Unit Certificate as an absolute owner of the Units evidenced by that certificate for any purpose and as the person entitled to exercise the rights attaching to the Units so requested, despite any notice to the contrary.

PLAN OF DISTRIBUTION

General

We may offer and sell the Securities, separately or together: (a) to one or more underwriters or dealers; (b) through one or more agents; or (c) directly to one or more other purchasers. The Securities offered pursuant to any Prospectus Supplement may be sold from time to time in one or more transactions at: (i) a fixed price or prices, which may be changed from time to time; (ii) market prices prevailing at the time of sale; (iii) prices related to such prevailing market prices; or (iv) other negotiated prices. We may only offer and sell the Securities pursuant to a Prospectus Supplement during the period that this Prospectus, including any amendments hereto, remains effective. The Prospectus Supplement for any of the Securities being offered thereby will set forth the terms of the offering of such Securities, including the type of Security being offered, the name or names of any underwriters, dealers or agents, the purchase price of such Securities, the proceeds to us from such sale, any underwriting commissions or discounts and other items constituting underwriters' compensation and any discounts or concessions allowed or re-allowed or paid to dealers. Only underwriters so named in the Prospectus Supplement are deemed to be underwriters in connection with the Securities offered thereby.

By Underwriters

If underwriters are used in the sale, the Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Unless otherwise set forth in the Prospectus Supplement relating thereto, the obligations of underwriters to purchase the Securities will be subject to certain conditions, but the underwriters will be obligated to purchase all of the Securities offered by the Prospectus Supplement if any of such Securities are purchased. We may offer the Securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. We may agree to pay the underwriters a fee or commission for various services relating to the offering of any Securities. Any such fee or commission will be paid out of our general corporate funds. We may use underwriters with whom it has a material relationship. We will describe in the Prospectus Supplement, naming the underwriter, the nature of any such relationship.

By Dealers

If dealers are used, and if so specified in the applicable Prospectus Supplement, we will sell such Securities to the dealers as principals. The dealers may then resell such Securities to the public at varying prices to be determined by such dealers at the time of resale. Any public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time. We will set forth the names of the dealers and the terms of the transaction in the applicable Prospectus Supplement.

By Agents

The Securities may also be sold through agents designated by us. Any agent involved will be named, and any fees or commissions payable by us to such agent will be set forth, in the applicable Prospectus Supplement. Any such fees or commissions will be paid out of our general corporate funds. Unless otherwise indicated in the Prospectus Supplement, any agent will be acting on a best efforts basis for the period of its appointment.

Direct Sales

Securities may also be sold directly by us at such prices and upon such terms as agreed to by us and the purchaser. In this case, no underwriters, dealers or agents would be involved in the offering.

General Information

Underwriters, dealers and agents that participate in the distribution of the Securities offered by this Prospectus may be deemed underwriters under the Securities Act, and any discounts or commissions they receive from us and any profit on their resale of the securities may be treated as underwriting discounts and commissions under the Securities Act.

Underwriters, dealers or agents who participate in the distribution of Securities may be entitled under agreements to be entered into with us to indemnification by us against certain liabilities, including liabilities under Canadian provincial and territorial and United States securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers or agents may be customers of, engage in transactions with, or perform services for, us in the ordinary course of business.

Table of Contents

We may enter into derivative transactions with third parties, or sell securities not covered by this Prospectus to third parties in privately negotiated transactions. If the applicable Prospectus Supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this Prospectus and the applicable Prospectus Supplement, including in short sale transactions. If so, the third parties may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be identified in the applicable Prospectus Supplement.

One or more firms, referred to as remarketing firms, may also offer or sell the Securities, if the Prospectus Supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us. These remarketing firms will offer or sell the Securities in accordance with the terms of the Securities. The Prospectus Supplement will identify any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in connection with the Securities they remarket.

In connection with any offering of Securities, underwriters may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a level above that which might otherwise prevail in the open market. Such transactions may be commenced, interrupted or discontinued at any time.

U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general summary of certain U.S. federal income tax considerations related to the acquisition, ownership and disposition of Common Shares acquired pursuant to this Prospectus.

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential United States federal income tax consequences related to the acquisition, ownership and disposition of Common Shares. In addition, this summary does not take into account the individual facts and circumstances of any particular holder that may affect the United States federal income tax consequences to such holder. Accordingly, this summary is not intended to be, and should not be construed as, legal or United States federal income tax advice with respect to any holder. Each holder should consult its own tax advisor regarding the United States federal, state and local, and foreign tax consequences related to the acquisition, ownership and disposition of Common Shares.

No legal opinion from United States legal counsel or ruling from the Internal Revenue Service (the IRS) has been requested, or will be obtained, regarding the United States federal income tax consequences related to the acquisition, ownership and disposition of Common Shares. This summary is not binding on the IRS, and the IRS is not precluded from taking a position that is different from, and contrary to, the positions taken in this summary.

Scope of this Summary

Authorities

This summary is based on the Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations (whether final, temporary, or proposed), published rulings of the IRS, published administrative positions of the IRS, and United States court decisions that are applicable and, in each case, as in effect and available, as of the date of this Prospectus. Any of the authorities on which this summary is based could be changed in a material and adverse manner at any time, and any such change could be applied on a retroactive basis. This summary does not discuss the potential effects, whether adverse or beneficial, of any proposed legislation that, if enacted, could be applied on a retroactive basis.

U.S. Holders

As used in this summary, the term U.S. Holder means a beneficial owner of Common Shares acquired pursuant to this Prospectus that is for U.S. federal income tax purposes: an individual who is a citizen or resident of the U.S.; a corporation (or other entity taxable as a corporation) organized under the laws of the U.S., any state thereof or the District of Columbia; an estate whose income is subject to U.S. federal income taxation regardless of its source; or a trust that (1) is subject to the primary supervision of a court within the U.S. and the control of one or more U.S. persons for all substantial decisions or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

Table of Contents

Non-U.S. Holders

The term **Non-U.S. Holder** means any beneficial owner of Common Shares acquired pursuant to this Prospectus that is neither a U.S. Holder nor a partnership nor other entity or arrangement treated as a partnership for U.S. federal income tax purposes. A Non-U.S. Holder should review the discussion under the heading *U.S. Federal Income Tax Consequences to Non-U.S. Holders of the Acquisition, Ownership and Disposition of Common Shares* below for more information.

U.S. Holders Subject to Special United States Federal Income Tax Rules Not Addressed

This summary deals only with persons or entities who hold our Common Shares as a capital asset within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**). This summary does not address all aspects of U.S. federal income taxation that may be applicable to holders in light of their particular circumstances or to holders subject to special treatment under U.S. federal income tax law, such as (without limitation): banks, insurance companies, and other financial institutions; dealers in securities or foreign currencies; regulated investment companies; traders in securities that mark to market; U.S. expatriates or former long-term residents of the U.S.; persons holding Common Shares as part of a straddle, appreciated financial position, synthetic security, hedge, conversion transaction or other integrated investment; persons holding Common Shares as a result of a constructive sale; persons holding Common Shares whose functional currency is not the U.S. dollar; persons who directly, indirectly, or by attribution own 10% or more of the Company's outstanding equity interests; or entities that acquire Common Shares that are treated as partnerships for U.S. federal income tax purposes and investors (i.e., partners) in such partnerships. Holders that are subject to special provisions under the Code, including holders described immediately above, should consult their own tax advisor regarding the United States federal, state and local, and foreign tax consequences arising from and relating to the acquisition, ownership and disposition of Common Shares.

If an entity treated as a partnership holds our Common Shares, the tax treatment of the partners and the partnership generally will depend on the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our Common Shares you should consult your own tax advisor.

Tax Consequences Not Addressed

This summary does not address the United States state and local, United States federal estate and gift, United States federal alternative minimum tax, or foreign tax consequences to holders of the acquisition, ownership, and disposition of Common Shares. Each holder should consult its own tax advisor regarding the United States state and local, United States federal estate and gift, United States federal alternative minimum tax, and foreign tax consequences of the acquisition, ownership, and disposition of Common Shares.

U.S. Federal Income Tax Consequences to U.S. Holders of the Acquisition, Ownership and Disposition of Common Shares

Distributions

Distributions made on our Common Shares generally will be included in a U.S. Holder's income as ordinary dividend income to the extent of our current and accumulated earnings and profits (determined under U.S. federal income tax principles) as of the end of our taxable year in which the distribution occurs. However, with respect to dividends received by individuals, for taxable years beginning before January 1, 2011, such dividends are generally taxed at the lower applicable long-term capital gains rates, provided certain holding period requirements are satisfied. Distributions in excess of our current and accumulated earnings and profits will be treated as a return of capital to the extent of a U.S. Holder's adjusted tax basis in the Common Shares and thereafter as capital gain from the sale or exchange of such Common Shares. Dividends received by a corporation may be eligible for a dividends received deduction, subject to applicable limitations.

Sale, Certain Redemptions or Other Taxable Dispositions of Common Shares

Upon the sale, certain qualifying redemptions, or other taxable disposition of our Common Shares, a U.S. Holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash and the fair market value of any property received upon such taxable disposition and (ii) the U.S. Holder's adjusted tax basis in the Common Shares. Such capital gain or loss will be long-term capital gain or loss if a U.S. Holder's holding period in the Common Shares is more than one year at the time of the taxable disposition. Long-term capital gains recognized by certain non-corporate U.S. Holders (including individuals) will generally be subject to a maximum U.S. federal income tax rate of 15%, which maximum is currently scheduled to increase to 20% for dispositions occurring during taxable years beginning on or after January 1, 2011. The deductibility of capital losses is subject to limitations. A U.S. Holder who sells Common Shares at a loss which, in the aggregate, exceeds certain thresholds may be required to file a disclosure statement with the IRS.

Table of Contents

Information Reporting and Backup Withholding

Information reporting requirements generally will apply to payments of dividends on our Common Shares and to the proceeds of a sale of Common Shares paid to a U.S. Holder unless the U.S. Holder is an exempt recipient (such as a corporation). A backup withholding tax will apply to those payments if the U.S. Holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. Holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability provided the required information is furnished in a timely manner to the IRS.

U.S. Federal Income Tax Consequences to Non-U.S. Holders of the Acquisition, Ownership and Disposition of Common Shares

Dividends

Distributions on our Common Shares will constitute dividends for U.S. tax purposes to the extent paid from our current and accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, they will constitute a return of capital and will first reduce a Non-U.S. Holder's basis in our Common Shares, but not below zero, and then will be treated as gain from the sale of stock, which will be taxable according to rules discussed under the heading "Sale or Exchange of Common Shares," below. Any dividends paid to a Non-U.S. Holder with respect to our Common Shares generally will be subject to withholding tax at a 30% gross rate, subject to any exemption or lower rate under an applicable treaty if the Non-U.S. Holder provides us with a properly executed IRS Form W-8BEN, unless the Non-U.S. Holder provides us with a properly executed IRS Form W-8ECI (or other applicable form) relating to income effectively connected with the conduct of a trade or business within the U.S.

Dividends that are effectively connected with the conduct of a trade or business within the U.S. and includible in the Non-U.S. Holder's gross income are not subject to the withholding tax (assuming proper certification and disclosure), but instead are subject to U.S. federal income tax on a net income basis at applicable graduated individual or corporate rates. Any such effectively connected income received by a foreign corporation may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, subject to any exemption or lower rate as may be specified by an applicable income tax treaty.

A Non-U.S. Holder of Common Shares who wishes to claim the benefit of an applicable treaty rate or exemption is required to satisfy certain certification and other requirements. If a Non-U.S. Holder is eligible for an exemption from or a reduced rate of U.S. withholding tax pursuant to an income tax treaty, it may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Sale or Other Taxable Disposition of Common Shares

In general, a Non-U.S. Holder of Common Shares will not be subject to U.S. federal income tax on gain recognized from a sale, exchange, or other taxable disposition of such Common Shares, unless:

the gain is effectively connected with a U.S. trade or business carried on by the Non-U.S. Holder (and, where an income tax treaty applies, is attributable to U.S. permanent establishment of the Non-U.S. Holder), in which case the Non-U.S. Holder will be subject to tax on the net gain from the sale at regular graduated federal income tax rates, and if the Non-U.S. Holder is a corporation may be subject to branch profits tax, as described below;

the Non-U.S. Holder is an individual who is present in the U.S. for 183 days or more in the taxable year of disposition and certain other conditions are met, in which case the Non-U.S. Holder will be subject to a 30% tax on the gain from the sale, which may be offset by U.S. source capital losses; or

the Company is or has been a U.S. real property holding corporation (USRPHC) for U.S. federal income tax purposes at any time during the shorter of the Non-U.S. Holder's holding period or the 5-year period ending on the date of disposition of Common Shares; provided, that as long as our shares of Common Shares are regularly traded on an established securities market (the Regularly Traded Exception), a Non-U.S. Holder would not be subject to taxation under this rule if the Non-U.S. Holder has not owned more than 5% of our Common Shares at any time during such 5-year or shorter period. Certain attribution rules apply in determining ownership for

this purpose. Non-U.S. Holders should be aware that the Company has made no determination as to whether the Company is or has been a USRPHC, and the Company can provide no assurances that the Company is not and will not become a USRPHC in the future.

Table of Contents

In addition, in the event that the Company is or becomes a USRPHC, Non-U.S. Holders should be aware that there can be no assurance that the Common Shares will meet the Regularly Traded Exception at the time a Non-U.S. Holder purchases Common Shares or sells, exchanges or otherwise disposes of such Common Share. Non-U.S. Holders are urged to consult with their own tax advisors regarding the consequences if we have been, are or will be a USRPHC.

If a Non-U.S. Holder is an individual described in the first bullet point above, he or she will be subject to tax on the net gain derived from the sale or other taxable disposition of our Common Shares under regular graduated U.S. federal income tax rates. If a Non-U.S. Holder is a foreign corporation described in the first bullet point above, it will be subject to tax on its net gain from such a sale or other taxable disposition generally in the same manner as if it were a U.S. person as defined under the Code and, in addition, it may be subject to the branch profits tax at a gross rate equal to 30% of its effectively connected earnings and profits for that taxable year, subject to any exemption or lower rate as may be specified by an applicable income tax treaty. If a Non-U.S. Holder is an individual described in the second bullet point above, such holder will be subject to tax at a rate of 30% (or subject to any exemption or lower rate as may be specified by an applicable income tax treaty) on the gain derived from the sale or other taxable disposition of our Common Shares even though such holder is not considered a resident of the U.S. The amount of such gain may be offset by the Non-U.S. Holder's U.S. source capital losses.

Information Reporting and Backup Withholding

Generally, we must report annually to the IRS and to Non-U.S. Holders the amount of dividends paid on our Common Shares to Non-U.S. Holders and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest, dividends and withholding may also be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

In general, a Non-U.S. Holder will not be subject to backup withholding with respect to payments of dividends that we make, provided we receive a statement meeting certain requirements to the effect that the Non-U.S. Holder is not a U.S. person and we do not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code, that is not an exempt recipient. The requirements for the statement will be met if (1) the Non-U.S. Holder provides its name, address and U.S. taxpayer identification number, if any, and certifies, under penalty of perjury, that it is not a U.S. person (which certification may be made on IRS Form W-8BEN) or (2) a financial institution holding the instrument on behalf of the Non-U.S. Holder certifies, under penalty of perjury, that such statement has been received by it and furnishes us or our paying agent with a copy of the statement. In addition, a Non-U.S. Holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of a sale of our Common Shares within the U.S. or conducted through certain U.S.-related financial intermediaries, unless the statement described above has been received, and we do not have actual knowledge or reason to know that a holder is a U.S. person, as defined under the Code, that is not an exempt recipient, or the Non-U.S. Holder otherwise establishes an exemption. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability provided the required information is furnished timely to the IRS.
