**Item 7.01. Regulation FD Disclosure**

In accordance with General Instruction B.2. of Form 8-K, the information presented herein under Item 7.01 shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), nor shall it be deemed incorporated by reference in any filing under the Exchange Act or Securities Act of 1933, as amended, except as expressly set forth by specific reference in such a filing. Except as noted, our financial forecasts included in this report assume the successful closing of our planned \$6 billion acquisition of Eagle Ford Shale assets from GeoSouthern Energy Corporation, which is expected to close in the first quarter of 2014. Our financial forecasts also assume the completion of planned divestitures of certain non-core assets on or around year-end 2014. As we complete divestiture transactions, we will update our financial forecasts. In addition, our financial forecasts in this report include 100% of the amounts attributable to the operation of our planned new midstream business with Crosstex Energy, Inc. ( EnLink ) subsequent to the consummation of the transaction, which is expected to close in the first quarter of 2014. However, subsequent to the consummation of the EnLink transaction, our net earnings will be reduced by the portion of net earnings attributable to noncontrolling interests in EnLink.

In this report, financial amounts related to our Canadian operations have been converted to U.S. dollars using estimated average exchange rates of \$1.00 U.S. dollar to \$1.00 Canadian dollar.

**Production and Prices**

Set forth below are our daily production and price realization estimates for the first quarter and full year 2014. The term *core* refers to our core and emerging assets in the Anadarko Basin, Barnett Shale, Eagle Ford Shale, Mississippian-Woodford Trend, Permian Basin and Rockies Oil in the United States, as well as our Heavy Oil assets in Canada. The term *non-core* refers to our remaining properties, many of which we are in the process of divesting. The price realizations for oil and bitumen are determined using the monthly average of NYMEX settled prices on each trading day for the benchmark West Texas Intermediate crude oil price at Cushing, Oklahoma. The price realizations for natural gas are determined using the first-of-month South Louisiana Henry Hub price index as published in *Inside FERC*.

***Information Regarding Forward-Looking Estimates***

This report includes our 2014 forward-looking estimates and associated forward-looking statements regarding our expectations and plans, as well as future events or conditions. Such forward-looking statements are based on our examination of historical operating trends, the information used to prepare our December 31, 2013 reserve reports and other data in our possession or available from third parties. Our forward-looking estimates are also based on closing our planned \$6 billion acquisition of Eagle Ford Shale assets from GeoSouthern Energy Corporation, which is expected to close in the first quarter of 2014; the consummation of our EnLink transaction, which is expected to close in the first quarter of 2014; and the completion of planned divestitures of certain non-core assets on or around year-end 2014. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond our control.

Consequently, actual future results could differ materially from our expectations due to a number of factors, such as changes in the supply of and demand for oil, natural gas and NGLs and related products and services; exploration or drilling programs; political or regulatory events; general economic and financial market conditions; the timing of the transactions in the previous paragraph; and other risk factors we discuss in our Annual Report on Form 10-K. All subsequent written and oral forward-looking statements attributable to Devon, or persons acting on its behalf, are expressly qualified in their entirety by these cautionary statements. We assume no duty to update or revise our forward-looking statements based on new information, future events or otherwise.

**SIGNATURES**
