*Revised Accretion Disclosure:*

The Company expects that the share repurchase would result in accretion of approximately \$0.11 on a pro forma 2013 adjusted earnings per share basis after giving effect to the anticipated impact on interest expense as a result of the Incremental Debt Financing. Pro forma 2013 accretion is based on the following assumptions: reported 2013 adjusted earnings per share of \$1.34; fully-diluted outstanding share count of 71.9 million; \$133.0 million Share Repurchase at a purchase price per share of \$16.25 funded via the \$130.0 million Incremental Debt Financing, with pricing of Libor plus 3.25% (including 1.00% Libor floor), and cash; approximately \$1.0 million of estimated annual incremental deferred financing costs; and a 40% tax rate.
