FORWARD-LOOKING STATEMENTS

This Report on Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created by those laws. These forward-looking statements reflect our current expectations and projections about future events and include information about possible or assumed future results of our operations. All statements, other than statements of historical facts, included or incorporated by reference in this Report that address activities, events or developments that we expect or anticipate may occur in the future, including such things as growth of our business and operations, business strategy, competitive strengths, goals, plans, future capital expenditures and references to future successes may be considered forward-looking statements. Generally, words such as anticipate, believe, estimate, expect, intend, plan, probably or similar expressions indicate forward-looking statements.

Many risks and uncertainties may have an impact on the matters addressed in these forward-looking statements, which could affect our future financial results and performance, including, among other things:

the effects of catastrophe losses,

the cyclical nature of the insurance business,

inherent uncertainties in the loss estimation process, which can adversely impact the adequacy of loss reserves,

the impact of past and future potential economic or credit market downturns, including any potential ratings downgrade or impairment of the debt securities of sovereign issuers,

the effects of emerging claim and coverage issues,

the effects of extensive governmental regulation of the insurance industry,

changes to the country's health care delivery system,

the effects of climate change on the risks we insure,

potential risk with agents and brokers,

the effects of industry consolidations,

our assessment of underwriting risk,

our retention of risk, which could expose us to potential losses,

the adequacy of reinsurance protection,

the ability and willingness of reinsurers to pay balances due us,

the occurrence of terrorist activities,

our ability to maintain our competitive position,

fluctuations in securities markets, which may reduce the value of our investment portfolio, reduce investment income or generate realized investment losses,

changes in our assigned financial strength ratings,

our ability to raise capital and funds for liquidity in the future,

attraction and retention of qualified employees,

Table of Contents

our ability to successfully expand our business through the acquisition of insurance-related companies,

impairment of goodwill,

the ability of our insurance company subsidiaries to pay dividends in needed amounts,

fluctuations in foreign exchange rates,

failure of, or loss of security related to, our information technology systems,

difficulties with outsourcing relationships, and

change of control.

We described these risks and uncertainties in greater detail in Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013.

These events or factors could cause our results or performance to differ materially from those we express in our forward-looking statements. Although we believe that the assumptions underlying our forward-looking statements are reasonable, any of these assumptions, and, therefore, the forward-looking statements based on these assumptions, could themselves prove to be inaccurate. In light of the significant uncertainties inherent in the forward-looking statements that are included in this Report, our inclusion of this information is not a representation by us or any other person that our objectives or plans will be achieved.

Our forward-looking statements speak only at the date made, and we will not update these forward-looking statements unless the securities laws require us to do so. In light of these risks, uncertainties and assumptions, any forward-looking events discussed in this Report may not occur.

Table of Contents**HCC Insurance Holdings, Inc. and Subsidiaries****Notes to Consolidated Financial Statements****(unaudited, tables in thousands except per share data)****(1) General Information**

HCC Insurance Holdings, Inc. (HCC) and its subsidiaries (collectively we, us or our) include domestic and foreign property and casualty and life insurance companies and underwriting agencies with offices in the United States, the United Kingdom, Spain and Ireland. We underwrite a variety of largely non-correlated specialty insurance products, including property and casualty, accident and health, surety and credit product lines, in approximately 180 countries. We market our products through a network of independent agents and brokers, through managing general agents owned by the company, and directly to consumers. In addition, we assume insurance written by other insurance companies.

Basis of Presentation

Our unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and include the accounts of HCC and its subsidiaries. We have made all adjustments that, in our opinion, are necessary for a fair statement of results of the interim periods, and all such adjustments are of a normal recurring nature. All significant intercompany balances and transactions have been eliminated in consolidation. The consolidated financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2013. The consolidated balance sheet at December 31, 2013 was derived from the audited financial statements but does not include all disclosures required by GAAP.

Management must make estimates and assumptions that affect amounts reported in our consolidated financial statements and in disclosures of contingent assets and liabilities. Ultimate results could differ from those estimates.

(2) Investments

A security has an impairment loss when its fair value is less than its cost or amortized cost at the balance sheet date. We evaluate our securities for possible other-than-temporary impairment losses at each quarter end. Our reviews cover all impaired securities where the loss exceeds \$1.0 million and the loss either exceeds 10% of cost or the security had been in a loss position for longer than twelve consecutive months. We recognized no other-than-temporary impairment losses in the first quarter of 2014 and 2013.

At March 31, 2014, we held approximately 2,750 fixed maturity and equity securities, of which 28% included at least one lot in an unrealized loss position. The related gross unrealized losses of \$62.8 million in our portfolio relate to non-credit factors, such as interest rate changes and market conditions. We do not consider these gross unrealized losses to be other-than-temporary impairments at March 31, 2014 because: 1) as of that date, we have received all contractual interest and principal payments on the fixed maturity securities, 2) we do not intend to sell the securities and 3) it is more likely than not that we will not be required to sell the securities before recovery of their amortized cost or cost bases.

The amortized cost and fair value of our fixed maturity securities at March 31, 2014, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The weighted-average life of our mortgage-backed and asset-backed securities was 5.7 years at March 31, 2014.

(3) Fair Value Measurements

Our financial instruments include assets and liabilities carried at fair value, as well as assets and liabilities carried at cost or amortized cost but disclosed at fair value in our financial statements. In determining fair value, we generally apply the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities. We classify our financial instruments into the following three-level hierarchy:

Level 1 Inputs are based on quoted prices in active markets for identical instruments.

Level 2 Inputs are based on observable market data (other than quoted prices), or are derived from or corroborated by observable market data.

Level 3 Inputs are unobservable and not corroborated by market data.

Our Level 1 investments consist of U.S. Treasuries, money market funds and equity securities traded in an active exchange market. We use unadjusted quoted prices for identical instruments to measure fair value.

Our Level 2 investments include most of our fixed maturity securities, which consist of U.S. government agency securities, municipal bonds (including those held as restricted securities), corporate debt securities, bank loans, mortgage-backed and asset-backed securities (including collateralized loan obligations), and deposits supporting our Lloyd's syndicate business. Level 2 also includes certificates of deposit and other interest-bearing deposits at banks, which we report as short-term investments. We measure fair value for the majority of our Level 2 investments using matrix pricing and observable market data, including benchmark securities or yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, bids, offers, default rates, loss severity and other economic measures. We measure fair value for our structured securities using observable market data in cash flow models.

We are responsible for the prices used in our fair value measurements. We use independent pricing services to assist us in determining fair value for all of our Level 2 investments. The pricing services provide a single price or quote per security. We use data provided by our third party investment managers and Lloyd's of London to value the remaining Level 2 investments. To validate that these quoted prices are reasonable estimates of fair value, we perform various quantitative and qualitative procedures, including: 1) evaluation of the underlying methodologies, 2) analysis of recent sales activity, 3) analytical review of our fair values against current market prices and 4) comparison of the pricing services' fair value to other pricing services' fair value for the same investment. No markets for our investments were judged to be inactive at period end. Based on these procedures, we did not adjust the prices or quotes provided by our independent pricing services, third party investment managers or Lloyd's of London as of March 31, 2014 or December 31, 2013.

Our Level 2 financial instruments also include our notes payable. We determine the fair value of our 6.30% Senior Notes based on quoted prices, but the market is inactive. The fair value of borrowings under our Revolving Loan Facility approximates the carrying amount because interest is based on 30-day LIBOR plus a margin.

Our Level 3 securities include certain fixed maturity securities and an insurance contract that we account for as a derivative and classify in other assets. Our Level 3 category also includes a liability for future earnout payments due to former owners of a business we acquired, which is classified within accounts payable and accrued liabilities. We determine fair value of the derivative and the earnout payments based on internally developed models that use assumptions or other data that are not readily observable from objective sources. Fixed maturity securities classified as Level 3 at December 31, 2013 included special purpose revenue bond auction rate securities, which had interest rates that reset at periodic intervals. These securities were thinly traded and observable market data was not readily available. We determined the fair value of these securities using prices quoted by a broker.

In the first quarter of 2013, we purchased \$9.4 million of special purpose revenue bond auction rate securities, which we continued to hold and classify in Level 3 at December 31, 2013. We sold these securities in the first quarter of

2014. There were no transfers between Level 1, Level 2 or Level 3 in the first quarter of 2014 and 2013.

Table of Contents**HCC Insurance Holdings, Inc. and Subsidiaries****Notes to Consolidated Financial Statements****(unaudited, tables in thousands except per share data)****(4) Reinsurance**

In the normal course of business, our insurance companies cede a portion of their premium to reinsurers through treaty and facultative reinsurance agreements. Although reinsurance does not discharge the direct insurer from liability to its policyholder, our insurance companies participate in such agreements in order to limit their loss exposure, protect them against catastrophic losses and diversify their business. The following tables present the effect of such reinsurance transactions on our premium, loss and loss adjustment expense and policy acquisition costs.

(6) Notes Payable

Our notes payable consisted of the following:

| | March 31, 2014 | December 31, 2013 |
|---|---------------------------|------------------------------|
| 6.30% Senior Notes | \$ 299,136 | \$ 299,098 |
| \$600.0 million Revolving Loan Facility | 425,000 | 355,000 |
| Total notes payable | \$ 724,136 | \$ 654,098 |

Table of Contents**HCC Insurance Holdings, Inc. and Subsidiaries****Notes to Consolidated Financial Statements****(unaudited, tables in thousands except per share data)**

The weighted-average interest rate on borrowings under the Revolving Loan Facility (Facility) at March 31, 2014 was 1.4%. We were in compliance with debt covenants related to our 6.30% Senior Notes, the Facility and our Standby Letter of Credit Facility (Standby Facility) at March 31, 2014.

On April 30, 2014, we entered into an agreement to modify our \$600.0 million Facility. Under the amended agreement, we increased the borrowing capacity under the Facility to \$825.0 million and extended the term two years to April 30, 2019. There were no other material changes to the Facility or to the terms and conditions of our Senior Notes or Standby Facility from those described in Note 7, Notes Payable to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2013.

(7) Accumulated Other Comprehensive Income

The components of accumulated other comprehensive income in our consolidated balance sheets were as follows:

| | Net unrealized investment gains | Foreign currency translation adjustment | Accumulated other comprehensive income |
|----------------------------------|---------------------------------------|--|---|
| Balance at December 31, 2013 | \$ 99,960 | \$ 18,691 | \$ 118,651 |
| Other comprehensive income | 42,350 | 1,220 | 43,570 |
| Balance at March 31, 2014 | \$ 142,310 | \$ 19,911 | \$ 162,221 |

The changes in net unrealized investment gains (losses) during 2014 and 2013 included reclassifications of amounts into net earnings. The reclassifications recorded in our consolidated statements of earnings were as follows:

| | Three months ended March 31, | |
|--------------------------------|-------------------------------------|-----------------|
| | 2014 | 2013 |
| Net realized investment gain | \$ 20,246 | \$ 8,570 |
| Income tax expense | 7,086 | 2,999 |
| Total reclassifications | \$ 13,160 | \$ 5,571 |

| Earnings per common share | | |
| Basic | \$ 1.08 | \$ 1.05 |
| Diluted | \$ 1.07 | \$ 1.05 |

(9) Stock-Based Compensation

In 2014, we granted the following shares of common stock, restricted stock and restricted stock units.

| | Number of shares | Weighted-average grant date fair value | Aggregate fair value | Vesting period |
|------------------|-------------------------|---|-----------------------------|-----------------------|
| Common stock | 6 | \$ 45.11 | \$ 258 | None |
| Restricted stock | 284 | 43.15 | 12,269 | 0 - 4 years |

| | | | | |
|------------------------|----|-------|-----|---------|
| Restricted stock units | 13 | 45.11 | 575 | 4 years |
|------------------------|----|-------|-----|---------|

For common stock grants, we measure fair value based on the closing stock price of our common stock on the grant date and expense it on the grant date.

Certain awards of restricted stock and restricted stock units contain a performance condition based on the ultimate results for the applicable underwriting year. The number of such shares that vest could be higher or lower than initially granted. We measure fair value for these awards based on the closing price of our common stock on the grant date, and we recognize expense on a straight-line basis over the vesting period for those restricted stock awards or units expected to vest.

Certain of our executive officers were granted performance-based restricted stock in 2014. This restricted stock vests after three years and can vest from 0% to 200% of the initial shares granted. Vesting is determined equally based on an operating return on equity performance factor and a total shareholder return performance factor.

Table of Contents**HCC Insurance Holdings, Inc. and Subsidiaries****Notes to Consolidated Financial Statements****(unaudited, tables in thousands except per share data)****(10) Segments**

We report HCC's results in six operating segments, including the following five insurance underwriting segments:

| | |
|--------------------------|----------------------|
| U.S. Property & Casualty | U.S. Surety & Credit |
| Professional Liability | International |
| Accident & Health | |

The Investing segment includes our consolidated investment portfolio, as well as all investment income, investment related expenses, realized investment gains and losses, and other-than-temporary impairment credit losses on investments. All investment activity is reported as revenue, consistent with our consolidated presentation.

In addition to our segments, we include a Corporate & Other category to reconcile segment results to consolidated totals. The Corporate & Other category includes corporate operating expenses not allocated to the segments, interest expense on long-term debt, foreign currency expense (benefit), and underwriting results of our Exited Lines. Our Exited Lines include product lines that we no longer write and do not expect to write in the future.

The following tables present information by business segment.

(11) Commitments and Contingencies

Catastrophe and Large Loss Exposure

We have exposure to catastrophic losses caused by natural perils (such as hurricanes, earthquakes, floods, tsunamis, hail storms and tornados), as well as from man-made events (such as terrorist attacks). The incidence, timing and severity of catastrophic losses are unpredictable. We assess our exposures in areas most vulnerable to natural catastrophes and apply procedures to ascertain our probable maximum loss from a single event. We maintain reinsurance protection that we believe is sufficient to limit our exposure to a foreseeable event. In the first quarter of 2014 and 2013, we recognized accident year net catastrophe losses, after reinsurance and reinstatement premium, of \$4.6 million and \$5.2 million, respectively, related to various small catastrophes.

Litigation

We are a party to lawsuits, arbitrations and other proceedings that arise in the normal course of our business. Many of such lawsuits, arbitrations and other proceedings involve claims under policies that we underwrite as an insurer or reinsurer, the liabilities for which, we believe, have been adequately included in our loss reserves. Also, from time to time, we are a party to lawsuits, arbitrations and other proceedings that relate to disputes with third parties, or that involve alleged errors and omissions on the part of our subsidiaries. We have provided accruals for these items to the extent we deem the losses probable and reasonably estimable. Although the ultimate outcome of these matters cannot be determined at this time, based on present information, the availability of insurance coverage and advice received from our outside legal counsel, we believe the resolution of any such matters will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Indemnifications

In conjunction with the sales of business assets and subsidiaries, we have provided indemnifications to the buyers. Certain indemnifications cover typical representations and warranties related to our responsibilities to perform under the sales contracts. Under other indemnifications, we agree to reimburse the purchasers for taxes or ERISA-related amounts, if any, assessed after the sale date but related to pre-sale activities. We cannot quantify the maximum potential exposure covered by all of our indemnifications because the indemnifications cover a variety of matters, operations and scenarios and some have no time limit. For those with a time limit, the longest indemnification expires in 2025. We accrue a loss when a valid claim is made by a purchaser and we believe we have potential exposure.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following Management's Discussion and Analysis should be read in conjunction with our Consolidated Financial Statements and the related Notes as of March 31, 2014 and December 31, 2013.

Overview

We are a specialty insurance group with offices in the United States, the United Kingdom, Spain and Ireland, transacting business in approximately 180 countries. Our shares trade on the New York Stock Exchange and closed at \$45.54 on April 25, 2014, resulting in market capitalization of \$4.6 billion.

We underwrite and manage a variety of largely non-correlated specialty insurance products through these five insurance underwriting segments: U.S. Property & Casualty, Professional Liability, Accident & Health, U.S. Surety & Credit and International. We market our insurance products through a network of independent agents and brokers, through managing general agents owned by the company, and directly to consumers. In addition, we assume insurance written by other insurance companies.

Our organization is focused on generating consistent, industry-leading combined ratios. We concentrate our insurance writings in selected specialty lines of business in which we believe we can achieve meaningful underwriting profit. We rely on experienced underwriting personnel working within defined and monitored limits and our access to and expertise in the reinsurance marketplace to limit or reduce risk. By focusing on underwriting profitability, we are able to accomplish our primary objectives of maximizing net earnings and growing book value per share.

Our major insurance companies have financial strength ratings of AA (Very Strong) from Standard & Poor's Corporation, A+ (Superior) from A.M. Best Company, Inc., AA (Very Strong) from Fitch Ratings, and A1 (Good Security) from Moody's Investors Service, Inc.

Our results and key metrics for the first quarter of 2014, compared to the first quarter of 2013, were as follows:

| | Three months ended March 31, | |
|-----------------------------------|-------------------------------------|-------------|
| | 2014 | 2013 |
| Net earnings | \$ 107,911 | \$ 105,850 |
| Earnings per diluted share | \$ 1.07 | \$ 1.05 |
| Net loss ratio | 57.2 % | 59.3 % |
| Expense ratio | 25.8 | 24.5 |
| Combined ratio | 83.0 % | 83.8 % |

Key facts about our consolidated group as of and for the quarter ended March 31, 2014 are as follows:

We had consolidated shareholders' equity of \$3.8 billion, with book value per share of \$37.79.

We produced total revenue of \$648.9 million, of which 87% related to net earned premium and 9% related to net investment income.

We purchased \$31.4 million of our common stock at an average cost of \$42.66 per share.

We declared dividends of \$0.225 per share and paid \$22.6 million of dividends.

Our debt to capital ratio was 16.1%.

Table of Contents

Comparisons in the following sections refer to the first quarter of 2014 compared to the same period of 2013. Amounts in tables are in thousands, except for earnings per share, percentages, ratios and number of employees.

Revenue

Gross written premium, net written premium and net earned premium are detailed below by segment.

| | Three months ended March 31, | |

| International | 100,733 | 105,142 |
| Exited Lines | 291 | 5,432 |
| Total net earned premium | \$ 562,612 | \$ 561,186 |

Growth in written premium occurred primarily in the: 1) Accident & Health segment, from growth of our medical stop-loss and short-term medical products and 2) International segment, from growth in all lines of business other than property treaty. See the Segment Operations section below for further discussion of the relationship and changes in premium revenue within each insurance underwriting segment.

Net investment income, which is included in our Investing segment, increased 2% quarter-over-quarter primarily due

to higher dividend income from equity securities, partially offset by lower income from reduced reinvestment yields. Our net realized investment gain increased \$11.7 million, principally due to the sale of equity securities in the first quarter of 2014. The cost basis of our fixed maturity and equity securities portfolio increased 3% from \$6.1 billion at March 31, 2013 to \$6.3 billion at March 31, 2014. The growth resulted primarily from cash flow from operations.

Table of Contents**Loss and Loss Adjustment Expense**

The tables below detail our net loss and loss adjustment expense and our net loss ratios on a consolidated basis and for our segments.

| | Three months ended March 31, | |

| Exited Lines | (253) | 4,595 |
| Net loss and loss adjustment expense | \$ 321,844 | \$ 332,697 |
| U.S. Property & Casualty | 48.1 % | 55.8 % |
| Professional Liability | 59.8 | 60.8 |
| Accident & Health | 72.8 | 73.9 |
| U.S. Surety & Credit | 29.2 | 28.0 |
| International | 41.3 | 43.7 |
| Consolidated net loss ratio | 57.2 % | 59.3 % |
| Consolidated accident year net loss ratio | 57.2 % | 59.3 % |

Net loss and loss adjustment expense (referred to as loss expense) decreased \$10.9 million in the first quarter of 2014 compared to the same period in 2013. The lower loss expense stemmed from our: 1) U.S. Property & Casualty segment, due to lower losses in our public risk business, 2) Professional Liability segment, primarily due to lower earned premium and 3) International segment, due to lower earned premium in our property treaty line of business and a lower loss ratio in our surety & credit line of business. These decreases were partially offset by higher loss expense in our Accident & Health segment, from growth of our medical stop-loss and short-term medical products. We recognized no prior year loss development in the first quarter of 2014 and 2013. See the Segment Operations section below for additional discussion of the changes in our loss expense, as well as discussion of the net loss ratios for each segment for 2014 and 2013.

Table of Contents

The table below provides a reconciliation of our consolidated reserves for loss and loss adjustment expense payable, net of reinsurance ceded, the amount of our paid claims, and our net paid loss ratio.

| | Three months ended March 31, | |
|---|-------------------------------------|---------------------|
| | 2014 | 2013 |
| Net reserves at beginning of period | \$ 2,779,401 | \$ 2,749,803 |
| Net loss and loss adjustment expense | 321,844 | 332,697 |
| Net loss and loss adjustment expense payments | (354,956) | (299,529) |
| Foreign currency adjustment | 2,552 | (21,729) |
| Net reserves at end of period | \$ 2,748,841 | \$ 2,761,242 |
| Net paid loss ratio | 63.1 % | 53.4 % |

The amount of claims paid fluctuates year-over-year due to the timing of claims settlement, the occurrence of catastrophic events and commutations, and the mix of our business. In the first quarter of 2014, we paid \$85.0 million to settle claims related to Spanish surety bonds, of which approximately 60% was reinsured, increasing the net paid loss ratio by 6.3 percentage points.

Policy Acquisition Costs

The percentage of policy acquisition costs to net earned premium was 12.3% and 11.9% for the first quarter of 2014 and 2013, respectively. The difference between periods primarily related to increased commission rates on certain of our businesses.

Other Operating Expense

Other operating expense increased 25% in 2014 compared to 2013, primarily due to the quarter-over-quarter fluctuation in foreign currency benefit/expense. We recognized foreign currency expense of \$3.9 million in the first quarter of 2014, compared to a foreign currency benefit of \$11.0 million in the first quarter of 2013. The foreign currency benefit/expense related to changes in the value of the British pound sterling and the Euro relative to the U.S. dollar.

Excluding the effect of foreign currency benefit/expense, other operating expense increased 5% quarter-over-quarter, mainly due to increased compensation and benefit costs in 2014 for our 1,917 employees. Other operating expense included stock-based compensation expense of \$4.2 million in 2014 and \$2.9 million in 2013. At March 31, 2014, there was approximately \$36.1 million of total unrecognized compensation expense related to unvested restricted stock awards and units, options and our employee stock purchase plan that is expected to be recognized over a weighted-average period of 2.7 years.

Interest Expense

Interest expense was \$7.1 million and \$6.5 million in the first quarter of 2014 and 2013, respectively, and included \$4.8 million in each period for our Senior Notes.

Income Tax Expense

Our effective income tax rate was 30.4% for the first quarter of 2014, compared to 30.1% for the same period of 2013.

Table of Contents**Segment Operations**

Each of our insurance segments bears risk for insurance coverage written within its portfolio of insurance products. Each segment generates income from premium written by our underwriting agencies, through third party agents and brokers, or on a direct basis. Certain segments also write facultative or individual account reinsurance, as well as treaty reinsurance business. In some cases, we purchase reinsurance to limit our losses from both individual policy losses and multiple policy losses from catastrophic occurrences and from aggregate losses in a year. Our segments maintain disciplined expense management and a streamlined management structure, which results in favorable expense ratios. The following provides operational information about our insurance underwriting segments and our Investing segment.

In 2014, we changed the presentation of certain categories of business that we disclose for our insurance underwriting segments and recast prior period financial data to be comparative with the revised presentation. However, we did not change our reportable segments. We believe this realignment of certain categories within segments provides better operational information for management and our shareholders.

| Other | 15,637 | 26,480 |
| Total net written premium | \$ 90,008 | \$ 103,882 |

Our U.S. Property & Casualty segment pretax earnings increased 28% quarter-over-quarter, primarily due to higher net earned premium and lower loss expense. Gross written premium decreased in the first quarter of 2014 from lower writings of Aviation business, due to price competition, and reduced writings of residual value and other products, included in Other. These reductions were largely offset by increased writings of our casualty business, included in Liability, and our disability product, included in Sports & Entertainment. Net written premium for Public Risk decreased in 2014 due to changes in our reinsurance program. Higher net earned premium, due to growth in our casualty business and the other products mentioned above, was partially offset by reduced premium earned by our Public Risk business. Loss expense decreased in 2014, compared to 2013, primarily due to lower losses in Public Risk based on re-underwriting of that book of business in 2013. The segment's expense ratio increased in 2014 due to higher compensation costs.

Regarding changes in presentation, the segment now includes Liability and Sports & Entertainment categories. The Liability category includes the prior E&O category, as well as EPLI, primary casualty and excess casualty, which were previously included in the Other category. The Sports & Entertainment category includes disability and contingency, which were previously included in the Other category.

Our Professional Liability segment pretax earnings decreased 4% in the first quarter of 2014, compared to the same period of 2013, due to lower net earned premium that was partially offset by an improved net loss ratio. The decrease in net earned premium related to lower net written premium in the second half of 2013, compared to the second half of 2012.

The Accident & Health segment pretax earnings increased 6% in the first quarter of 2014, compared to the same period of 2013. This increase was directly attributable to writing new medical stop-loss and short-term medical business, as well as rate increases on renewal business in 2014. The segment's expense ratio increased in 2014 due to higher commissions related to the short-term medical product, as well as higher compensation costs.

| Other | 21,836 | 18,613 |
| Total net written premium | \$ 151,450 | \$ 141,472 |

Our International segment pretax earnings decreased \$2.9 million in the first quarter of 2014, compared to the same period of 2013, due to lower net earned premium and a higher combined ratio in 2014. The 2014 and 2013 pretax earnings included \$4.6 million and \$5.2 million, respectively, of net catastrophe losses related to small catastrophes in our property treaty line of business. Gross written premium and net written premium increased in 2014, compared to 2013, due to increased writings in most of the segment's lines of business, partially offset by decreased writings of property treaty business. The segment's expense ratio increased in 2014 primarily due to higher compensation expense and the stronger British pound sterling compared to the U.S. dollar in 2014.

Regarding changes in presentation, the Marine & Energy category now includes the marine business, which was previously included in the Other category.

Table of Contents**Investing Segment**

We invest the majority of our funds in highly-rated fixed maturity securities, which are designated as available for sale securities. We held \$6.1 billion of fixed maturity securities at March 31, 2014. Substantially all of our fixed maturity securities were investment grade and 72% were rated AAA or AA. In addition, we held \$426.1 million of equity securities at March 31, 2014.

The following tables summarize the results and certain key metrics of our Investing segment.

| Total investments | \$ 6,949,415 | 100 % | \$ 6,718,692 | 100 % |

In the first quarter of 2014, we sold equity securities with a book value of \$142.0 million, and realized a net gain of \$21.3 million, in order to reposition our overall investment portfolio.

At March 31, 2014, we held corporate fixed maturity securities issued by foreign corporations with an aggregate fair value of \$488.6 million. In addition, we held securities issued by foreign governments, agencies or supranational entities with an aggregate fair value of \$94.1 million. At December 31, 2013, we held \$497.0 million and \$147.4 million, respectively.

Our total investments increased \$230.7 million in 2014, principally from a \$65.8 million increase in the pretax net unrealized gain and newly generated cash flow. At March 31, 2014, the net unrealized gain on our investment portfolio was \$219.9 million, compared to \$154.1 million at December 31, 2013. The increase in the net unrealized gain was due to the decline in interest rates in 2014. Rates on 10-year U.S. Treasury notes declined 31 basis points in the first quarter of 2014.

The ratings of our individual securities within our fixed maturity securities portfolio at March 31, 2014 were as follows:

| | Amount | % |
|-----|------------|------|
| AAA | \$ 846,813 | 14 % |
| AA | 3,526,715 | 58 |

| | | |

Table of Contents**Corporate & Other**

The following table summarizes activity in the Corporate & Other category.

| | Three months ended March 31, | |
|---------------------------------------|---|--------------------|
| | 2014 | 2013 |
| Net earned premium | \$ 291 | \$ 5,432 |
| Other revenue | 219 | (130) |
| Total revenue | 510 | 5,302 |
| Loss and loss adjustment expense, net | (253) | 4,595 |
| Other expense - Exited Lines | 953 | 1,339 |
| Other expense - Corporate | 12,971 | 15,365 |
| Interest expense | 7,061 | 6,386 |
| Foreign currency expense (benefit) | 3,911 | (10,984) |
| Total expense | 24,643 | 16,701 |
| Pretax loss | \$ (24,133) | \$ (11,399) |

Net earned premium decreased quarter-over-quarter as we wrote less business due to our exiting HMO and medical excess reinsurance in late 2012. Premium related to the other products included in Exited Lines was insignificant in both periods. The loss and loss adjustment expense in 2013 related to the HMO and medical excess reinsurance products.

Our Corporate expenses not allocated to the segments decreased quarter-over-quarter, primarily due to lower compensation and benefit costs and allocation of certain stock-based compensation expense to our insurance underwriting segments beginning in 2014. The impact of foreign currency benefit/expense fluctuated period-over-period principally due to changes in the value of the British pound sterling and the Euro relative to the U.S. dollar. We hold available for sale securities denominated in non-functional currencies to economically hedge the currency exchange risk on our loss reserves denominated in non-functional currencies. The foreign currency benefit/expense related to loss reserves is recorded through the income statement, while the foreign currency benefit/expense related to available for sale securities is recorded through other comprehensive income within shareholders' equity. This mismatch may cause fluctuations in our reported foreign currency benefit/expense in future periods.

Table of Contents**Liquidity and Capital Management**

We believe we have sufficient sources of liquidity at both a consolidated and insurance company legal entity level at a reasonable cost to pay claims and meet our other contractual obligations and liabilities as they become due in the short-term and long-term. Our current sources of liquidity include: 1) significant operating cash flow generated by our insurance companies, 2) our investment portfolio, most of which is held by our insurance companies, 3) our revolving loan and standby letter of credit facilities and 4) a \$1.0 billion shelf registration. Our sources of liquidity are discussed below.

Cash Flow

We manage the liquidity of our insurance companies such that each subsidiary's anticipated claims payments will be met by its own current operating cash flows, cash, short-term investments or investment maturities. Our insurance companies receive substantial cash from premiums, reinsurance recoverables, surety collateral, outward commutations, proceeds from sales and redemptions of investments, and investment income. Their principal cash outflows are for the payment of claims and loss adjustment expenses, premium payments to reinsurers, return of surety collateral, inward commutations, purchases of investments, policy acquisition costs, operating expenses, taxes and dividends paid to the parent company. We report all of the insurance companies' investing activity in our Investing segment for segment reporting purposes. Our parent company's principal cash inflows relate to its investment portfolio and dividends paid by the insurance companies, and its principal cash outflows relate to debt service, operating expenses, dividends paid to shareholders and common stock purchases. Cash provided by operating activities can fluctuate due to timing differences in the collection of premium receivables, reinsurance recoverables and surety collateral; the payment of losses, premium payables and return of surety collateral; and the completion of commutations.

The components of our net operating cash flows are summarized in the following table.

| | Three months ended | |
|--|---------------------------|-----------------|
| | March 31, | |
| | 2014 | 2013 |
| Net earnings | \$ 107,911 | \$ 105,850 |
| Change in premium, claims and other receivables, net of reinsurance, premium and claims payables | 26,907 | (2,934) |
| Change in unearned premium, net | 26,536 | 15,708 |
| Change in loss and loss adjustment expense payable, net of reinsurance recoverables | 1,305 | 17,793 |
| Change in accounts payable and accrued liabilities | (51,885) | (101,424) |
| Gain on investments | (20,246) | (8,570) |
| Other, net | 4,936 | (24,326) |
| Cash provided by operating activities | \$ 95,464 | \$ 2,097 |

Our cash provided by operating activities was \$95.5 million in the first quarter of 2014, compared to \$2.1 million in the same period of 2013. Cash provided by operating activities includes collateral funds we receive or refund for our U.S. surety business, for which we record a liability within accounts payable and accrued liabilities. We refunded U.S.

surety collateral of \$6.1 million in 2014 and \$67.1 million in 2013. In addition, we paid \$32.1 million of income tax payments in 2013, compared to minimal payments in 2014. Other fluctuations in our cash provided by operating activities relate to the timing of the collection and the payment of insurance-related receivables and payables.

The net impact of our payment of claims and collection of recoverables related to Spanish surety bonds is expected to impact our cash provided by operating activities in future periods, although the amount and timing of such payments and receipts are not determinable at this time.

Table of Contents***Investments***

At March 31, 2014, we held a \$6.9 billion investment portfolio, which included \$427.7 million of liquid short-term investments. Our fixed maturity and equity securities portfolios are classified as available for sale. We expect to hold our fixed maturity securities until maturity, but we would be able to sell these securities, as well as our equity securities, to generate cash if needed. The parent company held \$680.8 million of cash and investments at March 31, 2014, which are available to cover the holding company's required cash disbursements.

Revolving Loan and Standby Letter of Credit Facilities

At March 31, 2014, we maintained a \$600.0 million Revolving Loan Facility (Facility) with \$169.1 million of available capacity. During the past several years, we used the Facility to fund purchases of our common stock. We expect to continue to use the Facility to opportunistically repurchase stock in 2014. On April 30, 2014, we entered into an agreement to modify the Facility. Under the amended agreement, we increased the borrowing capacity under the Facility to \$825.0 million and extended the term two years to April 30, 2019. We also have a \$90.0 million Standby Letter of Credit Facility (Standby Facility) that is used to guarantee our performance in our Lloyd's of London syndicate. The Standby Facility expires in 2017. See Note 7, "Notes Payable" to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2013 for additional information related to the Facility, the Standby Facility and our long-term debt.

Share Purchases

In 2012, the Board approved a \$300.0 million stock purchase plan (the Plan). Purchases under the Plan may be made in the open market or in privately negotiated transactions from time-to-time in compliance with applicable laws, rules and regulations, including Rule 10b-18 under the Securities Exchange Act of 1934, as amended. Purchases under the Plan will be made subject to market and business conditions, the level of cash generated from our operations, cash required for acquisitions, our debt covenant compliance, and other relevant factors. The Plan does not obligate us to purchase any particular number of shares, has no expiration date, and may be suspended or discontinued at any time at the Board's discretion. As of April 25, 2014, \$167.9 million of repurchase authority remains under the Plan.

We purchased our common stock in the first quarter of 2014 and 2013 as follows:

| | Three months ended | |
|---------------------------------|---------------------------|-------------|
| | March 31, | |
| | 2014 | 2013 |
| Shares of common stock | 736 | 734 |
| Total cost | \$ 31,413 | \$ 28,769 |
| Weighted-average cost per share | \$ 42.66 | \$ 39.18 |

Shelf Registration

We have a "Universal Shelf" registration statement that expires in March 2015. The Universal Shelf provides for the issuance of \$1.0 billion of securities, which may be debt securities, equity securities, or a combination thereof. The Universal Shelf provides us the means to access the debt and equity markets relatively quickly, if we are satisfied with the current pricing in the financial markets.

Critical Accounting Policies

We provided information about our critical accounting policies in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies, in our Annual Report on Form 10-K for the year ended December 31, 2013. We have made no changes in the identification or methods of application of these policies.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the information provided in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) that are designed to ensure that required information is recorded, processed, summarized and reported within the required timeframe, as specified in rules set forth by the Securities and Exchange Commission. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed is accumulated and communicated to management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), to allow timely decisions regarding required disclosures.

Our management, with the participation of our CEO and CFO, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2014 using criteria established in the *Internal Control Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective in providing reasonable assurance of achieving the purposes described in Rule 13a-15(e) under the Act as of March 31, 2014.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Part II Other Information****Item 1. Legal Proceedings**

We are a party to lawsuits, arbitrations and other proceedings that arise in the normal course of our business. Many of such lawsuits, arbitrations and other proceedings involve claims under policies that we underwrite as an insurer or reinsurer, the liabilities for which, we believe, have been adequately included in our loss reserves. Also, from time to time, we are a party to lawsuits, arbitrations and other proceedings that relate to disputes with third parties, or that involve alleged errors and omissions on the part of our subsidiaries. We have provided accruals for these items to the extent we deem the losses probable and reasonably estimable. Although the ultimate outcome of these matters cannot be determined at this time, based on present information, the availability of insurance coverage and advice received from our outside legal counsel, we believe the resolution of any such matters will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes in the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In 2012, the Board approved the purchase of up to \$300.0 million of our common stock (the Plan). Purchases under the Plan may be made in the open market or in privately negotiated transactions from time-to-time in compliance with applicable laws, rules and regulations, including Rule 10b-18 under the Securities Exchange Act of 1934, as amended. Purchases under the Plan will be made, subject to market and business conditions, the level of cash generated from our operations, cash required for acquisitions, our debt covenant compliance, and other relevant factors. The Plan does not obligate us to purchase any particular number of shares, has no expiration date, and may be suspended or discontinued at any time at the Board's discretion. Our purchases in the first quarter of 2014 were as follows:

| Period | Total number of shares purchased | Average price paid per share | Total number of shares purchased as part of publicly announced plans or programs | Approximate dollar value of shares that may yet be purchased under the plans or programs |
|----------|----------------------------------|------------------------------|--|--|
| January | - | - | - | \$207,572,469 |
| February | 564,100 | \$41.99 | 564,100 | \$183,888,053 |
| March | 172,186 | \$44.88 | 172,186 | \$176,159,807 |
