*PROSPECTUS SUPPLEMENT
(To Prospectus dated July 28, 2014)*

30,000,000 Units

TYSON FOODS, INC.

4.75% TANGIBLE EQUITY UNITS

We are offering 30,000,000 4.75% tangible equity units, or Units. Each Unit has a stated amount of \$50. Each Unit is comprised of a prepaid stock purchase contract issued by us and a senior amortizing note due July 15, 2017 issued by us, which has an initial principal amount of \$6.82854 per amortizing note and a final installment payment date of July 15, 2017. Eight of our directors and officers and the Tyson Limited Partnership (of which 33.33% and 11.115% is controlled by our chairman John Tyson and director Barbara Tyson, respectively) will purchase an aggregate of approximately 758,400 Units in this offering. Such purchases will be made on the same terms and conditions as purchases by nonaffiliated investors and with a view toward investment, not resale.

Unless earlier redeemed by us or settled earlier at your option or at our option as described herein, on July 15, 2017 (subject to postponement in certain limited circumstances), each purchase contract will automatically settle, and we will deliver a number of shares of our Class A common stock based on the applicable market value (as defined herein) of our Class A common stock as set forth below:

if the applicable market value equals or exceeds the threshold appreciation price, which is approximately \$47.25, you will receive 1.0582 shares;

if the applicable market value is greater than \$37.80 but less than the threshold appreciation price, you will receive a number of shares having a value, based on the applicable market value, equal to \$50; and

if the applicable market value is less than or equal to \$37.80, you will receive 1.3228 shares.

At any time prior to the third scheduled trading day immediately preceding July 15, 2017, you may settle your purchase contract early, and we will deliver 1.0582 shares of our Class A common stock per purchase contract (subject to adjustment). In addition, if a fundamental change (as defined herein) occurs and you elect to settle your purchase contracts early in connection with such fundamental change, you will receive a number of shares of our Class A common stock based on the fundamental change early settlement rate, as described herein. We may elect to settle all, but not less than all, outstanding purchase contracts prior to July 15, 2017 at the early mandatory

settlement rate (as defined herein). If the Merger Agreement (as defined herein) has terminated, we may elect to settle all, but not less than all, outstanding purchase contracts at the merger redemption rate (as defined herein), by delivering notice during the five business day period immediately following April 1, 2015.

The amortizing notes will pay you equal quarterly cash installments of \$0.59375 per amortizing note, which cash payment in the aggregate will be equivalent to 4.75% per year with respect to each \$50 stated amount of Units. The amortizing notes will be our senior unsecured obligations and will rank equally with all of our other existing and future senior unsecured indebtedness, including all other senior notes issued under the indenture. The obligations under the amortizing notes will be fully and unconditionally guaranteed only by Tyson Fresh Meats, Inc., our wholly owned subsidiary. If we elect to redeem the purchase contracts or to settle the purchase contracts early, you will have the right to require us to repurchase your amortizing notes.

We have applied to list the Units on the New York Stock Exchange under the symbol TSNU, subject to satisfaction of its minimum listing standards with respect to the Units. If the Units are approved for listing, we expect trading on the New York Stock Exchange to begin within 30 calendar days after the Units are first issued.

Our Class A common stock is listed on the New York Stock Exchange under the symbol TSN. On July 30, 2014, the last reported sale price of our Class A common stock on the New York Stock Exchange was \$38.20 per share.

Concurrently with this offering of Units, we are offering 23,810,000 shares of our Class A common stock (or up to 27,381,500 if the underwriters for that offering exercise their option to purchase additional shares of Class A common stock to cover over-allotments, if any) pursuant to a separate prospectus supplement. The completion of this Units offering is not contingent on the completion of the Class A common stock offering, and the Class A common stock offering is not contingent on the completion of this Units offering. Neither this offering nor the Class A common stock offering is contingent on the acquisition of The Hillshire Brands Company or any additional debt financing.

*Investing in our Units involves risks. See **Risk Factors** beginning on page S-24 of this prospectus supplement.*

PRICE \$50 PER UNIT

	<i>Price to Public</i>	<i>Underwriting Discounts and Commissions</i>	<i>Proceeds to Company</i>
<i>Per Unit</i>	\$ 50.00	\$ 1.50	\$ 48.50
<i>Total</i>	\$ 1,500,000,000	\$ 45,000,000	\$ 1,455,000,000

Edgar Filing: TYSON FOODS INC - Form 424B5

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities, or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The underwriters do not have the option to purchase any additional Units to cover over-allotments or otherwise.

The underwriters expect to deliver the Units to purchasers on or about August 5, 2014.

ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying prospectus are part of a registration statement that we filed with the Securities and Exchange Commission using a shelf registration process.

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. The second part, the accompanying prospectus, gives more general information, some of which does not apply to this offering.

Both this prospectus supplement and the accompanying prospectus include or incorporate by reference important information about us, our Units and other information you should know before investing. You should read both this prospectus supplement and the accompanying prospectus as well as additional information described under **Where You Can Find More Information** in this prospectus supplement before investing in our Units.

Neither we nor the underwriters have authorized anyone to provide you with any information other than that contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. We and the underwriters take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. Neither we nor the underwriters are making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference is accurate only as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

Unless the context otherwise requires, in this prospectus supplement the words **the Company**, **Tyson**, **we**, **us**, and **our** refer to Tyson Foods, Inc. and not to any of its subsidiaries.

Unless we specifically state otherwise, the information in this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein and therein, assumes the completion of the concurrent Class A common stock offering described herein and that the underwriters for that offering do not exercise their over-allotment option to purchase additional shares of Class A common stock. In addition, unless we specifically state otherwise, the information in this prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein and therein, does not give effect to the Hillshire Brands Acquisition or the Debt Financings (each as defined below).

During the second quarter of fiscal 2014, we began reporting our International operations as a separate segment, which was previously included in our Chicken segment. All amounts in this prospectus supplement reflect this reclassification, and all references to our Annual Report on Form 10-K for the fiscal year ended September 28, 2013 and to our Quarterly Report on Form 10-Q for the fiscal quarter ended March 29, 2014 shall be deemed to include the reclassified amounts set forth in our Current Reports on Form 8-K filed with the Securities and Exchange Commission on July 28, 2014.

Table of Contents

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. Our SEC filings are available to the public from the SEC's website at <http://www.sec.gov>. You may also read and copy any document we file at the SEC's public reference room in Washington, D.C. located at 100 F Street, N.E., Washington D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Our Class A common stock is listed and traded on the New York Stock Exchange, or NYSE. You may also inspect the information we file with the SEC at the NYSE's offices at 20 Broad Street, New York, New York 10005. Information about us, including certain SEC filings, is also available at our website at <http://ir.tyson.com>. However, the information on our website is not a part of this prospectus supplement or the accompanying prospectus.

The SEC allows us to incorporate by reference in this prospectus supplement and the accompanying prospectus the information in other documents that we file with the SEC, which means that we can disclose important information to you by referring you to those documents. The information incorporated or deemed to be incorporated by reference is considered to be a part of this prospectus supplement and the accompanying prospectus, and information in documents that we file later with the SEC will automatically update and supersede information contained in documents filed earlier with the SEC or contained in this prospectus supplement and the accompanying prospectus.

We incorporate by reference in this prospectus supplement and the accompanying prospectus the documents listed below and any future filings that we may make with the SEC under Sections 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, prior to the termination of the offering under this prospectus supplement and the accompanying prospectus (*provided, however*, that we are not incorporating, in each case, any documents or information deemed to have been furnished and not filed in accordance with SEC rules):

Our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, including those portions of our Definitive Proxy Statement on Schedule 14A filed on December 20, 2013 that are specifically incorporated by reference into such Annual Report on Form 10-K (except for Part I, Items 1 and 2 and Part II, Items 6, 7 and 8, which were superseded by Part I, Items 1 and 2 and Part II, Items 6, 7 and 8, respectively, included in the Current Report on Form 8-K filed on July 28, 2014);

Our Quarterly Reports on Form 10-Q for the quarters ended December 28, 2013 (except for Part I, Items 1 and 2, which were superseded by Part I, Items 1 and 2, respectively, included in the Current Report on Form 8-K filed on July 28, 2014) and March 29, 2014;

Our Current Reports on Form 8-K filed with the SEC on February 4, 2014, June 4, 2014, June 10, 2014, July 1, 2014, July 2, 2014, July 17, 2014 and July 28, 2014 (except for Item 2.02 and the related Exhibit 99.1); and

Our Registration Statement on Form 8-A dated October 14, 1997.

In addition, we incorporate by reference in this prospectus supplement the risk factors disclosed in Part I, Item 1A of Hillshire Brands' Annual Report on Form 10-K for the fiscal year ended June 29, 2013.

Edgar Filing: TYSON FOODS INC - Form 424B5

Table of Contents**SPECIAL NOTE ON FORWARD-LOOKING STATEMENTS**

This prospectus contains or incorporates by reference a number of forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include statements preceded by, followed by or that include the words may, could, would, should, believe, expect, a plan, estimate, target, project, intend and similar expressions. Such forward-looking statements include, but are limited to, current views and estimates of our outlook for fiscal 2014, other future economic circumstances, industry conditions in domestic and international markets, our performance and financial results (e.g., debt levels, return on invested capital, value-added product growth, capital expenditures, tax rates, access to foreign markets and dividend policy). These forward-looking statements are subject to a number of factors and uncertainties that could cause our actual results and experiences to differ materially from anticipated results and expectations expressed in such forward-looking statements. We wish to caution readers not to place undue reliance on any forward-looking statements, which speak only as of the date made. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Among the factors that may cause actual results and experiences to differ from anticipated results and expectations expressed in such forward-looking statements are the following: (i) the effect of, or changes in, general economic conditions; (ii) fluctuations in the cost and availability of inputs and raw materials, such as live cattle, live swine, feed grains (including corn and soybean meal) and energy; (iii) market conditions for finished products, including competition from other global and domestic food processors, supply and pricing of competing products and alternative proteins and demand for alternative proteins; (iv) successful rationalization of existing facilities and operating efficiencies of the facilities; (v) risks associated with our commodity purchasing activities; (vi) access to foreign markets together with foreign economic conditions, including currency fluctuations, import/export restrictions and foreign politics; (vii) outbreak of a livestock disease (such as avian influenza (AI) or bovine spongiform encephalopathy (BSE)), which could have an adverse effect on livestock we own, the availability of livestock we purchase, consumer perception of certain protein products or our ability to access certain domestic and foreign markets; (viii) changes in availability and relative costs of labor and contract growers and our ability to maintain good relationships with employees, labor unions, contract growers and independent producers providing us livestock; (ix) issues related to food safety, including costs resulting from product recalls, regulatory compliance and any related claims or litigation; (x) changes in consumer preference and diets and our ability to identify and react to consumer trends; (xi) significant marketing plan changes by large customers or loss of one or more large customers; (xii) adverse results from litigation; (xiii) risks associated with leverage, including cost increases due to rising interest rates or changes in debt ratings or outlook; (xiv) compliance with and changes to regulations and laws (both domestic and foreign), including changes in accounting standards, tax laws, environmental laws, agricultural laws and occupational, health and safety laws; (xv) our ability to make effective acquisitions or joint ventures and successfully integrate newly acquired businesses into existing operations; (xvi) effectiveness of advertising and marketing programs; and (xvii) those factors listed under Item 1A. Risk Factors included in our Annual Report filed on Form 10-K for the year ended September 28, 2013 and subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. You should refer to the Risk Factors section of this prospectus supplement and the accompanying prospectus and to the Company's periodic and current reports filed with the SEC for specific risks which would cause actual results to be significantly different from those expressed or implied by these forward-looking statements. It is not possible to identify all of the risks, uncertainties and other factors that may affect future results. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. Accordingly, readers of this prospectus supplement and the accompanying prospectus are cautioned not to place undue reliance on the forward-looking statements.

IMPORTANT INFORMATION FOR INVESTORS AND SECURITYHOLDERS

This communication is not an offer to buy or the solicitation of an offer to sell any securities of Hillshire Brands. A solicitation and an offer to buy shares of Hillshire Brands common stock is being made pursuant to a Tender Offer Statement (including an offer to purchase, a related letter of transmittal and other offer documents) that HMB Holdings, Inc., a wholly owned subsidiary of Tyson Foods, Inc., has filed with the U.S. Securities and Exchange Commission (the "SEC"). Hillshire Brands has also filed a Solicitation/Recommendation Statement on Schedule 14D-9 with respect to the tender offer. Investors and Stockholders are urged to read the Tender Offer Statement (including an offer to purchase, a related letter of transmittal and other offer documents) and the Solicitation/Recommendation Statement on Schedule 14D-9, as well as other documents filed with the SEC, because they contain important information. The Tender Offer Statement and Solicitation/Recommendation Statement on Schedule 14D-9 have been sent free of charge to Hillshire Brands stockholders and these and other materials filed with the SEC may also be obtained from Hillshire Brands upon written request to the Investor Relations Department, 400 South Jefferson Street, Chicago, Illinois 60607, telephone number (312) 614-8100 or from Hillshire Brands' website, <http://investors.hillshirebrands.com>. In addition, all of these materials (and all other documents filed with the SEC) will be available at no charge from the SEC through its website at www.sec.gov, or by directing requests for such materials to MacKenzie Partners, Inc., the Information Agent for the offer, at (800) 322-2885 (please call (212) 929-5500 (collect) if you are located outside the U.S.).

SUMMARY

This summary highlights selected information contained elsewhere in or incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary may not contain all the information that you should consider before investing in our Units. You should carefully read the entire prospectus supplement and the accompanying prospectus, including the section entitled Risk Factors, the documents incorporated by reference in this prospectus supplement and the accompanying prospectus and our consolidated financial statements and related notes incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision.

Our Company

Founded in 1935, we are one of the world's largest meat protein companies and the second-largest food production company in the Fortune 500 with one of the most recognized brand names in the food industry. We produce, distribute and market chicken, beef, pork, prepared foods and related allied products. Our operations are conducted in five segments: Chicken, Beef, Pork, Prepared Foods and International. Some of the key factors influencing our business are customer demand for our products; the ability to maintain and grow relationships with customers and introduce new and innovative products to the marketplace; accessibility of international markets; market prices for our products; the cost and availability of live cattle and hogs, raw materials, grain and feed ingredients; and operating efficiencies of our facilities.

We operate a fully vertically integrated poultry production process. Our integrated operations consist of breeding stock, contract growers, feed production, processing, further-processing, marketing and transportation of chicken and related allied products, including animal and pet food ingredients. Through our wholly-owned subsidiary, Cobb-Vantress, Inc., we are one of the leading poultry breeding stock suppliers in the world. Investing in breeding stock research and development allows us to breed into our flocks the characteristics found to be most desirable.

We also process live fed cattle and hogs and fabricate dressed beef and pork carcasses into primal and sub-primal meat cuts, case ready beef and pork and fully-cooked meats. In addition, we derive value from allied products such as hides and variety meats sold to further processors and others.

We produce a wide range of fresh, value-added, frozen and refrigerated food products. Our products are marketed and sold primarily by our sales staff to grocery retailers, grocery wholesalers, meat distributors, warehouse club stores, military commissaries, industrial food processing companies, chain restaurants or their distributors, international export companies and domestic distributors who serve restaurants, foodservice operations such as plant and school cafeterias, convenience stores, hospitals and other vendors. Additionally, sales to the military and a portion of sales to international markets are made through independent brokers and trading companies.

On July 1, 2014, The Hillshire Brands Company, or Hillshire Brands, accepted an offer from us to be acquired at a price of \$63.00 per share, as described below under Recent Developments. Hillshire Brands is a manufacturer and marketer of high-quality, brand name food products. A leader in branded, convenient foods for the retail and foodservice markets, Hillshire Brands generated \$3,920 million of net sales in the year ended June 29, 2013 and had approximately 9,100 employees at that time. Hillshire Brands' portfolio includes iconic brands such as Jimmy Dean, Ball Park, Hillshire Farm, State Fair, Sara Lee frozen bakery and Chef Pierre pies, as well as artisanal brands Aidells, Gallo Salame, Van's Natural Foods and Golden Island premium jerky.

S-1

Table of Contents

We believe that the Hillshire Brands acquisition will provide us with several strategic and financial benefits, including:

Compelling Investment Consistent with Strategic Priorities We believe that Hillshire Brands' product portfolio will provide us with growth in higher margin, branded foods. We believe this product portfolio will complement our existing product portfolio, and provide us with added presence in the convenience and snack foods markets.

Create Market Leading Integrated Protein Platform We believe that the addition of Hillshire Brands' raw material platform will generate scale and profitability in our existing prepared foods business across both branded private label products and commodity products.

Synergy Opportunity We believe that the Hillshire Brands Acquisition presents meaningful synergy opportunities, including in the areas of purchasing, distribution, supply chain, raw material utilization and brand building.

Corporate Information

Tyson Foods, Inc. commenced business in 1935, was incorporated in Arkansas in 1947, and was reincorporated in Delaware in 1986.

Our principal executive offices are located at 2200 Don Tyson Parkway, Springdale, Arkansas 72762-6999. Our telephone number is (479) 290-4000. Our website is www.tysonfoods.com. Information on our website is not part of this prospectus supplement.

Recent Developments

Proposed Hillshire Brands Acquisition

On June 8, 2014, we submitted to Hillshire Brands a unilaterally binding offer to acquire it for \$63.00 per share in cash. The offer was accompanied by a definitive agreement and plan of merger (the "Merger Agreement") among Tyson, HMB Holdings, Inc., a Maryland corporation and a wholly-owned subsidiary of Tyson ("Merger Sub"), and Hillshire Brands, which was executed by Tyson and Merger Sub. The offer was contingent upon the termination of the merger agreement between Hillshire Brands and Pinnacle Foods, Inc., which occurred on July 1, 2014, at which time Hillshire Brands accepted the offer and executed the Merger Agreement. The Merger Agreement required that we pay to or on behalf of Hillshire Brands the termination fee of \$163.0 million due to Pinnacle upon termination of the merger agreement between Hillshire Brands and Pinnacle Foods, Inc. We refer in this prospectus supplement to our acquisition of Hillshire Brands to the extent set forth in, and pursuant to, the Merger Agreement as the "Hillshire Brands Acquisition."

On July 16, 2014, pursuant to the Merger Agreement, we commenced a tender offer to purchase all of the issued and outstanding shares of Hillshire Brands' common stock at a purchase price of \$63.00 per share in cash, without interest. The tender offer is scheduled to expire on August 12, 2014 and is subject to the condition that two-thirds of the outstanding shares of Hillshire Brands common stock shall have been validly tendered prior to the expiration of the tender offer and not withdrawn. The Merger Agreement also contains other customary conditions, including the

expiration of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended. Subject to certain conditions and limitations, Hillshire Brands granted Tyson an option to purchase from Hillshire Brands after the successful completion of the tender offer enough additional Hillshire Brands shares so that Tyson will own more than 90% of the outstanding shares of Hillshire Brands common stock, in order to facilitate the completion of the merger through the short-form procedures available under Maryland law. Following the consummation of the tender offer, and subject to the satisfaction or waiver of certain conditions set forth in the Merger Agreement, the Merger Agreement provides that Merger Sub will merge with and into Hillshire Brands, with Hillshire Brands surviving the merger as our wholly-owned

Table of Contents

subsidiary. At and following consummation of the merger, any remaining outstanding shares of Hillshire Brands common stock not owned, directly or indirectly, by us, Merger Sub or Hillshire Brands will be converted into the right to receive \$63.00 per share in cash, without interest. Appraisal rights are not available under Maryland law for the tender offer or the merger.

Financing Transactions

In addition to this offering, we intend to obtain or otherwise incur additional financing for the Hillshire Brands Acquisition as follows:

Class A Common Stock Offering. Concurrently with this offering, we are offering 23,810,000 shares of our Class A common stock (or up to 27,381,500 if the underwriters for that offering exercise their over-allotment option in full) pursuant to a separate prospectus supplement. We expect to raise approximately \$900 million in aggregate gross proceeds from the Class A common stock offering (assuming the underwriters for that offering do not exercise their over-allotment option).

Debt Financings. We intend to obtain or otherwise incur up to approximately \$5,750.0 million of indebtedness to fund the Hillshire Brands Acquisition, and related fees and expenses, which we refer to in this prospectus supplement as the Debt Financings. We currently expect that the Debt Financings will include:

three-year and five-year senior unsecured term loans in an aggregate principal amount of up to approximately \$2,500.0 million, which we refer to in this prospectus supplement as the New Term Loans ; and

one or more series of senior unsecured notes in an aggregate principal amount of up to approximately \$3,250.0 million, which we refer to in this prospectus supplement as the New Notes.

On June 27, 2014, we also amended our existing revolving credit facility to, among other things, permit the Hillshire Brands Acquisition without resulting in the occurrence of a default or event of default under that facility. However, we do not expect to draw under this facility to fund any portion of the Hillshire Brands Acquisition. See Description of Indebtedness.

The completion of this tangible equity units offering is not contingent upon the completion of the Class A common stock offering, the Debt Financings or the Hillshire Brands Acquisition. Accordingly, even if the Hillshire Brands Acquisition or the other financing transactions do not occur, the shares of our Class A common stock sold in this offering will remain outstanding, and we will not have any obligation to offer to repurchase any or all of the shares of Class A common stock sold in this offering.

In addition, if the Hillshire Brands Acquisition is not consummated, we do not expect any debt under the proposed Debt Financings to be outstanding, other than the New Notes, which we expect to contain a special mandatory redemption requirement if the Hillshire Brands Acquisition is not consummated by a specified date. See Use of Proceeds.

We cannot assure you that we will complete the Hillshire Brands Acquisition or any of the other financing transactions on the terms contemplated in this prospectus supplement or at all.

Note: During the second quarter of fiscal 2014, we began reporting our International operation as a separate segment, which was previously included in our Chicken segment. The International segment includes our foreign operations related to raising and processing live chickens in Brazil, China, India and Mexico. All periods presented have been reclassified to reflect this change.

Third quarter and nine months of fiscal 2014

Operating income was reduced by \$49 million in the Prepared Foods segment for impairments related to the closure of three plants.

Operating income was reduced by \$7 million in Other for third party transaction fees incurred as part of the Hillshire Brands acquisition.

Chicken Sales volumes for the third quarter and nine months of fiscal 2014 grew as a result of stronger demand for chicken products and mix of rendered product sales. Average sales price decreased as feed ingredient costs declined, partially offset by mix changes. Operating income for the third quarter of fiscal 2014 was negatively impacted by rapidly rising costs of outside meat purchases as well as operational disruptions at two of our facilities. For the nine months of fiscal 2014, operating income increased due to higher sales volume and lower feed ingredient costs, partially offset by decreased average sales price. Feed costs decreased \$120 million and \$460 million for the third quarter and nine months of fiscal 2014, respectively.

Beef Sales volumes decreased for the third quarter of fiscal 2014 due to a reduction in live cattle processed. However, sales volumes were up for the nine months of fiscal 2014 due to better domestic demand for our beef products, partially offset by reduced exports. Average sales price increased due to lower domestic availability of fed cattle supplies, which additionally drove up livestock costs. Operating income decreased for the third quarter of fiscal 2014 due to higher fed cattle costs and periods of reduced demand for beef products, which made it difficult to pass along increased input costs, as well as lower sales volumes and increased operating costs. For the nine months of fiscal 2014, operating income increased due to improved

Edgar Filing: TYSON FOODS INC - Form 424B5

operational execution and maximizing our revenues relative to the rising live cattle markets, partially offset by increased operating costs.

Pork Sales volumes increased as a result of better domestic demand for our pork products. Average sales price increased due to lower total hog supplies, which additionally resulted in higher input costs. Operating income increased as we maximized our revenues relative to live hog markets, partially attributable to operational and mix performance.

Prepared Foods Sales volumes increased as a result of improved demand for our prepared foods products and incremental volumes from the purchase of three businesses. Average sales price increased due to better product mix and price increases associated with higher input costs. Operating income decreased as a result of higher raw material and other input costs of approximately \$95 million and

S-5

Table of Contents

\$160 million for the third quarter and nine months of fiscal 2014, respectively, and additional costs incurred as we invested in our growth platforms. Because many of our sales contracts are formula based or shorter-term in nature, we are typically able to offset rising input costs through pricing. However, there is a lag time for price increases to take effect. Additionally, in the third quarter of fiscal 2014, we incurred a \$49 million impairment charge related to the planned closure of three plants, which are expected to cease operation by mid-fiscal 2015.

International Sales volumes increased as we grew our businesses in Brazil and China. Average sales price decreased due to poor export market conditions in Brazil, supply imbalances associated with weak demand in China and a less favorable pricing environment in Mexico. Operating income decreased due to poor operational execution in Brazil, challenging market conditions in Brazil and China and additional costs incurred as we grew our International operation.

(b) Excludes the amortization of debt discount expense of \$5 million and \$21 million for the nine months ended June 28, 2014, and June 29, 2013, respectively, and \$28 million for the fiscal year ended September 28, 2013, as it is included in Interest expense.

EBITDA represents net income, net of interest, income tax and depreciation and amortization. EBITDA is presented as a supplemental financial measurement in the evaluation of our business. We believe the presentation of this financial measure helps investors to assess our operating performance from period to period and enhances understanding of our financial performance and highlights operational trends. This measure is widely used by investors and rating agencies in the valuation, comparison, rating and investment recommendations of companies. However, the measurement of EBITDA may not be comparable to those of other companies in our industry, which limits its usefulness as a comparative measure. EBITDA is not a measure required by or calculated in accordance with GAAP and should not be considered as a substitute for net income or any other measure of financial performance reported in accordance with GAAP or as a measure of operating cash flow or liquidity. EBITDA is a useful tool for assessing, but is not a reliable indicator of, our ability to generate cash to service our debt obligations because certain of the items added to net income to determine EBITDA involve outlays of cash. As a result, actual cash available to

service our debt obligations will be different from EBITDA. Investors should rely primarily on our GAAP results, and use non-GAAP financial measures only supplementally, in making investment decisions.

Accordingly, PricewaterhouseCoopers LLP does not express an opinion or any other form of assurance with respect thereto.

Table of Contents**THE OFFERING**

The summary below describes the principal terms of the Units, the purchase contracts and the amortizing notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. The Description of the Units, Description of the Purchase Contracts and Description of the Amortizing Notes sections of this prospectus supplement contain a more detailed description of the terms and conditions of the Units, the purchase contracts and the amortizing notes. As used in this section, the term the Company means Tyson Foods, Inc. and does not include any subsidiary of Tyson Foods, Inc.

The Units

Issuer	Tyson Foods, Inc., a Delaware corporation.
Number of Units offered	30,000,000 Units. The underwriters do not have the option to purchase additional Units to cover over-allotments or otherwise.
Stated amount of each Unit	\$50 for each Unit.
Components of each Unit	Each Unit is comprised of two parts: <ul style="list-style-type: none"> a prepaid stock purchase contract issued by the Company (a purchase contract); and a senior amortizing note issued by the Company (an amortizing note). <p>Unless earlier redeemed by us in connection with a merger termination redemption or settled earlier at the holder's option or at our option, each purchase contract will, subject to postponement in certain limited circumstances, automatically settle on July 15, 2017 (such date, as so postponed (if applicable), the mandatory settlement date), and we will deliver not more than 1.3228 shares and not less than 1.0582 shares of our Class A common stock per purchase contract, subject to adjustment, based upon the applicable settlement rate and applicable market value of our Class A common stock, as described below under Description of the Purchase Contracts Delivery of Class A Common Stock.</p> <p>No fractional shares of our Class A common stock will be issued to holders upon settlement of purchase contracts. In lieu of fractional shares, holders will be entitled to receive a cash payment of equivalent value calculated as described herein. Other than cash payments in lieu of fractional shares or, under certain</p>

circumstances, in the event of a merger termination redemption, the purchase contract holders will not receive any cash distributions under the purchase contracts.

Each amortizing note will have an initial principal amount of \$6.82854, will bear interest at the rate of 1.50% per annum and will have a final installment payment date of July 15, 2017. On each January 15, April 15,

S-13

Table of Contents

July 15 and October 15 commencing on October 15, 2014, the Company will pay equal quarterly cash installments of \$0.59375 per amortizing note (except for the October 15, 2014 installment payment, which will be \$0.46181 per amortizing note), which cash payment in the aggregate per year will be equivalent to 4.75% per year with respect to each \$50 stated amount of Units. Each installment will constitute a payment of interest and a partial repayment of principal, allocated as set forth on the amortization schedule set forth under

Description of the Amortizing Notes Amortization Schedule.

The return to an investor on a Unit will depend upon the return provided by each component. The overall return will consist of the value of the shares of our Class A common stock delivered upon settlement of the purchase contracts and the cash installments paid on the amortizing notes.

Each Unit may be separated into its components

Each Unit may be separated by a holder into its constituent purchase contract and amortizing note on any business day during the period beginning on, and including, the business day immediately following the date of initial issuance of the Units to, but excluding, the third scheduled trading day immediately preceding July 15, 2017 or any early mandatory settlement date or merger redemption settlement date. Prior to separation, the purchase contracts and amortizing notes may only be purchased and transferred together as Units. See Description of the Units Separating and Recreating Units.

A Unit may be recreated from its components

If you hold a separate purchase contract and a separate amortizing note, you may combine the two components to recreate a Unit. See Description of the Units Separating and Recreating Units.

Trading

We have applied to list the Units on the New York Stock Exchange under the symbol TSNU, subject to satisfaction of its minimum listing standards with respect to the Units. If approved for listing, we expect trading on the New York Stock Exchange to begin within 30 calendar days after the Units are first issued. However, we will not initially apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system, but we may apply to list such separate purchase contracts and separate amortizing notes in the future as described under Description of

the Units Listing of Securities. Prior to this offering, there has been no public market for the Units.

S-14

Table of Contents

Use of Proceeds

Our Class A common stock is listed on The New York Stock Exchange under the symbol TSN.

We estimate that the net proceeds from this offering, after deducting underwriting discounts and commissions and estimated offering expenses, will be approximately \$1,454 million. We intend to use the net proceeds from this offering, together with the net proceeds of the concurrent Class A common stock offering, the Debt Financings and cash on hand to finance the Hillshire Brands Acquisition and to pay related fees and expenses. If for any reason the Hillshire Brands Acquisition is not consummated, then we intend to use the net proceeds from this offering for general corporate purposes. See Recent Developments above.

U.S. federal income tax considerations

As required by the Merger Agreement, the net proceeds of this offering and the concurrent Class A common stock offering (net of our good faith estimate of offering fees and expenses) will be placed into an escrow account, pending release upon consummation of, and to partially fund, the Hillshire Brands Acquisition (or, if earlier, upon termination of the Merger Agreement).

Although there is no authority directly on point and therefore the issue is not entirely free from doubt, each Unit will be treated as an investment unit composed of two separate instruments for U.S. federal income tax purposes, including amortizing notes which will be treated as indebtedness for U.S. federal income tax purposes. Under this treatment, a holder of Units will be treated as if it held each component of the Units for U.S. federal income tax purposes. By acquiring a Unit, you will agree to treat (i) a Unit as an investment unit composed of two separate instruments in accordance with its form and (ii) the amortizing notes as indebtedness of the Company for U.S. federal income tax purposes. If, however, the components of a Unit were treated as a single instrument, the U.S. federal income tax consequences could differ from the consequences described herein.

Prospective investors should consult their tax advisors regarding the tax treatment of an investment in Units and whether a purchase of a Unit is advisable in light of the investor's particular tax situation and the tax

treatment described under Material United States Federal Income Tax Consequences.

Risk Factors

See Risk Factors beginning on page S-24 of this prospectus supplement and other information

S-15

Table of Contents

included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of the factors you should carefully consider before deciding to invest in the Units.

The Purchase Contracts

The Purchase Contracts Mandatory settlement date

July 15, 2017, subject to postponement in limited circumstances.

Mandatory settlement

On the mandatory settlement date, unless such purchase contract has been earlier redeemed by us in connection with a merger termination redemption or earlier settled at the holder's option or at our option, each purchase contract will automatically settle, and we will deliver a number of shares of our Class A common stock, based on the applicable settlement rate.

Settlement rate for the mandatory settlement date

The settlement rate for each purchase contract will be not more than 1.3228 shares and not less than 1.0582 shares of our Class A common stock (each subject to adjustment as described herein) depending on the applicable market value of our Class A common stock, calculated as described below.

If the applicable market value is equal to or greater than the threshold appreciation price (as defined below), you will receive 1.0582 shares of Class A common stock per purchase contract (the minimum settlement rate).

If the applicable market value is greater than \$37.80 (the reference price) but less than the threshold appreciation price, you will receive a number of shares per purchase contract equal to \$50, *divided by* the applicable market value.

If the applicable market value is less than or equal to the reference price, you will receive 1.3228 shares of Class A common stock per purchase contract (the maximum settlement rate).

Each of the maximum settlement rate and the minimum settlement rate is subject to adjustment as described below under Description of the Purchase Contracts Adjustments to the Fixed Settlement Rates.

The applicable market value means the average of the closing prices (as defined below) of our Class A common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding July 15, 2017.

Table of Contents

The reference price is the public offering price of our Class A common stock in the concurrent common stock offering described above.

The threshold appreciation price shall be equal to \$50 divided by the minimum settlement rate (rounded to the nearest \$0.0001). The threshold appreciation price, which is initially \$47.25, represents an approximately 25% appreciation over the reference price.

No fractional shares of our Class A common stock will be issued to holders upon settlement of purchase contracts. In lieu of fractional shares, holders will be entitled to receive a cash payment of equivalent value calculated as described herein. Other than cash payments in lieu of fractional shares or, under certain circumstances, in the event of a merger termination redemption, the purchase contract holders will not receive any cash distributions.

The following table illustrates the settlement rate per purchase contract and the value of our Class A common stock issuable upon settlement on the mandatory settlement date, determined using the applicable market value shown, subject to adjustment.

Applicable Market Value of Our Class A Common Stock	Settlement Rate	Value of Class A Common Stock Delivered (Based on the Applicable Market Value Thereof)
Less than or equal to \$37.80	1.3228 shares of our Class A common stock	Less than or equal to \$50
Greater than \$37.80 but less than the threshold appreciation price	A number of shares of our Class A common stock equal to \$50 divided by the applicable market value	\$50
Equal to or greater than the threshold appreciation price	1.0582 shares of our Class A common stock	Greater than or equal to \$50

Early settlement at your election

At any time prior to 5:00 p.m., New York City time, on the third scheduled trading day immediately preceding July 15, 2017, you may settle any or all of your purchase contracts early, in which case we will deliver a number of shares of our Class A common stock per purchase contract equal to the minimum settlement rate, which is subject to adjustment as described below under **Description of the Purchase Contracts** **Adjustments to the Fixed Settlement Rates**.

That is, the market value of our Class A common stock on the early settlement date will not affect the early settlement rate. Your right to settle your purchase contract prior to the third scheduled trading day immediately preceding July 15, 2017 is subject to the delivery of your purchase contract.

S-17

Table of Contents

<p>Early settlement at your election upon a fundamental change</p>	<p>Upon early settlement at your election of a purchase contract that is a component of a Unit, the corresponding amortizing note will remain outstanding and beneficially owned by or registered in the name of, as the case may be, the holder who elected to settle the related purchase contract early.</p>
<p>Early mandatory settlement at our election</p>	<p>At any time prior to the third scheduled trading day immediately preceding July 15, 2017, if a fundamental change (as defined herein) occurs, you may settle any or all of your purchase contracts early. If you elect to settle your purchase contracts early in connection with such fundamental change, you will receive a number of shares of our Class A common stock based on the fundamental change early settlement rate as described under Description of the Purchase Contracts Early Settlement Upon a Fundamental Change.</p> <p>Upon early settlement at your election in connection with a fundamental change of a purchase contract that is a component of a Unit, the corresponding amortizing note will remain outstanding and beneficially owned by or registered in the name of, as the case may be, the holder who elected to settle the related purchase contract early upon such fundamental change.</p> <p>We may elect to settle all, but not less than all, outstanding purchase contracts early at the early mandatory settlement rate (as described under Description of the Purchase Contracts Early Settlement at Our Election) upon a date fixed by us upon not less than five business days notice (the early mandatory settlement date).</p> <p>The early mandatory settlement rate will be the maximum settlement rate, unless the closing price of our Class A common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the trading day immediately preceding the notice date (as defined under Early Settlement at Our Election below) exceeds 140% of the threshold appreciation price in effect on each such trading day, in which case the early mandatory settlement rate will be the minimum settlement rate.</p>

If we elect to settle all the purchase contracts early, you will have the right to require us to repurchase your amortizing notes, except in certain circumstances, on the repurchase date and at the repurchase price as described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

S-18

Table of Contents

Merger termination redemption

If the Merger Agreement has terminated, we may elect to redeem all, but not less than all, of the outstanding purchase contracts (a merger termination redemption), for the applicable redemption amount, as described below under Description of the Purchase Contracts Merger Termination Redemption, by delivering notice during the five business day period immediately following April 1, 2015.

If the merger termination stock price is equal to or less than the reference price, the redemption amount will be an amount of cash as described under Description of the Purchase Contracts Merger Termination Redemption. Otherwise, the redemption amount will be a number of shares of our Class A common stock equal to the merger redemption rate, calculated in the manner described under Description of the Purchase Contracts Merger Termination Redemption, ; *provided, however,* that we may elect to pay cash in lieu of any or all of such shares in an amount equal to the redemption market value thereof.

The redemption market value means the average of the closing prices of our Class A common stock for 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding the scheduled merger redemption settlement date.

In the event of a merger termination redemption, you will have the right to require us to repurchase your amortizing notes, as described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

The Amortizing Notes

Issuer

Tyson Foods, Inc., a Delaware corporation

Initial principal amount of each amortizing note

\$6.82854

Installment payments

Each installment payment of \$0.59375 per amortizing note (except for the October 15, 2014 installment payment, which will be \$0.46181 per amortizing note) will be paid in cash and will constitute a partial

repayment of principal and a payment of interest, computed at an annual rate of 1.50%. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months. Payments will be applied first to the interest due and payable and then to the reduction of the unpaid principal amount, allocated as set forth on the amortization schedule set forth under Description of the Amortizing Notes Amortization Schedule.

S-19

Table of Contents

Installment payment dates

Each January 15, April 15, July 15 and October 15, commencing on October 15, 2014, with a final installment payment date of July 15, 2017.

Senior Guarantee

Tyson Fresh Meats, Inc., a wholly owned subsidiary of the Company (the Guarantor), will unconditionally guarantee on a senior basis all of the Company's obligations under the amortizing notes. If the Company cannot make payments on the amortizing notes when they are due, the Guarantor must make the payments instead.

Ranking of the amortizing notes and subsidiary guarantee

The amortizing notes are senior obligations of the Company and will not be secured by any collateral. Your right to payment under the amortizing notes will be:

junior to the rights of secured creditors to the extent of their security in the Company's assets;

equal with the rights of creditors under other existing and future unsecured senior debt of the Company;

senior to the rights of creditors under existing and future debt that is expressly subordinated to the amortizing notes, if any; and

structurally junior to all indebtedness and other liabilities (including trade payables) of our subsidiaries (other than the Guarantor).

The senior guarantee of the amortizing notes is the senior obligation of the Guarantor and will not be secured by any collateral. Your right to payment under the senior guarantee will be:

junior to the rights of secured creditors of the relevant Guarantor to the extent of their security in the relevant Guarantor's assets;

equal with the rights of creditors under the Guarantor's existing and future senior unsecured indebtedness;

senior to the rights of creditors under the Guarantor's existing and future debt that is expressly subordinated to such senior guarantee, if any; and

structurally junior to all indebtedness and other liabilities (including trade payables) of the Guarantor's subsidiaries.

S-20

Table of Contents

See Description of the Amortizing Notes Ranking below.

As of March 29, 2014, after giving pro forma effect to the Hillshire Brands Acquisition and the related financing transactions as described under Unaudited Pro Forma Condensed Consolidated Financial Information, Tyson and its consolidated subsidiaries would have had outstanding, on a consolidated basis, \$8,866 million of total debt, including:

\$1,940 million of total debt of Tyson and the Guarantor outstanding as of such date (none of which would have been secured indebtedness);

\$942 million of assumed debt from Hillshire Brands;

\$2,500.0 million under the New Term Loans; and

\$3,250.0 million under the New Notes.

In addition, as of such date but prior to giving pro forma effect to the Hillshire Brands Acquisition and such related financing transactions, Tyson's subsidiaries other than the Guarantor would have had \$227 million of total debt (including \$59.0 million of intercompany indebtedness), none of which would have been secured indebtedness. See Unaudited Pro Forma Condensed Consolidated Financial Information and our Quarterly Report on Form 10-Q for the quarterly period ended March 29, 2014 under Part I, Item 1, Notes to Consolidated Condensed Financial Statements, Note 7: Debt and Note 16: Condensed Consolidating Financial Statements.

Repurchase of amortizing notes at the option of the holder

If we elect to settle the purchase contracts early or in the event of a merger termination redemption, holders will have the right to require us to repurchase their amortizing notes for cash at the repurchase price as described under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder.

Table of Contents**SUMMARY HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF TYSON**

The following table presents our summary historical consolidated financial data. The summary historical consolidated financial information is derived from the financial statements we have incorporated by reference into this prospectus supplement and the accompanying prospectus.

S-23

Table of Contents**RISK FACTORS**

Any investment in our Units involves a high degree of risk. You should carefully consider the risks described below and all of the information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus before deciding whether to purchase our Units. In addition, you should carefully consider, among other things, the matters discussed (i) under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, (ii) under Risk Factors in Hillshire Brands Annual Report on Form 10-K for the fiscal year ended June 29, 2013 and (iii) in other documents that we subsequently file with the Securities and Exchange Commission, all of which are incorporated by reference into this prospectus supplement. The risks and uncertainties described in such incorporated documents and described below are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. In that event, the trading price of our Units could decline, and you may lose all or part of your investment in our Units. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See Special Note on Forward-Looking Statements.

Risks Related to the Proposed Hillshire Brands Acquisition

If the Hillshire Brands Acquisition is consummated, we may be unable to successfully integrate Hillshire Brands operations or to realize targeted cost savings, revenues and other benefits of the Hillshire Brands Acquisition.

We entered into the Merger Agreement because we believe that the Hillshire Brands Acquisition will be beneficial to us and our stockholders. Achieving the targeted benefits of the Hillshire Brands Acquisition will depend in part upon whether we can integrate Hillshire Brands businesses in an efficient and effective manner. We may not be able to accomplish this integration process smoothly or successfully. The necessity of coordinating geographically separated organizations, systems and facilities and addressing possible differences in business backgrounds, corporate cultures and management philosophies may increase the difficulties of integration. We and Hillshire Brands operate numerous systems, including those involving management information, purchasing, accounting and finance, sales, billing, employee benefits, payroll and regulatory compliance. Moreover, the integration of our respective operations will require the dedication of significant management resources, which is likely to distract management's attention from day-to-day operations. Employee uncertainty and lack of focus during the integration process may also disrupt our business and result in undesired employee attrition. An inability of management to successfully integrate the operations of the two companies could have a material adverse effect on the business, results of operations and financial condition of the combined businesses.

In addition, we continue to evaluate our estimates of synergies to be realized from the Hillshire Brands Acquisition and refine them, so that our actual cost-savings could differ materially from our current estimates. Actual cost-savings, the costs required to realize the cost-savings and the source of the cost-savings could differ materially from our estimates, and we cannot assure you that we will achieve the full amount of cost-savings on the schedule anticipated or at all or that these cost-savings programs will not have other adverse effects on our business. In light of these uncertainties, you should not place undue reliance on our estimated cost-savings.

Finally, we may not be able to achieve the targeted operating or long-term strategic benefits of the Hillshire Brands Acquisition or could incur higher transition costs. An inability to realize the full extent of, or any of, the anticipated benefits of the Hillshire Brands Acquisition, as well as any delays encountered in the integration process, could have an adverse effect on our business, results of operations and financial condition.

S-24

Table of Contents

We will incur significant transaction and acquisition-related costs in connection with the Hillshire Brands Acquisition.

We expect to incur significant costs associated with the Hillshire Brands Acquisition and combining the operations of the two companies, including costs to achieve targeted cost-savings. The substantial majority of the expenses resulting from the Hillshire Brands Acquisition will be composed of transaction costs related to the Hillshire Brands Acquisition, systems consolidation costs, and business integration and employment-related costs, including costs for severance, retention and other restructuring. We may also incur transaction fees and costs related to formulating integration plans. Additional unanticipated costs may be incurred in the integration of the two companies' businesses. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses, should allow us to offset incremental transaction and acquisition-related costs over time, this net benefit may not be achieved in the near term, or at all.

The announcement and pendency of the Hillshire Brands Acquisition could impact or cause disruptions in our and Hillshire Brands' businesses.

Specifically:

our and Hillshire Brands' current and prospective customers and suppliers may experience uncertainty associated with the Hillshire Brands Acquisition, including with respect to current or future business relationships with us, Hillshire Brands or the combined business and may attempt to negotiate changes in existing business;

our and Hillshire Brands' employees may experience uncertainty about their future roles with us, which may adversely affect our and Hillshire Brands' ability to retain and hire key employees;

the Hillshire Brands Acquisition may give rise to potential liabilities, including as a result of pending and future Hillshire Brands shareholder lawsuits relating to the Hillshire Brands Acquisition;

if the Hillshire Brands Acquisition is completed, the accelerated vesting of equity-based awards and payment of change in control benefits to some members of Hillshire Brands' management on completion of the Hillshire Brands Acquisition could result in increased difficulty or cost in retaining Hillshire Brands' officers and employees; and

the attention of our management and that of Hillshire Brands may be directed toward the completion and implementation of the Hillshire Brands Acquisition and transaction-related considerations and may be diverted from the day-to-day business operations of the respective companies.

In connection with the Hillshire Brands Acquisition, we could also encounter additional transaction and integration-related costs or other factors such as the failure to realize all of the benefits anticipated in the Hillshire Brands Acquisition, as described in more detail above.

The Hillshire Brands Acquisition may not be successful.

We recently announced our entry into the Merger Agreement to acquire Hillshire Brands. Risks associated with the Hillshire Brands Acquisition include the risk that the transaction may not be consummated, the risk that regulatory approval that may be required for the transaction is not obtained or is obtained subject to certain conditions that are not anticipated, litigation risk associated with claims or potential claims brought by shareholders of Hillshire Brands to enjoin the transaction or seek monetary damages, and risks associated with our ability to issue debt to fund a portion of the purchase price. In addition, if the Hillshire Brands Acquisition does not close, we will have significant discretion to allocate the proceeds from this offering and our concurrent Class A common stock offering to other uses. We have no assurances that we will have opportunities to allocate the proceeds from our concurrent Class A common stock offering for other productive uses or that other uses of the proceeds from this offering and our concurrent Class A common stock offering will result in a favorable return to investors.

S-25

Table of Contents

Risks Related to the Units, Separate Purchase Contracts, Separate Amortizing Notes and Class A Common Stock

If we fail to consummate the Hillshire Brands Acquisition, we may redeem the purchase contracts for an amount of cash and/or a number of shares of Class A common stock (depending on the price of Class A common stock at the time of redemption) with a value that may not adequately compensate you for any lost option value.

If the Hillshire Brands Acquisition is not consummated for any reason, we may redeem all, but not less than all, of the outstanding purchase contracts by delivering notice within the five business days immediately following April 1, 2015. We will pay a redemption amount to be determined based on the Class A common stock price at that time in cash or in shares of Class A common stock in accordance with the terms of the purchase contracts (as described under Description of the Purchase Contracts Merger Termination Redemption). If we elect to redeem the purchase contracts, we may be required by the holders thereof to repurchase the amortizing notes at the repurchase price set forth under Description of the Amortizing Notes Repurchase of Amortizing Notes at the Option of the Holder. The redemption amount that you receive upon a merger termination redemption may not adequately compensate you for any lost option value of the purchase contracts. In addition, if the Hillshire Brands Acquisition terminates for any reason, the net proceeds of this offering and of the concurrent Class A Common Stock Offering, if completed, will not be used to consummate such acquisition. Instead, we intend to use the net proceeds from this offering and concurrent Class A Common Stock Offering, if completed, after payment of any cash redemption amount and/or repurchase price, as described above, for general corporate purposes.

Upon redemption of the purchase contracts included in Units or separate purchase contracts in connection with a merger termination redemption, Class A common stock may incur immediate net tangible book value dilution on a per share basis.

You will bear the risk that the market value of our Class A common stock may decline.

The market price of our Class A common stock may be volatile. The market price of our Class A common stock has experienced, and may continue to experience, significant volatility. Between October 2, 2011 (the first day of our fiscal year 2012) and July 30, 2014, the closing sale price of our Class A common stock on the New York Stock Exchange has ranged from a low of \$14.17 per share to a high of \$44.01 per share. Numerous factors, including many over which we have no control, may have a significant impact on the market price of our Class A common stock. These risks include those described or referred to in this Risk Factors section and in the other documents incorporated herein by reference as well as, among other things:

our operating and financial performance and prospects that vary from expectations of management, securities analysts and investors;

our ability to repay our debt or adverse market reaction to any additional debt that we may incur;

developments in our business or in sectors in which we operate generally;

the operating and securities price performance of companies that investors consider to be comparable to us;

investor perceptions of us and the industry and markets in which we operate;

announcements of strategic developments, acquisitions and other material events by us or our competitors;

failure to complete the Hillshire Brands Acquisition, if completed, failure to realize the anticipated benefits of such acquisition;

our dividend policy;

future sales of equity or equity-related securities;

S-26

Table of Contents

changes in earnings estimates or buy/sell recommendations by analysts; and

general financial, domestic, international, economic and other market conditions.

In addition, the stock market in recent years has experienced extreme price and trading volume fluctuations that often have been unrelated or disproportionate to the operating performance of individual companies. These broad market fluctuations may adversely affect the price of our Class A common stock, regardless of our operating performance. Furthermore, stockholders may initiate securities class action lawsuits if the market price of our stock drops significantly, which may cause us to incur substantial costs and could divert the time and attention of our management. As a result of these factors, among others, the value of your investment may decline because a decrease in the market price of our Class A common stock would likely adversely impact the trading price of the amortizing notes.

The purchase contracts, pursuant to which we will deliver to you shares of our Class A common stock, are components of the Units. The number of shares of Class A common stock that you will receive upon settlement of a purchase contract on the mandatory settlement date, whether as a component of a Unit or a separate purchase contract, will depend upon the applicable market value, which is equal to the average of the daily closing prices of our Class A common stock on each of the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding July 15, 2017. There can be no assurance that the market value of the Class A common stock received by you will be equal to or greater than the reference price of \$37.80. If the applicable market value of our Class A common stock is less than the reference price, then the market value of the Class A common stock issued to you on the mandatory settlement date (assuming that the market value is the same as the applicable market value of the Class A common stock) will be less than the effective price per share paid by you for such Class A common stock on the date of issuance of the Units. Furthermore, because we will in no event deliver more than 1.3228 shares (subject to adjustment as described herein) upon settlement of a purchase contract, the market value of the Class A common stock delivered to you upon any early settlement may be less than the effective price per share paid to you for such Class A common stock on the date of the issuance of the Units. Therefore, you assume the entire risk that the market value of our Class A common stock may decline before the mandatory settlement date, early settlement date, fundamental change early settlement date, merger redemption settlement date or early mandatory settlement date, as applicable. Any decline in the market value of our Class A common stock may be substantial.

The opportunity for equity appreciation provided by an investment in the Units is less than that provided by a direct investment in our Class A common stock.

The aggregate market value of our Class A common stock delivered to you upon settlement of a purchase contract on the mandatory settlement date generally will exceed the \$50 stated amount of each Unit only if the applicable market value of our Class A common stock exceeds the threshold appreciation price. Therefore, during the period prior to the mandatory settlement date, an investment in a Unit affords less opportunity for equity appreciation than a direct investment in our Class A common stock. If the applicable market value exceeds the reference price but is less than the threshold appreciation price, you will realize no equity appreciation on our Class A common stock above the reference price. Furthermore, if the applicable market value exceeds the threshold appreciation price, you would receive only a portion of the appreciation in the market value of the shares of our Class A common stock you would have received had you purchased shares of Class A common stock with \$50 at the public offering price in the concurrent common stock offering. See [Description of the Purchase Contracts](#) [Delivery of Class A Common Stock](#) for a table showing the number of shares of Class A common stock that you would receive at various applicable market values.

We may not be able to settle or redeem your purchase contracts and deliver shares of our Class A common stock, or make payments on the amortizing notes or repurchase the amortizing notes, in the event that we file for bankruptcy.

Pursuant to the terms of the purchase contract agreement, your purchase contracts will automatically accelerate upon the occurrence of specified events of bankruptcy, insolvency or reorganization with respect to us.

S-27

Table of Contents

A bankruptcy court may prevent us from delivering our Class A common stock to you in settlement or redemption of your purchase contracts. In such circumstances or if for any other reason the accelerated purchase contracts are not settled by the delivery of Class A common stock, your resulting claim for damages against us following such acceleration will rank *pari passu* with the claims of holders of our Class A common stock in the relevant bankruptcy proceeding. As such, to the extent we fail to deliver Class A common stock to you upon such an acceleration, you will only be able to recover damages to the extent holders of our Class A common stock receive any recovery. See

Description of the Purchase Contracts Consequences of Bankruptcy.

In addition, with respect to the amortizing notes, bankruptcy law and bankruptcy related court orders generally prohibit the payment of pre-bankruptcy debt by a company that has commenced a bankruptcy case while the case is pending. If we become a debtor in a bankruptcy case, so long as the case was pending, you would likely not receive timely installment payments under, or, if you exercised your right to require repurchase following a merger termination redemption or early mandatory settlement, receive any repurchase price on, the amortizing notes.

The amortizing notes are obligations of Tyson Foods, Inc. only and our operations are conducted through, and substantially all of our consolidated assets are held by, our subsidiaries.

The amortizing notes are obligations exclusively of Tyson Foods, Inc. The amortizing notes will initially be guaranteed only by Tyson Fresh Meats, Inc. and not any of our other operating subsidiaries. A substantial portion of our consolidated assets are held by our subsidiaries other than Tyson Fresh Meats, Inc. Accordingly, our ability to service our debt, including the amortizing notes, depends on the results of operations of our subsidiaries other than Tyson Fresh Meats, Inc. and upon the ability of such subsidiaries to provide us with cash, whether in the form of dividends, loans or otherwise, to pay amounts due on our obligations, including the amortizing notes. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to make payments on the amortizing notes or to make any funds available for that purpose, other than Tyson Fresh Meats, Inc. pursuant to the senior guarantee. In addition, dividends, loans or other distributions to us from such subsidiaries may be subject to contractual and other restrictions and are subject to other business considerations.

Servicing our debt requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial debt.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including the amortizing notes, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our debt and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring debt or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations.

Future sales of substantial amounts of our Class A common stock could affect the market price of our Class A common stock.

Future sales of substantial numbers of our Class A common stock, or securities convertible or exchangeable into shares of our Class A common stock, into the public market, future issuances of substantial numbers of additional shares of Class A common stock in connection with any future acquisitions or pursuant to employee benefit plans and future issuances of shares of Class A common stock upon exercise of options or warrants, conversion of Class B

common stock upon sale thereof or settlement of the purchase contracts, or perceptions that those sales, issuances and/or exercises, conversions or settlements could occur, could adversely affect the prevailing market price of our Class A common stock and our ability to raise capital in the future.

S-28

Table of Contents

This offering, the concurrent offering of Class A common stock and the issuance of additional stock in connection with acquisitions or otherwise will dilute all other shareholdings.

Upon the issuance of the Units in this offering and the concurrent offering of shares of Class A common stock, holders of our Class A common stock will incur immediate and substantial net tangible book value dilution on a per share basis. After this offering and the concurrent offering of Class A common stock, we will have an aggregate of approximately 524.2 million authorized but unissued shares of Class A common stock (excluding shares reserved for issuance under our option and compensation plans and under the Units being offered in this offering). Subject to certain volume limitations imposed by the New York Stock Exchange, we may issue all of these shares without any action or approval by our stockholders, including, without limitation, in connection with certain acquisitions. Any shares issued in connection with these activities, the exercise of stock options or otherwise would dilute the percentage ownership held by our Class A common stockholders.

The trading prices for the Units, the purchase contracts and the amortizing notes will be directly affected by the trading prices for our Class A common stock, the general level of interest rates and our credit quality, each of which is impossible to predict.

It is impossible to predict whether the prices of our Class A common stock, interest rates or our credit quality will rise or fall. Trading prices of the Class A common stock will be influenced by general stock market conditions and our operating results and business prospects and other factors described elsewhere in these Risk Factors.

The market for our Class A common stock likely will influence, and be influenced by, any market that develops for the Units or the separate purchase contracts. For example, investors' anticipation of the distribution into the market of the additional shares of Class A common stock issuable upon settlement of the purchase contracts could depress the price of our Class A common stock and increase the volatility of the Class A common stock price, which could in turn depress the price of the Units or the separate purchase contracts. The price of our Class A common stock also could be affected by possible sales of such Class A common stock by investors who view the Units as a more attractive means of equity participation in the Company and by hedging or arbitrage trading activity that is likely to develop involving the Units, separate purchase contracts and the Class A common stock. Such hedging or arbitrage activity could, in turn, affect the trading prices of the Units, the separate purchase contracts and the Class A common stock.

Tyson Limited Partnership can exercise significant control.

As of March 29, 2014, Tyson Limited Partnership (the TLP) owned 99.981% of the outstanding shares of the Company's Class B Common Stock, \$0.10 par value (Class B stock) and the TLP and members of the Tyson family owned, in the aggregate, 2.09% of the outstanding shares of the Company's Class A Common Stock, \$0.10 par value (Class A stock), giving them, collectively, control of approximately 72.46% of the total voting power of the Company's outstanding voting stock. At this time, the TLP did not have a managing general partner, as such, the management rights of the managing general partner may be exercised by a majority of the percentage interests of the general partners. As of September 28, 2013, Mr. John Tyson, Chairman of the Board of Directors, had 33.33% of the general partner percentage interests, and Ms. Barbara Tyson, a director of the Company, had 11.115% general partner percentage interests (the remaining general partnership interests were held by the Tyson Partnership Interest Trust (44.44%) and Harry C. Erwin, III (11.115%)). As a result of these holdings, positions and directorships, the partners in the TLP have the ability to exert substantial influence or actual control over our management and affairs and over substantially all matters requiring action by our stockholders, including amendments to our restated certificate of incorporation and by-laws, the election and removal of directors, any proposed merger, consolidation or sale of all or substantially all of our assets and other corporate transactions. This concentration of ownership may also delay or prevent a change in control otherwise favored by our other stockholders and could depress our stock price.

Additionally, as a result of the TLP's significant ownership of our outstanding voting stock, we are eligible for controlled company exemptions from certain corporate governance requirements of the New York Stock Exchange.

S-29

Table of Contents***Recent and future regulatory actions and other events may adversely affect the trading price and liquidity of the Units.***

We expect that many investors in, and potential purchasers of, the Units will employ, or seek to employ, an equity-linked arbitrage strategy with respect to the Units. Investors would typically implement such a strategy by selling short the Class A common stock underlying the Units and dynamically adjusting their short position while continuing to hold the Units. Investors may also implement this type of strategy by entering into swaps on our Class A common stock in lieu of or in addition to short selling the Class A common stock. The SEC and other regulatory and self-regulatory authorities have implemented rules and may adopt additional rules or take other actions (including as a result of the implementation of certain regulatory reforms required by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010) that may impact those engaging in short selling activity involving equity securities (including our Class A common stock). In particular, current Rule 201 of SEC Regulation SHO generally restricts the price at which a short sale may be effected when the price of a covered security (including our Class A common stock) triggers a circuit breaker by falling 10% or more from the security's closing price as of the end of regular trading hours on the prior day. If this circuit breaker is triggered, then for the remainder of the day and the following day, short sale orders can be displayed or executed only if the order price is above the current national best bid, subject to certain limited exceptions. Any governmental or regulatory action that restricts the ability of investors in, or potential purchasers of, the Units to effect short sales of our Class A common stock or enter into swaps on our Class A common stock could adversely affect the trading price and the liquidity of the Units.

In addition, if investors and potential purchasers seeking to employ an equity-linked arbitrage strategy are unable to borrow or enter into swaps on our Class A common stock, in each case, on commercially reasonable terms, the trading price and liquidity of the Units may be adversely affected.

You may receive shares of Class A common stock upon settlement of the purchase contracts that are lower in value than the price of the Class A common stock just prior to the mandatory settlement date or merger redemption settlement date, as the case may be.

Because the applicable market value of the Class A common stock is determined over the 20 consecutive trading days beginning on, and including, the 23rd scheduled trading day immediately preceding July 15, 2017 or the scheduled merger redemption settlement date, as the case may be, the number of shares of Class A common stock delivered for each purchase contract may, on the mandatory settlement date or the merger redemption settlement date, as the case may be, be greater than or less than the number that would have been delivered based on the closing price of the Class A common stock on the last trading day in such 20 trading day period. In addition, you will bear the risk of fluctuations in the market price of the shares of Class A common stock deliverable upon settlement of the purchase contracts between the end of such period and the date such shares are delivered.

If you elect to settle your purchase contracts early, you may not receive the same return on your investment as purchasers whose purchase contracts are settled on the mandatory settlement date.

Holders of the Units or separate purchase contracts have the option to settle their purchase contracts early at any time beginning on, and including, the business day immediately following the date of initial issuance of the Units until the third scheduled trading day immediately preceding July 15, 2017. However, if you settle your purchase contracts prior to the third scheduled trading day immediately preceding July 15, 2017, you will receive for each purchase contract a number of shares of Class A common stock equal to the minimum settlement rate, regardless of the current market value of our Class A common stock, unless you elect to settle your purchase contracts early in connection with a fundamental change, in which case you will be entitled to settle your purchase contracts at the fundamental change early settlement rate, which may be greater than the minimum settlement rate. In either case, you may not receive the

same return on your investment as purchasers whose purchase contracts are settled on the mandatory settlement date.

S-30

Table of Contents

Upon issuance of the Units, our Class A common stock will incur immediate dilution.

Upon issuance of the Units, which includes a purchase contract component, our Class A common stock will incur immediate and substantial net tangible book value dilution on a per share basis.

We may issue additional shares of our Class A common stock, which may dilute the value of our Class A common stock but may not trigger an anti-dilution adjustment under the terms of the purchase contracts.

The trading price of our Class A common stock may be adversely affected if we issue additional shares of our Class A common stock. The number of shares of Class A common stock issuable upon settlement of the purchase contracts is subject to adjustment only for certain events, including, but not limited to, the issuance of stock dividends on our Class A common stock, the issuance of certain rights or warrants, subdivisions, combinations, distributions of capital stock, indebtedness or assets, certain cash dividends and certain issuer tender or exchange offers. The number of shares of Class A common stock deliverable upon settlement is not subject to adjustment for other events that may adversely affect the value of our Class A common stock, such as third party tender offers or exchange offers, employee stock options grants, offerings of our Class A common stock for cash (including under the concurrent common stock offering), certain exchanges of our Class A common stock for the Company's other securities or in connection with acquisitions and other transactions. The terms of the Units do not restrict our ability to offer our Class A common stock in the future or to engage in other transactions that could dilute our Class A common stock, which may adversely affect the value of the Units and separate purchase contracts.

The fundamental change early settlement rate or the amount of cash and/or number of shares of our Class A common stock paid or delivered, as the case may be, upon a merger termination redemption, may not adequately compensate you.

If a fundamental change occurs and you elect to exercise your fundamental change early settlement right, you will be entitled to settle your purchase contracts at the fundamental change early settlement rate. In addition, in connection with any merger termination redemption, upon redemption of the purchase contracts, you will be paid an amount of cash equal to the redemption amount (or, in certain circumstances, a number of shares of our Class A common stock or any combination of cash and shares of our Class A common stock). Although the fundamental change early settlement rate or the redemption amount, as the case may be, is designed to compensate you for the lost option value of your purchase contracts as a result of the early settlement of the purchase contracts, this feature may not adequately compensate you for such loss. In addition, if the stock price in the fundamental change is greater than \$150.0 per share (subject to adjustment), this feature of the purchase contracts will not compensate you for any additional loss suffered in connection with a fundamental change. See Description of the Purchase Contracts Early Settlement Upon a Fundamental Change and Description of the Purchase Contracts Merger Termination Redemption.

Our obligation to settle the purchase contracts at the fundamental change early settlement rate or to redeem the purchase contracts pursuant to a merger termination redemption could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness of economic remedies.

The minimum settlement rate, maximum settlement rate, reference price and threshold appreciation price of the purchase contracts may not be adjusted for all dilutive events.

The minimum settlement rate, maximum settlement rate, reference price and threshold appreciation price of the purchase contracts are subject to adjustment for certain events, including, but not limited to, certain dividends on our common stock, the issuance of certain rights, options or warrants to holders of our common stock, subdivisions or combinations of our common stock, certain distributions of assets, debt securities, capital stock or cash to holders of

our common stock and certain tender offers or exchange offers, as described under Description of the Purchase Contracts Adjustments to the Fixed Settlement Rates in this prospectus supplement. The minimum settlement rate, maximum settlement rate, reference price and threshold appreciation

S-31

Table of Contents

price will not be adjusted for other events, such as an issuance of our common stock for cash, that may adversely affect the trading price of the purchase contracts or the Units and the market price of our common stock. There can be no assurance that an event will not occur that is adverse to the interests of the holders of the purchase contracts or the Units and their value, but that does not result in an adjustment to the minimum settlement rate, maximum settlement rate, reference price and threshold appreciation price.

Despite our current debt levels, we may still incur substantially more debt or take other actions which would intensify the risks discussed above.

Despite our current consolidated debt levels, we and our subsidiaries may be able to incur substantial additional debt in the future, subject to the restrictions contained in our debt instruments, some of which may be secured debt. We will not be restricted under the terms of the base indenture governing the amortizing notes (the "base indenture"), as supplemented by the supplemental indenture (the "supplemental indenture") to be entered into in connection with this offering (collectively, the "indenture"), from incurring additional debt, securing existing or future debt, recapitalizing our debt or taking a number of other actions that are not limited by the terms of the indenture that could have the effect of diminishing our ability to make payments on the amortizing notes when due.

The Units are not protected by restrictive covenants.

Neither the purchase contracts nor the indenture contains any financial or operating covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by us or any of our subsidiaries. Neither the purchase contracts nor the indenture contains any covenants or other provisions to afford protection to holders of the purchase contracts or the amortizing notes in the event of a fundamental change involving Tyson Foods, Inc. except, with respect to the purchase contracts, to the extent described under "Description of the Units—Early Settlement Upon A Fundamental Change."

Unlike the terms of our other debt securities, the amortizing notes will not provide holders with the right to require the Company to repurchase them upon a fundamental change.

The terms of our existing debt securities, provide that upon the occurrence of certain corporate events, including certain events that would constitute a "fundamental change" as defined under "Description of the Purchase Contracts," holders will have the right to require us to repurchase their debt securities. The terms of the indenture governing the amortizing notes do not provide holders of amortizing notes with any such repurchase right. Accordingly, holders of our amortizing notes will bear the risk that any such fundamental change occurs and adversely affects our capital structure, credit ratings or the value of the amortizing notes.

Until the purchase contracts are settled with, or redeemed for, Class A common stock, you are not entitled to any rights with respect to our Class A common stock, but you are subject to all changes made with respect to our Class A common stock.

Until the date on which you are treated as the record holder of Class A common stock on account of a redemption or settlement of the purchase contracts for or with, as the case may be, Class A common stock, you are not entitled to any rights with respect to our Class A common stock, including voting rights and rights to receive any dividends or other distributions on our Class A common stock, but you are subject to all changes affecting the Class A common stock. You will become the record holder of any shares of our Class A common stock issuable upon settlement or redemption of the purchase contracts only as follows:

in the case of (x) settlement of purchase contracts on the mandatory settlement date or (y) a merger termination redemption if the merger termination stock price is greater than the reference price and we elect to pay cash in lieu of a portion, but not all, of any shares of Class A common stock that would otherwise be included in the redemption amount, as of 5:00 p.m., New York City time, on the last trading day of the 20 consecutive trading day period during which the applicable market value or redemption market value, as the case may be, is determined;

S-32

Table of Contents

in the case of settlement of purchase contracts in connection with any early settlement at the holder's option, as of 5:00 p.m., New York City time, on the early settlement date;

in the case of settlement of purchase contracts following exercise of a holder's fundamental change early settlement right, as of 5:00 p.m., New York City time, on the date such right is exercised;

in the case of settlement of purchase contracts following exercise by us of our early mandatory settlement right, as of 5:00 p.m., New York City time, on the notice date; and

in the case of a merger termination redemption where we elect (or are deemed to have elected) to settle the redemption amount solely by delivering shares of Class A common stock, as of 5:00 p.m., New York City time, on the date of the merger redemption notice.

For example, in the event that an amendment is proposed to our certificate of incorporation or bylaws requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the date specified above on which you are treated as the record holder of the shares of our Class A common stock, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes in the powers, preferences or special rights of our Class A common stock once you become a stockholder.

Some significant restructuring transactions may not constitute fundamental changes, in which case we would not be obligated to early settle the purchase contracts.

Upon the occurrence of specified fundamental changes, you will have the right to require us to settle the purchase contracts. However, the definition of "fundamental change" herein is limited to specified corporate events and may not include other events that might adversely affect our financial condition or the value of the purchase contracts. For example, events such as leveraged recapitalizations, refinancings, restructurings or acquisitions initiated by us may not constitute a fundamental change requiring us to settle the purchase contracts at the applicable fundamental change early settlement rate. In the event of any such events, the holders of the purchase contracts would not have the right to require us to settle the purchase contracts at the applicable fundamental change early settlement rate, even though each of these transactions could increase the amount of our indebtedness, or otherwise adversely affect our capital structure or any credit ratings, thereby adversely affecting the trading price of the purchase contracts.

We may not have the ability to raise the funds necessary to repurchase the amortizing notes following the exercise of our early mandatory settlement right or in connection with a merger termination redemption, and our debt outstanding at that time may contain limitations on our ability to repurchase the amortizing notes.

If we elect to exercise our early mandatory settlement right or effect a merger termination redemption, holders of the amortizing notes will have the right to require us to repurchase the amortizing notes on the repurchase date at the repurchase price described under "Description of the Amortizing Notes—Repurchase of Amortizing Notes at the Option of the Holder." However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of amortizing notes surrendered for repurchase. In addition, our ability to pay the repurchase price for the amortizing notes may be limited by agreements governing our current and future indebtedness. Our failure to repurchase amortizing notes at a time when the repurchase is required by the indenture would constitute a default under the indenture. A default under the indenture could also lead to a default under agreements governing our indebtedness outstanding at that time. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness.

and the repurchase price for the amortizing notes.

The secondary market for the Units, the purchase contracts and the amortizing notes may be illiquid.

We will apply to list the Units on the New York Stock Exchange, subject to satisfaction of its minimum listing standards with respect to the Units. However, even if we do so apply to list the Units, we cannot assure

S-33

Table of Contents

you that the Units will be approved for listing. If the Units are approved for listing, we expect that the Units will begin trading on the New York Stock Exchange within 30 calendar days after the Units are first issued. In addition, the underwriters have advised us that they intend to make a market in the Units, but the underwriters are not obligated to do so. However, listing on the New York Stock Exchange does not guarantee that a trading market will develop, and the underwriters may discontinue market making at any time in their sole discretion without prior notice to Unit holders. Accordingly we cannot assure you that a liquid trading market will develop for the Units (or, if developed, that a liquid trading market will be maintained), that you will be able to sell Units at a particular time or that the prices you receive when you sell will be favorable.

Beginning on the business day immediately succeeding the date of initial issuance of the Units, purchasers of Units will be able to separate each Unit into a purchase contract and an amortizing note. We are unable to predict how the separate purchase contracts or the separate amortizing notes will trade in the secondary market, or whether that market will be liquid or illiquid. We will not initially apply to list the separate purchase contracts or the separate amortizing notes on any securities exchange or automated inter-dealer quotation system, but we may apply to list such separate purchase contracts and separate amortizing notes in the future as described herein. If (i) a sufficient number of Units are separated into separate purchase contracts and separate amortizing notes and traded separately such that applicable listing requirements are met and (ii) a sufficient number of holders of such separate purchase contracts and separate amortizing notes request that we list such separate purchase contracts and separate amortizing notes, we may endeavor to list such separate purchase contracts and separate amortizing notes on an exchange of our choosing (which may or may not be the New York Stock Exchange) subject to applicable listing requirements. However, even if we do so apply to list such separate purchase contracts or separate amortizing notes, we cannot assure you that such securities will be approved for listing.

The purchase contract agreement will not be qualified under the Trust Indenture Act, and the obligations of the purchase contract agent are limited.

The purchase contract agreement between us and the purchase contract agent will not be qualified as an indenture under the Trust Indenture Act of 1939, and the purchase contract agent will not be required to qualify as a trustee under the Trust Indenture Act. Thus, you will not have the benefit of the protection of the Trust Indenture Act with respect to the purchase contract agreement or the purchase contract agent. The amortizing notes constituting a part of the Units will be issued pursuant to an indenture, which has been qualified under the Trust Indenture Act. Accordingly, if you hold Units, you will have the benefit of the protections of the Trust Indenture Act only to the extent applicable to the amortizing notes. The protections generally afforded the holder of a security issued under an indenture that has been qualified under the Trust Indenture Act include:

disqualification of the indenture trustee for conflicting interests, as defined under the Trust Indenture Act;

provisions preventing a trustee that is also a creditor of the issuer from improving its own credit position at the expense of the security holders immediately prior to or after a default under such indenture; and

the requirement that the indenture trustee deliver reports at least annually with respect to certain matters concerning the indenture trustee and the securities.

The amortizing notes and the senior guarantee are unsecured obligations and will be junior to all of our existing and future secured indebtedness to the extent of the collateral securing such indebtedness.

Edgar Filing: TYSON FOODS INC - Form 424B5

The amortizing notes and the senior guarantee will not be secured by any of our assets and will be junior to any of our existing and future secured indebtedness. Accordingly, in the event of our bankruptcy, liquidation or any similar proceeding, our assets which serve as collateral under our secured indebtedness would be made available to satisfy our obligations under any secured indebtedness we may have before any payments are made on the amortizing notes and the senior guarantee. As of March 29, 2014, after giving pro forma effect to the Hillshire Brands Acquisition and the related financing transactions as described under Unaudited Pro Forma

S-34

Table of Contents

Condensed Consolidated Financial Information, Tyson and its consolidated subsidiaries would have had outstanding, on a consolidated basis, \$8,866 million of total debt, which would have included \$1,940 million of total debt of Tyson and the Guarantor outstanding as of such date (none of which would have been secured indebtedness); \$942 million of assumed debt from Hillshire Brands; \$2,500.0 million under the New Term Loans; and \$3,250.0 million under the New Notes. In addition, as of such date but prior to giving pro forma effect to the Hillshire Brands Acquisition and such related financing transactions, Tyson's subsidiaries other than the Guarantor would have had \$227 million of total debt (including \$59.0 million of intercompany indebtedness), none of which would have been secured indebtedness. See Unaudited Pro Forma Condensed Consolidated Financial Information and our Quarterly Report on Form 10-Q for the quarterly period ended March 29, 2014 under Part I, Item 1, Notes to Consolidated Condensed Financial Statements, Note 7: Debt and Note 16: Condensed Consolidating Financial Statements. Subject to the limits in the indenture under which the amortizing notes will be issued and our other existing debt instruments, we will be able to incur additional secured obligations. See Description of the Amortizing Notes.

The amortizing notes and the senior guarantee will be structurally subordinated to indebtedness of our non-Guarantor subsidiaries.

The amortizing notes and the senior guarantee will be structurally subordinated to the indebtedness (including trade payables) of each of our subsidiaries (other than the Guarantor) to the extent of the value of their assets, and holders of the amortizing notes will not have any claim as a creditor against any non-Guarantor subsidiary. In addition, the indenture under which the amortizing notes will be issued does not restrict our subsidiaries from incurring additional indebtedness and will not contain any limitation on the amount of liabilities (such as trade payables) that may be incurred by them. At March 29, 2014, our subsidiaries (other than the Guarantor) had \$2,345 million of outstanding liabilities, including trade payables, but excluding intercompany obligations.

A court may void the senior guarantee of the amortizing notes or subordinate the senior guarantee to other obligations of the Guarantor.

The Company's obligations under the amortizing notes will be guaranteed only by Tyson Fresh Meats, Inc., which we refer to as the Guarantor. It is possible that the creditors of the Guarantor may challenge its senior guarantee as a fraudulent conveyance under relevant federal and state statutes. Although standards may vary depending on the applicable law, generally under United States federal bankruptcy law and comparable provisions of state fraudulent transfer laws, if a court were to find that, among other things, at the time the Guarantor of the amortizing notes incurred the debt evidenced by its senior guarantee of the amortizing notes, the Guarantor either:

was insolvent or rendered insolvent by reason of the incurrence of the senior guarantee;

was engaged or about to engage in a business or transaction for which the Guarantor's remaining assets constituted unreasonably small capital;

was a defendant in an action for money damages, or had a judgment for money damages docketed against it, if in either case, after a final judgment, the judgment remained unsatisfied; or

intended to incur, or believed that it would incur, debt beyond its ability to pay such debt as its matured;

and that Guarantor:

received less than the reasonable equivalent value or fair consideration for the incurrence of its senior guarantee; or

incurred the senior guarantee or made related distributions or payments with the intent of hindering, delaying or defrauding creditors;

S-35

Table of Contents

then, there is a risk that the senior guarantee of the Guarantor could be voided by a court, or claims by holders of the amortizing notes under the senior guarantee could be subordinated to other debts of the Guarantor. In addition, any payment by the Guarantor pursuant to its senior guarantee could be required to be returned to the Guarantor, or to a fund for the benefit of the creditors of the Guarantor.

The measures of insolvency for purposes of the foregoing considerations will vary depending upon the law applied in any proceeding. Generally, however, the Guarantor of the amortizing notes would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair value of all of its assets at a fair valuation;

the present fair value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

Although the Guarantor's senior guarantee will be limited as necessary to prevent that senior guarantee from constituting a fraudulent conveyance under applicable law, this provision may not be effective to protect the senior guarantee from being voided under the fraudulent transfer laws described above. In a Florida bankruptcy case, a similar provision was found to be ineffective to protect senior guarantees. In addition, the assets of our subsidiaries that do not guarantee the amortizing notes, will not be available to satisfy the obligations under the amortizing notes.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the amortizing notes.

Any default under the agreements governing our other indebtedness and the remedies sought by the holders of such indebtedness, could prevent us from making installment payments on the amortizing notes (including, without limitation, installment payments) and substantially decrease the market value of the amortizing notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our other indebtedness, or if we otherwise fail to comply with the various covenants in our debt instruments, we could be in default under the terms of the agreements governing our other indebtedness. In the event of such default:

the holders of such indebtedness may be able to cause all of our available cash flow to be used to pay such indebtedness and, in any event, could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest; and/or

we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to amend or modify the agreements governing our indebtedness or seek concessions from the holders of such indebtedness.

The U.S. federal income tax consequences relating to the Units are uncertain.

No statutory, judicial or administrative authority directly addresses the characterization of the Units or instruments similar to the Units for U.S. federal income tax purposes. As a result, some aspects of the U.S. federal income tax consequences of an investment in the Units are not certain. Specifically, the amortizing notes and the purchase contracts could potentially be recharacterized as a single instrument for U.S. federal income tax purposes, in which case (i) U.S. holders (as defined below under Material United States Federal Income Tax Consequences U.S. Holders) could be required to recognize the entire amount of each installment payment on the amortizing notes, rather than merely the portion of such payment denominated as interest, as income and (ii) payments of principal and interest made to non-U.S. holders (as defined below under Material United

Table of Contents

States Federal Income Tax Consequences Non-U.S. Holders) on the amortizing notes could be subject to U.S. withholding tax. We have not sought any rulings concerning the treatment of the Units, and the tax consequences described in Material United States Federal Income Tax Consequences are not binding on the Internal Revenue Service or the courts, either of which could disagree with the explanations or conclusions contained therein.

You may be subject to tax upon an adjustment to the settlement rate of the purchase contracts even though you do not receive a corresponding cash distribution.

The fixed settlement rates of the purchase contracts are subject to adjustment in certain circumstances, including the payment of certain cash dividends or upon a fundamental change. If the settlement rates are adjusted (or there is a failure to make an adjustment) as a result of a distribution that is taxable to our Class A common stockholders, such as a cash dividend, you generally will be deemed to have received for U.S. federal income tax purposes a taxable dividend without the receipt of any cash. You may also be deemed to have received a taxable dividend in the event we make certain other adjustments to the settlement rates of the purchase contracts. If you are a non-U.S. holder (as defined in Material United States Federal Income Tax Consequences Non-U.S. Holders), such deemed dividend may be subject to U.S. federal withholding tax (currently at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty), which may be withheld from shares of Class A common stock or sales proceeds subsequently paid or credited to you. It is possible that U.S. withholding tax on deemed dividends would be withheld from any interest or other amounts paid to a non-U.S. holder. See Material United States Federal Income Tax Consequences Non-U.S. Holders Dividends and Other Distributions with Respect to Our Class A Common Stock and Purchase Contracts.

Any adverse rating action with respect to the Units may cause their trading price to fall.

We do not intend to seek a rating on the Units. However, if a rating service were to rate the Units and if such rating service were to lower its rating on the Units below the rating initially assigned to the Units or otherwise announces its intention to put the Units on credit watch, the trading price of the Units could decline.

Table of Contents**USE OF PROCEEDS**

We estimate that the net proceeds from this offering, after deducting underwriting discounts and commissions and estimated offering expenses, will be approximately \$1,454 million. We intend to use the net proceeds from this offering, together with the net proceeds of the Class A common stock offering, the Debt Financings and cash on hand to finance the Hillshire Brands Acquisition and to pay related fees and expenses. If for any reason the Hillshire Brands Acquisition is not consummated, then we intend to use the net proceeds from this offering for general corporate purposes. See Summary Recent Developments.

As required by the Merger Agreement, the net proceeds of this offering and the concurrent Class A common stock offering (net of our good faith estimate of offering fees and expenses) will be placed into an escrow account, pending release upon consummation of, and to partially fund, the Hillshire Brands Acquisition (or, if earlier, upon termination of the Merger Agreement).

The completion of this Units offering is not contingent upon the completion of the Class A common stock offering, the Debt Financings or the Hillshire Brands Acquisition. Accordingly, even if the Hillshire Brands Acquisition or the other financing transactions do not occur, the Units sold in this offering will remain outstanding, and we will not have any obligation to offer to repurchase any or all of the Units sold in this offering.

The following table outlines the sources and uses of funds for the Hillshire Brands Acquisition. The table assumes that the Hillshire Brands Acquisition and the financing transactions are completed simultaneously, but this offering and the concurrent Class A common stock offering are expected to occur before completion of the Debt Financings and the Hillshire Brands Acquisition. Amounts in the table are in millions of dollars and are estimated, and actual amounts may vary from the estimated amounts.

Sources of Funds		Uses of Funds	
Cash	\$ 362	Total equity purchase price	\$ 8,081
Units offered hereby ⁽¹⁾	\$ 1,500	Transaction fees and expenses ⁽²⁾	\$ 431
Class A common stock offering ⁽¹⁾	\$ 900		
Debt Financings ⁽¹⁾	\$ 5,750		
Total	\$ 8,512	Total	\$ 8,512

(1) Before discounts, commissions and expenses and assumes no exercise of the underwriters' over-allotment option for the concurrent Class A common stock offering.

(2) Includes discounts, commissions and expenses of this offering.

Table of Contents**PRICE RANGE OF CLASS A COMMON STOCK AND DIVIDENDS**

Our Class A common stock is traded on the New York Stock Exchange under the symbol TSN. No public trading market currently exists for the Class B common stock. Cash dividends cannot be paid to holders of Class B common stock unless they are simultaneously paid to holders of Class A common stock. The per share amount of the cash dividend paid to holders of Class B common stock cannot exceed 90% of the cash dividend simultaneously paid to holders of Class A common stock. We have paid uninterrupted quarterly dividends on common stock each year since 1977. In fiscal 2013, the annual dividend rate for Class A common stock was \$0.20 per share and the annual dividend rate for Class B common stock was \$0.18 per share. In fiscal 2012, the annual dividend rate for Class A common stock was \$0.16 per share and the annual dividend rate for Class B common stock was \$0.144 per share. On November 15, 2012, the Board of Directors declared a special dividend of \$0.10 per share for Class A common stock and \$0.09 per share for Class B common stock, which was paid on December 14, 2012, to shareholders of record on November 30, 2012. Additionally, on November 14, 2013, the Board of Directors increased the quarterly dividend previously declared on August 1, 2013, to \$0.075 per share on our Class A common stock and \$0.0675 per share on our Class B common stock.

The following table sets forth, for the periods indicated, the high and low closing sales prices of our Class A common stock and per share dividends paid for the Class A common stock and the Class B common stock.

	Class A common stock price range		Dividends paid per share	
	High	Low	Class A	Class B
Fiscal Year 2014:				
First Quarter	\$ 33.97	\$ 27.56	\$ 0.075	\$ 0.0675
Second Quarter	43.15	33.17	0.075	0.0675
Third Quarter	44.01	35.15	0.075	0.0675
Fourth Quarter (through July 30, 2014)	40.56	37.54	(a)	(a)
Fiscal Year 2013:				
First Quarter	\$ 19.79	\$ 16.02	\$ 0.15	\$ 0.135
Second Quarter	24.82	19.40	0.05	0.045
Third Quarter	25.88	23.26	0.05	0.045
Fourth Quarter	31.83	26.03	0.05	0.045
Fiscal Year 2012:				
First Quarter	\$ 20.91	\$ 16.68	\$ 0.04	\$ 0.036
Second Quarter	20.37	18.52	0.04	0.036
Third Quarter	19.58	17.66	0.04	0.036
Fourth Quarter	18.56	14.17	0.04	0.036

(a) A \$0.075 Class A dividend per share and a \$0.0675 Class B dividend per share are scheduled to be paid in the fourth quarter on September 15, 2014 to holders of record as of August 29, 2014.

On July 30, 2014, the last reported sale price of our Class A common stock on the New York Stock Exchange was \$38.20 per share. There were approximately 24,000 holders of record of our Class A common stock as of July 21, 2014.

S-39

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth the ratio of earnings to fixed charges for the Company for each year in the five year period ended September 28, 2013, and for the six months ended March 29, 2014. For the purposes of calculating the ratio of earnings to fixed charges, earnings consist of income (loss) from continuing operations before income taxes, fixed charges and amortization of capitalized interest, but excludes equity method investment earnings and capitalized interest. Fixed charges consist of (i) interest on indebtedness, whether expensed or capitalized, (ii) that portion of rental expense the Company believes to be representative of interest (one-third of rental expense) and (iii) amortization of debt discount and expense.

Six Months Ended	Fiscal Years				
	2013	2012	2011	2010	2009
March 29, 2014					
8.80	6.71	4.58	4.48	4.38	(a)

(a) In fiscal 2009, our earnings were insufficient to cover our fixed charges by \$540.0 million.

Table of Contents**CAPITALIZATION**

The following table sets forth our cash position and capitalization as of March 29, 2014:

on an actual basis;

on an as adjusted basis to give effect to this offering after deducting the underwriting discounts and commissions and estimated offering expenses (but not the application of the proceeds therefrom);

on an as further adjusted basis to give effect to the issuance and sale of 23,810,000 shares of our Class A common stock (but not the application of the proceeds therefrom), based on the public offering price of \$37.80 per share of our common stock, after deducting the underwriting discounts and commissions and estimated offering expenses (assuming no exercise of the underwriters' over-allotment option to purchase additional shares of our Class A common stock); and

on a pro forma as further adjusted basis to give further effect to (i) the Debt Financings and the payment of related fees and expenses and (ii) the Hillshire Brands Acquisition.

This table should be read in conjunction with the other sections of this prospectus supplement and our consolidated financial statements and related notes incorporated by reference in this prospectus supplement, including under Unaudited Condensed Combined Pro Forma Financial Information. See Where You Can Find More Information in this prospectus supplement. In addition, investors should not place undue reliance on the as adjusted, as further adjusted or pro forma as further adjusted information included below because this offering is not contingent upon completion of any of the transactions reflected in the adjustments below.

- (1) If the Hillshire Brands Acquisition is not consummated, we do not expect any debt under the proposed Debt Financings to be outstanding, other than the New Notes, which we expect to contain a special mandatory redemption requirement if the Hillshire Brands Acquisition is not consummated by a specified date. See Use of Proceeds.

Table of Contents**UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL INFORMATION**

On July 1, 2014, Tyson Foods, Inc., a Delaware corporation (*Tyson*), and HMB Holdings, Inc. (*HMB Holdings*), a Maryland corporation and wholly-owned subsidiary of Tyson, entered into a definitive agreement and plan of merger (the *Merger Agreement*) with The Hillshire Brands Company (*Hillshire*), a Maryland corporation. Under the *Merger Agreement*, Tyson and HMB Holdings will acquire Hillshire and its subsidiaries for a price of \$63.00 per share in cash. The all-cash transaction is valued at approximately \$8.9 billion, including the assumption of Hillshire's net debt and breakage fees. The *Merger Agreement* contains representations, warranties and covenants of the parties customary for transactions of this type.

Concurrently, and in connection with entering into the *Merger Agreement*, Tyson entered into a fully committed 364-day unsecured bridge facility from Morgan Stanley Senior Funding, Inc., J.P. Morgan Securities LLC and JPMorgan Chase Bank, N.A. Tyson also entered into a senior unsecured term loan facility with the same lenders. The committed facilities, together with cash on hand, will be available to fund the Hillshire acquisition, including the payment of related fees and expenses. Permanent funding is expected to include a mix of term loans, senior notes issuance, common stock issuance, tangible equity unit issuance and cash on hand.

The following unaudited pro forma condensed consolidated financial information is based on the historical consolidated financial information of Tyson and Hillshire and has been prepared to reflect the proposed Hillshire acquisition and related financing transactions. For purposes of the pro forma financial information, we have assumed the acquisition financing will consist of: (a) \$2,500 million aggregate principal amount of term loans; (b) \$3,250 million aggregate principal amount of senior notes; (c) \$900 million issuance of common stock; (d) \$1,500 million issuance of tangible equity units, consisting of \$1,295 million of prepaid stock purchase contracts and \$205 million of senior amortizing notes; and (e) \$362 million cash on hand. The final structure and terms of the acquisition financing will be subject to market conditions and may change materially from the assumptions used in the pro forma information. See *Notes to Unaudited Pro Forma Condensed Consolidated Financial Information* below.

The unaudited pro forma condensed consolidated financial information is provided for informational purposes only. The unaudited pro forma condensed consolidated statements of income are not necessarily indicative of operating results that would have been achieved had the acquisition been completed as of September 30, 2012 (first day of the most recently completed fiscal year) and does not intend to project the future financial results of Tyson after the Hillshire acquisition. The unaudited pro forma condensed consolidated balance sheet does not purport to reflect what Tyson's financial condition would have been had the transactions closed on March 29, 2014 (latest interim balance sheet date) or for any future or historical period. The unaudited pro forma condensed consolidated statements of income and balance sheet are based on certain assumptions, described in the accompanying notes, which management believes are reasonable and do not reflect the cost of any integration activities or the benefits from the Hillshire acquisition and synergies that may be derived from any integration activities.

Tyson's fiscal year ends in September, while Hillshire's fiscal year ends in June. The unaudited condensed consolidated balance sheet combines the unaudited condensed consolidated balance sheet of Tyson as of March 29, 2014, and the unaudited condensed consolidated balance sheet of Hillshire as of March 29, 2014. The full-year unaudited pro forma condensed consolidated statement of income for the year ended September 28, 2013, combines the audited consolidated statement of income for Tyson for the fiscal year ended September 28, 2013 and the audited consolidated statement of income of Hillshire for the fiscal year ended June 29, 2013. The unaudited pro forma condensed consolidated statement of income for the six months ended March 29, 2014 combines the unaudited condensed consolidated statement of income of Tyson for the six months ended March 29, 2014 and Hillshire's unaudited condensed consolidated statement of income for the six months ended March 29, 2014. The unaudited condensed consolidated statement of income of Hillshire for the six months ended March 29, 2014 was determined by subtracting

Edgar Filing: TYSON FOODS INC - Form 424B5

Hillshire's unaudited condensed consolidated statement of income for the three months ended September 28, 2013 (its first quarter of fiscal 2014) from the unaudited
