NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2014

(Unaudited)

(In thousands, except share and per share amounts)

1. Organization and Basis of Presentation

Organization

ExlService Holdings, Inc. (ExlService Holdings) is organized as a corporation under the laws of the state of Delaware. ExlService Holdings, together with its subsidiaries (collectively, the Company), is a leading provider of business process solutions, utilizing operations management, analytics and technology. The Company's clients are located principally in the U.S. and the U.K.

Basis of Presentation

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for annual financial statements and therefore should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

The unaudited interim consolidated financial statements reflect all adjustments (of a normal and recurring nature) that management considers necessary for a fair presentation of such statements for the interim periods presented. The unaudited consolidated statements of income for the interim periods presented are not necessarily indicative of the results for the full year or for any subsequent period.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying unaudited consolidated financial statements include the financial statements of ExlService Holdings and all of its subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of the unaudited consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited consolidated financial statements and the unaudited consolidated statements of income during the reporting period. Although these estimates are based on management's best assessment of the current business environment, actual results may be different from those estimates. The significant estimates and assumptions that affect the financial statements include, but are not limited to,

allowance for doubtful receivables, service tax receivables, assets and obligations related to employee benefit plans, deferred tax valuation allowances, income-tax uncertainties and other contingencies, valuation of derivative financial instruments, stock-based compensation expense, depreciation and amortization periods, purchase price allocation, recoverability of long-term assets including goodwill and intangibles, and estimates to complete the fixed price contracts.

Revenue Recognition

On November 1, 2013, the Company received a notice of termination from The Travelers Indemnity Company (Travelers) under the Professional Services Agreement, dated as of March 7, 2006, between the Company and Travelers (as amended from time to time, the Services Agreement), and is required to provide transition services for a period of up to eighteen months, including reimbursing Travelers for certain of their transition related expenses. The Company recognized \$9,626 and \$17,815, respectively, of such reimbursements as a reduction of revenues during the three and nine months ended September 30, 2014 in accordance with Accounting Standards Codification (ASC) topic 605-50-45, *Revenue Recognition*. No such payments were made during the three and nine months ended September 30, 2013 (refer to Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations for further details).

Software Development Costs

Costs incurred for developing software or enhancements to the existing software products to be sold are capitalized, including the salaries and benefits of employees that are directly involved in the installation and development, once technological feasibility has been established upon completion of a detailed design program or, in its absence, completion of a working model. The capitalized costs are amortized on a straight-line basis over the estimated useful life. Costs associated with preliminary project stage activities, training, maintenance and all post-implementation stage activities are expensed as incurred.

Recent Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2013-05, *Parent s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity* (ASU 2013-05). ASU 2013-05 applies to the release of the currency translation adjustment into net income when a parent either sells a part of all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. ASU 2013-05 became effective from January 1, 2014 and the new guidance did not have any material impact on the Company s unaudited consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* (ASU 2013-11). The provisions of the rule require an unrecognized tax benefit to be presented as a reduction to a deferred tax asset in the financial statements for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward except in circumstances when the carryforward or tax loss is not available at the reporting date under the tax laws of the applicable jurisdiction to settle any additional income taxes or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purposes. When those circumstances exist, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. ASU No. 2013-11 became effective from January 1, 2014 and the new guidance did not have any material impact on the Company s unaudited consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09). The new standard is effective for reporting periods beginning after December 15, 2016 and early adoption is not permitted. The comprehensive new standard will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the Company expects to be entitled in exchange for those goods or services. Adoption of the new rules could affect the timing of revenue recognition for certain transactions of the Company. ASU 2014-09 is effective for the Company in the first quarter of fiscal 2017 using either one of two methods: (i) retrospectively to each prior reporting period presented with the option to elect certain practical expedients as defined within ASU 2014-09; or (ii) retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined per ASU 2014-09. The Company is currently evaluating the impact of adoption and the implementation approach to be used.

In June 2014, the FASB issued ASU No. 2014-12, *Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period* (ASU 2014-12).

The amendments in ASU 2014-12 require that a performance target in a share based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition. The amendments in ASU 2014-12 are effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods with early adoption permitted. Entities may apply the amendments in ASU 2014-12 either: (a) prospectively to all awards granted or modified after the effective date; or (b) modified retrospectively to all awards with performance targets that are outstanding on or after the beginning of the first annual period presented as of the adoption date. ASU 2014-12 is not applicable to the Company's current stock based compensation plan and it does not expect this guidance to have any impact on the consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern* (ASU 2014-15). ASU 2014-15 requires management to evaluate whether there are conditions and events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the financial statements are issued and, if so, disclose that fact. Such evaluation is to be done for both annual and interim reporting periods, if applicable. Management is also required to evaluate and disclose whether its plans alleviate that doubt. ASU 2014-15 will become effective from January 1, 2017 and the Company is currently evaluating the impact of adopting this guidance.

3. Earnings Per Share

Basic earnings per share is computed by dividing net income to common stockholders by the weighted average number of common shares outstanding during each period. Diluted earnings per share is computed using the weighted average number of common shares plus the potentially dilutive effect of common stock equivalents issued and outstanding at the reporting date, using the treasury stock method. Stock options, restricted stock and restricted stock

units that are anti-dilutive are excluded from the computation of weighted average shares outstanding.

The following table sets forth the computation of basic and diluted earnings per share:

The Company provides various types of business process solutions utilizing operations management, analytics and technology. These services are provided in an integrated manner to clients in various industries. The chief operating decision maker (the CODM) generally reviews financial information at the consolidated statement of income level disaggregated by our two segments (Outsourcing Services and Transformation Services), but does not review any information except for revenues and cost of revenues for these individual segments. Therefore, the Company does not allocate or evaluate operating expenses, interest expense or income, capital expenditures, and income taxes to its operating segments. Consequently, it is not practical to show assets, capital expenditures, depreciation or amortization by segment. The Company's recent acquisition of Blue Slate Ventures, LLC (Blue Slate) is classified within the transformation services segment.

Revenues and cost of revenues for each of the three months ended September 30, 2014 and 2013 for the Company's outsourcing services and transformation services segments, respectively, are as follows:

On July 1, 2014, the Company entered into a membership interest purchase agreement (the Agreement) with Blue Slate, a provider of Business Process Management and Technology Solutions that specializes in transforming operations through business process automation, use of innovative technologies, data integration and analytics. Pursuant to the Agreement, the Company has purchased all of the membership interests of Blue Slate Solutions, LLC from Blue Slate for a cash consideration of \$6,986, including working capital adjustments of \$751. The Company has also issued 46,950 restricted shares of common stock with an aggregate fair value of \$1,375 to certain key members of Blue Slate, each of whom have accepted employment positions with the Company upon consummation of the combination.

Blue Slate's approach bolsters the Company's strategy of embedding process automation and operational analytics into client offerings. As the Company pursues this approach through Business EXLerator Framework, Blue Slate brings the ability to work directly on clients' core, mission-critical applications inside their IT environments to transform their business processes. This strengthens the Company's position with regard to IT services providers that have strong technology foundations and enriches the Company's value proposition to clients in addition to using the Company's capabilities to deliver greater impact for its client base. Accordingly, the Company paid a premium for the acquisition which is being reflected in the goodwill recognized from the purchase price allocation of the total consideration paid by the Company.

The Company's preliminary purchase price allocation for the acquisition is as follows:

	Amount
	(In thousands)
Net tangible assets	\$ 1,313
Identifiable intangible assets:	
Customer relationships	575
Non-compete agreement	48
Trade names and trademarks	267
Goodwill	4,783
Total purchase price*	\$ 6,986

* Includes \$750 deposited in escrow accounts in connection with the acquisition.

The customer relationships, non-compete agreements and trade names and trademarks intangibles from the Blue Slate acquisition are being amortized over a useful life of five years, four years and three years, respectively.

During the nine months ended September 30, 2014 the company recognized \$125 of acquisition related costs. Such amounts are included under general and administrative expenses in the unaudited consolidated statements of income.

The amount of goodwill recognized from the Blue Slate acquisition is deductible for tax purposes.

Table of Contents**EXLSERVICE HOLDINGS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****September 30, 2014****(Unaudited)****(In thousands, except share and per share amounts)****7. Derivatives and Hedge Accounting**

The Company uses derivative instruments and hedging transactions to mitigate exposure to foreign currency fluctuation risks associated with forecasted transactions denominated in certain foreign currencies and to minimize earnings and cash flow volatility associated with changes in foreign currency exchange rates. The Company's derivative financial instruments are largely forward foreign exchange contracts that are designated effective and that qualify as cash flow hedges under FASB Accounting Standard Codification (ASC) 815, *Derivatives and Hedging* (ASC 815). The Company also uses derivatives consisting of foreign currency exchange contracts not designated as hedging instruments under ASC 815 to hedge intercompany balances and other monetary assets or liabilities denominated in currencies other than the functional currencies of various subsidiaries of the Company. The Company's primary exchange rate exposure is with the Indian Rupee, the U.K. pound sterling and the Philippine peso. The Company also has exposure to the Czech koruna and other local currencies in which it operates.

The Company had outstanding foreign exchange contracts totaling \$302,400 and GBP 11,090 as of September 30, 2014 and \$262,085 and GBP 10,973 as of December 31, 2013. The Company estimates that approximately \$1,494 of net derivative losses included in accumulated other comprehensive loss (AOCI) could be reclassified into earnings within the next twelve months based on exchange rates prevailing as of September 30, 2014. As of September 30, 2014, the maximum outstanding term of derivative instruments that hedge forecasted transactions was forty-five months.

The Company evaluates the hedge effectiveness at the time a contract is entered into as well as on an ongoing basis. If during this time a contract is deemed ineffective, the change in the fair value is recorded in the unaudited consolidated statements of income and is included in foreign exchange loss. For hedging positions that are discontinued because the forecasted transaction is not expected to occur by the end of the originally specified period, any related derivative amounts recorded in equity are reclassified to earnings. No such significant amounts of gains or losses were reclassified from AOCI into earnings during the three and nine months ended September 30, 2014 and 2013.

The following tables set forth the fair value of the foreign currency exchange contracts and their location on the Company's unaudited consolidated financial statements:

Depreciation and amortization expense excluding amortization of acquisition-related intangibles for the three months ended September 30, 2014 and 2013 was \$5,573 and \$4,435, respectively, and \$15,582 and \$14,079 for the nine months ended September 30, 2014 and 2013, respectively.

Capital work in progress represents advances paid toward acquisitions of fixed assets and the cost of fixed assets not yet ready to be placed in service.

9. Capital Structure

The Company has one class of common stock outstanding.

During the three months ended September 30, 2014 and 2013, the Company did not acquire any shares of common stock from employees in connection with withholding tax payments related to the vesting of restricted stock.

During the nine months ended September 30, 2014 and 2013, the Company acquired 18,256 and 13,018 shares of common stock, respectively, from employees in connection with withholding tax payments related to the vesting of restricted stock for a total consideration of \$459 and \$389. The weighted average purchase price of \$25.14 and \$29.89, respectively, was the average of the high and low price of the Company's shares of common stock on the Nasdaq Global Select Market on the trading day prior to the vesting date of the shares of restricted stock. The shares acquired are held as treasury stock.

During the three months ended September 30, 2014, the Company purchased 109,500 shares of its common stock for an aggregate purchase price of approximately \$2,863 including commissions, representing an average purchase price per share of \$26.14 as part of the share repurchase program that authorized the purchase of up to an aggregate principal amount of \$25,000 of the Company's outstanding common stock.

Table of Contents**EXLSERVICE HOLDINGS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****September 30, 2014****(Unaudited)****(In thousands, except share and per share amounts)**

Repurchased shares have been recorded as treasury shares and will be held until the Company's board of directors designates that these shares be retired or used for other purposes.

10. Employee Benefit Plans

The Company's gratuity plans in India and the Philippines provide a lump-sum payment to vested employees upon retirement or upon termination of employment in an amount based on the respective employee's salary and years of employment with the Company. Liabilities with regard to the gratuity plans are determined by actuarial valuation using the projected unit credit method. Current service costs for the gratuity plans are accrued in the year to which they relate. Actuarial gains or losses or prior service costs, if any, resulting from amendments to the plans are recognized and amortized over the remaining period of service of the employees.

Net gratuity cost includes the following components:

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Service cost	\$ 355	\$ 266	\$ 1,083	\$ 867
Interest cost	125	103	385	339
Expected return on plan assets	(43)	(38)	(130)	(125)
Actuarial loss	29	32	99	106
Net gratuity cost	\$ 466	\$ 363	\$ 1,437	\$ 1,187

The gratuity plans in India are partially funded and are managed and administered by Life Insurance Corporation of India and HDFC Standard Life Insurance Company. These entities calculate the annual contribution required to be made by the Company and manage the gratuity plans, including any required payouts. Fund managers manage these funds on a cash accumulation basis and declare interest retrospectively on March 31st of each year. The Company earned a return of approximately 9.0% and 9.5% on these gratuity plans for the year ended March 31, 2014 and March 31, 2013, respectively.

The Company maintains the Exl Service Inc. 401(k) Plan under Section 401(k) of the Internal Revenue Code of 1986, covering all eligible employees, as defined. The Company may make discretionary contributions of up to a maximum of 3% of employee compensation within certain limits. The Company has made provisions for contributions to the 401(k) Plan amounting to \$192 and \$370 during the three month periods ended September 30, 2014 and 2013, respectively, and \$1,037 and \$1,343 during the nine month periods ended September 30, 2014 and 2013, respectively.

During the three and nine month periods ended September 30, 2014 and 2013, the Company contributed the following amounts to various defined contribution plans on behalf of its employees in India, the Philippines, Romania, Bulgaria, and the Czech Republic:

Three months ended September 30, 2014	\$ 1,418

The Company finances its use of certain leasehold improvements, furniture, fixtures, office equipment and motor vehicles under various lease arrangements provided by financial institutions. Future minimum lease payments under these capital leases as of September 30, 2014 are as follows:

Year ending September 30,	
2015	\$ 1,164
2016	692
2017	184
2018	42
Total minimum lease payments	2,082
Less: amount representing interest	210
Present value of minimum lease payments	1,872
Less: current portion	1,022
Long term capital lease obligation	\$ 850

The Company conducts its operations using facilities leased under non-cancelable operating lease agreements that expire at various dates. Future minimum lease payments under non-cancelable agreements expiring after September 30, 2014 are set forth below:

Year ending September 30,	
2015	\$ 9,777
2016	6,978
2017	2,409
2018	1,728
2019	1,300
2020 and thereafter	178

The operating leases are subject to renewal periodically and have scheduled rent increases. The Company accounts for scheduled rent on a straight-line basis over the non-cancelable lease period determined under ASC 840. Rent expense under both cancelable and non-cancelable operating leases was \$4,897 and \$4,264 for the three months ended September 30, 2014 and 2013, respectively, and \$14,153 and \$13,049 for the nine months ended September 30, 2014 and 2013, respectively. Deferred rent as of September 30, 2014 and December 31, 2013 was \$6,528 and \$5,394, respectively, and is included under Accrued expenses and other current liabilities and Non-current liabilities in the consolidated balance sheets.

12. Income Taxes

The Company determines the tax provision for interim periods using an estimate of its annual effective tax rate adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter, the Company updates its estimate of its annual effective tax rate, and if its estimated tax rate changes, the Company makes a cumulative adjustment.

The Company recorded an income tax expense of \$1,002 and \$4,230 for the three months ended September 30, 2014 and 2013, respectively. Income tax expense for the nine months ended September 30, 2014 and 2013 was \$4,523 and \$10,842, respectively. The effective tax rate decreased from 24.2% during the three months ended September 30, 2013 to 14.2% during the three months ended September 30, 2014. The effective tax rate decreased from 25.2% during the nine months ended September 30, 2013 to 15.3% during the nine months ended September 30, 2014, primarily due to the reversal of an unrecognized tax benefit of \$2,173 during the quarter ended June 30, 2014 as a result of judicial rulings handed down during the quarter involving unaffiliated companies regarding similar tax matters. In the Company's judgment, such rulings increased the level of certainty that its position

Table of Contents**EXLSERVICE HOLDINGS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****September 30, 2014****(Unaudited)****(In thousands, except share and per share amounts)**

on these tax adjustments proposed by the tax authorities would more likely than not be resolved in favor of the Company. The effective tax rate was further decreased during the nine months ended September 30, 2014 due to lower income in the U.S. due to the reimbursement of disentanglement costs to Travelers under the Services Agreement (refer to Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations for further details).

The following table summarizes the activity related to the gross unrecognized tax benefits from January 1, 2014 through September 30, 2014:

Balance as of January 1, 2014	\$ 4,913
Increases related to prior year tax positions	
Decreases related to prior year tax positions	(2,173)
Increases related to current year tax positions	
Decreases related to current year tax positions	
Effect of exchange rate changes	58
Balance as of September 30, 2014	\$ 2,798

The unrecognized tax benefits as of September 30, 2014 of \$2,798, if recognized, would impact the effective tax rate.

During the three months ended September 30, 2014 and 2013, the Company has recognized interest of \$54 and \$52 respectively, which is included in the income tax provision in the unaudited consolidated statements of income. As of September 30, 2014 and December 31, 2013, the Company has accrued approximately \$1,024 and \$863, respectively, in interest relating to unrecognized tax benefits.

The unrecognized tax benefits may increase or decrease in the next twelve months depending on the Company's tax position.

13. Stock-Based Compensation

The following costs related to the Company's stock-based compensation plan are included in the unaudited consolidated statements of income:

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013

Total	\$ 2,376	\$ 2,967	\$ 8,518	\$ 9,472

Stock Options

The fair value of each stock option granted to employees is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	Nine months ended September 30,	
	2014	2013
Dividend yield	0%	0%
Expected life (years)	5.50	5.50
Risk free interest rate	1.84%	0.87%
Volatility	35%	40%

The estimated expected term of options granted has been based on historical experience, which is representative of the expected term of the options. Volatility has been calculated based on the volatility of the Company's common stock and the volatility of stock of comparative companies. The risk-free interest rate that the Company uses in the option valuation model is based on U.S. treasury zero-coupon bonds with a remaining term similar to the expected term of the options.

Table of Contents**EXLSERVICE HOLDINGS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****September 30, 2014****(Unaudited)****(In thousands, except share and per share amounts)**

The Company does not anticipate paying any cash dividends in the foreseeable future and therefore uses an expected dividend yield of zero in the option valuation model. The Company is required to estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company uses historical data to estimate pre-vesting option forfeitures and records stock-based compensation expense only for those awards that are expected to vest. All stock-based payment awards are amortized on a straight-line basis over the requisite service periods of the awards, which are generally the vesting periods.

Performance Based Stock Awards

On February 13, 2014, the Compensation Committee of the Board of Directors of the Company approved the program of performance based grant of restricted stock units (PRSUs) for executive officers and other specified employees under its existing 2006 Omnibus Award Plan.

Under this program, the PRSUs will cliff vest at the end of a three-year period based on satisfaction of dual performance criteria: 50% of the PRSUs shall be based on a total revenue performance condition (PUs) measured on a cumulative basis over a three-year performance period and the other 50% shall be based on a market condition (MUs) that is contingent on meeting or exceeding the total shareholder return relative to a group of peer companies specified under the program, measured over a three-year performance period. In addition, up to one-third of the PUs may be earned based on the Company's revenue performance in each of 2014 and 2015 against revenue targets in those years. The ultimate amount of PUs that the recipient earns, will be the greater of (x) the PUs earned in 2016 and (y) the sum of the earned PUs in 2014 and 2015. The award recipient may earn up to two hundred percent (200%) of the target based on the actual performance for both kinds of PRSUs.

The fair value of each PU was determined based on the market price of one common share of the Company on the date of grant, and assumes that performance targets will be achieved. The compensation expense for the PUs is recognized on a straight-line basis over the vesting terms. Over the performance period, the number of shares that will be issued will be adjusted upward or downward based upon the probability of achievement of the performance targets. The ultimate number of shares issued and the related compensation cost recognized as an expense will be based on a comparison of the final performance metrics to the specified targets.

The grant date fair value for the MUs was determined using a Monte Carlo simulation model and will be expensed on a straight-line basis over the vesting period. All compensation expense related to the MUs will be recognized if the requisite performance period is fulfilled, even if the market condition is not achieved.

The Monte-Carlo simulation model simulates a range of possible future stock prices and estimates the probabilities of the potential payouts. This model also incorporates the following ranges of assumptions:

The historical volatilities are used over the most recent three-year period for the components of the peer group.

The risk-free interest rate is based on the U.S. Treasury rate assumption commensurate with the three-year performance period.

Since the plan stipulates that the awards are based upon the TSR of the Company and the components of the peer group, it is assumed that the dividends get reinvested in the issuing entity on a continuous basis.

The correlation coefficients are used to model the way in which each entity tends to move in relation to each other are based upon the price data used to calculate the historical volatilities.

Performance restricted stock unit activity under the Company's stock plans is shown below:

As of September 30, 2014, unrecognized compensation cost of \$2,298 is expected to be expensed over a weighted average period of 2.25 years.

15. Commitments and Contingencies

Fixed Asset Commitments

As of September 30, 2014, the Company had committed to spend approximately \$6,840 under agreements to purchase fixed assets. This amount is net of capital advances paid in respect of these purchases.

Other Commitments

Certain units of the Company's Indian subsidiaries were established as 100% Export-Oriented units under the Software Technology Parks of India (STPI) scheme promulgated by the Government of India. These units are exempt from

customs, central excise duties, and levies on imported and indigenous capital goods, stores, and spares. The Company has undertaken to pay custom duties, service taxes, levies, and liquidated damages payable, if any, in respect of imported and indigenous capital goods, stores, and spares consumed duty free, in the event that certain terms and conditions are not fulfilled. The Company's management believes, however, that these units have in the past satisfied and will continue to satisfy the required conditions.

The Company's operations centers in the Philippines are registered with the Philippine Economic Zone Authority (PEZA). The registration provides the Company with certain fiscal incentives on the import of capital goods and requires Exl Philippines to meet certain performance and investment criteria. The Company's management believes that these centers have in the past satisfied and will continue to satisfy the required criteria.

Contingencies

U.S. and Indian transfer pricing regulations require that any international transaction involving associated enterprises be at an arm's-length price. Accordingly, the Company determines the appropriate pricing for the international transactions among its

associated enterprises on the basis of a detailed functional and economic analysis involving benchmarking against transactions among entities that are not under common control. The tax authorities have jurisdiction to review this arrangement and in the event that they determine that the transfer price applied was not appropriate, the Company may incur increased tax liability, including accrued interest and penalties. The Company is currently involved in disputes with the Indian tax authorities over the application of some of its transfer pricing policies for some of its subsidiaries. Further, the Company and its U.S. subsidiary are engaged in tax litigation with the income-tax authorities in India on the issue of permanent establishment.

The aggregate disputed amount demanded by Indian tax authorities from the Company related to its transfer pricing issues for various years ranging from tax years 2003 to 2010 and its permanent establishment issues ranging from tax years 2003 to 2007 as of September 30, 2014 and December 31, 2013 is \$18,015 and \$14,742, respectively, of which the Company has already made payments or provided bank guarantees to the extent of \$14,970 and \$13,797, respectively. Amounts paid as deposits in respect of such assessments aggregating to \$12,825 and \$11,653 as of September 30, 2014 and December 31, 2013, respectively, are included in Other assets and amounts deposited for bank guarantees aggregating to \$2,145 and \$2,144 as of September 30, 2014 and December 31, 2013, respectively, are included in Restricted cash in the non-current assets section of the Company's consolidated balance sheets as of September 30, 2014 and December 31, 2013.

Based on advice from its Indian tax advisors, the facts underlying the Company's position and its experience with these types of assessments, the Company believes that the probability that it will ultimately be found liable for these assessments is remote and accordingly has not accrued any amount with respect to these matters in its consolidated financial statements. The Company does not expect any impact from these assessments on its future income tax expense. It is possible that the Company might receive similar orders or assessments from tax authorities for subsequent years. Accordingly even if these disputes are resolved, the Indian tax authorities may still serve additional orders or assessments.

16. Subsequent Event

Acquisition of Overland Holdings, Inc.

On October 24, 2014, pursuant to an Agreement and Plan of Merger, dated October 24, 2014, by and between ExlService.com, LLC, a Delaware limited liability company and a wholly owned subsidiary of the Company (the Acquiror), Heartland Acquisition Sub Corp., a Delaware corporation and a wholly owned subsidiary of the Acquiror (Merger Sub), Overland Holdings, Inc., a Delaware corporation (Overland), New Mountain Affiliated Investors, L.P., a New York limited partnership, and New Mountain Partners, L.P., a New York limited partnership (the Plan of Merger), the Company acquired Overland in a merger transaction. Overland specializes in premium audit services,

commercial and residential underwriting surveys and loss control services to the property and casualty insurance industry.

Under the terms of the Plan of Merger and subject to the conditions set forth therein, Merger Sub merged with and into Overland and Overland survived and became a wholly owned subsidiary of the Acquiror (the Merger). The aggregate consideration for all the outstanding capital stock of Overland was \$53,000 in cash (the Merger Consideration), subject to adjustment based on working capital, Overland's debt and certain transaction expenses. The Merger Consideration was paid with existing cash on the Company's balance sheet. A portion of the Merger Consideration otherwise payable in the Merger was placed into escrow as security for post-closing working capital adjustments and the indemnification obligations under the Merger Agreement.

Credit Agreement

The Company and certain of its subsidiaries entered into a credit agreement with certain lenders and JPMorgan Chase Bank, N.A., as administrative agent, that became effective as of October 27, 2014 (the Credit Agreement). The credit agreement provides for a \$50,000 revolving credit facility. The Company has an option to increase the commitments under the credit agreement, subject to certain approvals and conditions as set forth in the credit agreement. The credit agreement also includes a letter of credit subfacility. Borrowings under the credit agreement may be used for working capital and general corporate purposes of the Company and its subsidiaries.

Depending on the type of borrowing, loans under the Credit Agreement bear interest at a rate equal to the specified prime rate (alternate base rate) or adjusted LIBO rate, plus, in each case, an applicable margin. The applicable margin is tied to the Company's leverage ratio and ranges from 0.25% to 0.75% per annum with respect to loans (ABR Loans) pegged to the specified prime rate, and 1.25% to 1.75% per annum on loans (Eurodollar Loans) pegged to the adjusted LIBO rate (such applicable margin, the Applicable Rate). The revolving credit commitments under the Credit Agreement are subject to a commitment fee. The commitment fee is also tied to the Company's leverage ratio, and ranges from 0.20% to 0.30% per annum on the average daily amount by which the aggregate revolving commitments exceed the sum of outstanding revolving loans and letter of credit obligations.

The Credit Agreement will be guaranteed by the Company's domestic subsidiaries. The obligations under the Credit Agreement will be secured by all or substantially all of the assets of the Company and its material domestic subsidiaries.

The Credit Agreement contains customary affirmative and negative covenants (which are in some cases subject to certain exceptions), including, but not limited to, restrictions on the ability to incur additional indebtedness, create liens, make certain investments, make certain dividends and related distributions, enter into, or undertake, certain liquidations, mergers, consolidations or acquisitions and dispose of assets or subsidiaries. In addition, the Credit Agreement requires the Company to maintain a certain interest coverage ratio and a leverage ratio.

The Credit Agreement contains customary events of default (which are in some cases subject to certain exceptions, thresholds, notice requirements and grace periods), including, but not limited to, nonpayment of principal or interest, breaches of representations and warranties, failure to perform or observe covenants, cross-defaults with certain other agreements or indebtedness, final judgments or orders, certain change of control events and certain bankruptcy-related events or proceedings.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in connection with our unaudited consolidated financial statements and the related notes included elsewhere in this Quarterly Report on Form 10-Q and our audited consolidated financial statements and the related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. Some of the statements in the following discussion are forward looking statements. See Forward Looking Statements. Dollar amounts within Item 2 are presented as actual dollar amounts.

Forward Looking Statements

This Quarterly Report on Form 10-Q contains forward looking statements. You should not place undue reliance on these statements because they are subject to numerous uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Forward looking statements include information concerning our possible or assumed future results of operations and the impact of the termination of the Services Agreement (as defined below) with Travelers (as defined below). These statements often include words such as may, will, should, believe, expect, anticipate, intend, plan, estimate or similar. These statements are based on assumptions that we have made in light of our experience in the industry as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Quarterly Report on Form 10-Q, you should understand that these statements are not guarantees of performance or results. They involve known and unknown risks, uncertainties and assumptions. Although we believe that these forward looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward looking statements. These factors include but are not limited to:

our dependence on a limited number of clients in a limited number of industries;

uncertainty regarding the impact of the termination of the Services Agreement with Travelers, the process for the transition of the Travelers services away from our facilities and our ability to re-deploy personnel and infrastructure to other clients;

worldwide political, economic or business conditions;

negative public reaction in the U.S. or elsewhere to offshore outsourcing;

fluctuations in our earnings;

our ability to attract and retain clients;

our ability to successfully consummate or integrate strategic acquisitions;

restrictions on immigration;

our ability to hire and retain enough sufficiently trained employees to support our operations;

our ability to grow our business or effectively manage growth and international operations;

increasing competition in our industry;

telecommunications or technology disruptions;

regulatory, legislative and judicial developments, including changes to or the withdrawal of governmental fiscal incentives;

technological innovation;

political or economic instability in the geographies in which we operate;

unauthorized disclosure of sensitive or confidential client and customer data; and

adverse outcome of our disputes with the Indian tax authorities.

These and other factors are more fully discussed elsewhere in this Quarterly Report on Form 10-Q. These and other risks could cause actual results to differ materially from those implied by forward looking statements in this Quarterly Report on Form 10-Q.

Table of Contents

The forward looking statements made by us in this Quarterly Report on Form 10-Q, or elsewhere, speak only as of the date on which they were made. New risks and uncertainties come up from time to time, and it is impossible for us to predict those events or how they may affect us. We have no obligation to update any forward looking statements in this Quarterly Report on Form 10-Q after the date of this Quarterly Report on Form 10-Q, except as required by federal securities laws.

Executive Overview

We are a leading provider of business process solutions, utilizing operations management, analytics and technology. We use our focused industry and process expertise to create a positive business impact on our clients' operations. We customize our services to improve the economics of our clients' business performance and transform organizations to be leaner and more flexible. We break our business into two segments: outsourcing and transformation services. Our outsourcing services provide front-, middle- and back-office processing for our clients, who are primarily Global 1000 Companies. We also offer a number of transformation services including decision analytics, finance transformation and operations consulting services.

Our global delivery network, comprising highly trained industry and process specialists across the United States, Europe and Asia, is a key asset. We have operations centers in India, the U.S., the Philippines, Bulgaria, Romania and the Czech Republic. We also established two new operating centers, one in the U.S. and the other in the Philippines during the three months ended September 30, 2014.

On July 1, 2014, we acquired Blue Slate Ventures, LLC (Blue Slate), a provider of Business Process Management and Technology Solutions that specializes in transforming operations through business process automation, use of innovative technologies, data integration and analytics.

Revenue

On November 1, 2013, we received a notice of termination from The Travelers Indemnity Company (Travelers) under the Professional Services Agreement, dated as of March 7, 2006, between us and Travelers (as amended from time to time, the Services Agreement). Due to this termination, we estimate a reduction in our 2014 revenues of between \$12 million and \$15 million due to certain services we currently provide to Travelers being transitioned away from us throughout 2014. In addition, we expect that we will reimburse Travelers for certain of their expenses incurred in connection with the termination (the disentanglement costs), which will further reduce our revenues in 2014. During the three months and nine months ended September 30, 2014, we recognized \$9.6 million and \$17.8 million, respectively, of reimbursement of disentanglement costs to Travelers as a reduction of revenues.

For the three months ended September 30, 2014, we had total revenues of \$122.5 million (net of \$9.6 million of reimbursement of disentanglement costs to Travelers) compared to total revenues of \$122.3 million for the three months ended September 30, 2013, an increase of \$0.2 million or 0.1%. Revenues from outsourcing services were \$91.2 million (net of \$9.6 million of reimbursement of disentanglement costs to Travelers) for the three months ended September 30, 2014 compared to \$99.7 million for the three months ended September 30, 2013. Revenues from transformation services were \$31.3 million for the three months ended September 30, 2014 compared to \$22.6 million for the three months ended September 30, 2013.

For the nine months ended September 30, 2014, we had total revenues of \$364.0 million (net of \$17.8 million of reimbursement of disentanglement costs to Travelers) compared to total revenues of \$354.3 million for the nine months ended September 30, 2013, an increase of \$9.7 million or 2.7%. Revenues from outsourcing services were \$285.6 million (net of \$17.8 million of reimbursement of disentanglement costs to Travelers) for the nine months

ended September 30, 2014 compared to \$294.6 million for the nine months ended September 30, 2013. Revenues from transformation services were \$78.4 million for the nine months ended September 30, 2014 compared to \$59.8 million for the nine months ended September 30, 2013.

We serve clients mainly in the U.S. and the U.K., with these two regions generating 73.0% and 21.3%, respectively, of our total revenues for the three months ended September 30, 2014 and 75.2% and 18.8%, respectively, of our total revenues for the three months ended September 30, 2013. For the nine months ended September 30, 2014, these two regions generated 73.5% and 20.4%, respectively, of our total revenues and 73.3% and 19.8%, respectively, of our total revenues for the nine months ended September 30, 2013.

For the three months ended September 30, 2014 and 2013, total revenues from our top ten clients accounted for 52.2% and 57.1% of our total revenues, respectively. For the nine months ended September 30, 2014 and 2013, total revenues from

Table of Contents

our top ten clients accounted for 51.5% and 58.8% of our total revenues, respectively. None of our clients accounted for more than 10% of our total revenues during the three and nine months ended September 30, 2014 and September 30, 2013. Although we are continually increasing and diversifying our customer base, we expect in the near future that a significant portion of our revenue will continue to be contributed by a limited number of large clients.

We derived revenues from five and 21 new clients for our services in the three and nine months ended September 30, 2014, respectively, compared to eight and 18 new clients for our services in the three and nine months ended September 30, 2013, respectively. Another two clients acquired during the three months ended September 30, 2014 did not generate any revenue, but are expected to start generating revenues next quarter.

Our Business

We break our business into two segments: Outsourcing Services and Transformation Services. We market our services to our existing and prospective clients through our sales and client management teams, which are aligned by key industry verticals and cross industry domains such as finance and accounting. Our sales and client management teams operate from the U.S. and Europe.

Outsourcing Services: We provide our clients with a range of outsourcing services principally in the insurance, healthcare, utilities, banking and financial services, travel, and transportation and logistics sectors, as well as cross-industry outsourcing services, such as finance and accounting services. We serve primarily the needs of Global 1000 companies in these sectors.

Our outsourcing services involve the transfer to us of select business operations of a client, such as claims processing, policy administration and finance and accounting, after which we administer and manage the operations for our client on an ongoing basis. As part of this transfer, we hire and train employees to work at our operations centers on the relevant outsourcing services, implement a process migration to these operations centers and then provide services either to the client or directly to the client's customers. Each client contract has different terms based on the scope, deliverables and complexity of the engagement. The outsourcing services we provide to any of our clients (particularly under our general framework agreements), and the revenues and income that we derive from those services, may decline or vary as the type and quantity of services we provide under those contracts change over time, including as a result of a shift in the mix of products and services we provide.

For most outsourcing services we provide, we enter into long-term agreements with our clients with typical initial terms ranging from three to eight years. These contracts also usually contain provisions permitting termination of the contract after a short notice period. Although these agreements provide us with a relatively predictable revenue base for a substantial portion of our business, the long selling cycle for our outsourcing services and the budget and approval processes of prospective clients make it difficult to predict the timing of new client acquisitions. Revenues under new client contracts also vary depending on when we complete the selling cycle and the implementation phase.

To the extent our client contracts do not contain provisions to the contrary, we bear the risk of inflation and fluctuations in currency exchange rates with respect to our contracts. We hedge a substantial portion of our Indian rupee/U.S. dollar, Philippine peso/U.S. dollar and U.K. pound sterling/U.S. dollar foreign currency exposure.

We have been observing a shift in industry pricing models toward transaction-based pricing and other pricing models. We believe this trend will continue and we have begun to use transaction-based and other pricing models with some of our current clients and are seeking to move certain other clients from a billing rate model to a transaction-based or other pricing model. Such models place the focus on operational efficiency in order to maintain our operating margins.

In addition, we have also observed that prospective larger clients are entering into multi-vendor relationships with regard to their outsourcing needs. We believe that the trend toward multi-vendor relationships will continue. A multi-vendor relationship allows a client to seek more favorable pricing and other contract terms from each vendor, which can result in significantly reduced operating margins from the provision of services to such client for each vendor. To the extent our large clients expand their use of multi-vendor relationships and are able to extract more favorable contract terms from other vendors, our operating margins and revenues may be reduced with regard to such clients if we are required to modify the terms of our relationships with such clients.

Within our outsourcing services, we also offer platform technology services by use of our proprietary technology tools and platforms to provide increasingly complex services for our insurance and healthcare clients. We have added these capabilities through acquisitions over the last few years. Key platform technology offerings include CareRadius® and MaxMC® (both care management platforms for health insurers and providers), LifePRO® (an insurance policy administration platform) and SubroSource (a subrogation services platform for property and casualty insurers). Depending on the platform, the fees derived from our platform technologies may be based on licenses, installation, support and maintenance, and/or recoveries from claims. We believe our proprietary platform technology will be an important source of growth in the future as clients choose to transfer certain business functions to a third-party-owned technology provider.

Table of Contents

As we increase our capabilities utilizing technology service platforms and other software-based services, we expect that revenues from such services will continue to grow in proportion to our total revenues. Revenues from annual maintenance and support contracts for our software platforms provide us with a relatively predictable revenue base and are generally recognized ratably over the terms of the contracts. New license sales and implementation projects have a long selling cycle and it is difficult to predict the timing of when such new contracts will be signed which may lead to fluctuations in our revenues over short-term.

We anticipate that revenues from our outsourcing services will grow as we expand our service offerings and client base, both organically and through acquisitions.

Transformation Services: Our transformation services offer positive business change for our clients. By utilizing sophisticated tools and techniques and highly trained analysts, we (i) provide insight into our clients' current and future financial and operational results using analytics, (ii) improve clients' operating environments through cost reduction and increased efficiency and productivity initiatives and (iii) enhance the risk and control environments within our clients' operations whether or not they are outsourced to us. Our key areas of transformation services are decision analytics, operations and process excellence consulting and finance transformation.

Our transformation services consist of both recurring and specific projects with contract terms generally not exceeding one to three years. These contracts also usually contain provisions permitting termination of the contract after a short notice period. The short-term nature and specificity of these projects could lead to further material fluctuations and uncertainties in the revenues generated from these businesses. Our transformation services can be significantly affected by variations in business cycles. We have experienced a significant increase in demand for our annuity-based transformation services, which are engagements that are contracted for one- to three-year terms.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies and estimates, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations' Critical Accounting Policies and Estimates' and Note 1 of the Notes to the Consolidated Financial Statements included in our 2013 Annual Report on form 10-K for the year ended December 31, 2013.

Total revenues	\$ 122.5	\$ 122.3	\$ 0.2	0.1%

The decrease in revenues from outsourcing services of \$8.5 million was primarily due to the reimbursement of disentanglement costs to Travelers of \$9.6 million, offset by net volume increases from our existing and new clients aggregating to \$0.2 million and an increase of \$0.9 million due to the impact of the appreciation of the Indian rupee and the U.K. pound sterling against the U.S. dollar during the three months ended September 30, 2014 compared to the three months ended September 30, 2013.

The increase in revenues from transformation services of \$8.7 million was driven by revenues of \$1.5 million from the Blue Slate acquisition and a combination of increased revenues in our recurring decision analytics services and project-based engagements in our decision analytics and finance transformation services. Revenues from new clients for transformation services were \$0.2 million and \$0.4 million during the three months ended September 30, 2014 and 2013, respectively.

For the three months ended September 30, 2014 and 2013, 4.3% and 3.9%, respectively, of our revenues represented telecommunication and travel-related costs billed to and reimbursed by our clients.

As a percentage of revenues

	30.6%	41.1%
--	-------	-------

The increase in cost of revenues was primarily due to an increase in employee-related costs of \$9.5 million (including \$1.0 million of employee-related costs related to the Blue Slate acquisition) as a result of an annual wage increase effective April 1, 2014, and an increase in the number of our personnel directly involved in providing services to our clients. We also experienced an increase in facilities, technology and other operating expenses of \$1.5 million (primarily due to the establishment of new operations centers to support business growth and the Blue Slate acquisition), \$0.5 million in reimbursable expenses (resulting in an increase in revenues) and \$1.4 million due to the

impact of appreciation of the Indian rupee against the U.S. dollar during the three months ended September 30, 2014 compared to the three months ended September 30, 2013.

Gross Profit. The decrease in gross profit as a percentage of revenues was primarily due to the impact of reimbursement of disentanglement costs to Travelers, higher cost of revenues as mentioned above and appreciation of the Indian rupee against the U.S. dollar during the three months ended September 30, 2014 compared to the three months ended September 30, 2013.

Selling, general and administrative expenses	\$ 25.1	\$ 24.8	\$ 0.3	1.1%
As a percentage of revenues	20.5%	20.3%		

The increase in SG&A expenses was primarily due to an increase in employee-related costs of \$1.5 million (including \$0.5 million due to Blue Slate acquisition) due to an annual wage increase effective April 1, 2014 and our continued investment in sales and client management personnel. We also experienced an increase in facilities related costs by \$0.3 million and \$0.2 million due to the impact of appreciation of the Indian rupee against the U.S. dollar during the three months ended September 30, 2014 compared to the three months ended September 30, 2013. This increase was offset by a decrease of \$1.7 million in our other SG&A expenses, primarily due to a write off of an accounts receivable during the three months ended September 30, 2013.

Depreciation and amortization expense	\$ 7.0	\$ 6.0	\$ 1.0	17.3%
As a percentage of revenues	5.7%	4.9%		

The increase in depreciation and amortization expense during the three months ended September 30, 2014 compared to the three months ended September 30, 2013 was primarily due to increased depreciation of \$1.0 million related to our new capital investments to support business growth.

Income from Operations. Income from operations decreased 72.3% from \$19.5 million for the three months ended September 30, 2013 to \$5.4 million for the three months ended September 30, 2014. As a percentage of revenues, income from operations decreased from 16.0% for the three months ended September 30, 2013 to 4.4% for the three months ended September 30, 2014. The decrease in income from operations as a percentage of revenues was primarily due to lower gross margins and higher depreciation and amortization expenses during the three months ended September 30, 2014 compared to the three months ended September 30, 2013.

Net foreign exchange income/(loss) was attributable to movement of the U.S. dollar against the Indian rupee, the Philippine peso and the U.K. pound sterling. The average exchange rate of the Indian rupee against the U.S. dollar decreased from 62.90 during the three months ended September 30, 2013 to 60.94 during the three months ended September 30, 2014. Increase in net interest and other income of \$0.7 million, was primarily due to higher yield on investments during the three months ended September 30, 2014 compared to the three months ended September 30, 2013.

Provision for Income Taxes. Provision for income taxes decreased from \$4.2 million during the three months ended September 30, 2013 to \$1.0 million during the three months ended September 30, 2014. The effective tax rate decreased from 24.2% during the three months ended September 30, 2013 to 14.2% during the three months ended September 30, 2014 primarily due to lower income in the United States (refer to Note 12 to the unaudited consolidated financial statements for further details).

Net Income. Net income decreased from \$13.2 million for the three months ended September 30, 2013 to \$6.1 million for the three months ended September 30, 2014, primarily due to a decrease in operating income of \$14.1 million, partially offset by lower tax expense of \$3.2 million and an increase in other income of \$3.8 million. As a percentage of revenues, net income decreased from 10.8% for the three months ended September 30, 2013 to 5.0% for the three months ended September 30, 2014.

Total revenues	\$ 364.0	\$ 354.3	\$ 9.7	2.7%

The decrease in revenues from outsourcing services of \$9.0 million was primarily driven by net volume increases from our existing and new clients aggregating to \$13.1 million, offset by a decrease of \$17.8 million due to the reimbursement of disentanglement costs to Travelers. Further, there was a decrease in revenues of \$4.4 million due to the net impact of the depreciation of the Indian rupee and the Philippine peso and the appreciation of U.K. pound sterling against the U.S. dollar during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

The increase in revenues from transformation services of \$18.7 million was driven by revenues of \$1.5 million from the Blue Slate acquisition and a combination of increased revenues in our recurring decision analytics services and project-based engagements in our decision analytics, operations consulting and finance transformation services. Revenues from new clients for transformation services were \$4.2 million and \$2.0 million during the nine months ended September 30, 2014 and 2013, respectively.

For the nine months ended September 30, 2014 and 2013, 3.8% and 3.9%, respectively, of our revenues represented telecommunication and travel-related costs billed to and reimbursed by our clients.

The increase in cost of revenues was primarily due to an increase in employee-related costs of \$24.1 million (including \$1.0 million of employee-related costs related to the Blue Slate acquisition) as a result of an annual wage increase effective April 1, 2014 and an increase in the number of our personnel directly involved in providing services to our clients. We also experienced an increase in facilities, technology and other operating expenses of \$6.7 million (primarily due to the establishment of new operations centers to support business growth and the Blue Slate acquisition). These increases were partially offset by a decrease of \$8.5 million due to the depreciation of the Indian rupee and the Philippine peso against the U.S. dollar during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

Gross Profit. The decrease in gross profit as a percentage of revenues was primarily due to higher employee costs and the impact of reimbursement of disentanglement costs to Travelers. This decrease was partially offset by the depreciation of the Indian rupee and the Philippine peso against the U.S. dollar during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

As a percentage of revenues	20.8%	20.4%
-----------------------------	-------	-------

The increase in SG&A expenses was primarily due to an increase in employee-related costs of \$3.1 million due to our annual wage increase effective April 1, 2014, including \$0.5 million due to the Blue Slate acquisition. We also experienced an increase in other SG&A expenses of \$1.7 million, primarily due to an increase in our facility, legal and professional fees, travel and other marketing related costs, partially offset by a decrease of \$1.2 million due to the depreciation of the Indian rupee and the Philippine peso against the U.S. dollar during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

-----------------------------	------	------

Depreciation and amortization expense increased 6.3% from \$18.8 million for the nine months ended September 30, 2013 to \$20.0 million for the nine months ended September 30, 2014. The increase was primarily due to increase in depreciation of \$2.2 million related to our new capital investments to support business growth, partially offset by a \$0.3 million decrease in amortization and a decrease of \$0.7 million due to depreciation of the Indian rupee and the Philippines peso against the U.S. dollar during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

Income from Operations. Income from operations decreased from \$44.4 million for the nine months ended September 30, 2013 to \$27.0 million for the nine months ended September 30, 2014. As a percentage of revenues, income from operations decreased from 12.5% for the nine months ended September 30, 2013 to 7.4% for the nine months ended September 30, 2014. The decrease in income from operations as a percentage of revenues was primarily due to lower gross margins and higher SG&A expenses as a percentage of revenues during the nine months ended September 30, 2014.

Net foreign exchange gains/(losses) are attributable to movement of the U.S. dollar against the Indian rupee, the Philippine peso and the U.K. pound sterling. The average exchange rate of the Indian rupee against the U.S. dollar increased from 57.80 during the nine months ended September 30, 2013 to 60.76 during the nine months ended September 30, 2014. Increase in net interest and other income of \$1.1 million, was primarily due to higher yield on investments during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

Provision for Income Taxes. Provision for income taxes decreased from \$10.8 million for the nine months ended September 30, 2013 to \$4.5 million for the nine months ended September 30, 2014. The effective tax rate decreased from 25.2% during the nine months ended September 30, 2013 to 15.3% during the nine months ended September 30, 2014, primarily due to a reversal of an unrecognized tax benefit of \$2.2 million and lower income in the United States (refer to Note 12 to the unaudited consolidated financial statements for further details).

Net Income. Net income decreased from \$32.2 million for the nine months ended September 30, 2013 to \$25.0 million for the nine months ended September 30, 2014, primarily due to lower income from operations of \$17.4 million, partially offset by lower income tax expense of \$6.3 million and higher other income of \$3.9 million. As a percentage of revenues, net income decreased from 9.1% for the nine months ended September 30, 2013 to 6.9% for the nine months ended September 30, 2014.

As of September 30, 2014, we had \$168.0 million in cash and cash equivalents and short-term investments (including \$82.8 million held by our foreign subsidiaries). We do not intend to repatriate our overseas funds since our future growth partially depends upon continued infrastructure and technology investments, geographical expansions and acquisitions outside of the U.S. Therefore, we need to continuously and permanently reinvest the earnings generated outside of the U.S. If we were to repatriate our overseas funds, we would accrue and pay applicable taxes.

Operating Activities: Cash flows provided by operating activities marginally increased from \$44.2 million for the nine months ended September 30, 2013 to \$44.3 million for the nine months ended September 30, 2014. Generally, factors that affect our earnings including pricing, volume of services, costs and productivity affect our cash flows provided by operations in a similar manner. However, while management of working capital, including timing of collections and payments affects operating results only indirectly, the impact on the working capital and cash flows provided by operating activities can be significant.

The increase in cash flows provided by operations was primarily due to a net decrease in working capital of \$0.2 million, offset by a decrease in net income adjusted for non-cash expenses of \$0.1 million during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

Investing Activities: Cash flows used for investing activities increased from \$13.6 million for the nine months ended September 30, 2013 to \$30.6 million for the nine months ended September 30, 2014. The increase was primarily due to an increase in capital expenditure of \$12.0 million related to networking equipment, computers, software and our new operations centers in India and the Philippines during the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 and the acquisition of Blue Slate for \$6.2 million.

Financing Activities: Cash flows provided by financing activities decreased from \$3.0 million for the nine months ended September 30, 2013 to \$0.8 million for the nine months ended September 30, 2014. The decrease was primarily due to the purchase of treasury stock of \$2.9 million under the shares repurchase program.

Table of Contents

We expect to use cash from operating activities to maintain and expand our business. As we have focused on expanding our cash flow from operating activities we continue to make capital investments, primarily related to new facilities and capital expenditures associated with leasehold improvements to build our facilities and the purchase of telecommunications equipment and computer hardware and software in connection with managing client operations. We incurred \$23.8 million of capital expenditures in the nine months ended September 30, 2014. We expect to incur capital expenditures of between \$3.0 million to \$6.0 million in the remainder of 2014, primarily to meet the growth requirements of our clients, including additions to our facilities as well as investments in technology applications and infrastructure. The timing and volume of such capital expenditures in the future will be affected by new client contracts we may enter into or the expansion of business under our existing client contracts.

In connection with any tax assessment orders that have been issued or may be issued against us or our subsidiaries, we may be required to deposit additional amounts with respect to such assessment orders (refer to Note 15 to our unaudited consolidated financial statements for further details).

We anticipate that we will continue to rely upon cash from operating activities to finance our smaller acquisitions, capital expenditures and working capital needs. If we have significant growth through acquisitions, we may need to obtain additional financing.

Financing Arrangements (Debt Facility)

We and certain of our subsidiaries entered into a credit agreement with the lenders identified therein and JPMorgan Chase Bank, N.A., as administrative agent, that became effective as of October 27, 2014 (the Credit Agreement). The Credit Agreement provides for a \$50 million revolving credit facility. We have an option to increase the commitments under the Credit Agreement, subject to certain approvals and conditions as set forth in the Credit Agreement.

Borrowings under the Credit Agreement may be used for working capital and general corporate purposes of the Company and its subsidiaries.

Depending on the type of borrowing, loans under the Credit Agreement bear interest at a rate equal to the specified prime rate (alternate base rate) or adjusted LIBO rate, plus, in each case, an applicable margin. The applicable margin is tied to our leverage ratio and ranges from 0.25% to 0.75% per annum with respect to loans (ABR Loans) pegged to the specified prime rate, and 1.25% to 1.75% per annum on loans (Eurodollar Loans) pegged to the adjusted LIBO rate (such applicable margin, the Applicable Rate). The revolving credit commitments under the Credit Agreement are subject to a commitment fee. The commitment fee is also tied to our leverage ratio, and ranges from 0.20% to 0.30% per annum on the average daily amount by which the aggregate revolving commitments exceed the sum of outstanding revolving loans and letter of credit obligations.

Off-Balance Sheet Arrangements

As of September 30, 2014 and December 31, 2013, we had no off-balance sheet arrangements or obligations.

Contractual Obligations

The following table sets forth our contractual obligations as of September 30, 2014:

Total contractual cash obligations^(b)	\$ 20.3	\$ 12.8	\$ 5.5	\$ 3.2	\$ 41.8

(a) Represents estimated payments under the Company's gratuity plan.

(b) Excludes \$2.8 million related to uncertain tax positions, since the extent of the amount and timing of payment is currently not reliably estimable or determinable.

Certain units of our Indian subsidiaries were established as 100% Export-Oriented units under the STPI scheme promulgated by the Government of India. These units are exempt from customs, central excise duties, and levies on imported and indigenous capital goods, stores, and spares. We have undertaken to pay custom duties, service taxes, levies, and liquidated damages payable, if any, in respect of imported and indigenous capital goods, stores, and spares consumed duty free, in the event that certain terms and conditions are not fulfilled. We believe, however, that these units have in the past satisfied and will continue to satisfy the required conditions.

Our operations centers in the Philippines are registered with the PEZA. The registration provides us with certain fiscal incentives on the import of capital goods and requires that Exl Philippines meet certain performance and investment criteria. We believe that these centers have in the past satisfied and will continue to satisfy the required criteria.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the nine months ended September 30, 2014, there were no material changes in our market risk exposure. For a discussion of our market risk associated with exchange rate risk and interest rate risk, see Item 7A Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file under the Securities Exchange Act of 1934, as amended (the Exchange Act,) is recorded, processed, summarized and reported within the time periods specified in the U.S. Security and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), to allow timely decisions regarding required financial disclosure. In connection with the preparation of this Quarterly Report on Form 10-Q, our management carried out an evaluation, under the supervision and with the participation of the CEO and CFO, of the effectiveness and operation of our disclosure controls and procedures as of September 30, 2014. Based upon that evaluation, the CEO and CFO have concluded that, as of September 30, 2014, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

During the nine months ended September 30, 2014, there was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

On July 1, 2014, the Company completed the Blue Slate acquisition. The scope of our assessment of the effectiveness of internal control over financial reporting does not include this newly acquired business as permitted by SEC rules for recently acquired businesses. The Company is in the process of reviewing the internal control structure of Blue Slate, and, if necessary, will make appropriate changes as the Company incorporates its controls and procedures into the acquired business.

Credit Agreement

We and certain of our subsidiaries entered into a credit agreement with the lenders identified therein and JPMorgan Chase Bank, N.A., as administrative agent, that became effective as of October 27, 2014 (the *Credit Agreement*). The *Credit Agreement* provides for a \$50 million revolving credit facility. We have an option to increase the commitments under the *Credit Agreement*, subject to certain approvals and conditions as set forth in the *Credit Agreement*. The *Credit Agreement* also includes a letter of credit subfacility.

Borrowings under the *Credit Agreement* may be used for working capital and general corporate purposes of the Company and its subsidiaries.

Depending on the type of borrowing, loans under the *Credit Agreement* bear interest at a rate equal to the specified prime rate (alternate base rate) or adjusted LIBO rate, plus, in each case, an applicable margin. The applicable margin is tied to our leverage ratio and ranges from 0.25% to 0.75% per annum with respect to loans (*ABR Loans*) pegged to the specified prime rate, and 1.25% to 1.75% per annum on loans (*Eurodollar Loans*) pegged to the adjusted LIBO rate (such applicable margin, the *Applicable Rate*). The revolving credit commitments under the *Credit Agreement* are subject to a commitment fee. The commitment fee is also tied to our leverage ratio, and ranges from 0.20% to 0.30% per annum on the average daily amount by which the aggregate revolving commitments exceed the sum of outstanding revolving loans and letter of credit obligations.

Table of Contents

The Credit Agreement will be guaranteed by our domestic subsidiaries. The obligations under the Credit Agreement will be secured by all or substantially all of the assets of the borrower and its material domestic subsidiaries.

The Credit Agreement contains customary affirmative and negative covenants (which are in some cases subject to certain exceptions), including, but not limited to, restrictions on the ability to incur additional indebtedness, create liens, make certain investments, make certain dividends and related distributions, enter into, or undertake, certain liquidations, mergers, consolidations or acquisitions and dispose of assets or subsidiaries. In addition, the Credit Agreement requires us to maintain a certain interest coverage ratio and a leverage ratio.

The Credit Agreement contains customary events of default (which are in some cases subject to certain exceptions, thresholds, notice requirements and grace periods), including, but not limited to, nonpayment of principal or interest, breaches of representations and warranties, failure to perform or observe covenants, cross-defaults with certain other agreements or indebtedness, final judgments or orders, certain change of control events and certain bankruptcy-related events or proceedings.

The foregoing description of the Credit Agreement is subject to, and qualified in its entirety by, the Credit Agreement, which we expect to file as an exhibit to our Annual Report on Form 10-K for the fiscal year ending December 31, 2014.

Acquisition of Overland

On October 24, 2014, pursuant to an Agreement and Plan of Merger, dated October 24, 2014, by and between ExlService.com, LLC, a Delaware limited liability company and a wholly owned subsidiary of the Company (the Acquiror), Heartland Acquisition Sub Corp., a Delaware corporation and a wholly owned subsidiary of the Acquiror (Merger Sub), Overland Holdings, Inc., a Delaware corporation (Overland), New Mountain Affiliated Investors, L.P., a New York limited partnership, and New Mountain Partners, L.P., a New York limited partnership (the Plan of Merger), we acquired Overland in a merger transaction. Overland specializes in premium audit services, commercial and residential underwriting surveys and outsourced loss control services for the property and casualty insurance industry.

Under the terms of the Plan of Merger and subject to the conditions set forth therein, Merger Sub merged with and into Overland and Overland survived and became a wholly owned subsidiary of the Acquiror (the Merger). The aggregate consideration for all the outstanding capital stock of Overland was \$53 million in cash (the Merger Consideration), subject to adjustment based on working capital, Overland s debt and certain transaction expenses. The Merger Consideration was paid with existing cash on our balance sheet. A portion of the Merger Consideration otherwise payable in the Merger was placed into escrow as security for post-closing working capital adjustments and the indemnification obligations under the Merger Agreement.

The Merger Agreement contains customary representations, warranties and covenants of each of the Acquiror, Merger Sub and Overland. The assertions embodied in the representations, warranties and covenants in the Merger Agreement were made solely for purposes of the Merger Agreement and the transactions and agreements contemplated thereby among the representative parties are subject to important qualifications and limitations agreed to by the parties in connection with negotiating the terms of the Merger Agreement.

The foregoing summary of the Merger Agreement does not purport to be complete and is subject to, and qualified in its entirety by, the Merger Agreement filed hereto as Exhibit 2.1.
