Kennedy-Wilson, Inc.

5.875% Senior Notes due 2024

The Company

Kennedy Wilson is a vertically integrated global real estate investment and services company with over \$17 billion in assets under management. Founded in 1977, we have owned and operated real estate related investments for over 35 years on behalf of our shareholders and our clients. We have approximately 400 employees in 25 offices throughout the United States, the United Kingdom, Ireland, Spain, Jersey and Japan and manage and work with over 2,000 operating associates. We focus on adding value for our shareholders through opportunistic investing and strategic asset management. Also, our services business creates additional value through fee generation.

The Offering

The notes offered hereby (the "notes") will be issued as additional notes under the indenture pursuant to which, on March 25, 2014, we issued \$300,000,000 aggregate principal amount of our 5.875% Senior Notes due 2024 (the "initial notes"). The notes offered hereby will have substantially identical terms as the initial notes and will be treated as a single series with the initial notes under the indenture. Holders of the notes offered hereby and the initial notes will vote as one class under the indenture.

The Notes

The notes will be effectively subordinated to all of Kennedy-Wilson's and the guarantors' secured debt to the extent of the value of the assets securing that debt and structurally subordinated to all existing and future liabilities of Kennedy-Wilson's subsidiaries that do not guarantee the notes.

Our Company

We are a vertically integrated global real estate investment and services company with over \$17 billion in assets under management (AUM). Founded in 1977, we have owned and operated real estate-related investments for over 35 years on behalf of our shareholders and our clients. We have approximately 400 employees in 25 offices throughout the United States, the United Kingdom, Ireland, Spain, Jersey and Japan and manage and work with over 2,000 operating associates. We focus on adding value for our shareholders through opportunistic investing and strategic asset management. Also, our services business creates additional value through fee generation.

As of September 30, 2014, we own approximately 13.3% of the total issued share capital of Kennedy Wilson Europe Real Estate plc (KWE), a London Stock Exchange listed company, which we externally manage through a wholly owned subsidiary. In our capacity as KWE 's external manager, we are entitled to receive certain management and performance fees. In addition, KWE is provided priority access to all investment opportunities sourced by us in Europe. In accordance with U.S. GAAP, the results of KWE are consolidated in our financial statements.

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market and is not the basis for determining our management fees. Our assets under management consist of the total estimated fair value of the real estate properties and other real estate-related assets either owned by third parties, wholly owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

Our operating associates generally are individuals that are employed by or affiliated with third-party consultants, contractors, property managers or other service providers that we manage and oversee on a day-to-day basis with respect to our investments and services businesses.

Our Business Segments

Our operations are defined by two core business units: KW Investments and KW Services. KW Investments invests our capital in real estate-related assets. KW Services provides a full array of real estate-related services to owners and lenders, with a strong focus on financial institution based clients. The two segments have a symbiotic relationship and work closely together. KW Services provides insight and creates investment opportunities for KW Investments while KW Investments provides clients the ability to utilize the capabilities of KW Services.

KW Investments

We invest our capital in real estate assets and loans secured by real estate either on our own or with strategic partners through joint ventures, separate accounts and funds. We are typically the general partner in

S-2

Table of Contents

these investment vehicles with a right to promoted interests in the profits beyond our ownership percentage. Our equity partners include financial institutions, foundations, endowments, high net worth individuals and other institutional investors.

The following are product types we invest in through the KW Investments segment:

Multifamily

We pursue multifamily acquisition opportunities where we believe we can unlock value through a myriad of strategies, including institutional management, asset rehabilitation, repositioning and creative recapitalization. We focus primarily on apartments in supply-constrained, infill markets. As of September 30, 2014, we held investments in 19,371 multifamily apartment units, of which 8,006 units are owned by our consolidated subsidiaries and 11,365 units are owned through unconsolidated joint ventures.

Commercial

We source, acquire, and finance various types of commercial real estate, which includes office, industrial, retail, and mixed-use assets. After acquisition, the properties are repositioned to enhance market value. Assets are either sold as part of property-specific investment strategies designed to deliver above-market returns to our clients and shareholders or held if producing above average returns. As of September 30, 2014, we owned interests in 128 commercial properties, totaling over 14.4 million square feet, located throughout the western United States, the United Kingdom, Ireland, and Japan.

Loan Originations/Discounted Loan Purchases

We acquire and/or originate loans secured by real estate. Our acquisitions and originations include individual notes on all real estate property types as well as portfolios of loans purchased from financial institutions, corporations and government agencies. We deliver value through loan resolutions, discounted payoffs and sales. We also acquire the underlying real estate collateral through various means. The loans in our discounted purchased loan pool portfolio as of September 30, 2014 had an initial unpaid principal balance, or UPB, of approximately \$2.1 billion at the time of their origination. As of September 30, 2014, the UPB was approximately \$1.3 billion due to collections of over \$0.6 billion on the portfolio. Also, as of September 30, 2014, our loan originations portfolio had an UPB of approximately \$48.5 million with a weighted average interest rate of 10.1%.

Residential, Hotel and Other

In certain cases, we may pursue residential for sale housing acquisition opportunities, including land for entitlements, finished lots, urban infill condominium sites and partially finished and finished condominium projects. We also invest in hotels, non-residential land and marketable securities.

While our core investments have been in the specific markets and locations listed above, we continue to evaluate opportunities to earn above market returns across many other segments and geographic locations.

KW Services has five business lines: investment management, property services, research, brokerage and auction and conventional sales. These five business lines generate revenue for us through commissions and fees.

We manage over 70.2 million square feet of properties for institutional clients and individual investors in the United States, Europe and Asia, which includes assets we have ownership interests in and third party-owned assets. With 25 offices throughout the United States, the United Kingdom, Ireland, Spain, Jersey and Japan, we have the capabilities and resources to provide property services to real estate owners as well as the experience, as a real estate investor, to understand client concerns. The managers of KW Services have an extensive track record in their respective lines of business and in the real estate community as a whole. Their knowledge and relationships are an excellent driver of businesses through the services business as well as on the investment front.

Additionally, KW Services plays a critical role in supporting the company's investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

Investment Management

Our investment management division provides acquisition, asset management, financing and disposition services to our equity partners as well as to third parties. Kennedy Wilson currently owns or has an ownership interest in approximately \$8.5 billion of real estate and real estate related investments at book value.

Property Services

Our property services division manages commercial real estate for third-party clients, fund investors and investments held by Kennedy Wilson. In addition to earning property management fees, consulting fees, leasing commissions, construction management fees, disposition fees and accounting fees, the property services division gives Kennedy Wilson insight into local markets and potential acquisitions. Leveraging over 35 years of real

estate experience, we approach property management from the perspective of an owner and are active in identifying and implementing value-creation strategies. The division has a proven track record of success in managing stabilized as well as value-add investments.

Research

Meyers Research LLC, or Meyers, a wholly owned subsidiary of Kennedy Wilson, is a premier consulting practice and provider of data for residential real estate development and new home construction. Meyers offers a national perspective as well as local expertise to homebuilders, multifamily developers, lenders and financial institutions. These relationships have led to investment opportunities with homebuilders in the Western United States region. Zonda™, a Meyers innovation launched in October 2013, is a comprehensive solution for smart business analysis, real-time market data reporting and economic and housing data in one place and on-the-go.

Brokerage

Our brokerage division represents tenants and landlords in every aspect of site selection, negotiation and occupancy. The division also specializes in innovative marketing programs tailored to client objectives for all types of investment grade and income-producing real estate. The division's property marketing programs combine proven techniques with its detailed market knowledge to create optimum results.

Auction and Conventional Sales

The auction and conventional sales division provides innovative marketing and sales strategies for all types of commercial and residential real estate, including single family homes, mixed-use developments, estate homes, multifamily dwellings, new home projects and conversions. Generally the division's auction sales business is countercyclical to the traditional sales real estate market.

Value Creation

Our differentiated approach to investing is the cornerstone of how we create value for our shareholders. Our investment philosophy is based on three core fundamentals:

Leverage our global footprint and complementary investments and services businesses to identify attractive investment markets across the world.

Selectively invest in opportunities across many real estate product types with a goal of maximizing cash flow and return on capital.

Actively manage assets and finance them conservatively to generate stable, predictable and growing cash flows for shareholders and clients.

We are able to create value for our shareholders in the following ways:

We have the ability to identify and acquire attractive real estate assets across many markets, in part due to the significant proprietary deal flow driven from an established global network of industry relationships, particularly with financial institutions. This can create value by allowing us to maintain and develop a large pipeline of attractive opportunities.

S-6

Table of Contents

Our operating expertise allows us to focus on opportunistic investments where we can increase the value of assets and cash flows, such as in the case of distressed real estate owners or lenders seeking liquidity, under-managed or under-leased assets or other repositioning opportunities.

Many times, these investments are acquired at a discount to replacement cost or recent comparative sales, thereby offering opportunities to achieve above average total returns. In many cases, we have the opportunity to earn significant additional returns, such as through a promoted interest based on the performance of the assets.

KW Services plays a critical role in supporting our investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

We understand that real estate is cyclical. Our management team employs a multi-cyclical approach that has resulted in our AUM being globally diversified across many sectors of real estate while maintaining a healthy liquidity position and adequate access to capital.

Our Competitive Strengths

We believe the combination of a service business and an investment platform provides us with significant competitive advantages and allows us to generate superior risk-adjusted returns. We use our service platform to facilitate the origination of investment opportunities, enhance the investment process and ensure the alignment of interests with our investors' interests. Our competitive advantages include:

Transaction experience: Our Executive Committee has more than 125 years of combined real estate experience and has been working and investing together, on average, for over 15 years. Members of the Executive Committee have collectively acquired, developed and managed in excess of \$20 billion of real estate investments in the United States, the United Kingdom, Ireland and Japan throughout various economic cycles, both at our company and throughout their careers.

Extensive relationship and sourcing network: We leverage our services business in order to source off-market deals. In addition, the Executive Committee and our acquisition team have transacted deals in nearly every major metropolitan market on the West Coast of the United States, as well as in the United Kingdom, Ireland and Japan. Their local presence and reputation in these markets have enabled them to cultivate key relationships with major holders of property inventory, particularly financial institutions, throughout the real estate community.

Structuring expertise and speed of execution: Our prior acquisitions have taken a variety of forms, including direct property investments, joint ventures, participating loans and investments in performing and non-performing mortgages with the objective of long-term ownership. We believe we have developed a reputation of being able to quickly execute, as well as originate and creatively structure, acquisitions, dispositions and financing transactions.

Vertically integrated platform for operational enhancement: We have approximately 400 employees, with 25 regional offices throughout the United States, the United Kingdom, Ireland, Spain, Jersey and Japan and work with over 2,000 operating associates. We have a hands-on approach to real estate investing and possess the local expertise in property management, leasing, construction management, development and investment sales, which, we believe, enable us to invest successfully in selected submarkets.

S-7

Table of Contents

Risk protection and investment discipline: We underwrite our investments based upon a thorough examination of property economics and a critical understanding of market dynamics and risk management strategies. We conduct an in-depth sensitivity analysis on each of our acquisitions. This analysis applies various economic scenarios that include changes to rental rates, absorption periods, operating expenses, interest rates, exit values and holding periods. We use this analysis to develop our disciplined acquisition strategies.

Recent Developments

Acquisition Activity

Subsequent to September 30, 2014, we and our equity partners (including KWE) acquired \$386.0 million of real estate-related investments, which include a commercial property totaling 0.2 million square feet in the United Kingdom purchased and held directly by KWE, a 312-unit multifamily property in the Western US and a loan purchase in the Western US. Kennedy Wilson's total equity investment in these transactions was approximately \$51.1 million.

Pipeline

As of November 11, 2014, we are under separate contracts to purchase four multifamily properties and two commercial properties in the Western US at an aggregate purchase price of approximately \$186.1 million. We anticipate financing these acquisitions with a combination of debt financing, balance sheet cash and partner equity. With respect to four of such assets with an aggregate purchase price of approximately \$138.3 million, we have non-refundable deposits of approximately \$3.7 million held in escrow. The amount of our equity investment in these acquisitions has not yet been determined, but we currently expect our aggregate equity investment in these acquisitions to be between \$30 million to \$50 million. There can be no assurances that we will complete the potential acquisitions under contract.

Other

Subsequent to September 30, 2014, we drew \$50.0 million on our unsecured revolving credit facility. As of November 11, 2014, we had \$50.0 million of outstanding indebtedness under our unsecured revolving credit facility, as well as \$0.1 million of accrued and unpaid interest.

\$705.0 million was senior unsecured indebtedness, consisting of the notes we are offering hereby, \$300.0 million of the initial notes and \$55.0 million of our 7.75% Senior Notes due 2042, which we refer to as the 2042 notes; and

we had no outstanding balances under our unsecured revolving credit facility and had \$300.0 million of availability under this facility.

In addition, as of such date, we and our subsidiary guarantors had \$54.9 million aggregate principal amount of guarantees that we and our guarantors provided in connection with loans secured by assets held in various joint ventures that have recourse to us and our guarantors.

As of November 11, 2014, we had \$50.0 million of outstanding indebtedness under our unsecured revolving credit facility.

For the nine months ended September 30, 2014 and year ended December 31, 2013, the revenues of our non-guarantor subsidiaries constituted approximately 70% and 64%, respectively, of Kennedy-Wilson Holding s consolidated revenues, and the operating income of our non-guarantor subsidiaries for these periods was approximately \$28.8

million and \$3.6 million, respectively. As of September 30, 2014, the total assets of those subsidiaries constituted approximately 84% of Kennedy-Wilson Holding's consolidated total assets, and those subsidiaries had \$1,835.5 million of secured non-recourse mortgage indebtedness (excluding debt premium and discount), of which none has recourse to us. However, these figures are as of

September 30, 2014 and do not reflect transactions that we have entered into after that date, or future transactions that we may enter into. Depending on the particular terms of any acquisition or other transaction that one or more of our subsidiaries may enter into, those subsidiaries may not be required by the terms of the indenture to guarantee the Notes. Accordingly, these figures may fluctuate from time to time, and these figures may increase or decrease materially in future periods. For example, the instruments governing our acquisitions (such as the relevant loan agreement, or the terms of the relevant partnership agreement, limited liability company operating agreement or other governing document of the borrower, or any related joint venture agreement or the terms of any relevant Co-investment Vehicle or separate account or investment program) may prohibit the relevant subsidiary from guaranteeing the Notes. In many such cases, the indenture does not require our subsidiaries, including those described above, to guarantee the Notes. In addition, the indenture does not require certain non-material and non-wholly owned subsidiaries to guarantee the Notes.

Optional Redemption

At any time prior to April 1, 2019, we may redeem the notes, in whole or in part, at a redemption price equal to 100% of their principal amount, plus an applicable make-whole premium and accrued and unpaid interest, if any, to the redemption date, as described in this prospectus supplement.

At any time and from time to time on or after April 1, 2019, we may redeem the notes, in whole or in part, at the redemption prices specified under the caption Description of the Notes Optional Redemption, plus accrued and unpaid interest, if any, to the date of redemption.

Prior to April 1, 2017, we may redeem up to 35% of the notes from the proceeds of certain equity offerings.

There is no sinking fund for the notes.

See Description of the Notes Optional Redemption.

Fundamental Change

Upon a fundamental change (as defined under Description of the Notes Fundamental Change), we will be required to make an offer to purchase the notes. The purchase price will equal 101 % of the principal amount of the notes to be repurchased, plus accrued and unpaid interest, if any, to the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date). We may not have sufficient funds available at the time of any fundamental change to make any required debt repayment (including repurchases of the notes). See Risk Factors Risk Related to the Notes We may not have the ability to raise the funds necessary to finance a fundamental change offer.

Form and Denomination

Table of Contents

The notes will be initially issued in the form of one or more global securities, without coupons, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof, and deposited with the trustee for the notes as custodian for The Depository Trust Company, or DTC, as depositary, and registered in the name of DTC or its nominee. See Description of the Notes Book Entry, Delivery and Form.

Use of Proceeds

We estimate that the net proceeds from the sale of the notes we are offering will be approximately \$344.0 million, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

We currently intend to use the net proceeds from the sale of the notes, together with existing cash on hand, to redeem the outstanding 2019 notes. As of September 30, 2014, a total of \$350.0 million in aggregate principal amount of the 2019 notes was outstanding.

In addition, in order to redeem the 2019 notes prior to maturity, we must pay a make-whole premium of approximately \$23.5 million to the noteholders. See [Description of Other Indebtedness](#) and [Use of Proceeds](#).

Risk Factors

Investing in the notes involves substantial risks. You should carefully consider the risk factors set forth or referred to under the caption [Risk Factors](#) beginning on page S-18 of this prospectus supplement, together with the risks described under the heading [Risk Factors](#) in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as well as the other reports we file from time to time with the SEC that are incorporated by reference in this prospectus supplement and the accompanying prospectus.

Conflicts of Interest

Affiliates of certain of the underwriters may hold our 2019 notes being redeemed. These affiliates will receive their respective share of any redemption by us of outstanding 2019 notes from the net proceeds of this offering. Affiliates of certain of the underwriters are also lenders under our unsecured revolving credit facility.

(1) This data is presented as of the end of the fiscal period referred to in the applicable column heading.

(2) Consolidated EBITDA represents net income before noncontrolling interest income, interest expense, our share of interest expense included in income from investments in unconsolidated investments, depreciation and

amortization, our share of depreciation and amortization included in income from unconsolidated investments, loss on early extinguishment of corporate debt and income taxes. We do not adjust Consolidated EBITDA for gains or losses on the extinguishment of investment debt as we are in the business of purchasing discounted notes secured by real estate and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. Our management believes Consolidated EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of Consolidated EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Consolidated EBITDA is not a recognized term under

Table of Contents

- GAAP and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, Consolidated EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of Consolidated EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Consolidated EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Our management believes Consolidated EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of Consolidated EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance.
- (3) Adjusted EBITDA represents Consolidated EBITDA, as defined above, adjusted to exclude merger related expenses, share based compensation expense and EBITDA attributable to noncontrolling interests. Our management uses Adjusted EBITDA to analyze our business because it adjusts Consolidated EBITDA for items we believe do not have an accurate reflection of the nature of our business going forward, that are non-cash compensation expense, or that reflect amounts attributable to noncontrolling interests. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations. Such items may vary for different companies for reasons unrelated to overall operating performance. However, Consolidated EBITDA and Adjusted EBITDA are not recognized measurements under GAAP and when analyzing our operating performance, readers should use Consolidated EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of Consolidated EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, Consolidated EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments, and the items excluded from these metrics may vary for different companies for reasons unrelated to overall operating performance. The amounts shown for Consolidated EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.
- (4) Prior to 2014, the Company's Adjusted EBITDA metric was comparable to the Company's current Consolidated EBITDA metric as it was calculated as Consolidated EBITDA, adjusted to solely exclude merger related expenses and share based compensation expense. Beginning 2014, as noncontrolling interests became more significant on the Company's consolidated balance sheet primarily due to the consolidation of KWE's results on the Company's financial statements, the Company determined that it was appropriate to supplement Consolidated EBITDA with a new or revised metric. Adjusted EBITDA shown above is calculated as Consolidated EBITDA, adjusted to exclude merger related expenses, share based compensation expense and EBITDA attributable to noncontrolling interests. As set forth in the reconciliation table below, EBITDA attributable to noncontrolling interests for the years ended December 31, 2011, 2012 and 2013 and the nine months ended September 30, 2013 were, \$1.1 million, \$2.8 million, \$26.0 million and \$1.6 million, respectively.
- (5) The ratio of earnings to fixed charges is calculated by dividing earnings, as defined, by fixed charges. For this purpose, earnings consists of pretax income from continuing operations before noncontrolling interest and our equity in income of joint ventures plus fixed charges and operating distributions from equity investees, and fixed charges consists of interest expense, whether capitalized or expensed, amortization related to indebtedness and premiums or discounts of stock issuances and an estimate of interest expense within rental expense.

RISK FACTORS

Unless otherwise stated or the context otherwise requires, the term “notes” refers to the notes we are offering pursuant to this prospectus supplement and the accompanying prospectus. Kennedy-Wilson is the primary obligor under the notes, the initial notes, the 2042 notes and the 2019 notes, and the guarantors described in this prospectus supplement are guarantors of the initial notes, the 2042 notes and the 2019 notes and will be the initial guarantors of the notes. In this section of this prospectus supplement, the words “we,” “us,” “our” and “Kennedy-Wilson” refer to Kennedy-Wilson, Inc. and not to any of its subsidiaries, unless the context requires otherwise.

Any investment in the notes involves a high degree of risk. You should carefully consider the risks described below and all of the information contained or incorporated by reference into this prospectus supplement and the accompanying prospectus before deciding whether to purchase the notes, including the risks under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as well as the other reports we file from time to time with the SEC that are incorporated by reference in this prospectus supplement. The risks and uncertainties described below and in the incorporated documents are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occurs, our business, financial condition and results of operations would suffer. The risks discussed below also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements. See “Special Note Regarding Forward-Looking Statements” in this prospectus supplement. In addition to the risk factors incorporated by reference in this prospectus supplement, you should consider the additional risk factors below:

Risks Related to the Notes

Ratings of the notes may affect the market price and marketability of the notes.

The ratings of the initial notes are limited in scope and do not address all material risks relating to an investment in the notes, but rather reflect only the view of each rating agency at the time the rating is issued. Securities rated below investment grade are generally subject to a higher risk of payment default and price volatility than similar, high-rated securities. Furthermore, increases in leverage or deteriorating outlooks for an issue, or volatile markets, could lead to continued significant deterioration in market prices of securities rated below investment grade.

Ratings only reflect the views of the issuing rating agency or agencies, and ratings could at any time be revised downward or withdrawn entirely at the discretion of the issuing rating agency. Furthermore, a rating is not a recommendation to purchase, sell or hold any particular security, including the notes. In addition, ratings do not reflect market prices or the suitability of a security for a particular investor, and any rating of the notes may not reflect all risks related to us and our business or the structure or market value of the notes. An explanation of the significance of ratings may be obtained from the applicable rating agency.

A credit rating may not be issued and may not remain in effect for any given period of time, and the applicable rating agency may lower, suspend or withdraw entirely any rating that it has issued if, in that rating agency’s judgment, the circumstances so warrant. It is also possible that any rating assigned to the notes may be lowered in connection with the application of the proceeds of this offering or in connection with future events, such as future acquisitions. Holders of the notes will have no recourse against us or any other parties in the event of the issuance of a lower-than-expected rating or a change in or suspension or withdrawal of such a rating. Any lower-than-expected rating, and any lowering, suspension or withdrawal of an issued rating, may adversely affect the market price or marketability of the notes.

Table of Contents

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the notes.

As of September 30, 2014, on a pro forma as adjusted basis after giving effect to the issuance and sale of \$350.0 million in aggregate principal amount of the notes, after deducting underwriting discounts and commissions and estimated offering expenses to be paid by us, and the redemption of the 2019 notes, Kennedy-Wilson and its subsidiaries that are guarantors had \$898.0 million of outstanding indebtedness (excluding debt premium and discount), of which \$193.0 million was secured non-recourse mortgage indebtedness and \$705.0 million was unsecured senior indebtedness, consisting of the notes we are offering, \$300.0 million of the initial notes and \$55.0 million of the 2042 notes. In addition, as of such date, we and the subsidiary guarantors had \$54.9 million aggregate principal amount of guarantees that we and our subsidiary guarantors provided in connection with loans secured by consolidated assets and assets held in various joint ventures that have recourse to us. Our non-guarantor subsidiaries had \$1,835.5 million of secured, non-recourse mortgage indebtedness (excluding debt premium and discount) as of September 30, 2014, and the notes we hereby are offering are structurally subordinated to such indebtedness. Our substantial indebtedness could have important consequences for you including:

it may limit our ability to borrow money or sell stock to fund our working capital, capital expenditures and debt service requirements;

it may limit our flexibility in planning for, or reacting to, changes in our business;

we may be more highly leveraged than some of our competitors, which may place us at a competitive disadvantage;

it may make us more vulnerable to a downturn in our business or the economy;

the debt service requirements of our other indebtedness could make it more difficult for us to make payments on our indebtedness, including the notes;

a substantial portion of our cash flow from operations could be dedicated to the repayment of our indebtedness and would not be available for other purposes; and

our business and financial condition would materially and adversely suffer if we were unable to service our indebtedness, including the notes, or obtain additional financing, as needed.

In addition, the indenture governing the notes and the initial notes, the indenture governing the 2042 notes and our unsecured revolving credit facility contain, financial and restrictive covenants that limit our ability to engage in activities that may be in our long-term best interest. Our failure to comply with those covenants could result in an event of default that, if not cured or waived, could result in the acceleration of all of our debt.

Despite our substantial indebtedness, we may still incur significantly more debt which could exacerbate the risks described above.

The indenture governing the notes and the initial notes, the indenture governing the 2042 notes and our unsecured revolving credit facility permit, us and our subsidiaries to incur significant additional indebtedness in the future. As of November 11, 2014, we had \$50.0 million of outstanding indebtedness under our unsecured revolving credit facility, as well as \$0.1 million of accrued and unpaid interest.

We may not have the ability to raise the funds necessary to finance a fundamental change offer.

Upon the occurrence of a fundamental change (as defined in the indentures governing the notes, the initial notes and the 2042 notes), which includes a change of control event or delisting of our common stock, we

Table of Contents

will be required to offer to repurchase all of the notes, the initial notes and the 2042 notes. We may have insufficient funds available to make any required repurchases of the notes, the initial notes or the 2042 notes upon a fundamental change. In addition, our unsecured revolving credit facility provides that the occurrence of a change of control constitutes a default. Our failure to purchase tendered notes, initial notes and 2042 notes would constitute a default under the relevant indenture governing the same, which, in turn, would constitute a default under our credit facility. See Description of the Notes Fundamental Change.

In the event of a change of control or termination of trading of our common stock, our Series A and Series B preferred stock will be redeemable at the option of the stockholders thereof.

Under the indentures governing the notes, the initial notes and the 2042 notes, upon the occurrence of a fundamental change (as defined in those indentures), which includes a change of control event or a delisting of our common stock, each noteholder will have the right to require us to purchase that noteholder's notes, initial notes or 2042 notes at a purchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date. The occurrence of a fundamental change will also trigger a redemption right held by the holders of our Series A and Series B preferred stock under the applicable certificate of designation. Under the terms of these indentures, Kennedy-Wilson may not make any restricted payment to facilitate a redemption of the Series A and Series B preferred stock unless Kennedy-Wilson has restricted payment capacity or has previously made an offer to noteholders to purchase their notes. If the noteholders, however, fail for any reason to tender all of their notes under the offer to purchase them, and our preferred stockholders accept the offer to purchase the Series A and Series B preferred stock, we will be required to use cash to fund the purchase of our Series A and Series B preferred stock. In the event this occurs, it may be more difficult for us to make scheduled payments on the untendered notes. See

Description of the Notes Fundamental Change. In addition, we may not redeem the Series A and Series B preferred stock without the consent of the lenders under our unsecured revolving credit facility. Our failure to purchase the Series A and B preferred stock when required could give the holders of that stock a legal claim against us.

A subsidiary guarantee could be voided if it constitutes a fraudulent transfer under U.S. bankruptcy or similar state law, which would prevent the holders of the notes from relying on that subsidiary to satisfy claims.

Under U.S. bankruptcy law and comparable provisions of state fraudulent transfer laws, a subsidiary guarantee can be voided, or claims under the subsidiary guarantee may be subordinated to all other debts of that subsidiary guarantor, if, among other things, the subsidiary guarantor, at the time it incurred the indebtedness evidenced by its subsidiary guarantee or, in some states, when payments become due under the subsidiary guarantee, received less than reasonably equivalent value or fair consideration for the incurrence of the subsidiary guarantee and:

was insolvent or rendered insolvent by reason of such incurrence;

was engaged in a business or transaction for which the subsidiary guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they mature.

A subsidiary guarantee may also be voided, without regard to the above factors, if a court finds that the subsidiary guarantor entered into the subsidiary guarantee with the actual intent to hinder, delay or defraud its creditors.

A court would likely find that a subsidiary guarantor did not receive reasonably equivalent value or fair consideration for its subsidiary guarantee if the subsidiary guarantor did not substantially benefit directly or

S-20

Table of Contents

indirectly from the issuance of the notes. If a court were to void a subsidiary guarantee, you would no longer have a claim against the subsidiary guarantor. Sufficient funds to repay the notes may not be available from other sources, including the remaining guarantors, if any. In addition, the court might direct you to repay any amounts that you already received from the subsidiary guarantor.

The measures of insolvency for purposes of fraudulent transfer laws vary depending on the governing law. Generally, a subsidiary guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they became absolute and mature; or

it could not pay its debts as they became due.

Each subsidiary guarantee will contain a provision intended to limit the subsidiary guarantor's liability to the maximum amount that it could incur without causing the incurrence of its obligations under its subsidiary guarantee to be a fraudulent transfer. This provision may not be effective to protect the subsidiary guarantees from being voided under fraudulent transfer law.

The notes will not be guaranteed by all of our subsidiaries.

The notes will not be guaranteed by a number of our subsidiaries. To the extent that any of our subsidiaries do not guarantee the notes, the notes will be structurally subordinated to all existing and future obligations, including indebtedness, of those non-guarantor subsidiaries. The claims of creditors of the non-guarantor subsidiaries, including trade creditors, will have priority as to the assets of those subsidiaries. As a result, if we default on our obligations under the notes, you will not have any claims against any of our subsidiaries that do not guarantee the notes. For the nine months ended September 30, 2014 and the year ended December 31, 2013, the revenues of our non-guarantor subsidiaries constituted approximately 70% and 64%, respectively, of Kennedy-Wilson Holding, Inc.'s consolidated revenues, and the operating income of our non-guarantor subsidiaries for those periods was approximately \$28.8 million and \$3.6 million, respectively. As of September 30, 2014, the total assets of those subsidiaries constituted approximately 84% of Kennedy-Wilson Holding's consolidated total assets, and those subsidiaries had \$1,835.5 million of secured non-recourse mortgage indebtedness (excluding debt premium and discount), of which none has recourse to us. However, these figures are as of September 30, 2014 and do not reflect transactions that we have entered into after that date or future transactions that we may enter into. Depending on the particular terms of any acquisition or other transaction that one or more of our subsidiaries may enter into, those subsidiaries may not be required by the terms of the indenture governing the notes to guarantee the notes. Accordingly, these figures may fluctuate from time to time, and these figures may increase or decrease materially in future periods. For example, the instruments governing our acquisitions (such as the relevant loan agreement, or the terms of the relevant partnership agreement, limited liability company operating agreement or other governing document of the borrower, or any related joint venture agreement or the terms of any relevant Co-investment Vehicle or separate account or investment program) may prohibit the relevant subsidiary from guaranteeing the notes. In many such cases, the indenture does not require our subsidiaries, including those described above, to guarantee the notes. In addition, the Indenture does not

require, subject to limitation, certain non-material and non-wholly owned subsidiaries to guarantee the notes.

We may not have access to the cash flow and other assets of our subsidiaries and our joint ventures that may be needed to make payment on the notes.

Although our operations are conducted through our subsidiaries and joint ventures, our subsidiaries and joint ventures are not obligated to make funds available to us for payment on the notes. Accordingly, our ability

Table of Contents

to make payments on the notes depends on the earnings of, and the distribution of funds from, our subsidiaries and joint ventures. Furthermore, our subsidiaries will be permitted under the terms of the indentures governing the notes, the initial notes and the 2042 notes, our unsecured revolving credit facility and the instruments governing other indebtedness to incur additional indebtedness that may severely restrict or prohibit the making of distributions, the payment of dividends or the making of loans by those subsidiaries to us. The agreements governing the future indebtedness of our subsidiaries may not permit our subsidiaries to provide us with sufficient dividends, distributions or loans to fund scheduled interest and principal payments on the notes when due. See Description of Other Indebtedness.

To service our indebtedness, including the notes, we will require a significant amount of cash. Our ability to generate cash depends on many factors that are beyond our control.

Our ability to make payments on and to refinance our indebtedness, including the notes, and to fund planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

However, our business may not generate sufficient cash flow from operations, current capital spending projects may require significant additional funds to complete or be successful and future borrowings may not be available to us in an amount sufficient to enable us to pay our indebtedness, including the notes, or to fund our other liquidity needs. If we consummate an acquisition, our debt service requirements could increase. We may need to refinance all or a portion of our indebtedness, including the notes, on or before maturity. We may be unable to refinance any of our indebtedness, including our unsecured revolving credit facility, the notes, the initial notes and the 2042 notes, on commercially reasonable terms or at all.

An active trading market for the notes may not develop.

Prior to this offering, there was no public market for the notes. We have been informed by certain of the underwriters that they intend to make a market in the notes after this offering is completed. However, the underwriters may cease their market-making activities at any time. In addition, the liquidity of the trading market in the notes and the market price quoted for the notes may be adversely affected by changes in the overall market for high yield securities and by changes in our financial performance or prospects or in the financial performance or prospects of companies in our industry generally. As a result, an active trading market may not develop or be maintained for the notes. If an active market does not develop or is not maintained, the market price of the notes may decline and the liquidity of the notes may be limited.

Our debt agreements will contain restrictions that will limit our flexibility in operating our business.

The indenture governing the notes and the initial notes, the indenture governing the 2042 notes and the agreement governing our unsecured revolving credit facility contains, various covenants that limit our ability to engage in specified types of transactions. These covenants limit Kennedy-Wilson's and its restricted subsidiaries' ability to, among other things:

incur or guarantee additional indebtedness;

pay dividends or distributions on capital stock or redeem or repurchase capital stock;

make investments;

create restrictions on the payment of dividends or other amounts to us;

sell the stock of our subsidiaries;

S-22

Table of Contents

transfer or sell assets;

create liens;

enter into sale/leaseback transactions;

enter into transactions with affiliates; and

enter into mergers or consolidations.

Additionally, the agreement governing our unsecured revolving credit facility requires us to maintain certain financial ratios. A breach of any of these covenants could result in a default under the indenture governing the notes and the initial notes, the indenture governing the 2042 notes and the agreement governing our unsecured revolving credit facility. We may also be unable to take advantage of business opportunities that arise because of the limitations imposed on us by the restrictive covenants under our indebtedness. See Description of Other Indebtedness.

Many of the restrictive covenants contained in the indenture will not apply if the notes are rated investment grade by Moody's and S&P and no event of default has occurred and is continuing.

Many of the covenants in the indenture governing the notes will not apply if the notes are rated investment grade (as defined in the indenture) by Moody's and S&P, provided that at such time no event of default with respect to the notes has occurred and is continuing. There can be no assurance that the notes will ever be rated investment grade or, if they are rated investment grade, that the notes will maintain such ratings. Termination of these covenants would allow us to engage in certain transactions that would not be permitted while these covenants were in force. See Description of the Notes Certain Covenants.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements included or incorporated by reference in this prospectus supplement or the accompanying prospectus or in other reports and statements released by us that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21 of the Exchange Act. These forward-looking statements are estimates reflecting the judgment of our senior management based on estimates, expectations, forecasts and projections that are current as of the date of the applicable forward-looking statement. Forward-looking statements include comments that express opinions about trends and factors that may impact future operating results. Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, or the negative of these, as well as similar expressions, are intended to identify forward-looking statements, but the absence of any of these words does not necessarily mean that a statement is not forward-looking.

Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable as of the time the statements were made, the transactions and events described may not happen as described or may not happen at all. In evaluating these statements, you should specifically consider the risks described and referred to under the heading Risk Factors on page S-18 of this prospectus supplement, including, but not limited to, the following factors:

disruptions in general economic and business conditions, particularly in geographies where our business may be concentrated;

volatility and disruption of the capital and credit markets, higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans, all of which could increase costs and could limit our ability to acquire additional real estate assets;

continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;

our leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in our debt service obligations;

our ability to generate a sufficient amount of cash to satisfy working capital requirements and to service our existing and future indebtedness;

changes in tax laws in the United States, Ireland, United Kingdom, Spain, Jersey or Japan that reduce or eliminate deductions or other tax benefits we receive;

future acquisitions may not be available at favorable prices or upon advantageous terms and conditions;
and

costs relating to the acquisition of assets we may acquire could be higher than anticipated.

Each forward-looking statement should be considered in the context of the various disclosures we make about our business, including, without limitation, the factors discussed above. Except as required by law, we do not intend or have an obligation to publicly update any forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

DESCRIPTION OF OTHER INDEBTEDNESS

Unless otherwise stated or the context otherwise requires, as used in this section, the words "we," "us," "our" or the company refer to Kennedy-Wilson, Inc. and its subsidiaries.

Unsecured Revolving Credit Facility with U.S. Bank and East-West Bank

We have an unsecured revolving credit facility with U.S. Bank National Association, East-West Bank and The Governor and Company of the Bank of Ireland. The borrower under the unsecured revolving credit facility is Kennedy-Wilson, Inc., and Kennedy-Wilson Holdings, Inc. is the sole guarantor.

Under the revolving loan agreement, we have: (a) a \$225.0 million senior unsecured facility to finance our or our subsidiaries' or affiliates' acquisition of commercial real property or pools of notes secured by commercial real property, so long as we have management control of those subsidiaries or affiliates (" Facility A "); and (b) a \$75.0 million senior unsecured facility for general business purposes, including working capital needs and equity investments (" Facility B "). Both Facility A and Facility B bear interest at the London Interbank Offered Rate (" LIBOR ") plus 2.75%. All principal and other amounts owing with respect to advances made under the revolving credit agreement will be due and payable in full on October 1, 2016.

On November 11, 2014, the lenders under this facility executed and delivered a letter agreement consenting to our issuance of certain notes, including the notes offered hereby. This consent letter also provides that (i) the lenders must consent to any change to the notes after the closing of this offering that would have a material adverse effect on our ability to repay our obligations under the unsecured revolving credit facility and (ii) if there occurs an event of default, as that term is defined in the indenture governing the notes, that event will constitute an event of default under this facility.

During 2013, 2012 and the nine months ended September 30, 2014, the average outstanding borrowings under the unsecured revolving credit facility were \$14.9 million, \$11.2 million and \$11.7 million, respectively. The borrowings under Facility A had an annual interest rate of LIBOR plus 2.75% during the nine-months ended September 30, 2014, LIBOR plus 2.75% during the year ended December 31, 2013 and 2.96% to 4.00% during the year ended December 31, 2012. The borrowings under Facility B had an annual interest rate of LIBOR plus 2.75% during the nine-months ended September 30, 2014, LIBOR plus 2.75% during the year ended December 31, 2013 and 2.96% during the year ended December 31, 2012. As of November 11, 2014, the principal amount outstanding under this unsecured revolving credit facility was \$50.0 million, as well as \$0.1 million of accrued and unpaid interest.

The unsecured revolving credit facility contains customary financial, affirmative and negative covenants. The financial covenants under the revolving credit facility require us:

to maintain a minimum rent-adjusted fixed charge coverage ratio (as defined in the unsecured revolving credit facility) of not less than 1.50 to 1.00, measured on a four-quarter rolling average basis;

to maintain unrestricted cash, cash equivalents and publicly traded marketable securities in the aggregate amount of at least \$40.0 million, tested quarterly;

Edgar Filing: Dillingham Ranch Aina LLC - Form 424B5

to maintain a maximum balance sheet leverage (as defined in the unsecured revolving credit facility) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter; and

to maintain an effective tangible net worth (as defined in the unsecured revolving credit facility) equal to or greater than \$500.0 million, plus fifty percent (50%) of any equity issuances after March 31, 2014, measured at the end of each calendar quarter.

S-29

Table of Contents

In addition to customary reporting and compliance requirements, the principal negative and affirmative covenants under the revolving credit facility require us, among other things:

not to incur indebtedness, other than those permitted by the revolving credit facility, without the prior written consent of the lenders;

not to permit any incurrence of liens, other than those permitted by the revolving credit facility;

not to purchase or acquire capital stock or make other investments in another entity, except as permitted by the revolving credit facility;

not to enter into a merger, consolidation, reorganization or recapitalization or to reincorporate in a different jurisdiction, liquidate or sell substantially all of our assets;

not to dispose of assets other than in the ordinary course of business;

not to (i) permit a person or group (other than William McMorrow, Fairfax Financial Holdings Limited and its affiliates, the heirs, assigns and successors of the foregoing, certain employee benefit plans and certain other persons) to acquire more than 35% of Kennedy-Wilson Holdings, Inc.'s equity securities entitled to vote for members of its board of directors on a fully diluted basis; or (ii) otherwise suffer a change in control (as defined in the revolving credit facility);

not to engage in transactions with affiliates, except in the ordinary course of business and upon fair and reasonable terms that are no less favorable than that which we would have obtained in an arms-length transaction with non-affiliates;

not to guaranty or otherwise become in any way liable with respect to the obligations of any third person, other than as permitted by the revolving credit facility;

not to make corporate acquisitions in excess of \$5.0 million without the prior written consent of the lenders; provided, that any such acquisitions approved by the lenders satisfy all other applicable requirements of the revolving credit facility;

not to prepay, redeem, retire, defease, purchase or otherwise acquire any indebtedness owing to any third person, other than (i) pursuant to a permitted refinancing, (ii) a purchase (for investment or sale) of pools of notes secured by commercial real property and (iii) the obligations under the revolving credit facility;

not to amend, modify, alter, increase or change, materially and adversely, any of the terms or conditions of any agreement, instrument, document, indenture or writing evidencing or concerning certain indebtedness permitted to be incurred under the revolving credit facility;

not to declare or pay corporate dividends without the prior written consent of the lenders, except as permitted by the revolving credit facility;

to maintain insurance policies with certain minimum coverage; and

not to make a change in the principal nature of our business;

On September 19, 2013, we agreed to cause each of our subsidiaries that becomes a guarantor of our 2042 notes or our 2019 notes to become a guarantor under this credit facility.

Table of Contents

As of September 30, 2014, we were in compliance with such covenants. We pay customary fees to the agent and the revolving lenders under our unsecured revolving credit facility.

7.75% Senior Notes due 2042

In November 2012, we completed a public offering of \$50.0 million aggregate principal amount of Kennedy-Wilson's 7.75% Senior Notes due 2042 (the "2042 notes"). In December 2012, the underwriters exercised their option to purchase an additional \$5.0 million aggregate principal amount of 2042 notes from us. The 2042 notes will mature on December 1, 2042 and bear interest at a rate of 7.75% per annum, payable quarterly in arrears on March 1, June 1, September 1 and December 1 of each year, commencing on March 1, 2013.

The 2042 notes are Kennedy-Wilson's unsecured senior obligations and rank equally in right of payment with all of Kennedy-Wilson's existing and future unsecured and unsubordinated indebtedness and are guaranteed on a senior unsecured basis by Kennedy-Wilson Holdings, Inc. and the same subsidiaries that guarantee the initial notes and that will guarantee the notes offered hereby. The 2042 notes contain substantially similar restrictive covenants as those contained in the indenture governing the notes and initial notes, including, among others, limitations on Kennedy-Wilson's ability and the ability of certain of its subsidiaries to incur or guarantee additional indebtedness, make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stock, engage in transactions with affiliates, create or permit liens on assets, enter into sale/leaseback transactions and enter into consolidations or mergers. At any time prior to December 1, 2017, Kennedy-Wilson may redeem the 2042 notes, in whole or in part, at a redemption price equal to 100% of their principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after December 1, 2017, Kennedy-Wilson may redeem the 2042 notes, in whole or in part, at a redemption price equal to 100% of their principal amount, plus accrued and unpaid interest, if any, to the redemption date.

8.750% Senior Notes due 2019

In April 2011, in a private placement, we issued \$200.0 million in aggregate principal amount of 8.750% senior notes due April 1, 2019 (the "2019 notes") with an effective yield of 8.875% and an additional \$50.0 million in aggregate principal amount of 2019 notes with an effective yield of 8.486%. In December 2012, we issued an additional \$100.0 million in aggregate principal amount of 2019 notes with an effective yield of 7.306%. Interest on the 2019 notes is payable on April 1 and October 1 of each year.

The 2019 notes are guaranteed by Kennedy-Wilson Holdings, Inc. and the same subsidiaries that will be the initial guarantors under the indenture governing the notes. The 2019 notes contain substantially similar restrictive covenants as those that will be contained in the indenture governing the notes we are offering, including, among others, limitations on our ability and the ability of certain of our subsidiaries to incur or guarantee additional indebtedness, make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stock, engage in transactions with affiliates, create or permit liens on assets, enter into sale/leaseback transactions and enter into consolidations or mergers.

At any time prior to April 1, 2015, we may redeem the 2019 notes, in whole or in part, at a price equal to 100% of the principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after April 1, 2015, we may redeem the 2019 notes, in whole or in part, at a redemption price equal to a specified percentage of the principal amount to be redeemed, ranging from 104.375% to 100.000%, plus accrued and unpaid interest, if any, to the date of redemption. Prior to April 1, 2017, we may redeem up to 35% of the 2019 notes from the proceeds of certain equity offerings. There is no sinking fund for the

2019 notes.

Table of Contents

We currently intend to use the net proceeds from the sale of the notes to redeem the 2019 notes. See Use of Proceeds.

Other Consolidated Debt

In addition to the indebtedness described above, we also carry non-recourse, asset-level indebtedness on our consolidated balance sheet. As of September 30, 2014, the outstanding principal amount under these loans was \$2,028.5 million (excluding debt discount), with a weighted average interest rate of 3.29% and a weighted average remaining maturity of 5.2 years. As of September 30, 2014, \$193.0 million of this indebtedness was indebtedness of our guarantor subsidiaries and \$1,835.5 million (excluding debt discount) was indebtedness of our non-guarantor subsidiaries.

DESCRIPTION OF OUTSTANDING PREFERRED STOCK

Unless otherwise stated or the context otherwise requires, as used in this section, the words we, us, our or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

In 2010, we entered into a 6.0% Convertible Series A Preferred Stock Purchase Agreement (the Series A Purchase Agreement) with Fairfax Financial Holdings Limited (Fairfax) for the issuance and sale in a private placement of up to 100,000 shares of series A Preferred Stock, par value \$0.0001 per share (the Series A Preferred Stock), at a purchase price of \$1,000 per share. We sold and issued to certain affiliates of Fairfax a total of 100,000 shares of Series A Preferred Stock for a total purchase price of \$100,000,000. In accordance with the terms of the Series A Purchase Agreement, we also entered into a Registration Rights Agreement with Fairfax (the Series A Registration Rights Agreement). Under the Series A Registration Rights Agreement, the holders of the Series A Preferred Stock have certain demand and piggy-back registration rights with respect to the Series A Preferred Stock and the shares of our common stock issuable upon conversion of the Series A Preferred Stock.

The Series A Preferred Stock has the rights, privileges, preferences and restrictions set forth in the Certificate of Designation (the Series A Certificate of Designation) we filed with the Secretary of State of the state of Delaware. Under the Series A Certificate of Designation, prior to May 19, 2015, each share of Series A Preferred Stock is convertible, at the option of the holder at any time, into approximately 81 shares of our common stock, subject to adjustment under certain circumstances. On May 19, 2015, each outstanding share of Series A Preferred Stock will automatically be converted into shares of our common stock. Cumulative dividends on the Series A Preferred Stock accrue at an annual rate of 6% per \$1,000 of shares of Series A Preferred Stock. The dividends are payable quarterly in arrears. Subject to limited exceptions, holders of the Series A Preferred Stock will have no voting or management rights. The Series A Certificate of Designation contains customary anti-dilution protection.

We also entered into a Convertible Series B Preferred Stock Purchase Agreement (the Series B Purchase Agreement) with Fairfax, for the issuance and sale in a private placement of 32,550 shares of Series B Preferred Stock, par value \$0.0001 per share (the Series B Preferred Stock, and together with the Series A Preferred Stock, the Preferred Stock), at a purchase price of \$1,000 per share or a total purchase price of \$32,550,000. The Series B Preferred Stock is convertible into approximately 3 million shares of our common stock. In accordance with the terms of the Series B Purchase Agreement, we also entered into a Registration Rights Agreement (the Series B Registration Rights Agreement) and Shareholders Agreement with Fairfax. Under the Series B Registration Rights Agreement, the holders of the Series B Preferred Stock have certain demand and piggy-back registration rights with respect to the Series B Preferred Stock and the shares of our common stock issuable upon conversion of the Series B Preferred Stock. Under the Shareholders Agreement, certain of our stockholders have agreed to vote all of the shares of voting stock held by such stockholders in favor of Fairfax's designee to our Board of Directors. We also agreed to nominate Fairfax's designee as a member of the Board of Directors.

The Series B Preferred Stock has the rights, privileges, preferences and restrictions set forth in the Certificate of Designation (the Series B Certificate of Designation, and, together with the Series A Certificate of Designation, the Certificates of Designation) we filed with the Secretary of State of the state of Delaware. Under the Series B Certificate of Designation, prior to November 3, 2018, each share of Series B Preferred Stock is convertible, at the option of the holder at any time, into approximately 93 shares of our common stock, subject to adjustments under certain circumstances (the Series B Conversion Rate). At any time on or after May 3, 2017 and prior to November 3, 2018, we have the option to convert all or part of the outstanding shares of Series B Preferred Stock into shares of our common stock at the Series B Conversion Rate. On November 3, 2018, each outstanding share of Series B Preferred Stock will automatically be converted into shares of our common stock at the Series B Conversion Rate. Cumulative dividends on the Series B Preferred Stock accrue at an annual rate of \$64.52 per share. The dividends are payable

quarterly in arrears. Subject to limited exceptions,

S-33

holders of the Series B Preferred Stock will have no voting rights. The Series B Certificate of Designation contains customary anti-dilution protection.

Under the Certificates of Designation, upon a change of control of or a delisting of our common stock (as such terms are defined in the Certificates of Designation), a fundamental change will have deemed to have occurred. In the event a fundamental change occurs, we must offer to purchase all of the outstanding Series A Preferred Stock and Series B Preferred Stock immediately prior to the change of control or delisting of our common stock at a purchase price per share equal to \$1,150 plus all accumulated and accrued dividends to the effective date of such fundamental change. On November 11, 2014, in connection with this offering of notes, Fairfax waived the requirement set forth in the Certificates of Designation that provides that the offer to purchase upon a fundamental change be made at least 20 business days prior to the effective date (as such term is defined in the Certificates of Designation) of the fundamental change. Instead, we are required to complete such an offer within 90 days following completion of the fundamental change offer made to holders of the notes.

Preferred Stock converted after a fundamental change will automatically receive a number of shares of our common stock as provided for in the applicable Certificates of Designation.

DESCRIPTION OF THE NOTES

In this description, the words *we*, *us*, *our* and *Issuer* refer to Kennedy-Wilson, Inc. and not to any of its subsidiaries. Certain terms used in this description are defined under the subheading *Certain Definitions*.

On March 25, 2014 (the *Original Issue Date*), we issued \$300.0 million principal amount of 5.875% Senior Notes due 2024 under an indenture (the *Base Indenture*), dated as of March 25, 2014, between us and Wilmington Trust, National Association, as trustee (the *Trustee*), as supplemented by a supplemental indenture thereto (the *Supplemental Indenture*, and, together with the Base Indenture, the *Indenture*), dated as of March 25, 2014, among us, the Trustee and the initial Guarantors. The Notes offered hereby will be issued as additional Notes under the Indenture and will be treated as a single series with the Notes we issued under the Indenture in March 2014. Holders of the Notes offered hereby and the Notes we issued in March 2014 will vote as one class under the Indenture.

The following description of the particular terms of the Notes and the Guarantees supplements and, to the extent inconsistent therewith, replaces the description of the general terms and provisions of the debt securities and the guarantees set forth in the accompanying prospectus, to which reference is hereby made. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939 (the *Trust Indenture Act*). The following description is only a summary of the material provisions of the Indenture. We urge you to read the Indenture because it, not this description, defines your rights as holders of these Notes. You may request copies of the Indenture at our address set forth under the heading *Where You Can Find More Information*.

Brief Description of the Notes

These Notes:

are unsecured senior obligations of the Issuer;

are senior in right of payment to all existing and any future Subordinated Obligations of the Issuer; and

will be guaranteed by Kennedy-Wilson Holdings, Inc. (*Parent*) and each Subsidiary Guarantor on a senior basis.

Principal, Maturity and Interest

On the Original Issue Date, the Issuer issued \$300 million aggregate principal amount of Notes, which are sometimes referred to as the initial Notes. The Issuer issued the initial Notes, and will issue the Notes offered hereby, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The Notes will mature on April 1, 2024. Subject to our compliance with the covenant described under the subheading *Certain Covenants* *Limitation on Indebtedness*, we are permitted to issue more notes under the Indenture in an unlimited aggregate principal amount (the *Additional Notes*), provided that if the Additional Notes are not fungible with the Notes for United States federal income tax purposes, the Additional Notes will have a separate CUSIP number. The Notes offered hereby will constitute Additional Notes for the purposes of the Indenture. The initial Notes offered under the Indenture on the Original Issue Date, the Additional Notes offered hereby and any Additional Notes subsequently issued under the Indenture will be treated as a single series of Notes for all purposes under the Indenture, including, without limitation,

waivers, amendments, redemptions and offers to purchase. Holders of the initial Notes, the Additional Notes offered hereby and any Additional Notes subsequently issued under the Indenture will vote as one class under the Indenture. Unless the context otherwise requires, for all purposes of the Indenture and this Description of the Notes, references to the Notes include any Additional Notes actually issued, including the Additional Notes offered hereby.

Interest on these Notes will accrue at the rate of 5.875% per annum from, and including, the Original Issue Date (in the case of the initial Notes) or October 1, 2014 (in the case of the Notes offered hereby) and will be payable semi-annually in arrears on April 1 and October 1 of each year, commencing on October 1, 2014 (in the case of the initial Notes) or April 1, 2015 (in the case of the Notes offered hereby). We will make each interest payment to the holders of record of these Notes on the immediately preceding March 15 and September 15, respectively.

Interest on these Notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Optional Redemption

Except as set forth below, we will not be entitled to redeem the Notes at our option.

On and after April 1, 2019, we will be entitled at our option to redeem all or a portion of these Notes upon not less than 30 nor more than 60 days notice, at the redemption prices (expressed in percentages of principal amount on the redemption date), plus accrued and unpaid interest, if any, to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the related interest payment date), if redeemed during the 12-month period commencing on April 1 of the years set forth below:

Period	Redemption Price
2019	102.938%
2020	101.958%
2021	100.979%
2022 and thereafter	100.000%

In addition, before April 1, 2017, we will be entitled at our option on one or more occasions to redeem Notes (which includes Additional Notes, if any) in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the Notes (which includes Additional Notes, if any) originally issued at a redemption price (expressed as a percentage of principal amount) of 105.875%, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, with an amount not to exceed the net cash proceeds from one or more Equity Offerings (provided that if the Equity Offering is an offering by Parent, a portion of the Net Cash Proceeds thereof equal to the amount required to redeem any such Notes is contributed to the equity capital of the Issuer), *provided that*:

- (1) at least 65% of such aggregate principal amount of Notes (which includes Additional Notes, if any) remains outstanding immediately after the occurrence of each such redemption (other than Notes held, directly or indirectly, by the Issuer or its Affiliates); and
- (2) each such redemption occurs within 90 days after the date of the related Equity Offering.

Notice of any redemption upon any Equity Offering may be given prior to the completion thereof, and any such redemption or notice, may, at the Issuer's discretion, be subject to the completion of the related Equity Offering.

Prior to April 1, 2019, we will be entitled, at our option, to redeem all or a portion of the Notes at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, the redemption date (subject to the right of holders on the relevant record date to receive interest

due on the relevant interest payment date). Notice of such redemption must be delivered electronically if held at DTC or mailed by first-class mail to each holder's registered address, not less than 30 nor more than 60 days prior to the redemption date.

S-36

Table of Contents

Applicable Premium means with respect to a Note at any redemption date, as provided by the Issuer, the greater of (1) 1.00% of the principal amount of such Note on such redemption date and (2) the excess of (A) the present value at such redemption date of (i) the redemption price of such Note on April 1, 2019 (such redemption price being described in the second paragraph in this Optional Redemption section, exclusive of any accrued and unpaid interest) plus (ii) all required remaining scheduled interest payments due on such Note through April 1, 2019 (but excluding accrued and unpaid interest, if any, to the redemption date), computed using a discount rate equal to the Adjusted Treasury Rate, over (B) the principal amount of such Note on such redemption date.

Adjusted Treasury Rate means, with respect to any redemption date and as provided by the Issuer, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H. 15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after April 1, 2019, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Adjusted Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date, in each case calculated on the third Business Day immediately preceding the date that the applicable redemption notice is first mailed or delivered electronically if held at DTC, in each case, plus 0.50%.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the Notes from the redemption date to April 1, 2019, that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a maturity most nearly equal to April 1, 2019.

Comparable Treasury Price means, with respect to any redemption date, if clause (2) of the Adjusted Treasury Rate definition is applicable, the average of three, or such lesser number as is obtained by the Issuer, Reference Treasury Dealer Quotations for such redemption date.

Quotation Agent means the Reference Treasury Dealer selected by the Issuer.

Reference Treasury Dealer means each of (i) Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. and (ii) a primary U.S. Government securities dealer in the United States selected by U.S. Bancorp Investments, Inc., and in each case the respective successors and assigns of the foregoing.

Reference Treasury Dealer Quotations means with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Issuer, of the bid and asked prices for the Comparable Treasury Issue, expressed in each case as a percentage of its principal amount, quoted in writing to the Issuer by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third Business Day immediately preceding date that the applicable redemption notice is first mailed or delivered electronically if held at DTC.

Selection and Notice of Redemption

If we are redeeming less than all the Notes at any time, the Trustee will select Notes on a pro rata basis, by lot or by such other method in accordance with the procedures of DTC.

S-37

Table of Contents

We will redeem Notes with principal amounts of \$2,000 or less in whole and not in part. We will cause notices of redemption to be delivered electronically if held at DTC or mailed by first-class mail at least 30 but not more than 60 days before the redemption date to each holder of Notes to be redeemed at its registered address.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount thereof to be redeemed. We will issue a new Note in a principal amount equal to the unredeemed portion of the original Note in the name of the holder thereof upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

No Sinking Fund; Open Market Purchases

We are not required to make any sinking fund payments with respect to the Notes. However, under certain circumstances, we may be required to offer to purchase Notes as described under the captions Fundamental Change and Certain Covenants Limitation on Sales of Assets and Subsidiary Stock. We may at any time and from time to time purchase Notes in the open market or otherwise.

Guaranties

Parent and each Subsidiary Guarantor of the Issuer will jointly and severally guarantee, on a senior unsecured basis, our obligations under the Indenture and the Notes. The Guarantors that executed the Indenture on the Original Issue Date and supplemental indentures subsequent to the Original Issue Date, continue to guarantee the initial Notes. The obligations of each Subsidiary Guarantor under its Subsidiary Guaranty are designed to be limited as necessary to prevent such Subsidiary Guaranty from constituting a fraudulent conveyance under applicable law and, therefore, will be expressly limited to the maximum amount that such Subsidiary Guaranty could guarantee without such Subsidiary Guaranty constituting a fraudulent conveyance. This limitation, however, may not be effective to prevent such Subsidiary Guaranty from constituting a fraudulent conveyance. See Risk Factors Risks Related to the Notes A subsidiary guarantee could be voided if it constitutes a fraudulent transfer under U.S. bankruptcy or similar state law, which would prevent the holders of the Notes from relying on that subsidiary to satisfy claims.

If a Subsidiary Guaranty were rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor, and, depending on the amount of such indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guaranty could be reduced to zero. See Risk Factors Risks Related to the Notes A subsidiary guarantee could be voided if it constitutes a fraudulent transfer under U.S. bankruptcy or similar state law, which would prevent the holders of the Notes from relying on that subsidiary to satisfy claims.

The Subsidiary Guaranty of a Subsidiary Guarantor will be deemed to be automatically and unconditionally released and discharged, without the need of any action on the part of such Subsidiary Guarantor or the Trustee or otherwise:

- (1) upon the sale or other disposition (including by way of consolidation or merger) of such Subsidiary Guarantor (including, for the avoidance of doubt, any transaction pursuant to which such Subsidiary Guarantor ceases to be a Subsidiary of the Issuer);
- (2) upon the sale or disposition of all or substantially all the assets of such Subsidiary Guarantor;
- (3) upon the designation of such Subsidiary Guarantor as an Unrestricted Subsidiary or a Non-Material Subsidiary pursuant to the terms of the Indenture;

(4) upon a legal defeasance or satisfaction and discharge of the Notes, as provided under Defeasance and Satisfaction and Discharge ; or

S-38

Table of Contents

(5) as described under Amendments and Waivers,

in the case of clause (1) or (2), other than to the Issuer or a Restricted Subsidiary and as permitted by the Indenture.

Notwithstanding anything to the contrary in the Indenture, the Notes or the Guaranties, if the Issuer, due to an error made in good faith, causes any Person to execute the Supplemental Indenture or any other supplement to the Base Indenture, or any other instrument, purporting to cause such Person to guarantee the Notes and become a Subsidiary Guarantor and, at the time of such execution, such Person is not a domestic Subsidiary of the Issuer, then, notwithstanding such Supplemental Indenture or other supplement or instrument, the Subsidiary Guaranty of such Person shall automatically, and without the need for any action on the part of the Issuer, such Person or the Trustee or otherwise, be null and void, with the same force and effect as if such execution had never occurred. Without limiting the generality of the foregoing, the Issuer and such Person may nonetheless thereafter execute and deliver to the Trustee such instruments or other documents that shall memorialize the nullification of such Subsidiary Guaranty.

Not all of our Subsidiaries will guarantee the notes. Also, the joint venture and fund entities in which we have investments and their respective subsidiaries (which are not Subsidiaries of the Issuer as of the date of the Indenture) are not guarantors and are not subject to any of the obligations and covenants described hereunder. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to us. For the nine months ended September 30, 2014 and year ended December 31, 2013, the revenues of our non-guarantor subsidiaries constituted approximately 70% and 64%, respectively, of Kennedy-Wilson Holding's consolidated revenues, and the operating income of our non-guarantor subsidiaries for those periods was approximately \$28.8 million and \$3.6 million, respectively. As of September 30, 2014, the total assets of those subsidiaries constituted approximately 84% of Kennedy-Wilson Holding's consolidated total assets, and those subsidiaries had \$1,835.5 million of secured non-recourse mortgage indebtedness (excluding debt discount), of which none has recourse to us. However, these figures are as of September 30, 2014 and do not reflect transactions that we have entered into after that date or future transactions that we may enter into. Depending on the particular terms of any acquisition or other transaction that one or more of our subsidiaries may enter into, those subsidiaries may not be required by the terms of the Indenture to guarantee the Notes. Accordingly, these figures may fluctuate from time to time, and these figures may increase or decrease materially in future periods. For example, the instruments governing our acquisitions (such as the relevant loan agreement, or the terms of the relevant partnership agreement, limited liability company operating agreement or other governing document of the borrower, or any related joint venture agreement or the terms of any relevant Co-investment Vehicle or separate account or investment program) may prohibit the relevant subsidiary from guaranteeing the Notes. In many such cases, the Indenture does not require our subsidiaries, including those described above, to guarantee the Notes.

Ranking

The indebtedness evidenced by the Notes and the Guaranties will be senior unsecured obligations and will rank *pari passu* in right of payment with all other unsecured Senior Indebtedness of the Issuer or the applicable Guarantor, as the case may be.

As of September 30, 2014, on a pro forma as adjusted basis, after giving effect to the issuance and sale of \$350.0 million aggregate principal amount of the Notes offered hereby, after deducting underwriting discounts and commissions and estimated offering expenses to be paid by us, and the redemption of the Issuer's 8.750% Senior Notes due 2019:

(a) the Issuer's and the Guarantors' Senior Indebtedness was approximately \$898.0 million, of which:

(1) \$193.0 million (excluding debt premium and discount) was secured Non-Recourse Indebtedness under mortgage loans;

S-39

Table of Contents

(2) \$705.0 million was unsecured Senior Indebtedness, consisting of the Notes offered hereby, \$300.0 million of the initial Notes and \$55.0 million of the Issuer's 7.75% Senior Notes due 2042; and

(3) the Issuer had no Indebtedness outstanding under the Credit Agreement and had \$300 million of availability thereunder.

In addition, as of such date, the Issuer and the Subsidiary Guarantors would have had \$54.9 million aggregate principal amount of Guarantees that the Issuer and the Guarantors provided in connection with loans secured by assets held in various joint ventures and that are recourse to the Issuer and the Guarantors.

The Notes and the Guaranties are unsecured obligations of the Issuer and the Guarantors, as the case may be. Secured debt and other secured obligations of the Issuer and the Guarantors will be effectively senior to the Notes and the Guaranties to the extent of the value of the assets securing such debt or other obligations. In addition, all Indebtedness and trade payables of non-guarantor Subsidiaries will be effectively senior to the Notes and the Guaranties.

Not all of our subsidiaries will guarantee the notes. See Risk Factors Risks Related to the Notes The notes will not be guaranteed by all of our subsidiaries.

Although the Indenture contains limitations on the amount of additional Indebtedness that the Issuer and the Restricted Subsidiaries may incur, under certain circumstances the amount of such Indebtedness could be substantial and, subject to the limitations set forth in the covenants described under Certain Covenants Limitation on Liens, such Indebtedness may be secured Indebtedness. See Certain Covenants Limitation on Indebtedness and Limitation on Liens.

Fundamental Change

Upon the occurrence of a Fundamental Change, each noteholder shall have the right to require that the Issuer purchase such noteholder's Notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following any Fundamental Change, unless we have exercised our option to redeem all the Notes as described under Optional Redemption, we will mail (or deliver electronically, if held at DTC) a notice to each noteholder with a copy to the Trustee (the ***Fundamental Change Offer***) stating:

(1) that a Fundamental Change has occurred and that such noteholder has the right to require us to purchase such noteholder's Notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase, plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of noteholders of record on the relevant record date to receive interest on the relevant interest payment date);

(2) the circumstances and relevant facts regarding such Fundamental Change (including information with respect to pro forma historical income, cash flow and capitalization, in each case after giving effect to such Fundamental Change);

(3) the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); and

(4) the instructions, as determined by us, consistent with the covenant described hereunder, that a noteholder must follow in order to have its Notes purchased.

We will not be required to make a Fundamental Change Offer following a Fundamental Change if a third party makes the Fundamental Change Offer in the manner, at the times and otherwise in compliance with

S-40

Table of Contents

the requirements set forth in the Indenture applicable to a Fundamental Change Offer made by us and purchases all Notes validly tendered and not withdrawn under such Fundamental Change Offer or if we have exercised our option to redeem all the Notes pursuant to the provisions described under [Optional Redemption](#).

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the purchase of Notes as a result of a Fundamental Change. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, we will comply with the applicable securities laws and regulations and shall not be deemed to have breached our obligations under the covenant described hereunder by virtue of our compliance with such securities laws or regulations.

The Fundamental Change purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of the Issuer and, thus, the removal of incumbent management. The Fundamental Change purchase feature is a result of negotiations between the Issuer and the underwriters of the Notes. We have no present intention to engage in a transaction involving a Change of Control and we do not foresee the occurrence of a Termination of Trading, although it is possible that, in the future, we could decide to engage in a transaction involving a Change of Control or a Termination of Trading occurs. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture or result in a Termination of Trading, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to Incur additional Indebtedness are contained in the covenants described under [Certain Covenants Limitation on Indebtedness](#), and [Limitation on Liens](#), which limitations may terminate as described under [Defeasance and Satisfaction and Discharge](#) below. Such restrictions can only be waived with the consent of the holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenant, however, the Indenture will not contain any covenants or provisions that may afford holders of the Notes protection in the event of a highly leveraged transaction.

Holders may not be entitled to require us to purchase their Notes in certain circumstances involving a significant change in the composition of our Board of Directors, including in connection with a proxy contest where our Board of Directors does not approve a dissident slate of directors but approves them as continuing directors, even if our Board of Directors initially opposed the directors.

The Credit Agreement provides that the occurrence of certain change of control events with respect to the Issuer would constitute a default thereunder. Future indebtedness that we may incur may contain prohibitions on the occurrence of certain events that would constitute a Fundamental Change or require the purchase of such indebtedness upon a Fundamental Change. Moreover, the exercise by the holders of their right to require us to purchase the Notes could cause a default under such indebtedness, even if the Fundamental Change itself does not, due to the financial effect of such purchase on us. Our ability to pay cash to the holders of Notes following the occurrence of a Fundamental Change may be limited by our then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required purchases. See [Risk Factors Risks Related to the Notes](#) We may not have the ability to raise the funds necessary to finance a fundamental change offer.

The occurrence of a Fundamental Change will also trigger a redemption right held by the holders of Parent's Series A Preferred Stock and Series B Preferred Stock under their respective certificates of designation. Pursuant to paragraph (a) and clause (11) of paragraph (b) under the covenant described under [Certain Covenants Limitation on Restricted Payments](#), we may not make any Restricted Payment to redeem or repurchase Parent's Series A Preferred Stock and Series B Preferred Stock, unless we have sufficient restricted payment capacity or we have previously made an offer to noteholders to repurchase the Notes. If the noteholders, however, reject our Fundamental Change Offer or fail for

any reason to tender all of their Notes, and the stockholders of Parent's Series A Preferred Stock and Series B Preferred Stock accept Parent's offer to

S-41

Table of Contents

repurchase such shares of Series A Preferred Stock and Series B Preferred Stock, we may have to pay dividends or make other payments to Parent so that it can use cash to fund the repurchase or redemption of its Series A Preferred Stock and Series B Preferred Stock. In the event this occurs, it may be more difficult for us to make scheduled payments on the untendered Notes. See Risk Factors Risks Related to the Notes In the event of a change of control or termination of trading of our common stock, our Series A and Series B preferred stock will be redeemable at the option of the stockholders thereof.

Notwithstanding anything to the contrary herein, a Fundamental Change Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of such Fundamental Change Offer.

The phrase all or substantially all, as used with respect to the assets of the Issuer in the definition of Change of Control, is subject to interpretation under applicable state law, and its applicability in a given instance would depend upon the facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of all or substantially all the assets of the Issuer has occurred in a particular instance, in which case a holder's ability to obtain the benefit of these provisions could be unclear.

The provisions under the Indenture relative to our obligation to make an offer to purchase the Notes as a result of a Fundamental Change may be waived or modified with the written consent of the holders of a majority in principal amount of the Notes.

For purposes of this discussion of a repurchase of the Notes following a Fundamental Change *Change of Control* means the occurrence of any of the following:

- (1) any person or group (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), is or becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 35% (or, in the case of any Permitted Holder, 50%) of the total voting power of the Voting Stock of the Parent;
- (2) individuals who on the Original Issue Date constituted the Board of Directors (together with any new directors whose election by such Board of Directors or whose nomination for election by the shareholders of the Parent was approved by a vote of a majority of the directors of the Parent then still in office who were either directors on the Original Issue Date or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the Board of Directors of Parent then in office;
- (3) the adoption of a plan relating to the liquidation or dissolution of the Parent;
- (4) the merger or consolidation of the Parent with or into another Person or the merger of another Person with or into the Parent, or the sale of all or substantially all the consolidated assets of Parent (but in any event, upon the sale of more than 35% of the consolidated assets of the Parent), to another Person, other than a transaction following which (A) in the case of a merger or consolidation transaction, holders of securities that represented 100% of the Voting Stock of the Parent immediately prior to such transaction (or other securities into which such securities are converted as part of such merger or consolidation transaction) own, directly or indirectly, at least a majority of the voting power of the Voting Stock of the surviving Person in such merger or consolidation transaction immediately after such transaction and (B) in the case of a sale of assets transaction, the transferee Person becomes the obligor in respect of the Notes and a Subsidiary of the transferor of such assets; or
- (5) the Parent ceases to own, directly, 100% of the Capital Stock of the Issuer.

For the avoidance of doubt, for purposes of determining beneficial ownership under clause (1) above, no Permitted Holder shall be deemed to be a person or group (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) with Fairfax.

S-42

Table of Contents

Fundamental Change shall mean the occurrence of a Change of Control or a Termination of Trading.

Termination of Trading shall mean the termination (but not the temporary suspension) of trading of the Common Stock of Parent, which will be deemed to have occurred if the Common Stock or other securities into which the Parent's Series A Preferred Stock and Series B Preferred Stock are convertible are not, or are not permitted to be, listed for trading on the New York Stock Exchange or any other U.S. national securities exchange.

Certain Covenants

The indenture contains, among others, the covenants described below.

If on any date following the Original Issue Date:

(1) the notes are rated Baa3 or better by Moody's and BBB- or better by S&P (or, if either such entity ceases to rate the notes for reasons outside of the control of the Issuer, the equivalent investment grade credit rating from any other nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by the Issuer as a replacement agency); and

(2) no Default or Event of Default shall have occurred and be continuing,

then, beginning on that day and subject to the provisions of the following paragraph, the covenants described below will be suspended:

(1) Limitation on Indebtedness ;

(2) Limitation on Restricted Payments ;

(3) Limitation on Restrictions on Distributions from Restricted Subsidiaries ;

(4) Limitation on Sales of Assets and Subsidiary Stock ; and

(5) clause (3) of the covenant described below under the caption Merger and Consolidation.

Notwithstanding the foregoing, if the rating assigned by either such rating agency should subsequently decline to below Baa3 or BBB-, respectively, then the foregoing covenants will be reinstated as of and from the date of such rating decline. For the avoidance of doubt, calculations under the reinstated Limitation on Restricted Payments covenant will be made as if such covenant had been in effect since April 1, 2011, except that no default will be deemed to have occurred solely by reason of a Restricted Payment made prior to the date of the Indenture or during the time such that covenant was suspended.

There can be no assurance that the notes will ever achieve an investment grade rating or that any such rating will be maintained.

Limitation on Indebtedness

(a) The Issuer will not, and will not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Indebtedness; *provided, however*, that the Issuer and the Restricted Subsidiaries will be entitled to Incur Indebtedness (including revolving credit Indebtedness) if, on the date of such Incurrence and after giving effect thereto, no Default

has occurred and is continuing and the Maximum Balance Sheet Leverage Ratio is no greater than 1.5 to 1.0.

S-43

Table of Contents

(b) Notwithstanding the foregoing paragraph (a), the Issuer and the Restricted Subsidiaries will be entitled to Incur any or all of the following Indebtedness:

(1) Indebtedness Incurred by the Issuer pursuant to any Credit Facility (including the Credit Agreement); *provided, however*, that, immediately after giving effect to any such Incurrence, the aggregate principal amount of all Indebtedness Incurred under this clause (1) and then outstanding does not exceed the greater of (x) \$150.0 million and (y) 8.0% of Total Assets;

(2) Indebtedness owed to and held by the Issuer or a Restricted Subsidiary; *provided, however*, that (A) any subsequent issuance or transfer of any Capital Stock which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness (other than to the Issuer or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by the obligor thereon and (B) if the Issuer is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all obligations with respect to the Notes;

(3) the Notes (other than any Additional Notes);

(4) Indebtedness of the Issuer and its Subsidiaries outstanding on the Original Issue Date (other than Indebtedness described in clause (1), (2) or (3) of this covenant);

(5) Indebtedness of a Restricted Subsidiary Incurred and outstanding on or prior to the date on which such Subsidiary was acquired by the Issuer (other than Indebtedness Incurred in connection with, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of related transactions pursuant to which such Subsidiary became a Subsidiary or was acquired by the Issuer); *provided, however*, at the time of such acquisition and after giving effect thereto, the aggregate principal amount of all Indebtedness Incurred pursuant to this clause (5) and then outstanding does not exceed \$25.0 million;

(6) Refinancing Indebtedness in respect of Indebtedness Incurred pursuant to paragraph (a) or pursuant to clause (3), (4), (5), or this clause (6); *provided, however*, that to the extent such Refinancing Indebtedness directly or indirectly Refinances Indebtedness of a Subsidiary Incurred pursuant to clause (5), such Refinancing Indebtedness shall be Incurred only by such Subsidiary;

(7) Hedging Obligations of the Issuer or any Restricted Subsidiary entered into in the ordinary course of business and not for the purpose of speculation;

(8) obligations in respect of letters of credit, performance, bid and surety bonds, completion guarantees, budget guarantees, payment obligations in connection with self-insurance or similar requirements provided by the Issuer or any Restricted Subsidiary in the ordinary course of business;

(9) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within five Business Days of its Incurrence;

(10) Indebtedness with respect to workers' compensation claims in the ordinary course of business;

(11) any Guarantee (including the Subsidiary Guaranties) by the Issuer or a Restricted Subsidiary of Indebtedness or other obligations of the Issuer or any of its Restricted Subsidiaries so long as the Incurrence of such Indebtedness by the Issuer or such Restricted Subsidiary is permitted under the terms of the Indenture,

(12) Indebtedness arising from agreements providing for indemnification, deposits, adjustment of purchase price or similar obligations, in each case, Incurred or assumed in connection with the acquisition or disposition of any business, assets or a Subsidiary; *provided, however*, that (A) such Indebtedness is not reflected on the balance sheet of the Issuer or any Restricted Subsidiary (contingent obligations referred to in a footnote or footnotes to financial statements and not otherwise reflected on the balance sheet will not be deemed to be reflected on such balance sheet for purposes of this clause (A)) and (B) in the case of a disposition, the maximum liability in respect of such Indebtedness shall at no time exceed the gross proceeds including noncash proceeds (the fair market value of such noncash proceeds being determined at the time received and without giving effect to any subsequent changes in value) actually received by the Issuer or such Restricted Subsidiary in connection with such disposition;

(13) Non-Recourse Indebtedness, Permitted Non-Recourse Carve-Out Guarantees and Permitted Co-investments;

(14) Indebtedness constituting Subordinated Obligations, the net cash proceeds of which are used to purchase, repurchase, redeem, defease or otherwise acquire or retire for value the Subordinated Debentures and with a Stated Maturity that is no earlier than 180 days after the Stated Maturity of the Notes; and

(15) Indebtedness of the Issuer or any Restricted Subsidiary (together with any refinancing thereof) in an aggregate principal amount which, when taken together with all other Indebtedness of the Issuer and the Restricted Subsidiaries outstanding on the date of such Incurrence (other than Indebtedness permitted by clauses (1) through (14) above or paragraph (a)), does not exceed the greater of (x) \$37.5 million and (y) 2.0% of Total Assets.

(c) Notwithstanding the foregoing (except to the extent provided in the foregoing clause (14)), none of the Issuer or any Subsidiary Guarantor will Incur any Indebtedness pursuant to the foregoing paragraph (b) if the proceeds thereof are used, directly or indirectly, to Refinance any Subordinated Obligations of the Issuer or any Subsidiary Guarantor unless such Indebtedness shall be subordinated to the Notes or the applicable Subsidiary Guaranty to at least the same extent as such Subordinated Obligations.

(d) For purposes of determining compliance with this covenant: (1) any Indebtedness outstanding under the Credit Agreement on the Original Issue Date will be treated as having been incurred on the Original Issue Date under clause (1) of paragraph (b) above; (2) in the event that an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described above, the Issuer, in its sole discretion, will be permitted to classify all or a portion of such item of Indebtedness at the time of Incurrence, or later reclassify all or a portion of such item of Indebtedness, in one of the above clauses in any manner that complies with the covenant; and (3) the Issuer will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described above. Notwithstanding the foregoing, Indebtedness incurred under the Credit Agreement will be deemed to have been incurred under clause (1) of paragraph (b) above and the Issuer shall not be permitted to reclassify all or any portion of such Indebtedness. Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness, but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness. For the avoidance of doubt, the outstanding principal amount of any particular Indebtedness shall be counted only once and any obligations arising under any Guarantee, Lien, letter of credit or similar instrument supporting such Indebtedness shall not be double counted.

(e) For purposes of determining compliance with any U.S. dollar restriction on the Incurrence of Indebtedness where the Indebtedness Incurred is denominated in a different currency, the amount of such Indebtedness will be the U.S. Dollar Equivalent determined on the date of the Incurrence of such Indebtedness, *provided, however*, that if any such Indebtedness denominated in a different currency is subject to a Currency Agreement with respect to U.S. dollars covering all principal, premium, if any, and interest payable on such

S-45

Indebtedness, the amount of such Indebtedness expressed in U.S. dollars will be as provided in such Currency Agreement. The principal amount of any Refinancing Indebtedness Incurred in the same currency as the Indebtedness being Refinanced will be the U.S. Dollar Equivalent of the Indebtedness Refinanced, except to the extent that (1) such U.S. Dollar Equivalent was determined based on a Currency Agreement, in which case the Refinancing Indebtedness will be determined in accordance with the preceding sentence, and (2) the principal amount of the Refinancing Indebtedness exceeds the principal amount of the Indebtedness being Refinanced, in which case the U.S. Dollar Equivalent of such excess will be determined on the date such Refinancing Indebtedness is Incurred.

(f) In no event shall an Incurrence of Indebtedness made on the basis of consolidated financial statements prepared in good faith to be in accordance with GAAP be subject to rescission or constitute a Default by reason of any requisite subsequent restatement of such financial statements that would have made such Incurrence prohibited at the time that it was made.

Limitation on Restricted Payments

(a) The Issuer will not, and will not permit any Restricted Subsidiary, directly or indirectly, to make a Restricted Payment if at the time the Issuer or such Restricted Subsidiary makes such Restricted Payment:

(1) a Default shall have occurred and be continuing (or would result therefrom);

(2) the Issuer is not entitled to Incur an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under *Limitation on Indebtedness* ; or

(3) the aggregate amount of such Restricted Payment and all other Restricted Payments made on or after the Original Issue Date would exceed the sum of (without duplication):

(A) 50% of the Consolidated Net Income accrued during the period (treated as one accounting period) from April 1, 2011 to the end of the most recent fiscal quarter ended for which internal financial statements are available prior to the date of such Restricted Payment (or, in case such Consolidated Net Income shall be a deficit, minus 100% of such deficit); plus

(B) 100% of the aggregate Net Cash Proceeds received by the Issuer from the issuance or sale of its Capital Stock (other than Disqualified Stock) subsequent to April 5, 2011 (other than an issuance or sale to a Subsidiary of the Issuer and other than an issuance or sale to an employee stock ownership plan or to a trust established by the Issuer or any of its Subsidiaries for the benefit of their employees) and 100% of any cash capital contribution received by the Issuer from its shareholders subsequent to the April 5, 2011; plus

(C) the amount by which Indebtedness of the Issuer is reduced on the Issuer's balance sheet upon the conversion or exchange (other than by a Subsidiary of the Issuer) subsequent to April 5, 2011 of any Indebtedness of the Issuer convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Issuer (less the amount of any cash, or the fair value of any other property, distributed by the Issuer upon such conversion or exchange); plus

(D) an amount equal to the sum of the following since April 5, 2011: (x) the net reduction in the Investments (other than Permitted Investments) made by the Issuer or any Restricted Subsidiary in any Person resulting from repurchases, repayments or redemptions of such Investments by such Person, payments of interest on Indebtedness, dividends, repayments of loans or advances, or proceeds realized on the sale of such Investment and proceeds representing the return of capital, in each case received by the Issuer or any Restricted Subsidiary since the Original Issue Date, and (y) to the extent such Person is an Unrestricted Subsidiary, the portion

(proportionate to the Issuer's equity interest in such Subsidiary) of the fair market value of the net assets of such Unrestricted Subsidiary at the time such Unrestricted Subsidiary is designated a Restricted Subsidiary; *provided, however*, that the foregoing sum in this clause (D) shall not exceed, in the case of any such Person or Unrestricted Subsidiary, the amount of Investments (excluding Permitted Investments) previously made (and treated as a Restricted Payment) by the Issuer or any Restricted Subsidiary in such Person or Unrestricted Subsidiary.

(b) The preceding provisions will not prohibit:

(1)(A) any Restricted Payment made out of the Net Cash Proceeds of the substantially concurrent sale of, or made by exchange for, Capital Stock of the Issuer (other than Disqualified Stock and other than Capital Stock issued or sold to a Subsidiary of the Issuer or an employee stock ownership plan or to a trust established by the Issuer or any of its Subsidiaries for the benefit of their employees) subsequent to the Original Issue Date or (B) any Restricted Payment made out of a substantially concurrent cash capital contribution received by the Issuer from its shareholders subsequent to the Original Issue Date; *provided, however*, that (i) such Restricted Payment shall be excluded in the calculation of the amount of Restricted Payments and (ii) the Net Cash Proceeds from such sale or such cash capital contribution (to the extent so used for such Restricted Payment) shall be excluded from the calculation of amounts under clause (3)(B) of paragraph (a) above;

(2) any purchase, repurchase, redemption, defeasance or other acquisition or retirement for value of Subordinated Obligations of the Issuer or a Subsidiary Guarantor made by exchange for, or out of the proceeds of the substantially concurrent sale of, Subordinated Obligations which is permitted to be Incurred pursuant to the covenant described under Limitation on Indebtedness; *provided, however*, that such purchase, repurchase, redemption, defeasance or other acquisition or retirement for value shall be excluded in the calculation of the amount of Restricted Payments;

(5) so long as no Default has occurred and is continuing, the repurchase or other acquisition of shares of Capital Stock of Parent or the Issuer or any of the Issuer's Subsidiaries from employees (including substantially full-time independent contractors), former employees, directors, former directors or consultants of the Issuer or any of its Subsidiaries (or permitted transferees of such employees, former employees, directors, former directors or consultants), pursuant to the terms of the agreements (including employment agreements) or plans (or amendments thereto) approved by the Board of Directors of Parent or its Subsidiaries under which such individuals purchase or sell or are granted the option to purchase or sell, shares of such Capital Stock (including pursuant to any net exercise or net settlement provisions); *provided, however*, that the aggregate amount of such repurchases and other acquisitions for cash shall not exceed the sum of (A) \$10.0 million, (B) the Net Cash Proceeds from the sale of Capital Stock to members of management, consultants or directors of the Issuer and its Subsidiaries that occurred or occurs after April 5, 2011 (to the extent the Net Cash Proceeds from the

(6) dividends to Parent to be used by Parent solely to pay its franchise taxes and other fees required to maintain its corporate existence and to pay for general corporate and overhead expenses (including salaries, insurance and other compensation of the employees) incurred by Parent in the ordinary course of its business; *provided, however*, that such dividends shall not exceed \$5.0 million in any calendar year; *provided further, however*, that such dividends shall be excluded in the calculation of the amount of Restricted Payments;

(7) so long as no Event of Default has occurred and is continuing, dividends or other payments to Parent to be used by Parent to pay dividends to the holders of the Parent's Series A Preferred Stock and Series B Preferred Stock issued and outstanding as of the Original Issue Date, *provided, however*, that the aggregate amount of such dividends or other payments shall not exceed \$8.5 million per year (*provided* that any unused amounts in any year continue to carry forward and increase such limit in each subsequent year); *provided further, however*, that such dividends or other payments shall be excluded in the calculation of the amount of Restricted Payments;

(8) payments to Parent in respect of federal, state and local taxes directly attributable to (or arising as a result of) the operations of the Issuer and its consolidated Subsidiaries; *provided, however*, that the amount of such payments in any fiscal year shall not exceed the amount that the Issuer and its consolidated Subsidiaries would be required to pay in respect of federal, state and local taxes for such fiscal year were the Issuer to pay such taxes as a stand-alone taxpayer (whether or not all such amounts are actually used by Parent for such purposes); *provided further, however*, that such payments shall be excluded in the calculation of the amount of Restricted Payments;

(9) Investments made pursuant to commitments to Invest if at the date such commitment was made, such Investment would have complied with this covenant; *provided, however*, that such Investment shall be excluded in the calculation of the amount of Restricted Payments;

(10) upon the occurrence of a Change of Control (or similarly defined term in other Indebtedness) and within 90 days after completion of the Fundamental Change Offer (including the purchase of all Notes tendered), any repayment, repurchase, redemption, defeasance or other acquisition or retirement for value of any Indebtedness of the Issuer or the Subsidiary Guarantors that is contractually subordinated to the Notes or to any Subsidiary Guaranty that is required to be repurchased or redeemed pursuant to the terms thereof as a result of such Change of Control (or similarly defined term in other Indebtedness), at a purchase price not greater than 101% of the outstanding principal amount or liquidation preference thereof (plus accrued and unpaid interest and liquidated damages, if any);

(13) the payment of any amounts in respect of Capital Stock by any Restricted Subsidiary organized as a partnership or a limited liability company or other pass-through entity: (a) to the extent of capital contributions made to such Restricted Subsidiary (other than capital contributions made to such Restricted Subsidiary by the Issuer or any Restricted Subsidiary), or (b) to the extent necessary for holders thereof to pay taxes with respect to the net income of such Restricted Subsidiary; *provided, however*, that except in the case of clause (b), no Default or Event of Default has occurred and is continuing at the time of such Restricted Payment or would result therefrom; *provided, further, however*, such amounts shall be excluded in the calculation of the amount of Restricted Payments;

In no event shall a Restricted Payment made on the basis of consolidated financial statements prepared in good faith to be in accordance with GAAP be subject to rescission or constitute a Default by reason of any requisite subsequent restatement of such financial statements that would have made such Restricted Payment prohibited at the time that it was made.

For purposes of determining compliance with this covenant: (1) in the event that a Restricted Payment meets the criteria of more than one of the types of Restricted Payments described in the sub-clauses to clause (b) above, the Issuer, in its sole discretion, will be permitted to classify all or a portion of such Restricted Payment at the time it is made, or later reclassify all or a portion of such Restricted Payment, in one of the above sub-clauses in any manner that complies with the covenant; and (2) the Issuer will be entitled to divide and classify a Restricted Payment in more than one of the types of Restricted Payments described in the sub-clauses to clause (b) above.

(C) any encumbrance or restriction with respect to a Restricted Subsidiary pursuant to an agreement relating to any Indebtedness Incurred by such Restricted Subsidiary on or prior to the date on which such Restricted Subsidiary was acquired by the Issuer (other than Indebtedness Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of related transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Issuer) and outstanding on such date;

(D) any encumbrance or restriction pursuant to an agreement effecting a Refinancing of Indebtedness Incurred pursuant to an agreement referred to in clause (A), (B) or (C) of clause (1) of this covenant or this clause (D) or contained in any amendment to an agreement referred to in clause (A), (B) or (C) of clause (1) of this covenant or this clause (D); *provided, however*, that the encumbrances and restrictions with respect to such Restricted Subsidiary contained in any such refinancing agreement or amendment are not materially less favorable, taken as a whole, to the noteholders than encumbrances and restrictions with respect to such Restricted Subsidiary contained in such predecessor agreements;

(E) any encumbrance or restriction pursuant to customary restrictions on, or customary conditions to the payment of dividends or other distributions on, equity interests owned by the Issuer or any Subsidiary in any joint venture or similar enterprise contained in the constitutive documents, including shareholders' or similar agreements, of such joint venture or enterprise, to the extent encumbrances or restrictions apply solely to the income of such joint venture or similar enterprise;

(F) any encumbrance or restriction pursuant to customary restrictions contained in (i) agreements governing any Non-Recourse Indebtedness or Permitted Co-investments, or (ii) the terms of the relevant partnership agreement, limited liability company operating agreement or other governing document of the entity that is the borrower (or the direct parent of the borrower) under any Non-Recourse Indebtedness or of any Co-investment Vehicle;

(G) any encumbrance or restriction contained in the terms of any agreement governing Indebtedness directly or indirectly secured by real property or other related assets that are customary for real property financing transactions, such as cash collateral accounts or impounds or reserves required for payment of taxes, insurance, security deposits, capital expenditures and repairs, interest and tenant improvements and leasing commissions; and

(H) any encumbrance or restriction pursuant to applicable law; and

(2) with respect to clause (c) only,

(A) any such encumbrance or restriction consisting of customary nonassignment provisions in leases governing leasehold interests or licenses of intellectual property to the extent such provisions restrict the transfer of the lease or the property leased or licensed thereunder;

(B) restrictions contained in security agreements, mortgages or other agreements securing Indebtedness of a Restricted Subsidiary or any agreement governing Non-Recourse Indebtedness to the extent such restrictions restrict the transfer of the property subject to such security agreements, mortgages or Non-Recourse Indebtedness;

(C) restrictions on the transfer of assets subject to any Lien permitted under the Indenture imposed by the holder of such Lien;

(D) any restriction with respect to a Restricted Subsidiary or its assets imposed pursuant to an agreement entered into for the sale or disposition of all or substantially all of the Capital Stock or assets of such Restricted Subsidiary pending the closing of such sale or disposition; and

(E) arising or agreed to in the ordinary course of business, not relating to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of the property or assets of the Issuer or any Restricted Subsidiary in a manner material to the Issuer and its Restricted Subsidiaries, taken as a whole.

Limitation on Sales of Assets and Subsidiary Stock

(a) The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Disposition unless:

(1) the Issuer or such Restricted Subsidiary receives consideration at the time of such Asset Disposition at least equal to the fair market value (including as to the value of all noncash consideration), as determined in good faith by members of the Issuer's senior management, of the shares and assets subject to such Asset Disposition;

(2) at least 75% of the consideration thereof received by the Issuer or such Restricted Subsidiary is in the form of cash or cash equivalents, Temporary Cash Investments or Replacement Assets or a combination of cash and cash equivalents, Temporary Cash Investments, and Replacement Assets; *provided, however*, that with respect to the sale of one or more real estate properties or related property, plant and equipment, or loans secured by real estate, up to 75% of the consideration may consist of Indebtedness of the purchaser of such real estate properties or related property, plant and equipment, or loans secured by real estate, so long as such Indebtedness is secured by a first or second priority Lien on the real estate property or properties or related property, plant and equipment, or loans secured by real estate, sold;

(3) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by the Issuer (or such Restricted Subsidiary, as the case may be):

(A) first, to the extent the Issuer elects (or is required by the terms of any Indebtedness), to prepay, repay, redeem or purchase secured Indebtedness of the Issuer or any Restricted Subsidiary or Indebtedness (other than Disqualified Stock) of any other Wholly Owned Subsidiary (in each case other than Indebtedness owed to the Issuer or an Affiliate of the Issuer) within one year from the later of the date of such Asset Disposition or the receipt of such Net Available Cash;

S-51

(B) second, to the extent of the balance of such Net Available Cash after application in accordance with clause (A), to the extent the Issuer elects, to make a capital expenditure or to acquire Replacement Assets within one year from the later of the date of such Asset Disposition or the receipt of such Net Available Cash; and

(C) third, to the extent of the Excess Proceeds (as defined below), to make an offer to the holders of the Notes (and to holders of other Senior Indebtedness of the Issuer designated by the Issuer) to purchase Notes (and such other Senior Indebtedness of the Issuer) pursuant to and subject to the conditions contained in the Indenture;

provided, however, that in connection with any prepayment, repayment or purchase of Indebtedness pursuant to clause (A) or (C) above (excluding temporary reductions of revolving credit indebtedness made pursuant to the covenant described in the last sentence of the next paragraph), the Issuer or such Restricted Subsidiary shall permanently retire such Indebtedness and shall cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased; *provided further, however*, the Issuer will be deemed to have complied with clause (B) above if and to the extent that, within 365 days after the later of the Asset Disposition or the receipt of Net Available Cash, the Issuer or any of its Restricted Subsidiaries has entered into and not abandoned or rejected a binding agreement to make a capital expenditure or to acquire Replacement Assets, and that such capital expenditure or acquisition is thereafter completed within 180 days after the end of such 365-day period.

The Net Available Cash of an Asset Disposition not applied pursuant to clauses (3)(A) and (B) above constitute ***Excess Proceeds***. Excess Proceeds of less than \$10.0 million will be carried forward and accumulated. When accumulated Excess Proceeds equal or exceed such amount, the Issuer must, within 30 days, make an offer to purchase the Notes, in accordance with clause (3)(C) above. Pending application of Net Available Cash pursuant to this covenant, such Net Available Cash shall be invested in Temporary Cash Investments or applied to temporarily reduce revolving credit indebtedness.

For the purposes of this covenant, the following are deemed to be cash or cash equivalents:

- (1) the assumption of Indebtedness of the Issuer or any Restricted Subsidiary and the release of the Issuer or such Restricted Subsidiary from all liability on such Indebtedness in connection with such Asset Disposition; and
- (2) securities received by the Issuer or any Restricted Subsidiary from the transferee that are converted by the Issuer or such Restricted Subsidiary into cash within 180 days of receipt.

(b) In the event of an Asset Disposition that requires the purchase of Notes (and other Senior Indebtedness of the Issuer) pursuant to clause (a)(3)(C) above, the Issuer will purchase Notes tendered pursuant to an offer by the Issuer for the Notes (and such other Senior Indebtedness of the Issuer) at a purchase price of 100% of their principal amount (or, in the event such other Senior Indebtedness of the Issuer was issued with significant original issue discount, 100% of the accreted value thereof), without premium, plus accrued but unpaid interest, if any, (or, in respect of such other Senior Indebtedness of the Issuer, such lesser price, if any, as may be provided for by the terms of such Senior Indebtedness of the Issuer) in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture. If the aggregate purchase price of the securities tendered exceeds the Net Available Cash allotted to their purchase, the Issuer will select the securities to be purchased on a pro rata basis but in round denominations, which in the case of the Notes will be denominations of \$2,000 principal amount or integral multiples of \$1,000 greater thereof. The Issuer shall not be required to make such an offer to purchase Notes (and other Senior Indebtedness of the Issuer) pursuant to this covenant if the Excess Proceeds are less than \$5.0 million (which lesser amount shall be carried forward for purposes of determining whether such an offer is required with respect to the Net Available Cash from any subsequent Asset Disposition).

(c) The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the purchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this clause by virtue of its compliance with such securities laws or regulations.

Limitation on Affiliate Transactions

(a) The Issuer will not, and will not permit any Restricted Subsidiary to, enter into or permit to exist any transaction (including the purchase, sale, lease or exchange of any property, employee compensation arrangements or the rendering of any service) with, or for the benefit of, any Affiliate of the Issuer (an ***Affiliate Transaction***) unless:

(1) the terms of the Affiliate Transaction are no less favorable to the Issuer or such Restricted Subsidiary than those that could be obtained at the time of the Affiliate Transaction in arm's-length dealings with a Person who is not an Affiliate;

(2) if such Affiliate Transaction involves an amount in excess of \$25.0 million, the terms of the Affiliate Transaction are set forth in writing and a majority of the directors of the Issuer disinterested with respect to such Affiliate Transaction have determined in good faith that the criteria set forth in clause (1) are satisfied and have approved the relevant Affiliate Transaction as evidenced by a resolution of the Board of Directors; and

(3) if such Affiliate Transaction involves an amount in excess of \$50.0 million, the Board of Directors shall also have received a written opinion from an Independent Qualified Party to the effect that such Affiliate Transaction is fair, from a financial standpoint, to the Issuer or the applicable Restricted Subsidiary or is not less favorable to the Issuer or the applicable Restricted Subsidiary than could reasonably be expected to be obtained at the time in an arm's-length transaction with a Person who was not an Affiliate.

(b) The provisions of the preceding paragraph (a) will not prohibit:

(1) any Investment or other Restricted Payment, in each case not prohibited pursuant to the covenant described under **Limitation on Restricted Payments** ;

(2) any issuance of securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, employment arrangements, stock options and stock ownership plans approved by the Board of Directors;

(3) loans or advances to employees or consultants in the ordinary course of business of the Issuer or its Restricted Subsidiaries;

(4) the payment of reasonable fees and compensation to, or the provision of employee benefit arrangements and indemnity for the benefit of, directors, officers, employees and consultants of the Issuer and its Restricted Subsidiaries in the ordinary course of business;

(5) any transaction between or among the Issuer, any Restricted Subsidiary, any Co-investment Vehicle or joint venture or similar entity (including any separate account or investment program managed, operated or sponsored by an Investment Subsidiary) which would constitute an Affiliate Transaction solely because the Issuer or a Restricted Subsidiary owns an equity interest in or otherwise controls such Restricted Subsidiary, Co-investment Vehicle, joint venture or similar entity (including any separate account or investment program managed, operated or sponsored by an Investment Subsidiary);

- (6) the issuance or sale of any Capital Stock (other than Disqualified Stock) of the Issuer or Parent;
- (7) the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of its obligations under the terms of any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) or warrant agreement to which it is a party as of the Original Issue Date and any similar agreements which it may enter into thereafter; *provided, however*, that the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of obligations under any future amendment to any such existing agreement or under any similar agreement entered into after the Original Issue Date shall only be permitted by this clause (7) to the extent that the terms of any such amendment or new agreement are not otherwise disadvantageous to the noteholders in any material respect;
- (8) any agreement as in effect on the Original Issue Date and described or incorporated by reference in this prospectus supplement or the accompanying prospectus, or any renewals, extensions or amendments of any such agreement (so long as such renewals, extensions or amendments are not less favorable to the Issuer or the Restricted Subsidiaries) and the transactions evidenced thereby;
- (9) transactions with customers, clients, suppliers or purchasers or sellers of goods or services in each case in the ordinary course of business and otherwise in compliance with the terms of the applicable Indenture which are fair to the Issuer or its Restricted Subsidiaries, in the reasonable determination of the Board of Directors of the Issuer or the senior management thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party; and
- (10) the repurchase or other acquisition of the Parent's warrants outstanding as of the Original Issue Date, pursuant to the terms of a plan (or amendment thereto) approved by the Board of Directors of Parent.

Limitation on Liens

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur or permit to exist any Lien (the ***Initial Lien***) of any nature whatsoever on any of its properties (including Capital Stock of a Restricted Subsidiary), whether owned at the Original Issue Date or thereafter acquired, securing any Obligations, other than Permitted Liens, without effectively providing that the Notes (or a Subsidiary Guaranty in the case of an Initial Lien of a Subsidiary Guarantor) shall be secured equally and ratably with (or, in the event the Lien related to Subordinated Obligations, prior to) the Obligations so secured for so long as such Obligations are so secured. Any Lien created for the benefit of the holders of the Notes pursuant to the preceding sentence shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the release and discharge of the Initial Lien.

Limitation on Sale/Leaseback Transactions

The Issuer will not, and will not permit any Restricted Subsidiary to, enter into any Sale/Leaseback Transaction with respect to any property unless:

- (1) the Issuer or such Restricted Subsidiary would be entitled to (A) incur indebtedness in an amount equal to the Attributable Debt with respect to such Sale/Leaseback Transaction pursuant to the covenant described under **Limitation on Indebtedness** and (B) create a Lien on such property securing such Attributable Debt without equally and ratably securing the Notes pursuant to the covenant described under **Limitation on Liens**;
- (2) the net proceeds received by the Issuer or any Restricted Subsidiary in connection with such Sale/Leaseback Transaction are at least equal to the fair value (as determined by the Board of Directors of the Issuer) of such property;

and

(3) the Issuer applies the proceeds of such transaction in compliance with the covenant described under Limitation on Sales of Assets and Subsidiary Stock.

Merger and Consolidation

The provisions described below apply to the Notes and the Guaranties in lieu of the provisions described in the accompanying prospectus under the heading Description of Debt Securities Consolidation, Merger and Sale of Assets. The provisions described below apply only to the Notes and the Guaranties and not to any other series of debt securities or related guaranties issued pursuant to the Base Indenture.

The Issuer will not consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, directly or indirectly, all or substantially all its assets to, any Person, unless:

(1) the resulting, surviving or transferee Person (the ***Successor Company***) shall be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Issuer) shall expressly assume, by an indenture supplemental thereto, executed and delivered to the Trustee, all the obligations of the Issuer under the Notes and the Indenture;

(2) immediately after giving pro forma effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Company or any Subsidiary as a result of such transaction as having been Incurred by such Successor Company or such Subsidiary at the time of such transaction), no Default shall have occurred and be continuing;

(3) immediately after giving pro forma effect to such transaction, the Successor Company would be able to Incur an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under Limitation on Indebtedness ; and

(4) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture;

provided, however, that clause (3) will not be applicable to (A) a Restricted Subsidiary consolidating with, merging into or transferring all or part of its properties and assets to the Issuer or (B) the Issuer merging with an Affiliate of the Issuer solely for the purpose and with the sole effect of reincorporating the Issuer in another jurisdiction.

The Successor Company will be the successor to the Issuer and shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Indenture, and the predecessor Issuer, except in the case of a lease, shall be released from the obligation to pay the principal of and interest on the Notes.

The Issuer will not permit any Subsidiary Guarantor to consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, all or substantially all of its assets to any Person unless:

(1) except in the case of a Subsidiary Guarantor that has been disposed of in its entirety to another Person (other than to the Issuer or an Affiliate of the Issuer), whether through a merger, consolidation or sale of Capital Stock or assets, if in connection therewith the Issuer provides an Officer's Certificate to the Trustee stating that the Issuer will comply with its obligations under the covenant described under Limitation on Sales of Assets and Subsidiary Stock in respect of such disposition, the resulting, surviving or transferee Person (if not such Subsidiary) shall be a Person organized and existing under the laws of the jurisdiction under which such Subsidiary was organized or under the laws of the United States of America, or any State thereof or the District of Columbia, and such Person shall expressly assume, by

a Guaranty Agreement, all the obligations of such Subsidiary, if any, under its Subsidiary Guaranty;

S-55

(2) immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person as a result of such transaction as having been issued by such Person at the time of such transaction), no Default shall have occurred and be continuing; and

(3) the Issuer delivers to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such Guaranty Agreement, if any, complies with the Indenture.

Parent will not consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, all or substantially all of its assets to any Person unless:

(1) the resulting, surviving or transferee Person (if not Parent) shall be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia, and such Person shall expressly assume, by a Guaranty Agreement, all the obligations of Parent, if any, under its Guaranty;

(2) immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person as a result of such transaction as having been issued by such Person at the time of such transaction), no Default shall have occurred and be continuing; and

(3) the Issuer delivers to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such Guaranty Agreement, if any, complies with the Indenture.

Future Guarantors

On the Original Issue Date, Parent and the initial Subsidiary Guarantors executed and delivered the Supplemental Indenture agreeing to fully and unconditionally Guarantee the Notes (including any Additional Notes) on an unsecured, senior basis. After the Original Issue Date, certain additional Subsidiary Guarantors executed supplemental indentures agreeing to fully and unconditionally Guarantee the Notes (including any Additional Notes) on an unsecured, senior basis. On the date hereof, the Guarantors that guaranteed the initial Notes continue to guarantee the Notes. After the Issue Date, the Issuer will cause each domestic Restricted Subsidiary (other than (i) any Excluded Subsidiary and (ii) Restricted Subsidiary prohibited from providing a Guarantee by any agreement governing Non-Recourse Indebtedness (or the terms of the relevant partnership agreement, limited liability company operating agreement or other governing document of the entity that is the borrower (or the direct parent of the borrower) under any Non-Recourse Indebtedness), any joint venture agreement or the terms of any Co-investment Vehicle or any separate account or investment program managed, operated or sponsored by an Investment Subsidiary) to execute and deliver to the Trustee a Guaranty Agreement pursuant to which such domestic Restricted Subsidiary will Guarantee payment of the Notes on the same terms and conditions as those set forth in the Indenture.

Not all of our subsidiaries that acquire properties or other assets in the future will become guarantors of the Notes. For example, the terms of the Non-Recourse Indebtedness agreements, partnership agreements, limited liability company operating agreements, other governing documents, joint venture agreements, Co-investment Vehicles, separate accounts and investment programs referred to above may prohibit the relevant subsidiary from guaranteeing the Notes. In many cases, the Indenture does not require these subsidiaries to guarantee the Notes. Accordingly, noteholders will not have a direct claim against these subsidiaries for payments on the Notes. See Risk Factors Risks Related to the Notes The notes will not be guaranteed by all of our subsidiaries.

SEC Reports

Notwithstanding that the Issuer may not be subject to the reporting requirements of Sections 13(a) or 15(d) of the Exchange Act, the Issuer will file with the SEC and make available to the Trustee and noteholders

S-56

and deliver a copy to the Trustee within 15 days after it files them with the SEC such annual reports and such information, documents and other reports as are specified in Sections 13(a) and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such information, documents and other reports to be so filed with the SEC at the times specified for the filings of such information, documents and reports under such Sections; *provided, however*, that the Issuer shall not be so obligated to file such reports with the SEC if the SEC does not permit such filing, in which event the Issuer will make available such information to noteholders and deliver a copy to the Trustee within 15 days after the time the Issuer would be required to file such information with the SEC if it were subject to Sections 13(a) or 15(d) of the Exchange Act; *provided further, however*, that (a) so long as Parent is the Guarantor of the Notes, the reports, information and other documents required to be filed and provided as described hereunder may, at the Issuer's option, be filed by and be those of Parent rather than the Issuer and (b) in the event that Parent conducts any business or holds any significant assets other than the capital stock of the Issuer at the time of filing and providing any such report, information or other document containing financial statements of Parent, Parent shall include in such report, information or other document summarized financial information (as defined in Rule 1-02(bb) of Regulation S-X promulgated by the SEC) with respect to the Issuer; *provided further, however*, that in no event shall the Issuer or Parent be required to make available to the Trustee or noteholders any material for which the Issuer or Parent is seeking, or has received, confidential treatment by the SEC, or any correspondence with the SEC or its staff. For purposes of this covenant, reports, information and documents publicly available on the SEC's EDGAR system (or any successor thereto) shall be deemed to be available to the Trustee and noteholders.

Defaults

The provisions described below apply to the Notes and the Guaranties in lieu of the provisions described in the accompanying prospectus under the heading "Description of Debt Securities Events of Default." The provisions described below apply only to the Notes and the Guaranties and not to any other series of debt securities or related guaranties issued pursuant to the Base Indenture.

Each of the following is an Event of Default:

- (1) a default in the payment of interest on the Notes when due, continued for 30 days;
- (2) a default in the payment of principal of any Note when due at its Stated Maturity, upon redemption, upon required purchase, upon declaration of acceleration or otherwise;
- (3) the failure by the Issuer, Parent or any Subsidiary Guarantor to comply with its obligations under "Certain Covenants Merger and Consolidation";
- (4) the failure by the Issuer, Parent or any Subsidiary Guarantor, as the case may be, to comply for 60 days after receipt of written notice with any of its agreements contained in the Indenture (other than any other agreement specifically referred to in any of the other clauses of this definition of Event of Default), including its obligations in the covenants described above under "Fundamental Change" (other than a failure to purchase Notes), "Certain Covenants Limitation on Indebtedness," "Certain Covenants Limitation on Restricted Payments," "Certain Covenants Limitation on Restrictions on Distributions from Restricted Subsidiaries," "Certain Covenants Limitation on Sales of Assets and Subsidiary Stock" (other than a failure to purchase Notes), "Certain Covenants Limitation on Affiliate Transactions," "Certain Covenants Limitation on Liens," "Certain Covenants Limitation on Sale/Leaseback Transactions" or "Certain Covenants Future Guarantors";
- (5) the failure by the Issuer or Parent, as the case may be, to comply for 180 days after receipt of written notice with any of its obligations in the covenant described above under "Certain Covenants SEC Reports" (*provided that, if*

applicable, failure by the Issuer or Parent to comply with the provisions of Section 314(a) of the Trust Indenture Act will not in itself be deemed a Default or an Event of Default under the Indenture);

S-57

Table of Contents

(6)(a) Indebtedness (other than Non-Recourse Indebtedness) of the Issuer, any Subsidiary Guarantor or any Significant Subsidiary is not paid within any applicable grace period after final maturity or is accelerated by the holders thereof because of a default and the total amount of such Indebtedness unpaid or accelerated exceeds \$30.0 million or (b) three or more unrelated instances at any one time where Non-Recourse Indebtedness of the Issuer, any Subsidiary Guarantor or any Significant Subsidiary is not paid within any applicable grace period after final maturity or is accelerated by the holders thereof because of a default and the aggregate amount of such Non-Recourse Indebtedness that remains unpaid or accelerated exceeds the greater of (i) \$200.0 million and (ii) 10% of Total Assets (clauses (a) and (b), together, the ***cross acceleration provision***);

(7) certain events of bankruptcy, insolvency or reorganization of the Issuer, any Subsidiary Guarantor or any Significant Subsidiary (the ***bankruptcy provisions***);

(8) any final judgment or decree for the payment of money (other than judgments which are covered by enforceable insurance policies issued by solvent carriers) in excess of \$20.0 million is entered against the Issuer, any Subsidiary Guarantor or any Significant Subsidiary, remains outstanding for a period of 60 consecutive days following such judgment becoming final and is not discharged, waived or stayed within 10 days after notice (the ***judgment default provision***); or

(9) the Parent Guaranty or a Subsidiary Guaranty ceases to be in full force and effect (other than in accordance with the terms of such Guaranty) or a Guarantor denies or disaffirms its obligations under its Guaranty.

However, a default under clause (4), (5) or (8) will not constitute an Event of Default until the Trustee notifies the Issuer or the holders of 25% in principal amount of the outstanding Notes notify the Issuer with a copy to the Trustee of the default in writing and the Issuer does not cure such default within the time specified after receipt of such notice. In the event of any Event of Default specified under clause (6), such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the holders, if within 30 days after such Event of Default arose: (a) holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default or (b) the default that is the basis for such Event of Default has been cured.

No Event of Default with respect to a particular series of debt securities under the Base Indenture (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities under the Base Indenture. The occurrence of certain Events of Default or an acceleration under the Indenture may constitute an event of default under certain other indebtedness of the Issuer or its subsidiaries outstanding from time to time.

If an Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in principal amount of the outstanding Notes may declare the principal of and accrued but unpaid interest, if any, on all the Notes to be due and payable. Upon such declaration, such principal and interest shall be due and payable immediately. If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Issuer occurs and is continuing, the principal of and interest on all the Notes will *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holders of the Notes. Under certain circumstances, the holders of a majority in principal amount of the outstanding Notes may rescind any such acceleration with respect to the Notes and its consequences.

In case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the holders of the Notes unless such holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to

enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

S-58

Table of Contents

- (1) such holder has previously given the Trustee written notice that an Event of Default is continuing;
- (2) holders of at least 25% in principal amount of the outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such holders have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) holders of a majority in principal amount of the outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other holder of a Note or that would involve the Trustee in personal liability.

Notwithstanding anything to the contrary in the Indenture, holders of the Notes will have an absolute and unconditional right to receive payment of the principal of, and interest on, the Notes on or after the due dates expressed in the Indenture and the Notes and to institute suit for the enforcement of payment.

If a Default occurs, is continuing and the Trustee has received notice thereof, the Trustee must mail to each holder of the Notes notice of the Default within 90 days after the Trustee receives such notice. Except in the case of a Default in the payment of principal of or interest on any Note, the Trustee may withhold notice if and so long as a committee of its trust officers determines that withholding notice is not opposed to the interest of the holders of the Notes. In addition, we are required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. We are required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain Defaults, their status and what action we are taking or propose to take in respect thereof.

As to the waiver of defaults, see Amendments and Waivers.

Amendments and Waivers

The Base Indenture or any debt security (other than the Notes) of a series established pursuant to the Base Indenture may be amended in the manner set forth in the accompanying prospectus under the heading Description of Debt Securities Modification and Waiver. However, an amendment to the Base Indenture, the Supplemental Indenture, the Notes or the Guaranties that amends, supplements or modifies the terms of the Supplemental Indenture, the Notes or the Guaranties must satisfy the provisions described in this Amendments and Waivers section in lieu of the provisions described in the accompanying prospectus under the heading Description of Debt Securities Modification and Waiver. The provisions described below apply only to the Notes and the Guaranties and not to any other series of debt securities or related guaranties issued pursuant to the Base Indenture.

Subject to certain exceptions, the Indenture may be amended with the consent of the holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a tender offer or exchange for the Notes) and any past default or compliance with any provisions may also be waived with the consent of the holders

of a majority in principal amount of the Notes then outstanding. However,

S-59

Table of Contents

without the consent of each holder of an outstanding Note affected thereby, an amendment or waiver may not, among other things:

- (1) reduce the amount of Notes whose holders must consent to an amendment;
- (2) reduce the rate of or extend the time for payment of interest on any Note;
- (3) reduce the principal of or extend the Stated Maturity of any Note;
- (4) reduce the amount payable upon the redemption of any Note or change the time at which any Note may be redeemed as described under Optional Redemption ;
- (5) make any Note payable in money other than that stated in the Notes;
- (6) impair the right of any holder of the Notes to receive payment of principal of and interest on such holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's Notes;
- (7) make any change in the amendment provisions which require each holder's consent or in the waiver provisions;
- (8) make any change in the ranking or priority of any Note or Guaranty that would adversely affect the noteholders; or
- (9) voluntarily release a Subsidiary Guarantor other than in accordance with the Indenture.

Notwithstanding the preceding, without the consent of any holder of the Notes, the Issuer, Parent, the Subsidiary Guarantors and Trustee may amend the Indenture:

- (1) to cure any ambiguity, omission, defect or inconsistency;
- (2) to provide for the assumption by a successor corporation of the obligations of the Issuer, Parent or any Subsidiary Guarantor under the Indenture;
- (3) to provide for uncertificated Notes in addition to or in place of certificated Notes (*provided* that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code);
- (4) to add guarantees with respect to the Notes, including any Subsidiary Guaranties, or to secure the Notes;
- (5) to add to the covenants of the Issuer, Parent or any Subsidiary Guarantor for the benefit of the holders of the Notes or to surrender any right or power conferred upon the Issuer, Parent or any Subsidiary Guarantor;
- (6) to make any change that does not materially adversely affect the rights of any holder of the Notes;
- (7) to comply with any requirement of the SEC in connection with any required qualification of the Indenture under the Trust Indenture Act;
- (8) to conform the text of the Indenture, Guaranties or the Notes to any provision of this Description of the Notes to the extent that such provision was intended to be a verbatim recitation of a provision of the Indenture, the Guaranties or the Notes as certified in an Officer's Certificate delivered to the Trustee; or

S-60

Table of Contents

(9) to amend the provisions of the Indenture relating to the transfer and legending of Notes; *provided, however*, that (i) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of holders to transfer Notes, except as required by law.

Notwithstanding the foregoing, the lenders under the Credit Agreement have the right to consent to any amendment, supplement or other modification of the Indenture or any other change relating to the Notes that occurs after the Original Issue Date if such amendments, supplements or changes would have a material adverse effect on the Issuer's ability to repay its obligations under the Credit Agreement.

The consent of the holders of the Notes is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, we are required to deliver electronically, if held at DTC, or mail to holders of the Notes a notice briefly describing such amendment. However, the failure to give such notice to all holders of the Notes, or any defect therein, will not impair or affect the validity of the amendment.

Neither the Issuer nor any Affiliate of the Issuer may, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to all holders and is paid to all holders that so consent, waive or agree to amend in the time frame set forth in solicitation documents relating to such consent, waiver or agreement.

Transfer

The Notes will be issued in registered form and will be transferable only upon the surrender of the Notes being transferred for registration of transfer. We may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

Defeasance and Satisfaction and Discharge

The provisions described below apply to the Notes and the Guaranties in lieu of the provisions described in the accompanying prospectus under the heading "Description of Debt Securities—Defeasance of Debt Securities and Certain Covenants in Certain Circumstances." The provisions described below apply only to the Notes and the Guaranties and not to any other series of debt securities or related guaranties issued pursuant to the Base Indenture.

At any time, we may terminate all our and each Guarantor's obligations with respect to the Notes or the Guaranties under the Notes, the Guaranties and the Indenture (*legal defeasance*), except for certain obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the Notes, to replace mutilated, destroyed, lost or stolen Notes and to maintain a registrar and paying agent in respect of the Notes.

In addition, at any time we may terminate our obligations under "Fundamental Change" and under the covenants described under "Certain Covenants" (other than the covenant described under "Merger and Consolidation"), the operation of the cross acceleration provision, the bankruptcy provisions with respect to Significant Subsidiaries and the judgment default provision described under "Defaults" above and the limitations contained in clause (3) of the first paragraph under "Certain Covenants—Merger and Consolidation" above and our Guarantor's obligations under the Guaranties and the Indenture (*covenant defeasance*).

S-61

Table of Contents

We may exercise our legal defeasance option notwithstanding our prior exercise of our covenant defeasance option. If we exercise our legal defeasance option, payment of the Notes may not be accelerated because of an Event of Default with respect thereto. If we exercise our covenant defeasance option, payment of the Notes may not be accelerated because of an Event of Default specified in clause (4), (5), (7), (8) (with respect only to Significant Subsidiaries) or (9) under Defaults above or because of the failure of the Issuer to comply with clause (3) of the first paragraph under Certain Covenants Merger and Consolidation above. If we exercise our legal defeasance option or our covenant defeasance option, each Guarantor will be released from all of its obligations with respect to its Guaranty.

In order to exercise either of our defeasance options, we must irrevocably deposit in trust (the *defeasance trust*) with the Trustee money or U.S. Government Obligations for the payment of principal and interest on the Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel to the effect that the beneficial owners of the Notes will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable federal income tax law).

In addition, the Issuer's obligations under the Notes and with respect to the Notes under the Indenture, and each Guarantor's obligations under its Guaranty, will terminate (a *satisfaction and discharge*), subject to certain limitations set forth in the Indenture, if:

(1) all Notes previously authenticated and delivered (other than (i) destroyed, lost or stolen Notes that have been replaced or (ii) Notes that are paid or (iii) Notes for whose payment money or U.S. Government Obligations have been held in trust and then repaid to the Issuer in accordance with the Indenture) have been delivered to the Trustee for cancellation and the Issuer has paid all sums payable by it under the Indenture; or

(2) (A) the Notes mature within 60 days, or all of them are to be called for redemption within 60 days under arrangements satisfactory to the Trustee for giving the notice of redemption,

(B) the Issuer irrevocably deposits in trust with the Trustee, as trust funds solely for the benefit of the holders, money or U.S. Government Obligations or a combination thereof sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certificate delivered to the Trustee, without consideration of any reinvestment, to pay principal of and interest on the Notes to maturity or redemption, as the case may be, and to pay all other sums payable by it hereunder,

(C) no Default has occurred and is continuing on the date of the deposit,

(D) the deposit will not result in a breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which the Issuer is a party or by which it is bound, and

(E) the Issuer delivers to the Trustee an Officer's Certificate and an Opinion of Counsel, in each case stating that all conditions precedent provided for in the Indenture relating to the satisfaction and discharge of this Indenture have been complied with.

Concerning the Trustee

Wilmington Trust, National Association is to be the Trustee under the Indenture. We have appointed Wilmington Trust, National Association as Registrar and Paying Agent with regard to the Notes.

S-62

Table of Contents

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; *provided, however*, if it acquires any conflicting interest and the Notes are in default, it must either eliminate such conflict within 90 days, apply to the SEC for permission to continue or resign.

Subject to certain rights of the Trustee, holders of a majority in principal amount of the outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. If an Event of Default occurs (and is not cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of such person's affairs. The Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of Notes, unless such holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator, member or stockholder or control person of the Issuer, the Parent or any Subsidiary Guarantor will have any liability for any obligations of the Issuer, the Parent or any Subsidiary Guarantor under the Notes, any Guaranty or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each holder of the Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Temporary Cash Investments means any of the following:

- (1) any investment in direct obligations of the United States of America or any agency thereof or obligations guaranteed by the United States of America or any agency thereof;
- (2) investments in time deposit accounts, bankers' acceptances, certificates of deposit and money market deposits maturing within one year of the date of acquisition thereof issued by a bank or trust company which is organized under the laws of the United States of America, any State thereof or any foreign country recognized by the United States of America, and which bank or trust company has capital, surplus and undivided profits aggregating in excess of \$50.0 million (or the foreign currency equivalent thereof) and has outstanding debt which is rated A (or such similar equivalent rating) or higher by at least one nationally recognized statistical rating organization (as defined in Section 3(a)(62) of the Exchange Act) or any money-market fund sponsored by a registered broker-dealer or mutual fund distributor;
- (3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clause (1) above and clauses (4) and (5) below entered into with a bank meeting the qualifications described in clause (2) above;
- (4) investments in commercial paper, maturing not more than one year from the date of creation thereof, issued by a corporation (other than an Affiliate of the Issuer) organized and in existence under the laws of the United States of America or any foreign country recognized by the United States of America with a rating at the time as of which any investment therein is made of P-1 (or higher) according to Moody's or A-1 (or higher) according to S&P; and
- (5) investments in securities with maturities of one year or less from the date of acquisition issued or fully guaranteed by any state, commonwealth or territory of the United States of America, or by any political subdivision or taxing authority thereof, and rated at least A by S&P or A by Moody's.

Total Assets means, as of any date of determination, the total consolidated assets of the Issuer and its Restricted Subsidiaries under GAAP, as of the end of the most recent completed fiscal quarter for which internal financial statements are available, calculated on a pro forma basis to give effect to any acquisition or disposition of assets, companies, divisions, lines of businesses or operations by the Issuer and its Restricted Subsidiaries subsequent to the end of such fiscal quarter and on or prior to the date of determination.

Unrestricted Subsidiary means:

- (1) any Subsidiary of the Issuer that at the time of determination shall be designated an Unrestricted Subsidiary by the Board of Directors in the manner provided below; and
- (2) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors may designate any Subsidiary of the Issuer (including any newly acquired or newly formed Subsidiary) to be an Unrestricted Subsidiary unless such Subsidiary or any of its Subsidiaries owns any Capital Stock or Indebtedness of, or holds any Lien on any property of, the Issuer or any other Subsidiary of the Issuer that is not a Subsidiary of the Subsidiary to be so designated; *provided, however*, that either (A) the Subsidiary to be so designated has total assets of \$1,000 or less or (B) if such Subsidiary has assets greater than \$1,000, such designation would be permitted under the covenant described under Certain Covenants Limitation on Restricted Payments.

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided, however*, that immediately after giving effect to such designation (A) the Issuer could Incur \$1.00 of additional Indebtedness under paragraph (a) of the covenant described under Certain Covenants Limitation on Indebtedness (irrespective of whether that covenant remains in effect) and (B) no Default shall have occurred

and be continuing. Any such designation by the Board of Directors shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the resolution of the Board of Directors giving effect to such designation and an Officer's Certificate certifying that such designation complied with the foregoing provisions.

U.S. Dollar Equivalent means with respect to any monetary amount in a currency other than U.S. dollars, at any time for determination thereof, the amount of U.S. dollars obtained by converting such foreign currency involved in such computation into U.S. dollars at the spot rate for the purchase of U.S. dollars with the applicable foreign currency as published in The Wall Street Journal in the Exchange Rates column under the heading Currency Trading on the date two Business Days prior to such determination.

Except as described under Certain Covenants Limitation on Indebtedness, whenever it is necessary to determine whether the Issuer has complied with any covenant in the Indenture or a Default has occurred and an amount is expressed in a currency other than U.S. dollars, such amount will be treated as the U.S. Dollar Equivalent determined as of the date such amount is initially determined in such currency.

U.S. Government Obligations means direct obligations (or certificates representing an ownership interest in such obligations) of the United States of America (including any agency or instrumentality thereof) for the payment of which the full faith and credit of the United States of America is pledged and which are not callable at the issuer's option.

Voting Stock of a Person means all classes of Capital Stock or other interests (including partnership interests) of such Person then outstanding and normally entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof. For the avoidance of doubt, if the capital structure of such Person includes both (x) capital or similar interests and (y) profit, promote or similar interests, then Voting Stock shall be deemed to refer only to such capital or similar interests and not to such profit, promote or similar interests.

Wholly Owned Subsidiary means a Restricted Subsidiary all the Capital Stock of which (other than directors qualifying shares) is owned by the Issuer or one or more Wholly Owned Subsidiaries.

Book-Entry, Delivery and Form

Except as set forth below, Notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Notes will be issued at the closing of this offering only against payment in immediately available funds.

The Notes will initially be represented by one or more global notes in registered form without interest coupons (collectively, the *Global Notes*). The Global Notes will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company (*DTC*), and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for Notes in certificated form except in the limited circumstances described below. See Book-Entry, Delivery and Form Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

Depository Procedures

The following description of the operations and procedures of DTC are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the ***Participants***) and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the underwriters of the Notes), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the ***Indirect Participants***). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of Participants designated by the underwriters of the Notes with portions of the principal amount of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Investors in the Global Notes who are Participants in DTC's system may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations that are Participants in such system. All interests in a Global Note may be subject to the procedures and requirements of DTC. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of an interest in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, the Issuer and the Trustee will treat the Persons in whose names the Notes, including the Global Notes, are registered as the owners of the Notes for the purpose of receiving payments and for all other purposes. Consequently, none of the Issuer, the Trustee nor any agent of the Issuer or the Trustee has or will have any responsibility or liability for:

(1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interest in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

S-85

Table of Contents

(2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or the Issuer. Neither the Issuer nor the Trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the Notes, and the Issuer and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of Notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the Notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the Notes, DTC reserves the right to exchange the Global Notes for legended Notes in certificated form, and to distribute such Notes to its Participants.

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, DTC is under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. None of the Issuer, the Guarantors, the Trustee or any of their respective agents will have any responsibility for the performance by DTC or its direct or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes if:

- (1) DTC (a) notifies the Issuer that it is unwilling or unable to continue as depository for the Global Notes and DTC fails to appoint a successor depository or (b) has ceased to be a clearing agency registered under the Exchange Act;
- (2) the Issuer, at its option, notifies the Trustee in writing that it elects to cause the issuance of the Certificated Notes;
or
- (3) there has occurred and is continuing a Default with respect to the Notes and the Trustee has received a request from DTC to issue certificated notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes under prior written notice given to the Trustee by or on behalf of DTC in accordance with the Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

The Issuer will make payments in respect of the Notes represented by the Global Notes (including principal and interest, if any) by wire transfer of immediately available funds to the accounts specified by the Global Note holder. The Issuer will make all payments of principal and interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The Notes represented by the Global Notes are expected to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. The Issuer expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of the material U.S. federal income tax considerations relevant to the purchase, ownership and disposition of the notes issued pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or foreign tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the IRS), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a holder of the notes. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of the notes.

This discussion is limited to holders who hold the notes as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). In addition, this discussion is limited to persons purchasing the notes for cash pursuant to this offering at the public offering price indicated on the cover page of this prospectus supplement. This discussion does not address all U.S. federal income tax consequences relevant to a holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to holders subject to special rules, including, without limitation:

U.S. expatriates and former citizens or long-term residents of the United States;

persons subject to the alternative minimum tax;

U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;

persons holding the notes as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

banks, insurance companies, and other financial institutions;

real estate investment trusts or regulated investment companies;

brokers, dealers or traders in securities;

controlled foreign corporations, passive foreign investment companies, and corporations that accumulate earnings to avoid U.S. federal income tax;

S corporations, partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations or governmental organizations; and

persons deemed to sell the notes under the constructive sale provisions of the Code.

If an entity treated as a partnership for U.S. federal income tax purposes holds the notes, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding the notes and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

Table of Contents

INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES ARISING UNDER OTHER U.S. FEDERAL TAX LAWS (INCLUDING ESTATE AND GIFT TAX LAWS), UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Qualified Reopening

For U.S. federal income tax purposes, we expect and the following discussion assumes that the notes will be treated as issued in a qualified reopening of the initial notes. For U.S. federal income tax purposes, debt instruments issued in a qualified reopening are deemed to be part of the same issue as the original debt instruments. Under the treatment described in this paragraph, the notes will have the same issue date and the same issue price as the initial notes for U.S. federal income tax purposes.

Tax Considerations Applicable to U.S. Holders

Definition of a U.S. Holder

For purposes of this discussion, a U.S. Holder is a beneficial owner of a note that, for U.S. federal income tax purposes, is or is treated as:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more United States persons (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Pre-Acquisition Accrued Interest

A portion of the price paid for a note will be allocable to interest that accrued prior to the date the note is purchased (pre-acquisition accrued interest). We intend to take the position that, to the extent a portion of a U.S. Holder's purchase price is allocable to pre-acquisition accrued interest, a portion of the first stated interest payment equal to the amount of such pre-acquisition accrued interest will be treated as a nontaxable return of such pre-acquisition accrued interest to the U.S. Holder. Amounts treated as a return of pre-acquisition accrued interest should not be taxable when received but should reduce a U.S. Holder's adjusted tax basis in the note by a corresponding amount.

Payments of Stated Interest

Payments of stated interest on a note (other than pre-acquisition accrued interest) generally will be taxable to a U.S. Holder as ordinary income at the time such interest is received or accrued, in accordance with such U.S. Holder's method of tax accounting for U.S. federal income tax purposes.

Certain Additional Payments

In certain circumstances (see Description of the Notes Optional Redemption and Description of the Notes Fundamental Change), we may be obligated to make payments in excess of stated interest and the

Table of Contents

principal amount of the notes. We intend to take the position that the notes should not be treated as contingent payment debt instruments because of these additional payments. This position is based in part on assumptions regarding the likelihood, as of the date of issuance of the notes, that such additional payments will have to be made. Assuming this position is respected, any amounts paid to a U.S. Holder pursuant to any such redemption or repurchase, as applicable, would be taxable as described below in Tax Considerations Applicable to U.S. Holders Sale or Other Taxable Disposition. Our position is binding on a U.S. Holder unless such holder discloses its contrary position in the manner required by applicable Treasury Regulations. The IRS, however, may take a position contrary to our position, which could affect the timing and character of a U.S. Holder's income and the timing of our deductions with respect to the notes. U.S. Holders are urged to consult their tax advisors regarding the potential application of the contingent payment debt instrument rules to the notes and the consequences thereof. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Premium

If a U.S. Holder purchases a note for an amount (excluding any portion thereof allocable to pre-acquisition accrued interest) that exceeds the note's principal amount, the U.S. Holder will be considered to have purchased the note with amortizable bond premium equal in amount to the excess. Generally, a U.S. Holder may elect to amortize the premium as an offset to interest, using a constant-yield method, over the remaining term of the notes. However, since the notes may be optionally redeemed by us for an amount in excess of their principal amount, special rules apply that could result in a deferral of the amortization of the bond premium until later in the term of the notes. Under the Treasury Regulations, a U.S. Holder may offset the stated interest income allocable to an accrual period with the bond premium allocable to the accrual period. If the bond premium allocable to an accrual period exceeds the stated interest income allocable to the accrual period, the excess is treated as a bond premium deduction. However, the amount treated as a bond premium deduction is limited to the amount by which such U.S. Holder's total interest inclusions on the notes in prior accrual periods exceed the total amount treated by such holder as a bond premium deduction in prior accrual periods. If any of the excess bond premium is not deductible, that amount is carried forward to the next accrual period. If a U.S. Holder elects to amortize bond premium, the U.S. Holder must reduce its adjusted tax basis in the notes by the amount of the bond premium used to offset interest income as set forth above. An election to amortize bond premium applies to all taxable debt obligations held or subsequently acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies and may be revoked only with the consent of the IRS.

Sale or Other Taxable Disposition

A U.S. Holder will recognize gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of a note. The amount of such gain or loss will generally equal the difference between the amount received for the note in cash or other property valued at fair market value (less amounts attributable to any accrued but unpaid stated interest, which will be treated as a payment of interest) and the U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will be equal to the amount the U.S. Holder paid for the note, reduced by amortized bond premium and by any pre-acquisition accrued interest previously received. Any gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder has held the note for more than one year at the time of sale or other taxable disposition. Otherwise, such gain or loss will be short-term capital gain or loss. Long-term capital gains recognized by certain non-corporate U.S. Holders, including individuals, generally will be taxable at reduced rates. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

A U.S. Holder may be subject to information reporting and backup withholding when such holder receives payments on a note or receives proceeds from the sale or other taxable disposition of a note (including a redemption or

retirement of a note). Certain U.S. Holders are exempt from backup withholding, including

S-90

Table of Contents

corporations and certain tax-exempt organizations. A U.S. Holder will be subject to backup withholding if such holder is not otherwise exempt and such holder:

fails to furnish the holder's taxpayer identification number, which for an individual is ordinarily his or her social security number;

furnishes an incorrect taxpayer identification number;

is notified by the IRS that the holder previously failed to properly report payments of interest or dividends; or

fails to certify under penalties of perjury that the holder has furnished a correct taxpayer identification number and that the IRS has not notified the holder that the holder is subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS. U.S. Holders should consult their tax advisors regarding their qualification for an exemption from backup withholding and the procedures for obtaining such an exemption.

Tax Considerations Applicable to Non-U.S. Holders

Definition of a Non-U.S. Holder

For purposes of this discussion, a Non-U.S. Holder is a beneficial owner of a note that is neither a U.S. Holder nor an entity treated as a partnership for U.S. federal income tax purposes.

Payments of Interest

Interest paid on a note to a Non-U.S. Holder that is not effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States generally will not be subject to U.S. federal income tax, or withholding tax of 30% (or such lower rate specified by an applicable income tax treaty), provided that:

the Non-U.S. Holder does not, actually or constructively, own 10% or more of the total combined voting power of all classes of our voting stock;

the Non-U.S. Holder is not a controlled foreign corporation related to us through actual or constructive stock ownership; and

either (1) the Non-U.S. Holder certifies in a statement provided to the applicable withholding agent under penalties of perjury that it is not a United States person and provides its name and address; (2) a

securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the note on behalf of the Non-U.S. Holder certifies to the applicable withholding agent under penalties of perjury that it, or the financial institution between it and the Non-U.S. Holder, has received from the Non-U.S. Holder a statement under penalties of perjury that such holder is not a United States person and provides a copy of such statement to the applicable withholding agent; or (3) the Non-U.S. Holder holds its note directly through a qualified intermediary (within the meaning of applicable Treasury Regulations) and certain conditions are satisfied.

If a Non-U.S. Holder does not satisfy the requirements above, such Non-U.S. Holder may be entitled to a reduction in or an exemption from withholding on such interest as a result of an applicable tax treaty. To claim such entitlement, the Non-U.S. Holder must provide the applicable withholding agent with a properly executed IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) claiming a reduction in or exemption

Table of Contents

from withholding tax under the benefit of an income tax treaty between the United States and the country in which the Non-U.S. Holder resides or is established.

If interest paid to a Non-U.S. Holder is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such interest is attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that interest paid on a note is not subject to withholding tax because it is effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States.

Any such effectively connected interest generally will be subject to U.S. federal income tax at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected interest, as adjusted for certain items.

The certifications described above must be provided to the applicable withholding agent prior to the payment of interest and must be updated periodically. Non-U.S. Holders that do not timely provide the applicable withholding agent with the required certification, but that qualify for a reduced rate under an applicable income tax treaty, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

Sale or Other Taxable Disposition

A Non-U.S. Holder generally will not be subject to U.S. federal income tax on any gain realized upon the sale, exchange, redemption, retirement or other taxable disposition of a note (such amount excludes any amount allocable to accrued and unpaid interest, which generally will be treated as interest and may be subject to the rules discussed above in "Tax Considerations Applicable to Non-U.S. Holders Payments of Interest") unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable); or

the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a foreign corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

Non-U.S. Holders should consult their tax advisors regarding any applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of interest generally will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the

Table of Contents

holder certifies its non-U.S. status as described above under Tax Considerations Applicable to Non-U.S. Holders Payments of Interest. However, information returns are required to be filed with the IRS in connection with any interest paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of a note (including a retirement or redemption of the note) within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the statement described above and does not have actual knowledge or reason to know that such holder is a United States person or the holder otherwise establishes an exemption. Proceeds of a disposition of a note paid outside the United States and conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting, unless the broker has certain connections to the United States.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

Legislation enacted in March 2010 and related Treasury guidance (commonly referred to as FATCA) generally will impose a U.S. federal withholding tax of 30% on payments to certain non-U.S. entities (including certain intermediaries), including interest on and the gross proceeds from a sale or other disposition of debt obligations, unless those persons comply with a complicated U.S. information reporting, disclosure and certification regime. This new regime requires, among other things, a broad class of persons to enter into agreements with the IRS to obtain, disclose and report information about their U.S. investors and account holders. This new regime and its requirements are different from and in addition to the certification requirements described elsewhere in this discussion. Under the applicable Treasury Regulations and IRS guidance, the FATCA withholding rules will apply to certain payments, including interest paid on debt obligations after June 30, 2014, and gross proceeds from the sale or other disposition of debt obligations after December 31, 2016. However, a debt obligation issued prior to July 1, 2014 (including any debt obligation issued on or after July 1, 2014 in a qualified reopening of an existing debt obligation issued prior to such date) is exempt from the withholding under FATCA, unless it is significantly modified on or after such date. Assuming the notes are treated as issued in a qualified reopening of the initial notes that were issued prior to July 1, 2014, the notes as well as the initial notes will be grandfathered from the withholding under FATCA. Prospective investors should consult their own tax advisors regarding the possible impact of these rules on their investment in the notes, and on the entities through which they hold the notes.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase and holding of the notes by (a) employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), (b) plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Internal Revenue Code (the Code) or provisions under any federal, state, local, non-U.S. or other laws, rules or regulations that are similar to such provisions of ERISA or the Code (collectively, Similar Laws), and (c) entities whose underlying assets are considered to include plan assets (within the meaning of ERISA) of any such plan, account or arrangement by reason of a plan s investment in such entities (each of (a), (b) and (c), a Plan).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an ERISA Plan) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan (within the meaning of Section 3(21) of ERISA).

In considering an investment in the notes with any portion of the assets of a Plan, a fiduciary of an ERISA Plan should consider, among other matters, whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any applicable Similar Law relating to a fiduciary s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Considerations

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are parties in interest, within the meaning of Section 406 of ERISA, or disqualified persons, within the meaning of Section 4975 of the Code, unless a statutory or administrative exemption is available. A party in interest or disqualified person, including a fiduciary of an ERISA Plan, who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. Plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA or Section 4975(g)(3) of the Code) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Code but may be subject to similar prohibitions under other applicable Similar Laws.

The acquisition and/or holding of the notes by an ERISA Plan with respect to which we, a guarantor or any of the underwriters of the outstanding notes, or certain of our or their affiliates, are considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code (or comparable provisions of Similar Laws), unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions (PTCEs) that may apply to provide exemptive relief for direct or indirect prohibited transactions resulting from the acquisition and/ or holding of the notes. These class exemptions include, without limitation, PTCE 84-14 for transactions determined by independent qualified professional asset managers, PTCE 90-1 for transactions involving insurance company pooled separate accounts, PTCE 91-38 for transactions involving bank collective investment funds, PTCE 95-60 for transactions involving life insurance company general accounts and PTCE 96-23 for transactions determined by in-house asset

managers. In addition, Section 408(b)(17) of ERISA

S-94

Table of Contents

and Section 4975(d)(20) of the Code provide an exemption from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code for certain purchases and sales of securities, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction, and provided further that the ERISA Plan receives no less, and pays no more, than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the notes should not be purchased or held by any person investing plan assets of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code and will not constitute a similar violation of any applicable Similar Laws.

Representation

Accordingly, by purchasing and holding notes, each purchaser and subsequent transferee will be deemed to have represented and warranted that either (i) it is not a Plan, and no portion of the assets used by such purchaser or transferee to acquire and hold the notes constitutes assets of any Plan or (ii) neither the purchase nor the holding of the notes by such purchaser or subsequent transferee will result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering whether to purchase the notes (or hold or dispose of the notes) on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such transaction and whether an exemption would be applicable to such transaction. Investors in the notes have exclusive responsibility for ensuring that their purchase of the notes does not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The sale of any notes by or to any Plan is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by such Plans generally or with respect to any particular Plan, or that such an investment is appropriate for such Plans generally or for any particular Plan.

Table of Contents**UNDERWRITING (CONFLICTS OF INTEREST)**

Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among Kennedy-Wilson, Kennedy-Wilson Holdings, the subsidiary guarantors and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of notes set forth opposite its name below.

Underwriter	Principal Amount of Notes
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$
Deutsche Bank Securities Inc. J.P. Morgan Securities LLC	
U.S. Bancorp Investments, Inc.	
Total	\$ 350,000,000

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes sold under the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their control persons against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement. After the initial offering, the public offering price, discount or any other term of the offering may be changed. The underwriters may offer and sell notes through certain of their affiliates.

The following table shows the underwriting discounts and commissions per \$1,000 principal amount of notes and the total underwriting discounts and commissions:

Per \$1,000 principal amount of notes	\$
---------------------------------------	----

Total

\$

We estimate that the expenses of the offering payable by us, not including the underwriting discounts and commissions, will be approximately \$300,000.

Settlement

We expect that delivery of the notes will be made to investors on or about November , 2014, which will be the fourth business day following the date of this prospectus supplement (such settlement being referred to as

S-96

Table of Contents

T+4). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended (the Exchange Act), trades in the secondary market are required, subject to certain exceptions, to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to sell their notes before the third business day prior to the delivery of the notes hereunder will be required, by virtue of the fact that the notes initially settle in T+4, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Those purchasers should consult their advisors.

No Listing

We do not intend to apply for listing of the notes on any national securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by certain of the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes. If an active trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

No Sales of Similar Securities

Each of Kennedy-Wilson Inc. and Kennedy-Wilson Holdings, Inc. and the other guarantors has agreed that, for a period of 90 days after the date of this prospectus supplement, it will not, without first obtaining the prior written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated, directly or indirectly, sell, offer, contract or grant any option to sell, pledge, transfer or establish a put equivalent position (within the meaning of Rule 16a-1 under the Exchange Act), or otherwise dispose of, or announce the offering of, or file a registration statement under the Securities Act in respect of, any debt securities of Kennedy Wilson, Kennedy-Wilson Holdings or any other guarantor of the notes or securities exchangeable for or convertible into such debt securities, except as contemplated by the underwriting agreement.

Short Positions

In connection with this offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater principal amount of notes than they are required to purchase in the offering. The underwriters may close out a short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute this prospectus supplement and the accompanying prospectus by electronic means, such as e-mail.

Conflicts of Interest

Affiliates of certain of the underwriters may hold our 2019 notes being redeemed. These affiliates will receive their respective share of any redemption by us of outstanding 2019 notes from the net proceeds of this offering. Affiliates of certain of the underwriters are also lenders under our unsecured revolving credit facility.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking, commercial lending and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

Statements made by in this prospectus and in other reports and statements released by either issuer that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21 of the Securities Exchange Act. These forward-looking statements are necessary estimates reflecting the judgment of senior management based on current estimates, expectations, forecasts and projections and include comments that express current opinions about trends and factors that may impact future operating results. Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, project or the negative or as similar expressions, are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of the issuers control, and involve known and unknown risks and uncertainties that could cause actual results, performance or achievement, or industry results, to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. Although the issuers believe that their plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, no assurance can be given that the transactions and events described will happen as described (or that they will happen at all). In evaluating these statements, you should specifically consider the risks referred to under the heading Risk Factors on page 1 of this prospectus, and in the reports Kennedy-Wilson Holdings files from time to time with the SEC and incorporates by reference herein, including, but not limited to, the following factors:

continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;

the issuers leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in the issuers debt service obligations;

the issuers ability to generate a sufficient amount of cash from operations to satisfy working capital requirements and to service their existing and future indebtedness;

the issuers ability to achieve improvements in operating efficiency;

foreign currency fluctuations;

adverse changes in the securities markets;

the issuers' ability to retain their senior management and attract and retain qualified and experienced employees;

the issuers' ability to retain major clients and renew related contracts;

trends in use of large, full-service commercial real estate providers;

changes in tax laws in the United States, Europe or Japan that reduce or eliminate deductions or other tax benefits the issuers receive;

future acquisitions may not be available at favorable prices or upon advantageous terms and conditions; and

Table of Contents

Any such forward-looking statements, whether made in this prospectus or elsewhere, should be considered in the context of the various disclosures made by the issuers about their respective businesses including, without limitation, the risk factors discussed above. Except as required under the federal securities laws and the rules and regulations of the SEC, none of the issuers intends or has an obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise.

Unless otherwise stated or the context otherwise requires, as used in this section, the words "we," "us," "our" or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

General. Our second amended and restated certificate of incorporation provides that we may issue up to 1,000,000 shares of preferred stock, \$0.0001 par value per share, or preferred stock. Our second amended and restated certificate of incorporation provides that shares of preferred stock may be issued from time to time in one or more series. Our board of directors is authorized to fix the voting rights, if any, the designations, powers, and preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions, applicable to the shares of each series of preferred stock. Our board of directors is able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control or the removal of existing management by diluting the stock ownership or voting rights of a person seeking to obtain control of the company or remove existing management. As of October 30, 2013, 100,000 shares of our series A preferred stock were issued and outstanding and 32,550 shares of our series B preferred stock were issued and outstanding. Other than the series A preferred stock and series B preferred stock, no shares of preferred stock are currently outstanding.

The specific terms of a particular class or series of preferred stock will be described in the prospectus supplement relating to that class or series, including a prospectus supplement providing that preferred stock may be issuable upon the exercise of warrants, or upon the conversion of any debt securities, that we issue pursuant to this prospectus. The description of preferred stock set forth below and the description of the terms of a particular class or series of preferred stock set forth in the applicable prospectus supplement do not purport to be complete and are qualified in their entirety by reference to the articles supplementary relating to that class or series.

The preferences and other terms of the preferred stock of each class or series will be fixed by the certificate of designation relating to such class or series. A prospectus supplement, relating to each class or series, will specify the terms of the preferred stock as follows:

the title and stated value of such preferred stock;

the number of shares of such preferred stock offered, the liquidation preference per share and the offering price of such preferred stock;

the dividend rate(s), period(s), and/or payment date(s) or method(s) of calculation thereof applicable to such preferred stock;

whether such preferred stock is cumulative or not and, if cumulative, the date from which dividends on such preferred stock shall accumulate;

the provision for a sinking fund, if any, for such preferred stock;

the provision for redemption, if applicable, of such preferred stock;

any listing of such preferred stock on any securities exchange;

preemptive rights, if any;

the terms and conditions, if applicable, upon which such preferred stock will be converted into our common stock, including the conversion price (or manner of calculation thereof);

a discussion of any material United States federal income tax consequences applicable to an investment in such preferred stock;

the relative ranking and preferences of such preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

Table of Contents

any limitations on issuance of any class or series of preferred stock ranking senior to or on a parity with such class or series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

any voting rights of such preferred stock; and

any other specific terms, preferences, rights, limitations or restrictions of such preferred stock.

Rank. Unless otherwise specified in the applicable prospectus supplement, the preferred stock will, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our company, rank: (i) senior to all classes or series of our common stock, and to any other class or series of our stock expressly designated as ranking junior to the preferred stock; (ii) on parity with any class or series of our stock expressly designated as ranking on parity with the preferred stock; and (iii) junior to any other class or series of our stock expressly designated as ranking senior to the preferred stock.

Conversion Rights. The terms and conditions, if any, upon which any shares of any class or series of preferred stock are convertible into our common stock will be set forth in the applicable prospectus supplement relating thereto. Such terms will include the number of shares of our common stock into which the shares of preferred stock are convertible, the conversion price (or manner of calculation thereof), the conversion period, provisions as to whether conversion will be at the option of the holders of such class or series of preferred stock, the events requiring an adjustment of the conversion price and provisions affecting conversion in the event of the redemption of such class or series of preferred stock.

Power to Increase Authorized Stock and Issue Additional Shares of Our Preferred Stock. The number of authorized shares of preferred stock may be increased by the affirmative vote of the holders of a majority of the voting power of all the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class, without a separate vote of the holders of the Preferred Stock, or any series thereof, unless a vote of any such holders is required pursuant to the resolutions adopted by the board of directors for such series. Our board of directors has the power to issue additional authorized but unissued shares of our preferred stock and to classify or reclassify unissued shares of our preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock. Although our board of directors does not intend to do so, it could authorize us to issue a class or series that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for our stockholders or otherwise be in their best interest.

Dividend Limitations. The payment of dividends, if ever, on the preferred stock will be subject to compliance with any applicable limitations in our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement.

General. Our board of directors and a duly authorized committee thereof approved the certificate of designation, a copy of which we have previously filed with the SEC and which we incorporate by reference as an exhibit to the registration statement of which this prospectus is a part, creating the series A preferred stock as a class of our preferred stock, designated as the 6.0% convertible series A preferred stock. The outstanding series A preferred stock is validly issued, fully paid and nonassessable.

Investors are entitled to receive cumulative cash dividends on the series A preferred stock from and including the date of original issue, payable quarterly in arrears on or about the last calendar day of January, April, July and October of each year, commencing June 30, 2010, at the rate of 6.0% per annum of the \$1,000.00 liquidation preference per share. Dividends on the series A preferred stock will accrue whether or not we have earnings, whether or not there are funds legally available for the payment of such dividends. Our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement, may restrict our ability to declare and pay dividends on our preferred stock.

Liquidation Preference. If we liquidate, dissolve or wind-up, holders of the series A preferred stock will have the right to receive \$1,000.00 per share, plus accrued and unpaid dividends (whether or not earned or declared) up to and including the date of payment, before any payment is made to holders of our common stock and any other class or series of stock ranking junior to the series A preferred stock as to liquidation rights. Voting Rights. Holders of series A preferred stock generally have no voting rights. However, if we are in arrears on dividends on the series A preferred stock for three or more quarterly periods, whether or not consecutive, holders of the series A preferred stock (voting together as a class with the holders of all other classes or series of parity preferred stock upon which like voting rights have been conferred and are exercisable) will be entitled to vote at our next annual meeting or special meeting of stockholders for the election of two additional directors to serve on our board of directors until all unpaid dividends and the dividend for the then-current period with respect to the series A preferred stock and any other class or series of parity preferred stock have been paid or declared and a sum sufficient for the payment thereof set aside for payment. In addition, we may not make certain material and adverse changes to the terms of the series A preferred stock without the affirmative vote of the holders of at least two-thirds of the outstanding shares of series A preferred stock and the holders of all other shares of any class or series ranking on parity with the series A preferred stock that are entitled to similar voting rights (voting together as a single class).

Transfer Agent and Registrar. The transfer agent and registrar for our series A preferred stock is Continental Stock Transfer & Trust Company.

DESCRIPTION OF WARRANTS

Unless otherwise stated or the context otherwise requires, as used in this section, the words “we,” “us,” “our” or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

This section describes the general terms and provisions of our warrants to acquire our securities that we may issue from time to time. The applicable prospectus supplement will describe the terms of any warrant agreements and the warrants issuable thereunder. If any particular terms of the warrants described in the prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed superseded by that prospectus supplement.

We may issue warrants for the purchase of our common stock or preferred stock. We may issue warrants independently or together with other securities, and they may be attached to or separate from the other securities. Each series of warrants will be issued under a separate warrant agreement that we will enter into with a bank or trust company, as warrant agent, as detailed in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation, or agency or trust relationship, with you. We will file a copy of the warrant and warrant agreement with the SEC each time we issue a series of warrants, and these warrants and warrant agreements will be incorporated by reference into the registration statement of which this prospectus is a part. A holder of our warrants should refer to the provisions of the applicable warrant agreement and prospectus supplement for more specific information.

The prospectus supplement relating to a particular issue of warrants will describe the terms of those warrants, including, when applicable:

the offering price;

the currency or currencies, including composite currencies, in which the price of the warrants may be payable;

the number of warrants offered;

the securities underlying the warrants, including the securities of third parties or other rights, if any, to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing, purchasable upon exercise of the warrants;

the exercise price and the amount of securities you will receive upon exercise;

the procedure for exercise of the warrants and the circumstances, if any, that will cause the warrants to be automatically exercised;

the rights, if any, we have to redeem the warrants;

the date on which the right to exercise the warrants will commence and the date on which the warrants will expire;

the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security;

the date on and after which the warrants and the related securities will be separately transferable;

material U.S. federal income tax consequences;

the name of the warrant agent; and

any other material terms of the warrants.

After the warrants expire they will become void. The prospectus supplement may provide for the adjustment of the exercise price of the warrants.

Table of Contents

Warrants may be exercised at the appropriate office of the warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of warrants, holders will not have any of the rights of holders of the securities purchasable upon exercise and will not be entitled to payments made to holders of those securities.

The applicable warrant agreement may be amended or supplemented without the consent of the holders of the warrants to which it applies to effect changes that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants. However, any amendment that materially and adversely alters the rights of the holders of warrants will not be effective unless the holders of at least a majority of the applicable warrants then outstanding approve the amendment. Every holder of an outstanding warrant at the time any amendment becomes effective, by continuing to hold the warrant, will be bound by the applicable warrant agreement as amended. The prospectus supplement applicable to a particular series of warrants may provide that certain provisions of the warrants, including the securities for which they may be exercisable, the exercise price and the expiration date, may not be altered without the consent of the holder of each warrant.

When a particular series of new debt securities is offered and sold, a description of the specific terms of the series will be included in a supplement to this prospectus. For purposes of this description, the term **applicable base indenture** means the existing base indenture or the new base indenture, as applicable, pursuant to which a particular series of debt securities will be issued.

Table of Contents

Solely for purposes of the description below, in connection with the issuance of a new series of new debt securities pursuant to the existing base indenture, the 2042 notes will be deemed to be a series of new debt securities separate from such new series of debt securities.

The new debt securities that may be offered pursuant to this prospectus may be senior, senior subordinated or subordinated obligations, and, unless otherwise specified in a supplement to this prospectus, the new debt securities will be the direct, unsecured obligations of the applicable issuer and may be issued in one or more series.

The new debt securities will be issued pursuant to the applicable base indenture between the applicable issuer and a trustee, which will be named in the applicable supplement to this prospectus (or, in the case of new debt securities to be issued pursuant to the existing base indenture, Wilmington Trust, National Association, or any successor trustee). The form of each applicable base indenture, which may be modified prior to an offering, has been filed as an exhibit to the registration statement of which this prospectus forms a part, and you should read the applicable base indenture for provisions that may be important to you. Capitalized terms used in the summary and not defined herein have the meanings specified in the applicable base indenture.

base indenture. Information on material federal income tax considerations and other special considerations applicable to any of these new debt securities will be provided in the applicable prospectus supplement.

If the purchase price of any of the new debt securities is denominated in a foreign currency or currencies or a foreign currency unit or units, or if the principal of, and any premium and interest on, any series of new debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, then information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of new debt securities and such foreign currency or currencies or foreign currency unit or units will be provided in the applicable prospectus supplement.

Transfer and Exchange

Each new debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the Depository, or a nominee of the Depository (which is referred to as a book-entry debt security) or a certificate issued in definitive registered form (which is referred to as a certificated debt security), as set forth in the applicable prospectus supplement. Except in limited circumstances, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office the applicable issuer maintains for this purpose in accordance with the terms of the applicable base indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange may be required.

You may effect the transfer of certificated debt securities and the right to receive the principal of, or any premium or interest on, certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by the applicable issuer or the trustee of the certificate to the new holder or the issuance by the applicable issuer or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the Depository and registered in the name of the Depository or a nominee of the Depository.

Covenants

Any restrictive covenants applicable to any issue of new debt securities will be set forth in the applicable prospectus supplement.

No Protection In the Event of a Change of Control

Unless stated otherwise in the applicable prospectus supplement, the new debt securities will not contain any provisions that may afford holders of the new debt securities protection in the event the applicable issuer has a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) that could adversely affect holders of new debt securities.

Consolidation, Merger and Sale of Assets

The applicable issuer may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of its properties and assets to any person (a successor person) unless:

the applicable issuer is the surviving person or the successor person (if other than the applicable issuer) is a person that is organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes the applicable issuer's obligations on the new debt securities and under the applicable base indenture; and

Table of Contents

immediately after giving effect to the transaction, no Default or Event of Default, shall have occurred and be continuing.

Notwithstanding the above, any subsidiaries of the applicable issuer may consolidate with, merge into or transfer all or part of its properties to the applicable issuer.

Events of Default

Event of Default means, with respect to any series of new debt securities, any of the following:

a default in the payment of any interest upon any new debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by the applicable issuer with the trustee or with a paying agent prior to the expiration of the 30-day period);

a default in the payment of principal of any security of that series at its maturity;

a default in the deposit of any sinking fund payment, if, when and as due by the terms of the new debt securities of that series, and the continuance of such default for a period of 60 days;

a default in the performance or breach of any other covenant or warranty by the applicable issuer (or, in the case the new debt securities of that series are subject to a guarantee, the guarantor of such guarantee) in the applicable base indenture (other than a covenant or warranty that has been included in the applicable base indenture solely for the benefit of a series of new debt securities other than that series), which default continues uncured for a period of 60 days after the applicable issuer receives written notice from the trustee or the applicable issuer and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding new debt securities of that series as provided in the applicable base indenture;

if the new debt securities of such series are subject to a guarantee of a guarantor, such guarantee shall for any reason cease to be, or shall for any reason be asserted in writing by such guarantor or the applicable issuer not to be, in full force and effect and enforceable in accordance with its terms, except to the extent contemplated or permitted by the applicable base indenture or the terms of the new debt securities of that series;

certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of the applicable issuer; and

any other Event of Default provided with respect to new debt securities of that series that is described in the applicable prospectus supplement.

No Event of Default with respect to a particular series of new debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of new debt securities. The occurrence of certain Events of Default or an acceleration under the applicable base indenture may constitute an event of default under certain other indebtedness of the applicable issuer or its

subsidiaries outstanding from time to time.

If an Event of Default with respect to new debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding new debt securities of that series may, by a notice in writing to the applicable issuer (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the new debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series), and any premium and accrued and unpaid interest on, all new debt securities of that series. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of, and any premium and accrued and unpaid interest on, all outstanding new debt securities of the

Table of Contents

applicable series will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding new debt securities. At any time after a declaration of acceleration with respect to new debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding new debt securities of that series may rescind and annul the acceleration if all Events of Default (other than the non-payment of accelerated principal, premium and interest, if any, with respect to new debt securities of that series) have been cured or waived as provided in the applicable base indenture. You are referred to the prospectus supplement relating to any series of new debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The applicable base indenture will provide that the trustee will be under no obligation to exercise any of its rights or powers under the applicable base indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in exercising such right of power. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding new debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the new debt securities of that series.

No holder of any new debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the applicable base indenture or for the appointment of a receiver or trustee, or for any remedy under the applicable base indenture, unless:

that holder has previously given to the trustee written notice of a continuing Event of Default with respect to new debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding new debt securities of that series have made written request, and offered reasonable indemnity or security, to the trustee to institute the proceeding as trustee, and the trustee has (x) not received from the holders of not less than a majority in principal amount of the outstanding new debt securities of that series a direction inconsistent with that request and (y) failed to institute the proceeding within 60 days.

Notwithstanding any other provision in the applicable base indenture, the holder of any new debt security will have an absolute and unconditional right to receive payment of the principal of, and any premium and interest on, that new debt security on or after the due dates expressed in that new debt security and to institute suit for the enforcement of payment.

The applicable base indenture will require the applicable issuer to, within 120 days after the end of its fiscal year, furnish to the trustee a statement as to compliance with the applicable base indenture. If a Default or Event of Default occurs and is continuing with respect to the securities of any series and is known to a responsible officer of the trustee, then the trustee must mail to each holder of the securities of that series notice of a Default or Event of Default within 90 days after it occurs. The applicable base indenture will provide that the trustee may withhold notice to the holders of new debt securities of any series of any Default or Event of Default (except in payment on any new debt securities of that series) with respect to new debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those new debt securities.

Modification and Waiver

to cure any ambiguity, defect or inconsistency;

to evidence the succession of another person to the applicable issuer or, if applicable, any guarantor and the assumption by such successor person of the covenants of the applicable issuer or such guarantor, as applicable, in or pursuant to the applicable base indenture and in the new debt securities or the guarantees of such guarantor, as applicable;

to secure or provide additional security for all or any new debt securities of any series;

to add to the covenants of the applicable issuer or, if applicable, any guarantor for the benefit of the holders of all or any new debt securities of any series or to surrender any right or power conferred upon the applicable issuer or, if applicable, any guarantor with regard to all or any new debt securities of any series;

to provide for uncertificated debt securities in addition to or in place of certificated debt securities;

to make any change that does not materially adversely affect the rights of any holder;

to provide for the issuance of and establish the form, terms and conditions of new debt securities of any series and any guarantees thereof, as permitted by the applicable base indenture;

to evidence and provide for the acceptance of appointment by a successor trustee with respect to the new debt securities of one or more series and to add to or change any of the provisions of the applicable base indenture as shall be necessary to provide for or facilitate the administration of the trusts thereunder by more than one trustee;

to comply with requirements of the SEC in order to effect or maintain the qualification of the applicable base indenture under the Trust Indenture Act;

to amend the provisions of the applicable base indenture relating to the transfer and legending of new debt securities; *provided, however*, that (i) compliance with the applicable base indenture as so amended would not result in new debt securities being transferred in violation of the Securities Act or any applicable securities law; and (ii) such amendment does not materially and adversely affect the rights of holders to transfer new debt securities, except as required by law;

to add any additional Events of Default for the benefit of the holders of all or any new debt securities of any series;

to add to, change or eliminate any provision of the applicable base indenture in respect of all or any new debt securities of any series or any guarantees thereof, provided that such addition, change or elimination shall either (A) (i) not apply to any new debt security of any series or any guarantee thereof that was created prior to the execution and delivery of such supplemental indenture; and (ii) not modify the rights of the holder of any such new debt security with respect to such provision; or (B) become effective only when there are no new debt securities outstanding;

in the case of any new debt securities that, by their terms, may be converted into securities or other property (other than new debt securities of the same series and of like tenor), to (A) make provisions with respect to adjustments to the applicable conversion rate of such new debt securities as required or permitted by the applicable base indenture and the terms of such new debt securities; or (B) permit or facilitate the issuance, payment or conversion of such new debt securities;

to add any person as a guarantor of all or any new debt securities of any series, which new debt securities were not theretofore subject to a guarantee, or to add additional guarantors of all or any new debt securities of any series;

to evidence the release and discharge of any guarantor from its obligations under its guarantees of any new debt securities and its obligations under the applicable base indenture in respect of any new debt securities, in each case in accordance with the applicable base indenture and the terms of such new debt securities; or

to conform the text of the applicable base indenture or any new debt securities of any series or any guarantee to the description of the applicable base indenture, such new debt securities or such guarantee contained in this prospectus and the applicable prospectus supplement, provided that such supplemental indenture shall apply only to such new debt securities or guarantee.

Except to the extent the terms of a series of new debt securities otherwise provide with respect to any of such new debt securities or guarantee thereof, the applicable issuer may also modify and amend the applicable base indenture with the consent of the holders of at least a majority in principal amount of the outstanding new debt securities of each series affected by the modifications or amendments. However, no waiver or amendment may be made without the consent of the holders of each affected new debt security then outstanding if that waiver or amendment will:

reduce the amount of new debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any new debt security;

reduce the principal of or premium, if any, on or change the fixed maturity of any new debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of new debt securities;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default in the payment of the principal of, or any premium or interest on, any new debt security (except a rescission of acceleration of the new debt securities of any series by the holders of at least a majority in aggregate principal amount of the then-outstanding new debt securities of that series and a waiver of the payment default that resulted from such acceleration);

make the principal of, or any premium or interest on, any new debt security payable in currency other than that stated in the new debt security;

make any change to certain provisions of the applicable base indenture relating to, among other things, (i) the right of holders of new debt securities to receive payment of the principal of, or any premium or interest on, new debt securities and to institute suit for the enforcement of any such payment; (ii) waivers of past defaults; and (iii) amendments and waivers that require the consent of each affected holder;

waive a redemption payment with respect to any new debt security;

in the case of any new debt security that is subject to a guarantee, release the guarantor of such guarantee from any of its obligations under such guarantee, except in accordance with the terms of the applicable base indenture and such new debt security;

make any change in the ranking or priority of any new debt security or any guarantee thereof that would adversely affect the holders of such new debt security; or

in the case of any new debt security that provides that the holder thereof may require the applicable issuer to repurchase or convert such new debt security, impair such holder's right to require such repurchase or effect such conversion of such Security in accordance with the applicable base indenture and the terms of such new debt security.

Except in certain circumstances, the holders of at least a majority in principal amount of the outstanding new debt securities of any series may on behalf of the holders of all new debt securities of that series waive compliance by the applicable issuer or any guarantor of new debt securities of that series with provisions of the

applicable base indenture or guarantee. The holders of a majority in principal amount of the outstanding new debt securities of any series may, on behalf of the holders of all the new debt securities of such series, waive any past default under the applicable base indenture with respect to that series and its consequences, except a default in the payment of the principal of, or any premium or interest on, any new debt security of that series. The holders of a majority in principal amount of the outstanding new debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of New Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The applicable base indenture will provide that, unless otherwise provided by the terms of the applicable series of new debt securities, the applicable issuer and the guarantors, if any, will be deemed to have paid and discharged the entire indebtedness on all the outstanding new debt securities of any series on the 123rd day after the date of the deposit referred to below, and the provisions of the applicable base indenture, as it relates to such outstanding new debt securities of such series, will no longer be in effect, except as to certain specified rights, powers, immunities and provisions. In order to effect such legal defeasance, the following conditions, among others, must be satisfied:

subject to certain rights of the applicable issuer and guarantors, if any, the applicable issuer or, if applicable, any guarantor(s), must deposit, or cause to be irrevocably deposited, with the trustee money or U.S. government obligations or, in the case of new debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants or investment bank, to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of all the new debt securities of that series on the stated maturity of those payments in accordance with the terms of the applicable base indenture and those new debt securities; and

such deposit will not result in a breach or violation of, or constitute a default under, the applicable base indenture or any other agreement or instrument to which the applicable issuer is a party or by which it is bound;

no default or Event of Default with respect to the new debt securities of such series shall have occurred and be continuing on the date of such deposit or during the period ending on the 123rd day after such date; and

the applicable issuer or guarantor(s) must deliver to the trustee an opinion of counsel stating that the applicable issuer or guarantor(s), as applicable, have received from, or there has been published by, the U.S. Internal Revenue Service a ruling or, since the date of execution of the applicable base indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the new debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The applicable base indenture will provide that, unless otherwise provided by the terms of the applicable series of new debt securities, upon compliance with certain conditions:

the applicable issuer and, if applicable, may omit to comply with the covenant described under the heading Consolidation, Merger and Sale of Assets and certain other covenants set forth in the applicable base indenture, as well as any additional covenants which may be described in the applicable prospectus supplement; and

any omission to comply with those covenants, or with certain other Events of Default, will not constitute a default or an Event of Default with respect to the new debt securities of that series (covenant defeasance).

Table of Contents

The conditions include the following, among others:

subject to certain rights of the applicable issuer and guarantors, if any, the applicable issuer or, if applicable, any guarantor(s), must deposit, or cause to be irrevocably deposited, with the trustee money or U.S. government obligations or, in the case of new debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants or investment bank, to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of all the new debt securities of that series on the stated maturity of those payments in accordance with the terms of the applicable base indenture and those new debt securities; and

the applicable issuer or guarantor(s) must deliver to the trustee an opinion of counsel to the effect that the holders of the new debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Covenant Defeasance and Events of Default. In the event the applicable issuer exercises its option to effect covenant defeasance with respect to any series of new debt securities, and the new debt securities of that series are declared due and payable immediately following an acceleration after the occurrence of any Event of Default, the amount of money or U.S. government obligations or foreign government obligations on deposit with the trustee will be sufficient to pay amounts due on the new debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the new debt securities of that series at the time of such acceleration. However, the applicable issuer shall remain liable for those payments.

Governing Law

The applicable base indenture and the new debt securities, including any claim or controversy arising out of or relating to the applicable base indenture or the securities, will be governed by the laws of the State of New York (without regard to the conflicts of laws provisions thereof, other than Section 5-1401 of the General Obligations Law).

PLAN OF DISTRIBUTION

The issuers may sell the securities domestically or abroad to one or more underwriters for public offering and sale by them or may sell the securities to investors directly or through dealers or agents, or through a combination of methods. Any underwriter, dealer or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement.

Underwriters may offer and sell the securities at: (i) a fixed price or prices, which may be changed, (ii) market prices prevailing at the time of sale, (iii) prices related to the prevailing market prices at the time of sale or (iv) negotiated prices. The issuers also may, from time to time, authorize underwriters acting as their agents to offer and sell the securities upon the terms and conditions as are set forth in the applicable prospectus supplement. In connection with the sale of securities, underwriters may be deemed to have received compensation from the applicable issuer in the form of underwriting discounts or commissions and may also receive commissions from purchasers of securities for whom they may act as agent. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent.

Any underwriting compensation paid by an issuer to underwriters, dealers or agents in connection with the offering of securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters, dealers and agents may be entitled, under agreements entered into with any of the issuers, to indemnification against and contribution toward civil liabilities, including liabilities under the Securities Act. Any indemnification agreement will be described in the applicable prospectus supplement.

Unless specified otherwise in the applicable prospectus supplement, any series of securities issued hereunder will be a new issue with no established trading market (other than Kennedy-Wilson Holdings common stock, which is listed on the NYSE). If Kennedy-Wilson Holdings sells any shares of its common stock pursuant to a prospectus supplement, such shares will be listed on the NYSE, subject to official notice of issuance. The issuers may elect to list any other securities issued hereunder on any exchange, but the issuers are not obligated to do so. Any underwriters or agents to or through whom such securities are sold for public offering and sale may make a market in such securities, but such underwriters or agents will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of the trading market for any such securities.

If indicated in the applicable prospectus supplement, the issuers may authorize underwriters or other persons acting as the issuers agents to solicit offers by institutions or other suitable purchasers to purchase the securities from the issuers at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

To facilitate the offering of the securities, certain persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involves the sale by persons participating in the offering of more securities than the issuers sold

to them. In these circumstances, these persons would cover the over-allotments or

Table of Contents

short positions by making purchases in the open market or by exercising their over-allotment option. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The underwriters, dealers and agents and their affiliates may be customers of, engage in transactions with and perform services for the issuers in the ordinary course of business.

The specific plan of distribution, including any underwriters, dealers, agents or direct purchasers and their compensation, will be identified in a prospectus supplement.
