We obtained the industry, market and competitive position data described or referred to throughout this prospectus from our own internal estimates and research, as well as from industry and general publications and research, surveys and studies conducted by third parties. Non-GAAP Financial Measures

The SEC has adopted rules to regulate the use of non-GAAP financial measures that are derived on the basis of methodologies other than in accordance with U.S. generally accepted accounting principles (GAAP). In this prospectus, we present Adjusted EBITDA, which is a non-GAAP financial measure. Our management believes this non-GAAP financial measure provides useful information about our operating performance by excluding certain items and including other items that we believe are not representative of our core business. We also believe that this financial measure will provide investors with a useful tool for assessing the comparability between periods of our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. We use this financial measure for business planning purposes and in measuring our performance relative to that of our competitors. However, this measure should not be considered as an alternative to net sales or cash flows from operating activities as an indicator of operating performance or liquidity. For additional information on why we present non-GAAP financial measures, the limitations associated with using non-GAAP financial measures and reconciliations of our non-GAAP financial measures to the most comparable applicable GAAP measure, see Summary Financial Data.

The financial statements of Arysta that are incorporated by reference in this prospectus are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Unaudited Pro Forma Financial Information

The Arysta Acquisition, which was consummated on February 13, 2015, was a significant acquisition to us (at a significance level of greater than fifty percent) under Rule 3-05 and 1-02(w) of Regulation S-X under the Securities Act of 1933, as amended (the Securities Act). The CAS Acquisition, which was consummated on November 3, 2014, was also a significant acquisition (at a significance level of greater than forty percent). As a result, we have included in this prospectus unaudited pro forma financial information based on the historical financial statements of Platform, CAS and Arysta, combined and adjusted to give effect to the CAS Acquisition and the Arysta Acquisition as if each had occurred as of January 1, 2014, for purposes of the statements of operations. The unaudited pro forma statements of operations do not reflect the Agriphar Acquisition or the related financing and the proposed OMG Acquisition (as defined herein), because the Agriphar Acquisition and the OMG Acquisition are not significant as defined by Rule 1-02(w) of Regulation S-X. The unaudited pro forma combined consolidated financial information has been prepared

Edgar Filing: Platform Specialty Products Corp - Form S-3

in accordance with the basis of preparation described in Unaudited Pro Forma Financial Information.

The unaudited pro forma combined consolidated financial information presented herein is for informational purposes only and is not intended to represent or to be indicative of the consolidated results of operations or

financial position that we would have reported had the CAS Acquisition and the Arysta Acquisition been completed as of the dates set forth in the unaudited pro forma combined consolidated financial information, and should not be taken as indicative of our future consolidated results of operations or financial position. The unaudited pro forma financial data has been prepared in accordance with the requirements of Regulation S-X of the Securities Act. However, neither the assumptions underlying the pro forma adjustments nor the resulting pro forma financial information have been audited or reviewed in accordance with any generally accepted auditing standards.

The unaudited pro forma combined consolidated financial information should be read in conjunction with our historical financial statements and with both CAS and Arysta's historical financial statements, all incorporated by reference in this prospectus.

Our Company

We are a global, diversified producer of high technology specialty chemical products. Our business involves the formulation of a broad range of solutions-oriented specialty chemicals, which are sold into multiple industries, including agrochemical, animal health, electronics, graphic arts, plating, and offshore oil production and drilling. We refer to our products as dynamic chemistries due to their intricate chemical compositions. Our dynamic chemistries are used in a wide variety of attractive niche markets and we believe that the majority of our operations hold strong positions in the product markets they serve.

As our name Platform Specialty Products Corporation implies, we continually seek opportunities to act as an acquirer and consolidator of specialty chemical businesses on a global basis, particularly those meeting Platform's Asset-Lite, High-Touch philosophy, which involves prioritizing extensive resources to research and development and highly technical customer service, while managing conservatively our investments in fixed assets and capital expenditures. To date, Platform has completed four acquisitions: the MacDermid Acquisition on October 31, 2013, the Agriphar Acquisition on October 1, 2014, the CAS Acquisition on November 3, 2014 and the Arysta Acquisition on February 13, 2015.

Our History

We were initially incorporated with limited liability under the laws of the British Virgin Islands on April 23, 2013 under the name Platform Acquisition Holdings Limited. We completed our initial public offering in the United Kingdom on May 22, 2013, raising net proceeds of approximately \$881 million, and were listed on the London Stock Exchange.

On October 31, 2013, we indirectly acquired substantially all of the equity of MacDermid Holdings, LLC (MacDermid Holdings), which, at the time, owned approximately 97% of MacDermid. As a result, we became a holding company for the MacDermid business. We acquired the remaining 3% of MacDermid on March 4, 2014. Concurrently with the closing of the MacDermid Acquisition, we changed our name to Platform Specialty Products Corporation. On January 22, 2014, we changed our jurisdiction of incorporation from the British Virgin Islands to Delaware, and on January 23, 2014, our shares of common stock began trading on the NYSE under the ticker symbol PAH.

Table of Contents

Our Business

We operate our business in two reportable business segments, Performance Applications and Agricultural Solutions, as described below:

Performance Applications

Our Performance Applications segment formulates and markets dynamic chemistry solutions that are used in electronics, automotive production, oil and gas production, drilling, commercial packaging and printing. Our products include surface and coating materials, water-based hydraulic control fluids and photopolymers. We sell these products worldwide. In conjunction with the sale of these products, we provide extensive technical service and support to ensure superior performance of their application.

Within this segment, we provide specialty chemicals to the following industries: Electronics, Industrial, Offshore and Commercial Packing and Printing. For the electronics industry, we design and formulate a complete line of proprietary wet dynamic chemistries that our customers use to process the surface of the printed circuit boards and other electronic components they manufacture. For our industrial customers, our dynamic chemistries are used for finishing, cleaning and providing surface coatings for a broad range of metal and non-metal surfaces, which improve the performance or look of a component of an industrial part or process. For the offshore industry, we produce water-based hydraulic control fluids for major oil companies and drilling contractors for offshore deep water production and drilling applications. For the commercial packaging and printing industries, we produce photopolymers through an extensive line of flexographic plates, used to produce printing plates for transferring images onto commercial packaging, including packaging for consumer food products, pet food bags, corrugated boxes, labels and beverage containers. In addition, we also produce photopolymer printing plates for the flexographic and letterpress newspaper and publications markets.

Agricultural Solutions

Our Agricultural Solutions segment is based on a solutions-oriented business model that focuses on product innovation to address an ever-increasing need for higher crop yield and quality. We offer a wide variety of proven plant health and pest control products to growers, which are comprised of specific target applications in the following major product lines: adjuvants, fungicides, herbicides, home applications (home and garden and ectoparasiticides), insecticides, miticides, plant growth regulators, and seed treatments. We refer to herbicides, insecticides, fungicides and seed treatment categories, based on patented or proprietary off-patent active ingredients (AIs), as our Global Value Added Portfolio (GVAP). Our product portfolio also includes biosolutions (biostimulants, innovative nutrition and biocontrol), and regional off-patent AIs that complement its principal product lines. In addition, we offer certain non-crop products, including animal health products, such as honey bee protective miticides and certain veterinary vaccines.

We sell our products worldwide. Because our segments utilize shared facilities and administrative resources but offer products that are distinct from one another, we make decisions about how to manage our operations by reference to each segment and not with respect to the underlying products or geographic regions that comprise each segment.

Recent Developments

On May 31, 2015, we entered into a merger agreement (the Merger Agreement) with OM Group, Inc. (OM Group) and affiliates of Apollo Global Management (collectively and each individually, Apollo) and a purchase and separation agreement with Apollo pursuant to which Apollo will first acquire OM Group in its entirety, and then

Edgar Filing: Platform Specialty Products Corp - Form S-3
subsequently sell to us OM Group's Electronic Chemicals and Photomasks businesses (the

Table of Contents

OM Businesses and the acquisition by us of the OM Businesses, the OMG Acquisition). The OMG Acquisition will take place in two stages: we expect to first acquire all of the OM Businesses, other than its Malaysian subsidiary, immediately after Apollo's acquisition of OM Group, currently expected to occur during the third quarter of 2015, and then subsequently to acquire such Malaysian subsidiary during the first quarter of 2016. The total purchase price to us (subject to purchase price adjustments) is \$367 million.

Apollo's acquisition of OM Group is subject to certain customary closing conditions, including approval of the acquisition by the OM Group stockholders, expiration or termination of any applicable waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and other consents and approvals required under applicable U.S. and foreign antitrust laws. The first stage of the OMG Acquisition is subject only to the consummation of Apollo's acquisition of OM Group, and the second stage of the transaction is subject to additional standard closing conditions, including the absence of a material adverse effect with respect to the Malaysian subsidiary. The Merger Agreement also provides for a 35-day go-shop period, which expires July 5, 2015, during which OM Group is entitled to solicit other offers.

We are a party to certain financing commitment letters (collectively, the Debt Commitment Letter) with Barclays Bank PLC, Credit Suisse AG, Cayman Islands Branch and/or their affiliates, which provide debt financing of up to \$375 million to consummate the OMG Acquisition. The Debt Commitment Letter provides that such commitment will be reduced on a dollar-for-dollar basis by the amount of Shares we issue in this offering. To the extent we raise less than \$350 million pursuant to this offering, we intend to pay for the remaining consideration required through a combination of cash on hand and borrowings under our existing Credit Agreement dated April 12, 2007 (as amended and/or restated, the Amended and Restated Credit Agreement), in accordance with the terms of the Debt Commitment Letter.

If the Merger Agreement is terminated due to our or Apollo's failure to obtain our or its respective financing for the transaction (and under certain other limited circumstances), (i) we and Apollo will be required to pay OM Group our respective pro rata portion of a reverse termination fee to OM Group equal to \$62.7 million (and the party responsible for such termination of the Merger Agreement will be required to reimburse the other party for its or their pro rata portion of the amount paid to OM Group) and (ii) the party responsible for such termination of the Merger Agreement will be required to reimburse the other party for its fees and expenses up to \$7.5 million. If the Merger Agreement is terminated due to the failure to obtain certain regulatory approvals for the OMG Acquisition, we may be required to reimburse OM Group for its fees and expenses up to \$7.5 million, and to pay to Apollo its fees and expenses up to \$7.5 million.

We believe the proposed OMG Acquisition is in line with our business strategy of growing into niche markets. OM Group's Electronic Chemicals business is similar to our legacy MacDermid electronic chemical and surface treatment businesses. It develops, produces and supplies chemicals for electronic and industrial applications. OM Group's Photomasks products are used by customers to produce semiconductors and related products.

The closing of this offering is not conditioned on, and is expected to be consummated before, the closing of the OMG Acquisition.

- (6) The pro forma year ended December 31, 2014 Adjusted EBITDA results exclude (i) Adjusted EBITDA of the OM Businesses of approximately \$28.3 million for such period, (ii) Adjusted EBITDA of Agriphar for the nine-months prior to its acquisition of approximately \$40.2 million, (iii) any synergies that may be achieved as a result of the combination of businesses in our Agricultural Solutions segment, which we anticipate to be approximately \$80 million annually (to be phased in over a period of three years), (iv) any synergies that may be achieved as a result of the OMG Acquisition, which we anticipate to be approximately \$20 million annually (to be phased in over a period of two years, with a majority to be achieved by the end of the first year), and (v) approximately three months of Adjusted EBITDA of Laboratoires Goëmar (Goëmar), which was acquired by Arysta in the first quarter of 2014.

- (8) We present Adjusted EBITDA as a supplemental measure of our performance. We define Adjusted EBITDA as net income (loss) plus income tax provision (benefit), interest expense (net) and depreciation and amortization expense, with adjustments, which include adjustments recorded in connection with the Prior Acquisitions. The use of Adjusted EBITDA is considered relevant to the analysis of Platform's results (net) aside from the material impact of the charges associated with the Prior Acquisitions. We believe Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Our investors regularly request Adjusted EBITDA as a supplemental analytical measure to, and in conjunction with, our GAAP financial data. We understand that these investors use Adjusted EBITDA, among other things, to assess our period-to-period operating performance and to gain insight into the manner in which management analyzes operating performance. In addition, we believe that Adjusted EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of Adjusted EBITDA generally eliminates the effects of financing and income taxes and the accounting

Table of Contents

effects of capital spending and acquisitions, which items may vary for different companies for reasons unrelated to overall operating performance. Although we believe that Adjusted EBITDA can make an evaluation of our operating performance more consistent because it removes items that do not reflect our core operations, investors should not place undue reliance on Adjusted EBITDA as measures of operating performance. In evaluating Adjusted EBITDA, investors should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments presented herein. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA has limitations as an analytical tool. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

although depreciation is a non-cash charge, the assets being depleted and depreciated will have to be replaced in the future;

non-cash compensation is and will remain a key element of our overall long-term incentive compensation package;

Adjusted EBITDA does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally.

RISK FACTORS

Any investment in the Shares is speculative and involves a high degree of risk. Before making an investment decision, you should read carefully (i) this entire prospectus including the risks and uncertainties described below, (ii) all other information contained in and incorporated by reference in this prospectus, including the risks and uncertainties described under Risk Factors in our annual report on Form 10-K for the year ended December 31, 2014 and in our subsequent filings with the SEC, (iii) the other documents to which we refer and (iv) our financial statements and notes to those financial statements. Additional risks and uncertainties that are currently unknown to us or that we currently consider to be immaterial may also adversely impair our business or adversely affect our financial condition or results of operations. If any of the events described below or in the risk factors incorporated by reference in this prospectus occurs, our business, financial condition or results of operations could be materially and adversely affected. If that were to happen, the trading price of our common stock could decline, and you could lose all or part of your investment.

This prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors. See Information Regarding Forward-Looking Statements for information relating to these forward-looking statements.

Risk Relating to the OMG Acquisition

The OMG Acquisition is subject to closing conditions and a go-shop period, so there can be no assurance that it will close or be completed in the expected timeframe or on the expected terms.

There can be no assurance that the OMG Acquisition will close, or be completed in the time frame or on the terms or in the manner currently anticipated, as a result of a number of factors including, among other things, the failure of one or more conditions to closing and the outcome of OM Group's go-shop right. The closing of this offering is not conditioned on, and is expected to be consummated before, the closing of the OMG Acquisition.

Risks Relating to this Offering and Ownership of our Common Stock

We have numerous equity instruments outstanding that would require us to issue additional shares of common stock. Therefore, you may experience significant dilution of your ownership interests and the future issuance of additional shares of our common stock, or the anticipation of such issuances, could have an adverse effect on our stock price.

We have numerous equity instruments outstanding that would require us to issue additional shares of our common stock. Depending on the equity instrument, these additional shares may either be issued for no additional consideration or based on a fixed amount of additional consideration. Specifically, as of June 15, 2015, we had outstanding the following:

2,000,000 shares of Series A Preferred Stock which are convertible into shares of our common stock, on a one-for-one basis, at any time at the option of the holder;

600,000 shares of Series B Preferred Stock, issued on February 13, 2015 in connection with the Arysta Acquisition and which are convertible into up to 22,107,590 shares of our common stock at any time at the

option of the seller. Each share of Series B Preferred Stock that is not previously converted to common stock will be subject to automatic redemption on the first to occur of (a) October 20, 2016, or (b) the occurrence of a merger including a change of control of Platform, the sale of all or substantially all of the assets or subsidiaries of Platform or a bankruptcy or liquidation of Platform;

8,344,199 exchange rights which will require us to issue shares of our common stock for shares of common stock of our subsidiary, Platform Delaware Holdings, Inc., at the option of the holder, on a one-for-one basis, at 25% per year beginning on October 31, 2014;

Table of Contents

175,000 options which are exercisable to purchase shares of our common stock, on a one-for-one basis, at any time at the option of the holder; and

927,500 RSUs which were granted to employees under our 2013 Plan. Each RSU represents a contingent right to receive one (1) share of our common stock.

We also have approximately 14,563,258 shares of our common stock currently available under our 2013 Plan (subject to increase in accordance with the terms of such plan) and an additional 5,152,849 shares of our common stock currently available under our 2014 ESPP.

In addition, the holders of our Series A Preferred Stock are entitled to receive dividends on the Series A Preferred Stock in the form of shares of our common stock. On December 31, 2014, we approved a stock dividend of 10,050,290 shares of our common stock with respect to the Series A Preferred Stock, which represented 20% of the appreciation of the market price of our common stock over the \$10.00 price in our May 22, 2013 initial public offering in the United Kingdom, multiplied by the total shares offered in that initial public offering. The dividend price was \$22.85 (calculated based upon the average of the last ten trading days of the year's volume weighted average share prices), and the shares were issued on January 2, 2015 based on the volume weighted average price of \$23.16 on December 31, 2014. In subsequent years, the dividend amount will be calculated based on the appreciated stock price compared to the highest dividend price previously used in calculating the Series A Preferred Stock dividends. Such issuance of common stock as stock dividend could have a dilutive impact on, and reduce the value of, our outstanding common stock.

We may also issue additional shares of our common stock or other securities that are convertible into or exercisable for our common stock in connection with future acquisitions, future issuances of our securities for capital raising purposes or for other business purposes. Future sales of substantial amounts of our common stock, or the perception that sales could occur, could have a material adverse effect on the price of our common stock.

We have broad discretion in the use of the net proceeds from this offering and our existing cash and may not use them effectively.

Our management will have broad discretion in the application of the net proceeds from this offering as well as our existing cash, and you will be relying on the judgment of our management regarding such application. You will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. Our management might not apply the net proceeds or our existing cash in ways that ultimately increase the value of your investment. If we do not invest or apply the net proceeds from this offering or our existing cash in ways that enhance stockholder value, we may fail to achieve expected financial results, which could cause our stock price to decline.

We may issue preferred stock in the future, and the terms of the preferred stock may reduce the value of our common stock.

Our board of directors (the Board) is authorized to create and issue one or more additional series of preferred stock, and, with respect to each series, to determine the number of shares constituting the series and the designations and the powers, preferences and rights, and the qualifications, limitations and restrictions thereof, which may include dividend rights, conversion or exchange rights, voting rights, redemption rights and terms and liquidation preferences, without stockholder approval. If we create and issue one or more additional series of preferred stock, it could affect your rights or reduce the value of our outstanding common stock. Our Board could, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power of the holders of our common stock

and which could have certain anti-takeover effects.

We cannot assure you that we will declare dividends or have the available cash to make dividend payments.

To the extent we intend to pay dividends on our common stock, we will pay such dividends at such times (if any) and in such amounts (if any) as our Board determines appropriate and in accordance with applicable law. We are also subject to certain restrictions in our financing arrangements which may prohibit or limit our ability to pay dividends. Additionally, for so long as any shares of Series B Preferred Stock are outstanding, no dividend or distribution may be declared or paid or set aside for payment on all or substantially all the outstanding shares of any other series of preferred stock, other than the Series A Preferred Stock, or common stock without the prior vote or written consent of the holders of at least a majority of the shares of Series B Preferred Stock then outstanding, voting separately as a single class. We therefore can give no assurance that we will be able to pay dividends going forward or as to the amount of such dividends, if any.

We operate as a holding company and our principal source of operating cash is income received from our subsidiaries.

We are a holding company and do not have any material assets or operations other than ownership of equity interests of our subsidiaries. Our operations are conducted almost entirely through our subsidiaries, and our ability to generate cash to meet our obligations or to pay dividends is highly dependent on the earnings of, and receipt of funds from, our subsidiaries through dividends or intercompany loans. As a result, we are dependent on the income generated by our subsidiaries to meet our expenses and operating cash requirements. The amount of distributions and dividends, if any, which may be paid from our subsidiaries to us will depend on many factors, including results of operations and financial condition, limits on dividends under applicable law, its constitutional documents, documents governing any indebtedness of the respective subsidiary, and other factors which may be outside our control. If our subsidiaries are unable to generate sufficient cash flow, we may be unable to pay our expenses or make distributions and dividends on our shares of common stock.

We are governed by Delaware law, which has anti-takeover implications.

We are governed by Delaware law. The application of Delaware law to us may have the effect of deterring hostile takeover attempts or a change in control. In particular, Section 203 of the Delaware General Corporation Law imposes certain restrictions on merger, business combinations and other transactions between us and holders of 15% or more of our common stock. A Delaware corporation may opt out of that provision either with an express provision in its original certificate of incorporation or in an amendment to its certificate of incorporation or by-laws approved by its stockholders. We have not opted out of this provision. Section 203 could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us.

Volatility of our stock price could adversely affect our stockholders.

The market price of our common stock could also fluctuate significantly as a result of:

quarterly variations in our operating results;

interest rate changes;

changes in the market's expectations about our operating results;

our operating results failing to meet the expectation of management, securities analysts or investors in a particular period;

changes in financial estimates and recommendations by securities analysts concerning our company or our industry in general;

operating and securities price performance of companies that investors deem comparable to us;

news reports and publication of research reports relating to our business or trends in our markets;

Table of Contents

changes in laws and regulations affecting our businesses;

announcements or strategic developments, acquisitions and other material events by us or our competitors;

sales of substantial amounts of common stock by our directors, executive officers or significant stockholders or the perception that such sales could occur;

adverse market reaction to any additional debt we incur in the future;

the failure to identify and complete acquisitions in the future or unexpected difficulties or developments related to the integration of recently completed or future acquisitions;

actions by institutional stockholders;

general economic and political conditions such as recessions and acts of war or terrorism; and

the risk factors set forth in this prospectus and other matters discussed herein.

Fluctuations in the price of our common stock could contribute to the loss of all or part of a stockholder's investment in our Company. Many of the factors listed above are beyond our control. These factors may cause the market price of our common stock to decline, regardless of the financial condition, results of operations, business or prospects of us and our subsidiaries. There can be no assurance that the market price of our common stock will not fall in the future.

Future sales, or the perception of future sales, of our common stock may depress the price of our common stock.

If we or any of our stockholders sell a large number of shares of our common stock, or if we issue a large number of shares of common stock in connection with future acquisitions, financings or other circumstances, the market price of our common stock could decline significantly. Moreover, the perception in the public market that we or our stockholders might sell shares of common stock could depress the market price of those shares.

We cannot predict the size of future issuances of our shares of common stock or the effect, if any, that future issuances or sales of our shares will have on the market price of such shares. Sales of substantial amounts of our shares, including sales by significant stockholders, and shares issued in connection with any additional acquisition, or the perception that such sales could occur, may adversely affect prevailing market prices for our shares of common stock. Possible sales also may make it more difficult for us to sell equity or equity-related securities in the future at a time and price we deem necessary or appropriate.

Table of Contents**USE OF PROCEEDS**

We estimate that the net proceeds from this offering will be approximately \$340.5 million, after deducting fees to the underwriters and estimated offering expenses, based on an assumed public offering price of \$27.50 (which was the last reported sale price of our common stock on the NYSE on June 15, 2015). Each \$1.00 increase or decrease in the assumed public offering price would increase or decrease, respectively, our net proceeds by approximately \$12.4 million, assuming that the number of shares offered by us remains the same and after deducting the estimated underwriting discounts and estimated offering expenses payable by us. We may also increase or decrease the number of shares we are offering. Each increase or decrease of 1 million shares we are offering would increase or decrease, as applicable, the net proceeds to us from this offering by approximately \$26.8 million, after deducting the estimated underwriting discounts and estimated offering expenses payable by us, assuming the assumed public offering price stays the same.

We intend to use the net proceeds of this offering to fund working capital and future acquisitions including, if consummated, a portion of the consideration and related fees payable in connection with the OMG Acquisition. The OMG Acquisition is currently the only future acquisition for which we have executed a purchase agreement. The OMG Acquisition, to the extent that it closes, is expected to close in two parts, with the first closing expected to occur during the third quarter of 2015 and the second closing expected to occur during the first quarter of 2016, in each case, subject to customary closing conditions. The closing of this offering is not conditioned on, and is expected to be consummated before, the closing of the OMG Acquisition.

The following table describes the estimated sources and uses of funds in connection with the closing of the OMG Acquisition. The actual sources and uses of funds may differ depending on several factors, including fluctuations in working capital and differences from our estimation of fees and expenses. You should read the following together with the information under the heading **Unaudited Pro Forma Financial Information** included elsewhere in this prospectus.

UNAUDITED PRO FORMA FINANCIAL INFORMATION

On November 3, 2014, we completed the CAS Acquisition, pursuant to which we acquired from Chemtura certain legal entities and other assets and liabilities for approximately \$1.04 billion, consisting of \$983 million in cash, net of closing adjustments, and 2,000,000 shares of our common stock. We funded the cash portion of the purchase price and related transaction expenses of the CAS Acquisition with a combination of available cash on hand and borrowings under our Amended and Restated Credit Agreement.

On February 13, 2015, we completed the Arysta Acquisition, pursuant to which we acquired all of the outstanding common stock of Arysta for approximately \$3.44 billion. The purchase price consisted of \$2.79 billion of cash, net of closing adjustments and including seller transaction expenses paid by Platform, and \$600 million of Series B Preferred Stock of Platform. To fund the cash portion of the purchase price, on February 2, 2015, we issued \$1.1 billion and 350 million (approximately \$420 million based upon the February 2, 2015 exchange rate of \$1.20 per 1.00) of notes (collectively, the Notes), and, on February 13, 2015, we borrowed an incremental \$500 million and 83 million (approximately \$94.5 million based upon the February 13, 2015 exchange rate of \$1.14 per 1.00) (the Term Debt).

The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2014 give effect to the CAS Acquisition and the Arysta Acquisition as if they had been consummated on January 1, 2014 and the Shares offered hereby as if the offering had been consummated on January 1, 2014. The unaudited pro forma condensed consolidated statements of operations for the three-months ended March 31, 2015 give effect to the Arysta Acquisition and the Shares offered hereby as if they had been consummated on January 1, 2014. The unaudited pro forma condensed consolidated balance sheet as of March 31, 2015 reflects the completion of the CAS Acquisition and Arysta Acquisition, and gives effect to the Shares offered hereby as if the offering had been consummated on March 31, 2015.

The following unaudited pro forma condensed consolidated balance sheet as of March 31, 2015 was derived from Platform's unaudited condensed consolidated financial statements. The following unaudited pro forma condensed consolidated statement of operations for the year ended December 31, 2014 was derived from Platform's and Arysta's audited consolidated financial statements and the unaudited combined financial statements of CAS for the nine-months ended September 30, 2014. The results of operations for the one month ended October 31, 2014 were derived from the unaudited combined results of operations of CAS for the ten-months ended October 31, 2014 and the unaudited combined financial statements of CAS for the nine-months ended September 30, 2014. The unaudited pro forma statements of operations do not reflect the Agriphar Acquisition or the related financing and the proposed OMG Acquisition, because the Agriphar Acquisition and the OMG Acquisition are not significant as defined by Rule 1-02(w) of Regulation S-X. The unaudited pro forma balance sheet and statements of operations do not reflect the financing available under the Debt Commitment Letter, which commitments will be reduced on a dollar-for-dollar basis by the amount of equity raised in this offering.

The unaudited pro forma condensed consolidated financial information presented below is not necessarily indicative of future results and should be read in conjunction with our Management's Discussion and Analysis of Financial Condition and Results of Operations and consolidated financial statements filed in our annual report on Form 10-K for the fiscal year ended December 31, 2014, as recast by our current report on Form 8-K dated June 16, 2015, and consolidated condensed financial statements filed in our quarterly report on Form 10-Q for the three-months ended March 31, 2015, filed on May 15, 2015, CAS Management's Discussion of Operations and Cash Flows and CAS combined financial statements and the notes thereto filed as exhibits to current reports on Form 8-K filed on July 11, 2014 and January 12, 2015 (as amended on January 30, 2015), Arysta Management's Discussion of Operations and Cash Flows and Arysta's audited consolidated financial statements and the notes thereto filed on Form 8-K/A, filed on April 29, 2015.

Purchase accounting and purchase price allocation is substantially complete for the CAS Acquisition, with the exception of accounts receivable, inventory, and for both intangible and tangible assets related to the supply agreements with Chemtura for CAS. The Company has not completed the detailed valuations necessary to estimate

the fair value of the assets and the liabilities acquired in the Arysta Acquisition, and the related allocations of purchase price. Accordingly, the pro forma purchase price adjustments are preliminary and are subject to further adjustments as additional information becomes available and as additional analyses are performed. As the final valuations are performed, increases or decreases in the fair value of relevant balance sheet amounts and their useful lives will result in adjustments, which may be material, to the balance sheet and/or the statement of operations.

Pro forma adjustments to historical financial information are subject to assumptions described in the notes following the unaudited pro forma financial statements. Management believes that these assumptions and adjustments are reasonable and appropriate under the circumstances and are factually supported based on information currently available. The principal adjustments consist of the following:

the consummation of the offering of the Shares; and
the completion of the CAS Acquisition and the Arysta Acquisition and the related issuance of the Term Debt and the Notes for the statements of operations.

The unaudited pro forma condensed consolidated financial statements are for illustrative and informational purposes only and are not intended to represent, or be indicative of, what our financial position or results of operations would have been had the CAS Acquisition or the Arysta Acquisition occurred on the dates indicated. The unaudited pro forma condensed consolidated financial information also should not be relied upon as a representation of our future performance. The pro forma information contained in this prospectus assumes the consummation of this \$350 million offering of Shares. To the extent we raise less than \$350 million, we intend to pay for the additional consideration required to consummate the OMG Acquisition through a combination of cash on hand and borrowings under our existing Amended and Restated Credit Agreement in accordance with the terms of the Debt Commitment Letter.

Table of Contents

- (1) The historical statement of operations of CAS presents cost of goods sold (excluding depreciation) of \$206.8 million as an operating expense. For purposes of this pro forma, this amount plus \$5.8 million of related depreciation is presented as cost of sales to present gross profit for the acquired business.
- (2) The historical statement of operations of CAS for the one-month ended October 31, 2014 is estimated primarily based upon the operations of CAS for the ten-months ended October 31, 2014 less the nine-months ended September 30, 2014, except for the income tax provision, which was adjusted to reflect the effective tax rate of the nine-months ended September 30, 2014.
- (3) The historical statement of operations of Arysta are presented in accordance with GAAP based upon its financial statements prepared in accordance with IFRS. Adjustments to convert the IFRS basis to GAAP basis are included in the Arysta adjustments column.

Interest on the incremental US Dollar borrowings under the first lien debt of \$130 million at a rate of approximately 4.00% and on the Euro denominated first lien debt of approximately \$256 million equivalent at a rate of approximately 4.25% based on the terms of the Amended and Restated Credit Agreement. These interest rates are based on an applicable margin of 3% on the US Dollar borrowings and 3.25% on the Euro denominated borrowings applied to a LIBOR floor of 1% and are variable in nature. The pre-tax effect of a 1/8% change effective in the interest rate would be \$0.4 million annually.

Interest on the incremental borrowings of approximately \$129 million under our revolving credit facilities at a rate of 5.25% for the portion under our U.S. Dollar revolving credit facility of \$60 million and 3.23% for the portion under our multicurrency revolving credit facility of approximately \$68.7 million.

on an as further adjusted basis to give effect to the proposed OMG Acquisition.

You should read this information in conjunction with our consolidated financial statements and the related notes thereto and other financial information included, or incorporated by reference, in this prospectus.

We do not expect to issue pursuant to this offering Shares resulting in gross proceeds to us of less than \$350 million. To the extent we issue Shares resulting in gross proceeds to us of less than \$350 million pursuant to this offering, our Debt Commitment Letter provides a back-stop pursuant to which we may borrow additional term loans to fund the OMG Acquisition.

(2) Each \$1.00 increase or decrease in the assumed public offering price of \$27.50 (which was the last reported sale price of our common stock on the NYSE on June 15, 2015) per Share would increase or decrease, respectively, total equity and redeemable preferred stock and total capitalization by approximately \$12.4 million, assuming that

the number of shares offered by us remains the same and after deducting the estimated underwriting discounts and estimated offering expenses payable by us. We may also increase or decrease the number of shares we are offering. MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS

FOR NON-U.S. HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences to a non-U.S. holder of the acquisition, ownership and disposition of our common stock. For purposes of this discussion, a non-U.S. holder is any beneficial owner of our common stock, other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes, that is not for U.S. federal income tax purposes any of the following:

an individual who is citizen or resident of the United States;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States or any state or the District of Columbia;

an estate whose income is subject to U.S. federal income tax regardless of its source; or

a trust (i) the administration of which is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust or (ii) which has made a valid election to be treated as a U.S. person.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Accordingly, we urge partnerships that hold our common stock and partners in such partnerships to consult their own tax advisors regarding the tax treatment of acquiring, holding and disposing of our common stock.

This discussion assumes that a non-U.S. holder will hold our common stock as a capital asset (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation or any aspects of state, local or non-U.S. taxation, nor does it consider any U.S. federal income tax considerations that may be relevant to non-U.S. holders which may be subject to special treatment under U.S. federal income tax laws, including, without limitation, U.S. expatriates, controlled foreign corporations, passive foreign investment companies, insurance companies, tax-exempt or governmental organizations, dealers in securities or currency, banks or other financial institutions, and investors that hold our common stock as part of a hedge, straddle or conversion transaction. Furthermore, the following discussion is based on current provisions of the Code, and Treasury Regulations and administrative and judicial interpretations thereof, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect.

We urge each prospective investor to consult a tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax consequences of acquiring, holding and disposing of shares of our common stock.

Dividends on Common Stock

If we pay dividends on our common stock, those payments will constitute dividends for U.S. tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those dividends exceed our current and accumulated earnings and profits, the dividends will

constitute a return of capital and will first reduce a holder's adjusted tax basis in its common stock, but not below zero, and then will be treated as gain from the sale of the common stock (see [Gain on Disposition of Common Stock](#)).

Any dividend paid out of earnings and profits to a non-U.S. holder of our common stock generally will be subject to U.S. withholding tax at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable tax treaty. To receive the benefit of a reduced treaty rate, a non-U.S. holder generally

Table of Contents

must provide us with an IRS Form W-8BEN or W-8BEN-E (or other applicable form) certifying qualification for the reduced rate. A non-U.S. holder eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Notwithstanding the foregoing, dividends received by a non-U.S. holder that are effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder will be exempt from such withholding tax. To obtain this exemption, the non-U.S. holder must provide us with an IRS Form W-8ECI properly certifying such exemption. Such effectively connected dividends, although not subject to withholding tax, generally will be subject to U.S. federal income tax on a net income basis at the same graduated tax rates generally applicable to U.S. persons, subject to any applicable tax treaty providing otherwise. In addition to the income tax described above, dividends received by corporate non-U.S. holders that are effectively connected with the conduct of a trade or business in the United States by the corporate non-U.S. holder may be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable tax treaty.

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder and, if required by an applicable tax treaty, is attributable to a U.S. permanent establishment maintained by such non-U.S. holder;

the non-U.S. holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met; or

we become a U.S. real property holding corporation, or USRPHC, for U.S. federal income tax purposes, and the non-U.S. holder holds or has held, directly or indirectly, at any time within the shorter of (i) the five-year period preceding the disposition and (ii) the non-U.S. holder's holding period, more than 5% of our common stock. Generally, a corporation is a U.S. real property holding corporation if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business.

In the case of a non-U.S. holder described in the first bullet point immediately above, the gain will be subject to U.S. federal income tax on a net income basis generally in the same manner as if the non-U.S. holder were a U.S. person as defined under the Code (unless an applicable income tax treaty provides otherwise), and a non-U.S. holder that is a foreign corporation may be subject to an additional branch profits tax equal to 30% of its effectively connected earnings and profits attributable to such gain (or at such lower rate as may be specified by an applicable income tax treaty). In the case of an individual non-U.S. holder described in the second bullet point immediately above, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by certain U.S.-source capital losses, will be subject to a flat 30% tax.

We believe we are not and do not anticipate becoming a USRPHC for U.S. federal income tax purposes. If, however, we are or become a USRPHC, so long as our common stock is considered to be regularly traded on an established securities market, only a non-U.S. holder who actually or constructively holds or held (at any time during the shorter of the five year period ending on the date of disposition or the non-U.S. holder's holding period) more than 5% of our common stock will be subject to U.S. federal income tax, under the third bullet point immediately above, on the disposition of our common stock. Each non-U.S. holder should consult with its tax advisor about the consequences that could result if we are, or become, a USRPHC.

Backup Withholding and Information Reporting

Generally, we must report annually to the IRS the amount of dividends paid to each non-U.S. holder, and the amount, if any, of tax withheld with respect to those dividends. A similar report is sent to each non-U.S. holder. These information reporting requirements apply even if withholding was not required. Pursuant to tax treaties or other agreements, the IRS may make its reports available to tax authorities in the recipient's country of residence.

Payments of dividends to a non-U.S. holder may be subject to backup withholding (at a rate of 28%) unless the non-U.S. holder establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E or another appropriate version of IRS Form W-8.

Notwithstanding the foregoing, backup withholding also may apply if we have actual knowledge, or reason to know, that the beneficial owner is a U.S. person that is not an exempt recipient.

Payments of proceeds from the sale or other disposition by a non-U.S. holder of our common stock effected outside the United States by or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, information reporting will apply to those payments if the broker does not have documentary evidence that the holder is a non-U.S. holder, an exemption is not otherwise established, and the broker has certain relationships with the United States.

Payments of proceeds from the sale or other disposition by a non-U.S. holder of our common stock effected by or through a U.S. office of a broker generally will be subject to information reporting and backup withholding (at a rate of 28%) unless the non-U.S. holder establishes an exemption, for example, by properly certifying its non-U.S. status on an IRS Form W-8BEN or W-8BEN-E or another appropriate version of IRS Form W-8.

Notwithstanding the foregoing, information reporting and backup withholding also may apply if the broker has actual knowledge, or reason to know, that the holder is a U.S. person that is not an exempt recipient.

Backup withholding is not an additional tax. Rather, the U.S. income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund may be obtained, provided that the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act (FATCA), imposes a 30% withholding tax on any withholdable payment to (i) a foreign financial institution (as specifically defined for this purpose), unless such institution enters into an agreement with the U.S. government to collect certain amounts and provide to the U.S. tax authorities substantial information regarding account holders or (ii) a foreign entity that is not a financial institution, unless such entity provides the withholding agent with a certification that the foreign entity does not have any substantial U.S. owners or provides the withholding agent with certain information relating to each of its substantial U.S. owners, unless, in each case, such entity otherwise qualifies for an exemption. Non-U.S. governments have entered into agreements with the United States (and additional U.S. governments are expected to enter into such agreements) to implement FATCA in a manner that alters the rules described herein. Under certain limited circumstances, a non-U.S. holder might be eligible for refunds or credits of such taxes.

Withholdable payments include U.S. source payments otherwise subject to nonresident withholding tax and the gross proceeds from the sale of any equity of U.S. issuers. The withholding tax may apply regardless of whether the payment would otherwise be exempt from U.S. nonresident withholding tax (e.g., as capital gain).

The withholding rules described above will apply to dividends on our common stock regardless of when they are made and to the payment of gross proceeds from the sale of our common stock made on or after January 1, 2017.

Estate Tax

Our common stock owned or treated as owned by an individual who is not a citizen or resident of the United States (as specifically defined for U.S. federal estate tax purposes) at the time of death will be includible in the individual's gross estate for U.S. federal estate tax purposes and may be subject to U.S. federal estate tax unless an applicable estate tax treaty provides otherwise.

THE SUMMARY OF MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS ABOVE IS INCLUDED FOR GENERAL INFORMATION PURPOSES ONLY. POTENTIAL PURCHASERS OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR TAX ADVISORS TO DETERMINE THE UNITED STATES FEDERAL, STATE, LOCAL AND NON-UNITED STATES TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK.

Lock-Up Agreements

We and all of our directors and executive officers have agreed that, for a period of 60 days after the date of this prospectus subject to certain limited exceptions, and we and they will not directly or indirectly, without the prior written consent of each of Credit Suisse Securities (USA) LLC and Barclays Capital Inc. (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of common stock (including, without limitation, shares of common stock that may be deemed to be beneficially owned by us or them in accordance with the rules and regulations of the SEC and shares of common stock that may be issued upon exercise of any options or warrants) or securities convertible into or exercisable or exchangeable for common stock (other than the stock and shares issued pursuant to employee benefit plans, qualified stock option plans, or other employee compensation plans existing on the date of this prospectus or pursuant to currently outstanding options, warrants or rights not issued under one of those plans), or sell or grant options, rights or warrants with respect to any shares of common stock or securities convertible into or exchangeable for common stock (other than the grant of options pursuant to option plans existing on the date of this prospectus), (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of common stock, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or other securities, in cash or otherwise, (3) make any demand for or exercise any right or file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of common stock or securities convertible, exercisable or exchangeable into common stock or any of our other securities, or (4) publicly disclose the intention to do any of the foregoing.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The representatives may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Exchange Act:

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

A short position involves a sale by the underwriters of shares in excess of the number of Shares the underwriters are obligated to purchase in the offering, which creates the syndicate short position.

This short position may be either a covered short position or a naked short position. In a covered short position, the number of shares involved in the sales made by the underwriters in excess of the number of shares they are obligated to purchase is not greater than the number of shares that they may purchase by exercising their option to purchase additional shares. In a naked short position, the number of Shares involved is greater than the number of shares in their option to purchase additional shares. The underwriters may close out any short position by either exercising their option to purchase additional shares and/or purchasing shares in the open market. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for

Table of Contents

purchase in the open market as compared to the price at which they may purchase shares through their option to purchase additional shares. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Listing on the NYSE

Our common stock is listed on the NYSE under the ticker symbol PAH.

Typically, the underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in

our securities or the securities of our affiliates, including potentially the shares of common stock offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the shares of common stock offered hereby. Item 15. Indemnification of Directors and Officers.

Section 102(b)(7) of the Delaware General Corporation Law (DGCL) permits a corporation, in its certificate of incorporation, to limit or eliminate the personal liability of a director to the corporation or its stockholders for monetary damages for breaches of fiduciary duty as a director, except for liability (a) for any breach of the director's duty of loyalty to the corporation or its stockholders, (b) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) under Section 174 of the DGCL (regarding, among other things, the payment of unlawful dividends) or (d) for any transaction from which the director derived an improper personal benefit.

Under Section 145(a) of the DGCL, a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation (or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise) against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided that such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

Under Section 145(b) of the DGCL, a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was a director, officer, employee, or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee, or agent of another enterprise, against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit, provided that such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in

respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the court shall deem proper. Notwithstanding the preceding sentence, except as otherwise provided in our amended and restated bylaws, we shall be required to indemnify any such person in connection with a proceeding (or part thereof) commenced by such person only if the commencement of such proceeding (or part thereof) by any such person was authorized by our Board.

II-1

Table of Contents

As permitted by Section 102(b)(7) of the DGCL, our certificate of incorporation, as amended, provides that no director shall be liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director except to the extent that such exemption from liability or limitation thereof is not permitted under the DGCL as currently in effect or as the same may be amended. This provision of our certificate of incorporation, as amended, does not eliminate the directors' fiduciary duties, and in appropriate circumstances, equitable remedies such as injunctive or other forms of nonmonetary relief, which will remain available under Delaware law. In addition, each director will be subject to liability for breach of the director's duty of loyalty to us, including for actions leading to improper personal benefit to the director, for acts or omissions not in good faith or involving intentional misconduct, for knowing violations of law and for payment of dividends or approval of stock repurchases or redemptions that are unlawful under Delaware law. This provision also does not affect a director's responsibilities under any other law, such as the federal securities laws or state or federal environmental laws.

Our amended and restated by-laws also provide that we shall indemnify and advance expenses to our officers and directors to the fullest extent permitted by applicable law as currently in effect or as the same may be amended.

We have entered into director and officer indemnification agreements with each of our current directors and officers which, in certain respects, are broader than the specific indemnification and advancement provisions contained in our amended and restated by-laws. Specifically, such indemnification agreements provide our directors and officers with specific contractual assurances of such persons' rights to indemnification and advancement of expenses to protect against litigation risks and expenses (regardless, among other things, of any change in our ownership or the composition of our Board).

Additionally, we maintain directors' and officers' liability insurance for each of our directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
