Exhibit

1. Press Release dated August 4, 2015

Textainer Group Holdings Limited

Reports Second-Quarter Results and Declares

Quarterly Dividend

HAMILTON, Bermuda (BUSINESS WIRE) August 4, 2015 Textainer Group Holdings Limited (NYSE: TGH) (Textainer, the Company, we and our), the world's largest lessor of intermodal containers based on fleet size, reports second-quarter 2015 results.

Financial and Business Highlights

Lease rental income of \$128.3 million for the quarter, an increase of 3.8 percent from the prior year quarter;

Net income attributable to Textainer Group Holdings Limited common shareholders of \$40.3 million for the quarter, or \$0.70 per diluted common share;

Adjusted net income⁽¹⁾ of \$37.7 million for the quarter, or \$0.66 per diluted common share;

Adjusted EBITDA⁽¹⁾ of \$111.0 million for the quarter, an increase of 5.0 percent from the prior year quarter;

Utilization remained at very high levels, averaging 97.3 percent for the quarter and is currently at 96.6 percent;

Continued strong pace of expansion with more than \$570 million of capex for lease-out in 2015;

Total fleet size of 3.3 million Twenty-Foot Equivalent Units (TEU), the largest in the industry, a year-over-year increase of 7.1 percent; and

A quarterly dividend of \$0.47 per share was declared.

Lease rental income grew 3.8 percent to \$128 million from the prior year quarter due primarily to the increase in our fleet size and higher year-over-year utilization, commented Philip K. Brewer, President and Chief Executive Officer of Textainer. Adjusted EBITDA also grew, increasing 5.0 percent to \$111 million. These solid results provided an annualized adjusted return on equity of 12.6 percent, even more impressive when considering we have relatively low leverage of 2.4x.

The demand for containers this year has been below our expectations. Additionally, new and used container prices have continued to decline resulting in lower rental rates and gains on container sales. On the other hand, our average interest rate for the quarter declined by 50 basis points from the prior year quarter as a result of recent refinancings. Our utilization has remained high and we have minimized storage expenses in part due to record sales of older

containers, having sold more than 95,000 TEU through the end of the second quarter. We have invested more than \$570 million for lease-out in 2015, purchasing more than 225,000 TEU of new and used containers, and maintained our position as the world's largest container leasing company, concluded Mr. Brewer.

Adjusted net income and adjusted EBITDA are Non-GAAP Measures that are reconciled to GAAP measures in footnote 1. Adjusted net income is defined as net income attributable to Textainer Group Holdings Limited common shareholders before charges to interest expense for the write-off of unamortized debt issuance costs related to refinancing of debt, unrealized (gains) losses on interest rate swaps, collars and caps, net and the related impact of reconciling items on income tax expense and net income attributable to the non-controlling interests (NCI). Adjusted EBITDA is defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and expense, realized and unrealized (gains) losses on interest rate swaps, collars and caps, net, income tax expense (benefit), net income attributable to the NCI, depreciation expense and container impairment, amortization expense and the related impact of reconciling items on net income attributable to the NCI. Footnote 1 provides certain qualifications and limitations on the use of Non-GAAP Measures.

Second-Quarter Results

Textainer's second-quarter results benefited from higher lease rental income due to an increase in our owned container fleet size and an increase in utilization, which also resulted in lower direct container expense. Textainer benefited from lower interest expense primarily due to interest savings from debt refinancings. These factors were offset by an increase in depreciation expense due to the larger owned fleet, lower per diem rental rates and lower gains on sale of containers, net. The Company's prior year six month results also included a one-time \$22.7 million discrete income tax benefit following the completion of an IRS examination.

Dividend

On July 28, 2015, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.47 per share on Textainer's issued and outstanding common shares, payable on August 25, 2015 to shareholders of record as of August 14, 2015.

Outlook

We have not seen a traditional peak season and remain cautious about container demand during the second half of the year. We expect a further slight decline in utilization during the second half of the year and we do not expect the competitive environment to wane. Given the outlook for steel prices, ample manufacturing capacity and muted demand, new container prices are not expected to increase in the near term and are likely to fall further. With low new prices and increasing quantities of containers being put to disposal, used container prices will also remain under pressure, continued Mr. Brewer.

We are well positioned with the largest fleet and lowest operating costs in the industry. We continue to grow our fleet, 84% of which is subject to finance leases or long-term leases with an average remaining term of 39 months. As we have been a consistent buyer of containers over the years, only 6% of our term lease fleet will mature this year.

We continue to reduce our interest expense even though the absolute level of our outstanding debt increases. Our growing fleet, declining cost of funds and high utilization have offset some of the decline in rental rates and sales prices and enabled us to continue to deliver solid results. While we do not expect an improvement in market conditions during the second half of 2015, we are well positioned to deliver above average returns and solid financial results in this environment, concluded Mr. Brewer.

About Textainer Group Holdings Limited

Textainer has operated since 1979 and is the world's largest lessor of intermodal containers based on fleet size with a total of 2.2 million containers representing more than 3.2 million TEU in our owned and managed fleet. We lease containers to over 400 customers, including all of the world's leading international shipping lines, and other lessees. Our fleet consists of standard dry freight, dry freight specials, and refrigerated intermodal containers. We also lease tank containers through our relationship with Trifleet Leasing and are the primary supplier of containers to the U.S. Military. Textainer is one of the largest purchasers of new and used containers with annual capital expenditures of \$800 million to \$1 billion or more. In addition to selling older containers from our lease fleet, we buy older containers from our shipping line customers for trading and resale. We sell 100,000 or more containers per year to more than 1,100 customers making us one of the largest sellers of used containers. Textainer operates via a network of 14 offices and 400 depots worldwide.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding: (i) Textainer's expectation that there will be a further slight decline in utilization during the second half of the year and that the competitive environment will not wane; (ii) Textainer's expectation that, given the outlook for steel prices, ample manufacturing capacity and muted demand, new container prices will not increase in the near term and are likely to fall further; (iii) Textainer's belief that, with low new prices and increasing quantities of containers being put to disposal, used container prices will also remain under pressure; and (iv) Textainer's belief that there will not be an improvement in market conditions during the second half of 2015 and that it is well positioned to deliver above average returns and solid financial results in this environment. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, the following items that could materially and negatively impact our business, results of operations, cash flows, financial condition and future prospects: any deceleration or reversal of the current domestic and global economic recoveries; lease rates may decrease and lessees may default, which could decrease revenue and increase storage, repositioning, collection and recovery expenses; the demand for leased containers depends on many political and economic factors and is tied to international trade and if demand were to decrease due to increased barriers to trade or political or economic factors, or for any other reason, it could reduce demand for intermodal container leasing; as we increase the number of containers in our owned fleet, we will have significant capital at risk and may need to incur more debt, which could result in financial instability; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry

exposes Textainer to numerous risks; gains and losses associated with the disposition of used equipment may fluctuate; our indebtedness reduces our financial flexibility and could impede our ability to operate; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of some of these risks and uncertainties, see Item 3 Key Information Risk Factors in Textainer's Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 13, 2015.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this press release. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

Reconciliation of GAAP financial measures to non-GAAP financial measures

Three and six months ended June 30, 2015 and 2014

(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

- (1) The following is a reconciliation of certain GAAP measures to non-GAAP financial measures (such items listed in (a) to (d) below and defined as Non-GAAP Measures) for the three and six months ended June 30, 2015 and 2014, including:
- (a) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted EBITDA (Adjusted EBITDA defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and expense, realized and unrealized (gains) losses on interest rate swaps, collars and caps, net, income tax expense (benefit), net income attributable to the noncontrolling interests (NCI), depreciation expense and container impairment, amortization expense and the related impact of reconciling items on net income attributable to the NCI);
 - (b) net cash provided by operating activities to Adjusted EBITDA;
 - (c) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted net income (defined as net income attributable to Textainer Group Holdings Limited common shareholders before the write-off of unamortized debt issuance costs, unrealized (gains) losses on interest rate swaps, collars and caps, net, the related impact of reconciling items on income tax expense and net income attributable to the NCI); and
 - (d) net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share to adjusted net income per diluted common share (defined as net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share before the write-off of unamortized debt issuance costs, unrealized (gains) losses on interest rate swaps, collars and caps, net, the related impact of reconciling items on income tax expense and net income attributable to the NCI).

Non-GAAP Measures are not financial measures calculated in accordance with U.S. generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. Non-GAAP Measures are presented solely as supplemental disclosures. Management believes that adjusted EBITDA may be a useful performance measure that is widely used within our industry and adjusted net income may be a useful performance measure because Textainer intends to hold its interest rate swaps, collars and caps until maturity and over the life of an interest rate swap, collar or cap the unrealized (gains) losses will net to zero. Adjusted EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison.

Management also believes that adjusted net income and adjusted net income per diluted common share are useful in evaluating our operating performance because unrealized (gains) losses on interest rate swaps, collars and caps, net is a noncash, non-operating item. We believe Non-GAAP Measures provide useful information on our earnings from ongoing operations. We believe that adjusted EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. Non-GAAP Measures have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

They do not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;

Although depreciation expense and container impairment is a noncash charge, the assets being depreciated may be replaced in the future, and neither adjusted EBITDA, adjusted net income or adjusted net income per diluted common share reflects any cash requirements for such replacements;

They are not adjusted for all noncash income or expense items that are reflected in our statements of cash flows; and

Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
