Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This Form 10-Q includes forward-looking statements. Forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenues or performance, projected cost savings, capital expenditures, financing needs, plans or intentions relating to acquisitions, our competitive strengths and weaknesses, our business strategy and the trends we anticipate in the industries in which we operate and other information that is not historical information. When used in this Form 10-Q, the words estimates, expects, anticipates, projects, intends, believes and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, our examination of historical operating trends, are based upon our current expectations and various assumptions. Our expectations, beliefs and projections are expressed in good faith, and we believe there is a reasonable basis for them, but we cannot assure you that our expectations, beliefs and projections will be realized.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this Form 10-Q. Important factors that could cause our actual results to differ

materially from the forward-looking statements we make in this Form 10-Q are set forth in the Form 10-K for the fiscal year ended September 27, 2014, including the factors described in the section entitled Item 1A Risk Factors. If any of these risks or uncertainties materializes, or if any of our underlying assumptions are incorrect, our actual results may differ significantly from the results that we express in, or imply by, any of our forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect future events or circumstances, except as required by law. Presently known risk factors include, but are not limited to, the following factors:

seasonality and fluctuations in our operating results and cash flow;

fluctuations in market prices for seeds and grains and other raw materials;

our inability to pass through cost increases in a timely manner;

risks associated with new product introductions, including the risk that our new products will not produce sufficient sales to recoup our investment;

declines in consumer spending during economic downturns;

Table of Contents

inflation, deflation and other adverse macro-economic conditions;

supply shortages in small animals and pet birds;

adverse weather conditions;

fluctuations in energy prices, fuel and related petrochemical costs;

access to and cost of additional capital;

dependence on a small number of customers for a significant portion of our business;

consolidation trends in the retail industry;

competition in our industries;

risks associated with our acquisition strategy, including integration of acquired businesses;

potential goodwill or intangible asset impairment;

dependence upon our key executives and the ability to execute on our succession plan;

continuing implementation of a new enterprise resource planning information technology system;

CENTRAL GARDEN & PET COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and Nine Months Ended June 27, 2015

(Unaudited)

1. Basis of Presentation

The condensed consolidated balance sheets of Central Garden & Pet Company and subsidiaries (the Company or Central) as of June 27, 2015 and June 28, 2014, the condensed consolidated statements of operations for the three months and nine months ended June 27, 2015 and June 28, 2014, the condensed consolidated statements of comprehensive income for the three months and nine months ended June 27, 2015 and June 28, 2014 and the condensed consolidated statements of cash flows for the nine months ended June 27, 2015 and June 28, 2014 have been prepared by the Company, without audit. In the opinion of management, the interim financial statements include all normal recurring adjustments necessary for a fair statement of the results for the interim periods presented.

For the Company's foreign business in the UK, the local currency is the functional currency. Assets and liabilities are translated using the exchange rate in effect at the balance sheet date. Income and expenses are translated at the average exchange rate for the period. Deferred taxes are not provided on translation gains and losses because the Company expects earnings of its foreign subsidiary to be permanently reinvested. Transaction gains and losses are included in results of operations. See Note 8, Supplemental Equity Information, for further detail.

Due to the seasonal nature of the Company's garden business, the results of operations for the three and nine month periods ended June 27, 2015 are not indicative of the operating results that may be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the annual audited financial statements, accounting policies and financial notes thereto, included in the Company's 2014 Annual Report on Form 10-K, which has previously been filed with the Securities and Exchange Commission. The September 27, 2014 balance sheet presented herein was derived from the audited financial statements.

Noncontrolling Interest

Noncontrolling interest in the Company's condensed consolidated financial statements represents the 20% interest not owned by Central in a consolidated subsidiary. Since the Company controls this subsidiary, its financial statements are consolidated with those of the Company, and the noncontrolling owner's 20% share of the subsidiary's net assets and results of operations is deducted and reported as noncontrolling interest on the consolidated balance sheets and as net income (loss) attributable to noncontrolling interest in the consolidated statements of operations. See Note 8, Supplemental Equity Information, for additional information.

Derivative Instruments

The Company principally uses a combination of purchase orders and various short and long-term supply arrangements in connection with the purchase of raw materials, including certain commodities. The Company also enters into commodity futures, options and swap contracts to reduce the volatility of price fluctuations of corn, which impacts the cost of raw materials. The Company's primary objective when entering into these derivative contracts is to achieve greater certainty with regard to the future price of commodities purchased for use in its supply chain. These derivative

contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

The Company does not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in other income (expense) in its condensed consolidated statements of operations. As of June 27, 2015 and June 28, 2014, the Company had no outstanding derivative instruments.

Recent Accounting Pronouncements

Discontinued Operations

In April 2014, the FASB issued Accounting Standards Update No. 2014-08 (ASU 2014-08), *Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. ASU 2014-08 provides amended guidance for reporting discontinued operations and disclosures of disposals of components. The amended guidance raises the threshold for disposals to qualify as discontinued operations and permits significant continuing involvement and continuing cash flows with the discontinued operation. In addition, the amended guidance requires additional disclosures for discontinued operations and new disclosures for individually material disposal transactions that do not meet the definition of a discontinued operation. The amended guidance is effective for annual periods and interim periods within those annual periods beginning after December 15, 2014. Earlier adoption is permitted. The adoption of the applicable sections of this ASC may have an impact on the accounting for any future discontinued operations the Company may have.

Table of Contents*Revenue Recognition*

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 (ASU 2014-09), Revenue from Contracts with Customers. This update was issued as Accounting Standards Codification Topic 606. The core principle of this amendment is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On July 9, 2015 the FASB deferred the effective date of ASU 2014-09 for one year. ASU 2014-09 is now effective for the Company in the first quarter of its fiscal year ending September 28, 2019. Early adoption is not permitted. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

Stock Based Compensation

In June 2014, the FASB issued ASU No. 2014-12 (ASU 2014-12), *Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period*. ASU 2014-12 requires that a performance target that affects vesting and that could be achieved after the requisite service period should be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. ASU 2014-12 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

Consolidation

In February 2015, the FASB issued ASU 2015-02 (ASU 2015-02), *Amendments to the Consolidation Analysis to ASC Topic 810, Consolidation*. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years that begin after December 15, 2015. The Company is currently evaluating the impact the adoption of ASU 2015-02 will have on its consolidated financial statements.

Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03 (ASU 2015-03), *Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. This standard amends the existing guidance to require that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred charge. ASU 2015-03 is effective on a retrospective basis for annual and interim reporting periods beginning after December 15, 2015, but early adoption is permitted. As of June 27, 2015, the Company had approximately \$5.6 million of net deferred financing costs that would be reclassified from a long-term asset to a reduction in the carrying amount of its debt upon adoption of the standard.

Cloud Computing Costs

In April 2015, the FASB issued ASU No. 2015-05(ASU 2015-05), *Intangibles Goodwill and Other Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement*. This standard clarifies the circumstances under which a cloud computing customer would account for the arrangement as a license of internal-use software under ASC 350-40. ASU 2015-05 is effective for public entities for annual and interim periods therein beginning after December 15, 2015. Early adoption is permitted. Entities may adopt the guidance either retrospectively or prospectively to arrangements entered into, or materially modified after the effective date. The Company is currently evaluating the impact the adoption of ASU 2015-05 will have on its consolidated financial statements.

Inventory Measurement

In July 2015, the FASB issued ASU 2015-11 (ASU 2015-11), *Simplifying the Measurement of Inventory*. Under this ASU, inventory will be measured at the lower of cost and net realizable value and options that currently exist for market value will be eliminated. The ASU defines net realizable value as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. No other changes were made to the current guidance on inventory measurement. ASU 2015-11 is effective for interim and annual periods beginning after December 15, 2016. Early application is permitted and should be applied prospectively. The Company is currently evaluating the impact the adoption of ASU 2015-11 will have on its consolidated financial statements.

Table of Contents**2. Fair Value Measurements**

ASC 820 establishes a single authoritative definition of fair value, a framework for measuring fair value and expands disclosure of fair value measurements. ASC 820 requires financial assets and liabilities to be categorized based on the inputs used to calculate their fair values as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability, which reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company's financial instruments include cash and equivalents, short term investments consisting of bank certificates of deposit, accounts receivable and payable, derivative instruments, short-term borrowings, and accrued liabilities. The carrying amount of these instruments approximates fair value because of their short-term nature.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring basis based upon the level within the fair value hierarchy in which the fair value measurements fall, as of June 27, 2015 (in thousands):

- (a) The fair value of short-term investments is based on quoted prices in active markets for identical assets.
- (b) The liability for contingent consideration relates to an earn-out for B2E, acquired in December 2012. The fair value of the contingent consideration arrangement is determined based on the Company's evaluation as to the probability and amount of any earn-out that will be achieved based on expected future performance by the acquired entity. This is presented as part of long-term liabilities in our consolidated balance sheets.
- (c) The fair value of the Company's time deposits is based on the most recent observable inputs for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active or are directly or indirectly observable. These are presented as short term investments in the Company's consolidated balance sheets.

The following table provides a summary of changes in fair value of our Level 3 financial instruments for the periods ended June 27, 2015 and June 28, 2014 (in thousands):

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

The Company measures certain non-financial assets and liabilities, including long-lived assets, goodwill and intangible assets, at fair value on a non-recurring basis. Fair value measurements of non-financial assets and non-financial liabilities are used primarily in the impairment analyses of long-lived assets, goodwill and other

intangible assets. During the periods ended June 27, 2015 and June 28, 2014, the Company was not required to measure any significant non-financial assets and liabilities at fair value.

Fair Value of Other Financial Instruments

In January 2015, the Company called \$50 million aggregate principal amount of the 2018 Notes for redemption on March 1, 2015 at a price of 102.063%. The estimated fair value of the Company's remaining \$400.0 million aggregate principal amount of the 2018 Notes as of June 27, 2015 was \$406.0 million, compared to a carrying value of \$399.7 million. The estimated fair value of the Company's \$450 million principal amount of 2018 Notes as of June 28, 2014 and September 27, 2014, was \$469.1 million and \$459.5 million, respectively, compared to a carrying value of \$449.5 million and \$449.5 million, respectively. The estimated fair value is based on quoted market prices for these notes, which are Level 1 inputs within the fair value hierarchy.

Table of Contents**3. Acquisitions and Investments in Joint Ventures*****Envincio LLC***

On April 1, 2014, the Company purchased certain assets of Envincio LLC, including brands, EPA registrations, inventory and trade receivables, for approximately \$20.3 million. The purchase price exceeded the fair value of the net tangible and intangible assets acquired by approximately \$3.3 million, which is recorded in goodwill. Financial results for Envincio have been included in the results of operations within the Pet segment since the date of acquisition. This acquisition is expected to enable the Company to be a key supplier and product innovator in the growing natural insecticides product market, often characterized as EPA-exempt products, and expand its offerings in traditional pesticides.

The following table summarizes the recording of the fair values of the assets acquired and liabilities assumed as of the acquisition date and subsequent adjustments:

<i>(In thousands)</i>	Amounts Previously Recognized as of Acquisition Date (1)	Measurement Period Adjustments	Amounts Recognized as of Acquisition Date (as Adjusted)
Current assets, net of cash and cash equivalents acquired	\$ 6,650	\$ 0	\$ 6,650

Current liabilities	(1,170)	0	(1,170)
Net assets acquired, less cash and cash equivalents	\$ 20,283	\$ 0	\$ 20,283

(1) As previously reported in our Form 10-K for the period ended September 27, 2014.

During fiscal 2015, the fair value measurements of assets acquired and liabilities assumed of Envincio LLC as of the acquisition date were finalized. This refinement did not have a significant impact on the Company's condensed consolidated statements of operations, balance sheets or cash flows in any period and, therefore, the Company has not retrospectively adjusted its financial statements.

Investment in Joint Ventures

On December 30, 2014, the Company invested \$16.0 million in cash for a 50% interest in two newly formed entities. The two entities own rights to commercialize products which incorporate features covered by certain patents, technology and associated intellectual property rights in the fields of animal health and pesticide applications. The investment is being accounted for under the equity method of accounting and is not expected to contribute to earnings in the near future.

Total inventories, net	\$ 340,233	\$ 365,035	\$ 326,386

Table of Contents**5. Goodwill**

The Company accounts for goodwill in accordance with ASC 350, Intangibles—Goodwill and Other, and tests goodwill for impairment annually, or whenever events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. This assessment involves the use of significant accounting judgments and estimates as to future operating results and discount rates. Changes in estimates or use of different assumptions could produce significantly different results. An impairment loss is generally recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit. The Company uses discounted cash flow analysis to estimate the fair value of our reporting units. The Company's goodwill impairment analysis also includes a comparison of the aggregate estimated fair value of its reporting units to the Company's total market capitalization.

Table of Contents

Other acquired intangible assets include contract-based and technology-based intangible assets.

The Company evaluates long-lived assets, including amortizable and indefinite-lived intangible assets, for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. The Company evaluates indefinite-lived intangible assets on an annual basis. In fiscal 2014, the Company tested its indefinite-lived intangible assets and no impairment was indicated. Other factors indicating the carrying value of the Company's amortizable intangible assets may not be recoverable were not present in fiscal 2014 or during the nine months ended June 27, 2015, and accordingly, no impairment testing was performed on these assets.

The Company amortizes its acquired intangible assets with definite lives over periods ranging from 1 to 25 years; over weighted average remaining lives of eight years for marketing-related intangibles, 15 years for customer-related intangibles and 14 years for other acquired intangibles. Amortization expense for intangibles subject to amortization was approximately \$1.4 million and \$1.0 million for the three month periods ended June 27, 2015 and June 28, 2014, respectively and \$3.3 million and \$3.0 million for the nine months ended June 27, 2015 and June 28, 2014, respectively, and is classified within operating expenses in the condensed consolidated statements of operations. Estimated annual amortization expense related to acquired intangible assets in each of the succeeding five years is estimated to be approximately \$4 million to \$5 million per year from fiscal 2015 through fiscal 2019.

Senior Subordinated Notes

On March 8, 2010, the Company issued \$400 million aggregate principal amount of 8.25% senior subordinated notes due March 1, 2018 (the 2018 Notes). On February 13, 2012, the Company issued an additional \$50 million aggregate

principal amount of its 2018 Notes at a price of 98.501%, plus accrued interest from September 1, 2011, in a private placement. The Company used the net proceeds from the offering to pay a portion of the outstanding balance under its prior revolving credit facility.

The 2018 Notes require semiannual interest payments, which commenced on September 1, 2010. The 2018 Notes are unsecured senior subordinated obligations and are subordinated to all of the Company's existing and future senior debt, including the Company's Credit Facility. The obligations under the 2018 Notes are fully and unconditionally guaranteed on a senior subordinated basis by each of the Company's existing and future domestic restricted subsidiaries with certain exceptions. The guarantees are general unsecured senior subordinated obligations of the guarantors and are subordinated to all existing and future senior debt of the guarantors.

In March 2015, the Company redeemed \$50.0 million of its 2018 Notes at a price of 102.063% of the principal amount of the notes redeemed. In conjunction with this transaction, the Company recognized a charge in interest expense of approximately \$1.6 million in its second quarter of fiscal 2015 related to the payment of the call premium and the non-cash write-off of unamortized financing costs.

The Company may redeem some or all of the remaining 2018 Notes at any time after March 1, 2015 for 102.063% and on or after March 1, 2016 for 100%, plus accrued and unpaid interest. The holders of the 2018 Notes have the right to require the Company to repurchase all or a portion of the 2018 Notes at a purchase price equal to 101% of the principal amount of the notes repurchased, plus accrued and unpaid interest upon the occurrence of a change of control.

Table of Contents

The 2018 Notes contain customary high yield covenants, including covenants limiting debt incurrence and restricted payments, subject to certain baskets and exceptions. The Company was in compliance with all financial covenants in the 2018 Notes indenture as of June 27, 2015.

Asset Backed Loan Facility

On December 5, 2013, the Company entered into a credit agreement which provides up to a \$390 million principal amount senior secured asset-based revolving credit facility, with up to an additional \$200 million principal amount available with the consent of the Lenders if the Company exercises the accordion feature set forth therein (collectively, the Credit Facility). The Credit Facility matures on December 5, 2018 and replaced the Company's prior revolving credit facility. The Company may borrow, repay and reborrow amounts under the Credit Facility until its maturity date, at which time all amounts outstanding under the Credit Facility must be repaid in full. As of June 27, 2015, there were no borrowings and no letters of credit outstanding under the Credit Facility. There were other letters of credit of \$7.2 million outstanding as of June 27, 2015.

The Credit Facility is subject to a borrowing base, calculated using a formula based upon eligible receivables and inventory, minus certain reserves and subject to restrictions. The borrowing availability as of June 27, 2015 was \$384 million. Borrowings under the Credit Facility bear interest at an index based on LIBOR or, at the option of the Company, the Base Rate (defined as the highest of (a) the SunTrust prime rate, (b) the Federal Funds Rate plus 0.5% and (c) one-month LIBOR plus 1.00%), plus, in either case, an applicable margin based on the Company's total outstanding borrowings. Such applicable margin for LIBOR-based borrowings fluctuates between 1.25%-1.75% (and was 1.25% at June 27, 2015) and such applicable margin for Base Rate borrowings fluctuates between 0.25%-0.75% (and was 0.25% at June 27, 2015). As of June 27, 2015, the applicable interest rate related to Base Rate borrowings was 3.5%, and the applicable interest rate related to LIBOR-based borrowings was 1.4%.

The Credit Facility contains customary covenants, including financial covenants which require the Company to maintain a minimum fixed charge coverage ratio of 1.00:1.00 upon reaching certain borrowing levels. The Credit Facility is secured by substantially all assets of the Company. The Company was in compliance with all financial covenants under the Credit Facility during the period ended June 27, 2015.

The Company incurred approximately \$3.1 million of costs in conjunction with this transaction, which included banking fees and legal expenses. These costs are being amortized over the term of the Credit Facility.

The Company recorded a non-cash charge of \$1.7 million for the three month period ended December 28, 2013 as part of interest expense, related to the write-off of unamortized deferred financing costs under the prior revolving credit facility.
