Manager Commentary

June 30, 2015 (Unaudited)

To Our Shareholders:

The first half of 2015 has been a transition period for the leveraged finance market. Loans and bonds have both outperformed their rather unimpressive results of 2014, when loans (1.60%) and high yield bonds (2.45%) significantly underperformed 10-year U.S. Treasuries (10.72%). During the period, global energy prices continued to weigh on the market, particularly on high yield bonds. Cold and snowy winter weather plagued the eastern half of the U.S., and a strike slowed the flow of goods in and out of Long Beach California's gateway port. Doubts about a Fed lift-off in interest rates, or if one would ever come, spurred individual investors to continue to sell bank loan funds as such funds experienced outflows of \$6.4 billion during the first half of the year.¹ Turmoil in the Euro-zone over Greece (the Grexit), the possibility of a Puerto Rican default, and questions over the direction of the China equity market all conspired to add volatility to the markets. June was particularly volatile as the VIX, a popular proxy for market volatility, spiked over 34% and rose from 14.0 to 18.9 in just one particular day. Bank loans proved relatively sheltered from the volatility as they were the top performer (2.83%) compared to other asset classes, as detailed below. Within the bank loan market, higher quality assets outperformed their riskier counterparts as loans rated BB returned 3.29% year to date while CCC-rated loans returned 2.69%. With the average dollar price for U.S. loans falling over the last two months, the percentage of U.S. loans trading at or above par was at 27% by the end of June.

As we approach a Fed lift-off, we expect the loan asset class may garner significant attention from investors looking to hedge their fixed-income portfolios from duration risk. The U.S. market has already seen signs of this as mutual fund flows stabilized in 2015 after outflows totaled \$24 billion in 2014.¹ A rate hike in the U.S. could lead to inflows in loan mutual funds. That said, institutional investors have continued to invest in CLOs and CLO creation combined with generally flat retail flows helped support the secondary market resulting in an average price increase of \$0.76, or 0.79%, since the end of 2014, according to the S&P/LSTA U.S. Performing Loans Index. U.S. CLO issuance continued at a healthy pace, bringing year-to-date volume to \$61 billion, excluding refinancing transactions. Strategists forecast CLO issuance of \$80 - \$100 billion in 2015.¹

Sources: Barclays, Bloomberg, S&P/LCD

U.S. bank loan new issuance reached \$229.0 billion by the end of the first half of 2015, down 30% relative to last year's \$327.8 billion first-half tally. Volume was heavily weighted in the second quarter

Past performance is no guarantee of future results. Index performance is shown for illustrative purposes only. You cannot invest directly in an index.

as robust demand spurred an increase in re-pricing activity. Given the decrease in net new issuance, supply has lagged demand in the loan market and we expect that trend to continue as the market adapts to new regulations governing leveraged lending guidelines. Net demand outpaced net high yield supply despite a reversal in retail fund outflows. After high yield funds' \$9.1 billion of net inflows during Q1 2015, fund flows turned negative (-\$5.0 billion) during Q2 2015 amidst broader market volatility and concerns about duration risk. We expect high yield retail funds to continue to see volatility ahead of the Fed's lift-off, which is expected by many to occur later this year. On the supply side, gross new issuance continued at a similar pace quarter-over-quarter but net new issuance decreased as call activity increased. Year to date, 51% of the new issue volume has been used for refinancing transactions, down from 60% over the same period last year, followed by 31% of new issue volume used for acquisition finance/LBO transactions.²

Default rates continue to remain below historical averages (3-4%) as the last twelve month bank loan and high yield bond default rates ended the first half of 2015 at 1.74% and 1.88%, respectively. Companies in the energy and coal sectors have continued to struggle; nine energy companies and three coal companies defaulted so far in 2015, accounting for 35% and 30% of year to date default volume, respectively. Strategists continue to be constructive on near-term credit risk and forecast loan and bond default rates of 1.5% for both 2015 and 2016, excluding energy. Including the energy sector, 2016 default rates may be closer to 2.0% for loans and 3.0% for high yield. Thirteen issuers, with aggregated loan and bond issues totaling \$8.2 billion, defaulted during the second quarter.¹

As headlines from Greece, China, and Puerto Rico recede for the medium-term, our attention turns to the Federal Reserve and monetary policy. We expect the Fed to hike rates once this year, and believe that a hike in September is more likely than in December. Economists expect growth to rebound from the first quarter's contraction and we believe the Fed is anxious to reload its policy quiver. After seven years of zero interest rate policy (ZIRP), we expect some rate-related volatility across the markets. Short-term Treasury rates indicate that the market is pricing in a dovish path for rates and that creates risk that some investors could be caught offside when rates finally rise. We believe high yield will be more susceptible to rate hikes than leveraged loans because of bonds' interest rate duration and as a result currently favor floating rate, first-lien and second-lien loans over fixed-rated bonds.

Blackstone / GSO Funds

Manager Commentary

June 30, 2015 (Unaudited)

We are also watching knock-on effects from tighter monetary policy in the U.S. For example, a stronger dollar has weighed on a number of commodities that are already struggling with oversupply. Year to date through July 22, oil and copper are down over 14% while gold has fallen 7.6%. As a result, we have generally maintained a low weighting to commodity-exposed credits. Relative to leveraged loans, high yield bonds are more vulnerable to commodities, especially oil, as energy comprises 16% of the high yield market versus 4.7% for bank loans.³

Finally, the Funds recently announced a change in portfolio managers. Effective upon the retirement of the Funds current lead portfolio manager, Lee Shaiman, on or before September 30, 2015, the Funds will be managed by Robert Zable who will serve as the lead portfolio manager of the Funds. Gordon McKemie has served as a portfolio manager of the Funds since the second quarter of 2015 and remains a portfolio manager of the Funds.

At GSO /Blackstone, we value your continued investment and confidence in us and in our family of funds. Additional information about our funds is available on our website at www.blackstone-gso.com.

Sincerely,

GSO / Blackstone Debt Funds Management LLC

Blackstone / GSO Senior Floating Rate Term Fund

Fund Summary

June 30, 2015 (Unaudited)

Fund Overview

Blackstone /GSO Senior Floating Rate Term Fund (BSL or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BSL . BSL 's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, the Fund invests at least 80% of its total assets in senior, secured floating rate loans (Senior Loans). BSL may also invest in second-lien loans and high yield bonds and employs financial leverage, which may increase risk to the Fund.

Portfolio Management Commentary*Fund Performance*

BSL outperformed its key benchmark, the S&P LLI, on a Net Asset Value (NAV) per share basis for the periods of three months, six months, one year, three years, five years, and the life of the Fund since inception. The share price of BSL outperformed its benchmark for the periods of three months, six months, and one year, though it underperformed over the three year, five year, and the life of the Fund since inception periods due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -6.5% for the last six months ending June 30, compared to its peer group average discount of -7.9% over the same time.¹

NAV Performance Factors²

The Fund 's over-allocation to diversified utilities (7.6% versus the benchmark of 5.3%), insurance (3.8% versus 1.9%), and health care providers (9.0% versus 8.8%) were the top contributors to performance throughout the first half of 2015. Conversely, the Fund 's over-allocation to commercial services & supplies (12.2% versus 8.2%) and under-allocation to specialty retail (5.5% versus the benchmark of 8.7%) and diversified financial services (1.1% versus 3.2%) weakened investment performance for the six-month period. Oil and gas, which comprised 5.7% of the portfolio versus a benchmark weighting of 4.1%, was the second best performing industry for the Fund, driven primarily by strong credit selection within the space, as well as commodity price tailwinds over the first half of the year. Notable contributors to performance, by issuer, included the Fund 's full underweight to Millennium Laboratories (term loans of which fell roughly 52% in the first half of the year) and Energy Future Holdings (TXU), as well as an overweight to Sensus and CrownRock Finance. Key detractors to investment performance, by issuer, included Smile Brands, Nine West, and Crossmark Holdings.

Portfolio Activity and Positioning

Over the past six months, BSL reduced its exposure to retail and healthcare and pharmaceuticals, and increased its exposure to energy, oil and gas and banking, finance, insurance, and real estate companies. The Fund maintained a minimal cash balance throughout the period and increased its allocation into second lien loans, selectively increasing its Caa-rated assets. BSL continued to recover some of the portfolio loan spread lost last year, increasing the average loan spread 49 basis points and its average high yield bond coupon 41 bps from the end of 2014.

Edgar Filing: Blackstone / GSO Strategic Credit Fund - Form N-CSRS

As of June 30, 2015, the Fund held over 93% of its Managed Assets in bank loans and around 5% in high yield bonds. BSL's investments represented the obligations of 175 companies diversified across 27 distinct industries, with an average position size representing 0.50% of Managed Assets and the top five industry groups representing 42% of total holdings of the Fund. High Tech Industries, Services-Business, and Healthcare and Pharmaceuticals represent the Fund's top industry weightings.

Blackstone / GSO Long-Short Credit Income Fund

Fund Summary

June 30, 2015 (Unaudited)

Fund Overview

Blackstone /GSO Long Short Credit Income Fund (BGX or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BGX . BGX 's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX will take long positions in investments which we believe offer the potential for attractive returns under various economic and interest rate environments. BGX may also take short positions in investments which we believe will under-perform due to a greater sensitivity to earnings growth of the issuer, default risk or the general level and direction of interest rates. BGX must hold no less than 70% of its Managed Assets in first-and second-lien secured floating rate loans (Secured Loans), but may also invest in unsecured loans and high yield bonds. BGX may use financial leverage and derivatives in employing its long strategy for up to a total of 150% of net assets.

Portfolio Management Commentary*Fund Performance*

BGX outperformed a composite weighting of the S&P LLI and the Barclays HYI (70% loans, 30% high yield bonds) on a NAV per share basis for the periods of three months, six months, one year, three years, and the life of the Fund since inception. The share price of BGX outperformed its benchmark for the period of six month, though it underperformed over the periods of three months, three years, and the life of the Fund since inception due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -11.9% for the last six months ending June 30, compared to its peer group average discount of -10.9% over the same time.¹

NAV Performance Factors²

The Fund 's over-allocation to hotels, restaurants & leisure (7.8% versus the benchmark of 7.0%) and diversified utilities (6.3% versus 3.7%) and an under-allocation to health care providers (6.3% versus 8.2%) were the top contributors to performance through the first half of 2015. Conversely, the Fund 's over-allocation to commercial services & supplies (7.7% versus 5.8%) and under-allocation to both diversified financial services (1.5% versus 3.7%) and wireless telecom (0.0% versus 1.6%) weakened investment performance for the first six months of this year. Oil & gas, which comprised 9.0% of the portfolio versus a benchmark weighting of 6.4%, performed well, driven primarily by strong credit selection within the space as well as commodity price tailwinds over the period. Notable contributors to performance, by issuer, included the Fund 's full underweight to TXU, an overweight to Scientific Games and Monitronics, and an underweight to PDC Energy. Key detractors to investment performance included an overweight to Alta Mesa Holdings, Smile Brands, and Comstock Resources.

Portfolio Activity and Positioning

Over the six months, BGX reduced its exposure to retail, and energy, oil and gas, and increased its exposure to business services and banking and finance companies. The Fund 's cash balance remained stable throughout the period, and the Fund allocated more of its portfolio to high yield bonds through a reduction of its holdings of Secured Loans. BGX selectively increased its exposure to lower rated assets. The portfolio average loan spread increased 75 basis

points and the average high yield bond coupon increased 37 basis points from the end of 2014.

As of June 30, 2015, 73% of BGX's assets were invested in Secured Loans and 23% were invested in high yield bonds. The Fund also held two positions totaling 2% in the Ba3 rated tranche of collateralized loan obligations. In the aggregate, BGX's positions represent the direct obligations of 185 companies diversified across 28 distinct industries, with an average position representing 0.46% of Managed Assets. The top five industry groups represented 44% of total holdings of the Fund.

Blackstone / GSO Strategic Credit Fund

Fund Summary

June 30, 2015 (Unaudited)

Fund Overview

Blackstone /GSO Strategic Credit Fund (BGB or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BGB . BGB 's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. BGB invests primarily in a diversified portfolios or loans and other fixed income instruments of predominantly US Corporate issuers, including first-and second-lien loans (Senior Secured Loans) and high yield corporate bonds of varying maturities. BGB must hold no less than 80% of its Managed Assets in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Portfolio Management Commentary*Fund Performance*

BGB outperformed a composite weighting of the S&P LLI and the Barclays HYI (75% loans, 25% high yield bonds) on a NAV per share basis for the periods of three months, six months, one year, and the life of the Fund since inception. On a share price basis, the Fund underperformed its benchmark over those periods due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -12.2% for the last six months ending June 30, compared to its peer group average discount of -10.9% over the same time.¹

NAV Performance Factors²

The Fund 's over-allocation to diversified utilities (5.2% versus the benchmark of 4.0%) and under-allocation to health care providers (6.8% versus 8.3%) were the top contributors to performance throughout the first half of 2015. Conversely, the Fund 's under-allocation to diversified financial services (0.8% versus 3.6%) and leisure equipment & products (0.7% versus 2.8%), and over-allocation to commercial services & supplies (7.8% versus 6.2%) weakened investment performance for the first half of the year. Oil & gas, which comprised 9.4% of the portfolio versus a benchmark weighting of 6.0%, was the second best performing industry for the Fund, driven primarily by strong credit selection within the space as well as commodity price tailwinds over the first half of the year. Notable contributors to performance, by issuer, included the Fund 's full underweight to Millennium Laboratories and TXU, as well as an overweight to Scientific Games and Jupiter Resources. Key detractors to investment performance included an overweight to Alta Mesa Holdings, Smile Brands, and York Risk Services.

Portfolio Activity and Positioning

Over the past six months, BGB decreased its exposure to retail, and healthcare and pharmaceuticals and increased its exposure to business services. The Fund 's cash balance remained relatively stable throughout the period. BGB allocated more of its portfolio to second-lien loans and high yield bonds by reducing its holdings of Senior Secured Loans and selectively increasing its Caa-rated assets. The portfolio average loan spread increased by 60 basis points and the average high yield bond coupon increased by 57 basis points from the end of 2014.

As of June 30, 2015, approximately 65% of BGB's assets were invested in Senior Secured Loans and 32% were invested in high yield bonds. In the aggregate, BGB's investments represent the direct obligations of 247 companies diversified across 30 distinct industries, with an average position representing 0.34% of Managed Assets. The top five industry groups represented 43% of total holdings of the Fund.

Blackstone / GSO Senior Floating Rate Term Fund

Portfolio of Investments

June 30, 2015
(Unaudited)

Total Investments - 147.44% (Cost \$417,025,231)	\$409,863,979
Assets in Excess of Other Liabilities - 2.56%	7,131,986
Leverage Facility - (50.00)%	(139,000,000)
Net Assets - 100.00%	\$277,995,965

Amounts above are shown as a percentage of net assets as of June 30, 2015.

- (a) The interest rate shown represents the rate at period end.
- (b) All or a portion of this position has not settled as of June 30, 2015. The interest rate shown represents the stated spread over the London Interbank Offered Rate (LIBOR or L) or the applicable LIBOR floor; the Fund will not accrue interest until the settlement date, at which point LIBOR will be established.
- (c) Security is currently in default and is therefore non-income producing.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. Total market value of Rule 144A securities amounts to \$14,356,562, which represents approximately 5.16% of net assets as of June 30, 2015.
- (e) Option to convert to pay-in-kind security.
- (f) Non-income producing security.

See Notes to Financial Statements.

Net Assets - 100.00%	\$811,150,543
----------------------	---------------

Amounts above are shown as a percentage of net assets as of June 30, 2015.

- (a) The interest rate shown represents the rate at period end.*
- (b) All or a portion of this position has not settled as of June 30, 2015. The interest rate shown represents the stated spread over the London Interbank Offered Rate (LIBOR or L) or the applicable LIBOR floor; the Fund will not accrue interest until the settlement date, at which point LIBOR will be established.*
- (c) Security is currently in default and is therefore non-income producing.*
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. Total market value of Rule 144A securities amounts to \$292,114,096, which represents approximately 36.01% of net assets as of June 30, 2015.*
- (e) Option to convert to pay-in-kind security.*
- (f) Non-income producing security.*

- (a) Calculated using average common shares outstanding.*
- (b) Total investment return is calculated assuming a purchase of common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any, and are not annualized.*
- (c) Annualized.*
- (d) Ratios do not reflect dividend payments to preferred shareholders.*
- (e) Average managed assets represent net assets applicable to common shares plus principal value of leverage.*
- (f) On October 8, 2014, BSL redeemed 100% of the term preferred shares at 100% of their liquidation preference.*
- (g) Calculated by subtracting the Fund's total liabilities (excluding Term Preferred Shares and Senior Secured Notes) from the Fund's total assets and dividing by the sum of the Term Preferred Shares and the Senior Secured Notes and then multiplying by \$1,000.*
- (h) Calculated by subtracting the Fund's total liabilities (excluding Term Preferred Shares) from the Fund's total assets and dividing by the number of Term Preferred Shares outstanding.*
- (i) On October 8, 2014, BSL redeemed 100% of the senior secured notes at 100% of their principal amount and entered into a new 364-day revolving credit facility. Average borrowings are shown for the period January 1, 2014 through the redemption date.*
- (j) Calculated by subtracting the Fund's total liabilities (excluding Term Preferred Shares and Senior Secured Notes) from the Fund's total assets and dividing by the principal amount of Senior Secured Notes and then multiplying by \$1,000.*
- (k) Calculated by subtracting the Fund's total liabilities (including Term Preferred Shares but excluding Senior Secured Notes) from the Fund's total assets and dividing by the principal amount of Senior Secured Notes and then multiplying by \$1,000.*
- (l) Since first borrowing was made on October 8, 2014.*

Notes to Financial Statements

June 30, 2015 (Unaudited)

NOTE 1. ORGANIZATION

Blackstone / GSO Senior Floating Rate Term Fund (BSL), is a diversified, closed-end management investment company. BSL was organized as a Delaware statutory trust on March 4, 2010. BSL was registered under the Investment Company Act of 1940, as amended (the 1940 Act), on March 5, 2010. BSL commenced operations on May 26, 2010. Prior to that date, BSL had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BSL to GSO / Blackstone Debt Funds Management LLC (the Adviser) at a price of \$19.10 per share. The Adviser serves as BSL s investment adviser. BSL s common shares are listed on the New York Stock Exchange (the Exchange) and trade under the ticker symbol BSL.

Absent shareholder approval to extend the term of BSL, BSL will dissolve on or about May 31, 2020. Upon dissolution, BSL will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities. Pursuant to BSL s Amended and Restated Agreement and Declaration of Trust (the Declaration of Trust), prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the shareholders entitled to vote (as defined in the 1940 Act) may extend the life of BSL. If approved, the dissolution date of BSL may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of BSL may be extended an unlimited number of times.

Blackstone / GSO Long-Short Credit Income Fund (BGX) is a diversified closed-end management investment company. BGX was organized as a Delaware statutory trust on October 22, 2010. BGX was registered under the 1940 Act on October 26, 2010. BGX commenced operations on January 27, 2011. Prior to that, BGX had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGX to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGX. BGX s common shares are listed on the Exchange and trade under the ticker symbol BGX.

BGX and BSL were previously classified as non-diversified investment companies for purposes of the 1940 Act. As a result of ongoing operations, BGX and BSL are now classified as diversified companies as of April 1, 2014. This means that with respect to 75% of those funds total assets, no more than 5% of those funds total assets may be invested in any one issuer, excepting cash and cash items, U.S. government securities and securities of other investment companies. BGX and BSL may not resume operating in a non-diversified manner without first obtaining shareholder approval in accordance with the 1940 Act.

Blackstone / GSO Strategic Credit Fund (BGB and collectively with BSL and BGX, the Funds) is a non-diversified closed-end management investment company. BGB was organized as a Delaware statutory trust on March 28, 2012. BGB was registered under the 1940 Act on April 6, 2012. BGB commenced operations on September 26, 2012. Prior to that, BGB had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGB to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGB. BGB s common shares are listed on the Exchange and trade under the ticker symbol BGB.

BGB will dissolve on or about September 15, 2027, absent shareholder approval to extend such term. Upon dissolution, BGB will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities of the Fund. Pursuant to BGB's Agreement and Declaration of Trust, prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the outstanding voting securities entitled to vote (as defined in the 1940 Act), may extend the life of BGB. If approved, the dissolution date of the Fund may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of the Fund may be extended an unlimited number of times.

BSL's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, at least 80% of BSL's assets will be invested in senior secured, floating rate loans (Senior Loans).

BGX's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX seeks to achieve its investment objectives by employing a dynamic long-short strategy in a diversified portfolio of loans and fixed-income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans (Secured Loans) and high-yield corporate debt securities of varying maturities. BGX's long positions in loans and fixed-income instruments will typically be rated below investment grade at the time of purchase. BGX's long positions, either directly or through the use of derivatives, may total up to 130% of BGX's net assets. BGX's short positions, either directly or through the use of derivatives, may total up to 30% of BGX's net assets.

On December 19, 2014 the Board of Trustees approved a change to BGX's investment guidelines that took effect in January 2015. Under the new investment guidelines, BGX's long positions, either directly or through the use of derivatives, may total up to 150% of BGX's net assets. The Fund's short positions, either directly or through the use of derivatives, may total up to 30% of the Fund's net assets. Subject to the preceding restrictions, the Fund's total long and short positions, either directly or through the use of derivatives, may total up to 160% of the Fund's net assets.

BGB's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. The Fund will seek to achieve its investment objectives by investing primarily in a diversified portfolio of loans and other fixed income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans (Senior Secured Loans) and high yield corporate bonds of varying maturities. Under normal market conditions, at least 80% of BGB's assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

Senior Loans, Secured Loans and Senior Secured Loans are referred to collectively as **Loans** throughout the Notes to Financial Statements.

BGB is classified as **non-diversified** under the 1940 Act. As a result, BGB can invest a greater portion of its assets in obligations of a single issuer than a **diversified** fund. BGB may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political, or regulatory occurrence.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements. The preparation of their financial statements is in accordance with accounting principles generally accepted in the United States of America (**GAAP**), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates and these differences could be material. Each Fund is considered an investment company for financial reporting purposes under GAAP.

Portfolio Valuation: Each Fund's net asset value (**NAV**) is determined daily on each day that the Exchange is open for business, as of the close of the regular trading session on the Exchange. Each Fund calculates NAV per share by subtracting liabilities (including accrued expenses or dividends) from the total assets of such Fund (the value of the securities plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of outstanding common shares of such Fund.

Loans are primarily valued by using a composite loan price from a nationally recognized loan pricing service. The methodology used by the Funds' nationally recognized loan pricing provider for composite loan prices is to value loans at the mean of the bid and ask prices from one or more brokers or dealers. Collateralized Loan Obligations (**CLOs**) are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the evaluated mid-price of each of the CLOs. Corporate bonds, other than short-term investments, are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized pricing service are typically based on the mean of bid and ask prices for each corporate bond security. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrices, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. Short-term debt investments, if any, having a remaining maturity of 60 days or less when purchased would be valued at cost adjusted for amortization of premiums and accretion of discounts. Any investments and other assets for which such current market quotations are not readily available are valued at fair value (**Fair Valued Assets**) as determined in good faith by a committee of the Adviser under procedures established by, and under the general supervision and responsibility of, the Funds' Boards of Trustees.

Various inputs are used to determine the value of the Funds' investments. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 Unadjusted quoted prices in active markets for identical investments at the measurement date.

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

The valuation techniques used by the Funds to measure fair value during the six months ended June 30, 2015 maximized the use of observable inputs and minimized the use of unobservable inputs. The categorization of a value determined for investments and other financial instruments is based on the pricing transparency of the investment and other financial instrument and does not necessarily correspond to the Funds' perceived risk of investing in those securities.

^(a) A change to the unobservable input may result in a significant change to the value of the investment as follows:

Unobservable Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
---------------------------	---	---

EBITDA Multiple	Increase	Decrease
-----------------	----------	----------

The Funds evaluate transfers into or out of Level 1, 2 and 3 as of the end of the reporting period. There were no transfers between Level 1 and 2 during the period. Securities were transferred from Level 2 to Level 3 because of a lack of observable market data due to decrease in market activity and information for these securities. Other securities were moved from Level 3 to Level 2 as observable inputs were available for purposes of valuing those assets.

Securities Transactions and Investment Income: Securities transactions are recorded on trade date for financial reporting purposes and amounts payable or receivable for trades not settled at the time of period end are reflected as liabilities and assets, respectively. Interest income, including accretion of discount and amortization of premium, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations.

When the Funds sell a floating rate loan interest they may pay an agency fee. The Funds earn facility and other fees on floating rate loan interests, and facility fees are typically amortized to income over the term of the loan. Consent and amendment fees are also recorded to income as earned. All of these fees are shown on the Statement of Operations under Facility and other fees.

Federal Income Taxes: It is the policy of the Funds to continue to qualify as regulated investment companies by complying with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of their earnings to their shareholders.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Funds, timing differences and differing characterization of distributions made by the Funds as a whole.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

As of and during the six months ended June 30, 2015, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Distributions to Shareholders: The Funds make monthly cash distributions of all or a portion of their net investment income to common shareholders. The Funds will distribute to common shareholders at least annually all or substantially all of their net investment income after the payment of dividends and interest, if any, owed with respect to outstanding preferred shares and/or borrowings, if applicable. The Funds intend to pay any capital gains distributions at least annually.

NOTE 3. MANAGEMENT FEES, ADMINISTRATION FEES, AND OTHER AGREEMENTS

The Adviser, a wholly-owned subsidiary of GSO Capital Partners LP (collectively with its affiliates, "GSO"), is a registered investment adviser and is responsible for the day-to-day management of, and providing administrative and compliance oversight services to, the Funds. GSO is an affiliate of The Blackstone Group L.P.

For BSL, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BSL's total assets (including any assets attributable to any leverage used) minus the sum of the BSL's accrued liabilities (other than Fund liabilities incurred for any leverage) ("Managed Assets"). For BGX, the Adviser receives a monthly fee at the annual rate of 1.20% of the average daily value of BGX's net assets (total assets of BGX minus liabilities, including accrued expenses or dividends). For BGB, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BGB's Managed Assets.

Prior to June 11, 2015, each Fund paid every Trustee who is not a director, officer, employee, or affiliate of GSO or ALPS (as defined below), a fee of \$16,667 per annum, plus \$2,500 per regular in-person joint meeting of the Board of Trustees. If such in-person regular board meeting was not held jointly, the respective Fund paid each Trustee \$3,000 for each such meeting attended. For each in-person special meeting of the Board of Trustees, each Fund paid each Trustee \$2,000 if held jointly, and \$2,500 per applicable Fund if not held jointly. If a meeting was held telephonically the Funds paid each Trustee \$750 if held jointly, and \$1,000 per applicable Fund if not held jointly. The Chairman of the Audit Committee and the Chairman of the Nominating and Governance Committee also each received \$2,500 per annum from each Fund. The Lead Independent Trustee received \$2,667 from each Fund. In addition, for each joint meeting of a committee of the Board of Trustees that did not occur on a regular meeting or special meeting of the Funds, the Funds each paid every committee member \$750 for each such committee meeting attended. If such committee meeting was not held jointly, the respective Fund paid each committee member \$1,000 for each such meeting attended. The Funds also reimburse independent Trustees for travel and out-of-pocket expenses incurred in connection with such meetings. Effective June 11, 2015, the aggregate fees paid to the Trustees by the Funds remain unchanged from the descriptions above, but all Trustee fees jointly payable by the Funds are allocated across the Funds pro rata based on each Fund's net assets.

ALPS Fund Services, Inc. (ALPS) serves as administrator to the Funds. Under the administration agreement, ALPS is responsible for calculating the net asset value of the common shares and generally managing the administrative affairs of the Funds. For BSL and BGB, ALPS receives a monthly fee based on the average daily value of the Funds respective Managed Assets, plus out-of-pocket expenses. For BGX, ALPS receives a monthly fee based on the average daily value of the Fund's net assets, plus out-of-pocket expenses. ALPS is not considered an affiliate of the Funds, as defined under the 1940 Act.

The Bank of New York Mellon serves as the Funds' custodian. Computershare Shareowner Services, LLC, serves as the Funds' transfer agent. The Bank of New York Mellon and Computershare Shareowner Services, LLC, are not considered affiliates of the Funds as defined under the 1940 Act.

NOTE 4. SECURITIES TRANSACTIONS

Investment transactions for the six months ended June 30, 2015, excluding temporary short-term investments, were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
Blackstone / GSO Senior Floating Rate Term Fund	\$ 157,743,560	\$ 149,319,792
Blackstone / GSO Long-Short Credit Income Fund	184,618,850	149,542,953
Blackstone / GSO Strategic Credit Fund	551,333,021	532,652,544

Common shares issued as reinvestment of dividends		
Common shares outstanding - end of period	44,664,382	44,664,382

NOTE 6. SENIOR AND SECURED FLOATING RATE LOANS

BSL defines Senior Loans as first lien senior secured, floating rate loans that are made to U.S. and, to a limited extent, non-U.S. corporations, partnerships and other business entities (Borrowers), which operate in various industries and geographical regions. BGX includes first and second lien secured, floating rate loans in its definition of Secured Loans. Under normal market conditions, at least 80% of BSL's Managed Assets will be invested in Senior Loans and 70% of BGX's managed assets will be invested in Secured Loans. Under normal market conditions, at least 80% of BGB's Managed Assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics. BGX defines its managed assets as net assets plus effective leverage obtained through securities lending, swap contract arrangements, and short selling or other derivative transactions (BGX Managed Assets). At June 30, 2015, 80.33% of BSL's Managed Assets were held in Senior Loans, 72.54% of BGX's Managed Assets were held in Secured Loans, and 97.56% of BGB's Managed Assets were held in corporate fixed income instruments including Senior Secured Loans.

Loans hold a senior position in the capital structure of a business entity, are secured with specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by unsecured creditors, subordinated debt holders and stockholders of the Borrower.

Loans often require prepayments from Borrowers' excess cash flows or permit the Borrowers to repay at their election. The degree to which Borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, floating rate loans typically have an expected average life of two to four years. Floating rate loans typically have rates of interest which are re-determined periodically, either daily, monthly, quarterly or semi-annually by reference to a floating base lending rate, primarily the London Interbank Offered Rate (LIBOR), plus a premium or credit spread.

Loans are subject to the risk of payment defaults of scheduled interest or principal. Such non-payment could result in a reduction of income, a reduction in the value of the investment and a potential decrease in the net asset value of any of the Funds. Risk of loss of income is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. There can be no assurance that the liquidation of any collateral securing a Loan would satisfy the Borrower's obligation to the applicable Fund in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Second lien loans generally are subject to similar risks as those associated with investments in first lien loans except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a second lien loan, the first priority lien holder has first claim to the underlying collateral of the loan. Second lien loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior obligations of the Borrower. At June 30, 2015, BSL, BGX and BGB had invested \$53,406,500, \$63,832,600 and \$178,466,620, respectively, in second lien secured loans. Second lien secured loans are considered Secured Loans for BGX and Senior Secured Loans for BGB, but are not considered Senior Loans for BSL.

Loans can be rated below investment grade or may also be unrated. As a result, the risks associated with Loans may be similar to the risks of other below investment grade securities, although they are senior and secured in contrast to other below investment grade securities, which are often subordinated or unsecured. BSL, BGX and BGB typically invest in Loans rated below investment grade, which are considered speculative because of the credit risk of the Borrowers. Such companies are more likely than investment grade issuers to default on their payments of interest and principal owed to BSL, BGX and BGB, and such defaults could reduce net asset value and income distributions. The amount of public information available with respect to below investment grade loans will generally be less extensive than that available for registered or exchange-listed securities. In evaluating the creditworthiness of Borrowers, the Adviser will consider, and may rely in part on, analyses performed by others. The Adviser's established best execution procedures and guidelines require trades to be placed for execution only with broker-dealer counterparties approved by the Counterparty Committee of the Adviser. The factors considered by the Counterparty Committee when selecting and approving brokers and dealers include, but are not limited to: (i) quality, accuracy, and timeliness of execution, (ii) review of the reputation, financial strength and stability of the financial institution, (iii) willingness and ability of the counterparty to commit capital, (iv) ongoing reliability and (v) access to underwritten offerings and secondary markets. The Counterparty Committee regularly reviews each broker-dealer counterparty based on the foregoing factors.

BSL, BGX and BGB may acquire Loans through assignments or participations. BSL, BGX and BGB typically acquire these Loans through assignment, and if a Fund acquires a Loan through participation, it will seek to elevate a participation interest into an assignment as soon as practicably possible. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning institution, and BSL, BGX or BGB may not be able to unilaterally enforce all rights and remedies under the Loan and with regard to any associated collateral. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers, other financial institutions and lending institutions. The Adviser has adopted best execution procedures and guidelines to mitigate credit and counterparty risk in the atypical situation when BSL, BGX or BGB must acquire a Loan through a participation. None of the Funds had outstanding participations as of June 30, 2015.

NOTE 7. COLLATERALIZED LOAN OBLIGATIONS

BGX has invested in Collateralized Loan Obligations (CLOs). A CLO is a financing company (generally called a Special Purpose Vehicle (SPV)), created to reappportion the risk and return characteristics of a pool of assets. While the assets underlying CLOs are typically Secured Loans, the assets may also include (i) unsecured loans, (ii) debt securities that are rated below investment grade, and (iii) equity securities incidental to investments in Secured Loans.

When investing in CLOs, BGX will not invest in equity tranches, which are the lowest tranche. However, BGX may invest in lower tranches of CLOs, which typically experience a lower recovery, greater risk of loss or deferral or non-payment of interest than more senior tranches of the CLO. In addition, BGX intends to invest in CLOs consisting primarily of individual Secured Loans of Borrowers and not repackaged CLO obligations from other high risk pools. The underlying Secured Loans purchased by CLOs are generally performing at the time of purchase but may become non-performing, distressed or defaulted. CLOs with underlying assets of non-performing, distressed or defaulted loans are not contemplated to comprise a significant portion of the BGX's investments in CLOs. The key feature of the CLO structure is the prioritization of the cash flows from a pool of debt securities among the several classes of the CLO. The SPV is a company founded solely for the purpose of securitizing payment claims arising out of this diversified asset pool. On this basis, marketable securities are issued by the SPV which, due to the diversification of the underlying risk, generally represent a lower level of risk than the original assets. The redemption of the securities issued by the SPV typically takes place at maturity out of the cash flow generated by the collected claims.

NOTE 8. LEVERAGE

On August 13, 2010, BSL issued \$96 million in aggregate principal amount of senior secured notes and 48,000 term preferred shares with an aggregate liquidation preference of \$48 million, both rated AAA by Fitch Ratings. On October 8, 2014, BSL redeemed 100% of the senior secured notes and term preferred shares at 100% of their principal amount or liquidation preference, as applicable, and paid amounts representing the final accumulated interest or dividend amounts owed through the redemption date. BSL financed the prepayment of its senior secured notes and term preferred shares with borrowings under a new 364-day revolving credit facility described below.

Through July 29, 2014, BGX employed leverage through securities lending arrangements and swap arrangements. All costs and expenses related to any form of leverage used by BGX are borne entirely by holders of common shares. BGX's leverage consisted of (i) the amount of securities lending cash collateral held less proforma cash (which includes the net difference between receivables and payables for investments sold/purchased), (ii) the fair market value of the reference securities of total return swaps less cash pledged and (iii) the fair market value of securities sold short less any segregated cash or offsetting securities. BGX's use of these forms of effective leverage did not exceed 30% of its net assets.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

Each Fund has entered into a separate Credit Agreement (each, an Agreement) with a bank to borrow money pursuant to a 364-day revolving line of credit (Leverage Facility). BSL entered into an agreement dated October 8, 2014, to borrow up to a limit of \$142 million. BGX entered into an agreement dated July 29, 2014, as amended on January 26, 2015, to borrow up to a limit of \$117 million. BGB entered into an agreement dated December 21, 2012, as amended at December 20, 2013 and December 19, 2014, to borrow up to a limit of \$425 million. Borrowings under each Agreement are secured by the assets of each Fund. Interest is charged at a rate of 0.70% above LIBOR in BSL and BGX and 0.75% above LIBOR in BGB, with LIBOR measured for the period commencing on the date of the making of such LIBOR loan (or the last date upon which any other Loan was converted to, or continued as, such LIBOR loan) and ending on the numerically corresponding day in the calendar month that is one (1) week or one (1), two (2), three (3), six (6) or nine (9) months thereafter, as each Fund may elect, or such other period as the lender may agree in its sole and absolute discretion. Under the terms of the applicable Agreement, each Fund must pay a commitment fee on any undrawn amounts. The commitment fee payable in BSL and BGX is 0.20% on the undrawn amounts and in BGB is 0.15% on the undrawn amounts when drawn amounts exceed 50% of the borrowing limit and 0.25% on the undrawn amounts at any other time. Interest and fees are payable quarterly. Each Fund may elect to extend the applicable Agreement for a further 364-day period with the consent of the lending bank. At June 30, 2015, BSL, BGX, and BGB had borrowings outstanding under its respective Leverage Facility of \$108 million, \$139 million, and \$399.5 million, at an interest rate of 0.88%, 0.89%, and 0.93%, respectively. Due to the short term nature of each Agreement, face value approximates fair value at June 30, 2015. This fair value is based on Level 2 inputs under the three-tier fair valuation hierarchy (see Note 2). For the period of January 1, 2015 through June 30, 2015, the average borrowings under BSL's, BGX's and BGB's Leverage Facility and the average interest rate were \$134,193,370 and 0.86%, \$95,071,823 and 0.88%, and \$390,328,729 and 0.93%, respectively.

Under each Agreement, each Fund has agreed to certain covenants and additional investment limitations while the leverage is outstanding. Each Fund agreed to maintain asset coverage of three times over borrowings. Compliance with the investment restrictions and calculations are performed by the Funds' custodian, The Bank of New York Mellon. As of June 30, 2015, each Fund was in compliance with all required investment limitations and asset coverage requirements related to its leverage.

The use of borrowings to leverage the common shares of the Funds can create risks. Changes in the value of the Funds' portfolios, including securities bought with the proceeds of leverage, are borne entirely by the holders of common shares of the Funds. All costs and expenses related to any form of leverage used by the Funds are borne entirely by common shareholders. If there is a net decrease or increase in the value of the Funds' investment portfolios, the leverage may decrease or increase, as the case may be, the net asset value per common share to a greater extent than if the Funds did not utilize leverage. During periods when BSL and BGB are using leverage, the fees paid to the Adviser for advisory services and to ALPS for administrative services are higher than if BSL and BGB did not use leverage because the fees paid are calculated on the basis of BSL and BGB's Managed Assets, which include the assets purchased through leverage. As of June 30, 2015, BSL's, BGX's, and BGB's leverage represented 33.33%, 32.06% and 33.00% of each Fund's Managed Assets, respectively.

NOTE 9. TAX BASIS DISTRIBUTIONS

The amounts and characteristics of tax basis distributions and composition of distributable earnings/(accumulated losses) are finalized at fiscal year end: accordingly, tax basis balances have not been determined as of June 30, 2015.

Ordinary income (inclusive of short-term capital gains) and long-term capital gains are allocated to common stockholders after payment of the available amounts on any outstanding term preferred shares. To the extent that the amount distributed to common stockholders exceeds the amount of available ordinary income and long-term capital gains after allocation to any outstanding term preferred shares, these distributions are treated as a tax return of capital. Additionally, to the extent that the amount distributed on any outstanding term preferred shares exceeds the amount of available ordinary income and long-term capital gains, these distributions are treated as a tax return of capital.

As determined on December 31, 2014, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments. The amounts reclassified did not affect net assets. The reclassifications were as follows:

Fund	Decrease Paid-in capital	Increase/(Decrease) Accumulated net investment income/(loss)	Increase/(Decrease) Accumulated net realized gain/(loss) on investments
Blackstone / GSO Senior Floating Rate Term Fund	\$ (56,182)	\$ (95,895)	\$ 152,077
Blackstone / GSO Long-Short Credit Income Fund	\$	\$ 321,028	\$ (321,028)
Blackstone / GSO Strategic Credit Fund	\$	\$ 9,560	\$ (9,560)

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

The tax character of distributions paid by the Funds during the fiscal years ended December 31, 2014 was as follows:

2014	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 14,627,457	\$ 12,778,678	\$ 52,804,338
Long-Term Capital Gain	594,237	183,372	
Return of Capital	4,117,920	2,229,733	4,544,728
Total	\$ 19,339,614	\$ 15,191,783	\$ 57,349,066

At December 31, 2014, the Funds had available for federal tax purposes unused capital loss carryforwards, which are available to offset future realized gains. To the extent that these carryforwards are used to offset future gains, it is probable that the amount offset will not be distributed to shareholders. The carryforward losses are as follows:

Fund	Short Term	Long Term
Blackstone / GSO Senior Floating Rate Term Fund	\$	\$ 2,427,547
Blackstone / GSO Long-Short Credit Income Fund	\$ 68,674	\$ 760,765
Blackstone / GSO Strategic Credit Fund	\$	\$

The Funds elects to defer to the period ending December 31, 2015, capital losses recognized during the period November 1, 2014 to December 31, 2014 in the amount of:

Fund	Capital Losses
Blackstone / GSO Senior Floating Rate Term Fund	\$ 234,988
Blackstone / GSO Long-Short Credit Income Fund	\$ 124,018
Blackstone / GSO Strategic Credit Fund	\$ 251,491

Edgar Filing: Blackstone / GSO Strategic Credit Fund - Form N-CSRS

The Funds elects to defer to the period ending December 31, 2015, late year ordinary losses in the amount of:

Fund	Ordinary Losses
Blackstone / GSO Senior Floating Rate Term Fund	\$
Blackstone / GSO Long-Short Credit Income Fund	\$
Blackstone / GSO Strategic Credit Fund	\$ 55,896

At December 31, 2014, the components of distributable earnings on a tax basis for the Funds were as follows:

	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Undistributed ordinary income	\$	\$	\$
Accumulated capital gains/losses	(2,662,535)	(953,457)	(251,491)
Unrealized appreciation	(8,299,338)	(9,790,461)	(37,081,691)
Other Cumulative effect of timing differences		19,577	(55,896)
Total	\$ (10,961,873)	\$ (10,724,341)	\$ (37,389,078)

Blackstone / GSO Funds

Notes to Financial Statements

June 30, 2015 (Unaudited)

The amount of net unrealized appreciation/(depreciation) and the cost of investment securities for tax purposes, including short-term securities at June 30, 2015, were as follows:

	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Spread Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Cost of investments for income tax purposes	\$ 417,031,066	\$ 335,089,292	\$ 1,210,688,960
Gross appreciation (excess of value over tax cost)	\$ 2,656,458	\$ 2,721,178	\$ 11,452,476
Gross depreciation (excess of tax cost over value)	(9,823,545)	(8,397,075)	(39,458,801)
Net unrealized depreciation	\$ (7,167,087)	\$ (5,675,897)	\$ (28,006,325)

NOTE 10. SUBSEQUENT EVENTS

Shareholder Distributions for BSL: On July 31, 2015 and August 20, 2015, BSL paid regularly scheduled distributions in the amount of \$0.09 per share to shareholders of record as of July 24, 2015 and August 24, 2015, respectively.

Shareholder Distributions for BGX: On July 31, 2015 and August 20, 2015, BSL paid regularly scheduled distributions in the amount of \$0.098 per share to shareholders of record as of July 24, 2015 and August 24, 2015, respectively.

Shareholder Distributions for BGB: On July 31, 2015 and August 20, 2015, BSL paid regularly scheduled distributions in the amount of \$0.105 per share to shareholders of record as of July 24, 2015 and August 24, 2015, respectively.

BGX Leverage: On July 28, 2015, BGX's line of credit agreement, dated July 29, 2014, was amended to extend the maturity to July 27, 2016 and increase the borrowing rate to 0.75% above LIBOR.

Summary of Dividend Reinvestment Plan

June 30, 2015 (Unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "DRIP"), shareholders whose shares are registered in their own name may opt-in to the plan and elect to reinvest all or a portion of their distributions in common shares by providing the required enrollment notice to Computershare, the DRIP administrator. Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the DRIP. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the DRIP at any time by notifying the DRIP administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the DRIP, or have elected to terminate their participation in the DRIP, will be paid by check mailed directly to the record holder by or under the direction of the DRIP administrator when the Funds' Board of Trustees declares a distribution.

When the Funds declare a distribution, shareholders who are participants in the applicable DRIP receive the equivalent of the amount of the distribution in common shares. If you participate in the DRIP, the number of common shares of the Funds that you will receive will be determined as follows:

(1) If the market price of the common shares plus any brokerage commissions on the payable date (or, if the payable date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the "determination date") is equal to or exceeds 98% of the net asset value per common share, the Fund will issue new common shares at a price equal to the greater of:

(a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or

(b) 95% of the market price per common share on the determination date.

(2) If 98% of the net asset value per common share exceeds the market price of the common shares plus any brokerage commissions on the determination date, the DRIP administrator will receive the distribution in cash and will buy common shares in the open market, on the New York Stock Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price plus any brokerage commissions rises so that it equals or exceeds 98% of the net asset value per common share at the close of trading on the New York Stock Exchange on the determination date before the DRIP administrator has completed the open market purchases or (ii) the DRIP administrator is unable to invest the full amount eligible to be reinvested in open market purchases, the DRIP administrator will cease purchasing common shares in the open market and the Fund will issue the remaining common shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or (b) 95% of the then current market price per share.

The DRIP administrator maintains all shareholder accounts in the dividend reinvestment plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax

records. Common shares in the account of each DRIP participant are held by the DRIP administrator in non-certificated form in the name of the participant, and each shareholder's proxy includes shares purchased pursuant to the DRIP.

There is no charge to participants for reinvesting regular distributions and capital gains distributions. The fees of the DRIP administrator for handling the reinvestment of regular distributions and capital gains distributions are included in the fee to be paid by us to our transfer agent. There are no brokerage charges with respect to shares issued directly by us as a result of regular distributions or capital gains distributions payable either in shares or in cash. However, each participant bears a pro rata share of brokerage commissions incurred with respect to the DRIP administrator's open market purchases in connection with the reinvestment of such distributions. Shareholders that opt-in to the DRIP will add to their investment through dollar cost averaging. Because all dividends and distributions paid to such shareholder will be automatically reinvested in additional common shares, the average cost of such shareholder's common shares will decrease over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

The automatic reinvestment of such dividends or distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

You may obtain additional information by contacting the DRIP administrator at the following address: Computershare, Attn: Sales Dept., P.O. Box 358035, Pittsburgh, PA 15252.

Additional Information

June 30, 2015 (Unaudited)

Portfolio Information. The Funds file their complete schedules of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q will be available (1) on the Funds' website located at <http://www.blackstone-gso.com>; (2) on the SEC's website at <http://www.sec.gov>; or (3) for review and copying at the SEC's Public Reference Room (the PRR) in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

Proxy Information. The policies and procedures used to determine how to vote proxies relating to securities held by the Funds are available (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Funds voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available on Form N-PX by August 31 of each year (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>.

Senior Officer Code of Ethics. The Funds file a copy of their code of ethics that applies to the Funds' principal executive officer, principal financial officer or controller, or persons performing similar functions, with the SEC as an exhibit to each annual report on Form N-CSR. This will be available on the SEC's website at <http://www.sec.gov>.

Tax Information. Of the ordinary income (including short-term capital gains) distributions made by BSL during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$594,237. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGX during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$183,372. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGB during the fiscal period ended December 31, 2014, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2014 was \$0. For the fiscal period ended December 31, 2014, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

BSL Meeting of Shareholders – Voting Results

On April 22, 2015, BSL held its Annual Meeting of Shareholders to consider the proposal set forth below. The following votes were recorded:

Proposal 1: The election of two (2) Trustees of BSL, to hold office for the term indicated and until his successor shall have been elected and qualified.

Election of Thomas W. Jasper as Class I Trustee of BSL, term to expire at 2018 Annual Meeting

	Number of Shares	% of Shares Voted
Affirmative	10,498,037	98.08%
Withheld	205,733	1.92%
TOTAL	10,703,770	100.00%

Election of Gary S. Schpero as Class I Trustee of BSL, term to expire at 2018 Annual Meeting

	Number of Shares	% of Shares Voted
Affirmative	10,500,655	98.10%
Withheld	203,115	1.90%

FACTS

WHAT DO BLACKSTONE REGISTERED FUNDS DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number and income
- Assets and investment experience
- Risk tolerance and transaction history

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Blackstone Registered Funds (as defined below) choose to share; and whether you can limit this sharing.

Reasons we can share your personal information	Do Blackstone Registered Funds share?	
	Yes	Can you limit this sharing?
For our everyday business purposes	Yes	No

such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus

For our marketing purposes

to offer our products and services to you	Yes	No
---	-----	----

For joint marketing with other financial companies

No	We don't share
----	----------------

For our affiliates everyday business purposes

information about your transactions and experiences	No	We don't share
---	----	----------------

Privacy Procedures

June 30, 2015 (Unaudited)

Who we are

Who is providing this notice? Blackstone Registered Funds include Blackstone Alternative Alpha Fund, Blackstone Alternative Alpha Fund II, Blackstone Real Estate Income Fund, Blackstone Real Estate Income Fund II, Blackstone Alternative Investment Funds, on behalf of its series Blackstone Alternative Multi-Manager Fund and Blackstone Alternative Multi-Strategy Fund, Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund and Blackstone / GSO Strategic Income Fund

What we do

How do Blackstone Registered Funds protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

How do Blackstone Registered Funds collect my personal information? We collect your personal information, for example, when you:

- open an account or give us your income information
- provide employment information or give us your contact information
- tell us about your investment or retirement portfolio

We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.

- Why can't I limit all sharing?** Federal law gives you the right to limit only:
- sharing for affiliates everyday business purposes information about your creditworthiness
 - affiliates from using your information to market to you
 - sharing for nonaffiliates to market to you
- State laws and individual companies may give you additional rights to limit sharing. See below for more on your rights under state law.
- What happens when I limit sharing for an account I hold jointly with someone else?** Your choices will apply to everyone on your account unless you tell us otherwise.

Definitions

- Affiliates** Companies related by common ownership or control. They can be financial and nonfinancial companies.
- Our affiliates include companies with a Blackstone name and financial companies such as GSO Capital Partners LP and Strategic Partners Fund Solutions.
- Nonaffiliates** Companies not related by common ownership or control. They can be financial and nonfinancial companies.
- Blackstone Registered Funds do not share with nonaffiliates so they can market to you.
- Joint marketing** A formal agreement between nonaffiliated financial companies that together market financial products or services to you.
- Our joint marketing partners include financial services companies.

Other important information

California Residents In accordance with California law, we will not share information we collect about California residents with nonaffiliates except as permitted by law, such as with the consent of the customer or to service the customer's accounts. We will also limit the sharing of information about you with our affiliates to the extent required by applicable California law.

Vermont Residents In accordance with Vermont law, we will not share information we collect about Vermont residents with nonaffiliates except as permitted by law, such as with the consent of the customer or to service the customer's accounts. We will not share creditworthiness information about Vermont residents among Blackstone Registered Funds' affiliates except with the authorization or consent of the Vermont resident.

Blackstone / GSO Funds

Approval of Investment Advisory Agreement

June 30, 2015 (Unaudited)

The Investment Company Act of 1940, as amended (the 1940 Act), requires that the Board of Trustees (collectively, the Board) of each of Blackstone / GSO Senior Floating Rate Term Fund (BSL), Blackstone / GSO Long-Short Credit Income Fund (BGX), and Blackstone / GSO Strategic Credit Fund (BGB, and together with BSL and BGX, the Funds and each a Fund), including a majority of its members who are not considered to be interested persons under the 1940 Act (the Independent Trustees) voting separately, approve on an annual basis the continuation of the Fund s investment advisory agreement (each an Agreement and, collectively, the Agreements) with the Fund s investment adviser, GSO / Blackstone Debt Funds Management LLC (the Adviser). At a joint meeting (the Contract Renewal Meeting) held in person on May 21, 2015, the Board of each Fund, including the Independent Trustees, considered and approved the continuation of each Agreement for an additional one-year term. To assist in its consideration of the renewal of each of the Agreements, the Board requested, received and considered a variety of information (together with the information provided at the Contract Renewal Meeting, the Contract Renewal Information) about the Adviser, as well as the advisory arrangements for the Funds, certain portions of which are discussed below. The presentation made by the Adviser to the Board at the Contract Renewal Meeting in connection with its evaluation of the Agreements encompassed all of the Funds. In addition to the Contract Renewal Information, the Board received performance and other information since each Fund s inception related to the services rendered by the Adviser to such Fund. The Board s evaluation took into account the information received since each Fund s inception and also reflected the knowledge and familiarity gained as members of the Board with respect to the investment advisory and other services provided to each Fund by the Adviser under the Fund s Agreement.

Board Approval of the Continuation of the Agreements

In its deliberations regarding renewal of each Agreement, the Board, including the Independent Trustees, considered various factors, including those set forth below.

Nature, Extent and Quality of the Services Provided to each Fund under the Agreement

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided to the Funds by the Adviser under the Agreements. The Board also reviewed Contract Renewal Information regarding the Funds compliance policies and procedures established pursuant to the 1940 Act and considered each Fund s compliance record during the previous year and since its inception.

The Board reviewed the qualifications, backgrounds and responsibilities of the Funds senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of each Fund. The Board also considered, based on its knowledge of the Adviser and its affiliates, the Contract Renewal Information and the Board s discussions with the Adviser at the Contract Renewal Meeting, the general reputation and investment performance records of the Adviser and its affiliates and the financial resources of the corporate parent of the Adviser, The Blackstone Group L.P., available to support the Adviser s activities in respect of the Funds.

The Board considered the responsibilities of the Adviser under each Fund s Agreement, including the Adviser s coordination and oversight of the services provided to the Fund by other unaffiliated parties.

In reaching its determinations regarding continuation of each Fund's Agreement, the Board took into account that such Fund's shareholders, in pursuing their investment goals and objectives, likely considered the reputation and the investment style, philosophy and strategy of the Adviser, as well as the resources available to the Adviser, in purchasing their shares.

Fund Performance

Among other things, the Board received and considered information and analyses (the Morningstar Performance Information) comparing the performance of each Fund with a group of funds (the Peer Group) selected by Morningstar, Inc. (Morningstar), an independent provider of investment company data, from its US Senior Loan Funds Leveraged CEF classification (the Morningstar Senior Loan Leveraged Classification), which consisted of 25 closed-end funds for the 1-year period ended March 31, 2015 (the 1-year period) and of 21 closed-end funds for the 3-year period ended such date (the 3-year period). The Peer Group funds were selected from the Morningstar Senior Loan Leveraged Classification to be more comparable to the Funds based upon Morningstar's consideration of the constituent funds' investment style, share class characterization, and assets. The Board was provided with a description of the methodology used by Morningstar to select each Fund's Peer Group. In addition, each of the members of the Board participated in a conference call and webinar with Morningstar regarding its peer grouping methodology and reporting format in advance of the Contract Renewal Meeting. The Board noted Morningstar's advice that the relatively limited number of closed-end funds compared to the open-end fund universe poses particular challenges for peer grouping.

The Peer Group for BSL consisted of 11 funds for the 1-year period and 10 funds for the 3-year period, including BSL, with historical net portfolio allocations to bank loans exceeding 75%. The Peer Group for BGX and BGB was the same and consisted of 9 funds for the 1-year period and 5 funds for the 3-year period, including BGX and BGB when applicable, with historical portfolio allocations to bank loans greater than 20% and allowances for high-yield bonds. The Board noted that it had received and discussed with the Adviser information at periodic intervals since each Fund's inception comparing such Fund's performance against its benchmarks and its Peer Group funds. The Board considered the return volatility and Sharpe ratio (a measure of portfolio risk) of each Fund relative to its Peer Group funds. The performance discussion below focuses on the comparison of the Funds' performance relative to the Peer Groups, rather than to the broader Morningstar Senior Loan Leveraged Classification.

Table of Contents

Blackstone / GSO Funds

Approval of Investment Advisory Agreement

June 30, 2015 (Unaudited)

BSL

The Morningstar Performance Information comparing BSL's performance to that of the Peer Group based on net asset value (NAV) per share showed, among other things, that BSL's gross returns for the 1- and 3-year periods ranked fourth and sixth, respectively, among the funds in its Peer Group for those periods. In these performance rankings, first represents the fund with the best performance in the Peer Group. The Morningstar Performance Information also showed that BSL's net returns for the 1- and 3-year periods ranked ninth and tenth, respectively, among the funds in its Peer Group for those periods. The Fund's net performance was lower than the Peer Group median performance in each of the 1- and 3-year periods. The Board also considered BSL's performance relative to its benchmark and in absolute terms. The Adviser noted that BSL's gross NAV returns outperformed its benchmark for the 1- and 3-year periods. Moreover, the Adviser noted that on a net NAV return basis, the Fund underperformed its benchmark for the 1-year period but outperformed its benchmark for the 3-year period.

BGX

The Morningstar Performance Information comparing BGX's performance to that of the Peer Group based on NAV per share showed, among other things, that BGX's gross returns for the 1- and 3-year periods ranked seventh and fifth, respectively, among the funds in its Peer Group for those periods. The Morningstar Performance Information also showed that BGX's net return for each of the 1- and 3-year periods ranked fifth among the funds in its Peer Group for that period. The Fund's net performance was equal to the Peer Group median performance in the 1-year period but lower than the Peer Group median performance in 3-year period. The Board also considered BGX's performance relative to its benchmark and in absolute terms. The Adviser noted that BGX on a gross NAV return basis outperformed its benchmark for the 1- and 3-year periods. On a net NAV return basis, BGX underperformed its benchmark for the 1-year period but outperformed its benchmark for the 3-year period.

BGB

The Morningstar Performance Information comparing BGB's performance to that of the Peer Group based on NAV per share showed, among other things, that BGB's gross return for the 1-year period ranked third among the funds in its Peer Group and that its net NAV return for the 1-year period ranked fourth among the Peer Group funds. The Fund's net performance was higher than the Peer Group median performance in the 1-year period. The Board also considered BGB's performance relative to its benchmark and in absolute terms. The Adviser noted that BGB on a gross NAV return basis outperformed its benchmark for the 1-year period but underperformed its benchmark on a net NAV return basis for that period.

In assessing Fund performance, the Board noted that the small number of funds in the Peer Groups for BSL, BGX and BGB made meaningful performance comparisons difficult. In addition to the Morningstar Performance Information, the Board considered and gave significant weight to information provided by the Adviser regarding the Funds and the Morningstar Senior Loan Leveraged Classification and their respective Peer Groups as to differences in each fund's portfolio composition by asset class, credit rating, investment size, and other relevant metrics. The Board noted the Adviser's efforts to maintain each Fund's level of distributions to shareholders at a competitive level in light of the prevailing low interest rate environment and credit market conditions. The Board noted further, however, that there

could be no assurance that each Fund's past levels of distribution will continue in light of the prevailing low interest rate environment. The Board also noted the comprehensive and rigorous credit review and other processes employed by the Adviser in managing the Funds' investment portfolios as well as the Adviser's arranging and management of the respective Funds' leverage, including its efforts in refinancing the leverage arrangements for BSL. Based on its review, the Board concluded that, under the circumstances, each Fund's performance supported continuation of its Agreement for an additional period of one year.

In addition to the Morningstar Performance Information, the Board received and reviewed performance information (the Lipper Performance Information) for each Fund, as well as a group of funds selected by Lipper, Inc. (Lipper), another independent provider of investment company data. The Board, however, focused on the performance comparisons provided in the Morningstar Performance Information based upon its understanding, after discussions with the Adviser, of the respective peer grouping methodologies used by Morningstar and Lipper for performance comparisons and the comparability of funds included in the Morningstar Performance Information and Lipper Performance Information performance comparisons, as well as its preference for Morningstar's additional analyses of the performance comparison results and its reporting format.

Management Fees and Expenses

The Board reviewed and considered the investment advisory fee (the Advisory Fee) payable by each Fund to the Adviser under its Agreement in light of the nature, extent and overall quality of the investment advisory and other services provided by the Adviser to the Fund.

Additionally, the Board received and considered information and analyses (the Morningstar Expense Information) prepared by Morningstar, comparing, among other things, the Advisory Fee for each Fund and each Fund's overall expenses with the Morningstar Senior Loan Leveraged Classification and the Fund's Peer Group. The comparison was based upon the constituent funds' latest fiscal years. The discussion below focuses on the Funds' expenses relative to their respective Peer Groups, rather than to the broader Morningstar Senior Loan Leveraged Classification.

Table of Contents

Blackstone / GSO Funds

Approval of Investment Advisory Agreement

June 30, 2015 (Unaudited)

BSL

BSL's Peer Group funds had average common share net assets ranging from \$128.1 million to \$1.28 billion. Seven of the other funds in the Peer Group were larger than BSL and three were smaller. The Morningstar Expense Information, comparing BSL's actual total expenses to the Peer Group, showed, among other things, that the Fund's actual Advisory Fee (i.e., giving effect to any voluntary fee waivers implemented by the Adviser with respect to the Fund and by the managers of the other Peer Group funds) compared on the basis of common share assets ranked second highest among the 11 funds in the Peer Group and was higher (i.e., worse) than the Peer Group median for that expense component. The Fund's actual total expenses compared on the basis of common share assets also ranked second highest among the funds in the Peer Group and were higher than the Peer Group median. In reviewing the Fund's actual total expenses, the Board considered the additional expense incurred by BSL due to accelerated amortization of the deferred financing cost associated with the original issuance of BSL's leverage, which increased the Fund's total expense ratio in the near term but, according to the Adviser, should reduce the Fund's total expense ratio over the future periods. Moreover, the Morningstar Expense Information itself noted that at \$288 million, the Fund's asset size was slightly below the Peer Group median size and that the Fund did not benefit from the economies of scale realized by larger funds.

BGX

BGX's Peer Group funds had average common share net assets ranging from \$199.2 million to \$1.06 billion. Seven of the other funds in the Peer Group were larger than BGX and one was smaller. The Morningstar Expense Information, comparing BGX's actual total expenses to the Fund's Peer Group, showed, among other things, that the Fund's actual Advisory Fee compared on the basis of common share assets ranked third lowest among the 9 funds in BGX's Peer Group and was lower than the Peer Group median for that expense component. The Fund's actual total expenses compared on the basis of common share assets ranked second lowest among the funds in the Peer Group and were lower (i.e., better) than the Peer Group median.

BGB

BGB's Peer Group funds had average common share net assets ranging from \$199.2 million to \$1.06 billion. One of the other funds in the Peer Group was larger than BGB and seven were smaller. The Morningstar Expense Information, comparing BGB's actual total expenses to the Fund's Peer Group, showed, among other things, that the Fund's actual Advisory Fee compared on the basis of common share assets ranked fifth among the funds in the Peer Group and was at the Peer Group median for that expense component. The Fund's actual total expenses compared on the basis of common share assets ranked fifth among the funds in the Peer Group and were at the Peer Group median.

In its evaluation of the Advisory Fee and Morningstar Expense Information for each Fund, the Board took into account the complexity of such Fund's investment program and the comprehensive and rigorous credit review and other processes employed by the Adviser in managing the Funds' investment portfolios, including the Adviser's prominence in the leveraged finance market and the strength of its investment management team and trading and middle office support. The Board further noted Morningstar's advice that the relatively limited number of closed-end funds compared to the open-end fund universe poses particular challenges for peer grouping and that the small number

and varying sizes of funds in the Funds' Peer Groups made meaningful expense comparisons difficult as smaller funds, such as BSL and BGX, may be disadvantaged in comparison with larger funds that have greater opportunities for economies of scale. The Board also considered the Adviser's belief that other Peer Group funds are parts of larger fund complexes than the Funds' fund complex, which contributes to reduced cost opportunities for those funds owing to economies of scale. In the case of BSL, the Board further considered that, according to the Adviser, BSL's cost of leverage was higher compared to the cost of leverage of other peer funds in periods prior to October 2014, when the Fund's leverage was refinanced, and the Adviser's belief that the reduced cost of leverage resulting from the refinancing is expected to result in a lower total expense ratio for BSL in future periods.

In addition to the Morningstar Expense Information, the Board received and reviewed expense information (the Lipper Expense Information) for each Fund, as well as a group of funds selected by Lipper. The Board, however, focused on the expense comparisons provided in the Morningstar Expense Information based upon its understanding, after discussions with the Adviser, of the respective peer grouping methodologies used by Morningstar and Lipper for expense comparisons and the comparability of funds included in the Morningstar Expense Information and Lipper Expense Information expense comparisons, as well as its preference for Morningstar's additional analyses of the expense comparison results and its reporting format.

The Board also considered Contract Renewal Information regarding fees (including sub-advisory fees) charged by the Adviser to other U.S. clients investing primarily in an asset class similar to that of the Funds, including, where applicable, institutional commingled funds and exchange-traded funds. The Board was advised that the base fees paid by such institutional and other clients generally are lower, and may be significantly lower, than the Advisory Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Funds and to these other clients, noting that the Funds were subject to heightened regulatory requirements relative to institutional clients; that the Funds were provided with administrative services, office facilities and Fund officers (including each Fund's chief executive, chief financial and chief compliance officers); and that the Adviser coordinates and oversees the provision of services to the Funds by other fund service providers. The Board considered the fee comparisons in light of the different services provided in managing these other types of clients and funds.

Table of Contents

Blackstone / GSO Funds

Approval of Investment Advisory Agreement

June 30, 2015 (Unaudited)

Taking all of the above into consideration, the Board determined that the Advisory Fee for each Fund was reasonable in light of the nature, extent and overall quality of the investment advisory and other services provided to such Fund under its Agreement.

Profitability

The Board, as part of the Contract Renewal Information, received an analysis of the profitability to the Adviser and its affiliates in providing services to each Fund for the past year and since such Fund's inception. In addition, the Board received Contract Renewal Information with respect to the Adviser's revenue and cost allocation methodologies used in preparing such profitability data. The profitability analysis, among other things, indicated that the profitability to the Adviser in providing investment advisory and other services to each Fund was at a level which was not considered excessive by the Board in light of the nature, extent and overall quality of such services.

Economies of Scale

The Board received and discussed Contract Renewal Information concerning whether the Adviser would realize economies of scale if either the Funds' assets grow. The Board noted that because each Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan, any significant growth in its assets generally will occur through appreciation in the value of each Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board determined that the Advisory Fee structure was appropriate under present circumstances.

Other Benefits to the Adviser

The Board considered other benefits received by the Adviser and its affiliates as a result of the Adviser's relationship with each of the Funds and did not regard such benefits as excessive.

* * * *

In light of all of the foregoing and other relevant factors, the Board determined that, under the circumstances, continuation of each Fund's Agreement would be in the interests of the Fund and its shareholders and unanimously voted to continue the Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of each Agreement for the next year, and each Board member attributed different weights to the various factors. The Independent Trustees were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum prepared by counsel to the Funds discussing its responsibilities in connection with the proposed continuation of the Agreement as part of the Contract Renewal Information and the Independent Trustees separately received a memorandum as to their responsibilities in this regard from their independent counsel. Prior to voting, the Independent Trustees discussed the proposed continuation of each Agreement in light of their responsibilities in a private session with their independent legal counsel at which no representatives of the Adviser or Fund management were present.

Trustees & Officers

June 30, 2015 (Unaudited)

The oversight of the business and affairs of the Funds is vested in the Board of Trustees. The Board of Trustees is classified into three classes Class I, Class II and Class III as nearly equal in number as reasonably possible, with the Trustees in each class to hold office until their successors are elected and qualified. At each annual meeting of shareholders, the successors to the class of Trustees whose terms expire at that meeting shall be elected to hold office for terms expiring at the later of the annual meeting of shareholders held in the third year following the year of their election or the election and qualification of their successors. The Funds' executive officers were appointed by the Board of Trustees to hold office until removed or replaced by the Board of Trustees or until their respective successors are duly elected and qualified.

Below is a list of the Trustees and officers of the Funds and their present positions and principal occupations during the past five years. The business address of the Funds, the Trustees, the Funds' officers, and the Adviser is 345 Park Avenue, 31st Floor, New York, NY 10154, unless specified otherwise below.

The professionals for the registrant (also referred to as the Fund) primarily responsible for the day-to-day management of the Fund are Lee Shaiman and Gordon McKemie. Mr. Shaiman is the lead portfolio manager of the Fund. Mr. Shaiman will retire from GSO / Blackstone Debt Funds Management LLC (the Adviser) on or prior to September 30, 2015 and will transition his portfolio management responsibilities to Robert Zable at that time. The U.S. Syndicated Credit Investment Committee (the Investment Committee) of the Adviser approves investments made by the Fund, but is not primarily responsible for the Fund's day-to-day management. For more information about Mr. Zable, and the Investment Committee, please see the Fund's latest annual filing on Form N-CSR.

Portfolio Manager	Title	Length of	Business Experience During

Table of Contents

(1) Potential Conflicts of Interest

The Adviser (including the portfolio manager), The Blackstone Group L.P. (together with its affiliates, Blackstone) and their respective affiliates will be subject to certain conflicts of interest. These conflicts will arise primarily from the involvement of the Adviser, Blackstone and their respective affiliates, or collectively, the Firm, in other activities that may conflict with the activities of each of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund and Blackstone / GSO Strategic Credit Fund (collectively, the Funds). Fund shareholders should be aware that individual conflicts will not necessarily be resolved in favor of the Funds' interest.

Broad and Wide-Ranging Activities

The Firm engages in a broad spectrum of activities. In the ordinary course of its business activities, the Firm may engage in activities where the interests of certain divisions of the Firm or the interests of its clients may conflict with the Funds' or the interests of the Funds' shareholders. Other present and future activities of the Firm may give rise to additional conflicts of interest. In the event that a conflict of interest arises, the Adviser will attempt to resolve such conflicts in a fair and equitable manner, subject to applicable law.

The Firm's Policies and Procedures

Specified policies and procedures implemented by the Firm to mitigate potential conflicts of interest and address certain regulatory requirements and contractual restrictions reduce the synergies across Blackstone's various businesses that the Funds expect to draw on for purposes of pursuing attractive investment opportunities. Because the Firm has various asset management, investment banking, advisory and other businesses, it is subject to a number of actual and potential conflicts of interest, greater regulatory oversight and more legal and contractual restrictions than that to which it would otherwise be subject if it had just one line of business. Furthermore, in addressing related conflicts and regulatory, legal and contractual requirements across its various businesses, the Firm has implemented certain policies and procedures (e.g., information walls) that reduce the positive synergies that the Funds expect the Adviser to utilize for purposes of recommending investment opportunities. Additionally, the Firm may limit the Funds and/or its portfolio companies from engagement in agreements with, or related to, companies of an Other Account (defined below) and/or from time to time restrict or otherwise limit the ability of the Funds and/or its portfolio companies to engage in businesses or activities competitive with such companies of Other Accounts, either as a result of contractual restrictions or otherwise. Finally, the Firm has in the past and is likely in the future to enter into one or more strategic relationships in certain regions or with respect to certain types of investments that, although possibly intended to provide greater opportunities for the Funds, may require the Funds to share such opportunities or otherwise limit the amount of an opportunity the Funds can otherwise take.

Investment Banking, Advisory and Other Relationships

As part of its regular business, the Firm provides a broad range of investment banking, advisory, underwriting, placement agent and other services. In addition, the Firm may provide services in the future beyond those currently provided. The Funds will not receive a benefit from

Table of Contents

fees received in connection with such services. In such a case, an Other Account of the Firm would typically require the Firm to act exclusively on its behalf. This Other Account request may preclude all Firm affiliated clients, including the Funds, from participating in related transactions that would otherwise be suitable. The Firm will be under no obligation to decline any such engagements in order to make an investment opportunity available to the Funds. In connection with its investment banking, advisory and other businesses, the Firm may come into possession of information that limits its ability to engage in potential transactions. The Funds' activities are expected to be constrained as a result of the inability of the Adviser personnel to use such information. For example, employees of the Firm from time to time are prohibited by law or contract from sharing information with the Adviser's portfolio managers. Additionally, there are expected to be circumstances in which one or more individuals associated with the Firm will be precluded from providing services related to the Funds' activities because of certain confidential information available to those individuals or to other parts of the Firm (e.g., trading may be restricted). Where the Firm is engaged to find buyers or financing sources for potential sellers of assets, the seller may permit the Funds to act as a participant in such transaction (as a buyer or financing participant), which would raise certain conflicts of interest inherent in such a situation (including as to the negotiation of the purchase price and certain other financial terms) and also be subject to the limitations of the 1940 Act.

The Firm has long-term relationships with a significant number of corporations and their senior management. In determining whether to invest in a particular transaction, the Adviser will consider those relationships and may determine to not consider the investment for the Funds as a result of such relationships, as may be permitted by law. The Funds may also co-invest with clients of Blackstone in particular investment opportunities, and the relationship with such clients could influence the decisions made by the Adviser with respect to such investments, as may be permitted by law and in accordance with the Adviser's applicable procedures.

The Firm may represent creditors or debtors in restructuring or reorganization proceedings or negotiations, including under Chapter 11 of the U.S. Bankruptcy Code or prior to such filings. From time to time the Firm may serve as advisor to creditor or equity committees. Any such involvement, for which the Firm may be compensated and which compensation will not be passed through to the Funds, is expected to limit or preclude the flexibility that the Funds may otherwise have to participate in restructurings. Alternatively, the Funds may liquidate any existing positions of the applicable issuer. If that were to occur, the Funds may be foregoing returns the Funds would have realized had the investment not been sold. The inability to transact in any security, derivative or loan held by the Funds could result in significant losses to the Funds.

Allocation of Opportunities

Certain inherent conflicts of interest arise from the fact that the Firm provides investment advisory or sub-advisory services both to the Funds and other clients, including other investment funds, and any other investment vehicles that the Adviser or its affiliates may establish from time to time, as well as client accounts (including one or more managed accounts (or other similar arrangements, including those that may be structured as one or more entities) and proprietary accounts managed by the Firm in which the Funds will not have an interest (such other clients, funds and accounts, collectively the Other Adviser Accounts)). In addition, the Firm provides

Table of Contents

investment management services to other clients, including other investment funds, and any other investment vehicles that Blackstone or any of its affiliates may establish from time to time, client accounts, and proprietary accounts in which the Funds will not have an interest (such other clients, funds and accounts, collectively, the Other Blackstone Accounts and, together with the Other Adviser Accounts, the Other Accounts). The respective investment programs of the Funds and the Other Accounts may or may not be substantially similar. The Firm may give advice and recommend investments or actions to Other Accounts, in accordance with the investment objectives and strategies of such Other Accounts, which may differ from advice given to, or the timing or nature of the action taken with respect to, the Funds although it is Adviser's policy, to the extent reasonably practicable, to recommend for allocation and/or allocate investment opportunities to the Funds on a fair and equitable basis over time relative to its Other Accounts, even though their investment mandates have elements in common with those of the Funds. The Adviser or its affiliates may enter into transactions for Other Accounts where they have investment discretion that the Adviser determines not invest on behalf of the Funds for regulatory, investment or other reasons. Affiliates of the Adviser engage in an investment advisory business separate from the Adviser, including with respect to accounts that compete with the Funds, and have no obligation to make investment opportunities available to the Funds.

While the Adviser will seek to manage potential conflicts of interest in good faith, the portfolio transactions effected by the Adviser and Blackstone in managing their respective Other Accounts could conflict with the transactions and strategies utilized by the Adviser in providing investment advisory services to the Funds and may affect the prices and availability of the securities and instruments in which the Funds invest. Conversely, participation in specific investment opportunities may be appropriate, at times, for both the Funds and Other Accounts.

The Adviser may have a conflict of interest in allocating investment opportunities between the Funds and Other Accounts, including where the Adviser may be incentivized to invest on behalf of the Funds that may favor the interests of an affiliate or Other Accounts. This potential conflict may be exacerbated where the Adviser has more attractive incentive fees for such Other Accounts, or where individuals of the Adviser who are responsible for selecting investments for the Funds have large personal stakes in Other Accounts, or where personnel of the Adviser benefit directly or indirectly from compensation generated by Other Accounts. In each such case, such transactions will be governed by, and the Adviser will allocate or make allocation recommendations in accordance with, procedures designed and adopted by the Adviser to manage such conflicts of interest.

Certain distressed investment opportunities may offer high potential returns, but may not, in the judgment of the Adviser, be suitable for the Funds. As a result, such investment opportunities may be allocated to Other Accounts with similar investment strategies as the Funds and may not be allocated to the Funds. Such investments, while high risk, can at times offer exceptional returns, and the Funds may not be able to participate in these returns.

The Adviser is committed to transacting in securities and loans in a manner that is consistent with the Funds investment objectives and those of the Other Accounts, and to allocating investment opportunities (including purchase and sale opportunities) among the Funds and the Other Accounts on a fair and equitable basis. In allocating investment opportunities, the Adviser determines which clients, including the Funds and the Other Accounts, investment

Table of Contents

mandates are consistent with the investment opportunity taking into account the Funds and such Other Accounts' risk/return profile, investment guidelines and objectives, and liquidity objectives. As a general matter, investment opportunities will be allocated *pro rata* among the Funds and the Other Accounts based on their respective targeted acquisition size (which may be based upon available capacity or, in some cases, a specified maximum target size of such client) or targeted sale size (which is generally based upon the position size held by selling clients), in a manner that takes into account the applicable factors listed below. In addition, the Adviser complies with specific allocation procedures set forth in the applicable Fund governing documents and those of Other Accounts and described during the marketing process. While no client will be favored over any other client, in allocating investment opportunities certain clients may have priority over other clients consistent with disclosures made to the applicable investors. Consistent with the foregoing, the Adviser will generally allocate investment opportunities pursuant to certain allocation methodologies as appropriate depending on the nature of the investment. Notwithstanding the foregoing, investment opportunities may be allocated in a manner that differs from such methodologies but is otherwise fair and equitable to the Funds and the Other Accounts taken as a whole (including, in certain circumstances, a complete opt-out for the Funds or an Other Account from an allocation). In instances where the Funds and Other Accounts target different strategies but overlap with respect to certain investment opportunities, the Adviser may determine that a particular investment most appropriately fits within the portfolio and strategy focus of the relevant Other Account and may allocate the investment to such Other Account but not to the Funds. Any such allocations must be documented in accordance with the Adviser's procedures and be undertaken with reference to one or more of the following considerations: (a) the risk-return and target-return profile of the investment opportunity relative to the Funds and the Other Accounts' current risk profile; (b) the Funds or the Other Accounts' investment guidelines, restrictions, terms and objectives, including whether such objectives are considered solely in light of the specific investment under consideration or in the context of the respective portfolios' overall holdings; (c) the need to re-size risk in the Funds or the Other Accounts' portfolios (including the potential for the proposed investment to create an industry, sector or issuer imbalance in the Funds and the Other Accounts' portfolios) and taking into account any existing non-*pro rata* investment positions in such portfolios; (d) the Funds and the Other Accounts' liquidity considerations, including during a ramp-up or wind-down of the Funds or Other Accounts, proximity to the end of the Funds or the Other Accounts' specified terms or investment period, any redemption/withdrawal requests, anticipated future contributions and available cash; (e) tax consequences; (f) regulatory or contractual restrictions or consequences; (g) avoiding *de minimis* or odd lot allocations; (h) availability and degree of leverage and any requirements or other terms of any existing leverage facilities; (i) the Funds or the Other Accounts' investment focus on a classification attributable to an investment or issuer of an investment, including, without limitation, investment strategy, geography, industry or business sector; (j) the nature and extent of involvement in the transaction on the part of the respective teams of investment professionals dedicated to the Funds or an Other Account; (k) managing any actual or potential conflict of interest; (l) with respect to investments that are made available to the Adviser by counterparties pursuant to negotiated trading platforms (e.g., ISDA contracts) which may not be available for the Funds or the Other Accounts, the absence of such relationships; and (m) any other considerations deemed relevant by the Adviser and its affiliates. Because of these and other factors, certain Other Accounts may effectively have priority in investment allocations over the Funds, notwithstanding the Adviser's general policy of *pro rata*

Table of Contents

allocation. Individual conflicts will not necessarily be resolved in favor of the Funds' interests, but the Funds will be treated fairly and equitably over time and in a manner consistent with the Adviser's fiduciary duties.

Orders may be combined for all such accounts, and if any order is not filled at the same price, they may be allocated on an average price basis. Similarly, if an order on behalf of more than one account cannot be fully executed under prevailing market conditions, securities may be allocated among the different accounts on a basis which the Adviser or its affiliates consider equitable.

From time to time, the Adviser expects the Funds and Other Accounts to make investments at different levels of a borrower's or an issuer's capital structure or otherwise in different classes of a borrower's or an issuer's securities, as may permitted by law and subject to compliance with appropriate procedures. When making such investments, the Adviser expects the Funds and such Other Accounts to have conflicts of interest or perceived conflicts of interest between or among the various classes of securities that may be held by such entities. To the extent that the Funds hold interests that are different (or more senior or junior) than those held by the Other Accounts, the Adviser is likely to be presented with decisions involving circumstances where the interests of such Other Accounts are in conflict with those of the Funds. Furthermore, it is possible that the Funds' interest may be subordinated or otherwise adversely affected by virtue of such Other Accounts' involvement and actions relating to their investment. In addition, when the Funds and Other Accounts hold investments in the same borrower or issuer (including in the same level of the capital structure), the Funds may be prohibited by applicable law from participating in restructuring, work-outs, renegotiations or other activities related to its investment in the borrower or issuer due to the fact that Other Accounts hold investments in the same borrower or issuer. As a result, the Funds may not be permitted by law to make the same investment decisions as Other Accounts in the same or similar situations even if the Adviser believes it would be in the Funds' best economic interests to do so. Also, the Funds may be prohibited by applicable law from investing in a borrower or issuer (or an affiliate) that Other Accounts are also investing in or currently invest in even if the Adviser believes it would be in the best economic interests of the Funds to do so. In addition, entering into certain transactions that are not deemed prohibited by law when made may potentially lead to a condition that raises regulatory or legal concerns in the future. This may be the case, for example, with issuers who are near default and more likely to enter into restructuring or work-out transactions with their existing debt holders, which may include the Funds and their affiliates. In some cases, to avoid the potential of future prohibited transactions, the Adviser may avoid allocating an investment opportunity to the Funds that it would otherwise allocate, subject to the Adviser's then-current allocation policy and any applicable exemptive orders over time.

Service Providers

The Funds' service providers (including lenders, brokers, attorneys and investment banking firms) may be investors in the Funds and/or sources of investment opportunities and counterparties therein. This may influence the Adviser in deciding whether to select such a service provider. Notwithstanding the foregoing, investment transactions for the Funds that require the use of a service provider will generally be allocated to service providers on the basis of best execution (and possibly to a lesser extent in consideration of such service provider's

Table of Contents

provision of certain investment-related services that the Adviser believes to be of benefit to the Funds or Other Accounts). Advisers and their service providers, or their affiliates, often charge different rates or have different arrangements for specific types of services. Therefore, based on the types of services used by the Funds and their portfolio companies as compared to the Adviser, Blackstone and their affiliates and the terms of such services, the Adviser, Blackstone or their affiliates may benefit to a greater degree from such vendor arrangements than the Funds or their portfolio companies.

Allocation of Personnel

The Adviser and its officers, managers, members and employees will devote as much of their time to the Funds activities as the Adviser deems necessary and appropriate. Subject to the terms of the applicable offering and/or governing documents, the Firm expects to form additional investment funds, enter into other investment advisory relationships and engage in other business activities, even though such activities may be in competition with the Funds and/or may involve substantial time and resources of the Adviser. These activities could be viewed as creating a conflict of interest in that the time and effort of the Adviser and its officers, managers, members and employees will not be devoted exclusively to the Funds business but will be allocated between the Funds business and the management of the assets of other clients of the Adviser.

Material Non-Public Information

The Adviser or certain of its affiliates may come into possession of material non-public information with respect to a borrower or an issuer (or an affiliate). Should this occur, the Adviser would be restricted from buying or selling securities, derivatives or loans of the borrower or the issuer on behalf of the Funds until such time as the information became public or was no longer deemed material to preclude the Funds from participating in an investment. Disclosure of such information to the Adviser's personnel responsible for the Funds' affairs will be limited. Therefore, the Funds may not have access to material nonpublic information in the possession of the Firm which might be relevant to an investment decision to be made on the Funds' behalf, and the Adviser may initiate a transaction or sell an investment which, if such information had been known to it, may not have been undertaken. Due to these restrictions, the Adviser may not be able to initiate a transaction that it otherwise might have initiated and may not be able to sell an investment that it otherwise might have sold. In addition, the Adviser, in an effort to avoid buying or selling restrictions on behalf of the Funds or other clients of the Adviser or its affiliates, may choose to forego an opportunity to receive (or elect not to receive) information that other market participants or counterparties, including those with the same positions in the issuer as the Funds, are eligible to receive or have received, even if possession of such information would be advantageous to the Funds.

Trading by Firm Personnel

The officers, directors, members, managers and employees of the Adviser or Blackstone may trade in securities for their own accounts, subject to restrictions and reporting requirements as may be required by law and Firm policies, or otherwise determined from time to time by the Adviser or the Firm, as applicable.

Possible Future Activities

The Firm may expand the range of services that it provides over time. The Firm will not be restricted in the scope of its business or in the performance of any such services (whether now offered or undertaken in the future) even if such activities could give rise to conflicts of interest, and whether or not such conflicts are described herein. The Firm has, and will continue to develop, relationships with a significant number of companies, financial sponsors and their

Table of Contents

senior managers, including relationships with clients who may hold or may have held investments similar to those intended to be made by the Funds. These clients may themselves represent appropriate investment opportunities for the Funds or may compete with the Funds for investment opportunities.

Portfolio Company Relationships

The entities in which the Funds invest are expected to be counterparties to or participants in agreements, transactions or other arrangements with portfolio companies of Other Accounts managed by the Firm that, although the Firm determines to be consistent with the requirements of such Other Accounts governing agreements, may not have otherwise been entered into but for the affiliation with the Firm, and/or that involve fees and/or servicing payments to Firm-affiliated entities from which the Funds will derive no benefit, subject to applicable law. For example, the Firm may offer the Funds portfolio companies and portfolio companies of its Other Accounts the opportunity to enter into agreements regarding group procurement (such as a group purchasing organization), benefits management, purchase of insurance policies (which may be pooled across portfolio companies and discounted due to scale) and other operational, administrative or management related matters from a third party or a Firm affiliate, and other similar operational initiatives that, subject to applicable law, may result in commissions or similar payments, including related to a portion of the savings achieved by the portfolio company.

With respect to transactions or agreements with portfolio companies, at times if unrelated officers of a portfolio company have not yet been appointed, subject to applicable law, the Firm may be negotiating and executing agreements between the Firm and/or the Funds on the one hand, and the portfolio company or its affiliates on the other hand, including management services agreements or similar agreements, which could entail a conflict of interest in relation to efforts to enter into terms that are arm's length. Among the measures the Firm may use to mitigate such conflicts is involving outside counsel to review and advise on such agreements and provide insights into commercially reasonable terms and regulatory restrictions.

From time to time employees of the Firm may serve as directors or advisory board members of certain portfolio companies or other entities. In connection with such services and subject to applicable law, the Firm receives directors fees or other similar compensation. Such amounts may, but are not expected to be, material, and will not be passed through to the Funds.

Transactions with Other Accounts

From time to time, the Funds may enter into purchase and sale transactions with Other Accounts. Such transactions will be conducted in accordance with, and subject to, the Adviser's fiduciary obligations to the Funds, the 1940 Act and the rules thereunder and other applicable law.

Other Affiliate Transactions

The Funds may acquire a security from an issuer in which a separate security has been acquired by other the Adviser or Blackstone affiliates. When making such investments, the Funds and other Adviser or Blackstone affiliates may have conflicting interests. For example,

Table of Contents

conflicts could arise where the Funds become a lender to a company when an affiliate of the Adviser owns equity securities of such a company. In this circumstance, for example, if such company goes into bankruptcy, becomes insolvent or is otherwise unable to meet its payment obligations or comply with its debt covenants, conflicts of interest could arise between the holders of different types of securities as to what actions the company should take. There can be no assurance that the return on the Funds' investment will be equivalent to or better than the returns obtained by the other affiliates.

In addition, the 1940 Act limits the Funds' ability to enter into certain transactions with certain of the Funds' affiliates. As a result of these restrictions, the Funds may be prohibited from buying or selling any security directly from or to any portfolio company of a fund or account managed by the Firm. However, the Funds may under certain circumstances purchase any such portfolio company's securities in the secondary market, which could create a conflict for the Adviser between its interests in the Funds and the portfolio company, in that the ability of the Adviser to act in the Funds' best interest might be restricted by applicable law. The 1940 Act also prohibits certain joint transactions with certain of the Funds' affiliates, which could include investments in the same portfolio company (whether at the same or different times). These limitations may limit the scope of investment opportunities that would otherwise be available to the Funds.

Restrictions Arising under the Securities Laws

The Firm's activities (including, without limitation, the holding of securities positions or having one of its employees on the board of directors of a company) could result in securities law restrictions on transactions in securities held by the Funds, affect the prices of such securities or the ability of such entities to purchase, retain or dispose of such investments, or otherwise create conflicts of interest, any of which could have an adverse impact on the Funds performance.

Senior and Other Advisors

The Adviser may engage and retain senior advisors, industry experts, consultants, and other similar professionals (Senior and Other Advisors) who are not employees or affiliates of the Adviser and who, from time to time, receive payments from, or allocations of a profits interest with respect to, portfolio companies (as well as from the Adviser or its clients). In such circumstances, such payments from, or allocations of a profits interest with respect to, portfolio companies and/or clients will not result in the offset of any management fees otherwise due. These Senior and Other Advisors often have the right to co-invest alongside clients, including in those investments in which they are involved, or otherwise participate in equity plans for management of any such portfolio company, and such co-investment and/or participation (which generally would reduce the amount invested by clients in any investment) generally would not be considered as part of the Adviser's side-by-side co-investment rights. Additionally, and notwithstanding the foregoing, these Senior and Other Advisors may be (or have the preferred right to be) investors in other Advisor clients and/or be permitted to participate in the Adviser's side-by-side co-investment rights. The nature of the relationship with each of the Senior and Other Advisors and the amount of time devoted or required to be devoted by them varies considerably. In certain cases, they may provide the Adviser with industry-specific insights and feedback on investment themes, assist in transaction due diligence, make introductions to and

Table of Contents

provide reference checks on management teams. In other cases, they take on more extensive roles and serve as executives or directors on the boards of portfolio companies or contribute to the origination of new investment opportunities. In certain instances, the Adviser has formal arrangements with these Senior and Other Advisors (which may or may not be terminable upon notice by any party), and in other cases the relationships are more informal. They are either compensated (including pursuant to retainers and expense reimbursement) by the Adviser, the relevant clients, and/or portfolio companies or otherwise uncompensated unless and until an engagement with a portfolio company develops. In certain cases, the Senior and Other Advisors have certain attributes of Adviser employees (e.g. they may have dedicated offices at the Adviser, participate in general meetings and events for Adviser personnel, work on Adviser matters as their primary or sole business activity) even though they are not considered Adviser employees, affiliates or personnel for the purposes of certain agreements and provisions within such agreements. There can be no assurance that any of the Senior and Other Advisors will continue to serve in such roles and/or continue their arrangements with the Adviser, the clients and/or any portfolio companies throughout the term of the relevant clients.

(a)(3) Portfolio Manager Compensation.

Mr. McKemie's compensation structure is consistent with the compensation structure for portfolio managers provided in the Fund's latest annual filing of Form N-CSR.

(a)(4) As of: June 30, 2015
