2. Basis of Preparation of the Unaudited Interim Condensed Consolidated Financial Statements and Changes in Significant Accounting Policies and Practices

a) Basis of preparation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in conformity with the International Accounting Standard No. 34, *Interim Financial Reporting* (IAS 34), and using the same accounting policies applied in preparing the annual financial statements, except as explained below.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Company's audited annual consolidated financial statements as of December 31, 2013 and 2014, and for the three year period ended December 31, 2014 as included in the Company's Annual Report on Form 20-F for the year ended December 31, 2014 (the 2014 Form 20-F).

The preparation of these unaudited interim condensed consolidated financial statements in accordance with IAS 34 requires the use of critical estimates and assumptions that affect the amounts reported for certain assets and liabilities, as well as certain income and expenses. It also requires that management exercise judgment in the application of the Company's accounting policies.

The Mexican peso is the functional and reporting currency of the Company in Mexico and the one used in these unaudited interim condensed consolidated financial statements.

c) New standards, interpretations and amendments thereof

The Company applied, for the first time, certain standards and amendments, which were effective for annual periods beginnings on or after January 1, 2014. However, the adoption of those IFRS standards and amendments did not have a significant impact on the consolidated financial statements of América Móvil.

The nature and the impact of each new standard/amendment are described below:

Investment Entities Amendments to IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interests in Other Entities and IAS 27 Separate Financial Statements.

Table of Contents

These amendments provide an exception to the consolidation requirement for entities that meet the definition of an investment entity under IFRS 10 Consolidated Financial Statements and must be applied retrospectively, subject to certain transition relief. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss. The Company determined these amendments had no impact on the Company's consolidated results or in its consolidated statements.

Offsetting Financial Assets and Financial Liabilities Amendments to IAS 32 Financial Instruments

These amendments clarify the meaning of currently has a legally enforceable right to set-off and the criteria for non-simultaneous settlement mechanisms of clearing houses to qualify for offsetting and is applied retrospectively. The Company determined these amendments had no impact on the Company's consolidated results or in its consolidated statements.

Recoverable Amount Disclosures for Non-Financial Assets Amendments to IAS 36 Impairment of Assets

These amendments require disclosure of the recoverable amounts of the assets or cash generating units (CGUs) for which an impairment loss has been recognized or reversed during the period. The Company determined these amendments had no impact on the disclosures of the Company's consolidated statements.

Novation of Derivatives and Continuation of Hedge Accounting Amendments to IAS 39 Financial Instruments

These amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria and retrospective application is required. The Company determined these amendments had no impact on the Company's consolidated results or in its consolidated statements.

IFRIC 21 Levies

IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. The Company determined this IFRIC had no impact on the Company's consolidated results or in its consolidated statements.

Improvements to IFRSs 2010-2012 Cycle

In the 2010-2012 annual improvements cycle, the IASB issued seven amendments to six standards, which included an amendment to IFRS 13 Fair Value Measurement. The amendment to IFRS 13 was effective immediately and, it clarifies in the Basis for Conclusions that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. The Company determined these new improvements had no impact on the Company's consolidated results or in its consolidated statements.

The amendments to IFRS 8 Operating segments became effective on July 1, 2014 and are applied retrospectively and clarify that an entity must disclose the judgments made by management in applying the aggregation criteria in paragraph 12 of IFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are similar . The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities. The disclosures related to these amendment are described in Notes 2b) and 12.

Table of Contents

The amendments to IFRS 2 Share-based payment, IFRS 3 Business combination, IAS 16 Property, Plant and Equipment, IAS 38 Intangible Assets and IAS 24 Related parties did not have an impact in the Company's consolidated financial statements.

Improvements to IFRSs 2011-2013 Cycle

In the 2011-2013 annual improvements cycle, the IASB issued four amendments to four standards, which included an amendment to IFRS 1 First-time Adoption of International Financial Reporting Standards. The amendment to IFRS 1 was effective immediately and clarifies in the Basis for Conclusions that an entity may choose to apply either a current standard or a new standard that is not yet mandatory, but permits early application, provided either standard is applied consistently throughout the periods presented in the entity's first IFRS financial statements. The Company determined these new improvements had no impact on the Company's consolidated results or in its consolidated statements.

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

IAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. This amendment is effective for annual periods beginning on or after July 1, 2014. The Company determined this amendment had no impact on the Company's consolidated results or in its consolidated statements.

Standards issued but not yet effective and annual improvements

The Company has not early adopted any other IFRS interpretation or amendment that has been issued but is not yet effective.

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are as describe below. The Company is in process of analyzing its impact in its financial statement and the relative notes.

IFRS 9 Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments which reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. Early application of previous versions of IFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before February 1, 2015. The adoption of IFRS 9 will have an effect on the classification and measurement of the Company's financial assets, but no impact on the classification and measurement of the Company's financial liabilities.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Company is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date.

Amendments to IFRS 11 Joint Arrangements: Accounting for Acquisitions of Interests

The amendments to IFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party. The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. The Company has yet to quantify the impact these amendments will have on its financial statements.

Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortization

The amendments clarify the principle in IAS 16 and IAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are effective prospectively for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any impact to the Company given that the Company has not used a revenue-based method to depreciate its non-current assets.

Amendments to IAS 27: Equity Method in Separate Financial Statements

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying IFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of IFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to IFRS. The amendments are effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. The Company has yet to quantify the impact these amendments will have on its financial statements.
