FORM 6-K

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer
Pursuant to Rule 13a-16 or 15d-16
of the Securities Exchange Act of 1934
For the month of October 2016

CGG

Tour Maine Montparnasse - 33 Avenue du Maine BP 191 - 75755 PARIS CEDEX 15

(address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes

No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

CGG Awarded Multi-Client Projects

Offshore Mozambique

Paris, France October 13, 2016

CGG announced today that it has been awarded an extensive multi-client program by the Instituto Nacional de Petroleo (INP) to acquire seismic data offshore Mozambique. The multi-survey program is designed to improve industry insight into the region's geology and provide oil and gas companies with a greater level of understanding of the country's prospectivity.

The program includes a 2D survey of over 6,550 km in the offshore Rovuma basin, including blocks R5-A, R5-B and R5-C, and a large 3D survey over the Beira High in the Zambezi Delta. The 3D survey is expected to be up to 40,000 km², subject to pre-commitment. It will cover blocks Z5-C and Z5-D and surrounding open acreage in this deltaic area which is believed to be prospective. CGG has also been awarded an onshore airborne gravity and magnetic survey in the Southern Mozambique Basin.

The proposed multi-client seismic program in the Mozambique Zambezi region will form part of a comprehensive, fully integrated geoscience package that will give participating companies a better overall understanding of the region. Marine gravity and magnetic data will be acquired simultaneously with the seismic to aid regional interpretation. The interpretive phase of the program will benefit from the full range of geoscience expertise from CGG's Geology, Geophysics & Reservoir businesses. This will include geological and remote sensing expertise from Robertson and NPA Satellite Mapping.

Jean-Georges Malcor, CEO, CGG, said: "CGG has a long track record of delivering successful multi-client programs in the Sub-Saharan Africa region and this award underlines the extent to which our reputation for high-quality services and delivering value to our clients is recognized not just by oil and gas companies but also by national governments. As our first multi-client projects in Mozambique, these awards fit well with CGG's long-term multi-client strategy to provide our clients with the most advanced understanding of the subsurface across the world's key basins. The 5th License Round award process undertaken by the INP in 2015 saw a high level of interest in the Zambezi region and we believe our multi-client projects will highlight the exploration upside potential."
