Proxy Statement

for

Annual Meeting of Stockholders

December 14, 2016

The Meeting

The Annual Meeting of Stockholders of AutoZone, Inc. will be held at AutoZone s offices, the J. R. Hyde III Store Support Center, 123 South Front Street, Memphis, Tennessee, at 8:00 a.m. CST on December 14, 2016.

About this Proxy Statement

Our Board of Directors has sent you this Proxy Statement to solicit your vote at the Annual Meeting. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the Meeting. Please read it carefully.

In this Proxy Statement:

AutoZone, we, us, and the Company mean AutoZone, Inc.

Annual Meeting or Meeting means the Annual Meeting of Stockholders to be held on December 14, 2016, at 8:00 a.m. CST at the J. R. Hyde III Store Support Center, 123 South Front Street, Memphis, Tennessee.

Board means the Board of Directors of AutoZone, Inc.

AutoZone will pay all expenses incurred in this proxy solicitation. We also may make additional solicitations in person, by telephone, facsimile, e-mail, or other forms of communication. Brokers, banks, and others who hold our stock for beneficial owners will be reimbursed by us for their expenses related to forwarding our proxy materials to the beneficial owners.

This Proxy Statement is first being sent or given to security holders on or about October 24, 2016.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE STOCKHOLDER MEETING TO BE HELD ON DECEMBER 14, 2016. This Proxy Statement and the annual report to security holders are available at www.autozoneinc.com.

Information about Voting

What matters will be voted on at the Annual Meeting?

At the Annual Meeting, stockholders will be asked to vote on the following proposals:

- 1. to elect eleven directors;
- 2. to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the 2017 fiscal year;
- 3. to approve the AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan; and
- 4. to approve an advisory vote on executive compensation

Stockholders also will transact any other business that may be properly brought before the Meeting.

Who is entitled to vote at the Annual Meeting?

The record date for the Annual Meeting is October 17, 2016. Only stockholders of record at the close of business on that date are entitled to attend and vote at the Annual Meeting. The only class of stock that can be

1

voted at the Meeting is our common stock. Each share of common stock is entitled to one vote on all matters that come before the Meeting. At the close of business on the record date, October 17, 2016, we had 28,861,394 shares of common stock outstanding.

How do I vote my shares?

You may vote your shares in person or by proxy:

<u>By Proxy</u>: You can vote by telephone, on the Internet or by mail. We encourage you to vote by telephone or Internet, both of which are convenient, cost-effective, and reliable alternatives to returning your proxy card by mail.

- 1. By Telephone: You may submit your voting instructions by telephone by following the instructions printed on the enclosed proxy card. If you submit your voting instructions by telephone, you do not have to mail in your proxy card.
- 2. On the Internet: You may vote on the Internet by following the instructions printed on the enclosed proxy card. If you vote on the Internet, you do not have to mail in your proxy card.
- 3. By Mail: If you properly complete and sign the enclosed proxy card and return it in the enclosed envelope, it will be voted in accordance with your instructions. The enclosed envelope requires no additional postage if mailed in the United States.

<u>In Person</u>: You may attend the Annual Meeting and vote in person. If you are a registered holder of your shares (if you hold your stock in your own name), you need only to attend the Meeting. However, if your shares are held in an account by a broker, you will need to present a written consent from your broker permitting you to vote the shares in person at the Annual Meeting.

How will my vote be counted?

Your vote for your shares will be cast as you indicate on your proxy card. If you sign your card without indicating how you wish to vote, your shares will be voted FOR our nominees for director, FOR Ernst & Young LLP as independent registered public accounting firm, FOR the AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan, FOR the advisory vote on executive compensation, and in the proxies discretion on any other matter that may properly be brought before the Meeting or any adjournment of the Meeting.

The votes will be tabulated and certified by our transfer agent, Computershare. A representative of Computershare will serve as the inspector of election.

Can I change my vote after I submit my proxy?

Yes, you may revoke your proxy at any time before it is voted at the Meeting by:

giving written notice to our Secretary that you have revoked the proxy, or

providing a later-dated proxy.

Any written notice should be sent to the Secretary at 123 South Front Street, Dept. 8074, Memphis, Tennessee 38103.

How many shares must be present to constitute a quorum for the Meeting?

Holders of a majority of the shares of the voting power of the Company s stock must be present in person or by proxy in order for a quorum to be present. If a quorum is not present at the scheduled time of the Annual Meeting, we may adjourn the Meeting, without notice other than announcement at the Meeting, until a quorum is present or represented. Any business which could have been transacted at the Meeting as originally scheduled can be conducted at the adjourned meeting.

2

Corporate Governance Matters

Independence

How many independent directors does AutoZone have?

Our Board of Directors has determined that ten of our current eleven directors are independent: Douglas H. Brooks, Linda A. Goodspeed, Sue E. Gove, Earl G. Graves, Jr., Enderson Guimaraes, J. R. Hyde, III, D. Bryan Jordan, W. Andrew McKenna, George R. Mrkonic, Jr., and Luis P. Nieto, Jr. All of these directors meet the independence standards of our Corporate Governance Principles and the New York Stock Exchange listing standards.

How does AutoZone determine whether a director is independent?

In accordance with AutoZone s Corporate Governance Principles, a director is considered independent if the director meets the independence requirements of the applicable New York Stock Exchange listing standards, and, with respect to the Audit Committee, the applicable Securities & Exchange Commission rules.

In determining the independence of our directors, the Board considers relationships involving directors and their immediate family members that are relevant under applicable laws and regulations, the listing standards of the New York Stock Exchange, and the standards contained in our Corporate Governance Principles. The Board relies on information from Company records and questionnaires completed annually by each director.

As part of its most recent independence determinations, the Board noted that AutoZone does not have, and did not have during fiscal 2016, significant commercial relationships with companies at which Board members served as officers or directors, or in which Board members or their immediate family members held an aggregate of 10% or more direct or indirect interest.

The Board considered the fact that Mr. Jordan is the Chairman of the Board, President and Chief Executive Officer and a member of the board of directors of First Horizon National Corporation, parent company of First Tennessee Bank, which

participates in one of AutoZone s supplier confirmed receivables programs (under which some AutoZone vendors are borrowers, but AutoZone is not);

has established a Daylight Overdraft line which allows AutoZone to make large payments early in the morning creating a daylight overdraft which is rectified at the end of the day;

acts as Trustee for AutoZone s pension plan;

offers brokerage services to AutoZone employees exercising stock options, and

holds various AutoZone deposit accounts.

During fiscal 2016, First Horizon National Corporation did business with AutoZone in arm s length transactions which were not, individually or cumulatively, material to either AutoZone or First Horizon National Corporation and which did not materially benefit Mr. Jordan, either directly or indirectly.

The Board also considered the fact that Mr. Brooks is a member of the board of directors of Southwest Airlines. During fiscal 2016, AutoZone purchased airline tickets from Southwest Airlines which were not, individually or cumulatively, material to either AutoZone or Southwest Airlines and which did not materially benefit Mr. Brooks, either directly or indirectly.

The Board also reviewed donations made by the Company to not-for-profit organizations with which Board members or their immediate family members were affiliated by membership or service or as directors or trustees.

3

Based on its review of the above matters, the Board determined that none of Messrs. Brooks, Graves, Guimaraes, Hyde, Jordan, McKenna, Mrkonic, or Nieto or Ms. Goodspeed or Gove has a material relationship with the Company and that all of them are independent within the meaning of the AutoZone Corporate Governance Principles and applicable law and listing standards. The Board also determined that Mr. Rhodes is not independent since he is an employee of the Company.

Board Leadership Structure

Our Board believes that having a combined Chairman/CEO, independent members and chairs for each of our Board committees and an independent Lead Director currently provides the best board leadership structure for AutoZone. This structure, together with our other corporate governance practices, provides strong independent oversight of management while ensuring clear strategic alignment throughout the Company. Our Lead Director is a non-employee director who is elected by the Board. Earl G. Graves, Jr., a director since 2002, currently serves as our Lead Director.

Our Lead Director:

Chairs Board meetings when the Chairman is not present, including presiding at all executive sessions of the Board (without management present) at every regularly scheduled Board meeting;

Works with management to determine the information and materials provided to Board members;

Approves Board meeting agendas, schedules and other information provided to the Board;

Consults with the Chairman on such other matters as are pertinent to the Board and the Company;

Has the authority to call meetings of the independent directors;

Is available for direct communication and consultation with major shareholders upon request; and

Serves as liaison between the Chairman and the independent directors.

Board Risk Oversight

Oversight of risk management is a responsibility of the Board of Directors and is an integral part of the Board s oversight of AutoZone s business. AutoZone s management takes a variety of calculated risks in order to enhance Company performance and shareholder value. The primary responsibility for the identification, assessment and management of the various risks resides with AutoZone s management. The Board of Directors is primarily responsible for ensuring that management has established and adequately resourced processes for identifying and preparing the Company to manage risks effectively. Additionally, the Board reviews the Company s principal strategic and operating risks as part of its regular discussion and consideration of AutoZone s strategy and operating results. The Board also reviews periodically with the General Counsel legal matters that may have a material adverse impact on the Company s financial statements, the Company s compliance with laws, and any material reports received from regulatory agencies.

The Audit Committee is involved in the Board s oversight of risk management. At each of its regular meetings, the Audit Committee reviews the Company s major financial exposures and the steps management has taken to identify, assess, monitor, control, remediate and report such exposures. The Audit Committee, along with management, also evaluates the effectiveness of the risk avoidance and mitigation processes in place. Such risk-related information is then summarized, reported and discussed at each quarterly Board of Directors meeting.

To assist with risk management and oversight, AutoZone has adopted the concept of enterprise risk management (ERM) using the framework issued in 2004 by the Committee of Sponsoring Organizations of the Treadway Commission. The Company s Vice President of Internal Audit, who reports directly to the Audit Committee, has been charged with leading the Company s ERM processes with the assistance of Company

4

management. The Vice President of Internal Audit presents to the Audit Committee a comprehensive review of the Company s ERM processes annually. This presentation includes an overview of all significant risks that have been identified and assessed and the strategies developed by management for managing such risks. The Vice President of Internal Audit leads open discussions with the Audit Committee members to analyze the significance of the risks identified and to verify that the list is all-inclusive. Company management is also involved in these discussions to ensure that the Board gains a full understanding of the risks and the strategies that management has implemented to manage the risks

Other Board committees also consider significant risks within their areas of responsibility. The Compensation Committee considers risk in connection with the design of AutoZone s compensation programs. The Nominating and Corporate Governance Committee oversees risks related to the Company s governance policies and practices.

Corporate Governance Documents

Our Board of Directors has adopted Corporate Governance Principles; charters for its Audit, Compensation, and Nominating & Corporate Governance Committees; a Code of Business Conduct & Ethics for directors, officers and employees of AutoZone; and a Code of Ethical Conduct for Financial Executives. Each of these documents is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

Meetings and Attendance

How many times did AutoZone s Board of Directors meet during the last fiscal year?

During the 2016 fiscal year, the Board of Directors held four meetings.

Did any of AutoZone s directors attend fewer than 75% of the meetings of the Board and their assigned committees?

All of our directors attended at least 75% of the meetings of the Board and their assigned committees during the fiscal year.

What is AutoZone s policy with respect to directors attendance at the Annual Meeting?

As a general matter, all directors are expected to attend our Annual Meetings. At our 2015 Annual Meeting, all directors were present except for Enderson Guimaraes.

Do AutoZone s non-management directors meet regularly in executive session?

The non-management members of our Board regularly meet in executive sessions in conjunction with each regularly scheduled Board meeting. Our Lead Director, Mr. Graves, presides at these sessions.

Committees of the Board

What are the standing committees of AutoZone s Board of Directors?

AutoZone s Board has three standing committees: Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee, each consisting only of independent directors.

Audit Committee

What is the function of the Audit Committee?

The Audit Committee is responsible for:

the integrity of the Company s financial statements,

the independent auditor s qualification, independence and performance,

5

the performance of the Company s internal audit function, and

the Company s compliance with legal and regulatory requirements. The Audit Committee performs its duties by:

evaluating, appointing or dismissing, determining compensation for, and overseeing the work of the independent public accounting firm employed to conduct the annual audit, which reports to the Audit Committee;

pre-approving all audit and permitted non-audit services performed by the independent auditor, considering issues of auditor independence;

conducting periodic reviews with Company officers, management, independent auditors, and the internal audit function;

reviewing and discussing with management and the independent auditor the Company s annual audited financial statements, quarterly financial statements, internal controls report and the independent auditor s attestation thereof, and other matters related to the Company s financial statements and disclosures;

overseeing the Company s internal audit function;

reporting periodically to the Board and making appropriate recommendations; and

preparing the report of the Audit Committee required to be included in the annual proxy statement. Who are the members of the Audit Committee?

The Audit Committee consists of Ms. Goodspeed, Ms. Gove, Mr. Jordan, Mr. McKenna (Chair), Mr. Mrkonic, and Mr. Nieto.

Are all of the members of the Audit Committee independent?

Yes, the Audit Committee consists entirely of independent directors under the standards of AutoZone s Corporate Governance Principles and the listing standards of the New York Stock Exchange.

Does the Audit Committee have an Audit Committee Financial Expert?

The Board has determined that Ms. Goodspeed, Ms. Gove, Mr. Jordan, Mr. McKenna, Mr. Mrkonic and Mr. Nieto each meet the qualifications of an audit committee financial expert as defined by the Securities and Exchange Commission. All members of the Audit Committee meet the New York Stock Exchange definition of financial literacy.

How many times did the Audit Committee meet during the last fiscal year?

During the 2016 fiscal year, the Audit Committee held nine meetings.

Where can I find the charter of the Audit Committee?

The Audit Committee s charter is available on our corporate website a<u>t www.autozoneinc.co</u>m and is also available, free of charge, in print to any stockholder who requests it.

6

Audit Committee Report

The Audit Committee of AutoZone, Inc. has reviewed and discussed AutoZone s audited financial statements for the year ended August 27, 2016, with AutoZone s management. In addition, we have discussed with Ernst & Young LLP, AutoZone s independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as amended and as adopted by the Public Company Accounting Oversight Board (PCAOB) in Rule 3200T, the Sarbanes-Oxley Act of 2002, and the charter of the Committee.

The Committee also has received the written disclosures and the letter from Ernst & Young LLP required by the applicable requirements of the PCAOB regarding the firm s communications with the Audit Committee concerning independence, and we have discussed with Ernst & Young LLP their independence from the Company and its management. The Committee has discussed with AutoZone s management and the auditing firm such other matters and received such assurances from them as we deemed appropriate.

As a result of our review and discussions, we have recommended to the Board of Directors the inclusion of AutoZone s audited financial statements in the annual report for the fiscal year ended August 27, 2016, on Form 10-K for filing with the Securities and Exchange Commission.

While the Audit Committee has the responsibilities and powers set forth in its charter, the Audit Committee does not have the duty to plan or conduct audits or to determine that AutoZone s financial statements are complete, accurate, or in accordance with generally accepted accounting principles; AutoZone s management and the independent auditor have this responsibility. Nor does the Audit Committee have the duty to assure compliance with laws and regulations and the policies of the Board of Directors.

W. Andrew McKenna (Chair)

Linda A. Goodspeed

Sue E. Gove

D. Bryan Jordan

George R. Mrkonic, Jr.

Luis P. Nieto

The above Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

Compensation Committee

What is the function of the Compensation Committee?

The Compensation Committee has the authority, based on its charter and the AutoZone Corporate Governance Principles, to:

review and approve AutoZone s compensation objectives;

review and approve the compensation programs, plans, policies and awards for executive officers, including recommending equity-based plans for stockholder approval;

lead the independent directors in the evaluation of the performance of the Chief Executive Officer ($\,$ CEO $\,$) in meeting established goals and objectives relevant to the compensation of the CEO;

act as administrator as may be required by AutoZone s short- and long-term incentive plans and stock or stock-based plans; and

review the compensation of AutoZone s non-employee directors from time to time and recommend to the full Board any changes that the Compensation Committee deems necessary.

7

The Compensation Committee may appoint subcommittees from time to time with such responsibilities as it may deem appropriate; however, the committee may not delegate its authority to any other persons.

AutoZone s processes and procedures for the consideration and determination of executive compensation, including the role of the Compensation Committee and compensation consultants, are described in the Compensation Discussion and Analysis on page 22.

Who are the members of the Compensation Committee?

The Compensation Committee consists of Mr. Brooks, Ms. Goodspeed, Mr. Graves (Chair), Mr. McKenna, and Mr. Mrkonic, all of whom are independent directors under the standards of AutoZone s Corporate Governance Principles and the listing standards of the New York Stock Exchange.

How many times did the Compensation Committee meet during the last fiscal year?

During the 2016 fiscal year, the Compensation Committee held three meetings.

Where can I find the charter of the Compensation Committee?

The Compensation Committee s charter is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

Nominating and Corporate Governance Committee

What is the function of the Nominating and Corporate Governance Committee?

The Nominating and Corporate Governance Committee ensures that:

qualified candidates are presented to the Board of Directors for election as directors;

the Board of Directors has adopted appropriate corporate governance principles that best serve the practices and objectives of the Board of Directors; and

AutoZone s Articles of Incorporation and By-Laws are structured to best serve the interests of the stockholders. Who are the members of the Nominating and Corporate Governance Committee?

The Nominating and Corporate Governance Committee consists of Ms. Gove (Chair), Mr. Guimaraes, Mr. Jordan and Mr. Nieto, all of whom are independent directors under the standards of AutoZone s Corporate Governance Principles and the listing standards of the New York Stock Exchange.

How many times did the Nominating and Corporate Governance Committee meet during the last fiscal year?

During the 2016 fiscal year, the Nominating and Corporate Governance Committee held three meetings.

Where can I find the charter of the Nominating and Corporate Governance Committee?

The Nominating and Corporate Governance Committee s charter is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

8

Director Nomination Process

What is the Nominating and Corporate Governance Committee s policy regarding consideration of director candidates recommended by stockholders? How do stockholders submit such recommendations?

The Nominating and Corporate Governance Committee spolicy is to consider director candidate recommendations from stockholders if they are submitted in writing to AutoZone s Secretary in accordance with the procedure set forth in Article III, Section 1 of AutoZone s Sixth Amended and Restated By-Laws (By-Laws), including biographical and business experience, information regarding the nominee and other information required by said Article III, Section 1. Copies of the By-Laws will be provided upon written request to AutoZone s Secretary and are also available on AutoZone s corporate website at www.autozoneinc.com.

What qualifications must a nominee have in order to be recommended by the Nominating and Corporate Governance Committee for a position on the Board?

The Board believes each individual director should possess certain personal characteristics, and that the Board as a whole should possess certain core competencies. Such personal characteristics are integrity and accountability, informed judgment, financial literacy, mature confidence, high performance standards, and passion. They should also have demonstrated the confidence to be truly independent, as well as be business savvy, have an owner orientation and have a genuine interest in AutoZone. Core competencies of the Board as a whole are accounting and finance, business judgment, management expertise, crisis response, industry knowledge, international markets, strategy and vision. These characteristics and competencies are set forth in more detail in AutoZone s Corporate Governance Principles, which are available on AutoZone s corporate website at www.autozoneinc.com.

How does the Nominating and Corporate Governance Committee identify and evaluate nominees for director?

Prior to each annual meeting of stockholders at which directors are to be elected, the Nominating and Corporate Governance Committee considers incumbent directors and other qualified individuals, if necessary, as potential director nominees. In evaluating a potential nominee, the Nominating and Corporate Governance Committee considers the personal characteristics described above, and also reviews the composition of the full Board to determine the areas of expertise and core competencies needed to enhance the function of the Board. The Nominating and Corporate Governance Committee may also consider other factors such as the size of the Board, whether a candidate is independent, how many other public company directorships a candidate holds, and the listing standards requirements of the New York Stock Exchange.

The Nominating and Corporate Governance Committee recognizes the importance of selecting directors from various backgrounds and professions in order to ensure that the Board as a whole has a variety of experiences and perspectives which contribute to a more effective decision-making process. The Board does not have a specific diversity policy, but considers diversity of race, ethnicity, gender, age, cultural background and professional experiences in evaluating candidates for Board membership.

The Nominating and Corporate Governance Committee uses a variety of methods for identifying potential nominees for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through current Board members, stockholders or other persons. The Nominating and Corporate Governance Committee may retain a search firm or other consulting firm from time to time to identify potential nominees. Nominees recommended by stockholders in accordance with the procedure described above, i.e., submitted in writing to AutoZone s Secretary, accompanied by the biographical and business experience information regarding the nominee and the other information required by Article III, Section 1 of the By-Laws, will receive the same consideration as the Nominating and Corporate Governance Committee s other potential nominees.

9

Procedure for Communication with the Board of Directors

How can stockholders and other interested parties communicate with the Board of Directors?

Stockholders and other interested parties may communicate with the Board of Directors by writing to the Board, to any individual director or to the non-management directors as a group c/o Secretary, AutoZone, Inc., 123 South Front Street, Dept. 8074, Memphis, Tennessee 38103. The Company's General Counsel and Secretary will review all such correspondence and will forward correspondence that, in her opinion, deals with the function of the Board of Directors or that she otherwise determines requires the attention of any member, group or committee of the Board of Directors. Communications addressed to the Board of Directors or to the non-management directors as a group will be forwarded to the Chair of the Nominating and Corporate Governance Committee, and communications addressed to a committee of the Board will be forwarded to the chair of that committee.

Compensation of Directors

Director Compensation Table

This table shows the compensation paid to our non-employee directors during the 2016 fiscal year. No amounts were paid to our non-employee directors during the 2016 fiscal year that would be classified as Option Awards, Non-Equity Incentive Plan Compensation, Changes in Pension Value and Nonqualified Deferred Compensation Earnings or All Other Compensation, so these columns have been omitted from the table.

	Fees Paid in Cash	Stock Awards	
	(\$)	(\$)	Total
Name(1)	(2)	(3)	(\$)
Douglas H. Brooks	78,750	124,997	203,747
Linda A. Goodspeed	20,000	214,998	234,998
Sue E. Gove		224,999	224,999
Earl G. Graves, Jr.		239,993	239,993
Enderson Guimaraes		204,997	204,997
J.R. Hyde, III		204,997	204,997
D. Bryan Jordan		214,998	214,998
W. Andrew McKenna		224,999	224,999
George R. Mrkonic, Jr.		214,998	214,998
Luis Nieto	87,500	124,997	212,497

- (1) William C. Rhodes, III, our Chairman, President and Chief Executive Officer, serves on the Board but does not receive any compensation for his service as a director. His compensation as an employee of the Company is shown in the Summary Compensation Table on page 34.
- (2) Under the Amended and Restated AutoZone, Inc. 2011 Equity Incentive Award Plan (the Amended 2011 Equity Plan), AutoZone s non-employee directors receive their director compensation in the form of Restricted Stock Units, which are contractual rights to receive in the future a share of AutoZone stock. Upon timely election, non-employee directors may elect to receive \$80,000 of the annual retainer fee, plus any additional fees, in the form of cash, paid in quarterly installments in advance (on January 1, April 1, July 1 and October 1 of each calendar year). This column represents the portion of the Director Compensation that was paid in cash and earned in fiscal year 2016.
- (3) The Stock Awards column represents the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 for awards of Restricted Stock Units under the Amended 2011 Equity Plan during fiscal 2016. See Note B, Share-Based Payments, to our consolidated financial statements in our 2016 Annual Report for a discussion of our accounting for share-based awards and the assumptions used. The aggregate number of outstanding awards of common stock under the AutoZone, Inc. 2003 Director Compensation Plan

10

(Stock Units) and Restricted Stock Units held by each director at the end of fiscal 2016 are shown in the following footnote <u>4. See</u> Security Ownership of Management and Board of Directors on page 12 for more information about our directors stock ownership.

(4) As of August 27, 2016, each current non-employee director had the following aggregate number of outstanding Stock Units, Restricted Stock Units and stock options:

	Stock	Restricted Stock	Stock
	Units	Units	Options
Name	(#)	(#)	(#)
Douglas H. Brooks		791	
Linda A. Goodspeed		1,193	
Sue E. Gove	280	2,920	
Earl G. Graves, Jr.	3,417	3,127	3,000
Enderson Guimaraes		1,632	
J.R. Hyde, III	7,505	2,768	12,000
D. Bryan Jordan		1,209	
W. Andrew McKenna	4,247	2,846	9,000
George R. Mrkonic, Jr.	1,405	2,844	
Luis Nieto	1,136	2,426	

Narrative Accompanying Director Compensation Table

AutoZone s current director compensation program became effective January 1, 2016.

Annual Retainer Fees. Non-employee directors receive an annual retainer fee of \$205,000 (the Annual Retainer). The lead director and the chair of the Audit Committee each receive an additional fee (Additional Fee) of \$20,000 annually, the chair of the Compensation Committee receives an Additional Fee of \$15,000 per year, the chair of the Nominating and Corporate Governance Committee receives an Additional Fee of \$10,000 per year, and the non-chair members of the Audit Committee each receive an Additional Fee of \$10,000 per year (such Additional Fees, together with the Annual Retainer, the Director Compensation). There are no meeting fees.

Under the Amended 2011 Equity Plan, which replaced the AutoZone, Inc. 2011 Equity Incentive Award Plan (the 2011 Equity Plan), non-employee directors receive Director Compensation in the form of Restricted Stock Units, which are contractual rights to receive in the future a share of AutoZone common stock. Upon timely delivery of an election form, a non-employee director may elect to receive \$80,000 of the Annual Retainer plus any Additional Fees in the form of cash, paid in quarterly installments, with the remainder of the Annual Retainer paid in the form of Restricted Stock Units. All Restricted Stock Units are granted on January 1 of the applicable calendar year.

If a non-employee director is elected to the Board, or assumes a different position, after the beginning of a calendar quarter, he or she will receive the Annual Retainer and/or Additional Fees, prorated based on the number of days remaining in the calendar year, for Restricted Stock Units or quarter, for cash, as appropriate.

Restricted Stock Units become payable on the earlier to occur of (1) the fifth anniversary of the grant date, or (2) the date on which the non-employee director ceases to be a director (the Payment Date). Upon timely delivery of an election form, a non-employee director may elect to receive payment on the date on which he or she ceases to be a director. Restricted Stock Units are payable in shares of AutoZone common stock no later than the fifteenth day of the third month following the end of the tax year in which such Payment Date occurs.

Other Predecessor Plans

The AutoZone, Inc. Second Amended and Restated Director Compensation Plan and the AutoZone, Inc. Fourth Amended and Restated 1998 Director Stock Option Plan were terminated in December 2002 and were

replaced by the AutoZone, Inc. First Amended and Restated 2003 Director Compensation Plan (the 2003 Director Compensation Plan) and the AutoZone, Inc. First Amended and Restated 2003 Director Stock Option Plan (the 2003 Director Stock Option Plan). The 2003 Director Compensation Plan and the 2003 Director Stock Option Plan were terminated in December 2010 and replaced by the 2011 Equity Plan. The 2011 Equity Plan was terminated in December 2015 and replaced with the Amended 2011 Equity Plan. However, grants made under those plans continue in effect under the terms of the grant made and are included in the aggregate awards outstanding shown above.

Stock Ownership Requirement

The Board has established a stock ownership requirement for non-employee directors. Each director is required to own AutoZone common stock and/or restricted stock units having a cumulative fair market value in an amount equal to three times the value of the base annual retainer payable pursuant to the Director Compensation Program within five years of joining the Board, and to maintain such ownership level thereafter. Exceptions to this requirement may only be made by the Board under compelling mitigating circumstances. Shares, Stock Units and Restricted Stock Units issued under the AutoZone, Inc. Second Amended and Restated Director Compensation Plan, the 2003 Director Compensation Plan, the 2011 Equity Plan and the Amended 2011 Equity Plan count toward this requirement. The in-the-money value of vested stock options does not count toward this requirement.

OTHER INFORMATION

Security Ownership of Management and Board of Directors

This table shows the beneficial ownership of common stock by each director, the Principal Executive Officer, the Principal Financial Officer and the other three most highly compensated executive officers, and all current directors and executive officers as a group. Unless stated otherwise in the notes to the table, each person named below has sole authority to vote and invest the shares shown.

THE PROPOSALS

PROPOSAL 1 Election of Directors

Eleven directors will be elected at the Annual Meeting to serve until the next annual meeting of stockholders in 2017. Pursuant to AutoZone s Sixth Amended and Restated By-Laws, in an uncontested election of directors, a nominee for director is elected to the Board if the number of votes cast for such nominee s election exceed the number of votes cast against such nominee s election. (If the number of nominees were to exceed the number of directors to be elected, i.e., a contested election, directors would be elected by a plurality of the votes cast at the Annual Meeting.) Pursuant to AutoZone s Corporate Governance Principles, incumbent directors must agree to tender their resignation if they fail to receive the required number of votes for re-election, and in such event the Board will act within 90 days following certification of the shareholder vote to determine whether to accept the director s resignation. These procedures are described in more detail in our Corporate Governance Principles, which are available on our corporate website at www.autozoneinc.com. The Board may consider any factors it deems relevant in deciding whether to accept a director s resignation. If a director s resignation offer is not accepted by the Board, that director will continue to serve until AutoZone s next annual meeting of stockholders or until his or her successor is duly elected and qualified, or until the director s earlier death, resignation, or removal.

Any director nominee who is not an incumbent director and who does not receive a majority vote in an uncontested election will not be elected as a director, and a vacancy will be left on the Board. The Board, in its sole discretion, may either fill a vacancy resulting from a director nominee not receiving a majority vote pursuant to the By-Laws or decrease the size of the Board to eliminate the vacancy.

Broker non-votes occur when shares held by a brokerage firm are not voted with respect to a proposal because the firm has not received voting instructions from the beneficial owner of the shares and the firm does not have the authority to vote the shares in its discretion. Shares abstaining from voting and shares as to which a broker non-vote occurs are considered present for purposes of determining whether a quorum exists, but are not considered votes cast or shares entitled to vote with respect to such matter. Accordingly, abstentions and broker non-votes will have no effect on the outcome of Proposal 1.

The Board of Directors recommends that the stockholders vote FOR each of these nominees. These nominees have consented to serve if elected. Should any nominee be unavailable to serve, your proxy will be voted for the substitute nominee recommended by the Board of Directors, or the Board of Directors may reduce the number of directors on the Board.

Each of the nominees named below was elected a director at the 2015 annual meeting.

Nominees

The nominees are:

<u>Douglas H. Brooks</u>, 64, has been a director since 2013. He is retired. Until his retirement in 2013, he had held various positions with Brinker International, including serving as Non-Executive Chairman of the Board of Brinker International from January 2013 until December 2013; Chairman, President and Chief

14

Table of Contents

Executive Officer of Brinker from 2004 until January 2013, and President and Chief Operating Officer from 1999 to 2004. He served on the Brinker board of directors from 1999 through 2013. Mr. Brooks is also a director of Southwest Airlines and Club Corp.

Experience, Skills and Qualifications: The Board believes Mr. Brooks is qualified to serve as a director of the Company based on his strategic and operational business background, his knowledge of international operations, his experience as a chief executive officer of a public company, his experience managing a company with a focus on customer service, his owner orientation, and his board experience as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

Linda A. Goodspeed, 54, has been a director since 2013. She is currently the Chief Operating Officer and a Managing Partner at WealthStrategies Financial Advisors, positions she has held since 2007. She had served as Senior Vice President and Chief Information Officer of ServiceMaster from 2011 to 2014. From 2008 to September 2011, Ms. Goodspeed served as Vice President, Information Systems and Chief Information Officer for Nissan North America, Inc., a subsidiary of Nissan Motor Company, a global manufacturer of vehicles. From 2001 to 2008, Ms. Goodspeed served as Executive Vice President at Lennox International, Inc., a global manufacturer of air conditioning, heating and commercial refrigeration equipment. She is also a director of Columbus McKinnon Corp., American Electric Power Co., Inc., and Global Power Equipment Group.

Experience, Skills and Qualifications: The Board believes Ms. Goodspeed is qualified to serve as a director of the Company based on her experience in key strategic and operational roles with several large global companies, her expertise in information technology and previous position as the chief information officer of a service company, her owner orientation, her board experience and her executive management skills, as well as her integrity, energy, and willingness to spend time on and interest in AutoZone.

Sue E. Gove, 58, has been a director since 2005. She is currently the President of Excelsior Advisors, LLC. She had been the President of Golfsmith International Holdings, Inc. from February 2012 through April 2014 and Chief Executive Officer from October 2012 through April 2014. Previously, she was Chief Operating Officer of Golfsmith International Holdings, Inc. from September 2008 through October 2012, Executive Vice President from September 2008 through February 2012 and Chief Financial Officer from March 2009 through July 2012. Ms. Gove previously had been a self-employed consultant since April 2006, serving clients in specialty retail and private equity. Ms. Gove was a consultant for Prentice Capital Management, LP from April 2007 to March 2008. She was a consultant for Alvarez and Marsal Business Consulting, L.L.C. from April 2006 to March 2007. She was Executive Vice President and Chief Operating Officer of Zale Corporation from 2002 to March 2006 and a director of Zale Corporation from 2004 to 2006. She was Executive Vice President, Chief Financial Officer of Zale Corporation from 1998 to 2002 and remained in the position of Chief Financial Officer until 2003. She is also a director of Iconix Brand Group, Inc. and Logitech International, SA.

Experience, Skills and Qualifications: The Board believes Ms. Gove is qualified to serve as a director of the Company based on her experience in executive retail operations and finance roles, her knowledge of accounting, financial reporting, and financial systems, her executive management skills, her owner orientation, and her board experience, as well as her integrity, energy, and willingness to spend time on and interest in AutoZone.

<u>Earl G. Graves, Jr.</u>, 54, has been a director since 2002 and was elected Lead Director in January 2009. He has been the President and Chief Executive Officer of Black Enterprise, publisher of Black Enterprise Magazine, since January 2006, and was President and Chief Operating Officer from 1998 to 2006. Mr. Graves has been employed by the same company in various capacities since 1988.

Experience, Skills and Qualifications: The Board believes Mr. Graves is qualified to serve as a director of the Company based on his business, management and strategic planning experience, his knowledge of advertising and marketing, his owner orientation, and his board experience, as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

15

Table of Contents

Enderson Guimaraes, 57, has been a director since 2012. He has been the President and Chief Operating Officer for Laureate Education, Inc. since September 2015. He was Executive Vice President, Global Categories and Operations of PepsiCo, Inc. from January 2015 through July 2015. He served as Chief Executive Officer of PepsiCo Europe and Sub-Sahara Africa from September 2012 through January 2015. He was also President of PepsiCo Global Operations from October 2011 to September 2012. Mr. Guimaraes previously had served as Executive Vice President of Electrolux and Chief Executive Officer of its major appliances business in Europe, Africa and the Middle East from 2008 to 2011. Prior to this, Mr. Guimaraes spent 10 years at Philips Electronics, first as a regional marketing executive in Brazil and ultimately as Senior Vice President and head of Global Marketing Management and general manager of the WidiWall LED display business. He also served as CEO of Philips Lifestyle Incubator group, an innovation engine which created new businesses and developed them over several years. Earlier, Mr. Guimaraes worked in various marketing positions at Danone and Johnson & Johnson.

Experience, Skills and Qualifications: The Board believes Mr. Guimaraes is qualified to serve as a director of the Company based on his business, management and strategic planning experience, his knowledge of advertising, marketing and international operations, and his owner orientation as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

<u>J. R. Hyde, III</u>, 73, has been a director since 1986 and was non-executive Chairman of the Board from 2005 until June 2007. He has been the President of Pittco Holdings, Inc., an investment company, since 1988. Mr. Hyde has been a director of GTx, Inc., a biopharmaceutical company, since 2000 and has been the Lead Director since 2015. Mr. Hyde served as Chairman of the Board of GTx, Inc. from 2000 to 2015. Mr. Hyde, AutoZone s founder, was AutoZone s Chairman from 1986 to 1997 and its Chief Executive Officer from 1986 to 1996. He was Chairman and Chief Executive Officer of Malone & Hyde, AutoZone s former parent company, until 1988. Mr. Hyde was a director of FedEx Corporation from 1977 to September 2011.

Experience, Skills and Qualifications: The Board believes Mr. Hyde, the founder and a former Chairman and Chief Executive Officer of AutoZone, is qualified to serve as a director of the Company based on his extensive knowledge of AutoZone s business and the automotive aftermarket industry, his expertise in strategic business development and executive management, his owner orientation, and his board experience as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

<u>D. Bryan Jordan</u>, 54, has been a director since 2013. He has served as Chairman of the Board, President and Chief Executive Officer of First Horizon National Corporation since January 1, 2012, and has held the positions of President and Chief Executive Officer and director since 2008. From May 2007 until September 2008 Mr. Jordan was Executive Vice President and Chief Financial Officer of First Horizon and First Tennessee Bank National Association, and prior to that he served in various positions at Regions Financial Corporation and its subsidiary Regions Bank, including (beginning in 2002) as Chief Financial Officer.

Experience, Skills and Qualifications: The Board believes Mr. Jordan is qualified to serve as a director of the Company based on his extensive experience in the banking and financial services industry, his experience serving as the chief executive officer and the chief financial officer of public companies, his knowledge of corporate finance and management, and his owner orientation, as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

<u>W. Andrew McKenna</u>, 70, has been a director since 2000 and served as Lead Director from June 2007 through January 2009. He is retired. Until his retirement in 1999, he had held various positions with The Home Depot, Inc., including Senior Vice President Strategic Business Development from 1997 to 1999; President, Midwest Division from 1994 to 1997; and Senior Vice President Corporate Information Systems from 1990 to 1994. Prior to joining Home Depot he was a Partner, Management Consulting, with Deloitte & Touche for 10 years. He was also President of SciQuest.com, Inc. in 2000. Mr. McKenna was a

16

Table of Contents

director of Danka Business Systems PLC from 2002 to 2008, serving as Chairman of the Board from March 2005 to March 2006. Mr. McKenna was a director of Bally Technologies from 2011 to 2014, when the company was sold. At Bally Technologies he served as Chair of the Governance Committee.

Experience, Skills and Qualifications: The Board believes Mr. McKenna is qualified to serve as a director of the Company based on his executive experience in the retail industry and other industries, his expertise in strategic business development, his background in finance, audit and information technology, his owner orientation, and his board experience, as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

George R. Mrkonic, Jr., 64, has been a director since 2006. He has been the Non-Executive Chairman of Paperchase Products Limited, London, UK, a retailer of cards, stationery, wraps and gifts in the UK, Europe and the Middle East, since 2005, and has been a director since 1999. Previously, he was President of Borders Group, Inc. from 1994 to 1997 and Vice Chairman of Borders Group, Inc. from 1994 to 2002. He is also a director of Brinker International, Inc., and Ulta Salon, Cosmetics & Fragrance, Inc. Mr. Mrkonic was a director of Pacific Sunwear of California, Inc. from 2007 to 2015 and Syntel, Inc. from 2009 to May 2016.

Experience, Skills and Qualifications: The Board believes Mr. Mrkonic is qualified to serve as a director of the Company based on his experience as a senior executive in retail companies, his knowledge of corporate strategy, finance, and management, his owner orientation, and his board experience, as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

Luis P. Nieto, 61, has been a director since 2008. He is president of Nieto Advisory LLC which provides advisory services to small consumer food companies. He was president of the Consumer Foods Group of ConAgra Foods Inc., one of the largest packaged foods companies in North America, from 2008 until his retirement in June 2009. Previously, he was president of ConAgra Refrigerated Foods from 2006 to 2008 and ConAgra Meats from 2005 to 2006. Prior to joining ConAgra, Mr. Nieto was President and Chief Executive Officer of the Federated Group, a leading private label supplier to the retail grocery and foodservice industries from 2002 to 2005. From 2000 to 2002, he served as President of the National Refrigerated Products Group of Dean Foods Company. He held other positions at Dean Foods Group from 1998 to 2000. Prior to joining Dean Foods, Mr. Nieto held positions in brand management and strategic planning with Mission Foods, Kraft Foods and the Quaker Oats Company. Mr. Nieto is also a director of Ryder Systems, Inc.

Experience, Skills and Qualifications: The Board believes Mr. Nieto is qualified to serve as a director of the Company based on his expertise in brand management and marketing, including experience managing a diverse portfolio of brands and products, as well as his knowledge of finance and operations, his executive management experience, his owner orientation and his board experience, as well as his integrity, energy, and willingness to spend time on and interest in AutoZone.

<u>William C. Rhodes. III</u>, 51, was elected Chairman in June 2007. He has been President, Chief Executive Officer, and a director since 2005. Prior to his appointment as President and Chief Executive Officer, Mr. Rhodes was Executive Vice President Store Operations and Commercial. Prior to fiscal 2005, he had been Senior Vice President Supply Chain and Information Technology since fiscal 2002, and prior thereto had been Senior Vice President Supply Chain since 2001. Prior to that time, he served in various capacities within the Company since 1994. Prior to 1994, Mr. Rhodes was a manager with Ernst & Young LLP. Mr. Rhodes is also a director of Dollar General Corporation.

Experience, Skills and Qualifications: The Board believes Mr. Rhodes, AutoZone s Chairman, President and Chief Executive Officer, is qualified to serve as a director of the Company based on his 20 plus years experience with the Company, which have included responsibility for corporate strategy, executive management, operations, finance, supply chain and information technology; his knowledge and understanding of the automotive aftermarket and retail industries; his financial background and his owner orientation, as well as his integrity and energy.

17

PROPOSAL 2 Ratification of Independent Registered Public Accounting Firm

Ernst & Young LLP, our independent auditor for the past twenty-nine fiscal years, has been selected by the Audit Committee to be AutoZone s independent registered public accounting firm for the 2017 fiscal year. Representatives of Ernst & Young LLP will be present at the Annual Meeting to make a statement if they so desire and to answer any appropriate questions.

The Audit Committee recommends that you vote FOR ratification of Ernst & Young LLP as AutoZone s independent registered public accounting firm.

Under Nevada law and the Company s By-Laws, if a quorum is present, Ernst & Young LLP will be ratified as AutoZone s independent registered public accounting firm if the number of votes cast in favor of the matter exceeds the number of votes cast in opposition to the matter. Broker non-votes occur when shares held by a brokerage firm are not voted with respect to a proposal because the firm has not received voting instructions from the beneficial owner of the shares and the firm does not have the authority to vote the shares in its discretion. Shares abstaining from voting and shares as to which a broker non-vote occurs are considered present for purposes of determining whether a quorum exists, but are not considered votes cast or shares entitled to vote with respect to such matter. Accordingly, abstentions and broker non-votes will have no effect on the outcome of Proposal 2. The Audit Committee is not bound by a vote either for or against the firm. The Audit Committee will consider a vote against the firm by the stockholders in selecting our independent registered public accounting firm in the future.

During the past two fiscal years, the aggregate fees for professional services rendered by Ernst & Young LLP were as follows:

	2016	2015
Audit Fees	\$ 2,255,034	\$ 1,997,500
Audit-Related Fees		
Tax and other Non-Audit-Related Fees	400,545(1)	643,232(2)

- (1) Tax and other Non-Audit-Related Fees for 2016 were for state, local and international tax services.
- (2) Tax and other Non-Audit-Related Fees for 2015 were for state and local tax services.

The Audit Committee pre-approves all services performed by the independent registered public accounting firm under the terms contained in the Audit Committee charter, a copy of which can be obtained at our website at www.autozoneinc.com. The Audit Committee pre-approved 100% of the services provided by Ernst & Young LLP during the 2016 and 2015 fiscal years. The Audit Committee considers the services listed above to be compatible with maintaining Ernst & Young LLP s independence.

PROPOSAL 3 Approval of the AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan

General

The following is a summary of the AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan (the Executive Plan). The Executive Plan was previously approved by AutoZone s stockholders in 2001 with respect to grants covering 300,000 shares of AutoZone common stock (Shares), and has been amended and restated, effective as of September 21, 2016, to extend the term of the Executive Plan, subject to approval by AutoZone s stockholders. The amended and restated Executive Plan will become effective if and when the amended and restated Executive Plan is approved by the affirmative vote of the holders of the majority of the shares of our Common Stock (Stock) present, or represented, and entitled to vote thereon at our Annual Meeting of Stockholders. No increase in the number of Shares authorized for grant under the Executive Plan is sought by AutoZone at this time. The following summary is qualified in its entirety by reference to the amended and restated Executive Plan document, which is reproduced in its entirety as Exhibit A to this Proxy Statement.

The Board of Directors recommends that the stockholders vote FOR ratification and adoption of the AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan.

Relation to Employee Stock Purchase Plan

The Executive Plan will permit its participants to acquire Shares in excess of the purchase limits contained in the AutoZone, Inc. Sixth Amended and Restated Employee Stock Purchase Plan, as amended, or any successor plan thereto (the ESPP). Under the ESPP, AutoZone employees may authorize AutoZone to withhold portions of their eligible salary and bonus to purchase Shares at a price equal to 85% of the fair market value of the Shares at the lesser of the fair market value at the beginning or the ending of the calendar quarter. Under the ESPP, participants may only authorize AutoZone to withhold the lesser of \$15,000 or 10% of their annual cash compensation, as defined in the ESPP. The ESPP, unlike the Executive Plan, is qualified for special tax treatment under Section 423 of the Internal Revenue Code, which provides that no taxes are assessed on the purchased Shares or the discount for the purchase of the Shares until the Shares are sold. Because the Executive Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, unlike the ESPP, the Executive Plan (i) will have a higher 25% limit on the percentage of a participant s compensation that may be used to purchase Shares under the Executive Plan, (ii) will place no dollar limit on the amount of a participant s compensation that may be used to purchase Shares under the Executive Plan, and (iii) will base option exercise prices on the market value of the Shares as of the last day of the calendar quarter only.

Eligibility

Eligibility to participate in the Executive Plan will be determined by the Compensation Committee. Participants in the Executive Plan will be permitted to make an election, before the beginning of each option period (January 1, April 1, July 1, October 1 (or by such earlier administrative deadline as the Company may impose)), to use up to 25% of their eligible compensation to purchase Shares pursuant to options granted under the Executive Plan. Eligible compensation will include a participant s base salary and bonus paid during the fiscal year preceding the participation election or, if the participant did not receive compensation for the full prior fiscal year, the participant s annualized current salary plus any bonus accrued for the current fiscal year as of the participation election.

Option Grants

Options will be granted under the Executive Plan each calendar quarter during a plan year and will consist of two parts: a restricted Share option and an unvested Share option. Both the restricted Share option and the unvested Share option will automatically be exercised together at the end of each calendar quarter based on the compensation that a participant has previously elected to contribute for such period. In the event of a merger or similar corporate transaction, the date of exercise will instead be the effective date of such transaction unless options outstanding under the Executive Plan are assumed or substituted for by a successor entity. The exercise price of the restricted Share option will equal 100% of the fair market value of a Share on the date of exercise, and the exercise price of the unvested Share option will equal zero. The Shares subject to the restricted Share option and the unvested Share option will be granted in such proportion that, when taken together, the aggregate per Share exercise price of Shares subject to the two options will equal approximately 85% of the fair market value of a Share on the date of exercise.

Share Delivery; Forfeiture

Shares generally will not be delivered to a participant under the Executive Plan until the first anniversary of the applicable exercise date. Except as provided below, Shares subject to the restricted Share option (representing approximately 85% of the value of Shares subject to any quarterly option grant under the Executive Plan) will remain non-transferable by a participant prior to the first anniversary of the applicable exercise date and Shares subject to the unvested Share option (representing approximately 15% of the value of the Shares subject to a quarterly option grant under the Executive Plan) will be forfeitable by a participant if the participant s employment is terminated prior to the first anniversary of the applicable exercise date. Notwithstanding the foregoing, Shares subject to unvested Share options will vest immediately and Shares subject to both unvested Share options and

19

Table of Contents

restricted Share options will be delivered as soon as practicable following a participant s termination of employment by AutoZone without cause or due to the participant s death or disability (each, a Non-Cause Termination), in any case prior to the first anniversary of the exercise date.

Termination of Employment

If a participant experiences a termination of employment during an option period, then participation in the Plan shall automatically terminate as of the date of the termination of employment. As soon as practicable after such a participant stermination of employment, the Company will refund the amount of the balance in that account under the Executive Plan.

Certain Tax Consequences

Participants contributions to the Executive Plan are made with after-tax dollars. Participants will have a tax basis in Shares acquired pursuant to any restricted Share option equal to the exercise price of the applicable option. Any gain or loss on a subsequent disposition of Shares acquired pursuant to a restricted Share option will be taxed to the participant as capital gain or loss. With respect to Shares acquired pursuant to an unvested Share option, the fair market value of such Shares at the time that the Shares vest and are no longer subject to forfeiture generally will be taxable to participants at ordinary income rates and subject to income and employment tax withholding by AutoZone. Thereafter, any appreciation or loss in value of such Shares will be taxable as a capital gain or loss when the Shares are sold. However, if a participant makes an election under section 83(b) of the Internal Revenue Code within thirty days after the acquisition of any Shares pursuant to an unvested Share option, the fair market value of such Shares as of the date the Shares are acquired will be taxable to the participant at ordinary income rates. Thereafter, any increase or decrease in value of such Shares will be taxable to the participant as a capital gain or loss upon the disposition of the Shares. AutoZone will become eligible for a tax deduction only to the extent and at the time that any participant recognizes ordinary income in respect of any Shares acquired pursuant to the Executive Plan.

Amendment; Termination

The Executive Plan may be amended or terminated by the Compensation Committee at any time, except that approval of the stockholders will be required (i) to increase the number of Shares available under the Executive Plan, (ii) to sell Shares under the Executive Plan for less than the price as currently computed under the Executive Plan s option price provisions, (iii) to materially modify the eligibility requirements for participation in the Executive Plan or the types of awards available under the Executive Plan, or (iv) to make any other modification that would require stockholder approval under applicable law or stock exchange rules. The Executive Plan will terminate on January 1, 2026.

Vote Required

In accordance with New York Stock Exchange listing requirements, extension of the term of the Executive Plan through January 1, 2026, requires approval by a majority of shares of votes cast on such proposal, provided that the total vote cast on the proposal represents over 50% of the outstanding shares of Stock entitled to vote on the proposal. Abstentions will have the effect of a vote against this proposal. Broker non-votes will not affect the outcome of this proposal.

PROPOSAL 4 Advisory Vote on Executive Compensation Say-on-Pay

On December 14, 2011, AutoZone s stockholders approved, on an advisory basis, AutoZone s recommendation that future advisory votes on executive compensation should be held every year (the Say When on Say-on-Pay Resolution). The Say When on Say-on-Pay Resolution will be voted on again in 2017. Consequently, and in accordance with Section 14A of the Securities Exchange Act, we are asking stockholders to approve the following advisory resolution on the compensation of our Principal Executive

20

Table of Contents

Officer, the Principal Financial Officer and our other three most highly paid executive officers (collectively, the Named Executive Officers) at the Annual Meeting:

RESOLVED, that the compensation paid to AutoZone s Named Executive Officers, as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the accompanying compensation tables and the related narrative discussion, is hereby APPROVED.

This advisory vote, commonly known as a say-on-pay proposal, gives our stockholders the opportunity to endorse or not endorse our executive pay program. The Board of Directors recommends a vote FOR this resolution because it believes that AutoZone s executive compensation program, described in the Compensation Discussion and Analysis, is effective in achieving the Company s goals of rewarding financial and operating performance and the creation of stockholder value.

Our Board of Directors and Compensation Committee believe that there should be a strong relationship between pay and corporate performance, and our executive compensation program reflects this belief. While the overall level and balance of compensation elements in our compensation program are designed to ensure that AutoZone can retain key executives and, when necessary, attract qualified new executives to the organization, the emphasis of AutoZone s compensation program is linking executive compensation to business results and intrinsic value creation, which is ultimately reflected in increases in stockholder value.

AutoZone sets challenging financial and operating goals, and a significant amount of an executive s annual cash compensation is tied to these objectives and therefore at risk payment is earned only if performance warrants it.

AutoZone s compensation program is intended to support long-term focus on stockholder value, so it emphasizes long-term rewards. At target levels, the majority of an executive officer s total compensation package each year is the potential value of his or her stock options, which yield value to the executive only if the stock price appreciates.

Our management stock ownership requirement effectively promotes meaningful and significant stock ownership by our Named Executive Officers and further aligns their interests with those of our stockholders.

We urge you to read the Compensation Discussion and Analysis, as well as the Summary Compensation Table and related compensation tables and narrative, appearing on pages 22 through 47, which provide detailed information on our compensation philosophy, policies and practices and the compensation of our Named Executive Officers.

Because the vote on this proposal is advisory in nature, it is not binding on AutoZone, the Board of Directors or the Compensation Committee. The vote on this proposal will, therefore, not affect any compensation already paid or awarded to any Named Executive Officer and will not overrule any decisions made by the Board of Directors or the Compensation Committee. Because we highly value the opinions of our stockholders, however, the Board of Directors and the Compensation Committee will consider the results of this advisory vote when making future executive compensation decisions.

Under Nevada law and the Company s By-Laws, if a quorum is present, this matter will be approved if the number of votes cast in favor of the matter exceeds the number of votes cast in opposition to the matter. Broker non-votes occur when shares held by a brokerage firm are not voted with respect to a proposal because the firm has not received voting instructions from the beneficial owner of the shares and the firm does not have the authority to vote the shares in its discretion. Shares abstaining from voting and shares as to which a broker non-vote occurs are considered present for purposes of determining whether a quorum exists, but are not considered votes cast or shares entitled to vote with respect to such matter. Accordingly, abstentions and broker non-votes will have no effect on the outcome of Proposal 4.

The Board of Directors recommends that the stockholders vote FOR this proposal.

Other Matters

We do not know of any matters to be presented at the Annual Meeting other than those discussed in this Proxy Statement. If, however, other matters are properly brought before the Annual Meeting, your proxies will be able to vote those matters in their discretion.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides a principles-based overview of AutoZone s executive compensation program. It discusses our rationale for the types and amounts of compensation that our executive officers receive and how compensation decisions affecting these officers are made. It also discusses AutoZone s total rewards philosophy, the key principles governing our compensation program, and the objectives we seek to achieve with each element of our compensation program.

What are the Company s key compensation principles?

Pay for performance. The primary emphasis of AutoZone s compensation program is linking executive compensation to business results and intrinsic value creation, which is ultimately reflected in increases in stockholder value. Base salary levels are intended to be competitive in the U.S. marketplace for executives, but the more potentially valuable components of executive compensation are annual cash incentives, which depend on the achievement of pre-determined business goals, and to a greater extent, long-term compensation, which is based on the value of our stock.

Attract and retain talented AutoZoners. The overall level and balance of compensation elements in our compensation program are designed to ensure that AutoZone can retain key executives and, when necessary, attract qualified new executives to the organization. We believe that a company which provides quality products and services to its customers, and delivers solid financial results, will generate long-term stockholder returns, and that this is the most important component of attracting and retaining executive talent.

What are the Company s overall executive compensation objectives?

<u>Drive high performance</u>. AutoZone sets challenging financial and operating goals, and a significant amount of an executive s annual cash compensation is tied to these objectives and therefore at risk payment is earned only if performance warrants it.

<u>Drive long-term stockholder value</u>. AutoZone s compensation program is intended to support long-term focus on stockholder value, so it emphasizes long-term rewards. At target levels, the majority of an executive officer s total compensation package each year is the potential value of his or her stock options.

The table below illustrates how AutoZone s compensation program weights the at-risk components of its Named Executive Officers 2016 total compensation (using actual base earnings + fiscal 2016 annual cash incentive payment + the value of fiscal 2016 stock and option grants). See the Summary Compensation Table on page 34 for additional details about fiscal 2016 compensation for all of the Named Executive Officers (NEOs).

			Long-Term	Total
Executive	Base Salary	Annual Incentive	Incentive	At-Risk
William C. Rhodes III	7%	10%	83%	93%
All Other NEOs	19%	17%	63%	81%

Who participates in AutoZone s executive compensation programs?

The Chief Executive Officer and the other Named Executive Officers, as well as the other senior executives comprising AutoZone s Executive Committee, participate in the compensation program outlined in this Compensation Discussion and Analysis. The Executive Committee consists of the Chief Executive Officer and officers with the title of senior vice president or executive vice president (a total of 14 executives at the end of fiscal 2016). However, many elements of the compensation program also apply to other levels of AutoZone management. The intent is to ensure that management is motivated to pursue, and is rewarded for achieving, the same financial, operating and stockholder objectives.

What are the key elements of the Company s overall executive compensation program?

The table below summarizes the key elements of AutoZone s executive compensation program and the objectives they are designed to achieve. More details on these elements follow throughout the Compensation Discussion and Analysis and this Proxy Statement, as appropriate.

	Description	Objectives
Base salary	Annual fixed cash compensation.	Attract and retain talented executives.
		Recognize differences in relative size, scope and complexity of positions as well as individual performance over the long term.
Annual cash incentive	Annual variable pay tied to the achievement of economic profit objectives, as operationalized by our primary measures:	Communicate key financial and operating objectives.
	Earnings before interest and taxes, and	Drive high levels of performance by ensuring that executives total cash compensation is linked to achievement of financial and operating objectives.
	Return on invested capital.	Support and reward consistent, balanced growth and returns performance (add value every year) with demonstrable links to stockholder returns.
	Actual payout depends on the results achieved. Individual potential payout is capped at \$4 million; however, payout is zero if threshold targets are not achieved.	Drive cross-functional collaboration and a total-company perspective.
	The Compensation Committee may reduce payouts in its discretion when indicated by individual performance or other reasons, but does not have discretion to increase payouts.	

Stock options and other equity compensation

Senior executives receive non-qualified stock options (NQSOs).

Align long-term compensation with stockholder results. Opportunities for significant wealth accumulation by executives are tightly linked to stockholder returns.

All stock options are granted at fair market value on the grant date (discounted options are prohibited).

Provide retention incentives to ensure business continuity, and facilitate succession planning and executive knowledge transfer.

AutoZone s equity compensation plan prohibits re-pricing of stock options and does not include a reload program.

23

Description Objectives AutoZone may occasionally grant awards of performance-restricted stock units, as well as awards of restricted stock with time-based vesting. Stock purchase plans AutoZone maintains a broad-based employee stock Allow all AutoZoners to participate in the growth purchase plan (ESPP) which is qualified under of AutoZone s stock. Section 423 of the Internal Revenue Code. The Employee Stock Purchase Plan allows AutoZoners to make quarterly purchases of AutoZone shares at 85% of the fair market value on the first or last day of the Encourage ownership, and therefore alignment of calendar quarter, whichever is lower. The annual executive and stockholder interests. contribution limit under the ESPP is \$15,000. The Company has implemented an Executive Stock Purchase Plan so that executives may continue to purchase AutoZone shares beyond the limit the IRS and the company set for the Employee Stock Purchase Plan. An executive may make purchases using up to 25% of their prior fiscal year s eligible compensation. AutoZone implemented a stock ownership Encourage ownership by requiring executive requirement during fiscal 2008 for executive officers. officers to meet specified levels of ownership. Management stock ownership requirement Covered executives must meet specified minimum Alignment of executive and stockholder interests. levels of ownership, using a multiple of base salary approach. Retirement plans The Company maintains three retirement plans: Provide competitive executive retirement benefits. 401(k) defined contribution plan, The non-qualified plan enables executives to defer 25% of base salary and 75% of annual cash incentives, independent of the IRS limitations set for the qualified 401(k) plan. Frozen defined benefit pension plan, and

Non-qualified deferred compensation plan (including a frozen defined benefit restoration feature)

The restoration component of the non-qualified plan, which was frozen at the end of 2002, allowed executives to accrue benefits that were not capped by IRS earnings limits.

variable compensation	on	
total annual cash con	npensation	

total direct compensation

long-term incentive compensation

The salary surveys cover both the retail industry and compensation data on a broader, more general public company universe. Multiple salary surveys are used, so that ultimately the data represent hundreds of companies and positions and thousands of incumbents, or people holding those positions. The surveys generally list the participating companies, and for each position matched, the number of companies and incumbents associated with the position. Subscribers cannot determine which information comes from which company.

The salary ranges which apply to the Named Executive Officers, including the Principal Executive Officer, are part of the structure applicable to thousands of AutoZone s employees. AutoZone positions are each assigned to a salary grade. This is generally accomplished at the creation of a position, using the Hay Group job evaluation method, and jobs tend to remain in the same grade as long as there are no significant job content changes. Each grade in the current salary structure has a salary range associated with it. This range has a midpoint, to which we compare summary market salary data (generally median pay level) of the types discussed above.

Over time, as the median pay levels in the competitive market change, as evidenced by the salary survey data, AutoZone will make appropriate adjustments to salary range midpoints so that on average, these midpoints are positioned at roughly 95% of the market median value as revealed by the surveys. This positioning relative

25

Table of Contents

to the market allows for competitive base salary levels, while generally leaving actual average base pay slightly below the survey market level. This fits our stated philosophy of delivering competitive total rewards at or above the market median through performance-based variable compensation.

In making decisions related to compensation of the Named Executive Officers, the Compensation Committee uses the survey data and salary ranges as context in reviewing compensation levels and approving pay actions. Other elements that the Compensation Committee considers are individual performance, Company performance, individual tenure, internal equity, position tenure, and succession planning.

Annual Cash Incentive. Executive officers and certain other employees are eligible to receive annual cash incentives each fiscal year based on the Company s attainment of certain Company performance objectives set by the Compensation Committee at the beginning of the fiscal year. The annual cash incentive target for each position, expressed as a percentage of base salary, is based on both salary range and level within the organization, and therefore does not change annually. As a general rule, as an executive s level of management responsibility increases, the portion of his or her total compensation dependent on Company performance increases.

The threshold and target percentage amounts for the Named Executive Officers for fiscal 2016 are shown in the table below.

Principal Position	Threshold	Target
Chairman, President & CEO	62.5%	125%
Executive Vice President	37.5%	75%

Annual cash incentives for executive officers are paid pursuant to the AutoZone, Inc. 2015 Executive Incentive Compensation Plan (EICP), our performance-based short-term incentive plan. Pursuant to the plan, the Compensation Committee establishes incentive objectives at the beginning of each fiscal year. For more information about the EICP, see Discussion of Plan-Based Awards Table on page 37.

The actual incentive amount paid depends on Company performance relative to the target objectives. A minimum pre-established goal must be met in order for any incentive award to be paid, and the incentive award as a percentage of annual salary will increase as the Company achieves higher levels of performance.

The Compensation Committee may in its sole discretion reduce the incentive awards paid to Named Executive Officers. Under the EICP, the Compensation Committee may not exercise discretion in granting awards in cases where no awards are indicated, nor may the Compensation Committee increase any calculated awards. Any such positive discretionary changes, were they to occur, would be paid outside of the EICP and reported under the appropriate Bonus column in the Summary Compensation Table; however, the Compensation Committee has not historically exercised this discretion.

The Compensation Committee, as described in the EICP, may (but is not required to) disregard the effect of one-time charges and extraordinary events such as asset write-downs, litigation judgments or settlements, changes in tax laws, accounting principles or other laws or provisions affecting reported results, accruals for reorganization or restructuring, and any other extraordinary non-recurring items, acquisitions or divestitures and any foreign exchange gains or losses on the calculation of performance.

The incentive objectives for fiscal 2016 were set in an October 2015 Compensation Committee meeting, and were based on the achievement of specified levels of earnings before interest and taxes (EBIT) and return on invested capital (ROIC), as are the incentive objectives for fiscal 2017, which were set during a Compensation Committee meeting held in September 2016. The total incentive award is determined based on the impact of EBIT and ROIC on AutoZone s economic profit for the year, rather than by a simple allocation of a portion of the award to achievement of the EBIT target and a portion to achievement of the ROIC target. EBIT and ROIC are key inputs to the calculation of economic profit (sometimes referred to as economic value added), and have been determined by our Compensation Committee to be important factors in enhancing

stockholder value. If both the EBIT and ROIC targets are achieved, the result will be a 100%, or target, payout. However, the payout cannot exceed 100% unless the EBIT target is exceeded (i.e., unless there is excess EBIT to fund the additional incentive payout). Additionally, when the aggregate incentive amount is calculated, if the resulting payout amount in excess of target exceeds a specified percentage of excess EBIT (currently 20%), then the incentive payout will be reduced until the total amount of the incentive payment in excess of target is within that specified limit.

The specific targets are tied to achievement of the Company s operating plan for the fiscal year. In 2016, the target objectives were EBIT of \$2,040.2 million and ROIC of 30.3%. The 2016 incentive awards for each named executive officer were based on the following performance:

	EBIT (\$MMs)	ROIC
EICP Target	2,040.2	30.3%
Actual (as adjusted)	2,071.5	31.5%
Difference	31.3	115 bps

Effect of Performance on Total Annual Cash Compensation. Because AutoZone emphasizes pay for performance, it is only when the Company exceeds its target objectives that an executive s total annual cash compensation begins to climb relative to the median market level. Similarly, Company performance below target will cause an executive s total annual cash compensation to drop below market median. As discussed below, AutoZone does not engage in strict benchmarking of compensation levels, i.e., we do not use specific data to support precise targeting of compensation, such as setting an executive s base pay at the 50 percentile of an identified group of companies.

<u>Stock compensation</u>. To emphasize achievement of long-term stockholder value, AutoZone s executives receive a significant portion of their targeted total compensation in the form of non-qualified stock options. Although stock options have potential worth at the time they are granted, they only confer actual value if AutoZone s stock price appreciates between the grant date and the exercise date. For this reason, we believe stock options are a highly effective long-term compensation vehicle to reward executives for creating stockholder value. We want our executives to realize total compensation levels well above the market norm, because when they do, such success is the result of achievement of Company financial and operating objectives that leads to growth in the per-share value of AutoZone common stock.

AutoZone grants stock options annually. Currently, the annual grants are reviewed and approved by the Compensation Committee in the meeting (typically in late September or early October) at which it reviews prior year results, determines incentive payouts, and takes other compensation actions affecting its executive officers. The Compensation Committee has not delegated its authority to grant stock options; all grants are directly approved by the Compensation Committee. Option grant amounts for the Chief Executive Officer s direct reports and other senior executives are recommended to the Compensation Committee by the Chief Executive Officer, based on individual performance and the size and scope of the position held. AutoZone s practice is to limit the total option shares granted to its employees during the annual grant process to approximately one percent of common shares outstanding. The annual grant is typically made near the beginning of the fiscal year and does not include a limited number of promotional or new hire grants that may be made during the fiscal year. The Committee reserves the right to deviate from this policy as it deems appropriate.

Newly promoted or hired officers may receive an option grant shortly after their hire or promotion. New hire or promotional stock options are individually approved at a regularly scheduled meeting of the Compensation Committee, or by unanimous written consent of the Compensation Committee. The grants are recommended to the Compensation Committee by the Chief Executive Officer based on individual circumstances (e.g., what may be required in order to attract a new executive). Internal promotional grants are prorated based on the time elapsed since the officer received a regular annual grant of stock options.

On October 7, 2015, the Committee authorized a one-time award of 50,000 nonqualified stock options to Mr. Rhodes. The options, which have an expiration date of October 8, 2025, vest in one-half increments on the

Table of Contents

fourth and fifth anniversaries of the grant. The purpose of this one-time award is to solidify Mr. Rhodes commitment to AutoZone as well as to motivate continued high performance in a way that is aligned with both stockholder results as well as AutoZone s leadership team incentives. In association with this one-time grant, the Committee intends to continue authorizing annual stock option grants to Mr. Rhodes at a reduced level compared to prior years. On October 6, 2015, the Committee authorized a grant of 7,850 nonqualified stock options to Mr. Rhodes; these options have an expiration date of October 7, 2025, and vest in one-quarter increments on the first, second, third and fourth anniversaries of the grant.

Stock purchase plans. AutoZone maintains the Sixth Amended and Restated AutoZone, Inc. Employee Stock Purchase Plan (Employee Stock Purchase Plan) which enables all employees to purchase AutoZone common stock at a discount, subject to IRS-determined limitations. Based on IRS rules, we limit the annual purchases in the Employee Stock Purchase Plan to no more than \$15,000, and no more than 10% of eligible compensation. To support and encourage stock ownership by our executives, AutoZone also established a non-qualified stock purchase plan. The AutoZone, Inc. Sixth Amended and Restated Executive Stock Purchase Plan and the AutoZone, Inc. Fifth Amended and Restated Executive Stock Purchase Plan) permit participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone s Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant s compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant s compensation that may be used to purchase shares under the plan.

The Executive Stock Purchase Plan operates in a similar manner to the tax-qualified Employee Stock Purchase Plan, in that it allows executives to contribute after-tax compensation for use in making quarterly purchases of AutoZone common stock. Options are granted under the Executive Stock Purchase Plan each calendar quarter and consist of two parts: a restricted share option and an unvested share option. Shares are purchased under the restricted share option at 100% of the closing price of AutoZone stock at the end of the calendar quarter (i.e., not at a discount), and a number of shares are issued under the unvested share option at no cost to the executive, so that the total number of shares acquired upon exercise of both options is equivalent to the number of shares that could have been purchased with the contributions at a price equal to 85% of the stock price at the end of the quarter. The unvested shares are subject to forfeiture if the executive does not remain with the company for one year after the grant date. After one year, the shares vest, and the executive owes taxes based on the share price on the vesting date (unless a so-called 83(b) election was made on the date of grant).

28

The table below can be used to compare and contrast the stock purchase plans. For more information about our stock-based plans, including the Executive Stock Purchase Plan, see Discussion of Plan-Based Awards Table on page 37.

	Employee Stock Purchase Plan	Executive Stock Purchase Plan
Contributions	After tax, limited to lower of 10% of eligible compensation or \$15,000	After tax, limited to 25% of eligible compensation
Discount	15% discount based on lowest price at beginning or end of the quarter	15% discount based on quarter-end price
Vesting	None (one-year holding period only)	Shares granted to represent 15% discount vest after one year; one-year holding period for shares purchased at fair market value
Taxes Individual	Ordinary income in amount of spread; capital gains for appreciation; taxed when shares sold	Ordinary income when restrictions lapse (83(b) election optional)
Taxes Company	No deduction unless disqualifying disposition	Deduction when included in employee s income

How does the Compensation Committee consider and determine executive and director compensation?

Chief Executive Officer. The Compensation Committee establishes the compensation level for the Chief Executive Officer, including base salary, annual cash incentive compensation, and stock-based awards. The Chief Executive Officer s compensation is reviewed annually by the Compensation Committee in conjunction with a review of his individual performance by the non-management directors, taking into account all forms of compensation, including base salary, annual cash incentive, stock options and other stock-based awards, and the value of other benefits received.

Other Executive Officers. The Compensation Committee reviews and establishes base salaries for AutoZone s executive officers other than the Chief Executive Officer based on each executive officer s individual performance during the past fiscal year and on the recommendations of the Chief Executive Officer. The Compensation Committee approves the annual cash incentive amounts for the executive officers, which are determined by objectives established by the Compensation Committee at the beginning of each fiscal year as discussed above. The actual incentive amount paid depends on performance relative to the target objectives.

The Compensation Committee approves awards of stock options to many levels of management, including executive officers. Stock options are granted to executive officers upon initial hire or promotion, and thereafter are typically granted annually in accordance with guidelines established by the Compensation Committee as discussed above. The actual grant is determined by the Compensation Committee based on the guidelines and the performance of the individual in the position. The Compensation Committee considers the recommendations of the Chief Executive Officer. Other than grants of stock made pursuant to the stock purchase plans discussed above, from time to time the Compensation Committee has sole authority to approve any other individual awards of stock-based compensation.

Management Stock Ownership Requirement. To further reinforce AutoZone s objective of driving long-term stockholder results, AutoZone maintains a stock ownership requirement for all Executive Committee members (a total of 14 individuals at the end of fiscal 2016). Covered executives must attain a specified minimum level of stock ownership, based on a multiple of their base salary, within 5 years of the executive s placement into a covered position. Executives who are promoted into a position with a higher multiple will have

Ownership Definition

an additional 3 years to attain the increased required ownership level. In order to calculate whether each executive meets the ownership requirement, we total the value of each executive s holdings of whole shares of stock and the intrinsic (or in-the-money) value of vested stock options, based on the fiscal year-end closing price of AutoZone stock, and compare that value to the appropriate multiple of fiscal year-end base salary.

To encourage full participation in our equity plans, all AutoZone stock acquired under those plans is included in the executive sholdings for purposes of calculating his or her ownership. This includes vested stock options and vested shares which have restrictions on sale.

Key features of the stock ownership requirement are summarized in the table below:

Ownership Requirement

Chief Executive Officer

5 times base salary

Executive Vice President

3 times base salary

Senior Vice President

2 times base salary

Holding Requirements

Individuals who have not achieved the ownership requirement within the specified period will be required to hold 50% of net after-tax shares upon exercise of any stock option, and may not sell any shares of AZO.

Guidelines will no longer apply after an executive reaches age 62, in order to facilitate appropriate financial planning as retirement approaches. The Compensation Committee may waive the guidelines for any other executive at its discretion.

Shares of stock directly owned;

Unvested Shares acquired via the Executive Stock Purchase Plan; and

Vested stock options acquired via the AutoZone Stock Option Plan (based on the in-the-money value).

Under AutoZone s insider trading policies, all transactions involving put or call options on the stock of AutoZone are prohibited at all times. Officers and directors and their respective family members may not directly or indirectly participate in transactions involving trading activities which by their aggressive or speculative nature may give rise to an appearance of impropriety.

What roles do the Chief Executive Officer and other executive officers play in the determination of executive compensation?

The Chief Executive Officer attends most meetings of the Compensation Committee and participates in the process by answering Compensation Committee questions about pay philosophy and by ensuring that the Compensation Committee s requests for information are fulfilled. He also assists the Compensation Committee in determining the compensation of the executive officers by providing recommendations and input about such matters as individual performance, tenure, and size, scope and complexity of their positions. The Chief Executive Officer makes specific recommendations to the Compensation Committee concerning the compensation of his direct reports and other senior executives, including the

executive officers. These recommendations usually relate to base salary increases, changes to annual incentive targets and stock option grants. The Chief Executive Officer also recommends pay packages for newly hired executives. Management provides the Compensation Committee with data, analyses and perspectives on market trends and annually prepares information to assist the Compensation Committee in its consideration of such recommendations. Annual incentive awards are based on achievement of business objectives set by the Compensation Committee, but the Compensation Committee may exercise negative discretion, and if it does so, it is typically in reliance on the Chief Executive Officer s assessment of an individual s performance.

The Chief Executive Officer does not make recommendations to the Compensation Committee regarding his own compensation. The Senior Vice President, Human Resources has direct discussions with the

30

Compensation Committee Chair regarding the Compensation Committee s recommendations on the Chief Executive Officer s compensation; however, Compensation Committee discussions of specific pay actions related to the Chief Executive Officer are held outside his presence.

Does AutoZone use compensation consultants?

The Compensation Committee used the services of Pearl Meyer & Partners (PM&P) during fiscal 2015 through early fiscal 2016. PM&P, affirmatively independent pursuant to Securities and Exchange Commission and New York Stock Exchange requirements, was hired by and reported directly to, the Compensation Committee. PM&P does not perform any consulting work for AutoZone s management.

The Compensation Committee has authority, pursuant to its charter, to hire consultants of its selection to advise it with respect to AutoZone s compensation programs, and it may also limit the use of the Compensation Committee s compensation consultants by AutoZone s management as it deems appropriate. Although historically AutoZone has hired consultants to provide services from time to time, it is not AutoZone s usual practice, and as discussed previously, neither the Compensation Committee nor AutoZone s management regularly engages consultants as part of the annual review and determination of executive compensation.

What are AutoZone s peer group and compensation benchmarking practices?

AutoZone reviews publicly-available data from a peer group of companies to help us ensure that our overall compensation remains competitive. The peer group data we use is from proxy filings and other published sources it is not prepared or compiled especially for AutoZone.

We periodically review the appropriateness of this peer group. It typically has changed when such events as acquisitions and spin-offs have occurred. Accordingly, during fiscal 2016 management recommended the inclusion of Dollar Tree following its combination with Family Dollar Stores.

The criteria used to select the peer group companies listed below were primarily, but not exclusively:

Direct competitors;

Companies with which we compete for talent, customers and capital; and

Companies with revenues consistently ranging between 50% and 200% of AutoZone s revenues.

AutoZone Peer Group Advance Auto Parts Dollar Tree O Reilly Automotive Barnes & Noble Foot Locker Ross Stores Bed Bath & Beyond Gamestop Sherwin Williams Gap Stores Darden Restaurants Starbucks Genuine Parts Dick s Sporting Goods Tractor Supply Company Dollar General L Brands Yum! Brands We do not use information from the peer group or other published sources to set precise compensation targets or make individual compensation

decisions. AutoZone does not engage in benchmarking, such as targeting base salary at peer group median for a given position. Rather we use such data as context in reviewing AutoZone s overall compensation levels and approving recommended compensation actions. Broad survey data and peer group information are just two elements that we find useful in maintaining a reasonable and competitive compensation program. Other

elements that we consider are individual performance, Company performance, individual tenure, position tenure, and succession planning.

What is AutoZone s policy concerning the taxation of compensation?

The Compensation Committee considers the provisions of Section 162(m) of the Internal Revenue Code which allows the Company to take an income tax deduction for compensation up to \$1 million and for certain

31

compensation exceeding \$1 million paid in any taxable year to a covered employee as that term is defined in the Code. There is an exception for qualified performance-based compensation, and AutoZone s compensation program is designed to maximize the tax deductibility of compensation paid to executive officers, where possible. However, the Compensation Committee may authorize payments which are not deductible where it is in the best interests of AutoZone and its stockholders.

Payments made pursuant to AutoZone s Executive Incentive Compensation Plan, as well as the stock options granted under the Amended 2011 Equity Plan, qualify as performance-based compensation. Base salaries (less deferred compensation), restricted stock awards, Executive Stock Purchase Plan vested shares, and certain benefits and perquisites do not qualify as performance-based under 162(m). For fiscal 2016, the sum of this compensation for each of AutoZone s covered employees did not exceed \$1 million; therefore, the compensation of the Chief Executive Officer and the other covered employees was fully deductible in fiscal 2016.

Section 409A of the Internal Revenue Code was created with the passage of the American Jobs Creation Act of 2004. These tax regulations create strict rules related to non-qualified deferred compensation earned and vested on or after January 1, 2005. The Internal Revenue Service periodically releases Notices and other guidance related to Section 409A, and AutoZone continues to take actions necessary to comply with the Section s requirements by the deadlines established by the Internal Revenue Service.

Compensation Committee Report

The Compensation Committee of the Board of Directors (the Committee) has reviewed and discussed with management the Compensation Discussion and Analysis (CD&A). Based on the review and discussions, the Committee recommended to the Board of Directors that the CD&A be included in this proxy statement.

Members of the Compensation Committee:

Earl G. Graves, Jr., Chair

Douglas H. Brooks

Linda A. Goodspeed

W. Andrew McKenna

George R. Mrkonic, Jr.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee is composed solely of independent, non-employee directors. The members of the Compensation Committee of the Board of Directors during the 2016 fiscal year are listed above.

Compensation Program Risk Assessment

AutoZone s management conducts ongoing assessments of the compensation plans and programs that apply throughout the Company, including those plans and programs in which our executives participate. The assessments are performed by key members of AutoZone s human resources, finance, operations, and legal teams, and entails thorough discussions of each plan s or program s design and operation. Significant findings are reviewed by senior management prior to being reviewed and discussed with the Compensation Committee.

Plan elements which are reviewed include participants, performance measures, performance and payout curves or formulas, how target level performance is determined (including whether any thresholds and caps exist), how frequently payouts occur, and the mix of fixed and variable compensation which the plan delivers. The plans and programs are also reviewed from the standpoint of reasonableness (e.g., how target and above-target pay levels compare to similar plans for similar populations at other companies, and how payout amounts relate to the results which generate the payment), how well the plans and programs are aligned with AutoZone s goals and objectives, and from an overall standpoint, whether these plans and programs represent an appropriate mix of short- and long-term compensation.

32

Table of Contents

The purpose of these reviews is to determine whether the risks related to the design and operation of these plans and programs, if present, are reasonably likely to have a material adverse effect on the company. We believe that our compensation policies and practices do not encourage excessive risk-taking and are not reasonably likely to have a material adverse effect on the company. The various mitigating factors which support this conclusion include:

Oversight of the management incentive plan and all stock-based compensation by the Compensation Committee of the Board of Directors;

Senior management oversight of key plans and programs, including approving target level payouts, setting financial and operating goals, and approving payouts;

Administration and oversight of plans and programs by multiple functions within the Company (e.g., finance, operations, legal and human resources);

Interrelationship between measures (e.g., correlation between economic profit performance and appreciation in the per-share price of AutoZone s stock);

Vesting and stock ownership requirements for executive officers which encourage long-term perspectives among participants; and

A preference for performance measures which result in payments only upon achievement of ultimate financial results.

33

SUMMARY COMPENSATION TABLE

Change In

This table shows the compensation paid to the Named Executive Officers during the 2016 fiscal year.

- (1) Annual incentive awards were paid pursuant to the 2010 Executive Incentive Compensation Plan and the EICP and therefore appear in the non-equity incentive plan compensation column of the table.
- (2) Represents shares acquired pursuant to the Executive Stock Purchase Plan, the Amended 2011 Equity Plan and the 2011 Equity Plan. See Compensation Discussion and Analysis on page 22 for more information about these plans. See Note B, Share-Based Payments, to our consolidated financial statements in our 2016 Annual Report for a description of the Amended 2011 Equity Plan and the Executive Stock Purchase Plan and the accounting and assumptions used in calculating expenses in accordance with FASB ASC Topic 718.
- (3) The value of stock awards and option awards was determined as required by FASB ASC Topic 718. There is no assurance that these values will be realized. See Note B, Share-Based Payments, to our consolidated financial statements in our 2016 Annual Report for details on assumptions used in the valuation.
- (4) Incentive amounts were earned for the 2016 fiscal year pursuant to the EICP and were paid in October 2016. See Compensation Discussion and Analysis on page 22 for more information about this plan.
- (5) Our defined benefit pension plans were frozen as of December 31, 2002, and accordingly, benefits do not increase or decrease, and there is no service cost. We have determined that annual changes in actuarial assumptions result in year-over-year changes in the present values of the benefits provided. Therefore, the values shown in the column represent the change in value from one year to the next, with negative changes reflected as zero change. See the Pension Benefits table on page 41 for more information. We did not provide above-market or preferential earnings on deferred compensation in 2014, 2015 or 2016.

34

(6) All Other Compensation includes the following:

Name		Perquisites and Personal Benefits(\$)(A)	Tax Gross- ups (\$)(C)	Company Contributions to Defined Contribution Plans(\$)(D)	Life Insurance Premiums (\$)
William C. Rhodes III	2016	64,728(B)	5,641	100,300	15,880
	2015	63,016(B)	3,010	99,350	15,880
	2014	57,361(B)		101,159	13,760
William T. Giles	2016	45,943(B)	2,431	42,973	13,001
	2015	54,565(B)		41,660	11,620
	2014	41,204(B)		40,738	10,480
Mark A. Finestone	2016	58,319(B)	2,431	30,245	3,417
	2015	54,941(B)		29,065	3,417
	2014	46,310(B)		28,660	3,560
William W. Graves	2016	59,833(B)	2,431	30,235	4,733
	2015	56,107(B)		29,043	4,733
	2014	53,609(B)		28,704	3,560
Thomas B. Newbern	2016	18,216	5,641	30,245	3,417
	2015	9,561	1,568	29,065	3,417

- (A) Perquisites and personal benefits for all Named Executive Officers include Company-provided home security system and/or monitoring services, airline club memberships and status upgrades, Company-paid spouse business-related travel, Company-paid long-term disability insurance premiums, and matching charitable contributions under the AutoZone Matching Gift Program.
- (B) The perquisites or personal benefits which exceeded the greater of \$25,000 or 10% of the total amount of perquisites and personal benefits for an executive officer, which consisted of matching charitable contributions made under the AutoZone Matching Gift program, under which executives may contribute to qualified charitable organizations and AutoZone provides a matching contribution to the charities in an equal amount, up to \$50,000 in the aggregate for each executive officer annually, are as follows:

	2016	2015	2014
Name	(\$)	(\$)	(\$)
William C. Rhodes III	50,000	50,000	50,000
William T. Giles	38,000	50,000	36,000
Mark A. Finestone	50,000	50,000	41,272
William W. Graves	50,000	50,000	47,331

- (C) Represents amounts related to Company-paid spouse business-related travel.
- (D) Represents employer contributions to the AutoZone, Inc. 401(k) Plan and the AutoZone, Inc. Executive Deferred Compensation Plan.

GRANTS OF PLAN-BASED AWARDS

(1) Represents potential threshold, target and maximum incentive compensation for the 2016 fiscal year under the EICP based on each officer s salary on the date the 2016 fiscal year targets were approved. The amounts actually paid for the 2016 fiscal year are described in the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table. The threshold is the minimum payment level under the EICP which is 50% of the target amount. There is no overall percentage maximum; however, awards paid to any individual pursuant to the EICP may not exceed \$4 million. See Compensation Discussion and Analysis at page 22 and the discussion following this table for more information on the EICP.

36

- (2) Represents shares awarded pursuant to the Executive Stock Purchase Plan. <u>See</u> Compensation Discussion and Analysis at page 22 and the discussion following this table for more information on the Executive Stock Purchase Plan.
- (3) Represents options awarded pursuant to the 2011 Equity Plan. <u>See</u> Compensation Discussion and Analysis at page 22 and the discussion following this table for more information on equity plans.

Discussion of Plan-Based Awards Table

Executive Incentive Compensation Plan. The EICP is intended to be a performance-based compensation plan under Section 162(m) of the Internal Revenue Code. The Company s executive officers, as determined by the Compensation Committee of the Board of Directors, are eligible to participate in the EICP. At the beginning of each fiscal year, the Compensation Committee establishes a goal, which may be a range from a minimum to a maximum attainable bonus, based on one or more of the following measures:

Earnings
Earnings per share
Sales
Market share
Operating or net cash flows
Pre-tax profits

Economic value added Return on inventory EBIT margin Sales per square foot Comparable store sales

Return on invested capital

Earnings before interest and taxes (EBIT)

The EICP provides that the goal may be different for different executives. The goals can change annually to support our business objectives. After the end of each fiscal year, the Compensation Committee must certify the attainment of goals under the EICP and direct the amount to be paid to each participant in cash. See Compensation Discussion and Analysis on page 22 for more information about the EICP.

Executive Stock Purchase Plan. The Executive Stock Purchase Plan permits participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone s Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant s compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant s compensation that may be used to purchase shares under the plan. For more information about the Executive Stock Purchase Plan, see Compensation Discussion and Analysis on page 22.

Stock Options. Stock options are awarded to many levels of management, including executive officers, to align the long-term interests of AutoZone s management and our stockholders. During the 2016 fiscal year, 733 AutoZone employees received stock options. The stock options shown in the table were granted pursuant to the Amended 2011 Equity Plan and the 2011 Equity Plan.

Both incentive stock options and non-qualified stock options, or a combination of both, can be granted under the Amended 2011 Equity Plan. Incentive stock options have a maximum term of ten years, and non-qualified stock options have a maximum term of ten years and one day. The stock options subject to Mr. Rhodes one-time grant in 2015 vest in equal increments on the fourth and fifth anniversaries of the grant date. All other options granted during the 2016 fiscal year vest in one-fourth increments over a four-year period. All options granted under the Amended 2011 Equity Plan have an exercise price equal to the fair market value of AutoZone common stock on the date of grant, which is defined as the closing price on the grant date. Option repricing is expressly prohibited by the terms of the Amended 2011 Equity Plan.

Each grant of stock options is governed by the terms of a Stock Option Agreement entered into between the Company and the executive officer at the time of the grant. The Stock Option Agreements provide vesting schedules and other terms of the grants in accordance with the Amended 2011 Equity Plan.

Table of Contents

Under the Amended 2011 Equity Plan, participants may receive equity-based compensation in the form of stock appreciation rights, restricted shares, restricted share units, dividend equivalents, deferred stock, stock payments, performance share awards and other incentive awards structured by the Compensation Committee and the Board within parameters set forth in the Amended 2011 Equity Plan.

The aggregate number of shares of AutoZone common stock available for equity grants pursuant to the Amended 2011 Equity Plan will be reduced by two shares for every share delivered in settlement of an award other than (i) a stock option, (ii) a stock appreciation right or (iii) any other award for which the holder pays the intrinsic value existing as of the date of grant (such awards, Full Value Awards). To the extent that any award other than a Full Value Award is forfeited, expires or is settled in cash without the delivery of shares to the holder, then any shares subject to the award will again be available for the grant of an award pursuant to the Amended 2011 Equity Plan; if such forfeited, expired or cash-settled award is a Full Value Award, then the number of shares available under the Amended 2011 Equity Plan will be increased by two shares for each share subject to the award that is forfeited, expired or cash-settled. However, shares tendered or withheld in payment of the exercise price of an option or in satisfaction of any tax withholding obligations with respect to an award, shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right on exercise thereof, and shares purchased on the open market with the cash proceeds from the exercise of options, will not again be available for the grant of an award pursuant to the Amended 2011 Equity Plan. Any shares of restricted stock repurchased by AutoZone at the same price paid by the participant, so that such shares are returned to AutoZone, will again be available for awards granted pursuant to the Amended 2011 Equity Plan. The payment of dividend equivalents in cash in conjunction with any outstanding awards will not be counted against the shares available for issuance under the Amended 2011 Equity Plan.

OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END

The following table sets forth information regarding outstanding stock option awards under the Amended 2011 Equity Plan, the 2011 Equity Plan, the AutoZone, Inc. 2006 Stock Option Plan (1996 Stock Option Plan) and the Third Amended and Restated AutoZone, Inc. 1996 Stock Option Plan (1996 Stock Option Plan), other outstanding equity awards under the amended 2011 Equity Plan and the 2011 Equity Plan, and unvested shares under the Executive Stock Purchase Plan for the Company s Named Executive Officers as of August 27, 2016:

bjective and strategies described in this prospectus and for general working capital purposes. Each supplement to this prospectus relating NASDAO Global Select Market symbols

OXLC (common stock)
OXLCP (Series 2017 Term Preferred Shares)
OXLCO (Series 2023 Term Preferred Shares)
OXLCN (Series 2024 Term Preferred Shares)

Distributions

To the extent that we have income available, we intend to distribute quarterly dividends to our common stockholders. The amount of our dividends, if any, will be determined by our Board of Directors. Any dividends to our stockholders will be declared out of assets legally available for distribution. The specific tax characteristics of our dividends will be reported to shareholders after the end of each calendar year.

Taxation

We have elected to be treated for federal income tax purposes as a RIC under Subchapter M of the Code. As a RIC, we generally do not have to pay corporate-level federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To maintain our RIC tax treatment, we must meet specified source-of-income and asset diversification requirements and distribute annually at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. See Distributions and Material U.S. Federal Income Tax Considerations.

9

TABLE OF CONTENTS

Investment Advisory Fees

We pay Oxford Lane Management a fee for its services under the Investment Advisory Agreement consisting of two components—a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 2.00% of our gross assets, which includes any borrowings for investment purposes. The incentive fee is calculated and payable quarterly in arrears and equals 20.0% of our pre-incentive fee net investment income—for the immediately preceding quarter, subject to a preferred return, or—hurdle,—and a—catch up—feature. No incentive fees are payable to our investment adviser on any realized capital gains. See—Investment Advisory Agreement.

Administration Agreement

We reimburse BDC Partners for our allocable portion of overhead and other expenses it incurs in performing its obligations under the Administration Agreement, including furnishing us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities, as well as providing us with other administrative services. In addition, we reimburse BDC Partners for the fees and expenses associated with performing compliance functions, and our allocable portion of the compensation of our Chief Financial Officer, Chief Compliance Officer and any administrative support staff. See Administration Agreement.

Leverage

Other than our currently outstanding preferred stock, which may be considered a form of leverage, we do not currently anticipate incurring indebtedness on our portfolio or paying any interest during the twelve months following completion of this offering. However, we may issue additional shares of preferred stock pursuant to the registration statement of which this prospectus forms a part. Although we have no current intention to do so, we may borrow funds to make investments. As a result, we may be exposed to the risks of leverage, which may be considered a speculative investment technique. In addition, the CLO vehicles in which we invest will be leveraged, which will indirectly expose us to the risks of leverage. The use of leverage magnifies the potential gain and loss on amounts invested and therefore increases the risks associated with investing in our securities. In addition, the costs associated with our borrowings, including any increase in the management fee payable to our investment adviser, Oxford Lane Management, will be borne by our common stockholders. Under the 1940 Act, we are only permitted to incur additional indebtedness to the extent our asset coverage, as defined under the 1940 Act, is at least 300% immediately after each such borrowing. See Regulation as a Registered Closed-End Investment Company.

Trading

Shares of closed-end investment companies frequently trade at a discount to their net asset value. The risk that our shares may trade at a discount to our net asset value is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether our shares will trade above, at or below net asset value.

Dividend Reinvestment Plan

We have adopted an opt out dividend reinvestment plan. If your shares of common stock are registered in your own name, your distributions will automatically be reinvested under our dividend 10

TABLE OF CONTENTS

reinvestment plan in additional whole and fractional shares of common stock, unless you opt out of our dividend reinvestment plan so as to receive cash dividends by delivering a written notice to our dividend paying agent. If your shares are held in the name of a broker or other nominee, you should contact the broker or nominee for details regarding opting out of our dividend reinvestment plan. Stockholders who receive distributions in the form of stock will be subject to the same federal, state and local tax consequences as stockholders who elect to receive their distributions in cash. See Dividend Reinvestment Plan.

Certain Anti-Takeover Measures

Our charter and bylaws, as well as certain statutory and regulatory requirements, contain certain provisions that may have the effect of discouraging a third party from making an acquisition proposal for us. These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price for our common stock. See Description of Securities.

Available Information

11

After the completion of this offering, we will be required to file periodic reports, proxy statements and other information with the SEC. This information will be available at the SEC s public reference room at 100 F Street, NE, Washington, D.C. 20549 and on the SEC s website at http://www.sec.gov. The public may obtain information on the operation of the SEC s public reference room by calling the SEC at (202) 551-8090. This information will also be available free of charge by contacting us at Oxford Lane Capital Corp., 8 Sound Shore Drive, Suite 255, Greenwich, CT 06830, by telephone at (203) 983-5275, or on our website at http://www.oxfordlanecapital.com.

TABLE OF CONTENTS

FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that you will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by us or Oxford Lane Capital, or that we will pay fees or expenses, you will indirectly bear such fees or expenses as an investor in Oxford Lane Capital Corp.

Stockholder transaction expenses:	
Sales load (as a percentage of offering price)	$\%^{(1)}$
Offering expenses borne by us (as a percentage of offering price)	%(2)
Dividend reinvestment plan expenses	None (3)
Total stockholder transaction expenses (as a percentage of offering price)	%
Annual expenses (as a percentage of net assets attributable to common stock):	
Base management fee	$3.27 \%^{(4)}$
Incentive fees payable under our investment advisory agreement (20% of net investment	0.87 %(5)
income)	0.87 /03
Interest payments on borrowed funds	$0.00 \%^{(6)}$
Preferred stock dividend payment	$4.28 \%^{(7)}$
Other expenses (estimated)	$1.05 \%^{(8)}$
Acquired fund fees and expenses	$4.22 \%^{(9)}$
Total annual expenses (estimated)	13.69 %

Example

The following example demonstrates the projected dollar amount of total cumulative expenses that would be incurred over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed that our annual operating expenses would remain at the levels set forth in the table above. See Note 6 below for additional information regarding certain assumptions regarding our level of leverage subsequent to this offering.

In the event that shares to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will restate this example to reflect the applicable sales load.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$ 131	\$ 360	\$ 550	\$ 900

The example and the expenses in the tables above should not be considered a representation of our future expenses, and actual expenses may be greater or less than those shown. While the example assumes, as required by the SEC, a 5.0% annual return, our performance will vary and may result in a return greater or less than 5.0%. The incentive fee under the Investment Advisory Agreement, which, assuming a 5.0% annual return, would either not be payable or would have an insignificant impact on the expense amounts shown above, is not included in the example.

Also, while the example assumes reinvestment of all dividends at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar

FEES AND EXPENSES 67

amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the dividend payment date, which may be at, above or below net asset value. See Dividend Reinvestment Plan for additional information regarding our dividend reinvestment plan.

- (1) In the event that the securities to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load and the Example will be updated accordingly.
- The prospectus supplement corresponding to each offering will disclose the applicable offering expenses and total stockholder transaction expenses as a percentage of the offering price.

12

TABLE OF CONTENTS

- (3) The expenses of the dividend reinvestment plan are included in other expenses. Assumes gross assets of \$405.4 million and \$134.6 million of leverage (including \$15.8 million of preferred stock with a preferred rate of 8.5% per annum issued in November 2012, \$65.8 million of preferred stock with a preferred rate of 7.5% per annum issued in June, July and November 2013, \$28.0 million of preferred stock with a preferred rate of 8.125% per annum issued in June 2014 and an assumed additional \$25.0 million in preferred stock with a preferred rate of 8.25% per annum, and reflects the direct registered offering of 325,000 shares of common
- (4) Stock on January 9, 2014, the issuance of 4,021,373 shares in connection with our rights offering that expired on March 3, 2014, as well as the issuance of 3,100,000 shares of common stock on March 14, 2014), and assumes net assets of \$247.8 million. The above calculation reflects our base management fee as a percentage of our net assets. Our base management fee under the Investment Advisory Agreement, however, is based on our gross assets, which is defined as all the assets of Oxford Lane Capital, including those acquired using borrowings for investment purposes. As a result, to the extent we use leverage, it would have the effect of increasing our base management fee as a percentage of our net assets. See Investment Advisory Agreement.
 - Amount reflects the estimated annual incentive fees payable to our investment adviser, Oxford Lane Management, during the fiscal year following this offering. The estimate assumes that the incentive fee earned will be proportional to the fee earned during the year ended March 31, 2014. Based on our current business plan, we
- anticipate that substantially all of the net proceeds of any offerings conducted pursuant to this prospectus will be invested within three months depending on the availability of investment opportunities that are consistent with our investment objective and other market conditions. We expect that it will take approximately one to three months to invest all of the proceeds of any offerings conducted pursuant to this prospectus, in part because equity and junior debt investments in CLO vehicles require substantial due diligence prior to investment.

The incentive fee, which is payable quarterly in arrears, equals 20.0% of the excess, if any, of our Pre-Incentive Fee Net Investment Income that exceeds a 1.75% quarterly (7.0% annualized) hurdle rate, which we refer to as the Hurdle, subject to a catch-up provision measured at the end of each calendar quarter. The incentive fee is computed and paid on income that may include interest that is accrued but not yet received in cash. The operation of the incentive fee for each quarter is as follows:

no incentive fee is payable to our investment adviser in any calendar quarter in which our Pre-Incentive Fee Net Investment Income does not exceed the Hurdle of 1.75%;

100% of our Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the Hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized) is payable to our investment adviser. We refer to this portion of our Pre-Incentive Fee Net Investment Income (which exceeds the Hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide our investment adviser with 20.0% of our Pre-Incentive Fee Net Investment Income, as if a Hurdle did not apply when our Pre-Incentive Fee Net Investment Income, if any calendar quarter; and 20.0% of the amount of our Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to our investment adviser (once the Hurdle is reached and the catch-up is achieved, 20.0% of all Pre-Incentive Fee Investment Income thereafter is allocated to our investment adviser). No incentive fee is payable to our investment adviser on realized capital gains. For a more detailed discussion of the calculation of this fee, see Investment Advisory Agreement.

Assumes that we maintain our current level of no outstanding borrowings as of March 31, 2014 other than preferred stock (we presently have \$15.8 million of preferred stock outstanding with a preferred rate equal to 8.5% per annum issued in November 2012, an aggregate of \$65.8 million of preferred stock with a preferred rate of

(6)7.50% per annum issued in June, July and November 2013 and an aggregate of \$28.0 million of preferred stock with a preferred rate of 8.125% per annum issued in June 2014), which may be considered a form of leverage. We may issue additional shares of preferred stock pursuant to the registration statement of which the accompanying prospectus forms a part. In the event we were to issue

TABLE OF CONTENTS

preferred stock, our borrowing costs, and correspondingly our total annual expenses, including our base management fee as a percentage of our net assets, would increase. See also note 7 below.

Assumes that we continue to have \$15.8 million of preferred stock outstanding with a preferred rate equal to 8.5% per annum issued in November 2012, an aggregate of \$65.8 million of preferred stock with a preferred rate of

- (7)7.50% per annum issued in June, July and November 2013, an aggregate of \$28.0 million of preferred stock with a preferred rate of 8.125% per annum issued in June 2014 and that we issue an additional \$25.0 million of preferred stock with a preferred rate of 8.25% per annum.
- Other expenses (\$2.6 million) assumes that other expenses for the year will be proportional to other expenses incurred during the year ended March 31, 2014.
 - Reflects the estimated annual collateral manager fees that will be indirectly incurred by us in connection with our investments in CLO equity tranches during the twelve months following the date of this prospectus, assuming the CLO equity investments held as of March 31, 2014 and net assets of \$247.8 million. Collateral manager fees are charged on the total assets of the CLO vehicle, including the assets acquired with borrowed funds, but are assumed to be paid from the residual cash flows after interest payments to the senior debt tranches. Therefore, these collateral manager fees (which are generally 0.50% to 0.55% of total assets) are effectively much higher when
- (9) allocated only to the equity tranches. The debt tranches that we hold generally are not deemed to pay any such collateral manager fees. The calculation does not include any other operating expense ratios of the CLO vehicles, as these amounts are not routinely reported to shareholders on a basis consistent with this methodology; however, it is estimated that additional operating expenses of approximately 0.5% to 1.0% could be incurred. As a result of our investments in such CLO equity investments, our stockholders will be required to pay two levels of fees and expenses in connection with their investment in our common stock, including fees payable under our Investment Advisory Agreement and fees and expenses charged to us on the CLO equity tranches in which we are invested.

14

TABLE OF CONTENTS

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand our financial performance. Information is shown since the commencement of our operations on January 25, 2011. The financial data for the fiscal years ended March 31, 2014, March 31, 2013, March 31, 2012 and for the period from January 25, 2011 (commencement of operations) to March 31, 2011 is derived from our financial statements which have been audited by PricewaterhouseCoopers LLP, our independent registered public accounting firm. The data should be read in conjunction with our financial statements and related notes thereto included in this prospectus.

	Year Ended March 31, 2014		Year Ended March 31, 2013		Year Ended March 31, 2012		January 25, 2011 (Commencement of Operations) to March 31, 2011	
Per Share Data								
Net asset value at beginning of period ⁽¹⁾	\$16.20		\$17.05		\$18.19		\$16.80

- (1) For period January 25, 2011 through March 31, 2011, represents the net asset value per share prior to commencement of operations.
 - (2) Represents per share net investment income for the period, based upon average shares outstanding.
- (3) Net realized and unrealized capital gains include rounding adjustments, if necessary, to reconcile change in net asset value per share.
- Management monitors available taxable earnings, including net investment income and realized capital gains, to (4) determine if a tax return of capital may occur for the year. To the extent the Fund's taxable earnings fall below the total amount of the Fund's distributions for that fiscal year, a portion of those

TABLE OF CONTENTS

distributions may be deemed a tax return of capital to the Fund's stockholders. The final determination of the nature of our distributions can only be made upon the filing of our tax return.

- Total return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the market price as of the beginning of the period, dividends, capital gains and other distributions were (6) reinvested as provided for in the Fund's dividend reinvestment plan and then sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund.
- (7) Total return for the period January 25, 2011 through March 31, 2011 was not annualized.

 (8) Annualized, after adjusting for certain periodic expenses recorded during the period January 25, 2011 through March 31, 2011.

TABLE OF CONTENTS

RISK FACTORS

Investing in our securities involves a number of significant risks. In addition to the other information contained in this prospectus and any accompanying prospectus supplement, you should consider carefully the following information before making an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not presently known to us or not presently deemed material by us might also impair our operations and performance. If any of the following events occur, our business, financial condition and results of operations could be materially and adversely affected. In such case, our net asset value and the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Relating to Our Business and Structure

We have a limited operating history as a closed-end investment company.

We are a non-diversified, closed-end management investment company with a limited operating history of only three years. As a result, we do not have significant financial information on which you can evaluate an investment in our company or our prior performance. We are subject to all of the business risks and uncertainties associated with any new business, including the risk that we will not achieve our investment objective and that the value of your investment could decline substantially or become worthless. We anticipate that it may take approximately one to three months to invest substantially all of the net proceeds of this offering in our targeted investments. During this period, we will invest in temporary investments, such as cash, cash equivalents, U.S. government securities and other high-quality debt investments that mature in one year or less, which we expect will earn yields substantially lower than the interest or other income that we anticipate receiving in respect of investments in CLO vehicles or other debt securities. As a result, our dividends may be substantially lower than the dividends that we expect to pay when the proceeds of this offering have been fully invested in accordance with our investment objective.

Our investment portfolio is recorded at fair value, with our Board of Directors having final responsibility for overseeing, reviewing and approving, in good faith, its estimate of fair value and, as a result, there will be uncertainty as to the value of our portfolio investments.

Under the 1940 Act, we are required to carry our portfolio investments at market value or, if there is no readily available market value, at fair value as determined by us in accordance with our written valuation policy with our Board of Directors having final responsibility for overseeing, reviewing and approving, in good faith, our estimate of fair value. Typically, there will not be a public market for the type of investments we target. As a result, we will value these securities quarterly at fair value based on relevant information compiled by our investment adviser, third-party pricing services (when available) and our Valuation Committee and with the oversight, review and approval of our Board of Directors.

The determination of fair value and, consequently, the amount of unrealized gains and losses in our portfolio, are to a certain degree subjective and dependent on a valuation process approved by our Board of Directors. Certain factors that may be considered in determining the fair value of our investments include available indicative bids or quotations, as well as external events, such as private mergers, sales and acquisitions involving comparable companies. Because such valuations, and particularly valuations of private securities, are inherently uncertain, they may fluctuate over short periods of time and may be based on estimates. Our determinations of fair value may differ materially from the

RISK FACTORS 75

values that would have been used if an active public market for these securities existed. Our determinations of the fair value of our investments have a material impact on our net earnings through the recording of unrealized appreciation or depreciation of investments and may cause our net asset value on a given date to materially understate or overstate the value that we may ultimately realize on one or more of our investments. Investors purchasing our securities based on an overstated net asset value may pay a higher price than the value of our investments might warrant. Conversely, investors selling shares during a period in which the net asset value understates the value of our investments may receive a lower price for their shares than the value of our investments might warrant.

TABLE OF CONTENTS

Our financial condition and results of operations depend on our ability to effectively manage and deploy capital.

Our ability to achieve our investment objective depends on our ability to effectively manage and deploy capital, which depends, in turn, on our investment adviser s ability to identify, evaluate and monitor, and our ability to acquire, investments that meet our investment criteria.

Accomplishing our investment objective on a cost-effective basis is largely a function of our investment adviser s handling of the investment process, its ability to provide competent, attentive and efficient services and our access to investments offering acceptable terms, either in the primary or secondary markets. Even if we are able to grow and build upon our investment operations, any failure to manage our growth effectively could have a material adverse effect on our business, financial condition, results of operations and prospects. The results of our operations will depend on many factors, including the availability of opportunities for investment, readily accessible short and long-term funding alternatives in the financial markets and economic conditions. Furthermore, if we cannot successfully operate our business or implement our investment policies and strategies as described herein, it could negatively impact our ability to pay dividends.

We may face increasing competition for investment opportunities.

We may compete for investments with other investment funds (potentially including private equity funds, mezzanine funds and business development companies), as well as traditional financial services companies, which could include commercial banks, investment banks, finance companies and other sources of funding. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than us. For example, some competitors may have a lower cost of capital and access to funding sources that may not be available to us, including from federal government agencies through federal rescue programs such as the U.S. Department of Treasury s Financial Stability Plan (formerly known as the Troubled Asset Relief Program). In addition, some of our competitors may have higher risk tolerances or different risk assessments than we have. These characteristics could allow our competitors to consider a wider variety of investments, establish more relationships and offer higher pricing than we are willing to offer to potential sellers. We may lose investment opportunities if our competitors are willing to pay more for the types of investments that we intend to target. If we are forced to pay more for our investments, we may not be able to achieve acceptable returns on our investments or may bear substantial risk of capital loss. An increase in the number and/or the size of our competitors in our target markets could force us to accept less attractive investments. Furthermore, many of our competitors have greater experience operating under, or are not be subject to, the regulatory restrictions that the 1940 Act imposes on us as a closed-end management investment company.

We are dependent upon Oxford Lane Management s key personnel for our future success.

We depend on the diligence, skill and network of business contacts of Messrs. Cohen, Rosenthal and Monasebian, who serve as the investment committee of Oxford Lane Management, and who lead Oxford Lane Management s investment team. Messrs. Cohen, Rosenthal and Monasebian, together with the other investment professionals available to Oxford Lane Management, evaluate, acquire and monitor our investments. Our future success depends on the continued service of Messrs. Cohen, Rosenthal and Monasebian and the other members of Oxford Lane Management s investment team. We cannot assure you that unforeseen business, medical, personal or other circumstances would not lead any such individual to terminate his relationship with us. The loss of Messrs. Cohen, Rosenthal or Monasebian, or any of the other investment professionals who serve on Oxford Lane Management s

Our financial condition and results of operations depend on our ability to effectively manage and deploy capital.

investment team, could have a material adverse effect on our ability to achieve our investment objective as well as on our financial condition and results of operations. In addition, we can offer no assurance that Oxford Lane Management will continue indefinitely as our investment adviser.

The members of Oxford Lane Management s investment team are and may in the future become affiliated with entities engaged in business activities similar to those intended to be conducted by us, and may have conflicts of interest in allocating their time. In particular, the members of Oxford Lane Management s investment team, including Messrs. Cohen, Rosenthal and Monasebian, are currently actively involved in the management of the portfolios of TICC Capital Corp., a publicly-traded business development company that

TABLE OF CONTENTS

invests principally in the debt of U.S.-based companies, TICC CLO LLC and TICC CLO 2012-1 LLC, CLO structured finance vehicles that invest in a diversified portfolio of Senior Loans, the assets of which are included in the gross assets of TICC Capital Corp., and T2 Income Fund CLO I Ltd., a CLO structured finance vehicle that invests in a diversified portfolio of Senior Loans. Neither Messrs. Cohen, Rosenthal or Monasebian, or the investment team, is required to dedicate any specific portion of their time to the activities of Oxford Lane Capital; moreover, they are engaged in other business activities which divert their time and attention.

Our success depends on the ability of Oxford Lane Management to retain qualified personnel in a competitive environment.

Our success requires that Oxford Lane Management retain investment and administrative personnel in a competitive market. Its ability to attract and retain personnel with the requisite credentials, experience and skills depends on several factors including, but not limited to, its ability to offer competitive wages, benefits and professional growth opportunities. Many of the entities, including investment funds (such as private equity funds, mezzanine funds and business development companies) and traditional financial services companies, with which we compete for experienced personnel have greater resources than we have.

There are significant potential conflicts of interest which could impact our investment returns.

Oxford Lane Management s investment team presently manages the portfolios of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies, TICC CLO LLC and TICC CLO 2012-1 LLC, CLO structured finance vehicles that invest in a diversified portfolio of Senior Loans, the assets of which are included in the gross assets of TICC Capital Corp., and T2 Income Fund CLO I Ltd., a CLO structured finance vehicle that invests in a diversified portfolio of Senior Loans. In addition, our executive officers and directors, as well as the current and future members of our investment adviser, Oxford Lane Management, may serve as officers, directors or principals of other entities that operate in the same or a related line of business as we do. Accordingly, they may have obligations to investors in those entities, the fulfillment of which obligations may not be in the best interests of us or our stockholders. Each of TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC and T2 Income Fund CLO I Ltd., as well as any affiliated investment vehicle formed in the future and managed by our investment adviser or its affiliates may, notwithstanding different stated investment objectives, have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, Oxford Lane Management s investment team may face conflicts in allocating investment opportunities between us and such other entities. Although Oxford Lane Management s investment team will endeavor to allocate investment opportunities in a fair and equitable manner, it is possible that, in the future, we may not be given the opportunity to participate in investments made by investment funds, including TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC, and T2 Income Fund CLO I Ltd., managed by our investment adviser or an investment manager affiliated with our investment adviser. In any such case, when Oxford Lane Management s investment team identifies an investment, it will be required to choose which investment fund should make the investment, although BDC Partners maintains an allocation policy to ensure the equitable distribution of such investment opportunities, consistent with the requirements of the 1940 Act.

In certain instances, we may co-invest on a concurrent basis with affiliates of our investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation procedures. Such co-investment may require exemptive relief from the SEC. If we elect to seek such relief, there can be no assurance when, or if, such relief may be obtained.

In addition, we will pay BDC Partners, an affiliate of Oxford Lane Management, our allocable portion of overhead and other expenses incurred by BDC Partners in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and our allocable portion of the compensation of our Chief Financial Officer, Chief Compliance Officer and any administrative support staff.

These arrangements may create conflicts of interest that our Board of Directors must monitor. Oxford Lane Management will not be reimbursed for any performance-related compensation of its employees.

TABLE OF CONTENTS

Our incentive fee structure and the formula for calculating the fee payable to Oxford Lane Management may incentivize Oxford Lane Management to pursue speculative investments, use leverage when it may be unwise to do so, or refrain from de-levering when it would otherwise be appropriate to do so.

The incentive fee payable by us to Oxford Lane Management may create an incentive for Oxford Lane Management to pursue investments on our behalf that are riskier or more speculative than would be the case in the absence of such compensation arrangement. Such a practice could result in our investing in more speculative securities than would otherwise be the case, which could result in higher investment losses, particularly during economic downturns. The incentive fee payable to our investment adviser is based on our pre-incentive net investment income, as calculated in accordance with our Investment Advisory Agreement. In addition, our base management fee is calculated on the basis of our gross assets, including assets acquired through the use of leverage. This may encourage our investment adviser to use leverage to increase the aggregate amount of and the return on our investments, even when it may not be appropriate to do so, and to refrain from de-levering when it would otherwise be appropriate to do so. Under certain circumstances, the use of leverage may increase the likelihood of default, which would impair the value of our securities.

We may invest, to the extent permitted by law, in the securities and other instruments of other investment companies, including private funds, and, to the extent we so invest, will bear our ratable share of any such investment company s expenses, including management and performance fees. We will also remain obligated to pay management and incentive fees to Oxford Lane Management with respect to the assets invested in the securities and other instruments of other investment companies. With respect to each of these investments, each of our stockholders will bear his or her share of the management and incentive fee of Oxford Lane Management as well as indirectly bearing the management and performance fees and other expenses of any investment companies in which we invest.

In the course of our investing activities, we will pay management and incentive fees to Oxford Lane Management and reimburse Oxford Lane Management for certain expenses it incurs. As a result, investors in our common stock will invest on a gross basis and receive distributions on a net basis after expenses, resulting in a lower rate of return than an investor might achieve through direct investments.

A general increase in interest rates may have the effect of making it easier for our investment adviser to receive incentive fees, without necessarily resulting in an increase in our net earnings.

Given the structure of our Investment Advisory Agreement with Oxford Lane Management, any general increase in interest rates will likely have the effect of making it easier for Oxford Lane Management to meet the quarterly hurdle rate for payment of income incentive fees under the Investment Advisory Agreement without any additional increase in relative performance on the part of our investment adviser. In addition, in view of the catch-up provision applicable to income incentive fees under the Investment Advisory Agreement, our investment adviser could potentially receive a significant portion of the increase in our investment income attributable to such a general increase in interest rates. If that were to occur, our increase in net earnings, if any, would likely be significantly smaller than the relative increase in our investment adviser s income incentive fee resulting from such a general increase in interest rates.

Our investment adviser has the right to resign on 60 days notice, and we may not be able to find a suitable replacement within that time, resulting in a disruption in our operations that could adversely affect our financial condition, business and results of operations.

Our investment adviser has the right, under the Investment Advisory Agreement, to resign at any time upon 60 days written notice, whether we have found a replacement or not. If our investment adviser resigns, we may not be able to find a new investment adviser or hire internal management with similar expertise and ability to provide the same or equivalent services on acceptable terms within 60 days, or at all. If we are unable to do so quickly, our operations are likely to experience a disruption, our financial condition, business and results of operations as well as our ability to pay distributions are likely to be adversely affected and the market price of our shares may decline. In addition, the coordination of our internal management and investment activities is likely to suffer if we are unable to identify and reach an agreement with a single institution or group of executives having the expertise possessed by our investment adviser and its affiliates. Even if we are able to retain comparable management, whether internal or external, the integration of such

TABLE OF CONTENTS

management and their lack of familiarity with our investment objective may result in additional costs and time delays that may adversely affect our financial condition, business and results of operations.

Our investment adviser may not be able to achieve the same or similar returns as those achieved by Messrs. Cohen and Rosenthal while managing other portfolios.

Although Messrs. Cohen and Rosenthal have experience managing other investment portfolios, including those of TICC Capital Corp., a publicly traded business development company that invests principally in the debt of U.S.-based companies, TICC CLO LLC and TICC CLO 2012-1 LLC, CLO structured finance vehicles that invest in a diversified portfolio of Senior Loans, the assets of which are included in the gross assets of TICC Capital Corp., and T2 Income Fund CLO I Ltd., a CLO structured finance vehicle that invests in a diversified portfolio of Senior Loans, their track record and prior achievements are not necessarily indicative of future results that will be achieved by our investment adviser. We cannot assure you that we will be able to achieve the results realized by other vehicles managed by Messrs. Cohen and Rosenthal, including TICC Capital Corp., and T2 Income Fund CLO I Ltd.

Regulations governing our operation as a registered closed-end management investment company affect our ability to raise additional capital and the way in which we do so. The raising of debt capital may expose us to risks, including the typical risks associated with leverage.

Although we have no current intention to do so, we may in the future issue debt securities or additional shares of preferred stock and/or borrow money from banks or other financial institutions, which we refer to collectively as senior securities, up to the maximum amount permitted by the 1940 Act. Under the provisions of the 1940 Act, we will be permitted, as a registered closed-end management investment company, to issue senior securities representing indebtedness so long as our asset coverage ratio with respect thereto, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, is at least 300% after each issuance of such senior securities. In addition, we will be permitted to issue additional shares of preferred stock so long as our asset coverage ratio with respect thereto, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, plus the aggregate involuntary liquidation preference of our outstanding preferred stock, is at least 200% after each issuance of such preferred stock. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to sell a portion of our investments and, depending on the nature of our leverage, repay a portion of our indebtedness or redeem outstanding shares of preferred stock, in each case at a time when doing so may be disadvantageous. Also, any amounts that we use to service our indebtedness or preferred dividends would not be available for distributions to our common stockholders. Furthermore, as a result of issuing senior securities, we would also be exposed to typical risks associated with leverage, including an increased risk of loss. If we issue additional preferred stock, the preferred stock would continue to rank senior to common stock in our capital structure, preferred stockholders would continue to have separate voting rights on certain matters and might have other rights, preferences, or privileges more favorable than those of our common stockholders, and the issuance of additional shares of preferred stock could have the effect of delaying, deferring or preventing a transaction or a change of control that might involve a premium price for holders of our common stock or otherwise be in your best interest.

We are not generally able to issue and sell our common stock at a price below net asset value per share, other than in connection with a rights offering to our existing stockholders. We may, however, sell our common stock at a price

Our investment adviser may not be able to achieve the same or similar returns as those achieved by Mes86s. Cohe

below the then-current net asset value per share of our common stock if our Board of Directors determines that such sale is in the best interests of Oxford Lane Capital and our stockholders, and our stockholders approve such sale. In any such case, the price at which our securities are to be issued and sold may not be less than a price that, in the determination of our Board of Directors, closely approximates the market value of such securities (less any distributing commission or discount). If we raise additional funds by issuing more common stock, then the percentage ownership of our stockholders at that time will decrease, and you may experience dilution.

TABLE OF CONTENTS

We may borrow money and/or issue preferred stock to leverage our portfolio, which would magnify the potential for gain or loss on amounts invested and will increase the risk of investing in us.

The use of leverage magnifies the potential for gain or loss on amounts invested and, therefore, increases the risks associated with investing in our securities. We presently have \$15.8 million of preferred stock outstanding with a preferred rate equal to 8.5% per annum issued in November 2012, an aggregate of \$65.8 million of preferred stock with a preferred rate of 7.50% per annum issued in June, July and November 2013 and an aggregate of \$28.0 million of preferred stock with a preferred rate of 8.125% per annum issued in June 2014. Although we have no current intention to do so, we may borrow from and issue senior securities, including additional shares of preferred stock, to banks, insurance companies and other lenders in the future. Holders of these senior securities will have fixed dollar claims on our assets that are superior to the claims of our common stockholders, and we would expect such lenders to seek recovery against our assets in the event of a default. If the value of our assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged. Similarly, any decrease in our income would cause net income to decline more sharply than it would have had we not borrowed. Such a decline could also negatively affect our ability to make dividend payments on our common stock. Leverage is generally considered a speculative investment technique. Our ability to service any debt that we incur will depend largely on our financial performance and will be subject to prevailing economic conditions and competitive pressures. Moreover, as the management fee payable to our investment adviser, Oxford Lane Management, will be payable based on our gross assets, including those assets acquired through the use of leverage, Oxford Lane Management will have a financial incentive to incur leverage which may not be consistent with our stockholders interests. In addition, our common stockholders will bear the burden of any increase in our expenses as a result of leverage, including any increase in the management fee payable to Oxford Lane Management.

As a registered closed-end management investment company, we will generally be required to meet an asset coverage ratio with respect to our outstanding senior securities representing indebtedness, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness. In addition, we will generally be required to meet an asset coverage ratio with respect to our outstanding preferred stock, as defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, plus the aggregate involuntary liquidation preference of our outstanding preferred stock, of at least 200% immediately after each issuance of such preferred stock. If this ratio declines, we may not be able to incur additional debt or issue additional shares of preferred stock and could be required by law to sell a portion of our investments to repay some debt or redeem some preferred stock when it is disadvantageous to do so, which could have a material adverse effect on our operations, and we may not be able to make distributions. The amount of leverage that we employ will depend on our investment adviser s and our Board of Directors assessment of market and other factors at the time of any proposed borrowing. We cannot assure you that we will be able to obtain credit at all or on terms acceptable to us.

In addition, any debt facility into which we may enter would likely impose financial and operating covenants that restrict our business activities, including limitations that could hinder our ability to finance additional loans and investments or to make the distributions required to maintain our status as a RIC under Subchapter M of the Code.

We may experience fluctuations in our quarterly results.

We could experience fluctuations in our quarterly operating results due to a number of factors, including our ability or inability to make investments that meet our investment criteria, the interest rate payable on the debt securities we

We may borrow money and/or issue preferred stock to leverage our portfolio, which would magnify the possential for

acquire, the level of portfolio dividend and fee income, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our markets and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

TABLE OF CONTENTS

Our Board of Directors is authorized to reclassify any unissued shares of common stock into one or more classes of preferred stock, which could convey special rights and privileges to its owners.

Under Maryland General Corporation Law and our charter, our Board of Directors is authorized to classify and reclassify any authorized but unissued shares of stock into one or more classes of stock, including preferred stock. Prior to issuance of shares of each class or series, the Board of Directors will be required by Maryland law and our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, the Board of Directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. The cost of any such reclassification would be borne by our common stockholders. Certain matters under the 1940 Act require the separate vote of the holders of any issued and outstanding preferred stock. For example, holders of preferred stock would vote separately from the holders of common stock on a proposal to cease operations as a registered closed-end management investment company. In addition, the 1940 Act provides that holders of preferred stock are entitled to vote separately from holders of common stock to elect two preferred stock directors. We have issued preferred stock and may issue additional shares of preferred stock in the future. These effects, among others, could have an adverse effect on your investment in our common stock.

Our Board of Directors may change our operating policies and strategies without prior notice or stockholder approval, the effects of which may be adverse.

Our Board of Directors will have the authority to modify or waive our current operating policies, investment criteria and strategies, other than those that we have deemed to be fundamental, without prior notice and without stockholder approval. We cannot predict the effect any changes to our current operating policies, investment criteria and strategies would have on our business, net asset value, operating results and value of our stock. However, the effects might be adverse, which could negatively impact our ability to pay you dividends and cause you to lose all or part of your investment. See Regulation as a Registered Closed-End Management Investment Company Fundamental Investment Policies.

We will be subject to corporate-level income tax if we are unable to maintain our RIC status under Subchapter M of the Code.

Although we have elected to be treated as a RIC under Subchapter M of the Code beginning with our 2011 tax year and succeeding tax years, no assurance can be given that we will be able to continue to maintain RIC status. To obtain and maintain RIC tax treatment under the Code, we must meet the following annual distribution, income source and asset diversification requirements.

The annual distribution requirement for a RIC will be satisfied if we distribute to our stockholders on an annual basis at least 90% of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. Because we may use debt financing, we are subject to certain asset coverage ratio requirements under the 1940 Act and financial covenants under loan and credit agreements that could, under certain circumstances, restrict us from making distributions necessary to satisfy the distribution requirement. If we are unable to obtain cash from other sources, we could fail to qualify for RIC tax treatment and thus become subject to corporate-level income

Our Board of Directors is authorized to reclassify any unissued shares of common stock into one or more & assess o

tax.

The income source requirement will be satisfied if we obtain at least 90% of our income for each year from dividends, interest, gains from the sale of stock or securities or similar sources.

The asset diversification requirement will be satisfied if we meet certain asset diversification requirements at the end of each quarter of our taxable year. Failure to meet those requirements may result in our having to dispose of certain investments quickly in order to prevent the loss of RIC status. Because most of our investments will be in CLO vehicles for which there will likely be no active public market, any such dispositions could be made at disadvantageous prices and could result in substantial losses.

If we fail to qualify for RIC tax treatment for any reason and remain or become subject to corporate income tax, the resulting corporate taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions.

TABLE OF CONTENTS

There is a risk that our stockholders may not receive distributions or that our distributions may not grow or may be reduced over time, including on a per share basis as a result of the dilutive effects of this offering.

We intend to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. We cannot assure you that we will achieve investment results that will allow us to make a specified level of cash distributions or year-to-year increases in cash distributions. In addition, due to the asset coverage test applicable to us as a registered closed-end management investment company, we may be limited in our ability to make distributions.

See Regulation as a Registered Closed-End Management Investment Company.

We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income.

For federal income tax purposes, we will include in income certain amounts that we have not yet received in cash, such as original issue discount or market discount, which may arise if we acquire a debt security at a significant discount to par. Such discounts will be included in income before we receive any corresponding cash payments. We also may be required to include in income certain other amounts that we will not receive in cash.

Since, in certain cases, we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the annual distribution requirement necessary to maintain RIC tax treatment under the Code.

In addition, since our incentive fee is payable on our income recognized, rather than cash received, we may be required to pay advisory fees on income before or without receiving cash representing such income. Accordingly, we may have to sell some of our investments at times and/or at prices we would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities for this purpose. If we are not able to obtain cash from other sources, we may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax. For additional discussion regarding the tax implications of a RIC, please see Material U.S. Federal Income Tax Considerations Taxation as a Regulated Investment Company.

We may in the future choose to pay dividends in our own stock, in which case you may be required to pay tax in excess of the cash you receive.

We may distribute taxable dividends that are payable in cash or shares of our common stock at the election of each stockholder. Under certain applicable provision of the Code and the Treasury regulations, distributions payable in cash or in shares of stock at the election of stockholders are treated as taxable dividends. The Internal Revenue Service has issued private rulings indicating that this rule will apply even where the total amount of cash that may be distributed is limited to no more than 20% of the total distribution. Under these rulings, if too many stockholders elect to receive their distributions in cash, each such stockholder would receive a pro rata share of the total cash to be distributed and would receive the remainder of their distribution in shares of stock. If we decide to make any distributions consistent with these rulings that are payable in part in our stock, taxable stockholders receiving such dividends will be required to include the full amount of the dividend (whether received in cash, our stock, or combination thereof) as ordinary income (or as long-term capital gain to the extent such distribution is properly reported as a capital gain dividend) to the extent of our current and accumulated earnings and profits for United States federal income tax purposes. As a result, a U.S. stockholder may be required to pay tax with respect to such dividends in excess of any cash received. If a U.S. stockholder sells the stock it receives as a dividend in order to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our stock at the time of the sale. Furthermore, with respect to non-U.S. stockholders, we may be required to withhold U.S. tax with respect to

There is a risk that our stockholders may not receive distributions or that our distributions may not grow of any be r

such dividends, including in respect of all or a portion of such dividend that is payable in stock. In addition, if a significant number of our stockholders determine to sell shares of our stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our stock.

TABLE OF CONTENTS

Changes in laws or regulations governing our operations may adversely affect our business or cause us to alter our business strategy.

We, the CLO vehicles in which we intend to invest, and the portfolio companies whose securities are held by such CLO vehicles will be subject to applicable local, state and federal laws and regulations, including, without limitation, federal immigration laws and regulations. New legislation may be enacted or new interpretations, rulings or regulations could be adopted, including those governing the types of investments we are permitted to make, any of which could harm us and our stockholders, potentially with retroactive effect. Additionally, any changes to the laws and regulations governing our operations may cause us to alter our investment strategy in order to avail ourselves of new or different opportunities. Such changes could result in material differences to the strategies and plans set forth herein and may result in our investment focus shifting from the areas of expertise of our investment adviser s senior investment team to other types of investments in which the investment team may have less expertise or little or no experience. Thus, any such changes, if they occur, could have a material adverse effect on our results of operations and the value of your investment.

We incur significant costs as a result of being a publicly traded company.

As a publicly traded company, we incur legal, accounting and other expenses, including costs associated with the periodic reporting requirements applicable to a company whose securities are registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as well as additional corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002, and other rules implemented by the SEC.

A disruption or downturn in the capital markets and the credit markets could impair our ability to raise capital and negatively affect our business.

As a registered closed-end management company, we seek to maintain our ability to raise additional capital for investment purposes. Without sufficient access to the capital markets or credit markets, we may not be able to pursue new business opportunities. Disruptive conditions in the financial industry and the impact of new legislation in response to those conditions could restrict our business operations and could adversely impact our results of operations and financial condition.

Our ability to grow our business could be impaired by an inability to access the capital markets or to enter into new credit facilities. At various times over the past three years, reflecting concern about the stability of the financial markets, many lenders and institutional investors have reduced or ceased providing funding to borrowers. This market disruption and tightening of credit has led to increased market volatility and widespread reduction of business activity generally. If we are unable to raise additional equity capital or consummate new credit facilities on terms that are acceptable to us, we may not be able to initiate significant originations.

These situations may arise due to circumstances that we may be unable to control, such as access to the credit markets, a severe decline in the value of the U.S. dollar, a further economic downturn or an operational problem that affects third parties or us, and could materially harm our business. Even if such conditions have improved broadly and significantly over the short-term, adverse conditions in particular sectors of the financial markets could adversely impact our business over the long-term.

We may be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political or regulatory occurrence.

We are classified as non-diversified under the 1940 Act. As a result, we can invest a greater portion of our assets in obligations of a single issuer than a diversified fund. We may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political or regulatory occurrence. We intend to continue to qualify as a RIC under Subchapter M of the Code, and thus we intend to satisfy the diversification requirements of Subchapter M, including its less stringent diversification requirements that apply to the percentage of our total assets that are represented by cash and cash items (including receivables), U.S. government securities, the securities of other regulated investment companies and certain other securities.

TABLE OF CONTENTS

Terrorist attacks, acts of war or natural disasters may affect any market for our common stock, impact the businesses in which we invest and harm our business, operating results and financial condition.

Terrorist acts, acts of war or natural disasters may disrupt our operations, as well as the operations of the businesses in which we intend to invest. Such acts have created, and continue to create, economic and political uncertainties and have contributed to global economic instability. Future terrorist activities, military or security operations, or natural disasters could further weaken the domestic/global economies and create additional uncertainties, which may negatively impact the businesses in which we invest either directly or indirectly and, in turn, could have a material adverse impact on our business, operating results and financial condition. Losses from terrorist attacks and natural disasters are generally uninsurable.

Risks Related to Our Investments

Our equity investment distributions from CLO vehicles will likely be materially reduced if three month LIBOR increases.

An increase in LIBOR would materially increase the CLO vehicles financing costs. Since most of the collateral positions within the CLO investments have LIBOR floors, there may not be corresponding increases in investment income (if LIBOR increases but stays below the LIBOR floor rate of such investments) resulting in materially smaller distribution payments to the equity investors.

To illustrate the potential impact of a change in the underlying interest rate on our total estimated taxable income as it pertains to our CLO investments, we have assumed a 1% increase in the underlying three-month LIBOR, and no other change in our CLO portfolio, or to any of the credit, spread, default rate or other factors, as of March 31, 2014. Under this analysis, we currently estimate the effect on total estimated taxable income to equal a decrease of approximately \$14.0 million on an annualized basis, reflecting the portfolio assets held within these CLO vehicles which have implied floors that would be unaffected by a 1% change in the underlying interest rate, compared to the debt carried by those CLO vehicles which are at variable rates and which would be affected by a change in three-month LIBOR. Although management believes that this analysis is broadly indicative of our existing LIBOR sensitivity, it does not adjust for changes in any of the other assumptions that could effect the return on CLO equity investments, both positively and negatively (and which could accompany changes to the three-month LIBOR rate), such as default rates, recovery rates, prepayment rates, reinvestment rates, and other factors that could affect the net increase (or decrease) in net assets resulting from operations. Accordingly, it is highly probable that actual results would differ materially from the results under this hypothetical analysis.

We may in the future hedge against interest rate fluctuations by using hedging instruments such as futures, options and forward contracts. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to the investments in our portfolio with fixed interest rates.

Our investments in CLO vehicles may be riskier and less transparent to us and our stockholders than direct investments in the underlying companies.

We have initially invested principally in equity and junior debt tranches issued by CLO vehicles. Generally, there may be less information available to us regarding the underlying debt investments held by such CLO vehicles than if we had invested directly in the debt of the underlying companies. As a result, our stockholders will not know the details of the underlying securities of the CLO vehicles in which we will invest. Our CLO investments will also be subject to the risk of leverage associated with the debt issued by such CLOs and the repayment priority of senior debt holders in such CLO vehicles.

The accounting and tax implications of such investments are complicated. In particular, reported earnings from the equity tranche investments of these CLO vehicles are recorded under generally accepted accounting principles based upon a constant yield calculation. Current taxable earnings on these investments, however, will generally not be determinable until after the end of the fiscal year of each individual CLO vehicle that ends within the Company s fiscal year, even though the investments are generating cash flow. In general, the tax treatment of these investments may result in higher distributable earnings in the early years and a capital loss at maturity, while for reporting purposes the totality of cash flows are reflected in a constant yield to maturity.

TABLE OF CONTENTS

Our portfolio of investments may lack diversification among CLO vehicles which may subject us to a risk of significant loss if one or more of these CLO vehicles experience a high level of defaults on its underlying Senior Loans.

Our portfolio may hold investments in a limited number of CLO vehicles. Beyond the asset diversification requirements associated with our qualification as a RIC under the Code, we will not have fixed guidelines for diversification, we will not have any limitations on the ability to invest in any one CLO vehicle, and our investments may be concentrated in relatively few CLO vehicles. As our portfolio is less diversified than the portfolios of some larger funds, we are more susceptible to failure if one or more of the CLO vehicles in which we are invested experiences a high level of defaults on its underlying Senior Loans. Similarly, the aggregate returns we realize may be significantly adversely affected if a small number of investments perform poorly or if we need to write down the value of any one investment.

The Senior Loan portfolios of the CLO vehicles in which we invest may be concentrated in a limited number of industries or borrowers, which may subject those vehicles, and in turn us, to a risk of significant loss if there is a downturn in a particular industry in which a number of a CLO vehicle s investments are concentrated.

The CLO vehicles in which we invest may have Senior Loan portfolios that are concentrated in a limited number of industries or borrowers. A downturn in any particular industry or borrower in which a CLO vehicle is heavily invested may subject that vehicle, and in turn us, to a risk of significant loss and could significantly impact the aggregate returns we realize. If an industry in which a CLO vehicle is heavily invested suffers from adverse business or economic conditions, a material portion of our investment in that CLO vehicle could be affected adversely, which, in turn, could adversely affect our financial position and results of operations.

The CLO vehicles in which we invest will incur, or will have already incurred, debt that ranks senior to our investment.

We intend to invest primarily in equity and junior debt tranches issued by CLO vehicles. As a result, the CLO vehicles in which we invest will issue and sell or have already issued and sold debt tranches that will rank senior to the tranches in which we invest. By their terms, such tranches may entitle the holders to receive payment of interest or principal on or before the dates on which we are entitled to receive payments with respect to the tranches in which we invest. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a CLO vehicle, holders of senior debt instruments would typically be entitled to receive payment in full before we receive any distribution. After repaying such senior creditors, such CLO vehicle may not have any remaining assets to use for repaying its obligation to us. In the case of tranches ranking equally with the tranches in which we invest, we would have to share on an equal basis any distributions with other creditors holding such securities in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant CLO vehicle. Therefore, we may not receive back the full amount of our investment in a CLO vehicle.

Failure by a CLO vehicle in which we are invested to satisfy certain tests will harm our operating results.

The failure by a CLO vehicle in which we invest to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in its payments to us. In the event that a CLO vehicle fails certain tests, senior debt holders may be entitled to additional payments that would, in turn, reduce the payments we would otherwise be entitled to receive. Separately, we may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms, which may include the waiver of certain financial covenants, with a defaulting CLO vehicle or any other investment we may make. If any of these occur, it could materially and adversely affect our operating results and cash flows.

Our financial results may be affected adversely if one or more of our significant equity or junior debt investments in such CLO vehicles defaults on its payment obligations or fails to perform as we expect.

Our portfolio will consist primarily of equity and junior debt investments in CLO vehicles, which involves a number of significant risks. CLO vehicles are typically very highly levered (10-14 times), and therefore the junior debt and equity tranches that we will invest in are subject to a higher degree of risk of

TABLE OF CONTENTS

total loss. In particular, investors in CLO vehicles indirectly bear risks of the underlying debt investments held by such CLO vehicles. We will generally have the right to receive payments only from the CLO vehicles, and will generally not have direct rights against the underlying borrowers or the entity that sponsored the CLO vehicle. While the CLO vehicles we have initially targeted generally enable the investor to acquire interests in a pool of Senior Loans without the expenses associated with directly holding the same investments, we will generally pay a proportionate share of the CLO vehicles administrative and other expenses. Although it is difficult to predict whether the prices of indices and securities underlying CLO vehicles will rise or fall, these prices (and, therefore, the prices of the CLO vehicles) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally.

The interests we intend to acquire in CLO vehicles will likely be thinly traded or have only a limited trading market. CLO vehicles are typically privately offered and sold, even in the secondary market. As a result, investments in CLO vehicles may be characterized as illiquid securities. In addition to the general risks associated with investing in debt securities, CLO vehicles carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the fact that our investments in CLO tranches will likely be subordinate to other senior classes of note tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the CLO vehicle or unexpected investment results.

Investments in structured vehicles, including equity and junior debt instruments issued by CLO vehicles, involve risks, including credit risk and market risk. Changes in interest rates and credit quality may cause significant price fluctuations. Additionally, changes in the underlying Senior Loans held by a CLO vehicle may cause payments on the instruments we hold to be reduced, either temporarily or permanently. Structured investments, particularly the subordinated interests in which we invest, are less liquid than many other types of securities and may be more volatile than the Senior Loans underlying the CLO vehicles we target.

Investing in CLO vehicles, Senior Loans and other high-yield corporate credits involves a variety of risks, any of which may adversely impact our performance.

Investment Risk. An investment in our securities is subject to investment risk, including the possible loss of your entire investment. An investment in our securities represents an indirect investment in the portfolio of equity and junior tranches issued by CLO vehicles and other securities owned by us, and the value of these securities may fluctuate, sometimes rapidly and unpredictably. At any point in time an investment in our securities may be worth less than the original amount invested, even after taking into account distributions paid by us and the ability of shareholders to reinvest dividends. Because of their security features, we believe that certain Senior Loans that are experiencing, or are more likely to experience financial difficulty may represent attractive investment opportunities. We may invest in certain Senior Loans of borrowers that have filed for bankruptcy protection. Because of the security provided in certain Senior Loans, we believe that we may be able to recover more of our investment in certain defaulted Senior Loans than would be the case for some other types of defaulted debt securities. Nevertheless, there is no assurance that the sale of collateral (which was pledged against the Senior Loan) would raise enough cash to satisfy the borrower s obligation or that the collateral can or will be liquidated.

Market Risk. Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices and includes interest rate risk, foreign currency risk and other price risks, such as index price risk. We may use derivative instruments to hedge the investment portfolio against currency risks. Our investments in CLO vehicles typically have no significant assets other than the collateral. Accordingly, payments on

Our financial results may be affected adversely if one or more of oursignificant equity or junior debt invest@nents in s

the equity and junior debt instruments we intend to initially target are payable solely from the cash flows from the collateral, net of all management fees and other expenses. Quarterly distributions or interest payments to us as a holder of equity or junior debt instruments, respectively, will only be made after payments due on any outstanding senior debt tranches have been made in full for such quarter.

Rating Risk. Rating agencies, including Moody s and Standard and Poor s, have and may continue to downgrade the tranches of CLO vehicles that we are targeting and, therefore, these investments may be seen as riskier than they were previously thought to be. We cannot assure you that the CLO vehicles in which we

TABLE OF CONTENTS

invest, or the tranches of those CLO vehicles that we hold, will not experience downgrades. To the extent our portfolio experiences such downgrades, the value of our investments, and our ability to liquidate such investments, would likely be impaired. A significant impairment of any of our investments may have a material adverse effect on our financial results and operations.

Interest Rate Risk. Our investments have initially been focused on investments in equity and junior debt tranches issued by CLO vehicles. Our investments have some exposure to interest rate risk and our investments in equity tranches of CLO vehicles have dollar-for-dollar interest rate risk on the equity portion. We expect to have less significant interest rate-related fluctuations in our net asset value per share than investment companies investing primarily in fixed income securities. When interest rates decline, the value of a fixed income portfolio can normally be expected to rise. Conversely, when interest rates rise, the value of a fixed income portfolio can normally be expected to decline. Currently, LIBOR rates are at historic lows. Although the income available to us will vary, we expect that our acquisition of interests in CLO vehicles may minimize fluctuations in our net asset value resulting from changes in market interest rates.

However, because floating or variable rates only reset periodically, changes in prevailing interest rates can be expected to cause some fluctuations in our net asset value. Similarly, a sudden and significant increase in market interest rates may cause a decline in our net asset value. In addition, any debt instruments that allow the borrower to opt between LIBOR-based interest rates and interest rates based on bank prime rates may have an impact on our net asset value. A material decline in our net asset value may impair our ability to maintain required levels of asset coverage, to the extent we elect to use debt to finance investments.

Credit Risk. Credit risk is the risk that one or more investments in a portfolio will decline in price or fail to pay interest or principal when due because the issuer of the security experiences a decline in its financial condition. While a senior position in the capital structure of a corporate borrower may provide some protection to the CLO vehicles in which we invest, losses or other reductions in collateral may still occur in the portfolios of such CLO vehicles because the market value of such loans is affected by the creditworthiness of borrowers and by general economic and specific industry conditions. As we invest in equity and junior debt tranches of CLO vehicles, we are exposed to a greater amount of credit risk than a fund which invests in senior debt or investment grade securities. The prices of primarily non-investment grade securities are more sensitive to negative developments, such as a decline in a CLO vehicle s collateral or cash flows or a general economic downturn, than are the prices of more senior debt securities. Securities of below investment grade quality are predominantly speculative with respect to the issuer s capacity to pay interest and repay principal when due and therefore involve a greater risk of default. We will typically be in a first loss or subordinated position with respect to realized losses on the collateral of each investment we make in a CLO vehicle. The leveraged nature of the CLO vehicle, in particular, magnifies the adverse impact of collateral defaults. In addition, we may purchase participations in leveraged corporate loans. Such participations have rights that are more limited than the rights provided under assignments. In a participation the contractual relationship is typically with the lender selling the participation, but not with the borrower. As a result, a participant assumes the credit risk of the lender selling the participation in addition to the credit risk of the borrower. In the event of the insolvency of the lender selling the participation, a participant may be treated as a general creditor of the lender and may not have a senior claim to the lender s interest in the Senior Loan.

Liquidity Risk. Liquidity risk is defined as the risk that we may not be able to settle or meet our obligations on time or at a reasonable price. We may invest up to 100% of our portfolio in securities that are considered illiquid. Illiquid securities are securities which cannot be sold within seven days in the ordinary course of business at approximately the value used by us in determining our net asset value. We may not be able to readily dispose of such securities at prices that approximate those at which we could sell such securities if they were more widely-traded and, as a result of such illiquidity, we may have to sell other investments or engage in borrowing transactions to raise cash to meet our

Investing in CLO vehicles, Senior Loans and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves a variety of risks, and other high-yield corporate creditsinvolves are represented by the credit creditsinvolves are represented by the creditsinvolves are represented by the creditsinvolves are represented by the credit credit

obligations. Limited liquidity can also affect the market price of securities, thereby adversely affecting our net asset value and ability to make dividend distributions. Some instruments issued by CLO vehicles may not be readily marketable and may be subject to restrictions on resale. Securities issued by CLO vehicles are generally not listed on any U.S. national securities exchange and no active trading market may exist for the securities in which we invest. Although a secondary market may exist for our investments, the market for our investments may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods. As a result, these types

TABLE OF CONTENTS

of investments may be more difficult to value. In addition, we believe that ownership of CLO equity and junior debt instruments has generally been distributed across a wide range of holders, some of whom we believe may continue to face near- to intermediate-term liquidity issues. Further, we believe that larger institutional investors with sufficient resources to source, analyze and negotiate the purchase of these assets may refrain from purchases of the size that we are targeting, thereby reducing the prospective investor population, which would limit our ability to sell our position in a CLO vehicle if we choose to or need to do so. We have no limitation on the amount of our assets which may be invested in securities that are not readily marketable or are subject to restrictions on resale. Further, Senior Loans generally are not listed on any national securities exchange or automated quotation system and no active trading market exists for many Senior Loans. As a result, many Senior Loans are illiquid, meaning that we may not be able to sell them quickly at a fair price. The market for illiquid securities is more volatile than the market for liquid securities.

Investments in foreign securities may involve significant risks in addition to the risks inherent in U.S. investments.

Our investment strategy involves investments in securities issued by foreign entities, including foreign CLO vehicles. Investing in foreign entities may expose us to additional risks not typically associated with investing in U.S. issues. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility. Further, we, and the CLO vehicles in which we invest, may have difficulty enforcing creditor s rights in foreign jurisdictions. In addition, the underlying companies of the CLO vehicles in which we invest may be foreign, which may create greater exposure for us to foreign economic developments.

Although we expect that most of our investments will be U.S. dollar-denominated, any investments denominated in a foreign currency will be subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation, and political developments. We may employ hedging techniques to minimize these risks, but we can offer no assurance that we will, in fact, hedge currency risk, or that if we do, such strategies will be effective.

We may expose ourselves to risks if we engage in hedging transactions.

If we engage in hedging transactions, we may expose ourselves to risks associated with such transactions. We may utilize instruments such as forward contracts, currency options and interest rate swaps, caps, collars and floors to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates and market interest rates. Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of such positions or prevent losses if the values of such positions decline. However, such hedging can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions. Such hedging transactions may also limit the opportunity for gain if the values of the underlying portfolio positions increase. It may not be possible to hedge against an exchange rate or interest rate fluctuation that is so generally anticipated that we are not able to enter into a hedging transaction at an acceptable price. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it may not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies because the value of those securities is likely to fluctuate as a result of factors not related to

Investments in foreign securities may involve significant risks in addition to the risks inherent in U.S. investments.

currency fluctuations.

Any unrealized losses we experience on our portfolio may be an indication of future realized losses, which could reduce our income available for distribution.

As a registered closed-end management investment company, we are required to carry our investments at market value or, if no market value is ascertainable, at the fair value as determined in good faith by our Board of Directors.

Decreases in the market values or fair values of our investments will be recorded as unrealized

TABLE OF CONTENTS

depreciation. Any unrealized losses in our portfolio could be an indication of an issuer s inability to meet its repayment obligations to us with respect to the affected investments. This could result in realized losses in the future and ultimately in reductions of our income available for distribution in future periods.

Our investments in CLO vehicles may be subject to special anti-deferral provisions that could result in us incurring tax or recognizing income prior to receiving cash distributions related to such income.

We anticipate that the CLO vehicles in which we invest may constitute passive foreign investment companies (PFICs). Because we acquire shares in PFICs (including equity tranche investments in CLO vehicles that are PFICs), we may be subject to federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by us to our stockholders. Certain elections may be available to mitigate or eliminate such tax on excess distributions, but such elections (if available) will generally require us to recognize our share of the PFIC s income for each year regardless of whether we receive any distributions from such PFIC. We must nonetheless distribute such income to maintain our status as a RIC.

If we hold more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation (CFC) (including equity tranche investments in a CLO vehicle treated as a CFC), we may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to our pro rata share of the corporation is income for the tax year (including both ordinary earnings and capital gains). If we are required to include such deemed distributions from a CFC in our income, we will be required to distribute such income to maintain our RIC status regardless of whether or not the CFC makes an actual distribution during such year.

If we are required to include amounts in income prior to receiving distributions representing such income, we may have to sell some of our investments at times and/or at prices we would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities for this purpose. If we are not able to obtain cash from other sources, we may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax. For additional discussion regarding the tax implications of a RIC, see Material U.S. Federal Income Tax Considerations Taxation as a Regulated Investment Company.

If a CLO vehicle in which we invest fails to comply with certain U.S. tax disclosure requirements, such CLO may be subject to withholding requirements that could materially and adversely affect our operating results and cash flows.

Legislation commonly referred to as the Foreign Account Tax Compliance Act, or FATCA, imposes a withholding tax of 30% on payments of U.S. source interest and dividends paid after June 30, 2014, or gross proceeds from the disposition of an instrument that produces U.S. source interest or dividends paid after December 31, 2016, to certain non-U.S. entities, including certain non-U.S. financial institutions and investment funds, unless such non-U.S. entity complies with certain reporting requirements regarding its United States account holders and its United States owners. Most CLO vehicles in which we invest will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which we invest fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect our operating results and cash flows.

Uncertainty relating to the LIBOR calculation process may adversely affect the value of our portfolio of the LIBOR-indexed, floating-rate debt securities.

Concerns have been publicized that some of the member banks surveyed by the British Bankers Association (BBA) in connection with the calculation of LIBOR across a range of maturities and currencies may have been under-reporting or otherwise manipulating the inter-bank lending rate applicable to them in order to profit on their derivatives positions or to avoid an appearance of capital insufficiency or adverse reputational or other consequences that may have resulted from reporting inter-bank lending rates higher than those they actually submitted. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR, and investigations by regulators and governmental authorities in various jurisdictions are ongoing.

TABLE OF CONTENTS

Actions by the BBA, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined. Uncertainty as to the nature of such potential changes may adversely affect the market for LIBOR-based securities, including our portfolio of LIBOR-indexed, floating-rate debt securities. In addition, any further changes or reforms to the determination or supervision of LIBOR may result in a sudden or prolonged increase or decrease in reported LIBOR, which could have an adverse impact on the market for LIBOR-based securities or the value of our portfolio of LIBOR-indexed, floating-rate debt securities.

Risks Relating to an Investment in our Securities

Common shares of closed-end management investment companies, including Oxford Lane Capital, have in the past frequently traded at discounts to their net asset values, and we cannot assure you that the market price of shares of our common stock will not decline below our net asset value per share.

Common shares of closed-end management investment companies have in the past frequently traded at discounts to their net asset values and our stock may also be discounted in the market. This characteristic of closed-end management investment companies is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether shares of our common stock will trade above, at or below our net asset value. The risk of loss associated with this characteristic of closed-end management investment companies may be greater for investors expecting to sell shares of common stock purchased in the offering soon after the offering. In addition, if our common stock trades below its net asset value, we will generally not be able to sell additional shares of our common stock to the public at its market price without first obtaining the approval of our stockholders (including our unaffiliated stockholders) and our independent directors for such issuance.

Our common stock price may be volatile and may decrease substantially.

The trading price of our common stock may fluctuate substantially. The price of our common stock that will prevail in the market after this offering may be higher or lower than the price you pay, depending on many factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include, but are not limited to, the following:

price and volume fluctuations in the overall stock market from time to time; investor demand for our shares:

significant volatility in the market price and trading volume of securities of registered closed-end management investment companies or other companies in our sector, which are not necessarily related to the operating performance of these companies;

changes in regulatory policies or tax guidelines with respect to RICs or registered closed-end management investment companies;

failure to continue to qualify as a RIC, or the loss of RIC status; any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;

changes, or perceived changes, in the value of our portfolio investments; departures of any members of Oxford Lane Management s senior investment team; operating performance of companies comparable to us; or general economic conditions and trends and other external factors.

In the past, following periods of volatility in the market price of a company s securities, securities class action litigation has often been brought against that company. Due to the potential volatility of our stock price, we may become the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management s attention and resources from our business.

We cannot assure you that we will be able to successfully deploy the proceeds of any offering conducted pursuant to this prospectus within the timeframe we have contemplated.

We currently anticipate that substantially all of the net proceeds of any offering conducted pursuant to this prospectus will be invested in accordance with our investment objective within approximately one to three

TABLE OF CONTENTS

months after the consummation of such offering. We cannot assure you, however, that we will be able to locate a sufficient number of suitable investment opportunities to allow us to successfully deploy substantially all of the net proceeds of any such offering in that timeframe. To the extent we are unable to invest substantially all of the net proceeds of any such offering within our contemplated timeframe after the completion of such offering, our investment income, and in turn our results of operations, will likely be materially adversely affected.

We will have broad discretion over the use of proceeds of any offering conducted pursuant to this prospectus and will use proceeds in part to satisfy operating expenses.

We will have significant flexibility in applying the proceeds of any offering conducted pursuant to this prospectus and may use the net proceeds from any such offering in ways with which you may not agree, or for purposes other than those contemplated at the time of such offering. We will also pay operating expenses, and may pay other expenses such as due diligence expenses of potential new investments, from net proceeds. Our ability to achieve our investment objective may be limited to the extent that net proceeds of any such offering, pending full investment, are used to pay operating expenses.

Your interest in us may be diluted if you do not fully exercise your subscription rights in any rights offering.

In the event we issue subscription rights to purchase shares of our common stock, stockholders who do not fully exercise their rights should expect that they will, at the completion of the offer, own a smaller proportional interest in us than would otherwise be the case if they fully exercised their rights. We cannot state precisely the amount of any such dilution in share ownership because we do not know at this time what proportion of the shares will be purchased as a result of the offer.

In addition, if the subscription price is less than our net asset value per share, then our stockholders would experience an immediate dilution of the aggregate net asset value of their shares as a result of the offer. The amount of any decrease in net asset value is not predictable because it is not known at this time what the subscription price and net asset value per share will be on the expiration date of the rights offering or what proportion of the shares will be purchased as a result of the offer. Such dilution could be substantial.

If we issue additional preferred stock, the net asset value and market value of our common stock will likely become more volatile.

We cannot assure you that the issuance of additional preferred stock would result in a higher yield or return to the holders of the common stock. The issuance of additional preferred stock would likely cause the net asset value and market value of the common stock to become more volatile. If the dividend rate on the preferred stock were to approach the net rate of return on our investment portfolio, the benefit of leverage to the holders of the common stock would be reduced. If the dividend rate on the preferred stock were to exceed the net rate of return on our portfolio, the leverage would result in a lower rate of return to the holders of common stock than if we had not issued preferred stock. Any decline in the net asset value of our investments would be borne entirely by the holders of common stock. Therefore, if the market value of our portfolio were to decline, the leverage would result in a greater decrease in net asset value to the holders of common stock than if we were not leveraged through the issuance of preferred stock. This greater net asset value decrease would also tend to cause a greater decline in the market price for the common stock. We might be in danger of failing to maintain the required asset coverage of the preferred stock or of losing our ratings,

We cannot assure you that we will be able to successfully deploy the proceeds of any offering conducted 1007 rsuant to

if any, on the preferred stock or, in an extreme case, our current investment income might not be sufficient to meet the dividend requirements on the preferred stock. In order to counteract such an event, we might need to liquidate investments in order to fund a redemption of some or all of the preferred stock. In addition, we would pay (and the holders of common stock would bear) all costs and expenses relating to the issuance and ongoing maintenance of the preferred stock, including higher advisory fees if our total return exceeds the dividend rate on the preferred stock. Holders of preferred stock may have different interests than holders of common stock and may at times have disproportionate influence over our affairs.

TABLE OF CONTENTS

Any amounts that we use to service our indebtedness or preferred dividends, or that we use to redeem our preferred stock, will not be available for distributions to our common stockholders.

Although we have no current intention to do so, we may in the future issue debt securities or additional shares of preferred stock and/or borrow money from banks or other financial institutions, which we refer to collectively as senior securities, up to the maximum amount permitted by the 1940 Act. Under the provisions of the 1940 Act, we will be permitted, as a registered closed-end management investment company, to issue senior securities representing indebtedness so long as our asset coverage ratio with respect thereto, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, is at least 300% after each issuance of such senior securities. In addition, we will be permitted to issue additional shares of preferred stock so long as our asset coverage ratio with respect thereto, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, plus the aggregate involuntary liquidation preference of our outstanding preferred stock, is at least 200% after each issuance of such preferred stock. If the value of our assets declines, we may be unable to satisfy these tests. If that happens, we may be required to sell a portion of our investments and, depending on the nature of our leverage, repay a portion of our indebtedness or redeem outstanding shares of preferred stock, in each case at a time when doing so may be disadvantageous. Any amounts that we use to service our indebtedness or preferred dividends, or that we use to redeem our preferred stock, would not be available for distributions to our common stockholders.

Our common stock is subject to a risk of subordination relative to holders of our debt instruments and holders of our preferred stock.

Rights of holders of our common stock are subordinated to the rights of holders of our indebtedness and to the rights of holders of our preferred stock. Therefore, dividends, distributions and other payments to holders of our common stock in liquidation or otherwise may be subject to prior payments due to the holders of our indebtedness or our preferred stock. In addition, under some circumstances the 1940 Act may provide debt holders with voting rights that are superior to the voting rights of holders of our equity securities.

Holders of our preferred stock have the right to elect members of our Board of Directors and class voting rights on certain matters.

Except as otherwise provided in our Articles of Amendment and Restatement, as amended by the Articles Supplementary, or as otherwise required by law, (1) each holder of our preferred stock is entitled to one vote for each share of preferred stock held by such holder on each matter submitted to a vote of our stockholders and (2) the holders of all outstanding preferred stock and common stock will vote together as a single class; provided that holders of preferred stock, voting separately as a class, will elect two of our directors and will be entitled to elect a majority of our directors if we fail to pay dividends on any outstanding shares of preferred stock in an amount equal to two full years of dividends and continuing during that period until we correct that failure. Preferred stock holders will also vote separately as a class on any matter that materially and adversely affects any preference, right or power of holders of preferred stock.

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

The Maryland General Corporation Law and our charter and bylaws contain provisions that may discourage, delay or make more difficult a change in control of Oxford Lane Capital or the removal of our directors. We are subject to the Maryland Business Combination Act, subject to any applicable requirements of the 1940 Act. Our Board of Directors has adopted a resolution exempting from the Business Combination Act any business combination between us and any other person, subject to prior approval of such business combination by our Board of Directors, including approval by a majority of our independent Directors. If the resolution exempting business combinations is repealed or our Board of Directors does not approve a business combination, the Business Combination Act may discourage third parties from trying to acquire control of us and increase the difficulty of consummating such an offer. Our bylaws exempt from the Maryland Control Share Acquisition Act acquisitions of our stock by any person. If we amend our bylaws to repeal the exemption from the Control Share Acquisition Act, the Control Share Acquisition Act also may make it more difficult for a third party to obtain control of us and increase the difficulty of consummating such a transaction.

We have also adopted measures that may make it difficult for a third party to obtain control of us, including provisions of our charter classifying our Board of Directors in three classes serving staggered three-year terms, and authorizing our Board of Directors to classify or reclassify shares of our stock in one or more classes or series, to cause the issuance of additional shares of our stock, to amend our charter without stockholder approval and to increase or decrease the number of shares of stock that we have authority to issue. These provisions, as well as other provisions of our charter and bylaws, may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders.

You may not receive dividends or our dividends may decline or may not grow over time.

We cannot assure you that we will achieve investment results or maintain a tax status that will allow or require any specified level of cash distributions or year-to-year increases in cash distributions. In particular, our future dividends are dependent upon the investment income we receive on our portfolio investments. To the extent such investment income declines, our ability to pay future dividends may be harmed.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about Oxford Lane Capital Corp., our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as anticipates, expects, intends, plans, will, may, continue, be estimates, would, could, should, targets, projects, and variations of these words and similar expressions are in identify forward-looking statements.

The forward-looking statements contained in this prospectus involve risks and uncertainties, including statements as to:

our future operating results;

our business prospects and the prospects of a CLO vehicle s portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest; the ability of a CLO vehicle s portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital; and the timing of cash flows, if any, from our investments.

These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

an economic downturn could impair the ability of a CLO vehicle s portfolio companies to continue to operate, which could lead to the loss of some or all of our investment in such CLO vehicle;

a contraction of available credit and/or an inability to access the equity markets could impair our investment activities; interest rate volatility could adversely affect our results, particularly if we elect to use leverage as part of our investment strategy;

currency fluctuations could adversely affect the results of our investments in foreign companies, particularly to the extent that we receive payments denominated in foreign currency rather than U.S. dollars; and the risks, uncertainties and other factors we identify in Risk Factors and elsewhere in this prospectus and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in Risk Factors and elsewhere in this prospectus. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus. However, we will update this prospectus to reflect any material changes to the information contained herein. The forward-looking statements contained in this prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933, as amended, or the Securities Act.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of our securities pursuant to this prospectus for acquiring investments in accordance with our investment objective and strategies described in this prospectus and for general working capital purposes. We may also pay operating expenses, including advisory and administrative fees and expenses, and may pay other expenses such as due diligence expenses of potential new investments, from the net proceeds of any offering conducted pursuant to this prospectus. We anticipate that substantially all of the net proceeds of any such offering will be used for the above purposes within approximately three months from the consummation of such offering, depending on the availability of appropriate investment opportunities consistent with our investment objective and market conditions. We cannot assure you we will achieve our targeted investment pace.

Pending such investments, we will invest the net proceeds primarily in cash, cash equivalents, U.S. government securities and other high-quality investments that mature in one year or less from the date of investment. The management fee payable by us will not be reduced while our assets are invested in such securities. See Regulation as a Closed-End Investment Company Temporary Investments for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective. The supplement to this prospectus relating to an offering conducted pursuant to this prospectus will more fully identify the use of the proceeds from such offering.

37

USE OF PROCEEDS 114

PRICE RANGE OF COMMON STOCK AND **DISTRIBUTIONS**

Our common stock is traded on the NASDAO Global Select Market under the symbol OXLC. The following table sets forth, for each fiscal quarter since our initial public offering, the net asset value (NAV) per share of our common stock, the high and low intraday sales prices for our common stock, such sales prices as a percentage of NAV per share and quarterly distributions per share.

		Price Ra	ange					
	C			Premium/Discount				
				of		of		Distributions
	$NAV^{(1)}$	High	Low	High	Sales	Low S	Sales	Per
				Price	to	Price	to	Share ⁽³⁾
				NAV	(2)	NAV(2)	
Fiscal 2015								
First Quarter (through June 4,	*	\$17.78	\$16.51	*		*		\$ 0.60
2014)		φ17.76	\$10.51					\$ 0.00
Fiscal 2014								
Fourth Quarter	\$16.26	\$19.18	\$15.90	18	%	(2	%)	\$ 0.70
Third Quarter	\$16.69	\$17.70	\$14.76	6	%	(12	%)	\$ 0.55
Second Quarter	\$16.13	\$16.75	\$14.95	4	%	(7	%)	\$ 0.55
First Quarter	\$15.71	\$18.56	\$15.15	18	%	(4	%)	\$ 0.55
Fiscal 2013								
Fourth Quarter	\$16.20	\$16.30	\$14.99	1	%	(7	%)	\$ 0.55
Third Quarter	\$17.41	\$16.80	\$14.70	(4	%)	(16	%)	\$ 0.55
Second Quarter	\$17.13	\$16.79	\$14.00	(2	%)	(18	%)	\$ 0.55
First Quarter	\$14.60	\$15.00	\$13.49	3	%	(8	%)	\$ 0.55

Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the (1) net asset value per share on the date of the high and low sales prices. The net asset values shown are based on outstanding shares at the end of each period.

- Calculated as the respective high or low intraday sales price divided by NAV.
- (3) Represents the cash distributions, including dividends, dividends reinvested and returns of capital, if any, per share that we have declared on our common stock in the specified quarter.
 - Not determinable at the time of filing.

On June 4, 2014, the last reported sales price of our common stock was \$17.68 per share. As of June 4, 2014, we had 89 shareholders of record of our common stock.

Shares of closed-end management investment companies may trade at a market price that is less than the value of the net assets attributable to those shares. The possibility that our shares of common stock will trade at a discount from net asset value or at premiums that are unsustainable over the long term are separate and distinct from the risk that our net asset value will decrease. Since our initial public offering, shares of our common stock have traded at a discount and at a premium to the net assets attributable to those shares. It is not possible to predict whether the shares offered hereby will trade at, above, or below net asset value.

To the extent that we have income available, we intend to distribute quarterly dividends to our stockholders. Our quarterly dividends, if any, will be determined by our Board of Directors. Any dividends to our stockholders will be declared out of assets legally available for distribution. The following table reflects the cash distributions, including dividends, dividends reinvested and returns of capital, if any, per share that we have declared on our common stock to date:

Fiscal 2011			
March 7, 2011	March 21, 2011	April 1, 2011	0.25
Total (2011)		-	0.25
•			\$ 7.45

All of our cash distributions to date were funded from net investment income, except approximately \$0.07 per share and \$0.40 per share of the distributions paid on June 29, 2012 and June 28, 2013, respectively, which were funded from long term capital gains. The tax characterization of cash distributions for the year ended March 31, 2014 will not be known until the tax return for that year is finalized.

(2) Represents a special dividend for the fiscal year ended March 31, 2014. For fiscal year 2014, we paid \$1,344,083 and \$2,638,151 in preferred dividends on the Series 2017 Term Preferred Shares and Series 2023 Term Preferred Shares, respectively. For fiscal 2013, we paid \$459,222 in preferred dividends on the Series 2017 Term Preferred Shares.

For accounting purposes the distributions declared on our common stock for the fiscal periods ended March 31, 2013, 2012 and 2011 were in excess of the reported earnings. However, as a RIC, earnings and distributions are determined on a tax basis. Furthermore, taxable earnings are determined according to tax regulations and differ from reported income for accounting purposes. Therefore, for the fiscal periods ended March 31, 2013, 2012 and 2011, distributions were spilled-back for tax purposes in an amount equal to taxable earnings exceeded our distributions and there was no tax return of capital for these years. To the extent that taxable earnings for any fiscal year are less than the amount of the dividends paid during the year, there would be a tax return of capital to shareholders. Distributions in excess of current and accumulated taxable earnings and profits will generally not be taxable to the shareholders, because a tax return of capital represents a return of a portion of a shareholder s original investment in our common stock to the extent of a shareholder s basis in our stock. Generally, a tax return of capital will reduce an investor s basis in our stock for federal tax purposes, which will result in the shareholder recognizing additional gain (or less loss) when the stock

is sold. Assuming that a shareholder holds our stock as a capital asset, any such additional gain would be a capital gain. Shareholders should not assume that the source of all distributions is from our net profits and shareholders may periodically receive the payment of a dividend consisting of a return of capital.

The tax character of any distributions will be determined after the end of the fiscal year. Tax matters are very complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of its particular situation. We encourage investors to consult their own tax advisors regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

We have elected to be treated, and intend to continue to qualify annually, as a RIC under Subchapter M of the Code beginning with our 2011 taxable year. To maintain RIC tax treatment, we must, among other things, distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. In order to avoid certain excise taxes imposed on RICs, we currently intend to distribute during each calendar vear an amount at least equal to the sum of: (1) 98% of our ordinary income for the calendar year; (2) 98.2% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year; and, (3) any ordinary income and net capital gains for preceding years that were not distributed during such years and on which we paid no federal income tax. In addition, although we currently intend to distribute realized net capital gains (i.e., net long term capital gains in excess of short term capital losses), if any, at least annually, we may in the future decide to retain such capital gains for investment and elect to treat such gains as deemed distributions to you. If this happens, you will be treated as if you had received an actual distribution of the capital gains we retain and reinvested the net after tax proceeds in us. In this situation, you would be eligible to claim a tax credit (or, in certain circumstances, a tax refund) equal to your allocable share of the tax we paid on the capital gains deemed distributed to you. See Material U.S. Federal Income Tax Considerations. We can offer no assurance that we will achieve results that will permit the payment of any cash distributions and, to the extent that we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

Our current intention is to make any distributions in additional shares of our common stock under our dividend reinvestment plan out of assets legally available therefore, unless you elect to receive your dividends and/or long-term capital gains distributions in cash. See Dividend Reinvestment Plan. If you hold shares in the name of a broker or financial intermediary, you should contact the broker or financial intermediary regarding your election to receive distributions in cash. We can offer no assurance that we will achieve results that will permit the payment of any cash distributions and, if we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

SENIOR SECURITIES

Information about our senior securities is shown in the following table as of the end of each fiscal year since our formation. The report of our independent registered public accounting firm covering the total amount of senior securities outstanding as of March 31, 2014 and 2013 is attached as an exhibit to the registration statement of which this prospectus is a part.

	Total Amount Outstanding Exclusive of Treasury Securities ⁽¹⁾	Asset Coverage Ratio Per Unit ⁽²⁾	Involuntary Liquidation Preference Per Unit ⁽³⁾	Average Market Value Per Unit ⁽⁴⁾
Year				
Series 2017 Term Preferred Shares				
2014	\$ 15,811,250	3.99	\$ 25	1.05
2013	\$ 15,811,250	8.79	\$ 25	1.03
2012				
2011				
Series 2023 Term Preferred Shares				
2014	\$ 65,744,250	3.99	\$ 25	0.94
2013				
2012				
2011				

- (1) Total amount of each class of senior securities outstanding at the end of the period presented.

 Asset coverage per unit is the ratio of the carrying value of our total consolidated assets, less all liabilities and (2) indebtedness not represented by senior securities, to the aggregate amount of senior securities. Asset coverage per unit is expressed in terms of dollar amounts per share.
- (3) The amount to which such class of senior security would be entitled upon the voluntary liquidation of the issuer in preference to any security junior to it.

The Average Market Value Per Unit is calculated by taking the daily average closing price of the security for the (4) respective period and dividing it by \$25 per share to determine a unit price per share consistent with Asset Coverage Per Unit.

SENIOR SECURITIES 120

BUSINESS

Overview

We are a non-diversified closed-end management investment company that has registered as an investment company under the 1940 Act. Our investment objective is to maximize our portfolio s total return. We have initially implemented our investment objective by purchasing portions of equity and junior debt tranches of CLO vehicles. Substantially all of the CLO vehicles in which we may invest would be deemed to be investment companies under the 1940 Act but for the exceptions set forth in section 3(c)(1) or section 3(c)(7). Structurally, CLO vehicles are entities formed to originate and manage a portfolio of loans. The loans within the CLO vehicle are limited to loans which meet established credit criteria and are subject to concentration limitations in order to limit a CLO vehicle s exposure to a single credit. A CLO vehicle is formed by raising various classes or tranches of debt (with the most senior tranches being rated AAA to the most junior tranches typically being rated BB or B) and equity. The CLO vehicles which we focus on are collateralized primarily by Senior Loans, and generally have very little or no exposure to real estate, mortgage loans or to pools of consumer-based debt, such as credit card receivables or auto loans. Our investment strategy also includes warehouse facilities, which are financing structures intended to aggregate loans that may be used to form the basis of a CLO vehicle. We may also invest, on an opportunistic basis, in other corporate credits of a variety of types. We expect that each of our investments will range in size from \$5 million to \$50 million, although the investment size may vary consistent with the size of our overall portfolio.

Distributions

The following table reflects the cash distributions, including dividends, dividends reinvested and returns of capital, if any, per share that we have declared on our common stock to date:

Date Declared	Record Date	Payment Date	Amount ⁽¹⁾

⁽¹⁾ All of our cash distributions to date were funded from net investment income, except approximately \$0.07 per share and \$0.40 per share of the distribution paid on June 29, 2012 and June 28, 2013, 42

Distributions

respectively, which was funded from long term capital gains. The tax characterization of cash distributions for the year ended March 31, 2014 will not be known until the tax return for that year is finalized.

(2) Represents a special dividend for the fiscal year ended March 31, 2014. For fiscal year 2014, we paid \$1,344,083 and \$2,638,151 in preferred dividends on the Series 2017 Term Preferred Shares and the Series 2023 Term Preferred Shares, respectively. For fiscal 2013, we paid \$459,228 in preferred dividends on the Series 2017 Term Preferred Shares.

For accounting purposes the distributions declared on our common stock for the fiscal periods ended March 31, 2013, 2012 and 2011 were in excess of the reported earnings. However, as a RIC, earnings and distributions are determined on a tax basis. Furthermore, taxable earnings are determined according to tax regulations and differ from reported income for accounting purposes. For the fiscal periods ended March 31, 2013, 2012 and 2011 taxable earnings exceeded our distributions and there was no tax return of capital for these years. To the extent that taxable earnings for any fiscal year are less than the amount of the dividends paid during the year, there would be a tax return of capital to shareholders. Distributions in excess of current and accumulated taxable earnings and profits will generally not be taxable to the shareholders, because a tax return of capital represents a return of a portion of a shareholder s original investment in our common stock to the extent of a shareholder s basis in our stock. Generally, a tax return of capital will reduce an investor s basis in our stock for federal tax purposes, which will result in the shareholder recognizing additional gain (or less loss) when the stock is sold. Assuming that a shareholder holds our stock as a capital asset, any such additional gain would be a capital gain. Shareholders should not assume that the source of all distributions is from our net profits and shareholders may periodically receive the payment of a dividend consisting of a return of capital. The tax character of any distributions will be determined after the end of the fiscal year. Tax matters are very complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of its particular situation. We encourage investors to consult their own tax advisors regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

Oxford Lane Management

Our investment activities are managed by Oxford Lane Management, which is an investment adviser that has registered under the Advisers Act. Under our Investment Advisory Agreement with Oxford Lane Management, we have agreed to pay Oxford Lane Management an annual base management fee based on our gross assets, as well as an incentive fee based on our performance. See Investment Advisory Agreement.

We expect to benefit from the proven ability of our investment adviser s team to identify attractive opportunities, conduct diligence on and value prospective investments, negotiate terms where appropriate, and manage and monitor a diversified portfolio although we do not intend to operate as a diversified investment company within the meaning of the 1940 Act. Our investment adviser s senior investment team members have broad investment backgrounds, with prior experience at investment banks, commercial banks, unregistered investment funds and other financial services companies, and have collectively developed a broad network of contacts to provide us with our principal source of investment opportunities.

Our investment adviser is led by Jonathan H. Cohen, our Chief Executive Officer and Saul B. Rosenthal, our President. Messrs. Cohen and Rosenthal are assisted by Darryl M. Monasebian and Hari Srinivasan, who serve as Executive Vice President and Managing Director, for Oxford Lane Management, respectively. We consider Messrs. Cohen, Rosenthal, Monasebian and Srinivasan to be Oxford Lane Management s senior investment team.

Messrs. Cohen, Rosenthal, Monasebian and Srinivasan together with the other members of Oxford Lane
Management s investment team, have developed an infrastructure that we believe provides Oxford Lane Capital with a
competitive advantage in locating and acquiring attractive Senior Loans and CLO investments. In particular, in
addition to our portfolio, the members of Oxford Lane Management s investment team currently manage the portfolios
of:

TABLE OF CONTENTS

TICC Capital Corp., a NASDAQ Global Select Market-listed business development company, which completed its initial public offering in 2003, with approximately \$1.1 billion in gross assets as of March 31, 2014, which is managed by TICC Management, LLC;

TICC CLO LLC, a \$225 million CLO structured finance vehicle completed in 2011 investing in a diversified portfolio of Senior Loans, the assets of which are included in the gross assets of TICC Capital Corp; TICC CLO 2012-1, LLC, a \$320 million CLO structured finance vehicle completed in 2012 investing in a diversified portfolio of Senior Loans, the assets of which are included in the gross assets of TICC Capital Corp.; and T2 Income Fund CLO I Ltd., originally was a twelve year, \$309 million CLO structured finance vehicle completed

in 2007 investing in a diversified portfolio of Senior Loans.

Since 2004, in the course of managing those existing portfolios, the members of Oxford Lane Management s investment team have historically evaluated and invested primarily in a combination of bilateral and syndicated Senior Loans and structured finance vehicles, with the objective of producing high risk-adjusted returns primarily in the form of current income. Since June 2009, the members of Oxford Lane Management s investment team have sourced and analyzed in excess of 300 primary and secondary CLO investments, and have invested an aggregate of approximately \$725 million in 140 such transactions with an aggregate par value of approximately \$900 million. In total, as of March 31, 2014, Oxford Lane Management s investment team has reviewed over 1,000 transactions, has made more than 500 investments representing over \$3.0 billion in invested capital and currently has approximately \$1.7 billion under management.

Charles M. Royce is a non-managing member of Oxford Lane Management. Mr. Royce has served as President since 1972, and a member of the Board of Managers since 2001, of Royce & Associates. He also manages or co-manages twelve of Royce & Associates open- and closed-end registered funds. Mr. Royce currently serves on the Board of Directors of The Royce Funds and TICC Capital Corp. Mr. Royce is a non-managing member of TICC Management, LLC, the investment adviser for TICC Capital Corp. Mr. Royce, as a non-managing member of Oxford Lane Management, does not take part in the management or participate in the operations of Oxford Lane Management; however, Mr. Royce may be available from time to time to Oxford Lane Management to provide certain consulting services without compensation. Royce & Associates is a wholly owned subsidiary of Legg Mason, Inc.

In addition, our executive officers and directors, as well as the current and future members of our investment adviser, Oxford Lane Management, may serve as officers, directors or principals of other entities that operate in the same or a related line of business as we do. Accordingly, they may have obligations to investors in those entities, the fulfillment of which obligations may not be in the best interests of us or our stockholders. Each of TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC and T2 Income Fund CLO I Ltd., as well as any affiliated investment vehicle formed in the future and managed by our investment adviser or its affiliates may, notwithstanding different stated investment objectives, have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, Oxford Lane Management may face conflicts in allocating investment opportunities between us and such other entities. Although Oxford Lane Management endeavors to allocate investment opportunities in a fair and equitable manner, it is possible that, in the future, we may not be given the opportunity to participate in investments made by investment funds, including TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC, and T2 Income Fund CLO I Ltd., managed by our investment adviser or an investment manager affiliated with our investment adviser. In any such case, when Oxford Lane Management s investment team identifies an investment, it will be required to choose which investment fund should make the investment.

In certain instances, we may co-invest on a concurrent basis with affiliates of our investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation procedures. Such co-investment may require exemptive relief from the SEC. If we elect to seek such relief, there can be no assurance when, or if, such relief may be obtained.

TABLE OF CONTENTS

In addition, we will pay BDC Partners, an affiliate of Oxford Lane Management, our allocable portion of overhead and other expenses incurred by BDC Partners in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and our allocable portion of the compensation of our Chief Financial Officer, Chief Compliance Officer and any administrative support staff.

These arrangements will create conflicts of interest that our Board of Directors must monitor.

Investment Focus

Our investment objective is to maximize our portfolio s total return. We have initially implemented our investment objective by investing principally in the equity and junior debt tranches of CLO vehicles, which are collateralized primarily by a diverse portfolio of leveraged corporate loans, and which generally have very little or no exposure to real estate or mortgage loans or to pools of consumer-based debt, such as credit card receivables or auto loans. Our investment strategy may also include warehouse facilities, which are financing structures intended to aggregate loans that may be used to form the basis of a CLO vehicle. We may invest in securities issued by foreign entities, including foreign CLO vehicles.

The CLO investments we currently hold in our portfolio generally represent either a residual economic interest, in the case of an equity tranche, or a debt investment collateralized by a portfolio of Senior Loans. The value of our CLO investments generally depend on both the quality and nature of the underlying portfolio it references and also on the specific structural characteristics of the CLO itself, both of which are described below.

CLO Structural Elements

Structurally, CLO vehicles are entities formed to originate and manage a portfolio of loans. The loans within the CLO vehicle are limited to loans which meet established credit criteria and are subject to concentration limitations in order to limit a CLO vehicle s exposure to a single credit.

A CLO vehicle is formed by raising multiple tranches of debt (with the most senior tranches being rated AAA to the most junior tranches typically being rated BB or B) and equity. As interest payments are received the CLO vehicle makes contractual interest payments to each tranche of debt based on their seniority. If there are funds remaining after each tranche of debt receives its contractual interest rate and the CLO vehicle meets or exceeds required collateral coverage levels (or other similar covenants) the remaining funds may be paid to the equity tranche. The contractual provisions setting out this order of payments are set out in detail in the CLO vehicle s indenture. These provisions are referred to as the priority of payments or the waterfall and determine any other obligations that may be required to be paid ahead of payments of interest and principal on the securities issued by a CLO vehicle. In addition, for payments to be made to each tranche, after the most senior tranche of debt, there are various tests which must be complied with, which are different for each CLO vehicle.

CLO indentures typically provide for adjustments to the priority of payments in the event that certain cashflow or collateral requirements are not maintained. The collateral quality tests that may divert cashflows in the priority of payments are predominantly determined by reference to the par values of the underlying loans, rather than their current market values. Accordingly, we believe that CLO equity and junior debt investments allow investors to gain diversified exposure to the Senior Loan market on a levered basis without being structurally subject to mark-to-market price fluctuations of the underlying loans. As such, although the current valuations of CLO equity and junior debt tranches are expected to fluctuate based on price changes within the loan market, interest rate movements and other macroeconomic factors, those tranches will generally be expected to continue to receive distributions from the CLO vehicle periodically so long as the underlying portfolio does not suffer defaults, realized losses or other covenant

Investment Focus 127

violations sufficient to trigger changes in the waterfall allocations. We therefore believe that an investment portfolio consisting of CLO equity and junior debt investments of this type has the ability to provide attractive risk-adjusted rates of return.

The diagram below is for illustrative purposes only. The CLO structure highlighted below is only a hypothetical structure and structures among CLO vehicles in which we may invest may vary substantially from the hypothetical example set forth below.

45

CLO Structural Elements 128

The Syndicated Senior Loan Market

We believe that while the syndicated leveraged corporate loan market is relatively large, with Standard and Poor's estimating the total par value outstanding at approximately \$742 billion as of May 27, 2014, this market remains largely inaccessible to a significant portion of investors that are not lenders or approved institutions. The CLO market permits wider exposure to syndicated Senior Loans, but this market is almost exclusively private and predominantly institutional.

The Senior Loan market is characterized by various factors, including:

Seniority. A Senior Loan typically ranks senior in a company s capital structure to all other forms of debt or equity. As such, that loan maintains the senior-most claim on the company s assets and cash flow, and, we believe should, all other things being equal, offer the prospect of a relatively more stable and lower-risk holding.

Floating rate instruments. A Senior Loan typically contains a floating versus a fixed interest rate, which we believe provides some measure of protection against the risk of interest rate fluctuation.

Frequency of interest payments. A Senior Loan typically provides for scheduled interest payments no less frequently than quarterly.

In the current environment, we believe the above attributes seem particularly desirable.

Investment Opportunity

Despite strength across the credit markets broadly, we believe that the market for CLO-related assets continues to provide us with the opportunity to generate attractive risk-adjusted returns within our strategy. We believe that a number of factors support this conclusion, including:

We believe that the long-term and relatively low-cost capital that many CLO vehicles have secured, compared with current asset spreads and the associated LIBOR floors have created opportunities to purchase certain CLO equity and junior debt instruments that may produce attractive risk-adjusted returns. Although yields on Senior Loans have generally decreased since mid-2010, we believe that CLO equity and junior debt instruments still offer attractive risk-adjusted returns.

We believe that the recently developed market to invest in warehouse financings, which are short-term facilities that are generally expected to form the basis of CLO vehicles (which the Fund may participate in or be repaid by), has created additional attractive risk-adjusted investment opportunities for us.

TABLE OF CONTENTS

We believe that investing in CLO securities and CLO equity instruments and warehouse financings in particular, requires a high level of research and analysis. We believe that typically this analysis can only be adequately conducted by knowledgeable market participants, since that analysis tends to be highly specialized. We believe that a stronger credit market for Senior Loans has reduced the risk of collateral coverage test violations across many CLO structures, thereby reducing the risk that current cash distributions otherwise payable to junior debt tranches and/or equity will be diverted under the priority of payments to pay down the more senior obligations in various CLO structures.

We believe that the US CLO market is relatively large with total assets under management of approximately \$287 billion. (1) We estimate that the amount outstanding of the junior-most debt tranches (specifically the tranches originally rated BB and B) and equity tranches together are approximately \$50 billion.

In addition to reviewing the junior debt and equity tranches of pre-2008 vintage CLOs, we have analyzed post-2010 CLOs (in both the primary and secondary markets) given the recent increase in new CLO issuance. From January 1, 2014 to April 29, 2014, CLO issuance stood at approximately \$35 billion across 71⁽²⁾ deals (compared to approximately \$82 billion across 171 deals for 2013).⁽³⁾

While the post-2010 CLOs generally have a higher cost of capital (which may result in lower returns for the equity investors in those CLOs) compared to pre-2008 CLOs, they may offer certain attractive structural features (including, in certain cases, better credit enhancement and lower leverage) and stronger collateral packages. We believe there are currently a significant number of these investment opportunities to consider and we have and continue to make investments in post-2010 CLOs.

We continue to review a large number of CLO investment vehicles in the current market environment, and we expect that the majority of our portfolio holdings, over the near to intermediate-term, will continue to be focused on CLO debt and equity securities, with the more significant focus over the near-term on CLO equity securities.

Investment Selection

Our investment adviser s investment team is responsible for all aspects of our investment process. Oxford Lane Management s senior investment team currently consists of Messrs. Cohen, Rosenthal and Monasebian, who serve as members of the investment committee of Oxford Lane and Mr. Srinivasan. While the investment strategy involves a team approach, whereby potential transactions are screened by various members of the investment team, Messrs. Cohen or Rosenthal must approve all investments in order for them to close. See Portfolio Management. The stages of our investment selection process are as follows:

Deal Sourcing

Deal sourcing is generally conducted through brokers and bankers, and may also be sourced through industry contacts, CLO vehicle sponsors and investors. We believe that we currently have an active pipeline of deal flow, particularly through multiple CLO trading desks.

Screening

In screening potential investments in CLO vehicles, our investment adviser s investment team utilizes the same value-oriented investment philosophy they employ in their work managing other investment portfolios, including TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC, and T2 Income Fund CLO I Ltd.

2. As of April 28, 2014. Source: JP Morgan Chase & Co.

3. As of January 24, 2014. Source: RBS.

47

Screening 131

Due Diligence

Our investment adviser s investment team conducts due diligence on prospective investments, consistent with the approach its members have developed over the course of managing other investment vehicles, including TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC, and T2 Income Fund CLO I Ltd. In conducting due diligence, our investment adviser uses publicly available information as well as information otherwise available to it, including through its relationships with CLO collateral managers and bankers.

Our investment adviser s due diligence typically includes:

review of current financial information and projections regarding prospective investments; research relating to the CLO s underlying investments; and review of the prospective investment s capital structure and the terms and conditions of the investment.

Upon the completion of due diligence, the investment professionals present the opportunity to our investment adviser s investment committee, which then determines whether to proceed with the potential investment. Additional due diligence with respect to any investment may be conducted on our behalf by outside third-party advisers, as appropriate. Any fees and expenses incurred by Oxford Lane Management in connection with due diligence investigations undertaken by third parties will be subject to reimbursement by Oxford Lane Capital, which reimbursements will be in addition to any management or incentive fees payable under our Investment Advisory Agreement to Oxford Lane Management. While the investment strategy involves a team approach, Oxford Lane Capital may not enter into a transaction without the prior approval of either Messrs. Cohen or Rosenthal.

Ongoing Relationships

Monitoring

Our investment adviser monitors our investments on an ongoing basis. Our investment adviser has several methods of monitoring the performance and value of our investments, which include the following:

review of pricing data and indicative bids for recent transactions in our investments; comparisons to other Senior Loans and CLO vehicles; and review of available financial reports for our investments.

Valuation Procedures

The most significant estimate inherent in the preparation of our financial statements is the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded. There is no single method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. We are required to specifically fair value each individual investment on a quarterly basis.

Our Board of Directors determines the value of our investment portfolio each quarter, after consideration of our Valuation Committee s recommendation of fair value. Oxford Lane Management compiles the relevant information, including a financial summary, covenant compliance review and recent trading activity in the security, if known. All available information, including non-binding indicative bids which may not be considered reliable, are presented to the Valuation Committee to consider in making its recommendation of fair value to the Board of Directors. In some

Due Diligence 132

instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Valuation Committee considers the number of trades, the size and timing of each trade, and other circumstances around such trades, to the extent such information is available, in making its recommendation of fair value to the Board of Directors. We may elect to engage third-party valuation firms to provide assistance to our Valuation Committee and Board of Directors in valuing certain of our investments. The Valuation Committee evaluates the impact of such additional information, and factors it into its consideration of fair value.

48

Valuation Procedures 133

Competition

We compete for investments with other investment funds (including private equity funds, mezzanine funds and business development companies), as well as traditional financial services companies such as commercial banks, investment banks, finance companies and other sources of funding. Additionally, because competition for investment opportunities generally has increased among alternative investment vehicles, such as hedge funds, those entities have begun to invest in areas they have not traditionally invested in, including CLO vehicles. As a result of these new entrants, competition for investment opportunities in CLO vehicles may intensify. Many of these entities have greater financial and managerial resources than we do. We believe we are able to compete with these entities primarily on the basis of the experience and contacts of our investment adviser, and our responsive and efficient investment analysis and decision-making processes.

Staffing

We do not currently have any employees. Our day-to-day investment operations are managed by Oxford Lane Management. Oxford Lane Management s investment team currently consists of the members of its investment committee, Messrs. Cohen, Rosenthal and Monasebian, and Mr. Srinivasan, who serves as Managing Director for Oxford Lane Management, and five additional experienced investment professionals. Oxford Lane Management may retain additional investment professionals, based upon its needs, subsequent to the completion of this offering. See Investment Advisory Agreement.

In addition, we will reimburse BDC Partners for our allocable portion of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and the compensation of our chief financial officer, chief compliance officer, treasurer and any administrative support staff. See Administration Agreement.

Properties

Our executive offices are located at 8 Sound Shore Drive, Suite 255, Greenwich, CT 06830, and are provided by BDC Partners in accordance with the terms of the Administration Agreement. We believe that our office facilities are suitable and adequate for our business as it is contemplated to be conducted.

Legal Proceedings

None of us, our investment adviser or administrator, is currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us, or against our investment adviser or administrator. From time to time, we, our investment adviser or administrator, may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted, we do not expect that these proceedings will have a material effect upon our financial statements.

Competition 134

MANAGEMENT

Our Board of Directors oversees our management. The Board of Directors currently consists of five members, three of whom are not interested persons of Oxford Lane Capital Corp. as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our Board of Directors elects our officers, who serve at the discretion of the Board of Directors. The responsibilities of each director will include, among other things, the oversight of our investment activity, the quarterly valuation of our assets, and oversight of our financing arrangements. The Board of Directors has also established an Audit Committee and a Valuation Committee, and may establish additional committees in the future.

Board of Directors and Executive Officers

Directors

Information regarding the Board of Directors is as follows:

Name	Age	Position	Director Since	Expiration of Term
Interested Directors

Biographical Information

Directors

Our directors have been divided into two groups interested directors and independent directors. An interested director is an interested person as defined in Section 2(a)(19) of the 1940 Act.

MANAGEMENT 135

Interested Directors

Messrs. Cohen and Rosenthal are interested persons of Oxford Lane Capital as defined in the 1940 Act. Messrs. Cohen and Rosenthal are interested persons of Oxford Lane Capital due to their positions as Chief Executive Officer and President, respectively, of Oxford Lane Capital and Oxford Lane Management, Oxford Lane Capital s investment adviser, and as the managing member and non-managing member, respectively, of BDC Partners, the administrator for Oxford Lane Capital.

Jonathan H. Cohen has served as Chief Executive Officer of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Cohen has also served since 2003 as Chief Executive Officer of both TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company, and TICC Management, LLC, TICC Capital Corp. s investment adviser, and as the managing member of BDC Partners. Mr. Cohen is also a member of the Board of Directors of TICC Capital Corp. In addition, Mr. Cohen has served since 2005 as the Chief Executive Officer of T2 Advisers, LLC, which serves as the collateral manager for T2 Income Fund CLO I Ltd. Previously, Mr. Cohen managed technology equity research groups at Wit Capital, Merrill Lynch, UBS and Smith Barney. Mr. Cohen serves on the board of Algorithmic Implementations, Inc. (d/b/a Ai Squared) and is member of the Board of Trustees of Connecticut College.

50

Interested Directors 136

TABLE OF CONTENTS

Mr. Cohen received a B.A. in Economics from Connecticut College and an M.B.A. from Columbia University. Mr. Cohen s depth of experience in managerial positions in investment management, securities research and financial services, as well as his intimate knowledge of our business and operations, gives our Board of Directors valuable industry-specific knowledge and expertise on these and other matters.

Saul B. Rosenthal has served as President of both Oxford Lane Capital Corp. and Oxford Lane Management since 2010. Mr. Rosenthal has also served as President since 2004 of TICC Capital Corp. (NasdaqGS: TICC), a publicly traded business development company. In addition, Mr. Rosenthal has also served since 2005 as the President of T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Mr. Rosenthal was previously an attorney at the law firm of Shearman & Sterling LLP. Mr. Rosenthal serves on the boards of Algorithmic Implementations, Inc. (d/b/a Ai Squared), the National Museum of Mathematics and the New York City chapter of the Young Presidents Organization (YPO). Mr. Rosenthal received a B.S., magna cum laude, from the Wharton School of the University of Pennsylvania, a J.D. from Columbia University Law School, where he was a Harlan Fiske Stone Scholar, and a LL.M. (Taxation) from New York University School of Law. Mr. Rosenthal s depth of experience in managerial positions in investment management, as well as his intimate knowledge of our business and operations, gives the Board of Directors the valuable perspective of a knowledgeable corporate leader.

Independent Directors

The following directors are not interested persons of Oxford Lane Capital, as defined in the 1940 Act.

Mark J. Ashenfelter presently serves as a Senior Vice President and the General Counsel of Haebler Capital, a private investment company located in Greenwich, CT. Prior to joining Haebler Capital in 1994, Mr. Ashenfelter was an associate at Cravath, Swaine & Moore from 1985 to 1992 and Cadwalader, Wickersham & Taft from 1992 to 1994.
Mr. Ashenfelter received a B.A., cum laude, from Harvard University, a J.D., magna cum laude, from New York Law School, where he was Managing Editor of the Law Review, and a LL.M. (Taxation) from New York University School of Law. Mr. Ashenfelter s extensive corporate legal experience, particularly in connection with investment companies, provides our Board of Directors with valuable insight and perspective.

John Reardon is the principal of Reardon Consulting, LLP, which specializes in providing management consulting services to technology companies in the telecom, software, and cyber security industries. Mr. Reardon also serves as the Managing Director of Choctaw Telecom LLC. Previously, Mr. Reardon managed telecommunications companies in the mobile voice, data and engineering services markets as Chief Executive Officer and a member of the Board of Directors of Mobex Communications, Inc. from 2001 to 2005. From 1997 to 2001, he served as General Counsel and Secretary of the Board of Directors of Mobex Communications, Inc. Mr. Reardon began his career in telecom law at the boutique Washington, DC firm of Keller and Heckman, LLP. Mr. Reardon received a Bachelor of Arts degree in Political Science from Boston University, summa cum laude, and earned his J.D. from Columbia Law School. He is admitted to the New York State Bar and the Washington, DC Bar, and is the past president of the Columbia Law School Alumni Association of Washington, DC. Mr. Reardon s extensive experience as a senior corporate executive provides our Board of Directors the perspective of a knowledgeable corporate leader.

David S. Shin presently serves as an asset management professional at Perella Weinberg Partners, a financial services firm. From 2010 to 2011, Mr. Shin served as a Managing Director at Bentley Associates, an investment banking firm. Prior to joining Bentley Associates, Mr. Shin worked in the Global Real Estate Investment Banking Group at Deutsche Bank Securities from 2005 to 2008, and in the Real Estate & Lodging Group of Citigroup Global Markets from 2004 to 2005. Prior to that, Mr. Shin worked for William Street Advisors, LLC, a boutique financial advisory firm affiliated with Saratoga Management Company, from 2002 to 2004. After receiving his J.D. in 1995, Mr. Shin

was a member of the Healthcare Group of Dean Witter Reynolds from 1995 to 1996, and was subsequently a member of the Mergers & Acquisitions Group of Merrill Lynch & Co. from 1996 to 2002. Mr. Shin started his career as a CPA in the Corporate Tax Department of KPMG Peat Marwick s Financial Institutions Group, where he served from 1990 to 1992, before attending law school. Mr. Shin received a B.S. from The Wharton School at the University of Pennsylvania and a J.D. from Columbia University Law School. Mr. Shin s extensive experience in investment

banking provides the Board of Directors with valuable insights of an experienced and diligent financial professional, as well as a diverse perspective.

Executive Officers Who Are Not Directors

Patrick F. Conroy has served as our Chief Financial Officer, Chief Compliance Officer and Corporate Secretary since 2010. Mr. Conroy has also served as the Chief Financial Officer since 2003, and the Chief Compliance Officer and Corporate Secretary since 2004, of TICC Capital Corp., a publicly traded business development company. Mr. Conroy also currently serves as the Chief Financial Officer, Chief Compliance Officer and Treasurer of Oxford Lane Management, TICC Management, LLC and BDC Partners. Mr. Conroy has also served since 2005 as the Chief Financial Officer of T2 Advisers, LLC which serves as collateral manager of T2 Income Fund CLO I Ltd. He is a certified public accountant. Mr. Conroy received a B.S. in Accounting, summa cum laude, from St. John s University and did graduate work at Bernard M. Baruch College of the City University of New York.

Director Independence

In accordance with rules of the NASDAQ Stock Market, our Board of Directors will annually determine each director s independence. We do not consider a director independent unless the Board of Directors has determined that he or she has no material relationship with us. We will monitor the relationships of our directors and officers through a questionnaire each director completes no less frequently than annually and updates periodically as information provided in the most recent questionnaire changes.

In order to evaluate the materiality of any such relationship, the Board of Directors uses the definition of director independence set forth in the rules promulgated by the NASDAQ Stock Market. Rule 5605(a)(2) provides that a director of an investment company shall be considered to be independent if he or she is not an interested person of Oxford Lane Capital, as defined in Section 2(a)(19) of the 1940 Act.

The Board of Directors has determined that each of the directors is independent and has no relationship with us, except as a director and stockholder, with the exception of Jonathan H. Cohen and Saul B. Rosenthal, as a result of their respective positions as Chief Executive Officer and President of Oxford Lane Capital and Oxford Lane Management, Oxford Lane Capital s investment adviser, and as the managing member and non-managing member, respectively, of BDC Partners, the administrator for Oxford Lane Capital.

Board Leadership Structure

Our Board of Directors monitors and performs an oversight role with respect to the business and affairs of Oxford Lane Capital, including with respect to investment practices and performance, compliance with regulatory requirements and the services, expenses and performance of service providers to Oxford Lane Capital. Among other things, our Board of Directors approves the appointment of our investment adviser and officers, reviews and monitors the services and activities performed by our investment adviser and executive officers and approves the engagement, and reviews the performance of, our independent registered public accounting firm.

Under our bylaws, our Board of Directors may designate a Chairman to preside over the meetings of the Board of Directors and meetings of the stockholders and to perform such other duties as may be assigned to him by the Board of Directors. We do not have a fixed policy as to whether the Chairman of the Board of Directors should be an independent director and believe that we should maintain the flexibility to select the Chairman and reorganize the

leadership structure, from time to time, based on the criteria that is in the best interests of Oxford Lane Capital and its stockholders at such times.

Presently, Mr. Ashenfelter serves as the Chairman of our Board of Directors. Mr. Ashenfelter is not an interested person of Oxford Lane Capital as defined in Section 2(a)(19) of the 1940 Act. We believe that Mr. Ashenfelter s extensive corporate legal experience, particularly in connection with investment companies, qualify him to serve as the Chairman of our Board of Directors. We believe that we are best served through this existing leadership structure, as Mr. Ashenfelter s independence from our investment adviser eliminates any perceived conflicts of interest and ensures that our management team acts in the best interests of our stockholders.

Our corporate governance policies include regular meetings of the independent directors in executive session with independent legal counsel and without the presence of interested directors and management, the

establishment of Audit and Valuation Committees comprised solely of independent directors and the appointment of a Chief Compliance Officer, with whom the independent directors meet regularly without the presence of interested directors and other members of management, for administering our compliance policies and procedures.

We recognize that different board leadership structures are appropriate for companies in different situations. We intend to re-examine our corporate governance policies on an ongoing basis to ensure that they continue to meet our needs.

Board s Role In Risk Oversight

Our Board of Directors performs its risk oversight function primarily through (i) its two standing committees, which report to the entire Board of Directors and are comprised solely of independent directors, and (ii) active monitoring of our Chief Compliance Officer and our compliance policies and procedures.

As described below in more detail under Committees of the Board of Directors, the Audit Committee and the Valuation Committee assist the Board of Directors in fulfilling its risk oversight responsibilities. The Audit Committee s risk oversight responsibilities include overseeing our accounting and financial reporting processes, our systems of internal controls regarding finance and accounting, and audits of our financial statements. The Valuation Committee s risk oversight responsibilities include establishing guidelines and making recommendations to our Board of Directors regarding the valuation of our loans and investments. Moreover, the independent directors of our Board of Directors are responsible for selecting, researching and nominating directors for election by our stockholders, developing and recommending to the Board of Directors a set of corporate governance principles and overseeing the evaluation of the Board of Directors and our management.

Our Board of Directors also performs its risk oversight responsibilities with the assistance of our Chief Compliance Officer. The Board of Directors annually reviews a written report from the Chief Compliance Officer discussing the adequacy and effectiveness of the compliance policies and procedures of Oxford Lane Capital and its service providers. The Chief Compliance Officer s annual report will address at a minimum (i) the operation of the compliance policies and procedures of Oxford Lane Capital and its service providers since the last report; (ii) any material changes to such policies and procedures since the last report; (iii) any recommendations for material changes to such policies and procedures as a result of the Chief Compliance Officer s annual review; and (iv) any compliance matter that has occurred since the date of the last report about which the Board of Directors would reasonably need to know to oversee our compliance activities and risks. In addition, the Chief Compliance Officer meets separately in executive session with the independent directors at least quarterly.

We believe that our Board of Directors role in risk oversight is effective and appropriate given the extensive regulation to which we are already subject as an investment company. As a registered closed-end management investment company, we are required to comply with certain regulatory requirements that control the levels of risk in our business and operations. For example, our ability to incur indebtedness is limited such that our asset coverage must equal at least 300% immediately after each time we incur indebtedness and we are limited in our ability to invest in any CLO vehicle in which one of our affiliates currently has an investment.

We recognize that different board roles in risk oversight are appropriate for companies in different situations. We re-examine the manner in which the Board of Directors administers its oversight function on an ongoing basis to ensure that they continue to meet our needs.

Committees of the Board of Directors

Our Board of Directors has established an Audit Committee and a Valuation Committee. We require each director to make a diligent effort to attend all Board and committee meetings, as well as each annual meeting of stockholders.

Audit Committee

The Audit Committee operates pursuant to a charter approved by our Board of Directors, a copy of which is available on our website at http://www.oxfordlanecapital.com. The charter sets forth the

TABLE OF CONTENTS

responsibilities of the Audit Committee. The Audit Committee s responsibilities include recommending the selection of our independent registered public accounting firm, reviewing with such independent registered public accounting firm the planning, scope and results of their audit of our financial statements, pre-approving the fees for services performed, reviewing with the independent registered public accounting firm the adequacy of internal control systems, reviewing our annual financial statements and periodic filings, and receiving the audit reports covering our financial statements. The Audit Committee is presently composed of three persons: Messrs. Shin, Ashenfelter and Reardon, all of whom are considered independent under the rules promulgated by the NASDAQ Stock Market. Our Board of Directors has determined that Mr. Shin is an audit committee financial expert as that term is defined under Item 407 of Regulation S-K of the Securities Exchange Act of 1934. Mr. Shin meets the current independence and experience requirements of Rule 10A-3 of the Exchange Act and, in addition, is not an interested person of Oxford Lane Capital as defined in Section 2(a)(19) of the 1940 Act. Mr. Shin currently serves as Chairman of the Audit Committee. The Audit Committee met on four occasions during the fiscal year ended March 31, 2014.

Valuation Committee

The Valuation Committee establishes guidelines and makes recommendations to our Board of Directors regarding the valuation of investments. Our portfolio investments will generally not be publicly traded securities. As a result, there will not be a readily determinable market value for these securities. Thus, as required by the 1940 Act for such securities, we will value these securities at fair value as determined in good faith by our Board of Directors based upon the recommendation of the Valuation Committee.

Our Board of Directors will determine the value of our investment portfolio each quarter, after consideration of our Valuation Committee s recommendation of fair value. Oxford Lane Management will compile relevant information, including a financial summary, covenant compliance review and recent trading activity in the security, if known. All available information, including non-binding indicative bids which may not be considered reliable, will be presented to the Valuation Committee to consider in making its recommendation of fair value to the Board of Directors. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Valuation Committee will consider the number of trades, the size and timing of each trade, and other circumstances around such trades, to the extent such information is available, in making its recommendation of fair value to the Board of Directors. We may elect to engage third-party valuation firms to provide assistance to our Valuation Committee and Board of Directors in valuing certain of our investments. The Valuation Committee will evaluate the impact of such additional information, and factor it into its consideration of fair value.

The Valuation Committee is presently composed of Messrs. Ashenfelter, Shin and Reardon. Mr. Ashenfelter currently serves as Chairman of the Valuation Committee. The Valuation Committee met on four occasions during the fiscal year ended March 31, 2014.

Nominating and Corporate Governance Procedures

We do not have a Nominating and Corporate Governance Committee. A majority of the independent directors of the Board of Directors, in accordance with the NASDAQ Global Select Market listing standards, recommends candidates for election as directors. We do not currently have a charter or written policy with regard to the nomination process or stockholder recommendations. The absence of such a policy does not mean, however, that a stockholder recommendation would not be considered if one is received.

Our independent directors will consider qualified director nominees recommended by stockholders when such recommendations are submitted in accordance with our bylaws and any applicable law, rule or regulation regarding

Audit Committee 143

director nominations. When submitting a nomination for consideration, a stockholder must provide certain information that would be required under applicable SEC rules, including the following minimum information for each director nominee: full name, age and address; principal occupation during the past five years; current directorships on publicly held companies and investment companies; number of shares of our common stock owned, if any; and, a written consent of the individual to stand for election if nominated by our Board of Directors and to serve if elected by the stockholders.

In evaluating director nominees, our independence directors consider the following factors:

TABLE OF CONTENTS

the appropriate size and composition of our Board of Directors;

whether or not the person is an interested person of Oxford Lane Capital as defined in Section 2(a)(19) of the 1940 Act;

the needs of Oxford Lane Capital with respect to the particular talents and experience of its directors; the knowledge, skills and experience of nominees in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board of Directors;

high character and integrity;

familiarity with national and international business matters;

experience with accounting rules and practices;

appreciation of the relationship of our business to the changing needs of society;

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members; and

all applicable laws, rules, regulations, and listing standards.

The Board of Directors goal is to assemble a Board of Directors that brings to Oxford Lane Capital a variety of perspectives and skills derived from high quality business and professional experience.

Other than the foregoing there are no stated minimum criteria for director nominees, although our independent directors may also consider such other factors as they may deem are in the best interests of Oxford Lane Capital and its stockholders. The Board of Directors also believes it appropriate for certain key members of our management to participate as members of the Board of Directors.

The independent members of the Board of Directors identify nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board of Directors with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors does not wish to continue in service or if the Board of Directors decides not to re-nominate a member for re-election, the independent members of the Board of Directors identify the desired skills and experience of a new nominee in light of the criteria above. The entire Board of Directors is polled for suggestions as to individuals meeting the aforementioned criteria. Research may also be performed to identify qualified individuals. To date, we have not engaged third parties to identify or evaluate or assist in identifying potential nominees although each reserves the right in the future to retain a third party search firm, if necessary.

The Board of Directors has not adopted a formal policy with regard to the consideration of diversity in identifying director nominees. In determining whether to recommend a director nominee, the Board of Directors considers and discusses diversity, among other factors, with a view toward the needs of the board of directors as a whole. The Board of Directors generally conceptualizes diversity expansively to include, without limitation, concepts such as race, gender, national origin, differences of viewpoint, professional experience, education, skill and other qualities that contribute to the Board of Directors, when identifying and recommending director nominees. The Board of Directors believes that the inclusion of diversity as one of many factors considered in selecting director nominees is consistent with the Board of Directors goal of creating a Board of Directors that best serves the needs of Oxford Lane Capital and the interests of its shareholders.

Communication with the Board of Directors

Stockholders with questions about Oxford Lane Capital are encouraged to contact Oxford Lane Capital Corp. s Investor Relations Department. However, if stockholders believe that their questions have not been addressed, they

may communicate with our Board of Directors by sending their communications to Oxford Lane Capital Corp., c/o Patrick F. Conroy, Corporate Secretary, 8 Sound Shore Drive, Suite 255, Greenwich, Connecticut 06830. All stockholder communications received in this manner will be delivered to one or more members of the Board of Directors, as appropriate.

Code of Ethics

We have adopted a code of ethics which applies to, among others, our senior officers, including our Chief Executive Officer and Chief Financial Officer, as well as every officer, director and employee of Oxford Lane Capital. Our code of ethics can be accessed via its website at http://www.oxfordlanecapital.com.

Compensation of Directors

The following table sets forth compensation of our directors for the year ended March 31, 2014.

Name	Fees Earned or All Other Paid in Compensation ⁽²⁾ Cash ⁽¹⁾		Total
Interested Directors			
Jonathan H. Cohen			
Saul B. Rosenthal			
Independent Directors			
Mark J. Ashenfelter	\$ 53,000		\$ 53,000
John Reardon	\$ 53,000		\$ 53,000
David S. Shin	\$ 58,000		\$ 58,000

⁽¹⁾ For a discussion of the independent directors compensation, see below.

Compensation of Chief Executive Officer and Other Executive Officers

We do not have a compensation committee because our executive officers do not receive any direct compensation from Oxford Lane Capital. Mr. Cohen, our Chief Executive Officer, and Mr. Rosenthal, our President, through their ownership interest in BDC Partners, the managing member of Oxford Lane Management, are entitled to a portion of any profits earned by Oxford Lane Management, which includes any fees payable to Oxford Lane Management under the terms of the Investment Advisory Agreement, less expenses incurred by Oxford Lane Management in performing its services under the Investment Advisory Agreement. Messrs. Cohen and Rosenthal do not receive any additional compensation from Oxford Lane Management in connection with the management of our portfolio.

The compensation of Mr. Conroy, our Chief Financial Officer, Chief Compliance Officer and Corporate Secretary, is paid by our administrator, BDC Partners, subject to reimbursement by us of an allocable portion of such compensation

Code of Ethics 147

⁽²⁾ We do not maintain a stock or option plan, non-equity incentive plan or pension plan for our directors. The independent directors receive an annual fee of \$35,000. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board of Directors meeting, \$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. The Chairman of the Audit Committee also receives an additional annual fee of \$5,000. No compensation is paid to directors who are interested persons of Oxford Lane Capital as defined in the 1940 Act.

for services rendered by Mr. Conroy to Oxford Lane Capital.

PORTFOLIO MANAGEMENT

The management of our investment portfolio is the responsibility of Oxford Lane Management, and its investment committee, which currently consists of Jonathan H. Cohen, our Chief Executive Officer, and Saul B. Rosenthal, our President, and Darryl M. Monasebian, the Executive Vice President of Oxford Lane Management. Our investment adviser s investment committee must approve each new investment that we make. The members of our investment adviser s investment committee are not employed by us, and receive no compensation from us in connection with their portfolio management activities. Messrs. Cohen and Rosenthal, through their ownership of BDC Partners, the managing member of Oxford Lane Management, are entitled to a portion of any investment advisory fees paid by Oxford Lane Capital to Oxford Lane Management.

Because Oxford Lane Management currently provides portfolio management services only to us, we do not believe there are any conflicts of interests with respect to Oxford Lane Management s management of our portfolio on the one hand, and the management of other accounts or investment vehicles by Oxford Lane Management on the other. However, Mr. Cohen currently serves as Chief Executive Officer and Mr. Rosenthal currently serves as President and Chief Operating Officer of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies and is the collateral manager of TICC CLO LLC and TICC CLO 2012-1 LLC, and TICC Capital Corp. s investment adviser, TICC Management. In addition, Messrs. Cohen and Rosenthal currently serve as Chief Executive Officer and President, respectively, for T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. BDC Partners is the managing member, and Charles M. Royce is a non-managing member, of TICC Management, LLC. As a result, Messrs. Cohen and Rosenthal may be subject to certain conflicts of interests with respect to their management of our portfolio on the one hand, and their respective obligations to manage TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC and T2 Income Fund CLO I Ltd. on the other hand.

Set forth below is additional information regarding the additional entities currently managed by Messrs. Cohen and Rosenthal:

Name	Entity	Investment Focus	Gross Assets ⁽¹⁾
TICC Capital Corp. (2)	Business development company	Principally debt investments in U.Sbased companies	\$1,094 million
T2 Income Fund CLO I Ltd.	Cayman-based structured finance vehicle	Principally debt investments across a variety of industries	\$276 million

- (1) Gross assets are calculated as of March 31, 2014 and are rounded to the nearest million.
 - (2) Includes the gross assets held by TICC CLO LLC and TICC CLO 2012-1 LLC.

Investment Personnel

Our investment adviser is led by Jonathan H. Cohen, our Chief Executive Officer and Saul B. Rosenthal, our President. Messrs. Cohen and Rosenthal are assisted by Darryl M. Monasebian and Hari Srinivasan, who serve as Executive Vice President and Managing Director for Oxford Lane Management, respectively. We consider Messrs. Cohen, Rosenthal, Monasebian and Srinivasan to be Oxford Lane Management s senior investment team. We consider Messrs. Cohen and Rosenthal to be our portfolio managers.

Investment Personnel 150

Name of Portfolio Manager

Jonathan H. Cohen Saul B. Rosenthal

Dollar Range of Equity Securities in Oxford Lane Capital⁽¹⁾ Over \$1,000,000 Over \$1,000,000

- (1) Dollar ranges are as follows: None, \$1 \$10,000, \$10,001 \$50,000, \$50,001 \$100,000, \$100,001 \$500,000; \$500,001 \$1,000,000 or Over \$1,000,000.
- (2) The dollar range of equity securities beneficially owned in us is based on the closing price of our common stock of \$17.68 on June 4, 2014 on the Nasdaq Global Select Market.

The following information pertains to the members of Oxford Lane Management s investment team who are not executive officers of Oxford Lane Capital:

Darryl M. Monasebian. Mr. Monasebian is the Executive Vice President and head of portfolio management of Oxford Lane Management and also holds the same positions at TICC Management, LLC, the investment adviser to TICC Capital Corp. Mr. Monasebian has also served since 2005 as the senior managing director and head of portfolio management of T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Prior to joining TICC Management, LLC, Mr. Monasebian was a director in the Merchant Banking Group at BNP Paribas, and prior to that was a director at Swiss Bank Corporation and a senior account officer at Citibank. He began his business career at Metropolitan Life Insurance Company as an investment analyst in the Corporate Investments Department. Mr. Monasebian received a B.S. in Management Science/Operations Research from Case Western Reserve University and a Masters of Business Administration from Boston University s Graduate School of Management.

Hari Srinivasan. Mr. Srinivasan is a Managing Director and portfolio manager of Oxford Lane Management, and also holds those same positions at TICC Management, LLC, the investment adviser to TICC Capital Corp., and at T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Previously, Mr. Srinivasan was a credit manager at Lucent Technologies from 2002 to 2005, focusing on restructuring and monetization of distressed assets in Lucent s vendor finance portfolio, and credit analysis of Lucent s telecom customers. Prior to that, Mr. Srinivasan was an analyst in the fixed income group at Lehman Brothers from 1998 to 2002. Mr. Srinivasan received a B.S. in Computer Science from Poona University, India and a Masters of Business Administration from New York University s Stern School of Business.

Debdeep Maji. Mr. Maji is a Principal of Oxford Lane Management, TICC Management, LLC, the investment adviser to TICC Capital Corp., and T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Mr. Maji graduated from the Jerome Fisher Program in Management and Technology at the University of Pennsylvania where he received a Bachelor of Science degree in Economics from the Wharton School (and was designated a Joseph Wharton Scholar) and a Bachelor of Applied Science from the School of Engineering.

Kevin P. Yonon. Mr. Yonon is a Senior Vice President of Oxford Lane Management, and also holds the same position at TICC Management, LLC, the investment adviser to TICC Capital Corp., and T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Previously, Mr. Yonon was an Associate at Deutsche Bank Securities and prior to that he was an Analyst at Blackstone Mezzanine Partners. Before joining Blackstone, he worked as an Analyst at Merrill Lynch in the Mergers & Acquisitions group. Mr. Yonon received a B.S. in Economics with concentrations in Finance and Accounting from the Wharton School at the University of Pennsylvania, where he

Investment Personnel 151

graduated magna cum laude, and an M.B.A. from the Harvard Business School.

Joseph Kupka. Mr. Kupka is a Senior Associate of Oxford Lane Management, TICC Management, LLC, the investment adviser to TICC Capital Corp. and T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Previously, he worked as a risk analyst for First Equity Card Corporation. Mr. Kupka received a B.S. in Mechanical Engineering from the University of Pennsylvania.

Erica Davis. Ms. Davis is an Associate of Oxford Lane Management, TICC Management, LLC, the investment adviser to TICC Capital Corp. and T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Previously, she worked as a fixed income analyst at Goldman Sachs and an investment banking analyst at Barclays Capital. Ms. Davis received a Bachelor of Science degree in Economics with a concentration in Finance from the Wharton School at the University of Pennsylvania, where she graduated cum laude.

Caleb Li. Mr. Li is an Associate of Oxford Lane Management, TICC Management, LLC, the investment adviser to TICC Capital Corp. and T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. Previously, he worked as an investment banking analyst at RBC Capital Markets. He graduated with a dual degree from the University of Pennsylvania where he received a B.S. in Economics (cum laude) with a concentration in Finance from the Wharton School and a B.A. in Mathematics (cum laude) from the College of Arts and Sciences.

Compensation

None of Oxford Lane Management s investment personnel receive any direct compensation from us in connection with the management of our portfolio. Messrs. Cohen and Rosenthal, through their ownership interest in BDC Partners, the managing member of Oxford Lane Management, are entitled to a portion of any profits earned by Oxford Lane Management, which includes any fees payable to Oxford Lane Management under the terms of the Investment Advisory Agreement, less expenses incurred by Oxford Lane Management in performing its services under the Investment Advisory Agreement. Messrs. Cohen and Rosenthal do not receive any additional compensation from Oxford Lane Management in connection with the management of our portfolio. The compensation paid by Oxford Lane Management to its other investment personnel includes: (i) annual base salary and (ii) portfolio-based performance award.

59

Compensation 153

INVESTMENT ADVISORY AGREEMENT

Management Services

Oxford Lane Management serves as our investment adviser. Oxford Lane Management is an investment adviser that is registered as an investment adviser under the Advisers Act prior to pricing of this offering. Subject to the overall supervision of our Board of Directors, our investment adviser manages the day-to-day operations of, and provides investment advisory and management services to, Oxford Lane Capital. Under the terms of our Investment Advisory Agreement, Oxford Lane Management:

determines the composition of our portfolio, the nature and timing of the changes to our portfolio and the manner of implementing such changes;

identifies, evaluates and negotiates the structure of the investments we make (including performing due diligence on our prospective investments);

closes and monitors the investments we make; and

provides us with other investment advisory, research and related services as we may from time to time require. Oxford Lane Management s services under the Investment Advisory Agreement are not exclusive, and both it and its members, officers and employees are free to furnish similar services to other entities so long as its services to us are not impaired.

Management Fee

Pursuant to the Investment Advisory Agreement, we have agreed to pay Oxford Lane Management a fee for investment advisory and management services consisting of two components a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 2.00% of our gross assets. For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our gross assets at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from an investment) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to BDC Partners, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes accrued income that we have not yet received in cash, such as the amount of any market discount we may accrue on debt instruments we purchase below par value. Pre-incentive fee net investment income does not include any realized capital gains. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). For such purposes, our quarterly rate of return is determined by dividing our pre-incentive net investment income by our reported net assets as of the prior period end. Our net investment income used to calculate this part of the incentive fee is also included in the amount of our gross assets used to calculate the 2.00% base management fee.

We pay Oxford Lane Management an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.1875% in 60

Management Fee 155

TABLE OF CONTENTS

any calendar quarter (8.75% annualized). We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide our investment adviser with 20% of our pre-incentive fee net investment income as if a hurdle did not apply if this net investment income exceeds 2.1875% in any calendar quarter; and

20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to Oxford Lane Management (once the hurdle is reached and the catch-up is achieved, 20% of all pre-incentive fee investment income thereafter is allocated to Oxford Lane Management).

The following is a graphical representation of the calculation of the income-related portion of the incentive fee:

Quarterly Incentive Fee Based on Net Investment Income

Pre-incentive fee net investment income (expressed as a percentage of the value of net assets)

Percentage of pre-incentive fee net investment income allocated to the Oxford Lane Management

These calculations are appropriately pro-rated for any period of less than three months and adjusted for any share issuances or repurchases during the relevant quarter. You should be aware that a rise in the general level of interest rates can be expected to lead to higher interest rates applicable to our debt investments. Accordingly, an increase in interest rates would make it easier for us to meet or exceed the incentive fee hurdle rate and may result in a substantial increase of the amount of incentive fees payable to our investment adviser with respect to pre-incentive fee net investment income.

No incentive fee is payable to our investment adviser on realized capital gains. In addition, the amount of the incentive fee is not affected by any realized or unrealized losses that we may suffer.

Examples of Quarterly Incentive Fee Calculation (amounts expressed as a percentage of the value of net assets, and are not annualized)

Alternative 1:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 1.25%

Hurdle rate⁽¹⁾ = 1.75%

Management $fee^{(2)} = 0.5\%$

Other expenses (legal, accounting, custodian, transfer agent, etc.) $^{(3)} = 0.20\%$

Pre-incentive fee net investment income

(investment income (management fee + other expenses)) = 0.55%

Pre-incentive net investment income does not exceed hurdle rate, therefore there is no incentive fee.

61

Assumptions 157

Alternative 2:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 2.70%

Hurdle rate⁽¹⁾ = 1.75%

Management $fee^{(2)} = 0.5\%$

Other expenses (legal, accounting, custodian, transfer agent, etc.) $^{(3)} = 0.20\%$

Pre-incentive fee net investment income

(investment income (management fee + other expenses)) = 2.00%

Incentive fee = $100\% \times \text{pre-incentive}$ fee net investment income in excess of the hurdle but less than 2.1875% (i.e. the catch-up)

$$= 100\% \times (2.0\% \quad 1.75\%)$$
$$= 0.25\%$$

Alternative 3:

Assumptions

Investment income (including interest, dividends, fees, etc.) = 3.00%

Hurdle rate⁽¹⁾ = 1.75%

Management $fee^{(2)} = 0.5\%$

Other expenses (legal, accounting, custodian, transfer agent, etc.) $^{(3)} = 0.20\%$

Pre-incentive fee net investment income

(investment income (management fee + other expenses)) = 2.3%

Incentive fee = $20\% \times \text{pre-incentive fee}$ net investment income, subject to catch-up

Incentive fee = $100\% \times \text{catch-up} + (20\% \times (\text{pre-incentive fee net investment income} 2.1875\%))$

Catch-up = 2.1875% 1.75%

= 0.4375%

Alternative 2: 158

Incentive fee =
$$(100\% \times 0.4375\%) + (20\% \times (2.3\% 2.1875\%))$$

= $0.4375\% + (20\% \times 0.1125\%)$
= $0.4375\% + 0.0225\%$
= 0.46%

- (1) Represents 7% annualized hurdle rate.
- (2) Represents 2.00% annualized management fee.
- (3) Excludes organizational and offering expenses.

62

The catch-up provision is intended to provide the investment adviser with an incentive fee of 20% on all of Oxford (4)Lane Capital s pre-incentive fee net investment income as if a hurdle rate did not apply when its net investment income exceeds 2.1875% in any calendar quarter.

Assumptions 159

Payment of Our Expenses

The investment team of our investment adviser and their respective staffs, when and to the extent engaged in providing investment advisory and management services, and the compensation and routine overhead expenses of such personnel allocable to such services, are provided and paid for by Oxford Lane Management. We bear all other costs and expenses of our operations and transactions, including (without limitation):

the cost of our organization and this offering;

the cost of calculating our net asset value, including the cost of any third-party valuation services; the cost of effecting sales and repurchases of our shares and other securities; interest payable on debt, if any, to finance our investments;

fees payable to third parties relating to, or associated with, making investments, including legal fees and expenses and fees and expenses associated with performing due diligence reviews of prospective investments and advisory fees as well as expenses associated with such activities;

the costs associated with protecting our interests in our investments, including legal fees;

transfer agent and custodial fees;

fees and expenses associated with marketing and investor relations efforts; federal and state registration fees, any stock exchange listing fees;

federal, state and local taxes;

independent directors fees and expenses;

brokerage commissions;

fidelity bond, directors and officers errors and omissions liability insurance and other insurance premiums; direct costs and expenses of administration, including printing, mailing, long distance telephone and staff; fees and expenses associated with independent audits and outside legal costs;

costs associated with our reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws; and

all other expenses incurred by either BDC Partners or us in connection with administering our business, including payments under the Administration Agreement that will be based upon our allocable portion of overhead and other expenses incurred by BDC Partners in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and our allocable portion of the costs of compensation and related expenses of our Chief Compliance Officer, our Chief Financial Officer and any administrative support staff.

Duration and Termination

Unless earlier terminated as described below, the Investment Advisory Agreement will remain in effect if approved annually by our Board of Directors or by the affirmative vote of the holders of a majority of our outstanding voting securities, including, in either case, approval by a majority of our directors who are not parties to such agreement or who are not interested persons of any such party, as such term is defined in Section 2(a)(19) of the 1940 Act. The Investment Advisory Agreement will automatically terminate in the event of its assignment. The Investment Advisory Agreement may also be terminated by either party without penalty upon not more than 60 days written notice to the other party. See Risk Factors Risks Relating to Our Business and Structure Our investment adviser can resign on 60 days notice.

Indemnification

The Investment Advisory Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Oxford Lane Management and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Oxford Lane Capital for any damages, liabilities, costs and expenses (including reasonable attorneys fees and amounts reasonably paid in settlement) arising from the rendering of Oxford Lane Management s services under the Investment Advisory Agreement or otherwise as an investment adviser of Oxford Lane Capital.

Organization of the Investment Adviser

Oxford Lane Management is a Connecticut limited liability company that is registered as an investment adviser under the Advisers Act. BDC Partners, a Delaware limited liability company, is its managing member and provides Oxford Lane Management with all personnel necessary to manage our day-to-day operations and provide the services under the Investment Advisory Agreement. The principal address of Oxford Lane Management and of BDC Partners is 8 Sound Shore Drive, Suite 255, Greenwich, Connecticut 06830.

Charles M. Royce is a non-managing member of Oxford Lane Management. Mr. Royce has served as President since 1972, and a member of the Board of Managers since 2001, of Royce & Associates. He also manages or co-manages twelve of Royce & Associates open-and closed-end registered funds. Mr. Royce serves on the Board of Directors of The Royce Funds. Mr. Royce has served as Chairman of the Board of Directors of TICC Capital Corp. since 2003. Mr. Royce is a non-managing member of TICC Management, LLC, the investment adviser for TICC Capital Corp. Mr. Royce, as a non-managing member of Oxford Lane Management, does not take part in the management or participate in the operations of Oxford Lane Management; however, Mr. Royce may be available from time to time to Oxford Lane Management to provide certain consulting services without compensation. Royce & Associates is a wholly owned subsidiary of Legg Mason, Inc.

Board Approval of the Investment Advisory Agreement

A discussion regarding the basis for our board of director s approval of our Investment Advisory Agreement will be included in our first annual or semi-annual report filed subsequent to completion of any such board action pertaining thereto.

ADMINISTRATION AGREEMENT

BDC Partners, a Delaware limited liability company, serves as our administrator. The principal executive offices of BDC Partners are located at 8 Sound Shore Drive, Suite 255, Greenwich, CT 06830. Pursuant to an Administration Agreement, BDC Partners furnishes us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities. Under the Administration Agreement, BDC Partners also performs, or oversees the performance of, our required administrative services, which include, among other things, being responsible for the financial records which we are required to maintain and preparing reports to our stockholders. In addition, BDC Partners assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of BDC Partners—overhead in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and our allocable portion of the compensation of our Chief Financial Officer and Chief Compliance Officer, our Treasurer and Controller, and other support personnel. The Administration Agreement may be terminated by either party without penalty upon 60 days—written notice to the other party.

The Administration Agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, BDC Partners and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from Oxford Lane Capital for any damages, liabilities, costs and expenses (including reasonable attorneys fees and amounts reasonably paid in settlement) arising from the rendering of BDC Partners services under the Administration Agreement or otherwise as administrator for Oxford Lane Capital.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

We have entered into the Investment Advisory Agreement with Oxford Lane Management. Oxford Lane Management is controlled by BDC Partners, its managing member. In addition to BDC Partners, Oxford Lane Management is owned in part by Charles M. Royce as a non-managing member. BDC Partners, as the managing member of Oxford Lane Management, manages the business and internal affairs of Oxford Lane Management. In addition, BDC Partners provides us with office facilities and administrative services pursuant to the Administration Agreement. Jonathan H. Cohen, our Chief Executive Officer, as well as a director, is the managing member of and controls BDC Partners. Saul B. Rosenthal, our President, is also the President and Chief Operating Officer of TICC Management and a member of BDC Partners.

Charles M. Royce is President of Royce & Associates. Mr. Royce, as a non-managing member of Oxford Lane Management, does not take part in the management or participate in the operations of Oxford Lane Management; however, Mr. Royce may be available from time to time to Oxford Lane Management to provide certain consulting services without compensation. Royce & Associates is a wholly owned subsidiary of Legg Mason, Inc.

In addition, Mr. Cohen currently serves as Chief Executive Officer and Mr. Rosenthal currently serves as President and Chief Operating Officer of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies and is the collateral manager of TICC CLO LLC, and TICC CLO 2012-1 LLC, and TICC Capital Corp. s investment adviser, TICC Management. Messrs. Cohen and Rosenthal also currently serve as Chief Executive Officer, and President, respectively, for T2 Advisers, LLC, which serves as collateral manager of T2 Income Fund CLO I Ltd. BDC Partners is the managing member of TICC Management, LLC and T2 Advisers, LLC, respectively. As a result, Messrs. Cohen and Rosenthal may be subject to certain conflicts of interests with respect to their management of our portfolio on the one hand, and their respective obligations to manage TICC Capital Corp., TICC CLO LLC, TICC CLO 2012-1 LLC and T2 Income Fund CLO I Ltd. on the other hand. In addition, Patrick F. Conroy, our Chief Financial Officer, Chief Compliance Officer and Corporate Secretary, currently serves in similar capacities for TICC Capital Corp. Mr. Conroy also currently serves as the Chief Financial Officer, Chief Compliance Officer and Treasurer of T2 Advisers, LLC, TICC Management and BDC Partners.

BDC Partners has adopted a written policy with respect to the allocation of investment opportunities among us, TICC Capital Corp. and T2 Income Fund CLO I Ltd. in view of the potential conflicts of interest raised by the relationships described above.

In the ordinary course of business, we may enter into transactions with portfolio companies that may be considered related party transactions. In order to ensure that we do not engage in any prohibited transactions with any persons affiliated with us, we have implemented certain policies and procedures whereby our executive officers screen each of our transactions for any possible affiliations between the proposed portfolio investment, us, companies controlled by us and our employees and directors. We will not enter into any agreements unless and until we are satisfied that doing so will not raise concerns under the 1940 Act or, if such concerns exist, we have taken appropriate actions to seek board review and approval or exemptive relief for such transaction. Our Board of Directors reviews these procedures on an annual basis.

We have also adopted a Code of Ethics which applies to, among others, our senior officers, including our Chief Executive Officer and Chief Financial Officer, as well as every officer, director and employee of Oxford Lane Capital. Our Code of Ethics requires that all employees and directors avoid any conflict, or the appearance of a conflict, between an individual s personal interests and the interests of Oxford Lane Capital. Pursuant to our Code of Ethics,

each employee and director must disclose any conflicts of interest, or actions or relationships that might give rise to a conflict, to our Chief Compliance Officer. Our Audit Committee is charged with approving any waivers under our Code of Ethics. As required by the NASDAQ Stock Market corporate governance listing standards, the Audit Committee of our Board of Directors is also required to review and approve any transactions with related parties (as such term is defined in Item 404 of Regulation S-K).

CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS

The following table sets forth, as of June 5, 2014, certain information regarding the beneficial ownership of our common stock and preferred stock by each of our directors, executive officers, each person known to us to beneficially own 5% or more of the outstanding shares of our common stock or preferred stock, and the executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. Ownership information for those persons who beneficially own 5% or more of our shares of common stock or preferred stock is based upon Schedule 13G or 13D filings by such persons with the SEC and other information obtained from such persons, if available.

Unless otherwise indicated, the Company believes that each beneficial owner set forth in the table has sole voting and investment power and has the same address as the Company. Our address is 8 Sound Shore Drive, Suite 255, Greenwich, Connecticut 06830.

Name of Beneficial Owner	Number of Shares of Common Stock Beneficially Owned ⁽¹⁾	Percentage of Class of Common Stock ⁽²⁾	Number of Shares of Preferred Stock Beneficially Owned ⁽¹⁾	Percentage of Class of Preferred Stock ⁽²⁾

The dollar range of equity securities beneficially owned in us is based on the closing price for our common stock of (2)\$17.68 on June 4, 2014 on the NASDAQ Global Select Market. Beneficial ownership has been determined in accordance with Rule 16a-1(a)(2) of the Exchange Act.

REGULATION AS A REGISTERED CLOSED-END MANAGEMENT INVESTMENT COMPANY

General

We are a non-diversified closed-end management investment company that has registered as an investment company under the 1940 Act. As a registered closed-end investment company, we are subject to regulation under the 1940 Act. Under the 1940 Act, unless authorized by vote of a majority of the outstanding voting securities, we may not:

change our classification to an open-end management investment company; except in each case in accordance with our policies with respect thereto set forth in this prospectus, borrow money, issue senior securities, underwrite securities issued by other persons, purchase or sell real estate or commodities or make loans to other persons;

deviate from any policy in respect of concentration of investments in any particular industry or group of industries as recited in this prospectus, deviate from any investment policy which is changeable only if authorized by shareholder vote under the 1940 Act, or deviate from any fundamental policy recited in its registration statement in accordance with the requirements of the 1940 Act; or

change the nature of our business so as to cease to be an investment company.

A majority of the outstanding voting securities of a company is defined under the 1940 Act as the lesser of: (a) 67% or more of such company s voting securities present at a meeting if more than 50% of the outstanding voting securities of such company are present or represented by proxy, or (b) more than 50% of the outstanding voting securities of such company.

As with other companies regulated by the 1940 Act, a registered closed-end management investment company must adhere to certain substantive regulatory requirements. A majority of our directors must be persons who are not interested persons, as that term is defined in the 1940 Act. Additionally, we are required to provide and maintain a bond issued by a reputable fidelity insurance company to protect the closed-end management investment company. Furthermore, as a registered closed-end management investment company, we are prohibited from protecting any director or officer against any liability to us or our stockholders arising from willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of such person s office. We may also be prohibited under the 1940 Act from knowingly participating in certain transactions with our affiliates without the prior approval of our directors who are not interested persons and, in some cases, prior approval by the SEC.

As a registered closed-end management investment company, we are generally required to meet an asset coverage ratio with respect to our outstanding senior securities representing indebtedness, defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, of at least 300% after each issuance of senior securities representing indebtedness. In addition, we are generally required to meet an asset coverage ratio with respect to our outstanding Preferred Stock, as defined under the 1940 Act as the ratio of our gross assets (less all liabilities and indebtedness not represented by senior securities) to our outstanding senior securities representing indebtedness, plus the aggregate involuntary liquidation preference of our outstanding Preferred Stock, of at least 200% immediately after each issuance of such Preferred Stock. We are also prohibited from issuing or selling any senior security if, immediately after such issuance, we would have outstanding more than (i) one class of senior security representing indebtedness, exclusive of any promissory notes or other evidences of indebtedness issued in consideration of any loan, extension, or renewal thereof, made by a bank or other person and privately arranged, and not intended to be publicly distributed, or (ii) one class of senior security which is stock, except that in each case any such class of indebtedness or stock may

be issued in one or more series.

We are generally not able to issue and sell our common stock at a price below net asset value per share. See Risk Factors Risks Relating to Our Business and Structure Regulations governing our operation as a closed-end investment company affect our ability to, and the way in which we, raise additional capital. We may, however, sell our common stock, or at a price below the then-current net asset value of our common

69

General 169

TABLE OF CONTENTS

stock if our Board of Directors determines that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve such sale. In addition, we may generally issue new shares of our common stock at a price below net asset value in rights offerings to existing stockholders, in payment of dividends and in certain other limited circumstances.

As a registered closed-end management investment company, we are generally limited in our ability to invest in any portfolio company in which our investment adviser or any of its affiliates currently has an investment or to make any co-investments with our investment adviser or its affiliates without an exemptive order from the SEC, subject to certain exceptions.

Although we do not presently expect to do so, we are authorized to borrow funds up to an amount not to exceed the limitations of the 1940 Act to make investments. We may also borrow funds, consistent with the foregoing limitations of the 1940 Act, in order to make the distributions required to maintain our status as a RIC under Subchapter M of the Code.

We will be periodically examined by the SEC for compliance with the 1940 Act.

As a registered closed-end management investment company, we are subject to certain risks and uncertainties. See Risk Factors Risks Relating to Our Business and Structure.

Temporary Investments

Pending investment in portfolio securities consistent with our investment objective and strategies described in this prospectus, our investments may consist of cash, cash equivalents, U.S. government securities or high-quality debt securities maturing in one year or less from the time of investment, which we refer to, collectively, as temporary investments. Typically, we will invest in U.S. Treasury bills or in repurchase agreements, provided that such agreements are fully collateralized by cash or securities issued by the U.S. government or its agencies. A repurchase agreement involves the purchase by an investor, such as us, of a specified security and the simultaneous agreement by the seller to repurchase it at an agreed-upon future date and at a price which is greater than the purchase price by an amount that reflects an agreed-upon interest rate. There is no percentage restriction on the proportion of our assets that may be invested in such repurchase agreements. However, if more than 25% of our gross assets constitute repurchase agreements from a single counterparty, we would not meet the diversification tests in order to qualify as a RIC for federal income tax purposes. Thus, we do not intend to enter into repurchase agreements with a single counterparty in excess of this limit. Our investment adviser will monitor the creditworthiness of the counterparties with which we enter into repurchase agreement transactions.

Senior Securities

We are permitted, under specified conditions, to issue one class of indebtedness and one class of stock senior to our common stock if our asset coverage, as defined in the 1940 Act, is at least equal to 300% immediately after each such issuance. We are also permitted to issue promissory notes or other evidences of indebtedness in consideration of a loan, extension, or renewal thereof, made by a bank or other person and privately arranged, and not intended to be publicly distributed, provided that our asset coverage is at least equal to 300% immediately thereafter. In addition, while any senior securities remain outstanding, we must make provisions to prohibit any distribution to our stockholders or the repurchase of such securities or shares unless we meet the applicable asset coverage ratios at the time of the distribution or repurchase. We may also borrow amounts up to 5% of the value of our gross assets for temporary or emergency purposes without regard to asset coverage. For a discussion of the risks associated with

leverage, see Risk Factors Risks Relating to Our Business and Structure We may borrow money, which would magnify the potential for gain or loss on amounts invested and may increase the risk of investing in us.

Code of Ethics

We and Oxford Lane Management have each adopted a code of ethics pursuant to Rule 17j-1 under the 1940 Act and Rule 204A-1 under the Advisers Act, respectively, that establishes procedures for personal investments and restricts certain transactions by our personnel. Our codes of ethics generally do not permit investments by our employees in securities that may be purchased or held by us. You may read and copy these codes of ethics at the SEC s Public Reference Room in Washington, D.C. You may obtain information

70

Senior Securities 171

on the operation of the Public Reference Room by calling the SEC at (202) 551-8090. In addition, each code of ethics is attached as an exhibit to the registration statement of which this prospectus is a part, and is available on the EDGAR Database on the SEC s Internet site at http://www.sec.gov. You may also obtain copies of the codes of ethics, after paying a duplicating fee, by electronic request at the following Email address: publicinfo@sec.gov, or by writing the SEC s Public Reference Section, 100 F Street, N.E., Washington, D.C. 20549.

Compliance Policies and Procedures

We and our investment adviser have adopted and implemented written policies and procedures reasonably designed to detect and prevent violation of the federal securities laws and are required to review these compliance policies and procedures annually for their adequacy and the effectiveness of their implementation and designate a Chief Compliance Officer to be responsible for administering the policies and procedures. Patrick F. Conroy currently serves as our Chief Compliance Officer.

Sarbanes-Oxley Act of 2002

The Sarbanes-Oxley Act of 2002 imposes a wide variety of regulatory requirements on publicly-held companies and their insiders. Many of these requirements affect us. For example:

pursuant to Rule 30a-2 of the 1940 Act, our chief executive officer and chief financial officer must certify the accuracy of the financial statements contained in our periodic reports;

pursuant to Item 11 of Form N-CSR and Item 2 of Form N-Q, our periodic reports must disclose our conclusions about the effectiveness of our disclosure controls and procedures; and

pursuant to Item 11 of Form N-CSR and Item 2 of Form N-Q, our periodic reports must disclose whether there were significant changes in our internal controls over financial reporting or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

The Sarbanes-Oxley Act requires us to review our current policies and procedures to determine whether we comply with the Sarbanes-Oxley Act and the regulations promulgated thereunder. We will continue to monitor our compliance with all regulations that are adopted under the Sarbanes-Oxley Act and will take actions necessary to ensure that we are in compliance therewith.

Fundamental Investment Policies

The restrictions identified as fundamental below, along with our investment objective, are our only fundamental policies. Fundamental policies may not be changed without the approval of the holders of a majority of our outstanding voting securities, as defined in the 1940 Act. The percentage restrictions set forth below, apply at the time a transaction is effected, and a subsequent change in a percentage resulting from market fluctuations or any cause will not require us to dispose of portfolio securities or to take other action to satisfy the percentage restriction.

As a matter of fundamental policy, we will not: (1) act as an underwriter of securities of other issuers (except to the extent that we may be deemed an underwriter of securities we purchase that must be registered under the Securities Act before they may be offered or sold to the public); (2) purchase or sell real estate or interests in real estate or real estate investment trusts (except that we may (A) purchase and sell real estate or interests in real estate in connection with the orderly liquidation of investments, or in connection with foreclosure on collateral, or (B) own the securities of companies that are in the business of buying, selling or developing real estate); (3) sell securities short (except with

Code of Ethics 172

regard to managing the risks associated with publicly-traded securities we may hold in our portfolio); (4) purchase securities on margin (except to the extent that we may purchase securities with borrowed money); or (5) engage in the purchase or sale of commodities or commodity contracts, including futures contracts (except where necessary in working out distressed investment situations or in hedging the risks associated with interest rate fluctuations), and, in such cases, only after all necessary registrations (or exemptions from registration) with the Commodity Futures

Trading Commission have been obtained.

We may invest up to 100% of our assets in securities issued by CLO vehicles and in corporate debt instruments, which may be acquired directly in privately negotiated transactions or in secondary market

purchases. With respect to securities we acquired directly in privately negotiated transactions, we may, for the purpose of public resale, be deemed an underwriter as that term is defined in the Securities Act. Our intention is to not write (sell) or buy put or call options to manage risks associated with any publicly-traded securities we may hold, except that we may enter into hedging transactions to manage the risks associated with interest rate fluctuations, and, in such cases, only after all necessary registrations (or exemptions from registration) with the Commodity Futures Trading Commission have been obtained. We also do not intend to acquire securities issued by any investment company that exceed the limits imposed by the 1940 Act. Under these limits, unless otherwise permitted by the 1940 Act, we currently cannot acquire more than 3% of the voting securities of any registered investment company, invest more than 5% of the value of our total assets in the securities of one investment company or invest, in the aggregate, in excess of 10% of the value of our total assets in the securities of one or more investment companies. With regard to that portion of our portfolio invested in securities issued by investment companies, it should be noted that such investments might subject our stockholders to additional expenses.

Proxy Voting Policies and Procedures

We have delegated our proxy voting responsibility to Oxford Lane Management. The Proxy Voting Policies and Procedures of Oxford Lane Management are set forth below. The guidelines will be reviewed periodically by Oxford Lane Management and our non-interested directors, and, accordingly, are subject to change. For purposes of these Proxy Voting Policies and Procedures described below, we, our and us refers to Oxford Lane Management.

Introduction

An investment adviser registered under the Advisers Act has a fiduciary duty to act solely in the best interests of its clients. As part of this duty, we recognize that we must vote client securities in a timely manner free of conflicts of interest and in the best interests of our clients.

These policies and procedures for voting proxies for our investment advisory clients are intended to comply with Section 206 of, and Rule 206(4)-6 under, the Advisers Act.

Proxy Policies

We will vote proxies relating to our portfolio securities in what we perceive to be the best interest of our clients stockholders. We will review on a case-by-case basis each proposal submitted to a stockholder vote to determine its impact on the portfolio securities held by our clients. Although we will generally vote against proposals that may have a negative impact on our clients portfolio securities, we may vote for such a proposal if there exist compelling long-term reasons to do so.

Our proxy voting decisions will be made by the senior officers who are responsible for monitoring each of our clients investments. To ensure that our vote is not the product of a conflict of interest, we will require that: (1) anyone involved in the decision making process disclose to our managing members any potential conflict that he or she is aware of and any contact that he or she has had with any interested party regarding a proxy vote; and (2) employees involved in the decision making process or vote administration are prohibited from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties.

Proxy Voting Records

You may obtain information about how we voted proxies by making a written request for proxy voting information to: Oxford Lane Management, LLC, 8 Sound Shore Drive, Suite 255, Greenwich, CT 06830.

Privacy Policy

We are committed to protecting your privacy. This privacy notice, which is required by federal law, explains privacy policies of Oxford Lane Capital Corp. and its affiliated companies. This notice supersedes any other privacy notice you may have received from Oxford Lane Capital Corp., and its terms apply both to our current stockholders and to former stockholders as well.

We will safeguard, according to strict standards of security and confidentiality, all information we receive about you. With regard to this information, we maintain procedural safeguards that comply with federal standards.

TABLE OF CONTENTS

Our goal is to limit the collection and use of information about you. When you purchase shares of our common stock, our transfer agent collects personal information about you, such as your name, address, social security number or tax identification number.

This information is used only so that we can send you annual reports, proxy statements and other information required by law, and to send you information we believe may be of interest to you.

We do not share such information with any non-affiliated third party except as described below:

It is our policy that only authorized employees of our investment adviser, Oxford Lane Management, LLC, who need to know your personal information will have access to it.

We may disclose stockholder-related information to companies that provide services on our behalf, such as record keeping, processing your trades, and mailing you information. These companies are required to protect your information and use it solely for the purpose for which they received it.

If required by law, we may disclose stockholder-related information in accordance with a court order or at the request of government regulators. Only that information required by law, subpoena, or court order will be disclosed.

73

Privacy Policy 176

DETERMINATION OF NET ASSET VALUE

We determine the net asset value per share of our common stock by dividing the value of our portfolio investments, cash and other assets (including interest accrued but not collected) less all its liabilities (including accrued expenses, borrowings and interest payable) by the total number of shares of our common stock outstanding on a quarterly basis. The most significant estimate inherent in the preparation of our financial statements is the valuation of investments and the related amounts of unrealized appreciation and depreciation of investments recorded. There is no single method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. We are required to specifically fair value each individual investment on a quarterly basis.

Our Board of Directors determines the value of our investment portfolio each quarter, after consideration of our Valuation Committee's recommendation of fair value. Oxford Lane Management compiles relevant information, including a financial summary, covenant compliance review and recent trading activity in the security, if known. All available information, including non-binding indicative bids which may not be considered reliable, will be presented to the Valuation Committee to consider in making its recommendation of fair value to the Board of Directors. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Valuation Committee will consider the number of trades, the size and timing of each trade, and other circumstances around such trades, to the extent such information is available, in making its recommendation of fair value to the Board of Directors. We may elect to engage third-party valuation firms to provide assistance to our Valuation Committee and Board of Directors in valuing certain of our investments. The Valuation Committee will evaluate the impact of such additional information, and factor it into its consideration of fair value.

Determinations in Connection with Offerings

In connection with any offering of shares of our common stock, our Board of Directors or an authorized committee thereof will be required to make the determination that we are not selling shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made. Our Board of Directors or an authorized committee thereof will consider the following factors, among others, in making such determination:

the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC; our management s assessment of whether any material change in the net asset value of our common stock has occurred (including through the realization of gains on the sale of our portfolio securities) during the period beginning on the date of the most recently disclosed net asset value of our common stock and ending two days prior to the date of the sale of our common stock; and

the magnitude of the difference between (i) a value that our Board of Directors or an authorized committee thereof has determined reflects the current net asset value of our common stock, which is based upon the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC, as adjusted to reflect our management s assessment of any material change in the net asset value of our common stock since the date of the most recently disclosed net asset value of our common stock, and (ii) the offering price of the shares of our common stock in the proposed offering.

Moreover, to the extent that there is even a remote possibility that we may (i) issue shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made or (ii) trigger the undertaking (which we provide in certain registration statements we file with the SEC) to suspend the offering of shares of our common stock pursuant to this prospectus if the net asset value of our common stock fluctuates by

certain amounts in certain circumstances until the prospectus is amended, our Board of Directors will elect, in the case of clause (i) above, either to postpone the offering until such time that there is no longer the possibility of the occurrence of such event or to undertake to determine the net asset value of our common stock within two days prior to any such sale to ensure that such

TABLE OF CONTENTS

sale will not be below our then current net asset value, and, in the case of clause (ii) above, to comply with such undertaking or to undertake to determine the net asset value of our common stock to ensure that such undertaking has not been triggered.

These processes and procedures are part of our compliance policies and procedures. Records will be made contemporaneously with all determinations described in this section and these records will be maintained with other records that we are required to maintain under the 1940 Act.

DIVIDEND REINVESTMENT PLAN

We have adopted a dividend reinvestment plan that provides for reinvestment of our dividends and other distributions on behalf of our stockholders, unless a stockholder elects to receive cash as provided below. As a result, if our Board of Directors authorizes, and we declare, a cash distribution, our stockholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions.

No action will be required on the part of a registered stockholder to have his cash distribution reinvested in shares of our common stock. A registered stockholder may elect to receive an entire distribution in cash by notifying Computershare Trust Company, N.A., the plan administrator and our transfer agent and registrar, in writing so that such notice is received by the plan administrator no later than the record date for distributions to stockholders. The plan administrator will set up an account for shares acquired through the plan for each stockholder who has not elected to receive distributions in cash and hold such shares in non-certificated form. Upon request by a stockholder participating in the plan, received in writing not less than 10 days prior to the record date, the plan administrator will, instead of crediting shares to the participant s account, issue a certificate registered in the participant s name for the number of whole shares of our common stock and a check for any fractional share.

Those stockholders whose shares are held by a broker or other financial intermediary may receive distributions in cash by notifying their broker or other financial intermediary of their election.

We intend to use primarily newly issued shares to implement the plan, whether our shares are trading at a premium or at a discount to net asset value. However, we reserve the right to purchase shares in the open market in connection with our implementation of the plan. If we declare a distribution to stockholders, the plan administrator may be instructed not to credit accounts with newly-issued shares and instead to buy shares in the market if (i) the price at which newly-issued shares are to be credited does not exceed 110% of the last determined net asset value of the shares; or (ii) we have advised the plan administrator that since such net asset value was last determined, we have become aware of events that indicate the possibility of a material change in per share net asset value as a result of which the net asset value of the shares on the payment date might be higher than the price at which the plan administrator would credit newly-issued shares to stockholders. The number of shares to be issued to a stockholder is determined by dividing the total dollar amount of the distribution payable to such stockholder by an amount equal to ninety-five (95%) percent of the market price per share of our common stock at the close of regular trading on the valuation date for such distribution. Market price per share on that date will be the closing price for such shares on the national securities exchange on which our shares are then listed or, if no sale is reported for such day, at the average of their reported bid and asked prices. The number of shares of our common stock to be outstanding after giving effect to payment of the distribution cannot be established until the value per share at which additional shares will be issued has been determined and elections of our stockholders have been tabulated.

There will be no brokerage charges or other charges to stockholders who participate in the plan. The plan administrator s fees under the plan will be paid by us. If a participant elects by written notice to the plan administrator to have the plan administrator sell part or all of the shares held by the plan administrator in the participant s account and remit the proceeds to the participant, the plan administrator is authorized to deduct a transaction fee of \$2.50 plus a per share brokerage commissions from the proceeds.

Stockholders who receive distributions in the form of stock are subject to the same federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. A stockholder s basis for determining gain or loss upon the sale of stock received in a distribution from us will be equal to the total dollar amount of the

distribution payable to the stockholder. Any stock received in a distribution will have a new holding period for tax purposes commencing on the day following the day on which the shares are credited to the stockholder s account.

The plan may be terminated by us upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any distribution by us. All correspondence concerning the plan should be directed to the plan administrator by mail at 250 Royall Street, Canton, MA 02021 or by phone at (781) 575-2973.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a general summary of the material U.S. federal income tax considerations applicable to us and to an investment in our shares of common stock. This summary does not purport to be a complete description of the income tax considerations applicable to such an investment. For example, we have not described tax consequences that may be relevant to certain types of holders subject to special treatment under U.S. federal income tax laws, including stockholders subject to the alternative minimum tax, tax-exempt organizations, insurance companies, dealers in securities, a trader in securities that elects to use a market-to-market method of accounting for its securities holdings, pension plans and trusts, and financial institutions. This summary assumes that investors hold our common stock as capital assets (within the meaning of the Code). The discussion is based upon the Code, Treasury regulations, and administrative and judicial interpretations, each as of the date of this prospectus and all of which are subject to change, possibly retroactively, which could affect the continuing validity of this discussion. We have not sought and will not seek any ruling from the Internal Revenue Service regarding this offering. This summary does not discuss any aspects of U.S. estate or gift tax or foreign, state or local tax. It does not discuss the special treatment under U.S. federal income tax laws that could result if we invested in tax-exempt securities or certain other investment assets.

This summary does not discuss the consequences of an investment in shares of our preferred stock, subscription rights to purchase shares of our common stock or debt securities. The U.S. federal income tax consequences of such an investment will be discussed in a relevant prospectus supplement.

A U.S. stockholder generally is a beneficial owner of shares of our common stock who is for U.S. federal income tax purposes:

A citizen or individual resident of the United States:

A corporation or other entity treated as a corporation, for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

A trust if a court within the United States is asked to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantive decisions of the trust (or a trust that has made a valid election to be treated as a U.S. trust); or

An estate, the income of which is subject to U.S. federal income taxation regardless of its source.

A Non-U.S. stockholder generally is a beneficial owner of shares of our common stock who is not a U.S. stockholder.

If a partnership (including an entity treated as a partnership for U.S. federal income tax purposes) holds shares of our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A prospective stockholder that is a partner of a partnership holding shares of our common stock should consult his, her or its tax advisers with respect to the purchase, ownership and disposition of shares of our common stock.

Tax matters are complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of his, her or its particular situation. We encourage investors to consult their own tax advisers regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

Election to be Taxed as a RIC

We have elected to be treated, and intend to continue to qualify, as a RIC under Subchapter M of the Code. As a RIC, we generally will not have to pay corporate-level federal income taxes on any income that we distribute to our stockholders as dividends. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements (as described below). In addition, in order to be eligible for pass-through tax treatment as a RIC, we must distribute to our stockholders, for each taxable

year, at least 90% of our investment company taxable income, which is generally our net ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses (the Annual Distribution Requirement).

Taxation as a Regulated Investment Company

If we:

qualify as a RIC; and satisfy the Annual Distribution Requirement,

then we will not be subject to federal income tax on the portion of our income we distribute (or are deemed to distribute) to stockholders. We will be subject to U.S. federal income tax at the regular corporate rates on any income or capital gains not distributed (or deemed distributed) to our stockholders.

We will be subject to a 4% nondeductible federal excise tax on certain undistributed income unless we distribute in a timely manner an amount at least equal to the sum of (1) 98% of our net ordinary income for each calendar year, (2) 98.2% of our capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income recognized, but not distributed, in preceding years (the Excise Tax Avoidance Requirement). We generally will endeavor in each year to make sufficient distributions to our stockholders to avoid any U.S. federal excise tax on our earnings.

In order to qualify as a RIC for federal income tax purposes, we must, among other things:

derive in each taxable year at least 90% of our gross income from dividends, interest, payments with respect to loans of certain securities, gains from the sale of stock or other securities, net income from certain qualified publicly traded partnerships, or other income derived with respect to our business of investing in such stock or securities (the 90% Income Test); and

diversify our holdings so that at the end of each quarter of the taxable year: at least 50% of the value of our assets consists of cash, cash equivalents, U.S. Government securities, securities of other RICs, and other securities if such other securities of any one issuer do not represent more than 5% of the value of our assets or more than 10% of the outstanding voting securities of the issuer; and no more than 25% of the value of our assets is invested in the securities, other than U.S. government securities or securities of other RICs, of one issuer, of two or more issuers that are controlled, as determined under applicable Code rules, by us and that are engaged in the same or similar or related trades or businesses, or of certain qualified publicly traded partnerships (the Diversification Tests).

We may be required to recognize taxable income in circumstances in which we do not receive cash. For example, if we hold debt obligations that are treated under applicable tax rules as having original issue discount (which may arise if we receive warrants in connection with the origination of a loan or possibly in other circumstances), we must include in income each year a portion of the original issue discount that accrues over the life of the obligation, regardless of whether cash representing such income is received by us in the same taxable year. We may also have to include in income other amounts that we have not yet received in cash, such as contractual payment-in-kind, or PIK, interest (which represents contractual interest added to the loan balance and due at the end of the loan term) and deferred loan origination fees that are paid after origination of the loan or are paid in non-cash compensation such as warrants or stock. Because any original issue discount or other amounts accrued will be included in our investment company taxable income for the year of accrual, we may be required to make a distribution to our stockholders in order to satisfy the Annual Distribution Requirement and the Excise Tax Avoidance Requirement, even though we will not have received any corresponding cash amount.

TABLE OF CONTENTS

Although we do not presently expect to do so, we are authorized to borrow funds and to sell assets in order to satisfy distribution requirements. However, under the 1940 Act, we are not permitted to make distributions to our stockholders while our debt obligations and other senior securities are outstanding unless certain asset coverage tests are met. See Regulation as a Registered Closed-End Management Investment Company Senior Securities. Moreover, our ability to dispose of assets to meet our distribution requirements may be limited by (1) the illiquid nature of our portfolio and/or (2) other requirements relating to our status as a RIC, including the Diversification Tests. If we dispose of assets in order to meet the Annual Distribution Requirement or the Excise Tax Avoidance Requirement, we may make such dispositions at times that, from an investment standpoint, are not advantageous.

Certain of our investment practices may be subject to special and complex U.S. federal income tax provisions that may, among other things: (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions; (ii) convert lower taxed long-term capital gain into higher taxed short-term capital gain or ordinary income; (iii) convert an ordinary loss or a deduction into a capital loss (the deductibility of which is more limited); (iv) cause us to recognize income or gain without a corresponding receipt of cash; (v) adversely affect the time as to when a purchase or sale of securities is deemed to occur; (vi) adversely alter the characterization of certain complex financial transactions; and (vii) produce income that will not be qualifying income for purposes of the 90% gross income test described above. We will monitor its transactions and may make certain tax elections in order to mitigate the potential adverse effect of these provisions.

Our investment in foreign securities may be subject to non-U.S. withholding taxes. In that case, our yield on those securities would be decreased. Stockholders will generally not be entitled to claim a credit or deduction with respect to non-U.S. taxes paid by us.

We anticipate that the CLO vehicles in which we invest may constitute passive foreign investment companies (PFICs). Because we acquire shares in PFICs (including equity tranche investments in CLO vehicles that are PFICs), we may be subject to federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by us to our stockholders. Additional charges in the nature of interest may be imposed on us in respect of deferred taxes arising from any such excess distributions or gains. If we invest in a PFIC and elect to treat the PFIC as a qualified electing fund under the Code (a QEF), in lieu of the foregoing requirements, we will be required to include in income each year a our proportionate share of the ordinary earnings and net capital gain of the QEF, even if such income is not distributed to us. Alternatively, we can elect to mark-to-market at the end of each taxable year our shares in a PFIC; in this case, we will recognize as ordinary income any increase in the value of such shares, and as ordinary loss any decrease in such value to the extent it does not exceed prior increases included in our income. Under either election, we may be required to recognize in a year income in excess of our distributions from PFICs and our proceeds from dispositions of PFIC stock during that year, and we must distribute such income to satisfy the Annual Distribution Requirement and the Excise Tax Avoidance Requirement.

If we hold more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation (CFC) (including equity tranche investments in a CLO vehicle treated as CFC), we may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to our pro rata share of the corporation is income for the tax year (including both ordinary earnings and capital gains), whether or not the corporation makes an actual distribution during such year. This deemed distribution is required to be included in the income of a U.S. Shareholder of a CFC regardless of whether the shareholder has made a QEF election with respect to such CFC. In general, a foreign corporation will be classified as a CFC if more than 50% of the shares of the corporation, measured by reference to combined voting power or value, is owned (directly, indirectly or by attribution) by U.S. Shareholders. A U.S. Shareholder, for this purpose, is any U.S. person that possesses (actually or constructively) 10% or more of the combined voting power of all classes of shares of a corporation. If we are treated

as receiving a deemed distribution from a CFC, we will be required to include such distribution in our investment company taxable income regardless of whether we receive any actual distributions from such CFC, and we must distribute such income to satisfy the Annual Distribution Requirement and the Excise Tax Avoidance Requirement.

TABLE OF CONTENTS

FATCA imposes a withholding tax of 30% on payments of U.S. source interest and dividends paid after June 30, 2014, or gross proceeds from the disposition of a instrument that produces U.S. source interest or dividends paid after December 31, 2016, to certain non-U.S. entities, including certain non-U.S. financial institutions and investment funds, unless such non-U.S. entity complies with certain reporting requirements regarding its United States account holders and its United States owners. Most CLO vehicles in which we invest will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which we invest fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect our operating results and cash flows.

Under Section 988 of the Code, gains or losses attributable to fluctuations in exchange rates between the time we accrue income, expenses or other liabilities denominated in a foreign currency and the time we actually collect such income or pay such expenses or liabilities are generally treated as ordinary income or loss. Similarly, gains or losses on foreign currency forward contracts and the disposition of debt obligations denominated in a foreign currency, to the extent attributable to fluctuations in exchange rates between the acquisition and disposition dates, are also treated as ordinary income or loss.

Gain or loss realized by us from the sale or exchange of warrants acquired by us as well as any loss attributable to the lapse of such warrants generally will be treated as capital gain or loss. The treatment of such gain or loss as long-term or short-term will depend on how long we held a particular warrant. Upon the exercise of a warrant acquired by us, our tax basis in the stock purchased under the warrant will equal the sum of the amount paid for the warrant plus the strike price paid on the exercise of the warrant.

The remainder of this discussion assumes that we qualify as a RIC and have satisfied the Annual Distribution Requirement.

Taxation of U.S. Stockholders

Distributions by us generally are taxable to U.S. stockholders as ordinary income or capital gains. Distributions of our investment company taxable income (which is, generally, our net ordinary income plus realized net short-term capital gains in excess of realized net long-term capital losses) will be taxable as ordinary income to U.S. stockholders to the extent of our current or accumulated earnings and profits, whether paid in cash or reinvested in additional common stock. To the extent such distributions paid by us to non-corporate stockholders (including individuals) are attributable to dividends from U.S. corporations and certain qualified foreign corporations, such distributions (Qualifying Dividends) may be eligible for a maximum tax rate of 20%. In this regard, it is anticipated that distributions paid by us will generally not be attributable to dividends and, therefore, generally will not qualify for the 20% maximum rate applicable to Qualifying Dividends. Distributions of our net capital gains (which are generally our realized net long-term capital gains in excess of realized net short-term capital losses) and properly reported by us as capital gain dividends will be taxable to a U.S. stockholder as long-term capital gains that are currently taxable at a maximum rate of 20% in the case of individuals, trusts or estates, regardless of the U.S. stockholder s holding period for his, her or its common stock and regardless of whether paid in cash or reinvested in additional common stock. Distributions in excess of our earnings and profits first will reduce a U.S. stockholder s adjusted tax basis in such stockholder s common stock and, after the adjusted basis is reduced to zero, will constitute capital gains to such U.S. stockholder.

Under the dividend reinvestment plan, our stockholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions. Any distributions reinvested under the plan will nevertheless remain taxable to U.S.

stockholders. A U.S. stockholder will have an adjusted basis in the additional common shares purchased through the plan equal to the amount of the reinvested distribution. The additional shares will have a new holding period commencing on the day following the day on which the shares are credited to the U.S. stockholder s account.

TABLE OF CONTENTS

We may retain some or all of our realized net long-term capital gains in excess of realized net short-term capital losses, but designate the retained net capital gain as a deemed distribution. In that case, among other consequences, we will pay tax on the retained amount, each U.S. stockholder will be required to include his, her or its share of the deemed distribution in income as if it had been actually distributed to the U.S. stockholder, and the U.S. stockholder will be entitled to claim a credit equal to his, her or its allocable share of the tax paid thereon by us. Because we expect to pay tax on any retained capital gains at our regular corporate tax rate, and because that rate is in excess of the maximum rate currently payable by individuals on long-term capital gains, the amount of tax that individual U.S. stockholders will be treated as having paid will exceed the tax they owe on the capital gain distribution and such excess generally may be refunded or claimed as a credit against the U.S. stockholder s other U.S. federal income tax obligations. The amount of the deemed distribution net of the tax paid by us on the retained capital gains will be added to the U.S. stockholder s cost basis for his, her or its common stock. In order to utilize the deemed distribution approach, we must provide written notice to our stockholders prior to the expiration of 60 days after the close of the relevant taxable year. We cannot treat any of our investment company taxable income as a deemed distribution.

As a RIC, we will be subject to the alternative minimum tax (AMT), but any items that are treated differently for AMT purposes must be apportioned between us and our stockholders and this may affect our stockholders AMT liabilities. Although regulations explaining the precise method of apportionment have not yet been issued by the Internal Revenue Service, we intend in general to apportion these items in the same proportion that dividends paid to each stockholder bear to our taxable income (determined without regard to the dividends paid deduction), unless we determines that a different method for a particular item is warranted under the circumstances.

For purposes of determining (1) whether the Annual Distribution Requirement is satisfied for any year and (2) the amount of capital gain dividends paid for that year, we may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If we make such an election, the U.S. stockholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by us in October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by our U.S. stockholders on December 31 of the year in which the dividend was declared.

If an investor purchases shares of our common stock shortly before the record date of a distribution, the price of the shares will include the value of the distribution and the investor will be subject to tax on the distribution even though economically it may represent a return of his, her or its investment.

A stockholder generally will recognize taxable gain or loss if the stockholder sells or otherwise disposes of his, her or its shares of our common stock. The amount of gain or loss will be measured by the difference between such stockholder s adjusted tax basis in the common stock sold and the amount of the proceeds received in exchange. Any gain arising from such sale or disposition generally will be treated as long-term capital gain or loss if the stockholder has held his, her or its shares for more than one year. Otherwise, it will be classified as short-term capital gain or loss. However, any capital loss arising from the sale or disposition of shares of our common stock held for six months or less will be treated as long-term capital loss to the extent of the amount of capital gain dividends received, or undistributed capital gain deemed received, with respect to such shares. In addition, all or a portion of any loss recognized upon a disposition of shares of our common stock may be disallowed if other shares of our common stock are purchased (whether through reinvestment of distributions or otherwise) within 30 days before or after the disposition.

The maximum rate on long-term capital gains for non-corporate taxpayers is 20%. In addition, individuals with income in excess of \$200,000 (\$250,000 in the case of married individuals filing jointly) and certain estates and trusts

are subject to an additional 3.8% tax on their net investment income, which generally includes net income from interest, dividends, annuities, royalties, and rents, and net capital gains (other than certain amounts earned from trades or businesses). Corporate U.S. stockholders currently are subject to federal income tax on net capital gain at the maximum 35% rate also applied to ordinary income. Non-corporate stockholders with net capital losses for a year (i.e., capital losses in excess of capital gains) generally may deduct up to \$3,000 of such losses against their ordinary income each year; any net capital

TABLE OF CONTENTS

losses of a non-corporate stockholder in excess of \$3,000 generally may be carried forward and used in subsequent years as provided in the Code. Corporate stockholders generally may not deduct any net capital losses for a year, but may carry back such losses for three years or carry forward such losses for five years.

We or the applicable withholding agent will report to each of our U.S. stockholders, as promptly as possible after the end of each calendar year, the amounts includible in such U.S. stockholder s taxable income for such year as ordinary income and as long-term capital gain. In addition, the federal tax status of each year s distributions generally will be reported to the Internal Revenue Service (including the amount of dividends, if any, eligible for the 20% maximum rate). Dividends paid by us generally will not be eligible for the dividends-received deduction or the preferential tax rate applicable to Qualifying Dividends because our income generally will not consist of dividends. Distributions may also be subject to additional state, local and foreign taxes depending on a U.S. stockholder s particular situation.

We may be required to withhold federal income tax (backup withholding) from all distributions to any U.S. stockholder (other than a corporation, a financial institution, or a stockholder that otherwise qualifies for an exemption) (1) who fails to furnish us with a correct taxpayer identification number or a certificate that such stockholder is exempt from backup withholding or (2) with respect to whom the Internal Revenue Service notifies us that such stockholder has failed to properly report certain interest and dividend income to the Internal Revenue Service and to respond to notices to that effect. An individual s taxpayer identification number is his or her social security number. Any amount withheld under backup withholding is allowed as a credit against the U.S. stockholder s federal income tax liability, provided that proper information is provided to the Internal Revenue Service.

Taxation of Non-U.S. Stockholders

Whether an investment in the shares is appropriate for a Non-U.S. stockholder will depend upon that person s particular circumstances. An investment in the shares by a Non-U.S. stockholder may have adverse tax consequences. Non-U.S. stockholders should consult their tax advisers before investing in our common stock.

Distributions of our investment company taxable income to Non-U.S. stockholders (including interest income and realized net short-term capital gains in excess of realized long-term capital losses, which generally would be free of withholding if paid to Non-U.S. stockholders directly) will be subject to withholding of federal tax at a 30% rate (or lower rate provided by an applicable treaty) to the extent of our current and accumulated earnings and profits unless an applicable exception applies. If the distributions are effectively connected with a U.S. trade or business of the Non-U.S. stockholder, we will not be required to withhold federal tax if the Non-U.S. stockholder complies with applicable certification and disclosure requirements, although the distributions will be subject to federal income tax at the rates applicable to U.S. persons. (Special certification requirements apply to a Non-U.S. stockholder that is a foreign partnership or a foreign trust, and such entities are urged to consult their own tax advisers.)

In addition, for taxable years prior to December 31, 2013, U.S. source withholding taxes was not imposed on dividends paid by RICs to the extent the dividends are reported as interest-related dividends or short-term capital gain dividends. Under this exemption, interest-related dividends and short-term capital gain dividends generally represent distributions of interest or short-term capital gains that would not have been subject to U.S. withholding tax at the source if they had been received directly by a foreign person, and that satisfied certain other requirements. The exemption applied to dividends with respect to taxable years of RICs beginning before January 1, 2014. No assurance can be given as to whether this extension of the exemption will be extended for taxable years after 2013. In addition, no assurance can be given whether any of our distributions will be reported as eligible for this exemption from withholding tax (if extended).

Actual or deemed distributions of our net capital gains to a stockholder that is a Non-U.S. stockholder, and gains realized by a Non-U.S. stockholder upon the sale or redemption of our common stock, will not be subject to U.S. federal income tax unless the distributions or gains, as the case may be, are effectively connected with a U.S. trade or business of the Non-U.S. stockholder (and, if an income tax treaty applies, are attributable to a permanent establishment maintained by the Non-U.S. stockholder in the United States,) or, in the case of an individual, the Non-U.S. stockholder was present in the United States for 183 days or more during the taxable year and certain other conditions are met.

TABLE OF CONTENTS

If we distribute our net capital gains in the form of deemed rather than actual distributions, a stockholder that is a Non-U.S. stockholder will be entitled to a U.S. federal income tax credit or tax refund equal to the stockholder s allocable share of the corporate-level tax we pay on the capital gains deemed to have been distributed; however, in order to obtain the refund, the Non-U.S. stockholder must obtain a U.S. taxpayer identification number and file a U.S. federal income tax return even if the Non-U.S. stockholder would not otherwise be required to obtain a U.S. taxpayer identification number or file a U.S. federal income tax return.

For a corporate Non-U.S. stockholder, distributions (both actual and deemed), and gains realized upon the sale or redemption of our common stock that are effectively connected to a U.S. trade or business may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate (or at a lower rate if provided for by an applicable treaty).

Under the dividend reinvestment plan, our stockholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock, rather than receiving the cash distributions. If the distribution is a distribution of our investment company taxable income, is not properly reported by us as a short-term capital gains dividend or interest-related dividend (assuming extension of the exemption discussed above), and is not effectively connected with a U.S. trade or business of the Non-U.S. stockholder (and, if a treaty applies, is not attributable to a permanent establishment), the amount distributed (to the extent of our current and accumulated earnings and profits) will be subject to U.S. federal withholding tax at a 30% rate (or lower rate provided by an applicable treaty) and only the net after-tax amount will be reinvested in common shares. If the distribution is effectively connected with a U.S. trade or business of the Non-U.S. stockholder (and no withholding applies because applicable certifications are provided by the Non-U.S. stockholder), generally the full amount of the distribution will be reinvested in the plan and will nevertheless be subject to U.S. federal income tax at the ordinary income rates applicable to U.S. persons. The Non-U.S. stockholder will have an adjusted basis in the additional common shares purchased through the plan equal to the amount reinvested. The additional shares will have a new holding period commencing on the day following the day on which the shares are credited to the Non-U.S. stockholder s account.

A Non-U.S. stockholder who is a non-resident alien individual, and who is otherwise subject to withholding of federal tax, may be subject to information reporting and backup withholding of federal income tax on dividends unless the Non-U.S. stockholder provides us or the dividend paying agent with an IRS Form W-8BEN or W-8BEN-E or an acceptable substitute form or otherwise meets documentary evidence requirements for establishing that it is a Non-U.S. stockholder or otherwise establishes an exemption from backup withholding.

FATCA generally imposes a 30% withholding tax on payments of certain types of income to foreign financial institutions that fail to enter into an agreement with the United States Treasury to report certain required information with respect to accounts held by United States persons (or held by foreign entities that have United States persons as substantial owners). The types of income subject to the tax include U.S. source interest and dividends paid after June 30, 2014, and the gross proceeds from the sale of any property that could produce U.S.-source interest or dividends received after December 31, 2016. The information required to be reported includes the identity and taxpayer identification number of each account holder that is a U.S. person and transaction activity within the holder s account. In addition, subject to certain exceptions, this legislation also imposes a 30% withholding on payments to foreign entities that are not financial institutions unless the foreign entity certifies that it does not have a greater than 10% U.S. owner or provides the withholding agent with identifying information on each greater than 10% U.S. owner. When these provisions become effective, depending on the status of a Non-U.S. stockholder and the status of the intermediaries through which it holds its units, a Non-U.S. stockholder could be subject to this 30% withholding tax with respect to distributions on our stock and proceeds from the sale of our stock. Under certain circumstances, a Non-U.S. stockholder might be eligible for refunds or credits of such taxes.

Non-U.S. persons should consult their own tax advisers with respect to the U.S. federal income tax and withholding tax, and state, local and foreign tax consequences of an investment in the shares.

Failure to Qualify as a Regulated Investment Company

If we were unable to qualify for treatment as a RIC, we would be subject to tax on all of our taxable income at regular corporate rates, regardless of whether we make any distributions to our stockholders. Distributions would not be required, and any distributions would be taxable to our stockholders as ordinary dividend income, and provided that certain holding periods and other requirements are met, could be eligible for the 20% maximum rate to the extent of our current and accumulated earnings and profits. Subject to certain limitations under the Code, corporate distributes would be eligible for the dividends-received deduction. Distributions in excess of our current and accumulated earnings and profits would be treated first as a return of capital to the extent of the stockholder s tax basis, and any remaining distributions would be treated as a capital gain. To requalify as a RIC in a subsequent taxable year, we would be required to satisfy the RIC qualification requirements for that year and dispose of any earnings and profits from any year in which we failed to qualify as a RIC. Subject to a limited exception applicable to RICs that qualified as such under Subchapter M of the Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the non-qualifying year, we could be subject to tax on any unrealized net built-in gains in the assets held by it during the period in which it failed to qualify as a RIC that are recognized within the subsequent 10 years, unless we made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

DESCRIPTION OF SECURITIES

This prospectus contains a summary of the common stock, preferred stock, subscription rights and debt securities. These summaries are not meant to be a complete description of each security. However, this prospectus and the accompanying prospectus supplement will contain the material terms and conditions for each security.

DESCRIPTION OF CAPITAL STOCK

The following description is based on relevant portions of the Maryland General Corporation Law and on our charter and bylaws. This summary is not necessarily complete, and we refer you to the Maryland General Corporation Law and our charter and bylaws for a more detailed description of the provisions summarized below.

Stock

The authorized stock of Oxford Lane Capital consists of 100,000,000 shares of stock, par value \$0.01 per share, 95,000,000 of which are currently designated as common stock and 5,000,000 of which are currently designated as preferred stock. Our common stock, Series 2017 Term Preferred Shares and Series 2023 Term Preferred Shares are traded on the NASDAQ Global Select Market under the ticker symbols OXLC, OXLCP, and OXLCO, respectively. We have applied to list our Series 2024 Term Preferred Shares on the NASDAQ Global Select Market and we expect trading to commence thereon within 30 days after June 5, 2014 under the symbol OXLCN. There are no outstanding options or warrants to purchase our stock. No stock has been authorized for issuance under any equity compensation plans. Under Maryland law, our stockholders generally are not personally liable for our debts or obligations.

/ A\

The following are our outstanding classes of securities as of June 5, 2014:

			(4)
		(3)	Amount
(1) Title of Class	(2)	Amount	Outstanding
	Amount	Held by Us	Exclusive of
Title of Class	Authorized	or for Our	Amounts
		Account	Shown Under
			(3)
Common stock	95,000,000		15,240,729
Preferred Stock	5,000,000		4,382,220

Under our charter our Board of Directors is authorized to classify and reclassify any unissued shares of stock into other classes or series of stock without obtaining stockholder approval. As permitted by the Maryland General Corporation Law, our charter provides that the Board of Directors, without any action by our stockholders, may amend the charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue.

Common Stock

All shares of our common stock have equal rights as to earnings, assets, voting, and dividends and, when they are issued, will be duly authorized, validly issued, fully paid and nonassessable. Distributions may be paid to the holders of our common stock if, as and when authorized by our Board of Directors and declared by us out of assets legally available therefor. Shares of our common stock have no preemptive, conversion or redemption rights and are freely transferable, except where their transfer is restricted by federal and state securities laws or by contract. In the event of our liquidation, dissolution or winding up, each share of our common stock would be entitled to share ratably in all of our assets that are legally available for distribution after we pay all debts and other liabilities and subject to any preferential rights of holders of our preferred stock, if any preferred stock is outstanding at such time. Each share of our common stock is entitled to one vote on all matters submitted to a vote of stockholders, including the election of

directors. Except as provided with respect to any other class or series of stock, the holders of our common stock will possess exclusive voting power. There is no cumulative voting in the election of directors, which means that holders of a majority of the outstanding shares of common stock can elect all of our directors, and holders of less than a majority of such shares will be unable to elect any director.

Preferred Stock

Our charter authorizes our Board of Directors to classify and reclassify any unissued shares of stock into other classes or series of stock, including preferred stock. The cost of any such reclassification would be borne by our existing common stockholders. Prior to issuance of shares of each class or series, the Board of Directors is required by Maryland law and by our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Thus, the Board of Directors could authorize the issuance of shares of preferred stock with terms and conditions which could have the effect of delaying, deferring or

86

Common Stock 199

preventing a transaction or a change in control that might involve a premium price for holders of our common stock or otherwise be in their best interest. You should note, however, that any issuance of preferred stock must comply with the requirements of the 1940 Act. The 1940 Act requires, among other things, that (1) immediately after issuance and before any dividend or other distribution is made with respect to our common stock and before any purchase of common stock is made, such preferred stock together with all other senior securities must not exceed an amount equal to 50% of our gross assets after deducting the amount of such dividend, distribution or purchase price, as the case may be, and (2) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on such preferred stock are in arrears by two full years or more. Certain matters under the 1940 Act require the separate vote of the holders of any issued and outstanding preferred stock. We believe that the availability for issuance of preferred stock will provide us with increased flexibility in structuring future financings and acquisitions. However, we do not currently have any plans to issue any additional preferred stock.

Limitation on Liability of Directors and Officers; Indemnification and Advance of Expenses

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (a) actual receipt of an improper benefit or profit in money, property or services or (b) active and deliberate dishonesty established by a final judgment as being material to the cause of action. Our charter contains such a provision which eliminates directors and officers liability to the maximum extent permitted by Maryland law, subject to the requirements of the 1940 Act.

Our charter authorizes us, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer or any individual who, while serving as our director or officer and at our request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee, from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse their reasonable expenses in advance of final disposition of a proceeding. Our bylaws obligate us, to the maximum extent permitted by Maryland law and subject to the requirements of the 1940 Act, to indemnify any present or former director or officer or any individual who, while serving as our director or officer and at our request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or other enterprise as a director, officer, partner or trustee and who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity from and against any claim or liability to which that person may become subject or which that person may incur by reason of his or her service in any such capacity and to pay or reimburse his or her reasonable expenses in advance of final disposition of a proceeding. The charter and bylaws also permit us to indemnify and advance expenses to any person who served a predecessor of us in any of the capacities described above and any of our employees or agents or any employees or agents of our predecessor. In accordance with the 1940 Act, we will not indemnify any person for any liability to which such person would be subject by reason of such person s willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office.

Maryland law requires a corporation (unless its charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service in that capacity. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made, or

Preferred Stock 200

threatened to be made, a party by reason of their service in those or other capacities unless it is established that (a) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty, (b) the director or officer actually received an improper personal benefit in money, property or services or (c) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. However, under Maryland law, a Maryland corporation may not indemnify for an adverse judgment in a suit by or in the right of the corporation or for a judgment of

liability on the basis that a personal benefit was improperly received unless, in either, case a court orders indemnification, and then only for expenses. In addition, Maryland law permits a corporation to advance reasonable expenses to a director or officer in advance of final disposition of a proceeding upon the corporation s receipt of (a) a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation and (b) a written undertaking by him or her or on his or her behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the standard of conduct was not met.

We have entered into indemnification agreements with our directors. The indemnification agreements provide our directors the maximum indemnification permitted under Maryland law and the 1940 Act.

Our insurance policy does not currently provide coverage for claims, liabilities and expenses that may arise out of activities that our present or former directors or officers have performed for another entity at our request. There is no assurance that such entities will in fact carry such insurance. However, we note that we do not expect to request our present or former directors or officers to serve another entity as a director, officer, partner or trustee unless we can obtain insurance providing coverage for such persons for any claims, liabilities or expenses that may arise out of their activities while serving in such capacities.

Certain Provisions of the Maryland General Corporation Law and Our Charter and Bylaws

The Maryland General Corporation Law and our charter and bylaws contain provisions that could make it more difficult for a potential acquirer to acquire us by means of a tender offer, proxy contest or otherwise. These provisions are expected to discourage certain coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to negotiate first with our Board of Directors. We believe that the benefits of these provisions outweigh the potential disadvantages of discouraging any such acquisition proposals because, among other things, the negotiation of such proposals may improve their terms.

Classified Board of Directors

Our Board of Directors is divided into three classes of directors serving staggered three-year terms. The terms of the classes expire in 2014, 2015, and 2016, and in each case, those directors will serve until their successors are elected and qualify. Upon expiration of their current terms, directors of each class will be elected to serve for three-year terms and until their successors are duly elected and qualify and each year one class of directors will be elected by the stockholders. A classified board may render a change in control of us or removal of our incumbent management more difficult. We believe, however, that the longer time required to elect a majority of a classified Board of Directors will help to ensure the continuity and stability of our management and policies.

Election of Directors

Our charter and bylaws provide that the affirmative vote of the holders of a plurality of the outstanding shares of stock entitled to vote in the election of directors cast at a meeting of stockholders duly called and at which a quorum is present will be required to elect a director. Pursuant to our charter our Board of Directors may amend the bylaws to alter the vote required to elect directors.

Number of Directors; Vacancies; Removal

Our charter provides that the number of directors will be set only by the Board of Directors in accordance with our bylaws. Our bylaws provide that a majority of our entire Board of Directors may at any time increase or decrease the number of directors. However, unless our bylaws are amended, the number of directors may never be less than one nor more than nine. Our charter provides that, at such time as we have at least three independent directors and our common stock is registered under the Securities Exchange Act of 1934, as amended, we elect to be subject to the provision of Subtitle 8 of Title 3 of the Maryland General Corporation Law regarding the filling of vacancies on the Board of Directors. Accordingly, at such time, except as may be provided by the Board of Directors in setting the terms of any class or series of preferred stock, any and all vacancies on the Board of Directors may be filled only by the affirmative vote of a majority of the remaining directors in office, even if the remaining directors do not constitute a quorum, and any director elected to fill a vacancy will serve for the remainder of the full term of the directorship in which the vacancy occurred and until a successor is elected and qualifies, subject to any applicable requirements of the 1940 Act.

Our charter provides that a director may be removed only for cause, as defined in our charter, and then only by the affirmative vote of at least two-thirds of the votes entitled to be cast in the election of directors.

Action by Stockholders

Under the Maryland General Corporation Law, stockholder action can be taken only at an annual or special meeting of stockholders or (unless the charter provides for stockholder action by less than unanimous written consent, which our charter does not) by unanimous written consent in lieu of a meeting. These provisions, combined with the requirements of our bylaws regarding the calling of a stockholder-requested special meeting of stockholders discussed below, may have the effect of delaying consideration of a stockholder proposal until the next annual meeting.

Advance Notice Provisions for Stockholder Nominations and Stockholder Proposals

Our bylaws provide that with respect to an annual meeting of stockholders, nominations of persons for election to the Board of Directors and the proposal of business to be considered by stockholders may be made only (1) pursuant to our notice of the meeting, (2) by the Board of Directors or (3) by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice procedures of our bylaws. With respect to special meetings of stockholders, only the business specified in our notice of the meeting may be brought before the meeting.

Nominations of persons for election to the Board of Directors at a special meeting may be made only (1) pursuant to our notice of the meeting, (2) by the Board of Directors or (3) provided that the Board of Directors has determined that directors will be elected at the meeting, by a stockholder who is entitled to vote at the meeting and who has complied with the advance notice provisions of the bylaws.

The purpose of requiring stockholders to give us advance notice of nominations and other business is to afford our Board of Directors a meaningful opportunity to consider the qualifications of the proposed nominees and the advisability of any other proposed business and, to the extent deemed necessary or desirable by our Board of Directors, to inform stockholders and make recommendations about such qualifications or business, as well as to provide a more orderly procedure for conducting meetings of stockholders. Although our bylaws do not give our Board of Directors any power to disapprove stockholder nominations for the election of directors or proposals recommending certain action, they may have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if proper procedures are not followed and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its own proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to us and our stockholders.

Calling of Special Meetings of Stockholders

Our bylaws provide that special meetings of stockholders may be called by our Board of Directors and certain of our officers. Additionally, our bylaws provide that, subject to the satisfaction of certain procedural and informational requirements by the stockholders requesting the meeting, a special meeting of stockholders will be called by the secretary of the corporation upon the written request of stockholders entitled to cast not less than a majority of all the votes entitled to be cast at such meeting.

Approval of Extraordinary Corporate Action; Amendment of Charter and Bylaws

Under Maryland law, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a share exchange or engage in similar transactions outside the ordinary course of business, unless approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter. However, a Maryland corporation may provide in its charter for approval of these matters by a lesser percentage, but not less than a majority of all of the votes entitled to be cast on the matter. Our charter generally provides for approval of charter amendments and extraordinary transactions by the stockholders entitled to cast at least a majority of the votes entitled to be cast on the matter. Our charter also provides that certain charter amendments, any proposal for our conversion, whether by charter amendment, merger or otherwise, from a closed-end company to an open-end company and any proposal for our liquidation or dissolution requires the approval of the stockholders entitled to cast at least 80% of the votes entitled to be cast on such matter. However, if such amendment or proposal is approved by a majority of our continuing directors (in addition to approval by our Board of Directors), such

TABLE OF CONTENTS

amendment or proposal may be approved by a majority of the votes entitled to be cast on such a matter. In either event, in accordance with the requirements of the 1940 Act, any such amendment or proposal that would have the effect of changing the nature of our business so as to cause us to cease to be a registered management investment company would be required to be approved by a majority of our outstanding voting securities, as defined under the 1940 Act. The continuing directors are defined in our charter as (1) our current directors, (2) those directors whose nomination for election by the stockholders or whose election by the directors to fill vacancies is approved by a majority of our current directors then on the Board of Directors or (3) any successor directors whose nomination for election by the stockholders or whose election by the directors to fill vacancies is approved by a majority of continuing directors or the successor continuing directors then in office.

Our charter and bylaws provide that the Board of Directors will have the exclusive power to make, alter, amend or repeal any provision of our bylaws.

No Appraisal Rights

Except with respect to appraisal rights arising in connection with the Control Share Act discussed below, as permitted by the Maryland General Corporation Law, our charter provides that stockholders will not be entitled to exercise appraisal rights unless a majority of the Board of Directors shall determine such rights apply.

Control Share Acquisitions

The Maryland General Corporation Law provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter (the Control Share Act). Shares owned by the acquirer, by officers or by directors who are employees of the corporation are excluded from shares entitled to vote on the matter. Control shares are voting shares of stock which, if aggregated with all other shares of stock owned by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power:

one-tenth or more but less than one-third; one-third or more but less than a majority; or a majority or more of all voting power.

The requisite stockholder approval must be obtained each time an acquirer crosses one of the thresholds of voting power set forth above. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition may compel the Board of Directors of the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. The right to compel the calling of a special meeting is subject to the satisfaction of certain conditions, including an undertaking to pay the expenses of the meeting. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then the corporation may redeem for fair value any or all of the control shares, except those for which voting rights have previously been approved. The right of the corporation to redeem control shares is subject to certain conditions and limitations, including, as provided in our bylaws compliance with the 1940

No Appraisal Rights 206

Act. Fair value is determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquirer or of any meeting of stockholders at which the voting rights of the shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of appraisal rights may not be less than the highest price per share paid by the acquirer in the control share acquisition.

TABLE OF CONTENTS

The Control Share Act does not apply (a) to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (b) to acquisitions approved or exempted by the charter or bylaws of the corporation. Our bylaws contain a provision exempting from the Control Share Act any and all acquisitions by any person of our shares of stock. There can be no assurance that such provision will not be amended or eliminated at any time in the future. However, we will amend our bylaws to be subject to the Control Share Act only if the Board of Directors determines that it would be in our best interests and if the SEC staff does not object to our determination that our being subject to the Control Share Act does not conflict with the 1940 Act.

Business Combinations

Under Maryland law, business combinations between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder (the Business Combination Act). These business combinations include a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

any person who beneficially owns 10% or more of the voting power of the corporation s outstanding voting stock; or an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under this statute if the Board of Directors approved in advance the transaction by which the stockholder otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation s common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder. Our Board of Directors has adopted a resolution that any business combination between us and any other person is exempted from the provisions of the Business Combination Act, provided that the business combination is first approved by the Board of Directors, including a majority of the directors who are not interested persons as defined in the 1940 Act. This resolution may be altered or repealed in whole or in part at any time; however, our Board of Directors will adopt resolutions so as to make us subject to the provisions of the Business Combination Act only if the Board of Directors determines that it would be in our best interests and if the SEC staff does not object to our determination that our being subject to the Business Combination Act does not conflict with the 1940 Act. If this resolution is repealed, or the Board of Directors does not otherwise approve a business combination, the statute may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer.

Business Combinations 208

Business Combinations 209

TABLE OF CONTENTS

Conflict with 1940 Act

Our bylaws provide that, if and to the extent that any provision of the Maryland General Corporation Law, including the Control Share Act (if we amend our bylaws to be subject to such Act) and the Business Combination Act, or any provision of our charter or bylaws conflicts with any provision of the 1940 Act, the applicable provision of the 1940 Act will control.

92

Conflict with 1940 Act 210

DESCRIPTION OF OUR PREFERRED STOCK

In addition to shares of common stock, our charter authorizes the issuance of preferred stock. We currently have the Series 2017 Term Preferred Shares, the Series 2023 Term Preferred Shares and the Series 2024 Term Preferred Shares outstanding. If we offer additional preferred stock under this prospectus, we will issue an appropriate prospectus supplement. We may issue additional preferred stock from time to time in one or more classes or series, without stockholder approval. Prior to issuance of shares of each class or series, our Board of Directors is required by Maryland law and by our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Any such an issuance must adhere to the requirements of the 1940 Act, Maryland law and any other limitations imposed by law.

The 1940 Act currently requires, among other things, that (a) immediately after issuance and before any distribution is made with respect to common stock, the liquidation preference of the preferred stock, together with all other senior securities, must not exceed an amount equal to one-third of our total assets (taking into account such distribution), (b) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on the preferred stock are in arrears by two years or more and (c) such class of stock have complete priority over any other class of stock as to distribution of assets and payment of dividends, which dividends shall be cumulative.

For any series of preferred stock that we may issue, our board of directors will determine and the articles supplementary and the prospectus supplement relating to such series will describe:

the designation and number of shares of such series;

the rate and time at which, and the preferences and conditions under which, any dividends will be paid on shares of such series, as well as whether such dividends are participating or non-participating;

any provisions relating to convertibility or exchangeability of the shares of such series, including adjustments to the conversion price of such series;

the rights and preferences, if any, of holders of shares of such series upon our liquidation, dissolution or winding up of our affairs;

the voting powers, if any, of the holders of shares of such series;

any provisions relating to the redemption of the shares of such series;

any limitations on our ability to pay dividends or make distributions on, or acquire or redeem, other securities while shares of such series are outstanding;

any conditions or restrictions on our ability to issue additional shares of such series or other securities; if applicable, a discussion of certain U.S. federal income tax considerations; and any other relative powers, preferences and participating, optional or special rights of shares of such series, and the qualifications, limitations or restrictions thereof.

All shares of preferred stock that we may issue will be identical and of equal rank except as to the particular terms thereof that may be fixed by our board of directors, and all shares of each series of preferred stock will be identical and of equal rank except as to the dates from which dividends, if any, thereon will be cumulative.

DESCRIPTION OF OUR SUBSCRIPTION RIGHTS

General

We may issue subscription rights to our stockholders to purchase common stock. Subscription rights may be issued independently or together with any other offered security and may or may not be transferable by the person purchasing or receiving the subscription rights. In connection with a subscription rights offering to our stockholders, we would distribute certificates evidencing the subscription rights and a prospectus supplement to our stockholders on the record date that we set for receiving subscription rights in such subscription rights offering.

The applicable prospectus supplement would describe the following terms of subscription rights in respect of which this prospectus is being delivered:

the period of time the offering would remain open (which shall be open a minimum number of days such that all record holders would be eligible to participate in the offering and shall not be open longer than 120 days);

the title of such subscription rights;

the exercise price for such subscription rights (or method of calculation thereof); the ratio of the offering (which, in the case of transferable rights, will require a minimum of three shares to be held of record before a person is entitled to purchase an additional share);

the number of such subscription rights issued to each stockholder;

the extent to which such subscription rights are transferable and the market on which they may be traded if they are transferable;

if applicable, a discussion of certain U.S. federal income tax considerations applicable to the issuance or exercise of such subscription rights;

the date on which the right to exercise such subscription rights shall commence, and the date on which such right shall expire (subject to any extension);

the extent to which such subscription rights include an over-subscription privilege with respect to unsubscribed securities and the terms of such over-subscription privilege;

any termination right we may have in connection with such subscription rights offering; and any other terms of such subscription rights, including exercise, settlement and other procedures and limitations relating to the transfer and exercise of such subscription rights.

Exercise Of Subscription Rights

Each subscription right would entitle the holder of the subscription right to purchase for cash such amount of shares of common stock at such exercise price as shall in each case be set forth in, or be determinable as set forth in, the prospectus supplement relating to the subscription rights offered thereby. Subscription rights may be exercised at any time up to the close of business on the expiration date for such subscription rights set forth in the prospectus supplement. After the close of business on the expiration date, all unexercised subscription rights would become void.

Subscription rights may be exercised as set forth in the prospectus supplement relating to the subscription rights offered thereby. Upon receipt of payment and the subscription rights certificate properly completed and duly executed at the corporate trust office of the subscription rights agent or any other office indicated in the prospectus supplement we will forward, as soon as practicable, the shares of common stock purchasable upon such exercise. To the extent permissible under applicable law, we may determine to offer any unsubscribed offered securities directly to persons other than stockholders, to or through agents, underwriters or dealers or through a combination of such methods, as set forth in the applicable prospectus supplement.

DESCRIPTION OF OUR DEBT SECURITIES

We may issue debt securities in one or more series. The specific terms of each series of debt securities will be described in the particular prospectus supplement relating to that series. The prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. For a complete description of the terms of a particular series of debt securities, you should read both this prospectus and the prospectus supplement relating to that particular series.

As required by federal law for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document called an indenture. An indenture is a contract between us and the financial institution acting as trustee on your behalf, and is subject to and governed by the Trust Indenture Act of 1939, as amended. The trustee has two main roles. First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described in the second paragraph under Events of Default Remedies if an Event of Default Occurs. Second, the trustee performs certain administrative duties for us with respect to our debt securities.

This section includes a description of the material provisions of the indenture. Because this section is a summary, however, it does not describe every aspect of the debt securities and the indenture. We urge you to read the indenture because it, and not this description, defines your rights as a holder of debt securities. A copy of the form of indenture is attached as an exhibit to the registration statement of which this prospectus is a part. We will file a supplemental indenture with the SEC in connection with any debt offering, at which time the supplemental indenture would be publicly available. See Available Information for information on how to obtain a copy of the indenture.

The prospectus supplement, which will accompany this prospectus, will describe the particular series of debt securities being offered by including:

> the designation or title of the series of debt securities; the total principal amount of the series of debt securities; the percentage of the principal amount at which the series of debt securities will be offered; the date or dates on which principal will be payable;

the rate or rates (which may be either fixed or variable) and/or the method of determining such rate or rates of interest,

the date or dates from which any interest will accrue, or the method of determining such date or dates, and the date or dates on which any interest will be payable:

whether any interest may be paid by issuing additional securities of the same series in lieu of cash (and the terms upon which any such interest may be paid by issuing additional securities);

> the terms for redemption, extension or early repayment, if any; the currencies in which the series of debt securities are issued and payable;

whether the amount of payments of principal, premium or interest, if any, on a series of debt securities will be determined with reference to an index, formula or other method (which could be based on one or more currencies, commodities, equity indices or other indices) and how these amounts will be determined;

the place or places, if any, other than or in addition to the Borough of Manhattan in the City of New York, of payment, transfer, conversion and/or exchange of the debt securities;

the denominations in which the offered debt securities will be issued (if other than \$1,000 and any integral multiple thereof);

> the provision for any sinking fund; any restrictive covenants;

any Events of Default (as defined in Events of Default below);

TABLE OF CONTENTS

whether the series of debt securities are issuable in certificated form; any provisions for defeasance or covenant defeasance;

any special federal income tax implications, including, if applicable, federal income tax considerations relating to original issue discount;

whether and under what circumstances we will pay additional amounts in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay the additional amounts (and the terms of this option);

any provisions for convertibility or exchangeability of the debt securities into or for any other securities; whether the debt securities are subject to subordination and the terms of such subordination; whether the debt securities are secured and the terms of any security interest; the listing, if any, on a securities exchange; and any other terms.

The debt securities may be secured or unsecured obligations. Unless the prospectus supplement states otherwise, principal (and premium, if any) and interest, if any, will be paid by us in immediately available funds.

We are permitted, under specified conditions, to issue multiple classes of indebtedness if our asset coverage, as defined in the 1940 Act, is at least equal to 300% immediately after each such issuance, after giving effect to any exemptive relief granted to us by the SEC. In addition, while any indebtedness and senior securities remain outstanding, we must make provisions to prohibit the distribution to our stockholders or the repurchase of such securities or shares unless we meet the applicable asset coverage ratios at the time of the distribution or repurchase. We may also borrow amounts up to 5% of the value of our total assets for temporary or emergency purposes without regard to asset coverage. For a discussion of the risks associated with leverage, see Risk Factors Risks Relating to Our Business and Structure-Regulations governing our operation as a registered closed-end management investment company affect our ability to raise additional capital and the way in which we do so. The raising of debt capital may expose us to risks, including the typical risks associated with leverage.

General

The indenture provides that any debt securities proposed to be sold under this prospectus and the accompanying prospectus supplement (offered debt securities) and any debt securities issuable upon the exercise of warrants or upon conversion or exchange of other offered securities (underlying debt securities) may be issued under the indenture in one or more series.

For purposes of this prospectus, any reference to the payment of principal of, or premium or interest, if any, on, debt securities will include additional amounts if required by the terms of the debt securities.

The indenture does not limit the amount of debt securities that may be issued thereunder from time to time. Debt securities issued under the indenture, when a single trustee is acting for all debt securities issued under the indenture, are called the indenture securities. The indenture also provides that there may be more than one trustee thereunder, each with respect to one or more different series of indenture securities. See Resignation of Trustee below. At a time when two or more trustees are acting under the indenture, each with respect to only certain series, the term indenture securities means the one or more series of debt securities with respect to which each respective trustee is acting. In the event that there is more than one trustee under the indenture, the powers and trust obligations of each trustee described in this prospectus will extend only to the one or more series of indenture securities for which it is trustee. If two or more trustees are acting under the indenture, then the indenture securities for which each trustee is acting would be treated as if issued under separate indentures.

General 216

The indenture does not contain any provisions that give you protection in the event we issue a large amount of debt or we are acquired by another entity.

96

General 217

TABLE OF CONTENTS

We refer you to the prospectus supplement for information with respect to any deletions from, modifications of or additions to the Events of Default or our covenants that are described below, including any addition of a covenant or other provision providing event risk protection or similar protection.

We have the ability to issue indenture securities with terms different from those of indenture securities previously issued and, without the consent of the holders thereof, to reopen a previous issue of a series of indenture securities and issue additional indenture securities of that series unless the reopening was restricted when that series was created.

Conversion and Exchange

If any debt securities are convertible into or exchangeable for other securities, the prospectus supplement will explain the terms and conditions of the conversion or exchange, including the conversion price or exchange ratio (or the calculation method), the conversion or exchange period (or how the period will be determined), if conversion or exchange will be mandatory or at the option of the holder or us, provisions for adjusting the conversion price or the exchange ratio and provisions affecting conversion or exchange in the event of the redemption of the underlying debt securities. These terms may also include provisions under which the number or amount of other securities to be received by the holders of the debt securities upon conversion or exchange would be calculated according to the market price of the other securities as of a time stated in the prospectus supplement.

Issuance of Securities in Registered Form

We may issue the debt securities in registered form, in which case we may issue them either in book-entry form only or in certificated form. Debt securities issued in book-entry form will be represented by global securities. We expect that we will usually issue debt securities in book-entry only form represented by global securities.

Book-Entry Holders

We will issue registered debt securities in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means debt securities will be represented by one or more global securities registered in the name of a depositary that will hold them on behalf of financial institutions that participate in the depositary s book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities held by the depositary or its nominee. These institutions may hold these interests on behalf of themselves or customers.

Under the indenture, only the person in whose name a debt security is registered is recognized as the holder of that debt security. Consequently, for debt securities issued in book-entry form, we will recognize only the depositary as the holder of the debt securities and we will make all payments on the debt securities to the depositary. The depositary will then pass along the payments it receives to its participants, which in turn will pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the debt securities.

As a result, investors will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary s book-entry system or holds an interest through a participant. As long as the debt securities are represented by one or more global securities, investors will be indirect holders, and not holders, of the debt securities.

Street Name Holders

In the future, we may issue debt securities in certificated form or terminate a global security. In these cases, investors may choose to hold their debt securities in their own names or in street name. Debt securities held in street name are registered in the name of a bank, broker or other financial institution chosen by the investor, and the investor would hold a beneficial interest in those debt securities through the account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities,

TABLE OF CONTENTS

and we will make all payments on those debt securities to them. These institutions will pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, and not holders, of the debt securities.

Legal Holders

Our obligations, as well as the obligations of the applicable trustee and those of any third parties employed by us or the applicable trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in book-entry form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose (for example, to amend an indenture or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture), we would seek the approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer to you in this Description of Debt Securities, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, we urge you to check with that institution to find out:

how it handles securities payments and notices;
whether it imposes fees or charges;
how it would handle a request for the holders—consent, if ever required;

whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future for a particular series of debt securities;

how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the debt securities are in book-entry form, how the depositary s rules and procedures will affect these matters.

Global Securities

As noted above, we usually will issue debt securities as registered securities in book-entry form only. A global security represents one or any other number of individual debt securities. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depositary. Unless we specify otherwise in the applicable prospectus supplement, The Depository

Trust Company, New York, New York, known as DTC, will be the depositary for all debt securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depositary or its nominee, unless special termination situations arise. We describe those situations below under

Global Security. As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors

98

TABLE OF CONTENTS

will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or with another institution that has an account with the depositary. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

Special Considerations for Global Securities

As an indirect holder, an investor s rights relating to a global security will be governed by the account rules of the investor s financial institution and of the depositary, as well as general laws relating to securities transfers. The depositary that holds the global security will be considered the holder of the debt securities represented by the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

an investor cannot cause the debt securities to be registered in his or her name and cannot obtain certificates for his or her interest in the debt securities, except in the special situations we describe below; an investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt

securities and protection of his or her legal rights relating to the debt securities, as we describe under

Securities in Registered Form above;

an investor may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

an investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the debt securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

the depositary s policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor s interest in a global security. We and the trustee have no responsibility for any aspect of the depositary s actions or for its records of ownership interests in a global security. We and the trustee also do not supervise the depositary in any way;

if we redeem less than all the debt securities of a particular series being redeemed, DTC s practice is to determine by lot the amount to be redeemed from each of its participants holding that series;

an investor is required to give notice of exercise of any option to elect repayment of its debt securities, through its participant, to the applicable trustee and to deliver the related debt securities by causing its participant to transfer its interest in those debt securities, on DTC s records, to the applicable trustee;

DTC requires that those who purchase and sell interests in a global security deposited in its book-entry system use immediately available funds, your broker or bank may also require you to use immediately available funds when purchasing or selling interests in a global security; and

financial institutions that participate in the depositary s book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities; there may be more than one financial intermediary in the chain of ownership for an investor, we do not monitor and are not responsible for the actions of any of those intermediaries.

Termination of a Global Security

If a global security is terminated for any reason, interests in it will be exchanged for certificates in non-book-entry form (certificated securities). After that exchange, the choice of whether to hold the certificated debt securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to

TABLE OF CONTENTS

The prospectus supplement may list situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. If a global security is terminated, only the depositary, and not we or the applicable trustee, is responsible for deciding the investors in whose names the debt securities represented by the global security will be registered and, therefore, who will be the holders of those debt securities.

Payment and Paying Agents

We will pay interest to the person listed in the applicable trustee s records as the owner of the debt security at the close of business on a particular day in advance of each due date for interest, even if that person no longer owns the debt security on the interest due date. That day, usually about two weeks in advance of the interest due date, is called the record date. Because we will pay all the interest for an interest period to the holders on the record date, holders buying and selling debt securities must work out between themselves the appropriate purchase price. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller based on their respective ownership periods within the particular interest period. This prorated interest amount is called accrued interest.

Payments on Global Securities

We will make payments on a global security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will make payments directly to the depositary, or its nominee, and not to any indirect holders who own beneficial interests in the global security. An indirect holder s right to those payments will be governed by the rules and practices of the depositary and its participants, as described under

Special

Considerations for Global Securities.

Payments on Certificated Securities

We will make payments on a certificated debt security as follows. We will pay interest that is due on an interest payment date to the holder of debt securities as shown on the trustee s records as of the close of business on the regular record date at our office and/or at other offices that may be specified in the prospectus supplement. We will make all payments of principal and premium, if any, by check at the office of the applicable trustee and/or at other offices that may be specified in the prospectus supplement or in a notice to holders against surrender of the debt security.

Alternatively, at our option, we may pay any cash interest that becomes due on the debt security by mailing a check to the holder at his, her or its address shown on the trustee s records as of the close of business on the regular record date or by transfer to an account at a bank in the United States, in either case, on the due date.

Payment When Offices Are Closed

If any payment is due on a debt security on a day that is not a business day, we will make the payment on the next day that is a business day. Payments made on the next business day in this situation will be treated under the indenture as if they were made on the original due date, except as otherwise indicated in the attached prospectus supplement. Such payment will not result in a default under any debt security or the indenture, and no interest will accrue on the payment amount from the original due date to the next day that is a business day.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive payments on their debt securities.

Events of Default

You will have rights if an Event of Default occurs in respect of the debt securities of your series and is not cured, as described later in this subsection.

The term Event of Default in respect of the debt securities of your series means any of the following:

100

Events of Default 225

TABLE OF CONTENTS

we do not pay the principal of, or any premium on, a debt security of the series within five days of its due date; we do not pay interest on a debt security of the series within 30 days of its due date; we do not deposit any sinking fund payment in respect of debt securities of the series within five days of its due date; we remain in breach of a covenant in respect of debt securities of the series for 60 days after we receive a written notice of default stating we are in breach (the notice must be sent by either the trustee or holders of at least 25% of the principal amount of debt securities of the series);

we file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur and remain undischarged or unstayed for a period of 90 days;

the series of debt securities has an asset coverage, as such term is defined in the 1940 Act, of less than 100 per centum on the last business day of each of twenty-four consecutive calendar months, giving effect to any exemptive relief granted to the Company by the SEC; or

any other Event of Default in respect of debt securities of the series described in the prospectus supplement occurs. An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the same or any other indenture. The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal, premium, interest, or sinking or purchase fund installment, if it in good faith considers the withholding of notice to be in the interest of the holders.

Remedies if an Event of Default Occurs

If an Event of Default has occurred and is continuing, the trustee or the holders of not less than 25% in principal amount of the debt securities of the affected series may (and the trustee shall at the request of such holders) declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. A declaration of acceleration of maturity may be canceled by the holders of a majority in principal amount of the debt securities of the affected series if (1) we have deposited with the trustee all amounts due and owing with respect to the securities (other than principal that has become due solely by reason of such acceleration) and certain other amounts, and (2) any other Events of Default have been cured or waived.

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability (called an indemnity). If reasonable indemnity is provided, the holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of that right, remedy or Event of Default.

Before you are allowed to bypass your trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

you must give the trustee written notice that an Event of Default with respect to the relevant series of debt securities has occurred and remains uncured;

the holders of at least 25% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action;

the trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity; and 101

Events of Default 226

TABLE OF CONTENTS

the holders of a majority in principal amount of the debt securities of that series must not have given the trustee a direction inconsistent with the above notice during that 60-day period.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your debt securities on or after the due date.

Book-entry and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of maturity.

Each year, we will furnish to each trustee a written statement of certain of our officers certifying that to their knowledge we are in compliance with the indenture and the debt securities, or else specifying any default.

Waiver of Default

Holders of a majority in principal amount of the debt securities of the affected series may waive any past defaults other than

the payment of principal, any premium or interest; or in respect of a covenant that cannot be modified or amended without the consent of each holder.

Merger or Consolidation

Under the terms of the indenture, we are generally permitted to consolidate or merge with another entity. We are also permitted to sell all or substantially all of our assets to another entity. However, we may not take any of these actions unless all the following conditions are met:

where we merge out of existence or convey or transfer our assets substantially as an entirety, the resulting entity must agree to be legally responsible for our obligations under the debt securities;

the merger or sale of assets must not cause a default on the debt securities and we must not already be in default (unless the merger or sale would cure the default). For purposes of this no-default test, a default would include an Event of Default that has occurred and has not been cured, as described under Events of Default above. A default for this purpose would also include any event that would be an Event of Default if the requirements for giving us a notice of default or our default having to exist for a specific period of time were disregarded.

we must deliver certain certificates and documents to the trustee; and we must satisfy any other requirements specified in the prospectus supplement relating to a particular series of debt securities.

Modification or Waiver

There are three types of changes we can make to the indenture and the debt securities issued thereunder.

Changes Requiring Your Approval

First, there are changes that we cannot make to your debt securities without your specific approval. The following is a list of those types of changes:

change the stated maturity of the principal of or interest on a debt security or the terms of any sinking fund with respect to any security;

reduce any amounts due on a debt security;

reduce the amount of principal payable upon acceleration of the maturity of an original issue discount or indexed security following a default or upon the redemption thereof or the amount thereof provable in a bankruptcy proceeding;

adversely affect any right of repayment at the holder s option; change the place or currency of payment on a debt security (except as otherwise described in the prospectus or prospectus supplement); 102

Modification or Waiver 228

TABLE OF CONTENTS

impair your right to sue for payment;

adversely affect any right to convert or exchange a debt security in accordance with its terms; modify the subordination provisions in the indenture in a manner that is adverse to outstanding holders of the debt securities;

reduce the percentage of holders of debt securities whose consent is needed to modify or amend the indenture; reduce the percentage of holders of debt securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;

modify any other aspect of the provisions of the indenture dealing with supplemental indentures with the consent of holders, waiver of past defaults, changes to the quorum or voting requirements or the waiver of certain covenants; and change any obligation we have to pay additional amounts.

Changes Not Requiring Approval

The second type of change does not require any vote by the holders of the debt securities. This type is limited to clarifications, establishment of the form or terms of new securities of any series as permitted by the indenture and certain other changes that would not adversely affect holders of the outstanding debt securities in any material respect. We also do not need any approval to make any change that affects only debt securities to be issued under the indenture after the change takes effect.

Changes Requiring Majority Approval

Any other change to the indenture and the debt securities would require the following approval:

if the change affects only one series of debt securities, it must be approved by the holders of a majority in principal amount of that series; and

if the change affects more than one series of debt securities issued under the same indenture, it must be approved by the holders of a majority in principal amount of all of the series affected by the change, with all affected series voting together as one class for this purpose.

In each case, the required approval must be given by written consent.

The holders of a majority in principal amount of a series of debt securities issued under the indenture, voting together as one class for this purpose, may waive our compliance with some of our covenants applicable to that series of debt securities. However, we cannot obtain a waiver of a payment default or of any of the matters covered by the bullet points included above under Changes Requiring Your Approval.

Further Details Concerning Voting

When taking a vote, we will use the following rules to decide how much principal to attribute to a debt security:

for original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of these debt securities were accelerated to that date because of a default;

for debt securities whose principal amount is not known (for example, because it is based on an index), we will use the principal face amount at original issuance or a special rule for that debt security described in the prospectus supplement; and

for debt securities denominated in one or more foreign currencies, we will use the U.S. dollar equivalent. Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust money for their payment or redemption or if we, any other obligor, or any

Modification or Waiver 229

Modification or Waiver 230

TABLE OF CONTENTS

affiliate of us or any obligor own such debt securities. Debt securities will also not be eligible to vote if they have been fully defeased as described later under Defeasance Full Defeasance.

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding indenture securities that are entitled to vote or take other action under the indenture. However, the record date may not be more than 30 days before the date of the first solicitation of holders to vote on or take such action. If we set a record date for a vote or other action to be taken by holders of one or more series, that vote or action may be taken only by persons who are holders of outstanding indenture securities of those series on the record date and must be taken within eleven months following the record date.

Book-entry and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

Defeasance

The following provisions will be applicable to each series of debt securities unless we state in the applicable prospectus supplement that the provisions of covenant defeasance and full defeasance will not be applicable to that series.

Covenant Defeasance

Under current U.S. federal tax law and the indenture, we can make the deposit described below and be released from some of the restrictive covenants in the indenture under which the particular series was issued. This is called covenant defeasance. In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and government securities set aside in trust to repay your debt securities. If we acheived covenant defeasance and your debt securities were subordinated as described under Indenture Provisions Subordination below, such subordination would not prevent the trustee under the indenture from applying the funds available to it from the deposit described in the first bullet point below to the payment of amounts due in respect of such debt securities for the benefit of the subordinated debt holders. In order to achieve covenant defeasance, we must do the following:

we must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities are then specified as payable at stated maturity) or government obligations applicable to such securities (determined on the basis of the currency in which such securities are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments; we must deliver to the trustee a legal opinion of our counsel confirming that, under current U.S. federal income tax law, we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit;

we must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act, as amended, and a legal opinion and officers certificate stating that all conditions precedent to covenant defeasance have been complied with;

defeasance must not result in a breach or violation of, or result in a default under, of the indenture or any of our other material agreements or instruments;

no default or event of default with respect to such debt securities shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days; and

Defeasance 231

satisfy the conditions for covenant defeasance contained in any supplemental indentures.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit or the trustee is prevented from making payment. For example, if one of the remaining Events of Default occurred (such as our bankruptcy) and the debt securities became immediately due and payable, there might be such a shortfall. However, there is no assurance that we would have sufficient funds to make payment of the shortfall.

104

Defeasance 232

Full Defeasance

If there is a change in U.S. federal tax law or we obtain an IRS ruling, as described in the second bullet point below, we can legally release ourselves from all payment and other obligations on the debt securities of a particular series (called full defeasance) if we put in place the following other arrangements for you to be repaid:

we must deposit in trust for the benefit of all holders of a series of debt securities a combination of cash (in such currency in which such securities are then specified as payable at stated maturity) or government obligations applicable to such securities (determined on the basis of the currency in which such securities are then specified as payable at stated maturity) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates and any mandatory sinking fund payments or analogous payments; we must deliver to the trustee a legal opinion confirming that there has been a change in current U.S. federal tax law or an IRS ruling that allows us to make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit. Under current U.S. federal tax law, the deposit and our legal release from the debt securities would be treated as though we paid you your share of the cash and notes or bonds at the time the cash and notes or bonds were deposited in trust in exchange for your debt securities and you would recognize gain or loss on the debt securities at the time of the deposit;

we must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the 1940 Act, as amended, and a legal opinion and officers certificate stating that all conditions precedent to defeasance have been complied with;

defeasance must not result in a breach or violation of, or constitute a default under, of the indenture or any of our other material agreements or instruments;

no default or event of default with respect to such debt securities shall have occurred and be continuing and no defaults or events of default related to bankruptcy, insolvency or reorganization shall occur during the next 90 days; and

satisfy the conditions for full defeasance contained in any supplemental indentures.

If we ever did accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment of the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever became bankrupt or insolvent. If your debt securities were subordinated as described later under Indenture Provisions Subordination, such subordination would not prevent the trustee under the indenture from applying the funds available to it from the deposit referred to in the first bullet point of the preceding paragraph to the payment of amounts due in respect of such debt securities for the benefit of the subordinated debt holders.

Form, Exchange and Transfer of Certificated Registered Securities

If registered debt securities cease to be issued in book-entry form, they will be issued:

only in fully registered certificated form; without interest coupons; and

unless we indicate otherwise in the prospectus supplement, in denominations of \$1,000 and amounts that are multiples of \$1,000.

Holders may exchange their certificated securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed and as long as the denomination is greater than the minimum denomination for such securities.

Holders may exchange or transfer their certificated securities at the office of the trustee. We have appointed the trustee to act as our agent for registering debt securities in the names of holders transferring debt securities. We may appoint another entity to perform these functions or perform them ourselves.

TABLE OF CONTENTS

Holders will not be required to pay a service charge to transfer or exchange their certificated securities, but they may be required to pay any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange will be made only if our transfer agent is satisfied with the holder s proof of legal ownership.

If we have designated additional transfer agents for your debt security, they will be named in the prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If any certificated securities of a particular series are redeemable and we redeem less than all the debt securities of that series, we may block the transfer or exchange of those debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of any certificated securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security that will be partially redeemed.

If a registered debt security is issued in book-entry form, only the depositary will be entitled to transfer and exchange the debt security as described in this subsection, since it will be the sole holder of the debt security.

Resignation of Trustee

Each trustee may resign or be removed with respect to one or more series of indenture securities provided that a successor trustee is appointed to act with respect to these series and has accepted such appointment. In the event that two or more persons are acting as trustee with respect to different series of indenture securities under the indenture, each of the trustees will be a trustee of a trust separate and apart from the trust administered by any other trustee.

Indenture Provisions Subordination

Upon any distribution of our assets upon our dissolution, winding up, liquidation or reorganization, the payment of the principal of (and premium, if any) and interest, if any, on any indenture securities denominated as subordinated debt securities is to be subordinated to the extent provided in the indenture in right of payment to the prior payment in full of all Senior Indebtedness (as defined below), but our obligation to you to make payment of the principal of (and premium, if any) and interest, if any, on such subordinated debt securities will not otherwise be affected. In addition, no payment on account of principal (or premium, if any), sinking fund or interest, if any, may be made on such subordinated debt securities at any time unless full payment of all amounts due in respect of the principal (and premium, if any), sinking fund and interest on Senior Indebtedness has been made or duly provided for in money or money s worth.

In the event that, notwithstanding the foregoing, any payment by us is received by the trustee in respect of subordinated debt securities or by the holders of any of such subordinated debt securities, upon our dissolution, winding up, liquidation or reorganization before all Senior Indebtedness is paid in full, the payment or distribution must be paid over to the holders of the Senior Indebtedness or on their behalf for application to the payment of all the Senior Indebtedness remaining unpaid until all the Senior Indebtedness has been paid in full, after giving effect to any concurrent payment or distribution to the holders of the Senior Indebtedness. Subject to the payment in full of all Senior Indebtedness upon this distribution by us, the holders of such subordinated debt securities will be subrogated to the rights of the holders of the Senior Indebtedness to the extent of payments made to the holders of the Senior Indebtedness out of the distributive share of such subordinated debt securities.

By reason of this subordination, in the event of a distribution of our assets upon our insolvency, certain of our senior creditors may recover more, ratably, than holders of any subordinated debt securities or the holders of any indenture securities that are not Senior Indebtedness. The indenture provides that these subordination provisions will not apply to money and securities held in trust under the defeasance provisions of the indenture.

Senior Indebtedness is defined in the indenture as the principal of (and premium, if any) and unpaid interest on:

our indebtedness (including indebtedness of others guaranteed by us), whenever created, incurred, assumed or guaranteed, for money borrowed, that we have designated as Senior Indebtedness for purposes of the indenture and in accordance with the terms of the indenture (including any indenture securities designated as Senior Indebtedness), and renewals, extensions, modifications and refinancings of any of this indebtedness.

If this prospectus is being delivered in connection with the offering of a series of indenture securities denominated as subordinated debt securities, the accompanying prospectus supplement will set forth the approximate amount of our Senior Indebtedness and of our other Indebtedness outstanding as of a recent date.

Secured Indebtedness and Ranking

Certain of our indebtedness, including certain series of indenture securities, may be secured. The prospectus supplement for each series of indenture securities will describe the terms of any security interest for such series and will indicate the approximate amount of our secured indebtedness as of a recent date. Any unsecured indenture securities will effectively rank junior to any secured indebtedness, including any secured indenture securities, that we incur in the future to the extent of the value of the assets securing such future secured indebtedness. The debt securities, whether secured or unsecured, of the Company will rank structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

In the event of our bankruptcy, liquidation, reorganization or other winding up, any of our assets that secure secured debt will be available to pay obligations on unsecured debt securities only after all indebtedness under such secured debt has been repaid in full from such assets. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all unsecured debt securities then outstanding after fulfillment of this obligation. As a result, the holders of unsecured indenture securities may recover less, ratably, than holders of any of our secured indebtedness.

The Trustee under the Indenture

We intend to use a nationally recognized financial institution to serve as the trustee under the indenture.

Certain Considerations Relating to Foreign Currencies

Debt securities denominated or payable in foreign currencies may entail significant risks. These risks include the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential illiquidity in the secondary market. These risks will vary depending upon the currency or currencies involved and will be more fully described in the applicable prospectus supplement.

PLAN OF DISTRIBUTION

We may offer, from time to time, in more than one offering or series, up to \$500,000,000 of our common stock, preferred stock, subscription rights to purchase shares of our common stock or debt securities, in one or more underwritten public offerings, at-the-market offerings to or through a market maker or into an existing trading market for the securities, on an exchange or otherwise, negotiated transactions, block trades, best efforts or a combination of these methods. We may sell securities through underwriters or dealers, directly to one or more purchasers, including existing stockholders in a rights offering, through agents or through a combination of any such methods of sale. In the case of a rights offering, the applicable prospectus supplement will set forth the number of shares of our common stock issuable upon the exercise of each right and the other terms of such rights offering. Any underwriter or agent involved in the offer and sale of securities will be named in the applicable prospectus supplement. A prospectus supplement or supplements will also describe the terms of the offering of securities, including: the purchase price of securities and the proceeds we will receive from the sale; any over-allotment options under which underwriters may purchase additional securities from us; any agency fees or underwriting discounts and other items constituting agents or underwriters compensation; the public offering price; any discounts or concessions allowed or re-allowed or paid to dealers; and any securities exchange or market on which the securities may be listed. Only underwriters or agents named in the prospectus supplement will be underwriters or agents of the securities offered by the prospectus supplement.

The distribution of the securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at prevailing market prices at the time of sale, at prices related to such prevailing market prices, or at negotiated prices, provided, however, that the offering price per share of our common stock, less any underwriting commissions or discounts, must equal or exceed the net asset value per share of our common stock at the time of the offering except (a) in connection with a rights offering to our existing stockholders, (b) with the consent of the majority of our common stockholders or (c) under such other circumstances as the SEC may permit. The price at which the securities may be distributed may represent a discount from prevailing market prices.

In connection with the sale of the securities, underwriters or agents may receive compensation from us or from purchasers of the securities, for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities may be deemed to be underwriters under the Securities Act, and any discounts and commissions they receive from us and any profit realized by them on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Any such underwriter or agent will be identified and any such compensation received from us will be described in the applicable prospectus supplement. The maximum aggregate compensation to be received by any member of FINRA or independent broker-dealer, including any reimbursements to underwriters or agents for certain fees and legal expenses incurred by them, will not be greater than 10% of the gross proceeds of the sale of the securities offered pursuant to this prospectus and any applicable prospectus supplement.

Any underwriter may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum price. Syndicate-covering or other short-covering transactions involve purchases of the securities, either through exercise of the over-allotment option or in the open market after the distribution is completed, to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a stabilizing or covering transaction to

cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

Any underwriters that are qualified market makers on the NASDAQ Global Select Market may engage in passive market making transactions in our common stock on the NASDAQ Global Select Market in accordance with Regulation M under the Exchange Act, during the business day prior to the pricing of the

TABLE OF CONTENTS

offering, before the commencement of offers or sales of our common stock. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker s bid, however, the passive market maker s bid must then be lowered when certain purchase limits are exceeded. Passive market making may stabilize the market price of the securities at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

We may sell the securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of the securities and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment.

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no trading market, other than our common stock, which is traded on The NASDAQ Global Select Market. We may elect to list any other class or series of securities on any exchanges, but we are not obligated to do so. We cannot guarantee the liquidity of the trading markets for any securities.

Under agreements that we may enter, underwriters, dealers and agents who participate in the distribution of shares of our securities may be entitled to indemnification by us against certain liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Underwriters, dealers and agents may engage in transactions with, or perform services for, us in the ordinary course of business.

If so indicated in the applicable prospectus supplement, we will authorize underwriters or other persons acting as our agents to solicit offers by certain institutions to purchase our securities from us pursuant to contracts providing for payment and delivery on a future date. Institutions with which such contracts may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others, but in all cases such institutions must be approved by us. The obligations of any purchaser under any such contract will be subject to the condition that the purchase of our securities shall not at the time of delivery be prohibited under the laws of the jurisdiction to which such purchaser is subject. The underwriters and such other agents will not have any responsibility in respect of the validity or performance of such contracts. Such contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth the commission payable for solicitation of such contracts.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third parties in such sale transactions will be underwriters and, if not identified in this prospectus, will be identified in the applicable prospectus supplement.

In order to comply with the securities laws of certain states, if applicable, our securities offered hereby will be sold in such jurisdictions only through registered or licensed brokers or dealers.

CUSTODIAN, TRANSFER AND DISTRIBUTION PAYING AGENT AND REGISTRAR

Our securities are held under a custody agreement by State Street Bank and Trust Company. The address of the custodian is 225 Franklin Street, Boston, Massachusetts 02110. Computershare Trust Company, N.A. will act as our transfer agent, distribution paying agent and registrar. The principal business address of our transfer agent is 250 Royall Street, Canton, MA 02021.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Since we generally acquire and dispose of our investments in privately negotiated transactions, we infrequently use brokers in the normal course of our business. Subject to policies established by our Board of Directors, our investment adviser is primarily responsible for the execution of the publicly traded securities portion of our portfolio transactions and the allocation of brokerage commissions. Our investment adviser does not expect to execute transactions through any particular broker or dealer, but will seek to obtain the best net results for Oxford Lane Capital, taking into account such factors as price (including the applicable brokerage commission or dealer spread), size of order, difficulty of execution, and operational facilities of the firm and the firm s risk and skill in positioning blocks of securities. While our investment adviser generally will seek reasonably competitive trade execution costs, Oxford Lane Capital will not necessarily pay the lowest spread or commission available. Subject to applicable legal requirements, our investment adviser may select a broker based partly upon brokerage or research services provided to the investment adviser and Oxford Lane Capital and any other clients. In return for such services, we may pay a higher commission than other brokers would charge if the investment adviser determines in good faith that such commission is reasonable in relation to the services provided.

LEGAL MATTERS

Certain legal matters in connection with the securities offered hereby will be passed upon for us by Sutherland Asbill & Brennan LLP, Washington, DC. Certain legal matters in connection with the offering of the securities will be passed upon for the underwriters, if any, by the counsel named in the applicable prospectus supplement.

EXPERTS

The financial statements as of March 31, 2014 and for the year ended March 31, 2014 included in this prospectus have been so included in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

AVAILABLE INFORMATION

We have filed with the SEC a registration statement on Form N-2, together with all amendments and related exhibits, under the Securities Act, with respect to the securities offered by this prospectus. The registration statement contains additional information about us and the securities being offered by this prospectus.

We are required to file with or submit to the SEC annual, semi-annual and quarterly reports, proxy statements and other information meeting the informational requirements of the Exchange Act. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement and related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, NE, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements and other information filed electronically by us with the SEC which are available on the SEC s website at http://www.sec.gov. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing to the SEC s Public Reference Section, Washington, D.C. 20549. This information is also available free of charge by contacting us at Oxford Lane Capital Corp., 8 Sound Shore Drive, Suite 255, Greenwich, CT 06830, by telephone at (203) 983-5275, or on our website at http://www.oxfordlanecapital.com.

We do not control and are not an affiliate of any of our portfolio companies, each as defined in the Investment (1) Company Act of 1940 (the 1940 Act). In general, under the 1940 Act, we would be presumed to control a portfolio company if we owned 25% or more of its voting securities and would be an affiliate of a portfolio company if we owned 5% or more of its voting securities.

- (2) Fair value is determined in good faith by the Board of Directors of the Company.

 (3) Notes bear interest at variable rates.
- (4) Cost value reflects accretion of original issue discount or market discount, and amortization of premium.

See Accompanying Notes

OXFORD LANE CAPITAL CORP.

SCHEDULE OF INVESTMENTS (Continued) MARCH 31, 2014

- (5) The CLO secured notes generally bear interest at a rate determined by reference to LIBOR which resets quarterly. For each CLO debt investment, the rate provided is as of March 31, 2014.
- The CLO subordinated notes and income notes are considered equity positions in the CLO funds. Equity investments are entitled to recurring distributions which are generally equal to the remaining cash flow of the payments made by the underlying fund's securities less contractual payments to debt holders and fund expenses.
- (6) The estimated yield indicated is based upon a current projection of the amount and timing of these recurring distributions and the estimated amount of repayment of principal upon termination. Such projections are periodically reviewed and adjusted, and the estimated yield may not ultimately be realized.
- (7) The Class B preference shares represent an investment in a warehouse facility, which is a financing structure intended to aggregate loans that may be used to form the basis of a CLO vehicle.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 1. ORGANIZATION

Oxford Lane Capital Corp. (OXLC, we or the Fund) was incorporated under the General Corporation Laws of the State of Maryland on June 9, 2010 as a non-diversified closed-end management investment company that has registered as an investment company under the Investment Company Act of 1940, as amended (the 1940 Act). In addition, the Fund has elected to be treated for tax purposes as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). The Fund s investment objective is to maximize its portfolio s risk adjusted total return and seeks to achieve its investment objective by investing in structured finance investments, specifically collateralized loan obligation (CLO) vehicles which primarily own senior corporate debt securities.

OXLC s investment activities are managed by Oxford Lane Management LLC, (OXLC Management), a registered investment adviser under the Investment Advisors Act of 1940, as amended. BDC Partners LLC (BDC Partners) is the managing member of OXLC Management and serves as the administrator of OXLC.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES USE OF ESTIMATES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations and provide indemnifications. The Fund s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based upon experience, the Fund expects the risk of loss to be remote.

CASH AND CASH EQUIVALENTS

The Fund considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. At March 31, 2014, cash and cash equivalents consisted solely of demand deposits maintained at well-capitalized financial institutions.

INVESTMENT VALUATION

The most significant estimates made in the preparation of the Fund s financial statements are the valuation of investments and the effective yield calculations, as well as the related amounts of unrealized appreciation and depreciation of investments recorded. OXLC believes that there is no single definitive method for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments that OXLC makes. The Fund is required to specifically fair value each individual investment on a quarterly basis.

The Fund complies with ASC 820-10, *Fair Value Measurements and Disclosure*, which establishes a three-level valuation hierarchy for disclosure of fair value measurements. ASC 820-10 clarified the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820-10 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities in markets that are not active; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

to develop its own assumptions. The Fund has determined that due to the general illiquidity of the market for the Fund s investment portfolio, whereby little or no market data exists, all of the Fund s investments are valued based upon Level 3 inputs as of March 31, 2014. The Fund s Board of Directors determines the value of OXLC s investment portfolio each quarter. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold, and these differences could be material to the Fund s financial statements.

OXLC has acquired a number of debt and equity positions in CLO investment vehicles, which are special purpose financing vehicles. In valuing such investments, OXLC considers indicative prices provided by a recognized industry pricing service as well as the indicative prices provided by the broker who arranges transactions in such investment vehicles, to the extent available, as well as any available information on other relevant transactions including trades, if any, and firm bids and offers in the market. In addition, OXLC considers the range of yields for such investments across the market, the operating metrics of the specific investment vehicle, including, but not limited to, net asset value, projected cash flows, compliance with collateralization tests, and defaulted and CCC-rated securities, if any. Using the pricing service s indicative price as a starting point, if the implied yield is outside the market range, the valuation may be adjusted to a point within the market range. However, the impact of other market information, such as broker prices, actual trades and firm bids and offers as well as operating metrics of such investment, may also affect the valuation. On occasion, an indicative price that results in an implied yield that is within the market range may also be adjusted, depending upon the reliability and volume of other market information. OXLC Management or the Valuation Committee may request an additional analysis by a third-party firm to assist in the valuation process of CLO investment vehicles. This information is presented to the Board for its determination of fair value of these investments.

The Fund may also invest directly in senior secured loans (either in the primary or secondary markets). In valuing such investments, OXLC Management will prepare an analysis of each loan, including a financial summary, covenant compliance review, recent trading activity in the security, if known, and other business developments related to the portfolio company. Any available information, including non-binding indicative bids obtained from a recognized industry pricing service and agent banks which may not be considered reliable, will be presented to the Valuation Committee of the Board to consider in its determination of fair value. In some instances, there may be limited trading activity in a security even though the market for the security is considered not active. In such cases the Board will consider the number of trades, the size and timing of each trade and other circumstances around such trades, to the extent such information is available, in its determination of fair value. At March 31, 2014, the Fund did not have any direct investments in senior secured loans.

ASC 820-10-35, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly, provides guidance on factors that should

be considered in determining when a previously active market becomes inactive and whether a transaction is orderly. In accordance with ASC 820-10-35, the Fund s valuation procedures specifically provide for the review of indicative quotes supplied by the brokers or agent banks that make a market for each security.

The Fund s assets measured at fair value on a recurring basis subject to the disclosure requirements of ASC 820-10-35 at March 31, 2014, were as follows:

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Assets	Fair Value Measurements Using Quoted Prices in Active Significant Other MarketsObservable for Inputs Identica(Level 2) Assets (Level 1)	Significant Unobservable Inputs (Level 3)	Total
	(\$ in millions)	(\$ in millions)	(\$ in millions)
CLO debt	\$ \$	\$ 22.5	\$ 22.5
CLO equity		214.2	214.2
Total	\$ \$	\$ 236.7	\$ 236.7
Significant Uno	bservable Inputs for Leve	l 3 Investments	

In accordance with ASC 820-10, the following table provides quantitative information about the Fund s Level 3 fair value measurements as of March 31, 2014. The Fund s valuation policy, as described above, establishes parameters for the sources and types of valuation analysis, as well as the methodologies and inputs that the Fund uses in determining fair value. If the Valuation Committee or OXLC Management determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work may be undertaken. The table, therefore, is not all-inclusive, but provides information on the significant Level 3 inputs that are pertinent to the Fund s fair value measurements. The weighted average calculations in the table below are based on principal balances for all CLO debt and equity investments.

Quantitative Information about Level 3 Fair Value Measurements

Assets
Fair Valuation Unobservable Range/Weighted Average
Value Techniques/ Input
as of Methodologies

March

	31, 2014 (\$ in				
	millions	,	40		
CLO debt	\$22.5	market quotes	$NBIB^{(1)}$	86.54%	97.57%/91.28%
CLO equity	155.3	market quotes	$NBIB^{(1)}$	43.5%	119.15%/85.52%
	58.9	recent transactions	recent transactions	n/a	
Total Fair Value for Level 3 Investments	\$236.7				

The Fund generally uses prices provided by an independent pricing service or broker or agent bank non-binding indicative bid prices (NBIB) on or near the valuation date as the primary basis for the fair value determinations for CLO debt and equity investments. These bid prices are non-binding, and may not be determinative of fair value.

(1) Each bid price is evaluated by the Valuation Committee in conjunction with additional information compiled by OXLC Management, including actual trades and firm bids and offers, if any, financial performance, recent business developments, and, in the case of CLO debt and equity investments, performance and covenant compliance information as provided by the independent trustee.

Significant increases or decreases in any of the unobservable inputs in isolation may result in a significantly lower or higher fair value measurement.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A rollforward of the fair value of investments for the year ended March 31, 2014, utilizing significant unobservable inputs, is as follows:

	Collateralize	e C ollateralize	d
	Loan	Loan	
(\$ in millions)	Obligation	Obligation	Total
	Debt	Equity	
	Investments	Investments	
Balance at March 31, 2013	\$ 42.5	\$ 84.7	\$127.2
Realized gains included in earnings ⁽¹⁾	5.4	2.5	7.9

Transfers in and/or out of level 3			
Balance at March 31, 2014	\$ 22.5	\$ 214.2	\$236.7
The amount of total gains for the period included in			
earnings attributable to the change in unrealized gains or			
losses related to our Level 3 assets still held at the	\$ 0.8	\$ 10.0	\$10.8
reporting date and reported within the net change in	\$ 0.0	\$ 10.0	\$10.0
unrealized gains or losses on investments in our Statement			
of Operations			

(1) Includes rounding adjustment to reconcile ending period balances. The Fund's policy is to recognize transfers in and transfers out of valuation levels as of the beginning of the reporting period. There were no transfers between Level 1, Level 2 and Level 3 during the year ended March 31, 2014.

PREFERRED STOCK

The Fund carries its mandatorily redeemable preferred stock at accreted cost on the statement of assets and liabilities, and not fair value. For disclosure purposes, the fair value of the 8.50% Series 2017 Term Preferred Shares (the Series 2017 Shares) and 7.50% Series 2023 Term Preferred Shares (the Series 2023 Shares) are approximately \$16.5 and \$63.0 million, respectively, at March 31, 2014. The fair value of the Series 2017 Shares and Series 2023 Shares is

based upon a closing price per share of \$26.02 and \$23.97, respectively, at March 31, 2014. The Fund considers its preferred stock to be a level 3 liability within the fair value hierarchy.

PREPAID EXPENSES

Prepaid expenses consist primarily of insurance costs.

INVESTMENT INCOME RECOGNITION

Interest income from debt positions in CLO investment vehicles is recorded on the accrual basis to the extent that such amounts are expected to be collected. Amortization of premium or accretion of discount is recognized on the effective yield method.

Interest income from investments in the equity class securities of CLO investment vehicles (typically income notes or subordinated notes) is recorded based upon an estimation of an effective yield to maturity utilizing assumed cash flows. The Fund monitors the expected cash flows from its CLO equity investments, including the expected residual payments, and effective yield is determined and updated periodically, as needed.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

FEDERAL INCOME TAXES

The Fund intends to operate so as to qualify to be taxed as a RIC under Subchapter M of the Internal Revenue Code and, as such, to not be subject to federal income tax on the portion of its taxable income and gains distributed to stockholders. To qualify for RIC tax treatment, OXLC is required to distribute at least 90% of its investment company taxable income, as defined by the Code.

Because federal income tax regulations differ from accounting principles generally accepted in the United States, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the financial statement to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

For the year ended March 31, 2014, the Fund declared and paid dividends on common stock of \$2.35 per share or approximately \$23.2 million. The Fund declared and paid dividends on common stock of \$2.20 per share or approximately \$12.4 million for the year ended March 31, 2013. The tax character of distributions paid on common stock in 2014 represents approximately \$20,202,000 of ordinary income and approximately \$3,019,000 of capital gains, with no return of capital. The tax character of distributions paid on common stock in 2013 represents approximately \$12,067,000 of ordinary income and approximately \$349,000 of capital gains, with no return of capital.

For the years ended March 31, 2014 and March 31, 2013 the Fund also declared and paid dividends on preferred stock of approximately \$3,982,000 and \$459,000, respectively. The tax character of distributions paid on preferred stock represents ordinary income.

As of March 31, 2014, the estimated components of distributable earnings, on a tax basis, were as follows:

Distributable ordinary income \$ 1,253,007 Distributable long-term capital gains \$ 2,794,578 Unrealized appreciation on investments \$ 7,081,555

The tax basis components of distributable earnings differ from the amounts reflected in the Statement of Assets and Liabilities due to temporary book/tax differences primarily arising from investments in equity CLOs and permanent book/tax differences attributable to non-deductible excise taxes. These amounts will be finalized before filing the federal tax return.

Aggregate gross unrealized appreciation for tax purposes is \$14,175,985; and aggregate gross unrealized depreciation of \$7,094,430. For tax purposes, the cost basis of the portfolio investments at March 31, 2014 was \$229,602,762.

DIVIDENDS AND DISTRIBUTIONS

Dividends from net investment income and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which differ from GAAP. Dividends from net investment income, if any, are expected to be declared and paid quarterly. Net realized capital gains, unless offset by any available capital loss carry-forward, are typically distributed to shareholders annually. Dividends and distributions to shareholders are recorded on the ex-dividend date and are automatically reinvested in full and fractional shares of the Fund in accordance with the Fund s dividend reinvestment plan unless the shareholder has elected to have them paid in cash.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Amounts required to be distributed reflect estimates made by the Fund. Dividends paid by the Fund are subject to re-characterization for tax purposes.

CONCENTRATION OF CREDIT RISK

At March 31, 2014, the Fund maintained a cash balance with State Street Bank and Trust Co. The Fund is subject to credit risk arising should State Street Bank and Trust Co. be unable to fulfill its obligations. In addition, the Fund s portfolio may be concentrated in a limited number of investments in CLO vehicles, which will subject the Fund to a risk of significant loss if that sector experiences a market downturn.

SECURITIES TRANSACTIONS

Securities transactions are recorded on trade date. Realized gains and losses on investments sold are recorded on the basis of specific identification.

DEFERRED OFFERING COSTS

Deferred offering costs consist principally of legal, accounting, filing and underwriting fees incurred that are related to an offering proposed by the Fund. The deferred offering costs will be charged to capital upon the completion of an offering or charged to expense if the offering is unsuccessful. Expenses related to shelf offerings are charged to capital as securities registered are issued.

DEFERRED ISSUANCE COSTS

Deferred issuance costs represent underwriting fees and other direct costs incurred that are related to the Fund s preferred stock offerings. The deferred issuance costs are being amortized and included in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2017 and 2023 Shares.

NOTE 3. RELATED PARTY TRANSACTIONS

Effective September 9, 2010, the Fund entered into an Investment Advisory Agreement with OXLC Management, a registered investment adviser under the Investment Advisers Act of 1940, as amended. BDC Partners is the managing

member of OXLC Management and serves as the administrator of OXLC. Pursuant to the Investment Advisory Agreement, the Fund has agreed to pay OXLC Management a fee for advisory and management services consisting of two components—a base management fee and an incentive fee. The base-management fee is calculated at an annual rate of 2.00% of the Fund—s gross assets. For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears.

The base management fee is calculated based on the average value of the Fund s gross assets, which means all assets of any type, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter will be appropriately pro-rated.

The incentive fee is calculated and payable quarterly in arrears based on the pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees that are received from an investment) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement to BDC Partners, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes accrued income that the Fund has not yet received in cash. Pre-incentive fee net investment income does not include any realized or unrealized capital gains or losses, and the Fund could incur incentive fees in periods when there is a net decrease in net assets from operations. Pre-incentive fee net investment income, expressed as a rate of return on the value of the

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 3. RELATED PARTY TRANSACTIONS (continued)

Fund s net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.75% per quarter (7.00% annualized). Our undistributed net investment income used to calculate the incentive fee is also included in the amount of the Fund s gross assets used to calculate the 2.00% base management fee. The incentive fee with respect to the Fund s pre-incentive fee net investment income in each calendar quarter is calculated as follows:

no incentive fee in any calendar quarter in which the Fund s pre-incentive fee net investment income does not exceed the hurdle of 1.75%;

100% of pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle but is less than 2.1875% in any calendar quarter (8.75% annualized). The Fund refers to this portion of the pre-incentive fee net investment income (which exceeds the hurdle but is less than 2.1875%) as the catch-up. The catch-up is meant to provide the investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle did not apply if the net investment income exceeds 2.1875% in any calendar quarter; and

20% of the amount of pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter (8.75% annualized) is payable to OXLC Management (once the hurdle is reached and the catch-up is achieved, 20% of all pre-incentive fee net investment income thereafter is allocated to OXLC Management).

There is no offset in subsequent quarters for any quarter in which an incentive fee is not earned. For the year ended March 31, 2014, the Fund accrued incentive fee expenses of approximately \$2.2 million. At March 31, 2014, the Fund has an incentive fee payable of approximately \$705,000.

Effective September 9, 2010, the Fund entered into an administration agreement with BDC Partners to serve as its administrator. Under the administration agreement, BDC Partners performs, or oversees the performance of, the Fund s required administrative services, which include, among other things, being responsible for the financial records which the Fund is required to maintain and preparing reports to the Fund s stockholders.

In addition, BDC Partners assists the Fund in determining and publishing the Fund s net asset value, oversees the preparation and filing of the Fund s tax returns and the printing and dissemination of reports to the Fund s stockholders, and generally oversees the payment of the Fund s expenses and the performance of administrative and professional services rendered to the Fund by others. Payments under the administration agreement are equal to an amount based upon the Fund s allocable portion of BDC Partners overhead in performing its obligations under the administration agreement, including rent, the fees and expenses associated with performing compliance functions and the Fund s allocable portion of the compensation of the Fund s chief financial officer, chief compliance officer, controller and treasurer, and any administrative support staff. The administration agreement may be terminated by either party without penalty upon 60 days written notice to the other party.

The independent directors receive an annual fee of \$35,000. In addition, the independent directors receive \$2,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Board meeting,

\$1,500 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Valuation Committee meeting and \$1,000 plus reimbursement of reasonable out-of-pocket expenses incurred in connection with attending each Audit Committee meeting. The Chairman of the Audit Committee also receives an additional annual fee of \$5,000. No compensation will be paid to directors who are interested persons of the Fund as defined in the 1940 Act.

Certain directors, officers and other related parties, including members of OXLC Management, own 4.2% of the common stock of the Fund at March 31, 2014.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 4. OTHER INCOME

Other income includes closing fees, or origination fees, associated with investments in portfolio companies. Such fees are normally paid at closing of the Fund s investments, are fully earned and non-refundable, and are generally non-recurring. The Fund had no such income for the year ended March 31, 2014.

NOTE 5. SERIES 2017 TERM PREFERRED SHARES

The Fund has authorized five million preferred shares at a par value of \$0.01 per share. On November 28, 2012, the Fund completed an underwritten public offering of 600,000 shares of its newly designated 8.50% Series 2017 Term Preferred Shares (the Series 2017 Shares) at a public offering price of \$25 per share, less underwriting fees and offering costs. The Fund also granted the underwriters a 30-day option to purchase additional shares of Series 2017 Shares on the same terms and conditions to cover over-allotments. On December 10, 2012, the underwriters purchased an additional 32,450 shares of Series 2017 Shares. The total net proceeds to the Fund from the issuance of the Series 2017 Shares were approximately \$14.8 million.

The Fund is required to redeem all of the outstanding Series 2017 Shares on December 31, 2017 at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption. OXLC cannot effect any amendment, alteration, or repeal of the Fund sobligation to redeem all of the Series 2017 Shares on December 31, 2017 without the prior unanimous vote or consent of the holders of Series 2017 Shares. If the Fund fails to maintain an asset coverage ratio of at least 200%, the Fund will redeem a portion of the outstanding Series 2017 Shares in an amount at least equal to the lesser of (1) the minimum number of shares of Series 2017 Shares necessary to cause OXLC to meet our required asset coverage ratio, and (2) the maximum number of Series 2017 Shares that OXLC can redeem out of cash legally available for such redemption. At any time on or after December 31, 2014, at the Fund sole option, the Fund may redeem the Series 2017 Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on the Series 2017 Shares.

Deferred issuance costs represent underwriting fees and other direct costs incurred that are related to the Fund s preferred stock offering. As of March 31, 2014, the Fund had deferred issuance costs of approximately \$0.7 million. In addition, the Fund pays monthly dividends on the preferred shares at an annual rate of 8.50% of the \$25 liquidation preference per share, or \$2.125 per year, on the last business day of each month. The deferred issuance costs are being amortized and included, along with the monthly dividend payment, in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2017 Shares. Amortization expense for the year ended March 31, 2014 was approximately \$0.2 million. The Fund also paid dividends for the year ended March 31, 2014 on Series 2017 Shares of approximately \$1.3 million.

NOTE 6. SERIES 2023 TERM PREFERRED SHARES

The Fund has authorized five million preferred shares at a par value of \$0.01 per share. On June 21, 2013, the Fund completed an underwritten public offering of 800,000 shares of its newly designated 7.50% Series 2023 Term Preferred Shares (the Series 2023 Shares); at a public offering price of \$25 per share, less underwriting fees and offering costs. The Fund also granted the underwriters a 30-day option to purchase additional shares of Series 2023 Shares on the same terms and conditions to cover over-allotments. On July 10, 2013, the underwriters purchased an additional 62,000 shares of Series 2023 Shares. The total net proceeds to the Fund from the issuance of the Series 2023 Shares were approximately \$20.5 million. On November 18, 2013, the Fund completed an offering of additional shares of its Series 2023 Shares in an underwritten public offering. The Fund sold 1,767,770 shares, including 142,770 shares sold pursuant to a

TABLE OF CONTENTS

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 6. SERIES 2023 TERM PREFERRED SHARES (continued)

partial exercise of a 30-day option granted to the underwriters at a purchase price of \$22.50 per share. The total net proceeds to the Fund from the additional issuance of the Series 2023 Shares were approximately \$38.1 million.

The Fund is required to redeem all of the outstanding Series 2023 Shares on June 30, 2023 at a redemption price equal to \$25 per share plus an amount equal to accumulated but unpaid dividends, if any, to the date of the redemption. OXLC cannot effect any amendment, alteration, or repeal of the Fund s obligation to redeem all of the Series 2023 Shares on June 30, 2023 without the prior unanimous vote or consent of the holders of Series 2023 Shares. If the Fund fails to maintain an asset coverage ratio of at least 200%, the Fund will redeem a portion of the outstanding Series 2023 Shares in an amount at least equal to the lesser of (1) the minimum number of shares of Series 2023 Shares necessary to cause OXLC to meet our required asset coverage ratio, and (2) the maximum number of Series 2023 Shares that OXLC can redeem out of cash legally available for such redemption. At any time on or after June 30, 2016, at the Fund s sole option, the Fund may redeem the Series 2023 Shares at a redemption price per share equal to the sum of the \$25 liquidation preference per share plus an amount equal to accumulated but unpaid dividends, if any, on the Series 2023 Shares.

Deferred issuance costs represent underwriting fees and other direct costs that are related to the Fund s preferred stock offering. As of March 31, 2014, the Fund had a deferred issuance balance of approximately \$2.7 million. Discount on the preferred shares at the time of issuance totaled approximately \$4.4 million. In addition, the Fund pays monthly dividends on the preferred shares at an annual rate of 7.50% of the \$25 liquidation preference per share, or \$1.875 per year, on the last business day of each month. The deferred issuance costs and discount on the preferred shares are being amortized and included, along with the monthly dividend payment, in interest expense on mandatorily redeemable preferred stock in the statement of operations over the term of the Series 2023 Shares. The accretion of discount for the year ended March 31, 2014 was approximately \$0.2 million. The amortization expense for the year ended March 31, 2014 on Series 2023 Shares of approximately \$2.6 million.

NOTE 7. PURCHASES AND SALES AND REPAYMENTS OF SECURITIES

Purchases of securities totaled approximately \$159.2 million, and sales and repayments of securities totaled approximately \$44.4 million, excluding short-term investments, for the year ended March 31, 2014.

NOTE 8. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund enters into a variety of undertakings containing warranties and indemnifications that may expose the Fund to some risk of loss. The risk of future loss arising from such undertakings, while not quantifiable, is expected to be remote.

As of March 31, 2014, the Fund had issued a commitment to purchase \$5.6 million of B&M CLO 2014-1, Ltd. Junior Notes and a commitment to purchase an additional \$25 million of Venture XVII CLO, Limited Class B Preference Shares.

The Fund is not currently subject to any material legal proceedings. From time to time, the Fund may be a party to certain legal proceedings in the ordinary course of business, including proceedings related to the enforcement of the Fund s rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Fund does not expect that these proceedings will have a material impact upon its financial condition or results of operations.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 9. INDEMNIFICATION

Under the Fund s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund s maximum exposure under these agreements cannot be known, however, the Fund expects any risk of loss to be remote.

NOTE 10. FINANCIAL HIGHLIGHTS

Financial highlights for the years ended March 31, 2014, 2013, 2012 and for the period January 25, 2011 (Commencement of Operations) to March 31, 2011 are as follows:

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 10. FINANCIAL HIGHLIGHTS (continued)

- (3) Net realized and unrealized capital gains and losses include rounding adjustments to reconcile change in net asset value per share.
- Management monitors available taxable earnings, including net investment income and realized capital gains, to determine if a tax return of capital may occur for the year. To the extent the Fund's taxable earnings fall below the (4) total amount of the Fund's distributions for that fiscal year, a portion of those distributions may be deemed a tax return of capital to the Fund's stockholders. The final determination of the nature of our distributions can only be made upon the filing of our tax return.
 - (5) Based upon actual shares outstanding upon share issuance.
- Total return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the market price as of the beginning of the period, and that dividends, capital gains and other distributions were (6) reinvested as provided for in the Fund's dividend reinvestment plan, excluding any discounts, and that the total number of shares were sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund.
- (7) Total return for the period January 25, 2011 through March 31, 2011 was not annualized.

 (8) Annualized, after adjusting for certain periodic expenses recorded during the period January 25, 2011 through March 31, 2011.

NOTE 11. RISK DISCLOSURES

The U.S. capital markets have experienced periods of extreme volatility and disruption over the past five years. Disruptions in the capital markets tend to increase the spread between the yields realized on risk-free and higher risk securities, resulting in illiquidity in parts of the capital markets. The Fund believes these conditions may reoccur in the future. A prolonged period of market illiquidity may have an adverse effect on the Fund s business, financial condition and results of operations. Adverse economic conditions could also limit the Fund s access to the capital markets or result in a decision by lenders not to extend credit to the Fund. These events could limit the Fund s investment purchases, limit the Fund s ability to grow and negatively impact the Fund s operating results.

OXLC Management s investment team also presently manages the portfolios of TICC Capital Corp., a publicly-traded business development company that invests principally in the debt of U.S.-based companies, TICC CLO LLC, a subsidiary of TICC Capital Corp. 2011-1 Holdings, LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp., TICC CLO 2012-1 LLC, a direct subsidiary of TICC Capital Corp., the assets of which are included in the gross assets of TICC Capital Corp., and T2 Income Fund CLO I Ltd., a CLO structured finance vehicle that invests in a diversified portfolio of Senior Loans. In certain instances, the Fund may co-invest on a concurrent basis with affiliates of its investment adviser, subject to compliance with applicable regulations and regulatory guidance and our written allocation procedures. Such co-investment may require exemptive relief from the SEC. If relief is sought, there can be no assurance when, or if, such relief may be obtained. No co-investments that would require exemptive relief have been made. The affiliated entities of the Fund are subject

to a written policy with respect to the allocation of investment opportunities.

Given the structure of the Fund s Investment Advisory Agreement with OXLC Management, any general increase in interest rates will likely have the effect of making it easier for OXLC Management to meet the quarterly hurdle rate for payment of income incentive fees under the Investment Advisory Agreement without any additional increase in relative performance on the part of the Fund s investment adviser. In addition, in view of the catch-up provision applicable to income incentive fees under the Investment Advisory Agreement, the investment adviser could potentially receive a significant portion of the increase in the Fund s investment income attributable to such a general increase in interest rates. If that were to occur, the Fund s increase in net earnings, if any, would likely be significantly smaller than the relative increase in the investment adviser s income incentive fee resulting from such a general increase in interest rates.

OXFORD LANE CAPITAL CORP.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 2014

NOTE 11. RISK DISCLOSURES (continued)

The Fund s portfolio consists of equity and junior debt investments in CLO vehicles, which involve a number of significant risks. CLO vehicles are typically very highly levered (10 14 times), and therefore the junior debt and equity tranches that the Fund invests in are subject to a higher degree of risk of total loss. In particular, investors in CLO vehicles indirectly bear risks of the underlying debt investments held by such CLO vehicles. The Fund generally has the right to receive payments only from the CLO vehicles, and generally does not have direct rights against the underlying borrowers or the entity that sponsored the CLO vehicle. While the CLO vehicles the Fund targets generally enable the investor to acquire interests in a pool of Senior Loans without the expenses associated with directly holding the same investments, the Fund generally pays a proportionate share of the CLO vehicles administrative and other expenses. Although it is difficult to predict whether the prices of indices and securities underlying CLO vehicles will rise or fall, these prices (and, therefore, the prices of the CLO vehicles) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. The failure by a CLO vehicle in which we invest to satisfy financial covenants, including with respect to adequate collateralization and/or interest coverage tests, could lead to a reduction in its payments to us. In the event that a CLO vehicle fails certain tests, holders of debt senior to us may be entitled to additional payments that would, in turn, reduce the payments we would otherwise be entitled to receive. Separately, we may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms with a defaulting CLO vehicle or any other investment we may make. If any of these occur, it could materially and adversely affect our operating results and cash flows.

The interests the Fund has acquired in CLO vehicles are generally thinly traded or have only a limited trading market. CLO vehicles are typically privately offered and sold, even in the secondary market. As a result, investments in CLO vehicles may be characterized as illiquid securities. In addition to the general risks associated with investing in debt securities, CLO vehicles carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the fact that the Fund s investments in CLO tranches will likely be subordinate to other senior classes of note tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the CLO vehicle or unexpected investment results. The Fund s net asset value may also decline over time if the Fund s principal recovery with respect to CLO equity investments is less than the price that the Fund paid for those investments. Further, to the extent income from the Fund s CLO equity investments (which the Fund expects to decline as those vehicles deleverage after the end of their respective reinvestment periods) declines or if the Fund transitions its portfolio into lower yielding investments, the Fund s ability to pay future dividends may be harmed.

An increase in LIBOR would materially increase the CLO vehicles financing costs. Since most of the collateral positions within the CLO investments have LIBOR floors, there may not be corresponding increases in investment income (if LIBOR increases but stays below the LIBOR floor rate of such investments) resulting in materially smaller distribution payments to the equity investors.

To illustrate the potential impact of a change in the underlying interest rate on our total estimated taxable income as it pertains to our CLO investments, we have assumed a 1% increase in the underlying three-month LIBOR, and no other change in our CLO portfolio, or to any of the credit, spread, default rate or other factors, as of March 31, 2014. Under this analysis, we currently estimate the effect on total estimated taxable income to equal a decrease of approximately \$14.0 million on an annualized basis, reflecting the portfolio assets held within these CLO vehicles which have implied floors that would be unaffected by a 1% change in the underlying interest rate, compared to the debt carried by those CLO vehicles which are at variable rates and which would be affected by a change in three-month LIBOR. Although management believes that this analysis is broadly indicative of our existing LIBOR sensitivity, it does not adjust for changes in any of the other assumptions that could effect the return on CLO equity investments, both positively and negatively (and

which could accompany changes to the three-month LIBOR rate), such as default rates, recovery rates, prepayment rates, reinvestment rates, and other factors that could affect the net increase (or decrease) in net assets resulting from operations. Accordingly, it is highly probable that actual results would differ materially from the results under this hypothetical analysis.

OXLC Management anticipates that the CLO vehicles in which the Fund invests may constitute passive foreign investment companies (PFICs). If the Fund acquires shares in a PFIC (including equity tranche investments in CLO vehicles that are PFICs), the Fund may be subject to federal income tax on a portion of any excess distribution or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its stockholders. Certain elections may be available to mitigate or eliminate such tax on excess distributions, but such elections (if available) will generally require the Fund to recognize its share of the PFICs income for each year regardless of whether the Fund receives any distributions from such PFICs. The Fund must nonetheless distribute such income to maintain its status as a RIC.

If the Fund holds more than 10% of the shares in a foreign corporation that is treated as a controlled foreign corporation (CFC) (including equity tranche investments in a CLO vehicle treated as a CFC), the Fund may be treated as receiving a deemed distribution (taxable as ordinary income) each year from such foreign corporation in an amount equal to the Fund s pro rata share of the corporation s income for the tax year (including both ordinary earnings and capital gains). If the Fund is required to include such deemed distributions from a CFC in the Fund s income, it will be required to distribute such income to maintain its RIC status regardless of whether or not the CFC makes an actual distribution during such year.

Legislation enacted in 2010 imposes a withholding tax of 30% on payments of U.S. source interest and dividends paid after December 31, 2013, or gross proceeds from the disposition of an instrument that produces U.S. source interest or dividends paid after December 31, 2016, to certain non-U.S. entities, including certain non-U.S. financial institutions and investment funds, unless such non-U.S. entity complies with certain reporting requirements regarding its United States account holders and its United States owners. Most CLO vehicles in which we invest will be treated as non-U.S. financial entities for this purpose, and therefore will be required to comply with these reporting requirements to avoid the 30% withholding. If a CLO vehicle in which we invest fails to properly comply with these reporting requirements, it could reduce the amounts available to distribute to equity and junior debt holders in such CLO vehicle, which could materially and adversely affect our operating results and cash flows.

If the Fund is required to include amounts in income prior to receiving distributions representing such income, the Fund may have to sell some of its investments at times and/or at prices management would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities for this purpose. If the Fund is not able to obtain cash from other sources, it may fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax. For additional discussion regarding the tax implications of a RIC, see Note 2. Summary of Significant

Accounting Policies Federal Income Taxes.

The Fund s Series 2017 Shares and Series 2023 Shares pay dividends at a fixed dividend rate. Prices of fixed income investments vary inversely with changes in market yields. The market yields on securities comparable to the Series 2017 Shares and Series 2023 Shares may increase, which would likely result in a decline in the secondary market price of the Series 2017 Shares and Series 2023 Shares prior to the term redemption date. The Fund may be unable to pay dividends on the Series 2017 Shares and Series 2023 Shares under some circumstances. The terms of any future indebtedness OXLC may incur could preclude the payment of dividends in respect of equity securities, including the Series 2017 Shares and Series 2023 Shares, under certain conditions.

Given the seven-year and ten-year term and potential for early redemption of the Series 2017 Shares and Series 2023 Shares, respectively, see Note 5. Series 2017 Term Preferred Shares and Note 6. Series 2023 Term Preferred Shares, holders of such shares may face an increased reinvestment risk, which is the risk that

the return on an investment purchased with proceeds from the sale or redemption of the Series 2017 Shares and Series 2023 Shares may be lower than the return previously obtained from the investment in such shares.

The Fund does not intend to have the Series 2017 Shares and Series 2023 Shares rated by any rating agency. Unrated securities usually trade at a discount to similar, rated securities. As a result, there is a risk that the Series 2017 Shares and Series 2023 Shares may trade at a price that is lower than they might otherwise trade if rated by a rating agency.

NOTE 12. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2013, the FASB issued ASU 2013-08, *Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements*, which amends the criteria that define an investment company and clarifies the measurement guidance and requires new disclosures for investment companies. Under ASU 2013-08, an entity already regulated under the 1940 Act will be automatically deemed an investment company under the new GAAP definition. As such, the Fund anticipates no impact from adopting this standard on the Fund s financial results. The Fund is currently assessing the additional disclosure requirements. ASU 2013-08 will be effective for interim and annual reporting periods in fiscal years that begin after December 15, 2013.

NOTE 13. SUBSEQUENT EVENTS

On May 19, 2014, the Board of Directors declared a distribution of \$0.60 per share of common stock for the fiscal first quarter, payable on June 30, 2014 to shareholders of record as of June 16, 2014.

The Fund has evaluated events and transactions that occurred after March 31, 2014 and through the date that the financial statements were issued.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Oxford Lane Capital Corp.:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Oxford Lane Capital Corp. (the Company) at March 31, 2014, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the three years in the period then ended and for the period January 25, 2011 (commencement of operations) through March 31, 2011, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Company s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at March 31, 2014 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
