Item 7.01 Regulation FD Disclosure.

On June 22, 2018, CytoDyn Inc., a Delaware corporation (the Company), issued a press release relating to the announcement described in Item 8.01 below, a copy of which is furnished as Exhibit 99.1 to this Form 8-K.

Item 8.01. Other Events

On June 22, 2018, the Company announced that it had a meeting with the U.S. Food and Drug Administration (the FDA) regarding the Company's planned Biologics License Application (BLA) for PRO 140. Based on FDA feedback, the Company will continue to gather safety and efficacy data from its ongoing monotherapy HIV clinical trials to support the BLA submission. The FDA pointed to various potential review issues that the Company believes it can adequately address in the BLA. The agency agreed that the safety portion of the filings should include data from patients treated with PRO 140 and followed for a minimum of 24 weeks, which the Company can accumulate from any of the Company's three ongoing HIV clinical trials, two of which are monotherapy trials. The Company anticipates that its BLA filings may start as early as the end of 2018, and that the FDA review process will start when the full BLA submission is completed and the FDA has accepted the BLA for review.
