MEDIA RELEASE

Gold Fields' South Af

additio

Johannesburg, March 17, 2008

(NYSE, JSE, DIFX: GFI) Gold Fields has announced that it has secured a power purchase agreement with Eskom, the national electricity utility, Eskom, for the use of power at its Kloof and Driefontein mines. Gold Fields that the company had secured power for use at its Kloof and Driefontein mines. This increases the total power available at the mines to 566 MW, or 95% of the company's power profile.

Terence Goodlace, Head of Gold Fields, welcomed this as a very positive development. "The granting of additional power will help in saving jobs at Driefontein and Kloof. With the additional power, Gold Fields is planning and re-considering the production at Driefontein as well as Nos. 3 and 4, which have been downscaled or had production curtailed due to power constraints in January.

There is no additional supply of power for the gold mines, but Gold Fields believes that the current levels of electricity supply are sufficient for which Beatrix operates and the new power plant is underway at South Deep.

It must be pointed out, however, that the power constraints will not prevent the forecast production for the current quarter (Q3F08).

Goodlace added: "We thank all stakeholders for the strategic importance of the gold mines. Gold Fields will continue to use the power sparingly, and will also continue to explore ways to conserve power, while ensuring that power is allocated to us to the widest benefit of our shareholders."

About Gold Fields

Gold Fields Limited is one of the world's largest unhedged producers of gold with attributable production of more than four million ounces per annum from eight operating mines in South Africa, Ghana and Australia.

A ninth mine, the Cerro Corona Gold/Copper mine in Peru, is expected to commence production by mid 2008 at an initial rate of approximately 400,000 gold equivalent ounces per annum.

The company has total attributable ore reserves of 92 million ounces and mineral resources of 252 million ounces.

Gold Fields employs some 53,000 permanent employees across its operations and is listed on the JSE Limited South Africa (primary listing), the New York Stock Exchange (NYSE) and the Dubai International Financial Exchange (DIFX).

All of Gold Fields' operations are ISO14001 certified. For more information please visit the Gold Fields website at www.goldfields.co.za
