

STRAYER EDUCATION INC
Form 10-Q
May 03, 2013

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15 (d) of the
Securities Exchange Act of 1934

For the quarterly period ended March 31, 2013

Commission File No. 0-21039

Strayer Education, Inc.
(Exact name of registrant as specified in this charter)

Maryland
(State or other jurisdiction of incorporation or
organization)

52-1975978
(I.R.S. Employer Identification No.)

2303 Dulles Station Boulevard
Herndon, VA
(Address of principal executive offices)

20171
(Zip Code)

Registrant's telephone number, including area code: (703) 561-1600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: STRAYER EDUCATION INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (check one)

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of April 19, 2013, there were outstanding 10,810,872 shares of Common Stock, par value \$0.01 per share, of the Registrant.

STRAYER EDUCATION, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
Information as of March 31, 2012 and 2013 is unaudited

1.
Nature of
Operations

Strayer Education, Inc. (the “Company”), a Maryland corporation, conducts its operations through its wholly owned subsidiary, Strayer University (the “University”). The University is an accredited institution of higher education that provides undergraduate and graduate degrees in various fields of study through 100 campuses in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, Missouri, New Jersey, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, Wisconsin and Washington, D.C., and online. With the Company’s focus on the student, regardless of whether he or she chooses to take classes at a physical campus or online, it has only one reporting segment.

2.
Significant
Accounting
Policies

Financial Statement Presentation

The consolidated financial statements include the accounts of the Company and its only subsidiary, the University. All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

All information as of December 31, 2012 and March 31, 2012 and 2013, and for the three months ended March 31, 2012 and 2013 is unaudited but, in the opinion of management, contains all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the results to be expected for the full fiscal year.

Revenues

The Company’s educational programs are offered on a quarterly basis. Approximately 96% of the Company’s revenues during the three months ended March 31, 2013 consisted of tuition revenue. Tuition revenue is recognized in the quarter of instruction. Tuition revenue is shown net of any refunds, withdrawals, corporate discounts, scholarships and employee tuition discounts. At the start of each academic term, a liability (unearned tuition) is recorded for academic services to be provided and a tuition receivable is recorded for the portion of the tuition not paid upfront in cash. Any cash received prior to the start of an academic term is recorded as unearned tuition. Revenues also include textbook-related income, application fees, technology fees, placement test fees, withdrawal fees, certificate revenue, and other income, which are recognized when earned.

Fair Value

The Fair Value Measurement Topic, ASC 820-10 (“ASC 820-10”), establishes a framework for measuring fair value, establishes a fair value hierarchy based upon the observability of inputs used to measure fair value, and expands disclosures about fair value measurements. Assets and liabilities are classified in their entirety within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement. Under ASC 820-10, fair value of an investment is the price that would be received to sell an asset or to transfer a liability to an entity in an orderly transaction between market participants at the measurement date. The hierarchy gives the highest priority to assets and liabilities with readily available quoted prices in an active market and lowest priority to unobservable inputs which require a higher degree of judgment when measuring fair value, as follows:

Level 1 assets or liabilities use quoted prices in active markets for identical assets or liabilities as of the measurement date;

Level 2 assets or liabilities use observable inputs, other than quoted market prices, that are either directly or indirectly observable in the marketplace for identical or similar assets and liabilities; and

Level 3 assets or liabilities use unobservable inputs that are supported by little or no market activity.

The Company's assets and liabilities that are subject to fair value measurement are categorized in one of the three levels above. Fair values are based on the inputs available at the measurement dates, and may rely on certain assumptions that may affect the valuation of fair value for certain assets or liabilities.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill represents the excess of the purchase price of an acquired business over the amount assigned to the assets acquired and liabilities assumed. Indefinite-lived intangible assets, which include a trade name, are recorded at fair market value on their acquisition date. An indefinite life was assigned to the trade name because it has the continued ability to generate cash flows indefinitely.

Goodwill and the indefinite-lived intangible assets are assessed at least annually for impairment during the three-month period ending September 30, or more frequently if events occur or circumstances change between annual tests that would more likely than not reduce the fair value of the respective reporting unit below its carrying amount. No impairment occurred during the quarter ended March 31, 2013.

Accounting for Derivative Instruments and Hedging Activities

On the date that the Company enters into a derivative contract, it designates the derivative as a hedge of (a) a forecasted transaction or (b) the variability of cash flows that are to be received or paid in connection with a recognized asset or liability (a cash flow hedge). All derivatives are recognized in the balance sheet at their fair value.

Changes in the fair value of a derivative that is highly effective and that is designated and qualifies as a cash flow hedge, to the extent that the hedge is effective, are recorded, net of income tax, in other comprehensive income, until earnings are affected by the variability of cash flows of the hedged transaction (e.g., until periodic settlements of a variable-rate asset or liability are recorded in earnings). Any hedge ineffectiveness (which represents the amount by which the changes in the fair value of the derivative exceed the variability in the cash flows of the forecasted transaction) is recorded in current-period earnings.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company also formally assesses (both at the hedge's inception and on an ongoing basis) whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the fair value or cash flows of hedged items and whether those derivatives may be expected to remain highly effective in future periods. When it is determined that a derivative is not (or has ceased to be) highly effective as a hedge, the Company discontinues hedge accounting prospectively.

Stock-based compensation

As required by the Stock Compensation Topic, ASC 718, the Company measures and recognizes compensation expense for all share-based payment awards, including employee stock options and employee stock purchases related to the Company's Employee Stock Purchase Plan, based on estimated fair values. Stock-based compensation expense recognized in the unaudited condensed consolidated statements of income for the three months ended March 31, 2012 and 2013, is based on awards ultimately expected to vest and, therefore, has been adjusted for estimated forfeitures. The Company is required to estimate forfeitures at the time of grant and revise, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The forfeiture rate used is based on historical experience. The Company also assesses the likelihood that performance criteria associated with performance-based awards will be met. If it is determined that it is more likely than not that performance criteria will not be achieved, the Company revises its estimate of the number of shares it believes will ultimately vest.

Net Income Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share reflects the potential dilution that could occur assuming conversion or exercise of all dilutive stock awards. The dilutive effect of stock awards was determined using the treasury stock method. Under the treasury stock method, all of the following are assumed to be used to repurchase shares of the Company's common stock: (1) the proceeds received from the exercise of stock options, (2) the amount of compensation cost associated with the stock awards for future service not yet recognized by the Company, and (3) the amount of tax benefits that would be recorded in additional paid-in capital when the stock awards become deductible for income tax purposes. Stock options are not included in the computation of diluted earnings per share when the stock option exercise price of an individual grant exceeds the average market price for the period. During the three months ended March 31, 2012 and 2013, the Company had no issued and outstanding stock options that were included in the calculation.

Set forth below is a reconciliation of shares used to calculate basic and diluted earnings per share (in thousands):

	For the three months ended March 31,	
	2012	2013
Weighted average shares outstanding used to compute basic earnings per share	11,419	10,813
Unvested restricted stock and restricted stock units	58	37
Shares used to compute diluted earnings per share	11,477	10,850

3.
Term Loan
and
Revolving
Credit
Facility

On November 8, 2012, the Company entered into a Second Amended and Restated Revolving Credit and Term Loan Agreement (the “Amended Credit Facility”), providing for a \$100.0 million revolving credit facility and \$125.0 million term loan facility, with an option, subject to obtaining additional loan commitments and the satisfaction of certain conditions, to increase the commitments under the Credit Facility by up to \$50.0 million in the future. Each of the revolving portions of the Amended Credit Facility, which includes a letter of credit subfacility of \$50.0 million, and the term loan portion of the Amended Credit Facility matures on December 31, 2016, and amends and refinances the Company’s original Credit Facility. The term loan portion of the Amended Credit Facility also includes required quarterly amortization payments in the amount of \$781,250, or 0.625% of the aggregate original principal amount of the term loan facility, in the case of each payment made during calendar years 2013 and 2014, and \$1,562,500, or 1.25% of the aggregate original principal amount of the term loan facility, in the case of each payment made during calendar years 2015 and 2016. The Amended Credit Facility is guaranteed by the University and is secured by substantially all of the personal property and assets of the Company and the guarantor.

Borrowings under the Amended Credit Facility bear interest at LIBOR or a base rate plus a margin ranging from 2.00% to 2.50%, depending on the Company’s leverage ratio. For the \$125.0 million term loan facility, the Company entered into an additional interest rate swap arrangement that fixes its interest rate on the entire term loan facility at an effective rate ranging from 2.85% to 3.35%, depending on the Company’s leverage ratio. In addition, an unused commitment fee ranging from 0.30% to 0.40%, depending on the Company’s leverage ratio, accrues on unused amounts under the revolving portion of the Amended Credit Facility. The Amended Credit Facility contains customary affirmative and negative covenants, representations, warranties, events of default and remedies upon default, including acceleration and rights to foreclose on the collateral securing the Amended Credit Facility. In addition, the Amended Credit Facility requires that the Company satisfy certain financial maintenance covenants, including:

- a total leverage ratio of not greater than 2.00:1.00;
- a coverage ratio of not less than 1.75:1.00; and
- a Department of Education financial composite score of not less than 1.5.

The Company was in compliance with all the terms of the Amended Credit Facility at March 31, 2013.

During the quarter ended March 31, 2013, the Company paid cash interest of \$1.1 million.

As of March 31, 2013, the Company had outstanding \$124.2 million under the term loan facility and no balance outstanding under the revolving credit facility.

Debt and short-term borrowings consist of the following as of March 31, 2013 (in thousands):

Term loan	\$ 124,219
Revolving credit facility	—
Total debt	124,219
Less: Current portion of long-term debt	3,125
Long-term debt	\$ 121,094

Aggregate debt maturities as of March 31, 2013 are as follows:

2013	\$ 2,344
2014	3,125
2015	6,250
2016	112,500
	\$ 124,219

Interest Rate Swap

The Company was party to an interest rate swap on the outstanding balance of the Company's existing Credit Facility. On November 8, 2012, the Company entered into an additional interest rate swap arrangement in order to minimize the interest rate exposure on the entire balance of the term loan facility (the "Swaps," inclusive of the existing swap). The Swaps effectively fix the variable interest rate on the associated debt at an effective rate ranging from 2.85% to 3.35%, depending on the leverage ratio, rather than being subject to fluctuations in the LIBOR rate. The terms of the Swaps effectively match the term of the underlying term loan facility. The Swaps have been designated as a cash flow hedge and have been deemed effective in accordance with the Derivatives and Hedging Topic, ASC 815. The Company expects the Swaps to continue to be deemed effective for the duration of the Swaps. The fair value of the Swaps is included in other long-term liabilities in the Company's consolidated balance sheets.

4. Fair Value Measurement

Assets and liabilities measured at fair value on a recurring basis consist of the following as of March 31, 2013 (in thousands):

	Fair Value Measurements at Reporting Date Using			
	March 31, 2013	Quoted Prices in Active Markets for		Significant Unobservable Inputs (Level 3)
Identical Assets/ Liabilities (Level 1)		Significant Other Observable Inputs (Level 2)		
Assets:				
Cash equivalents:				
Money market funds	\$ 1,381	\$ 1,381	\$ —	\$ —
Total assets at fair value on a recurring basis	\$ 1,381	\$ 1,381	\$ —	\$ —
Liabilities:				

Other liabilities:

Interest rate swaps	\$	980	\$	—	\$	980	\$	—
Deferred payments		2,115		—		—		2,115
Total liabilities at fair value on a recurring basis	\$	3,095	\$	—	\$	980	\$	2,115

Assets and liabilities measured at fair value on a recurring basis consist of the following as of December 31, 2012 (in thousands):

	Fair Value Measurements at Reporting Date Using			
	December 31, 2012	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents:				
Money market funds	\$ 1,380	\$ 1,380	\$ —	\$ —
Total assets at fair value on a recurring basis	\$ 1,380	\$ 1,380	\$ —	\$ —
Liabilities:				
Other liabilities:				
Interest rate swaps	\$ 1,211	\$ —	\$ 1,211	\$ —
Deferred payments	2,119	—	—	2,119
Total liabilities at fair value on a recurring basis	\$ 3,330	\$ —	\$ 1,211	\$ 2,119

The Company measures the above items on a recurring basis at fair value as follows:

Money market funds — Classified in Level 1 is excess cash the Company may hold in both taxable and tax-exempt money market funds and are included in cash and cash equivalents in the accompanying unaudited condensed consolidated balance sheets. The Company records any net unrealized gains and losses for changes in fair value as a component of accumulated other comprehensive income in stockholders' equity. Realized gains and losses from the sale of marketable securities are based on the specific identification method. The Company's remaining cash and cash equivalents held at December 31, 2012 and March 31, 2013, approximate fair value and is not disclosed in the above tables because of the short-term nature of the financial instruments.

Interest rate swaps — The Company has two interest rate swaps with a notional amount of \$124.2 million as of March 31, 2013, used to minimize the interest rate exposure and fix the variable interest rate on a portion of the Company's variable rate debt. The swaps are classified within Level 2 and are valued using readily available pricing sources which utilize market observable inputs including the current variable interest rate for similar types of instruments.

Deferred payments — The Company acquired certain assets and entered into a deferred payment arrangement with one of the sellers, which are classified within Level 3 as there is no liquid market for similarly priced instruments. The deferred payments are valued using a discounted cash flow model that encompassed significant unobservable inputs to estimate the operating results of the acquired assets. The assumptions used to prepare the discounted cash flows include estimates for interest rates, enrollment growth, retention rates and pricing strategies. These assumptions are subject to change as the underlying data sources evolve and the program matures.

At March 31, 2013, the carrying value of the Company's debt was \$124.2 million. All of the Company's debt is variable interest rate debt and the carrying amount approximates fair value.

The Company did not change its valuation techniques associated with recurring fair value measurements from prior periods, and no assets or liabilities were transferred between levels of the fair value hierarchy during the three months ended March 31, 2012 or 2013. Assets measured at fair value on a non-recurring basis as of December 31, 2012 and March 31, 2013, include \$6.8 million of goodwill and \$1.6 million of other indefinite-lived intangible assets. The changes in the fair value of the Company's Level 3 liability during the three months ended March 31, 2013 are as follows (in thousands):

	Deferred Payments
Balance at December 31, 2012	\$ 2,119
Amounts earned	(65)
Adjustments to fair value	61
Transfers in or out of Level 3	—
Balance at March 31, 2013	\$ 2,115

5.
Stockholders'
Equity

Authorized stock

The Company has authorized 20,000,000 shares of common stock, par value \$0.01, of which 11,387,299 and 10,810,872 shares were issued and outstanding as of December 31, 2012 and March 31, 2013, respectively. The Company also has authorized 8,000,000 shares of preferred stock, none of which has been issued or outstanding since 2004. In 2012, the Company paid an annual cash dividend of \$4.00 per share, or \$1.00 per share quarterly. No dividend was paid in the first quarter of 2013.

Stock-based compensation plans

The Strayer Education Inc. 2011 Equity Compensation Plan (the "Plan") provides for the granting of restricted stock, restricted stock units, stock options intended to qualify as incentive stock options, stock options that do not qualify as incentive stock options, and other forms of equity compensation and performance-based awards to employees, officers and directors of the Company, or to a consultant or advisor to the Company, at the discretion of the Board of Directors. Vesting provisions are at the discretion of the Board of Directors. Options may be granted at option prices based at or above the fair market value of the shares at the date of grant. The maximum term of the awards granted under the Plan is ten years. Dividends paid on unvested restricted stock are reimbursed to the Company if the recipient forfeits his or her shares as a result of termination or employment, prior to vesting in the award.

Restricted Stock and Restricted Stock Units

In February 2013, the Company's Board of Directors approved grants of 165,712 shares of restricted stock to certain individuals. These shares, which vest over a three- to five-year period, were granted pursuant to the Plan. The Company's stock price closed at \$62.28 on the date of these restricted stock grants. In March 2013, outstanding awards of 200,000 restricted shares were converted to restricted stock units.

The table below sets forth the restricted stock and restricted stock units activity for the three months ended March 31, 2013:

	Number of shares or units	Weighted- average grant price
Balance, December 31, 2012	434,439	\$ 178.88
Grants	165,712	\$ 62.28
Vested shares	(32,568)	\$ 189.61
Forfeitures	(47,054)	\$ 215.71

Balance, March 31, 2013	520,529	\$	137.76
-------------------------	---------	----	--------

Stock Options

In February 2013, the Company's Board of Directors granted an option to purchase 100,000 shares of the Company's common stock at an exercise price of \$51.95 per share. The award vests in its entirety two years from the date of grant and expires eight years from the date of grant. The weighted average fair value of the options granted in the three months ended March 31, 2013, is estimated at \$22.09 per share on the date of grant using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 0.877%; an expected life of five years; volatility of 48.49%; and dividend yield of 0% over the expected life of the option.

The table below sets forth the stock option activity for the three months ended March 31, 2013 and other stock option information at March 31, 2013:

	Number of shares	Weighted-average exercise price	Weighted-average remaining contractual life (yrs.)	Aggregate intrinsic value ⁽¹⁾ (in thousands)
Balance, December 31, 2012	100,000	\$ 107.28	0.1	\$ —
Grants	100,000	51.95		
Exercises	—	—		
Forfeitures/Expirations	(100,000)	107.28		
Balance, March 31, 2013	100,000	\$ 51.95	7.8	\$ —
Exercisable, March 31, 2013		—\$	—	—

(1) The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the respective trading day and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holder had the options been exercised on the respective trading day. The amount of intrinsic value will change based on the fair market value of the Company's common stock.

Valuation and Expense Information under Stock Compensation Topic ASC 718

At March 31, 2013, total stock-based compensation cost which has not yet been recognized was \$44.4 million, all for unvested stock and stock option awards. This cost is expected to be recognized over the next 60 months on a weighted-average basis. Awards of approximately 344,000 shares of restricted stock and restricted stock units are subject to performance conditions. The accrual for stock-based compensation for performance awards is based on the Company's estimates that such performance criteria are probable of being achieved. Such a determination involves significant judgment surrounding future operating performance of the Company. If the performance targets are not reached during the vesting period, or it is determined it is more likely than not that the performance criteria will not be achieved, related compensation expense is adjusted.

The following table summarizes the stock-based compensation expense recorded for the three months ended March 31, 2012 and 2013 by expense line item (in thousands):

	For the three months ended March 31,	
	2012	2013
Instruction and educational support	\$ 671	\$ 1,097
Marketing	—	—
Admissions advisory	—	—
General and administration	1,719	1,153
Stock-based compensation expense included in operating expense	2,390	2,250
Tax benefit	944	895
Stock-based compensation expense, net of tax	\$ 1,446	\$ 1,355

During the three months ended March 31, 2012 and 2013, the Company recognized a tax shortfall related to share-based payment arrangements of \$0.7 million and \$3.3 million, respectively. No stock options were exercised during the three months ended March 31, 2012 or 2013.

6.
Other
Long-Term
Liabilities

Other long-term liabilities consist of the following as of December 31, 2012 and March 31, 2013 (in thousands):

	2012	2013
Deferred rent and other facility costs	\$ 11,650	\$ 11,901
Deferred payments related to acquisition	4,919	4,915
Lease incentives	3,150	3,086
Deferred taxes	—	1,406
Fair value of interest rate swap (see Note 3)	1,211	980
Deferred gain on sale of campus building	975	905
	\$ 21,905	\$ 23,193

Deferred Rent and Other Facility Costs

In accordance with the Operating Leases Subtopic, ASC 840-20 (“ASC 840-20”), the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a liability. Other facility costs include lease costs of non-campus facilities that are not currently in use.

Lease Incentives

In conjunction with the opening of new campuses, the Company, in some instances, was reimbursed by the lessors for improvements made to the leased properties. In accordance with ASC 840-20, these improvements were capitalized as leasehold improvements and a long-term liability was established for the reimbursements. The leasehold improvements and the liability are amortized on a straight-line basis over the corresponding lease terms, which generally range from five to 10 years.

Deferred Gain on Sale of Campus Building

In June 2007, the Company sold one of its campus buildings for \$5.8 million. The Company is leasing back most of the campus building over a 10-year period. In conjunction with this sale and lease back transaction, the Company realized a gain of \$2.8 million before tax, which is deferred and recognized over the 10-year lease term.

7. Income
Taxes

The Income Taxes Topic, ASC 740 (“ASC 740”), requires the Company to determine whether uncertain tax positions should be recognized within the Company’s financial statements. The amount of unrecognized tax benefits and liabilities at March 31, 2013 is immaterial. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of March 31, 2013, the amount of accrued interest related to uncertain tax positions was immaterial. The tax years 2011 and 2012 remain open for Federal tax examination, and the tax years 2009-2012 remain open to examination by the state and local taxing jurisdictions in which the Company is subject.

8.
Litigation

From time to time, the Company is involved in litigation and other legal proceedings arising out of the ordinary course of its business. On October 15, 2010, a putative securities class action was filed in the United States District Court for the Middle District of Florida. On March 20, 2012, the District Court granted the Company's motion to dismiss the complaint for failure to state a claim, and the Eleventh Circuit Court of Appeals upheld that dismissal on December 13, 2012. That dismissal became the final disposition of the case on March 13, 2013, when the deadline expired for plaintiffs to request further appeal. A shareholder derivative action alleging similar facts was filed in the Circuit Court of Fairfax County, Virginia, which action was voluntarily dismissed by nonsuit on June 12, 2012. There are no pending material legal proceedings to which we are subject or to which our property is subject.

9.
Regulation

On June 13, 2011, the Department of Education published its final regulations defining the term “gainful employment.” Under the regulations, a particular program offered by an institution would become ineligible for Title IV funding if it could not pass at least one of three alternative measurements in three out of four consecutive years. The first year that a program could become ineligible is 2015. On June 21, 2012, the Department released illustrative data indicating that all of the University’s programs comply with the regulations. Although the regulations were scheduled to go into effect July 1, 2012, the U.S. District Court in *Association of Private Sector Colleges and Universities v. Duncan*, vacated most of the regulations on June 30, 2012. The Department filed a motion for reconsideration, which the Court denied on March 19, 2013, holding that the data collection required by the regulations was prohibited by statute. On April 16, 2013, the Department announced that it would add gainful employment, program integrity, Title IV cash management, and state authorization of distance education among others to a negotiated rulemaking previously initiated in May 2012. The first of three additional hearings to be held on these topics is scheduled for May 21, 2013. The Department has indicated that it anticipates negotiations will begin in September 2013.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Notice Regarding Forward-Looking Statements

Certain of the statements included in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" as well as elsewhere in this report on Form 10-Q are forward-looking statements made pursuant to the Private Securities Litigation Reform Act of 1995 ("Reform Act"). Such statements may be identified by the use of words such as "expect," "estimate," "assume," "believe," "anticipate," "will," "forecast," "plan," "project," or similar words. These statements are based on the Company's current expectations and are subject to a number of assumptions, risks and uncertainties. In accordance with the Safe Harbor provisions of the Reform Act, the Company has identified important factors that could cause the actual results to differ materially from those expressed in or implied by such statements. The assumptions, risks and uncertainties include the pace of growth of student enrollment, our continued compliance with Title IV of the Higher Education Act, and the regulations thereunder, as well as regional accreditation standards and state regulatory requirements, rulemaking by the Department of Education and increased focus by the U. S. Congress on for-profit education institutions, competitive factors, risks associated with the opening of new campuses, risks associated with the offering of new educational programs and adapting to other changes, risks associated with the acquisition of existing educational institutions, risks relating to the timing of regulatory approvals, our ability to implement our growth strategy, risks associated with the ability of our students to finance their education in a timely manner, and general economic and market conditions. Further information about these and other relevant risks and uncertainties may be found in the Company's Annual Report on Form 10-K and its other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise forward-looking statements, except as may be required by law.

Additional Information

We maintain a website at <http://www.strayereducation.com>. The information on our website is not incorporated by reference in this Quarterly Report on Form 10-Q, and our web address is included as an inactive textual reference only. We make available, free of charge through our website, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission.

Results of Operations

In the first quarter of 2013, we generated \$137.5 million in revenue, a decrease of 8% compared to the same period in 2012. Income from operations was \$29.9 million for the first quarter of 2013, a decrease of 27% compared to the same period in 2012. Net income was \$17.2 million in the first quarter of 2013, a decrease of 28%, compared to the same period in 2012. Diluted earnings per share was \$1.59 for the first quarter of 2013 compared to \$2.09 for the same period in 2012, a decrease of 24%.

Key enrollment trends by quarter were as follows:

Enrollment
% Change vs. Prior Year

Although we do not know for sure why our recent enrollment trends and that of the proprietary higher education sector generally have been negative, we believe that sustained levels of high unemployment and the resulting lower confidence in job prospects are contributing factors. The average 19% decline in our new students in 2011 had an adverse impact on 2012 enrollment since there were fewer students from 2011 continuing their education in 2012. We believe it will take several quarters of new student growth in order to achieve overall enrollment growth.

We cannot predict future enrollments or whether new student enrollment will decline further, stabilize or increase in response to the economy or other factors. We can describe what we think our business model may look like financially under different enrollment scenarios. We implemented a 3% tuition increase in 2013 but we expect roughly flat revenue per student in 2013 due to the University's continued mix shift towards graduate and corporate sponsored students, as well as continued targeted use of scholarships. At 2012 enrollment levels, we also would expect Strayer University's expenses to grow 1% to 2% in 2013, reflecting the annualization of operating costs at the eight new campuses opened during 2012, but that no additional campuses are currently planned for 2013. We expect that at the 2012 revenue level, anticipated 2013 expenses would lead to a 19-20% operating margin in 2013, and EPS in the \$5.40-\$5.60 range. Each 1% increase (or decrease) in revenue from 2012 levels in 2013 will have an approximate 50 basis points positive (or negative) impact on operating margin, and an approximate \$0.20 positive (or negative) impact on earnings per share. Finally, this model assumes an effective tax rate of 39.5% and 11,500,000 diluted shares outstanding.

Three Months Ended March 31, 2013 Compared to Three Months Ended March 31, 2012

Enrollment. Enrollment at Strayer University for the 2013 winter term, which began January 7, 2013 and ended March 18, 2013, decreased 5% to 47,926 students compared to 50,432 students for the same term in 2012. New student enrollments decreased 5% and continuing student enrollments also decreased 5%. Global online students increased 9% while students taking 100% of their classes online (including campus based students) decreased 3%.

Revenues. Revenues decreased 8% to \$137.5 million in the first quarter of 2013 from \$149.5 million in the first quarter of 2012, principally due to 5% lower enrollments and 3% lower revenue per student.

Instruction and educational support expenses. Instruction and educational support expenses decreased slightly to \$73.4 million in the first quarter of 2013 from \$73.8 million in the first quarter of 2012. Instruction and educational support expenses as a percentage of revenues increased to 53.4% in the first quarter of 2013 from 49.3% in the first quarter of 2012, largely due to the decline in tuition revenues.

Marketing expenses. Marketing expenses increased by \$2.2 million, or 15%, to \$17.7 million in the first quarter of 2013 from \$15.5 million in the first quarter of 2012 largely due to our expansion into new markets. Marketing expenses as a percentage of revenues increased to 12.9% in the first quarter of 2013, from 10.3% in the third quarter of 2012, largely due to these expenses increasing while tuition revenues declined.

Admissions advisory expenses. Admissions advisory expenses decreased by \$1.4 million, or 21%, to \$5.4 million in the first quarter of 2013 from \$6.8 million in the first quarter of 2012. Admissions advisory expenses as a percentage of revenues decreased to 3.9% in the first quarter of 2013 from 4.5% in the first quarter of 2012, largely due to lower personnel costs.

General and administration expenses. General and administration expenses decreased \$1.5 million, or 12%, to \$11.1 million in the first quarter of 2013 from \$12.6 million in the first quarter of 2012, primarily due to a reduction in professional services and stock-based compensation expenses. General and administration expenses as a percentage of revenues decreased slightly to 8.1% in the first quarter of 2013 from 8.5% in the first quarter of 2012.

Income from operations. Income from operations decreased \$11.0 million, or 27%, to \$29.9 million in the first quarter of 2013 from \$40.9 million in the first quarter of 2012, due to the aforementioned factors.

Investment income. We had no investment income in the first quarter of 2013 compared to \$1,000 in the first quarter of 2012.

Interest expense. Interest expense increased slightly by \$0.1 million, or 7%, to \$1.3 million in the first quarter of 2013 compared to \$1.2 million in the first quarter of 2012, due to higher average debt outstanding in the quarter partly offset by a lower interest rate.

Provision for income taxes. Income tax expense decreased \$4.3 million, or 27%, to \$11.4 million in the first quarter of 2013 from \$15.7 million in the first quarter of 2012, primarily due to the decrease in income before taxes attributable to the factors discussed above. Our effective tax rate was 39.8% in the first quarter of 2013 compared to 39.5% in the first quarter of 2012.

Net income. Net income decreased \$6.8 million, or 28%, to \$17.2 million in the first quarter of 2013 from \$24.0 million in the first quarter of 2012 due to the factors discussed above.

Liquidity and Capital Resources

At March 31, 2013, we had cash and cash equivalents of \$50.8 million compared to \$47.5 million at December 31, 2012, and \$52.7 million at March 31, 2012. At March 31, 2013, most of our cash was invested in bank overnight deposits.

On November 8, 2012, we entered into a second amended and restated revolving credit and term loan agreement which is secured by our assets and provides for a \$100.0 million revolving credit facility and \$125.0 million term loan facility with a maturity date of December 31, 2016. Proceeds from the new term loan were used to pay off \$77.5 million outstanding under the original term loan facility. We had no outstanding balance under the prior revolving credit facility on the day of closing. At March 31, 2013, we had \$124.2 million outstanding under the new term loan and no balance outstanding under the revolving credit facility. In 2013, we are obligated to repay \$3.1 million of the term loan.

For the three months ended March 31, 2013, we generated \$31.4 million of net cash from operating activities compared to \$36.5 million for the same period in 2012. Capital expenditures were \$2.4 million for the three months ended March 31, 2013 compared to \$4.1 million for the same period in 2012. We do not plan to open any new campuses during 2013. We invested \$25.0 million to repurchase common shares in the open market during the three months ended March 31, 2013. We had \$70.0 million of share repurchase authorization remaining at March 31, 2013.

In the first quarter of 2013, bad debt expense as a percentage of revenues was 4.0% compared to 3.8% for the same period in 2012. Days sales outstanding was 15 days at the end of the first quarter of 2013 compared to 14 days at the end of the first quarter of 2012.

Currently, we maintain our cash in mostly FDIC-insured bank accounts and invest our excess cash in money market funds. We have available \$100 million under our revolving credit facility. We believe that existing cash and cash equivalents, cash generated from operating activities, and if necessary, cash borrowed under the revolving credit facility, will be sufficient to meet our requirements for at least the next 12 months.

The table below sets forth our contractual commitments associated with operating leases, and the revolving credit and term loan facilities as of March 31, 2013. Although they have been paid in the past, dividends are not a contractual commitment and, therefore, have been excluded from this table.

	Total	Payments due by period (in thousands)			
		Within 1 Year	2-3 Years	4-5 Years	After 5 Years
Operating leases	\$ 234,671	\$ 40,507	\$ 76,066	\$ 57,790	\$ 60,308
Term loan	124,219	3,125	10,156	110,938	—
Total	\$ 358,890	\$ 43,632	\$ 86,222	\$ 168,728	\$ 60,308

ITEM 3: QUANTITATIVE
AND
QUALITATIVE
DISCLOSURES
ABOUT
MARKET RISK

The Company is subject to the impact of interest rate changes and may be subject to changes in the market values of its future investments. The Company invests its excess cash in bank overnight deposits, money market funds and marketable securities. The Company has not used derivative financial instruments in its investment portfolio. Earnings from investments in bank overnight deposits, money market mutual funds, and marketable securities may be adversely affected in the future should interest rates decline, although such a decline may reduce the interest rate payable on any borrowings by the Company under its revolving credit facility. The Company's future investment income may fall short of expectations due to changes in interest rates or the Company may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates. As of March 31, 2013, a 1% increase or decrease in interest rates would not have a material impact on the Company's future earnings, fair values, or cash flows related to investments in cash equivalents or interest-earning marketable securities.

Changing interest rates could also have a negative impact on the amount of interest expense the Company incurs. On November 8, 2012, the Company entered into a second amended and restated revolving credit and term loan agreement providing for a \$100 million revolving credit facility and a \$125 million term loan facility. Borrowings under the \$100 million revolving credit facility bear interest at LIBOR or a base rate plus a margin ranging from 2.00% to 2.50%, depending on the Company's leverage ratio. Also on November 8, 2012, the Company entered into an additional interest rate swap arrangement for the \$125 million term loan facility that fixes the Company's interest rate on the term loan facility at an effective rate ranging from 2.85% to 3.35%, depending on the Company's leverage ratio, for the duration of the term loan. Although an increase in LIBOR would not affect interest expense on the term loan, it would affect interest expense on any outstanding balance of the revolving credit facility and the fair value of the interest rate swap arrangement. For every 100 basis points increase in LIBOR, the Company would incur an incremental \$1.0 million in interest expense per year assuming the entire \$100 million revolving credit facility were utilized, but such an increase in LIBOR would not materially affect the value of the Company's interest rate swap.

ITEM 4:
CONTROLS
AND
PROCEDURES

- a) Disclosure Controls and Procedures. The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures as of March 31, 2013. Based upon such review, the Chief Executive Officer and Chief Financial Officer have concluded that the Company has in place, as of March 31, 2013, effective controls and procedures designed to ensure that information required to be disclosed by the Company (including its consolidated subsidiary) in the reports it files or submits under the Securities Exchange Act of 1934, as amended, and the rules thereunder, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in reports it files or submits under the Securities Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
- b)

Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting during the quarter ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1.
Legal
Proceedings

From time to time, the Company is involved in litigation and other legal proceedings arising out of the ordinary course of its business. On October 15, 2010, a putative securities class action was filed in the United States District Court for the Middle District of Florida. On March 20, 2012, the District Court granted the Company's motion to dismiss the complaint for failure to state a claim, and the Eleventh Circuit Court of Appeals upheld that dismissal on December 13, 2012. That dismissal became the final disposition of the case on March 13, 2013, when the deadline expired for plaintiffs to request further appeal. A shareholder derivative action alleging similar facts was filed in the Circuit Court of Fairfax County, Virginia, which action was voluntarily dismissed by nonsuit on June 12, 2012. There are no pending material legal proceedings to which we are subject or to which our property is subject.

Item 1A.
Risk
Factors

You should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012, which could materially affect our business. There have been no material changes to the risk factors previously described in Part I, Item 1A included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. Those risks are incorporated herein by this reference. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business.

Item 2.
Unregistered
Sales of
Equity
Securities
and Use of
Proceeds

During the three months ended March 31, 2013, the Company invested \$25.0 million to repurchase shares of common stock under its repurchase program.(1) The Company's remaining authorization for common stock repurchases was \$70.0 million at March 31, 2013 for use during the remainder of 2013. A summary of the Company's share repurchases during the quarter is set forth below:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs (\$ mil)
Beginning Balance (at 12/31/12)				\$ 95.0

Edgar Filing: STRAYER EDUCATION INC - Form 10-Q

January	29,975	\$ 58.38	29,975	\$ 93.2
February	115,390	51.98	115,390	\$ 87.3
March	349,720	49.33	349,720	\$ 70.0
Total (at 3/31/13)	495,085	\$ 50.49	495,085	\$ 70.0

(1) The Company's repurchase program was announced on November 3, 2003 for repurchases up to an aggregate amount of \$15 million in value of common stock through December 31, 2004. The Board of Directors amended the program on various dates increasing the amount authorized and extending the expiration date, most recently on November 9, 2012 when the Board of Directors increased the amount authorized by an addition \$100.0 million for 2012 and 2013.

Item 3.

Item 5.
Other
Information

Submission of Matters to a Vote of Security Holders

The Company held its 2013 Annual Meeting of Stockholders on May 2, 2013. There were 11,119,592 shares of common stock eligible to be voted at the Annual Meeting and 10,047,092 shares were presented in person or represented by proxy at the meeting which constituted a quorum to conduct business.

There were three proposals submitted to the Company's stockholders at the Annual Meeting. All proposals were passed. The final results of voting on each of the proposals are as follows:

Proposal 1: To elect ten directors to the Board of Directors from the nominees named in the attached proxy statement to serve for a term of one year or until their respective successors are elected and qualified.

Nominee	Votes For	Votes Against	Abstain	Broker Non-Vote
Robert S. Silberman	9,395,551	29,474	3,770	618,297
Robert R. Grusky	9,393,105	31,520	4,170	618,297

Entry into a Material Definitive Agreement

On May 2, 2013, the Company amended and restated the Employment Agreement of Robert S. Silberman, dated as of April 6, 2001 and as amended on March 11, 2005, in connection with his previously disclosed transition from Chief Executive Officer to Executive Chairman. Under the amended Employment Agreement, Mr. Silberman's term of employment is six years, and is renewable thereafter for one year terms unless the Company or Mr. Silberman provides notice otherwise. The amended agreement provides for a base salary of \$665,000 per annum (subject to annual increases for at least cost of living adjustments). Mr. Silberman is also eligible to receive a target profit share of at least 125% of base salary, for each of the fiscal years during which he is employed, upon meeting certain corporate and financial goals annually approved by the Board.

The Company also entered into an employment agreement on May 2, 2013 with Karl McDonnell, in connection with his promotion to Chief Executive Officer. Under the Employment Agreement, Mr. McDonnell's term of employment is six years and is renewable thereafter for one year terms unless the Company or Mr. McDonnell provides notice otherwise. Under the agreement Mr. McDonnell will receive a base salary of \$665,000 per annum (subject to annual increases for at least cost of living adjustments). Mr. McDonnell is also eligible to receive a target profit share of 125% of base salary, for each fiscal year during which he is employed, upon meeting certain corporate and financial goals annually approved by the Board, and an annual restricted share grant target equivalent to \$2,000,000, awarded at each annual meeting.

Item 6.
