**A Publicly Held Company**

## **MATERIAL FACT**

### **Clarification about the volume of a discovery in Sergipe**

Rio de Janeiro, October 29<sup>th</sup>, 2010   Petróleo Brasileiro S.A. - Petrobras, in response to official letter CVM/SEP/GEA-1/No. 406/2010, clarifies about an article published by the Brazilian press, titled "Sergipe reserve is of tens of millions of barrels."

The mentioned discovery was announced on October 27<sup>th</sup>, 2010, via a Notice to the Market, and was the result of the drilling of the well called 1-BRSA-851-SES (1-SES-158), known as Barra, located in block SEAL-M-426, in the BM-SEAL-11 concession, northeast of the Sergipe sub-basin, at water depths of 2341 meters, and 58 km off the coast of the state of Sergipe.

The statement made by the Company's Executive Manager for Exploration and Production, mentioned in the article, that the discovery would be sized at "tens of millions" of barrels, was based on information disclosed in the Notice that the reservoirs identified in well 1-SES-158 are similar to those occurring in the offshore section of Campos Basin, and was based on suppositions.

Further analyses and testing will be needed in order for it to be possible to size up the field's expected recoverable volume. Additionally, as the Company has already announced, the presence of light hydrocarbons in these reservoirs was attested through profiles only, and this does not allow for the estimated recoverable volume to be defined.

Therefore, the Company reasserts the information announced on October 28<sup>th</sup>, 2010, in the Notice to the Market titled "Clarification on the new discovery in Sergipe Basin," that the information obtained so far does not suffice to make an estimation and to announce the expected recoverable volumes.

The Company once again emphasizes that this well, which is still being drilled, will serve to continue the assessment process of older and deeper reservoirs.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
