## **GRUPO PÃO DE AÇÚCAR POSTS SALES GROWTH IN MAY**

**(São Paulo, Brazil, June 6, 2013)** Via Varejo, home appliances, electronics and furniture operation from Grupo Pão de Açúcar (GPA), celebrates its sales at Mother's Day. Same-store sales (which comprises stores opened more than one year ago) related to the event grew 12% in the stores (Casas Bahia and Pontofrio), contributing to 8.7% growth posted in May year-over-year.

Other GPA businesses also posted good sales growth in May. At Assaí, cash-and-carry, revenues went up 39%, with good results from recently-opened stores – was 5 new stores in 1Q13. Same-store sales increased 17%. Company believes the segment's growth potential is high and expects to triplicate sales within 5 years. In Food Retail (all Extra formats and Pão de Açúcar), gross sales growth was 10.9% in May.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
