MECHEL REPORTS RAISING US\$2BLN PRE-EXPORT FINANCE FACILITY TO REFINANCE ITS EXISTING DEBT OBLIGATIONS

Moscow, Russia - September 13, 2010 - Mechel OAO (NYSE: MTL), one of the leading Russian mining and metals companies, raised the US\$2bln pre-export facility. The new facility is split between the borrowers in mining (OJSHC Yakutugol and Southern Kuzbass Coal Company for US\$857.1 mln each), steel (OAO Chelyabinsk metallurgical plant for US\$95.3 mln) and ferroalloy (OAO South Urals Nickel Plant for US\$190.5 mln) divisions of Mechel Group and is drawn in two tranches, a 3-year and a 5-year one. Repayment will be done by monthly instalments after 9 and 15 months grace periods respectively. The Facility is structured as a secured dual tranche pre-export facility.

The proceeds raised under the new US\$2bln facility have been used for refinancing Mechel Group's remaining debt obligations under the two syndicated pre-export facilities (the original US\$ 2,000,000,000 and the US\$ 1,000,000,000 facilities raised for acquisition of OJSC Yakutugol and Oriel Resources Ltd. respectively). Those facilities were already in the repayment phase with final maturity in December 2012.

The Company appointed ING Bank N.V. and The Royal Bank of Scotland N.V. as Co-ordinators. In addition, BNP Paribas SA, Closed Joint Stock Company UniCredit Bank, Commerzbank Aktiengesellschaft, HSBC Bank plc, Natixis, OJSC "Nordea Bank", Raiffeisen Zentralbank Oesterreich AG, Société Générale, UniCredit Bank AG (formerly known as Bayerische Hypo- und Vereinsbank AG), VTB Bank (Austria) AG, VTB Bank (Deutschland) AG and VTB Bank (France) SA acted as Mandated Lead Arrangers and Morgan Stanley and Credit Suisse as Lenders for the facility. Stanislav Ploshchenko, Mechel's Chief Financial Officer commented: "Mechel has become the first Russian metals and mining company which arranged a new 5 year tenor PXF transaction after the financial crisis. It is also remarkable that this transaction came only a year after the restructuring of Mechel's international debt on less attractive terms. This time we also have fewer banks in the pool, many of them significantly increased their exposure since the previous facilities, but we also have completely new banks, which suggests a significant revaluation of our credit risk profile in the financial community. We are thankful to our foreign partners in the banking sector for their trust and commitment to our Group and to this transaction. The new financing is more favorable to our Group not only in tenor but also in pricing and collateral security. Besides, the new feature of this transaction is that it is structured without cross security and cross guarantees between our Group's divisions and therefore marks a significant step forward in our strategy to separate the divisions not only from the operational management's prospective but also in financing their operations including future debt and equity raising."
