Principal Real Estate Income Fund Performance Overview

October 31, 2015 (Unaudited)

INVESTMENT OBJECTIVE

The Principal Real Estate Income Fund's ("PGZ" or the "Fund") investment objective is to seek to provide high current income, with capital appreciation as a secondary objective, by investing in commercial real estate related securities. There can be no assurance that the Fund will achieve its investment objective.

PERFORMANCE OVERVIEW

Principal Real Estate Income Fund ("PGZ" or the "Fund") was launched June 25, 2013. As of October 31, 2015, the Fund was 65.7% allocated to commercial mortgage backed securities ("CMBS") and 33.3% allocated to global real estate securities, primarily real estate investment trusts ("REITs"). For the 12-month period ended October 31, 2015, the Fund delivered a net return of -0.54%, assuming dividends are reinvested back into the Fund, based on the closing share price of \$17.56 on October 31, 2015. This compares to the return of the S&P 500® Index, over the same time period, of 5.20% assuming dividends are reinvested into the index. This also compares to the return of the Barclays U.S. Aggregate Bond Index of 1.96% and the MSCI World Index of 1.77%.

The October 31, 2015 closing price of \$17.56 represented an 11.7% discount to the Fund's Net Asset Value ("NAV"). This compares to an average 11.4% discount for equity real estate closed-end funds and a 8.8% discount for mortgage-backed securities closed-end funds (source: Bloomberg). These discounts to NAV reflect the volatility that has occurred in the closed-end fund market since June 2013, as expectations for higher interest rates have negatively impacted the attractiveness of the market.

Based on NAV, the Fund has returned 3.61%, including dividends, for the 12-month period ended October 31, 2015. Fund investments were impacted by concerns of a slowdown in global growth led by China in August of this year. This change in the outlook for global growth resulted in investors pulling money out of both equity and bond funds which negatively impacted prices for both global REITS and CMBS. These concerns also forced the Fed to postpone liftoff of zero interest rate policy in September which worked to bring interest rate policy uncertainty back to the market and contributed to heightened levels of volatility remaining in the market through September. The impact of the change in market sentiment in August is reflected in the NAV Price of the Fund declining 6.2% for the 6 months ended October 31, 2015, compared to down 5.4% for the 12 months ended October 31, 2015. This negative price movement came at a time when CMBS and global real estate securities continued to benefit from the ongoing improvement in real estate fundamentals. In the U.S., demand for space is outpacing supply in most markets which is helping to stabilize or increase rents and lower vacancies across major property types in major markets across the country, resulting in higher net operating income at the property level. Globally, real estate markets are exhibiting a generally solid investment landscape with pockets of both strength and weakness.

CMBS

CMBS continues to realize the benefit of improving real estate fundamentals in the form of lower delinquencies and a higher-than-expected percentage of maturing loans being able to refinance. Due to the strong performance of the underlying loans, especially from pools that were issued prior to 2009, the CMBS holdings in the Fund returned approximately 5.1%, outperforming the broader CMBS market, as measured by the Barclays CMBS Investment Grade Index performance of 2.6%, and the broader fixed income market, as measured by the Barclays U.S. Aggregate Bond Index performance of 1.96%. New issue CMBS spreads came under pressure starting in June as supply began to outpace demand and spreads dislocated again in August in response to the material increase in broader market volatility. 16% of the CMBS bonds in the Fund are from new and recently issued CMBS.

Principal Real Estate Income Fund Performance Overview

October 31, 2015 (Unaudited)

As of October 31, 2015, delinquencies on CMBS loans have improved to a post-financial crisis percentage not seen since early 2010 at 5.4%, according to Barclay's Research. Additionally, the monthly pace of new 30-day delinquencies has been averaging around 1% over the past 6 months compared to 5-6% at the peak in 2009-2010, 3-4% in 2012 and 1.5-2.0% in 2013 according to Wells Fargo. Improving fundamentals and availability of capital have also increased the percentage of maturing loans (10 year loans originated in 2005 and 7 year loans originated in 2008) that have been able to refinance during 2015. The maturing loan refinance rate increased from 30-40% in the second half of 2012 to 80% during 2013, 2014 and 90% year-to-date 2015. The continued growth of the new issue CMBS market is helping to provide the capital needed to refinance these loans. New issue CMBS supply was \$85 billion in 2014 compared to roughly \$1 billion in 2009, \$10 billion in 2010, \$28 billion in 2011, \$43 billion in 2012 and \$85 billion in 2013. Projections for 2015 are that new issuance could top \$100 billion. The improvement in commercial real estate fundamentals and availability of capital are two key variables, with the third being interest rates, that will have a direct impact on the performance of CMBS through 2017. The peak years of issuance pre-financial crisis were 2005-2007. Issuance during those years included \$147 billion in 2005, \$172 billion in 2006 and \$202 billion in 2007, with the majority of loans originated in those years being ten year loans. This means the maturity cycle in 2015-2017 and corresponding percentage of loans that can be refinanced will have a direct impact on recoveries for bonds issued during those pre-crisis years. To-date, refinance activity through defeasance, yield maintenance or paying off at par has been strong for legacy loans on properties that have recovered from the crisis. As of October 31, roughly 1,250 loans totaling \$19 billion have defeased. This total surpassed the total 2014 defeasance volume in October. Another 350 loans totaling \$3.25 billion have prepaid with yield maintenance in 2015 compared to \$3.20 billion for all of 2014. The impact of this strong refinance activity has been to bring the total balance that remains to be refinanced from the 2005-2007 vintage to \$10 billion in 2015, \$72 billion in 2016 and \$104 billion in 2017. This compares to the total balance that remained to be refinanced as of April 2015 of \$50 billion in 2015, \$114 billion in 2016 and \$111 billion in 2017.

With respect to interest rates, the CMBS bonds held in the portfolio have benefited from being shorter duration securities which has made the portfolio less exposed to interest rate volatility. These bonds continue to attract investors searching for short duration, high yield options. The duration of the CMBS portfolio in the Fund was 2.08 years as of April 30, 2015.

We believe the outlook for CMBS remains positive looking forward to 2016 based on our positive outlook for real estate fundamentals driving strong property level income growth over the next 2-3 years. This income growth should be positive for the credit quality of the underlying CMBS loans and should help support growth in property values even if interest rates start to increase. Longer-term, the continued growth of CMBS issuance will be important for the market as the height of the maturity cycle approaches in 2016-2017.

GLOBAL REAL ESTATE SECURITIES

Despite improving real estate fundamentals, the global real estate securities holdings within the Fund returned approximately 1.4%, underperforming both global equities, as measured by the MSCI World Index (+1.77%), and global bonds, as measured by the J.P Morgan Global Government

2 www.principalcef.com

Principal Real Estate Income Fund Performance Overview

October 31, 2015 (Unaudited)

Bond Index (+3.37%) for the 12-months ended October 31, 2015. Capital flows into the private real estate asset class remain robust and the nemesis of past real estate cycles, supply competition arising from newly developed properties, remains well in check in most markets. Yet, investors have been confounded in recent months by the paradoxically opposing possibilities of rising interest rates in the U.S. reflective of an improving U.S. economy as well as the possibility of a global recession triggered by China's slowing growth and policy missteps. As such, global real estate securities experienced several sharp movements over the past 12 months largely in response to changing investor expectations regarding the path of U.S. interest rates and the possibility of a hard landing, rather than a smooth deceleration of GDP growth, in the Chinese economy. While changing investor views on interest rates and Chinese growth dominated much of the past 12 months, our macro-economic views remain little-changed in that we anticipate modest, but predictable GDP growth in the U.S. and the UK, continued central bank easing in Japan and across Europe, and albeit notable deceleration, sufficient growth in China. We believe this continued environment of low sovereign yields and tepid GDP growth is favorable for listed property stocks.

Performance within the global real estate securities holdings was strongest in Europe as the portfolio's holdings there returned approximately 12% in USD. Contribution was dominated in particular by strong returns from UK stocks as improving labor markets and a broadening of the housing market recovery drove UK property stocks. Continental Europe also performed well amidst prospects for a resolution to the Greek crisis and ongoing quantitative easing. The portfolio's holdings within the Americas were roughly flat for the period with U.S. stocks returning approximately 1%, but Canadian stocks were under pressure and returning approximately -12% (in USD) amidst weakening economic conditions in Canada given declining commodity prices. The portfolio's holdings within Asia Pacific were especially weak and returned approximately -7% (in USD) as Chinese growth concerns weighted on most countries within Asia.

Our proprietary financial model utilized to measure global real estate securities valuation levels indicates securities trade at attractive levels at the end of October 2015. This measure examines the spread between the stocks' forward looking implied unlevered internal rates of returns ("IRRs") to global treasury yields. That spread, or 'risk premium', of 4.67% as of the end of October is comfortably in excess of the trailing 10 year average of 4.46%.

Despite some renewed global growth concerns, we continue to be encouraged that the broader economic recovery theme is intact for the developed world. Property fundamentals continue to benefit from this improvement in the underlying economy in the form of increased occupancy and rental levels. Supply growth also remains generally subdued for most property sectors and therefore supportive of further fundamental gains. With the recent macroeconomic uncertainty, the fear of higher interest rates has somewhat dissipated. Slow but steady global growth, low inflation and commodity price concerns are likely to result in lower long term interest rates. However, investors will be closely monitoring monetary policy action and commentary over the balance of the year, likely resulting in further volatility in financial markets. Although volatility has been higher recently, private market demand for real estate has not changed, as strong fundamentals and a 'search for yield' continue to attract investors to the asset class. The universe of global listed real estate stocks trade at attractive levels relative to private market values, thus any pull-back in pricing of stocks will present a buying opportunity.

Principal Real Estate Income Fund Performance Overview

October 31, 2015 (Unaudited)

OUTLOOK

The outlook for global growth and interest rate policy decisions in the U.S. will continue to be a significant factor influencing the near-term performance of CMBS and global real estate securities. We believe both sectors are poised to deliver attractive returns in a relatively stable rate, low growth environment. Longer-term, if rates break out of the current range in response to an improving global economy, this would likely result in increased earnings growth for commercial real estate properties; a positive for both the CMBS and global property securities markets. In the meantime, periods of near-term volatility may present opportunities for positive long-term performance.

References:

The Premium/Discount is the amount (stated in dollars or percent) by which the selling or purchase price of a fund is greater than (premium) or less than (discount) its face amount/value or net asset value (NAV).

Duration is a measure of the sensitivity of the price (the value of principal) of a fixed-income investment to a change in interest rates. Duration is expressed as a number of years. The duration number is a calculation involving present value, yield, coupon, final maturity and call features. The bigger the duration number, the greater the interest-rate risk or reward for bond prices. Rising interest rates mean falling bond prices, while declining interest rates mean rising bond prices.

S&P 500[®] Index – A large cap U.S. equities index that includes 500 leading companies and captures approximately 80% coverage of available market capitalization.

FTSE EPRA/NAREIT Developed NTR Index – A modified market capitalization weighted index, based on free float market capitalization designed to measure the stock performance of companies engaged in specific real estate activities of the North American, European and Asian real estate markets.

Barclays U.S. Aggregate Bond Index – A broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed rate taxable bond market, including Treasuries, government related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass throughs), ABS, and CMBS.

MSCI World Index – MSCI's market capitalization weighted index is composed of companies representative of the market structure of 23 developed market countries in North America, Europe, and the Asia/Pacific Region.

J.P. Morgan Global Government Bond Index – is a widely used benchmark for measuring performance and quantifying risk across international fixed income bond markets. The index measures the total, principal, and interest returns in each market and can be reported in 19 different currencies. By including only traded issues available to international investors, the index provides a realistic measure of market performance.

The internal rate of return on an investment is defined as the discount rate at which the present value of all future cash flows is equal to the initial investment or, in other words, the rate at which an investment breaks even.

Principal Real Estate Income Fund

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of
Principal Real Estate Income Fund

We have audited the accompanying statement of assets and liabilities, including the statement of investments, of Principal Real Estate Income Fund (the "Fund") as of October 31, 2015, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three periods in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2015, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Principal Real Estate Income Fund as of October 31, 2015, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Principal Real Estate Income Fund Financial Highlights

For a share outstanding throughout the periods presented.

(a) Calculated using average shares throughout the period.

Total investment return is calculated assuming a purchase of common share at the opening on the first day and a sale at closing on the last day of each period reported. For purposes of this calculation, dividends and distributions, if any, are assumed to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any. Periods less than one year are not annualized.

(c) Annualized.

(d) Average managed assets represent net assets applicable to common shares plus average amount of borrowings during the period.

(e) Not annualized.

See Notes to Financial Statements.

20 www.principalcef.com

October 31, 2015

1. ORGANIZATION

Principal Real Estate Income Fund (the "Fund") is a Delaware statutory trust registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act").

The Fund's investment objective is to seek to provide high current income, with capital appreciation as a secondary investment objective, by investing in commercial real estate-related securities. There can be no assurance that the Fund will achieve its investment objective. An investment in the Fund may not be appropriate for all investors.

Investing in the Fund involves risks, including exposure to below-investment grade investments. The Fund's net asset value will vary and its distribution rate may vary and both may be affected by numerous factors, including changes in the market spread over a specified benchmark, market interest rates and performance of the broader equity markets. Fluctuations in net asset value may be magnified as a result of the Fund's use of leverage.

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liability arising out of the performance of their duties with respect to the Fund. In addition, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with vendors and others that provide general indemnification. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust and/or the Fund. Based on experience, however, the Fund expects the risk of loss to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the period reported. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Fund ultimately realizes upon sale of the securities. The Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification Topic 946. The financial statements have been prepared as of the close of the New York Stock Exchange ("NYSE") on October 31, 2015.

Portfolio Valuation: The net asset value per Common Share of the Fund is determined no less frequently than daily, on each day that the NYSE is open for trading, as of the close of regular trading on the NYSE (normally 4:00 p.m. New York time). The Fund's net asset value per Common Share is calculated in the manner authorized by the Fund's Board of Trustees (the "Board"). Net asset value is computed by dividing the value of the Fund's total assets, less its liabilities by the number of shares outstanding.

October 31, 2015

The Board has established the following procedures for valuation of the Fund's assets under normal market conditions. Marketable securities listed on foreign or U.S. securities exchanges generally are valued at closing sale prices or, if there were no sales, at the mean between the closing bid and ask prices on the exchange where such securities are primarily traded.

The Fund values commercial mortgage-backed securities and other debt securities not traded in an organized market on the basis of valuations provided by an independent pricing service, approved by the Board, which uses information with respect to transactions in such securities, interest rate movements, new issue information, cash flows, yields, spreads, credit quality, and other pertinent information as determined by the pricing service, in determining value. If the independent primary or secondary pricing service is unable to provide a price for a security, if the price provided by the independent primary or secondary pricing service is deemed unreliable, or if events occurring after the close of the market for a security but before the time as of which the Fund values its Common Shares would materially affect net asset value, such security will be valued at its fair value as determined in good faith under procedures approved by the Board.

When applicable, fair value of an investment is determined by the Fund's Fair Valuation Committee as a designee of the Board. In fair valuing the Fund's investments, consideration is given to several factors, which may include, among others, the following: the fundamental business data relating to the issuer, borrower, or counterparty; an evaluation of the forces which influence the market in which the investments are purchased and sold; the type, size and cost of the investment; the information as to any transactions in or offers for the investment; the price and extent of public trading in similar securities (or equity securities) of the issuer, or comparable companies; the coupon payments, yield data/cash flow data; the quality, value and saleability of collateral, if any, securing the investment; the business prospects of the issuer, borrower, or counterparty, as applicable, including any ability to obtain money or resources from a parent or affiliate and an assessment of the issuer's, borrower's, or counterparty's management; the prospects for the industry of the issuer, borrower, or counterparty, as applicable, and multiples (of earnings and/or cash flow) being paid for similar businesses in that industry; one or more independent broker quotes for the sale price of the portfolio security; and other relevant factors.

Securities Transactions and Investment Income: Investment security transactions are accounted for on a trade date basis. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded, in the exercise of reasonable diligence, as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is recorded on the accrual basis. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the first-in/first-out cost basis method for both financial reporting and tax purposes.

Fair Value Measurements: The Fund discloses the classification of its fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of the Fund's investments as of the end of the reporting period. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Unadjusted quoted prices in active markets for identical investments, unrestricted assets or liabilities that a
– Fund has the ability to access at the measurement date;

Level 2 – Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs
– other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

Level 3 – Significant unobservable prices or inputs (including the Fund's own assumptions in determining the fair value
– of investments) where there is little or no market activity for the asset or liability at the measurement date.

The following is a summary of the inputs used to value the Fund's investments as of October 31, 2015:

Principal Real Estate Income Fund

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Investments in Securities at Value*				
Common Stocks	\$64,912,584	\$–	\$ –	\$64,912,584
Preferred Stocks	498,153	–	–	498,153
Commercial Mortgage Backed Securities	–	129,248,314	–	129,248,314
Short Term Investments	1,937,358	–	–	1,937,358
Total	\$67,348,095	\$129,248,314	\$ –	\$196,596,409

* See Statement of Investments for industry classifications.

The Fund recognizes transfers between levels as of the end of the period. For the year ended October 31, 2015, the Fund did not have any significant transfers between Level 1 and Level 2 securities. The Fund did not have any securities which used significant unobservable inputs (Level 3) in determining fair value.

Commercial Mortgage Backed Securities ("CMBS"): As part of its investments in commercial real estate related securities, the Fund will invest in CMBS which are subject to certain risks associated with direct investments in CMBS. A CMBS is a type of mortgage-backed security that is secured by a loan (or loans) on one or more interests in commercial real estate property.

October 31, 2015

Investments in CMBS are subject to the various risks which relate to the pool of underlying assets in which the CMBS represents an interest. CMBS may be backed by obligations (including certificates of participation in obligations) that are principally secured by commercial real estate loans or interests therein having multi-family or commercial use. Securities backed by commercial real estate assets are subject to securities market risks as well as risks similar to those of direct ownership of commercial real estate loans because those securities derive their cash flows and value from the performance of the commercial real estate underlying such investments and/or the owners of such real estate.

Real Estate Investment Trusts ("REITs"): As part of its investments in real estate related securities, the Fund will invest in REITs and is subject to certain risks associated with direct investment in REITs. REITs possess certain risks which differ from an investment in common stocks. REITs are financial vehicles that pool investors' capital to acquire, develop and/or finance real estate and provide services to their tenants. REITs may concentrate their investments in specific geographic areas or in specific property types, e.g., regional malls, shopping centers, office buildings, apartment buildings and industrial warehouses. REITs may be affected by changes in the value of their underlying properties and by defaults by borrowers or tenants. REITs depend generally on their ability to generate cash flow to make distributions to shareowners, and certain REITs have self-liquidation provisions by which mortgages held may be paid in full and distributions of capital returns may be made at any time.

As REITs generally pay a higher rate of dividends than most other operating companies, to the extent application of the Fund's investment strategy results in the Fund investing in REIT shares, the percentage of the Fund's dividend income received from REIT shares will likely exceed the percentage of the Fund's portfolio that is comprised of REIT shares. Distributions received by the Fund from REITs may consist of dividends, capital gains and/or return of capital.

Dividend income from REITs is recognized on the ex-dividend date. The calendar year-end amounts of ordinary income, capital gains, and return of capital included in distributions received from the Fund's investments in REITs are reported to the Fund after the end of the calendar year; accordingly, the Fund estimates these amounts for accounting purposes until the characterization of REIT distributions is reported to the Fund after the end of the calendar year. Estimates are based on the most recent REIT distribution information available.

The performance of a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended (the "Code"), or its failure to maintain exemption from registration under the 1940 Act. Due to the Fund's investments in REITs, the Fund may also make distributions in excess of the Fund's earnings and capital gains. Distributions, if any, in excess of the Fund's earnings and profits will first reduce the adjusted tax basis of a holder's Common Shares and, after that basis has been reduced to zero, will constitute capital gains to the Common Shareholder.

Concentration Risk: The Fund invests in companies in the real estate industry, which may include CMBS, REITs, REIT-like structures, and other securities that are secured by, or otherwise have exposure to, real estate. Any fund that concentrates in a particular segment of the market will generally be more volatile than a fund that invests more broadly. Any market price movements, regulatory changes, or economic conditions affecting CMBS, REITs, REIT-like structures, and real estate more generally, will have a significant impact on the Fund's performance.

October 31, 2015

Foreign Currency Risk: The Fund expects to invest in securities denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates may affect the value of securities owned by the Fund, the unrealized appreciation or depreciation of investments and gains on and income from investments. Currencies of certain countries may be volatile and therefore may affect the value of securities denominated in such currencies, which means that the Fund's net asset value could decline as a result of changes in the exchange rates between foreign currencies and the U.S. dollar. These risks often are heightened for investments in smaller, emerging capital markets.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of the exchanges at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period-end, resulting from changes in exchange rates.

A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. The Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to a Fund include the potential inability of the counterparty to meet the terms of the contract.

3. LEVERAGE

Under normal market conditions, the Fund's policy is to utilize leverage through Borrowings and the issuance of preferred shares in an amount that represents up to 33 1/3% of the Fund's total assets, including proceeds from such Borrowings and issuances (or approximately 50% of the Fund's net assets). It is possible that the assets of the Fund will decline due to market conditions such that this 33 1/3% limit will be exceeded. In that case, the leverage risk to shareholders will increase. Borrowings will be subject to interest costs, which may or may not be recovered by appreciation of the securities purchased. In certain cases, interest costs may exceed the return received on the securities purchased.

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

The Fund maintains a \$70,000,000 line of credit with State Street Bank and Trust Company ("SSB"), which by its terms expires on September 21, 2016, subject to the restrictions and terms of the credit agreement. As of October 31, 2015, the Fund has drawn down \$60,000,000 from the SSB line of credit, which was the maximum borrowing outstanding during the period. The Fund is charged an interest rate of 1.00% (per annum) above the three-month LIBOR (London Interbank Offered Rate) of 0.345%, as of the last renewal date, for borrowing under this credit agreement, on the last day of the interest period. The Fund is charged a commitment fee on the average daily unused balance of the line of credit at the rate of 0.15% (per annum). The Fund pledges its investment securities as the collateral for the line of credit per the terms of the agreement. The average annualized interest rate charged and the average outstanding loan payable for the year ended October 31, 2015, was as follows:

Average Interest Rate*	1.177%
Average Outstanding Loan Payable	\$60,000,000

*Prior to September 21, 2015, the Fund was charged an interest rate of 0.90% (per annum) above the three-month LIBOR for borrowing under the previous SSB credit agreement.

4. INVESTMENT ADVISORY AND OTHER AGREEMENTS

ALPS Advisors, Inc. ("AAI") serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement with the Fund. As compensation for its services to the Fund, AAI receives an annual investment advisory fee of 1.05% based on the Fund's average Total Managed Assets (as defined below). Pursuant to an Investment Sub-Advisory Agreement, AAI has retained Principal Real Estate Investors, LLC ("PrinRei") as the Fund's sub-advisor and will pay PrinRei an annual fee of 0.55% based on the Fund's Total Managed Assets.

ALPS Fund Services, Inc. ("AFS"), an affiliate of AAI, serves as administrator to the Fund. Under an Administration, Bookkeeping and Pricing Services Agreement, AFS is responsible for calculating the net asset values, providing additional fund accounting and tax services, and providing fund administration and compliance-related services to the Fund. AFS is entitled to receive a monthly fee, accrued daily based on the Fund's average Total Managed Assets, as defined below, plus reimbursement for certain out-of-pocket expenses.

DST Systems, Inc. ("DST"), the parent company of AAI and AFS, serves as the Transfer Agent to the Fund. Under the Transfer Agency Agreement, DST is responsible for maintaining all shareholder records of the Fund. DST is entitled to receive an annual minimum fee of \$22,500 plus out-of-pocket expenses.

The Fund pays no salaries or compensation to any of its interested Trustee or Officers. The three independent Trustees of the Fund receive an annual retainer of \$17,000 and an additional \$2,000 for attending each meeting of the Board. The independent Trustees are also reimbursed for all reasonable out-of-pocket expenses relating to attendance at meetings of the Board.

A Trustee and certain Officers of the Fund are also officers of AAI.

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

Total Managed Assets: For these purposes, the term Total Managed Assets is defined as the value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than aggregate liabilities representing Limited Leverage, as defined below), calculated as of 4:00 p.m. Eastern time on such day or as of such other time or times as the Board may determine in accordance with the provisions of applicable law and of the declaration and bylaws of the Fund and with resolutions of the Board as from time to time in force. Under normal market conditions, the Fund's policy is to utilize leverage through Borrowings (as defined below) and through the issuance of preferred shares (if any) in an amount that represents approximately 33 1/3% of the Fund's total assets, including proceeds from such Borrowings and issuances (collectively, "Limited Leverage"). "Borrowings" are defined to include: amounts received by the Fund pursuant to loans from banks or other financial institutions; amounts borrowed from banks or other parties through reverse repurchase agreements; amounts received by the Fund from the Fund's issuance of any senior notes or similar debt securities. Other than with respect to reverse repurchase agreements, Borrowings do not include trading practices or instruments that, according to the SEC or its staff, may cause senior securities concerns, and are intended to include transactions that are subject to the asset coverage requirements in Section 18 of the 1940 Act for the issuance of senior securities evidencing indebtedness (e.g., bank borrowings and the Fund's issuance of any senior notes or similar securities) and senior securities in the form of stock (e.g., the Fund's issuance of preferred shares).

5. DISTRIBUTIONS

The Fund intends to make monthly distributions to Common Shareholders out of the net investment income of the Fund, after payment of interest on any outstanding borrowings or dividends on any outstanding preferred shares. Distributions to shareholders are recorded by the Fund on ex-dividend date. The Fund may also retain cash reserves if deemed appropriate by PrinREI to meet the terms of any leverage or derivatives transactions. Such distributions shall be administered by DST. While a portion of the Fund's distributed income may qualify as qualified dividend income, all or a portion of the Fund's distributed income may also be fully taxable. Any such income distributions, as well as any distributions by the Fund of net realized short-term capital gains, will be taxed as ordinary income. A portion of the distributions the Fund receives from its investments may be treated as return of capital. While the Fund anticipates distributing some or all of such return of capital, it is not required to do so in order to maintain its status as a regulated investment company under Subchapter M of the Code.

Subsequent to October 31, 2015, the Fund paid the following distributions:

Ex-Date	Record Date	Payable Date	Rate (per share)
November 12, 2015	November 16, 2015	November 25, 2015	\$0.145
December 17, 2015	December 21, 2015	December 30, 2015	\$0.145

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

6. CAPITAL TRANSACTIONS

The Fund is a statutory trust established under the laws of the state of Delaware by an Agreement and Declaration of Trust dated August 31, 2012, as amended and restated through the date hereof. The Declaration of Trust provides that the Trustees of the Fund may authorize separate classes of shares of beneficial interest. The Trustees have authorized an unlimited number of Common Shares. The Fund intends to hold annual meetings of Common Shareholders in compliance with the requirements of the NYSE.

Additional shares of the Fund may be issued under certain circumstances pursuant to the Fund's Dividend Reinvestment Plan, as defined within the Fund's organizational documents. Additional information concerning the Dividend Reinvestment Plan is included within this report.

7. PORTFOLIO INFORMATION

For the year ended October 31, 2015, the cost of purchases and proceeds from sales of securities, excluding short-term securities, were as follows:

Purchases	Sales
\$ 43,834,601	\$ 47,180,725

8. TAXES

Classification of Distributions: Net investment income/(loss) and net realized gain/(loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain was recorded by the Fund.

The tax character of distributions paid during the years ended October 31, 2015 and October 31, 2014, were as follows:

Principal Real Estate Income Fund

	For the Year Ended October 31, 2015	For the Year Ended October 31, 2014
Ordinary Income	\$11,469,338	\$11,478,934
Long-Term Capital Gain	432,817	9,233
Total	\$11,902,155	\$11,488,167

Components of Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under accounting principles generally

accepted in the United States. Accordingly, for the year ended October 31, 2015, certain differences were reclassified.

28 www.principalcef.com

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

The reclassifications were as follows:

	Paid-in capital	Undistributed net investment income	Accumulated net realized loss on investments and foreign currency transactions
Principal Real Estate Income Fund	\$(96,432)	\$ 1,990,418	\$(1,893,986)

These differences are primarily attributed to the different tax treatment of foreign currency, passive foreign investment companies (PFICs), non-deductible expenses and distribution reclassifications.

As of October 31, 2015, the Fund had available for tax purposes unused capital loss carryforwards as follows:

	Short-Term
Principal Real Estate Income Fund	\$ 321,399

Tax Basis of Distributable Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under GAAP.

As of October 31, 2015, the components of distributable earnings on a tax basis were as follows:

Principal Real Estate Income Fund	
Undistributed Ordinary Income	\$ 1,775,665
Accumulated Capital Loss	(321,399)
Unrealized Appreciation	4,353,002
Total	\$ 5,807,268

Tax Basis of Investments: Net unrealized appreciation/(depreciation) of investments based on federal tax cost as of October 31, 2015, were as follows:

Principal Real Estate Income Fund	
Cost of investments for income tax purposes	\$ 192,239,828
Gross appreciation on investments (excess of value over tax cost)	\$ 10,365,610
Gross depreciation on investments (excess of tax cost over value)	(6,009,029)
Net depreciation of foreign currency	(3,579)
Net unrealized appreciation on investments	\$ 4,353,002

The differences between book-basis and tax-basis are primarily due to investments in Passive Foreign Investment Companies.

Federal Income Tax Status: For federal income tax purposes, the Fund currently qualifies, and intends to remain qualified, as a regulated investment company under the provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, by distributing substantially all of its investment company taxable net income and realized gain, not offset by capital loss

Annual Report | October 31, 2015 29

Principal Real Estate Income Fund Notes to Financial Statements

October 31, 2015

carryforwards, if any, to its shareholders. No provision for federal income taxes has been made. During the year, the Fund paid an excise tax of \$96,432 as required under Internal Revenue Code §4982, primarily due to the timing of income inclusions from Passive Foreign Investment Companies ("PFICs") held by the Fund. As of October 31, 2015, \$75,573 of the \$96,432 excise tax paid was included on the Statement of Operations.

As of and during the year ended October 31, 2015, the Fund did not have a liability for any unrecognized tax benefits. The Fund files U.S. federal, state, and local tax returns as required. The Fund's tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Principal Real Estate Income Fund Dividend Reinvestment Plan

October 31, 2015 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting DST Systems, Inc. (the "Plan Administrator"), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Automatic Dividend Reinvestment Plan (the "Plan"), in additional Common Shares. Common Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Such notice will be effective with respect to a particular dividend or other distribution (together, a "Dividend"). Some brokers may automatically elect to receive cash on behalf of Common Shareholders and may re-invest that cash in additional Common Shares.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding Common Shares on the open market ("Open-Market Purchases") on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the NAV per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per Common Share on the payment date; provided that, if the NAV is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the NAV per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an "ex-dividend" basis or 30 days after the payment date for such Dividend, whichever is sooner (the "Last Purchase Date"), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. It is contemplated that the Fund will pay monthly income Dividends. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the NAV per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the NAV of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making

Principal Real Estate Income Fund Dividend Reinvestment Plan

October 31, 2015 (Unaudited)

Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the NAV per Common Share at the close of business on the Last Purchase Date provided that, if the NAV is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator.

Principal Real Estate Income Fund Additional Information

October 31, 2015 (Unaudited)

PORTFOLIO HOLDINGS

The Fund files a complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Fund's Form N-Q are available without a charge, upon request, by contacting the Fund at 1-855-838-9485 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

PROXY VOTING

A description of the Fund's proxy voting policies and procedures is available (1) without charge, upon request, by calling 1-855-838-9485, (2) on the Fund's website located at <http://www.principalcef.com>, or (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Fund voted proxies relating to portfolio securities during the twelve-month period ended June 30th is available on the SEC's website at <http://www.sec.gov>.

SECTION 19(A) NOTICES

The following table sets forth the estimated amount of the sources of distribution for purposes of Section 19 of the Investment Company Act of 1940, as amended, and the related rules adopted there under. A Fund estimates the following percentages, of the total distribution amount per share, attributable to (i) current and prior fiscal year net investment income, (ii) net realized short-term capital gain, (iii) net realized long-term capital gain and (iv) return of capital or other capital source as a percentage of the total distribution amount. These percentages are disclosed for the fiscal year-to-date cumulative distribution amount per share for the Fund. The amounts and sources of distributions reported in these 19(a) notices are only estimates and not for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of the calendar year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Per Share Cumulative Distributions for the Year Ended October 31, 2015				Percentage of the Total Cumulative Distributions for the Year Ended October 31, 2015			
Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Share	Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Share

Principal Real Estate Income Fund Additional Information

October 31, 2015 (Unaudited)

UNAUDITED TAX INFORMATION

Pursuant to Section 852(b)(3) of the Internal Revenue Code, Principal Real Estate Income Fund designates \$432,817 as a long-term capital gain distribution.

The Fund designated 3.35% of the income dividends distributed between January 1, 2014 and December 31, 2014, as qualified dividend income (QDI) as defined in Section 1(h)(11) of the Internal Revenue Code.

Pursuant to Section 854(b)(2) of the Internal Revenue Code, the Fund designated 0.38% of the ordinary income dividends distributed between January 1, 2014 and December 31, 2014, as qualifying for the corporate dividends received deduction.

In early 2015, if applicable, shareholders of record should have received this information for the distributions paid to them by the Fund during the calendar year 2014 via Form 1099. The Fund will notify shareholders in early 2016 of amounts paid to them by the Fund, if any, during the calendar year 2015.

DATA PRIVACY POLICIES AND PROCEDURES

Policy Statement: The Principle Real Estate Income Fund (the "Fund") has in effect the following policy with respect to nonpublic personal information about its customers:

Only such information received from customers, through application forms or otherwise, and information about customers' Fund transactions will be collected.

None of such information about customers (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account).

Policies and procedures (including physical, electronic and procedural safeguards) are in place and designed to protect the confidentiality and proper disposal of such information.

The Fund does not currently obtain consumer information. If the Fund were to obtain consumer information at any time in the future, it would employ appropriate procedural safeguards that comply with federal standards to protect against unauthorized access to and properly dispose of consumer information.

CUSTODIAN AND TRANSFER AGENT

State Street Bank and Trust Company, located at State Street Financial Center, One Lincoln Street, Boston, MA 02111, serves as the Fund's custodian and will maintain custody of the securities and cash of the Fund.

DST Systems, Inc., located at 333 West 11th Street, 5th Floor, Kansas City, Missouri 64105, serves as the Fund's transfer agent and registrar.

LEGAL MATTERS

Dechert LLP, New York, New York, serves as legal counsel to the Trust.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen Fund Audit Services, Ltd. is the independent registered public accounting firm for the Fund.

40 www.principalcef.com

Item 2. Code of Ethics.

The Registrant, as of the end of the period covered by the report, has adopted a Code of Ethics that applies to the (a) Registrant's Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer or Controller or any persons performing similar functions on behalf of the Registrant.

(b) Not Applicable.

(c) During the period covered, by this report, no amendments were made to the provisions of the Code of Ethics adopted in 2 (a) above.

(d) During the period covered by this report, no implicit or explicit waivers to the provision of the Code of Ethics adopted in 2 (a) above were granted.

(e) Not Applicable.

(f) The Registrant's Code of Ethics is attached as Exhibit 12.A.1 hereto.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that the Registrant has as least one audit committee financial expert serving on its Audit Committee. The Board of Trustees has designated Ernest Scalberg as the Registrant's "audit committee financial expert." Mr. Scalberg is "independent" as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accountant Fees and Services.

Audit Fees: The aggregate fees billed for professional services rendered by Cohen Fund Audit Services, Ltd ("Cohen") for each of the last two fiscal years ended October 31, 2015 and October 31, 2014 for the audit of the (a) Registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements were \$28,000 in 2015 and \$28,000 in 2014.

Audit-Related Fees: The aggregate fees billed in each of the last two fiscal years for assurance and related services (b) by Cohen that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item were \$0 in 2015 and \$0 in 2014.

Tax Fees: The aggregate fees billed in each of the last two fiscal years for professional services rendered by Cohen (c) for tax compliance, tax advice, and tax planning were \$3,000 in 2015 and \$3,000 in 2014. These fees are comprised of fees relating income tax return preparation fees, excise tax return preparation fees and review of dividend distribution calculation fees.

Edgar Filing: Principal Real Estate Income Fund - Form N-CSR

(d) All Other Fees: The aggregate fees billed in each of the last two fiscal years for products and services provided by Cohen, other than the services reported in paragraphs (a) through (c) of this Item were \$0 in 2015 and \$0 in 2014.

(e)(1) Audit Committee Pre-Approval Policies and Procedures: All services to be performed by the Registrant's principal auditors must be pre-approved by the Registrant's Audit Committee.

(e)(2) No services described in paragraphs (b) through (d) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the Registrant's accountant for services rendered to the Registrant, and rendered to the Registrant's investment adviser, and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant for each of the last two fiscal years of the Registrant were \$0 in 2015 and \$0 for 2014.

(h) Not applicable.

Item 5. Audit Committee of Listed Registrants.

The Registrant has a separately designated standing Audit Committee established in accordance with Section 3 (a)(58)(A) of the Exchange Act and is comprised of the following members:

Rick A. Pedersen
Jerry Rutledge
Ernest Scalberg, Chairman (designated Financial Expert)

Item 6. Schedule of Investments.

(a) Schedule of Investments is included as part of the Report to Shareholders filed under Item 1 of this form.

(b) Not applicable to the Registrant.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Attached, as Exhibit Item 7, is a copy of the policies and procedures of the Registrant.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) Portfolio Managers

Edgar Filing: Principal Real Estate Income Fund - Form N-CSR

As of: October 31, 2015

Portfolio Managers Name	Title	Length of Service	Business Experience: 5 Years
Marc Peterson, CFA	Portfolio Manager	Since Inception	Managing Director, Portfolio Management – Principal Real Estate Investors, LLC ("PrinREI")
Kelly D. Rush, CFA	Portfolio Manager	Since Inception	Head of Global Real Estate Securities – PrinREI

Marc Peterson, CFA

Marc is a managing director, portfolio management, for PrinREI, and, together with Kelly Rush, he is primarily responsible for the day-to-day management of the Fund's portfolio. Marc is responsible for the CMBS portion of the Fund's portfolio. Marc joined PrinREI's parent, The Principal Financial Group, in 1992 as an accountant, and joined PrinREI in 1995 to invest in CMBS. He received an MBA from Drake University and a bachelor's degree in accounting from Luther College. Marc has earned the right to use the Chartered Financial Analyst designation and is a member of the CFA Society of Iowa. He is also a member of the Commercial Real Estate Finance Council.

Kelly D. Rush, CFA

Kelly is the head of global real estate securities of PrinREI, and, together with Marc Peterson, he is primarily responsible for the day-to-day management of the Fund's portfolio. Kelly is responsible for the real estate-related securities portion of the Fund's portfolio. Kelly has been with the real estate investment area of PrinREI and/or its affiliate, The Principal Financial Group, since 1987, and began managing real estate stock portfolios in 1997. Kelly received an MBA in business administration and a bachelor's degree in finance from the University of Iowa. He has earned the right to use the Chartered Financial Analyst designation and is a member of the Iowa Society of Financial Analysts and the CFA Institute.

(a)(2) As of October 31, 2015, the Portfolio Managers listed above are also responsible for the day-to-day management of the following:

Portfolio Managers Name	Registered Investment Companies ⁽¹⁾	Other Pooled Investment Vehicles ⁽²⁾	Other Accounts ⁽³⁾
Marc Peterson, CFA	3 Accounts \$ <u>2,104.2</u> million Total Assets	2 Accounts \$ <u>57.3</u> million Total Assets	13 Accounts \$ <u>5,385.6</u> million Total Assets
Kelly D. Rush, CFA	7 Accounts \$ <u>6,310.2</u> million Total Assets	6 Accounts \$ <u>893.4</u> million Total Assets	44 Accounts \$ <u>3,426.5</u> million Total Assets ⁽⁴⁾

Edgar Filing: Principal Real Estate Income Fund - Form N-CSR

Registered Investment Companies include all mutual funds and closed-end funds. For Registered Investment

(1) Companies, assets represent net assets of all open-end investment companies and gross assets of all closed-end investment companies.

(2) Other Pooled Investment Vehicles include, but are not limited to, securities of issuers exempt from registration under Section 3(c) of the 1940 Act, such as hedge funds.

(3) Other Accounts include, but are not limited to, individual managed accounts, separate accounts, institutional accounts, pension funds and collateralized bond obligations.

(4) This includes one account with a value of \$72.7 million which is subject to a fee based on performance, but this account has since been terminated.

(a)(3) Compensation of Portfolio Managers and Material Conflicts of Interest

PrinREI offers investment professionals a competitive compensation structure that is evaluated annually relative to other real estate asset management firms. The objectives are to align individual and team contributions with client performance objectives in a manner that is consistent with industry standards and business results.

Compensation for real estate investment professionals at all levels comprises base salary and variable incentive components. As team members advance in their careers, the variable component increases in its proportion, commensurate with responsibility levels. The incentive component is well aligned with client goals and objectives, with award levels reflecting investment performance relative to appropriate client benchmarks. Relative performance metrics are measured over rolling one-year, three-year and five-year periods. Investment performance is a primary determinant of total variable compensation. The remaining portion of incentive compensation is based on a combination of team and firm results and individual contributions.

For senior team members (approximately 10% of real estate employees), a portion of variable earnings is structured as deferred compensation, subject to three-year vesting. Deferred compensation takes the form of a combination of Principal Financial Group restricted stock units and deferred cash. It should be noted that Principal Financial Group's retirement plans and deferred compensation plans generally utilize its non-registered group separate accounts or commingled vehicles rather than the traditional mutual funds. However, in each instance these vehicles are managed in lockstep alignment with the mutual funds (i.e. "clones").

The benefits of this structure are threefold. First, the emphasis on investment performance provides strong alignment of interests with client objectives. Second, the team results and individual contributions components are intended to balance rewards with the achievement of longer term business strategies including asset retention and growth, firm wide collaboration and team development. Third, the overall measurement framework and the deferred component for senior staff are well aligned with our desired focus on talent retention.

(a)(4) Dollar Range of Securities Owned as of October 31, 2015.

Edgar Filing: Principal Real Estate Income Fund - Form N-CSR

Portfolio Managers	Dollar Range of the Registrant's Securities Owned by the Portfolio Managers
Marc Peterson, CFA	\$1 to \$10,000
Kelly D. Rush, CFA	None

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes by which shareholders may recommend nominees to the Board of Trustees.

Item 11. Controls and Procedures.

(a) The Registrant's Principal Executive Officer and Principal Financial Officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) The Code of Ethics that applies to the Registrant's Principal Executive Officer and Principal Financial Officer is attached hereto as exhibit EX 99.12.A.1.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as exhibit EX-99.CERT.

(a)(3) Not applicable.

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as exhibit EX-99.906CERT.

(c) The Proxy Voting Policies and Procedures are attached hereto as exhibit EX-99.ITEM7.
