The following information contains forward-looking statements, which involve risks and uncertainties. Forward-looking statements are characterized by words such as "plan," "expect," "believe," "intend," "would", "will" and similar words. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under, "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Certain Risk Factors Affecting Azzurra Holding Corporation," and elsewhere in this Annual Report on Form 10-K.

PART 1

ITEM 1. DESCRIPTION OF BUSINESS

Company Overview

Azzurra Holding Corporation, formerly Wave Wireless Corporation ("Azzurra", the "Company", "we", "us" "our") was incorporated in 1991 as a Delaware corporation. Our executive offices are located at 600 West Broadway, Suite 700, San Diego, California 92101, and our telephone number is (619) 795-1134.

The Company currently has no ongoing operations. The Board has determined to maintain the Company as a public shell corporation, which will seek suitable business combination opportunities. The Board believes that a business combination with an operating company has the potential to create greater value for the Company's stockholders than a liquidation or similar distribution.

During the year ended December 31, 2013, the Company was a non-operating shell company and its business operations were limited to sustaining the public shell.

Employees

As of December 31, 2013, we did not have any full- or part-time employees. Our President and Chief Executive Officer, who also serves as our Chief Financial Officer, works part-time as a consultant to the Company.

ITEM 1A. RISK FACTORS

An investment in our common stock is subject to many risks. You should carefully consider the risks described below, together with all of the other information included in this Annual Report on Form 10-K, including the consolidated financial statements and the related notes, before you decide whether to invest in our common stock. Our business, operating results and financial condition could be harmed by any of the following risks. The trading price of our common stock could decline due to any of these risks, and you could lose all or part of your investment.

THE COMPANY LACKS OPERATIONS AND HAS LOSSES WHICH ARE EXPECTED TO CONTINUE INTO THE FUTURE.

As a result of the sale of substantially all of the Company's operating assets, the Company has no operations from which to derive revenue. The Company's operating history is not a useful measure upon which an evaluation of its future success or failure can be made. The Company's ability to achieve and maintain profitability and positive cash flow is dependent upon its ability to generate revenues, and the ability to raise the capital necessary to acquire an operating entity or engage in a merger or other transaction with an operating entity.

The Company is a "shell" corporation as that is defined under Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon current plans, the Company expects to incur operating losses in future

periods. The Company cannot guarantee that it will be successful in generating revenues in the future.

-1-

Table of Contents

IF THE COMPANY DOES NOT SUCCESSFULLY CONSUMMATE A BUSINESS COMBINATION, THE COMPANY WILL REQUIRE ADDITIONAL FUNDS.

For the Company to once again engage in operations, it will either need to raise additional funds through public or private debt or sale of equity, or it will need to acquire or enter into a merger transaction with an operating entity. The Company is currently seeking to engage in such a merger with an operating entity, but there is no guarantee that this merger will reach a successful completion. If the merger fails and the Company seeks additional financing, this financing may not be available when needed. Even if this financing is available, it may be on terms that the Company deems unacceptable or materially adverse to its interests with respect to dilution of book value, dividend preference, liquidation preference, or other terms.

THE COMPANY IS NOT AN OPERATING COMPANY AND DOES NOT HAVE ANY SIGNIFICANT CAPITAL.

Because the Company does not have significant capital, it must limit its operations and there is little chance that operations will begin at any time soon, as a result of such limited capital, unless the Company obtains additional funding to acquire an operating entity or enters into a merger transaction with an operating entity.

BECAUSE OWNERSHIP OF MORE THAN 50% OF THE COMPANY'S OUTSTANDING COMMON SHARES ARE HELD BY A FEW SHAREHOLDERS, THESE SHAREHOLDERS WILL BE ABLE TO DECIDE WHO WILL BE OUR DIRECTORS, AND YOU MAY NOT BE ABLE TO ELECT ANY DIRECTORS.

Over 50% of the Company's outstanding common stock is held by a few shareholders, who therefore control the Company. As a result, unless the Company issues more shares and/or these shareholders sell some of their shares, they will be able to elect all of the Company's directors and control its operations. If the Company does enter into an acquisition or merger transaction, the Company may issue a significant number of shares in connection with that transaction. This could result in a reduction in value to the common stock you own because of the ineffective voting power. The concentration of holdings could adversely affect the value of your shares and prevent the Company from undergoing a change of control in the future.

THE COMPANY HAS NOT PAID DIVIDENDS AND NONE ARE ANTICIPATED.

To date, the Company has paid no cash dividends on its common stock. For the foreseeable future, the Company expects that earnings generated from the Company's operations, if any, will be retained for use in its business and not to pay dividends.

"PENNY STOCK" RULES MAY MAKE BUYING OR SELLING THE COMPANY'S COMMON STOCK DIFFICULT.

Trading in the Company's securities is subject to the "Penny Stock" Rules.

The Securities and Exchange Commission ("SEC") has adopted regulations that generally define a penny stock to be any equity security that has a market price of less than \$5.00 per share, subject to certain exceptions. These rules require that any broker-dealer who recommends our securities to persons other than prior customers and accredited investors, must, prior to the sale, make a special written suitability determination for the purchaser and receive the purchaser's written agreement to execute the transaction. Unless an exception is available, the regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the risks associated with trading in the penny stock market. In addition, broker-dealers must disclose commissions payable to both the broker-dealer and the registered representative and current quotations for the securities they offer.

The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. Broker-dealers who sell penny stocks to certain types of investors are required to comply with the Commission's regulations concerning the transfer of penny stock. These regulations require broker-dealers to:

Make a suitability determination prior to selling a penny stock to the purchaser;

Receive the purchaser's written consent to the transaction; and

Provide certain written disclosures to the purchaser.

These requirements may restrict the ability of broker-dealers to sell the Company's common stock and may affect your ability to resell our common stock.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis of financial condition and results of operations contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Certain Factors Affecting the Company" beginning on Page 1 of this Annual Report on Form 10-K, and other documents filed by us with the Securities and Exchange Commission.

See also the Notes to the Consolidated Financial Statements in the accompanying consolidated financial statements.

RESULTS OF OPERATIONS

Sales

During the years ended December 31, 2013 and 2012, the Company had no sales, and no sales are anticipated to occur until such time as the Company merges with or acquires an operating company, or otherwise commences operations.

General and Administrative

During the years ended December 31, 2013 and 2012, general and administrative expenses were approximately \$22,000 and \$18,000, respectively. General and administrative expenses during the periods reported consist principally of auditing, and related costs associated with the preparation and review of the Company's consolidated financial statements, filing fees and expenses (including XBRL), and reimbursement of costs and expenses relating to franchise and related taxes, among other costs and expenses.

Other Expense

During each of the years ended December 31, 2013 and 2012, other expenses were \$4,000. During both 2013 and 2012, other expense consisted of interest expense on outstanding notes payable.

Net Loss

During the year ended December 31, 2013, the Company had net losses of \$26,000 as compared to net losses of \$22,000 during the year ended December 31, 2012. The increase in net loss during the 2013 period is primarily related to a increase in general and administrative expenses discussed above.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2013, the Company had cash of approximately \$10,000, compared to approximately \$2,000 in cash at December 31, 2012. During the twelve month period ended December 31, 2013, overall cash increased by approximately \$8,000, primarily due to the receipt of notes payable totaling \$30,000 during 2013, partially offset by cash losses in the period.

The Company currently has no operations and intends to locate and combine with an existing, privately-held company that is profitable or which, in management's view, has growth potential, irrespective of the industry in which it is engaged. However, the Company does not intend to combine with a private company, which may be deemed to be an investment company subject to the Investment Company Act of 1940. A combination may be structured as a merger, consolidation, exchange of the Company's common stock for stock or assets or any other form which will result in the combined enterprises becoming a publicly-held corporation.

Pending negotiation and consummation of a combination, the Company anticipates that it will have, aside from carrying on its search for a combination partner, no business activities, and, thus, will have no source of revenue. To continue as a going concern, pending consummation of a transaction, the Company intends to either seek additional equity or debt financing. No assurances can be given that such equity or debt financing will be available to the Company nor can there be any assurance that a combination transaction will be consummated. Should the Company need to incur any significant liabilities prior to a combination transaction, including those associated with the current minimal level of general and administrative expenses, it may not be able to satisfy those liabilities in the event it was unable to obtain additional equity or debt financing.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America. Prior to the filing of this report, the Company's management assessed the effectiveness of our internal control over financial reporting. Based upon this assessment, management concluded that the Company's controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports filed by it under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company, as appropriate to allow timely decisions regarding required disclosure.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

During the years ended December 31, 2013 and 2012, we contracted with SEC Connect, whose principal is the Company's Chief Executive Officer, to provide the Company with EDGAR filing services. For the years ended December 31, 2013 and 2012, we paid SEC Connect \$4,500 and \$4,000 in filing fees, respectively, which amounts included fees paid to comply with the requirement that the Company file its consolidated financial statements with the Securities and Exchange Commission in XBRL. We believe the terms of this agreement are no less favorable to us than we could have obtained from an unaffiliated party.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

AUDIT FEES

Cherry Bekaert LLP ("Cherry Bekaert") has been retained by the Board of Directors as the independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ended December 31, 2013. The aggregate fees Cherry Bekaert billed us in 2013 and 2012 for audit services, including for review of our interim financial statements was \$9,500 and \$11,750, respectively.

TAX FEES

The Company engaged Cherry Bekaert for preparation of the Company's 2012 Federal and state tax returns, prepared in 2013, and the Company's 2011 Federal and state tax returns prepared in 2012. The aggregate fees Cherry Bekaert billed us in 2013 and 2012 for tax services was \$2,000. Cherry Bekaert did not perform any other non-audit related services in 2013 or 2012.

AUDIT APPROVAL POLICIES

The Board of Directors has adopted procedures and policies pursuant to which services to be performed by the independent auditor are approved. Proposed services are pre-approved by agreeing to a framework with descriptions of allowable services with the Board of Directors ("general pre-approval"). Unless a type of service has received general pre-approval, it requires specific approval by the Board of Directors if it is to be provided by the independent registered public accounting firm.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors
Azzurra Holding Corporation

We have audited the accompanying consolidated balance sheets of Azzurra Holding Corporation and subsidiary (the “Company”) as of December 31, 2013 and 2012, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years then ended. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Azzurra Holding Corporation and subsidiary as of December 31, 2013 and 2012, and the consolidated results of their operations and their cash flows for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

As more fully discussed in Note 3, the Company currently has no operations and accordingly has no source of revenue. As a result, the Company is exploring opportunities to effect an acquisition of the Company by merger, exchange or issuance of securities. The discontinuance of all the Company's remaining operations in 2007 raises substantial doubt about the Company’s ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

AZZURRA HOLDING CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. BACKGROUND AND ORGANIZATION

Azzurra Holding Corporation, formerly known as Wave Wireless Corporation (“Wave”), is a Delaware corporation. Wave became Azzurra Holding Corporation (the “Company”) on June 28, 2007.

The Company currently has no ongoing operations. The Board of Directors has determined to maintain the Company as a public shell corporation, which will seek suitable business combination opportunities. The Board believes that a business combination with an operating company has the potential to create greater value for the Company’s stockholders than a liquidation or similar distribution.

2. BASIS OF PRESENTATION SIGNIFICANT ACCOUNTING POLICIES

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Since July 2007, the Company has been a non-operating shell company and its business operations were limited to sustaining the public shell.

Accounting Estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant inter-company accounts and transactions have been eliminated.

Income Tax

Deferred income tax assets and liabilities are computed annually for differences between the financial statement and federal income tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Management has evaluated all the tax positions that could have a significant effect on the consolidated financial statements in accordance with the standard and determined that the Company had no uncertain income tax positions which would require adjustment or disclosure as of December 31, 2013 and 2012. The Company's federal income tax returns after 2009 are subject to examination by the Internal Revenue Service, generally for a period of three years after the income tax returns are filed.

Net Loss per Share

Basic and diluted loss per common share are computed by dividing the net loss by the weighted average common shares outstanding. No options or warrants were outstanding for any period.

Recent Accounting Pronouncements

There have been no recent accounting pronouncements which would have any impact on the Company.

3. GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern.

The Company currently has no operations and intends to locate and combine with an existing, privately-held company that is profitable or which, in management's view, has growth potential, irrespective of the industry in which it is engaged. However, the Company does not intend to combine with a private company, which may be deemed to be an investment company subject to the Investment Company Act of 1940. A combination may be structured as a merger, consolidation, exchange of the Company's common stock for stock or assets or any other from which will result in the combined enterprise's becoming a publicly-held corporation.

Pending negotiation and consummation of a combination, the Company anticipates that it will have, aside from carrying on its search for a combination partner, no business activities, and, thus, will have no source of revenue. To continue as a going concern, pending consummation of a transaction, the Company intends to either seek additional equity or debt financing. No assurances can be given that such equity or debt financing will be available to the Company nor can there be any assurance that a combination transaction will be consummated. Should the Company need to incur any significant liabilities prior to a combination transaction, including those associated with the current minimal level of general and administrative expenses, it may not be able to satisfy those liabilities in the event it was unable to obtain additional equity or debt financing.

4. NOTES PAYABLE

On March 25 and March 31, 2011, the Company issued promissory notes in the principal amount of \$12,500 and \$15,000, and on March 16 and March 19, 2012, and March 4, March 20 and December 27, 2013, the Company issued promissory notes in the principal amount of \$10,000 each (collectively, the "Notes"). Each of the Notes are payable on demand, and accrue interest at the rate of 7% annually. As of December 31, 2013, the total principal and accrued interest due under the terms of the Notes was \$86,500.

5. STOCKHOLDERS' EQUITY

At December 31, 2013, the authorized shares of Azzurra Holding Corporation consist of 250,000 shares of common stock, \$0.01 par value, and 187,000 shares were issued and outstanding.

Deferred tax assets consist of the following (in thousands):

	December 31,

Net operating loss carry-forwards	\$ 135,447	\$ 135,633
Credit carry-forwards	1,000	2,095

Total deferred tax assets	\$ 137,032	\$ 137,812
Valuation allowance	(137,032)	(137,812)
Net deferred tax asset	\$ -	\$ -

The Federal net operating loss carryforward for tax purposes and state net operating loss carryforward for tax purposes is approximately \$364 million and \$138 million, respectively, at December 31, 2013, which expire in various amount

annually through 2033. The Company's ability to utilize these carryforwards may be severely limited or lost pursuant to Section 382 of the Internal Revenue Code as a result of the change in control of the Company on June 14, 2007. Other limitations may apply as well. The Company has made no determination as to what these limitations may be.

Deferred income taxes reflect the tax consequences on future years of differences between the tax bases of assets and liabilities and their bases for financial reporting purposes. In addition, future tax benefits, such as net operating loss carry-forwards, are recognized to the extent that realization of such benefits is more likely than not. The Company has assessed its ability to realize future tax benefits, and concluded that as a result of the history of losses, it was more likely than not, that such benefits would not be realized. Accordingly, the Company has recorded a full valuation allowance against future tax benefits.
